# NASA FAR SUPPLEMENT

# The NASA Supplement to the FEDERAL ACQUISITION REGULATION

The 1989 Edition

Version 89-14 March 31, 1994

# NOTICE

A properly assembled NFS version 89-14 will contain the currently valid pages from the following NASA FAR Supplement Directives:

| <u>NFSD</u> | Date Issued        |
|-------------|--------------------|
| 89-0        | June 30, 1989      |
| 89-1        | September 30, 1989 |
| 89-2        | December 31, 1989  |
| 89-3        | March 31, 1990     |
| 89-4        | June 30, 1990      |
| 89-5        | September 30, 1990 |
| 89-6        | December 31, 1990  |
| 89-7        | March 31, 1991     |
| 89-8        | June 30, 1991      |
| 89-9        | September 30, 1991 |
| 89-10       | December 31, 1991  |
| 89-11       | August 31, 1992    |
| 89-12       | November 30, 1992  |
| 89-13       | September 30, 1993 |
| 89-14       | March 31, 1994     |

This NASA FAR Supplement Directive (NFSD) has been prepared as carefully as humanly possible; however, errors happen. Please complete this form to notify us of mistakes such as misspelled words, omitted material, or errors in format. If more convenient, you may send us a copy of the erroneous page with corrections noted. Do not use this form to submit suggested changes to the Regulation (see 18-1.270 and 18-1.271(b)). Responses should be mailed to:

NASA, Code HP Washington, DC 20546

Requests from Government agencies for copies of the NFSD should be submitted in accordance with each agency's procedures. Private sector organizations may purchase the NFS on a subscription basis from the Superintendent of Documents, Government Printing Office, Washington, DC 20402. (NASA does not provide subscriptions directly to other agencies or to the public.)

#### STRUCTURE OF THE NASA FAR SUPPLEMENT

#### TO THE SUBPART LEVEL

#### SUBCHAPTER A--GENERAL

- PART 18-1 FEDERAL ACQUISITION REGULATIONS SYSTEM
- 18-1.1 Purpose, Authority, Issuance
- 18-1.2 Administration
- 18-1.3 Agency Acquisition Regulations
- 18-1.4 Deviations from the FAR
- 18-1.6 Contracting Authority and Responsibilities
- 18-1.7 Determinations and Findings

#### PART 18-2 DEFINITIONS OF WORDS AND TERMS

18-2.1 Definitions

# PART 18-3 IMPROPER BUSINESS PRACTICES AND PERSONAL CONFLICTS OF INTEREST

- 18-3.1 Safeguards
- 18-3.2 Contractor Gratuities to Government Personnel
- 18-3.3 Reports of Suspected Antitrust Violations
- 18-3.5 Other Improper Business Practices
- 18-3.6 Contracts with Government Employees or Organizations Owned or Controlled by Them
- 18-3.7 Voiding and Rescinding Contracts
- 18-3.8 Limitation on the Payment of Funds to Influence Federal Transactions
- 18-3.70 Contracts Between NASA and Its Former Employees

# PART 18-4 ADMINISTRATIVE MATTERS

- 18-4.1 Contract Execution
- 18-4.2 Contract Distribution
- 18-4.4 Safeguarding Classified Information Within Industry
- 18-4.6 Contract Reporting
- 18-4.8 Contract Files
- 18-4.70 Transfer of Contracting Office Responsibility
- 18-4.71 Uniform Acquisition Instrument Identification
- 18-4.72 Review and Approval of Contractual Instruments
- 18-4.73 Procurement Requests

#### NASA FAR SUPPLEMENT

# SUBCHAPTER B--COMPETITION AND ACQUISITION PLANNING

# PART 18-5 PUBLICIZING CONTRACT ACTIONS

- 18-5.1 Dissemination of Information
- 18-5.2 Synopses of Proposed Contracts
- 18-5.3 Synopses of Contract Awards
- 18-5.4 Release of Information
- 18-5.5 Paid Advertisements

# PART 18-6 COMPETITION REQUIREMENTS

- 18-6.2 Full and Open Competition After Exclusion of Sources
- 18-6.3 Other Than Full and Open Competition
- 18-6.5 Competition Advocates

# PART 18-7 ACQUISITION PLANNING

- 18-7.1 Acquisition Plans
- 18-7.2 Planning for the Purchase of Supplies in Economic Quantities
- 18-7.3 Contractor Versus Government Performance
- 18-7.70 Solicitation Provision
- 18-7.71 Master Buy Plan Procedure
- 18-7.72 Acquisition Forecasting

# PART 18-8 REQUIRED SOURCES OF SUPPLIES AND SERVICES

- 18-8.1 Excess Personal Property
- 18-8.3 Acquisition of Utility Services
- 18-8.4 Ordering from Federal Supply Schedules
- 18-8.6 Acquisition from Federal Prison Industries, Inc.
- 18-8.7 Acquisition from the Blind and Other Severely Handicapped
- 18-8.8 Acquisition of Printing and Related Supplies
- 18-8.11 Leasing of Motor Vehicles

# PART 18-9 CONTRACTOR QUALIFICATIONS

- 18-9.1 Responsible Prospective Contractors
- 18-9.2 Qualification Requirements
- 18-9.4 Debarment, Suspension, and Ineligibility
- 18-9.5 Organizational Conflicts of Interest
- 18-9.6 Contractor Term Arrangements

# PART 18-10 SPECIFICATIONS, STANDARDS, AND OTHER PURCHASE DESCRIPTIONS

#### STRUCTURE

#### PART 18-12 CONTRACT DELIVERY OR PERFORMANCE

- 18-12.1 Delivery or Performance Schedules
- 18-12.2 Liquidated Damages
- 18-12.3 Priorities and Allocations
- 18-12.5 Suspension of Work, Stop-Work Orders, and Government Delay of Work

#### SUBCHAPTER C--CONTRACTING METHODS AND CONTRACT TYPES

#### PART 18-13 SMALL PURCHASE AND OTHER SIMPLIFIED PURCHASE PROCEDURES

- 18-13.1 General
- 18-13.2 Blanket Purchase Agreements
- 18-13.3 Fast Payment Procedure
- 18-13.4 Imprest Fund
- 18-13.5 Purchase Orders
- 18-13.70 Procurement Request Overlay Method
- 18-13.71 Credit Cards

#### PART 18-14 SEALED BIDDING

- 18-14.2 Solicitation of Bids
- 18-14.3 Submission of Bids
- 18-14.4 Opening of Bids and Award of Contract

#### PART 18-15 CONTRACTING BY NEGOTIATION

- 18-15.1 General Requirements for Negotiation
- 18-15.4 Solicitation and Receipt of Proposals and Quotations
- 18-15.5 Unsolicited Proposals
- 18-15.6 Source Selection
- 18-15.7 Make-or-Buy Programs
- 18-15.8 Price Negotiation
- 18-15.9 Profit
- 18-15.10 Preaward, Award, and Postaward Notifications, Protests, and Mistakes

# PART 18-16 TYPES OF CONTRACTS

- 18-16.2 Fixed-Price Contracts
- 18-16.3 Cost-Reimbursement Contracts
- 18-16.4 Incentive Contracts
- 18-16.6 Time-and-Materials, Labor-Hour, and Letter Contracts

# PART 18-1 FEDERAL ACQUISITION REGULATIONS SYSTEM

# 18-1.000 Scope of part.

This part sets forth basic policies and general information about the National Aeronautics and Space Administration (NASA) Federal Acquisition Regulation (FAR) Supplement including purpose, authority, applicability, issuance, arrangement, numbering, dissemination, implementation, supplementation, maintenance, administration, and deviation.

.

# SUBPART 18-1.1 PURPOSE, AUTHORITY, ISSUANCE

#### 18-1.101 Purpose.

The NASA FAR Supplement establishes agencywide uniform policies and procedures that implement and supplement the FAR.

# 18-1.102 Authority.

Under the following authorities, the Administrator has delegated to the Associate Administrator for Procurement authority to prepare, issue, and maintain the NASA FAR Supplement:

(a) The National Aeronautics and Space Act of 1958, as amended (Pub. L. 85-568; 42 U.S.C. 2451 et seq.).

- (b) 10 U.S.C. 137.
- (c) Other statutory authority.
- (d) FAR Subpart 1.3.

# 18-1.103 Applicability.

The NASA FAR Supplement applies to all acquisitions as defined in FAR Part 2 except those expressly excluded by the FAR or this Regulation.

18-1.104 Issuance.

18-1.104-1 Publication and code arrangement.

(a) The NASA FAR Supplement is published in--

(1) The daily issue of the Federal Register;

(2) Cumulated form in the Code of Federal Regulations (CFR); and

(3) A separate loose-leaf edition

adaptable for either interleaving with the FAR or filing separately.

(b) The NASA FAR Supplement is issued as Chapter 18 of Title 48, CFR, and it parallels the FAR in format, arrangement, and numbering system. Thus, a formal citation to this paragraph would appear as 48 CFR 1801.104-1(b).

#### 18-1.104-2 Arrangement of regulations.

(a) General. The NASA FAR Supplement conforms to the arrangement and numbering system prescribed by FAR 1.104. The numbering illustrations at FAR 1.104-2(b) apply to the NASA FAR Supplement; users are reminded that in the loose-leaf edition of the supplement, NASA's assigned CFR chapter number 18 appears to the left of the part number, separated by a hyphen (e.g., 18-15.402-1). However, in 48 CFR Chapter 18 the hyphen does not appear; therefore the first four digits preceding the point refer to the CFR part number.

# (b) Numbering.

(1) All NASA FAR Supplement coverage that supplements, as opposed to implementing, the FAR uses part, subpart, section, and subsection numbers 70 through 89 (see 18-1.303-70):

(i) Part 18-70 is the first part number NASA can use for adding coverage that supplements the FAR; i.e., there is no appropriate subject heading within the 53 parts of the FAR under which the coverage could be located.

(ii) Subpart 18-15.70 is the first subpart number NASA can use to supplement FAR Part 15.

(iii) Section 18-15.470 is the first section number NASA can use to supplement FAR Subpart 15.4.

(iv) Subsection 18-15.402-70 is the first subsection number NASA can use to supplement FAR section 15.402.

(v) Subsection 18-15.402-170 is the first subsection number NASA can

18-1.104-2

use to supplement FAR subsection 15.402-1.

(2) All NASA FAR Supplement coverage other than that identified with a 70 or higher number, as described in subparagraph (1) above, implements the FAR and bears the identical number and title of FAR the segment being implemented down to the subsection level; e.g., 18-15.402-1 implements FAR 15.402-1. Below the subsection level, NASA FAR Supplement alphanumerics do not correlate with FAR alphanumerics.

# (c) References and citations.

(1) Unless otherwise stated, cross references are to parts or subdivisions of this Regulation.

(2) This Regulation may be referred to as the National Aeronautics and Space Administration Federal Acquisition Regulation Supplement, the NASA FAR Supplement, or, for the purpose of brevity, the NFS.

(3) A NFS "version" is the basic NFS with all NFSD change pages filed up to and including the NFSD number that corresponds to the "version" number. For example, for the 1989 edition of the NFS, Version 89.3 consists of pages from NFSDs 89-0 (basic NFS), with change pages filed from NFSDs 89-1, 89-2, and 89-3.

(4) Citations are assumed to mean the "current NFS"; however, if reference to other than the current document is intended, use of the identifying version number appearing on the cover is advisable.

(d) **Provisions and clauses.** See FAR Subpart 52.1 and Subpart 18-52.1 of this Regulation for information regarding the numbering and dating of provisions and clauses.

# 18-1.104-3 Copies.

Copies of the NASA FAR Supplement in Federal Register, loose-leaf, and CFR form may be purchased from the Superintendent of Documents, U.S. Government Printing Office (GPO), Washington, DC 20402.

# 18-1.104-370 Dissemination of procurement regulations and related NASA publications.

The Office of Procurement, NASA (a) Headquarters (Code HP), distributes the Federal Acquisition Regulation (FAR), Federal Acquisition Regulation Circulars (FAC), NASA FAR Supplement (NFS). NASA FAR Supplement Directives (NFSD), Grant and Cooperative Agreement Handbook (G&CAHB), Procurement Notices (PN), Procurement Information Circulars (PIC), and Grants Notices (GN) directly to NASA Headquarters offices and to installation distribution points. Mrs. Cynthia O'Bryant (202-358-2105) is the contact point for Headquarters personnel and the installation distribution points. NASA center personnel may be placed on the distribution list or may obtain extra copies by contacting the designated distribution point for their installation. (Do not order these documents on a NASA Form 2 from the Goddard Space Flight Center.)

(b) Heads of field installations shall ensure that copies of all procurementrelated NASA publications are promptly distributed upon receipt.

(c) The information in paragraph (d) of this section should be used to respond to requests for copies of procurementrelated publications. Unnecessary referrals to other offices should be avoided.

(d) NASA does not provide subscriptions (or updating issuances) directly to other Government agencies, private concerns, or individuals. Subscriptions to the procurement-related NASA publications listed below may be obtained by writing to Superintendent of Documents, U.S. Government Printing Office (GPO), Washington, DC 20402, or by calling (202) 783-3238. Telephone orders may be charged to Visa, Mastercard, or a GPO Deposit Account. A subscription consists of the basic edition, plus all changes issued for an indefinite period. The prices and periods of subscriptions are set by the Superintendent of Documents.

#### NASA FAR Supplement (NFS)

GPO Subscription Stock No. 933-003-00000-1

NASA Grant and Cooperative Agreement Handbook (G&CAHB)

GPO Subscription Stock No. 933-001-00000-8

Federal Acquisition Regulation (FAR)

GPO Subscription Stock No. 922-006-00000-8

(Note: The FAR is not a NASA publication.)

Public libraries that possess the Code of Federal Regulations (CFR) are also a source of information, but this source is updated only once each year. See 48 CFR Chapter 1 for the FAR and 48 CFR Chapter 18 for the NFS.

(e) NHB 8030.6, <u>Guidelines for the</u> <u>Acquisition of Investigations</u> (a verbatim reprint of NFS 18-70.103, Appendix I), may be obtained by following installation procedures for ordering NASA Handbooks. It is available for purchase by the public from the NASA Information Center, Code JBD-4, Washington, DC 20546. Telephone (202) 358-0000.

(f) NHB 5103.6, Source Evaluation Board <u>Handbook</u> (a verbatim reprint of NFS 18-70.303, Appendix I), is available in single copies to Government employees from Code HS, Gloria Shively (202-358-2080). For bulk requests, contact Code JM-2, Juanita DeButts (202-358-2266). Copies are sold to contractors, the public, and other nongovernmental entities by the NASA Information Center, Code JBD-4, Washington, DC 20546. Telephone: (202) 358-0000.

(g) <u>How to Compete for NASA Contracts</u> and <u>Guidance for the Preparation and</u> <u>Submission of Unsolicited Proposals</u> are available from the Office of Small and Disadvantaged Business Utilization (Code K), NASA, Washington, DC 20546. Telephone: (202) 358-2088. They are also available from the Small and Disadvantaged Business Utilization representatives at each NASA installation.

(h) <u>Selling to NASA</u> is available from the same sources noted in paragraph (g) of this section. Copies may also be purchased from the GPO. The GPO Stock Number is 033-000-01065-6.

18-1.105 OMB approval under the Paperwork Reduction Act.

(a) NASA FAR Supplement requirements. The following OMB control numbers apply:

| NASA FAR<br>Supplement<br>Segment | OMB<br>Control<br>Number |
|-----------------------------------|--------------------------|
| 18-12                             | 2700-0056                |
| 18-19                             | 2700-0073                |
| 18-23                             | 2700-0051                |
| 18-27                             | 2700-0052                |
| 18-31                             | 2700-0077                |
| 18-32                             | 2700-0055                |
| 18-43                             | 2700-0054                |
| NF 533                            | 2700-0003                |
| NF 667                            | 2700-0004                |
| <u>NF 1018</u>                    | 2700-0017                |

(b) Solicitations and contracts. Various requirements in a solicitation or contract, generally in the statement of work, are not tied to specific paragraphs cleared in paragraph (a) of this section, yet require information collection or recordkeeping. OMB control number 2700-0042 applies to these requirements. This OMB control number shall be displayed in the upper right hand corner of the cover page of each solicitation/contract. Overprinting is authorized by 18-53.104.

١

# SUBPART 18-1.2 ADMINISTRATION

#### 18-1.270 Amendment of Regulation.

This Regulation is amended as needed to policies and procedures forth set intended to reduce contract preparation time, simplify and standardize contract forms, otherwise improve the contracting process, and reflect changes in statutes, Executive orders, the FAR, and other policies. Acquisition permandatory make encouraged to sonnel are informal suggestions, based on operating experience, for improving and simplifying this Regulation and the procedures set forth in it. Such comments, including correction of errors, should be directed to the Procurement Policy Division (Code HP) or to a Code HP analyst responsible lunder 18-1.370 for the applicable subject matter. Formal recommendations for changes are governed by 18-1.271.

#### 18-1.270-1 Revisions.

This Regulation is amended by issuing NFSDs containing loose-leaf replacement pages revising various segments of it (also see 18-1.270-2 below). Each replacement page bears the NFSD number and page number at the top. A vertical bar at the side of a line indicates that a change has been made within that line.

#### 18-1.270-2 Procurement Notices.

(a) This Regulation is amended by issuing Procurement Notices (PNs) when --

(1) It is necessary or advisable to promulgate as rapidly as possible selected material revising this Regulation, in a general or narrative manner, in advance of a specific pagereplacement-type revision to this Regulation; or

(2) The policy and/or procedure is expected to be effective for less than a year.

(b) Unless otherwise indicated, each PN item remains in effect until the effective date of the subsequent NFSD incorporating the item or until specifically cancelled.

(c) Material unsuitable for insertion in this Regulation shall be promulgated by means other than PNs.

# 18-1.270-3 Effective date.

(a) NFSD or PN statements to the effect that the material is effective upon receipt or on a specified date or that Directive or Notice changes are to be used upon receipt mean that any new or revised clauses or forms included in the Directive or Notice shall be included in solicitations issued thereafter, unless a different meaning is expressed in the Directive or Notice.

(b) Compliance with a revision to this Regulation shall be in accordance with the NFSD or PN containing the revision. Procurements initiated after receipt of new or revised clauses should, to the maximum practicable extent, include such clauses.

(c) Unless otherwise stated, solicitations that have been issued and bilateral agreements for which negotiations have been completed before the receipt of new or revised contract clauses need not be amended to include the new or revised clauses if including them would unduly delay the procurement action.

# 18-1.270-4 Numbering.

NFSDs and PNs are numbered consecutively, prefixed by the last two digits of the calendar year of issuance of the current edition of the NASA FAR Supplement.

# 18-1.271 NASA procedures for FAR and NFS changes.

# (a) Responsibilities.

NASA is represented on the (1)Defense Acquisition Regulatory Council (DARC) by a policy member from the Procurement Policy Division (Code HP) and a legal member from the Office of General Counsel (Code GK). NASA staff members are also assigned to standing and ad hoc DARC committees in their areas of The DARC policies and expertise. procedures for initiating and reviewing FAR changes shall be followed by the assigned individuals. However, any NASA element or individual may suggest a FAR revision.

The Procurement Policy Division (2)(Code HP) is responsible for the receipt and formal processing of changes to the NFS. A Code HP procurement analyst--a subject matter specialist--is assigned to and responsible for ensuring all necessary actions are taken. It is advisable to contact the appropriate Code HP analyst (see the Procurement Information Circular entitled "Headquarters Points of Contact for Policy and Operational Information") to determine if a similar regulatory change is already underway or for further advice as to the simplest means of preparing a formal request.

(b) Documentation.

(1) Formal requests for changes to the FAR or the NFS must be written and contain, at a minimum (i) a concise description of the problem the suggested revision is designed to cure or ameliorate, (ii) the revision in the form of a marked-up copy of the current FAR or NFS language or the text of any additional language, (iii) the consequences of making no change and the benefits to be expected from a change, and (iv) any other information necessary for understanding the situation, such as relationship between FAR and NFS coverage, legal opinions, coordination with other offices, and existing agreements.

(2) Formal requests for FAR and NFS changes shall be sent to the Associate Administrator for Procurement (Code HP). Requests from Headquarters offices involving the NFS should originate at the division level or higher, while installation requests must be signed at the procurement officer or higher level.

# 18-1.272 Procurement Information Circulars.

The Procurement Information Circular (PIC) shall be used for broad internal dissemination of procurement-related information and directives not suitable for inclusion in the NFS. While material contained in PICs is non-regulatory and will not be published in the Code of Federal Regulations (CFR), it may be mandatory or be of general interest or importance to its recipients. The PIC is also the preferred mechanism for broadly announcing pending regulatory changes; for providing interim guidance regarding forthcoming regulatory changes; for giving advice; and for providing broadly applicable, but shortlived, procedural information to the NASA procurement community.

# 18-1.272-1 Responsibility.

The Procurement Policy Division (Code HP) is responsible for establishing necessary operational guidelines, preparing,

#### ADMINISTRATION

coordinating, issuing, and distributing PICs on behalf of Code H or other requesting NASA elements.

#### 18-1.272-2 Format and distribution.

PICs shall be as brief as possible; however, pertinent documents may be included as enclosures, provided they are of reasonable length. PICs shall be numbered on a calendar year basis, beginning with number 1, prefixed by the last two digits of the year. Distribution conforms to 18-1.104-370(a) and (b).

#### 18-1.272-3 Expiration.

PICs are intended to relate to matters of current interest. To ensure periodic review, PICs normally will automatically expire on December 31 of the year of issuance. Code HP will contact the originating office regarding revalidation before the expiration date.

----

# SUBPART 18-1.3 AGENCY ACQUISITION REGULATIONS

18-1.301 Policy.

The following shall be included in the NASA FAR Supplement:

(a) All agencywide policies and procedures that govern the contracting process or that control contracting relationships, and

(b) All procurement policies, regulations, procedures, and forms requiring public publication for comment in accordance with Pub. L. 98-557. This statute requires that any procurement policy, regulation, procedure, or form (including amendments thereto) relating to the expenditure of appropriated funds that have a significant effect beyond the internal operating procedures of the а significant cost or agency οг administrative impact on contractors or offerors must be published for public comment at least 30 days before they may take effect.

(1)The statute does not delineate those policies and procedures that will have a significant effect beyond the internal operating procedures of the agency or have a significant cost or of Examples administrative impact. procedures that fall in policies or either of these categories are given in (i) through (iv) below. This list is not all inclusive and does not prohibit the agency from publicizing a policy or procedure that does not fall within one of the categories mandated by the statute.

(i) A contract clause requiring contractors to take precautions to avoid injury to Florida manatees, which have been designated as an endangered species, has a significant cost impact for contractors who must obtain protective devices for boat propellers and take other safety actions.

(ii) A contract clause requiring contractors to follow the Government's holiday schedule, thereby disallowing premium pay for work on contractor-designated holidays, will have an effect outside the internal operating procedures of the agency.

(iii) A contract clause requiring contractors to segregate costs by appropriations will affect the contractor's internal accounting system and have a significant impact.

(iv) Requiring contractor compliance with NASA's Space Transportation System Personnel Reliability Program will have an effect outside the internal operating procedures of the agency.

(2) In contrast, the following would not have to be publicized for public comment:

(i) Security procedures for identifying and badging contractor personnel to obtain general access at a NASA installation.

(ii) A one-time requirement in a construction contract for the contractor to develop a placement plan and for inspection prior to any concrete being placed. (This is part of the specification or statement of work.)

(iii) A policy that requires the NASA installation to maintain copies of unsuccessful offers.

18-1.302 Limitations.

18-1.302-70 Field installation regulatory implementation.

(a) Heads of NASA field installations may prescribe policies and procedures that do not have a significant effect beyond the internal operating procedures of their installations. All other

1-3:1

L

policies and procedures, described in 18-1.301, must be forwarded to NASA Headquarters for approval in accordance with 18-1.271.

(b) The procurement officer at each installation shall establish procedures, including screening and written rationale for each installation procurement policy, regulation, procedure, and form, to demonstrate compliance with 18-1.302-70(a). The procurement officer shall provide a copy of each of these issuances, along with the associated rationale, to the Associate Administrator for Procurement (Attn: Code HP).

# 18-1.303 Publication and codification.

# 18-1.303-70 Assignment of numbers.

(a) Part, subpart, section, and subsection numbers 1 through 69 are reserved for FAR use.

(b) Part, subpart, section, and subsection numbers 70 through 89 are reserved for NASA FAR Supplement use.

# 18-1.370 Points of contact.

Individuals within the Office of Procurement (Code H) are assigned primary responsibility for maintaining the currency of and providing information about specific procurement regulations and related matters. In some instances, the responsibility is shared by other functional offices. This section lists the various procurement-related areas and publications and the individuals assigned to them. It provides at the end an alphabetical directory of those individuals and their telephone numbers.

#### SUBPART 18-1.4 DEVIATIONS FROM THE FAR

# 18-1.400 Scope of subpart.

This subpart prescribes the policies and procedures for authorizing deviations from the NASA FAR Supplement and for the internal processing of FAR deviation requests under FAR Subpart 1.4.

#### 18-1.401 Definition.

"Deviation" means "deviation" as defined at FAR 1.401, except that, for NASA, the words "or NASA FAR Supplement" are added wherever "FAR" appears in the definition.

# 18-1.402 Policy.

Unless precluded by law, Executive order, or regulation, deviations from the FAR and NASA FAR Supplement may be granted only as specified in this Subpart 18-1.4. See FAR Part 53 and Part 18-53 of this Regulation regarding exceptions to forms prescribed in them.

# 18-1.403 Individual deviations.

Individual deviations affect only one contracting action and, unless FAR 1.405(e) is applicable, may be authorized only by the Associate Administrator for Procurement or

a designee. (See 18-1.471 regarding requests for deviations.)

# 18-1.404 Class deviations.

Class deviations affect more than one contracting action. When it is known that a class deviation will be required on a permanent basis, the contracting office should propose an appropriate FAR or NASA FAR Supplement revision to cover the matter. Only the Associate Administrator for Procurement or a designee may approve class deviations. (See 18-1.471 regarding requests for deviations.)

# 18-1.405 Deviations pertaining to treaties and executive agreements.

Deviations from the FAR or NASA FAR Supplement pertaining to treaties or executive agreements shall be processed under the procedures in FAR 1.405, except that deviations not authorized by FAR 1.405(b) or (c) shall be requested under 18-1.471.

# 18-1.470 Modification to existing contracts adding new procurement.

When an existing contract is modified to add new procurement, approval of the deviations previously granted for the existing contract must be obtained for the modification as though the modification were a new contract. "New procurement," for the purpose of this section, means any action that is competed or that must be authorized under FAR 6.302. An information copy of each request for deviation shall be furnished to the cognizant Associate Administrator.

# 18-1.471 Procedure for requesting deviations.

(a) Requests for authority to deviate from the provisions of the FAR or of this Regulation shall be (1) submitted to the Office of Procurement, NASA Headquarters (Code HS) (but see 18-31.101 for deviations from FAR cost principles);
(2) signed by the procurement officer or, in

# FEDERAL ACQUISITION REGULATIONS SYSTEM

that person's absence, by the acting procurement officer; and (3) submitted as far in advance as the exigencies of the situation will permit.

(b) Each request for a deviation shall contain, as a minimum --

(1) Identification of the FAR or NASA FAR Supplement requirement from which a deviation is sought;

(2) A full description of the deviation and the circumstances in which it will be used;

(3) A description of its intended effect;

(4) A statement as to whether the deviation has been requested previously and, if so, the circumstances of the previous request;

(5) The name of the contractor and identification of the contract affected, including the dollar value;

(6) Detailed reasons supporting the request, including any pertinent background information that will contribute to a fuller understanding of the deviation sought; and

(7) A copy of counsel's concurrence or comments.

#### SUBPART 18-1.6 CONTRACTING AUTHORITY AND RESPONSIBILITIES

# 18-1.601 General.

At NASA, the authority to contract for authorized supplies and services is delegated to the Associate Administrator for Procurement by NMI 5101.8, Delegation of Authority--To Take Actions in Procurement and Related Matters (Associate Administrator for Procurement), and the authority to act in certain circumstances is redelegated to various NASA officials by NMI 5101.24, Delegation of Authority--To Take Actions in Procurement, Grants, Cooperative Agreements, and Related Matters (Various Officials).

18-1.602-3 Ratification of unauthorized commitments.

(a) Policy.

ł

(1) Unauthorized commitments are strongly discouraged and can indicate serious employee misconduct. Individuals making unauthorized commitments may be subject to disciplinary action, and the issue may be referred to the Office of Inspector General.

(2) Section 18-2.101 defines the head of the contracting activity in NASA. See FAR 1.602-3(b)(2).

(b) Limitations. The authority in FAR 1.602-3 may be exercised only when--

(1) The Government employee who made the unauthorized commitment, or his/her supervisor, if appropriate, initiates a procurement request in accordance with 18-4.7301(a).

(2) The procurement request and/or accompanying documentation identifies the individual who made the unauthorized commitment, and includes a statement signed by the individual that explains why normal acquisition procedures were not followed, explains why the firm was selected, lists other sources considered, describes the work, and estimates or states the agreed price. If the Government representative who made the unauthorized commitment is no longer available, appropriate program personnel shall provide the information described in this paragraph.

(3) The procurement request is submitted through the director of the cognizant program office at the contracting activity, or comparable official. In the procurement request, the director shall describe measures taken to prevent the recurrence of the unauthorized commitment.

(4) The contracting officer obtains a certification that funds are available and were available at the time the unauthorized commitment was made, in accordance with FAR 1.602-3(c)(6).

18-1.603 Selection, appointment, and termination of appointment.

#### 18-1.603-2 Selection.

(a) Policy. The objective of issuing contracting officer Certificates of Appointment, SF 1402, is to ensure that only officials fully qualified to obligate the Government for the expenditure of public funds for the procurement of supplies and services are appointed contracting officers when an organizational need occurs. Normally, only GS-1105 and GS/GM-1102 personnel may be appointed contracting officers.

(b) Appointment levels. There are three levels of appointment authority, as follows; the appropriate appointment level shall be specified on the SF 1402 upon issuance: (1) **Basic level:** Applies to personnelin the GS-1102 or GS-1105 series with signature authority for small purchases, orders placed under Federal Supply Schedule contracts, mandatory sources, or blanket purchase agreements.

(2) Intermediate level: Applies to those in the GS/GM-1102 series delegated authority to execute contracts and contract modifications for up to \$500,000.

(3) Senior level: Applies to those in the GS/GM-1102 series delegated authority to execute contracts and contract modifications exceeding \$500,000.

(c) Organizational need determination. NASA contracting officers shall be appointed only when a valid organizational need can be demonstrated. Factors to be considered in assessing the need for a contracting officer include volume of actions, complexity of work, and organizational structure.

# (d) Selection procedure.

(1) Once the organizational need is determined, the supervisor will nominate a contracting officer candidate. At the supervisor's request, the candidate shall prepare a qualification statement (or SF 171) containing the information listed in (i) through (viii) following:

- (i) Name.
- (ii) Title, series, and grade.
- (iii) Office.

(iv) Relevant experience, beginning with current position to a total of four relevant positions, including for each position--

- (A) Employer;
- (B) Dates employed;
- (C) Title of position;
- (D) Kind of business/

organization; and (E) Description of work.

(v) Other relevant special qualifications, certifications, or skills.

(vi) Relevant honors, awards, or fellowships received.

(vii) Education, including --(A) Highest level

completed;

(B) High school name, dates attended, and diploma received; and (C) College or university

name, dates attended, degree(s) received; chief undergraduate college subjects; number of credits (show whether semester or quarter hours) completed; and major field of study at highest level of college work.

(viii) Procurement-related training, including--

(A) Name of course;

(B) Name of school;

and

(C) Dates attended.

(2) The supervisor will review the qualification statement to determine the candidate's ability to perform the functions required to meet the organizational need. The supervisor will then complete a Request for Appointment of a Contracting Officer, using the format shown below, justifying the validity of the organizational need and verifying the candidate's qualifications. This document will be signed by the candidate's supervisor and submitted through appropriate organizational channels to the appointing authority (see NMI 5101.24). If the appointing authority Requires additional information, the application will be returned with a request for further explanation or supporting data.

# FORMAT

# Request for Appointment of a Contracting Officer

The following findings and determinations are made, pursuant to applicable laws and regulations:

(Insert appropriate information)

1. There is a clear and convincing need to appoint a contracting officer with the ability to perform at the \_\_\_\_\_ (basic, intermediate, or senior) contracting officer warrant level, for the following reasons:

# (Insert appropriate reasons)

2. The contracting officer candidate is--

(Name, Title, Series, and Grade)

3. The contracting officer candidate will occupy the organizational level described below:

(Office/Division/Branch and Location)

4. The candidate's qualifications statement is enclosed. It was found that (insert the appropriate statement)

- The candidate's experience and training meet the established qualification standards.
- This candidate does not meet the minimum qualifications in

experience and/or training as indicated in the justification; <u>therefore</u>, an interim appointment for the period of \_\_\_\_\_\_\_ is requested. These experience and/or training needs will be identified in the candidate's individual development plan and must be completed by \_\_\_\_\_\_.

5. The candidate's current conflict-ofinterest disclosure statement is on file in the appropriate personnel office or is attached.

6. In addition to the FAR, the NASA FAR Supplement, laws, Executive orders, NASA Management Instructions, and other applicable regulations, the following warrant limitations are imposed:

- a. Dollar Threshold:
- b. Other Limitations: \_\_\_\_\_

SUPERVISOR: (Signature of Supervisor of the Candidate)

(Date)

(Typed Name)

| (Contracting Office) | (Title) |
|----------------------|---------|
|                      |         |

(Appointing Authority) Date

(3) If the appointing authority approves the Request for Appointment of a Contracting Officer, the appointing authority shall issue a Standard Form (SF) 1402, Certificate of Appointment, in accordance with 18-1.603-3. A copy of the SF 1402, the Request for Appointment of a Contracting Officer, and the qualification statement shall be maintained for each contracting officer in a central location in the installation's contracting office while the SF 1402 is effective and for three years after its termination or after the individual has left the contracting office's employ. A copy of each SF 1402 issued shall be provided to NASA Headquarters, Office of Procurement (Code HM). Each installation shall maintain an up-to-date listing, by name and position, of all the installation's contracting officers and the limitations imposed on them in their warrants. A copy of this listing shall be provided annually to NASA Headquarters, Office of Procurement (Code HM).

#### (e) Qualifications.

(1) The following are the experience, education, and training requirements needed to qualify for each of the three contracting officer appointment authority levels. Appointing authorities may establish additional qualifications, as appropriate. For example, additional qualifications may be established for those authorized to sign incentive and award-fee actions.

(i) **Experience**.

(A) Basic level: One year of current experience in Government or commercial procurement, including 6 months experience in small purchasing.

(B) Intermediate level: Two years of current, progressively complex and responsible procurement or staff experience in Government or commercial procurement.

(C) Senior level: Four years of current, progressively complex and responsible procurement or staff experience in Government or commercial procurement.

(ii) *Education* (preferred, not mandatory).

(A) **Basic level:** A high school diploma or equivalent.

(B) Intermediate and senior levels: A bachelor's degree from an accredited college or university that included or was supplemented by at least 24 semester hours in a field of study directly related to procurement, such as business administration, contract law, accounting, Government management, industrial purchasing, or material management.

(iii) **Training.** Except as | provided in paragraph (f) of this section, acceptable formal training courses covering the subject matter listed below must be satisfactorily completed before a candidate may be nominated for a contracting officer appointment. Approved equivalency tests may be used as substitutes for these formal training requirements.

(A) **Basic level:** 40 hours of formal training covering the application of fundamental principles, policies, procedures, and practices in procurement.

(B) Intermediate level: 80 hours of formal training covering functional knowledge of procurement law, policies, procedures, and methods, including, as a minimum, Government contract law, procurement by negotiation, procurement by sealed bidding, contract administration, and cost and price analysis. (C) Senior level: 120

hours of formal training, including analysis

of procurement methods and techniques to enable an individual to manage contractual relationships effectively. The general topics described in paragraphs (e)(1)(iii)(A) and (B) of this section also apply to the senior level.

(2) A 2-year associate's degree in a procurement-related field, such as business administration or accounting, may be substituted for 6 months of procurement experience. A 4-year undergraduate program degree in a procurement-related field from an accredited college or university may be substituted for procurement experience at the rate of 12 semester credit hours for three months of procurement experience. One year of concentrated experience in an advanced procurement subject area beyond the 2-year minimum for the intermediate-level qualifications and the 4-year minimum for senior-level qualifications may be substituted for 24 classroom hours of formal training in procurement, up to a maximum of 96 classroom hours.

(f) Interim appointments. Personnel shall not ordinarily be appointed contracting officers if they do not meet the applicable qualifications prescribed in this subsection. If it is necessary to appoint a contracting officer who does not fully meet the qualifications, an interim appointment may be granted. The appointing authority shall require as a condition of the interim appointment that all training or experience requirements will be met within a specified reasonable period of time. Failure to successfully complete the training requirements within this time frame will result in termination of the appointment or

#### CONTRACTING AUTHORITY AND RESPONSIBILITIES

issuance of another interim varrant, whichever is considered necessary by the appointing authority. The appointing authority must fully document these actions.

Condition of appointment. (g) As a condition of continuing appointment, all contracting officers shall be required to procurement-related complete а Government, commercial, or academic satisfactorily course/seminar at least once every five years. This training will preferably be in an area closely related to that in which the contracting officer is assigned.

Changes to contracting officer (h) appointments. Changes, either increasing or decreasing the warrant limitations of a contracting officer, shall be made discretion solely at the of the appointing authority. When an appointing authority determines to make such changes, a new SF 1402 shall be issued, be the existing warrant shall and officially terminated.

18-1.603-3 Appointment.

(a) The SF 1402 shall be construed as authorization of designated personnel to exercise contracting officer authority in accordance with the FAR, the NASA FAR Supplement, and the NASA Procurement Regulation. The limitations section of the SF 1402 shall, immediately after the word "following," state: "... the limitations contained in the NASA FAR Supplement and the NASA Procurement Regulation."

(b) If the appointing official chooses to restrict a contracting officer from exercising authority under the NASA Procurement Regulation, the limitations section of the SF 1402 shall, immediately after the word "following," state: "... the limitations contained in the NASA FAR Supplement."

#### 18-1.603-4 Termination.

The appointing authority may terminate the appointment of a contracting officer at any time. Contracting officers whose appointments are terminated shall be given by the appointing authority a written notice stating the reasons for and the effective date of the termination.

18-1.670 Delegation of procurement responsibilities.

(a) Delegations to non-GS/GM-1102 or 1105 personnel.

(1) Contracting officer duties are typically performed by GS/GM-1102 or 1105 personnel within the procuring In certain limited organization. situations, it may be appropriate to non-GS/GM-1102 or 1105 designate personnel as contracting officers. The authority to obligate appropriated funds for the procurement of supplies and services may be delegated to non-GS/GM-1102 or 1105 personnel; provided all of conditions in (i) through (iv) the following are met:

contracting officer (i) A warrant must be issued to the non-GS/GM-1102 or 1105 individual. The warrant must include a specific dollar limitation set as low as possible. This limitation shall not exceed the small purchase threshold in effect at the time of the delegation. Specific dollar limitations well below the small purchase threshold should normally be sufficient and are encouraged. The warrant may include further limitations, such as the types of services that may be supplies or acquired.

(ii) Only the procurement officer at each installation is authorized to issue or terminate contracting officer warrants to non-GS/GM-1102 or 1105 personnel. This authority is nondelegable.

(iii) Contracting officer warrants for non-GS/GM-1102 or 1105 personnel may be issued only for small purchase procedures (FAR Part 13 and NFS Part 18-13). These procedures include executing purchase orders and modifications to purchase orders. Authority to issue or sign contracts, unilateral or bilateral contract modifications of any amount, or orders above the small purchase threshold on Federal Supply Schedules is not delegable to non-GS/GM-1102 or 1105 personnel.

(iv) The selection, appointment, and termination procedures in 18-1.603 shall be followed. In particular, the education, training, and experience requirements for a basic-level contracting officer (see 18-1.603-2(e)) must be met before a warrant is issued. The experience requirement at 18-1.603- 2(e)(1)(i)(A) may be obtained either within a procurement office or in an office that otherwise does procurement work. For example, a training specialist may acquire the experience requirement by preparing in the installation's personnel office purchase orders for training that will be signed by a warranted contracting officer.

(2) The responsibility for monitoring the procurements made by non-GS/GM-1102 or 1105 contracting officers remains with the procurement officer who issues their warrants. The procurement officer is responsible for ensuring that a system is in place that provides for general oversight of the continued need for each specific warrant and periodic review of the quality of the procurement actions taken. These reviews shall be made no less frequently than semiannually. (3) Examples of contracting officer designations that may be appropriate for non-GS/GM-1102 or 1105 personnel are the authorization to the installation's training officer to sign purchase orders for off-theshelf training courses under a certain dollar amount, or to the installation's librarian to place orders up to \$X for magazine subscriptions.

(4) The requirements for imprest funds are established by the NASA Financial Management Manual; use of imprest funds does not require contracting officer warrants or authority.

(5) The term "ordering officer" is not authorized for use in delegating procurement functions to non-GS/GM-1102 or 1105 personnel.

(b) Delegations to contracting officer's technical representatives (COTRs). Α COTR delegation may be made only by the contracting officer cognizant of that contract at the time the delegation is made. If the cognizant contracting officer is absent, the delegation letter may be signed by a warranted contracting officer at any level above the cognizant contracting officer. An individual COTR may have only the duties specifically identified in a written delegation to him or her by name (i.e., COTR duties may not be delegated to a position) and has no authority to exceed them. COTRs should be informed that they may be personally liable for unauthorized commitments. Contracting officer authority to sign or authorize contractual instruments shall not be delegated through a COTR designation or by any means other than a contracting officer warrant. However, delegations may be made to construction contract COTRs to sign emergency change orders with an estimated value not to exceed \$25,000 on-site at construction sites.

## SUBPART 18-1.7 DETERMINATIONS AND FINDINGS

## 18-1.703 Class determinations and findings.

The effective period specified in each class determination and findings (D&F) shall not ordinarily exceed one year. When a longer period is considered appropriate and necessary, the D&F shall say why.

### 18-1.704 Content.

Content and format requirements in addition to those at FAR 1.704 are

specified in the associated subject text. While the contracting officer is responsible for preparing D&Fs, requirements and technical personnel are responsible for the accuracy and adequacy of the supporting factual information, which shall be furnished to the contracting officer in writing.

### 18-1.707 Signatory authority.

Signatory authority for D&Fs is specified in the FAR or NASA FAR Supplement text for the associated subject matter. The Administrator may make any of the D&Fs that may be made by the Associate Administrator for Procurement or by a contracting officer.

## PART 18-2 DEFINITIONS OF WORDS AND TERMS

#### 18-2.000 Scope of part.

Commonly used words and terms are defined in FAR Subpart 2.1. This Part 18-2 gives NASA-specific meanings of some of these words and terms and defines other words and terms commonly used in the NASA acquisition process. -

.

-----

#### SUBPART 18-2.1 DEFINITIONS

#### 18-2.101 Definitions.

The following words and terms are used throughout this Regulation as defined in this subpart unless--

(a) The context in which they are used clearly requires a different meaning; or

(b) A different definition is prescribed for a particular part or portion of a part.

"Administrator" means the Administrator or Deputy Administrator of NASA.

"Associate Administrator for Procurement" means the Associate Administrator for Procurement, Office of Procurement, NASA Headquarters (Code H).

"Contracting activity" in NASA includes each "installation" as defined in this section 18-2.101.

"Contracting office" means the same thing as the previously used term "procurement office." "Field installation" means Ames Research Center, Goddard Space Flight Center, John F. Kennedy Space Center, Langley Research Center, Lewis Research Center, Johnson Space Center, George C. Marshall Space Flight Center, John C. Stennis Space Center, or any other field installation established by NASA in the future.

"Head of the agency" or "agency head" means the Administrator or Deputy Administrator of NASA.

"Head of the contracting activity" means, for field installations, the Director or other head and, for NASA Headquarters, the Associate Administrator for Procurement. |

"Installation" means NASA Headquarters or any field installation and is synonymous with "contracting activity."

"Procurement" means the same thing as "acquisition," as defined in FAR 2.101.

"Procurement officer" means the chief of the contracting office, as defined in FAR 2.101.

#### PART 18-3 IMPROPER BUSINESS PRACTICES AND PERSONAL CONFLICTS OF INTEREST

#### SUBPART 18-3.1 SAFEGUARDS

#### 18-3.101 Standards of conduct.

#### 18-3.101-1 General.

(a) Federal statutes prohibit certain acts by Government personnel and special Government employees as defined in 18 U.S.C. 202 in relation to Government procurement. Among these statutes are (1) 18 U.S.C. 201, relating to bribes in order to secure a Government contract; U.S.C. (2) 18 203. relating to compensation for services rendered in connection with any proceeding or claim in which the United States has an interest; (3) 18 U.S.C. 205, relating to acting as an agent or attorney for prosecuting any claim against the United States; (4) 18 U.S.C. 208, relating to transacting business as an officer or agent of the United States with firms of which the officer or agent, or a spouse, minor child, or partner, is an official or in which the officer or agent has a pecuniary interest; and (5) 18 U.S.C. 209, relating to compensation from non-Government sources in connection with Government services.

(b) The statutory prohibitions and their application to NASA personnel are discussed in NHB 1900.1, Standards of Conduct for NASA Employees, and NHB 1900.2, Standards of Conduct for NASA Special Government Employees. All NASA personnel involved in procurement actions familiar with shall become these statutory prohibitions. Any auestions concerning them shall be referred to legal counsel. In addition to criminal penalties, the statutes provide that transactions entered into in violation of these prohibitions are voidable (18 U.S.C. 218). (See Subpart 18-3.70 for policy on contracting with former NASA employees.)

## 18-3.101-2 Solicitation and acceptance of gratuities by Government personnel.

Any suspected violations shall be reported promptly to the installation's Office of Inspector General. (See Standards of Conduct for NASA Employees, NHB 1900.1.)

#### 18-3.104 Procurement integrity.

#### 18-3.104-4 Definitions.

"Designated agency ethics official" means for Headquarters, the General Counsel, and the Associate General Counsel for General Law, and for each center, the Chief Counsel.

18-3.104-5 Disclosure, protection, and marking of proprietary and source selection information.

(a) The originator of information that may be source selection information shall consult with the contracting officer or procurement officer. who the shall determine whether the information is source selection information. NASA responsible for personnel preparing material described in FAR 3.104-4(k)(2)(i)through shall (ix)assure that the material is marked with the legend in FAR 3.104-5(c) at the time the material is prepared.

(b) Unless marked with the legend "SOURCE SELECTION INFORMATION ---SEE FAR 3.104," draft specifications,

## IMPROPER BUSINESS PRACTICES AND PERSONAL CONFLICTS OF INTEREST

purchase descriptions, and statements of work are not considered source selection information when released during a market determine survey in order to the capabilities potential of competitive sources (see FAR Subpart 7.1). If marked with the legend, they may be released during a market survey as authorized by the contracting officer after removal of the legend. Draft documents, after released, must having been remain available to the public until the conclusion of the procurement.

(c) Government employees serving in the following positions are authorized access to proprietary or source selection for information the particular procurements for which they have responsibility:

(1) Personnel participating in source evaluation board (SEB) procedures under 18-15.613-71 and 18-70.303, App. I.

(2) Personnel assigned to the contracting office.

(3) The initiator of the procurement request (to include the official having principal technical cognizance over the requirement).

(4) Small business specialists.

(5) Personnel assigned to counsel's office.

(6) Personnel who evaluate an offeror's or bidder's technical or cost proposal.

(7) Personnel assigned to the Defense Contract Audit Agency and contract administration offices of the Department of Defense.

(8) Personnel responsible for the review and approval of documents in accordance with the Master Buy Plan Procedure in Subpart 18-7.71.

(9) Other Government employees authorized by the contracting officer.

(10) Supervisors, at any level, of the personnel listed in subparagraphs 18-3.104-5(c)(1) through (9).

(d) Release of proprietary or source selection information to other than Government employees may be authorized in accordance with FAR 15.413-2, 18-15.413, and 18-15.413-2.

(e) For contracts and contract modifications over \$100,000, release of proprietary or source selection information to another Government activity shall be made by a letter citing the obligation under FAR 3.104-5(d) to maintain a list of persons or classes of persons authorized access to proprietary or source selection information and to provide the list to the contracting officer for the contract file.

18-3.104-8 Knowing violations, duty to inquire, and ethics advisory opinions.

When a contracting officer has not been appointed, questions regarding whether information was proprietary or source selection information shall be referred to the procurement officer (see FAR 3.104-8(d) and (e)).

#### 18-3.104-9 Certification requirements.

The contracting officer shall obtain the following certification from any procurement official leaving the Government or transferring to another Government agency or any contractor employee serving as а procurement official who ceases performance of those duties during the conduct of а procurement expected to result in a contract or modification in excess of \$100,000 (see FAR 3.104-7(a)).

#### (Certification)

## PROCUREMENT OFFICIAL CERTIFICATION UPON TERMINATION OF GOVERNMENT SERVICE

I, [Name of procurement official], hereby certify that I understand the continuing obligation under Section 27 of the Office of Federal Procurement Policy Act (41 U.S.C. 423) not to disclose proprietary or source selection information relating to any ongoing procurement for which I have served as a procurement official.

#### Signature of procurement official and date

Identify applicable procurements (ones for which awards have not been made at the time of the Procurement Official's departure):

#### [List procurements]

THIS CERTIFICATION CONCERNS A MATTER WITHIN THE JURISDICTION OF AN AGENCY OF THE UNITED STATES AND THE MAKING OF A FALSE, FICTITIOUS, OR FRAUDULENT CERTIFICATION MAY RENDER THE MAKER SUBJECT TO PROSECUTION UNDER TITLE 18, UNITED STATES CODE, SECTION 1001.

## (End of certification)

18-3.104-11 **Processing violations or** possible violations.

(a) The Procurement Officer is the individual designated to receive the contracting officer's report of violations in accordance with FAR 3.104-11.

(b) The head of the contracting activity (HCA) or designee shall refer all information describing an actual or possible violation to the installation's counsel and inspector general staff and to the Associate Administrator for Procurement (Attn: Code HM).

(c) When the HCA or designee determines under FAR 3.104-11(f) that award is justified by urgent and compelling circumstances or is otherwise in the interest of the Government, then that official shall submit a copy of the determination to the Associate Administrator for Procurement | (Attn: Code HP) simultaneous with transmittal to the Administrator.

## 18-3.104-12 Ethics program training requirements.

Individuals who will serve as procurement officials shall complete either Optional Form 333 or the following certification (see FAR 3.104-12(a)). The Privacy Act Notice is intended for use when either the executed Optional Form 333 or the executed certification will be filed in the employee's official personnel file and a social security number is needed. When an individual's social security number is being requested, Centers may use the attached Privacy Act Notice or an appropriate alternative Privacy Act Notice. The Privacy Act Notice may be omitted if a social security number is not being requested.

#### (Certification)

## PROCUREMENT INTEGRITY CERTIFICATION FOR PROCUREMENT OFFICIALS

As a condition of serving as a procurement official, I, [ Name ], hereby certify that I am familiar with the provisions of subsections 27(b), (c), and (e) of the Office of Federal Procurement Policy Act (41 U.S.C. 423) as amended by section 814 of Public Law 101-189. I further certify that I will not engage in any conduct prohibited by such subsections and will report immediately to the contracting officer any information concerning a violation or possible violation of subsections 27 (a), (b), (d), or (f) of the Act and applicable implementing regulations. A written explanation of subsections 27(a) through (f) has been made available to me. I understand that, should I leave the Government during the conduct of a procurement for which I have served as a procurement official, I have a continuing obligation under section 27 not to disclose proprietary or source selection information relating to the procurement and a requirement to so certify.

I understand that my execution of this certification does not make me a procurement official, nor will it be utilized to establish that I am a procurement official.

Signature and date

## (End of certification)

(Notice)

Name Social Security Number

## PRIVACY ACT NOTICE TO EMPLOYEES AND OFFICIALS

In accordance with the Privacy Act of 1974, as amended (5 U.S.C. 552a), the following notice is provided:

AUTHORITY FOR COLLECTION OF INFORMATION; 41 U.S.C. 423 and Executive Order 9397. Your signature on the Procurement Integrity Certification for Procurement Officials and disclosure of your Social Security Number are voluntary, but possible effects upon you if the certification is not signed and the Social

Security Number is not provided include the following:

Disqualification from particular work or duty assignments, or from the position for which you have applied or which you currently hold, or other appropriate action, or administrative delay in processing your certification.

Principal purpose for collection of this information:

To obtain and maintain a completed certification from any person designated as a "Procurement Official," as defined by 41 U.S.C. 423 and applicable procurement regulations.

Routine uses which may be made of the collected information:

Transfers to Federal, state, local, or foreign agencies when relevant to civil, criminal, administrative, or regulatory investigations or proceedings, including transfer to the Office of Government Ethics in connection with its program oversight responsibilities, or pursuant to a request by any appropriate Federal agency in connection with hiring, retention, or grievance of an employee or applicant, the issuance of a security clearance, the award or administration of a contract, the issuance of a license, grant, or other benefit, to committees of the Congress, or any other use specified by the Office of Personnel Management (OPM) in the system of records entitled "OPM/GOVT-1, General Personnel Records," as published in the Federal <u>Register</u> periodically by OPM.

## (End of Notice)

CFR TITLE 48 CHAPTER 18

مر .

#### SUBPART 18-3.2 CONTRACTOR GRATUITIES TO GOVERNMENT PERSONNEL

18-3.203 Reporting suspected violations of the Gratuities clause.

Any suspected violations of the clause at FAR 52.203-3, Gratuities, shall be reported to the installation's Office of Inspector General.

## SUBPART 18-3.3 REPORTS OF SUSPECTED ANTITRUST VIOLATIONS

18-3.303 Reporting suspected antitrust violations.

(a) When offers are received that, in the opinion of the contracting officer, indicate possible antitrust violations. the contracting officer shall report the circumstances to the General Counsel, NASA Headquarters, through the Office of Procurement (Code HP). Reports should not be submitted automatically but only when there is reason to believe the offers arrived have may not been at independently. These reports shall be submitted with conformed copies of bids proposals, contract documents, and or other supporting data, and shall set forth --

(1) The noncompetitive pattern or situation under consideration;

(2) Purchase experience in the same product or service for a reasonable period (one or more years) preceding receipt of the offers under consideration, including unit and total contract prices and abstracts of bids;

(3) Community of financial interest among offerors, insofar as it is known;

(4) The extent, if any, to which specification requirements or patents restrict competition;

(5) Any information available about the pricing system employed in offers believed to reflect noncompetitive practices; and

(6) Any other pertinent information.

(b) Evidence of practices that, in the opinion of the General Counsel, NASA Headquarters, may violate the antitrust laws shall be forwarded to the Attorney General of the United States (see FAR 3.303).

(c) The contracting officer shall submit the identical bid report required by FAR 3.303(d) to NASA Headquarters, Office of Procurement (Code HP). The report shall include the reasons for suspecting collusion. Code HP shall forward a copy to the NASA Office of the Inspector General.

×. \_

## SUBPART 18-3.5 OTHER IMPROPER BUSINESS PRACTICES

## 18-3.502 Subcontractor kickbacks.

Suspected violations of the Anti-Kickback Act shall be reported in accordance with 18-9.470. . ~

## SUBPART 18-3.6 CONTRACTS WITH GOVERNMENT EMPLOYEES OR ORGANIZATIONS OWNED OR CONTROLLED BY THEM

#### 18-3.602 Exceptions.

The Administrator has delegated to the Associate Administrator for Procurement authority to authorize an exception to the policy in FAR 3.601 (see NMI 5101.8, Delegation of Authority--To Take Actions in Procurement and Related Matters (Associate Administrator for Procurement)). The Associate Administrator for Procurement hereby redelegates this authority to a head of contracting activity (HCA) for individual actions in the aggregate of \$100,000 and below, inclusive of follow-on procurements, with concurrence by the HCA's Office of Chief Counsel. All requests above the HCA's authority shall be forwarded to the Associate Administrator for Procurement (Code HS) for approval.

#### SUBPART 18-3.7 VOIDING AND RESCINDING CONTRACTS

#### 18-3.704 Policy.

The Associate Administrator for Procurement has been delegated authority to void or rescind contracts when there is a final conviction for violation of 18 U.S.C. 201-224 (Bribery, Graft and Conflicts of Interest) relating to them.

#### 18-3.705 Procedures.

(a) The official to whom reports shall be sent pursuant to FAR 3.705(a) is the Associate Administrator for Procurement; they shall be sent by the procurement officer.

(b) The Associate Administrator for Procurement is responsible for the actions, notices, and decisions required by FAR
 3.705(c), (d), and (e).

•

## SUBPART 18-3.8 LIMITATION ON THE PAYMENT OF FUNDS TO INFLUENCE FEDERAL TRANSACTIONS.

#### 18-3.804 Policy.

(a) The Headquarters Procurement Systems Division (Code HM) is responsible for collecting and compiling contractors' disclosures and for preparing the report for submission to Congress. (b) Procurement officers shall forward one copy of each Disclosure of Lobbying Activities Form furnished pursuant to FAR 3.803 to Code HM. The original shall be retained in the contract file. Forms shall be submitted quarterly by the 15th of the month following the end of the quarter.

#### 18-3.806 Processing suspected violations.

The Associate Administrator for Procurement (Code HP) is the designated official to whom suspected violations of the Act shall be referred.

#### SUBPART 18-3.70 CONTRACTS BETWEEN NASA AND ITS FORMER EMPLOYEES

#### 18-3.7001 Policy.

(a) It is NASA policy that contracts not normally be placed on a noncompetitive basis with any individual employed by NASA during the past two years or with any firm in which such an individual is a partner, principal officer, or majority shareholder or that is otherwise controlled or predominantly staffed by such individuals, unless it is determined to be in the best interest of the Government to do so (see 18-6.303-270).

(b) Where it has been determined that it is appropriate to contract on a noncompetitive basis with an individual or firm described in paragraph (a) of this section, the approval authority for the justification for less than full and open competition shall be as specified in 18-6.304.

(c) If individuals or firms described in paragraph (a) of this section are involved in

a competitive procurement, precautions must be taken to ensure that they are not accorded preferential treatment. If one of them is the successful offeror, the contract file shall include a separate document fully explaining the safeguards used to ensure fair treatment of all offerors under the procurement, unless sealed bidding is used.

(d) Nothing in this subpart shall be construed as relieving former employees from obligations prescribed by law, such as 18 U.S.C. 207 (Disqualification of Former Officers and Employees).

(e) The policy in paragraph (a) of this section shall also be followed when reviewing subcontracts for the purpose of granting consent under NASA prime contracts (see FAR 44.202-2(a)(7)).

#### 18-3.7002 Solicitation provision.

The contracting officer shall insert the provision at 18-52.203-70, Contracts Between NASA and Former NASA Employees, in all solicitations other than invitations for bids.

# SUBPART18-4.73PROCUREMENT REQUESTS18-4.7301General.

NASA FAR SUPPLEMENT

-----

## PART 18-4 ADMINISTRATIVE MATTERS

## SUBPART 18-4.1 CONTRACT EXECUTION

#### 18-4.101 Contracting officer's signature.

The contracting officer shall sign negotiated contracts after the contractor unless the particular contract form or circumstances of the acquisition require otherwise.

#### 18-4.103 Contract clause.

The contracting officer shall include the clause at FAR 52.204-1, Approval of Contract, in solicitations, contracts, and supplemental agreements subject to Master Buy Plan procedures (see 18-7.7102). Insert "NASA Associate Administrator for Procurement" if the procurement has been selected for Headquarters approval of the contract under the Master Buy Plan procedures.

## 18-4.170 Contract effective date.

(a) "Contract effective date" means the date agreed upon by the parties for beginning the period of performance under the contract. It shall be on or after the date on which the contract becomes legally binding. Generally, a contract becomes legally binding when the offeror receives the document, signed by both parties, unless, by its terms, it does not become binding until some subsequent condition is met (e.g., approval by higher authority (FAR 52.204-1) or availability of funds (FAR 52.232-The effective date should allow 18)). adequate time for the offeror or its agent to receive the written acceptance, with any doubt being resolved by setting the effective date after the contract becomes In no case shall the legally binding. effective date precede the date on which the contracting officer or designated higher approval authority signs the document.

(b) Costs incurred before the contract effective date are unallowable unless they qualify as precontract costs (see FAR 31.205-32) and the clause prescribed at 18-31.205-70 is used. 

#### SUBPART 18-4.2 CONTRACT DISTRIBUTION

#### 18-4.202 Agency distribution requirements.

(a) In addition to the requirements in FAR 4.201, the contracting officer shall distribute one copy of each R&D contract, including the Statement of Work, to the NASA Center for AeroSpace Information (CASI), Attention: Document Processing Section, 800 Elkridge Landing Road, Linthicum Heights, MD 21090-2934. (b) The Office of Procurement, NASA Headquarters (Code HS) will retain one executed copy of each contract and modification requiring approval of the Associate Administrator for Procurement. | Upon approval or disapproval of the proposed contract or modification, the Associate Administrator for Procurement I will forward the original and two executed copies of the contract or modification, together with the contract file, to the procurement officer or other official, as considered appropriate.

#### SUBPART 18-4.4 SAFEGUARDING CLASSIFIED INFORMATION WITHIN INDUSTRY

#### 18-4.402 General.

NASA industrial security policies and procedures are prescribed in NMI 1600.2, NASA Security Program. (See also 18-42.202-72).

#### 18-4.404-70 Contract clause.

The contracting officer shall insert the clause at 18-52.204-75, Security Classification Requirements, insolicitations and contracts if work to be performed will require security clearances. Insert the security clearance level applicable to the particular procurement. Include in the solicitation and contract a properly executed DD Form 254, Contract Security Classification, in accordance with NMI 1600.2. This clause may be modified to add instructions for obtaining security clearances and access to security areas that are applicable to the particular procurement and installation.

18-4.470 Security requirements for unclassified automated information resources.

18-4.470-1 Scope.

This section implements the procurement-related aspects of Federal policies for assuring the security of unclassified automated information resources.

#### 18-4.470-2 Policy.

NASA policies and procedures on automated information security are prescribed in NMI 2410.7, Assuring the Security and Integrity of NASA Automated Information Resources, and in NHB 2410.9, NASA Automated Information Security Handbook, Chapters 3 and 4. Security requirements for safeguarding sensitive information in unclassified Federal computer systems are required (i) in contracts for automatic data processing equipment, software, the management or operation of Data Processing Installations (DPIs) or related services and (ii) in contracts under which contractor personnel must have physical or electronic access to sensitive automated information, or automated information that supports mission-critical functions.

#### 18-4.470-3 Responsibilities.

(a) The requiring activity is responsible for providing the contracting officer with any functional and technical requirements to be included in the contract schedule. The requiring activity, together with its automated information security (AIS) manager, is also responsible for providing accurate lists of protected spaces designated as limited or controlled access areas that contractor or subcontractor personnel will enter, and of unclassified Federal computer systems containing sensitive information to which contractor personnel may require access.

(b) The requiring activity is responsible for determining if a contractor security plan for unclassified Federal computer systems will be required and evaluating and recommending approval of prospective contractors' security plans.

#### 18-4.470-4 Contract clauses.

(a) Except as provided in paragraph (b) of this section, the contracting officer shall insert the clause substantially as stated at 18-52.204-76, Security Requirements for Unclassified Automated Information Resources, in solicitations and contracts involving unclassified automated information resources as described by this subpart. Paragraph (a) of the clause shall be completed with information supplied by the cognizant requiring activity.

4-4:1

provision.

(b) The clause prescribed in paragraph (a) of this section may be excluded from any contract when the requiring activity, in concert with its automated information security (AIS) manager, recommends that a security plan for unclassified Federal computer systems be submitted by the apparently successful offeror after notification of selection but before contract award. Under these circumstances, the contracting officer shall insert the provision at 18-52.204-77, Submission of Security Plan For Unclassified Federal Computer Systems, in solicitations. The provision may be modified to identify specific information that is to be included in the security plan. The contracting officer shall incorporate the approved security plan into the contract using clause 18-52.204-78, Security Plan For Unclassified Federal Computer Systems, which may be modified to omit reference to the provision when the solicitation did not include the

#### SUBPART 18-4.6 CONTRACT REPORTING

#### 18-4.601 Record requirements.

The Headquarters Procurement Systems Division (Code HM) is responsible for developing the computer file specified in FAR 4.601, through the installation procurement officer's or delegatee's monthly submission of Individual Procurement Action Reports (NASA Form 507 series), and for subsequent transmittal of the required data to the Federal Procurement Data System (FPDS).

#### 18-4.602 Federal Procurement Data System.

| The Associate Administrator for Procurement (Code HM) is responsible for requesting, obtaining, and reporting Contractor Establishment Codes to the FPDS.

#### 18-4.670 General.

The following sections prescribe uniform reports required to be prepared in contracting and contract administration offices to provide management necessary information to help formulate, change, or measure the effectiveness of procurement policy.

#### 18-4.671 Individual Procurement Action Report (NASA Form 507 series).

The Individual Procurement Action Report and Supplements (NASA Form 507, 507A, 507B, 507G, and 507M) provide essential procurement records and statistics through a single uniform reporting program as a basis for required recurring and special reports to the President, Congress, Department of Commerce, Office of Federal Procurement Policy, Federal Procurement Data Center, Federal Emergency Management Agency, General Accounting Office, Small Business Administration, and other Federal agencies. The preparation and utilization of the NASA Form 507 series (see 18-53.303-507 through -507M) are an integral part of the agencywide Financial and Contractual Status (FACS) system.

#### 18-4.671-1 Applicability and coverage.

The following procurement actions are individually reportable and require the completion of one or more of the forms in the 507 series.

#### (a) Initial basic procurements.

(1) All contracts, regardless of dollar obligation amount.

(2) All grants, cooperative agreements, and Space Act agreements.

(3) Intragovernmentalprocurements and purchase orders when the initial obligation is more than \$25,000.

(4) All contracts and purchase orders for consulting services.

(5) Purchase orders of \$25,000 or less for services within the four designated industry groups identified at FAR 19.1005(a) under the Small Business Competitiveness Demonstration Program. (These actions are not FACS reportable, but are required for FPDS reports.)

(b) Modifications. Modifications that (1) obligate or deobligate funds, regardless of dollar amount, (2) change the estimated cost and/or fee by more than \$25,000, (3) extend the completion date, or (4) add or change procurement statistics previously reported are reportable.

#### 18-4.671-2 Contractual records.

As used in this Subpart 18-4.6, "contractual records" embraces records for all reportable procurements, including contracts, grants, cooperative agreements, Space Act agreements, and intragovernmental awards. The NASA Form 507 series is the source of data for contractual records, with the exception of obligations, which are obtained from the financial records.

# 18-4.671-3 Submission due date.

The FACS report shall have information as of the last day of the month and shall arrive in NASA Headquarters not later than the close of business on the fifth work day following each month being reported. The installation procurement officer should establish an agreement with the installation financial officer on a cut-off date for processing contractual documents to ensure that the FACS procurement submission and the FACS financial submission for the month include the same contracts.

# 18-4.671-4 Preparing Individual Procurement Action Reports (NASA Forms 507, 507A, 507B, 507G, and 507M).

Individual Procurement Action Reports shall be prepared and submitted to Headquarters for each procurement action required to be reported (see 18-4.671-1). Specifically, for new contract awards, NASA Forms 507, 507A, and 507B are prepared. For new grants, agreements, intragovernmental agreements, and orders against federal supply schedules, NASA Forms 507G and 507B are prepared. For modifications to any of the above procurements, NASA Forms 507M and, if necessary, 507B are prepared. Detailed item instructions for preparing the NASA Forms 507 series are set forth in paragraphs (a) through (sss) of this section and correspond to the item numbers shown on the forms. Position numbers after each item indicate the maximum number of characters that may be used in reporting the data element. Item numbers 2 through 7, 9, 15a, 20a, 51 through 61, and 66 are for Acquisition Management Subsystem (AMS) reporting at the installation level only. Reporting of these specific data items to the FACS system is not required.

(a) Item 1--Contract/grant number (11 positions, including blanks).

(1) Enter the specific contract, grant, cooperative agreement, Space Act agreement, or purchase order number for which the data are reported. The first five digits represent the prefix field, while the last six digits are used to number each contractual instrument serially. If a serial number does not fill out the entire field, leave those digit positions blank instead of using zeros. For utility contract and purchase order numbers, enter an alpha letter in the last position of the serial number, indicating the fiscal year the service was provided.

(2) The method of numbering--

(i) Contracts and purchase orders is set forth in Subpart 18-4.71 (e.g., NAS9-14000, NAS10-9080, NASW-2080);

(ii) Space Act agreements is set forth in Subpart 18-4.71 (e.g., NCA1-12500);

(iii) Grants is set forth in the NASA Grant and Cooperative Agreement Handbook, NHB 5800.1, paragraph 306.1 (e.g., NAGW-1, NAG2-308);

(iv) Cooperative agreements is set forth in the NASA Grant and Cooperative Agreement Handbook, NHB 5800.1, paragraph 306.2 (e.g., NCC 2-1); and

(v) Utility contracts and purchase orders is as follows:

| Last Digit      |                              | Last Dig        | it                           |
|-----------------|------------------------------|-----------------|------------------------------|
| Alpha<br>Letter | Fiscal<br>Years<br>Ending in | Alpha<br>Letter | Fiscal<br>Years<br>Ending in |
| Q               | 1                            | v               | 6                            |
| R               | 2                            | W               | 7                            |
| S               | 3                            | х               | 8                            |
| Т               | 4                            | Y               | 9                            |
| U               | 5                            | Z               | 0                            |

(b) Item 2--Document suffix (1 position). If an alpha suffix is used in the contract or purchase order number, enter the assigned suffix (e.g., "F" for facilities contracts). Otherwise, leave this item blank.

(c) Item 3--Modification prefix (1 position). If an alpha prefix is used in the

modification number of the reported action, enter the assigned prefix. Otherwise, leave this item blank.

(d) Item 4--Modification number (4 positions). Enter the serial number assigned to the modification action.

(c) Item 5--PR number (12 positions). Enter the number assigned to the Procurement Request document which initiated the reported action.

(f) Item 6--Closeout PR (1 position). Enter "Y" if the reported action closes the PR reported in item 5. Otherwise, leave this item blank.

(g) Item 7--Contractor VID (7 positions). Enter the contractor's unique Vendor Identification Number (VID) which indicates the contractor's name and business address.

(h) Item 7a--Contractor name (29 positions, including spaces). Enter the name of the contractor. (For editing purposes, the first five characters of the contractor's name must be identical to those shown in "NASA Contractor Identification Codes.") For intragovernmental actions, enter the agency name (e.g., US Army, US Navy, US Commerce) and also see the Item 8 instructions immediately below. If the activity is under a single-manager agency, enter the name of the agency.

(i) Item 7b--Contractor division (20 positions). Enter the name of the contractor's division if one is named in the contractual instrument. (For editing purposes, the first five characters of the division name must be identical to those shown in "NASA Contractor Identification Codes.") For intragovernmental actions, enter the name of the cognizant procuring activity (e.g., Electronic Systems Division).

(j) Item 7c--Contractor address--city and state. Enter city and state of contractor's address as stated in the contractual instrument.

(k) Item 8--Contractor identification code (CIC) number (7 positions). This code is obtained from the publication "NASA Contractor Identification Codes," managed by the Headquarters Procurement Systems Division (Code HM). It identifies the procurement in terms of the contractor's name, division (if any), address, and the place of performance. A unique code is assigned for each different combination of these items. For combinations not listed in the coding publication, NASA Form 507 preparers should call the Office of Procurement, NASA Headquarters (Code HM), where a code will immediately be assigned and the exact abbreviations, where appropriate, will be specified. The new code will be listed in the next issue of the coding publication.

(1) Item 9--Contractor Place of Performance (CPOP) VID (7 positions). Enter the unique Contractor Place of Performance (CPOP) VID which indicates the contractor's place of performance address. This is a seven character alphanumeric code generated by the Acquisition Management Subsystem (AMS).

(m) Items 9a--Place of performance (city---24 positions; state--2 positions). Enter the location (city and state) of the principal plant or place of business where the items will be produced or supplied from stock or where the service will be performed. (For editing purposes, the first three characters of the city name must be identical to those shown in "NASA Contractor Identification Codes.") For construction contracts, enter the site of construction. If more than one location is involved, enter the principal place of performance. For intragovernmental actions where the place of performance is unknown, enter the address of the cognizant Government agency. Enter the zip code in Item 11.

(n) Item 10--Procuring installation number (2 positions). Enter a numeric code identifying the installation responsible for the procurement. The following is a list of installations and their assigned codes:

# <u>Code</u> <u>Installation</u>

- 04 NASA Headquarters
- 05 Space Station Procurement Office
- 21 Ames Research Center
- 22 Lewis Research Center
- 23 Langley Research Center
- 24 Dryden Flight Research Center
- 51 Goddard Space Flight Center
- 53 Wallops Flight Facility
- 54 NASA Management Office-JPL
- 62 George C. Marshall Space Flight Center
- 64 John C. Stennis Space Center
- 72 Lyndon B. Johnson Space Center
- 73 Space Station Program Office
  - 76 John F. Kennedy Space Center

(o) Item 11--POP zip code (5 positions). Enter the five digit zip code corresponding to the contractor's place of performance address.

(p) Item 12--Contract award/modification date (6 positions).

(1) Contract award. Enter the year, month, and day (two numerics each) that the contract is signed by the contracting officer.

(2) *Modification date*. Enter the year, month, and day (two numerics each) that the modification is signed by the contracting officer.

(q) Item 13--Completion date (6 positions). Enter the year, month, and day (two numerics each), either specified or estimated, when all work on the contract and any modifications is scheduled for completion. This date may or may not change as modifications to the contract are issued.

(r) Item 14--Procurement placement code (2 positions). Enter the alpha procurement placement code (PPC) identifying the type of solicitation process used and the extent

of competition obtained on the procurement. (See 18-4.671-7 for PPC matrix.) The FACS system must be able to provide information on "noncompetitive procurements using competitive procedures," as required by Public Law 98-369; this is accomplished by selecting procurements coded 1 in Item 28 (Number of offers received) and coded 2, 3, or 4 in Item 18 (Extent of competition). These procurements must have one of the following competitive PPC's: AX, AE, AF, BX, BE, BF, FX, FE, FF, GF, KX, KE, QX, QF, RS, RE, RF, UX, UF, TX, TE, TF, XX, XE, XD, ZX, ZE, or ZD.

(s) Item 15--Kind of action (2 positions). Enter the numeric code from the following lists that identifies in general terms the kind of procurement and the action taken to initiate it:

#### **NEW CONTRACTS/GRANTS/ORDERS**

#### Code Kind of Action

- 01 New letter contract
- 03 New basic contract. New procurements, when the first binding document contains all the agreement's terms and conditions.
- 05 Intragovernmental. Orders issued to other Federal agencies.
- 06 Grant
- 21 Cooperative agreement or Space Act agreement
- 23 Order under Mandatory GSA-FSS. See FAR 8.404.
- 24 Order under optional (non-mandatory) GSA-FSS. See FAR 8.404-2.
- 25 Order under indefinite-delivery contract (IDC)
- 26 Order under BOA

#### MODIFICATIONS TO EXISTING CONTRACTS

#### Code Kind of Action

07 New-work modification. Modifications that add a new

18-4.671-4

procurement to existing contracts. New procurement, for the purpose of this report, means a modifi- cation action that usually requires the preparation of a Justification for Other than Full and Open Competition (see FAR 6.303).

- 08 Supplemental agreement. Bilateral, definitized modifications except those covered by code 10 below.
- 09 Change order. Change orders issued pursuant to the changes clause of the contract.
- 10 Supplemental agreement definitizing change order
- 11 Administrative/incremental funding. This code should be used for administrative changes (such as novation agreements) as well as for incremental funding modifications.
- 12 Termination for default
- 13 Termination for convenience
- 14 Definitizing letter contract
- 15 Exercising priced option
- 16 Order under reporting center's indefinite delivery contract (IDC)
- 17 Order under reporting center's BOA.

(t) Item 15a--Center kind of action (2 positions). Enter the numeric code, if applicable, from the following list that further identifies the kind of action reported in item 15:

#### Code Center Kind of Action

- 14 Small purchase
- 50 Basic ordering agreement (BOA)
- 52 Indefinite delivery type contract
- 53 Basic ordering agreement modification
- 54 Task order modification
- 60 Blanket purchasing agreement (BPA)
- 61 Call against BPA
- 99 Closing modification

Leave this item blank if none of the above choices are descriptive of the action being reported. The information provided in this item is used in the generation of Procurement Management Data Reports (PMDR). (u) Item 16--Contractor type (2 positions). Enter the appropriate code from the following:

#### **BUSINESS**

#### <u>Code</u> <u>Contractor</u>

- 01 Section 8(a)-disadvantaged. Awards placed through the Small Business Administration with a minority business firm owned and controlled by socially and economically disadvantaged individuals, in accordance with Section 8(a) of the Small Business Act.
- 03 Disadvantaged direct. Awards placed directly with a minority business firm owned and controlled by socially and economically disadvantaged individuals.
- 04 Not disadvantaged. Other large or small businesses that are not considered disadvantaged.

#### NONPROFIT ORGANIZATION

#### Code Contractor

- 05 Educational (Non-Minority). A nonminority educational institution that is <u>not</u> State, Federal, or localgovernment-owned.
- 06 Hospital. A hospital that is <u>not</u> State, Federal, or local-governmentowned.
- 08 Other nonprofit (Non-Minority). A non-minority nonprofit institution or organization that is a corporation, foundation, trust, or institution not organized for profit, and no part of its net earnings is applied to the profit of any private shareholder or individual.
- 15 Educational (HBCU). A Historically Black College or University (HBCU) that is <u>not</u> State, Federal, or localgovernment-owned.
- 18 Other nonprofit (Minority). A minority nonprofit institution or organization that is a corporation,

foundation, trust, or institution not organized for profit, and no part of its net earnings is applied to the profit of any private shareholder or individual.

25 Educational (Other Minority). A minority educational institution, other than an HBCU, that is <u>not</u> State, Federal, or local-government-owned.

# STATE/LOCAL GOVERNMENT

# <u>Code</u> <u>Contractor</u>

- 09 Educational (Non-Minority). A State, Federal, or local-government-owned non-minority educational institution. (Privately owned non-minority educational institutions shall be coded 05.)
- 10 Hospital. A State, Federal, or localgovernment-owned hospital. (Privately owned hospitals shall be coded 06.)
- 12 Other State/local government. Includes State, Federal, or local-governmentowned research organizations.
- 19 Educational (HBCU). A State, Federal, or local-government-owned Historically Black College or University (HBCU). (Privately owned HBCU's shall be coded 15.)
- 29 Educational (Other Minority). A State, Federal, or local-governmentowned non-minority educational institution, other than an HBCU. (Privately owned minority educational institutions, other than HBCU's, shall be coded 25.)
- (v) Item 16a--Woman-Owned business (1 position). Enter "Y" (yes) or "N" (no) to indicate whether the business concern is a woman-owned business. A woman-owned business is one that is at least 51 percent owned by a woman or women who are U.S. citizens and who also control and operate the business.
- (w) Item 17--Award Outside U.S. Enter "L" for an award to a source outside the U.S. Enter "M" for an award to a source inside the U.S., if the principal place of performance will be outside the U.S. When

this item is coded "L" or "M," the PPC code entered in item 14 of the NASA Form 507 must be from the "work outside U.S." category of the PPC matrix.

