Apollo Document No. RA-048-001-1A

September 1967

PREFACE

This Document is a listing of available and planned calibration procedures for standards, and inspection, measuring, and test equipment, as reported by each of the participating MSF Center Standards and Calibration Laboratories and their satellite laboratories. Present participants include the laboratories at:

Manned Spacecraft Center	(MSC)
White Sands Test Facility - MSC Satellite	(WSTF)
Marshall Space Flight Center	(MSFC)
Mississippi Test Facility - MSFC Satellite	(MTF)
Kennedy Space Center	(KSC)

This Index is presented in two sections: The first is an alphabetical listing by equipment manufacturer; the second is an alphanumerical listing by equipment model number.

The application of the Calibration Procedures Index is referenced in paragraph 3.7.1 of the Apollo Metrology Requirements Manual, NHB 5300.2 and specified in the Index and Format for Calibration Procedures, RA-006-011-1A.