(x) Item 18--Extent of competition (1 position). Enter the appropriate code from the following list (except for non-new-work (within-scope) modifications):

# <u>Code</u> <u>Extent of Competition</u>

- 2 Sealed Bid. Award results from acceptance of a bid in response to a formal invitation for bids or from sealed bidding following an evaluation of technical proposals (two-step sealed bidding). (See FAR Part 14.)
- 3 Competed action--SEB. Competitive offers are solicited from more than one responsible offeror capable of satisfying the Government's requirements wholly or partially: award is based on price, design, or technical competition; and Source Evaluation Board (SEB) procedures are used to evaluate the proposals (see FAR 15.608). This code shall also be used if Architect-Engineer Selection Board procedures are used (see FAR 36.603-2).
- 4 Other competed action. Competitive offers are solicited from more than one responsible offeror capable of satisfying the Government's requirements wholly or partially; award is based on price, design, or technical competition; and Source Evaluation Board procedures are not used to evaluate the proposals.
- 5 Noncompetitive follow-on to competed action. The procurement is for the continued development or production of a major system or highly specialized equipment, including major components thereof, that is considered available only from the original source, and it is likely that award to any other source would result in (1) substantial duplication of cost to the Government that is not

expected to be recovered through (2)competition, or unacceptable delays in fulfilling NASA's requirements (see FAR 6.302-1(b)(2).

Other not competed. Only one offer is 6 solicited and only one offer is received capable of satisfying the Government's requirements wholly or partially; the work involved is not a follow-on procurement reportable under code 5 above. Include awards resulting from unsolicited proposals in this category.

(y) Item 19--Type of service or product (4 positions). Enter the code indicating the principal type of effort or end item obtained under the contract. If more than one classification applies to the procurement, enter the one accounting for the largest dollar volume of procurement. Codes have been established to identify research and development (R&D) procurements, service contracts, and supply and equipment contracts. These codes may be found in the FPDS Product and Service Codes manual located in the procurement administrative office at each NASA installation. Information on the most frequently used R&D codes is presented below.

(1) **R&D** procurement--R&D codes are used for --

All contracts for R&D work, (i) and

(ii) Most, but not all, contracts with educational institutions.

(2) Space R&D (first 3 digits)-- If the procurement involves space R&D, use one of the following for the first three digits of the four-position code:

| <u>R&amp;D</u> | Type of R&D Procurement        |
|----------------|--------------------------------|
| <u>Code</u> *  |                                |
| ARI            | Aeronautics & Space Technology |
| AR2            | Space Science & Applications   |
| AR3            | Space Flight                   |
| AR4            | Space Operations               |
| AR6            | Space Station                  |
| AR7            | Commercial Programs            |

AR9 Other Space

\*See subparagraph (aa)(3) below.

(3) Space R&D (fourth digit)--If the procurement involves space R&D, use one of the following for the fourth digit of the four position code. The terms in this list are explained in the following subdivisions:

#### Code Meaning

- Basic Research 1
- 2 Applied Research and Exploratory Development
- 3 Advanced Development
- 4 Engineering Development
- 5 **Operational Systems Development**
- 6 Management and Support

(i) Basic Research--Includes all scientific effort and experimentation directed toward increasing knowledge and understanding in those fields of the engineering, environmental, physical. social, and life sciences related to long-term national needs. It provides fundamental knowledge ultimately required for the solution of social, economic, political, physical, or military problems. It forms a part of the base for subsequent applied research and exploratory and advanced development in the various disciplines, and new or improved functional capabilities.

(ii) Applied Research and exploratory development--Includes all effort directed toward the solution of specific problems, short of major development projects. This type of effort may vary from fairly fundamental applied research to quite sophisticated breadboard hardware, study, programming, and planning efforts. It thus includes investigations and minor development effort. The dominant characteristic of this category of effort is that it be pointed toward specific problem areas with a view toward developing and evaluating the feasibility and practicability of proposed solutions and determining their parameters.

(iii) Advanced development--Includes all effort directed toward projects which have moved into the development of

hardware for test. The prime result of this type of effort is proof of design concept and/or prototype.

(iv) Engineering development--Includes those projects in full-scale engineering development for Government use but which have not yet received approval for production or had production funds included in the budget submission for the current or subsequent fiscal year. This area is characterized by major line-item projects.

(v) Operational systems development--Includes those projects still in full-scale engineering development but which have received approval for production, or production funds have been included in the budget submission for the current or subsequent fiscal year.

(vi) Management and support--Includes all effort directed toward support of installations or operations required for general research and development. Included would be construction of a general nature unrelated to specific programs, maintenance support of laboratories, operation and maintenance of test ranges, and maintenance and support of test aircraft, equipment, or ships. Costs of laboratory personnel, either in-house or contractor, would be assigned to appropriate projects or program areas above.

(z) Item 20--Physically complete (1 position). Enter "Y" (yes) if the contract is physically complete, i.e., after all articles and services called for under the contract, including such related items as reports, spare parts, and exhibits, have been delivered to and accepted by the Government (see FAR 4.804-4). Also enter the date that the contract is physically completed. Otherwise, this field should be left blank.

(aa) Item 20a--Contract/Grant Proposal Number (18 positions). Enter the contract/grant proposal number in this field. This field is optional and not reported to Headquarters. (bb) Item 21--Labor surplus area award (1 position). "Y" or "N" to indicate whether the award is to a concern in a labor surplus area (see FAR Subpart 20.1).

(cc) Item 22--FSS/Indefinite-delivery/ BOA contract no. (15 positions). Enter the Federal Supply Schedule (FSS), indefinitedelivery, or basic ordering agreement (BOA) contract number under which a delivery order has been placed if Item 15 (Kind of Action) is coded 23, 24, 25, or 26.

(dd) Item 23--Description of contract/ modification (narrative). Enter a brief description of the end item or services being procured. For modifications, enter a brief description of the purpose.

(ee) Item 24--CICA applicability (1 position).

(1) **Pre-CICA:** Code I Enter if the contract action is a new contract resulting from a solicitation issued before April 1, 1985, irrespective of the award date. All within-scope modifications to such contracts and new-work modifications resulting from solicitations issued before April 1, 1985, are to be reported by this code.

(2) Post-CICA: Code 2 Enter if the contract action is a new contract resulting from a solicitation issued on or after April 1, 1985. All modifications to such contracts are to be reported by this code.

(ff) Item 25--Proposed procurement synopsized (1 position). Enter "Y" if the procurement was synopsized prior to award in the Department of Commerce's Commerce Business Daily. Enter "N" if the procurement was not synopsized, except enter "U" if the procurement was not synopsized because of urgency.

# (gg) Item 26--Contract type (2 positions).

(1) Enter the code that identifies the type of contract from the following list:

#### <u>Code</u> <u>Contract Type</u>

- 01 Fixed-Price, Firm (FAR 16.202 and 16.207). (Include Firm Fixed-Price, level-of-effort term contracts in this category.)
- 02 Fixed-Price, Redetermination (FAR 16.205).
- 03 Fixed-Price with Economic Price Adjustment (FAR 16.203).
- 04 Fixed-Price Incentive (FAR 16.204).
- 05 Cost (No Fee) (FAR 16.302).
- 06 Cost-Sharing (FAR 16.303). (The estimated cost reported shall include only the Government's share.)
- 07 Cost-Plus-Fixed-Fee (FAR 16.306).
- 08 Cost-Plus-Incentive-Fee (FAR 16.404-1).
- 09 Time-and-Materials (FAR 16.601).
- 10 Labor-Hour (FAR 16.602).
- 12 Cost-Plus-Award-Fee (FAR 16.404-2).

(2) Combination contract types shall be reported as follows:

(i) Where the contract has one type of incentive arrangement applying to cost performance and another to technical and/or schedule performance, report the contract type assigned to the cost- incentive feature; e.g., a contract providing a costplus-incentive-fee arrangement on cost and an award fee arrangement on technical and/or schedule performance will be reported as "Code 08--Cost-Plus-Incentive-Fee."

(ii) Where one or more items of work are priced exclusively under one of the arrangements coded above, with one or more additional items priced exclusively under another such arrangement, report the contract type in accordance with the code assigned to the arrangement under which the predominate dollar amount will be spent.

- (hh) Item 27--No. of offerors solicited (3 positions). Enter the number of firms to which solicitations were provided.
- (ii) Item 28--Number of offers received (3 positions). Enter the actual number of

offers received in response to the solicitation.

(jj) Item 29--Solicitation procedures (1 This item pertains to the position). requirements of FAR Subparts 6.1 (Full and Open Competition), 6.2 (Full and Open Competition After Exclusion of Sources), and 6.3 (Other Than Full and Open Competition), with the exception of the statutory authorities for other than full and open competition (Subpart 6.3), which are reported in Item 30. Codes "A" through "L" designate the competition alternatives described in FAR Part 6. Delivery-order contract actions under indefinite-delivery contracts shall be reported the same as the initial contract when the following criterion, in FAR 6.001(e), is met: They are orders placed under indefinite-delivery contracts that were entered into pursuant to FAR Part 6, and either the contract was awarded under Subpart 6.1 or 6.2 and all responsible sources were realistically permitted to compete for the requirements contained in the order, or the contract was awarded under Subpart 6.3 and the required justification and approval adequately covers the requirements contained in the order.

(1) Code A--Full and open competition sealed bid is entered when the sealed bidding (see FAR 6.401(a)) method of contracting was used.

(2) Code B--Fulland open competition--competitive proposal is entered when the FAR Part 15, Contracting by Negotiation, procedures were used for a competitive solicitation.

(3) Code C--Full and open competition--combination is entered when any combination of competitive procedures (e.g., two-step sealed bidding) was used (see FAR 6.102(c)).

(4) Code D--Architect-engineer is entered if the action resulted from selection of sources for architect-engineer (A&E) contracts in accordance with P.L. 92-582 and procedures in FAR Subpart 36.6 (see FAR 6.102(d)(1)). The selection of a potential A&E contractor is made by an A&E Evaluation Board conducted in accordance with 41 U.S.C. 541 et seq. This selection process is considered a competitive procedure and shall be reported as a competitive award. When award is an A&E contract and was a result of a small business set-aside or labor surplus area setaside, use code K in lieu of this code.

(5) Code E--NASA Research Announcement/Announcement of Opportunity is entered if the action resulted from competitive selection of basic research proposals as a result of (i) a broad agency announcement (NASA Research Announcement or Announcement of Opportunity) that is general in nature identifying areas of research interest, including criteria for selecting proposals, and soliciting the participation of all offerors capable of satisfying the Government's needs and (ii) a peer or scientific review (see FAR 6.102(d)(2)).

(6) Code F--Multiple-award schedule is entered if the action is an order issued against a multiple-award schedule using the procedures in FAR 8.405-1 (see FAR 6.102(d)(3)). This code shall be used for multiple-award schedule contracts (mandatory or optional). This code may be used for ADP procurements, unless the solicitation utilized make-or-model specifications. Use of the multiple-award schedule program is considered to be a competitive procedure because competitive procedures were used by GSA to make the basic multiple-award schedule contract awards under 41 U.S.C. 259(b)(3)(A). For reporting purposes, an order issued against a multiple-award schedule shall be reported as a competitive award.

(7) Code G--Alternate source-- reduced cost is entered if the action was taken pursuant to FAR 6.202(a)(1), which states that agencies may exclude a particular source from a contract action in order to establish or maintain an alternative source or sources for the supplies or services being acquired if the agency head determines that to do so would increase or maintain competition and likely result in reduced overall costs for the acquisition, or for any anticipated acquisition of such supplies or services.

(8) Code H--Alternate source-mobilization is entered if the action was taken pursuant to FAR 6.202(a)(2), which states that agencies may exclude a particular source from a contract action in order to establish or maintain an alternative source or sources for the supplies or services being acquired if the agency head determines that to do so would be in the interest of national defense in having a facility (or a producer, manufacturer, or other supplier) available for furnishing the supplies or services in case of a national emergency or industrial mobilization.

(9) Code J--Alternate source-engineering / R&D capability is entered if the action was taken pursuant to FAR 6.202(a)(3), which states that agencies may exclude a particular source from a contract action in order to establish or maintain an alternative source or sources for the supplies or services being acquired if the agency head determines that to do so would be in the interest of national defense in establishing or maintaining an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center.

(10) Code K--Set-asides is entered if the action resulted from use of procedures for set-asides pursuant to FAR 6.203. This includes small business set-asides, labor surplus area set-asides, or combinations thereof. This code also includes contract actions under the Small Business Innovation Research (SBIR) Program established under Pub. L. 97-219.

(11) Code L--Other than full and open competition is entered if the action resulted from use of other than full and open competition pursuant to 10 U.S.C. 2304(c). The conditions or exceptions permitting contracting without providing for full and open competition are prescribed in FAR 6.302. Enter this code for noncompetitive awards made under the authority of Section 8(a) of the Small Business Act (see FAR Subpart 19.8). This code shall also be used for all ADP procurements where the solicitation utilized make-and-model specifications.

(kk) Item 30--Authority for other than full and open competition. When Item 29 is coded "L," this item must be completed. Enter the applicable code from the categories listed below. This item identifies the solicitation process and not the extent of competition obtained.

(1) Code A--Unique source is entered when the contract action is under 10 U.S.C. 2304(c)(1) and the agency's minimum needs can be satisfied only by unique supplies or services available from only one source or only one supplier with unique capabilities (see FAR 6.302-1(b)(1)).

(2) Code B--Follow-on contract is entered when the contract action is under 10 U.S.C. 2304(c)(1) and it is likely that the award of follow-on contracts must be to the original source because award to any other source would result in (i) substantial duplication of cost to the Government that is not expected to be recovered through competition or (ii) unacceptable delays in fulfilling the agency's requirements (see FAR 6.302-1(a)(2)(ii)).

(3) Code C--Unsolicited research proposal is entered when the contract action is under 10 U.S.C. 2304(c)(1) as the result of acceptance of an unsolicited research proposal that demonstrates a unique and innovative concept, the substance of which (i) is not otherwise available to the Government and (ii) does not resemble the substance of a pending competitive acquisition (see FAR 6.302-1(a)(2)(i)).

(4) Code D--Patent/data rights is entered when the contract action is under 10 U.S.C. 2304(c)(1) because the existence of limited rights in data, patent rights, copyrights, or secret processes; the control of basic raw material; or similar circumstances make the supplies and services available from only one source (see FAR 6.302-1(b)(2)).

(5) Code E--Utilities is entered when (i) the contract action is under 10 U.S.C. 2304(c)(1) when acquiring electric power or energy, gas (natural or manufactured), water, or other utility services and circumstances dictate that only one supplier can furnish the service or (ii) the contemplated contract is for construction of a part of a utility system and the utility company itself is the only source available to work on the system (see FAR 6.302-1(b)(3)).

(6) Code F--Standardization is entered when the contract action is under 10 U.S.C. 2304(c)(1) because the agency head has determined under the agency's standardization program that only specified makes and models of technical equipment and parts will satisfy the agency's needs for additional units or replacement items and only one source is available (see FAR 6.302-1(b)(4)).

(7) Code G--Only one source-- other is entered when the contract action is under 10 U.S.C. 2304(c)(1) to a single source and codes "A" through "F" above do not apply (see FAR 6.302-1(b)).

(8) Code H--Urgency is entered when the contract action is under 10 U.S.C. 2304(c)(2) because (i) an unusual and compelling urgency precludes full and open competition and (ii) delay in award of a contract would result in serious injury, financial or other, to the Government (see FAR 6.302-2(b)).

(9) Code J--Mobilization is entered when the contract action is under 10 U.S.C. 2304(c)(3) to a particular source or sources in order to maintain a facility, producer, manufacturer, or other supplier available for furnishing supplies or services in case of a national emergency or to achieve industrial mobilization (see FAR 6.302-3(b)(1)).

(10) Code K--Essential R&D capabilities is entered when the contract action is under 10 U.S.C. 2304(c)(3) to a particular source or sources in order to establish or maintain an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center (see FAR 6.302-3(b)(2)).

(11) Code L--International agreement is entered when the contract action is under 10 U.S.C. 2304(c)(4) because full aid open competition is precluded by (i) the terms of an international agreement or treaty between the United States and a foreign government or international organization or (ii) the written directions of a foreign government reimbursing the agency for the cost of the acquisition of the supplies or services (see FAR 6.302-4).

(12) Code M--Authorized by statute is entered when the contract action is under 10 U.S.C. 2304(c)(5) because a statute expressly authorizes or requires that the acquisition be made through another agency or from a specified source (see FAR 6.302-5(a)(2)(i)). This code should be used for noncompetitive 8(a) awards.

(13) Code N--Authorized resale is entered when the contract action is under 10 U.S.C. 2304(c)(5) for a brand-name commercial item for resale through commissaries or other similar facilities (see FAR 6.302-5(a)(2)(ii)).

(14) Code P--National security is entered when the contract action is under 10 U.S.C. 2304(c)(6) because disclosure of the Government's needs would compromise the national security (see FAR 6.302-6).

(15) Code Q--Public interest is entered when the contract action is under 10 U.S.C. 2304(c)(7) because the agency head has determined that full and open competition is not in the public interest in the particular acquisition concerned (see FAR 6.302-7).

(11) Item 31--Labor statutes (1 position). Enter the appropriate code, in accordance with the provisions of the contract, from the following list:

# Code Statutory Requirements

- N Not subject to statutory requirements listed below.
- 1 Subject to Walsh-Healey Act, manufacturer (FAR 22.606-1).
- 2 Subject to Walsh-Healey Act, regular dealer (FAR 22.606-2).
- 3 Subject to Service Contract Act (FAR Subpart 22.10).
- 4 Subject to Davis-Bacon Act (FAR 22.403-1).

(mm) Item 32--Standard Industrial Classification (SIC) Code (4 positions). Enter the code identifying the industry category within which the principal (determined by the predominance of dollars awarded) product produced or distributed or services rendered would best fit. Industry categories are published in the Standard Industrial Classification Manual maintained and issued by the Office of Management and Budget (OMB). A listing of the SIC codes, without the detailed lists of products and services falling within each category, can be found at FAR 19.102(g).

(nn)Item 33--Contract administration delegated. Enter "Y" (yes) or "N" (no) in the first blank to indicate whether any contract administration functions have been delegated to another Government agency (see FAR Subpart 42.2). If an "N" was entered, leave the rest of this field blank. If a "Y" was entered, continue to the second blank and enter a "Y" or "N" to indicate whether there was a blanket delegation. A blanket delegation is defined as a delegation of all contract administration functions listed in FAR 42.302(a), with the exception of those nonassignable functions specified in NFS 18-42.202(c), plus post award audit. If not a blanket delegation, enter a "Y" for each individual function delegated among the ten items listed. It is not necessary to enter an "N" for non-delegated functions.

(00) Item 34--Preference program. Report the code that represents the preference program used in making the award. Report Code H if no preference program applies or the preference program is not otherwise listed.

(1) Code A--Directed to sheltered workshops. Report this code for an award to a workshop for the blind or a workshop for the other severely handicapped pursuant to FAR Subpart 8.7.

(2) Code B--8(a) Program. Report this code for actions with the Small Business Administration pursuant to FAR Subpart 19.8. (3) Code C--Combined labor surplus/small business set-aside. Report this code for a combined labor surplus area and small business set-aside award made to a small business concern pursuant to FAR Subpart 19.5.

(4) Code D--Small business set-aside. Report this code for a small business setaside (including Small Business Innovation Research (SBIR)) award made pursuant to FAR Subpart 19.5.

(5) Code E--Labor surplus area setaside. Report this code for a labor surplus area set-aside award made pursuant to FAR Subpart 20.2.

(6) Code F--Tie-bid preference. Report this code for all tie-bid preference awards (see FAR 19.202-3) made pursuant to FAR Subpart 19.5.

(7) Code G--Designated entities setaside. Report this code for awards set-aside for disadvantaged business, women-owned business, HBCU's, and other minority institutions. (This covers the 26 procurements authorized by the D&F signed by the Administrator on December 1, 1992.)

(8) Code H--No preference program. Report this code if the award is not made pursuant to a preference program, or if the preference program is not listed above.

(pp) Item 35--Advisory/Assistance services contract (1 position). Enter "Y" (yes) or "N" (no) to indicate whether the contract is for advisory and assistance services (formerly known as consulting services).

(qq) Item 36--Support services type contract (1 position). Enter "Y" (yes) or "N" (no) to indicate whether the contract is for support services. Compare the following explanations with the procurement in question in determining how to code this item:

(1) In-house contract support--

(i) Provides a service to the installation;

(ii) Is performed on or near the installation;

(iii) Is continuous in nature;

(iv) Is not provided by the prime

product development contractor when the work is for the purpose of fulfilling the prime contract;

(v) Is characterized as that support necessary because of the on- or near-site population and activated facilities (housekeeping maintenance and operation function) and the effort necessary to support the research, development, or test efforts the installation performs in-house; and

(vi) Excludes--

(A) Construction, alteration, and repair;

(B) Purchase and incidental services;

(C) Prime product development contracts;

(D) Operations support contracts; and

(E) Tenants.

(2) Operations support contracts. This is work performed on- or near-site because of the location of major operations facilities. (This is the effort associated with carrying out mission operations; it is done on-site because that is where the supported facility is--a launch pad, mission control center, or tracking station.) Tracking operations support contractors are subdivided as on-site (at or near GSFC or JPL) or off-site.

(i) Operations support contractors are restricted to major national operations facilities and the following foreign and domestic tracking network stations:

(A) JPL-Mission Control Center (DSN)

(B) Goldstone

(C) Mesa Antenna Range

(D) JSC-Mission Control Center (MSF)

(E) GSFC-Mission Control Center (STDN)

(F) World-Wide Network Tracking Stations

(G) OTDA-Operations Funded Support

(H) KSC-Launch Complex 39 and related support facilities. (ii) Operations support includes support funded by STS operations at MSFC, KSC, and JSC.

(3) Purchased and/or incidental services.

(i) Purchased services are those obtained by--

(A) Delivery orders against Federal Supply Schedules;

(B) Purchase orders;

(C) Blanket purchase agreements; or

(D) Basic ordering agreements not exceeding \$25,000 per order.

(ii) Incidental services are--

(A) Described in terms of the labor required to perform the services;

(B) Procured from vendors that provide similar services to the local community;

(C) Those for which the vendor provides all or a substantial amount of the capital investment required to perform the work under the contract; and

(D) Rendered under small contracts generally not exceeding four-tofive staff-years per year.

(rr) Item 37--Cost Accounting Standards clause (1 position). Enter "Y" (yes) or "N" (no) to indicate whether the contract contains the Cost Accounting Standards clause (see FAR 30.201-4).

(ss) Item 38--New technology or patent rights clause (1 position). Enter "Y" (yes) or "N" (no) to indicate whether a new technology or patent rights clause is included in the contract. (See 18-27.373). A "Y" entry for contracts with small businesses, nonprofit organizations, and educational institutions will indicate a patent rights clause. A "Y" entry for contracts with large businesses will indicate a new technology clause.

(tt) Item 39--Subcontracting program plan (1 position). Enter "Y" (yes) or "N" (no) to indicate whether the contract contains a subcontract plan requiring the contractor to furnish the information prescribed on Standard Forms 294 and 295 (see 18-4.674 and FAR 19.702). Enter "W" (waiver) when there are no subcontracting opportunities, for contracts performed entirely outside the United States, and for GSA Federal Supply Schedule contracts containing plans. Use Code "Y" for corporate plans with individual contract goals.

(uu) Item 40--SBIR award (1 position). Enter Code "N" (no) if the contract action is not in support of the Small Business Innovation Research (SBIR) Program (P.L. 97-219). Enter Code "1" if the contract action is related to a Phase I contract in support of the program. Enter Code "2" if the contract action is related to a Phase II contract in support of the program. Enter Code "3" for Phase III SBIR contracts.

(vv) Item 41--(Reserved)

(ww) Item 42--Contract for foreign government or international organization. Enter "Y" (yes) if a foreign government or international organization is bearing any part of the cost of the action. Otherwise, enter "N" (no).

(xx) Item 43--Management reporting requirements (MRR): correlated cost and performance data reporting (1 position). Enter one of the following codes (see NHB 9501.2):

# Code Reporting Required

- N None required
- 2 NASA Form 533M only
- 3 NASA Forms 533M and 533Q
- 4 NASA Forms 533M and 533P
- 5 NASA Forms 533P and 533Q
- 6 NASA Forms 533M, 533P, and 533Q

(yy) Item 44--Management reporting | requirements (MRR): property and space hardware reporting (1 position). Enter one of the following codes (see FAR 45.505-11):

#### Code Reporting Required

- N None required
- 2 NASA Form 1018, without space hardware
- 3 NASA Form 1018, with space hardware
- (zz) Item 45--Trade data (3 blocks).

(1) First block--number of bidders offering foreign item (1 position). Enter one numeric code (0-9) to indicate the number of firms that offered foreign end products. An entry is required regardless of whether the Buy American Act is invoked or not. If none, enter "0". If 9 or more, enter "9".

(2) Second block--Percent difference (2 positions). If the evaluation factor under the Buy American Act is used and results in award to a firm offering a domestic product, enter the percentage difference between the award price and that of the low firm offering a foreign end product, computed before application of the Buy American Act differential, i.e., the difference divided by the price of the low firm offering a foreign end product. Enter the percentage as a whole number. If the evaluation factor under the Buy American Act is not used, enter "00".

Third block--Country of (3) manufacturer (2 positions). If the product is manufactured, mined, or grown in the United States (the 50 states and the District of Columbia) or the service is performed by a U.S. contractor, enter "US". If the product is manufactured, mined, or grown in a foreign country, enter the code from FIPS PUB 10-3 of that country/area. In the case of a service, if the service is performed by a foreign contractor, enter the code from FIPS PUB 10-3 of that country/area. This publication may be obtained from the Headquarters Office of Procurement, Procurement Management Division (Code HM).

(aaa) Item 46--Demonstration test program (1 position). Enter "Y" or "N" to indicate whether the award is a new contract awarded to a U.S. business concern as a result of a solicitation issued on or after January 1, 1989, under the Small Business ompetitiveness Demonstration Program (see FAR Subpart 19.10 and NFS 18-19.10). This item must be completed for awards to large businesses as well as for awards to small businesses.

(bbb) Item 47--Emerging small business (1 position). Complete this item only if Item 46 is coded "Y." Enter "Y" or "N" to indicate whether the contractor represents that it is an emerging small business concern (see FAR 19.1002 for definition of emerging small business).

(ccc) Item 48--Emerging small business | reserve award (1 position). Complete this item only if Item 47 is coded "Y." Enter "Y" or "N" to indicate whether the contract award was reserved for emerging small business concerns.

(ddd) Item 49--Size of small business (1 position). Complete this item only if Item 46 is coded "Y" and the award is to a small business. Enter the code that corresponds to the range of the number of employees or the range of the average annual gross revenue for the small business contractor receiving the award as represented by the contractor in response to the solicitation.

(ecc) Item 50--Value Engineering Clause. | Enter "Y" (yes) or "N" (no) to indicate whether the contract contains any one of the value engineering clauses at FAR 52.248-1, 52.248-2, or 52.248-3.

(fff) Item 51--Effective date. Enter the year, month, and day (two numerics each) of the contract's effective date.

(ggg) Item 52--Security code (1 position). Enter "Y" or "N" to indicate whether Defense Industrial Security clearances are required during contract performance. (hhh) Item 53--Equipment code (1 position). Enter "Y" or "N" to indicate whether the contract will involve government furnished or contractor acquired property.

- (iii) Item 54--Administrator code (3 positions). Enter the code which identifies the individual at the contracting installation responsible for administration of the contract.
- (jjj) Item 55--Contracting officer code (3 positions). Enter the code which identifies the contracting officer assigned to the contract.
- (kkk) Item 56--Negotiator code (3 positions). Enter the code which identifies the individual responsible for negotiating the contract.
- | (111) Item 57--COTR name (15 positions). Enter the name of the Contracting Officer's Technical Representative (COTR) for the contract.
- (mmm) Item 58--Organization code (5 positions). Enter the organization code for the responsible technical organization for which the contract has been awarded.
- (nnn) Item 59--Contract fund code (1 position). Enter the appropriate code to indicate whether the contract is fully funded, incrementally funded, or unfunded.
- (000) Item 60--Reason not small business (2 positions). Enter the appropriate two digit code to identify the reason the contract was not awarded to a small business concern.
- (ppp) Item 61--Center unique. This field may be used at the discretion of individual centers to collect data not elsewhere reported on the form (e.g., taxpayer identification numbers). Otherwise leave this item blank.
- (qqq) Item 62--Cancellation date (6 positions). If it is necessary to cancel a previously executed modification, enter the

year, month, and day (two numerics each) of such cancellation.

(rrr) Item 63--Total contract value including options. Enter the definitized contract value (including maximum potential fee or profit) plus the value of any options (including maximum potential fee or profit) available in the contract. Round entries to the nearest whole dollar.

(sss) Item 64--Estimated cost or fixed price (11 positions). Enter the estimated cost or fixed price for all new awards. For modifications, enter only the increase or decrease effected by the respective modification. For cost-reimbursement contracts, enter the estimated cost, exclusive of fee. For fixed-price contracts, enter the total fixed price, including the negotiated profit. For time-and-materials and laborhour contracts, enter the total estimated contract price, including profit. Round all entries to the nearest whole dollar. Do not report amounts for priced options that have not been exercised in this field.

(ttt) Item 65--Fee (11 positions). This item pertains to cost-reimbursement contracts only. For new awards, enter the definitized negotiated fee, broken down into the types of fee indicated on the form. For modifications, enter only the increase or decrease effected by the respective modification. For incentive contracts, enter the target fee. For award-fee contracts, enter the base fee plus the maximum available award fee. Also enter the total of the different types of fees reported. Round entries to the nearest whole dollar.

(uuu) Item 66--Action obligation. Enter the dollar amount obligated (increase or decrease) of the reported action. Report obligations for cost and fee separately and enter the total obligations reported. Round entries to the nearest whole dollar.

(vvv) Item 67--Funded through date (6 positions). For incrementally funded contracts, enter the date through which the contract is funded.

(a) The accounting copies for all procurements of \$25,000 or less from "Disadvantaged Business Firms-Direct" shall be coded with the second letter "M" in the PPC; e.g., BM or KM.

(b) The accounting copies for a11 procurements of \$25,000 or less from "Women-Owned Business Firms" shall be coded with the second letter "W" in the PPC; e.g., BW or KW.

(c) All procurement awards over \$25,000 and the accounting copies for procurement actions of \$25,000 or less (no NASA Form 507 is required) placed through the Small Business Administration with a disadvantaged business firm under Section 8(a) of the Small Business Act shall be coded with PPC "PS."

(d) All NASA funded Phase I and Phase II awards under the Small Business Innovation Research (SBIR) Program shall be coded with PPC "HS". All Phase III SBIR awards funded by Agencies other than NASA shall be coded with PPC "GF".

(e) The accounting copies for all procurements (except FSS orders) of \$2,500 or less shall be coded with PPC's CC, EC, HC, IC, LC, MC, OC, PC, VC, or ZC.

# 18-4.671-7 Procurement placement codes (PPC's).

Table 18-4-1 (located at the end of this subpart) is the PPC matrix containing alpha codes required for coding all procurements. The codes apply to Item 14 on NASA Form 507 and are used to identify post-CICA procurements, the type of solicitation process used, and the extent of competition for the procurement.

# 18-4.672 Report on NASA Subcontracts clause.

(a) NASA Form 667, Report on NASA Subcontracts, is used to obtain information relating to the geographic distribution of subcontracts awarded under certain NASA contracts.

(b) The clause at 18-52.204-70, Report on NASA Subcontracts, shall be inserted in all NASA contracts of \$500,000 or more or when a modification increases the amount of a contract to \$500,000 or more. In the latter instance, the clause will be inserted at the time of the modification but will not be retroactive so as to require the reporting of subcontracts awarded previously.

#### 18-4.674 Subcontracting report.

Standard Forms 294, Subcontracting Report for Individual Contracts, and 295, Summary Subcontract Report, are used to obtain data to provide a basis for evaluating the effectiveness and extent of subcontracting programs involving small and small disadvantaged business concerns pursuant to the Small Business Act of 1958, as amended by Public Law 95- 507. (See FAR 19.708(b).)

# 18-4.675 NASA contractor financial management reporting.

When financial management reporting on the NASA Form 533 series of reports is required (see NMI 9501.1, NASA Contractor Financial Management Reporting System), this requirement shall be detailed in the procurement request, and the reporting shall be required by inclusion of the appropriate clause or clauses prescribed in 18-4.675-1.

#### 18-4.675-1 Contractor financial management reporting.

(a) The clause at 18-52.204-71, NASA Contractor Financial Management Reporting, shall be used when any of the NASA Form 533 series of reports are required from the contractor.

(b) The clause at 18-52.204-72, NASA Contractor Financial Management Reporting (Performance Analysis Report), shall be used in conjunction with the clause at 18-52.204-71 when the optional Monthly Performance Analysis Report is also required from the contractor.

# 18-4.676 Committee on Academic Science and Engineering (C.A.S.E.) Report.

NASA Form 1356, C.A.S.E. Report on College and University Projects, shall be prepared for awards to nonprofit institutions of higher education or to nonprofit institutions that are operationally

affiliated or integrated with an educational institution. Information on this form is used to produce reports required by the National Science Foundation and to respond to inquiries. Submission is required regardless of instrument type (contract, grant, or cooperative agreement) and type of proposal (solicited or unsolicited). Instructions appear on the form itself and constitute the detailed guidance for preparation and submission. The form. which is either included with the acquisition package or initiated by the contracting office, shall be completed, reviewed, and promptly forwarded upon award to the Education Division, Higher Education Branch, NASA Headquarters (Code FEH).

#### SUBPART 18-4.8 CONTRACT FILES

#### 18-4.802 Contract files.

The cognizant NASA contracting office shall maintain the contract administration file unless contract administration functions have been delegated under FAR Subpart 42.1.

# 18-4.802-70 Handling of classified material.

When the bulk of the material concerning a contract is unclassified. material classified relating to that contract shall be maintained in a separate file folder and container, and the unclassified folder shall be marked cross-referenced to indicate the or location of the classified material. The front and back of each folder containing classified material shall be marked with the highest classification assigned to any document in the folder.

# 18-4.802-71 Filing of documents.

(a) Documents relating to a specific contract or described in FAR 4.803(a), (b), or (c) should normally be placed in chronological order in an "OFFICIAL FILE" folder or folders. Each folder shall be marked or labeled with the contract number and, when more than one folder is required for the same contract, with information as to the file segment. However, documents regarding quality assurance and property may be maintained in separate files to facilitate possible early disposal. Other identifying data, such as the contractor's name, should be added only when needed to facilitate filing and locating.

(1) When a single folder is used, basic procurement documents and all modifications ordinarily should be filed on the left side and all other material on the right. As volume warrants, a contract file may be subdivided further, either within the folder or by using additional folders, as appropriate (e.g., pre-contract documents, basic by modifications. contract, contract termination documents, quality assurance and progress and production surveillance. administration and plant property clearance. termination documents, and general correspondence).

(2) When it is impractical to file certain documents in the official contract folder because of their bulk or use, they may be maintained separately in other suitable containers but shall be handled as "OFFICIAL FILES" and crossreferenced in the contract file.

(3) Documents relating more to than one contract may be filed in one contract file and cross-referenced in the others; otherwise enough copies must be reproduced to provide for filing one in each related contract file. Other pertinent documents of a more general nature may be filed separately in the "general" file and CTOSScontractor referenced in the contract file.

(b) Documents described in FAR 4.801(c)(3) and relating generally to the contractor rather than to a specific contract shall be placed in a folder labeled with the contractor's name. When necessary, additional folders may be used and the material subdivided by subject (e.g., general, production, termination, property control, and performance).

#### 18-4.802-72 Arrangement of files.

(a) Contract file folders normally should be arranged numerically by When contract serial number. special circumstances warrant, contract folders alphabetically arranged by mav be contractor's name.

#### ADMINISTRATIVE MATTERS

(b) Contractor "general" file folders shall be arranged alphabetically by name of the contractor.

18-4.803 Contents of contract files.

18-4.803-71 Checklist.

NASA Form 1098, Checklist for Contract Award File Content, shall be used as the "top page" in contract files. The form is intended as a reminder of the required or most important documents in the file. It also provides a uniform tab-numbering the most frequently system. Only are listed. documents occurring Therefore, space is provided for writing in additional documents applicable to specific contracts or resulting from local guidelines. The user is cautioned that completion of the NASA Form 1098, in and of itself, does not establish that all contract actions have been taken and/or properly documented.

18-4.804 Closeout of contract files.

18-4.804-2 Closeout of the contracting office files if another office administers the contract.

(a) Upon receiving the NASA Form 1611, Contract Completion Statement, from the contract administration office and complying with FAR 4.804-2(b), the contracting officer shall complete Item 10 of the NASA Form 1611.

(b) The date in Item 9d of NASA Form 1611 shall be used as the closeout date for file purposes, except that the date in Item 10e shall be used when completion of any pending significant contracting office action extends more than 3 months beyond the date shown in Item 9d.

# 18-4.804-5 Detailed procedures for closing out contract files.

When the contracting office retains (a) contract administration (excluding small purchases), the contracting officer shall comply with FAR 4.804-5(a) by completing NASA Form 1612, Contract Closeout Checklist, and DD Form 1593, Contract Administration Completion Record. To with FAR 4.804-5(b), the comply contracting officer shall complete NASA Completion 1611. Contract Form Statement.

(b) For small purchase files, the contracting officer shall file signed statements that all contract actions are complete.

#### 18-4.805 Disposal of contract files.

See NHB 1441.1, NASA Records Disposition Handbook.

18-4.805-70 Review, separation, and retirement of contract files.

(a) Review of contract case and cross reference locator files. Upon determination of contract completion under the procedures outlined in 18-4.804, each office shall review all files pertaining to the individual contract, as follows:

(1) Duplicate or working contract case file. Remove any original or official file copies of documents and place them in the appropriate official file; destroy immediately any remaining material or segregate and mark it for early disposal.

(2) Official contract case file. Remove the folders for completed contracts from the active file series, folder or folder tab mark each with "Completed (Date)", and place the completed (inactive) in а folder Separate series series. contract file should be established for contracts of \$25,000 or less and for contracts of more facilitate later than \$25,000, to disposal.

(3) Cross reference/locator files. Remove any contract cross-reference data forms relating to the completed contract, mark each folder with "Completed (Date)", and place each folder in a completed (inactive) cross-reference/locator file series for later disposal.

(b) Review of contractor "general" files. Each office shall review contractor "general" files at least once annually and remove documents that --

(1) Are obsolete or superseded generally to the relating documents contractor (e.g., documents no longer pertinent to any aspect of a contractor's capability. future or current performance, or programs, and documents relating to a contractor that is no longer a possible source of supplies, services, or technical assistance) and dispose of the documents as authorized in 18-4.805; or

completed (2) Pertain only to files that are contracts. Place those not routine in nature in inactive files immediately later disposal, and for documents of routine as dispose authorized in NHB 1441.1, NASA Records Disposition Handbook.

.

#### SUBPART 18-4.70 TRANSFER OF CONTRACTING OFFICE RESPONSIBILITY

#### 18-4.7000 Scope of subpart.

This subpart contains policies and procedures applicable to the transfer of contracts between NASA installations.

#### 18-4.7001 Definition.

**"Transfer of a contract,"** as used in this subpart, means that process whereby a contract and all future responsibility for a contract held by one installation are transferred or reassigned in writing to another installation.

#### 18-4.7002 Restrictions.

**Requests** for permission to transfer a contract to another NASA installation. when considered advisable bv the installation director, shall be addressed to the appropriate official in charge of a Headquarters program office or the designated program director. after concurrence from recipient the installation director. Contracts shall not be transferred by an installation until permission to transfer has been obtained. concurrence The of the Associate Deputy Administrator--Institution (Code AD-I) is also required for a transfer where an installation's roles and missions may be affected.

#### 18-4.7003 Preparatory actions.

The procurement officer of the installation transferring the contract shall contact the procurement officer of the installation scheduled to receive the contract. This contact shall be for the purpose of establishing а working agreement and a time-phased schedule of transfer actions.

# 18-4.7004 Coordinating actions by the contracting officer of the installation transferring the contract.

The contracting officer shall coordinate with the following elements within the transferring installation before transferring a contract:

(a) Financial Management Office, to determine the contract financial records to be transferred and the method, timing, and dollar amount of such transfers.

(b) Technical (Engineering and Project) Office, to determine the status of any outstanding engineering changes.

(c) Reliability and Quality Assurance Office, to determine status and method of transferring the reliability and quality assurance functions.

(d) Industrial Property and Facilities Office, to determine the method of transferring the Government property records.

(e) Transportation Office, to determine the status of bills of lading furnished the contractor.

(f) Security Office, to determine whether any classified material is outstanding and whether special precautions are necessary during the transfer process.

(g) Other organizational elements, to determine the status of any other actions such as new technology, materials reports, PERT, and safety.

# 18-4.7005 Inventory of current requests for contract administration assistance.

The contracting officer transferring the contract shall prepare an inventory of all outstanding requests for contract administration assistance issued to other Government agencies (e.g., Military Departments, Defense Contract Management Command (DCMC), Department of Energy, and Federal Aviation Administration). This inventory shall include the name and address of the agency office, functions requested to be performed, estimated cost of the services, and estimated reimbursement due the administration agency for the services to be performed on the incomplete portion of each requested function. Copies of this inventory shall be provided to the contracting officer to whom the contract is to be transferred.

# 18-4.7006 Transfer review.

The contracting officer to whom the contract is to be transferred shall be given an opportunity to review the contract, letters of request, actions in process, and other related files and to request corrective action, if necessary, before the official transfer of the contract.

# 18-4.7007 Notification to the contractor.

After coordination with the installation organizational elements as required in 18-4.7004 and with the receiving contracting officer, the transferring contracting officer shall notify the contractor in writing of the impending transfer.

# 18-4.7008 Notification to other agencies.

As early as practicable after coordination between procurement offices, the contracting officer transferring the contract shall notify all agencies performing or requested to perform administration services of the impending transfer.

# 18-4.7009 Administrative actions.

Before transferring the contract, the contracting officer shall make a complete inventory of the contents of the contract file to be transferred. The contracting officer shall identify each contract administration action in process as a separate listing in the inventory and shall indicate its status.

# 18-4.7010 Transfer.

Upon completion of the preparatory actions described in 18-4.7003 through 18-4.7009, both contracting officers shall agree upon acceptable dates for the transfer of the contract responsibility and the contract files. The contracting officer of the installation transferring the contract shall issue letters as indicated below and provide copies to the contracting officer receiving the contract:

(a) **Contractor**: Notification of the transfer date, termination of appointment of the contracting officer's representatives, and the name, mailing address, and telephone number of the contracting officer at the installation receiving the contract.

(b) **Contracting officer's representa- tives:** Termination, effective on the date of transfer, of each contracting officer's representative appointment.

(c) Agencies performing contract administration functions: Notification of the effective date of the transfer of the contract, along with the mailing address and telephone number of the contracting officer at the installation receiving the contract. (Existing requests for contract administration functions shall not be terminated.)

# TRANSFER OF CONTRACTING OFFICE RESPONSIBILITY

(d) Installation organizational elements: Notification of the effective date of transfer and other pertinent information.

Receiving installation: Transfer of (c) contract responsibility and transmission of the contract file, including an inventory of its contents, and a summary of any contractual problems that should be brought to the attention of the officer the contracting receiving contract. This letter shall contain a of the acceptance provision for responsibility for the contract and its related files by the contracting officer and a notification of the acceptance to of the contracting officer the installation transferring the contract.

# 18-4.7011 Final action by the contracting officer transferring the contract.

The contracting officer at the installation transferring the contract shall retain for permanent file a copy of --

(a) The approvals and concurrences required by 18-4.7002;

(b) The inventory receipt signed by the contracting officer receiving the contract;

(c) The contract itself; and

(d) Any additional documents necessary to present a complete summary of the transfer action.

# 18-4.7012 Action by the contracting officer receiving the contract.

The contracting officer receiving the transferred contract shall --

(a) Acknowledge receipt of the contract and its related files;

(b) Inform all offices affected within the installation of the receipt of the contract;

(c) Appoint new contracting officer's representatives, as necessary;

(d) Issue a contract modification to provide for the administrative changes resulting from the transfer action (e.g., identifying offices responsible for performing contract administration and making payment and the office to which vouchers, reports, and data are to be submitted);

(e) Provide copies of the contract documents to the installation offices that have a functional responsibility for the contract; and

(f) If appropriate, supplement the letter of request to the Government agency providing contract administration services to reflect the changes resulting from the transfer action. The supplement may terminate or amend an existing contract administration support arrangement or may request support in additional areas.

1. and 1.

#### SUBPART 18-4.71 UNIFORM ACQUISITION INSTRUMENT IDENTIFICATION

#### 18-4.7100 Scope of subpart.

This subpart contains the administrative requirements and procedures for uniform numbering of NASA contracts (including letter contracts), purchase orders (including requests to other Government agencies), basic ordering agreements, other documents evidencing in whole or in part an agreement between the parties involving the payment of appropriated funds or collection of funds for credit to the Treasury of the United States, and modifications or supplements to these instruments. It further provides for a uniform identification system for numbering solicitations.

#### 18-4.7101 Policy.

(a) Contractual documents coming within the scope of this subpart shall be numbered with approved prefixes and serial numbers for identification, audit, and filing purposes. If a prefix identification symbol is required for an installation or office not listed in this subpart, a request for the assignment of a prefix identification shall be submitted to the Office of Procurement, NASA Headquarters (Code HM). Alphanumeric characters, other than those prescribed in this subpart, shall not be used as part of the numbering system. If other identification is required, it shall be placed on the document in such a location as to clearly separate it from the identification number prescribed in this subpart.

(b) The identification number shall be retained unchanged for the life of the particular instrument and shall consist of not more than 11 alpha-numeric characters positioned as prescribed in this subpart. 18-4.7102 Invitations for bids, requests for proposals, NASA Research Announcements, contracts, agreements, and modifications.

#### 18-4.7102-1 Identification of solicitations.

Solicitations shall be numbered in accordance with the individual field installation's system for identifying them, except that in all cases the identifying number shall begin with the installation's numerical identification prefix (see 18-4.7102-4).

# 18-4.7102-2 Contracts and agreements requiring numbering.

The following contracts and agreements shall be numbered in accordance with the uniform numbering system prescribed in 18-4.7102-3, 18-4.7102-4, 18-4.7102-5, and 18-4.7102-7:

(a) Contracts, including letter contracts, for procurement or sale of supplies or services involving or likely to involve the payment or receipt of more than \$25,000.

(b) Indefinite-delivery contracts involving more than one payment and estimated to involve payment or receipt of more than \$25,000 during the fiscal year.

(c) Utilities contracts.

(d) Leases of real property and renewals of these leases.

(e) Easements.

(f) Basic ordering agreements.

(g) Other written agreements involving payment or receipt of funds not covered by 18-4.7103.

18-4.7102-3 Assignment and control of numbers.

(a) The numbering of contracts, agreements, and modifications shall be

centrally controlled by each contracting office at NASA Headquarters, field installations, or offices for which a prefix identification symbol has been assigned.

(b) A complete identifying number shall consist of the following and shall be assigned to NASA contracts and agreements designated in 18-4.7102-2:

(1) One of the prefix identification symbols contained in 18-4.7102-4, followed by a hyphen.

(2) A serial number (assigned in accordance with 18-4.7102-5) for the particular transaction.

# 18-4.7102-4 Assigned contract or agreement prefixes.

(a) Approved prefixes for NASA contract or agreement numbers are as follows:

| <b>INSTALLATION</b>          | <u>PREFIX</u> |
|------------------------------|---------------|
| Ames Research Center         | NAS2          |
| Goddard Space Flight Center  | NAS5          |
| Headquarters                 | NASW          |
| Lyndon B. Johnson Space      |               |
| Center                       | NAS9          |
| John F. Kennedy Space Center | NAS10         |
| Langley Research Center      | NAS1          |
| Lewis Research Center        | NAS3          |
| George C. Marshall Space     |               |
| Flight Center                | NAS8          |
| NASA Management Office-JPL   | NAS7          |
| John C. Stennis Space Center | NAS13         |
| Space Station Procurement    |               |
| Office                       | NAS14         |

(b) The identification numbering system for all contracts totally funded under reimbursable arrangements with the Department of Energy shall conform to 18-4.7102-3, except that a DEN prefix shall be used instead of the NAS prefix; e.g., DENW would be the Headquarters prefix, and DEN8 would be the Marshall designation.

(c) All Space Act agreements awarded under the authority of Section 203(c)(5) or 203(c)(6) of the Space Act shall also be identified as specified in 18-4.7102-3, except that an NCA prefix shall be used instead of the NAS prefix.

# 18-4.7102-5 Serial numbers.

(a) Contracts and agreements identified in 18-4.7102-2 shall be numbered serially by the organizational unit authorized to assign such numbers, commencing with the number "1" and continuing in succession without regard to fiscal year or type of contract; e.g., NAS5-300, NAS5-301.

(b) If the contract is a facilities contract, the letter "F," in parentheses, shall be used at the end of the serial number for identification purposes; e.g., NAS5-301(F).

(c) When the series of numbers under a symbol exceeds five digits (over 99,999), a new series shall be used, beginning the series with number "1" and followed by the capital letter "A." Should additional series become necessary, they will be distinguished by the capital letters "B," "C," and so forth, as may be required, except that the letters "I" and "O" shall not be used.

# 18-4.7102-6 Modifications of contracts or agreements.

Modifications of definitive contracts or agreements shall (a) bear the same identification as the contract or agreement being modified and (b) be numbered consecutively for each contract or agreement, beginning with Modification Number 1, regardless of whether the modification is accomplished by unilateral or bilateral action. Except for termination notices, modifications shall be effected by the use of Standard Form 30, Amendment of Solicitation/ Modification of Contract.

# 18-4.7102-7 Letter contracts.

(a) Superseding definitive contract. Definitive contracts superseding letter contracts shall retain the same contract number as that originally assigned to the

ł

letter contract. Actions definitizing letter contracts are considered modifications and shall be assigned modification numbers in accordance with the following paragraph (b)(2) of this section.

#### (b) Modifications.

(1) Additions or changes to letter be accomplished by contracts shall modification to the letter contract. Modifications shall (i) bear the same identification as the letter contract being modified and (ii) be numbered consecutively for each letter contract, beginning with Modification Number 1, regardless of whether the modification is accomplished by unilateral or bilateral action.

(2) Actions definitizing letter contracts shall be numbered beginning with the next sequential number following that of the last modification, if any, to the letter contract.

#### 18-4.7103 Purchase orders and requests.

#### 18-4.7103-1 General.

Purchase orders (including blanket purchase agreements) and requests to other Government agencies to furnish supplies or services shall be assigned a complete identifying number consisting of --

(a) One of the letter prefixes set forth in 18-4.7103-2, followed by a hyphen; and

(b) A serial number, assigned in accordance with 18-4.7103-3.

18-4.7103-2 Assigned purchase order or request prefixes.

Approved letter prefixes for NASA purchase orders (including blanket purchase agreements) or requests to other Government agencies are as follows:

| <b>INSTALLATION</b>          | <u>PREFIX</u> |   |
|------------------------------|---------------|---|
| Ames Research Center         | А             |   |
| George C. Marshall Space     |               |   |
| Flight Center                | Н             |   |
| Goddard Space Flight Center  | S             |   |
| Headquarters                 | W             |   |
| John F. Kennedy Space Center | CC            |   |
| Langley Research Center      | L             |   |
| Lewis Research Center        | С             |   |
| Lyndon B. Johnson            |               |   |
| Space Center                 | Т             |   |
| NASA Management Office       |               | ł |
| JPL                          | WO            |   |
| John C. Stennis Space        |               |   |
| Center                       | NS            |   |
| Space Station Procurement    |               |   |
| Office                       | D             |   |
| 0                            |               |   |

### 18-4.7103-3 Serial numbers.

The same series of consecutive numbers will be used for numbering both purchase orders (including blanket purchase agreements) and requests to other Government agencies. The series shall commence with the number and continue in succession without "1" regard to the fiscal year. The number follows the letter symbol, separated by a hyphen; e.g., Order Number L-350 or Order Number W-1000. When the series of numbers under a symbol exceeds 5 digits (over 99,999), a new series shall be used, beginning the series with number "1" and followed by the capital letter "A." Should additional series become necessary, they will be distinguished by the capital letters "B," "C," and so forth, as may be required, except that the letters "I" and "O" shall not be used.

- - -

#### SUBPART 18-4.72 REVIEW AND APPROVAL OF CONTRACTUAL INSTRUMENTS

18.4-7200 Scope of subpart.

This subpart sets forth administrative requirements for (a) furnishing to NASA Headquarters advance contract information regarding proposed procurements expected to exceed the small purchase limitation and (b) contracts and supplemental agreements requiring approval from NASA Headquarters before It also lists information to be award. furnished by contracting officers in submitting contracts and supplemental agreements for Headquarters approval. These requirements are in addition to other approval and review requirements.

#### 18-4.7201 Advance information.

(a) A copy of each unclassified presolicitation notice, solicitation, or changes thereto, including specifications but not drawings, shall be forwarded to the Office of Small & Disadvantaged Business Utilization, NASA Headquarters (Code K), at the time of issuance. If the proposed procurement is classified, only a copy of the solicitation notice is required.

(b) The contents of the presolicitation notice are prescribed at FAR 5.207. Each copy of the solicitation shall be accompanied by a statement of the estimated cost of the proposed procurement and a complete list of firms or persons solicited. This information is for internal NASA use only.

# 18-4.7202 Contract review by the contracting officer.

All contractual documents, regardless of dollar value, require a complete review by the contracting officer.

#### 18-4.7203 Contract review by Headquarters.

(a) **Purpose.** The primary purpose of NASA Headquarters review and approval of contractual actions is to provide an independent review and analysis to determine whether the procurements --

(1) Have been competently negotiated;

(2) Are based on adequate information;

(3) Are in conformance with law, established policies and procedures, and sound business practice; and

(4) Will result in contracts that adequately protect the Government's interest.

(b) Information to be furnished. Requests for approval of contracts and supplemental agreements submitted to Headquarters for approval by the Associate Administrator for Procurement, in accordance with subparts 18-7.71, Master Buy Plan Procedures, and 18-16.603, Letter contracts, shall include the information required by this section and shall be forwarded in sufficient time to allow a minimum of 15 days for review. The official contract file shall be submitted with the request for approval and shall include a completed NASA Form 1098, Checklist for Contract Award File Content. Where Headquarters legal counsel review is required, a duplicate copy of the file should, if practical, be forwarded in order to expedite review. A list of contracts requiring such legal review will be published periodically.

(c) Negotiated contracts and supplemental agreements. Each request for approval of a negotiated contract or supplemental agreement shall be accompanied by (1) eight copies of the contract, four of which have been executed by the contractor and contracting officer, and (2) the official contract file containing the appropriate documentation as set forth in FAR 4.803(a). However, for the items specified in FAR 4.803(a)10, (11), and (12), the contracting officer shall provide documentation pertaining only to the successful offeror; and, for the items specified in FAR 4.803(a)(26), the contracting officer is not to provide supporting documentation for previously issued contract modifications except as required below. When the contract being forwarded is a supplemental agreement to an existing contract, the contract file shall include an index of all previous modifications, which will serve as a guide or quick reference; e.g., S.A. No. 2--Added the clause at 18-52.223-70, Safety and Health.

# (d) Conditional approval of contracts and supplemental agreements.

(1) Contracts and supplemental agreements submitted to Headquarters for the approval of the Associate Administrator for Procurement may be approved conditionally, subject to requiring the cognizant contracting office to take certain corrective actions within a specified period of time. These corrective actions include (i) revising, deleting, or adding contract clauses and (ii) developing additional supporting data for inclusion in the contract file, prior to or concurrent with the distribution of the approved contract or by an early supplemental agreement.

(2) The procurement officer shall ensure that these corrective actions are accomplished in accordance with the conditional approval. In addition, the procurement officer shall provide the Associate Administrator for Procurement | (Code HS) (i) a copy of the corrected contract pages, supplemental agreement, or additional supporting data meeting the conditions of approval and (ii) a memorandum referencing the Headquarters conditional approval and indicating the status of the corrective actions.

(3) On receiving and reviewing the corrective actions, the Headquarters Office of Procurement (Code HS) will notify the cognizant procurement officer of the disposition of the conditional approval. This notice shall be made a part of the official contract file and the Headquarters file of record.

(e) Approval. The approval required under this section shall be made by signature of the Associate Administrator | for Procurement on the contract/ supplemental agreement.

#### SUBPART 18-4.73 PROCUREMENT REQUESTS

18-4.7301 General.

(a) Procurement requests shall be prepared and submitted to the contracting office in accordance with installation instructions.

(b) Except in unusual circumstances, the contracting office shall not issue solicitations until an approved procurement request, containing а certification that funds are available. been received. However, the has contracting office may take all necessary actions up to the point of contract obligation before receipt of the approved procurement request certifying that funds are available when --

(1) Such action is necessary to meet critical program schedules;

(2) It has been established that program authority has been issued and funds to cover the procurement will be available prior to the date set for contract award or contract modification; and

(3) The procurement officer authorizes such action in writing before solicitation issuance.

The procurement request shall be (c) assigned within the contracting office to a negotiator who will be responsible to the contracting officer for conducting the business aspects of the transaction. The negotiator shall review the request to ensure that it complies with the FAR, this regulation, and applicable instalinstructions and that the lation information in the request is sufficient prepare the solicitation. Uncertain to requirements or inconsistencies in the procurement request will be discussed with the initiator of the request and resolved prior to initiating procurement action.

## PART 18-5 PUBLICIZING CONTRACT ACTIONS

## SUBPART 18-5.1 DISSEMINATION OF INFORMATION

18-5.101 Methods of disseminating information.

For NASA policy regarding paid advertisements, see FAR 5.502 and 18-5.502.

----

#### SUBPART 18-5.2 SYNOPSES OF PROPOSED CONTRACTS

#### 18-5.201 General.

#### 18-5.201-70 Headquarters notification.

A copy of each synopsis of a proposed contract action sent to the Commerce Business Daily (CBD) shall be furnished to the Director of Small and Disadvantaged Business Utilization, NASA Headquarters (Code K).

#### 18-5.202 Exceptions.

(a) The phrase "proprietary information," as used at FAR 5.202(a)(8), means information (data) that constitutes a trade secret and/or information that is commercial or financial and confidential or privileged.

(b) In accordance with FAR 5.202(a)(12), unless another exception applies, contract actions that will be made and performed outside the United States shall by synopsized in the Commerce Business Daily as follows: The contracting officer shall synopsize (1) all contract actions for supplies or services (other than R&D and construction) with an estimated value above \$25,000, and (2) all contract actions for construction with an estimated value above \$6,500,000.

#### 18-5.205 Special situations.

Potential sources responding to R&D advance notices shall be added to the appropriate solicitation mailing list for the subsequent solicitation and, if they do not appear on the solicitation mailing lists established in accordance with FAR 14.205-1, shall be requested to submit Standard Form 129, Solicitation Mailing List Application. Responding sources on established lists may be requested to submit amended applications in order to reflect their current capabilities.

# 18-5.207 Preparation and transmittal of synopses.

(a) Federal Information Processing Standards (FIPS) Number. FAR 5.207(b)(4) requires that agencies identify each synopsis by a Federal Information Processing Standards (FIPS) number. The numbers assigned to NASA installations by FIPS-95 are--

| Ames Research Center         | 8020 |
|------------------------------|------|
| Goddard Space Flight Center  | 8026 |
| Headquarters                 | 8001 |
| Johnson Space Center         | 8032 |
| Kennedy Space Center         | 8035 |
| Langley Research Center      | 8038 |
| Lewis Research Center        | 8041 |
| Marshall Space Flight Center | 8044 |
| NASA Management Office-JPL   | 8029 |
| Stennis Space Center         | 8047 |

#### (b) Architect-Engineer Services.

(1) Each notice publicizing the procurement of architect-engineer services shall be headed "C. Architect-Engineer Services."

(2) In addition to meeting the requirements of FAR 5.207(c), the project description shall--

(i) State the relative importance the Government attaches to the significant evaluation criteria and the date by which responses to the notice must be received, including submission of Standard Form 255, Architect-Engineer and Related Services Questionnaire for Specific Project, if required;

(ii) Describe any specialized qualifications, security classifications, and limitations on eligibility for consideration;

(iii) Describe qualifications or performance data required from architectengineer firms; and (iv) If the procurement is to be set aside for small business, state this fact, indicating the specific size standard to be used and requiring that eligible responding firms submit a small business representation.

(3) Contracting officers shall add at the end of the synopsis:

See Note 24. Provisions of Note 24 apply to this notice except that (a) in the sentence beginning "Selection of firms for negotiations," the fourth additional consideration listed is changed to read: "(4) past experience, if any, of the firm with respect to performance on contracts with NASA, other Government agencies, and private industry;" and (b) in the last sentence, "National Aeronautics and Space Administration" is substituted for "Department of Defense."

(c) Each notice publicizing the procurement of FIP resources under an indefinite delivery/indefinite quantity contract or under a contract that includes options for additional quantities of such resources shall include the following:

> The \_\_\_\_\_\_ (identify contracting activity) is the primary delivery point for the items described in this synopsis. However, NASA may order delivery to the following alternate locations: (List other NASA installations and their locations).

### SUBPART 18-5.3 SYNOPSES OF CONTRACT AWARDS

18-5.302 Preparation and transmittal of synopses of awards.

#### 18-5.302-70 Headquarters notification.

The contracting officer shall mail one copy of the synopsis of contract award prepared in accordance with FAR 5.302 to the Office of Small and Disadvantaged Business Utilization, NASA Headquarters (Code K) and send one copy to the installation's Public Affairs Office.

#### 18-5.303 Announcement of contract awards.

Congressional notification shall be in accordance with 18-5.403-70.

# 18-5.303-70 Furnishing additional procurement information to the public.

(a) **Policy**.

(1) In addition to publicizing procurements and contract awards in the CBD, NASA furnishes the public, upon request, through the Public Affairs Office of the NASA installation receiving the request, information on specific current NASA procurements, including--

(i) The names of firms invited to submit offers:

(ii) The names of firms that attended any pre-bid or pre-proposal conference;

(iii) After the date established for receipt of offers, the names of firms that submitted them (but see 18-15.413); and

(iv) Contract award information required to be publicized in the CBD under the provisions of FAR 5.303 and this subsection 18-5.303-70. (2) Exceptions will be permitted only when the Associate Administrator for Procurement or the Director of the field installation concerned determines that disclosure in accordance with subparagraph (1) preceding would be prejudicial to the interests of NASA.

(b) **Procedures.** Contracts requiring approval by the Associate Administrator for Procurement under Subpart 18-4.72 will not be distributed, nor will any information be given to any source outside of NASA as to whether or not they have been approved, until 24 hours after the Director of Public Affairs and the Associate Administrator for Legislative Affairs, NASA Headquarters, have been advised that the contract has been consummated.

(c) Unsuccessful offerors. For guidance on releasing information to unsuccessful offerors, see FAR 14.408 and FAR Subpart 15.10.

# 18-5.303-71 Public Affairs Office notification.

#### (a) Letter contracts.

(1) The procedures for issuing and approving letter contracts are contained in FAR 16.603 and 18-16.603. Before transmitting a letter contract to a contractor for signature, the procurement officer shall furnish to the installation's Public Affairs Office the following information:

(i) Whether the letter contract initiates a new contract or is for additional work or services under an existing contract.

(ii) The dollar amount authorized for the letter contract and the estimated total cost of the contract or supplemental agreement.

(iii) Name and address of the contractor.

(iv) Location where the work is to be performed.

(v) A brief description of the work, including identification of the program and project.

(vi) For the purpose of responding to queries only, a list of any unsuccessful offerors and their addresses.

(2) Upon receiving the information described in subparagraph (1) above, the installation's Public Affairs Office shall transmit the information immediately, in the form of a news release, by priority TWX or more expeditious means (if appropriate), to the Chief, News and Information Branch (Code PM), and the Associate Office of Legislative Administrator. Affairs (Code LC), NASA Headquarters. The information shall not be otherwise released by the installation's Public Affairs Office, nor shall the letter contract be released before 2:30 p.m. Washington, DC time of the next working day, unless clearance has been received earlier from the Chief, News and Information Branch (Code PM). If circumstances indicate a need for earlier action, exception must be obtained from the Associate Administrator for Procurement.

# (b) Definitive contracts and supplemental agreements.

(1)This subparagraph (1) does not pertain to supplemental agreements covering overruns or incremental funding actions or to contracts or supplemental agreements that require approval of the Associate Administrator for Procurement pursuant to 18-4.7203. It does pertain to contracts, supplemental agreements, and the execution of options that are in an amount of \$10,000,000 or over for the Stennis Space Center, Headquarters Acquisition Division, Space Station Procurement Office, and the Management Office--JPL NASA and \$25,000,000 or over for Ames Research Center, Goddard Space Flight Center, Johnson Space Center, Kennedy Space Center, Langley Research Center, Lewis Research Center, and Marshall Space Flight Center. It also pertains to any procurement action that, in the judgment of the contracting officer, has Headquarters public information implications (e.g., the transfer of personnel from one State to another). Such contracts and supplemental agreements shall not be distributed nor shall any source outside NASA be informed that the contractual instrument has been signed by both parties until the procedures in subdivisions (i) and (ii) following are carried out:

(i) The procurement officer shall furnish to the installation's Public Affairs Office the following information:

(A) Whether the contract or supplemental agreement initiates a new contract or is for additional work or services under an existing contract.

(B) Type of contract.

(C) The dollar amount authorized for the instant action and the estimated total cost of the contract if this is different.

(D) Name and address of the contractor.

(E) Location where the work is to be performed.

(F) A brief description of the work, including identification of the program and project.

(G) For the purpose of responding to queries only, a list of any unsuccessful offerors and their addresses.

(ii) Upon receiving the information listed in paragraph (i) of this section, the installation's Public Affairs Office shall immediately prepare a news release in the form of a priority TWX containing as a minimum the information in paragraph (i) of this section, and transmit it to the Chief, News and Information Branch (Code PM), and the Associate Administrator, Office of Legislative Affairs (Code LC), NASA Headquarters. The information shall not be otherwise released by the installation's Public Affairs Office, nor shall the contract instrument be released before 2:30 Washington, DC time of the next p.m. working day, unless clearance has been received earlier from the Chief, News and Information Branch (Code PM). If

circumstances indicate a need for earlier action, exception must be obtained from the Associate Administrator for Procurement.

(2) When forwarded for the approval of the Associate Administrator for Procurement, if required by 18-4.7203, contracts and supplemental agreements shall be accompanied by a draft news release prepared by the installation's Public Affairs Office and furnished to the contracting office for inclusion in the submission file. The news release shall contain as a minimum the information required by paragraph (1)(i) of this section. At the time the Associate Administrator for Procurement approves the contract or supplemental agreement, the news release shall be forwarded immediately to the Chief, News and Information Branch (Code PM), and to the Associate Administrator, Office of Legislative Affairs (Code LC).

### SUBPART 18-5.4 RELEASE OF INFORMATION

## 18-5.401 General.

Release of information to the Small Business Administration shall be in accordance with FAR 19.402(b).

#### 18-5.402 General public.

Requests from the general public for specific information shall be processed in accordance with 18-5.303-70.

18-5.403 Requests from Members of Congress.

# 18-5.403-70 Headquarters approval and release.

The proposed reply, with full documentation, shall be promptly prepared and forwarded by the most expeditious means to the Associate Administrator, Congressional Relations Office (Code L), NASA Headquarters, for approval and release. (See 18-5.303-70.)

#### PART 18-6 COMPETITION REQUIREMENTS

#### SUBPART 18-6.2 FULL AND OPEN COMPETITION AFTER EXCLUSION OF SOURCES

# 18-6.202 Establishing or maintaining alternative sources.

(a) The authority of FAR 6.202 is to be used to exclude one source only. If, for example, FAR 6.202(a)(3) appears to be applicable, but all for-profit concerns as well as the current source will be excluded, then FAR 6.302-3 shall be used instead.

(b) The authority to sign the D&F required by FAR 6.202(b)(1) is hereby delegated to the approval levels specified in FAR 6.304 and 18-6.304.

#### 18-6.202-70 Determination and findings.

(a) Procedure.

(1) Each determination and findings (D&F) shall be dated at the time of signature.

(2) Each request for approval of a D&F over \$10,000,000 under 10 U.S.C. 2304(b)(1) (FAR 6.202) shall consist of--

(i) A memorandum from the procurement officer to the Associate Administrator for Procurement (Code HS) recommending D&F approval; and

(ii) An original and three copies of the D&F in the format required by paragraph (b) of this section.

(3) The Associate Administrator for Procurement (Code HS) shall return the signed D&F, if approved, to the contracting office, retaining the copies in Headquarters files. (b) **Content.** When the authority of FAR 6.202(a) is proposed for use, it must be shown clearly that the necessity for excluding a particular source arises from genuine considerations pertinent to the authority of FAR 6.202(a). The supporting data and the D&F must name the source to be excluded and shall include the following information as applicable and any other relevant information:

(1) The specific purpose to be served in excluding the source; i.e., to increase or maintain competition, the interest of national defense in having a facility available in case of a national emergency or industrial mobilization, or the interest of national defense in establishing or maintaining an essential engineering, research, or development capability.

(2) The acquisition history of the supplies or services, including sources, prices, quantities, and dates of award.

(3) The circumstances making it necessary to exclude a particular source from the contract action:

(i) Reasons for lack of sources; e.g., the technical complexity and criticality of the item.

(ii) Current annual requirement and prospective needs for the supplies and services.

(iii) Projected future requirements.

(4) Whether the existing source must be totally excluded action or whether a partial exclusion is sufficient.

(5) The potential effect of exclusion on the excluded source in terms of any loss of capability to furnish the supplies or services in subsequent contract actions.

(6) When the authority of FAR 6.202(a)(1) is cited, the basis for--

(i) Assumptions regarding future competition; and

(ii) The determination that exclusion of a particular source will likely result in reduced overall costs

#### COMPETITION REQUIREMENTS

for anticipated future acquisitions, including (as a minimum) discussion of start-up costs associated costs. with facilities. duplicative administration costs (such as for additional inspection or testing), economic order life-cycle-cost quantities. and considerations.

(7) When an additional source or additional sources must be established to provide production capacity to meet current and mobilization requirements --

(i) The current annual and the mobilization requirements for the item, citing the source of, or the basis for, the planning data;

(ii) A comparison of current production capacity with current and mobilization requirements; and

(iii) The hazards of relying on the present source and the time required for new sources to acquire the necessary facilities and skills and achieve the production capacity necessary to meet requirements.

(c) Formats. A sample format for D&Fs citing the authority of FAR 6.202(a) follows:

### National Aeronautics and Space Administration Washington, DC 20546

Determination and Findings

Authority to Exclude a Source

On the basis of following findings and determination, which I make under the authority of 10 U.S.C. 2304(b)(1) as implemented by FAR 6.202, the proposed contract action described below may be awarded using full and open competition after exclusion of (1)

#### Findings

1. It is proposed that the following requirement be acquired using full and open competition after exclusion of the source identified above.

2. The source identified above can be expected to receive an award for this requirement unless excluded.

3. It is necessary to establish or maintain an alternative source or sources.

4. The exclusion of this source will increase or maintain competition and is likely to result in reduction of (2)for in overall costs any anticipated acquisition the of supplies or services being acquired. This estimate is based on (3) .

(See Note 4 for the use of Alternates I and II below.)

Alternate I: The exclusion of this source will serve the defense national interest bv having an alternative supplier available for furnishing the supplies or services being acquired, in case of a national emergency or industrial mobilization, because (5).

Alternate II: The exclusion of this source will serve the defense national interest bv establishing or maintaining an engineering, essential research, or development capability of an educational or other nonprofit institution or a federally funded research and development center. because (5) .

# FULL AND OPEN COMPETITION AFTER EXCLUSION OF SOURCES

#### Determination

The exclusion of the source identified above will increase or maintain competition and is likely to result in reduced overall costs for any anticipated acquisition of the supplies or services being acquired.

(See Note 4 for the use of Alternates I and II below.)

It is in the Alternate I: interest of the national defense to exclude the source identified above in order to have an alternative supplier available for furnishing the supplies or services being acquired, in case of a national emergency or industrial mobilization.

Alternate II: It is in the interest of national defense to exclude the source identified above in order to establish or maintain an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center.

Date \_\_\_\_\_

NOTES:

1. Name of source to be excluded.

2. Description of estimated reduction in overall costs.

3. Description of how estimate was derived.

4. In paragraph 4 and in the Determination, the basic wording is appropriate when FAR 6.202(a)(1) applies; Alternate I is appropriate when FAR 6.202(a)(2) applies; and Alternate II is appropriate when FAR 6.202(a)(3) applies.

5. Description of circumstances necessitating the exclusion of the identified source.

18-6.203 Contracting under the SBIR program.

No separate justification or determination and finding is required under this part to limit competition to eligible contractors in connection with procurement conducted under any of the three phases of the Small Business Innovation Research (SBIR) program (see 15 U.S.C. 638 (e)(4)).

- .

----

### SUBPART 18-6.3 OTHER THAN FULL AND OPEN COMPETITION

18-6.301 Policy.

For NASA, the appropriate statutory authorities relative to FAR 6.302 are in Title 10 of the United States Code.

18-6.302 Circumstances permitting other than full and open competition.

18-6.302-1 Only one responsible source and no other supplies or services will satisfy agency requirements.

18-6.302-170 Technical equipment requiring standardization and interchangeability of parts.

(a) The contracting officer shall review actions taken under the authority of FAR 6.302-1(b)(4) at least once every two years to determine whether use of this authority should be continued, revised, or cancelled.

(b) This authority may be used when (1) only one or a limited quantity of a particular item is to be purchased and (2) compatibility with existing equipment interchangeability of parts are and essential. Use of this authority in such a case does not mean that subsequent purchases of similar equipment will necessarily require the use of less than full and open competition for purposes of standardization. The contracting officer must examine the facts involved in each case to determine whether compatibility and equipment other with interchangeability of parts are essential objectives.

18-6.302-2 Unusual and compelling urgency.

18-6.302-270 Support services contracts.

It may become necessary to extend the performance period of an existing support services contract to avoid a lapse in services pending completion of a full and open competition for the succeeding period. Under these circumstances, the 6.302-1 not FAR is authority at because of the pending appropriate, competition and because it does not cover contracts services. for follow-on if the contemplated action However, otherwise conforms to the requirements at the additional FAR 6.302-2 and documentation at 18-6.303-271 is included in the justification for other than full and open competition, then the existing contract may be extended under this authority.

18-6.302-4 International agreement.

#### 18-6.302-470 Documentation.

Pursuant to 10 U.S.C. 2304(f)(2)(E), an individual justification for other than full and open competition under the authority of FAR 6.302-4 is not required when the procurement officer signs a Memorandum for the Record that:

(a) describes the specific terms of the international agreement or treaty that limit procurements in support of, or as a result of, the agreement or treaty to less than full and open competition;

(b) is reviewed and approved by the appropriate competition advocate in accordance with NFS 18-6.304; and

(c) is included in each official contract file in the place for filing a Justification for Other than Full and Open Competition (see NASA Form 1098).

# 18-6.302-7 Public interest.

## 18-6.302-770 Determination and findings.

(a) Procedure. The contracting officer shall prepare the D&F required by FAR 6.302-7(c)(1), using the format provided in paragraph (b) below. The original and three copies of the D&F shall be submitted
to the Associate Administrator for Procurement (Code HS) for concurrence and coordination up to the Administrator for signature.

(b) Format. The following format shall be used for the D&F:

National Aeronautics and Space Administration Washington, DC 20546

**Determination and Findings** 

## Authority To Use Less Than Full and Open Competition

On the basis of the following findings and determination, which I make under the authority of 10 U.S.C. 2304(c)(7) as implemented by FAR 6.302-7, it is in the public interest to provide for less than full and open competition in the contract action described below.

#### Findings

1. The (1) proposes to enter into a contract for the acquisition of (2).

2. Use of the authority cited above is necessary in the public interest for the following reasons: \_\_\_\_(3)\_\_\_\_.

#### Determination

For the reasons described above, it is necessary in the public interest to use procedures other than competitive procedures in the proposed acquisition.

Date \_\_\_\_\_

#### NOTES:

(1) Name of contracting activity.

(2) Brief description of supplies or services.(3) Explain the need for use of the authority.

(c) Notice to Congress. The notice to Congress required by 10 U.S.C. 2304(c)(7)(B) and FAR 6.302-7(c)(2) shall be made by NASA Headquarters, Office of Legislative Affairs (Code LC). Code HS shall request the notice to be made immediately upon approval of a D&F under paragraph (a) above and shall advise the contracting activity of the date upon which the notification period ends.

### 18-6.303 Justifications.

#### 18-6.303-1 Requirements.

(a) Justifications for using less than full and open competition may be prepared by the technical office initiating the contract action when it is recommending the use of the justification authority, or by the contracting officer if the technical office does not make such a recommendation.

(b) The contracting officer shall send a copy of each approved justification or D&F that cites the authority of FAR 6.302-3(a)(2)(i) or FAR 6.302-7 to NASA Headquarters, International Relations Division (Code IRD), unless one of the exceptions at FAR 25.403 applies to the procurement. The transmittal shall indicate that the justification is being furnished under FAR 6.303-1(d).

(c) Before using the authority of FAR 6.303-1(e), the contracting officer shall informally discuss the reasons for the proposed use of less than full and open competition under FAR 6.302-2 with the justification approving authority, except that if that authority is NASA Headquarters (Code H), the discussion shall be between the procurement officer and the Associate Administrator for Procurement.

(d) Each approved justification shall be retained in the contract file.

18-6.303-170 Sole-source purchases by contractors.

The requirements of FAR Part 6 and NFS Part 18-6 apply if NASA directs a prime contractor (by specifications, drawings, parts lists, or otherwise) to purchase items on a sole-source basis. Accordingly, procurement officers shall take necessary actions to ensure that such sole-source acquisitions are properly justified. Where "brand name or equal" purchase descriptions list the salient physical, functional, or other characteristics of the item being procured and are properly used 18-10.004-71, the justification under requirements of FAR Part 6 and NFS Part 18-6 do not apply.

18-6.303-2 Content.

18-6.303-270 NASA employees or former NASA employees.

If any contract with a NASA employee or an individual employed by NASA within the past two years is proposed on the basis of other than full and open competition, the justification shall state that the proposed contractor is a NASA or former NASA employee and shall explain why it is in the best interest of the Government to take this action (see FAR Subpart 3.6 and NFS 18-3.602, 18-3.7001(a), and 18-6.304-70).

# 18-6.303-271 Use of unusual and compelling urgency authority.

If the authority at FAR 6.302-2 is used for extending the performance period of an existing support services contract under the circumstances described at 18-6.302-270, the justification shall contain, in addition to the information required by FAR 6.303-2t--

(a) Documentation that the procurement process for the successor contract was started early enough to allow for adequately planning and conducting a full and open competition, together with a description of the circumstances that prevented award in a timely manner; and

(b) Documentation of the reasons why no other source could practicably compete for the interim requirement.

#### 18-6.304 Approval of the justification.

(a) All justifications for contract actions over \$100,000 shall be submitted to the procurement officer for concurrence before being forwarded for approval. Justifications over \$1,000,000 shall also be submitted to the installation's Competition Advocate for concurrence, and those over \$10,000,000 shall be further submitted for the concurrence of the installation's Director, before being forwarded for For actions requiring Headapproval. quarters approval, the contracting officer shall include signature blocks for the concurrence of the NASA Competition Advocate and the approval of the Associate | Administrator for Procurement in the same section of the document where signatures are obtained evidencing certification or concurrence by installation personnel. A separate Headquarters signature page shall not be used.

(b) The authority of FAR 6.304(a)(3) may not be delegated to other than the installation's Deputy Director.

(c) For proposed contract actions over \$10,000,000, the original justification and three copies shall be forwarded to the Associate Administrator for Procurement (Code HS). After approval by the Associate Administrator for Procurement, the signed original will be returned to the procurement officer. The copies will be retained in Headquarters files.

(d) Regardless of dollar value, class justifications shall be concurred in and

approved as if they were individual justifications over \$10,000,000.

## 18-6.305 Availability of the justification.

(a) Requests for inspection of justifications should be submitted in writing and should identify the particular procurement involved. Requestors making oral requests should be encouraged to submit them in writing but are not required to do so.

(b) The contracting officer should consult counsel regarding disclosure exemptions and deletion and protection of proprietary data. Requests should be processed promptly.

## SUBPART 18-6.5 COMPETITION ADVOCATES

18-6.570 NASA competition advocacy program.

NASA's implementation of FAR Subpart 6.5 is in NMI 1210.2, NASA Competition Advocacy Program.

PART 18-7 ACQUISITION PLANNING

### SUBPART 18-7.1 ACQUISITION PLANS

## 18-7.101 Definitions.

"Procurement plan" means a detailed outline of the method by which the contracting officer expects to accomplish the procurement. It is an administrative tool designed to enable the contracting officer to plan effectively for accomplishing an assigned procurement by analyzing the requirement and determining the procurement method.

#### 18-7.102 Policy.

(a) In R&D procurements over \$100,000, when only three or fewer sources are known, the contracting officer shall have the requirements office query the Defense Technical Information Center (DTIC) IR&D Database to identify additional sources conducting IR&D in the area of the procurement, in addition to using other market survey techniques. If needed, specific information on access to and use of the DTIC IR&D Database by a particular NASA installation may be obtained from that installation's designated IR&D focal point.

(b) As authorized in FAR 7.102, NASA uses its procurement planning system in lieu of the criteria in FAR Subpart 7.1. However, all procurement plans shall comply with FAR 7.104(c), 7.105(b)(2), and, when appropriate, 7.106. Regardless of the method employed, every acquisition shall be adequately planned to allow enough time to complete the competitive procurement process and award a contract by the required date.

18-7.103 Agency-head responsibilities.

# (a) Requirement for preparation of procurement plans.

(1) Except as otherwise authorized by paragraph (a)(2) of this section and 18-7.170-4(a), the contracting officer shall prepare a procurement plan, with the advice and assistance of the cognizant technical division, for each negotiated procurement expected to exceed \$2,500,000. The estimated dollar amounts shall include all options and later phases contemplated for the same program or project. The plan shall be prepared before soliciting proposals for the initial phase or increment of the program or project.

(2) Procurement plans are not required for procurements--

(i) Of architect-engineering services;

(ii) Based on unsolicited proposals;

(iii) Of basic research from nonprofit organizations;

(iv) Of utility services where the services are available from only one source;

(v) Made from or through other Government agencies;

(vi) Of industrial facilities required in support of related procurement contracts; or

(vii) Resulting from broad agency announcements listed in 18-35.016.

#### (b) Approval of procurement plans.

For procurements selected for (1)Headquarters review and approval in accordance with the Master Buy Plan procedure, the procurement plan shall be submitted for the signature of the head of the installation after reviews and written concurrences by the director or assistant the cognizant technical director of directorate, the cognizant program/project manager (or the cognizant staff official, as applicable, reporting directly to the head of the installation), and by the procurement officer. The procurement plan shall be submitted in original and five copies to the

Associate Administrator for Procurement (Attention: Code HS) for approval.

(2) For procurements not selected for Headquarters review and approval, and for procurements within the installation's Master Buy Plan limitations, the procurement plan shall be approved in accordance with installation procedures.

(3) The position title shall be shown for each individual signing a procurement plan.

(4) Approval of a procurement plan does not constitute approval of any special conditions, or special clauses that may be required unless the plan so specifies, and the individual having approval authority is a signatory of the plan. All required deviations shall be approved through the procedures described in FAR subpart 1.4 and NFS subpart 18-1.4.

## 18-7.170 Procurement plan contents.

# 18-7.170-1 Procurement plans requiring approval by NASA Headquarters.

(a) Procurement plans shall describe the procurement, including options and later phases of the same program or project (for example, Phase C/D of a multiple phase major system acquisition). A single procurement plan may be used for all phases of a phased procurement provided the plan includes a full description of each phase in accordance with 18-7.170-1(b), (c), and (d), and no significant changes occur after plan approval to invalidate the description of the phases. If such significant changes do occur, the procurement plan shall be amended and approved at the same level as the original plan. Approval of the procurement plan and/or any amendments does not constitute authorization to proceed with the phases of a major system acquisition (see 18-34). Separate authorization must be obtained for each phase in accordance with the procedures of NASA Management Instruction (NMI) 7120.4, "Management of Major System Programs and Projects," and NASA Handbook (NHB) 7120.5, "Management of Major System Programs and Projects Handbook."

(b) Each procurement plan prepared for approval by NASA Headquarters shall be prepared on NASA Forms 1451 and 1452. Form 1451, Request for Procurement Plan Approval, shall be completed as follows:

(1) Item 1. A descriptive short title. In this item, include only a descriptive short title of the procurement. A detailed description of the proposed procurement shall be included in subsequent pages as required. The information to be provided consists of--

(i) A clear and concise description, including intended use, of the item or service to be procured;

(ii) The number of units, delivery schedule, and/or period of performance (note: if a schedule of major events will enhance the plan, it should also be included);

(iii) An identification of any option provision, including the periods covered and estimated costs;

(iv) An identification of any later phases if the procurement is to be a phased procurement including the estimated cost thereof; and

(v) A statement as to whether the contractor will be required to comply with detailed specifications, meet performance requirements, perform a mission, or furnish a level of effort.

(2) Item 2. Name of installation. Give the name of the installation responsible for the procurement.

(3) Item 3. Plan prepared by. Give the name of the individual who prepared the plan.

(4) Item 4. Date. Enter the date the plan is prepared.

(5) Item 5. Responsible technical office. Identify the office (by title) that will be responsible for technical monitoring of the contract. Include a technical point of contact and telephone number.

(6) Item 6. Total estimated cost of this procurement. Provide one figure for the

total estimated cost of the proposed procurement, including options. When options are involved, show the cost for each separately on subsequent pages as a breakout from total cost.

(7) Item 7. Proposed funding by fiscal year and unique project number (UPN). Identify the funding amounts by appropriation, fiscal year, and UPN for the procurement covered by the plan. When funding is obtained from multiple projects, provide a complete identification of each fund source. Include the following statement: "Obligations may not exceed those authorized in the Headquartersapproved Annual Operating Plan."

(8) Item 8. Full and open competition. Check appropriate box to indicate whether full and open competition is provided for or whether other than full and open competition is contemplated.

(9) Item 9. Type of contract. State the type of contract recommended for the procurement. On subsequent pages, discuss the contract type and the rationale for its selection. If an incentive contract is proposed, discuss the type or types of incentive considered most suitable for the accomplishment of the procurement objectives.

(10) Item 10. Contractor-owned and Government-furnished property. (i) If the proposed contract, exclusive of options, will be for a shorter period than the useful life, program, of any required for the contractor-owned or leased facilities (as defined in FAR 45.301) and the facilities are unlikely to be needed by the contractor for any purpose other than the program effort being contracted for, then the procurement plan shall discuss the feasibility of the Government acquiring the right to use the facilities for longer than the proposed contract period as well as the procurement strategy for proposed accomplishing this use. The following shall be considered:

(A) If program uncertainties for continuing beyond the contract period of performance are sufficient, it may be in the Government's best interests to acquire use of the facilities during only that time. This strategy may make the facilities more costly to the Government for the contract period than if a contractual arrangement for longer use were made. However, it should reduce the program risks associated with longer Government facilities obligations; and

(B) If it is in the Government's best interests to acquire the right to use the facilities for longer than the proposed contract period in order to take advantage of economies in long-term facilities investment, then the proposed contractor's obligations, the Government's obligations (e.g., contract terms and profit) that will encourage long-term investment, the contract cost strategy for facilities, and funding limitations shall be addressed. There are many alternative long-term investment approaches available for the contracting officer to consider. Some examples of representative strategies include requiring the contractor to--

(1) Enter into a long-term lease of the facilities from a lessor, subject to the lease being canceled if the prime contractor does not continue to perform the requirement throughout the useful life of the facilities (e.g., the contractor is not selected in a subsequent recompetition of the requirement). Using this strategy, the contracting officer should encourage the contractor to seek an option to transfer the lease to a successor contractor;

(2) Purchase the facilities, with depreciation and cost-of-money accelerated for the contract period of performance, at the conclusion of which the Government has a unilateral option to purchase the facilities at the depreciated value (at or near \$0) based on the contractor's depreciation schedule. The facilities could then be provided to the successor contractor as Government property (see FAR 30.409-50(e)(5) and 30.409-60(d)); and

(3) Purchase the facilities, with depreciation and cost-of-money over the useful life (determined without regard to program or contract duration; see FAR 30.409-40(b)(1)) of the facilities. At the completion of the contract period of performance, either the Government would purchase the facilities at their depreciated value, or the successor contractor would be required to purchase the facilities, also at their depreciated value, and continue the prior contractor's depreciation approach.

(ii) Indicate, by checking the appropriate box, whether the procurement will require providing any existing, new, or modified Government property. When other Government property is to be provided, identify the items and dollar amounts involved. The dollar amounts provided in Item 10 shall not be included in those specified under Items 6 and 7 unless the property or facilities are part of the procurement. If dollar amounts in Item 10 are included under Items 6 and 7, they should be so annotated under this item on the following pages.

(11) Item 11. Procurement action schedule. Indicate the date the procurement plan was submitted to Headquarters for review and approval. For all other entries, provide only the number of calendar days required to complete the action (beginning at the time the previous action was scheduled to be completed) in order to meet the program schedule. Normally, the goal of all competitive procurements should be to complete activities from receipt of proposal to contract award in not more than 120 calendar days. There may be instances when this goal cannot be attained even when all applicable streamlining techniques are used, for example, in procurements of unusual complexity or when a large number of proposals is anticipated. In these cases, a schedule longer than the 120-day goal should be planned, consistent with the exercise of good judgment.

(c) Contract management considerations. The procurement plan shall address the basic plan for management of the pending contract. At a minimum, the procurement plan shall address the rationale for any planned delegations of contract administration functions to DOD contract administration service components, the need for delegation of any duties to a Contracting Officer's Technical Representative, the extent of subcontracting activity expected and the plan for processing consent to subcontract actions, quality assurance requirements, anticipated approach to oversight of Government property, oversight of the contractors' property system, site access and site preparation, if required, and the need for any unique contract management activity of contract clauses.

## (d) Additional pages.

(1) General. Additional pages to the plan should include any information required from the Form 1451 items. Include any comments required by paragraph (a) above not covered elsewhere and any other information needed to amplify or clarify any item. In addition--

(i) Identify any deviations
 from the FAR or NFS (see 18-7.103(b)(4));
 (ii) Identify any special

conditions or clauses required;

(iii) Identify all separate approvals required in support of the proposed procurement;

(iv) Include a copy of any comments by legal counsel for the contracting office (or a statement that counsel has no objection to the plan), and describe actions taken in response to them (counsel's concurrence will satisfy this item); and

(v) Discuss consideration given to participation by small business, including minority business enterprises.

(2) **Competition.** Describe how competition will be sought and promoted. If appropriate, discuss how it will be sustained through the course of the acquisition. If full and open competition is not contemplated, cite the authority in FAR 6.202 or 6.302; identify the source(s); and discuss why it cannot be obtained. When effective subcontract competition is both feasible and desirable, describe how such subcontract competition will be sought, promoted, and sustained throughout the course of the competition. Identify any known barriers to increasing subcontract competition and address how to overcome them.

Relationship to other procurements, (3) relevant data, and studies. Discuss the relationship of this procurement to any active contracts, including their status of completion. Identify the extent to which their product may affect this procurement. Indicate whether performance under them should be permitted to continue during the competitive phase of this action. Discuss all relevant data and studies, whether obtained under contract or through in-house efforts. and state whether they will be made available to all offerors participating in the competition. If data or studies are available, but it is not planned to make them available to prospective offerors, state why.

(4) Cost realism. To promote the submission of realistic cost proposals, discuss the following factors --

(i) How the offeror will be advised of the importance of cost realism (e.g., address cost realism in solicitation provisions);

(ii) How cost realism will factor into the evaluation and selection decision (e.g., include cost realism in evaluation factors and evaluation plan (reduce mission suitability scores);

(iii) How cost realism will be monitored and how incentives will be offered through contract provisions (e.g., recognize cost realism in award fee provisions).

18-7.170-2 Procurement plans requiring approval at the installation level.

Procurement plans prepared for installation-level approval shall be prepared in accordance with 18-7.170-1 or in the format prescribed by the installation. Installation prescribed formats shall ensure all contract management considerations enumerated at 18-7.170-1(c) are addressed.

# 18-7.170-3 Assistance in providing for reliability assurance in procurement plans.

When system hardware costing over \$1,000,000 is involved, reliability personnel at the field installation shall assist in procurement-plan preparation with respect to arrangements for reliability monitoring. In the absence of reliability personnel, the field installation shall seek the advice and assistance of the Director, Reliability, Maintainability, and Quality Assurance, NASA Headquarters, Code QR, or a designee in the preparation of procurement plans.

# 18-7.170-4 Acquisition Strategy Meeting (ASM).

(a) The ASM is a meeting in which all NASA offices with an interest in the procurement come together to discuss its significant aspects, resolve major issues, and agree on the acquisition strategy. When an ASM is conducted, formal written minutes shall be prepared to summarize the decisions, actions, and conclusions of the ASM members. The approved minutes serve as the formal procurement plan required by 18-7.103(a).

(b) ASMs may be held at Headquarters or field installations. Headquarters ASMs will be selected through the Master Buy Plan procedure. The Code HS analyst responsible for the procurement will schedule the meeting and will coordinate attendance with the installation's procurement office. The following offices will normally participate:

(1) Headquarters: cognizant program office; procurement; comptroller; safety and mission assurance; general counsel; management systems and facilities; and small disadvantaged business utilization.

(2) Installation: project office; procurement; and other offices as determined by the installation.

(c) Headquarters ASMs will be chaired by the Associate Administrator for Procurement or his/her designee. The Code HS analyst will prepare the minutes of Headquarters ASMs and distribute them to all attendees for review prior to approval by the ASM chairperson.

(d) For procurements within field installation approval levels, or for which procurement plan approval authority has been delegated from Headquarters, ASMs may be held at the installation and the minutes approved in accordance with installation procedures.

(e) ASMs, whether held at Headquarters or field installations, shall address the

mandatory procurement plan topics specified in 18-7.170. The briefing charts discussing these topics shall be appended to the approved ASM minutes and included in the contract file to serve as a record of satisfaction of the formal procurement plan requirement.

(f) Use of an ASM in lieu of a formal procurement plan does not in itself constitute approval of any deviations, special conditions, or special clauses that may be required, unless these items are specifically discussed at the ASM, agreed to by the individual having approval authority, and included in the ASM minutes. For deviations to be approved through the ASM process, all the information required by subpart 18-1.4 must be presented and discussed.

#### SUBPART 18-7.2 PLANNING FOR THE PURCHASE OF SUPPLIES IN ECONOMIC QUANTITIES

18-7.204 Responsibilities of contracting officers.

contracting officer shall The (a) transmit in writing to the cognizant inventory management/requirements office either the actual offeror responses or a summary of their salient points. This not preclude preliminary oral does . consultations. The transmittal should be made within five working days after the closing date for receipt of offers;

however, in negotiated acquisitions, if a response indicates a significant price variation, it should be transmitted immediately.

(b) All transmittals shall request the recipient to specify promptly whether the acquisition should be amended, cancelled, or concluded as is. Although award or negotiation need not be delayed pending a reply unless a potential for significant savings is apparent, such delay is encouraged when feasible in negotiated acquisitions in order to accommodate the intent and purpose of review of the data by the inventory management/requirements office. In sealed-bid acquisitions, the policy in FAR 14.404-1(a) applies.

----

### SUBPART 18-7.3 CONTRACTOR VERSUS GOVERNMENT PERFORMANCE

# 18-7.303 Determining availability of private commercial sources.

NASA procedures for periodic inventories and reviews of commercial and industrial activities are contained in NMI 7410.3, Delegation of Authority for Acquisition of Commercial or Industrial Products or Services for NASA's Use.

### 18-7.307 Appeals.

NASA appeals procedures are contained in NMI 7410.3.

• ·· ---

#### SUBPART 18-7.70 SOLICITATION PROVISION

#### 18-7.7001 Estimate of work.

The contracting officer may insert a provision substantially as stated at 18-52.207-70, Estimate of Work, in solicitations if (a) mission suitability is considered more important than cost, (b) there is no other method to define the amount of work contemplated, and (c) use of the provision is approved at least one level above the contracting officer. Insert the total estimated value of the procurement.

-----

#### SUBPART 18-7.71 MASTER BUY PLAN PROCEDURE

#### 18-7.7100 Scope of subpart.

This subpart prescribes the Master Buy Plan Procedure, contains requirements for furnishing advance information to NASA Headquarters on proposed procurements that meet the criteria in this subpart, and prescribes procedures for selecting those procurement documents that are to be subject to NASA Headquarters review and approval and those that are to be processed at the installation level. This subpart also prescribes the approval requirements for those documents that are to be processed at the installation level.

18-7.7101 Policy.

The Master Buy Plan Procedure is designed to enable management to focus its attention on a representative selection of high-dollarvalue and otherwise sensitive procurement actions without compromise of Headquarters visibility of or control over essential management functions.

18-7.7102 Applicability.

(a) The Master Buy Plan Procedure applies to each negotiated procurement where dollar value, including the aggregate
amount of follow-on procurements, is expected to equal or exceed that in paragraph (b) of this section, for the installation making the award. In order to conduct the reviews required by FAR 8.307-1(b) for separate contracts, this procedure applies also to procurement of utility services when an areawide contract is not used and either--

(1) The annual cost of the services to be procured is estimated by the using installation, at the time of the initiation of the service or annual renewal of the expenditure, to exceed \$150,000; or

(2) Except for communication services, a proposed connection charge, termination liability, or any other facilities charge to be paid (whether or not refundable) is estimated to exceed \$75,000.

(b) The following are monetary limitations under the Master Buy Plan procedures:

> \$10,000,000 John C. Stennis Space Center Space Station Procurement Office NASA Management Office--JPL

For the purpose of the initial Master Buy Plan submission only, any of the above installations not having any procurements at or above the \$10 million limitation shall submit the three largest procurements over \$5 million.

\$25,000,000
 Ames Research Center
 Goddard Space Flight Center
 Headquarters Acquisition
 Division
 Johnson Space Center
 Kennedy Space Center
 Langley Research Center
 Lewis Research Center
 Marshall Space Flight Center

(c) The monetary limitations in paragraph(b) of this section apply also to the following:

(1) Any supplemental agreement (except one providing only for the addition or deletion of funds for incremental funding purposes) that contains either new work, a debit change order, or a credit change order (or any combination/ consolidation thereof), if either the new work or an individual change order or the aggregate of two or more actions equals or exceeds the dollar value in paragraph (b) of this section for the installation making the award.

(2) Any supplemental agreement that contains one or more elements (new work and/or individual change orders) of a sensitive nature that, in the judgment of the installation or Headquarters, warrants Headquarters consideration under the Master Buy Plan Procedure, even though the monetary amount under consideration might not equal or exceed the installation's limitation in paragraph (b) of this section.

(d) The Master Buy Plan Procedure does not apply to termination settlement agreements (see FAR Part 49).

# 18-7.7103 Submission, selection, and notification procedures.

### 18-7.7103-1 Submission of Master Buy Plan.

(a) Prior to July 15th of every year, each installation shall submit to the Associate Administrator for Procurement (Code HS) a Master Buy Plan (original and eight copies) for the next fiscal year, listing in it every known procurement that (1) meets the criteria in 18-7.7102, (2) is expected to be initiated in that fiscal year, and (3) has not been included in a previous Master Buy Plan or amendment to a Master Buy Plan. The plan shall include any phased procurement whose overall value exceeds the dollar threshold in 18-7.7102, even if the value of the initial phase is below the threshold. Initial phase for all procurements is considered to be Phase B or its equivalent.

(b) Plans shall be prepared in accordance
with 18-7.7106 and shall identify the individual procurement documents involved for every procurement listed. Procurement documents that may require Headquarters approval will be held in abeyance until receipt of the notification required by 18-7.7103-3. This is not to preclude the planning for or initiation of such documents up to that point where Headquarters approval may be required.

(c) The fiscal year Master Buy Plan shall list those procurements selected for Headquarters review and approval from prior Master Buy Plans and amendments to Master Buy Plans that have not been completed. These procurements should be listed by the appropriate fiscal year Master Buy Plan; include the individual item numbers and current status of the individual procurement documents previously selected for Headquarters review and approval.

# 18-7.7103-2 Submission of amendments to the Master Buy Plan.

(a) Procurements identified by installations after submission of their Master Buy Plan and meeting one of the criteria in 18-7.7102 shall be submitted to Headquarters in accordance with 18-7.7106. Such amendments shall be submitted sufficiently in advance of contract award date to allow Headquarters to select those procurement documents that will be subject to Headquarters review and approval without creating an unacceptable delay in contract placement.

(b) When timely submittal is not possible, the installation shall provide with the amendment a narrative explaining the circumstances leading to the late submittal. Master Buy Plan submissions should not be accomplished after the fact. A Master Buy Plan submission for a contract change order expected to meet the criteria in 18-7.7102 shall be submitted to Headquarters immediately upon issuance of the change order.

# 18-7.7103-3 Selection and notification procedures.

(a) The Associate Administrator for Procurement or a designee shall select procurement documents from the Master Buy Plan and amendments to Master Buy Plans to receive Headquarters review and approval and shall designate source selection officials.

(b) When, subsequent to document selection or delegation, a procurement is changed (for example, increase or decrease in dollar amount, change in requirement), cancelled, superseded, deferred, or becomes no longer subject to the Master Buy Plan procedures in accordance with the criteria in 18-7.7102, the installation shall immediately notify the Associate Administrator for Procurement (Code HS), giving the reasons. The Associate Administrator for Procurement or a designee shall notify the installation's procurement office in writing of any further action that may be required.

# 18-7.7104 Procurement documents selected for Headquarters review and approval.

(a) General. The cognizant installation shall ensure that procurement documents selected for Headquarters review and approval under this procedure are submitted in accordance with this subpart.

(b) Request for proposals (RFP) review and approval. Should the RFP be selected for Headquarters review and approval, the installation procurement office shall submit ten copies of the RFP to the Associate Administrator for Procurement (Code HS), along with the source evaluation board evaluation methodology, including the rationale for selecting the associated evaluation criteria, the expected significant discriminators that should result, and the proposed method to be used in developing the source evaluation board probable cost comparison. Any other significant cost or other factors that are expected to have a bearing on the evaluation should be discussed.

# 18-7.7105 Procurement documents not selected for Headquarters review and approval.

(a) Procurement documents or actions not selected for Headquarters review shall be processed at the installation level and approved in accordance with installation procedures.

(b) Procurement documents authorized to be processed at the installation level will be subject to after-the-fact reviews by Headquarters during normal procurement management surveys or other special reviews. Procurement delegations may subsequently be rescinded if a Headquarters review is deemed appropriate.

#### 18-7.7106 Format of Master Buy Plan.

In accordance with the requirements of 18-7.7103-1 and 18-7.7103-2, Master Buy Plans and amendments to Master Buy Plans shall be prepared in accordance with the formatillustrated in Table 18-7-1.

ł

#### (12) Current Status

1

### (13)

Remarks

#### INSTRUCTIONS

#### <u>General</u>

I

- 1. Prepare on 8-1/2" x 11" paper.
- List only <u>one</u> procurement on each page and number each page. Sequentially number each procurement action with a two digit "Line Item Number" beginning with "01 for each annual submission and subsequent amendments.
- For the initial submission only, list procurements and their current status from prior fiscal year(s) Haster Buy Plans and amendments to HBPs that have not been completed.
- 4. Do not reproduce these instructions on the submission.

#### Supplementary instructions by heading number

- (1) Include letter code and Headquarters contact, if known.
- (2) Include an "N" to indicate new procurement or "FO" to indicate follow-on procurement.
- (3) A range of dollar values may be used, if the exact value is unavailable. Express the range as \$10H to \$25H, \$25H to \$50H, and so forth in \$25H increments. Include all phases of the procurement. All dollar values must be in real year dollars, i.e., adjusted to include anticipated inflation.
- (4) Installation recommendation ("Y" or "N") that an Acquisition Strategy Meeting be held. (The final decision will be made by Headquarters upon review of the MBP submission).
- (5)-(10) Use "X" to indicate applicable documents. If column (8) contains an "X," include your recommendation in that column for the Source Selection Official (SSO). The recommendation should be either the Center SSO (CSSO) or Headquarters SSO (HSSO).
- (11) Use "Y" or "N" to indicate if a Delegation of Procurement Authority is required. (See FIRMR 201-23.104-1 and NFS 18-39.
- (12) Status should include scheduled date for next event. (Complete horizontally.)
- (13) Include data considered pertinent and indicate expected date for placement of contract. If less than full and open competition is involved, indicate the authority being used, identify the firm(s) to which the procurement is being limited, and indicate the current status of the justification document. Include the names and FTS numbers of the cognizant installation procurement person and technical representative. When FIP resources (ADP and/or telecommunication) are being acquired under a non-FIP resources contract, identify the estimated value of such resources. (Complete horizontally.)

-----

#### 18-7.7200 Scope of subpart.

This subpart prescribes the acquisition forecasting procedure required to comply with the Business Opportunity Development Reform Act of 1988.

#### 18-7.7201 Definitions.

"Class of contracts" means a grouping of procurements, either by dollar value or by the nature of supplies and services to be acquired.

"Contract opportunity" means planned new contract awards exceeding \$25,000.

#### 18-7.7202 Policy.

As required by statute, it is NASA policy to (a) prepare an annual forecast and semiannual update of expected contract opportunities or classes of contract opportunities for each fiscal year; (b) include in the forecast contract opportunities that small business concerns, including those owned and controlled by socially and economically disadvantaged individuals, may be capable of performing; and (c) make available such forecasts to industry.

#### 18-7.7203 Applicability.

This requirement applies to all known contract opportunities.

#### 18-7.7204 Responsibilities.

(a) NASA procurement officers shall furnish NASA Headquarters (Code HS) with the data required in 18-7.7205 in accordance with the schedule in 18-7.7206. (b) In order to assist the centers in preparing their forecasts, the Associate | Administrator for Procurement (Code HM and Code HS) shall generate historical data on the class of contract opportunities from \$25,000 to \$100,000 in value for use in generating a projection for the coming fiscal year. This shall be forwarded by August 1 to the centers to be validated, revised as necessary, and included with the forecast of procurements made by NASA procurement officers. The Associate Administrator for Procurement (Code HS) shall then prepare and distribute the consolidated annual forecast and the semiannual update.

#### 18-7.7205 Forecast data.

(a) The annual forecast shall contain--

(1) Validated historical data on the class of contract opportunities from \$25,000 to \$100,000;

(2) Identification of all known contract opportunities in excess of \$100,000. Each action should be identified as one of the three broad categories of procurement--Research and Development, Services, or Supplies and Equipment;

(3) A brief narrative description of each contract opportunity not to exceed ten typed lines;

(4) An indication of the approximate dollar value for each reported contract opportunity within the following dollar ranges: \$100,000 to \$1,000,000; \$1,000,000 to \$5,000,000; and over \$5,000,000;

(5) The anticipated time (by fiscal year quarter) for the issuance of the solicitation for each reported contract opportunity;

(6) Identification of each contract opportunity considered to be exclusively available for performance by small business concerns including those owned and controlled by socially and economically disadvantaged individuals; (7) Identification of each contract opportunity as competitive or noncompetitive; and

(8) Identification of a point of contact and telephone number of a knowledgeable individual at the center regarding the entry for each contract opportunity.

(b) The semiannual report shall be an update of the data provided by the annual forecast. This update should provide information on new requirements not previously reported and on changes in data related to actions previously identified.

### 18-7.7206 Schedule.

(a) Submission of forecast data.

The data required for the forecasts shall be submitted to the Associate Administrator for Procurement (Code HS) by-- (1) September 1 for the annual forecast; and

(2) March 15 for the semiannual update.

### (b) Distribution of forecast.

(1) Within 30 days of completion of an annual forecast or a semiannual update, the Associate Administrator for Procurement (Code HS) shall furnish the forecast to--

(i) The NASA Director of the Office of Small and Disadvantaged Business Utilization (Code K); and

(ii) The Administrator of the Small Business Administration.

(2) The annual and semiannual forecasts shall be made available by Code K, Code HS, and the centers to industry upon request.

### CFR TITLE 48 CHAPTER 18

### PART 18-8 REQUIRED SOURCES OF SUPPLIES AND SERVICES

18-8.002 Use of other Government supply sources.

18-8.002-70 Procurement of materials from the Surplus, Strategic, and Critical Materials Stockpile.

(a) The General Services Administration (GSA) is responsible for disposing of strategic and critical materials in excess of national stockpile requirements. These materials, primarily metals, ores, chemicals, and similar raw material items, are listed and described in a GSA bulletin disseminated periodically to procurement officers.

(b) Before initiating procurements of materials listed as being available from GSA, the contracting office should screen the list to determine whether the requirement can be met through transfer of material from GSA. Due consideration should be given to the quantity, quality, and location of the material and to the timeliness of its availability. Detailed information on excess material is available from GSA, Office of Stockpile Management, Room 5028, 18th and F Streets, N.W., Washington, DC 20405.

#### 18-8.002-71 Acquisition of helium.

(a) NASA is required by Public Law 86-777 (50 U.S.C. 167a et seq.) to obtain its major requirements for helium from the Department of the Interior.

(b) Each contracting office shall obtain its requirements for gaseous helium from the Department of the Interior (Bureau of Mines) or another Government support activity supplying Bureau of Mines helium.
(c) Requirements for (1) liquid helium or

(2) gaseous helium of a quality not supplied by the Bureau of Mines may be procured from commercial sources, provided such sources are qualified by the Bureau of Mines and included in the Bureau of Mines publication "List by Shipping Points of Private Distributors Eligible to Sell Helium to Federal Agencies." Copies of this publication may be obtained from Bureau of Mines, Helium Operation, P.O. Box H4372, Herring Plaza, Amarillo, TX 79101.

(d) The contracting officer shall provide a copy of each contract or purchase order for the supply of helium from commercial sources to the Bureau of Mines, at the address in paragraph (c) of this section.

(e) The clause at 18-52.208-83, Acquisition of Helium, specifies requirements for contractors consistent with this subsection.

#### 18-8.002-72 Acquisition of radioisotopes.

(a) DOE Form 5400.3, U.S. Department of Energy Isotope Order Blank, and NRC Form 313, U.S. Nuclear Regulatory Commission Application for Material License, shall be used to acquire radioisotopes, as stated on the back of DOE Form 5400.3. No other type of order blank, purchase order, or contract may be used in lieu of these forms.

(b) NRC Form 313 shall be filed with the Chief, Radioisotopes Licensing Branch, Division of Fuel Cycle and Material Safety, States Nuclear Regulatory United Commission, Washington, DC 20555. If the application meets all regulatory requirements and applicable standards, the Radioisotopes Licensing Branch, Nuclear Regulatory Commission, will issue a license to the applicant. After receipt of the license, a completed DOE Form 5400.3 (in duplicate, if the contracting office wants an accepted copy of the form back from the supplier), the license, and a Government bill of lading shall be sent to the appropriate DOE laboratory. If a bill of lading is not furnished, shipment shall be made collect on a commercial bill of lading, to be converted at destination.

(c) The "Terms and Conditions" on DOE Form 5400.3 shall control all requisitions for radioisotopes purchased by NASA from Department of Energy Laboratories.

(d) NRC Form 313 and DOE Form 5400.3 shall be requisitioned directly from United States Nuclear Regulatory Commission, Attn: Radioisotopes Licensing Branch, Division of Fuel Cycle and Material Safety, Washington, DC 20555.

### 18-8.002-73 Acquisition of liquid hydrogen.

(a) To ensure that adequate supplies of liquid hydrogen are readily available to meet current and future program requirements, NASA has established contractual arrangements with various supply sources. These contracts shall be used to the maximum extent practicable in supplying both in-house and contractor requirements for liquid hydrogen.

(b) Requests for liquid hydrogen shall be submitted to the John F. Kennedy Space Center, National Aeronautics and Space Administration, Kennedy Space Center, FL 32899, Attn: Director of Center Operations.

#### 18-8.002-74 Acquisition of propellants.

(a) General. The Department of the Air Force has assigned the operational authority and responsibility for acquiring and distributing missile propellants and related items to the San Antonio Air Logistics Center (SA-ALC), Kelly Air Force Base, Texas. Propellants (i.e., oxidizers and fuels), pressurants, and related materials are financed under a single Air Force appropriation designated the Missile Procurement Fund (MPF). Supplies are obtained by SA-ALC from Governmentowned, contractor-operated plants and by consolidated acquisitions from industry. NASA and its contractors (when materials are Government-furnished) may acquire from SA-ALC the items listed in paragraph (i) of this section (except for liquid hydrogen; see 18-8.002-73) on a reimbursable basis. The Air Force MPF shall be utilized as a supply source for propellants whenever there are economic or other advantages to the Government. Field installations and offices obtaining supplies from the MPF shall comply with the reporting requirements of paragraph (f) of this section.

(b) **Requests for acquisition.** To obtain the materials listed in paragraph (j) of this section from the Air Force MPF, NASA contracting offices will execute a NASA-Defense Purchase Request (NASA Form 523) (see 18-53.303-523) and forward it to Headquarters, SA-ALC, Kelly Air Force Base, TX 78241, Attention: SFS. The following additional information should be provided on the form:

(1) Contract number (when material is required for use by a NASA contractor).

(2) Delivery address.

(3) Mode of transportation (rail, trailer, barge, etc). When the procurement request covers requirements for materials not previously forecasted or covers significant changes to previously reported requirements, SA-ALC should be notified immediately of such requirements.

#### (c) **Delivery requests.**

(1) A delivery request is a call on the Air Force, made against a

#### **REQUIRED SOURCES OF SUPPLIES AND SERVICES**

NASA-Defense Purchase Request (NASA Form 523), specifying the time and place delivery. On the basis of the of estimated requirements, the Air Force will notify NASA field installations and contractors of the name and address of producing Force office or the Air contractor's plant to which requests for delivery of materials shall be made. Delivery requests may be placed by any communication that time means of justifies; however, all verbal requests for delivery must be confirmed in writing within 24 hours. The delivery request, whether oral or written, must cite the NASA-Defense Purchase Request number under which the material is being ordered and contain the following information:

(i) Nomenclature and National Stock Number.

(ii) Quantity.

(iii) Program, project, and task.

(iv) Contract number (when material is required for use by a NASA contractor).

(v) Delivery address.

(vi) Dates of delivery.

(vii) Mode of transportation.

(viii) Location of weighing stations and scales (if weighing of the products before delivery is required).

(2) Each delivery request shall be numbered simplify as follows to identification and control: the last two digits of the calendar year; a dash; and a consecutive number beginning with 1 to run throughout the year (e.g., 89-5, for the fifth request made in 1989). Changes to a request are identified by alphabetical designator adding an beginning with (A) to the number. This system is not intended to replace or to interfere with existing NASA purchase order numbering or internal budget or accounting numbering procedures.

#### (d) Receiving procedures.

(1) **Receiving documents.** Receipt of materials shall be evidenced on the receiving document received with the shipment by the signature of an individual authorized by NASA to receive materials from the Air Force. Every effort should be made to ensure that the NASA-Defense Purchase Request number is recorded on the receiving document before signing.

(2) Weighing facilities. Local weighing facilities (NASA-owned, contractor-owned, commercial, or Stateoperated) may be used to determine quantities of product received. If a discrepancy exists between the quantities shown on receiving documents and the quantities actually received --

(i) A certified weighing ticket evidencing actual weight at destination shall be obtained; and

(ii) A copy of the receiving document (AF Form 857 or DD Form 250) and the original weighing ticket shall be forwarded to Headquarters, SA-ALC, Kelly Air Force Base, TX 78241, Attention: ACFOM, identifying the discrepancy.

(3) Distribution of receipts. Copies of all receiving documents except the AF Form 857 shall be transmitted to the Headquarters, SA-ALC, Kelly Air Force Base, TX 78241, Attention: SACAOM. Receiving documents may be accumulated and submitted on the 10th, 20th, and last day of each month.

(e) Billing. The costs of materials obtained through the MPF are reimbursable. After delivery, a Standard Form 1080 (Voucher for Transfers Between Appropriations and/or Funds (Disbursement)), supported by documentary evidence of delivery, will be submitted by Headquarters, SA-ALC to the NASA installation designated in the NASA Form 523.

#### (f) Reporting requirements.

(1) Field installations shall submit periodic estimates of requirements for materials listed in paragraph (j)

#### **REQUIRED SOURCES OF SUPPLIES AND SERVICES**

below for all programs under their cognizance, including in-house contractor requirements. Headquarters Program Offices shall submit periodic estimates of requirements for any existing or potential programs that may not be known to or under the cognizance of a field installation. Reports shall be submitted in duplicate on AF Form 858, Forecast of Propellant Requirements.

(2) The reports shall be forwarded so as to reach Headquarters, SA-ALC, Kelly AFB, TX 78241, Attn: SFS, no later than June 1 and December 1. Supplemental reports advising of additions to or significant changes in previous reports may be submitted at any time. The reports, covering all materials listed in paragraph (j) below, due in June and December, shall begin with requirements as of the following July 1 and January 1, respectively, and cover shall 3-year a period. Requirements shall be shown by month for the first 6 months, and by quarters for the remaining 2-1/2-year period.

(3) Estimated requirements and other pertinent data required from contractors shall be obtained on Air Force Form 858.

(g) **Report content.** Reports shall be made using a separate report form for each material and shall provide, for each item of material, the --

- (1) Contract number;
- (2) Program and/or project;

(3) Specific task within the project;

(4) End use when not associated with the named program or project;

(5) Contractor's name;

(6) Specific location of use (shipping destination); and

(7) Planned source of supply.

(h) Basis for developing materials requirements. In computing requirements, consideration shall be given to such elements as lead time, waste factors, transfer, and storage losses so that phased requirements reflect the total gross quantities required to be delivered to the use or storage site. Since the requirements estimates are being used by other Government agencies acting as supply sources to contract for materials, estimates must be as accurate as possible.

(i) NASA coordination. The Kennedy Space Center shall coordinate the review of all data and establish NASA policy and procedures. The data shall be used as the basis for NASA requirements reports to various Government agencies for planning and supply support.

(j) Table of reportable materials.

- Ammonia, Technical (Anhydrous) (Low Oil Content) 99.97 percent purity, Spec 0-A-445
- Argon Gas, 6000 PSI, AFPID 6830-5
- Propellant, Ammonia, Liquid, Anhydrous 99.5 percent purity, Spec MIL-P-27406
- Propellant, Chlorine Trifluoride, Spec MIL-P-81399
- Propellant, Deuterium, Gaseous, AFPID 9135-20
- Propellant, Fluorine, Gaseous, Spec MIL-P-27405
- Propellant, Fluorine, Liquid, Spec MIL-P-27405
- Helium, Technical Grade A, Spec BB-H-1168
- Propellant, Isopropyl Alcohol, AFPID 9135-18
- Propellant, Hydrazine, Standard Grade, Spec MIL-P-26536
- Propellant, Hydrazine, Monopropellant Grade, Spec MIL-P-26536
- Propellant, Hydrazine/Unsymmetrical Dimethylhydrazine, Spec MIL-P-27402
- Propellant, Hydrogen, Gaseous, Type I, Spec MIL-P-27201
- Propellant, Hydrogen, Liquid, Type II, Spec MIL-P-27201
- Propellant, Hydrogen Peroxide, Spec MIL-P-16005
- Propellant, Hydrogen Peroxide, Electrolytic Process, Spec MIL-P-16005

### **REQUIRED SOURCES OF SUPPLIES AND SERVICES**

- Propellant, Jet Fuel, Grade RJ-1, Spec MIL-F-25558
- Propellant, JPX, 50% UDMH-50% JP-4, Spec MIL-P-26694
- Propellant, JPX, 17% UDMH-83% JP-4, Spec MIL-P-26694
- Propellant, Kerosene, Grade RP-1, Spec MIL-P-25576
- Propellant, Monomethly Hydrazine, Spec MIL-P-27404
- Propellant, Neon, Liquid, AFPID 9135-16
- Propellant, Nitric Acid, Type IIIB, Spec MIL-P-7254
- Propellant, Nitric Acid, Type III LS, Spec MIL-P-7254
- Propellant, Nitric Acid, Type IV (High Density Acid), Spec MIL-P-7254
- Propellant, Nitrogen Tetroxide (NTO) (MON-1)(MON-3), Spec MIL-P-26539
- Propellant, Nitrogen Tetroxide (NTO), MIL-P-26539
- Propellant, Nitrogen Tetroxide (MON-1), Spec MIL-P-26539
- Propellant, Nitrogen Tetroxide (MON-3), Spec MIL-P-26539

- Propellant, Oxygen, Grade A, Spec MIL-P-25508
- Propellant, Oxygen, Grade F, Spec MIL-P-25508
- Propellant Pressurizing Agent, Helium, Spec MIL-P-27407, 99.995 pct min assay
- Propellant Pressurizing Agent, Nitrogen, Type II, Liquid Grade C, Spec MIL-P-27401
- Propellant Pressurizing Agent, Nitrogen, Type I, Gaseous Grade A, Spec MIL-P-27401
- Propellant Pressurizing Agent, Nitrogen, Type I, Grade B, Spec MIL-P-27401
- Propellant Pressurizing Agent, Nitrogen, Type II, Grade A, Spec MIL-P-27401
- Propellant Pressurizing Agent, Nitrogen, Type II, Grade B, Spec MIL-P-27401

- Propellant, Unsymmetrical Dimethylhydrazine, Spec MIL-P-25604
- Propellant, Nitrogen Trifluoride Spec MIL-P-87896
- Propellant Pressurizing Agent, Argon, Liquid, AFPID 9135-19

#### 18-8.002-75 Acquisition of mercury.

(a) NASA is prohibited from purchasing mercury in quantities of 76 pounds or more from commercial sources without prior clearance from GSA.

(b) Mercury, minimum 99.9 percent pure (not triple distilled), in 76-pound flasks, is available for transfer from GSA stocks at fair market value.

(1) Requests for mercury by NASA installations for their use or for use by their cost-reimbursement type contractors shall be made to the Project Manager, Mineral and Ores, Property Management and Disposal Services, GSA, Washington, DC 20405. The Project Manager will furnish the current fair market value to NASA. The unit of issue is a 76-pound flask.

(2) Requests for clearance to purchase quantities of 76 pounds or more from sources other than GSA shall be submitted to the office in subparagraph (1) above and must be accompanied by a statement of reasons why the available excess mercury is unsuitable for use by the requesting field installation.

### 18-8.002-76 Contract clause.

The contracting officer shall insert the clause at 18-52.208-83 in all solicitations and contracts requiring the procurement of helium.

18-8.103 Information on available excess personal property.

In addition to the sources identified in FAR 8.103, information on availability of NASA excess property is maintained by the Installation Property Disposal Officer and the NASA Equipment Management System (NEMS) Coordinator.

·

· ---- \*\*

#### SUBPART 18-8.3 ACQUISITION OF UTILITY SERVICES

#### 18-8.301 Definitions.

"Multiple-service locations," as used in this subpart, means the various locations or delivery points in a contractor's service area to which services are provided under a single contract.

"Utility suppliers," as used in this subpart, may be quasi-public service corporations, private concerns, municipalities, associations, or cooperatives. Thev generally operate in a franchised territory without competition, so they may frequently be in a sole-source position. Under common law, public utilities must render service at reasonable rates and without discrimination. Their operations, management, rates, and profits are usually regulated by Federal, State, or local regulatory bodies, but absence of a regulatory body does not necessarily mean a complete lack of control. Administrative remedies pursuant to enabling statutes may be pursued or complaints may be taken to a court of competent jurisdiction.

#### 18-8.303 General.

(a) Requirements for utility services shall be determined by technically qualified personnel who will assist the contracting officer as required. Before soliciting technical assistance outside the agency (see FAR 8.303(b)), technical personnel shall contact the Facilities Engineering Division (Code JX), NASA Headquarters.

(b) Appropriated funds may not be used to purchase electricity in a manner inconsistent with state law governing the provision of electric utility service, including state utility commission rulings and electric utility franchises or service territories established pursuant to state statute, state regulation, or state-approved territorial agreements (Pub. L. 100-202, Sec. 8093, 101 Stat. 1329-79). Before acquiring electric utility service, the contracting officer shall determine whether the manner of acquisition, in particular, competitive acquisition under FAR 8.304-5(d), would be inconsistent with state law. Section 8093 of Pub. L. 100-202 is not intended to affect transfers of electricity to agencies from Federal power marketing agencies or the Tennessee Valley Authority, such as NASA's power allocation from the Western Area Power Marketing Administration. Such transfers do not constitute "purchases" for purposes of section 8093.

#### 18-8.304 Acquiring utility services.

#### 18-8.304-2 GSA areawide contracts.

(a) GSA publishes a checklist of utility services available under its areawide public utility contracts. The checklist specifies contract numbers, expiration dates, companies, and areas served. Copies of the checklist may be obtained from GSA, Public Utility Services Division, Washington, DC 20405 (FTS 566-0901).

(b) In determining whether a GSA areawide public utility contract is adequate to meet requirements, procurement offices should consider (1) the areawide contract rates and volume of service required, (2) any unusual characteristics of the service required, (3) any special equipment or facility requirements, (4) any special technical contract provisions required, and (5) any other special circumstances.

(c) If a procurement officer finds that a separately negotiated contract would be more advantageous to the Government than the GSA areawide public utility contract, the procurement officer shall submit a request to the Associate Administrator for Procurement, NASA Headquarters (Code HS), for a waiver of the requirement to use the GSA areawide public utility contract. The request shall explain the merit of a separately negotiated contract.

# 18-8.304-4 Consolidated purchase, joint use, or cross-service.

(a) The Department of Defense (DOD) enters into areawide fuel oil and other energy-service contracts. DOD areawide contracts provide that the contractor shall, upon receipt of an order in the form prescribed by the contract, furnish the service involved without further negotiations as to rates and charges, in accordance with the established and filed rate schedules applicable to the service.

(b) When procuring utility services from another Government agency by crossservicing, the procurement office shall use a memorandum of understanding specifying the services to be provided and the conditions under which they will be supplied. A Utility Service Narrative shall be submitted in accordance with 18-8.307-70.

### 18-8.304-5 Agency acquisition.

### 18-8.304-570 Renewal of contracts.

(a) A contract may be renewed or extended by option, provided that the contract is not in effect for more than a total of 5 successive years.

(b) Contracting officers shall consider selecting an expiration date for the contract sufficiently after the end of the fiscal year to ensure that appropriations will be available when the option is exercised.

# 18-8.304-571 Headquarters requirement for copies of contracts.

The contracting officer shall forward, promptly after execution, one copy of each

contract, service authorization form, memorandum of understanding, and modification to the Associate Administrator for Procurement, NASA Headquarters (Code HS) and to the Facilities Engineering Division, NASA Headquarters (Code JX).

# 18-8.304-572 Contents of a negotiated utility service contract.

(a) All negotiated utility service contracts estimated to exceed \$2,500 annually shall be written in accordance with the directions in subparagraphs (1) through (5) following:

(1) SF 26. Use Standard Form 26 (see FAR 53.215-1(b)).

(2) Appendix A.

(i) Include the rate schedule, which shall consist of --

(A) The published rate schedule of the contractor approved or established by a Federal, State, or other regulatory body; or

(B) The rate schedule negotiated between the contractor and the Government.

(ii) The rate schedule shall bear the legend "Appendix A, attached to and made a part of Contract No. \_\_\_\_," and be entitled "Rate Schedule." Each page shall indicate its number and the total number of pages comprising Appendix A, as, for example, "page 1 of 3." In addition to stating the rate applicable to the contract, Appendix A shall include any applicable rules or regulations (whether established by the regulatory body, the contractor, or negotiation between the contractor and the Government) pertaining to the Rate Schedule. Appendix A may provide for payment to the contractor of а nonrecurring, nonrefundable fee not exceeding \$1,000 for the costs of connecting the contractor's facilities to, and disconnecting them from, the Government's facilities, if the contract period is less than 6 months. In all instances where a

connection charge, other than the fee described above, is involved, the "Connection Charge" clause (18-52.208-77) and Appendix C (see paragraph (4) of this section) shall be included in the contract.

(3) Appendix B. Include the service specifications applicable to the con-tract, which shall consist of a specially drafted attachment to the contract bearing the legend "Appendix B, attached to and made a part of Contract No. \_\_\_\_\_," and the title of the appropriate service specifications. Each page shall indicate its number and the total number of pages comprising Appendix B, as, for example, "page 1 of 3." Such appendix shall contain as a minimum--

(i) The premises to be served;

(ii) An estimate of the service requirements;

(iii) The point of delivery to the Government;

(iv) A description of the service;

(v) A statement of how the service is to be measured for purposes of billing; and

(vi) A statement of the capacity and flow of the service.

(4) Appendix C. Include the connection charge schedule required whenever the contract includes the connection charge clause at 18-52.208-77 or the termination charge clause at 18-52.208-78. It shall bear the legend "Appendix C, attached to and made a part of Contract No. \_\_\_\_\_\_," and be entitled "Connection Charge Schedule." Each page shall indicate its number and the total number of pages comprising Appendix C, as, for example, "page 1 of 3." The appendix shall contain as a minimum--

(i) A detailed description of the new facilities to be furnished by the contractor; and

(ii) The agreed salvage value of these facilities.

(5) Include any contract clauses required by FAR 8.309 or 18-8.309.

(b) Any negotiated utility service contract estimated not to exceed \$2,500 annually shall consist of-- (1) Standard Form 26 (FAR 53.215-1(b));

(2) An Appendix A (see paragraph (a)(2) of this section); and

(3) Any contract clauses required by FAR 8.309 or section 18-8.309 of this Regulation.

#### 18-8.304-573 Authorization for procurement of wellhead natural gas.

(a) Acquisition of wellhead natural gas and interstate transportation of the natural gas to locally franchised distribution utility companies' receipt points (city gate) is considered the procurement of supplies rather than the procurement of public utility services described in FAR Subpart 8.3. Therefore, wellhead natural gas and interstate transportation of such gas should be obtained directly by NASA under applicable authorities and FAR procedures governing the acquisition of supplies. Redelivery of the gas from the city gate to the NASA facility is considered a utility service since it is provided only by the locally franchised utility. GSA is responsible for obtaining an appropriate contract for the redelivery service in accordance with FAR 8.304.

(b) GSA provides assistance to Federal agencies in the procurement of natural gas wellhead supplies. Contracting officers requiring assistance in determining the feasibility of procuring natural gas supplies on a facility by facility basis may contact General Services Administration, Public Building Services, Office of Procurement, Public Utilities Services Division, Code PPU (FTS 241-0901 or Commercial (202) 501-0901). In contacting GSA, contracting officers should provide the data stated in FAR 8.307 pertaining to present gas usage exceeding 50,000 Mcf per year. GSA has found that 50,000 Mcf is the annual volume below which wellhead purchases may not be economically feasible.

### 18-8.305 Rate increases.

(a) When the contractor notifies the contracting officer as provided in the Public Regulation and Change of Rates clause at 18-52.208-71, or whenever the contractor requests that rate changes be negotiated, as provided in the Change in Rates clause at 18-52.208-76, the contracting officer shall notify the Associate Administrator for Procurement, NASA Headquarters (Code HS) and the Facilities Engineering Division, NASA Headquarters (Code JX). The notification shall include sufficient information to permit a determination of the monetary effect of the proposed changes, a recommendation under subparagraph (1) or (2) of this section, and the basis for the recommendation.

(1) When notice is received that the contractor has filed an application for rate changes before the local regulatory body, the contracting officer shall recommend whether or not the Government should intervene at the hearing on the application. If it is recommended that the Government intervene, the recommendation shall be accompanied by a statement containing the basis for intervention and the extent to which the installation can support intervention by presenting testimony, preparing exhibits, and furnishing legal counsel.

(2) When notice is received that the contractor requests that rate changes be negotiated, the contracting officer shall recommend the position to be taken by the Government regarding the rate changes and state the extent to which installation personnel are available to support this position.

(b) The Associate Administrator for Procurement, NASA Headquarters, with the technical assistance of the Facilities Engineering Division, NASA Headquarters, shall furnish the contracting officer a recommendation concerning the proposed rate changes and the extent to which NASA Headquarters will participate in the intervention before the local regulatory body or in negotiations with the contractor. Before recommending any action, the Associate Administrator for Procurement, | NASA Headquarters shall, as necessary, coordinate with other staff offices or divisions, or other Government agencies. The contracting officer shall await the instructions of the Associate Administrator | for Procurement, NASA Headquarters, for at least 30 calendar days before submitting the matter to GSA (see FAR 8.305(b)) or taking other action concerning the proposed rate changes.

#### 18-8.307 Precontract acquisition reviews.

#### 18-8.307-70 Utility service narrative.

(a) When required by FAR 8.307-1(b), and before initiating negotiations, the contracting officer shall submit a Utility Service Narrative for proposed procurements for new utilities services. renegotiations or extensions of existing utility services, or existing contracts that require a negotiation for change of rate schedules, to the Associate Administrator | for Procurement (Code HS), NASA Headquarters. The Utility Service Narrative shall include--

(1) A brief technical description of the service required or being furnished;

(2) Justification of the reasonableness of the proposed rate;

(3) An outline of the field installation's proposed negotiation tactics, basis for position, and any alternative position;

(4) An estimate of the annual cost of service; and

(5) Other related items, as applicable, such as connection charges, termination liability, facilities charges, requirement for Government capital costs, or any unusual factors affecting the procurement.

(b) The Associate Administrator for Procurement (Code HS), with the coordination of the Facilities Engineering Division (Code JX), will review the information submitted under paragraph (a)
of this section. If NASA Headquarters desires to participate in the negotiations,
the Associate Administrator for Procurement (Code HS), NASA Headquarters, shall inform the contracting officer within 30 days after receipt of the Utility Service Narrative.

#### 18-8.307-71 Contracts requiring Headquarters approval.

Contracts and supplemental agreements for utility services shall be submitted to the Associate Administrator for Procurement, NASA Headquarters (Code HS), for approval as required by 18-4.7203 and 18-7.71.

#### 8-8.309 Contract clauses.

As prescribed below, the contracting officer shall insert the following clauses in solicitations and negotiated contracts for utility services. These clauses supplement those prescribed elsewhere in the FAR or this Regulation:

(a) Insert the clause at 18-52.208-70, Rates.

(b) Insert the clause at 18-52.208-71, Public Regulation and Change of Rates, except that the clause at 18-52.208-76, Change in Rates, shall be used if--

(1) The rates applicable to the service furnished under the contract are negotiated between the contractor and the Government without the approval of any Federal, State, or local regulatory agency;

(2) The service to be furnished under the contract is otherwise not subject to regulation by any Federal, State, or local regulatory agency; or

(3) The contractor also acts as the local public regulatory agency and its decisions are not subject to review by a higher regulatory agency;

(c) Insert the clause at 18-52.208-72, Change in Class of Service, in solicitations and negotiated contracts estimated to exceed \$2,500.

(d) Insert the clause at 18-52.208-73, Contractor's Facilities, in solicitations and negotiated contracts estimated to exceed \$2,500. Insert the clause at 18-52.208-80, Contractor's Facilities (Short Form), when the estimated annual cost is \$2,500 or less.

(e) Insert the clause at 18-52.208-74, Technical Provisions, in solicitations and negotiated contracts estimated to exceed \$2,500.

(f) Insert the clause at 18-52.208-75, Renewal of Contract, whenever it is desirable that the utility service be provided under the same terms and conditions for more than 1 year (see 18-8.304-570).

(g) Insert the clause at 18-52.208-77, Connection Charge, when (1) a connection charge is to be paid by the Government and (2) the conditions permitting the incorporation of a nonrecurring, nonrefundable fee in Appendix A, the rate schedule applicable to the contract, do not exist. Also attach Appendix C (see 18-8.304-572(a)(4)).

(h) Insert the clause at 18-52.208-78, Termination Charge, when payment is to be made to the contractor upon termination of service in lieu of a connection charge upon completion of the facilities. Use of this clause is subject to Master Buy Plan approval requirements (see 18-7.71). Also attach Appendix C.

(i) Insert the clause at 18-52.208-79, Multiple Service Locations, when it is desired to provide for one or more possible alternative service locations.

18-8.404 Using schedules.

#### 18-8.404-3 Requests for waivers.

(a) The head of the NASA office initiating the procurement request or a designated representative shall furnish the NASA contracting office a signed statement identifying the supplies or services to be purchased and explaining why similar items listed in the applicable schedule will not meet the requirement.

(b) If a waiver is not granted, the case shall be referred to the Associate Administrator for Procurement for a final decision as to whether the non-schedule item will be purchased. The Associate Administrator for Procurement shall promptly notify the Commissioner, Federal Supply Service, GSA, and the contracting office of the decision. 18-8.405 Ordering office responsibilities.

# 18-8.405-1 Ordering from multiple-award schedules.

(a) If NASA can buy from a schedule contractor for substantially less than the schedule price, the procurement shall be accomplished at the better price. A copy of the order shall be forwarded to GSA in accordance with FAR 8.405-1(d).

(b) The following factors shall be considered when deciding to buy a higherpriced item:

(1) Does its longer useful life justify the higher price?

(2) Do warranties justify the higher price?

(3) Does the availability or cost of maintenance justify the difference in price?

#### 18-8.405-2 Order placement.

Delivery orders shall be issued on Optional Form 347 or an installation-prescribed form as specified in FAR 8.405-2. .

#### SUBPART 18-8.6 ACQUISITION FROM FEDERAL PRISON INDUSTRIES, INC.

#### 18-8.605 Clearances.

(a) NASA purchase orders or contracts written pursuant to a general or blanket clearance need not be supported by a copy of the clearance, but the clearance number must be cited on the purchase order or contract as well as on the initial voucher. (b) If a formal clearance has been requested, the contracting officer may not consummate the purchase before the formal clearance is issued. A copy of the clearance certificate must be attached to the initial voucher.

(c) When disputes under FAR 8.605(c) occur, the contracting officer shall refer the matter to the Associate Administrator | for Procurement (Code HP) for review and any further action. Such referrals shall include a complete statement of the attempts made to resolve the matter.

- ..... \*

### SUBPART 18-8.7 ACQUISITION FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

18-8.705 Procedures.

18-8.705-1 General.

(a) When supplies require overseas packaging or packing or are required in

carload lots, as described in the Consolidated Freight Classification for the commodity concerned, procurement shall follow the procedure in FAR 8.705-3(b).

(b) The Federal Standard Requisitioning and Issue Procedure (Federal Property Management Regulation, Subpart 101-26.2) shall be used to obtain workshopproduced supplies from GSA supply distribution facilities.

· \_-

### SUBPART 18-8.8 ACQUISITION OF PRINTING AND RELATED SUPPLIES

### 18-8.802 Policy.

Acquisition of printing or duplicating/copying is governed by the provisions of the Government Printing and Binding Regulations, No. 26, S. Pub 101-9, U.S. Government Printing Office, published by the Joint Committee on Printing, U.S. Congress. Approval of printing supplies or services in contracts shall be in accordance with NMI 1490.1. NASA Printing. Duplicating, and Copying Management Program. Regulations prohibit the use of appropriated funds for the acquisition of any printing and substantial duplicating/copying outside of the Government Printing Office (GPO). An exception to the restriction exists if the requirement meets all of the following: an individual order is under \$1,000, not of a continuing or repetitive nature, and the Public Printer certifies it cannot be provided more economically through the GPO. A request for an exception would be processed by the contracting officer, through NASA Headquarters Code JTT, to the Public Printer of the GPO; however, circumstances under which approval would be granted are rare.

#### 18-8.870 Contract clause.

The contracting officer shall insert the clause at 18-52.208-81, Restrictions on Printing and Duplicating, in solicitations and contracts where there is a requirement for any printing, and/or any duplicating/copying in excess of that described in paragraph (c) of the clause.

### SUBPART 18-8.11 LEASING OF MOTOR VEHICLES

# 18-8.1100 Scope of subpart.

NASA procedures for leasing motor vehicles from GSA or commercial sources are contained in NMI 6000.5, Transportation Management.

PART 18-9 CONTRACTOR QUALIFICATIONS

### SUBPART 18-9.1 RESPONSIBLE PROSPECTIVE CONTRACTORS

### 18-9.102 Applicability.

# 18-9.102-70 Procurements from Canadian sources of supply.

(a) Awards to Canadian sources of supply are subject to FAR Subpart 9.1. A Canadian firm proposed by the Canadian Commercial Corporation (CCC) as its subcontractor generally shall be accepted as responsible by the contracting officer under the provisions of FAR 9.104-4(a). When the firm proposed by CCC is so accepted, preaward survey forms need not be completed.

(b) The contracting officer, when the CCC proposal is not consistent with other available information, shall request from CCC and any other appropriate sources additional information or plant surveys needed in order to make the determination of responsibility required by FAR 9.103(b). The additional data may be requested on the preaward survey forms or on any other forms. Upon request, CCC shall be furnished the reasons for the rejection of its proposed firm.

# 18-9.104-70 Ineligibility for NASA contracts and subcontracts.

(a) Public Law 102-195 (the NASA Fiscal Year 1992 Authorization Act) states that a person shall not intentionally affix a label bearing the inscription "Made in America," or any inscription with that meaning, to any product sold in or shipped to the United States, if that product is not a domestic product. A person who violates that prohibition is not eligible for a procurement carried out with amounts authorized under that act, including any subcontract under such a contract.

(b) Contracting officers shall report to the Associate Administrator for Procurement | (Code HP) any violation of this prohibition.

(c) For purposes of this section, the term "domestic product" means a product that --

(1) is manufactured or produced in the United States; and

(2) at least 50 percent of the cost of the articles, materials, or supplies of which are mined, produced, or manufactured in the United States.

### 18-9.105 Procedures.

#### 18-9.105-1 Obtaining information.

When a performance or payment security requirement is included in the solicitation and the offeror proposes a corporate surety, the contracting officer shall satisfy the requirements of FAR 28.202 by obtaining the most current information from the Department of Treasury <u>Circular 570</u> <u>Bulletin Board</u>, FTS (202) 874-7214. Use communications software specifications.

### CONTRACTOR QUALIFICATIONS

### 18-9.106 Preaward surveys.

18-9.106-1 Conditions for preaward surveys.

In addition to the circumstances enumerated in FAR 9.106-1(a), preaward surveys normally are not required when --

(a) The contract is for study or research only;

(b) The data necessary for a responsibility determination are available from other sources;

(c) The pending contract will be a definitive contract superseding a letter contract;

(d) An order is placed under an existing contract; or

(e) The source has been recommended by a NASA Source Evaluation Board.

### 18-9.106-70 NASA Preaward surveys.

(a) **Preaward survey procedures.** Preaward surveys shall be conducted in compliance with FAR Subpart 9.1 and this subsection 18-9.106-70.

General. Paragraphs (c) through (k) (b) of this section establish detailed procedures for conducting preaward surveys, including preaward surveys conducted by NASA, those conducted by another agency for NASA, and those jointly conducted.

### (c) Definitions.

"Monitor," as used in this subsection, means the person designated to administer the preaward survey in accordance with paragraph (f)(2) of this section. *"Team coordinator,"* as used in this subsection, means the person designated by the monitor to coordinate the on-site survey, arrange for plant visits, and conduct team conferences as necessary before, during, and after the plant visit.

"Preaward survey review board" means a board established to review and approve or disapprove preaward survey reports.

(d) Procedure for requesting preaward survey.

(1) A preaward survey shall be requested on Standard Form 1403, Preaward Survey of Prospective Contractor (General). The requestor shall indicate in Section III of the SF 1403 the scope of the survey desired. Factors requiring emphasis not enumerated in Section III should be listed under block 20.H. of that section. The "Walsh-Healey Public Contracts Act" block of Section I is for information purposes only. If information is needed for a determination on the offeror's eligibility under the Walsh-Healey be Act. it must specifically requested in block 20.H. of Section III. A survey may be requested by telegraphic or facsimile communication containing the data required by Sections I, II, and III of SF 1403. A survey may be requested by telephone but shall be immediately confirmed on SF 1403. Unless previously furnished, a copy of the solicitation and such drawings and specifications as the contracting office deems necessary shall be supplied with the preaward survey request.

(2) Any information indicating previous unsatisfactory contract performance shall be furnished to the survey activity with the preaward survey request, unless it is known that the survey activity already has this information.

(3) The request for preaward survey shall be forwarded in an original and

### **RESPONSIBLE PROSPECTIVE CONTRACTORS**

three copies to the responsible survey activity. If the survey activity is a DOD agency, the request is to be sent to the appropriate office shown in the DOD Directory of Contract Administration Services Components, DLAH 4105.4, Attn: Preaward Survey Monitor. The date on which the completed survey report is desired should be indicated; DOD normally allows seven working days in which to conduct a full survey and submit the report to the requesting agency.

#### (c) Scope of survey.

 (1) A complete survey encompasses
 (i) investigation, to the extent applicable to the proposed contract, of the factors listed in Section III of SF 1403, together with other requirements of special inquiry as requested by the contracting officer, and (ii) submission of appropriate findings.

(2) A partial survey encompasses (i) investigation of those factors referenced in paragraph (1) of this section that are specifically requested by the contracting officer and any other factors considered advisable by the activity conducting the survey, and (ii) submission of appropriate findings. (3) The activity conducting the survey may execute and transmit to the contracting officer a short-form preaward survey report when sufficient current favorable information is available to recommend award without a formal survey. The SF 1403 will be used as the survey report in accordance with procedures outlined in paragraph (f)(1)(iv) of this section. If the contracting officer needs additional information on contractor capability, the activity conducting the survey may be so advised, and a detailed survey report shall be provided.

### (f) Contracting office procedure.

### (1) General.

Preaward surveys shall (i) normally be conducted within seven working days after receipt of the request and in the detail requested by the contracting officer. In unusual situsurveys mav be ations, reports of requested in a shorter time if the Qualified warrants. situation SO specialists responsible for the factors referenced in paragraph (e)(1) of this section shall participate as required.

(ii) Representatives of the contracting office and other activities shall participate in preaward surveys

(The next page is 9-1:3.)

### **RESPONSIBLE PROSPECTIVE CONTRACTORS**

when requested by the contracting officer or as desired by the contracting office.

(iii) If the preaward survey cannot be accomplished within the time allowed, the contracting officer shall be so notified. If the date is not extended, the preaward survey monitor shall supply a definite recommendation by the date required, based on the material at hand or developed by that time. The basis for the recommendation and the factors for which no data or only partial data could be obtained shall be indicated.

When (iv)the activity conducting survey possesses the sufficient current favorable information about an offeror to recommend award without performing a formal survey, a short-form preaward report consisting solely of SF 1403 may be executed and forwarded to the contracting officer the contracting officer has unless (see additional information reauested paragraph (e) above). Sections III and IV of the SF 1403 shall be completed and the following statement shall be stamped in block 23, the "Remarks" portion of Section III: SHORT-FORM PREAWARD REPORT. Pursuant to 18-9.106-70(e)(3), complete award is recommended.

(2) Designation of preaward survey individual within each monitor. An procurement office performing preaward surveys shall be designated as the preaward survey monitor. The monitor shall administer the preaward survey from the receipt of the request through the issuance of the final report to ensure and maximum appropriate coverage efficiency. The monitor shall take the subdivisions (i) listed in actions through (xiii) following:

(i) Receive all incoming preaward survey requests.

(ii) Ascertain whether the prospective contractor is included on the Lists of Parties Excluded from Federal Procurement or Nonprocurement Programs for any reason, including those attributable to equal employment opportunity practices. (If the contractor listed. the prospective is contracting officer shall be promptly advised and the preaward survey shall not completed. unless specifically be requested by the contracting officer.)

(iii) Compare the survey request with the requirements of the solicitation.

(iv) Determine the need for an on-site survey after reviewing the type and quantity of items or services involved, previous experience with the schedule firm, the technical and requirements, and the extent of other information currently available. If an on-site survey has been requested and sufficient information is alreadv available in the contracting or other DOD contract adminisoffices (e.g., tration office), the monitor shall ask the contracting officer whether an onsite survey must nevertheless be conducted, and for the specific elements to be covered.

(v) Determine and advise the organizational segments of the installation (e.g., engineering, production, reliability and quality assurance, and contract administration) that will furnish team members.

(vi) Provide team members --

(A) The date on which the information is required from each organizational segment;

(B) Identification of the portion of the survey for which each organizational segment is responsible;

(C) Information on whether an on-site survey of the prospective contractor's facility is contemplated (this is subject to later modification on the basis of information supplied by team members);

(D) Any special terms and conditions noted in the solicitation; and

(E) Any other information or guidance the particular request may require.

### CONTRACTOR QUALIFICATIONS

(vii) After discussion with appropriate organizational segments, designate the team coordinator.

(viii) Arrange for required audit and other external assistance. For example, when award depends upon the contractor's having an adequate cost accounting system for proper postaward administration of the contract, the audit cognizant agency shall be responsible for the system review. evaluation, and conclusive recommendation (SF 1408 is provided for this purpose).

(ix) Coordinate any participation where the preaward survey is being performed for another NASA installation.

(x) Receive reports of the individual team members and review them for completeness and adequate substantiation.

(xi) Resolve questions regarding technical details with responsible specialists.

(xii) Report those applicable procedures of the prospective contractor that have been reviewed by Government personnel (e.g., procurement system, estimating system, accounting system, control of Government property, and quality program).

(xiii) Assemble all necessary survey data into a report, including a recommendation as to award, and submit it to the chairperson of the preaward survey review board.

(3) Designation and responsibilities of team coordinator and members.

(i) When an on-site survey by a team is necessary, members should include specialists qualified to evaluate all appropriate phases of the firm's capabilities. The team coordinator shall arrange for the team's visit to the site, direct the team's efforts, and conduct team conferences for the purposes listed in subdivisions (A) through (C) following:

(A) Arriving at uniform interpretations before holding discussions with the prospective contractor's management. (B) Briefing team mem-

bers on their interviews and discussions with officials of the firm before making the on-site survey. Members shall not refer to or comment on the possibility that award will or will not be made to the prospective contractor. This does not preclude discussion with a prospective contractor of questionable areas that in the opinion of the team member require clarification. Information obtained during the survey will be treated in strict confidence and divulged only to those Government representatives having a need to know.

(C) Arranging for discussions among members during and after the on-site survey to ensure that evaluations by individual specialists are integrated, coordinated, and complete.

(ii) When an on-site survey is required for only one aspect of the prospective contractor's capability, a qualified specialist shall be designated to conduct the on-site portion of the survey. One specialist may be designated to investigate more than one aspect when it is within the specialist's capability.

# (4) Preaward survey review board.

(i) A preaward survey review board shall be formally established to review and approve survey reports before they are transmitted to the contracting officer.

(ii) The board shall be composed of senior specialists representing each of the major functions normally associated with preaward surveys, one of whom shall be designated chairperson. Flexibility of membership shall be provided by designating alternates and by establishing the criteria or conditions governing the need for occasional special technical representation. Membership on the board shall be in addition to the members' regular duties.

(g) Steps for survey performance. The three steps in performing a preaward survey are the --

### **RESPONSIBLE PROSPECTIVE CONTRACTORS**

(1) Preliminary analysis;

(2) Development and evaluation of information; and

(3) Preparation and review of the preaward survey report.

(h) Preliminary analysis. The request (SF 1403, Sections I, II, and III) shall establish basic be reviewed to information administrative and the The be investigated. factors to solicitation shall then be reviewed to special those general and ascertain requirements having a significant bearing on determining contractor responsibility. Examples are the nature of the product or services, applicable schedule, specifications. delivery property documentation requirements. financing control requirements, and aspects.

(i) Development of information.

(1) Review available data. of Information already available in the office pertaining to the contracting past and its prospective contractor performance shall be reviewed. Prior preaward survey reports and contractor performance records shall be examined and considered in support of preaward survey If the prospective recommendations. contractor has current or contemplated Government contracts, the files should be checked information regarding for similarity of product, current status of quality control experience, contracts, and financial status.

(2) Development of additional data.

When appropriate, the (i) contracting office shall supplement the any additional data on hand with other required from information Government sources and from commercial banks. business as sources. such and credit rating associates. and reporting agencies.

(ii) An on-site survey shall be performed when sufficient information is not developed as a result of actions taken under subparagraph (1) and subdivision (i) above.

covering (iii) narrative A shall be investigated each factor referenced in Section III of SF 1403 and appended to the form. This narrative include detailed discussion shall supporting findings of both satisfactory and unsatisfactory conditions and shall stated for include reasons all conclusions.

(iv) When a prospective contractor proposes to acquire additional resources essential to performance of the proposed contract, the activity conducting the survey shall as a minimum obtain and evaluate --

(A) An itemized list of the required resources;

(B) A planned method of acquisition; and

(C) A schedule for acquisition of resources.

(v) Failure to meet commitments on previous contracts shall be documented in the current preaward survey report and considered in the final recommendation.

### (j) On-site surveys.

(1) Interview, investigation, and review.

(i) General. An on-site survey consists of an interview with representatives of the prospective contractor and, normally, an investigation of its resources and procedures.

Interview with manage-(ii) officials of the Management ment. appropriate level authorized to represent prospective contractor should be the interviewed. The prospective contractor's background shall be reviewed and as much history recorded as is necessary to reflect the soundness and reputation of the firm's operation.

(A) The organizational structure of the facility is the basis for management's control and must be

# CONTRACTOR QUALIFICATIONS

reviewed. Assignment of definite tasks and responsibilities should be checked.

(B) Lack of understanding or misinterpretation of the solicitation often results in delinquent contracts and leads to default actions. Therefore the solicitation shall be discussed with the prospective contractor to ensure understanding of its requirements, including its technical aspects. such as drawings, specifications. prototype, technical data. testing, packaging, and the Government's right to use technical data in accordance with the terms of the solicitation. Any misinterpretations of the requirements of the solicitation that could adversely affect performance, or refusal by the prospective contractor to furnish required data, should be brought to the immediate attention of the monitor by the team coordinator. The monitor shall, in turn, promptly advise the contracting officer.

(iii) Investigation of resources and review of procedures. The resources the prospective contractor intends to utilize shall be inspected, analyzed, and compared with overall plans for performing. Procedures relating to performance of the proposed contract shall be reviewed for adequacy.

(iv) Specific factors to be considered. In the course of developing information, those factors described in subparagraphs (2),(3). and (4) following, and all others needed to provide the report and recommendations in the detail and to the extent required by the contracting officer, shall he considered.

(2) **Production**.

(i) General. The production portion of the on-site survey consists evaluation of the prospective of an contractor's ability to manufacture the products or accomplish the tasks in accordance with the specifications and delivery schedule of the proposed contract. To achieve the objectives of this portion of the on-site survey, the production plan shall be reviewed, production resources ascertained, and the plan related to these resources.

(ii) Obtaining the production plan. The prospective contractor's production plan for meeting the delivery schedule shall be ascertained. The principal milestones within the production plan shall be established. along with target dates for achievement. These target dates must support the delivery schedule. The controls to be utilized in order to gear and hold the manufacturing effort to the target dates for the principal milestones shall be analyzed for suitability.

(iii) Ascertaining production resources. The information necessary to prepare SF 1404 and SF 1405 shall be obtained by discussion with appropriate management personnel of the prospective contractor. This information shall be verified, when necessary, by physical inspection of the manufacturing plant and evaluated in terms of suitability to manufacture the required items.

(iv) Relating production plans production When to resources. necessary. representatives of the prospective contractor shall be requested to advise how in-house and subcontractor production resources described in Sections II, III, IV, and V of SF 1405 will be allocated and utilized in order to achieve the target dates for the principal milestones. Pertinent to this discussion is an analysis of other projects and contracts that will compete for utilization of those resources during the period specified by the prospective contractor's production plan. The information developed as a result of equating the production plan and production resources of the prospective contractor should enable the contracting office to determine whether or not --

(A) The resources the prospective contractor is planning to use are suitable for the job;

(B) The prospective contractor will be capable of properly

### **RESPONSIBLE PROSPECTIVE CONTRACTORS**

controlling, maintaining, protecting, and using Government property;

(C) The planning and scheduling of effort will result in timely accomplishment of the principal milestones; and

(D) Achievement of the principal milestones will result in timely delivery.

(3) Quality assurance.

(i) The standing of the quality assurance organization in the prospective contractor's overall organization must be evaluated. An inspection or quality control function that reports to some other organizational segment (such as production) instead of to top management may be undesirable. The experience of the company's inspection or quality control personnel with the same or similar items shall be evaluated.

(ii) To evaluate the prospective contractor's ability to comply with quality control or inspection requirements, team members shall review --(A) Methods currently

utilized to control product quality, as reflected by a documented or verifiable inspection system or quality program plan;

(B) Personnel on hand and available (report both trained and untrained);

(C) Inspection and test equipment on hand and available;

(D) Quality, identification, and storage of materials;

(E) Physical arrangement of plant;

(F) Tool and gauge control; and

(G) Test and inspection records.

(4) Financial.

General. The normal (i) procedure for determining a prospective financial contractor's capability is initial presurvey planning, followed by financial verification of data as required. The extent of the review and analysis of financial matters shall be governed by the nature of the proposed contract. In certain instances, a sound decision mav be possible after а relatively simple review of a company's financial position and production commitments. Under other circumstances, a more comprehensive review and analysis will be required.

(ii) **Procedure.** Actions to be taken in determining the prospective contractor's financial capability (SF 1407) include the following:

(A) The latest balance sheet and profit and loss statement shall be reviewed. Items indicative of the soundness of the prospective contractor's financial structure include rates and ratios, working capital as represented by current assets over current liabilities, and financial trends such as net worth, sales, and profit.

(B) The method of financing the contract shall he If of evaluated. sources outside financing other than the Government are indicated, their availability should be verified.

(C) When financial aid from the Government is to be obtained, the necessity for it should be verified. Review shall be made concerning the applicability of such financing as progress payments or guaranteed loans.

(k) Evaluating data and preparing the report.

(1)Findings and recommendations of team members. When the required been each information has gathered, participant shall (i) analyze it and prospective evaluate the contractor's capability to perform with respect to the functions or elements investigated and (ii) provide his or her findings and recommendations to the monitor on one or more of the appropriate forms (see FAR 9.106-4(a)) or on an attachment or attachments. If а negative reply is recorded, or where doubt exists, an explanation must substantiate the entry.

### CONTRACTOR QUALIFICATIONS

If a detailed analysis is needed or additional significant information is pertinent, the form should be supplemented by a narrative report.

(2) Monitor's evaluation and recommendation. On the basis of all the information received, the monitor shall thoroughly review and evaluate the findings and recommendations and forward the report to the chairperson of the review board with (i) a summary of the monitor's findings and (ii) a recommendation concerning award, which shall be supported by a statement of justification and shall, if the prospective contractor is a small business concern, be coordinated with cognizant small the business specialist.

(3) **Review board action.** Upon receiving each preaward report, the chairperson of the review board shall

determine the extent of review board action. The requirements of subparagraph (f)(4) above may be satisfied at the chairperson's discretion by --

(i) Action by the chairperson alone;

(ii) Informal contact by the chairperson with one or more of the board members; or

(iii) Formal action by the entire board.

(4) Final actions. Following the action by the review board, the monitor shall forward the report directly to the contracting officer. When advance reports are made by telegraphic communication or telephone, they shall be confirmed in writing without delay. The monitor shall follow up on any requirements the submission for of supplemental reports.

### SUBPART 18-9.2 QUALIFICATION REQUIREMENTS

### 18-9.200 Scope of subpart.

This subpart prescribes policies and procedures that, like those of FAR Subpart 9.2, are to be followed in the use of qualified products lists for procurement of microcircuits as authorized by NMI 5320.5, Basic Policy for NASA Space Flight Program Electrical, Electronic, and Electromechanical (EEE) Parts, and NMI 5320.6, Implementation of NASA Standard Electrical, Electronic, and Electromechanical Parts Program.

### 18-9.202 Policy.

(a) Authority regarding agency head actions under FAR 9.202(a) is delegated to the cognizant technical activity, with approval by the installation's competition advocate.

(b) The approval authority of FAR 9.202(e) is delegated to the installation's competition advocate. Requests shall be prepared by the cognizant requirements office and submitted via the procurement officer.

### 18-9.203 QPL's, QML's and QBL's.

### 18-9.203-70 General.

(a) The Director, Reliability, Maintainability and Quality Assurance Division (Code QR), is responsible for justifying, determining, and approving NASA's need for inclusion and continued use of qualification requirements in specifications under the NASA Microelectronics Reliability Program.

(b) Prior to the procurement of Class "A"

microcircuits, as defined in NHB 5300.4(3F), the determination required by paragraph 3F103-2 of that handbook shall be made in writing by an authorized NASA field installation official.

(c) Copies of NHB 5300.4(3F) may be purchased by the public from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

# 18-9.203-71 Waiver of qualification requirements.

When procuring a product under a specification that includes qualification requirements either for the end item or for components of the end item, the NASA installation conducting the procurement can waive the qualification requirements. Directing a waiver of the end item qualification requirement constitutes adequate authorization for waiver of product qualification requirements. When a waiver has been granted, the solicitation specifically indicate that the shall qualification requirement is inapplicable. Such information shall also be included in any synopsis of the procurement (see FAR Subpart 5.2).

18-9.206 Acquisitions subject to qualification requirements.

### 18-9.206-1 General.

(a) The emergency determination authority specified at FAR 9.206-1(b) is delegated to the installation's competition advocate. Requests for determination shall be prepared by the cognizant requirements office and submitted through the procurement officer.

(b) Requests not to enforce a qualification requirement in a non-emergency

# CONTRACTOR QUALIFICATIONS

situation shall be prepared by the cognizant requirements office and approved by the Headquarters Office of Safety, Reliability, Maintainability and Quality Assurance, (Code Q).

(c) Under FAR 9.206-1(c), if an offeror seeks to demonstrate its capability, both the product and the producer must meet the established standards.

18-9.206-70 Small businesses.

If a small business otherwise eligible for award has been placed in a special status on a Qualified Products List (see NHB 5300.4(3F)) established as a part of the NASA Microelectronics Reliability Program and the contracting officer determines that the small business does not appear to have the capacity to perform, the certificate of competency procedures in FAR Subpart 19.6 are applicable.

### 18-9.206-71 Contract clause.

When qualified products (end items or components of end items) are being procured, the contracting officer shall insert the clause at 18-52.209-70, Product Removal from Qualified Products List, in the solicitation and in the resulting contract.

### 18-9.402 Policy.

For purposes of FAR Subpart 9.4 and this subpart, the Associate Administrator for Procurement is the "debarring official," the "suspending official," and the agency head's "designce."

18-9.404 Parties excluded from procurement programs.

(a) The Office of Procurement (Code HP) is responsible for taking the actions enumerated under FAR 9.404(c).

(b) In compliance with FAR 9.404(c)(5), contracting officers shall consult the list entitled Parties Excluded from Procurement Programs, which is contained in the GSA publication entitled, Lists of Parties Excluded from Federal Procurement or Nonprocurement Programs, to ensure that they do not solicit offers from, award contracts to, or consent to subcontracts with listed contractors, except as provided in FAR 9.405.

(c) For the purpose of obtaining copies of the list, field installation procurement offices shall notify Code HP of how many copies they want and provide a single mailing address at the installation. Code HP will, in turn, place the order for the copies which will be mailed directly to the installation.

### 18-9.405 Effect of listing.

If it is believed that a new contract or subcontract must be awarded to a firm on the list of Parties Excluded from Procurement Programs, the procurement officer shall prepare a request for a determination as set out in 18-9.405-1(b) below and forward it to the Associate | Administrator for Procurement (Code HP) for approval.

# 18-9.405-1 Continuation of current contracts.

(a) The contracting officer may terminate a contract under FAR 9.405-1(a) if it is in the best interest of the Government to do so, unless directed otherwise by the Associate Administrator for Procurement.

(b) If it is believed that an existing contract or subcontract with a contractor on the list of Parties Excluded from Procurement Programs must be renewed or otherwise extended, the procurement officer shall prepare a request for a determination with all necessary support documentation and forward it to the Associate Administrator for Procurement (Code HP) for approval. Some examples of circumstances that may constitute a compelling reason under FAR 9.405(a) or 9.405-1(b) for award, renewal, or extension include the following:

(1) The property or services to be acquired are available only from the listed contractor.

(2) The urgency of the requirement dictates that NASA deal with the contractor.

(3) Other reasons related to the national defense or program requirements that necessitate continued business dealings with the listed contractor.

### 18-9.405-2 Restrictions on subcontracting.

When a subcontract subject to contracting officer consent must be awarded to a listed contractor, the procurement officer shall prepare a request for a determination with all support documentation and forward it to the Associate Administrator for Procurement (Code HP) for approval. Some examples of circumstances that may constitute compelling reasons are cited in 18-9.405-1(b). 18-9.406 Debarment.

# 18-9.406-3 Procedures.

The report required by FAR 9.406-3(a) shall be forwarded by the procurement officer to the Associate Administrator for Procurement (Code HP) in accordance with 18-9.470, below.

# 18-9.407 Suspension.

# 18-9.407-3 Procedures.

The report required by FAR 9.407-3(a) shall be forwarded by the procurement officer to the Associate Administrator for Procurement (Code HP) in accordance with 18-9.470, below.

# 18-9.408 Certification regarding debarment, suspension, proposed debarment, and other responsibility matters.

(a) When an offeror makes a positive disclosure under the clause at FAR 52.209-5, the contracting officer shall investigate as necessary and report directly to the installation procurement officer.

(b) If the offeror indicates that it is presently debarred, suspended, or proposed for debarment, the contracting officer may make a non-responsibility determination without notifying the Associate Administrator for Procurement. If the contracting officer determines that award must be made to such firm, follow the procedures set out in FAR 9.406-1(c) or 9.407-1(d).

(c) If the offeror indicates that within the preceding three years it has had one or more of its contracts terminated for default, the contracting officer shall investigate and make a responsibility determination without notifying the Associate Administrator for Procurement. (d) If the offeror indicates that it has been indicted, charged, convicted, or had a civil judgment rendered against it, the contracting officer, in accordance with FAR 9.408(a)(2), shall immediately notify the Associate Administrator for Procurement (Attn: Code HP), providing details as known, and shall await a response from Code H before awarding the contract.

(e) If the offeror discloses information that indicates a need for a debarment or suspension determination by the agency debarring official, the contracting officer shall report the facts to the Associate Administrator for Procurement (Code HP) in accordance with 18-9.470.

18-9.470 Reporting of suspected evasive actions and causes for debarment or suspension.

18-9.470-1 Situations requiring reports. A report incorporating the information required by 18-9.470-2 below shall be forwarded by the procurement officer to the Associate Administrator for Procurement (Code HP) when a contractor--

(a) Has committed, or is suspected of having committed, any of the acts described in FAR 9.406-2 and 9.407-2; or

(b) Is suspected of attempting to evade the prohibitions of a debarment or suspension imposed under the FAR or this Regulation by changes of address, multiple addresses, formation of new companies, or other devices.

# 18-9.470-2 Contents of reports.

Each report shall be coordinated with local counsel and shall include substantially the following information, if available:

(a) Name and address of the contractor.

(c) All known affiliates, subsidiaries, or parent firms, and the nature of the affiliation.

(d) A description of the contract or contracts concerned, including the contract number and office identifying numbers or symbols, the amount of each contract, the amounts paid the contractor and still due, and the percentage of work completed and to be completed.

(e) The status of vouchers.

(f) Whether the contract has been assigned pursuant to the Assignment of Claims Act, and, if so, the name and address of the assignee and a copy of the assignment.

(g) Whether any other contracts are outstanding with the contractor or any affiliates, and, if so, their amount, whether they are assigned pursuant to the Assignment of Claims Act, and the amounts paid or due on them.

(h) A complete summary of all pertinent evidence. If a request for debarment or suspension is based on an indictment or a conviction, provide the evidence upon which the indictment or conviction is based.

(i) A recommendation as to the continuation of any current contracts.

(j) An estimate of any damages, sustained by the Government as a result of the contractor's action, including an explanation of the method used in making the estimate.

(k) The comments and recommendations of the contracting officer and local counsel as to (1) whether the contractor should be suspended or debarred, (2) whether any limitations should be applied to such action, and (3) the period of any debarment.

(1) As an enclosure, a copy of the contract(s) or pertinent excerpts, appropriate exhibits, testimony or statements of witnesses, copies of assignments, and other relevant documentation.

### 18-9.470-3 Addresses and copies of reports.

Reports, including enclosures, shall be submitted in duplicate to the Associate | Administrator for Procurement (Code HP), with an additional copy to the Office of General Counsel, NASA Headquarters (Code G).

### SUBPART 18-9.5 ORGANIZATIONAL CONFLICTS OF INTEREST

### 18-9.500 Scope of subpart.

The Associate Administrator for Procurement has authorized the procurement officer to take those actions reserved in FAR Subpart 9.5 for the head of the contracting activity. However, see 18-9.503 regarding waivers.

#### 18-9.503 Waiver.

The Administrator has designated the Associate Administrator for Procurement as the approval authority for waivers under FAR 9.503. The procurement officer shall forward requests for waivers under FAR 9.503 to the Associate Administrator for Procurement (Code HS) for action.

### 18-9.506 Procedures.

(a) The draft solicitation provision and proposed contract clause required by FAR 9.507-2(a) shall be approved by the procurement officer when the installation has final authority for source selection and by the Associate Administrator for Procurement (Code HS) when NASA Headquarters has that authority.

(b) The Associate Administrator for Procurement (Code HS) shall make any final decision required by FAR 9.506(c).

# 18-9.507 Solicitation provisions and contract clause.

### 18-9.507-2 Contract clause.

The contracting officer may insert a clause substantially the same as the clause at 18-52.209-71, Limitation of Future Contracting, in solicitations and contracts, in compliance with FAR 9.507-2.

### SUBPART 18-9.6 CONTRACTOR TEAM ARRANGEMENTS

### 18-9.670 Contract clause.

The contracting officer shall insert the clause at 18-52.209-72, Composition of the Contractor, in all construction invitations for bids and resulting contracts. The clause may be used in other solicitations and contracts to clarify a contractor team arrangement where the prime contractor consists of more than one legal entity, such as a joint venture.

### PART 18-10 SPECIFICATIONS, STANDARDS, AND OTHER PURCHASE DESCRIPTIONS

### 18-10.001 Definitions.

"Brand-name product" means a commercial product described by brand name and make or model number or other appropriate nomenclature by which it is offered for sale to the public by the particular manufacturer, producer, or distributor.

### 18-10.002 Policy.

Implementation of the Metric Conversion Act of 1975, as amended, and (FAR) 48 CFR 10.002(c), shall be in accordance with the policy section of NMI 8010.2, Use of the Metric System of Measurements in NASA Programs. Requiring activities are responsible for designating the system of weights and measures applicable to each requirement (see 46.103).

### 18-10.002-70 NASA policy.

Whenever a specification is deemed inadequate, the contracting officer shall initiate immediate action to recommend that the activity responsible for the specification amend or revise it in order to obviate the necessity for repeated departures from the specification.

18-10.004 Selecting specifications or descriptions for use.

(a) As required by FAR 10.004(e), contracts will include appropriate preservation, packaging, packing, and marking requirements. The services of packaging technicians shall be used to --

(1) Develop preservation, packaging, packing, and marking requirements for individual procurements; and

(2) Assist in evaluating the

reasonableness of contractors' packaging, packing, and marking cost estimates or charges.

(b) Unrealistic preservation, packaging, packing, and marking requirements should be reported and changes recommended to the activity originating the requirement and to the contracting officer.

#### 18-10.004-70 Additional requirements.

(a) Drawings and data furnished with solicitations shall be clear and legible (see also FAR 10.008).

(b) Many specifications cover several grades or types and provide for several options in methods of inspection. When such specifications are used, the solicitation shall state specifically the grade, type, or method of inspection on which offers are to be based.

### 18-10.004-71 Brand-name-or-equal purchase description.

(a) Purchase descriptions containing references to one or more brand-name products followed by the words "or equal" may be used only when authorized by FAR 10.004(b)(3) and in accordance with this Part 18-10 (see 18-10.008-70, 18-10.011, and 18-52.210-70).

(b) The words "or equal" should not be added if it is determined under paragraph (a) above that only a particular product meets the essential requirements of the Government (e.g., when the required supplies can be obtained only from one source (see FAR 6.302-1)).

(c) To the extent feasible, all known acceptable brand-name products should be referenced. If a "brand-name-or-equal" purchase description is used, prospective contractors must be given the opportunity to offer products other than those specifically referenced by brand name if those products will meet the needs of the Government in essentially the same manner as those referenced.

(d) "Brand-name-or-equal" purchase descriptions should set forth the salient physical, functional, or other characteristics of the referenced products essential to the needs of the Government. For example, when interchangeability of parts is required, that requirement should be specified. Purchase descriptions should contain the following characteristics, in addition to those at FAR 10.004(b)(1), to the extent available, and include such other information as is necessary to describe the item required:

(1) Complete common generic identification of the item required.

(2) Applicable model, make, or catalog number for each brand-name product referenced, and identity of the commercial catalog in which it appears.

(3) Name of manufacturer, producer, or distributor of each brand-name product referenced (and address if company is not well known).

(e) When it is needed to describe adequately the item required, a commercial catalog description, or pertinent extracts, may be used if the description is identified in the solicitation as being that of the particular named manufacturer, producer, or distributor. The contracting officer shall ensure that a copy of any catalog referenced (except parts catalogs) is available on request for review by offerors at the contracting office.

(f) When a solicitation contains a "brandname-or-equal" purchase description, offerors offering brand-name products referenced in that description shall not be required to furnish samples of the referenced brand-name products; however, solicitations may require the submission of samples in the case of offerors proposing "or equal" products. (g) Proposals offering products differing from brand-name products referenced in a "brand-name-or-equal" purchase description shall be considered for award if the contracting officer determines under the provision at 18-52.210-70 that the offered products meet the salient characteristics required by the solicitation. Offers shall not be rejected simply because of minor differences in design, construction, or features that do not affect the suit-ability of the products for their intended use.

(h) Except as provided in subdivision (i)(1) of this section, when a "brand-nameor- equal" purchase description is included in a solicitation, the following shall be inserted after each item so described in the solicitation for completion by the offeror:

Offering:

Manufacturer's Name \_\_\_\_\_

Brand \_\_\_\_\_ No. \_\_\_\_\_

(i) (1) Where components of an end item are described in the solicitation by a "brand-name-or-equal" purchase description and the contracting officer determines that applying of the provision at 18-52.210-70 to them would be impracticable, the requirements of paragraph (h) of this section shall not apply with respect to them. In such cases, if the provision is included in the solicitation for other reasons, a statement substantially as follows also shall be included:

The provision entitled Brand Name or Equal does not apply to the following components:

(List the components to which the provision does not apply.)

(2) In the alternative, if the contracting officer determines that the provision at 18-52.210-70 should apply

### SPECIFICATIONS, STANDARDS, AND OTHER PURCHASE DESCRIPTIONS

only to certain components, the requirements of paragraph (h) above shall apply to them, and a statement substantially as follows shall be included:

The provision entitled Brand Name or Equal applies to the following components:

(List the components to which the provision applies.)

(i) The policies and procedures prescribed in paragraphs (a) through (i) above apply to both sealed-bid and negotiated procurements. If use of the provision is not practicable (as may be the case, for example, in exigency purchases), suppliers shall be informed that proposals offering products different from the products referenced by brand name will be considered if the contracting officer determines that they are equal in all significant and material respects to the products referenced.

# 18-10.007 Deviations.

If an exception or deviation from a Federal or military specification is required --

(a) The contracting officer shall, before issuing the solicitation, submit a fully documented and justified request for the deviation to the procurement officer; and

(b) The procurement officer shall comply with FAR 10.007(a).

### 18-10.008 Identification and availability of specifications.

Each solicitation shall be accompanied by the applicable specifications, standards, plans, drawings, and other pertinent documents, or shall state where they can be obtained or examined.

### 18-10.008-70 Brand-name-or-equal awards.

documents shall identify Award or incorporate reference by an identification of the specific products furnish. This the contractor is to identification shall include any brand name and make or model number, descriptive material. and anv modifications brand-name products of specified in the solicitation. Included in this requirement are those instances in which (a) the description of the end item contains "brand-name-or-equal" purchase descriptions of components or of accessories related to the end item and (b) the solicitation includes the provision at 18-52.210-70 as applicable to such components or accessories (see 18-10.004-70(i)).

# 18-10.011 Solicitation provisions and contract clauses.

# 18-10.011-70 NASA solicitation provisions and contract clauses.

(a) When a "brand-name-or-equal" purchase description is used, the contracting officer shall insert in the solicitation the provision at 18-52.210-70, Brand Name or Equal.

The contracting officer shall insert (b) the provision at 18-52.210-71. Descriptive Literature for Used Material, in solicitations containing FAR provision 52.210-6, Listing of Used or Reconditioned Material, Residual Inventory, and Former Government Surplus Property. Insert the information needed to make a determination that the items to be furnished can reasonably be expected to conform to the requirements of the solicitation.

(c) The contracting officer may insert a clause substantially as stated in 18-52.210-72, Supplies and/or Services to

# SPECIFICATIONS, STANDARDS, AND OTHER PURCHASE DESCRIPTIONS

be Furnished, in all solicitations and contracts to indicate the items to be delivered. Insert the item number, description of the supplies (see FAR 2.101 for definition) and/or services to be furnished, quantities to be furnished, unit and unit price (if applicable), and total dollar amount. The column headings may be modified for what is being acquired and for the type of contract.

(d) The contracting officer shall insert a clause substantially as stated at 18-52.210-75, Packaging and Marking, in solicitations and contracts where the packaging and marking requirements of NASA Handbook (NHB) 6000.1 and/or MIL-STD-2073-1 and MIL-STD-2073-2 are appropriate. Insert the applicable information for the particular procurement. Substitute Alternate I for paragraphs (a), (b), (c), and (d) of the basic clause if commercial packing and marking practices are to be used. Add Alternate II if space flight item(s) are to be delivered.

.

#### PART 18-12 CONTRACT DELIVERY OR PERFORMANCE

#### SUBPART 18-12.1 DELIVERY OR PERFORMANCE SCHEDULES

#### 18-12.103 Supplies or services.

Contract delivery or performance schedules shall not be expressed in terms of a notice of award. See FAR 12.103(a)(3) and (d). A notice of award as a specific document, separate from the award document itself, is not a contractual document and shall not be used as a reference point for contract performance. See NFS sections 18-14.407 and 18-15.1002 for additional information on notices of award.

#### 18-12.104 Contract clauses.

FAR 52.212-1, Time of Delivery, Alternates II and III, and FAR 52.212-2, Desired and Required Time of Delivery, Alternates II and III, shall not be used in NASA contracts.

#### 18-12.104-70 Additional clauses.

(a) The contracting officer may use the clause at 18-52.212-70, Notice of Delay, if it

is desirable to provide for contractor notice of anticipated delays in performance.

(b) See 18-27.406(b) regarding reports of work.

(c) The contracting officer shall insert the clause at 18-52.212-72, Partial Shipments, in solicitations and contracts when a quantity specified for a line item to be delivered is more than one unit, or when the Schedule contains more than one line item to be delivered, and partial shipments by the contractor will not adequately meet the Government's overall needs.

(d) The contracting officer may insert a clause substantially as stated at 18-52.212-73, Delivery Schedule, in solicitations and contracts if the Government requires delivery of items on specific dates during the contract. In the alternative, the delivery date may also be shown as a specified number of days from a specified milestone; for example, 90 days after contract award. The column heading "Delivery Date" may be changed to "Within Days After [Identify specific milestone]."

(e) The contracting officer may insert a clause substantially as stated at 18-52.212-74, Period of Performance, in term contracts to specify the time during which contract performance will take place. Insert the period of performance dates applicable to the particular procurement.

.

#### SUBPART 18-12.2 LIQUIDATED DAMAGES

# 18-12.202 Policy.

The contracting officer shall forward recommendations concerning remission of liquidated damages via the head of the contracting activity to the Associate Administrator for Procurement for submission to the Administrator.

#### recommended guidance on the DPAS to contractors and suppliers receiving rated

18-12.303 Procedures.

#### 18-12.303-70 NASA procedures.

(a) The use of priority ratings on NASA contracts and purchase orders is mandatory except as noted in paragraph
(d) below. Priority ratings are assigned on individual contracts and purchase orders by the contracting officer.

(b) Except where no rating is issued as provided in paragraph (d) below, all NASA orders shall be assigned a DO rating, unless NASA has obtained a DX rating from the Delegate Agency. Currently, NASA has no programs with a DX rating. (c) The program identification numbers (DPAS, 15 CFR 700, SCH L.) to be used by | NASA are as follows:

- Al Aircraft
- A2 Missiles
- A3 Ships
- A5 Weapons
- A6 Ammunition
- A7 Electronic and Communications Equipment
- **B1** Military Building Supplies
- B8 Production Equipment (For Contractor's Account)
- B9 Production Equipment (Government-Owned)
- C2 Construction
- C3 Maintenance, Repair, and Operating Supplies for Facilities
- C9 Miscellaneous/Other

(d) Priority ratings will not be issued for the following:

(1) Items ordered or requisitioned from the GSA Federal Supply Service.

(2) Items for plant improvement, expansion, or construction, unless they will be physically incorporated into a construction project covered by a rated order, or unless NASA has obtained specific priority rating authority.

(3) Production or construction equipment or items to be used for the manufacture of production equipment, unless NASA has obtained specific priority rating authority.

(4) Items falling under the jurisdiction of agencies other than NASA'S Delegate Agency. These are: solid fuel. electric petroleum. gas, power, and all other forms of energy; transportation food; civil and the movement of persons and property by all minerals: water; housing modes: health facilities; radiofacilities: stable isotopes, source isotopes, material and special nuclear material produced in Government-owned plants or facilities operated by or for the

# CONTRACT DELIVERY OR PERFORMANCE

Department of Energy; communication services; copper raw materials; crushed stone; gravel; sand; scrap; slag; central steam heat; and waste paper.

(e) The Headquarters Procurement Policy Division (Code HP) is responsible for coordinating DPAS matters with the Delegate Agency and the Department of Commerce, as necessary. Installation requests arising under FAR 12.303(g) regarding assignment of ratings, special priorities assistance, controlled materials, or related DPAS topics shall be directed to Code HP.

## SUBPART 18-12.5 SUSPENSION OF WORK, STOP-WORK ORDERS, AND GOVERNMENT DELAY OF WORK

18-12.505 Contract clauses.

The Stop-Work Order clause at FAR 52.212-13 is not authorized for use in research contracts with educational or other nonprofit institutions.

#### PART 18-13 SMALL PURCHASE AND OTHER SIMPLIFIED PURCHASE PROCEDURES

#### SUBPART 18-13.1 GENERAL

18-13.104 Procedures.

(a) Small purchase procedures are exempt from the requirements of FAR Part 6. (b) When bulk funding is deemed appropriate, see Financial Management Manual 9030-5e and 9040-4b.

(c) For sole-source procurements over \$2,500 involving (1) an individual employed by NASA during the past 2 years or (2) a firm in which such an individual is a partner, principal officer, or majority shareholder, or controlled is otherwise or that predominantly staffed by such individuals (see Subpart 18-3.70), the notation required by FAR 13.106(c)(2) shall be submitted for approval at a level above the contracting officer.

~\_ - ^

#### SUBPART 18-13.2 BLANKET PURCHASE AGREEMENTS

18-13.203 Establishment of blanket purchase agreements.

18-13.203-1 General.

Blanket purchase agreements (BPA's) may be prepared and issued on any installation-prescribed purchase order form.

18-13.204 Purchases under blanket purchase agreements.

Non-GS/GM-1102 or 1105 personnel shall not be authorized to place orders under a BPA in amounts greater than \$2,500 for an | individual order. A contracting officer warrant is not required to place an order under a BPA; however, individuals authorized to order must be specified in writing, by the contracting officer. Authority to place orders should be revoked immediately upon evidence of abuse.

#### 18-13.205 Review procedures.

The procurement officer shall ensure that all BPA files are reviewed at least annually to ascertain that appropriate procedures are being followed and that prices obtained are fair and reasonable.

# SUBPART 18-13.3 FAST PAYMENT PROCEDURE

18-13.302 Conditions for use.

Pursuant to FAR 13.302, the dollar limitation for NASA is hereby established as the small purchase ceiling for defense agencies.

18-13.303 Preparation and execution of orders.

Orders incorporating the fast payment procedure may be issued on Optional Form 347, Order for Supplies or Services, or on any other installation-prescribed purchase order form.

SUBPART 18-13.4 IMPREST FUND

(a) Authority. Upon approval of the

Chief, Disbursing Office of the Treasury

Department, the Director of Financial

Management, NASA Headquarters, may

authorize the establishment of imprest

increases to them. The number of imprest

funds at an installation should generally

be restricted to the minimum number

necessary to ensure efficiency in small

transactions.

Management Manual 9650, Imprest Fund

Procedures, should be used in conjunction

amount of each fund shall be established

on the basis of the estimated monthly

payments to be made from it and the need

for replenishment without undue adminis-

officers of each NASA installation will

designate one or more employee(s) in their office to make unannounced cash

verifications of imprest fund balances at

least quarterly. Each cash verification

will be documented, and working papers

retained for review by the Office of the

trative burden. Financial

purchase

#### Inspector General and personnel of the Financial Management Division, NASA Headquarters. In conjunction with the cash verification, the level of funds imprest fund shall be held in an evaluated on a semiannual basis (see FAR disclosure of 13.403). The anv of irregular unauthorized use or accounting for an imprest fund during the verification, or the quarterly cash annual audit or at any other time, will be reported to the Director, Financial Management Division, NASA Headquarters.

#### (c) Imprest fund cashiers.

(1) Imprest fund cashiers shall be appointed in accordance with Financial Management Manual 9650 and are authorized to make cash payments for materials and nonpersonal services, maintain custody of funds, and file periodic vouchers to account for and replenish the imprest fund. Financial management or fiscal officers and others having access to accounting records or responsibility for approving, originating, processing, or receiving requirements are not eligible for appointment as imprest fund cashiers. In no event shall an imprest fund cashier have access to or control of more than one imprest fund.

fund (2) An alternate imprest cashier may be appointed (i) if the volume of work requires an alternate to the principal cashier or (ii) to provide service during the principal cashier's absence. Appointment requirements for cashiers shall apply to principal planned short-In cashiers. alternate term absences of the principal cashier, cash may be advanced by the principal to the alternate in an amount not to exceed the alternate's limit of the fund. Upon resuming duties, the principal cashier shall return the cash receipt to the alternate after obtaining paid receipts, subvouchers, and residual cash. In the absence of the principal cashier for more than 15 working days or for a period of time that will require submission of a before voucher the reimbursable funds principal's return. transfer of principal to the alternate from the accomplished be **a**s cashier shall prescribed by Financial Management Manual 9650.

#### 18-13.404 Conditions for use.

(a) Imprest Funds may be used to make local cash payments of \$300 or less for transactions involving --

### SMALL PURCHASE AND OTHER SIMPLIFIED PURCHASE PROCEDURES

(1) Small purchases and nonpersonal services which are readily available for delivery and do not require technical specifications or technical inspection and where direct cash payment will be advantageous to the government;

(2) Travel advances and vouchered reimbursements for travel expenses (not to exceed \$500 for any one transaction);

(4) Postage stamps, parcel post, c.o.d. postal charges, and local drayage;

(5) Reimbursement for the cost of official local transportation and telephone or telegraphic services; or

(6) Prepaid transportation charges indicating f.o.b. shipping point which do not exceed \$100.

(b) Imprest funds shall not be used for --

(1) Articles or services, particularly repetitive items, which are available from store stock inventories;

(2) Purchases of articles or services in quantities or amounts covered by mandatory sources of supply;

(3) Articles or services which are restricted by statutory or regulatory laws, i.e., newspapers and similar items;

(4) Paying salaries or wages;

(5) Advances, other than those authorized in 18-13.405(b);

(6) Cashing checks or other negotiable instruments;

(7) For money orders or personal services unless authorized by the Director, Financial Management Division, NASA Headquarters; or

(8) Paying for international shipments or household goods shipments.

# 18-13.405 Procedures.

#### (a) Receipt of material.

(1) All material purchased through the imprest fund shall be delivered to a

designated receiving activity. The receiver shall examine the material to ascertain that the quantities and items described in the procurement request and the supplier's sales document are present and in satisfactory condition. If the material is acceptable. the receiver shall stamp the sales document "Received and Accepted," date and sign the document, and pass it to the imprest fund cashier for payment. In the absence of а supplier's sales document, а receipted Standard Form 1165, Receipt for Cash--Subvoucher, shall be used to record the receipt of purchases made from the imprest fund and shall be processed in the same manner.

(2) When it is not practicable to obtain delivery of material at destination on a c.o.d. basis, advance arrangements may be made for the material to be picked up. The imprest fund cashier may then advance cash to an authorized individual to pick up and pay for the material. Necessary certifications of receipt and acceptance of material shall be obtained on one of the documents as indicated in subparagraph (1) above. Receipt for cash payment (see paragraph (c) below) shall be made on the same document, which will serve as the imprest fund receipt.

(3) When prior arrangements for picking up material are not practicable, the imprest fund cashier may advance cash to an authorized individual to make a proposed purchase.

(b) Advance of funds. Individuals receiving a cash advance from the imprest fund cashier shall be required to sign the "Interim Receipt for Cash" portion of Standard Form 1165. After purchase has been made, the individual will return any unused cash to the imprest fund cashier with the necessary certifications of receipt, acceptance, and cash payment, at which time the imprest fund cashier shall void the interim receipt for cash. Cash advanced should generally be accounted for daily, but may be advanced for a

period not to exceed five consecutive work days.

# (c) Certification of cash payment.

(1) The original receipt document (or a copy tendered as the original) presented to the imprest fund cashier for payment shall be stamped with a certification containing --

(i) A statement that cash payment was received in full;

(ii) The amount paid;

(iii) The date of payment; and

(iv) The signature and title of the supplier or agent receiving the payment.

(2) Alterations or corrections to documents tendered for payment shall be initialled by the person making the change. Changes in the amount paid shall be initialled by the individual receiving payment.

(d) **Responsibilities** of imprest fund cashier. Pending receipt of material, the imprest fund cashier shall keep a file of procurement requests covering imprest fund purchases. Before payment or acceptance of the document tendered for settlement of an advance, the cashier shall verify the necessary certification supplier's billed of receipt and the price or the price paid. If the supplier's receipt for cash payment is not obtained for a purchase of \$15.00 or less, the person making the purchase shall complete and sign the cash receipt document indicating receipt of funds from the imprest fund.

#### (c) Payments.

(1) **C.o.d.** Upon presentation of an authorized document with the necessary certification of receipt for supplies or services, the imprest fund cashier or other authorized individual shall pay the supplier or agent and obtain the certification of cash payment as required by paragraph (c) above.

(2) Receipt from common carrier or post office. When c.o.d. shipments are received or picked up from a common carrier or post office, the certification of cash payment may be accomplished on a list of the packages provided by the post office or common carrier. Such receipt shall be supported by copies of the applicable sales document, if available.

(3) Periodic payments. When use of blanket purchase agreement is not а administratively and it is suitable convenient and agreeable to the supplier, periodic payments from the imprest fund may be made for supplies delivered on a that repetitive basis. provided the accumulated amount of the deliveries for the specified period does not exceed the dollar limitation imposed on the imprest fund method by 18-13.404.

(4) Failure to ship c.o.d. When ordered c.o.d., but is material is subject supplier the to shipped bv payment by check, Standard Form 1034. Public Voucher for Purchases and Services Other than Personal, may be used to make payment. Under these circumstances, the prepare receiver shall the necessarv and of receipt certification shall forward the receipted document through the imprest fund cashier for (i) attachment of the supporting documents shipment and authorizing the (ii) submission to the disbursing officer for payment.

# (f) Reimbursement of imprest funds.

(1) The imprest fund shall be reimbursed in accordance with Financial Management Manual 9650.

(2) When a supplier refunds cash before submission of the Standard Form 1129, Reimbursement Voucher, covering the payment, the imprest fund cashier shall accept the refund, return it to the imprest fund, and enter the amount on the original of the supplier's receipt. When refund is made after submission of the applicable Standard Form 1129, the imprest fund cashier shall enter the

### 13-4:4

# SMALL PURCHASE AND OTHER SIMPLIFIED PURCHASE PROCEDURES

amount on the retained copy of the reimbursement voucher and promptly (i) submit the refund directly to the disbursing officer or (ii) deposit it directly on Standard Form 209, Certificate of Deposit.

(g) Accounting. Recordkeeping shall be based on simplified memorandum records to permit frequent reconciliation of funds and should show (1) the amount of cash received, (2) the amount paid out, and (3) the balance on hand at the close of each day. It is permissible to group numerous small payments by numbering payment documents and affixing to them an adding-machine tape showing the total applying to each grouping of payment documents.

(h) Audits. The Financial Management Officer of each NASA installation having an Imprest Fund will perform an annual audit of the advances and disbursements made from the fund. Documentation covering the annual audit is retained for review by the Office of Inspector General and personnel of the Financial Management Division, NASA Headquarters. The Office of Inspector General, NASA Headquarters, will conduct an audit of each Imprest Fund not less than once every 3 years. More frequent audits may be made where, on the basis of past findings, the audits have disclosed procedural deficiencies.

18-13.405

# SUBPART 18-13.5 PURCHASE ORDERS

#### 18-13.502 Unpriced purchase orders.

(a) NASA contracting officers shall ensure that suppliers receiving unpriced purchase orders are carefully selected.

(b) Orders shall not contain an estimated target unit price.

(c) Suitable local records and controls of outstanding unpriced purchase orders shall be maintained to ensure regular follow-up with suppliers until the order is priced. These records should include any information available to support the fairness and reasonableness of the proposed monetary limitation. 18-13.505 Purchase order and related forms.

18-13.505-2 Agency order forms in lieu of Optional Forms 347 and 348.

Optional Forms 347 and 348 or Installation-prescribed forms may be used.

18-13.505-3 Standard Form 44, Purchase Order-Invoice-Voucher.

The \$2,500 ceiling for use of the Standard Form 44 at FAR 13.505-3 is raised to \$10,000 for purchases of aviation fuel and oil only.

18-13.505-3

~

#### SUBPART 18-13.70 PROCUREMENT REQUEST OVERLAY METHOD

#### 18-13.7001 General.

This method is an acceptable adjunct to other simplified purchase procedures and may be used in placing oral orders when use of a BPA is too cumbersome or no BPA exists. Each transaction is recorded on a small form that attaches to, becomes a part of, and overlays a portion of the procurement request. Suppliers' delivery tickets are used as additional supporting method documentation. Use of this the administrative eliminates requirements for preparing and mailing individual purchase orders. This method may be used when suppliers (a) are willing to accept oral orders and (b) can be reasonably relied upon to fill them in accordance with the terms of the oral transaction.

#### 18-13.7002 Limitations on use.

This method shall not be used if --

(a) The requirements of more than one procurement request are to be combined in a transaction;

(b) More than one delivery will be required (unless the requirements of a single procurement request are to be divided among several suppliers and only one delivery per supplier is required);

(c) An installation-prescribed form or Optional Form 347 has been utilized;

(d) It is necessary or desirable to incorporate specifications or other terms and conditions in a written purchase order;

(e) GSA Federal Supply Schedules are to be used;

(f) Purchases are to be made from or through other Government agencies; or

(g) The amount of the purchase is over \$2,500 (unless the purchase is made under a BPA).

#### 18-13.7003 Procedures.

(a) After competitive selection of the source (see FAR 13.106), the order may be placed by telephone. Particular care to ensure that the shall be taken supplier agrees to accept the order without written confirmation and that the item descriptions. order number. quantities, prices, and other terms and conditions are clearly understood. If the amount of the purchase does not exceed \$300, the supplier should be encouraged to deliver c.o.d. (see FAR 13.404).

(b) The supplier shall be given all pertinent and specific instructions at the time of placing the order, including the installation's methods of handling charge purchases to be billed within a period of one month or less.

Upon placing the order. the (c) contracting officer shall (1) ensure that a preprinted overlay form is affixed to the procurement request and, if necessary, after the overlay is filled in (2) adjust the estimated unit and total cost figures of the procurement request to reflect the actual purchase price. This shall be done by lining through the original procurement request figures so that they remain legible. Any other changes in the original information of the procurement request to make it conform to the facts of the purchase shall be made in like manner. The preprinted overlay form shall contain at least the following information:

# SMALL PURCHASE AND OTHER SIMPLIFIED PURCHASE PROCEDURES

F.o.b. Destination Procurement Placement Code \_\_\_\_\_\_ Action: procurement request line items (), (), (etc.) complete\* Total procurement request action: partial,\* complete\* Payment: cash,\* charge\*

(Contracting Officer Signature)

Date Signed \_\_\_\_\_

(\*Circle as appropriate)

(d) The contracting officer shall sign and date the completed overlay form on the procurement request.

(e) The procurement request with overlay shall be reproduced and distributed internally in accordance with the installation's local instructions to provide copies to the offices or activities responsible for receiving and accepting the merchandise, making cash payment, or processing charge purchases.

(f) In accordance with local instructions, copies of the supplier's delivery ticket received with the merchandise shall be distributed to establish receipt and acceptance of merchandise and serve as a basis for cash payment or obligation of funds and subsequent payment of charge purchases.

### SUBPART 18-13.71 CREDIT CARDS

# 18-13.7101 Scope of subpart.

This subpart authorizes the use of the U.S. Government Credit Card. (See 18-70.4 for NASA procedures under the NASA Credit Card System.)

# 18-13.7102 Applicability.

This subpart applies to installations that have elected to participate in the credit card program by issuing a delivery order under the contract for Governmentwide Commercial Credit Card Service awarded by the General Services Administration, Federal Supply Service.

# 18-13.7103 Limitations.

To use the GSA schedule contract, an installation must take the following actions before issuing a delivery order:

(a) Designate cardholders, approving officials, a Contracting Officer's Technical Representative (COTR), an Administrative Office Contact, and a Financial Management Office Contact.

(b) Establish procedures for covering the contractor's administrative fee.

# 18-13.7104 Cardholders.

(a) **Designation.** The Procurement Officer shall determine the number of cardholders to be authorized at the installation and shall designate individual cardholders based on installation nomination procedures. The Procurement Officer shall issue a delegation of authority to each cardholder specifying the authority being delegated and any limitation on the authority. (b) Single purchase limits. The authority delegated to a cardholder shall not exceed the small purchase limit in FAR 13.000. This authority is the limit for a single purchase, which may include multiple items as part of the same transaction.

(c) Limitation on designations. Cardholders with authority for purchases above \$2,500 shall be warranted contracting officers appointed under 18-1.6.

(d) Training.

(1) Cardholders with purchase authority not exceeding \$2,500 shall have completed 4 hours of training as determined by the cognizant procurement officer.

(2) Cardholders with purchase authority over \$2,500, but not exceeding \$25,000, shall have completed the formal training required by 18-1.603-2(e)(1)(iii)(A).

(e) **Review.** The Procurement Officer shall establish a system for periodic review of the credit card transaction process, including a review of a sample of purchases, to ensure that proper purchasing procedures are being followed and that internal controls to avoid fraud, waste, and abuse are effective.

# 18-13.7105 Approving officials.

Unless installation procedures otherwise provide for their designation, the Procurement Officer shall designate approving officials. The approving official should be the cardholder's supervisor or a higher level individual. A cardholder may not be an approving official for purchases made by the cardholder or the cardholder's supervisor.

# 18-13.7106 COTR.

The Procurement Officer shall appoint a COTR and notify GSA of the appointment.

# 18-13.7107 Administrative office contact.

The Procurement Officer shall appoint an installation Administrative Office Contact (who may be the COTR).

#### SUBPART 18-14.2 SOLICITATION OF BIDS

18-14.201 Preparation of invitations for bids.

#### 18-14.201-2 Part I--The schedule.

The contracting officer shall include in this section of the Schedule the data specified --

(a) In FAR 14.201-2;

- (b) Elsewhere in the FAR; and
- (c) Elsewhere in this Regulation.

18-14.201-5 Part IV--Representations and instructions.

Section M--Evaluation factors for award.

(a) If award is to be made in the aggregate (all-or-none basis), the contracting officer shall so state.

(b) If award is to be made by specified groups of items, the contracting officer shall so state.

(c) If bidders are required to have special technical qualifications because of the complexity of the equipment being purchased or for some other reason, the contracting officer shall state those qualifications.

18-14.201-6 Solicitation provisions.

18-14.201-670 NASA solicitation provisions.

(a) The contracting officer shall insert the provision at 18-52.214-70, Caution to Offerors Furnishing Descriptive Literature, in invitations for bids. See FAR 52.214-21, Descriptive Literature.

(b) The contracting officer shall insert the provision at 18-52.214-71, Grouping for Aggregate Award, in invitations for bid, except for construction, and in competitive requests for proposals when conditions of inspection, instal- lation, performance, or location are impracticable under multiple awards for certain items or groupings of certain items. See 18-14.201-5(a) and (b) and FAR 52.214-10 and 52.215-16. Insert the item numbers and/or descriptions applicable for the particular procurement.

(c) The contracting officer shall insert the provision at 18-52.214-72, Full Quantities, in invitations for bid, except for construction, and competitive requests for proposals when it is in the Government's best interest not to make award for less than the full quantities solicited. See FAR 52.214-10 and 52.215- 16.

(d) For conducting pre-bid conferences, see 18-15.407-70(f).

#### 18-14.201-70 Solicitation cover page.

The contracting officer may include a cover page on solicitations if it conforms to the policies stated in section 18-15.406-71.

# 18-14.202 General rules for solicitation of bids.

#### 18-14.202-7 Facsimile bids.

Before issuance of the solicitation, NASA procurement officers may, by written determination and without power of redelegation, authorize the use of facsimile bids for individual procurements.

.

#### SUBPART 18-14.3 SUBMISSION OF BIDS

18-14.302 Bid submission.

In accordance with FAR 14.302(b), NASA has elected not to consider telegraphic bids communicated by telephone. When telegraphic bids are authorized, the telegram must be delivered in writing.

.

•

SUBPART 18-14.4 OPENING OF BIDS AND AWARD OF CONTRACT

18-14.404 Rejection of bids.

18-14.404-1 Cancellation of invitations after opening.

#### 18-14.404-170 Delegation of authority.

(a) The authority to make the determination at FAR 14.404-1(c) to cancel the invitation and reject all bids is delegated to the contracting officer, except as provided in paragraph (b)(2) of this section.

(b) A determination under FAR 14.404l(c)(6), (7), or (8) that includes an authorization to complete the acquisition through negotiation (see FAR 14.404l(e)(1)) shall be approved by--

(1) The contracting officer, if the solicitation is to be cancelled because no responsive bid has been received from a responsible bidder; or

(2) The procurement officer, if the solicitation is to be cancelled because (i) all otherwise acceptable bids received are at unreasonable prices, (ii) only one bid is received and the contracting officer cannot determine the reasonableness of the bid price, or (iii) the bids were not independently arrived at in open competition, were collusive, or were submitted in bad faith. The procurement officer shall obtain the advice of the Chief Counsel before making this determination. 18-14.406 Mistakes in bids.

18-14.406-3 Other mistakes disclosed before award.

(a) Under the authority delegated by the Administrator in NMI 5101.8, Delegation of Authority - To Take Actions in Procurement and Related Matters, the Associate Administrator for Procurement is authorized to permit the correction of bids under (FAR) 48 CFR 14.406-3(a) and (b) and the award of a contract under (FAR) 48 CFR 14.406-3(d) (see (FAR) 48 CFR 14.406-3(e)). The Associate Administrator for Procurement has authorized procurement officers to permit withdrawal of bids when the conditions in (FAR) 48 CFR 14.406-3(c) are met.

(b) When a contractor requests correction of a bid under FAR 14.406-3(a) and it is determined that a mistake has been made but correction is denied and, as an alternative, the contractor requests award under its bid as submitted, the contracting officer shall refer the file to the Associate Administrator for Procurement for determination.

(c) Any doubtful case under FAR 14.406-3 should be forwarded to the Associate Administrator for Procurement.

#### 18-14.406-4 Mistakes after award.

Any determination authorized by FAR 14.406-4(b) and (c) shall be made by the contracting officer after obtaining concurrence from the installation's Office of Chief Counsel in accordance with FAR 14.406-4(d). 18-14.407 Award.

# 18-14.407-1 General.

(a) In sealed bidding, a notice of award as a specific document is used when the contracting officer needs to inform a responsible bidder that its offer was determined to be the most advantageous to the Government (considering only price and price-related factors), but that the formal award will be made upon satisfaction of specified pre-performance conditions. See FAR 14.407-1(c)(2).

(b) The notice of award in sealed bidding is not a contractual instrument. It does not authorize the successful bidder to perform and, in itself, does not obligate the Government to award a contractual document. Its limited purpose is to provide: evidence of the Government's selection of the successful bidder; instruction to that bidder to satisfy specified pre-performance conditions; and a statement that the Government intends to award the contract to the successful bidder upon satisfaction of these conditions if a contract is awarded as a result of the invitation for bids.

(c) Use of a notice of award in sealed bidding is optional. The contracting officer may issue the award document itself without first issuing a notice of award. However, there are instances when a notice of award should be considered for use in sealed bidding, for example, in construction contracts where performance or payment bonds are required. In such cases, the most cost effective technique is to require only the successful bidder to provide the necessary bonds. The notice of award advises the successful bidder to provide the bonds, and it also serves as formal evidence from the Government of the impending award if such evidence is required to secure the bonds.

(d) The notice of award in sealed bidding shall not be issued unless bids have been evaluated and a selection made, and a definitive contract document is ready for execution upon satisfaction of the conditions specified in the notice. Upon satisfaction of these conditions, the approved and executed contract instrument shall be provided to the successful bidder.

(e) Since the notice of award is not a contractual document authorizing performance, the period of performance of the resultant contract shall not be based on the date of issuance or receipt of the notice of award. The period of performance specified in the contract shall be based on some other reference point, such as the date the contract is provided to the successful bidder, a mutually agreeable effective date, a reasonable date certain, or a later authorization to proceed date.

(f) The notice of award in sealed bidding can be issued by any formal written means such as a letter, telegram or electronic means. The notice should be substantially the same as the following format and shall include language advising the successful bidder that the notice is not a contract, does not obligate the Government to award a contract, and does not authorize the successful bidder to proceed or incur costs in contract performance.

# FORMAT

# SUBJECT: NOTICE OF AWARD - INVITATION FOR BIDS (IFB) <u>a</u>

This notice is to advise you that your bid  $(\underline{b})$  in response to the subject IFB has been determined to be the most advantageous to the Government (considering only price and price-related factors). It is the Government's intention to award you a contract in the amount of  $(\underline{c})$  for this effort pending satisfaction of the following pre-performance conditions:

(<u>d</u>)

Evidence  $(\underline{e})$  of satisfaction of these conditions must be provided to the contracting officer by  $(\underline{f})$ . In the event these conditions are not satisfied by this date, the Government reserves the right to award the contract to the bidder who submitted the next most advantageous bid.

Please note that this notice of award is not a contractual document. It does not obligate the Government to award you, or any other bidder, a contract relative to the subject IFB, and it does not authorize you to proceed with contract performance or incur costs pursuant to such performance. Any costs incurred for contract performance prior to your receipt of a fully executed contract document are at your own risk and are not recoverable under any Government contract should the Government fail, for whatever reason, to award you a contract in response to the subject IFB.

If a contract is awarded after evidence of satisfaction of the preperformance conditions listed above is provided to the contracting officer by the specified due date, the date of commencement of work will be provided with the formal award. This date will be based on  $(\underline{g})$ . NOTES--The contracting officer shall insert, where shown, the following information:

(a) Identification of the IFB by number and title.

(b) Identification of the contractor's bid.

(c) The award price.

(d) The pre-performance conditions (e.g., any required payment and performance bonds).

(e) The evidence required to satisfy the pre-performance conditions (e.g., the actual payment and performance bonds).

(f) The date by which the evidence must be provided to the contracting officer.

(g) Identification of the date for commencement of performance. The period of performance of the contract shall not be based on the date of issuance or receipt of the notice of award. It shall be based on the date the contract is provided to the successful bidder, a mutually agreeable effective date, a reasonable date certain, or a later authorization to proceed date.

#### PART 18-15 CONTRACTING BY NEGOTIATION

#### SUBPART 18-15.1 GENERAL REQUIREMENTS FOR NEGOTIATION

#### 18-15.102 General.

Procurement personnel, as well as others concerned, shall ensure that contract negotiations are completed expeditiously. All details of the negotiation must be completed before the contract is awarded, including, to the extent applicable --

(a) Arrangements regarding Governmentfurnished property, including the contractor's responsibility for controlling, maintaining, and accounting for it;

(b) Determination that the prospective contractor is responsible, including completion of preaward surveys when required;

(c) Arrangements with other Government agencies for using facilities under their control;

(d) Verification that any required security clearance has been obtained; and

(e) Establishment of the requirement for the contractor to furnish data, both for technical evaluation and for competitive reprocurement when follow-on procurement is probable, if the appropriate technical office has requested such data.

#### 18-15.170 Factors in negotiation.

During negotiations, contracting officers and their negotiators shall give due attention to the following factors listed in (a) through (h) and any other appropriate factors:

(a) Comparison of --

(1) The business reputations, capabilities, and responsibilities of the offerors;

(2) Prices quoted by each with other prices for the same or similar supplies or services, with due regard to production costs, including extra-pay shift, multi-shift, and overtime costs, and any other factors relating to price, such as profits, transportation costs, and cash discounts.

(b) Consideration of --

(1) The quality of the supplies or services offered or the quantity of the same or similar supplies or services previously furnished, with particular regard to the satisfaction of technical requirements;

(2) Delivery requirements;

(3) Cost sharing, if required (see 18-16.303);

(4) The size of the business concern;

(5) Whether the offeror requires expansion or conversion of plant facilities;

(6) Whether the offeror is in a labor surplus area;

(7) Whether the offeror will have an adequate supply of qualified labor;

(8) The extent of subcontracting;

(9) The offeror's existing and potential workload;

(10) The possibility of broadening the industrial base by developing additional suppliers;

(11) Whether the offeror requires Government-furnished property, machine tools, or facilities, or Governmentoperated test facilities; and

(12) The rules for avoiding of organizational conflicts of interest (see FAR Subpart 9.5).

#### CONTRACTING BY NEGOTIATION

(c) Discriminating use of price and cost analyses.

(d) Investigation of price aspects of any important subcontract.

(c) Individual bargaining, by mail or by conference.

(f) Effective utilization of the most desirable type of contract.

(g) Advantages or disadvantages to the Government that might result from making multiple awards (see FAR 15.605(f).

(h) Royalties the Government will be required to pay under patent license agreements.

### SUBPART 18-15.4 SOLICITATION AND RECEIPT OF PROPOSALS AND QUOTATIONS

### 18-15.402 General.

Before issuance of the solicitation, NASA procurement officers may, by written determination and without power of redelegation, authorize the use of facsimile proposals for individual procurements.

# 18-15.405 Solicitations for information or planning purposes.

#### 18-15.405-1 General.

(a) Solicitations for information or planning purposes are particularly useful when a procurement can be properly negotiated only after potential offerors have had an opportunity to become large quantity of familiar with a data, or when it would be desirable to have industry participation in formulating and reviewing complex specifications or requirements. Solicitations for information or planning purposes can desirable benefits. They have can promote competition and help ensure the reasonableness and feasibility of the requirement. Potential sources can be apprised of NASA requirements in a particular field and invited to submit data for consideration early in the without acquisition process undue expenditure of time, effort, and money.

(b) Solicitations for information or planning purposes may not be used as a prequalifying offerors. means for While, under some circumstances, their use may lengthen the acquisition cycle, it may shorten the time required for proposals when submitting а large quantity of data must be analyzed by industry before proposals can be submitted.

#### 18-15.405-70 Application.

(a) Solicitations for information or planning purposes should be utilized when appropriate; c.g., in major systems acquisitions or other complex projects for which feasibility or technology studies are being conducted (either inhouse or by contract) that may have relevance to later competitions. The results of such studies may be made available to industry as soon as they are known or periodically.

(b) Requirements for automatic data processing equipment or support services operations perform specified to or achieve certain results may be suitable for advance review and comment by the private sector when diverse approaches to accomplishing mission objectives may be feasible. The material made available in advance may vary from a comprehensive draft of a proposed requirement to a partial draft; e.g., statement of work and/or specifications or reports.

#### 18-15.405-71 Procedure.

making advance information (a) In available to industry, sufficient time should be allowed to permit potential sources an opportunity, commensurate with the task, to prepare and submit a the solicitation response to for information planning purposes. or Invitations for bids and requests for proposals may not be used for these purposes. Solicitations for information or planning purposes may be issued only with the procurement officer's prior approval (sec FAR 15.405-1).

(b) The provision at FAR 52.215-3 does not prohibit the allowance, under FAR 31.205-18, of the cost of preparing a response to the solicitation. Solicitations for information or planning purposes shall at least (1) request an expression of interest in the contemplated requirement and (2) designate a time and place for submitting responses. Each solicitation shall define, as explicitly as possible, the information the Government desires and indicate whether it is contemplated that the solicitation will be followed by a conference. After approval by the procurement officer, the solicitation shall be forwarded to potential sources and synopsized according to FAR Subpart 5.2.

(c) Each source responding to the solicitation shall be advised of the details of any pending conference. The conference, when provided for, shall be conducted by procurement personnel and should be attended by technical, legal, and other personnel as appropriate. Care must be taken not to prejudice any future competition. All sources shall be furnished identical information in connection with the proposed requirement. Care shall be taken to safeguard any information received in confidence.

## 18-15.405-72 Special considerations.

The procedure in 18-15,405-71 does not constitute procurement in the usual sense. where the Government is fully aware of its requirements and has incorporated them in a formal solicitation or firms are invited to make known their interest in a procurement by responding to a presolicitation notice. Under the solicitation for information or planning purposes procedure, interested firms may suggest changes in a proposed specification or statement of work; propose alternatives in concept, method, design, system integration, and the like that might result in lower costs without sacrificing performance; or recommend changes in other requirements regarding the product or service involved. Care should be exercised in this connection to avoid potential conflict of interest situations. (See FAR Subpart 9.5.)

18-15.406 Preparing requests for proposals (RFP's) and requests for quotations (RFQ's).

(a) Requests for proposals (RFP's), including amendments to them, shall be prepared by the contracting office, with assistance from technical or other offices as required, and be issued by the contracting officer or an authorized representative. The RFP has a twofold purpose: (1) to convey to prospective offerors the information they need to prepare a proposal properly, and (2) to solicit the information that procurement and technical personnel need to appraise proposals.

(b) RFP's shall specify a date for their submission. Any extension of time granted to one prospective offeror shall be granted uniformly to all. Any RFP shall be issued simultaneously to all prospective offers; no prospective offeror shall be given an advantage. When advisable, particularly in the case of research and development, proposals shall be requested in two parts: (1) an unpriced technical proposal, and (2) a cost proposal cross-referenced to the technical proposal (see 18-15.406-70).

(c) Technical and contracting personnel will mutually agree on page limitations for their respective portions of an RFP. Unless approved in writing by the Procurement Officer, the page limitation for the contracting portion of an RFP (all sections except Section C, Description/specifications/work statement) shall not exceed 150 pages, and the page limitation for the technical portion (Section C) shall not exceed 200 pages. Attachments to the RFP count as part of the section to which they relate. In determining page counts, a page is defined as one side of a sheet, 8 1/2" x 11", with at least one inch margins on all sides, using not smaller than 12 characters per inch or equivalent type. Foldouts count as an equivalent number of 8 1/2" x 11" pages. The metric standard format most closely approximating the described standard 8 1/2" x 11" size may also be used. (d) Page limitations shall also be established for proposals submitted in competitive procurements. Accordingly, technical and contracting personnel will mutually agree on page limitations for each portion of the proposal. Unless a different limitation is approved in writing by the Procurement Officer, the total initial proposal, excluding title pages, tables of content, and cost/price information, shall not exceed 500 pages using the page definition of 18-15.406(c). Firm page limitations shall also be established for Best and Final Offers (BAFOs), if requested. The appropriate BAFO page limitations should be determined by considering the complexity of the procurement and the extent of any written or oral discussions. The same BAFO page limitations shall apply to all offerors. Pages submitted in excess of the specified limitations for the initial proposal and BAFO will not be evaluated by the Government and will be returned to the offeror.

# Section C, Description/specifications/work statement.

(a) In source evaluation board procurements, when detailed program or project support plans will be required as part of the offeror's proposal, but will not be important discriminators in the evaluation process and cover only technical or management support to the primary product or service being offered, describe the requirements for those plans in separate appendices to the statement of work (see 18-15.406-70(a)(7)).

(b) Insolicitations for cost-reimbursement support services contracts requiring price quotations, include available data regarding the quantity and quality of supplies and services required, set forth in terms of work

hours of identifiable categories of labor, including experience and related qualifications, and in terms of quantities of supplies, all exclusive of costs (see 18-15.406-70(b)(8)).

18-15.406-4 Part III--List of documents, exhibits, and other attachments.

Section J, List of attachments. List here all of the documents, exhibits, and other attachments making up the solicitation package; give form number, name, date, and number of pages for each document; give type and identifier (for example, "Exhibit A"), name, and number of pages for each exhibit, appendix, or other attachment (for example: work frequency schedules, work breakdown structures, work statements, specifications, special requirements, or other documents too lengthy to be conveniently written into the solicitation proper).

18-15.406-5 Part IV--Representations and instructions.

(a) Section K, Representations, certifications, and other statements of offerors or quoters. See 18-45.104(b).

(b) Section L, Instructions, conditions, and notices to offerors or quoters.

(1) State if the selected contractor will require access to classified information (see NHB 1620.3, NASA Security Handbook).

(2) Indicate the method and format of price quotation desired (fixed-price or costreimbursement, if known at the time), including a reference to the necessity for cost or price breakdown.

(3) Describe the information required to support proposed prices; e.g., subcontract structure, purchasing system, royalty, and cost or price information (see FAR Subparts 15.7 and 15.8, and FAR Part 44).

(4) Include instructions for disposing of drawings and specifications supplied with the solicitation.

(5) Include a statement of information required to facilitate evaluation of technical and financial capabilities and a statement covering special technical capabilities any contractors must possess.

(6) Include an instruction reflecting desirability of a separation between the offeror's business management proposal and technical proposal. For evaluation purposes, separate proposals, if time permits, should be received; therefore the format should be flexible enough to permit separate requirements (see 18-15.406-70).

(7) State that the solicitation does not commit the Government to pay any cost incurred in submitting the offer or in making necessary studies or designs for its preparation, nor to contract for services or supplies.

(8) Include a statement that "PROPOSALS MUST SET FORTH FULL, ACCURATE, AND COMPLETE INFORMATION AS REQUIRED BY THE SOLICITATION (INCLUDING ATTACHMENTS). THE PENALTY FOR MAKING FALSE STATEMENTS IN PROPOSALS IS PRESCRIBED IN 18 U.S.C. 1001."

(9) Consider including an instruction (see 18-46.470) requiring contractors to submit a quality and productivity improvement (Q/PI) plan to be evaluated under the Other Considerations evaluation factor, unless:

(i) In the judgment of the contracting officer and the program manager, a Q/PI plan would not be meaningful or appropriate; or

(ii) The estimated cost of the contract will be less than \$2.5 million annually.

# 18-15.406-70 Instructions for technical proposal and business management proposal submission.

When it is contemplated that the contract will exceed \$1,000,000 (or, if appropriate, lesser amounts), the solicitation should require submission of the information in paragraphs (a) and (b) of this section, if applicable, in addition to any other information specified elsewhere in this section 18-15.406. (a) **Technical proposal.** Proposals should include the following:

(1) The method by which the offeror proposes to solve the technical problems of the project, other than information to be furnished elsewhere as a part of program or project support plan summaries (see paragraph (7) of this section).

(2) Any specific exceptions to proposed technical requirements.

(3) A statement of background experience in fields relating to the procurement.

(4) Names and resumes of experience of key technical personnel who will be employed on the project and the extent to which each will participate, together with an organization chart of the segment of the offeror's organization that will be directly assigned to the project, listing names and job categories.

(5) Description and location of the company-owned research, test, and production equipment and facilities available for use on the project, accompanied by a separate list of any additional facilities or equipment required in the performance of the work, and a separate list of existing Government facilities available to the contractor and required for use on the project.

(6) Hourly time estimates (without pricing information) by labor class for each phase or segment of the project, the extent to which these estimates are based on the use of employees presently on the offeror's payrolls who will be available for the work as required, and an indication of the number and types of personnel necessary to be hired and arrangements made to obtain them.

(7) For procurements described in 18-15.406-2(a)--

(i) As part of the original proposal, estimates of the cost and work force to perform major tasks under each requirement separately identified, and a summary of the major task elements to perform each requirement; and

(ii) A statement by each offeror

that it is understood that, if selected for negotiations, the offeror will ultimately be required to furnish a detailed program or project support plan that will be negotiated into the contract prior to award.

(b) **Business management proposal.** Proposals should include the following:

(1) The organization proposed for carrying out the project, including organization charts showing the interrelationship of business, technical, and subcontract management and an indication of all levels of operation and management, from lower levels through intermediate management to top-level management.

(2) A summary of the experience of all key personnel who will conduct the managerial affairs of the project.

(3) Contractual procedures proposed for the project to effect administrative and engineering changes, describing any differences from existing procedures.

(4) The extent to which the offeror has invested corporate funds in research and development work in the project area or directly related areas and plans for future expenditures for such work; and the extent, if any, to which the offeror is willing to participate in the cost of the project.

(5) A statement as to--

(i) The capacity at which company-owned research, test, and production equipment and facilities required to perform the work are currently working;

(ii) The extent to which they could handle the additional workload imposed by this project;

(iii) The cost of any additional facilities or equipment required to perform the work, with information as to whether they will be contractor-furnished or Government-furnished; and

(iv) The value of existing Government facilities available to the offeror and required for use on the project, showing the Government agencies and facilities contracts involved. (6) A statement of past performance and experience, including--

(i) A list of Gove.ment contracts in excess of \$1,000,000 received in the past three years or currently in negotiation involving mainly research and development work, showing each contract number, the Government agency placing the contract, the type of contract, and a brief description of the work;

(ii) For each costreimbursement contract listed pursuant to paragraph (i) of this section, a list of amounts of cost overruns or underruns, reasons for them, and percentage of fixed fee;

(iii) For each contract listed pursuant to paragraph (i) of this section, a record of contract completion as against completion date anticipated at the time of entering into the contract, with explanations for completion delays; and

(iv) An identification and explanation of any terminations for default or convenience.

(7) A balance sheet for the offeror's last fiscal year, accompanied by a profit and loss statement.

(8) A detailed cost or price proposal, furnished as a separate, detachable element of the business management proposal and based on the effort described or estimated in the solicitation. This cost or price proposal is a requirement for the proposal to be responsive. If the offeror believes the work can be accomplished more efficiently with organizational plans, staffing, management, or equipment differing from those indicated in the solicitation, it may also submit an alternative proposal supported by a detailed cost or price proposal (see 18-15.406-2, Section C, (b)); this alternative proposal must be in addition to, not in lieu of, the basic proposal.

#### 18-15.406-71 Solicitation cover page.

The contracting officer may include a cover page on solicitations if it conforms to the following policies:

(a) The cover should not unnecessarily

repeat or paraphrase any part of the solicitation; rather, it should only describe subject material, except as otherwise provided in this section.

(b) The cover may draw the offeror's attention to specific limitations on who may submit offers, such as the Small Business Set-Aside provision.

(c) The cover may include a general reminder that representations and certifications must be carefully read and completed, but should not include specific listings of individual provisions from Section K, Representations and Certifications.

(d) The cover may include specific listings of clauses that are not located in Section K, but which contain boxes or fill-ins that must be completed as part of the offer.

(e) The cover must contain a statement that in the event of a conflict between the cover and the solicitation, the solicitation takes precedence.

(f) The cover may include a <u>very brief</u> description or "executive summary" of the requirement. This summary should be no longer than the CBD synopsis, and preferably shorter; if the project title makes clear what is being procured, that should be sufficient. Generally, only major procurements should utilize a summary.

#### 18-15.407 Solicitation provisions.

(a) The provision at FAR 52.215-10, Late Submissions, Modifications, and Withdrawals of Proposals, prescribed in FAR 15.407(c), shall not be used in solicitations for the Small Business Innovation Research (SBIR) program or for broad agency announcements listed in 18-35.016. See instead 18-15.407-70(b).

(b) The provision at FAR 52.215-12, Restriction on Disclosure and Use of Data, prescribed in FAR 15.407(c), shall not be used in NASA solicitations. See instead 18-15.407-70(a).

----

18-15.407-70 NASA solicitation provisions.

(a) The contracting officer shall insert in RFP's and RFQ's (but not in solicitations for information or planning purposes) the provision at 18-52.215-72, Restriction on Use and Disclosure of Proposal/Quotation Information (Data). (See also 18-15.509-70(a)).

(b) In accordance with 18-15.412, the contracting officer shall use the provision 18-52.215-73, Late Submissions, at Modifications, and Withdrawals of Proposals (AO and SBIR Programs), in lieu of the provision at FAR 52.215-10 in Announcements of Opportunity issued pursuant to Subpart 18-70.1 and in Small Business Innovation Research (SBIR) solicitations. This provision allows the project office to accept late proposals or proposal modifications and late best and final offers if, in the selection official's judgment, to do so is in the Government's best interest.

(c) The contracting officer may insert a provision substantially as stated at 18-52.215-74, Alternate Proposals, in competitive requests for proposals if receipt of alternate proposals would benefit the Government. See FAR 52.215-13(d).

(d) In accordance with 18-15.406- 5(b)(7), the contracting officer shall insert the provision at 18-52.215-75, Expenses Related to Offeror Submissions, in all requests for proposals.

(e) In accordance with 18-15.406- 5(b)(8), the contracting officer shall insert the provision at 18-52.215-76, False Statements, in all requests for proposals to advise offerors of the penalty for making false statements in proposals.

(f) The contracting officer shall insert the provision at 18-52.215-77, Preproposal/Prebid Conference, in competitive requests for proposals and invitations for bids where the Government intends to conduct a preproposal or pre-bid conference. Insert the appropriate specific information relating to the conference. Supplemental information, such as an agenda summary and whether a tour is included, may be identified in "Other Information."

(g) The contracting officer shall insert the provision at 18-52.215-80, Disposal of Unsuccessful Proposals, in competitive requests for proposals.

(h) For grouping items in the solicitation in contemplation of an aggregate award, see 18-14.201-670(b).

(i) For requiring full quantities to be proposed, see 18-14.201-670(c).

(j) The contracting officer shall insert the provision at 18-52.215-81, Proposal Page Limitations, in all competitive requests for proposals.

(k) The contracting officer shall insert the provision at 18-52.215-82, Offeror Oral Presentations, in competitive requests for proposals when the Government intends to allow offerors to make oral presentations prior to commencement of the Government's formal evaluation.

### 18-15.412 Late proposals and modifications.

This section applies to broad agency announcements listed in 18-35.016 and SBIR Phase I and Phase II solicitations only. See FAR 15.412 for policy regarding late proposals/modifications under other solicitations.

(a) Proposals, or modifications to them, received from qualified firms after the latest date specified for receipt may be considered if a significant reduction in cost to the Government is probable or if there are significant technical advantages, as compared with proposals previously received. In such cases, the project office shall investigate the circumstances surrounding the submission of the late proposal or modification, evaluate its content, and submit written recommendations and findings to the selection official or a designee as to whether there is an advantage to the Government in considering the proposal.

(b) The selection official or a designee shall determine whether to consider the proposal.

(c) Offerors may withdraw proposals any time before award, provided the conditions in paragraph (b) of the provision at 18-52.215-73, Late Submissions, Modifications, and Withdrawals of Proposals (AO and SBIR Programs), are satisfied.

# 18-15.413 Disclosure and use of information before award.

(a) The alternate procedures at FAR 15.413-2 shall be used for NASA procurements in lieu of those prescribed at FAR 15.413-1. The policies and procedures of FAR 15.413 and NFS 18-15.413-2 shall apply both before and after award. The notice at FAR 15.413-2(e) shall be placed on the cover sheet of all proposals, whether solicited or unsolicited. (See 18-5.303-70(a)(1)(iii) regarding release of the names of firms submitting offers.)

(b) During evaluation proceedings, whether or not a source evaluation board is used, NASA personnel participating in any way in the evaluation may not reveal any information concerning the evaluation to anyone not also participating, and

then only to the extent that the information is required in connection with the evaluation. When non-NASA personnel participate, they shall be instructed to observe these restrictions. (Information shall be provided to unsuccessful offerors in accordance with FAR 15.1003 and 18-15.1003. See also 18-15.413-2.)

#### 18-15.413-2 Alternate II.

(a) General. This section prescribes the policy and procedures pertaining to the use of individuals from outside the Government as participants in the proposal evaluation process. This section does not cover the use of contractors to assist or support the evaluation process. The references in FAR 15.413-2 to the provision at FAR 52.215-12 shall be considered to be references to the provision at 18-52.215-72.

(b) **Policy.** It is NASA policy to have proposals evaluated by the most competent technical and management sources available. Appropriate proposal evaluation resources will normally be available from within the Government. However, from time-to-time it may be necessary to disclose proposal information to non-Government evaluators.

# (c) Approval to release proposal outside the Government.

(1) Except as provided in paragraph (c)(2) of this section, only the Associate Administrator for Procurement or a designee, with the concurrence of the Office of General Counsel, is authorized, pursuant to FAR 15.413-2(f)(1), to disclose proposal information outside the Government.

(2) Proposal information contained in the following classes of proposals may be disclosed with the prior written approval of a NASA official one level above the NASA program official responsible for overall conduct of the evaluation:

(i) NASA Announcements of Opportunity proposals;

(ii) unsolicited proposals;

(iii) NASA Research Announcement proposals;

(iv) SBIR and STTR proposals; and

(v) any proposal information released to JPL personnel for evaluation.

(3) The written approvals required by paragraphs (c)(1) and (2) of this section shall be provided to the contracting officer before the actual release of the proposal information. As a minimum, the approval shall:

(i) identify the precise proposal information being released;

(ii) identify the person receiving the proposal information and evidence of their appointment as a special government employee, or a statement of the applicable exception under paragraph (d)(3) of this section;

(iii) provide a justification of the need for disclosure of the proposal information to the non-Government evaluator(s); and

(iv) provide a statement that a signed "Agreement and Conditions for Evaluation of Proposals (August 1993)," in accordance with paragraph (c) of this section, will be obtained prior to release of the proposal to the evaluator.

(4) If JPL personnel, in evaluating proposal information released to them by NASA, must obtain assistance from non-JPL, non-Government evaluators, JPL must obtain written approval from the Associate Administrator for Procurement, in compliance with paragraphs (c)(1) and (c)(3) of this section, before releasing the information; except that information from the following classes of proposals may be disclosed outside JPL with a prior written approval, in compliance with paragraphs (c)(2) and (c)(3) of this section:

(i) NASA Announcements of Opportunity proposals;

(ii) unsolicited proposals;

(iii) N A S A R c s c a r c h Announcement proposals; and

(iv) SBIR and STTR proposals.

#### 15-4:8

# (d) Appointing non-Government evaluators as special Government employees.

(1) Except as provided in paragraph (d)(3) of this section, non-Government participants in proposal evaluation proceedings, including employees of JPL, shall be appointed as special Government employees.

(2) Appointment as a Special Government employee is a separate action from the approval required by paragraph
(c) of this section and may be processed concurrently. Appointment as a special Government employee shall be made by:

(i) the NASA Headquarters personnel office when the release of proposal information is to be made by a NASA Headquarters office; or

(ii) the Field Installation personnel office when the release of proposal information is to be made by the Field Installation.

(3) Non-Governmentevaluatorsneed not be appointed as special Government employees when they evaluate:

(i) NASA Announcements of Opportunity proposals;

(ii) unsolicited proposals;

(iii) NASA Research Announcement proposals; and

(iv) SBIR and STTR proposals.

(e) Agreements. The NASA official approving the disclosure of any proposal information to a non-Government evaluator, including employees of JPL, shall, prior to such disclosure, require each non-Government evaluator to sign the following "Agreement and Conditions for Evaluation of Proposals (April 1993)," and to complete and sign a "Procurement Integrity Certification for Procurement Officials" (Optional Form 333), in accordance with FAR 3.104-12.

### AGREEMENT AND CONDITIONS FOR EVALUATION OF PROPOSALS (AUGUST 1993)

(1) The recipient agrees to use proposal information for NASA evaluation purposes only. This limitation does not apply to information that is otherwise available without restrictions to the Government, another competing contractor, or the public.

(2) The recipient agrees that the NASA proposal cover sheet notice (FAR 15.413-2(e) and NFS 18-15.413(a)), and any notice that may have been placed on the proposal by its originator, shall be applied to any reproduction or abstract of any proposal information furnished.

(3) Upon completion of the evaluation, the recipient agrees to return all copies of proposal information or abstracts, if any, to the NASA office that initially furnished the proposal information for evaluation.

(4) Unless authorized in writing by the NASA official releasing the proposal information, the recipient agrees not to contact either the business entities originating the proposals or any of their employees, representatives, or agents concerning any aspect of the proposal information or extracts covered by this agreement. (5) The recipient agrees to review his or her financial interests relative to the entities whose proposal information NASA furnishes for evaluation. At any time the recipient becomes aware that he or she or a person with a close personal relationship (household family members, business partners, or associates) has or acquires a financial interest in the entities whose proposal information is subject to this agreement, the recipient shall immediately advise the NASA official releasing the proposal information, protect the proposal information, and cease evaluation activities pending a NASA decision resolving the conflict of interest.

(6) I understand that the term "leave the Government" in the last

sentence of the Procurement Integrity Certification for Procurement Officials, Optional Form 333, means "cease to function as a procurement official."

Signature:

Name typed or printed:

Date:

## [End of agreement]

(f) Affixing of a protection notice. The official authorized to disclose proposal information shall review each proposal or the extracted item of proposal information that is to be released and ensure that the notice at FAR 15.413-2(e) (See 18-15.413(a)) is affixed to each proposal or the extracted item of proposal information before it is disclosed.

.

#### SUBPART 18-15.5 UNSOLICITED PROPOSALS

#### 18-15.502 Policy.

NASA will foster and encourage the submission of unsolicited proposals relevant to agency mission requirements by expeditious and equitable handling of all unsolicited proposals.

18-15.503 General.

(a) Submission to other agencies or JPL. NASA will not accept for formal unsolicited evaluation proposals initially submitted to another agency or to the Jet Propulsion Laboratory (JPL) without the offeror's express consent. Proposals submitted to NASA shall not be transferred to JPL for procurement without the offeror's written permission.

(b) Transferring proposals. When а reviewing official determines that an unsolicited proposal is not related to NASA's mission or may be of interest to agencies in addition to NASA, the proposal control officer may identify for the offeror other agencies whose missions may bear a relationship to the subject matter of the unsolicited proposal. NASA shall not respond to an unsolicited proposal by transferring it to another for action without the agency offeror's written consent.

All (c) Relationship to award. unsolicited proposals may be prepared in a similar fashion, since NASA does not have separate "contract proposal" and categories. "grant proposal" An unsolicited proposal may result in the a contract, a grant, a award of cooperative agreement, or other agreement. If a grant or cooperative agreement is used, the NASA Grant and Cooperative Agreement Handbook (NHB 5800.1) applies.

18-15.504 Advance guidance.

# 18-15.504-70 Unsolicited proposal brochure.

The Office of Procurement (Code HP) is responsible for preparing for public use brochure titled "Guidance for the а Preparation and Submission of Unsolicited Proposals." which shall be provided without charge by procurement and other NASA officials in response to requests for proposal submission information. The brochure, issued pursuant to FAR 15.504. NASA's single, official. constitutes general-purpose guidance document for use in submitting unsolicited public proposals. A deviation is required for use of any modified or summarized version of the brochure or for alternate means of dissemination general of unsolicited proposal information. The Headquarters Office of Small and Disadvantaged Utilization (Code Business **K**) is responsible for internal distribution of Installations the brochure. and individuals should request bulk supplies from that office.

18-15.505 Content of unsolicited proposals.

# 18-15.505-70 Unsolicited renewal proposals.

Renewal proposals, (i.e., those for the extension or augmentation of current contracts) are subject to the same FAR and NFS regulations, including the requirements of the Competition in Contracting Act, as are proposals for new contracts. Unsolicited renewal proposals within the scope of an open NASA Research Announcement (NRA) shall be evaluated in the same manner as unsolicited proposals described in 18-15.506(b).

#### 18-15.506 Agency procedures.

#### (a) NASA unsolicited-proposal coordinating offices.

(1) NASA Headquarters and each NASA field installation shall designate an organizational entity as its unsolicited-proposal coordinating office the for receiving and coordinating handling and evaluation of unsolicited proposals in accordance with the policies and procedures of FAR Subpart 15.5, this Subpart 18-15.5, and NHB 5800.1.

Each installation shall estab-(2) lish procedures for handling proposals received initially by other offices within the installation. Misdirected proposals shall be forwarded by the coordinating office to the proper in-Field installation stallation. coordinating offices are also responsible for providing guidance to potential offerors regarding the appropriate NASA officials to contact for general mission-related inquiries or other preproposal discussions.

(3) At Headquarters, responding to inquiries from general academic researchers is the responsibility of the Headquarters coordinating office, while handling inquiries from all other offerors is the responsibility of the Headquarters Acquisition Division (Code HW).

(b) Relationship to open NRAs. An unsolicited proposal for a new effort, identified by an evaluating office as being within the scope of an open NRA, shall be evaluated as a response to that NRA under 18-35.016-70(e), provided that the evaluating office can either (i) state that the proposal is not at a competitive disadvantage or (ii) give the offeror an opportunity to amend the unsolicited proposal to ensure compliance with the applicable NRA proposal preparation instructions. If these conditions cannot be met, the proposal must be evaluated separately.

(c) **Reconsideration**. An appropriately revised submission that is responsive to comments contained in an initial determination of inadequacy under FAR 15.506-1 shall be reconsidered by NASA officials.

(d) Information requirements. Coordinating offices shall keep records of unsolicited proposals received and shall provide prompt status information to requestors. These records shall include, at a minimum, the number of unsolicited proposals received, funded, and rejected during the fiscal year; the identity of the offerors; and the office to which each was referred. The numbers shall be broken out by source (large business, small business, university, or nonprofit institution).

### 18-15.508 Prohibitions.

FAR 15.508(b) shall not apply to NASA; see instead 18-15.508-70.

#### 18-15.508-70 NASA prohibitions.

Information (data) in unsolicited proposals furnished to the Government is to be used for evaluation purposes only. Disclosure outside the Government for evaluation is permitted only to the extent authorized by, and in accordance with procedures in, FAR 15.413-2 and 18-15.413. 18-15.509 Limited use of data.

FAR 15.509 shall not apply to NASA. See instead 18-15.509-70.

#### 18-15.509-70 Limited use of proposals.

(a) The provision at 18-52.215-72, Restriction on Use and Disclosure of Proposal/Quotation Information (Data), is applicable to unsolicited proposals.

(b) If an unsolicited proposal is received with a more restrictive legend than made applicable by paragraph (a) of this section, the procedures of FAR 15.413-2(c) apply.

(c) Upon receipt in the coordinating office, the Government notice in FAR 15.413-2(e) shall be placed on the cover sheet of all unsolicited proposals.

(d) Unsolicited proposals shall be evaluated outside the Government only to the extent authorized by, and in accordance with the procedures prescribed in, FAR 15.413-2(f) and 18-15.413.

(e) If a request is made under the Freedom of Information Act for any information contained in an unsolicited proposal, the procedures of FAR 15.413-2(g) apply.

#### 18-15.570 Foreign proposals.

Unsolicited proposals from foreign sources are subject to NMI 1362.1, Initiation and Development of International Cooperation in Space and Aeronautical Programs. .

#### SUBPART 18-15.6 SOURCE SELECTION

#### 18-15.608 Proposal evaluation.

The authority in FAR 15.608(b) to determine in writing that rejection of all proposals received in response to a solicitation is in the public interest is delegated to the contracting officer.

#### 18-15.608-70 Technical evaluation.

(a) Technical evaluation should include consideration of --

(1) The offeror's understanding of the scope of the work as shown by the scientific and technical approach proposed;

(2) The availability and competence of experienced engineering, scientific, or other technical personnel;

(3) The availability of necessary research, test, and production facilities:

(4) Experience or pertinent novel ideas in the specific branch of science or technology involved;

(5) The offeror's willingness to devote its resources to the proposed work with appropriate diligence; and

(6) The offeror's proposed method of achieving the reliability required.

(b) In making this evaluation, technical personnel may be given access to portions of the business proposals upon request. After evaluation and preparation of technical by the written findings personnel, proposals shall be returned to the negotiator. The contracting officer documentation review the shall supporting the written findings of the technical personnel to determine that such documentation is adequate and complete.

18-15.608-71 Automatic data processing cquipment.

In evaluating proposals containing a significant amount of cost for automatic data processing equipment (ADPE), the contracting officer should obtain from the offeror a feasibility study and a lease-versus-purchase study covering the acquisition of such equipment or service. The contracting officer shall obtain the recommendations of the price analyst and appropriate ADPE technical personnel as to the adequacy of the studies and the offeror's determinations resulting from the studies. Particular attention should be given to proposals containing a high dollar amount for renting ADPE or complete systems to be used solely for performing the contract. Current Office of Management and Budget criteria (NHB 2410.1, Information Processing Resources Management) should be used, when applicable, as a guide in evaluating the offeror's studies. Contractors should be encouraged to --

(a) Use ADPE machine time available within a reasonable geographic distance;

(b) Use telecommunications links to remote Government-owned or -leased ADPE systems; and

(c) Purchase ADPE in preference to leasing the equipment when financial advantage is the sole or overriding factor.

#### 18-15.609 Competitive range.

For competitive range determinations under formal source selection procedures, see 18-15.613-71(b)(4) and 18-70.303, App. I, subparagraph 406.7.a.

## 18-15.610 Written or oral discussion.

(FAR) 48 CFR 15.610(c)(2) is not app!icable to NASA competitive negotiated procurements. The limited discussion procedures described in (FAR) 48 CFR 15.613 and 48 CFR 18-15.613 shall be used instead.

# 18-15.611 Best and Final Offers.

After receipt of Best and Final Offers (BAFOs), the SSO may consider the evaluation findings not sufficiently comprehensive to make a selection decision. In this rare circumstance, it may be necessary to reopen discussions and issue an additional request for BAFOs to all offerors in the competitive range. For competitive procurements of \$25 million or more. approval of the Associate Administrator for Procurement (Code HS) is required for this course of action. For competitive procurements with values less than \$25 million, approval of the Procurement Officer is required.

18-15.613 Alternative source selection procedures.

## 18-15.613-70 General.

The source selection procedures in (FAR) 48 CFR 15.610, as modified by (FAR) 48 CFR 15.613 and 48 CFR 18-15.613 to limit discussions with offerors, apply to all NASA competitive negotiated procurements except those conducted under the following procedures:

(a) Announcements of Opportunity (see 18-70.103, App. I).

(b) NASA Research Announcements (see 18-35.016-70 and 18-70.203, App. I).

(c) The Small Business Innovation Research (SBIR) program and the Small Business Technology Transfer (STTR) pilot program under the authority of the Small Business Act (15 U.S.C. 638). (d) Architect and Engineering (A&E) services (see (FAR) 48 CFR 36.6 and 48 CFR 18-36.6).

# 18-15.613-71 Evaluation and negotiation of procurements conducted in accordance with source evaluation board (SEB) procedures.

(a) Applicability. Unless one of the exceptions in 18-15.613-70(a) through (d) applies, the formal SEB procedures of 18-70.303, App. I, shall be followed in all competitive negotiated procurements of \$25 million or more (including the value of multiple awards, options, and later phases of the same project). The formal SEB procedures may be used in lesser valued procurements at the discretion of the Procurement Officer.

# (b) Evaluation and selection procedures.

(1) Responsibility of source selection official. In the final analysis, NASA's judgment on the totality of the evaluation will be that of the source selection official, including assessment of the procedures followed by the SEB, the validity of its substantive evaluations, the relative significance of the several areas of evaluation and their weightings in the light of all the information produced by the source evaluation and selection process.

Evaluation factors, subfactors, and (2) elements and weights. Establishing evaluation factors, subfactors, and elements and their weights requires the exercise of judgment on a case-by-case basis. They should be tailored to the requirements of each procurement. Technical excellence, price or estimated cost, and contractor management capability are important factors in selection. Their relative importance depends on the nature of the products or services procured. Any factor may tip the balance when competition is very close. Evaluation factors, subfactors, and elements shall be described in each RFP sufficient to inform evaluators and prospective offerors of the significant matters to be addressed in proposals. The

evaluation factors (Mission Suitability, Relevant Experience and Past Performance, Cost, and Other Considerations) shall be described, and a statement of their relative importance included. In addition, the weights assigned to the Mission Suitability subfactors and elements shall be included in the RFP.

(3) Initial identification of proposals not considered acceptable.

(i) After review of committee ratings and other information known to the committees or the SEB and before ranking of proposals by the SEB, the SEB may discontinue the evaluation of any proposal that is unacceptable because--

(A) It does not represent a reasonable initial effort to address itself to the essential requirements of the RFP or clearly demonstrates that the offeror does not understand the requirements of the RFP;

(B) In research or development procurement, a substantial design drawback inheres in the proposal, and sufficient correction or improvement to consider the proposal acceptable would require virtually an entirely new technical proposal; or

(C) It contains major technical or business deficiencies or omissions or out-of-line costs which discussions with the offeror could not reasonably be expected to cure.

(ii) Simple technical nonre-sponsiveness in the sense in which the term is used in sealed bidding is not alone sufficient to constitute unacceptability if the proposal is otherwise competitive, and written and/or oral discussions or negotiations after selection reasonably offer the likelihood of resolution. When there is doubt as to whether a proposal should be rejected initially as unacceptable, that doubt shall be resolved by including it for further consideration.

(iii) Documentation must be prepared by the SEB as to why the deficiencies of any proposal are believed to be of sufficient significance to warrant discontinuing evaluation of the proposal at this point in the process.

(4) Initial evaluation, scoring, and determination of competitive range.

After initial identification (i) of proposals not considered acceptable per 18-15.613-71(b)(3), the SEB shall conduct an initial evaluation of all remaining proposals. This process is accomplished through either of two procedures. In the standard method, the SEB will complete its initial evaluation of the entire proposal in accordance with the evaluation factors, subfactors, and elements, and determine strong and weak points. This evaluation will be fully documented, including scoring or ranking proposals in accordance with the and adjectival standards numerical identified in the RFP and this handbook, except cost which is neither numerically scored nor ranked adjectivally. After this evaluation and scoring is completed, the proposals shall be reviewed to determine which are within the competitive range; namely those having a reasonable chance of being selected for final award. In making this determination, the SEB, together with the contracting officer, shall evaluate the potential for offerors to improve the competitive position of their proposals by written or oral discussions conducted in accordance with paragraph (b)(5) of this section. For those offerors remaining in the competitive range, the SEB will then develop questions for written and oral discussions.

(ii) An alternate method of initial evaluation dispenses with initial scoring. Although its use is an option reserved by NASA on all SEBs, the determination to use it on a given procurement cannot be preplanned. It normally may only be used when two conditions exist: (A) relatively few (e.g., five or fewer) proposals are received; and (B) a full scoring or ranking of proposals is not required to make the determination that all offerors are in the competitive range. Whether a procurement satisfies the first qualification is obvious. To determine the second, however, the SEB must begin to evaluate the entire proposal against the evaluation factors, subfactors, and elements just as in the standard method.

If during this evaluation process it becomes apparent that all offerors will be in the competitive range, the SEB may then elect to use the alternate method of initial evaluation by making this competitive range determination without formally scoring or ranking the proposals or generating the extensive documentation required to support this scoring or ranking. Once the alternate method is chosen, the initial evaluation is completed when the SEB determines strong and weak points for all proposals and develops questions for written and oral discussions. The SEB will then proceed directly to the discussion phase of the evaluation process. Only the BAFO is fully scored and ranked, and the results of this scoring or ranking are presented to the SSO to assist the selection decision. The principal benefit in using the alternate scoring method is the reduced time and resources associated with not performing two separate and complete proposal scorings along with the attendant documentation.

(iii) Regardless of which evaluation method is used, the competitive range consists of the proposals with a reasonable chance of being selected for award, considering mission suitability, cost or price, relevant experience and past performance, and other considerations. When there is doubt as to whether a proposal is within the competitive range, that doubt shall be resolved by including it.

(iv) The initial number of offerors whose proposals are considered as being within the competitive range may be narrowed as a result of the written or oral discussions. However, a proposal initially included in the competitive range should not be rejected without giving the offeror an opportunity to submit a revised proposal to serve as the basis for establishing the new competitive range, unless the discussions relating to an ambiguity or omission make it clear that the proposal should not have been included in the competitive range.

(5) Conduct of written or oral discussions.

(i) – General. Careful judgment must be exercised in determining the extent of discussions. The SEB should consider such factors as the time available, the expense and administrative limitations, and the size and significance of the procurement in deciding on the type, duration, and depth of the discussions. Normally, written or oral discussions are completed with each offeror in the competitive range in one round. In some cases, however, good business practice may warrant having more than one round of discussions with the offerors whose proposals are in the competitive range. In these cases, when discussions have been declared closed and BAFOs requested, the approval of the Associate Administrator for Procurement (or the Procurement Officer when the value of the procurement is less than \$25 million) is required to reopen discussions (see 18-15.611). Each subsequent round of discussions is subject to the same groundrules as the initial round (e.g., no discussion of weaknesses where such discussion is otherwise prohibited).

### (ii) Cost-reimbursement contracts and all contracts for research and development.

(A) The contracting officer, together with or on behalf of the SEB. will conduct written and/or oral discussions of the effort to be accomplished and the cost or price of the effort with all offerors determined to be within the competitive range. The discussions are intended to assist the SEB or other evaluators (1) in understanding fully each offeror's proposal and its strengths and weaknesses based upon the individual efforts of each offeror, (2) in assuring that the meanings and the points of emphasis of RFP provisions have been adequately conveyed to the offerors so that all are competing equally on the basis intended by the Government, (3) in evaluating the personnel proposed by each firm, and (4) in presenting a report to the Source Selection Official that makes the discriminations among proposals clear and visible. In this process, prior to contractor selection, the Government's interests are not

served by its assuming the role of an information exchange or clearinghcuse.

(B) I n c o s t reimbursement type contracts and all research and development contracts, the contracting officer shall point out instances in which the meaning of some aspect of a proposal is not clear and instances in which some aspects of the proposal failed to include substantiation for a proposed approach, solution, or cost estimate.

(C) However, where the meaning of a proposal is clear and the Board has sufficient information to assess its validity and the proposal contains a weakness that is inherent in an offeror's management, engineering, or scientific judgment or which is the result of its own lack of competence or inventiveness in preparing its proposal, the contracting officer shall not point out the weaknesses. Discussions are useful in ascertaining the presence or absence of strengths and weaknesses. The possibility that such discussions may lead an offeror to discover that it has a weakness is not a reason for failing to inquire into a matter where the meaning is not clear or where insufficient information is available, since understanding of the meaning and validity of the proposed approaches, solutions, and cost estimates is essential to a sound selection. Offerors should not be informed of the relative strengths or weaknesses of their proposals in relation to those of other offerors. To do so would be contrary to other regulations which prohibit the use of auction techniques (see FAR 15.610(d)(3)).

In the course of discussions, Government participants should be careful not to transmit information which could give leads to one offeror as to how its proposal may be improved or which could reveal a competitor's ideas.

(D) The foregoing guidelines are not all-inclusive. Careful judgment must be exercised in the light of all the circumstances of each procurement to promote the most advantageous selection from the standpoint of the Government while, at the same time, maintaining the fairness of the competitive process.

(E) The contracting officer shall give each offeror a reasonable opportunity (with a common cut-off date for all) to support and clarify its proposal in a best and final offer which shall be submitted at the conclusion of discussions. An offeror may, on its own initiative, revise its proposal and make corrections or improvements until the established cut-off date.

# (iii) Fixed-price contracts other than for research and development.

(A) In fixed-price type contracts other than for research and development, the specifications ordinarily describe the Government's requirements with more particularity than is possible in cost reimbursement or research and development contracting so that less emphasis is placed on an offeror's introduction of scientific, engineering, and management innovations. The contracting will conduct discussions officer in accordance with the provisions of paragraph (b)(5)(ii) of this section, except for the difference in paragraph (b)(5)(iii) (B) of this section.

(B) The contracting officer, in written or oral discussions, shall point out instances in which some aspect of a proposal contains a weakness in relation to the Government's requirements. But, as provided in paragraph (b)(5)(ii) of this section, the contracting officer shall neither point out the relative strengths or weaknesses of a proposal in relation to those of other offerors nor transmit information which could give leads to one offeror as to how its proposal may be improved or which could reveal a competitor's ideas. The contracting officer shall point out price elements that do not appear to be justified and shall encourage offerors to put forward their most favorable price proposals, but shall not discuss, disclose, or compare price elements of any other offeror.

(6) Notice and debriefing. When a proposal is no longer to be considered for

1

contract award, the offeror shall be promptly notified, in writing, together with a general, reasonably brief explanation of the major reasons. If an offeror requests, in writing, a debriefing as a result of this notice, it will be accorded a formal debriefing in accordance with Subpart 18-15.10. The debriefing should be provided at the earliest feasible time, which normally shall be after announcement of the election decision and before award of the contract. However, when the exigency of the situation will not permit delaying the award in order to debrief unsuccessful offerors, debriefings may be conducted after award.

(7) **Report to Source Selection Official.** The SEB report shall summarize the primary points of discussion and show the ffects of the discussions on the evaluation of proposals. The report shall set forth the strengths and weaknesses of each proposal, with an estimate of the potential for correction of the principal weaknesses identified. The report should also state the SEB's estimate of the approximate impact on cost or price that will result from the elimination of correctable weaknesses during negotiations after selection.

## 18-15.613-72 NASA solicitation provisions.

(a) The provision at 18-52.215-70, Increases in Estimated Costs, shall be included in all RFP's to be evaluated pursuant to SEB procedures, if award of a cost-reimbursement contract (with or without incentive arrangements) is contemplated. The purpose of this provision is to advise offerors selected for final negotiation that they may not unilaterally increase their estimated costs except for the reasons cited in the

except for the reasons cited in the provision. Government negotiators are cautioned that when the second exception in the provision applies, there may be instances in which such increases in costs do not warrant additional fee.

(b) The contracting officer shall insert the provision at 18-52.215-83, Alternate Method of Scoring Proposals, in all solicitations using formal SEB procedures.

#### 18-15.704 Items and work included.

Make-or-buy programs should not include items or work efforts estimated to cost less than \$500,000.

# 18-15.706 Evaluation, negotiation, and agreement.

The make-or-buy program review by the installation's small and disadvantaged business utilization specialist and the SBA representative (see FAR 15.706(b)) should be concurrent with the contracting When officer's review. urgent circumstances preclude this or if the disadvantaged business small and specialist or SBA representative fails to the respond on basis. а timely contracting officer shall include an explanatory statement in the contract the transmit copies to file and specialist and the representative.

18-15.708 Contract clause.

#### 18-15.708-70 NASA contract clause.

The contracting officer shall insert (a) the provision at 18-52.215-78, Make-or-Requirements, in Buv Program requiring make-or-buy solicitations programs as provided in FAR 15.703. This provision shall be used in conjunction with the clause at FAR 52.215-21, Changes or Additions to Make-or-Buy Program. The contracting officer may add an additional identifying anv other paragraph(s) information required in order to evaluate the program.

(b) The contracting officer shall insert the clause at 18-52.215-79, Price Adjustment for "Make-or-Buy" Changes, in contracts that include FAR 52.215-21 with its Alternate I or II. Insert in the appropriate columns the items that will be subject to a reduction in the contract value.

18-15.804 Cost or pricing data.

# 18-15.804-3 Exemptions from or waiver of submission of certified cost or pricing data.

(a) (1) The term "lowest evaluated price," as used in FAR 15.804-3(b), is defined to include all of the factors (for example, mission suitability, cost, past performance, etc.) used in the evaluation of proposals (but see paragraph (a)(2) of this section).

(2) In order for adequate price competition to exist, cost or price must be a substantial factor in the evaluation of proposals. Cost or price shall be considered a substantial factor if the source selection will be based on the most advantageous offer to the Government, price or cost or other factors considered, and cost or price, although not necessarily the determinative factor, will contribute significantly to the source selection decision.

(3) The adequate price competition exemption is applicable to both fixed-price and cost-reimbursement type procurements.

The use of this exemption (i) for a cost-reimbursement procurement requires the careful exercise of judgment on the part of the contracting officer based on the application of the guidance in FAR 15.804-3(b) and the NFS to the facts of each procurement. The instances when its use under cost-reimbursement procurements would be appropriate should be limited. One reason is that, unlike fixed-price type contracts, where the final cost to the Government is set at the negotiated contract amount, in cost-reimbursement contracts, the contract amount is only an estimate of the Government's final cost. As a consequence, the failure to obtain certified

cost or pricing data could result in a competing contractor intentionally underestimating its costs for the purpose of winning the award, which could then cause the actual contract costs to significantly exceed those proposed.

(ii) If and when negotiations conducted with a successful offeror after receipt of Best and Final Offers result in a substantial change in that offeror's price, the validity of any adequate price competition exemption which previously applied could be nullified, regardless of contract type.

(4) When the decision is made to apply the adequate price competition exemption, that decision shall be documented in the contract file. In addition, for cost-reimbursement procurements, that document shall be signed by the procurement officer and a copy provide to the Contract Pricing and Finance Division, Code HC.

(b) When an exemption is granted under FAR 15.804-3(e)(2) for repetitive submissions of catalog items, Government approval of the exemption claim shall state the effective period, usually not more than one year, and require the contractor to furnish any later information that might raise a question as to the exemption's continuation.

(c) When exempting submission under FAR 15.804-3(e)(3), the contracting officer shall document the reasons for the exemption. For example, if the item being procured is similar to a commercial item, only an explanation of a price differential may be needed. If the fact of substantial sales to the general public is well known, the actual sales prices, but not the quantity of sales, may be required.

(d) The authority in FAR 15.804-3(i) to waive the requirement for cost or pricing data is delegated to the Associate

## CONTRACTING BY NEGOTIATION

Administrator for Procurement, without power of redelegation. Set forth below is a sample format for the determination and findings to be made by the Assistant Administrator for Procurement to waive the requirement for submission and certification of cost or pricing data as required by 10 U.S.C. 2306a(b). Requests for waivers shall be addressed to NASA Headquarters, Contract Pricing and Finance Division, Code HC, and shall include the name and telephone number of the contracting officer, a copy of the contractor's refusal to submit and/or certifv cost or pricing data. а discussion of the contracting officer's efforts obtain the data to and/or certification, and the basis for the contracting officer's determination of price reasonableness.

#### National Aeronautics and Space Administration

Washington, DC 20546

#### Determination and Findings

#### Authority to Waive Submission of Certified Cost or Pricing Data

On the basis of the following findings and determination, the requirement for submitting certified cost or pricing data described below may be waived pursuant to the authority of 10 U.S.C. 2306a(b), as implemented by NASA FAR Supplement 18-15.804-3(c).

#### Findings

1. The (1) proposes to enter into a contract with (2) for the procurement of (3). 2. Pursuant to FAR 15.804-2, the

2. Pursuant to FAR 15.804-2, the proposed contractor is required to submit certified cost or pricing data. However, waiver of submission of the certified cost or pricing data described below is justified for the reasons indicated: (4)

#### Determination

The requirement for submission of certified cost or pricing data described in the above findings for the proposed procurement is hereby waived.

Assistant Administrator for Procurement

Date \_\_\_\_\_

NOTES --

(1) Name of installation.

- (2) Name of proposed contractor.
- (3) Brief description of supplies or services.

(4) Identification of the cost or pricing data requirements to be waived. The waiver may be partial, for example, limited to a particular subcontractor. Also describe the circumstances and conditions that make the proposed procurement an exceptional case, and state the reasons justifying the proposed waiver.

(e) (1) NASA and the Canadian ( Department of Defense Production (DDP) have agreed that a letter of agreement between DDP and the U.S. Military Departments will also apply to NASA contracts with the Canadian Commercial Corporation (CCC), an agency of the Government of Canada.

(2) The CCC, in the letter of agreement, provides its assurance of the fairness and reasonableness of the proposed prices, and also provides for

follow-up audit activity where appropriate to help insure that excess profits are found and refunded to NASA. The integrity of the representations of assurance made by the agents of the Canadian Government can be assumed.

(3) The review and audit practices of the Government of Canada, the price assurance representations, and the adjustments rendered where profits are excessive are considered to satisfy the requirements of 10 U.S.C. 2306a. Therefore, NASA has waived the requirement for certification of cost or pricing data submitted by the CCC during the period April 1, 1990 through March 31, 1993. This waiver applies only to the certification and does not waive the requirement for submission of cost or pricing data.

(4) When a procurement action requires use of the waiver, a telephone report should be made to NASA Headquarters, Contract Pricing and Finance Division, Code HC. This information is used to determine the continuing need for a blanket waiver authorization.

#### 18-15.805-4 Technical analysis.

18-15.805-470 Responsibilities of NASA requirements personnel.

NASA requirements personnel are responsible for conducting a technical evaluation of proposals to determine whether the supplies or services offered will meet specifications. In addition, when a cognizant contract administration office is not requested to perform the technical analysis portion of a field pricing report in accordance with FAR 15.805-5, the analysis will be the responsibility of NASA requirements personnel.

#### 18-15.805-5 Field pricing support.

(a) A field pricing report shall be requested and obtained in accordance with FAR 15.805-5(a)(1), except that for costreimbursement contracts, the threshold for obtaining a field pricing report is \$1,000,000. A field pricing report is a technical report (prepared by either the cognizant DCMC ACO or NASA requirements person, except see 18-15.805-5(e)) and an audit report by the cognizant contract audit activity.

(b) Whenever a field pricing report is required and a technical report or audit report is not obtained because available data reconsidered adequate for a determination of price reasonableness, the contracting officer shall document the contract file with the basis of the decision.

(c) When the contracting officer requires an audit report by the auditor but has determined that a technical report by the cognizant ACO is not required, the contracting officer should address the request directly to the cognizant audit office. The ACO shall be provided an information copy of this request.

(d) When input from the ACO or auditor involves merely a verification of information, contracting officers are encouraged to obtain this verification by direct telephone contact with the cognizant office and shall record it in the contract file.

(e) When the thresholds at 18-15.805-5(a) are met and the cost proposal is for a product of a follow-on nature, notwithstanding any other provision of subsection 18-15.505-5, a complete field pricing report shall be requested from the cognizant contract administration office. The report will include, but not be limited to, actuals incurred under the previous contract, learning experience, technical and production analysis, and subcontract proposal analysis.

#### 18-15.807 Prenegotiation objectives.

Before conducting negotiations requiring installation or Headquarters review,

contracting officers or their representatives shall prepare a prenegotiation position memorandum setting forth the technical, business, contractual, pricing, and other aspects to be negotiated.

### 18-15.807-70 Content of the prenegotiation position memorandum.

The prenegotiation position memorandum (PPM) should fully explain the contractor and Government positions. Since the PPM will ultimately become the basis for negotiation, it should be structured to track to the price negotiation memorandum (see FAR 15.808 and 18-15.808). In addition to the information described in FAR 15.807 and, as appropriate, 15.808(a), the PPM should address the following subjects, as applicable, in the order presented:

Include a description (a) Introduction. and a history of the procurement and a history of prior procurements for the same or similar items. Address the extent of competition and its results. Identify the contractor and place of performance (if not evident from the description of the procurement). Document compliance with law, regulations and policy, including JOFOC, synopsis, method of contracting D&F, EEO compliance, and current status of contractor systems (see FAR 15.808(a)(4)). In addition, the negotiation schedule should be addressed and the Government negotiating team members identified by name and position.

(b) **Type of contract contemplated.** Explain the type of contract contemplated and the reasons for its suitability.

(c) Special features and requirements. In this area, discuss any special features (and related cost impact) of the procurement, including such items as--

(1) Letter contract or precontract costs authorized and incurred;

- (2) Results of preaward survey;
- (3) Contract option requirements;

(4) Government property to be furnished;

(5) Contractor/Government investment in facilities and equipment (and any modernization to be provided by the contractor/Government);

(6) Plant reconversion or plant clearance (see 18-45.106-71); and

(7) Any deviations, special clauses, or unusual conditions anticipated, for example, unusual financing, warranties, EPA clauses and when approvals were obtained, if required.

(d) Cost analysis. (1) Include a parallel tabulation, by element of cost and profit/fee, of the contractor's proposal, the Government's negotiation objective, and the Government's maximum position, if applicable. For each element of cost, compare the contractor's proposal and each Government position, explain the differences and how the Government position(s) were developed, including the estimating assumptions and projection techniques employed, and how the positions differ in approach. Include a discussion of excessive wages found (if applicable) and their planned resolution (see 18-31.205-670). Explain how historical costs, including costs incurred under a letter contract (if applicable), were used in developing the negotiation objective.

Significant differences between (2)the field pricing report (including any audit reports) and the negotiation objectives and/or contractor's proposal shall be highlighted and explained, as shall technical evaluation results that caused the Government's cost negotiation objectives to differ significantly from the contractor's proposed cost (such as differences in staffing). For each proposed subcontract meeting the requirement of FAR 15.806-2(a), there shall be a discussion of the price and, when appropriate, cost analyses performed by the contracting officer, including the negotiation objective for each such subcontract. The discussion of each major subcontract shall include the type of subcontract, the degree of competition

achieved by the prime contractor, the price and, when appropriate, cost analyses performed on the subcontractor's proposal by the prime contractor, any unusual or special pricing or finance arrangements, and the current status of subcontract

negotiations. (3) The rationale for the Government's profit/fee objectives and, if appropriate, a completed copy of the NASA Form 634, Structured Approach--Profit/Fee Objective, and DD Form 1861, Contract Facilities Capital Cost of Money, should be included. For incentive and award fee contracts, describe the planned arrangement in terms of share lines, ceilings, cost risk, and so forth, as applicable.

(c) Negotiation approval sought. Indicate the specific approvals sought, for example, dollar parameters, special clauses/conditions and fee objectives.

### 18-15.807-71 Installation reviews.

Each contracting activity shall establish a formal system for the prenegotiation review

of any proposal over \$250,000 (\$100,000 at Stennis Space Center, Jet Propulsion Laboratory, Space Station Procurement Office, and Headquarters Acquisition Division). The scope of coverage, exact procedures to be followed, levels of management review, and contract file documentation requirements should be directly related to the dollar value and complexity of the procurement. The primary purpose of these reviews is to ensure that the negotiator, or negotiating team, is thoroughly prepared to enter into negotiations with a well-conceived, realistic, and fair plan.

#### 18-15.807-72 Headquarters reviews.

Approval of the prenegotiation position by the Associate Administrator for Procurement is required before negotiations are entered into on any procurement action selected for Headquarters review. Generally, at the

(The next page is 15-8:5.)

### PRICE NEGOTIATION

time a procurement is processed as a Master Buy Plan (MBP) action under Subpart 18-7.71, a decision will have whether the been made as to prenegotiation position will be subject to Headquarters review and approval. However, prenegotiation positions on any procurement actions may be selected for Headquarters review and approval at any point in the acquisition cycle prior to actual negotiations.

Scheduling of presentation. When a (a) prenegotiation presentation is required by Headquarters or requested by the installation concerned, scheduling of the presentation will be arranged by the Office of Procurement, Competition and Program Operations Division (Code HS), in appropriate with consultation officials. The Headquarters program shall notify Code HS installation sufficiently in advance of the desired presentation to permit scheduling and preparation by Headquarters staff.

(b) Advance information. Not less than ten working days in advance of the scheduled prenegotiation presentation, the installation shall provide Code HS with the following:

(1) Five copies of the PPM.

(2) Five copies of any briefing charts and/or viewgraphs to be used in the presentation. Briefing charts and/or viewgraphs shall summarize key points/factors identified in the PPM and should be grouped in the same manner as presented in the PPM.

(3) One copy each of the contractor's proposal, the Government technical evaluation, and all pricing reports (including any audit reports).

(c) Waiver. The Assistant Administrator for Procurement may waive the presentation requirement if, on the basis of Headquarters review of the advance information provided under subparagraph (b)(2) of this section, it is clear that installation personnel are thoroughly prepared to enter into negotiations.

Safeguarding prenegotiation mate-(d) data are very Prenegotiation rial. should handled and be sensitive coordination with accordingly. Close Code HS personnel should be maintained to ensure that prenegotiation material is compromised during transit. not Distribution of prenegotiation data shall be made on a need-to-know basis.

#### 18-15.808 Price negotiation memorandum.

(a) The price negotiation memorandum (PNM) serves as a detailed summary of (1) the technical, business, contractual, pricing (including price reasonableness), and other elements of the contract negotiated, and (2) the methodology and rationale used in arriving at the final negotiated agreement.

(b) When the PNM is a "stand-alone" shall contain the it document. information required by the FAR and NFS for both PPM's and PNM's. However, when a PPM has been prepared under 18-15.807, the subsequent PNM need only provide any information required by FAR 15.808 that was not provided in the PPM. The FAR 15.808(a)(4) requirement. that the of the contractor's status current systems be included, must be addressed in the PNM. If any of these systems do not apply to a particular procurement, the reasons for not including their status must be explained. Also, explain the differences between the prenegotiation final and the objective position including each settlement, negotiated proposed subcontract that meets the requirement of FAR 15.806-2(a). If, at the time of negotiated settlement for cost-reimbursement type prime contracts, remain significant pricing there any respect to uncertainties with proposed subcontract that meets the requirement of FAR 15.806-2(a), each such

### CONTRACTING BY NEGOTIATION

subcontract shall be discussed in the PNM, identified in the contract Schedule for special surveillance, and set aside for subcontract consent by the NASA contracting officer in accordance with FAR 44.2 and NFS 18-44.102-70.

18-15.870 Subcontract price redetermination.

18-15.870-1 General.

(a) When subcontracts have been placed on a price-redetermination or fixedprice-incentive basis and the prime contract fixed-price is а type redeterminable contract as described in FAR 16.205, 16.206 and 16.403-2 which is be finally priced, it may be appropriate to negotiate a firm prime even contract price, though the contractor has not yet established final subcontract prices. The contracting officer may do this when convinced that the amount included for subcontracting is reasonable, for example, when realistic cost or pricing data on subcontract efforts are available.

(b) However, even though the available cost data are highly indefinite and there is a distinct chance that one or more of the subcontracts eventually may be redetermined at prices lower than those predicted in redetermining the prime contract price, other circumstances may require prompt negotiation of the final contract price. In such a case, the contract modification evidencing the revised contract price shall provide for adjustment of the total amount paid or to be paid under the contract on account of subsequent redetermination of the specified subcontracts. This may be done by including in the contract modification the clause prescribed at 18-15.870-2.

## 18-15.870-2 NASA contract clause.

The contracting officer shall insert the clause at 18-52.215-71, Adjustment for Subcontract Price Redetermination, in contract modifications that reflect a repricing of the prime contract, but provide for future adjustment of the repriced contract upon subsequent redetermination of specified subcontract(s).

### 18-15.871 Reserved.

# 18-15.872 Tracking and resolution of expenditure and system audit findings.

(a) This section implements OMB Circular No. A-50, NASA Management Instruction (NMI) 9970.1, Audit Follow-up, and NASA Handbook 9970.2, NASA Audit Follow-up Handbook, provide more detailed guidance. Expenditure and system audit recommendations shall be resolved by formal review and approval procedures analogous to those at 18-15.807-71.

(b) On expenditure or system audits where a major disagreement exists between the contracting officer and the auditor that, in the opinion of the procurement officer. (1) represents a significant dollar amount, (2) contravenes a DCAA Headquarters position or policy, or (3) requires NASA Headquarters involvement for any reason, the planned resolution will be coordinated with NASA Headquarters, Code HC, before final action.

(c) (1) The contract audit follow-up system tracks all expenditure and system audits when NASA has cognizant resolution and disposition authority. Included are estimating system surveys; accounting system reviews: defective pricing reviews; cost accounting standards (CAS) noncompliance issues (including CAS disclosure statements if they contain noncompliance issues); internal control

### PRICE NEGOTIATION

reviews; operations audits; and reports on incurred costs, settlement of final final pricing indirect cost rates, termination settlement submissions. proposals, equitable adjustment claims, hardship claims, and escalation claims. Preaward audit reports involving the placement of contracts or contract modifications shall not be included in the tracking system.

(2) All audit reports involving categories auestioned costs in the specified in subparagraph (c)(1) of this section shall be reported semiannually to Code HC except those reports covering settlement of final incurred costs. indirect cost rates. final pricing submissions, termination settlement proposals, equitable adjustment claims, hardship claims, and escalation claims. These reports are reportable only if questioned and/or qualified costs equal \$100,000 or more.

(3) The objective of the tracking that ensure audit system is to resolved recommendations are as expeditiously as possible, but at a maximum, within 6 months of the date of the audit report.

(d) Identification and tracking of expenditure and system audit reports under NASA cognizance are accomplished in cooperation with DCAA by means of the DCAA form, Contract Audit Follow-up Summary Sheet. The original form is attached by DCAA to the original audit report and sent to the contracting officer having negotiation or resolution responsibility. A copy of the form is sent by DCAA to NASA Headquarters (Code HC). The summary sheet identifies the total costs questioned, considered avoidable, and/or unsupported/qualified. The form also identifies the responsible contracting officer.

-----. 18-15.902 Policy.

As authorized by FAR 15.902, NASA has established a structured approach for determining profit or fee objectives. This approach, described in 18-15.970, is profit-analysis factors based on the appearing in FAR 15.905 and shall be used to determine profit or fee objectives for conducting negotiations in those acquisitions that require cost analysis, except in the case of --

(a) Architect-engineer contracts;

(b) Management contracts for operation and/or maintenance of Government facilities;

(c) Construction contracts;

(d) Contracts primarily requiring delivery of material supplied by subcontractors;

(e) Termination settlements;

(f) Cost-plus-award-fee contracts (however, contracting officers may find it advantageous to perform a structured profit analysis as an aid in arriving at an appropriate fee arrangement); and

(g) Contracts having unusual pricing situations when the structured approach is determined unsuitable and the exemption is (1) justified in writing, and (2) authorized by the procurement officer.

18-15.903 Contracting officer responsibilities.

#### 18-15.903-70 Contracting officer authority for negotiating architectengineer fees.

It is NASA policy that if a contract involving architect-engineer services covers any services other than the production and delivery of designs, plans, drawings, and specifications, the part of the contract price for these other services is not subject to the 6 percent fee limitation set forth in FAR 15.903(d)(1).

## 18-15.970 NASA structured approach for profit or fee objective.

The factors in 18-15.970-1 through (a) 18-15.970-3 shall be considered in all cases in which profit is to be specifically negotiated. The weight ranges listed after each category and factor on NASA Form 634, Structured Approach Profit/Fee Objective, shall be used whenever the structured approach is used.

(b) The contracting officer shall first measure Contractor Effort by assigning a profit percentage in column 1.(c), within the designated weight ranges, to each element of contract cost recognized by the contracting officer. The amount calculated for the cost of money for facilities capital is not to be included as part of the cost base in column 1.(a) in the computation of profit.

(c) The suggested cost categories under Contractor Effort are for reference purposes only. The format of individual proposals will vary, but these broad and basic categories provide sample а for evaluation structure the of all categories of cost.

### CONTRACTING BY NEGOTIATION

(d) After computing a total dollar profit in line 1.A for Contractor Effort, the contracting officer shall calculate the specific profit dollars for cost risk, investment. performance. subcontract program management, socioeconomic programs, and special situations. (Inventive and developmental contributions, unusual pricing agreements and additional factors shall be combined under special situations.)

(e) In making a judgment of the weight assigned to each cost category and factor, the contracting officer should be governed by the description and purpose of each category and factor and the considerations for evaluating them as set forth in 18-15.970-1, -2, and -3. The rationale supporting the assigned weights shall be documented in the PPM in accordance with 18-15.807-70(d)(3).

(f) (1) The structured approach was designed for arriving at profit or fee objectives for commercial organizations. However, as modified in accordance with paragraph (2) of this section, the structured approach shall be used as a basis for arriving at fee objectives for nonprofit organizations (FAR Subpart 31.7), excluding educational institutions (FAR Subpart 31.3). It is NASA policy not to pay profit or fee on contracts with educational institutions.

(2) For contracts with nonprofit organizations under which fees are involved, an adjustment of up to 3 percent shall be subtracted from the total profit/fee objective. In developing this adjustment, it will be necessary to consider --

(i) Tax position benefits;

(ii) Granting of financing through letters of credit;

(iii) Facility requirements of the nonprofit organization; and

(iv) Other pertinent factors that may work to either the advantage or disadvantage of the contractor in its position as a nonprofit organization. The adjustments should not be applied as deductions against historical fee levels, but rather to the fee objective as calculated under the structured approach.

### 18-15.970-1 Contractor effort.

This factor takes into account what resources are necessary and what the contractor must do to meet the contract performance requirements. Evaluation of this factor requires analyzing the cost content of the proposed contract as follows:

(a) Material acquisition (subcontracted items, purchased parts, and other material).

(1) Consider the managerial and technical efforts necessary for the prime contractor to select subcontractors and administer subcontracts. including efforts to introduce and maintain competition. These evaluations shall be performed for purchases of raw materials basic commodities; purchases or of processed material, including all types components of standard of or nearstandard characteristics; and purchases of pieces. assemblies. subassemblies. and special tooling, other products special to the end item. In performing the evaluation, also consider whether the contractor's purchasing program makes a substantial contribution to the performance of a contract through the use of subcontracting programs involving many sources, new complex components and instrumentation. incomplete specifications, and close surveillance by the prime contractor.

(2) Recognized costs proposed as direct material costs, such as scrap charges, shall be treated as material for profit evaluation. If intracompany transfers are accepted at price in accordance with FAR 31.205-26(e), they shall be evaluated as material. Other

I

### PROFIT

intracompany transfers shall be evaluated by individual components of costs, i.e., material, labor, and overhead.

# (b) Direct labor (engineering, service, manufacturing, and other labor).

Analysis of the various items (1)of cost should include evaluation of the comparative quality and level of the engineering talents. service contract manufacturing skills, and labor. experience to be employed. In evaluating engineering labor for the purpose of assigning profit weights, consideration should be given to the amount of notable scientific talent or unusual or scarce engineering talent needed, in contrast to engineering effort journeyman or supporting personnel.

(2) Evaluate service contract labor in a like manner by assigning higher weights to engineering, professional, or highly technical skills and lower weights to semiprofessional or other skills required for contract performance.

Similarly, the variety of (3) other manufacturing and engineering, types of labor skills required and the manpower resources for contractor's meeting these requirements should be considered. For purposes of evaluation, subtypes of labor (for example, quality control, and receiving and inspection) proposed separately from engineering, service, or manufacturing labor should be included in the most appropriate labor However, the same evaluation type. considerations as outlined above will be applied.

(c) Overhead and general management (G&A). Analysis of individual items of cost within overhead and G&A includes the evaluation of the makeup of these expenses, how much they contribute to contract performance, and the degree of substantiation provided for rates proposed in future years. (1) The composite of the weights assigned to the individual elements of the overhead pools will be the profit consideration given the pools as a whole.

(2) The contracting officer, in an evaluation of the overhead rate of a contractor using a single indirect cost rate, should break out the applicable sections of the composite rate which could be classified as engineering overhead, manufacturing overhead, other overhead pools, and G&A expenses, and apply the appropriate weight.

(d) Other costs. Include all other direct costs associated with contractor performance under this item, for example, travel and relocation, direct support, and consultants. Analysis of these items of cost should include their nature and how much they contribute to contract performance.

### 18-15.970-2 Other factors.

(a) Cost risk. The degree of risk should assumed by the contractor influence the amount of profit or fee a contractor is entitled to anticipate. For example, if a portion of the risk has been shifted to the Government through cost-reimbursement or price redetermination provisions, unusual contingency provisions, or other risk reducing measures, the amount of profit fee should be less than for or arrangements under which the contractor assumes all the risk. This factor is one of the most important in arriving at prenegotiation profit objectives.

(1) Other risks on the part of the contractor, such as loss of reputation, losing a commercial market, or losing potential profits in other fields, shall not be considered in this factor. Similarly, any risk on the part of the contracting office, such as the risk of not acquiring an effective space vehicle, is not within the scope of this factor.

(2) The degree of cost responsibility assumed by the contractor is related to the share of total contract cost risk assumed by the contractor through the selection of contract type. The weight for risk by contract type would usually fall within the 0-to-3 percent range for cost-reimbursement contracts and 3-to-7 percent range for fixed-price contracts.

Within the (i) ranges set forth in paragraph (a)(2) of this section, a cost-plus-fixed-fee contract normally would not justify a reward for risk in excess of 0 percent, unless the contract contains cost risk features such as ceilings on overheads, etc. In such cases, up to 0.5 percent may be justified. Cost-plus-incentive-fee contracts fill the remaining portion of the range, with weightings directly related to such factors as confidence in target cost, share ratio of fees, etc.

(ii) The range for fixed-price type contracts is wide enough to accommodate the various types of fixedprice arrangements. Weighting should be indicative of the price risk assumed and the end item required, with only firmfixed-price contracts with requirements for prototypes or hardware reaching the top end of the range.

(3) The cost risk arising from contract type is not the only form of cost risk to consider.

(i) The contractor's subcontracting program may have a significant impact on the contractor's acceptance of risk under a particular contract type. This consideration should be a part of the contracting officer's overall evaluation in selecting a weight to apply for cost risk. It may be determined, for instance, that the prime contractor has effectively transferred real cost risk to a subcontractor, and the contract cost risk weight may, as a result, be below the range that would otherwise apply for the contract type

proposed. The contract cost risk weight | should not be lowered, however, merely on the basis that a substantial portion of the contract costs represents subcontracts unless those subcontract | costs represent a substantial transfer of the contractor's risk.

(ii) In making a contract cost risk evaluation in a procurement action that involves definitization of a letter contract, unpriced change orders, or unpriced orders under BOAs, consideration should be given to the effect on total contract cost risk as a result of having partial performance before definitization. Under some circumstances it may be reasoned that the total amount of cost risk has been effectively reduced. Under other circumstances it may be apparent that the contractor's cost risk is substantially То unchanged. be equitable, determination of profit а weight for application to the total of all recognized costs, both incurred and yet to be expended, must be made with consideration of all attendant circumstances and should not be based solely on the portion of costs incurred. or percentage of work completed, before definitization.

(b) Investment. NASA encourages its contractors to perform their contracts with a minimum of financial, facilities, or other assistance from the Government. As such, it is the purpose of this factor to encourage the contractor to acquire and use its own resources to the maximum extent possible. Evaluation of this factor should include an analysis of the contractor's facilities and the frequency of payments.

(1) To evaluate how facilities contribute to the profit objective requires knowledge of the level of facilities utilization needed for contract performance, the source and financing of the required facilities, and the overall cost effectiveness of the facilities offered. Contractors

#### PROFIT

own facilities furnishing their that significantly contribute to lower total provided contract costs should be additional profit. On the other hand, contractors that rely on the Government to provide or finance needed facilities should receive a correspondingly lower profit. Cases between the above examples should be evaluated on their merits, with either a positive or negative adjustment, as appropriate, in the profit objective. where a highly facilitized However, contractor is to perform a contract that does not benefit from this facilitization, or when a contractor's use of its facilities has a minimum cost impact on profit need not be the contract. ad justed.

(2) In analyzing payments, consider the frequency of payments by the Government to the contractor and unusual payments, for example, advance payments or milestone payments. The key to this weighting is proper consideration of the impact the contract will have on the contractor's cash flow. Generally, negative consideration should be given for payments more frequent than monthly, with maximum reduction being given as the contractor's working capital approaches zero. Positive consideration should be given for payments less frequent than monthly.

(c) Performance. The contractor's past present performance should be and such areas evaluated in as product quality, meeting performance schedules, efficiency in cost control (including the need for and reasonableness of costs incurred), accuracy and reliability of previous cost estimates, degree of by the contractor (both cooperation business and technical), timely processing of changes and compliance with other contractual provisions.

Subcontract program management. (d) Subcontract program management includes evaluation of the contractor's commitment to its competition program and its past and present performance in competition in а contractor subcontracting. If has excellent consistently achieved results in these areas in comparison with other similar circumstances, contractors in such performance merits a proportionately greater opportunity for profit or fee. Conversely, a poor record in this regard should result in a lower profit or fee.

Federal socioeconomic programs. In (e) addition to rewarding contractors for unusual initiative in supporting Government socioeconomic programs, failure or unwillingness on the part of the contractor to support these programs should be viewed as evidence of poor purpose performance for the of establishing this profit objective factor.

### (f) Special situations.

(1) Unusual pricing agreements. Occasionally, unusual contract pricing arrangements are made with the contractor under which it agrees to accept a lower fee profit or for changes or modifications within a prescribed dollar value In such circumstances. the contractor should receive favorable consideration in developing the profit objective.

This factor need not be limited (2) to situations that increase profit/fee levels. A negative consideration may be appropriate when the contractor is expected to obtain spin off benefits as a result the contract. direct of for products commercial example. with application.

## CONTRACTING BY NEGOTIATION

## 18-15.970-3 Facilities capital cost of money.

facilities (a) When capital cost of money (CAS 414, cost of money as an element of the cost of facilities capital) is included as an item of cost in the contractor's proposal, it shall not be included in the cost base for the purpose of calculating profit/fee (see 18-15.970(b)). In addition, a reduction in the profit objective shall be made in an amount equal to the amount of facilities capital cost of money allowed in accordance with FAR 31.205-10(a)(2).

(b) Facilities capital cost of money shall be calculated using the format of DD Form 1861, Contract Facilities Capital Cost of Money. Overhead pools, for example, engineering, manufacturing, and G&A, are listed by year in the first column of the DD Form 1861 labeled POOL. The allocation base figure for each overhead pool objective is listed by year in the second column. Each allocation base is then multiplied by the recommended facilities capital cost of money factor for that base. The total facilities capital cost of money amounts appearing in the last column labeled

AMOUNT are totaled in the space provided in the line labeled TOTAL. This total represents the estimated facilities capital cost of money amount for the contract and is the figure to be used to calculate the prenegotiation position memorandum objective cost and to reduce the profit objective in accordance with 18-15.970-3(1). The lines labeled TREASURY RATE and **FACILITIES** CAPITAL **EMPLOYED** (TOTAL DIVIDED BY TREASURY RATE) and 7 Section of the form labeled DISTRIBUTION OF FACILITIES CAPITAL EMPLOYED do not apply to NASA and should be ignored.

(c) If a contractor proposes CAS 417, cost of money as an element of the cost of capital assets under construction, as a separate cost element, a reduction in the profit objective shall be made similar to that made for CAS 414, facilities capital cost of money.

# 18-15.971 Payment of profit or fee under letter contracts.

NASA's policy is to pay profit or fee only on definitized contracts.

### SUBPART 18-15.10 PREAWARD, AWARD, AND POSTAWARD NOTIFICATIONS, PROTESTS, AND MISTAKES

## 18-15.1002 Notification to successful offeror.

The reference to notice of award in FAR 15.1002 on negotiated procurements is a generic one. It relates only to the formal establishment of a contractual document obligating both the Government and the offeror. The notice is effected by the transmittal of a fully approved and executed definitive contract document, such as the award portion of SF 33, SF 26, or SF 1447, or a letter contract when a definitized contract instrument is not available but the urgency of the requirement necessitates immediate performance. In this latter instance, the procedures in NFS 18-16.603 for approval and issuance of letter contracts shall be followed.

## 18-15.1003 Debriefing of unsuccessful offerors.

#### 18-15.1003-1 Scope of Subpart.

This subpart sets forth NASA policy and procedures for debriefing unsuccessful offerors in all competitive negotiated procurements. (See also, paragraph 504 of 18-70.103, App. I, for debriefing procedures applicable to Announcements of Opportunity.)

#### 18-15.1003-2 Policy.

(a) NASA shall debrief an unsuccessful competitor in accordance with FAR 15.1003. It is essential that debriefings be conducted in a scrupulously fair, objective, and impartial manner, and that the information given the proposer be absolutely factual and consistent with-- (1) The findings of the Source Evaluation Board (SEB) and the basis on which the Selection Official made the decision; or

(2) The findings of the technical and contracting officers and the basis on which the contracting officer made the decision if SEB procedures were not employed.

(b) Unless authorized by the Associate Administrator for Procurement, the Source Selection Statement for alternative system design concepts under the Major System Acquisitions process is not to be released to competing offerors or the general public until the release of the Source Selection Statements for full-scale development.

#### 18-15.1003-3 Designated Officials.

Debriefings are to be conducted by senior NASA officials. When the selection has been made by the Administrator, the Administrator will designate an official familiar with the rationale for the selection conduct the debriefings. with to participation by cognizant field installation personnel, if deemed necessary. When the selection has been made by the Field Installation Director or a Headquarters Staff or Program Office head, the Center Director or Official-in-Charge of the Headquarters office shall designate an official and necessar30 staff to perform the debriefing. When SEB procedures were not applied, the installation Procurement Officer, or designee, shall perform the debriefing.

#### 18-15.1003-4 Procedures.

(a) The recipient of a written or oral debriefing request shall immediately refer the request to the installation procurement officer.

(b) The procurement officer, upon receipt of a debriefing request, shall inform the designated official and other concerned officials at the installation and, in the case of procurement actions where an Associate Administrator or the Administrator was the Selection Official, the cognizant NASA Headquarters personnel.

(c) (1)If an unsuccessful offeror in a negotiated procurement submits, prior to the award of the contract, a written request for a debriefing, such a debriefing will be provided at the earliest feasible time. Except as provided in paragraph (c)(2) of this section, debriefings shall be conducted after announcement of the selection decision and prior to award of the contract. ("Selection decision" means the final selection of the one successful contractor. or the contractors where more than one contract is to be awarded). If the selection decision involves more than one contractor

pursuant to the Major System Acquisition process, the debriefing will be limited in such a manner that it does not prematurely disclose innovative concepts, designs, and approaches of the successful contractor(s) that would result in a transfusion of ideas which also could inhibit contractors during the early phase from offering their best and most promising ideas for meeting the mission need.

(2) When the exigency of the situation will not permit delaying the award in order to debrief unsuccessful offerors, such debriefings may be conducted after award.

(d) A summary of the results of each debriefing, signed by the conducting NASA official, shall be placed in the contract file.

NFSD 89-14 (March 31, 1994)

PART 18-16 TYPES OF CONTRACTS

### SUBPART 18-16.2 FIXED-PRICE CONTRACTS

#### 18-16.202 Firm-fixed-price contracts.

#### 18-16.202-70 NASA contract clause.

The contracting officer shall insert the clause at 18-52.216-78, Firm-Fixed-Price, in firm-fixed-price solicitations and contracts. Insert the appropriate amount in the resulting contract.

18-16.203 Fixed-price contracts with economic price adjustment.

#### 18-16.203-4 Contract clauses.

(a) In addition to the approval requirements in the prescriptions at FAR 52.216-2, -3 and -4, the contracting officer shall coordinate with the installation's Financial Management Officer before exceeding the ten-percent limit in paragraph (c)(1) of the clauses at FAR 52.216-2, -3, and -4.

(b) This paragraph (b) applies to adjustments based on cost indexes of labor or material.

 (1) All price adjustment clauses using cost indexes require advance approval by
 the Associate Administrator for Procurement. Requests for approval shall be submitted to the Office of Procurement, NASA Headquarters (Code HC).

(2) The factors in paragraphs (b)(2)(i) through (x) of this section should be considered in preparing any price adjustment clause in situations meeting the criteria of FAR 16.203-4(d): (i) The clause should not be overly complex.

(ii) The clause shall provide for a ceiling for adjustment if a floor is included in the clause.

(iii) The clause shall cover only those elements of cost that are subject to unpredictable economic fluctuation.

(iv) (A) The clause must positively and accurately identify the index(es) upon which adjustments will be based and must provide an alternative in the event publication of the designated index is discontinued. The alternative might include the substitution of another index, if the time remaining would justify it and an appropriate index is reasonably available, or some other method for repricing the remaining portion of the work.

(B) There should normally be no need to make an adjustment if computation of the identified index is altered; however, provision may be made to adjust the economic fluctuation computations if the method of computing the index is so substantially altered as to negate the original intent of the parties. When an index to be used is subject to revision (e.g., the Bureau of Labor Statistics Producer Price Indexes), the price adjustment clause shall further specify that any adjustment shall be based upon the applicable revised index.

(v) An index should be structured to encompass a large sample of relevant items, yet bear a logical relationship to the type of contract costs measured. The basis of the index should not be so large and diverse that it is significantly affected by fluctuations not relevant to contract performance. However, it must be broad enough to ensure that the effect created by any single company, including the anticipated contractor, is minimal.

(vi) The clause must establish and properly identify a contract cost base against which an index, established in the contract, will be applied.

## TYPES OF CONTRACTS

(vii) The clause should provide for definite times or events for price adjustments from the point when economic uncertainty commences. It should not provide for adjustment beyond the original contract performance period. Adjustments should be frequent enough to afford the contractor appropriate economic relief without creating burdensome administrative effort. The adjustment frequency should normally range from six to twelve months.

(viii) The expenditure profile for both labor and material should be based on a predetermined rate of expenditure (expressed as the percentage of material or labor use as related to total contract price) in lieu of actual cost incurred. If the clause is to be used in a competitive procurement, the labor and material allocations, with regard to both mix and percentage rate of expenditure, shall be determined by the contracting officer in 8 manner approximating, as nearly as possible, the average-expenditure profile of all companies likely to make offers. If the clause is to be used in a noncompetitive procurement, the labor and material allocations determined by the contracting officer may be subject to negotiation and agreement.

(ix) (A) The clause should state the percentage of the contract price or the amount subject to adjustment. Adjustments shall not be applied to profit.

(B) Additionally, the labor and material portions of the contract must be examined to exclude areas not requiring adjustment. It may not be necessary, for example, to include subcontracting, allbecause some subcontract efforts could be completed during the early life of the contract and/or be firm-fixed-price. Certain areas of overhead should be excluded from escalation protection; e.g., depreciation charges, prepaid insurance costs, rental costs, leases, certain taxes, and utility charges. Economic fluctuation protection | should not apply to that portion of labor for the period for which a definitive union agreement exists or for which Department of Labor wage determinations are known.

(C) That portion of the contract determined to be proper for economic fluctuation protection shall then be allocated to specific time periods (e.g., semiannually) on the basis of the expenditure profile.

(x) The economic price adjustment clause should provide that once the labor and material allocations have been established, they remain fixed through the life of the contract. Subsequent modifications which affect contract price are generally not subject to economic price adjustment. If the contracting officer determines that such an action should be subject to economic price adjustment, a new economic price adjustment clause should be incorporated into the contract. Such a clause would require prior approvals in accordance with 18-16.203-4(b)(1).

(c) When economic price adjustment | clauses are included in contracts that do not require submission of cost or pricing data (see FAR 15.804-2 and -3), the contracting officer shall obtain adequate information to establish the contract cost base from which adjustments will be made. In addition, the contracting officer may require verification of this information to the extent necessary to permit reliance upon it as reasonable.

(d) The contracting officer shall insert the provision at 18-52.216-72, Evaluation of Offers Subject to Economic Price Adjustment, in all negotiated, fixedprice solicitations that contain an economic price adjustment clause.

#### FIXED-PRICE CONTRACTS

18-16.207 Firm-fixed-price, level-ofeffort term contracts.

#### 18-16.207-70 NASA contract clause.

(a) The contracting officer shall insert a clause substantially as stated at 18-52.216-79, Level-of-Effort (Fixed-Price), in fixed-price term solicitations and contracts. Insert the minimum direct labor hours, the labor categories and associated direct labor hours, and a formula or rate(s) (dollar amount(s)) by | which the fixed price may be reduced if the minimum direct labor hours have not been provided. The labor category information may be simplified (e.g., "engineering" or "drafting") for smaller, less complex procurements.

(b) For task ordering procedures for firm-fixed-price, level-of-effort term contracts, see 18-16.307-70(d).

## SUBPART 18-16.3 COST-REIMBURSEMENT CONTRACTS

18-16.301 General.

18-16.301-3 Limitations.

The determination and findings required by FAR 16.301-3 and 16.403(c) may be signed by the contracting officer for individual purchases and contracts. The format shown below shall be used.

### NATIONAL AERONAUTICS AND SPACE ADMINISTRATION DETERMINATION AND FINDINGS

### Authority to Use a (a) Contract

Upon the basis of the following findings and determination, which I make under the authority of 10 U.S.C. 2306(c), the contract described below may be entered into on a \_\_\_\_\_\_ basis.

#### FINDINGS

1. The \_\_\_\_\_\_ proposes to enter into a \_\_\_\_\_\_ contract for the acquisition of \_\_\_\_\_\_. The cost of this work is estimated at \$\_\_\_\_\_.

2. The work to be performed is \_\_\_\_\_.

### DETERMINATION

(This contract type is likely to be less costly than any other type.) (It is impractical to obtain supplies or services of the kind or quality required without the use of this contract type.) (e)

Date: \_\_\_\_\_

1

**NOTES--**The contracting officer shall insert, where shown, the following information:

- (a) Specific type of contract contemplated.
- (b) Installation name.
- (c) Brief description of supplies or services.
- (d) Description of the nature of the proposed work and related specific facts that show why the contemplated contract type is the best alternative for this particular acquisition.
- (e) The appropriate sentence or, when both apply, insert both connected by "and."

#### 18-16.303 Cost-sharing contracts.

(a) When cost sharing is applicable.

(1) Except as provided for in paragraph (b) of this section, cost sharing by non-Federal organizations is mandatory in any contract for basic or applied research resulting from an unsolicited proposal.

(2) (i) Cost sharing by non-Federal organizations may be accepted in any contract when offered by a performing organization.

(ii) Cost sharing by educational institutions may be accepted, when voluntarily offered, if the institution is aware of NASA's policy that the amount of cost sharing is not a factor in determining whether to support a given proposal.

(b) When cost sharing is not applicable.

(1) Cost sharing is not applicable to contracts for basic or applied research resulting from an unsolicited proposal when (i) the offeror certifies

ł

ł

## TYPES OF CONTRACTS

in writing to the contracting officer that it has no commercial, production. educational, or service activities on which to use the results of the research, and no means of recovering any cost sharing on such projects, and (ii) the contracting officer determines that cost sharing does not apply and documents the file with a memorandum. In these situations, where there is no measurable potential gain to the performing organization, mutuality of interest does not exist and it would not be equitable for the Government to require cost sharing.

(2) (i) NASA's normal policy is fully reimburse universities to for research performed on its behalf However, to establish on a case-by-case basis that there is no clear potential for significant future benefit or measurable gain to the university, and that cost sharing is not appropriate, the contracting officer shall document the file with a determination substantively the same as that required by 18-16.303(b)(1) of this section. The determination shall identify the information on which it is based. If the determination cannot reasonably be made from the available information. the officer shall request contracting the certify university to as in 18-16.303(b)(1) of this section. Blanket procedures shall not be established for routinely obtaining certifications from all universities.

(ii) NASA does not request inclusion of cost-sharing information in proposals from educational institutions. If cost sharing is determined applicable, a cost-sharing offer will be requested during negotiations.

(c) Amount of cost sharing.

 (1) Educational institutions and affiliated not-for-profit institutions.
 | Cost sharing, if used for educational institutions and affiliated not-forprofit institutions, normally varies from one percent to as much as five percent of the project's cost.

L

(2) Other performing organizations.

(i) Cost sharing for organizations other than those in paragraph (1) of this section may be any percentage of the research cost. Mutuality of interest in the results of the work being performed is of primary significance in assessing the appropriateness of any particular level of cost sharing.

(ii) Factors that should be considered in determining mutuality of interest include --

(A) The potential of the contractor to recover its contribution from non-Federal sources;

(B) The extent to which the particular area of research requires special stimulus in the national interest; and

(C) The extent to which a research effort or result is likely to enhance the contractor's capability, expertise, or competitive position.

(d) Implementation.

(1) Payment of fee or profit. No fee or profit may be paid to a costsharing contractor, and only an agreed-to portion of allowable costs shall be reimbursed.

(2) Method of cost sharing. Cost sharing shall be accomplished by a contribution of part or all of one or more elements of the allowable cost of the work being performed. It normally shall be expressed as a stated minimum percentage of the total allowable costs of the project. Costs so contributed may not be charged to the Government under any other grant or contract (including allocation to other grants or contracts as part of an independent research and development program).

(3) **Documentation.** Contract files shall contain appropriate documentation of the reasons for cost sharing and

#### COST-REIMBURSEMENT CONTRACTS

| support for the amount or percentage of cost sharing agreed upon. For educational institutions, the reasons for any cost sharing exceeding (i) five percent or (ii) the amount originally offered shall be documented.

#### 18-16.307 Contract clauses.

solicitations (a) In and contracts containing the clause at FAR 52.216-8, Fixed Fee, or FAR 52.216-10, Incentive Schedule shall include Fee. the appropriate terms, if any, for provisional billing against fee.

- (b) In paragraph (h)(2)(ii)(B) of the Allowable Cost and Payment clause at FAR 52.216-7, the period of years may be increased to correspond with anv statutory period of limitation applicable to claims of third parties against the contractor: provided, that а corresponding increase is made in the period for retention of records required in paragraph (d) of the clause at FAR 52.215-1, Examination of Records by Comptroller General.
- of (c) In paragraph (g)(2)(ii)the Allowable Cost and Payment--Facilities clause at FAR 52.216-13, the period of years may be increased to correspond with statutory period of limitation anv applicable to claims of third parties against the contractor; provided, that a corresponding increase is made in the period for retention of records required in paragraph (d) of the clause at FAR 52.215-1, Examination of Records by Comptroller General.

#### 18-16.307-70 NASA contract clauses.

(a) The contracting officer shall insert the clause at 18-52.216-73, Estimated Cost and Cost Sharing, in each contract in which costs are shared by the contractor pursuant to 18-16.303. (b) The contracting officer shall insert the clause, or one substantially like the clause, at 18-52.216-74, Estimated Cost and Fixed Fee, in cost-plus-fixed-fee contracts.

(c) The contracting officer may insert the clause at 18-52.216-75, Payment of Fixed Fee, in cost-plus-fixed-fee contracts. Modifications to the clause are authorized.

(d) (1) The contracting officer may insert a clause substantially as stated at 18-52.216-80, Task Ordering Procedure, in level-of-effort term solicitations and contracts where (i) the statement of work is general in nature and (ii) task orders are needed to further define and clarify the effort required. This clause is applicable to both fixed-price and costreimbursement type term contracts.

(2) The contracting officer may issue task orders which tailor the list of information which the contractor is directed to provide in paragraph (b)(2) of the clause at 18-52.216-80.

(e) The contracting officer shall insert | the clause at 18-52.216-81, Estimated Cost, in cost-no-fee contracts that are not cost sharing or facilities contracts.

The contracting officer shall (f) (1)insert a clause substantially as stated 18-52.216-82. Level-of-Effort (Cost). at in term cost reimbursement type solicitations and contracts. Insert the information the blanks required in provided.

(2) Prior to reducing the contract fee in accordance with paragraph (d) of clause 18-52.216-82, the contracting officer shall analyze the information, if any, provided by the contractor. The analysis and its bearing on the amount of the reduction shall be documented in the contract file.

(g) The contracting officer may insert a l clause substantially as stated at

## TYPES OF CONTRACTS

18-52.216-87, Submission of Vouchers for Payment, in cost-reimbursement solicitations and contracts.

### 18-16.370 Forms.

Contractors shall use NASA Form 778, Contractor's Release; NASA Form 779, Assignee's Release; NASA Form 780, Contractor's Assignment of Refunds, Rebates, Credits, and Other Amounts, to fulfill the assignment and release requirements of the clauses prescribed at FAR 16.307(a) and (g) (i.e., the clauses at FAR 52.216-7, Allowable Cost and Payment, and 52.216-13, Allowable Cost and Payment--Facilities). Computergenerated forms may be accepted provided they comply with FAR clause 52.253-1.

.

#### SUBPART 18-16.4 INCENTIVE CONTRACTS

### 18-16.403 Fixed-price incentive contracts.

A determination and findings is required by FAR 16.403(c) for fixed price incentive contracts. It shall be executed in accordance with 18-16.301-3.

18-16.404 Cost-reimbursement incentive contracts.

18-16.404-2 Cost-plus-award-fee (CPAF) contracts.

18-16.404-270 Approval of CPAF contracts.

(a) Use of a cost-plus-award-fee (CPAF) contract shall be approved in writing by the procurement officer. The procurement officer's approval shall include a discussion of the other types of contracts considered and shall indicate why a CPAF contract is the appropriate choice.

(b) Normally, CPAF contracts are only used on contracts with a total estimated cost and fee greater than \$1 million per year. The procurement officer may authorize use of a CPAF contract for lower-valued acquisitions, but should do so only in exceptional situations, such as contract requirements having direct health or safety impacts, where the judgmental assessment of the quality of contractor performance is critical.

### 18-16.404-271 Base fee.

(a) A base fee shall not be used on CPAF service contracts for which the periodic award fee evaluations are final (18-16.404-273(a)). Base fee normally shall not be used in other contracts, such as study, design, or hardware. However, the procurement officer may authorize the use of a base fee for these contracts by making a written determination that such use is in the best interest of the Government. In such cases, a base fee of no more than 3 percent of the estimated contract cost may be included in the contract.

(b) When a base fee is authorized for use in a CPAF contract, it shall be paid only if the final award fee evaluation is "satisfactory" or better. (See 18-16.404-273 and 18-16.404-275 for information on final evaluations and evaluation rating categories, respectively.) Pending final evaluation, the base fee may be paid during the life of the contract at defined intervals on a provisional basis. If the final award fee evaluation is "poor/unsatisfactory," all provisional base fee payments shall be refunded to the Government.

# 18-16.404-272 Award fee evaluation periods.

(a) Award fee evaluation periods should be at least 6 months in length. When appropriate, the procurement officer may authorize shorter evaluation periods after ensuring that the additional administrative costs associated with the shorter periods are balanced by benefits accruing to the Government. In some cases, such as developmental contracts with defined performance milestones (e.g., Preliminary Design Review, Critical Design Review, initial system test), the procurement officer may authorize evaluation periods at conclusion of the milestones rather than calendar dates, or in combination with calendar dates. In no case, however, shall an evaluation period be longer than 12 months.

(b) A portion of the total available award fee on a CPAF contract shall be allocated to each of the evaluation periods. This allocation may result in either an equal or unequal distribution of fee among the evaluation periods. The contracting officer should consider the nature of each contract and the incentive effects of fee distribution in determining the appropriate allocation structure. Allocation of fee on contracts for which periodic award fee evaluations are interim is for provisional fee payment purposes only. See 18-16.404-273(b) and (c).

## 18-16.404-273 Award fee evaluations.

(a) Award fee evaluations are either interim or final. On service contracts where the contract deliverable is the performance of the service over any given time period, contractor performance is definitively measurable at each evaluation period. In these cases, all evaluations are final, and the contractor keeps the fee earned in any period regardless of the evaluations of subsequent periods. Unearned award fee in any given period in a service contract is lost and shall not be carried forward, or "rolled-over," into subsequent periods.

(b) On other contracts such as study, design, or hardware, where the true quality of contractor performance cannot be measured until the end of the contract, only the last evaluation is final. At that point, the total contract award fee pool is available, and the contractor's total performance is evaluated against the award fee plan to determine total earned award fee. Interim evaluations are also done to monitor performance prior to contract completion and provide feedback to the contractor on the Government's assessment of the quality of its performance. Interim evaluations are also used to establish the basis for making provisional award fee payments.

(c) Provisional award fee payments may be included in the contract and should be negotiated on a case-by-case basis. For service contracts, provisional payments may be made in amounts up to 80 percent of the current period's available amount. For other contracts, the amount of the provisional award fee payment is determined by applying the lesser of the interim evaluation score (see 18-16.404-275) or 80 percent of the fee allocated to that period. The provisional award fee payments are superseded by the fee determination made in the final evaluation at contract completion. The Government will then pay the contractor, or the contractor will refund to the Government, the difference between the final award fee determination and the cumulative provisional fee payment.

(d) The Fee Determination Official's rating for both interim and final evaluations will be provided to the contractor within 45 calendar days of the end of the period being evaluated. Any fee, provisional or final, due the contractor will be paid no later than 60 calendar days after the end of the period being evaluated.

# 18-16.404-274 Award fee evaluation factors.

(a) Evaluation factors will be developed by the contracting officer based upon the characteristics of an individual procurement. Normally, technical and schedule considerations will be included in all CPAF contracts as evaluation factors.

Cost control shall be included as an (b) evaluation factor in all CPAF contracts. When explicit evaluation factor weightings are used, cost control shall be no less than 25 percent of the total fee, excluding any base fee. When explicit weightings are not used (which should only occur on service contracts), cost control shall be a substantial factor in the performance evaluation plan. The predominant consideration of the cost control evaluation should be an objective measurement of the contractor's performance against the negotiated estimated cost of the contract. This estimated cost may include the value of undefinitized change orders when appropriate.

(c) In rare circumstances, contract costs may increase for reasons outside the contractor's control and for which the contractor is not entitled to an equitable adjustment. One example is a weatherrelated launch delay on a launch support contract. The Government shall take such situations into consideration when evaluating contractor cost control.

(d) Emphasis on cost control should be balanced against other performance requirement objectives. The contractor should not be incentivized to pursue cost control to the point that overall performance is significantly degraded. For example, incentivizing an underrun that results in direct negative impacts on technical performance, safety, or other critical contract objectives is both undesirable and counterproductive. Evaluation of cost control shall conform to the following guidelines:

(1) Normally, the contractor should be given a score of 0 for cost control when there is a significant overrun within its control. However, the contractor may receive higher scores for cost control if the overrun is insignificant. Scores should decrease sharply as the size of the overrun increases. In any evaluation of contractor overrun performance, the Government shall consider the reasons for the overrun and assess the extent and effectiveness of the contractor's efforts to control or mitigate the overrun.

(2) The contractor should normally be rewarded for an underrun within its control, up to the maximum score allocated for cost control, provided the average numerical rating for all other award fee evaluation factors is 81 or greater. See 18-16.404-275 for information on numerical scoring. An underrun shall be rewarded as if the contractor has met the estimated cost of the contract (see 18-16.404-274(d)(3)) when the average numerical rating for all other factors is less than 81 but greater than 60.

(3) The contractor should be

rewarded for meeting the estimated cost of the contract, but not to the maximum score allocated for cost control, to the degree that the contractor has prudently managed costs while meeting contract requirements. No award shall be given in this circumstance unless the average numerical rating for all other award fee evaluation factors is 61 or greater.

(e) Only the award fee performance evaluation factors set forth in the award fee plan shall be used to determine award fee scores. The Government may unilaterally modify the award fee performance evaluation factors and performance evaluation areas applicable to the evaluation period. The contracting officer shall notify the contractor in writing of any such changes prior to the start of the relevant evaluation period.

# 18-16.404-275 Award fee evaluation scoring.

(a) A scoring system of 0-100 shall be used for all award fee ratings. Award fee earned is determined by applying the numerical score to the award fee pool. For example, a score of 85 yields an award fee of 85 percent of the award fee pool. No award fee shall be paid unless the total score is 61 or greater.

(b) The following standard adjectival ratings and the associated numerical scores shall be used on all award fee contracts.

(1) **Excellent** (100-91): Of exceptional merit; exemplary performance in a timely, efficient, and economical manner; very minor (if any) deficiencies with no adverse effect on overall performance.

(2) <u>Very good</u> (90-81): Very effective performance, fully responsive to contract requirements accomplished in a timely, efficient, and economical manner for the most part; only minor deficiencies.

(3) <u>Good</u> (80-71): Effective

performance; fully responsive to contract requirements; reportable deficiencies, but with little identifiable effect on overall performance.

(4) <u>Satisfactory</u> (70-61): Meets or slightly exceeds minimum acceptable standards; adequate results; reportable deficiencies with identifiable, but not substantial, effects on overall performance.

(5) <u>Poor/Unsatisfactory</u> (60 and below): Does not meet minimum acceptable standards in one or more areas; remedial action required in one or more areas; deficiencies in one or more areas which adversely affect overall performance.

(c) As a benchmark for evaluation, in order to be rated "Excellent," the contractor must be under cost, on or ahead of schedule, and have provided excellent technical performance.

(d) A scoring system appropriate for the circumstances of the individual contract requirement should be developed. Weighted scoring is recommended. In this system, each evaluation factor (e.g., technical, schedule, cost control) is assigned a specific percentage weighting with the cumulative weightings of all factors totalling 100. During the award fee evaluation, each factor is scored from 0-100 according to ratings defined in 18-16.404-275(b). The numerical score for each factor is then multiplied by the weighting for that factor to determine the weighted score. For example, if the technical factor has a weighting of 60 percent and the numerical score for that factor is 80, the weighted technical score is 48 (80 x 60%). The weighted scores for each evaluation factor are then added to determine the total award fee score.

# 18-16.404-276 Performance incentives on CPAF hardware contracts.

(a) A performance incentive shall be included in all CPAF contracts where the primary deliverable(s) is (are) hardware and where total estimated cost and fee is greater than \$25 million. Any exception to this requirement shall be approved in writing by the Center Director. Performance incentives may be included in CPAF hardware contracts valued under \$25 million at the discretion of the procurement officer. Performance incentives, which are objective and measure hardware performance after delivery and acceptance, are separate from award fee, which is subjective and measures contractor performance. The final award fee rating is final and cannot be retroactively changed.

(b) When a performance incentive is used. it shall be structured to be both positive and negative based on hardware performance after delivery and acceptance. In doing so, the contract shall establish a standard level of performance based on the salient hardware performance requirement. This standard performance level is normally the contract's minimum performance requirement. No incentive amount is earned at this standard performance level. Discrete units of measurement based on the same performance parameter shall be identified for performance both above and below the standard. Specific incentive amounts shall be associated with each performance level from maximum beneficial performance (maximum positive incentive) to minimal beneficial performance or total failure (maximum negative incentive) in accordance with 18-16.404-276(g)(3). The relationship between any given incentive, both positive and negative, and its associated unit of measurement should reflect the value to the Government of that level of hardware performance. The contractor should not be rewarded for above-standard performance levels that are of no benefit to the Government

(c) The final calculation of the positive or negative performance incentive shall be done when performance, as defined in the contract, ceases or when the maximum positive incentive is reached. When the performance is below the standard established in the contract, the Government shall calculate the amount due and the contractor shall pay the Government that amount. When performance exceeds the standard, the contractor may request payment of the incentive amount associated with a given level of performance, provided that such payments shall not be more frequent than monthly. When performance ceases or when the maximum positive incentive is reached, the Government shall calculate the final performance incentive earned and unpaid and promptly remit it to the contractor. The exclusion at FAR 16.405(e)(3) does not apply to decisions made as to the amount(s) of positive or negative incentive.

(d) One example of how a performance incentive would work is on a contract requiring delivery of a spacecraft. In this case, the performance incentive unit of measurement could be useful months in If 12 months is the expected orbit. performance level, the 12th month could be identified as standard performance for which no incentive is earned. If 24 months is the maximum useful life for the spacecraft relative to the technical requirements, the 24th month could be identified as the maximum performance level at which the contractor would earn the maximum positive incentive. Interim measures of spacecraft life from 12 to 24 months would then be identified with fees from \$0 to the maximum positive incentive. The amounts associated with these interim measures should correspond to the relative value to the Government of each additional month in orbit. A similar scale would be established for the negative incentive ranging from the 12th month for standard performance, \$0, to total and immediate system failure at the start of performance, the maximum negative incentive.

(e) When the deliverable hardware lends itself to multiple, meaningful measures of performance, multiple performance incentives may be established. In addition, when the contract requires the sequential delivery of several hardware items (e.g., multiple satellites), separate performance incentive structures may be established to parallel the sequential delivery and use of the deliverables. In either case, the amounts of the maximum performance incentives and the total potential award fee, including any base fee, shall be in accordance with the structure and limitations specified in 18-16.404-276(g).

(f) The definitions of standard performance, maximum positive and negative performance, and the units of measurement may be negotiated and will vary from contract to contract. Care must be taken, however, to ensure that the performance incentive structure is both reflective of the value to the Government of the various performance levels and a meaningful incentive to the contractor.

(g) In determining the value of the maximum performance incentive available under the contract, the contracting officer shall follow the following rules.

(1) The sum of the total potential award fee (including any base fee) plus the maximum positive performance incentive may not exceed the limitations in FAR 15.903(d).

(2) The individual values of the maximum positive performance incentive and the total potential award fee (including any base fee) shall each be at least onethird of the total potential contract fee. The remaining one-third of the total potential contract fee may be divided between award fee and the maximum performance incentive at the discretion of the contracting officer.

(3) The maximum negative performance incentive for research and development hardware (e.g., the first and second units) shall be equal in amount to the total <u>earned</u> award fee (including any base fee). The maximum negative performance incentives for production hardware (e.g., the third and all subsequent units of any hardware items) shall be equal in amount to the total <u>potential</u> award fee (including any base fee). Where one contract contains both cases described above, any base fee shall be allocated reasonably among the items.

## 18-16.405 Contract clauses.

### 18-16.405-70 NASA contract clauses.

(a) As authorized by FAR 16.405(e), the contracting officer shall insert the clause at 18-52.216-76, Award Fee for Service Contracts, in solicitations and contracts when a cost-plus-award-fee contract is contemplated and the contract deliverable is the performance of a service. When provisional award fee payments are authorized, use Alternate I.

(b) As authorized by FAR 16.405(e), the contracting officer shall insert the clause at 18-52.216-77, Award Fee for Non-Service Contracts, in solicitations and contracts when a cost-plus-award-fee contract is contemplated and the contract deliverables are a study, design, hardware or other end items for which total contractor performance cannot be measured until the end of the contract.

(c) The contracting officer may insert a clause substantially as stated at 18-52.216-

83, Fixed Price Incentive, in fixed-priceincentive solicitations and contracts utilizing firm or successive targets. For items to be subject to incentive price revision, identify the target cost, target profit, target price, and ceiling price for each item.

(d) The contracting officer shall insert the clause at 18-52.216-84, Estimated Cost and Incentive Fee, in cost-plus-incentive-fee solicitations and contracts.

(e) The contracting officer may insert the clause at 18-52.216-85, Estimated Cost and Award Fee, in cost-plus-award-fee solicitations and contracts. When the contract includes performance incentives, use Alternate I.

(f) Except as provided at 18-16.404-276, the contracting officer shall insert a clause substantially as stated at 18-52.216-88, Performance Incentive, when (1) a CPAF contract is contemplated, (2) the primary deliverable(s) is (are) hardware, and (3) total estimated cost and fee is greater than \$25 million. A clause substantially as stated at 18-52.216-88 may be included in lower dollar value CPAF hardware contracts with the approval of the Procurement Officer. SUBPART 18-16.6 TIME-AND-MATERIALS, LABOR-HOUR, AND LETTER CONTRACTS

#### 18-16.603 Letter contracts.

#### 18-16.603-2 Application.

Although there is no set format for a letter contract, certain items must be included. In addition to the clauses prescribed in FAR 16.603-4, the following information, must be included in all letter contracts:

(a) Statement of work.

(b) Delivery or performance schedule and place(s) of inspection and acceptance.

(c) A statement that no profit or fee shall be paid under the letter contract except as provided in the Termination clause (see 18-15.971).

#### 18-16.603-3 Limitations.

l

(a) Letter contracts having an estimated definitive contract amount below the dollar thresholds specified in 18-7.7102. Authority to approve the issuance of such letter contracts is delegated to the procurement officer. Each request for approval shall include the following:

(1) Proposed contractor's name and address.

(2) Location where contract is to be performed.

(3) Contract number, including modification number, if applicable.

(4) Brief description of the work or services to be performed.

(5) Performance period or delivery schedule.

(6) Amount of letter contract.

(7) Performance period of letter contract.

(8) Estimated total amount of definitive contract.

(9) Type of definitive contract to be executed.

(10) A statement that the definitive contract will contain all required clauses or that deviations have been approved.

(11) A statement as to the necessity and advantage to the Government of the proposed letter contract.

(b) Letter contracts having an estimated definitive contract amount equal to or exceeding the dollar thresholds specified in 18-7.7102.

(1) Requests for authority to issue such letter contracts shall be signed by the procurement officer and submitted to the Associate Administrator for Procurement (Code HS) for approval. They shall include the information cited in subparagraph (a)(1) of this section.

(2) Any modification of an undefinitized letter contract approved under (b)(1)of this section must be approved by the Associate Administrator for Procurement.

(3) Any modification of an undefinitized letter contract approved by a procurement officer in accordance with (a)(1) of this section that increases the estimated definitized contract amount to or above the dollar thresholds specified in 18-7.7102 must have the prior approval of the Associate Administrator for Procurement.

#### 18-16.603-4 Contract clause.

#### 18-16.603-470 NASA contract clause.

The contracting officer may insert a clause substantially as stated at 18-52.216-86, Settlement of Letter Contract, in contracts definitizing letter contracts. -

-----

#### PART 18-17 SPECIAL CONTRACTING METHODS

#### SUBPART 18-17.1 MULTIYEAR CONTRACTING

#### 18-17.102 Policy.

Multiyear contracting is generally not appropriate for use by NASA, because of the nature of NASA's appropriations and agency mission. Therefore, contracting officers may not issue a multiyear solicitation without first obtaining written I approval from the Associate Administrator for Procurement, NASA Headquarters, Code HS. 18-17.103 Procedures.

#### 18-17.103-1 General.

Under 10 U.S.C. 2306(g), multiyear contracting with funds that would otherwise be available for obligation only within the fiscal year for which appropriated is permitted for periods of not more than five years for certain types of services. For these services, in addition to the approval required by 18-17.102 above, 10 U.S.C. 2306(g) and 2310 require a written determination and findings (a) by the Administrator for contracts exceeding three years and (b) by the contracting officer for individual contracts not exceeding 3 years.

# OPTIONS

#### 18-17.200 Scope of subpart.

As authorized at FAR 17.200, FAR Subpart 17.2 shall apply to all NASA contracts, unless otherwise stated at 18-17.204(a).

## 18-17.203 Solicitations.

The "authorized person" mentioned in FAR 17.203(g)(2) is hereby designated as being the Procurement Officer.

#### 18-17.204 Contracts.

(a) The 5-year limitation (basic plus option periods) set forth in FAR 17.204(e) shall apply to all NASA contracts regardless of type, except contracts for automatic data processing (ADP) equipment systems and related software development, maintenance, and services; and contracts for telecommunications equipment and services. In addition to these exclusions, the 5-year limitation is not applicable to contracts for which the time needed to produce the end item of hardware is greater than five years. Deviations from the 5-year limitation policy require that (1) the extended years can be reasonably priced, and (2) a persuasive case (other than resources problems) can be made for exceeding five years. (Example: Some specific program event will occur at or near the end of the total contract period and a competition and potential change of contractor would be unacceptably disruptive or inefficient, or some other programmatic considerations dictate a longer period.)

(b) In addition to establishing either a fixed or maximum fee or a formula for determining the fixed or maximum fee, options under cost type contracts shall contain an estimated cost for the option period(s).

For the purpose of FAR 17.206(b), the procurement officer at each center shall be the approval authority for determinations by the contracting officer not to evaluate offers for any option quantities or periods.

#### 18-17.207 Exercise of options.

(a) Unless a determination has been approved under FAR 17.206(b), the selection statement for each procurement involving an option shall include the source selection official's consideration of the option as part of the initial competition.

(b) Use of the provision (or formula) specified in FAR 17.207(f)(2) requires advance approval by the Associate | Administrator for Procurement (Code HC).

(c) For the purposes of FAR 17.207(f)(3)--

(1) In subdivision (3)(i), the term "fixed fee" applies only to cost-plus-fixedfee (CPFF) contracts and the term "maximum fee" applies to cost-plus-awardfee (CPAF) and cost-plus-incentive-fee (CPIF) contracts.

(2) When using a formula pursuant to subdivision (3)(ii), the formula shall be expressed in the contract in a way that precludes the contractor from increasing costs for the purpose of earning additional fee. Use of a formula requires advance approval of the Associate Administrator for | Procurement. (Code HC).

# 18-17.208 Solicitation provisions and contract clauses.

For the purpose of FAR 17.208(c)(3), cost reimbursement types of contracts are approved for agency use.

· \_\_\_\_

## SUBPART 18-17.4 LEADER COMPANY CONTRACTING

## 18-17.401 General.

It is NASA policy not to use the leader company contracting technique.

## SUBPART 18-17.5 INTERAGENCY ACQUISITIONS UNDER THE ECONOMY ACT

#### 18-17.504 Ordering procedures.

(a) It is NASA's policy not to place Government agencies in direct competition with commercial sources. Before offers are solicited from commercial sources, the field installation's Director or a designee (see NMI 5101.24, Delegation of Authority to Take Actions in Procurement, Grants, Cooperative Agreements, and Related Matters) must determine whether to obtain the supplies or services from another Government agency. Invitations for bids and requests for proposals shall not be sent to Government agencies. Current market prices, recent procurement prices, or prices obtained by informational submissions as in FAR 15.405 provided mav be used to ascertain whether procurement can be effected more economically from commercial sources.

(b) An order for services shall not be placed with an agency when they can be performed as conveniently or more economically by private contractors.

Delivery orders shall be placed on (c) 348 or an Optional Form 347 and installation-prescribed form. However, when energy services are procured under DOD areawide utility contracts, the method of ordering prescribed in the appropriate DOD areawide contract will be used. The form may be modified to satisfy NASA fiscal and administrative requirements and contain such additional contract to provisions as may be contemplated or permitted by the DOD areawide contract, except that it shall not be modified for use as a public voucher in lieu of Standard Form 1034.

## SUBPART 18-17.70 PROCUREMENT WITH MILITARY DEPARTMENTS

#### 18-17.7000 Scope of subpart.

This subpart contains policies and procedures, developed jointly by NASA and DOD, for procurement of supplies or services by NASA from or through the Military Departments.

## 18-17.7001 Authorization and policy.

(a) NASA is authorized by the National Aeronautics and Space Act of 1958 (42 U.S.C. 2451 et seq.) to (1) use the procurement services, personnel, equipment, and facilities of the Military Departments, with their consent and with or without reimbursement, and, on a similar basis, to (2) cooperate with the Military Departments in the use of procurement services, equipment, and facilities.

(b) The Military Departments have agreed to cooperate fully with NASA in making their procurement services, equipment, personnel, and facilities available on the basis of mutual agreement.

(c) The Military Departments have agreed not to claim reimbursement for administrative costs incident to procurements for NASA, except as may be otherwise agreed before the services are performed.

(d) When procuring supplies or services for NASA or performing field service functions in support of NASA contracts, the Military Departments have agreed to use their own methods, except when otherwise required by the terms of the agreement involved. (e) The Military Departments normally will use their own funds when procuring supplies or services or performing services for NASA, and will not cite NASA funds on any Defense obligation or payment document.

## 18-17.7002 NASA-Defense Purchase Request and acceptance.

The NASA-Defense Purchase Request (a) (NASA Form 523) shall be used by NASA contracting offices for requesting procurement of supplies or services from activities of the Military a11 Individual NASA-Defense Departments. Purchase Requests shall be prepared in accordance with the instructions on the reverse of NASA Form 523 and shall be numbered in accordance with Subpart 18-4.71. The form shall not be used for requesting ---

(1) Block transfers of excess property between NASA and the Military Departments;

(2) Performance by the Military Departments of field service functions related to NASA contracts; or

that the Military (3) Items Departments normally purchase and stock for military use or in-house services. except when a DOD activity is willing to accept the form for these purposes. Supplies and services of this nature may be requisitioned using appropriate DOD forms when they are provided by and are to or preferred by the acceptable Military Department supplying activity or as otherwise mutually agreed upon by the parties.

(b) To obtain materials from the Air Force Missile Procurement Fund, the contracting officer shall follow the procedures of 18-8.002-74.

## SPECIAL CONTRACTING METHODS

# 18-17.7002-1 Acceptance by Military Department.

(a) Except as provided in paragraph (c) below, the Military Department concerned will, within 30 days after receipt of a NASA-Defense Purchase Request, forward to the initiator of the request an Acceptance of MIPR, DD Form 448-2, in quadruplicate. Each DD Form 448-2 will show the action being taken or to be taken to fill the requirement and the name and complete address of the DOD contracting activity.

(b) To feasible, the extent all documents (including acceptances. contracts. correspondence, shipping documents, work or project orders, and Standard Form 1080 (Voucher for Transfer between Appropriations and/or Funds) billings) will reference the NASA-Defense Purchase Request number and the item number.

(c) Acceptance by the Military Department is not required for NASA-Defense Purchase Requests covering deliveries of common-use standard-stock items that the supplying agency has on hand or on order for prompt delivery at published prices.

18-17.7002-2 Changes in estimated total prices.

When a Military Department determines that the estimated total price (Block 7,

NASA Form 523) of the items to be acquired for NASA is not sufficient to cover the required reimbursement or is in excess of the amount required, a request for an amendment will be forwarded to the NASA originating office. The request will indicate a specific dollar amount, rather than a percentage, and will include justification for any upward adjustment requested. Upon approval of the request, the NASA contracting office concerned shall forward to the DOD contracting activity an amendment to the NASA Defense Purchase Request.

## 18-17.7002-3 Payments.

Except when agreements provide that reimbursement is not required, payments to the Military Departments for supplies and services furnished to or acquired for NASA shall be effected upon receipt of Standard Form 1080 billings by the NASA office designated in Block 9 of the NASA-Defense Purchase Request. Billings will be supported in the same manner as billings between Military Departments.

## 18-17.7002-4 Contract clause.

The contracting officer shall insert the clause at 18-52.217-70, Property Administration and Reporting, in any NASA-Defense Purchase Request when property will be involved.

## SUBPART 18-17.71 EXCHANGE OR SALE OF PERSONAL PROPERTY

18-17.7101 Policy.

(a) Section 201(c) of the Federal Property and Administrative Services Act of 1949, 63 Stat. 384, as amended (40 U.S.C. 481(c)), authorizes the exchange or sale of Government personal property and the application of the exchange allowance or proceeds from sale to the acquisition of similar property for replacement purposes.

(b) NASA installations and contractors are authorized to conduct exchange/sale transactions as long as the requirements and restrictions of NHB 4300.1 and the Federal Property Management Regulations, Subchapter H, paragraphs 101-46, are followed. In conducting such exchanges/sales, NASA contractors must obtain the contracting officer's prior written approval and must report the transactions to the cognizant NASA installation Property Disposal Officer (PDO).

## PART 18-19 SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS CONCERNS

## 18-19.001 Definitions.

"Small Business Specialist" means the person who --

(1) Is appointed by the Head of each NASA installation having procurement responsibilities; and

(2) Is the central point of contact for all small business and labor surplus area matters. See 18-19.201(b) and (c) for a detailed description of this position. This person is synonymous with the Small and Disadvantaged Business Utilization Specialist (see FAR 19.201(d)).

### SUBPART 18-19.2 POLICIES

## 18-19.201 General policy.

(a) NASA Headquarters. The Director of Disadvantaged Small and Business Utilization (Code K) is responsible for (1) the general supervision and coordination of the NASA Small Business Program; (2) developing the policy and procedures for implementing the NASA Small Business Program, Minority Business Program, Women Owned Business Program, and Labor Surplus Area Program; (3) advising the Administrator and other NASA officials on these matters: and (4)representing NASA before other Government agencies and industry on matters related to the programs listed in (2) above.

(b) Installations. The Head of each procurement installation having responsibilities shall designate а qualified individual in the contracting office as a Small Business Specialist to provide a central point of contact to which small business concerns may direct inquiries concerning small business matters and participation in the NASA procurement program. The Small Business shall also perform other Specialist functions specifically set forth in this section 18-19.201 or that the Procurement Officer may prescribe for implementing the Small Business Program, including responsibility for the Labor Surplus Area Program described in FAR Part 20. When the Head of an installation considers that the volume of procurement or the functions relating to procurement at the installation do not warrant a full-time Small Business Specialist, these duties may be assigned to procurement personnel on a part-time basis.

(c) Small Business Specialists. Small Business Specialists appointed under paragraph (b) above shall perform the following duties, as the Procurement Officer determines appropriate to the installation:

(1) Maintain a program designed to locate capable small business sources for current and future procurements.

(2) Coordinate inquiries and requests for advice from small business concerns on procurement matters.

(3) Before issuance of solicitamodifications contract for tions or supplies additional Or services. determine that small business concerns adequate consideration. will receive including initiation of set-asides (see FAR Subpart 19.5).

business (4) If small concerns cannot be given an opportunity to compete because adequate specifications or drawings are not available. initiate action (unless there are sufficient and valid reasons to the contrary), in writing, with appropriate technical and contracting personnel to ensure that necessary specifications or drawings for current or future procurements will be available.

(5) Review procurement programs for possible breakout of items suitable for procurement from small business concerns.

(6) Advise small business concerns regarding financial assistance available under laws and regulations, assist such concerns in applying for it, and ensure that small business concerns' requests for financial assistance are not treated as a handicap in securing the award of contracts.

(7) Participate in responsibility determinations (see FAR 9.103) whenever small business concerns are involved.

(8) Participate in the evaluation of prime contractors' small business subcontracting programs (see FAR 19.705-4).

(9) Review and make appropriate recommendations to the contracting officer on any proposal to furnish Government-owned facilities to a

## SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS CONCERNS

contractor if such action may hurt the Small Business Program.

(10) Ensure that participation of small business concerns is accurately reported.

(11) Notify the Procurement Officer of possible contracting opportunities in labor surplus areas.

(12) Make available to SBA copies of solicitations when requested.

(13) Act liaison as between contracting officers and SBA field offices and representatives in connection with set-asides, certificates of competency, and any other matters in which the Small Business Program may be involved. Procurements in which certificates of competency are requested shall be reported in writing to the Small Director, and Disadvantaged Business Utilization. NASA Headquarters, (Code K). The report should describe requirement, list the the offerors, and give the contract prices specified in the offers as submitted and the reason for the proposed rejection of an otherwise acceptable small business Pertinent dates. offer. such as the required date for the completion of the procurement and the date of the request for the certificate of competency, should also be furnished.

(14) In cooperation with contractofficers and technical personnel, ing seek and develop information on the technical competence of small business concerns for research and development contracts. Regularly bring to the attention of contracting officers and technical personnel descriptive data. brochures, and other information regarding small business concerns that are apparently competent to perform research and development work in fields in which NASA is interested.

(15) When a small business concern's has been rejected offer for nonresponsiveness or nonresponsibility. aid, counsel, and assist that concern, upon its request, in understanding requirements for responsiveness and responsibility so that the concern can qualify for future awards.

18-19.202 Specific policies.

## 18-19.202-4 Solicitation.

The contracting officer shall include in the solicitation mailing list the names of firms submitted by SBA, unless there is a valid reason for not so doing.

## SUBPART 18-19.3 DETERMINATION OF STATUS AS A SMALL BUSINESS CONCERN

18-19.302 Protesting a small business representation.

The contracting officer shall not make awards of small business set-aside procurements before (a) 5 working days after bid opening for sealed-bid acquisitions or (b) the deadline for submitting a protest that was included in the notification to apparently unsuccessful offerors. (See FAR 19.302(h)(1).)

## SUBPART 18-19.4 COOPERATION WITH THE SMALL BUSINESS ADMINISTRATION

## 18-19.401 General.

Contracting officers shall consult and cooperate with SBA to carry out the purposes of the Small Business Act.

~

18-19.501 General.

## (2) is responsible for reviewing those procurements not set aside; and (3) is responsible for taking action in accordance with FAR 19.506(b).

The Small Business Specialist (1) may

SUBPART 18-19.5

SET-ASIDES FOR SMALL BUSINESS

## 18-19.502 Setting aside acquisitions.

## 18-19.502-3 Partial set-asides.

(a) (1) Contracting officers shall offers obtained from firms require eligible for the set-aside portion of the requirement under the clause at FAR of Partial Small 52.219-7, Notice Business Set-Aside, to be in writing and agreement (i) on the to include for the available set-aside nrice quantity, (ii) on the delivery schedule, (iii) that all other terms and conditions of the solicitation apply to the setaside award, and (iv) to include the clauses at FAR 52.215-1, Examination of Records by the Comptroller General, and FAR 52.215-2, Audit--Negotiation.

(2) When the non-set-aside portion has been awarded to a small business concern entitled to receive the set-aside portion, the set-aside portion may be basic the contract bv to added supplemental agreement. The supplemental refer the agreement shall (i) to contractor's offer on the set-aside price and (ii) state the quantity, delivery schedule applicable to the setaside quantity, and (iii) include the clauses at FAR 15.215-1 and 15.215-2. The contracting officer shall attach to the supplemental agreement copies of all pertinent documents, including the signed offer. The contracting officer shall also sign the supplemental agreement, but the contractor need not, since the contractor's signature on the attached offer is sufficient.

(3) When the non-set-aside portion has been awarded to a firm other than the concern entitled to receive the set-aside portion, the contracting officer shall the portion using set-aside award Standard Form 26. The offers obtained and the award form used shall reference and include the same data required by subparagraphs (1) and (2) above. Also, the award shall reference in Block 18 of SF 26 the applicable solicitation and the written offer. The contractor's contracting officer shall attach copies of the solicitation and offer and shall sign the SF 26, but the contractor need not, since the contractor's signature on the attached offer is sufficient.

(b) The contracting officer shall separately report awards of the non-setaside portions of small business setaside procurements (see Subpart 18-4.6).

# 18-19.503 Setting aside a class of acquisitions.

The contracting officer shall retain a copy of each class set-aside determination.

## 18-19.505 Rejecting set-aside recommendations.

(a) The Small Business Specialist may make a set-aside recommendation with | respect to any individual or class setaside except those on which an SBA representative has made a recommendation.

# SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS CONCERNS

(b) If the Small Business Specialist recommends that an individual procurement or a class of procurements, or a portion thereof, be set aside, the contracting officer shall promptly either concur in or disapprove the recommendation, stating in writing the reasons for disapproval.

(c) If the contracting officer disapproves the Business Small Specialist's recommendation. the contracting officer shall promptly refer the case to the SBA representative (if one is assigned and available) for review. The Small Business Specialist shall take no further appeal action. If an SBA representative is not assigned or available, resolution of disagreements on set-asides between the Small Business Specialist and the contracting officer shall be accomplished in accordance with the procedures in paragraph (e) of this section.

(d) All cases involving the noninitiation of set-aside. whether а resulting from (i) a joint decision of the Small Business Specialist and the contracting officer or (ii) а determination by the contracting officer alone, require referral to the SBA representative (if one is assigned and available) for review. SBA The representative must either concur with

the decision or determination or appeal the case under FAR 19.505.

(e) When an SBA representative is not assigned or available and the contracting officer disagrees with the Small Business Specialist's recommendation on a small business set-aside for an individual procurement or a class of procurements, or a portion thereof, and so notifies the Small Business Specialist in writing, or if the Small **Business** Specialist disagrees with the contracting officer regarding withdrawal or modification of a set-aside determination, the Small Business Specialist may appeal in writing to the procurement officer (see 18-19.201(b)) for a decision, which shall be The final. contracting officer shall place a memorandum of the procurement officer's decision in the contract file. If the decision approves contracting officer's action, the the Small Business Specialist shall forward complete documentation of the case to the Director of Small and Disadvantaged Business Utilization, NASA Headquarters. Code K.

(f) The contracting officer shall prepare, sign, and retain in the contract file a memorandum of any withdrawal or modification or of nonconcurrence in a recommended set-aside action.

## SUBPART 18-19.6 CERTIFICATES OF COMPETENCY AND DETERMINATIONS OF ELIGIBILITY

## 18-19.601 General.

On proposed awards exceeding the small purchase limitation, the contracting officer shall request a preaward survey (see FAR 9.106) before determining that a responsive small business firm is not responsible.

## 18-19.602 Procedures.

## 18-19.602-1 Referral.

The contracting officer shall forward a copy of the communication referring the matter to SBA through the Procurement Officer to the Associate Administrator for Small and Disadvantaged Business Utilization, NASA Headquarters, (Code K).

## 18-19.602-3 Resolving differences between the agency and the Small Business Administration.

(a) When there is a disagreement between the contracting officer and SBA, the contracting officer shall forward to the Associate Administrator for Procurement (Code H) through channels, on an expedited basis, a complete case file with a request that the case be considered for appeal to SBA Headquarters. The contracting officer shall include the data already furnished to SBA, SBA's rationale for proposing to issue a certificate of competency, and the contracting officer's comments. The contracting officer shall suspend procurement action until informed by the Associate Administrator for Procurement of the final decision in the case.

(b) If the Associate Administrator for Procurement concludes that the referral to SBA should be withdrawn and a contract awarded without benefit of a certificate of competency, the Associate Administrator for Procurement shall inform the contracting officer and provide written instructions on how to proceed with the procurement.

(c) If the Associate Administrator for Procurement agrees with the contracting officer's recommended appeal action, the contracting officer shall request SBA's Central Office to review the SBA Regional office's proposal to issue a certificate of competency.

# 18-19.602-70 Reports on certificates of competency.

Small Business Specialists shall inform the Associate Administrator for Small and Disadvantaged Business Utilization, NASA Headquarters (Code K), quarterly in writing, of all certificate of competency cases initiated during the quarter and of the final disposition made on cases during the quarter, including the number and dollar value of certificates of competency issued during the period. The Small Business Specialist shall include the company name, item being procured, solicitation number, dollar value of the procurement, and date the case was submitted to SBA. In addition, the Small Business Specialist shall provide advice and data for all cases where (a) the small business concern elects not to file an application for a certificate of competency, (b) SBA declines to issue a certificate of competency, or (c) the contracting activity reverses the pre-award survey activity's responsibility, negative finding on withdraws the referral to SBA, and makes the award.

## SUBPART 18-19.7 SUBCONTRACTING WITH SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS CONCERNS

# 18-19.705-4 Reviewing the subcontracting plan.

(a) Subcontracting plans must reflect realistic and justifiable percentage and dollar goals for subcontracting with small business concerns and small disadvantaged business concerns. Prime contractors shall be encouraged to submit, when possible, positive goals (i.e., greater than zero) in In evaluating their initial plans. subcontracting plans, contracting officers shall challenge any unrealistically low and particularly any proposed zero goals to ascertain what opportunity exists for subcontracting with small and small disadvantaged firms. The evaluation may include a specific review of the factors used by the prime contractor to develop its goal, the past performance of the prime contractor on similar requirements, and the current procedures used by the prime to maximize the opportunities for small and small disadvantaged businesses to participate in its subcontracting program. The contract file shall be documented to reflect the review and the contracting officer's decision on the goal which is finally accepted.

(b) NASA contracting officers may accept as a element of a subcontracting plan the prime contractor's intention to use total small business, small disadvantaged business, women-owned business, historically black college and university, or minority educational institution set-asides in awarding subcontracts so long as such set-asides are competitive and awards are made at reasonable prices. Use of this procedure will be viewed as a good indication of an aggressive subcontracting plan. Set-asides may be encouraged but may not be required when negotiating subcontracting plans.

## 18-19.707 The Small Business Administration's role in carrying out the program.

Under the provisions of FAR 19.707(a)(2)and (3), 5 days are allotted for SBA review of solicitations and contracts subject to the subcontracting program. In the absence of SBA request for the documents, the contracting officer may elect not to seek review.

18-19.708 Solicitation provisions and contract clauses.

# 18-19.708-70 NASA solicitation provi- sion and contract clause.

(a) The contracting officer shall insert the provision at 18-52.219-73, Small Business and Small Disadvantaged Business Subcontracting Plan, in solicitations containing the clause at FAR 52.219-9. Insert in the last sentence the number of calendar days after request that the offeror must submit a complete plan. When offerors are to include subcontracting plans in their initial offer as contemplated by FAR 19.705-2(d), or if a noncompetitive solicitation will be issued, the contracting officer may use the provision with its Alternate I.

(b) The contracting officer shall insert the clause at 18-52.219-75, Small Business and Small Disadvantaged Business Subcontracting Reporting, in solicitations and contracts containing the clause at FAR 52.219-9. Those current contracts containing subcontracting plans and designated by NASA Headquarters (Code HM) shall be amended to require quarterly submission of the SF 295.

\_

## SUBPART 18-19.70 NASA SMALL DISADVANTAGED BUSINESS CONTRACTING AND SUBCONTRACTING GOAL

## 18-19.7001 Scope of subpart.

implements legislative subpart This provisions (Public Laws 101-507 and 101-NASA 144)) which require the Administrator to ensure, to the fullest extent possible, that at least 8% of funding for prime and Federal subcontracts awarded in support ٥f authorized programs, including the space station by the time operational status is obtained, be made available to small business concerns or other organizations owned or controlled by socially and economically disadvantaged individuals (within the meaning of section 8(a)(5)and (6) of the Small Business Act (15 and including U.S.C. 637(a)(5) (6)), Black Colleges and Historically and educational minority Universities institutions. For purposes of this socially and economically subpart. disadvantaged individuals shall be deemed to include women.

18-19.7002 Definitions.

"Historically Black Colleges and Universities," as used in this subpart, means institutions determined by the Secretary of Education to meet the requirements of 34 CFR section 608.2 and listed therein. "Minority educational institutions," as used in this subpart, means institutions meeting the criteria established in 34 CFR 607.2 by the Secretary of Education.

"Small disadvantaged business concern," as used in this subpart, means a small business concern owned or controlled by individuals who are both socially and economically disadvantaged (within the meaning of section 8(a)(5) and (6) of the Small Business Act (15 U.S.C. 637(a)(5) and (6)). Socially and economically disadvantaged individuals shall be deemed to include women.

## 18-19.7003 General policy.

The Congress has indicated its commitment role increasing the of small to disadvantaged concerns, including women-owned concerns, Historically Black Colleges and Universities, and minority institutions, educational in the aerospace industry, particularly in NASA-related procurement (Public Laws 101-507 and 101-144). The agency's goal is to award to such concerns and organizations 8% of the total value of prime and subcontracts in support of authorized programs by the end of fiscal year 1994. The participation of NASA prime contractors is essential to meet this goal.

## 18-19.7004 Contract clause.

The contracting officer shall insert the clause at 18-52.219-76, NASA Small Disadvantaged Business Goal, in all solicitations and contracts (other than those for small purchases). -----

## SUBPART 18-19.71 NASA RURAL AREA SMALL BUSINESS PLAN

#### 18-19.7101 Definition.

"Rural area" means a county with a population of fewer than twenty thousand individuals.

## 18-19.7102 General.

Public Law 100-590 requires NASA to establish a Rural Area Business Enterprise Development Plan that includes methods for encouraging prime and subcontractors to use small business contractors located in rural areas as subcontractors. One method is to encourage the contractor to use its best efforts to comply with the intent of the statute.

18-19.7103 Solicitation provision and contract clause.

The contracting officer shall insert the clause at 18-52.219-74, Use of Rural Area Small Businesses, in solicitations and offer subcontracting contracts that possibilities or that are expected to \$500,000 (\$1,000,000 for exceed construction of public facility) unless the contract, together with all its subcontracts, is to be performed entirely of any State, territory, outside ог possession of the United States. the of Columbia, and the District Commonwealth of Puerto Rico.

NASA FAR SUPPLEMENT

## PART 18-22 APPLICATION OF LABOR LAWS TO GOVERNMENT ACQUISITIONS

## SUBPART 18-22.1 BASIC LABOR POLICIES

18-22.101 Labor relations.

## 18-22.101-1 General.

(a) NASA contracting officers, in taking any of the actions prescribed or authorized in FAR Part 22 or this Part 18-22, shall consult with and get advice from the labor relations advisor or other NASA official assigned the labor relations function at the installation concerned.

(b) NASA officials shall not take any action regarding labor matters involving major policy determinations having a substantial impact on the activities of NASA or other Government agencies without the prior approval of the Director, Industrial Relations Office (Code JL). A labor concerning any full report relations problem, particularly where a labor dispute significantly threatens to affect important NASA procurements, shall I be furnished to Code JL in accordance with 18-22.101-3.

(c) When a strike that may have an adverse effect on NASA programs is imminent or in progress at a prime contractor's or subcontractor's plant, contracting officers shall --

(1) Advise both the prime contractor and the head of the union local in writing of the expected impact of the strike on NASA programs and, if appropriate, of the actions NASA is considering to protect the Government's interest and prevent delay in the accomplishment of NASA's mission. If the strike is in a subcontractor's plant, the subcontractor may be approached only through the prime contractor;

(2) Explore the possibility of locating other sources for the supplies or services to have been provided by the strike-threatened plant; and

(3) Consider taking the actions set forth at FAR 22.101-4.

## 18-22.101-3 Reporting labor disputes.

Reports of actual or incipient labormanagement disputes affecting NASA services procurements, operations, or shall be submitted as specified by the Industrial Relations Office. Director, These reports shall be made as early as possible and shall include immediately information. Supplemental available reports shall be made, as appropriate, to provide full information and cover new developments. Reports shall be sent by the most expeditious means required by the seriousness of the situation. When an immediate critical effect on NASA procurements is probable, the initial report shall be made by telephone and followed by an electronically transmitted written message or a confirming letter. Reports shall describe, but need not be limited to --

(a) The nature of the actual or incipient dispute, including whether a strike, lockout, slow-down, shut-down, or picketing is involved and the degree of emergency presented;

(b) The character, quantity, and importance of the supplies, operations, or services involved, including scheduled performance and delivery dates and the relation of the production involved to the total procurement program;

(c) The identity and location of the parties to the dispute and their

APPLICATION OF LABOR LAWS TO GOVERNMENT ACQUISITIONS

representatives, including the approximate number of employees involved;

(d) The need for and availability of alternative facilities to furnish the items involved within the time required;

(e) Any critical items that should be removed from the plant or work site or should continue to be processed there with the consent of the parties to the dispute; and

(f) Recommended action to be taken by NASA.

# 18-22.101-4 Removal of items from contractors' facilities affected by work stoppages.

When the contracting officer determines that it would be in the Government's best interest to remove items or to arrange for shipment of urgently required items as provided in FAR 22.101-4(a)(2), the contracting officer shall first request | approval from Code JL and then take such action as is approved.

## 18-22.101-70 Inspection of material during labor disputes.

Despite the existence of a labor dispute, inspection functions at contract plants or sites shall be performed as normally required during contract performance, unless the inspector's safety may be endangered.

18-22.101-71 Admission of labor representatives to contract sites.

NASA activities may not prevent the access of labor union representatives to contract sites for the conduct of union business if their activities are compatible with safety and security regulations and performance of the contract work involved.

## 18-22.101-72 Workers Adjustment and Retraining Notification (WARN) Act

(a) The WARN Act (Pub. L. 100-379) provides that employers of 100 or more full-time employees or 100 or more employees who work 4,000 hours in a work week shall give 60 days notice to affected employees prior to a plant closing or mass layoff as defined in the Act. When the required notice is not given, certain wage and benefit protections accrue to affected employees and financial penalties may be assessed against the employer.

(b) The Act may apply to certain NASA contracts (e.g., on-site support service contracts) if the incumbent fails to win on recompetition for the succeeding period or if the contract requirement is discontinued. Some of the costs for noncompliance with the Act could be subject reimbursement to by the Government. Accordingly, the contracting officer shall give a letter notification to on-site support service contractors alerting them to the possible applicability of the WARN Act.

(c) Implementation of the Act requires no action by the Government. NASA employees are not to offer advice to contractor employees or to the management of affected contractors concerning implementation of the Act. Government employees and officials are not covered by the Act.

18-22.102 Federal and State labor requirements.

### BASIC LABOR POLICIES

## 18-22.102-70 Suspension or relaxation of State labor standards.

(a) NASA officials shall not initiate applications to State agencies or officials for the suspension or relaxation of State labor standards.

(b) When suspension or relaxation of State labor standards does not conflict with Federal labor laws, contracting officers may support applications of contractors or subcontractors if --

(1) The required products or services are in short supply and failure to meet production schedules for critically needed end items will result unless the standards are suspended or relaxed:

(2) No alternative sources of supply for such products or services are available within the required delivery schedule;

(3) Remedial action (such as recruitment, training, and more effective utilization of labor) is not practicable; and

(4) The granting of the application will not result in impairment of working conditions to the extent that productivity at the facility will be adversely affected.

(c) NASA letters of support will be addressed to the appropriate State agency and will indicate --

(1) The facilities and services affected; and

(2) The extent of suspension or relaxation of the particular State labor standard required to complete the specific work in conformity with the delivery schedule.

## 18-22.103 Overtime.

### 18-22.103-4 Approvals.

The Procurement Officer or designees are authorized to approve overtime premiums at Government expense. If two or more offices have current contracting facility and single contracts at а approval of overtime by one will affect the performance or cost of contracts of approving official shall another. the concurrence of other obtain the appropriate approving officials and seek agreement as to the contracts under which premiums will be approved. If the approving officials do not agree within a reasonable time, a decision shall be obtained through the center's normal management channels. Ordinarily, in the absence of evidence to the contrary, a contracting office may rely on the contractor's statement that approval will affect performance or payments not under any contract of another contracting office. Designations to approve overtime shall be in writing and shall not be under the first level റെ delegated below the Procurement supervision Officer, except that delegation may be made to the head of a procurement function at geographically remote branch facilities (e.g., Wallops Flight Facility or Dryden Flight Research Facility) without power of redelegation.

## SUBPART 18-22.3 CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

## 18-22.302 Liquidated damages and overtime pay.

Disposal of funds withheld or collected for liquidated damages shall be in accordance with direction of the Director, Industrial Relations Office (Code JL), who is the agency head's designee relative to liquidated damages under the Contract Work Hours and Safety Standards Act.

\_\_\_

## SUBPART 18-22.4 LABOR STANDARDS FOR CONTRACTS INVOLVING CONSTRUCTION

## 18-22.403-4 Department of Labor regulations.

For industrial relations actions requiring communication with the Department of Labor, National Headquarters, Washington, DC (including the Administrator, Wage and Hour Division), contracting officers shall provide the appropriate information and supporting documentation to the Industrial Relations Office (Code JL), which shall make all contacts with the Department of Labor on these matters.

## 18-22.404-3 Procedures for requesting wage determinations.

Contracting officers shall submit requests for project wage determinations | to Code JL at least 55 days (70 days if possible) before issuing the solicitation.

## 18-22.406-2 Wages, fringe benefits, and overtime.

In implementing FAR 22.406-2(b)(2), the contracting officer shall provide information to the Director, Industrial Relations Office (Code JL), who shall submit the question of cash equivalents to the Department of Labor for final determination.

### 18-22.406-8 Investigations.

The contracting officer is responsible for conducting investigations, as provided by FAR 22.406-8(a), of labor violations relative to contracts under his/her cognizance. The agency head's designee for receiving and processing contracting officer reports of violations the Director, Industrial Relations is (Code Office JL), who, with the | concurrence of the Associate General Counsel for Contracts, shall forward reports of violations to the Attorney General in accordance with FAR 22.406-8(d)(2)(iv).

## 18-22.406-9 Withholding from or suspension of contract payments.

Disposal of funds withheld or collected for liquidated damages under the Davis-Bacon Act shall be in accordance with direction of the Director, Industrial Relations Office (Code JL).

## 18-22.406-11 Contract terminations.

officers shall forward Contracting subcontract reports of contract or terminations for violation of labor standards clauses to the Director, Industrial Relations Office (Code JL), | reports in shall submit the who accordance with FAR 22.406-11.

## 18-22.406-13 Semiannual enforcement reports.

Procurement Officers shall submit semiannual enforcement data within 20 days after the end of the reporting period specified in FAR 22.406-13 to the Office of Procurement (Attn: Code HP) for consolidation and submission to the Department of Labor. Negative statements are required. The Procurement Policy Division (Code HP) is the point of contact regarding data to be included in the submissions. .

## SUBPART 18-22.6 WALSH-HEALEY PUBLIC CONTRACTS ACT

18-22.604 Exemptions.

18-22.604-2 Regulatory exemptions.

Applications for exemptions from one or more of the Act's stipulations under FAR 22.604-2(c)(1) shall be submitted in writing through the contracting officer, with pertinent data and recommendations to the Director, Industrial Relations Office (Code JL).

## 18-22.608-4 Award pending final determination.

The Procurement Officer shall approve, with the concurrence of the Director, Industrial Relations Office (Code JL), certifications for immediate award in accordance with FAR 22.608-4(b). The contracting officer shall give written notice of the decision to award through Code JL to the DOL.

## SUBPART 18-22.8 EQUAL EMPLOYMENT OPPORTUNITY

## 18-22.804 Affirmative action programs.

## 18-22.804-2 Construction.

Each procurement office will maintain and furnish to contracting officers the listing required by FAR 22.804-2(b). The Associate Administrator for Procurement (Code HP) will furnish the listing to be maintained. The current listing is 45 FR 65979 "Goals for Minority Participation in the Construction Industry" (October 3, 1980).

## 18-22.807 Exemptions.

Requests for exemption pursuant to FAR 22.807(a)(1) shall be forwarded to the Administrator through the Headquarters Procurement Policy Division (Code HP), which shall obtain concurrence from appropriate Officials-in-Charge. Requests shall be accompanied by detailed written justification and the proposed exemption request for signature.

## 18-22.870 Reports and other required information.

(a) If an offeror completes a negative representation pursuant to FAR 52.222-22, the contracting officer shall obtain the contractor's initial report within 30 days of contract award and retain it in the contract file. Such a report by the prime or subcontractor is required by 41 CFR 60-1.7 and FAR 22.8.

(b) If requested by a contractor or subcontractor, any reports filed with the contracting officer shall be held in confidence as privileged information in accordance with 32 CFR 286.6(b)(4). All reports required by 18-22.870(a) may be used only for the administration of Executive Order 11246, the Civil Rights Act of 1964, or in furtherance of the Act or Executive Order. •

## SUBPART 18-22.10 SERVICE CONTRACT ACT OF 1965

## 18-22.1001 Definitions.

"Agency labor advisor" means the Director, Industrial Relations Office, NASA Headquarters (Code JL).

## 18-22.1003 Applicability.

for determinations and requests A11 Service the exemptions relating to Contract Act shall be submitted in coordinated appropriate writing, by procurement personnel, and forwarded to | Code JL.

18-22.1007 Requirement to submit notice.

Contracting officers shall ensure (a) that completed Standard Forms 98/98a, Notice of Intention to Make a Service Contract and Response to Notice (original 1 and 4 copies), reaches Code JL at least 70 days before issuing any solicitation, for contract negotiations opening contract exercising a extension. ог option.

(b) Requests to expedite wage determinations shall be sent to Code JL.

## 18-22.1008 Procedures for preparing and submitting notice (SF 98/98a).

The information listed below by item number shall be furnished, in addition to that required by the SF 98/98a:

(a) Item 6. Insert on the far left side of the block the code identifying the type of proposed action:

## Code Proposed Action

- I New contract (use <u>only</u> when services are not presently being performed).
- II Recompetition of services.
- III Contract modifications affecting the scope of the work (see FAR 22.1008).
- IV Extension of contract performance through exercise of an option or otherwise (see FAR 22.1008).
- V Other. When a multiyear contract (funding is not subject to annual appropriation) is to be entered into, specify "multiyear R&D funded" on the SF 98.
- (b) Item 8.

(1) If the proposed contract will be awarded under Section 8(a) of the Small Business Act, insert both the Small Business Administration and the name of the subcontractor.

(2) If no wage determination is available for the particular contract, insert "None" in Item 8.b.

(c) Item 10. Add the solicitation number, if known.

(d) Item 12.

(1) When entering into a new contract, list all classes of service work expected to be performed under the contract under this item, regardless of the class of employees is whether professional. considered executive, administrative, or hourly. However, if submission of the SF 98/98a is in connection with any action other than a new contract (Code I in paragraph (a) above), list only the classes of work incumbent indicates are that the "nonexempt."

## 22-10:2

## APPLICATION OF LABOR LAWS TO GOVERNMENT ACQUISITIONS

(2) When classifications include both categories of employees covered by a collective bargaining agreement and those not represented by a union, mark the classifications that are unionized with an asterisk.

(3) If the classification of work is not known, use the most descriptive job title available for the work to be performed under the contract. (e) Item 13. If the number of employees is not known, the estimated hours required to perform the tasks should be indicated so that staffing estimates can be determined and listed.

(f) Item 14. Include in this item the wage rates that would be paid if the employees were subject to 5 U.S.C. 5332 (GS grades).

## SUBPART 18-22.11 PROFESSIONAL EMPLOYEE COMPENSATION

18-22.1103 Policy, procedures, and solicitation provisions.

The instructions in paragraph (a) of (a) provision FAR 52.222-46, at the Compensation for Evaluation of Professional Employees, shall be augmented in Section M of the solicitation with an explanation of how the Government will evaluate the offeror's plan. The Government's assessment of the plan shall be a weighted and scored evaluation criterion under a Mission Suitability Factor in order to ensure that the plan reflects a sound management approach and understanding of the contract requirements. This criterion shall be accorded sufficient weight and relative order of importance to be effective under the particular circumstances involved. When (1) a significant number of professional employees are involved, the performance cost is period is long, and the relatively large, or (2) there is continuity of the same or similar services at the same location, the weight and the criterion relative importance of shall be in the "most important" or "very important" category, as considered appropriate. The lesser weighting should be employed only after careful consideration possible impact on labor of the stability.

(b) The cost realism of professional compensation proposed (see paragraph (c) of the provision at FAR 52.222-46) shall be identified as an evaluation factor in Section M of the solicitation.

-----

## SUBPART 18-22.13 SPECIAL DISABLED AND VIETNAM ERA VETERANS

## 18-22.1306 Complaint procedures.

The Associate Administrator for Equal Opportunity Programs (Code E) is the NASA official designated to act on complaints received about administration of the Vietnam Era Veterans Readjustment Assistance Act of 1972.

## SUBPART 18-22.70 NONDISCRIMINATION---GOVERNMENT LEASE

#### 18-22.7001 Policy.

It is NASA policy to include a Facilities Nondiscrimination clause in leases when NASA is the lessee. The policy has been adopted because Federal employees belonging to minority groups and other members of minority groups doing business with the Government in some parts of the country have been denied the use of public facilities located in buildings where the Government leases office space.

## 18-22.7002 NASA contract clauses.

(a) The contracting officer shall include the clause at 18-52.222-70, Facilities Nondiscrimination Notice, in all solicitations involving leases and in any resulting leases.

(b) The contracting officer shall 18-52.222-71. clause at include the Nondiscrimination, in all Facilities solicitations involving leases and in any resulting leases under which the annual rental, combined with that of any other NASA leases of space in the same building, exceeds \$10,000.

## SUBPART 18-23.1 POLLUTION CONTROL AND CLEAN AIR AND WATER

## 18-23.106 Delaying award.

All notifications initiated by the contracting officer under FAR 23.106 shall be submitted to EPA through the Procurement Officer and the Associate Administrator for Procurement, NASA Headquarters (Code HS).

## 18-23.107 Compliance responsibilities.

Notifications under FAR 23.107 shall be submitted through the same channels as under 18-23.106.

· ·

SUBPART 18-23.3

HAZARDOUS MATERIAL

IDENTIFICATION

AND MATERIAL SAFETY DATA

As authorized under FAR 23.302(c)(2),

NASA has designated electro-sensitive

initiating devices (squibs) a "poten-

# tially hazardous" item requiring safety controls.

18-23.303 Contract clause.

18-23.302 Policy.

18-23.303-70 NASA clause.

The contracting officer shall insert the clause at 18-52.223-72, Potentially

Hazardous Items, in solicitations and contracts involving potentially hazardous items or components. Identify in the clause the potentially hazardous items or components.

18-23.370 Acquisition of potentially hazardous items from or through another Government agency.

When acquiring supplies or services from or through another Government agency (e.g., see FAR Part 8 and FAR Subpart 17.5), NASA shall request that agency to furnish NASA the data required by FAR Subpart 23.3 and by the clause at FAR | 52.223-3.

## SUBPART 18-23.70 SAFETY AND HEALTH

### 18-23.7000 Scope of subpart.

This subpart sets forth NASA's safety and health policy, assignment of responsibilities, and requirements relating to its contractors.

18-23.7001 Policy.

Contractors and subcontractors shall perform in a safety-and-health-conscious environment that, within the limits of controllable hazards, will --

(a) Protect the life, health, and physical well-being of NASA and contractor employees during their work on NASA programs;

(b) Ensure proper protection of the public from hazards incident to operations of NASA contractors and subcontractors;

(c) Avoid accidental work interruptions that could delay NASA programs;

(d) Prevent contamination of, damage to, and loss of property, supplies, and equipment;

(e) Provide data from which risks and loss factors in space technology related to NASA programs can be accumulated and evaluated; and

(f) Comply with applicable regulations, standards, and guides.

18-23.7002 Responsibility.

(a) Originators of procurement requests. In accordance with installation safety and health screening criteria, originators of procurement requests shall ensure that requests involving safety or health considerations are processed installation through the appropriate safety officials and occupational health officials or other designated responsible officials for (1) determining whether hazards are involved in the procurement, formulating or selecting specific (2) safety and health provisions applicable to the procurement in accordance with FAR and applicable NASA Subpart 23.3 instructions, and (3) determining to what extent a contractor safety and health plan will be required.

(b) Installation safety officials, occupational health officials, or other designated responsible officials. The appropriate installation safety and health officials, within their respective areas of responsibility, shall advise and assist the contracting officer in--

(1) Evaluating prospective contractors' safety and health programs;

(2) Determining to what extent safety and health provisions, if any, should be included in the proposed procurement;

(3) Assigning the specific safety and environmental health provisions to be included in the contract Schedule;

(4) Determining, in coordination with the cognizant program or project manager, the need for and adequacy of contractors' safety and health plans;

(5) Assigning the specific occupational medicine provisions to be included in the contract Schedule;

(6) Determining the extent and form of accident or incident reports required of contractors in compliance with the Federal Reports Act of 1942 and NASA reporting requirements;

(7) Requesting inspections of NASA contractors by representatives of the Occupational Safety and Health Administration (OSHA) when appropriate; and

(8) Reviewing contractor hazardous operations procedures and certification requirements.

## ENVIRONMENT, CONSERVATION, OCCUPATIONAL SAFETY, AND DRUG-FREE WORKPLACE

(c) Headquarters occupational health official. At installations where medical and environmental health officers or other designated responsible officials are not available to assist with the formulation of occupational medicine and environmental health provisions of a contract, the Director, NASA Occupational Health Office, NASA Headquarters (Code FO), shall assume this responsibility.

(d) Contracting officer.

(1) The contracting officer shall obtain advice, assistance, recommendations, and applicable requirements from the appropriate safety and health officials before issuing any solicitation for --

(i) Construction, modification, or demolition of facilities on Government installations;

(ii) Manufacture of aerospace systems, including such items as power units, energy systems, boosters, engines, liquid and solid fuels, oxidizers, and propellants;

(iii) Transportation of fuels, oxidizers, hazardous chemicals, or other hazardous or regulated materials;

(iv) Research, development, or test of engines, related components and propellants involving hazardous operations or the use of hazardous or regulated materials;

(v) Services on Government installations involving hazardous operations or the use of hazardous or regulated materials;

(vi) Operations involving the use of or exposure to potential health hazards (e.g., asbestos, polychlorinated biphenyls (PCB's)), confined space entries, use of hazardous materials, or potential contamination of property or pollution of air, water, vegetation, or soil;

(vii) Activities that may (by either direct or secondary effect) adversely affect the work environment by the use of ionizing radiation, microwaves, noise, lasers, ultraviolet, or infrared sources; or

(viii) Operations necessitating exposures in neutral buoyancy or hyperbaric chambers and operations related to them.

(2) Before issuing a stop-work order under subparagraph (d)(2) of the Safety and Health clause at 18-52.223-70, the contracting officer shall effect coordination with the appropriate safety and health officials and with the cognizant program or project manager.

## 18-23.7003 Hazardous operations.

Hazardous operations are those involving the use of, or handling of, hazardous materials or other materials, phenomena, or elements at abnormal environmental or physical parameters that could result in injury, illness, or property damage if special precautions are not followed (e.g., high-pressure gas operations in excess of 150 pounds per square inch low-pressure gauge, high-volume gas operations, voltages above 550 volts. storage or handling of propellants or explosives, use of "heavy lift" material handling equipment, high- or lowtemperature environments, environments with less than 19.5 percent or more than 25 percent oxygen by volume at normal atmospheric pressure, reduced gravity, radiation, or excessive noise).

## 18-23.7004 Contract clause.

(a) Specific system safety requirements to be included in the contract for the purpose of procuring system safety engineering services shall be defined in the contract Schedule in accordance with applicable NASA instructions.

(b) Any unique facility safety or health requirements that are in addition to the general requirements of the clause at 18-52.223-70, Safety and Health, shall be prescribed as required by 18-23.7002(b)(3).

(c) Except as provided in paragraph (d) below, the clause at 18-52.223-70 shall be included in--

(1) All negotiated contracts of \$1,000,000 or more, unless the contracting officer makes a written determination in accordance with 18-23.7002(b)(2) that, under the circumstances of the procurement, the clause is not necessary;

(2) All construction, repair, or alteration contracts in excess of \$25.000:

(3) All contracts having, within their total requirement, construction, repair, or alteration tasks in excess of \$25,000; and

(4) Any procurement regardless of dollar amount when (i) any deliverable contract end item is of a hazardous nature, or (ii) during the life of the contract it can reasonably be expected that hazards will be generated within the operational environment and the contracting officer determines that they warrant inclusion of the clause.

(d) The clause prescribed in paragraph(c) above may be excluded from any

contract subject to the Walsh-Healey Public Contracts Act (see FAR Subpart 22.6) or the Service Contract Act of 1965 (see FAR Subpart 22.10) in which the of the act and its application constitute regulations implementing adequate safety and health protection. the clause should not be However. approval of the excluded without appropriate safety and health official.

The contracting officer shall insert (e) the provision at 18-52.223-73, Safety and Health Plan, in solicitations containing the clause at 18-52.223-70, when a Safety and Health Plan is to be submitted with the offeror's proposal. This clause may specific modified identify to be information that is to be included in the officer shall contracting plan. The include the plan, as approved by the contracting officer, in any resulting contract. See 18-52.223-70.

(f) When the installation safety/health officials recommend that a Safety and be submitted bv the Health Plan offeror after successful apparently before of selection but notification provision award, the at I contract used with its 18-52.223-73 shall be Alternate I.

## SUBPART 18-23.71 FREQUENCY AUTHORIZATION

## 18-23.7101 Contract clause.

The contracting officer shall insert the clause at 18-52.223-71, Frequency Authorization, in solicitations and contracts calling for developing, producing, constructing, testing, or operating a device for which a radio frequency authorization is required.

## 18-23.7102 Procedures.

The contracting officer shall obtain the necessary frequency authorization and other procedural details from the installation's spectrum manager.

## PART 18-24 PROTECTION OF PRIVACY AND FREEDOM OF INFORMATION

## SUBPART 18-24.1 PROTECTION OF INDIVIDUAL PRIVACY

## 18-24.102 General.

For NASA rules and regulations implementing the Privacy Act, see NMI 1382.17, Privacy Act - NASA Regulations, (14 CFR Part 1212).

### 18-24.103 Procedures.

The Act applies to any contractor maintaining a system of records to accomplish a NASA mission. The following examples of systems of records are provided to assist contracting of ficers in determining whether or not the Privacy Act applies to records maintained by contractors. This list is not all inclusive.

(a) Systems of records to which the Privacy Act applies include --

(1) Records maintained by a contractor in the performance of administrative functions for a Federal agency, such as Federal personnel and payroll records; and

(2) Records maintained by a contractor providing health services to agency personnel, such as health records of Federal employees.

(b) Systems of records to which the Privacy Act does not apply include --

(1) Records maintained by a contractor on individuals employed by the contractor on its own behalf for the purpose of providing supplies and services to the Federal Government; and

(2) Records that --

(i) Are maintained under contracts with educational institutions to provide training;

(ii) Are generated on students working under the contract relative to their attendance (admission forms, grade reports, etc.);

(iii) Are similar to those maintained on other students; and

(iv) Are commingled with their records on other students.

- . \*

#### SUBPART 18-24.2 FREEDOM OF INFORMATION ACT

#### 18-24.202 Policy.

(a) NASA implementation of the Freedom of Information Act is found in NMI 1382.2, Availability of Agency Records to Members of the Public (14 CFR Part 1206).

(b) When receiving any Freedom of Information Act request from the public, the contracting officer shall immediately refer the request to the Freedom of Information Act Officer, NASA Information Center, or other responsible point of contact as set forth in installation procedures.

#### PART 18-25 FOREIGN ACQUISITION

#### SUBPART 18-25.1 BUY AMERICAN ACT--SUPPLIES

#### 18-25.101 Definitions.

"Canadian end product" means (a) an unmanufactured end product mined or produced in Canada or (b) an end product manufactured in Canada, if the cost of its components mined, produced, or manufactured in Canada or the United States exceeds 50 percent of the cost of all its components. The cost of components includes transportation costs to the place of incorporation into the end product.

18-25.102 Policy.

(a) Administrator determinations under FAR 25.102(a)(3), domestic preference inconsistent with the public interest.

(1) Within NASA, these determinations are made by the Associate Administrator for Procurement.

(2) For blanket determinations regarding Canadian end products, see 18-25.103.

(b) Contracting officer and agency determinations under FAR 25.102(a)(4) and 25.102(b), domestic nonavailability of end products.

(1) NASA has determined that the items listed in FAR 25.108(d)(1) are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities or a satisfactory quality.

(2) (i) NASA contracting officers may make any determinations of nonavailability both before entering into contracts and in the course of contract administration; provided, however, that in the latter case the Government receives adequate consideration. A copy of each nonavailability determination shall be included in the contract file.

(ii) The following is the format for nonavailability determinations made by contracting officers:

#### Determination of Nonavailability

Pursuant to the authority contained in the Buy American Act (41 U.S.C. 10) and authority delegated to me by 48 CFR 18-25.102(b), I hereby make the following findings:

a. (Insert a description of the item or items to be procured, including unit, quantity, and estimated cost inclusive of duty and transportation costs to destination.)

b. (Enter the name and address of the proposed contractor or supplier and the country of origin of the items.)

c. (Include a brief statement of the necessity for the procurement.)

d. (Include a statement of facts establishing the nonavailability of similar items of domestic origin. If there is no known domestic item that can be used as a reasonable substitute, make a statement to this effect.)

On the basis of these findings, I determine that the item(s) described in paragraph a above is/are not mined, produced, or manufactured (or the articles, materials, or supplies from which the item(s) is/are manufactured are not mined, produced, or manufactured) in the United States in sufficient and reasonably available quantities of a satisfactory quality.

Accordingly, the Buy American Act requirement that procurement be made from domestic sources and that the item(s) be of domestic origin is not applicable to this procurement, since the procurement is within the Buy American Act's nonavailability exception.

Authority is granted to procure the above-described item(s) of foreign origin (country or origin) at an estimated total cost of \$\_\_\_\_\_\_, including duty and transportation costs to destination.

(Date) \_\_\_\_\_

Contracting Officer \_\_\_\_\_

18-25.103 Agreements with certain foreign governments.

(a) Canadian end products and Canadian
 components. The Associate Administrator for Procurement has determined that when application of the procedure in paragraph (c)(1) below results in the acquisition of Canadian end products, it would be inconsistent with the public interest to acquire domestic end products (see FAR 25.102(a)(3)).

(b) The Associate Administrator for Procurement has also determined that it would be inconsistent with the public interest to apply restrictions of the Buy American Act to components mined, produced, or manufactured in Canada (see paragraph (c)(2) of this section).

(c) Accordingly, contracting officers shall--

(1) Evaluate all offers for Canadian end products on a parity with offers for domestic end products, except that applicable duty (whether or not a duty-free entry certificate may be issued) shall be included in evaluating offers for Canadian end products; and

(2) Treat all components mined, produced, or manufactured in Canada as though they were mined, produced, or manufactured in the United States, except that, in evaluating offers for such components, applicable duty (whether or not a duty-free entry certificate may be issued) shall be included.

## 18-25.105 Evaluating offers.

(a) **Examples.** The following examples illustrate how to evaluate offers of foreign (non-Canadian) end items, using the provisions of FAR 25.105.

(1) **Example 1:** Price differential of 6 percent or less between low foreign (non-Canadian) and low domestic offer from a large business not in a labor surplus area. See Table 18-25-1. Since the low domestic offer is not unreasonable (that is, the low domestic offer is less than the low foreign offer plus 6 percent), award shall be made to the low domestic offeror.

(2) **Example 2:** Price differential of 6 percent between low foreign (non-Canadian) and low domestic offer from an offeror that is not a small business and/or labor surplus area concern. See Table 18-25-2.

(3) **Example 3:** Solicitation permits multiple awards, and FAR 25.105(c) permits application of the evaluation procedure in 25.105(a) on a group or item-by-item basis. Each domestic offeror is a small business or labor surplus area concern, requiring that the lowest acceptable foreign offer be increased by 12 percent. When an award exceeding \$250,000 would be made to a domestic concern if the 12-percent factor were applied, but not if the 6-percent factor were applied, FAR 25.105(c) requires that the award be submitted to the agency head for decision as to whether award to the domestic concern would involve unreasonable cost. In NASA, the Administrator has delegated this authority to the Associate Administrator for

Procurement. See Table 18-25-3.

 (i) For items 1 and 3, award would be made to the low acceptable domestic offeror, but would not be
 submitted to the Associate Administrator for Procurement because--

(A) The low acceptable domestic offeror is a small business and/or labor surplus area concern;

(B) The differential does not exceed 12 percent on an item-by-item basis; and

(C) The total low acceptable domestic offer does not exceed \$250,000.

 (ii) For items 2 and 4, award would be made to the low acceptable foreign offeror, but would not be I submitted to the Associate Administrator for Procurement because--

(A) The low acceptable domestic offeror is a small business or labor surplus area concern;

(B) The differential exceeds 12 percent on an item-by-item basis; and

(C) The low acceptable domestic offer does not exceed \$250,000.

**Example 4:** Solicitation permits (4) multiple awards, and FAR 25.105(b) permits application of the evaluation procedure in 25.105(a) on a group or itemby-item basis. Each domestic offeror is a small business or labor surplus area concern, requiring that the lowest acceptable foreign offer be increased by 12 percent. When an award exceeding \$250,000 would be made to a domestic concern if the 12-percent factor were applied, but not if the 6-percent factor were applied, FAR 25.105(c) required that the award be submitted to the agency head for decision as to whether award to the domestic concern would involve unreasonable cost. In NASA, the Administrator has delegated

this authority to the Associate | Administrator for Procurement. See Table 18-25-4. (Note that both offers include transportation to destination and the foreign offer includes duty.)

(i) For the grouping of items 1, 2, 3, and 4, the proposed total would be submitted to the Associate Administrator | for Procurement for decision pursuant to FAR 25.105(c), which requires the agency head to decide whether award to a domestic concern would involve unreasonable cost when--

(A) The low acceptable domestic offeror on each line item is a small business or labor surplus area concern and the low acceptable foreign offer for each line item must be increased for evaluation purposes by 12 percent (see FAR 25.105(a)(2));

(B) On an item-by-item basis, the low acceptable domestic price exceeds the low acceptable foreign price plus 6 percent, but is less than the foreign price plus 12 percent; or

(C) The grouping of the four line items for purposes of a single award exceeds \$250,000.

(ii) Table 18-25-5 illustrates the pertinent figures in applying FAR 25.105(c). Columns 3 and 4 illustrate how award on each item would go to the domestic offeror if the 12-percent factor were added to the foreign offer. Addition of the 12-percent factor makes the foreign offer unreasonable. However, addition of only the 6-percent factor to the foreign offer makes the domestic offer unreasonable in each case because, even with the addition of the 6 percent, the foreign offer is still lower than the domestic one. Stated otherwise, because the low acceptable domestic offeror is a small business or labor surplus area firm, the price of the low acceptable foreign offeror must be raised by 12 percent for evaluation purposes. Accordingly, each evaluated price of items 1, 2, 3, and 4 exceeds the domestic price for that item. However, in each case, if only the 6-percent factor is added instead of the 12-percent factor, the

individual awards would go to the foreign offeror instead of the domestic offeror, thus requiring the procurement to be submitted to the Associate Administrator for Procurement for a final decision as to

whether award to the domestic concern would involve unreasonable cost.

(b) **Tie bids.** If the evaluation procedure (that is, application of differentials) set forth at FAR 25.105 results in a tie between

the foreign offer and the domestic offer, award shall be made to the domestic offeror.

# 18-25.108 Excepted articles, materials, and supplies.

NASA has determined that the end products listed at FAR 25.108(d) shall be treated as domestic.

#### SUBPART 18-25.2 BUY AMERICAN ACT--CONSTRUCTION MATERIALS

18-25.202 Policy.

 (a) Exception for unreasonable cost of domestic construction materials. The
 Associate Administrator for Procurement has determined that when the application of the procedure set forth in 18-25.203 results in the acquisition of foreign construction materials, the use of domestic construction materials would unreasonably increase the cost.

(b) Exception for impracticability of using domestic construction materials. The
 Associate Administrator for Procurement has determined that, when there is a justification as required by FAR 25.203(b), the use of domestic construction material would be impracticable.

(c) Exception for nonavailability of domestic construction materials.

(1) NASA has determined that construction materials listed in FAR 25.108(d)(1) are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

In addition, subject to the (2) approval of the head of the contracting activity where required (see FAR 25.202(b)), NASA contracting officers may make additional determinations of nonavailability under FAR 25.202(a)(3) both before entering into contracts and in the course of contract administration; provided, however, that in the latter case the Government receives adequate consider-A copy of each nonavailability ation. determination shall be included in the contract file. The format for these nonavailability determinations is at 18-25.102(b).

18-25.203 Evaluating offers.

When an offer involving the use of additional foreign construction materials (other than those listed as exceptions in the solicitation; see 18-25.202(c) and 18-52.225-71) would be the low acceptable offer but for the Buy American Act, award shall be made on it, provided that all the following conditions are satisfied:

(a) The offer specifically designates the foreign construction materials proposed for use.

(b) As to each such foreign construction material, the data accompanying the offer show that the cost of any available acceptable domestic construction material delivered at the construction site would exceed by more than 6 percent the cost (including duty) of the designated foreign construction material delivered at the construction site.

(c) As to each such foreign construction material, the contracting officer is satisfied that the showing of a cost differential of more than 6 percent as required by paragraph (b) of this section is correct as of the date of opening of the bids or receipt of proposals.

(d) The offer is low after adding to it, for evaluation purposes, a factor of 6 percent of the cost (including duty) of all offered foreign construction materials (delivered at the construction site) that qualify under the conditions stated in paragraphs (a), (b), and (c), of this section.

# 18-25.205 Solicitation provision and contract clause.

#### 18-25.205-70 NASA contract clause.

The clause at 18-52.225-71, Nondomestic Construction Materials, shall be included in all contracts for construction. Any articles of materials and supplies that have been the subject of additional determinations under 18-25.202(c)(2) shall be listed in the clause.

-----

-----

#### SUBPART 18-25.3 BALANCE OF PAYMENTS PROGRAM

18-25.304 Excess and near-excess foreign currencies.

The NASA Comptroller shall make the determination of the feasibility of using excess or near-excess currency required by FAR 25.304(c). The Director of Financial Management (Code BF) maintains a current list of excess and near-excess currency-countries and arranges for its publication in the NASA Travel Regulations.

.

#### SUBPART 18-25.4 PURCHASES UNDER THE TRADE AGREEMENTS ACT OF 1979

#### 18-25.402 Policy.

The threshold for procurements subject to the Trade Agreements Act of 1979 is \$176,000.

# 18-25.402-70 Centralization of foreign acquisition.

The requirement of Subpart 18-25.70 that the responsibility for foreign contract acquisition be centralized at NASA Headquarters does not apply to acquisitions subject to the Trade Agreements Act of 1979. However, each contracting office (including JPL) shall Headquarters, Intercoordinate with national Relations Division (Code IRD), before awarding a contract for a designated-country end product.

#### 18-25.403 Exceptions.

# 18-25.403-70 Coordination of arms purchases.

With respect to the exceptions in FAR 25.403(d), if a contracting officer considers an individual acquisition to be a purchase "indispensable for national security for national defense or purposes" and appropriate for exclusion from the provisions of FAR 25.4 and of this Subpart 18-25.4, the contracting officer shall submit a request with supporting rationale to Headquarters, Coordination of and Office Policy International Relations (Code I), for coordination with the Office of the U.S. Trade Representative.

#### 18-25.405 Procedures.

Solicitations shall require that applicable duty charges be included in the offered price, whether or not dutyfree certificates are obtained. Duty charges shall be included in the price evaluation.

SUBPART 18-25.6 CUSTOMS AND DUTIES

#### 18-25.604 Exempted supplies.

The contracting officer shall, when purchasing items listed in Schedule 8 of the Tariff Schedules of the United States, take note of the following:

(a) Item 832 of Schedule 8 provides that "emergency war materials purchased abroad" may be imported duty-free upon certification by the Military Departments to the Commissioner of Customs. Accordingly, when a Military Department makes a purchase on behalf of NASA, or when NASA makes a purchase for a Military Department, the contracting officer shall use this duty-free exemption authority to the maximum extent practicable.

(b) Item 864.30 of Schedule 8 provides for the duty-free exemption of "articles intended solely for testing, experimental, or review purposes including plans, specifications, drawings, photographs, and similar articles for use in connection with experimental study," subject to the limitations in Headnote 1 under Item 862.20 of Schedule 8.

(c) Certain supplies (not including equipment) for vessels or aircraft operated by the United States are exempt from duty under 19 U.S.C. 1309.

(d) Under the Educational, Scientific, and Cultural Materials Importation Act of 1966, NASA has been determined eligible to request duty-free entry for instruments or apparatus under Items 851.60 and 851.65 of Schedule 8. Pursuant to this authority, the contracting officer may apply for duty-free entry of such instruments or apparatus or related repair components if no instrument or apparatus of equivalent scientific value for the purpose for which the instrument or apparatus is intended is manufactured in the United States.

(e) Item 837.00 of Schedule 8 and the Subpart A headnote of Part 3, Schedule 8, provide for duty-free entry of articles launched into or returned from space by NASA, including spare parts or necessary and uniquely associated support equipment. The contracting officer shall consult 14 CFR 1214.15 (NMI 8610.18, Duty-Free Entry of Space Articles) for procedures for obtaining the required Headquarters certificates for the duty-free entry of these articles.

#### 18-25.605 Contract clause.

18-25.605-70 NASA contract clause.

The contracting officer shall insert the clause at 18-52.225-73, Duty-Free Entry Supplies, in solicitations and contracts where the possibility exists of receiving duty-free supplies. Insert the supplies that are to be accorded duty-free entry in accordance with FAR 25.604 and 18-25.604.

#### 18-25.670 Legal representation.

The Office of the General Counsel (Code G), NASA Headquarters, shall represent NASA before the Court of Appeals for the Federal Circuit, in matters regarding customs and duties.

#### SUBPART 18-25.7 RESTRICTIONS ON CERTAIN FOREIGN PURCHASES

#### 18-25.703 Exceptions.

When it is proposed to procure supplies originating from sources restricted by FAR 25.702(a) for public use outside the United States, or when a contractor proposes to use such supplies in performing a contract for construction outside the United States, the contracting officer shall make a written finding justifying the procurement. The finding shall set forth the unusual situation, such as an emergency or the nonavailability of acceptable substitute supplies of domestic origin or from sources other than the restricted sources. The contracting officer shall make the finding a part of the contract file. If the proposed procurement is not carried out by small purchase procedures, the contracting officer shall forward the finding in triplicate to the Associate Administrator for | Procurement (Code HS), for approval. 

#### SUBPART 18-25.9 ADDITIONAL FOREIGN ACQUISITION CLAUSES

# 18-25.901 Omission of the Examination of Records clause.

(a) The contracting officer's request for exclusion of the clause at 52.215-1, Examination of Records by the Comptroller General, shall consist of the proposed determination and findings (together with any relevant support information) prepared for the Administrator's signature according to the format in FAR 25.901(d). The procurement officer shall forward the package to the Associate | Administrator for Procurement (Code HC).

(b) When the clause at 52.215-1 is omitted pursuant to FAR 25.901(c)(1)(i)(B), the contracting officer shall prepare a written report in triplicate to be furnished to the Congress. The head of the installation concerned shall sign the report and forward it to the Associate Administrator for | Procurement (Code HC), who shall submit it to the Administrator for the Administrator's signature and forwarding to Congress.

25-70:1

#### SUBPART 18-25.70 FOREIGN CONTRACTS

#### 18-25.7000 Scope of subpart.

This subpart prescribes policy and procedures for negotiating foreign contracts.

#### 18-25.7001 Definition.

"Foreign contract acquisition," as used in this subpart, means the acquisition by negotiation of supplies or services, including construction work and research and development when the work is to be performed outside the United States, its possessions, and Puerto Rico by a foreign government or instrumentality thereof or by a foreign private contractor. The term does not include--

(a) Negotiation of government-togovernment agreements;

(b) Negotiation of contracts with domestic concerns involving work to be performed outside the United States, its possessions, and Puerto Rico;

(c) Contracts with the Canadian Commercial Corporation; or

(d) Acquisition of books and periodicals from foreign sources of supply.

#### 18-25.7002 Policy.

Foreign contracts are a specialized area that often requires involved negotiation with instrumentalities of foreign governments. Some of the requirements for contract clauses imposed by U.S. laws conflict with statutory prohibitions imposed by foreign countries. The resolution of these issues generally involves close coordination between the International Relations Division (Code IRD) and the Office of General Counsel, NASA Headquarters, and the Department of State. Accordingly, the responsibility for placing foreign contracts has been centralized at NASA Headquarters (but see 18-25.402-70).

# 18-25.7003 Assignment of responsibility for contract negotiation.

The Headquarters Acquisition Division (Code HW), in conjunction with the International Relations Division (Code IRD) and the Office of General Counsel, is responsible for negotiating and executing contracts with foreign governments and private foreign organizations. This assignment of responsibility is specifically limited to foreign contract acquisition, as defined at 18-25.7001.

#### 18-25.7004 Procedure.

A Headquarters or field installation technical office requiring a foreign contract acquisition shall submit a properly approved procurement request through channels to the Headquarters Acquisition Division (Code HW) for action. Contract forms and clauses for foreign contracts will be as prescribed on a case-by-case basis by the Associate Administrator for | Procurement.

# 18-25.7005 Assignment of contract administration.

(a) General. Assignment of contract administration responsibility shall be made by agreement between the initiating office and the Headquarters Acquisition Division. Since principal responsibility for monitoring contract progress and performance generally rests with a field installation, the Headquarters Acquisition Division normally will designate the cognizant procurement officer as its authorized representative for contract administration.

#### (b) Contracts performed in Canada.

(1) When, in accordance with FAR Part 42, contract administration and related support service functions of the Defense Contract Administration Services are desired for a contract to be performed in Canada (whether placed with Canadian Commercial Corporation or directly with a Canadian firm), a letter or delegation shall be issued to--

Defense Supply Agency, DCASMA, Ottawa 6th Floor, Canadian Building 219 Laurier Avenue, West Ottawa, Ontario, Canada (K1A035)

(2) So that DCASMA, Ottawa, can utilize the capabilities of Canadian Government agencies in performing contract administration services functions, each letter of delegation shall provide that DCASMA, Ottawa, is delegated authority to act as the contracting officer's representative, with power of further delegation for the performance of the requested services.

# 18-25.7006 Contracts with foreign nationals.

(a) Proposals by NASA staff members involving program or contract possibilities with foreign nationals shall be coordinated with the International Relations Division (Code IRD), NASA Headquarters, before any contracts are made with foreign nationals.

(b) Informal discussions between NASA staff members and foreign nationals could give rise to expectations concerning program or contract possibilities that are not supported by program requirements. Such situations must be avoided to preclude possible embarrassment to the United States as well as to NASA.

(c) Requests or offers by foreign nationals to NASA staff members on program or contract matters shall be reported promptly to the International Relations Division (Code IRD).

#### SUBPART 18-25.71 NASA DOMESTIC PREFERENCE

#### 18-25.7100 Scope of subpart.

This subpart implements Sec. 209 of Pub. L. 100-685, the National Aeronautics and Space Administration Authorization Act, Fiscal Year 1989, and Sec. 110 of Pub. L. 101-611, the National Aeronautics and Space Administration Authorization Act, Fiscal Year 1991, and applies only to solicitations and contracts which are more than 50% funded with Fiscal Year 1989 or 1991 funds. There is no corresponding requirement for Fiscal Year 1990 funds.

#### 18-25.7101 Definitions.

"Code country," as used in this subpart, means a country that is a signatory to the Agreement on Government Procurement (the "Procurement Code"). The Code countries are Austria, Belgium, Canada, Denmark, Federal Republic of Germany, Finland, France, Hong Kong, Ireland, Israel, Italy, Japan, Luxembourg, Netherlands, Norway, Singapore, Sweden, Switzerland, and United Kingdom.

"Code country end product," as used in this subpart, means an article that (a) is wholly the growth, product, or manufacture of the Code country, or (b) in the case of an article which consists in whole or in part of materials from another country or instrumentality, has been substantially transformed into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was so transformed. The term includes services (except transportation incidental to its supply: services) that the value those provided, of incidental services does not exceed that of the product itself. It does not include service contracts as such (see FAR 25.401).

"Components," as used in this subpart, means those articles, materials, and supplies incorporated directly into the end products.

"Domestic firm," as used in this subpart, means a business entity that is organized under the laws of the United States and that conducts business operations in the United States.

"Domestic product." as used in this subpart, means the final manufactured end product of a domestic firm that will be completely assembled in the United States and of which, when completely assembled, not less than 51 percent of the cost of all the components will be domestically incurred.

*"Foreign firm,"* as used in this subpart, means a business entity other than a domestic firm.

"Procurement code," as used in this subpart, means the Agreement on Government Procurement (see FAR 25.400).

#### 18-25.7102 Policy.

(a) When the use of competitive procedures to buy an end product (see FAR 6.1 and 6.2) results in an apparent award of a contract to a foreign firm, the contracting officer shall award the contract to a domestic firm offering a domestic product if the domestic offer does not exceed the foreign offer by more than six percent.

(b) Paragraph (a) of this section does not apply if --

(1) Such applicability would not be in the public interest;

#### FOREIGN ACQUISITION

(2) Compelling national security considerations require otherwise; or

(3) The United States Trade Representative determines that such an award would be in violation of the General Agreement on Tariffs and Trade or an international agreement to which the United States is a party. Examples of such international agreements are the Procurement Code, the U.S.-Canada Free Trade Agreement, and the U.S.-Israel Free Trade Agreement.

18-25.7103 Procedures.

(a) The NASA domestic preference procedure is to be applied when the use of competitive procedures, including any other domestic preference program or exception thereto, indicates award is to be made to a foreign firm.

(b) The contracting officer shall award the contract to that domestic firm offering a domestic product whose price does not exceed the price of the low foreign firm by more than six percent. officer unless the contracting has documented the file to indicate that one or more of the conditions at 18-25.7102(b) applies.

18-25.7104 Determination by United States Trade Representative.

The United States Trade Representative has determined that when NASA is

procuring supply-type products, application of the domestic preference established by the NASA Authorization Acts for Fiscal Years 1989 and 1991 would violate the General Agreement on Tariffs and Trade and certain international agreements to which the United States is a party, when the following conditions exist:

(a) NASA is using competitive procurement procedures; and

(b) NASA receives one or more offers from foreign firms to supply --

(1) A Code country end product at a price above the Trade Agreements Act threshold;

(2) A Canadian end product (see FAR 25.401) at a price above \$25,000 and below the Trade Agreements Act threshold; or

(3) An Israeli end product at a price above \$50,000.

# 18-25.7105 Solicitation provision and contract clause.

The contracting officer shall insert the provision at 18-52.225-74, NASA Domestic Preference Certificate, and the clause at 18-25.225-75, NASA Domestic Preference, in all competitive solicitations and contracts for supplies which are more than 50% funded with Fiscal Year 1989 or 1991 funds.

#### SUBPART 18-25.72 LIMITATION ON STRATEGIC DEFENSE INITIATIVE (SDI) CONTRACTING

#### 18-25.7200 Procedures.

Public Law 110-180, section 222, forbids the use of funds appropriated to or for the use of the DOD, with certain exceptions, for the award of any contract with a foreign government or firm when the contract is for research, development, test, or evaluation (RDTE) in connection with the Strategic Defense (SDI). Therefore, when Initiative contracting with DOD SDI funds, NASA contracting officers shall follow the policies and procedures set forth in section 225.7013 of the Defense Federal Regulation Acquisition Supplement (DFARS). If an award is based on a determination required by paragraph (d)(1) of DFARS 225.7013, the contracting officer shall, within 30 days of award, send copies of the determination to the SDI Organization (SDIO) and to the Procurement Policy Division (HP), NASA, Washington DC, 20546.

### PART 18-27 PATENTS, DATA, AND COPYRIGHTS

#### SUBPART 18-27.3 PATENT RIGHTS UNDER GOVERNMENT CONTRACTS

#### 18-27.303 Contract clauses.

In accordance with FAR 27.303, see 18-27.373 for directions for using the clauses at FAR 52.227-11 and 52.227-13.

#### 18-27.370 Scope of subpart.

As authorized by FAR 27.300, in accordance with statutory requirements, this forth NASA policy. subpart sets procedures, and contract clauses with discoveries. inventions, to respect improvements, and innovations made in the performance of any work under any contract awarded by or for NASA. Except where the FAR is specifically cited, this subpart supersedes FAR Subpart 27.3 in its entirety.

#### 18-27.371 Definitions.

"Administrator," as used in this subpart, means the Administrator of NASA or a duly authorized representative.

"Contract," as used in this subpart, means any actual or proposed contract, agreement, understanding, or other arrangement, and includes any assignment, substitution of parties, or subcontract executed or entered into thereunder.

"Made," as used in this subpart, means conceived or first actually reduced to practice; provided, that in the case of a variety of plant, the date of determination (as defined in Section 41(d) of the Plant Variety Protection Act, 7 U.S.C. 2401(d)) must also occur during the period of contract performance.

"Nonprofit organization." as used in this subpart, means a university or other institution of higher education or an organization of the type described in section 501(c)(3) of the Internal Revenue Code of 1954 (26 U.S.C. 501(c)) and exempt from taxation under section 501(a) of the Internal Revenue Code (26 U.S.C. 501(a)), or any nonprofit scientific or educational organization qualified under a State nonprofit-organization statute.

"Practical application," as used in this subpart, means manufacturing, in the case of a composition or product; practice, in the case of a process or method; or operation, in the case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law and Government regulations, available to the public on reasonable terms.

"Reportable item," as used in this subpart, means any invention, discovery, improvement, or innovation of the contractor, whether or not patentable or otherwise protectible under Title 35 of the United States Code, conceived or first actually reduced to practice in the performance of any work under any NASA contract or in the performance of any work that is reimbursable under any clause in any NASA contract providing for reimbursement of costs incurred before the effective date of the contract.

"Small business firm," as used in this subpart, means a domestic small business concern as defined at 15 U.S.C. 632 and implementing regulations of the Administrator of the Small Business Administration. (For the purpose of this definition, the size standard contained in 13 CFR 121.3-8 for small business

#### PATENTS, DATA, AND COPYRIGHTS

contractors and in 13 CFR 121.3-12 for small business subcontractors shall be used. (See FAR Part 19.)

"Subject invention," as used in this subpart, means any reportable item that is or may be patentable or otherwise protectible under Title 35 of the United States Code, or any novel variety of plant that is or may be protectible under the Plant Variety Protection Act (7 U.S.C. 2321 et seq.).

18-27.372 Policy.

#### (a) Introduction.

NASA policy with respect to any (1)invention, discovery, improvement, or innovation made in the performance of any under any NASA contract or work subcontract with other than a small business firm or a nonprofit organization and the allocation of related property rights is based upon Section 305 of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2457) (the Act); and, to the extent consistent with this statute, the Presidential Memorandum on Government Patent Policy to the Heads of Executive Departments and Agencies, dated February 18, 1983, and Section 1(b)(4) of Executive Order 12591. NASA policy with respect to any invention made in the performance of experimental, developmental, or research work with a small business firm or a nonprofit organization is based on 35 U.S.C. Chapter 18, as amended.

(2)The objectives of NASA policy with respect to any NASA contract subject to Section 305 of the Act are to obtain the prompt reporting of inventions, discoveries. improvements, and innovations made in the performance of any work thereunder (whether or not patentable) in order to protect the Government's interest in them and to provide their widest practicable and appropriate dissemination, early utilization, expeditious development, and continued availability for the benefit of the scientific, industrial, and commercial communities and the general public.

(3) In addition, the objectives of NASA policy with respect to inventions made in the performance of work under all NASA contracts are to use the patent system to promote the utilization of inventions arising from federally supported research or development; to encourage maximum participation of industry in federally funded research and development efforts; to ensure that these inventions are used in a manner to promote full and open competition and free enterprise: to promote the commercialization and public availability of the inventions made in the United States by United States industry and labor; to ensure that the Government obtains sufficient rights in federally supported inventions to meet the needs of the Government and protect the public against nonuse or unreasonable use of inventions; and to minimize the cost of administering policies in this area.

#### (b) Contractor right to title.

(1) With respect to any NASA contract with other than a small business firm ог a nonprofit organization (contracts subject to Section 305 of the Act; see paragraph (d) below), it is the policy of NASA to waive the rights (to acquire title) of the United States (with the reservation of a Government license set forth in paragraph (c) below and the march-in rights of paragraph (f) below) in and to any invention made in the performance of work under the contract if the Administrator determines that the interests of the United States will be served by this action. This policy, as well as the procedures and instructions for such waiver of rights, is stated in the NASA Patent Waiver Regulations, 14 CFR Section 1245, Subpart 1. These regulations adopt the Presidential Memorandum on Government Patent Policy

İ.

## PATENT RIGHTS UNDER GOVERNMENT CONTRACTS

of February 18, 1983, as a guide in acting on a contractor's request for such for waiver of rights (i.e., request Waiver may be requested in title). advance of contract award for any or all of the inventions that may be made under individually contract. or for the identified inventions reported under the contract. When waiver of rights is granted, the contractor's right to title, the rights reserved by the Government, and other conditions and obligations of the waiver shall be included in an Instrument of Waiver executed by NASA and the party receiving the waiver.

(2) With respect to any contract with a small business firm or a nonprofit organization, the contractor's right to receive title is as stated in FAR 27.302(b).

(3) It is also a policy of NASA to consider for a monetary award, when referred to the NASA Inventions and Contributions Board, any invention made in the performance of a NASA contract and reported to NASA in accordance with this subpart, and for which an application for patent has been filed.

#### (c) Government license.

(1) For each invention made in the performance of work under any NASA contract with other than a small business firm or a nonprofit organization and for which waiver of rights has been granted in accordance with 14 CFR Section 1245. Administrator shall Subpart 1. the an irrevocable, nonexclusive, reserve nontransferable, royalty-free license for the practice of such invention throughout the world by or on behalf of the United States or any foreign government in accordance with any treaty or agreement with the United States.

(2) For any invention made in the performance of work under any contract not subject to the Government license of subparagraph (1) above, FAR 27.302(c) shall apply.

#### (d) Government right to receive title.

(1) Under Section 305(a) of the Act (42 U.S.C. 2457(a)), any invention made in the performance of work under a NASA contract becomes the exclusive property certain of the United States when determinations stated in the Act relating to the employment status of the person making the inventions are made, unless the Administrator waives all or any part of the rights. NASA has adopted the Presidential Memorandum on Government Patent Policy of February 18, 1983, as a guide in acting on a contractor's request for waiver (see paragraph (b) above).

(2) Thus, NASA acquires title to any subject invention under any NASA contract with other than a small business firm or a nonprofit organization (i.e., those contracts subject to Section 305(a) of the Act) unless waiver has been granted and made applicable to that invention. Such contracts are required to contain the clause at 18-52.227-70, New Technology. Paragraph (b) of that clause sets forth the circumstances under which NASA acquires title to a subject invention under Section 305(a). When waiver is granted, the contractor's right included in an title will be Instrument of Waiver executed by NASA and the party receiving the waiver.

(3) With respect to any contract with a small business firm or a nonprofit organization, FAR 27.302(d) shall apply.

(e) Utilization reports. FAR 27.302(e) shall apply, except that for any NASA contract with other than a small business firm or a nonprofit organiza-tion, the requirements for utilization reports shall be as set forth in the NASA Patent Waiver Regulations, 14 CFR Section 1245, Subpart 1, and any Instrument of Waiver executed under those Regulations.

(f) March-in rights. FAR 27.302(f) shall apply, except that for any NASA contract with other than a small business firm or a nonprofit organization, the march-in

## PATENTS, DATA, AND COPYRIGHTS

rights shall be as set forth in the NASA Patent Waiver Regulations, 14 CFR Section 1245, Subpart 1, and any Instrument of Waiver executed under those Regulations.

(g) Preference for United States industry. FAR 27.302(g) shall apply, except that with respect to any NASA contract with other than a small business firm or a nonprofit organization, any waiver of the requirements of FAR 27.302(g) shall be in accordance with the NASA Patent Waiver Regulations, 14 CFR Section 1245, Subpart 1.

(h) Small business preference. FAR 27.302(h) shall apply.

#### (i) Minimum rights to contractor.

(1) With respect to any NASA contract with other than a small business firm or a nonprofit organization, for each reported subject invention to which the Government acquires title, the normally contractor is granted (in accordance with 14 CFR Section 1245. Subpart 1) a revocable, nonexclusive, license royalty-free in each patent application filed in any country and in any resulting patent. The license extends to any of the contractor's domestic subsidiaries and affiliates within the corporate structure of which the contractor is a part, and includes the right to grant sublicenses of the same scope to the extent the contractor was legally obligated to do so at the time the contract was awarded. The license and right are transferable only with the approval of the Administrator, except when transferred to the successor of that part of the contractor's business which the invention pertains.

(2) The contractor's domestic license granted in accordance with subparagraph (1) above may be revoked or modified by the Administrator to the extent necessary to achieve expeditious application practical of the subject invention pursuant to an application for

an exclusive license submitted in accordance with 14 CFR Section 1245, Subpart 2, Licensing of NASA Inventions. This license will not be revoked in any field of use or geographical area in which the contractor has achieved practical application and continues to make the benefits the invention of reasonably accessible to the public. The license in any foreign country may be revoked or modified at the discretion of the Administrator to the extent that the contractor, its licensees. or its domestic subsidiaries or affiliates have failed to achieve practical application that country. The procedures for in revocation or modification of anv license, domestic or foreign, shall be in accordance with 14 CFR 1245.211.

(3) With respect to any contract with a small business firm or a nonprofit organization, FAR 27.302(h) shall apply.

(j) Confidentiality of inventions. FAR 27.302(j) shall apply.

18-27.373 Contract clauses and solicitation provisions.

(a) Patent rights--retention by the contractor (short form).

(1) The contracting officer shall insert the clause at FAR 52.227-11. Patent **Rights--Retention** bv the Contractor (Short Form). in any solicitation and contract with a small business firm or a nonprofit organization for the performance of experimental, developmental, or research work unless a determination is made to use another clause in accordance with one of the exceptions set forth in paragraph 18-27.373(c). Also see 18-27.374-4.

(2) When the clause at FAR 52.227-11 is included in a solicitation or contract, it shall be modified as set forth at 18-52.227-11.

(3) If the acquisition of patent rights for the benefit of a foreign

## PATENT RIGHTS UNDER GOVERNMENT CONTRACTS

government is required under a treaty or executive agreement, or if the Administime of determines at the trator contracting that it would be in the national interest to acquire the right to sublicense foreign governments or international organizations pursuant to any existing or to-be-entered-into treaty or agreement, the contracting officer shall use the clause with its Alternate I. If other rights are necessary to effectuate the treaty or agreement, Alternate I may be appropriately modified. In long term contracts, Alternate II shall be added if treaties effectuate or to necessary agreements entered into.

(4) To qualify for the clause at FAR 52.227-11, a prospective contractor may be required to certify that it is either a small business firm or а organization. If there is nonprofit reason to question the status of the prospective contractor, the contracting officer may file a protest in accordance with 13 CFR 121.3-5 if small business firm status is questioned or require the contractor to furnish prospective evidence of its status as a nonprofit organization.

(b) New technology. As authorized in FAR contracting officer 27.303(c)(2), the shall insert the clause at 18-52.227-70, New Technology, in any NASA contract (and solicitation therefor) with other than a business firm or a nonprofit small organization, if the contract is to be performed in the United States, its possessions, or Puerto Rico and has as a purpose the performance of experimental, design. research, or developmental, engineering work (see also 18-27.374-3 and 18-27.374-4). Contracts for any of the following purposes may be considered to involve the performance of work of the type described above (these examples are illustrative and not limiting):

(1) Conduct of basic or applied research.

(2) Development, design, or manufacture for the first time of any machine, article of manufacture, or composition of matter to satisfy NASA's specifications or special requirements.

(3) Development of any process or technique for attaining a NASA objective not readily attainable through the practice of a previously developed process or technique.

(4) Testing of, evaluation of, or experimentation with a machine, process, concept, or technique to determine whether it is suitable or could be made suitable for a NASA objective.

(5) Construction work or architectengineer services having as a purpose the performance of experimental, developmental, or research work or test and evaluation studies involving such work.

(6) The operation of facilities or the coordination and direction of the work of others, if these activities involve performing work of any of the types described in subparagraphs (1) through (5) above.

(c) Other patent rights clauses. The contracting officer shall use a patent rights clause other than as specified in paragraph (a) or (b) above, under the circumstances set forth in the following subparagraphs (1) through (3).

(1) When work is to be performed outside the United States. its and Puerto Rico bv possessions, contractors that are not domestic firms. clause at 18-52.227-85, Invention the Reporting and Rights--Foreign, shall be contracting officer unless the used of with concurrence the determines, installation's Patent Counsel, that the objectives of the contract would be better served by use of the clause at FAR 52.227-13, Patent Rights--Acquisition by the Government. For the purposes of this subparagraph (1), the contracting officer may presume that a contractor is not a domestic firm unless it is known that the

## PATENTS, DATA, AND COPYRIGHTS

firm is not foreign owned, controlled, or influenced. (See FAR 27.304-4(a) regarding subcontracts with U.S. firms.)

(2) When a contract is placed for another Government agency, that agency may request use of a specific patent rights clause (see FAR 27,304-2). If the agency for which the contract is to be placed does not request a specific clause, the contracting officer, upon consultation with the installation's Patent Counsel, may use the clause of paragraph (a) or (b) above. as applicable.

(3) When the contract is with a small business firm or a nonprofit organization for the performance of experimental, developmental, or research work, a determination may be made not to use the clause prescribed in paragraph (a) above by using the criteria and procedures in FAR 27.303(d). In such case, the installation's Patent Counsel is to be consulted for the appropriate clause to use.

Requests for waiver of rights to (d) inventions. The procedures for requesting waiver of rights to any inventions made in the performance of work under any NASA contract with other than a small business firm or a nonprofit organization are set forth in the NASA Patent Waiver Regulations, 14 CFR Section 1245, Subpart 1. In order to advise prospective contractors of those procedures, the contracting officer shall insert the provision at 18-52.227-71, Requests for Waiver of Rights to Inventions, in all solicitations that include the clause at 18-52.227-70, New Technology.

Designation of New Technology Repre-(e) sentative and Patent Representative. The contracting officer shall insert the clause at 18-52.227-72, Designation of New Technology Representative and Patent Representative, in all solicitations and containing contracts either of the clauses prescribed in paragraph (a) or (b) above. It may also be inserted, upon

#### PATENT RIGHTS UNDER GOVERNMENT CONTRACTS

consultation with the installation's Patent Counsel, in solicitations and contracts using another patent rights clause in accordance with paragraph (c) above.

provision. The con-(f) Solicitation officer shall insert the tracting provision at 18-52.227-84, Patent Rights Clauses, in solicitations for experimental, developmental, or research work to be performed in the United States, its possessions, or Puerto Rico when the eventual awardee may be a small business or a nonprofit organization but the matter is uncertain at the time of procurement the is solicitation (e.g., not a set-aside and is not sole source to a large business).

18-27.374 Procedures.

18-27.374-1 General.

(a) Contractor appeals of exceptions. In any NASA contract with other than a firm or nonprofit small business organization, the NASA Patent Waiver Regulations, 14 CFR Section 1245, Subpart 1, shall apply. In any contract with a nonprofit business firm or small 27.304-1(a) shall FAR organization, apply.

(b) Greater rights determinations. In any NASA contract with other than a small business firm or a nonprofit organization and with respect to which advance waiver of rights has not been granted (see 18contractor (or an 27.372(b)), the employee-inventor of the contractor after consultation with the contractor) may request waiver of title to an individual identified subject invention pursuant to the NASA Patent Waiver Regulations, 14 CFR Section 1245, Subpart 1. In any contract with a small business firm or a nonprofit organization, FAR 27.304-1(b) shall apply.

(c) Retention of rights by inventor. The NASA Patent Waiver Regulations, 14 CFR Section 1245, Subpart 1, shall apply for any invention made in the performance of work under any NASA contract with other than a small business firm or a nonprofit organization. For inventions made under a contract with a small business firm or a nonprofit organization, FAR 27.304-1(c) shall apply.

(d) Government assignment to contractor of rights in Government employees' inventions. FAR 27.304-1(c) shall apply.

(e) Additional requirements. See 18-27.373(d).

Revocation or modification of con-(f) tractor's minimum rights. Revocation or modification of the contractor's license rights (see 18-27.372(h)(2)) shall be in accordance with the procedures of 14 CFR Section 1245, Subpart 1, for subject inventions made and reported under any NASA contract with other than a small firm nonprofit business or а organization, and in accordance with FAR 27.304-1(e) for subject inventions made and reported under any contract with a business firm or a nonprofit small organization. The contractor's right to appeal a NASA determination to revoke or modify any such license shall be in accordance with 14 CFR Section 1245, Subpart 2, Licensing of NASA Inventions.

(g) Exercise of march-in rights.

(1) With respect to inventions made in the performance of work under any NASA contract with other than a small business firm or a nonprofit organization, the procedures for the exercise of march-in rights shall be as set forth in the NASA Patent Waiver Regulations, 14 CFR Section 1245, Subpart 1.

(2) With respect to inventions made under any contract with a small business firm or a nonprofit organization, FAR 27.304-1(g) shall apply. ł

L

ł

#### PATENTS, DATA, AND COPYRIGHTS

(h) Licenses and assignments under 1 contracts with nonprofit organizations. FAR 27.304-1(h) shall apply. NASA's approving official for any assignment requested under FAR 27.304-1(h) is the Associate General Counsel (Intellectual Contractors' requests should Property). be made to the Patent Representative designated in accordance with 18-27.373(e) and forwarded, with recommendation, to the Associate General Counsel (Intellectual Property) for decision.

18-27.374-2 Contracts placed by or for other Government agencies.

FAR 27.304-2 shall apply. (See also 18-27.373(c)(2).)

# 18-27.374-3 Contracts for construction work or architect-engineer services.

(a) If a NASA contract for construction work or architect-engineer services with other than a small business firm or a nonprofit organization has as a purpose the performance of experimental, developmental, or research work, or test and evaluation studies involving such work, and the contract calls for or can be expected to involve the design of a Government facility of or novel structures. machines. products. materials. processes, equipment or (including construction equipment), the contract shall include the clause prescribed at 18-27.373(b) except as provided in FAR 27.304-3(b).

(b) For all other contracts for construction work or architect-engineer services, FAR 27.304-3 shall apply.

#### 18-27.374-4 Subcontracts.

(a) The policies and procedures in this subpart apply to all contracts at any tier. Hence, unless the contracting officer otherwise authorizes or directs, contractors awarding subcontracts and subcontractors awarding lower-tier subcontracts shall select and include one of the following clauses, suitably modified to identify the parties, in the indicated subcontracts:

(1) The clause at 18-52.227-70, New Technology, in any subcontract with other than a small business firm or a nonprofit organization if а purpose of the subcontract is the performance of experimental, developmental, research. design, or engineering work of any of the types described in 18-27.373(b)(1) through (6).

(2) The clause at FAR 52.227-11, Patent Rights--Retention by the Contractor (Short Form), modified in accordance with 18-27.373(a), in any subcontract with a small business firm or a nonprofit organization if a purpose of the subcontract is the performance of experimental, developmental, or research work.

(b) Whenever a prime contractor or a subcontractor considers it inappropriate to include one of the clauses discussed in paragraph (a) above in a particular subcontract, or a subcontractor refuses to accept the clause, the matter shall be resolved by the contracting officer in consultation with the installation's Patent Counsel.

Contractors and subcontractors may (c) not use their ability to award subcontracts as economic leverage to for acquire rights themselves in inventions resulting from such subcontracts.

#### PATENT RIGHTS UNDER GOVERNMENT CONTRACTS

#### 18-27.374-5 Appeals.

FAR 27.304-5 shall apply unless otherwise provided in the NASA Patent Waiver Regulations, 14 CFR Section 1245, Subpart 1.

18-27.375 Administration of the patent rights and new technology clauses.

18-27.375-1 New technology and patent rights follow-up.

(a) It is important that the Government and the contractor know, protect, and their rights in inventions. exercise discoveries, improvements, and innovations made in the performance of work under NASA contracts in order to ensure expeditious availability to the their public; foster commercial use; enable the Government, contractor, and public to avoid unnecessary payment of royalties; and defend themselves against claims and suits for infringement. To attain these ends, contracts having the clause at 18-52.227-70, New Technology, the clause at FAR 52.227-11, Patent Rights--Retention by the Contractor (Short Form), or any other patent rights clause (hereinafter referred to as all collectively "the otherwise indicated), clause" unless should be so administered that --

(1) Reportable items and subject inventions are identified, disclosed, and reported as required by the clause, and requests for waiver of title or election of title, when appropriate, are timely made:

(2) The rights of the Government in reportable items and subject inventions are established;

(3) Where patent protection is appropriate, patent applications are timely filed and prosecuted;

(4) The rights of the Government in filed patent applications are documented by formal instruments such as licenses or assignments; and (5) Expeditious commercial utilization of reportable items and subject inventions is achieved.

(b) (1) For each contract containing the clause, the contracting officer shall designate representatives (hereinafter referred to as the "New Technology "Patent the Representative" and 18-27.373(e)Representative"; to see administer the clause. protect the Government's rights, and take other actions in relation thereto. The New Technology Representative shall be the Technology Utilization Officer or the staff member (by titled position) having of utilization cognizance technology for the NASA installation matters The Patent Representative concerned. shall be the Patent Counsel (by titled position) having cognizance of patent installation matters for the NASA concerned. Designation of these representatives in the contract is made by use of the clause at 18-52.227-72, Designation Technology of New Patent Represen-Representative and tative.

(2) The contracting officer shall --

Furnish the New Technol-(i) Representative a copy of each ORV modifications thereto) contract (and containing the clause, and copies of the final technical report, interim technical pertinent progress reports. and other material provided under the contract, unless the New Technology Representative indicates otherwise;

(ii) Notify the New Technology Representative as to which NASA installation organizational element has technical cognizance of the contract; and

(iii) Furnish the Patent Representative a copy of each contract (and modifications thereto) containing the clause, and copies of the final technical interim progress reports, and report, other pertinent material provided under Patent unless the contract, the Representative indicates otherwise.

### PATENTS, DATA, AND COPYRIGHTS

(3) The New Technology Representative and the Patent Representative maintain complete files of shall (i) correspondence and other actions involving their respective administration of the clause and (ii) furnish copies of documents appropriate for inclusion in the general contract files to the contracting officer.

(4) If a subject invention is made under funding agreements of more than one agency, at the request of the contractor or on their own initiative, the agencies shall designate one agency as responsible for administering the rights of the Government in the invention.

# 18-27.375-2 Follow-up by contractor.

#### (a) Contractor procedures.

(1) Each NASA contractor other than a small business firm or a nonprofit organization shall establish and maintain active and effective procedures to ensure that reportable items promptly are identified, reported, and disclosed in order to meet the requirements of the clause. These procedures must include the maintenance of (i) laboratory notebooks or equivalent records and any other records reasonably necessary to document the conception and/or first actual reduction to practice of reportable items and (ii) records showing that the procedures for identifying and disclosing reportable items are followed. Upon request, the contractor shall furnish the contracting officer or designated representative. for evaluation and a determination as to their effectiveness, a description of the procedures.

(2) In order to ensure adequate understanding of and commitment to the reporting requirements of the New Technology clause, prospective contractors under any NASA contract with an estimated cost of \$2,500,000 or more (or a lesser dollar amount where considered appropriate) that contains the clause may be required to submit for approval a detailed plan for new technology reporting (see 18-35.003-71).

(b) Contractor reports.

(1) During the period of performance of each contract or subcontract. the contractor or subcontractor is required to submit to the New Technology Representative (or any other representative designated by the contracting officer) all disclosures of reportable items and subject inventions, interim subcontract reports. identification, and other information in the manner required by the clause, and upon the completion of the work under the contract or subcontract, the final report if required by the clause.

(2) Reporting of reportable items as required by the New Technology clause promptly and before the completion of contract work, and prompt submission of the final report upon completion of contract work, will aid new technology clearance. Timely submission of annual interim reports, where contracts cover a period of more than one year, will also facilitate clause administration and expedite final clearance.

#### 18-27.375-3 Follow-up by Government.

The New Technology Representative (a) shall review, as necessary, the technical progress of work performed under the contract to ascertain whether the contractor and its subcontractors are complying with the clause's reporting requirements. This effort should be directed primarily toward contracts and subcontracts that, by the nature of the work to be performed or the dollar amounts involved, are likely to produce reportable items or subject inventions of significant quantity quality, or or toward contracts and subcontracts under which there is reason to believe that the

# PATENT RIGHTS UNDER GOVERNMENT CONTRACTS

contractors may not be complying with their contractual obligations. Other contracts and subcontracts should be spot-checked when feasible. These follow-up activities may include --

(1) Reviewing the contractor's technical reports;

(2) Requesting the Patent Representative to check sources for patents issued to the contractor in fields related to the contractor's Government contracts;

(3) Interviewing contractor personnel regarding work under the contract, observing the work on-site, and inspecting laboratory notebooks and other contractor records related to work under the contract, to the extent authorized by the clause;

(4) Interviewing agency technical personnel concerning novel developments in contracts under their cognizance; and

(5) Ensuring that the contractor is timely in reporting reportable items, disclosing subject inventions, and submitting interim reports, subcontract identification, and final reports as required by the clause.

The New Technology Representative (b) shall forward to the Patent Representative copies of all contractors' and subcontractors' written reports of reportable items and disclosures of subject inventions, and a copy of the written statement, if any, submitted with the report of the reportable item. The New Technology Representative shall consult with the Patent Representative whenever a question arises as to whether a given reportable item is to be considered a subject invention and whether it was made in the performance of work under the contract. All correspondence relating to (1) inventions and waivers under the New Technology clause and (2) election of title under the Patent Rights--Retention by the Contractor (Short Form) clause shall also be promptly forwarded to the Patent Representative.

The Patent Representative shall (c) review each reportable item to ascertain whether it is to be considered a subject determinations invention. obtain any required by paragraph (b) of the New Technology clause, and notify the contractor. As to any subject invention, Patent Representative shall (1) the ensure that the contractor has provided sufficient information to protect the Government's rights and interests in it and to permit the preparation, filing, and prosecution of patent applications, (2) make determinations of inventorship, (3) ensure the preparation of and instruments establishing the Government's rights. The Patent Representative shall conduct selected also, as necessary, reviews of the nature set forth in paragraph (a) above to ensure that identified. subject inventions are documented, adequately and timely reported or disclosed.

(d) Upon receipt of any final report required by the clause, and upon determination that the contract work is the New Technology complete, Representative shall determine whether the contractor has complied with the clause's reporting requirements. If so, the New Technology Representative shall certify compliance, obtain the Patent Representative's concurrence, and forward certification to the contracting the officer. Such determinations generally will require consultation with cognizant technical personnel.

Technology New (e) Either the Patent or the Representative Representative, in consultation with the prepare opinions. make may other. determinations, and otherwise advise the contracting officer with respect to any withholding of payment under paragraph (g) of the New Technology clause. Either the New Technology Representative or the Patent Representative may represent the contracting officer for the purpose of contractor's books. the examining

## 27-3:12

### PATENTS, DATA, AND COPYRIGHTS

records. and other documents in accordance with paragraph (f) of the New Technology clause and take corrective appropriate. action as However, no action may be taken by either the New Technology Representative or the Patent Representative that would (1) constitute a final decision under the Disputes clause. (2) involve any change or increase in the work required to be performed under the contract that is inconsistent with any right of appeal provided in FAR 27.304-5 or 14 CFR 1245.1, or (3) otherwise be outside the scope of obligations imposed upon the contractor by the contract.

(f) If it is determined that а contractor or subcontractor does not clearly understand of the rights and obligations of the parties under a patent rights clause, or that its procedures for complying with the clause are deficient. a post-award orientation should ordinarily be conducted to explain these rights and obligations (see FAR Subpart 42.5). When a contractor fails to establish, maintain, or follow effective procedures for identifying, disclosing, and, when appropriate, filing patent applications on inventions (if such procedures are required by the patent rights clause), or after appropriate notice fails to correct any deficiency, the contracting officer or a representative may require the contractor to make available for examination books, records, and documents relating to the contractor's inventions in the same field of technology as the contract effort to enable a determination of whether there are such inventions and may invoke the withholding of payments provision (if any) of the clause. The withholding of payments provision (if any) of the patent rights clause or of any other contract clause may also be invoked if the contractor fails to disclose subject а invention. Significant or repeated failures by a contractor to comply with the patent rights obligation in its contracts shall

be documented and made a part of the general file (see FAR 4.801(c)(3)).

The contracting officer shall not (g) approve release of final payment under the contract and, if applicable, any reserve set aside under the withholding provisions of the clause for deficiencies and delinquent reporting not corrected as of the time of the submission of the final report by the contractor until receipt of the New Technology Representative's certification of compliance, and the Patent Representative's concurrence, as specified in paragraph (d) above.

# 18-27.375-4 Conveyance of invention rights acquired by the Government.

(a) When the Government acquires the entire right to, title to, and interest in an invention under the clause at 18-52.227-70. New Technology, а determination of title is to be made in accordance with Section 305(a) of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2457(a)), and reflected in appropriate instruments executed by NASA and forwarded to the contractor.

(b) When the Government acquires the entire right to, title to, and interest in an invention other than pursuant to paragraph (a) above, FAR 27.305-4 shall apply.

18-27.375-5 Publication and release of invention disclosures.

FAR 27.305-5 shall apply.

18-27.376-6 Licensing of background rights to third parties.

FAR 27.306 shall apply.

#### SUBPART 18-27.4 RIGHTS IN DATA AND COPYRIGHTS

18-27.404 Basic rights in data clause.

limiteddefinition of (a) Alternate rights data. When the clause at FAR 52.227-14, Rights in Data--General, is used with Alternate I, but without Alternate II or Alternate III, all data qualifying as limited-rights data as defined in Alternate I may be withheld from delivery, and any study or report delivered under the contract will contain only unlimited rights data that may be disseminated by NASA. If delivery of withholdable data is required, Alternate II or Alternate III, as applicable, may be used, but any data subject to these alternates will be delivered under the applicable limited-rights or restrictedrights notices and therefore may not be disclosed outside NASA except to the extent permitted by these notices (see FAR 27.404(d) and (e)).

Protection of limited-rights data (b) specified for delivery. The contracting officer shall consult with the installation's Patent or Intellectual Property Counsel regarding any questions concerning the delivery of limited-rights data and/or the use of Alternate II that may arise (1) from an offeror's response to FAR 52.227-15. provision at the Representation of Limited-Rights Data and Restricted Computer Software, or (2) during negotiations.

(c) Protection of restricted computer software specified for delivery. The contracting officer shall consult with the installation's Patent or Intellectual Property Counsel regarding any questions concerning the delivery of restricted computer software and/or the use of Alternate III that may arise (1) from an offeror's response to the provision at FAR 52.227-15, Representation of Limited-Rights Data and Restricted Computer Software, or (2) during negotiations.

#### (d) Copyrighted data.

(1) The contracting officer shall consult with the installation's Patent or Counsel before Property Intellectual with FAR accordance granting in for а 27.404(f)(1)(ii) permission claim to establish contractor to copyright subsisting in data, other than computer software, first produced under the contract. For copyright of computer under the produced software first contract, see paragraph (e) below.

(2) Obtaining a copyright license of a different scope than set forth in subparagraph (c)(1) or (c)(2) of the clause at 52.227-14, Rights in Data--General, for any contract or class of contracts in accordance with either FAR 27.404(f)(1)(iv) or FAR 27.404(f)(2)(i), is permitted only with approval of the Procurement Officer and concurrence of the installation's Patent or Intellectual Property Counsel.

(e) Release, publication, and use of data.

(1) The NASA subparagraph (d)(3)(see 18-27.409(e)) is to be added to paragraph (d) of the clause at FAR Data--General, in 52.227-14, Rights whenever that clause is used in any contract other than one for basic or applied research with a university or college. The subparagraph provides that the contractor may not establish claim to copyright, publish, or release to others computer software first produced in the performance of a contract without the prior written officer's contracting permission. This is in accordance with NASA policy and procedures for the software of computer distribution developed by NASA and its contractors, as set forth in NASA Handbook 2200.2, NASA |

27-4:1

# PATENTS, DATA, AND COPYRIGHTS

Scientific and Technical Information Handbook.

(2) The contracting officer may, in consultation with the installation's Patent or Intellectual Property Counsel, grant the contractor permission to copyright, publish, or release to others computer software first produced in the performance of a contract if --

(i) The contractor has identified an existing commercial computer software product line or proposes a new one and states a positive intention of incorporating any computer software first produced under the contract into that line, either directly itself or through a licensee;

(ii) The contractor has made, or will be required to make, significant contributions to the development of the computer software by co-funding or by cost-sharing, or by contributing resources (including but not limited to agreement to provide continuing maintenance and update of the software at no cost for Governmental use); or

(iii) The concurrence of a cognizant official named in NASA Management Instruction 2210.2 or the Director, Technology Utilization Division, NASA Headquarters, has been obtained.

(3) The contractor's request for permission in accordance with subparagraph (1) above may be made either before contract award or during contract performance. Any permission granted in accordance with subdivision (2)(i) or (2)(ii)above shall be by express contract provision (or amendment) overriding subparagraph (d)(3) rather than by deleting subparagraph (d)(3) from the clause. Any permission granted in accordance with subdivision (2)(iii) above either may be bv deleting subparagraph (d)(3) or by special contract provision, as appropriate. Any contract provision relating to any permission granted in accordance with subdivision (2)(i) or (2)(ii) above may contain appropriate assurances that the

computer software will be incorporated into an existing or proposed new commercial computer software product line within a reasonable time and/or that the agreed contributions to the Government are fulfilled. with contingencies enabling the Government itself to obtain the right to distribute the software for commercial use, including the right to obtain assignment of copyright where applicable, in order to prevent the computer software from being suppressed or abandoned by the contractor. Also, when any permission to copyright is granted, any copyright license retained by the Government shall be of the same scope as set forth in subparagraph (c)(1) of the clause (see also FAR 27.404(f)(1)) and without any obligation of confidentiality on the part of the Government, unless in accordance with subdivision (2)(ii) above the contributions of the Contractor may be considered "substantial" for the purposes of FAR 27.408 (i.e., approximately 50 percent), in which case rights consistent with FAR 27.408 may be negotiated for the computer software in question.

# (f) Unauthorized marking of data.

The contracting officer shall consult with the installation's Patent ٥r Intellectual Property Counsel before taking any action regarding unauthorized markings of data under paragraph (e) of the clause at FAR 52.227-14, Rights in Data--General.

# (g) Omitted or incorrect notices.

The contracting officer shall consult with the installation's Patent or Intellectual Property Counsel before agreeing to add or correct, or adding or correcting, any markings on data under paragraph (f) of the clause at FAR 52.227-14, Rights in Data--General. 18-27.405 Other data rights provisions.

# (a) Acquisition of existing computer software.

(1) When the clause at FAR 52.227-Commercial Computer Software--19. used, NASA Rights, is Restricted paragraph (c) (see 18-27.409(f)) may be updates, correction added to receive information, and notices. consultation other similar information on any computer software delivered under the purchase order or contract by authorizing the NASA contracting officer or the NASA contract technical representative/user to sign any vendor-supplied agreements, registration forms, or cards and return them directly to the vendor. This procedure is to applicable receiving facilitate information and is not intended to alter any NASA rights or obligations set forth the clause or elsewhere in the in contract. The price, schedule, and other terms, if any, are to be specified in the purchase order or contract.

(2) When the clause at 52.227-19, Commercial Computer Software--Restricted Rights, is used, NASA paragraph (f) (see 18-27.409(g)) may be added to incorporate applicable portions of the contractor's standard commercial license or lease agreement into the purchase order/contract to the extent consistent with the clause, Federal laws, standard industry practices, and the FAR.

(3) Instead of the clause at FAR 52.227-19, Commercial Computer Software--Restricted Rights (either with or without additional paragraphs (e) and/or (f)), the contracting officer may use the NASA Commercial 18-52.227-86, clause at Software--Licensing. This Computer clause is particularly useful when there are multiple computers on which the computer software may be used, but or prohibited use is simultaneous vendor/contractor in the restricted standard commercial software license to be incorporated in and made part of the also order/contract. It nurchase in the automatically adopts terms standard commercial vendor/contractor license that may be less restrictive than those set forth in the clause at FAR 52.227-19 without having to customize that clause or modify the purchase order/contract. In addition, it enables the vendor/contractor's standard marking to be used without requiring additional markings on the software.

## (b) Contracts awarded under the Small Business Innovative Research (SBIR) Program.

If, during the performance of an SBIR contract (Phase I or Phase II), the need arises for NASA to obtain delivery of restricted computer software as defined in the clause at FAR 52.227-20, Rights in Data--SBIR Program, and the contractor agrees to such delivery, the restricted computer software may be acquired with restricted rights by modification of the agreement an contract or under incorporated in and made part of the contract, using the restricted rights set forth in FAR 27.404(e) and the related restrictions as a guide.

# 18-27.406 Acquisition of data.

#### (a) General.

deliverv specifying data When requirements in accordance with FAR 27.406(a), requirements for delivering relating to standard technical data components, or commercial items, processes should be kept to the absolute minimum consistent with the purpose for which they are being procured. Normally, manuals for installation, vendor's a operation, or maintenance and repair and/or form, fit, and function data are adequate for most needs.

# PATENT, DATA, AND COPYRIGHTS

# (b) Reports of work.

(1) In addition to any other data delivery requirements that may be set forth in the contract in accordance with FAR 27.406, NASA contractors normally should be required to furnish reports of performed under work research and development contracts (fixed-price and cost reimbursement) and also may be required to furnish them in costreimbursement supply contracts if they are considered desirable for monitoring contract performance. This purpose shall be achieved by including the following general requirements, modified as needed to meet the particular requirements of the contract, in the section of the contract specifying data deliverv requirements:

(i) Monthly progress reports. The contractor shall submit separate monthly progress reports of all work accomplished during each month of contract performance. Reports shall be in narrative form, brief, and informal. They shall quantitative include а description of overall progress, an indication of any current problems that may impede performance, proposed corrective action, and a discussion of the work to be performed during the next monthly period. (Normally, reporting this requirement should not be used in contracts with nonprofit organizations.)

(ii) Quarterly progress re-The ports. contractor shall submit separate quarterly reports of all work accomplished during each three-month period of contract performance. In addition to factual data, these reports shall include a separate analysis section interpreting the results obtained. recommending further action, and relating occurrences to the ultimate objectives of the contract work. Sufficient diagrams, sketches, curves, photographs. and drawings shall be included to convey the intended meaning.

(iii) Final report. The contractor shall submit a final report that documents and summarizes the results of the entire contract work, including recommendations and conclusions based on the experience and results obtained. The final shall report include tables. graphs. diagrams. curves, sketches, photographs, and drawings in sufficient detail to explain comprehensively the results achieved under the contract.

(iv) Report Documentation Page. The contractor shall include a completed Report Documentation Page (SF 298) as the final page of each report submitted in accordance with subdivisions (i) through (iii) of this section.

(v) Submission. The required numbers of copies of the reports specified in subdivisions (i) through (iii) shall, as defined in the clause at 18-52.235-70, be submitted to the contracting officer technical representative (COTR) of the contract in the absence of other instructions from the requesting activity. In addition, a reproducible copy and a printed, or reproduced, copy of the reports shall be sent to the NASA Center for AeroSpace Information (CASI), Attn: Accessioning Department, 800 Elkridge Landing Road, Linthicum Heights, MD 21090-2934.

(2) The contracting officer shall consider the desirability of providing reports on the completion of significant units or phases of work, in addition to periodic reports and reports on the completion of the entire contract. The data delivery requirements section of the contract shall also list other data to be delivered under the contract and provide, as necessary, specific instructions regarding delivery, submission dates. report numbering, numbers of copies to be submitted, distribution lists, and any other information to ensure appropriate distribution of the required reports of work.

#### NFSD 89-3 (March 31, 1990)

# PATENT RIGHTS UNDER GOVERNMENT CONTRACTS

# 18-27.407 Rights to technical data in successful proposals.

NASA may obtain rights in technical data (but not commercial and financial information) contained in a solicited or unsolicited proposal upon which a contract award is based, only by specific agreement with the prospective contractor in accordance with the procedures of FAR 27.407 and the clause at FAR 52.227-23, Rights to Proposal Data (Technical).

# 18-27.408 Cosponsored research and development activities.

The contracting officer shall consult with the installation's Patent or

#### **RIGHTS IN DATA AND COPYRIGHTS**

Counsel before Property Intellectual limiting the acquisition of or acquiring less than unlimited rights to any data involving contracts developed under cosponsored research and development with FAR accordance activities in 27.408.

# 18-27.409 Solicitation provisions and contract clauses.

(a) Alternate I is to be used with the FAR clause at 52.227-14, Rights in Data--General, only with approval of the Procurement Officer and concurrence of the installation's Patent or Intellectual Property Counsel. An example of its use is where the principal purpose of the contract (such as a contract for basic or applied research) does not involve the development, use, or delivery of items, are processes that or components, intended to be acquired for use by or for the Government (either under the contract in question or under any anticipated follow-on contracts relating to the same subject matter). Other examples include studies reports, socioeconomic or educational material, health and safety information, management analyses, and related matters the preparation of which confidential business may involve information qualifying as limited-rights data as defined by Alternate I.

specific purposes for the The (b) release of limited-rights data outside the Government set forth in subdivisions (i) through (v) of FAR 27.404(d)(1) are to be added to the Limited-Rights Notice of subparagraph (g)(2) of Alternate II of the clause at FAR 52.227-14, Rights in Data--General. However, the contracting officer may, upon consultation with the installation's Patent or Intellectual Property Counsel, make deletions from the purposes listed. If all are specific "None" be the word must deleted. inserted in the notice. Additions to those specific purposes listed may be made only with the approval of the installation Procurement Officer and concurrence of the installation's Patent or Intellectual Property Counsel.

(c) The contracting officer shall consult with the installation's Patent or Intellectual Property Counsel regarding the acquisition of restricted computer software with greater or lesser rights than those set forth in Alternate III of the FAR clause at 52.227-14, Rights in Data--General, in accordance with FAR 27.404(e)(2). Where it is impractical to actually modify the notice of Alternate be done by express III. this may reference in a separate clause in the contract or by a collateral agreement the change in the addresses that restricted rights.

(d) Use of Alternate IV with the FAR clause at 52.227-14, Rights in Data--General, in any contract other than a contract for basic or applied research to be performed solely by a college or university on campus (but not for the management or operation of Government facilities) is permitted only with approval of the Procurement Officer and concurrence of the installation's Patent or Intellectual Property Counsel.

(e) In accordance with 18-27.404(e)(1), the contracting officer shall add subparagraph (3) as set forth in 18-52.227-14 to paragraph (d) of the clause at FAR 52.227-14, Rights in Data--General, except in solicitations and contracts for basic or applied research with universities or colleges.

In accordance with 18-27.405(a)(1), (f)contracting officer shall add the paragraph (e) as set forth in 18-52.227-19(a) to the clause at FAR 52.227-19. Commercial Computer Software--Restricted Rights, when it is contemplated that updates, correction notices, consultation information, and other similar items of relating commercial information to

1

## PATENT, DATA, AND COPYRIGHTS

computer software delivered under a purchase order or contract are available and their receipt can be facilitated by signing a vendor supplied agreement, registration forms, or cards and returning them directly to the vendor.

In accordance with 18-27.405(a)(2), (g) the contracting officer shall add paragraph (f) as set forth at 18-52.227-19(b) to the clause at FAR 52.227-19, Commercial Computer Software--Restricted Rights, when portions of a contractor's standard commercial license or lease agreement consistent with the clause, Federal laws, standard industry practices, and the FAR are to be incorporated into the purchase order or contract.

(h) In accordance with 18-27.405(a)(3), the contracting officer shall use the clause at 18-52.227-86, Commercial Computer Software--Licensing, in lieu of the clause at FAR 52.227-19, Commercial Computer Software--Restricted Rights, when it is considered appropriate for the acquisition of existing computer software in accordance with FAR 27.405(b)(2).

(i) In accordance with 18-27.406(b)(1)(v), the contracting officer shall insert the clause 18-52.235-70, Center for AeroSpace Information (November 1992), in all research and development contracts and in costreimbursement supply contracts involving research and development work which require the delivery of reports or data to CASI.

### SUBPART 18-27.6 FOREIGN LICENSE AND TECHNICAL ASSISTANCE AGREEMENTS

18-27.670 Space Station Freedom technical data.

18-27.670-1 Policy.

NASA and its contractors shall comply with the International Traffic in Arms Regulations (ITAR), 22 CFR Parts 120-130 (Subchapter M) with respect to the technical data to any transfer of Station Freedom International Space When Program multilateral partner. authorized by the Directive entitled, Directive--Station Level Ι "Space Technology Space Station Subject: Transfer Control--dated March 21, 1989", certain technical data in support of International NASA's Space Station Freedom Program may be exported to a foreign recipient specified in writing by the NASA contracting officer. Contracting officers, or designees, will assure that any transfer of data to a foreign recipient will be in compliance with the Directive.

### 18-27.670-2 Contract clause.

The contracting officer shall insert the clause at NFS 18-52.227-87, Transfer of Technical Data Under Space Station International Agreements, in all solicitations, contracts, and purchase orders in support of Space Station Freedom Program activities that may involve transfer of technical data subject to the Arms Traffic in International 120-130 Regulations, 22 CFR Parts (Subchapter M) in accordance with the "Space Level I Directive--Station Technology Subject: Space Station Transfer Control--dated March 21, 1989."

### PART 18-28 BONDS AND INSURANCE

# 18-28.001 Definitions.

"Protected Space Operations" means all launch vehicle activities, Space Station payload activities on activities, and Earth, in outer space, or in transit between Earth and outer space related to Space Station. It includes, but is not limited to research, design, development, test, manufacture, assembly, integration, operation, or use of launch or transfer (for example, the Orbital vehicles Maneuvering Vehicle), the Space Station, or a payload, as well as related support equipment and facilities and services; and all activities related to ground support, test, training, simulation, or guidance and control equipment and related facilities or services. The term **Operations**" also "Protected Space

related to includes all activities the Space Station as of evolution the Space Station for in provided Intergovernmental Agreement signed on September 29, 1988. "Protected Space Operations" excludes activities on Earth which are conducted on return from the Space Station to develop further a payload's product or process for use other than for Space Station related activities.

all Space Operations" means "STS Transportation System (STS) activity, all and ail tangible activity, payload ground personal property (including support, test, training, and simulation equipment) related to STS or payload includes The term also activity. development, test. design, research. integration, manufacture. assembly, transportation, or use of any materials related to the above noted activities or property, and performance of any services related to the above factors.

·- .

#### SUBPART 18-28.1 BONDS

18-28.101 Bid guarantees.

18-28.101-70 NASA solicitation provision.

In accordance with FAR 28.101, the contracting officer shall insert the provision at 18-52.228-73, Bid Bond, in construction solicitations where offers are expected to exceed \$25,000, and a performance bond or a performance and required. The payment bond is contracting officer may increase the amount of the bid bond to protect the Government from loss, as long as the amount does not exceed \$3 million. This provision may be used in other than procurements construction if the requirements of FAR 28.103 have been complied with.

18-28.102 Performance and payment bonds for construction contracts.

18-28.102-1 General.

NASA contractors that, in the course of contract performance, will acquire by subcontract construction work determined by NASA to be subject to the Miller Act, but that are not required under FAR 28.102 to furnish Miller Act bonds, shall be required to obtain performance and payment bonds from their subcontractors (see 18-28.106-1). The contracting officer shall establish the penal amount in accordance with FAR 28.102-2.

#### 18-28.102-70 Solicitation provision.

In accordance with FAR 28.102, except as provided therein, the contracting officer shall insert a provision substantially as 18-52.228-74, Payment and stated at construction Performance Bonds. in solicitations where offers are expected to exceed \$25,000. The penal amount of the performance bond may be decreased in accordance with FAR 28.102-2(a). The contracting officer may change the word the first sentence of "may" in subparagraph (a)(2) and (b)(2) to "shall" if the procurement contemplates options or additive items (see 18-36.303-70).

#### 18-28.106 Administration.

18-28.106-1 Bonds and bond related forms.

When the contracting officer determines that performance or payment bonds are required from construction subcontractors under any non-construction contract (see 18-28.102-1), the bonds shall be provided on SF 25, Performance Bond, and SF 25A, Payment Bond. These forms shall be modified to name the NASA prime contractor as well as the United States of America as obligees.

# 18-28.106-6 Furnishing information.

(a) The contracting officer is designated, in accordance with FAR 28.106-6(c), to furnish a certified copy of the payment bond and the contract for which it was given upon receipt of an appropriate affidavit from the requestor.

(b) The contracting officer shall obtain the concurrence of the Office of Chief Counsel before releasing any documents.

,

·---

#### SUBPART 18-28.2 SURETIES

# 18-28.202 Acceptability of corporate surctics.

When the solicitation requires the submission of a performance or payment security and the offeror proposes a corporate surety, verification procedures required by FAR 28.202 shall be supplemented by following the procedures in 18-9.105-1, Obtaining information.

#### SUBPART 18-28.3 INSURANCE

# 18-28.305 Overseas workers' compensation and war-hazard insurance.

(a) Waiver of Defense Base Act. Applications for waivers under FAR 28.305(d) shall be submitted to the Administrator through the Associate Administrator for Procurement. The application shall include--

(1) The contractor's name;

(2) The contractor's business mailing address;

(3) The contract number;

(4) The date of award;

(5) The geographic location where the contract will be performed;

(6) The name of the insurance company providing the Defense Base Act coverage;

(7) The nationality of the employees to whom the waiver is to apply; and

(8) The reason for the waiver.

#### (b) When the Defense Base Act is waived:

(1) The decision under FAR 28.305(e) as to whether (i) the costs of the liability or (ii) the reasonable costs of insurance against it shall be allowed as a cost under the contract may be made by the Associate Administrator for Procurement or by a designee.

(2) The Schedule of each contract containing the clause at 18-52.228-77, Reimbursement for War-Hazard Losses, shall contain an estimated cost for warhazard losses, derived in accordance with (i) below, and a statement similar to that set forth in (ii) below:

(i) The estimated cost for warhazard losses shall be based on estimates arrived at in the light of experience, taking into account the number of the contractor's employees subject to protection for warhazard risks, the level of benefits applicable to them, their location, and the nature of the risks to which they are The amount allotted to the exposed. contract shall initially be kept as small as reasonably feasible. As reports are received indicating any need to increase the allotment to the contract, they shall be evaluated and the allotment increased as necessary. When negotiating for the inclusion in the contract of provisions applicable to war-hazard risks, the contracting officer may include provisions concerning the types of foreign nationals employed by the contractor and the level of benefits applicable to them, and other pertinent provisions relating to the manner in which the program will function to the benefit of all concerned. Advance agreements under FAR 31.109 may also be advantageous with respect to the levels of proof considered acceptable to justify the contractor's commencing payments and being reimbursed for them before the contractor is able to settle its obligation.

(ii) "The portion of this contract providing for the contractor to afford protection to its employees and subcontractors to their employees against war-hazard risks (see the clauses at 52.228-4 of the Federal Acquisition Regulation (FAR) and 18-52.228-77 of the NASA FAR Supplement) is on a cost-reimbursement, no-fee basis, notwithstanding the basis of the remainder of the contract."

#### 18-28.307 Insurance under costreimbursement contracts.

#### 18-28.307-2 Liability.

(a) In accordance with FAR 28.307-2(b)(2), the special circumstances requiring property damage liability insurance are those where (otherwise, prior approval for purchase of property damage liability insurance must be obtained from the Associate Administrator for Procurement)--

(1) A commingling of operations permits property damage coverage at a

nominal cost to NASA under insurance carried by the contractor in the course of its commercial operations; or

(2) The contractor is engaged in the handling of high explosives or in extra hazardous research and development activities undertaken in populated areas.

(b) The Government normally will assume the risk of a contractor's uninsured thirdparty liability to the extent provided for by the clause at FAR 52.228-7, Insurance--Liability to Third Persons.

# 18-28.307-70 Insurance of industrial facilities.

When industrial facilities are provided by the Government under a facilities contract or a lease, the contract or lease shall require that during the period of construction, installation, alteration, repair, or use, and at any other time as directed by the installation concerned, the contractor or lessee shall insure or otherwise provide approved security for liabilities to third persons (including employees of the contractor or lessee) in the manner and to the same extent as required in FAR 28.307-2.

# 18-28.309 Contract clauses for workers' compensation insurance.

The contracting officer shall insert the clause at 18-52.228-77, Reimbursement for War-Hazard Losses, in all solicitations and contracts containing the clause at FAR 52.228-4, if the Associate Administrator for Procurement determines that the contractor shall not purchase insurance against the assumed liability to the waived employees and their beneficiaries (see 18-28.305(b)).

18-28.311 Solicitation provision and contract clause on liability insurance under cost-reimbursement contracts.

## 18-28.311-2 Contract clause.

The contracting officer shall insert the clause at FAR 52.228-7, Insurance--Liability to Third Persons, as prescribed in FAR 28.311-2 unless waived by the procurement officer.

### 18-28.311-270 NASA contract clause.

The contracting officer shall insert the clause at 18-52.228-71, Aircraft Flight Risks, in all cost-reimbursement contracts for the development, production, modification, maintenance, or overhaul of aircraft, or otherwise involving the furnishing of aircraft to the contractor, except when the aircraft are covered by a separate bailment.

## 18-28.370 Fixed-price contract clauses.

(a) The contracting officer shall insert the clause at 18-52.228-70, Aircraft Ground and Flight Risk, in all negotiated fixed-price contracts for the development, production, modification, maintenance, or overhaul of aircraft, or otherwise involving the furnishing of aircraft to the contractor, except as provided in paragraph (b) of this section, unless the aircraft are covered by a separate bailment. See the clause preface for directions for modifying the clause to accommodate various circumstances.

(b) The Government need not assume the risk of damage to, or loss or destruction of, aircraft as provided by the clause at 18-52.228-70 if the best estimate of premium costs that would be included in the contract price for insurance coverage for such damage, loss, or destruction at any plant or facility is less than \$500. If it is determined not to assume this risk, the clause at 18-52.228-70 shall not be made a part of the contract, and the cost of necessary insurance to be obtained by the contractor to cover this risk shall be considered in establishing the contract price. In such cases, however, if performance of the contract is expected to involve the flight of Government-furnished aircraft, the substance of the clause at 18-52.228-71, Aircraft Flight Risks, suitably adapted for use in a fixed-price contract, shall be used.

(c) When the clause at 18-52.228-70 is used, the term "Contractor's premises" shall be expressly defined in the contract Schedule and shall be limited to places where aircraft may be located during and for the performance of the contract. Contractor's premises may include, but are not limited to, those owned or leased by the contractor or those for which the contractor has a permit, license, or other right of use either exclusively or jointly with others, including Government airfields.

### 18-28.371 Clauses for cross-waivers of liability for Space Shuttle services, Expendable Launch Vehicle (ELV) launches, and Space Station activities.

(a) In agreements covering Space Shuttle services, certain ELV launches, Space Station activities, NASA and other signatories (the parties) agree not to bring claims against each other for any damage to property or for injury or death of employees that occurs during the time such a cross-waiver is in effect. These agreements involving NASA and other parties include, but are not limited to, Memoranda of Understanding with foreign Governments, Launch Services Agreements, and other agreements for the use of NASA facilities. These agreements require the parties to flow down the cross-waiver provisions to their related entities so that contractors, subcontractors, customers, and other users of each party also waive their right to bring claims against other parties and their similarly related entities for damages arising out of activities conducted under the agreements. The purpose of the clauses prescribed in this section is to flow down the cross-waivers to NASA contractors and subcontractors.

(b) The contracting officer shall insert the clause 18-52.228-72, Cross-waiver of Liability for Space Shuttle Services, in solicitations and contracts of \$100,000 or more when the work to be performed involves "Protected Space Operations" (applicable to the Space Shuttle) as that term is defined in the clause. If Space Shuttle services under the contract are being conducted in support of the Space Station program, the contracting officer shall insert the clause prescribed by paragraph (d) of this section and designate application of that clause to those particular activities.

(c) The contracting officer shall insert the clause at 18-52.228-78, Cross-Waiver of Liability for NASA Expendable Launch Vehicle (ELV) Launches, in solicitations and contracts of \$100,000 or more for the acquisition of ELV launch services when the service is being acquired by NASA pursuant to an agreement described in paragraph (a) of this section. If, under a contract that covers multiple launches, only some of the launches are for payloads provided pursuant to agreements, an additional clause shall be inserted in the designate the particular contract to launches to which this clause applies. If a pavload is being launched by use of an ELV in support of the Space Station program, the contracting officer shall insert the clause prescribed by paragraph (d) of this section and designate application of that particular launch.

(d) The contracting officer shall insert the clause at 18-52.228-76, Cross-Waiver of Liability for Space Station Activities, in solicitations and contracts of \$100,000 or more when the work is to be performed involves "Protected Space Operations" (relating to the Space Station) as that term is defined in the clause.

(e) At the contracting officer's discretion, the clauses prescribed by paragraphs (b),
(c), and (d) of this section may be used in solicitations, contracts, new work

1

modifications, or extensions, to existing contracts under \$100,000 involving Space Shuttle activities, ELV launch services, or Space Station activities, respectively, in appropriate circumstances. Examples of such circumstances are when the value of contractor property on a Government installation used in performance of the contract is significant, or when it is likely that the contractor or subcontractor will have its valuable property exposed to risk or damage caused by other participants in the Space Shuttle services, ELV launches, or Space Station activities.

# 18-28.372 Clause for minimum insurance coverage.

In accordance with FAR 28.306(b) and 28.307, the contracting officer may insert a clause substantially as stated at 18-52.228-75, Minimum Insurance Coverage, in fixedprice solicitations and contracts requiring performance on a government installation and in cost-reimbursement contracts. The contracting officer may modify the clause to require additional coverage, such as vessel liability, and higher limits if appropriate for a particular procurement. -

### PART 18-29

### TAXES

### TABLE OF CONTENTS

PART 18-29 TAXES

#### SUBPART 18-29.1 GENERAL

#### 18-29.101 Resolving tax problems.

(a) The Office of General Counsel (Code G) shall (1) represent NASA in all negotiations under FAR Part 29 and (2) keep the Associate Administrator for Procurement fully informed on their status.

(b) Communications with the Department of Justice for representation or intervention in proceedings concerning taxes shall be made only by the General Counsel.

(c) Matters involving foreign taxes requiring the assistance of other executive departments shall be forwarded to the General Counsel for appropriate action.

(d) Tax problems that cannot be solved readily by reference to FAR Part 29 shall be forwarded to the General Counsel through the installation's Office of Chief Counsel. The forwarding of tax problems to the General Counsel is particularly important when-- (1) The amount of tax actually or potentially involved is substantial;

(2) The legal incidence of a tax appears to be upon the United States or its property, a specific exemption pertinent to the transaction appears to exist, or a State or local tax appears to have a direct effect upon a transaction in interstate commerce;

(3) Judicial or administrative action against a contractor is threatened;

(4) The imposition or potential imposition of a tax is the result of an amendment of a tax law or a change of position by the tax authorities; or

(5) The possibility exists of obtaining refunds of taxes previously paid.

(e) Regarding tax problems, the initiating office or intervening offices shall forward the following material to the General Counsel:

(1) A comprehensive statement of pertinent facts, including documents and correspondence.

(2) A copy of the contract.

(3) A thorough review of the legal issues involved and recommended action.

(4) If appropriate, a statement of the problem's effects on procurement policies and procedures, with recommendations.

(f) Copies of tax-related correspondence shall be sent to the Associate Administrator | for Procurement.

29-2:1

#### SUBPART 29.2 FEDERAL EXCISE TAXES

#### 18-29.203 Other Federal tax exemptions.

(a) The Associate Administrator for Procurement has obtained a permit from the Bureau of Alcohol, Tobacco, and Firearms (Treasury Department) enabling NASA and its contractors to purchase spirits (e.g., specially denatured spirits) taxfree for nonbeverage Government use. Installations can obtain copies of the permit from the Procurement Policy Division (Code HP) at NASA Headquarters.

(b) When purchasing spirits for use by NASA personnel, the contracting officer

shall attach a copy of the permit to the contract. Upon receipt of the spirits, the permit shall be returned to the contracting officer unless future orders are anticipated.

(c) When a NASA contractor requires spirits to perform a NASA contract, the contracting officer shall furnish the contractor a copy of the permit to provide its vendor. Upon receipt of the spirits, the contractor shall return the permit to the contracting officer unless future orders are anticipated. In any event, the permit shall be returned upon completion of the contract.

(d) To comply with 26 U.S.C. 5271(g), the procurement officer shall post a copy of the permit for inspection.

# NASA FAR SUPPLEMENT

### SUBPART 18-30.1 GENERAL

### 18-30.101 Cost Accounting Standards.

(a) To ensure uniform administration of CAS requirements, NASA has determined to consider all of its contracts as "national defense" contracts for CAS purposes, whether or not they meet the definition of "national defense" in FAR 2.101.

`••----

· ----

### SUBPART 18-30.2 CAS PROGRAM REQUIREMENTS

### 18-30.201-5 Waiver.

After the contracting officer has made the determination required by FAR 30.201-5(a), the procurement officer shall forward all requests for waiver of CAS requirements to the Associate Administrator for Procurement (Code HC) for approval.

e et

### SUBPART 18-30.70 FACILITIES CAPITAL EMPLOYED FOR FACILITIES IN USE OR FOR FACILITIES UNDER CONSTRUCTION

18-30.7001 Facilities capital employed for facilities in use.

ł

ł

18-30.7001-1 Contract facilities capital estimates.

After the appropriate Forms Cost (a) Accounting Standards Board-Cost of Money (CASB-CMF) have been analyzed and CMFs have been developed, the contracting officer is in a position to estimate the facilities capital cost of money and capital employed for a contract proposal. DD Form 1861 "Contract Facilities Capital and Cost of Money" has been provided for purpose properly and, when this completed, becomes a connecting link between the Forms CASB-CMF and any applicable agency structured approach to fee of profit or determination objectives. An evaluated contract cost breakdown reduced to the contracting officer's pre-negotiation cost objective must be available. The procedure is similar to applying overhead rates to appropriate overhead allocation bases to determine contract overhead costs.

(b) DD Form 1861 provides for listing indirect cost pools and direct-charging service centers (if used) in the same structure they appear on the contractor's cost proposal and Forms CASB-CMF. The structure and allocation base units-ofmeasure must be compatible on all three displays. The base for each indirect cost pool must be broken down by year to match each separate Form CASB-CMF. Appropriate contract overhead allocation base data are extracted by year from the breakdown or preevaluated cost and are objective, cost negotiation listed against each separate Form CASB-CMF. Each allocation base is multiplied by its corresponding cost of money factor, to get the Facilities Capital Cost of Money estimated to be incurred each year. The sum of these products represents the estimated Contract Facilities Capital Cost of Money for the Year's effort. Total contract facilities cost of money is the sum of the yearly amounts.

### 18-30.7001-2 Pre-award facilities capital applications.

Facilities Capital Cost of Money as determined above is applied in establishing cost and price objectives as follows:

This special. (a) Cost objective. imputed cost of money shall be used, together with normal, booked costs, in establishing a cost objective or the target cost when structuring an incentive contract. Target costs thus type established at the outset, shall not be adjusted as actual cost of money rates become available for the periods during which contract performance takes place.

(b) **Profit objective.** Cost of Money shall not be included as part of the cost base when measuring the contractor's effort in connection with establishing a pre-negotiation profit objective. The cost base for this purpose shall be restricted to normal, booked costs.

18-30.7001-3 Post-award facilitics capital applications.

billings based costs (a) Interim on Facilities Capital incurred. Contract Cost of Money may be included in cost progress payment reimbursement and invoices. The amount that qualifies as purposes of the incurred for cost Allowable Cost and Payment or Progress Payment clause of the contract is the of multiplying the incurred result the indirect cost pool portions of

1

1

ł

ł

### COST ACCOUNTING STANDARDS

allocation bases by the latest available Cost of Money Factors. Like applied overhead at forecasted overhead rates, such computations are interim estimates subject to adjustment. As each year's data are finalized by computation of the actual Cost of Money Factors under CAS 414 and FAR 31.205-10, the new factors should be used to calculate contract facilities cost of money for the next accounting period.

(b) Final settlement. Contract Facilities Capital Cost of Money for final cost determination or repricing is based on each year's final Cost of Money Factors determined under CAS 414 and supported by separate Form CASB-CMF. Contract cost must be separately computed in a manner similar to yearly final overhead rates. Also like overhead costs, the final settlement will include an adjustment from interim to final contract cost oſ money. However, estimated or target cost will not be adjusted.

1

18-30.7002 Facilities capital employed for facilities under construction.

18-30.7002-1 Definitions.

The following definitions have been taken or developed from Cost Accounting Standard (CAS) 417, Cost of Money as an Element of the Cost of Capital Assets Under Construction.

(a) Cost of money rate. The cost of money rate is either the interest rate determined by the Secretary of the Treasury pursuant to Public Law 92-41 (85 Stat 97), or the time-weighted average of such rates for each cost accounting period during which the asset is being constructed, fabricated, or developed. The time-weighted average interest rate is calculated by multiplying the various rates in effect during the months of construction by the number of months each rate was in effect. The sum of the products is divided by the total number of months in which the rates were experienced.

(b) **Representative** investment. The representative investment is the calculate amount considered invested by the contractor in the project to construct. fabricate, or develop the asset during the cost accounting period. In calculating the representative investment, consideration must be given to the rate or expenditure pattern of the investment. i.e., if most of the investment was at the end of the cost accounting period, the representative investment calculation must reflect this fact.

(1) If the contractor experiences an irregular or uneven expenditure pattern in the construction, fabrication, or development of a capital asset, i.e., a majority of the construction costs were incurred toward the beginning, middle, or end of the cost accounting period, the contractor must either:

(i) Determine a representative investment amount for the cost accounting period by calculating the average of the month-end balances for that cost accounting period; or

(ii) Treat month-end balances as individual representative investment amounts.

(2) If the construction, fabrication, or development costs were incurred in a fairly uniform expenditure pattern throughout the construction period, the contractor may:

(i) Determine a representative investment amount for the cost accounting period by averaging the beginning and ending balances of the construction, fabrication, or development cost account for the cost accounting period; or

(ii) Treat month-end balances as individual representative investment amounts.

### FACILITIES CAPITAL EMPLOYED FOR FACILITIES IN USE OR FOR FACILITIES UNDER CONSTRUCTION

### 18-30.7002-2 Measurement.

(a) The imputed cost of money for an asset under construction, fabrication, or development is calculated by applying a cost of money rate (see 18-30.7002-1(a)), to the representative investment amount (see 18-30.7002-1(b)).

(1) When a representative investment amount is determined for a cost accounting period following 18-30.7002-1(b)(1)(i) or 18-30.7002-1(b)(2)(i), the cost of money rate used shall be the time-weighted average rate.

(2) When a monthly representative investment amount (see 18-30.7002-1(b)(1)(ii) or 18-30.7002-1(b)(2)(ii)) is used, the cost of money rate shall be the rate in effect each month. (Note: Under this method, the cost of money calculating is made monthly and the total for the cost accounting period is the sum of the monthly calculations.)

(b) The method chosen by a contractor for determining the representative investment amount may be different for each capital asset being constructed, fabricated, or developed as long as the method fits the expenditure pattern of the construction costs incurred.

(c) The imputed cost of money will be capitalized only once in any cost accounting period; either at the end of the period or at the end of the construction period, whichever comes first.

(d) When the construction of an asset takes more than one cost accounting period, the cost of money capitalized for the first cost accounting period will be included in determining the representative investment amount for any future cost accounting periods.

### PART 18-31 CONTRACT COST PRINCIPLES AND PROCEDURES

### SUBPART 18-31.1 APPLICABILITY

### 18-31.101 Objectives.

Requests for individual deviations from FAR cost principles under FAR 31.101 shall be forwarded for the approval of the Associate Administrator for Procurement (Code HC). The following should accompany each request for deviation: (1) the name and phone number of the contracting officer, (2) a copy of the contractor's request for cost allowance, (3) the rationale for granting the deviation and any supporting information, including the benefit to the Government, (4) the dollar amount involved, and (5) any other information considered relevant to the request.

·-----

### SUBPART 18-31.2 CONTRACTS WITH COMMERCIAL ORGANIZATIONS

### 18-31.205 Selected costs.

### 18-31.205-32 Precontract costs.

The authorization of precontract costs is not encouraged and shall be granted only in exceptional circumstances where a written request and justification has been submitted to and approved by the procurement officer. The justification shall (1) substantiate the necessity for the contractor to proceed prior to the contract award, (2) specify the start date of such contractor effort, (3) identify the total estimated time of the advanced effort, and (4) specify the cost limitation.

# 18-31.205-670 Evaluation of contractor and subcontractor compensation for service contracts.

(a) The contracting officer shall evaluate the reasonableness of compensation for service contracts:

(1) Prior to the award of a cost reimbursement or non-competitive fixedprice type contract which has a total potential value in excess of \$500,000, and

(2) Periodically after award for cost reimbursement contracts, but at least every three years.

(b) The contracting officer shall ensure the reasonableness of compensation is evaluated for cost reimbursement or non-competitive fixed-price type service subcontracts under a prime contract meeting the criteria in paragraph (a)(1) of this section where:

(1) The subcontract has a total potential value in excess of \$500,000; and

(2) The cumulative value of all of a subcontractor's service subcontracts under the prime contract is in excess of 10 percent

of the prime contract's total potential value.

(c) (1) Offerors shall be required to submit as part of their proposals a compensation plan addressing all proposed labor categories. Offerors also shall demonstrate in writing that their proposed compensation is reasonable.

(2) Subcontractors meeting the criteria in paragraph (b) of this section shall be required to comply with paragraph (c)(1).

(d) The contracting officer's preaward evaluation of each offeror's and their subcontractors' compensation should be done as part of, or in addition to DCAA audits, price analyses, or any other means deemed to be necessary.

(e) The results of the contracting officer's evaluation, including any excessive compensation found and its planned resolution, shall be addressed in the prenegotiation position memorandum, with the final resolution discussed in the price negotiation memorandum.

(f) The contracting officer shall ensure that the reasonableness of compensation for cost reimbursement subcontracts meeting the criteria in paragraphs (b)(1) and (2) of this section is periodically reviewed after award, but at least every three years.

(g) The results of the periodic evaluations of contractor and subcontractor compensation after contract award shall be documented in the contract file.

### 18-31.205-671 Solicitation provision.

The contracting officer shall insert a provision substantially the same as the provision at 18-52.231-71, Determination of Compensation, in solicitations for services which contemplate the award of a cost reimbursement or non-competitive fixedprice type service contract having a total potential value in excess of \$500,000.

### 18-31.205-70 Contract clause.

The contracting officer shall insert the clause 18-52.231-70, Date of Incurrence of Costs, in cost-reimbursement contracts for which specific coverage of precontract costs is authorized under 18-31.205-32.

PART 18-32 CONTRACT FINANCING

### SUBPART 18-32.1 GENERAL

### 18-32.111 Contract clauses.

### 18-32.111-70 NASA contract clause.

The contracting officer shall insert the clause at 18-52.232-79, Payment for On-Site Preparatory Costs, in solicitations and contracts for construction on a fixed-price basis when progress payments are contemplated and pro rata payment of onsite preparatory costs to the contractor is appropriate.

### 18-32.170 Voluntary refunds.

(a) General. A voluntary refund is a payment or credit, not required by any contractual or other legal obligation, made to the Government by a contractor or subcontractor either as a payment or as an adjustment under one or more contracts or subcontracts. It may be unsolicited or may be made in response to a Government request. If it is desired to solicit a refund from a subcontractor, the prime contractor should be encouraged to facilitate the making of such refund. In deciding whether or not to solicit a refund or accept an unsolicited refund, the contracting officer shall ask legal counsel to review the contract or contracts and all relevant data to determine whether the Government's rights would be jeopardized or impaired by the contracting officer's proposed action.

32-1:1

(b) Solicited refunds. Voluntary refunds may be requested during or after contract performance. They shall be requested only when it is considered that the Government has been overcharged under a contract or inadequately compensated for the use of Government-owned property or in the disposition of contractor inventory, and retention by the contractor or subcontractor of the amount in question would be contrary to good conscience and equity. Generally, retention by the contractor or subcontractor shall not be considered contrary to good conscience and equity, and thus a refund shall not be requested, unless the overcharge or inadequate compensation was due, at least in part, to the fault of the contractor or subcontractor. The decision to solicit a refund shall be made by the Deputy Administrator or a designee after coordination with the Associate Administrator for Procurement.

### (c) Disposition of voluntary refunds.

(1) If a voluntary refund is offered before final payment, it is preferable that the contract price be appropriately modified to reflect the refund. In such a case, the amount of the refund shall be credited to the applicable appropriation cited in the contract.

(2) When the refund is made by check rather than by adjusting the contract price, the check shall be made payable to the National Aeronautics and Space Administration and shall be forwarded immediately to the Financial Management Office of the appropriate installation. When forwarded, the check shall be accompanied by a letter identifying it as a voluntary refund, giving the number of the contract or contracts involved and, if possible, the account number of the appropriation to which the refund should be credited.

··· -

### SUBPART 18-32.4 ADVANCE PAYMENTS

### 18-32.402 General.

Determinations and findings in support of advance payments, as authorized by the Armed Services Procurement Act of 1947, as amended (10 U.S.C. 2307(c) and 2310(b)), shall be prepared in accordance with 18-32.410. The lowest level of authority at which these determinations and findings shall be made is:

(a) The Associate Administrator for Procurement (Code HC), for advance payments--

(1)Where the cumulative potential value for a single contract is greater than \$25,000,000, or where a contract modification will increase the amount outstanding at any time and the cumulative potential contract value will exceed \$25,000,000. When the advance payments outstanding at any time will exceed \$25,000,000, the appropriate 60-day notification will be given to Congress in accordance with 10 U.S.C. 2307(d). Additional determinations and findings for increases to such contracts need not be prepared and submitted to the Associate Administrator for Procurement as long as the advance payment amount outstanding at any time is not increased;

(2) In any amount to a foreign entity; or

(3) In any amount when the organization will receive a fee for the effort involved.

(b) The procurement officer, for advance payments involving a single action or which results in the cumulative potential contract value of \$25,000,000 or less (other than to a foreign entity or an organization that will receive a profit or fee), provided the action has been coordinated with the installation's Financial Management Officer.

### 18-32.402-1 Small Business Innovation | Research Contracts.

Advance payments for all Small Business Innovation Research (SBIR) Phase I contracts have been authorized through a class deviation. This authorization is for the Government fiscal years ending September 30, 2000.

### 18-32.402-2 Expendable launch vehicle services contracts.

Determinations and findings are not required for advance payments for contracts supporting expendable launch vehicle (ELV) services contracts (however, see 18-32.70 for Milestone Billing Arrangements). Instead all advance payments clauses for ELV services contracts shall be submitted to Code HC for concurrence prior to issuance of the solicitation (see 18-32.7005), and to the Associate Administrator for Procurement (Code HC) for approval prior to award (see 18-32.7006).

### 18-32.406 Letters of credit.

For the purposes of FAR 32.406(b)(1), each installation is considered a contracting agency.

## 18-32.406-70 Federal Cash Transactions Report.

The report required by paragraph (m) of the clause at FAR 52.232-12, Advance Payments, or paragraph (j) of Alternate V of that clause, shall be submitted on Standard Form 272, Federal Cash Transactions Report, and, if appropriate, Standard Form 272-A, Federal Cash Transactions Report Continuation.

### 18-32.407 Interest

Advance payments without interest are hereby authorized, pursuant to FAR 32.407(d)(1). 18-32.409-3 Security, supervision, and covenants.

The contracting officer, in consultation with the General Counsel, may require special security conditions, if appropriate, in particular cases. Those conditions may be included in solicitations and contracts that include the clause at FAR 52.232-12, Advance Payments.

18-32.410 Findings, determination, and authorization.

18-32.410-70 Instructions for determinations and findings.

(a) Requests for Headquarters approval of advance payments, in accordance with 18-32.402 (a), shall be forwarded to the Associate Administrator for Procurement (Code HC). They should include (1) the name of the cognizant NASA Headquarters program or staff office; (2) the name and phone number of the contracting officer or negotiator; (3) a copy of the proposed advance payments clause; (4) a copy of the contractor's request for advance payments. along with any supporting information; and (5) if a profit/fee is contemplated, the factors considered in determining the profit/fee (see Subpart 18-15.9), and (6) information as to how a determination was made that the Government has adequate security to cover the maximum advance payment amount at any time outstanding.

(b) 10 U.S.C. 2307 is normally the statutory authority cited for authorizing advance payments. When appropriate, advance payments may also be authorized under 42 U.S.C. 2473(c)(5) or under Public Law 85-804 as implemented by Executive Order 10789 (see Far Part 50).

(c) Generally, the format in FAR 32.410 should be used, tailored as follows:

(1) The phrase "Advance payments (in an amount not to exceed \$...., at any time outstanding)" at format paragraph (a)(2), and not the alternate phrase "(in an aggregate amount not exceeding...)," shall be used for all determinations and findings. The phrase means the maximum unliquidated dollar amount a contractor would need in advance payments at any point in time for the particular contract. The amount would not usually be the full contract value. The amount inserted should be based on an analysis of the contractor's financing needs (monthly or other appropriate period) for the specific contract involved.

(2) In the second sentence of format subparagraph (a)(4), delete the reference to a special bank account.

(3) Use format subparagraph (a)(6), not (a)(7) or (a)(8).

(4) At the end of format paragraph(b), use "is in the public interest."

### 18-32.412 Contract clause.

Whenever the clause at FAR 52.232-12 is used, it shall be modified as set forth at 18-52.232-12. In addition, the dollar amount to be inserted in the blank of the modified language of the "Maximum Payment" paragraph of the clause is the same amount determined for 18-32.410-70(c)(1).

### SUBPART 18-32.5 PROGRESS PAYMENTS BASED ON COSTS

### 18-32.501 General.

### 18-32.501-1 Customary progress payment rates.

The customary progress payment rate for all NASA contracts is 85 percent for large business, 90 percent for small business, and 95 percent for small disadvantaged business.

### 18-32.501-2 Unusual progress payments.

Requests for unusual progress payments must have the specific approval of the Associate Administrator for Procurement, with the concurrence of the Director, Financial Management Division (Code BF).

### 18-32.502 Pre-award matters.

## 18-32.502-2 Contract finance office clearance.

The approving authority for the actions specified in FAR 32.502-2 is the Associate Administrator for Procurement. Any such approvals should be coordinated with the Director, Financial Management Division.

### 18-32.502-4 Contract clauses.

### 18-32.502-470 NASA contract clause.

The contracting officer may insert a clause substantially as stated at 18-52.232-82, Submission of Requests for Progress Payments, in fixed-price solicitations and contracts that provide for progress payments. The recipient of the requests may be changed if this function is delegated. The number of copies of the request may be changed if necessary to meet a substantial need.

### 18-32.503 Post-award matters.

### 18-32.503-3 Initiation of progress payments and review of accounting system.

In connection with the situations mentioned in FAR 32.503-3(b), the Financial Management Officer shall be notified.

### 18-32.503-4 Approval of progress payment requests.

### 18-32.503-470 Contract clause.

The contracting officer shall insert the clause at 18-52.232-70, NASA Progress Payment Rates, in all solicitations and fixed-price contracts under which the Government will provide progress payments based on costs.

### 18-32.504 Subcontracts.

The Government approval mentioned in FAR 32.504(c) shall be as specified in 18-32.502-2 above.

(a) When a contract contains the clause at 18-52.232-77, Limitation of Funds (Fixed-Price Contract), the procedures in FAR 32.704 are applicable.

18-32.704 Limitation of cost or funds.

(b) The amount obligated for fee should always be at least sufficient to pay fee anticipated to be earned by the contractor for the work to which the amount allotted for the estimated cost applies.

### 18-32.705 Contract clauses.

## 18-32.705-270 Additional clauses for limitation of cost or funds.

(a) The contracting officer shall insert the clause at 18-52.232-77, Limitation of Funds

### SUBPART 18-32.7 CONTRACT FUNDING

### 18-32.702 Policy.

### 18-32.702-70 NASA policy.

(a) Cost-reimbursement contracts may be incrementally funded only if all the following conditions are met (except that, for cost-reimbursement R&D contracts under which no supplies are deliverable, only the condition in subparagraph (3) of this section applies):

(1) The total value of the contract (including options as defined in FAR Subpart 17.2) is \$1,000,000 or more.

(2) The period of performance under the contract is in excess of 12 months or overlaps the succeeding fiscal year.

(3) The funds are not available to fund the total contract value fully at the time of entering into the contract.

(b) Fixed-price contracts, other than those for research and development, shall not be incrementally funded.

(c) (1) Fixed-price contracts for research and development may be incrementally funded if--

(i) The total fixed price of the contract (including options as defined in FAR Subpart 17.2) is \$1,000,000 or more;

(ii) The period of performance under the contract is in excess of twelve months or overlaps the succeeding fiscal year;

(iii) Funds are not available to fund the total fixed price of the contract at the time of entering into the contract; and

(iv) Initial funding of the contract is not less than 50 percent of the total fixed price.

(2) Notwithstanding the grant of authority to fund contracts incrementally under the circumstances in subparagraph
 (1) of this section, fixed-price contracts shall be fully funded whenever possible,

and incremental funding of such contracts shall be kept to an absolute minimum.

(d) Except as noted in (e) of this section, waiver of any of the conditions set forth in paragraphs (a), (b), and (c) of this section shall be submitted for approval to the installation procurement officer. Concurrence of the installation Comptroller must be obtained on all requests prior to approval by the procurement officer. The procurement officer shall maintain a record of all such approvals during the fiscal year. At a minimum, the record will include: contract number, description and type; dollar value; amount of funds initially available; and the reason(s) for the waiver.

(e) A class deviation from the conditions set forth in paragraphs (a), (b), and (c) exists to permit incremental funding of contracts under Phase II of the SBIR Program until the last year of the program (FY 1993 unless extended). This deviation exists with the understanding that the contracts will be fully funded when funds become available. (Fixed-Price Contract), in solicitatic ns and contracts for fixed-price incrementally funded research and development.

(b) The contracting officer shall insert a clause substantially as stated at 18-52.232-81, Contract Funding, in Section B of solicitations and contracts containing the clause at (FAR) 48 CFR 52.232-22, Limitation of Funds. Insert the amounts of funds available for payment, the items covered, and the applicable period of performance. The contracting officer may add additional funding information (such as a summary of old amounts, amount(s) added in contract modifications, and new totals) as appropriate for the particular procurement.

### SUBPART 18-32.9 PROMPT PAYMENT

### 18-32.903 Policy.

As authorized at FAR 32.903, payments for contracts (other than Fixed-Price Architect-Engineer Contracts, Construction Contracts, and contracts for meats, perishables and dairy products) with the Canadian Commercial Corporation (CCC) shall be made earlier than the standard contract payment due dates.

### 18-32.906 Contract financing payments.

It is NASA's policy to make contract financing payments on the 30th day after the designated billing office has received a proper request. However, as authorized at FAR 32.906(a), the due date for making contract financing payments for a specific contract may be earlier than the 30th day, but not earlier than 7 days, after the designated billing office has received a proper request, provided that:

(a) The contractor provides consideration whose value is determined to be greater than the cost to the United States Treasury of interest on funds paid prior to the 30th day, calculated using the Current Value of Funds Rate published annually in the Federal Register (subject to quarterly revision);

(b) Approval is obtained from the installation procurement officer with concurrence from the installation Financial Management Officer; and

(c) The contract file is adequately documented to state what consideration was

received and show how the consideration was valued.

### 18-32.908 Contract clauses.

(a) When a clause at FAR 52.232-25, 52.232-26 or 52.232-27 is used, the clause at 52.232-28 shall be used as authorized by FAR 32.908(d), modified by deleting the words "and contract number" from paragraph (d). The following paragraph shall be inserted in FAR 52.232-28(b)(4) in lieu of the language at that location:

> The Contractor shall submit a Standard Form 3881 to the installation awarding this contract. If a Standard Form 3881 previously submitted to the installation awarding this contract is still valid, resubmittal is not necessary, unless requested by NASA.

(b) When the clause at FAR 52.232-25, Prompt Payment, is used in contracting with the CCC subject to the conditions at 18-32.970--

(1) The number "17" shall be used in lieu of "30" in paragraphs (a)(2)(i) and (a)(2)(ii) of the clause; and

(2) The number "17th" shall be inserted in paragraph (b)(2) of the clause.

### 18-32.970 Payments to Canadian Commercial Corporation.

As authorized by FAR 32.903, the phrase "the 17th day" shall be used in lieu of the "the 30th day" at FAR 32.905(a)(1), 32.905(a)(2) and 32.906(a).

### SUBPART 18-32.70 MILESTONE BILLING ARRANGEMENTS

### 18-32.7001 General.

As authorized at FAR 32.102(e), milestone billing arrangements may be used for Milestone billing contract financing. arrangements fall between progress payments based on costs with unusual terms and advance payments in the order of preference specified in FAR 32.106. Milestone billing arrangements are contractual provisions which provide for payments to a contractor upon successful completion of specific performance events not involving physical deliveries to the Government. As milestone arrangements are interim payments with respect to total contract performance, they are fully recoverable, in the same manner as progress payments, in the event of default. Milestone payments shall not be considered as payments for contract items delivered and accepted, incentive price revisions, or inspection and acceptance provisions of the contract. Milestone billing arrangements are contract financing payments and as such are not subject to prompt payment interest penalties.

### 18-32.7002 Policy.

negotiating milestone billing In arrangements, contracting officers must seek to establish an overall level of contract financing that will result in the contractor maintaining an appropriate investment in contract work-in-process inventory. The level of contract financing should be based on the number, value and timing of the milestone billing events, and the manner in which milestone payments are liquidated against contract line item deliveries. Therefore, proposed milestone billing arrangements should be carefully evaluated to insure that contract financing objectives are being met, that the proposed milestone billing arrangement will not result in an unreasonably low or negative level of contractor work-in-process inventory, or create an administrative burden (e.g., too frequent payments).

### 18-32.7003 Criteria for use.

(a) Milestone billing arrangements are limited to fixed-price type contracts in excess of \$10 million with long lead times (at least 12 months) between the initial incurrence of costs under the contract and the delivery of the first end item.

(b) The contract shall not provide for progress payments based on cost or advance payments, with the exception of expendable launch vehicle (ELV) services contracts (see 18-32.7003(d)).

(c) The established milestone events will be readily determinable.

(d) Milestone billing amounts shall not exceed the Government's best estimate of the cost to perform each milestone event. For ELV services contracts, 42 U.S.C. 2459c provides authority to make advance payments in conjunction with milestone billing arrangements. Advance payments provided under such arrangements must be reasonably related to launch vehicle and related equipment, fabrication, and acquisition costs. However, 42 U.S.C. 2459c provides considerable flexibility in determining what types of costs (committed, incurred, expended) may be considered in determining payment schedules for ELV services contracts. Individual milestone payments may exceed a contractor's incurred costs during performance only if the payment schedules comply with the intent of 42 U.S.C. 2459c, are considered fair and reasonable, and serve the Government's best interests.

(e) The contract milestones should represent the completion of substantial items of service or events that would normally require management visibility and attention to assure their timely accomplishment. Milestones should not be based on insignificant events, administrative functions, percentage of completion estimates, or the passage of time. The number of milestone events will be kept to a minimum.

### 18-32.7004 Contractual implementation.

Contracts containing milestone billing arrangements will include the following requirements:

(a) Normally, milestone billings will not be submitted after deliveries of a major end item commences upon which milestone payments have been made. In the event the period between delivery of such major end item and the next end item delivery exceeds three months, milestone payments can continue to be made for the next end item as mutually agreed for appropriate events.

(b) Completion of each milestone must be certified by the contractor and verified by the contract administration office in order for payment to be made.

(c) The processing of milestone billing vouchers shall not be delegated outside NASA without specific instructions from the contracting officer, and the periodic review of payments by the contracting officer, e.g., reviews of action taken on issues that have arisen.

(d) The relationship between milestone billing events and deliverable contract line items will be clearly established in the contract. A milestone billing event should normally be associated with only one contract line item. However, a contract line item may have more than one related milestone billing event. Upon delivery and acceptance of a contract line item on which milestone payment(s) has/have been made, the amount of the related milestone payment(s) will be deducted from the amount otherwise payable for the contract line item.

(e) Milestone billing amounts will not be subject to the "Adjusting Billing Prices" paragraph of the "Incentive Price Revision-Firm Target clause (FAR 52.216-16(f)) in fixed-price incentive contracts, and will not be adjusted for actual costs incurred above or below the contract target cost. Adjustments to milestone billing amounts shall not be made unless specifically provided for in the economic price adjustment (EPA) clause of the contract. Furthermore, any adjustment to milestone amounts arising from an EPA clause shall be made at the same time as the contract price adjustment.

(f) Milestone payments are interim payments with respect to total performance, and, as such, are fully recoverable in the case of default, in the same manner as progress payments.

### 18-32.7005 Concurrence prior to solicitation.

Prior to the issuance of a solicitation in which a milestone billing arrangement is made available, concurrence shall be requested in writing from Code HC. The request shall provide the reasons why a milestone billing arrangement is appropriate and include a copy of the milestone billing arrangement clause if it differs from the clause at 18-52.232-83, Milestone Billing Arrangements.

## 18-32.7006 Approval prior to contract award.

Subsequent to solicitation, but prior to contract award, a request for approval of the milestone billing arrangement shall be submitted to the Associate Administrator for Procurement (Code HC). The request for approval should include the following information: (a) The name and phone number of the contracting officer.

(b) A copy of the contractor's support for a milestone billing arrangement, including the rationale and statement of need for milestone billings.

(c) A copy of the proposed milestone billing clause.

(d) Description of the milestone billing events, with a schedule of milestone completion dates and milestone values, and the method of verifying completion.

(e) Description of the contract end items with their delivery schedule and prices.

(f) Proposed milestones and contract end items, with appropriate narrative showing how the milestone amounts were estimated and distributed to the contract end items for interim milestone payment and end item final payment purposes.

(g) Financial analysis (numeric and graphic) showing cash flow and contractor investment in the contractor work-inprocess inventory, with and without milestone billings.

(h) Any other information considered relevant.

### 18-32.7007 Subcontracts and contract amendments.

Subcontracts and amendments to prime contracts that incorporate milestone billing arrangements are also subject to the criteria, contractual implementation, concurrence and approval policies in this Subpart. Requests for concurrence and approval shall be submitted to the prime contractor through the next higher tier subcontractor, if applicable, to the contracting officer.

### 18-32.7008 Solicitation and contract clause.

(a) The contracting officer shall insert a clause substantially the same as the clause at 18-52.232-83, Milestone Billing Arrangements, in solicitations and contracts when a fixed-price type contract will be awarded and a milestone billing arrangement is contemplated.

(b) The contracting officer shall include a clause substantially the same as the clause at 18-52.232-84, Milestone Billing Arrangements--Subcontracts, in all solicitations and contracts when a fixed-price subcontract in excess of \$10 million with a milestone billing arrangement is contemplated.

NASA FAR SUPPLEMENT

### PART 18-33 PROTESTS, DISPUTES, AND APPEALS

#### SUBPART 18-33.1 PROTESTS

#### 18-33.103 Protests to the agency.

(a) Immediately upon learning that a protest has been filed, the contracting officer shall notify the Headquarters Procurement Policy Division (Code HP). If the protest is filed directly with an installation, any determination under FAR 33.103(a) to award the contract before the protest is resolved will be made by the contracting officer. If the protest is filed with NASA Headquarters, any such determination will be made by the Associate Administrator for Procurement.

(b) When a protest is filed directly with an installation or with NASA Headquarters, the contracting officer shall provide any notice under FAR 33.103(a)(3) to offerors whose offers might become eligible for award.

(c) For protests filed with NASA Headquarters, the contracting officer shall forward to the Procurement Policy Division (Code HP) within 10 work days a report essentially the same as that required by FAR 33.104(a)(3).

### 18-33.104 Protests to GAO.

NASA FAR SUPPLEMENT

(a) General.

(1) NASA personnel shall take no action to respond to or resolve any protest filed with GAO other than in accordance with this Regulation.

(2) Upon receiving any communication from a protester or the GAO regarding a protest, the cognizant procurement officer shall immediately contact Code HP for guidance. Conversely, upon Headquarters receipt of notice from GAO of the filing of a protest, Code HP shall immediately notify the cognizant procurement officer. This is usually done via telephone and constitutes the official notice to the installation that a protest has been filed. Within 3 work days of being notified, the contracting officer shall forward to Headquarters (Code HP) a copy of the procurement file including all documents referred to in FAR 33.104(a)(3)(i) through (v) and any others requested by Code HP. The contracting officer's statement (FAR 33.104(a)(3)(vi)) shall be forwarded no later than ten work days after the contracting officer has been The contracting officer's notified. statement shall receive the concurrence of the installation Chief Counsel. If more time is needed, requests for extension may be made by telephone to Headquarters, Code HP. When the GAO elects to use its express option procedure, the contracting officer's statement shall be forwarded to Code HP within six work days after the contracting officer has been notified. If that is not possible, a report to Code HP shall be made by telephone.

(3) The notices required by FAR 33.104(a)(4) shall be made by the contracting officer.

(4) The report required by FAR 33.104(a)(5) shall be filed by Headquarters (Code HP).

(5) Headquarters (Code HP) shall furnish copies of the report as required by FAR 33.104(a)(6) and, in consultation with the Office of General Counsel, decide which documents are relevant.

(6) Headquarters (Code HP) shall provide the information required by FAR 33.104(a)(7) to the GAO.

### (b) Protests before award.

(1) The contracting officer shall provide Headquarters (Code HP) with information and recommendations relevant to a determination under FAR 33.104(b)(1) to award a contract prior to resolution of a protest. Any such determination shall be made by the Associate Administrator for Procurement, who for purposes of this requirement is the "head of the contracting activity." The notification to GAO required by FAR 33.104(b)(2) will be made by Code HP.

(2) The contracting officer shall make the notifications and requests required by FAR 33.104(b)(3).

### (c) Protests after award.

(1) Any request for a determination under FAR 33.104(c)(2) to authorize performance notwithstanding a protest shall be submitted to Headquarters (Code HP). Any such determination shall be made by the Associate Administrator for Procurement who, for purposes of this requirement, is the "head of the contracting activity." The notification to GAO required by FAR 33.104(c)(3) shall be made by Code HP.

(2) Under FAR 33.104(c)(4), the contracting officer shall consult with Headquarters (Code HP) before terminating a protested contract. If FAR 33.104(c)(5) applies, the contracting officer shall consult with Code HP before taking any action.

(d) Document requests. If the protester in its protest statement or later in the process requests documents under FAR 33.104(a)(2), the contracting officer shall forward them to Code HP with the documents required by FAR 33.104(a)(3), within three work days of receipt of the request. Concurrently, the contracting officer shall within 1 work day provide copies of the protest statement, the document request if separate from the protest statement, and the requested documents to the installation Chief Counsel who will prepare a proposed response on the release of the documents. This proposed response will be provided to the contracting officer with copies to Headquarters (Code HP) and the Associate General Counsel for

Contracts (Code GK) suitable for incorporation into the Administrative Report.

(e) **Conferences.** Representatives from Code HP and Code GK, and those installation representatives designated by Code HP or requested by the GAO will attend conferences held in accordance with FAR 33.104(e).

### 18-33.105 Protests to GSBCA.

(a) The installation's Office of Chief Counsel shall, in consultation with the Associate General Counsel for Contracts, (Code GK) and the Associate Administrator for Procurement, represent the agency in protests filed with the GSBCA. The cognizant Chief Counsel is responsible for taking or otherwise ensuring the taking of all actions required by FAR 33.105 and the GSBCA Rules of Procedure.

(b) Upon receiving notice from a non-NASA source of a protest filed with the GSBCA, the receiving office shall immediately notify the cognizant Chief Counsel, who shall further notify the Associate Administrator for Procurement (Code H), the Associate General Counsel for Contracts (Code GK), and the procurement officer.

(c) The contracting officer is respon-sible for preparing the protest file required by FAR 33.105(b) and otherwise assisting counsel.

(d) The determination and findings required by FAR 33.105(d)(2) shall be (1) prepared and executed by the director or assistant director of the cognizant technical directorate, the cognizant program/ project manager, or cognizant staff official reporting directly to the head of the installation and (2) forwarded to the Associate Administrator for Procurement (Code H) for concurrence.

### SUBPART 18-33.2 DISPUTES AND APPEALS

### 18-33.209 Suspected fraudulent claims.

The contracting officer shall report suspected fraudulent claims to the Office of Inspector General (Code W) and the Office of General Counsel (Code G).

#### 18-33.211 Contracting officer's decision.

The Armed Services Board of Contract Appeals is the NASA Administrator's authorized representative for hearing and determining disputes arising under or related to NASA contracts. Accordingly, when final decision letters are prepared, contracting officers shall alter the paragraph at FAR 33.211(a)(4)(v) to include the following:

(a) The Board's mailing address:

Armed Services Board of Contract Appeals Skyline Six 5109 Leesburg Pike Falls Church, VA 22041-3208

(b) A notification that the Board's operating procedures appear in Part 48, Code of Federal Regulations, Chapter 2, Appendix A.

### 18-33.211-70 Contracts awarded before March 1, 1979.

Under contracts awarded before the effective date of the Contract Disputes Act of 1978 (March 1, 1979), the contractor may elect to proceed either under the Act or under the Disputes clause in the contract. Final decision letters regarding disputes under contracts awarded before that date shall be prepared in accordance with FAR 33.211(a)(4) except that contracting officers shall alter the paragraph at FAR 33.211(a)(4)(v) to read as follows:

> This is the final decision of the contracting officer. Since your contract was awarded before the effective date of the Contract Disputes Act of 1978 (March 1, 1979), you may appeal this decision by following the procedures of either the Disputes clause at Federal Acquisition Regulation (FAR) 52.233-1, or Disputes clause (dated the September 1962) in your contract. If you decide to appeal under FAR 52.233-1, you must, within 90 days from the date you receive this decision, mail or otherwise furnish written notice to the Armed Services Board of Contract Appeals, Skyline Six, 5109 Leesburg Pike, Falls Church, VA 22041-3208, and provide a copy to the contracting officer from whose decision the appeal is taken. The notice shall indicate that an appeal is intended, reference this decision, and identify the contract by number. For appeals under this clause, you may elect to proceed under the Board's small claims procedure (for claims of \$10,000 or less) or its accelerated procedure (for claims of \$50,000 or less). In lieu of appealing to the Board, you may bring an action directly in the U.S. Claims Court within 12 months of the date you receive this decision.

If you elect to appeal under the Disputes clause (dated September 1962) of your contract, you must, within 30 days from the date you receive this decision, mail or otherwise furnish to the contracting officer a written appeal or notice addressed to the Armed Services Board of Contract Appeals. The appeal or notice shall indicate that an appeal is intended, reference this decision, and identify the contract by number. For appeals under this clause, you may elect to proceed under the Board's optional accelerated procedure (for claims of \$25,000 or less).

For additional information, see the procedures of the Armed Services Board of Contract Appeals, which appear in Part 48,Code of Federal Regulations, Chapter 2, Appendix A.

### 18-33.215 Contract clause.

The contracting officer shall use Alternate I the clause at FAR 52.233-1, Disputes, whenever continued performance is vital to national security, the public health and welfare, important agency programs, or other essential supplies or services whose timely reprocurement from other sources would be impracticable.

### PART 18-34

# MAJOR SYSTEM ACQUISITION

# **TABLE OF CONTENTS**

18-34.000 18-34.005-1 18-34.005-170 Scope. Competition. Contract clauses.

#### PART 18-34 MAJOR SYSTEM ACQUISITION

#### 18-34.000 Scope.

NASA's implementation of OMB Circular No. A-109, Major Systems Acquisitions, and (FAR) 48 CFR Part 34 is contained in this part, subpart 18-70.5, and in NASA Management Instruction (NMI) 7120.4, "Management of Major System Programs and Projects," and NASA Handbook (NHB) 7120.5, "Management of Major System Programs and Projects Handbook." This part addresses the procedures for the competitive acquisition of major systems. Subpart 18-70.5 incorporates the NASA Major System Acquisition Phased Procurement Guidance.

#### 18-34.001 Definitions

(a) **Down-selection**. In a phased procurement, the process of selecting contractors for phases subsequent to the initial phase from among the preceding phase contractors.

(b) *Major System*. Any system that: is directed at and critical to fulfilling an agency mission; entails the allocation of relatively large amount of resources; or warrants special management attention. Designation of a system as "major" is made in accordance with NMI 7120.4, "Management of Major System Programs and Projects," and NHB 7120.5, "Management of Major System Programs and Projects Handbook."

(c) *Phased Procurement.* A program comprised of several distinct steps or phases (e.g., preliminary analysis, definition, design, and development) where the realization of program objectives requires a planned, sequential acquisition of each step or phase. The phases in a phased procurement may be acquired separately, in combination, or through a down-selection strategy.

(d) **Progressive Competition.** A type of down-selection strategy for a phased procurement. In this method, a single solicitation is issued for all phases of the program. The initial phase contracts are awarded, and the contractors for subsequent phases are expected to be chosen through a down-selection from among the preceding phase contractors. In each phase, progressively fewer contracts are awarded until a single contractor is chosen for the final phase. Normally, all down-selections are accomplished without issuance of a new, formal solicitation.

#### 18-34.005-1 Competition.

(a) In procurements subject to the provisions of OMB Circular No. A-109 and NMI 7120.4 and NHB 7120.5, or other similar phased procurements, it is NASA policy to ensure competition in the selection of contractors for award in each phase of the process not performed in-house.

(b) There are five phases in the life cycle of a NASA major system acquisition:

(1) Phase A, Preliminary Analysis, involves the analysis of alternate overall project concepts for accomplishing a proposed agency technical objective or mission.

(2) Phase B, Definition, involves the detailed study, comparative analysis, and preliminary system design of selected Phase A concepts.

(3) Phase C, Design, involves the detailed system design (with mock-ups and test articles of critical systems and subsystems) of the systems design concept determined to provide the best overall system for the Government.

(4) Phase D, Development, involves final detailed design, fabrication, certification, and delivery of an operational system that meets program requirements.

(5) Phase E, Operations, involves operation and use of the system in its intended environment, continuing until the system leaves the agency inventory. This phase includes any system modifications and upgrades.

(c) The preferred approach in NASA for the acquisition of the phases of a Major System is the following:

(1) Phase A is accomplished primarily through in-house studies.

(2) Phases B, C, and D are acquired through a phased procurement process in which two or more Phase B contracts are awarded competitively and then a downselection is made among these contractors to determine the single combined Phase C/D awardee.

(3) Phase E is normally acquired separately.

(d) Each phase of a major system acquisition not performed in-house must be synopsized in accordance with FAR 5.201 and must include all the information required by FAR 5.207. When the phased procurement process identified in 18-34.005(c)(2) is used, the synopsis for the initial competitive phase, normally Phase B, should also state the following:

(1) The Government plans to conduct a phased procurement involving a competitive down-selection process. (Include a description of the process and the phases involved).

(2) Subsequent competitions for identified follow-on phases will build on the results of previous phases.

(3) The award criteria for subsequent phases will include demonstrated completion of specified previous phase requirements.

(4) The Government expects that only the initial phase contractors will be capable of successfully competing for the subsequent phase(s). Proposals for the subsequent phase(s) will be automatically requested from these contractors.

(5) The Government intends to issue (or not issue) a new, formal solicitation(s) for subsequent phase(s). (If new solicitations are not planned, the acquisition must be identified as a "progressive competition" (see 18-34.001(d), and the mechanism for providing pertinent subsequent phase proposal information (e.g., statements of work, specifications, proposal preparation instructions, and evaluation factors for award) must be described).

(6) Each subsequent phase of the acquisition will be synopsized in the CBD.

(7) Notwithstanding the expectation that only the initial phase contractors will be capable of successfully competing for the subsequent phase(s), proposals from all responsible sources submitted by the specified due date will be considered by the agency. In order to contend for subsequent phase awards, however, such prospective offerors must demonstrate a design maturity equivalent to that of the prior phase contractors. Failure to fully and completely demonstrate the appropriate level of design maturity may render the proposal unacceptable with no further consideration for contract award.

(e) In addition to the information in 18-34.005-1(d), the synopsis for the subsequent phases, normally a combined C/D, must identify the current phase contractors.

(f) To streamline the major system acquisition process, the preferred approach for NASA phased procurements is the "progressive competition" down-selection technique in which new, formal solicitations are not issued for phases subsequent to the initial phase. Subsequent phase proposals are requested by less formal means, normally by a letter accompanied by the appropriate proposal preparation and evaluation information.

(g) When using the progressive competition technique, if a prospective offeror other than one of the preceding phase contractors responds to the synopsis for a subsequent phase and indicates an intention to submit a proposal, the contracting officer shall provide to that offeror all the material furnished to the preceding phase contractors necessary to submit a proposal. This information includes the preceding phase solicitation, contracts, and system performance and design requirements, as well as all proposal preparation instructions and evaluation factors. In addition, the prospective offerors must be advised of all requirements necessary for demonstration of a design maturity equivalent to that to the preceding phase contractors.

(h) Although a key feature of the progressive competition technique is that a formal solicitation is issued for the initial phase only, a new, formal solicitation may nonetheless be required for subsequent phases. When the Government requirements or evaluation procedures change so significantly after release of the initial phase solicitation that a substantial portion of the information provided in the initial phase synopsis, solicitation, or contracts is invalidated, a new solicitation shall be issued for the next phase.

(i) Whether or not down-selection procedures are used, contracts awarded in phased procurements shall not include requirements for submission of subsequent phase proposals. Instead, proposals shall be requested through a solicitation or other appropriate mechanism (e.g., by letter when using the progressive competition technique). Priced options for preparation of subsequent phase proposals are prohibited.

(j) With one exception, both the initial and subsequent phase(s) of a major system acquisition down-selection process are considered to be full and open competition if the procedures in paragraphs (d) through (i) of this section are followed. If only one contractor successfully completed a given phase and no other offers are solicited for the subsequent phase, award of the subsequent phase may be made only if justified by one of the exceptions in FAR 6.302 or one of the exclusions in FAR 6.2, and only after compliance with the synopsis requirements of FAR 5.202 and 5.205, when appropriate. (k) If offers for a subsequent phase are solicited from multiple sources (including but not necessarily limited to prior phase contractors), but only one proposal is received, the award for the subsequent phase shall be reported as a "noncompetitive procurement using competitive procedures" (see 18-4.671-4(r)).

(1) Time gaps between phases should be minimized in all major system phased procurements. Accordingly, early synopsis subsequent phase competition is of encouraged. Also. when sufficient programmatic and technical information is available to all potential offerors, proposal evaluation and source selection activities need not be delayed until completion of a given phase. When appropriate, these activities should commence as early as practicable during the period of performance of a phase to ensure the expeditious award of the succeeding phase.

#### 18-34.005-170 Contract clauses.

(a) The contracting officer shall insert the clause at 18-52.234-70, Phased Procurement Using Down-Selection Procedures, in solicitations and contracts for phased procurements using down-selection procedures other than the progressive competition technique described in 18-34.005-1(f) through (h). The clause shall be included in the solicitation for each phase and in all contracts except that for the final phase.

(b) The contracting officer shall insert the clause at 18-52.234-71, Phased Procurement Using Progressive Competition Down-Selection Procedures, in solicitations and contracts for phased procurements using the progressive competition technique described in 18-34.005-1(f) through (h). The clause shall be included in the initial phase solicitation and all contracts except that for the final phase.

#### PART 18-35 RESEARCH AND DEVELOPMENT CONTRACTING

#### 18-35.003 Policy.

(a) See NHB 5800.1, NASA Grant and Cooperative Agreement Handbook, for policy regarding the use of grants and cooperative agreements.

(b) See 18-16.303 for NASA policy regarding cost sharing.

(c) See NMI 5109.13, Recoupment Policy for the Sale, Use, Lease, or Other Transfer of NASA-Developed Technologies, for NASA policy regarding recoupment.

# 18-35.003-70 Center for AeroSpace Information.

NASA encourages contractors to use scientific and technical information in the possession of the agency in direct support of all NASA contracts involving research and development work (42 U.S.C. 2473). This information includes past and current reports on research, development, test, and Certain information (e.g., evaluation. Scientific and Technical Aerospace Reports (STAR)) announcing current publications covering aeronautics, space, and supporting disciplines is available to contractors free of charge; contractors may be charged for other types of information (e.g., automatic distribution of reports on a specific subject) or services (e.g., searches of the NASA data base or on-line access to the NASA data base through NASA/RECON). To be provided scientific and technical information in a timely manner, the contractor must furnish NASA the information specified in the clause at 18-52.235-70, Center for AeroSpace Information.

# 18-35.003-71 Plan for New Technology Reporting.

(a) NASA's policy is to obtain prompt reporting of any invention, discovery, improvement, or innovation (i.e., items of new technology, whether or not patentable) made in the performance of NASA contracts to provide for its widest practical and appropriate dissemination. The clause at 18-52.227-70, New Technology, is included in certain NASA contracts (see 18-27.373(b)) to ensure the prompt reporting of such inventions, discoveries, improvements, and innovations.

(b) When the contracting officer wants to ensure that offerors adequately understand the new technology reporting requirements in solicitations that include the clause at 18-52.227-70, New Technology, the contracting officer may include the provision at 18-52.235-72, Plan for New Technology Reporting. The provision requires offerors to provide (1) estimates of cost and manpower requirements to perform new technology reporting and (2), if selected for negotiation, a detailed plan for such reporting.

#### 18-35.014 Government property and title.

For items having an acquisition cost of more than \$5,000, the determination at FAR 35.014(b)(2)(iii) that vesting title in the contractor would not further the objectives of NASA's research program must be approved at a level higher than the contracting officer.

# 18-35.015 Contracts for research with educational institutions and nonprofit organizations.

(a) In addition to the requirements of FAR 35.015(a)(1)(iv), the institution must obtain the contracting officer's approval when it plans to continue the research work during a continuous period in excess of 3

months without the participation of an approved principal investigator or project leader.

(b) For NASA policy regarding advance payments under contracts with educational institutions, see Subpart 18-32.4.

# 18-35.016 Broad agency announcements.

(a) The following forms of broad agency announcements are authorized for use:

(1) Announcements of Opportunity, described in Subpart 18-70.1, NASA Acquisition of Investigations System.

(2) NASA Research Announcements, described in 18-35.016-70.

(3) Other forms of announcements approved by the Associate Administrator for Procurement.

(b) Broad agency announcements may not preclude the participation of any offeror capable of satisfying the Government's needs unless a justification for other than full and open competition is approved under FAR 6.304 (see FAR 6.102(d)(2) and 35.001).

(c) Other program announcements, notices, and letters not authorized by paragraph (a) above shall not be used to solicit proposals that may result in contracts.

# 18-35.016-70 NASA Research Announcements.

(a) Scope. This subsection 18-35.016-70 prescribes regulations and procedures for the use of a NASA Research Announcement (NRA), a form of broad agency announcement (see FAR 6.102(d)(2)). An NRA is used to announce NASA's research interests and, after peer or scientific review using factors in the NRA, select proposals for funding. Unlike an RFP containing a statement of work or specification to which offerors are to respond, an NRA provides for the submission of competitive project ideas, conceived by the offerors, in one or more program areas of interest to NASA. The NRA is intended to be used for those research procurements for which it would be impossible to draft an adequate RFP in sufficient detail without restraining the technical response and thus hindering the competition of ideas, rather than expanding competition. Consequently, an NRA shall not be used in place of an RFP when the procurement requirement is narrowly defined and it is necessary to use a detailed description or specification.

# (b) Issuance.

(1) Each NRA shall be assigned a unique number in accordance with 18-4.7102-1.

(2) NRAs may remain open for proposal submission for a maximum of one year. They may not be amended or modified once issued, but may be reissued by assigning a new number and resynopsizing. (See also paragraph (g) of this section.) NRAs should remain open for at least 90 days.

(3) Before issuance, each fieldgenerated NRA shall be concurred in by the procurement officer and approved by the installation's director or a designee, who shall serve as or designate a selecting official. Before issuance, each Headquarters-generated NRA shall be concurred in by General Counsel (Code GK) and the Director, Headquarters Acquisition Division (Code HW) and approved by the cognizant Program Associate Administrator or a designee, who shall serve as or designate a selecting official. If a Headquarters-generated NRA may result in awards by a NASA field installation, the concurrence of that installation's procurement officer may be sought in place of or in addition to Code HW's concurrence.

(4) The contracting officer shall assure that the NRA is synopsized in the Commerce Business Daily (CBD). The CBD synopsis required by FAR 35.016(c) satisfies the synopsis requirement at FAR 5.201; the synopsis contemplated by FAR 5.205 is not required. The synopsis shall be brief and provide the address for obtaining a copy of the detailed NRA. The technical part of the synopsis is intended to describe an identifiable area of interest and should not exceed 50 words.

(5) The NRA shall be prepared, printed, and distributed by or under the direction of the selecting official. Distribution shall not begin until the concurrence of the procurement officer has been obtained and the contracting officer has confirmed that the synopsis requirements have been met. The NRA shall be distributed to each coordinating office responsible for receipt of unsolicited proposals and to the Office of Procurement (Code HS).

(6) In addition to the concurrences and approvals in subparagraph (3) above, each installation shall submit its first two NRAs
1 to the Associate Administrator for Procurement (Code HS) for concurrence before issuance.

(c) **Content.** The NRA shall consist of the following items in the order shown. This entire package shall be provided in response to requests.

(1) Cover. The cover shall dis-play:
 (i) "OMB Approval Number

2700-0042" in the upper right corner. (ii) Title (centered, in uppercase).

(iii) "NASA Research Announcement Soliciting Research Proposals for the Period Ending \_\_\_\_\_\_ " (centered, on three lines, two inches below the title; insert closing date).

(iv) NRA number (centered, two inches below closing date).

(v) Official address for office issuing NRA (centered, at bottom of cover).

(2) Summary and Supplemental Information.

(i) The Summary and Supplemental Information shall not exceed two pages and shall include: uppercase).

(A) Title (centered, in

(B) Introductory paragraphs describing the purpose of the NRA and the period for receipt of proposals. When proposals received during this period may be grouped for evaluation at separate times, the introductory paragraphs shall indicate when evaluations are planned and shall include the following remark:

> "A proposal that is scientifically and programmatically meritorious, but that cannot be accepted during its initial review under an NRA because of funding uncertainties, may be included in subsequent reviews unless the offeror requests otherwise."

> > (C) NRA number.

(D) Address for submitting proposals, including "ATTN: NRA \_\_\_\_\_." (Insert NRA number.)

(E) Copies required.

(F) Selecting official's title.

(G) Name, address, and telephone number for additional technical information.

(H) Name and telephone number of contracting office point of contact for administrative and contractual information.

(I) Additional instructions supplementing the Instructions for Responding to NASA Research Announcements for Solicited Research Proposals (see Subpart 18-70.2). Such information shall be kept to the minimum necessary for a particular NRA and shall cite specific "Instructions" paragraphs supplemented.

(J) When awards will be chargeable to funds of the new fiscal year and the NRA is to be issued before funds are available, the NRA shall contain a statement as follows:

"Funds are not presently available for awards under this

NRA. The Government's obligation to make awards is contingent upon the availability of appropriated funds from which payment for award purposes can be made and the receipt of proposals that the Government determines are acceptable for award under this NRA."

(ii) The Summary and Supplemental Information may include estimates of the amount of funds that will be available and the number of anticipated awards. A breakdown of the estimates by research area may also be shown.

(iii) The Summary and Supplemental Information may indicate that proposals submitted under an earlier NRA and held for subsequent reviews will be considered and need not be resubmitted. To so indicate, the earlier NRA shall be identified by number in the following statement:

"Proposals for which no selection decision was made under NRA \_\_\_\_\_ and held for subsequent reviews will be considered under this NRA and need not be resubmitted." (Insert NRA number).

(3) **Technical Description.** The first page shall contain the NRA number and title at the top. A brief description not exceeding two pages is preferable, but it should be detailed enough to enable ready comprehension of the research areas of interest to NASA. Specifications containing detailed statements of work more suited to RFPs should be avoided. Any program management information included must be limited to matters that are essential for proposal preparation.

(4) Instructions for Responding to NASA Research Announcements for Solicited Research Proposals. The NRA shall contain instructions in accordance with 18-70.203.

# (d) Unsolicited proposals.

(1) Unsolicited proposals for new efforts that are within the scope of an open NRA shall be evaluated in accordance with 18-15.506(b).

(2) Unsolicited proposals for renewal of ongoing efforts that are within the scope of an open NRA shall be evaluated in accordance with 18-15.505-70.

(3) A broad agency announcement shall not be considered to be an "acquisition requirement" as the term is used in FAR 15.507(a)(2).

# (e) Receipt of proposals, evaluation, and selection.

(1) Proposals shall be protected as provided in 18-15.508-70 and 18-15.509-70.

(2) Evaluation, selection, and award may occur during or after the period established for receipt of proposals. Late proposals and modifications shall be treated in accordance with 18-15.412(a) and (b).

(3) When more than one time is established in the NRA for evaluating proposals, proposals received prior to the time established will be considered as part of the initial group to be evaluated. Subsequent groups of proposals to be evaluated shall be formed from those proposals received after the time established for the earlier evaluation groups and prior to the time

# **RESEARCH AND DEVELOPMENT CONTRACTING**

established for a subsequent group, along with those proposals, if any, held over under subparagraph (8) below.

(4) The selection decision shall be made following peer or scientific review of a proposal. Peer or scientific review shall involve (i) evaluation, outside NASA, by a discipline specialist in the area of the proposal, (ii) evaluation by in-house specialist, or (iii) both. an Evaluation by specialists outside NASA conducted subject to the shall be conditions in FAR 15.413-2(f) and NFS 18-15.413-2. Īn 18-15.413 and particular, the selecting official shall ensure compliance with FAR 15.413-2(f)(5) regarding the designation of outside evaluators and avoidance of conflicts of interest. After receipt of a proposal before selection, scientific or and engineering personnel shall communicate with an offeror, regarding the proposal, only for the purpose of clarification, as defined in FAR 15.601, or in order to understand the meaning of some aspect of the proposal that is not clear, or in confirmation οr obtain order to substantiation of a proposed approach. solution, or cost estimate.

(5) Competitive range determinations shall not be made, and best and final offers shall not be requested.

(6) All or part of a proposal may be selected unless the offeror requests otherwise. In addition, changes to a selected proposal may be sought as long as (i) the ideas or other aspects of the proposal on which selection is based are contained in the proposal as originally submitted, and are not introduced by the changes; and (ii) the changes sought would not involve a material alteration to the requirements stated in the NRA. Changes that would affect a proposal's selection shall not be sought. When be desired. thev mav changes are described to the contracting officer under subdivision (10)(ii) below, or the selecting official may request revisions from the offeror. The changes shall not transfer information from one offeror's proposal to another offeror (see FAR 15.610(d)(2)). When collaboration between offerors would improve proposed research programs, collaboration may be suggested to the offerors.

The basis for selection of a (7) proposal shall be documented in a applying the selection statement evaluation factors in the NRA. The the represents statement selection conclusions of the selecting official and must be self-contained. It shall not incorporate by reference the evaluations of the reviewers.

(8) A proposal that is scientifically and programmatically meritorious, but that is not selected during its initial review under an NRA, may be included in subsequent reviews unless the otherwise. If the requests offeror proposal is not to be held over for subsequent reviews, the offeror shall be notified that the proposal was not selected for award.

(9) The selecting official shall notify each offeror whose proposal was not selected for award and explain generally why the proposal was not selected. If requested, the selecting official shall arrange a debriefing under 18-15.1003, with the participation of a contracting officer.

(10) The selecting official shall forward to the contracting officer--

(i) The results of the technical evaluation, including the total number of proposals received under the NRA by the time of selection, the selection statement, and the proposal(s) selected for funding;

(ii) A description of any changes desired in any offeror's statement of work, including the reasons for the changes and any effect on level of funding;

(iii) If a contract will be used to fund the proposal, a description of deliverables, including technical reports, and delivery dates, consistent with the requirements of the NRA;

(iv) A procurement request;

# **RESEARCH AND DEVELOPMENT CONTRACTING**

(v) Comments on the offeror's cost proposal selecting (either the official's comments, which may be based on the reviewers' comments, or copies of the reviewers' comments with any different conclusions of the selecting official); these comments shall address the need for and reasonableness of travel. computer time. materials. equipment. subcontracted items, publication costs, labor hours, labor mix, and other costs; and

(vi) A copy of the selected proposal as originally submitted, any revisions, and any related correspondence from the successful offeror.

(11) The selecting official may provide to the contracting officer copies of the reviewers' evaluations. Reviewers' names and institutions may be omitted in order to protect their identity.

(12) The official selecting may notify each offeror whose proposal was selected for negotiation leading to award.

(i) The notification shall state that --

(A) The proposal has been selected for negotiation leading to award:

(B) The offeror's business office will be contacted by a contracting officer, who is the only official authorized to obligate the Government; and

(C) Any expenses incurred by the offeror in anticipation of receiving an award will be at the offeror's risk.

(ii) The notification mav identify which award instrument (contract, grant, cooperative agreement, or other agreement) has been recommended.

(f) Award. If a contract is selected as the award instrument (see FAR 35.003(a) and 18-35.003(a)), the contracting officer shall --

(1) Advise the offeror that the Government contemplates entering into negotiations; the type of contract contemplated; and the estimated award date, level of effort, and delivery schedule:

(2) the offeror Send а model contract, if necessary, including modifications contemplated in the offeror's statement of work, and request agreement or identification of any exceptions (the contract statement of work may summarize the proposed research, state that the research shall be conducted in accordance with certain technical sections of the proposal (which shall be identified by incorporating them into the contract by reference), and identify any changes to the proposed research);

(3) Request the offeror to complete return certifications and repreand sentations and Standard Form 33. Solicitation, Offer, and Award, or other appropriate forms:

(4) Conduct negotiations in accordance with FAR Subparts 15.8 and 15.9, as applicable;

(5) Award a contract with reasonable promptness to the successful offeror by transmitting written notice of the award to that offeror; and

(6) Comply with FAR Subparts 4.6 5.3 on contract reporting and and synopses of contract awards, to the extent required by those subparts.

(g) Cancellation of an NRA. When program changes, the absence of program funding, or any other reasons require cancellation of an NRA, the contracting officer shall publish a notice in the Commerce Business Daily. The office issuing the NRA may provide additional notification by using the mailing list for the NRA.

18-35.070 NASA contract clauses and solicitation provision.

The contracting officer shall insert (a) the clause at 18-52.235-70, Center for |

#### RESEARCH AND DEVELOPMENT CONTRACTING

AeroSpace Information, in all research and development contracts and in costreimbursement supply contracts involving research and development work.

(b) The contracting officer shall insert the clause at 18-52.235-71, Key Personnel and Facilities, in contracts when source selection has been substantially predicated upon the possession by a given offeror of special capabilities, as represented by either key personnel or facilities.

(c) The contracting officer shall insert the provision at 18-52.235-72, Plan for New Technology Reporting, in any solicitation for contract estimated to cost \$2,500,000 or more if the contract is also to contain the clause at 18-52.227-70, New Technology, unless, in consultation with the installation's New Technology Officer, the contracting officer determines that the provision is not appropriate. The contracting officer may insert the provision in solicitations for any such contract of a lesser dollar amount if deemed appropriate after consultation with the installation's New Technology Officer.

#### 18-35.071 Mission Critical Space Systems Personnel Reliability Program.

The Mission Critical Space Systems are resources providing the national capability to support a wide range of applications, commercial. scientific, international defense. and uses. Criteria and procedures for assuring the standards of reliability in highest mission-critical personnel assigned to positions in connection with the Space Transportation System are set forth in NMI 8610.13, Mission Critical Space Systems Personnel Reliability Program (see 18-46.270(a)).

#### PART 18-36 CONSTRUCTION AND ARCHITECT-ENGINEER CONTRACTS

# SUBPART 18-36.2 SPECIAL ASPECTS OF CONTRACTING FOR CONSTRUCTION

# 18-36.203 Government estimate of construction costs.

(a) The initiator of the Government estimate shall designate the estimate "For Official Use Only" unless the information in the estimate requires a security classification, in which event it shall be handled in accordance with applicable security regulations.

(b) If the acquisition is by sealed bidding, the contracting officer shall file a sealed copy of the detailed Government estimate with the bids until bid opening. After the bids are read and recorded, the contracting officer shall remove the "For Official Use Only" designation, read the estimate, and record it in the same detail as the bids.

(c) If the acquisition is by negotiation, the contracting officer may disclose cost breakdown figures in the Government estimate during negotiations, but only to the extent necessary for arriving at a fair and reasonable price. However, the contracting officer shall not disclose the overall amount of the Government estimate prior to award. At the time of award, the "For Official Use Only" designation shall be removed. After award, the contracting officer may reveal the Government estimate, upon request, to offerors.

#### 18-36.205 Statutory cost limitations.

"Statutory cost limitations" refers to cost limitations that may be included in an agency's annual appropriation act.

# 18-36.209 Construction contracts with architect-engineer firms.

(a) Except as provided in paragraph (c) of this section, contracting officers shall not--

(1) Solicit offers for the construction of a facility from any firm, its subsidiaries, or affiliates furnishing architect-engineer services for that facility; or

(2) Consider unsolicited offers from that firm, its subsidiaries, or affiliates.

(b) An architect-engineer firm selected for negotiation of an architect-engineer services contract under the procedures in 18-36.602 shall be advised of the policy in paragraph (a) of this section before initiation of negotiations, if that firm possesses construction capabilities either within its own organization or through subsidiaries or affiliates. The firm shall have the option of either--

(1) Declining to enter into contract negotiations, in order to be eligible to compete for the related construction contract; or

(2) Entering into contract negotiations with the clear understanding that, if such negotiations are successful, the firm, its subsidiaries, and affiliates will be ineligible to compete for the related construction contract.

(c) (1) The policy in FAR 36.209 does not apply when--

(i) The Associate Administrator for Procurement, upon recommendation from Code HS, specifically authorizes, before the initiation of negotiations, use of a cost-plus-fixed-fee contract for both the design and construction of a facility; or

(ii) A contract (A) is awarded on the basis of performance specifications for the construction of a facility, and (B) requires the contractor to furnish construction drawings, specifications, or site adaptation drawings of the facility.

(2) The contracting officer shall prepare requests for authorization pursuant

to subparagraph (1)(i) of this section in sufficient detail to establish the need for procuring both design and construction under one contract. In neither of the excepted cases in paragraph (1) of this section shall the firm that prepared the drawings and specifications be engaged to supervise and inspect, on behalf of the Government, the construction of the facility involved.

#### SUBPART 18-36.3 SPECIAL ASPECTS OF SEALED BIDDING IN CONSTRUCTION CONTRACTS

18-36.303 Invitations for bids.

#### 18-36.303-70 Additive and deductive items.

(a) When it appears that funds available for a project may be insufficient for all the desired features of construction, the contracting officer may provide in the invitation for bids for (1) a first or base bid item covering the work generally as specified and (2) one or more additive or deductive bid items progressively adding or omitting specified features of the work in a stated order of priority. In such case, the low bidder and the items to be awarded shall be determined as described in the provision at 18-52.236-71, Additive or Deductive Items.

(b) The contracting officer, before the opening of bids, shall determine and record in the contract file the amount of funds available for the project. This amount shall be controlling for determining the low bidder, but may be increased for determining the items to be awarded, provided that award on the combination of items does not exceed the amount offered by any other conforming responsible bidder for the same combination of items.

#### 18-36.304 Notice of Award.

Contract delivery or performance schedules, commencement of work, or notices to proceed shall not be expressed in terms of a notice of award. See NFS 18-12.103. Also, see NFS 18-14.407-1(f) for notice of award content and format.

#### 18-36.370 Solicitation provisions.

(a) The contracting officer shall insert the provision at 18-52.236-71, Additive or Deductive Items, in invitations for bids for construction when it is desired to add or deduct bid items to meet available funding.

(b) The contracting officer shall insert the provision at 18-52.236-72, Bids with Unit Prices, in invitations for bids for construction when the invitation contemplates unit prices of items.

#### SUBPART 18-36.5 CONTRACT CLAUSES

18-36.570 NASA contract clause and solicitation provision.

18-36.570-1 Hurricane plan.

The contracting officer shall insert the clause at 18-52.236-73, Hurricane Plan, in solicitations and contracts for

construction at sites that experience hurricanes.

#### 18-36.570-2 Magnitude of requirement.

The contracting officer shall insert the provision at 18-52.236-74, Magnitude of Requirement, in solicitations for construction. Insert the appropriate estimated dollar range in accordance with FAR 36.204.

# SUBPART 18-36.6 ARCHITECT-ENGINEER SERVICES

#### 18-36.600 Scope of subpart.

### 18-36.600-70 Interorganizational acquisition of architect-engineer services.

Procedures for acquiring architectengineer services through the construction organization of the Corps of Engineers, Department of the Army, are set forth in NASA-Corps of Engineers Agreement for Performance of Construction Services, which can be obtained from the Headquarters Office of Procurement (Code HS).

18-36.602 Selection of firms for architectengineer contracts.

#### 18-36.602-1 Selection criteria.

(a) As permitted by FAR 36.602-1(a)(6), in evaluating architect-engineer firms, the architect-engineer selection board shall apply any criteria set forth in the public notice regarding a particular requirement and the volume of work previously awarded to the firm by NASA, with the object of effecting an equitable distribution of contracts among qualified architectengineer firms, including minority-owned firms and firms that have not had prior NASA contracts.

(b) It should be noted that the evaluation criteria in paragraph (a) above and FAR 36.602-1(a) are not listed in order of importance. The relative weight to be assigned to them may vary with the particular requirements of the individual procurement.

(c) NASA will consider the immediate past 10 years as the period for evaluation under FAR 36.602-1(a)(2) and (4).

#### 18-36.602-2 Evaluation boards.

In compliance with FAR 36.602-2, the head of each installation shall establish an architect-engineer selection board to be composed of at least three members. Appointment of members who are not Government employees is not authorized.

#### 18-36.602-3 Evaluation board functions.

The report required by FAR 36.602-3(d) should, as a minimum, discuss each criterion for each offeror and explain why one firm is rated higher than the others.

#### 18-36.602-4 Selection authority.

The head of each installation is designated as the selection authority for that installation for the purposes of FAR 36.602-4.

# 18-36.602-5 Short selection processes for contracts not to exceed \$10,000.

(a) Use of the procedures at FAR 36.602-5 is permitted when authorized by the head of the installation.

(b) The head of the installation is designated as the selection authority for that installation for the purposes of FAR 36.602-5(b)(2).

#### 18-36.602-70 Selection of architectengineers for master planning.

(a) **Definition of master plan.** A master plan is an integrated series of documents presenting in graphic, narrative, and tabular form the present composition of the installation and the plan for its orderly and comprehensive development to perform its various missions in the most efficient and economical manner.

# (b) Selection.

 (1) Selection of an Architect-Engineer for the development of a master plan in connection with the establishment of a new NASA activity or installation shall be made by the Associate Administrator having institutional responsibility. The report of the architect-engineer selection board will be concurred in at NASA Headquarters by the Associate Administrator for Management Systems and
 Facilities, the Associate Administrator for Procurement, the Comptroller, and the General Counsel.

(2) The Associate Administrator for Management Systems and Facilities shall be responsible for the architect-engineer selection board report required by FAR 36.602-3(d) and necessary revisions required from the reviews in 18-36.602-70(b)(1), if any, before presentation to the Associate Administrator having institutional responsibility.

# 18-36.602-71 Conflict of interest.

(a) (1) All persons participating in an architect-engineer solicitation, evaluation, review or selection activity shall have a written certification on file in NASA stating knowledge of and compliance with the Standards of Conduct of NASA Employees (NHB 1900.1). The minimum certification shall be:

# **CERTIFICATION**

I, the undersigned, hereby reaffirm that I have read NHB 1900.1, Standards of Conduct for NASA Employees, have filed the relevant NASA Form 1270, and have examined the attached list of competitors or the (Title) project before the architectengineer selection board. I certify that I have no financial or other personal interest in these firms.

(Signature)

(Date)

# (End of certification)

(2) Any person unwilling or unable to make and furnish the required certification shall be disqualified from participating in any architect-engineer selection board activity.

(3) The certification provided pursuant to 18-36-602-71(a)(1) shall be on file with the Office of General Counsel (Code GG) for Headquarters persons and with the field center Chief Counsel for field center personnel.

(b) Any person signing a certification under 18-36.602-71(a)(1) who subsequently acquires a real or apparent conflict of interest hereunder shall immediately cease further activity, report the conflict to the selection board chairperson and withdraw from further participation. Further, such conflicts are to be concurrently reported to the appropriate counsel's office who is responsible for determining whether any employee's acquired conflict necessitates any further action.

(c) Any person associated with these activities who becomes aware of any extraneous influences being brought to bear on participants shall report such to the Office of Inspector General (Code W).

# 18-36.603 Collecting data on and appraising firms' qualifications.

The architect-engineer selection boards (see 18-36.602-2) are designated as NASA's evaluation boards for the purposes of FAR 36.603.

#### SUBPART 18-36.7 STANDARD AND OPTIONAL FORMS FOR CONTRACTING FOR CONSTRUCTION, ARCHITECT-ENGINEER SERVICES, AND DISMANTLING, DEMOLITION, OR REMOVAL OF IMPROVEMENTS

18-36.702 Forms for use in contracting for architect-engineer services.

(a) Architect-Engineer Contract (Standard Form 252). Instructions for completing this form are as follows:

Block 5-Project Title and (1)Location. Include a short description of project and the construction the constructing the estimated cost of facilities for the project. If the space provided is insufficient, include a more detailed description in the contract's specification/work statement and identify of the more detailed location the description in Block 10.

(2) Block 6-Contract For (General description of services to be provided). Include a brief description of the services and state that they are fully set out in the specification/ work statement. Clearly specify the date by which design services must be completed. If supervision and inspection services during construction are to be procured, also clearly specify the date by which they must be completed and add a statement that the Government may extend the period for their performance as provided in the Changes clause of the contract.

(3) Block 7-Contract Amount. If the contract is for both design and supervision and inspection services, set out the amounts for each effort separately.

of architect-engineer (b) Statement services accompanying the SF 252. The services to be furnished by an architectengineer should be carefully defined during negotiation of the contract and a inserted in the of them statement specification/work statement. contract's statement should clearly and The concisely set forth the nature and extent of the services and include any special services, such as the nature and extent subsurface exploration prior to of foundations. similar designing Α statement of supervision and inspection should be inserted in the services specification/work statement if supervision and inspection services are to be acquired.

.

# 18-37.000 Scope of part.

For purposes of this part, construction is not considered a service.

#### 18-37.101 Definitions.

"Pension portability" means the recognition and continuation in a successor service contract of the predecessor service contract's pension rights and benefits for contractor employees.

### 18-37.104 Personal services contracts.

(a) Under Section 203(c)(9) of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2473(c)(9)), NASA is authorized "to obtain services as authorized by Section 3109 of Title 5, United States Code, but at rates for individuals not to exceed the per diem rate equivalent to the rate for GS-18." 5 U.S.C. 3109, in turn, provides authority to procure by contract "the temporary (not in excess of one year) or intermittent services of experts or consultants or organizations thereof, including stenographic reporting services."

(b) It is NASA policy to obtain the personal services of experts and consultants by appointment rather than by contract. The policies, responsibilities, and procedures pertaining to the appointment of experts and consultants are in the NASA Supplement to the Federal Personnel Manual.

# 18-37.105 Competition in service contracting.

(a) See 18-37.104 above regarding negotiation for personal and professional services.

(b) Frequently NASA must contract for services that require immediate performance after minimum prior notice to proceed. Typical of these requirements are contracts for engineering services; maintenance, repair, or overhaul of specialized equipment; and printing or reproduction and data processing services to be furnished on a "call basis" when time is of the essence to meet priority requirements.

(c) The NASA policy of obtaining competition to the maximum practicable extent applies to these types of services. Geographic limitations imposed on prospective contractors are likely to appear arbitrary to the business community and proper only when therefore are demonstrably justifiable. Even when a geographic limitation is justifiable, no firm desiring to compete for the procurement may be denied the opportunity to do so merely because it is located outside the geographic area. Such firms shall be permitted to submit offers, provided they can substantiate their capability to establish a facility in a location that complies with any required geographical limitation.

(d) A preferred method of obtaining services or supplies required on a prompt response basis is by clearly describing in the solicitation the maximum time that may elapse between placement of the order or call and the delivery date. Such time limitations, when required by the nature of the procurement, will normally meet NASA's needs for prompt delivery without introducing unnecessarily restrictive criteria limiting the competitive field of prospective contractors.

(e) The procurement officer or a designee shall review and approve, prior to distribution, solicitations that contemplate either a geographical-area or time-ofperformance limitation.

# 18-37.110 Solicitation provisions and contract clauses.

When the procurement officer determines, in accordance with the requirements of 1837.170, to use a pension portability clause in a solicitation, contract or negotiated contract modification for additional work, he/she shall use a clause substantially the same as the one at 18-52.237-71. The approval of the Associate Administrator for Procurement (Code HC) shall be obtained before using any other clause.

# 18-37.110-70 NASA contract clause.

The contracting officer shall insert the clause at 18-52.237-70, Emergency Evacuation Procedures, in solicitations and contracts for on-site support services where emergency evacuations of the NASA installation may occur, e.g., snow, hurricanes, tornados, earthquakes, or other emergencies.

# 18-37.170 Pension portability.

(a) It is NASA's policy not to require pension portability in service contracts. However, if it is in the Government's best interest, the inclusion of pension portability requirements in a solicitation, contract, or contract modification for additional work may be used under the following conditions: (1) Only defined contribution plans, or multiparty defined benefit plans operated under a collective bargaining agreement where the plan follows the employee instead of the employer, shall be permitted in the portability provisions:

(2) At a minimum, vesting shall be 100 percent at contract completion or termination (for purposes of this requirement, contract completion does not include option periods). The procurement officer may authorize vesting requirements earlier than contract completion or termination where appropriate;

(3) There is a clear description of the plan, including coverage regarding service, pay, liabilities, vesting, termination, and benefits from prior contracts, as appropriate; and

(4) The procurement officer has made a written determination that such a provision is in the Government's best interest, including the facts supporting that determination.

(b) A copy of the written determination shall be sent to the Associate Administrator for Procurement (Code HC) within 30 days of its signature.

#### SUBPART 18-37.70 PROCUREMENT OF TRAINING

#### 18-37.7000 Scope of part.

This part contains NASA-unique regulations, which have no clearly identifiable FAR counterpart, on the procurement of training.

18-37.7001 General.

#### 18-37.7001-1 Purpose.

This subpart provides policy guidance on the appropriate balance between the use of CICA and the Training Act for the procurement of NASA's training requirements.

#### 18-37.7001-2 Training Act of 1958.

The Training Act of 1958 (5 U.S.C. 4101 et seq.) may be used for training of NASA employees by, in, or through non-Government off-the-shelf training courses which are available to the public. These include established university catalog courses or commercial course offerings that are offered to the general public at catalog or market prices.

#### 18-37.7001-3 Competition in Contracting Act (CICA) of 1984.

The procurement of a new training course that must be developed to fulfill a specific NASA need should be conducted in accordance with CICA under the applicable provisions of the Federal Acquisition Regulation (FAR) and the NASA FAR Supplement (NFS).

#### 18-37.7001-4 Procedures.

(a) Installation training and procurement offices are encouraged to collaborate in selecting the type of instrument (see FAR and NFS Parts 13 and 16) which is most efficient in effective procurement of training.

(b) Installations should develop internal procedures in consonance with the guidance contained herein.

#### SUBPART 18-37.2 ADVISORY AND ASSISTANCE SERVICES

### 18-37.200 Scope of subpart.

This subpart implements and supplements (FAR) 48 CFR Subpart 37.2 and NMI 5104.5, Guidelines for the Use and Approval of Advisory and Assistance Services Obtained by Contract, and establishes procedures to be followed in contracting for advisory and assistance services.

18-37.202 Policy.

18-37.202-70 NASA policy.

In addition to the prohibitions regarding advisory and assistance services listed at FAR 37.202(c)--

 (a) Contracts for advisory and assistance services shall not be continued longer than 5 years;

(b) Advisory and assistance services of individual experts and consultants shall normally be obtained by appointment rather than by contract (see NMI 3304.1, Employment of Experts and Consultants);

(c) Task orders for advisory and assistance services issued under the prime contract between the California Institute of Technology and NASA for the operation of the JPL facility must be reviewed and approved in accordance with this Subpart 18-37.2; and

(d) Persons or organizations providing advisory and assistance services to NASA must be free from conflict of interest as delineated in FAR Subpart 9.5, Organizational Conflicts of Interest, and NFS Subpart 18-9.5. When considering advisory and assistance service arrangements with former Government employees, compliance with NFS 18-3.7001 and 18 U.S.C. 207 is required.

18-37.202-71 Public inspection.

(a) NASA's annual Appropriations Act states: "Except as otherwise provided under existing law or under an existing Executive Order issued pursuant to an existing law, the obligation or expenditure of any appropriation under this Act for contracts for any consulting service shall be limited to contracts which are (1) a matter of public record and available for public inspection, and (2) thereafter included in a publicly available list of all contracts entered into within 24 months prior to the date on which the list is made available to the public and of all contracts on which performance has not been completed by such date. The list required by the preceding sentence shall be updated quarterly and shall include a narrative description of the work to be performed under each such contract."

(b) In accordance with paragraph (a) of this section, on a quarterly basis the Office of Procurement (Code HM) prepares a list for public inspection and distributes it to NASA Information Centers pursuant to NMI 1382.2 (14 CFR 1206), Availability of Agency Records to Members of the Public.

(c) Public inspection of advisory and assistance service contracts and purchase orders at NASA field installations in accordance with the Appropriations Act shall be limited to basic contract documents and modifications. Requests for copies of contracts or other data will be handled in accordance with NMI 1382.2.

37-2:1

# 18-37.205 Responsibilities/Mana, gement controls.

The contracting officer shall include in each contract or purchase order file a copy of (1) the contracting officer's determination that a contractual action constitutes advisory and assistance services; (2) the sponsoring office's Request for Approval to Acquire Advisory and Assistance Services by Contract; and (3) authorization by the Associate Administrator for Management Systems and Facilities to commence procurement activities as required by NMI 5104.5, subparagraph 7--Responsibilities/Management Controls.

## 18-37.205-70 Requests for approval.

(a) When a NASA field installation or headquarters office considers advisory and assistance services necessary and desirable, in accordance with the policy in FAR 37.202 and 18-37.202-70, the requiring activity is responsible for preparing the documentation required by NMI 5104.5 and securing the prior approval of the Associate Administrator for Management Systems and Facilities (Code J).

(b) Before processing any procurement action for advisory and assistance services. the contracting officer shall provide advice, as necessary, to the requiring activity on preparing the documentation required by NMI 5104.5 and ensure that this required documentation, including the necessary concurrences/approvals, is included in the official contract or purchase order file. For any proposed requirement, regardless of dollar value, where there is uncertainty as to whether the requirement is for advisory and assistance services, the contracting officer shall make a determination. For those requirements determined to be for advisory and assistance services which have not been approved by the Associate Administrator for Management Systems and Facilities (Code J), the contracting officer shall return the procurement request to the

originating office for action in accordance with NMI 5104.5. In all such cases, the contracting officer's determination is final.

### 18-37.205-71 Negotiation of contracts.

(a) Contracting Officers shall include in all solicitations for advisory and assistance services a requirement that each offeror furnish the following information with the proposal, regardless of the pricing arrangements anticipated:

(1) The names and qualifications of principal members of the contractor organization who will be responsible for the project.

(2) The title of each official and the number of employees who will participate.

(3) The estimated number of hours that each official and employee will contribute to the proposed project.

(4) The standard billing rate per hour for each official and employee.

(b) In addition, the solicitation and the resulting contract shall require that --

(1) The contractor warrants that the rates quoted are not in excess of those charged nongovernmental clients for the same services performed by the same individuals;

(2) The Government has the right to the working papers used by the participating officials and employees of the firm or organization in connection with the project;

(3) Publication or distribution of the study, data, or related material is prohibited, except to the extent authorized by the contracting officer; and

(4) The contractor agrees that any reports regarding organizational matters (as required by the contract) shall include, when feasible and in addition to the recommendations, alternative methods to be considered and the pros and cons of each alternative.

#### PART 18-39 ACQUISITION OF FEDERAL INFORMATION PROCESSING RESOURCES

#### SUBPART 18-39.70 NASA PROCEDURES

#### 18-39.7000 Scope of subpart.

This subpart prescribes the internal NASA procedures to be used by installations in obtaining General Services Administration (GSA) authorization to contract for Federal information processing (FIP) resources.

#### 18-39.7001 Policy.

(a) NASA policies and procedures on the acquisition of FIP resources are prescribed in NASA Handbook (NHB) 2410.1E, NASA Information Resources Management Handbook. See NFS 1804.470 regarding NASA policy on automated information security.

(b) The Designated Senior Official (DSO), the Associate Administrator for Management Systems and Facilities (Code J), has responsibility and accountability for interpreting, applying, and overseeing the implementation of the Federal Information Resources Management Regulations (FIRMR) within NASA. The DSO, with the concurrence of the Associate Administrator for Procurement (Code H) and the cognizant Institutional Program Office (IPO), has the responsibility for submitting agency procurement requests (APRs) to GSA to obtain delegations of procurement authority (DPAs) for FIP resources.

### 18-39.7002 Applicability.

This subpart is applicable to all procurements of FIP resources.

### 18-39.7003 APRs from installations.

#### 18-39.7003-1 Responsibility.

The acquisition of FIP resources is a shared responsibility of the requiring activity, the procurement officer, and the information resources management (IRM) organization.

(a) The installation's procurement officer is responsible for ensuring that the following actions are taken:

(1) Required documentation is uniquely identifiable, complete, adequate, severable, and readily available in files controlled by the contracting office.

(2) Timely submission of non-Trail Boss APRs to the cognizant IPO in accordance with 18-39.7003-5.

(3) Initiating an APR for a revised DPA if events invalidate the existing DPA or require additional or modified authorization from GSA in accordance with 18-39.7003-6.

(b) The contracting officer is responsible for the following actions:

(1) Determining FIRMR applicability in accordance with 18-39.7003-2;

(2) Determining whether an APR should be initiated in accordance with 18-39.7003-2;

(3) Ensuring that installation prescribed approvals have been obtained to allow initiation of the acquisition; and

(4) Conducting the acquisition in compliance with the DPA. This includes ensuring that solicitations are released, and contracts are executed and performed, consistent with the DPA.

(c) The Senior Installation IRM Official (SIIO) is responsible for submitting APRs to the cognizant IPO for acquisitions under the Trail Boss Program.

# 18-39.7003-2 FIRMR applicability and procurement authority certification.

The contracting officer shall:

(a) Review the requirements and determine how the requirements will be satisfied, if FIP resources will be involved, and the categories and values of the FIP resources to be acquired or used. Each category of FIP resources (FIP equipment, FIP software, FIP services, FIP support services, and FIP related supplies) must be individually identified as accurately as possible (see FIRMR 201-4.001). FIP maintenance is considered a subset of FIP support services.

(b) Determine if the agency has authority to acquire the FIP resources by virtue of a specific agency or regulatory delegation, or if a specific acquisition delegation must be obtained. This requires comparing the requirements and individual FIP resources to the criteria and thresholds specified in FIRMR 201-20.305. NASA may contract for FIP resources without obtaining a specific acquisition delegation when the dollar value of any single category of FIP resources. including all optional quantities and periods over the life of the contract, does not exceed \$2.5 million; except that the dollar value for a specific make and model specification or for requirements available from only one responsible source may not exceed \$250,000.

(1) The term "FIP System" is not a separate category of FIP resources for purposes of making these determinations. If a FIP system is being acquired, its component resource categories (for example, FIP equipment, software, and so on) must be individually valued and compared to the appropriate thresholds to make the determination.

(2) If the dollar value of any individual type of FIP resource included

in the basic contract, and in all modifications and optional quantities and periods over the life of the contract, exceeds the applicable dollar threshold for the regulatory or agency delegation authority, then a specific DPA is required and an APR must be prepared.

(3) If no category of FIP resources being acquired exceeds the dollar threshold, an APR is not required.

(4) FIP related supplies have an unlimited regulatory authority, without any dollar limitation, but a specific acquisition delegation may still be required for the acquisition if other categories of FIP resources are acquired which exceed the applicable thresholds.

(5) Assessments and determinations for acquisitions greater than \$50,000 will be documented in the contract file with the following certification format:

### (Format)

### FIRMR Applicability and Procurement Authority Certification

Procurement Title:

Procurement Request Number:

The acquisition requirements have been reviewed and an assessment of the resources to be delivered or used in satisfying these requirements has been made. These resources have been characterized as either FIP or non-FIP resources. Based on FIRMR 201-1.002, including FIRMR bulletin A-1 and NHB 2410.1E, I determine that the subject procurement is \_\_\_/is not \_\_\_\_ subject to the FIRMR.

[Note: If the contract will involve information technologies determined to be not subject to the FIRMR (see FIRMR 201-1.002-2),

#### NASA PROCEDURES

explain the rationale in a separate attachment.]

If the acquisition is subject to the FIRMR, I certify that the thresholds in NFS 18-39.7003-2(b) have been reviewed and that this procurement does\_\_\_/does not\_\_\_ require a specific acquisition Delegation of Procurement Authority.

FIP Resources:

Equipment \$\_\_\_\_\_

Software

Services

Support Services \_\_\_\_\_

Related Supplies \_\_\_\_\_

Total FIP Resources \$\_\_\_\_\_

Non-FIP Resources \$\_\_\_\_\_\_ (Include incidental and embedded FIP Resources)

Total of All Resources \$\_\_\_\_

Contracting Officer:

Concurrence (if required) \_\_\_\_\_\_ (SIIO if \$25 million or more) (SIIO or designee if less than \$25 million and required by Installation procedures)

\_\_\_\_Attachment: Rationale for Non-Applicability of FIRMR to FIP Resources.

#### (End of format)

(6) The contracting officer shall provide an information copy of the FIRMR Applicability and Procurement Authority Certification through the cognizant IPO to Code JT for acquisitions \$25 million or more.

(7) Assessments and determinations for acquisitions \$50,000 or less will be documented in the contract file in accordance with local procedures.

(c) Although the contracting officer has authority to make decisions concerning the applicability of the FIRMR to NASA solicitations and contracts or modifications, in the event of а disagreement within the Installation as to the applicability of the FIRMR to a solicitation NASA or contract or modification, the SIIO has the authority to make final decisions.

# 18-39.7003-3 GSA nonmandatory MAS contracts.

(a) Use of GSA nonmandatory multiple award schedule (MAS) contracts is a competitive procedure relative to FAR Part 6 when:

(1) The contracting officer has complied with FIRMR 201-39.803-3(a)(2) to consider a reasonable number of nonmandatory MAS contractors that can satisfy the functional requirements;

(2) The contracting officer has fully complied with FIRMR 201-39.803-3(b) regarding responses to any required synopsis; and

(3) The contract file is adequately documented that the delivery order placed to the selected nonmandatory MAS contractor represents the lowest overall cost to the Government.

(b) If the procedures in paragraph (a) are followed, even though the resultant order may be issued for a specific manufacturer's product by name and model number, this is not a procurement for a specific make or model requiring a Justification For Other Than Full and Open Competition (JOFOC); the exception in FIRMR 201-39.601-2 applies.

### ACQUISITION OF FEDERAL INFORMATION PROCESSING RESOURCES

(c) Generally a "reasonable number" means consideration of at least two compliant nonmandatory MAS contractors. Prudence would suggest considering three or more compliant nonmandatory MAS contractors.

(d) A specification that attempts to describe salient characteristics is not in itself conclusive evidence of a full and open competitive environment. The decisive factor is whether a product other than a specific make or model can satisfy the requirements expressed in such a specification. For example, if the salient characteristics were repeated off of or were derived directly from a product specification, a new product release issuance, or similar data sheet of a specific make or model or brand name, the requirements are probably not described in other than specific make or model specifications. Salient characteristics so derived are likely to be product-specific performance or proprietary characteristics design specifications. This specification, although it includes salient functional or performance characteristics, does not provide for full and open competition.

(e) Use the \$2 million threshold for obtaining a DPA when use of a GSA nonmandatory. MAS contract is a competitive procedure relative to FAR Part 6. Use the \$200,000 threshold when use of a GSA nonmandatory MAS contract is a noncompetitive procedure relative to FAR Part 6.

(f) A brand name specification is a specific make or model specification and if an acquisition requires a contractor to comply with either such specifications, the acquisition must be justified and approved in accordance with FAR 6.303 and 6.304.

#### 18-39.7003-4 APR format.

(a) FIRMR 201-20.305-3 requires NASA APRs to prepare as indicated by instructions in the FIRMR Bulletin series. APRs under the Trail Boss Program will be submitted in the format provided in FIRMR Bulletin C-7, entitled "Trail Boss Program," as modified by Enclosure C-5A of NHB 2410.1E. APRs for a11 other FIP resources. will be submitted in the format provided in FIRMR Bulletin C-5, entitled "Instructions for Preparing an Agency Procurement Request (APR)," as modified by Enclosure C-4B of NHB 2410.1E. Installations will augment these APRs with the following additional information:

(1) Include in "FIP Resources to be acquired" the maximum contract value that includes (i) all contract options and (ii) maximum quantities under indefinite-delivery types of contracts.

(2) Describe the non-FIP resources in APRs for requirements that include non-FIP resources.

(3) Include the APR attachments required by FIRMR Bulletin C-5 and a copy of the JOFOC, if applicable.

Include, (4) as required, the documentation listed in FIRMR Bulletin C-5, paragraph 7, Regulatory Compliance; the FIP Resources Decision Document (FRDD); and the procurement plan or minutes of the acquisition strategy meeting (ASM). (If Headquarters approval of the procurement plan or minutes of the ASM is not required, indicate in the APR transmittal letter the date installation approval was given and do not include the document in the APR transmission.)

(5) Identify the NASA point of contact for GSA.

(b) The following matrix is provided to help in deciding if a document is required by the APR under Regulatory Compliance:

| Type of<br>Requirement   | Documentation<br>Items    |
|--------------------------|---------------------------|
|                          | 1 2 3 4 5 6 7 8 9 10 11   |
| FIP Equipment            | :: <u>RRASPPP C C C T</u> |
| FIP Software:            | <u>RRASPPPCCC</u> T       |
| FIP Services:            | <u>RRASPNPCCC</u> T       |
| FIP Support<br>Services: | <u>RRNNPNP N N N T</u>    |
| FIP Related<br>Supplies: | <u>RRNNPPP N N N</u> T    |

Documentation Items Legend:

1. Requirements analysis (FRDD Part 2).

Analysis of alternatives (FRDD Part 3).
 Determination to support hardware

compatibility-limited requirements. 4. Conversion study (FRDD Part 3).

Conversion study (FRDD Fart 5).
 Certified data to support a requirement

available from only one responsible source (the JOFOC).

6. Certified data to support use of a specific make and model specification (the JOFOC).

7. Description of planned actions necessary to foster competition for subsequent acquisitions (the JOFOC).

8. Justification for more than one agency to provide switching facilities or services at building locations (FIRMR 201-20.305-1(a)(1)(i)).

9. Exception to the use of the FTS2000 mandatory network services (FIRMR 201-20.305-1(a)(1)(ii) and 201-24.101-1(b)).

10. Exception to the use of GSA mandatory local telecommunications services (FIRMR 201-20.305-1(a)(1)(ii) and 201-24.102(c)).

11. Trail Boss Charter and Statement of Qualification.

R = Required.

A = Required if there are compatibility limited requirements.

N = Not required.

P = Required unless full and open competition.

C = Required if telecommunications exceptions are sought.

S = Required if a conversion study must be performed for equipment, software, or services.

T = Required for a Trail Boss Acquisition.

(6) When FIP resources are being acquired under an indefinite delivery/indefinite quantity contract or under a contract that includes options for additional quantities of such resources, include a statement in the APR similar to the following:

> (identify The contracting activity) is the primary requiring activity for the items described in this APR. However, to further the most efficient and economical agency-wide acquisition of these resources, the contract will allow delivery to other NASA installationshavingrequirements for the same resources. The (identify contracting activity) will have the sole authority to place orders under this contract and authorize delivery to the alternate delivery points.

#### 18-39.7003-5 APR submission.

(a) For non-Trail Boss acquisitions, the contracting officer shall forward the original of the APR submittal (the APR and all required documentation) to the cognizant IPO, with a transmittal letter (see NHB 2410.1E, Enclosure C-4A) signed by the procurement officer. Include a 3 1/2" diskette, formatted for use on a DOS 3.3, or higher compatible, personal computer, that contains a WordPerfect 5.0 or 5.1 format of the APR.

(1) The transmittal letter should indicate the approval status of the JOFOC, and either when the procurement plan was approved or when the ASM was conducted and the minutes approved. The SIIO or designee will concur on the transmittal letter.

The cognizant IPOs for this (2) purpose are: The Office of Space Flight (Attn: Code MV) for Johnson Space Center, Kennedy Space Center, Marshall Space Flight Center, Stennis Space Center, and the Space Station Freedom Program Office; the Office of Aeronautics and Space Technology (Attn: Code RI) for Ames Research Center, Langley Research Center, and Lewis Research Center; and the Office of Space Science and Applications (Attn: Code SP) for Goddard Space Flight Center. For Headquarters acquisitions the Director, Headquarters Acquisition Division (Code HW), shall submit APR's directly to the Office of Management Systems and Facilities (Attn: Code JT) after concurrence by the SIIO in Code J.

(3) Concurrently, the contracting officer shall provide copies of the APR submission, including the transmittal letter, the APR, and all required documentation, to the Associate Administrator for Procurement (Attn: Code HS) and the Associate Administrator for Management Systems and Facilities (Attn: Code JT).

(4) APR's should be submitted as soon as, but not before, the FRDD and other documentation (waivers, JOFOCs, procurement plans, or ASM minutes, as appropriate) have been completed and approved in final form within the Agency.

(b) For acquisitions under the Trail Boss Program, the SIIO shall forward the original of the APR submittal (the APR and all required documentation) to the cognizant IPO, with a diskette of the APR as specified in paragraph (a) of this section. The IPO is responsible for preparing the transmittal letter (see NHB 2410.1E, Enclosure C-4C) and forwarding the APR to Code JTD.

(c) Following receipt of the original APR from the IPO, Code JTD will further augment the APR to include the APR control number and the agency-authorized signature.

(d) The Chief, IRM Policy and Acquisition Management Office (Code JTD) signs APRs, including amendments, of less than \$10 million; the Director, IRM Division (Code JT) signs APRs between \$10 million and \$100 million; and the Associate Administrator for Management Systems and Facilities (Code J) signs APRs \$100 million or greater and all APRs for Trail Boss delegations. Code JTD is responsible for transmitting APRs to GSA.

(e) Allow a minimum of seven weeks for processing the APR and obtaining the DPA.

### 18-39.7003-6 DPA amendments.

(a) The maximum possible cumulative dollar value of the contract(s) entered into by authority of a DPA may not exceed the value of the DPA granted by GSA. A DPA is granted on the basis of information contained in the APR. An amendment to a DPA must be obtained whenever any material change is expected from the basis on which the DPA was granted. This applies to any specific acquisition DPA, including a Trail Boss DPA. An APR shall be used to accomplish this.

Amendments to a previously submitted (b) or approved specific acquisition DPA should follow the same procedures and employ the same format as that required by the current FIRMR and NFS Part 1839. For such an APR, provide only that information necessary to update the original APR and only such other information as needed to support the amendment. Explain why the amendment is necessary. The existing documentation supporting the acquisition should be reviewed and certified by the procurement officer as to its timeliness. If this documentation is either not current or affected by the amendment, the documentation shall be revised. If an original document was submitted or

requested by Headquarters or GSA, its revision shall be resubmitted with the APR.

(c) The following are reasons for submitting an APR to seek an amended DPA:

(1) Any substantial change in acquisition strategy.

(2) Slippages in the solicitation schedule that exceed 12 months and affect specifically the dates to release the solicitation, to receive bids or proposals, to complete the evaluations and select, and to make an award. Slippages less than 12

months should be identified to GSA during routine status reporting.

(3) Changes affecting the non-FIP resources that occur during the solicitation period or contract term if those changes will affect the FIP resources to such an extent that the DPA will require modification.

(4) Any increase in the total FIP resources, exceeding the delegated authority. This includes any in-scope changes that cause the total contract value to exceed the APR estimate upon which the DPA was granted, and also includes all new work modifications.

(d) Contracting officers should inform Code JTD of any expected decreases greater than 25 percent in the total FIP resources to be acquired on a DPA. Code JT will determine whether GSA should be informed of such decreases.

# 18-39.7004 FIP Resources Decision Document.

When NHB 2410.1E provides for approval of a FIP Resources Decision Document (FRDD) at the local level, the approved FRDD, including its enclosures and attachments, must be an enclosure to the APR. Unless the FRDD has previously been sent to Headquarters, the FRDD is submitted to Headquarters along with the APR.

### 18-39.7005 Coordination.

(a) APRs are subject to comparison with acquisition plans and general review by Code HS, Code JTD, and the cognizant IPO before submission to GSA.

(b) Communications with GSA regarding APRs shall be through Code JTD, unless that office directs otherwise. Installations should refer any direct inquiries from GSA, with the exception of acquisitions under the Trail Boss Program, without comment, to Code JTD.

(c) NASA will not normally make presentations to GSA regarding APRs unless requested by GSA. Any exceptions are subject to coordination by Code HS, Code JTD, and the cognizant IPO.

#### 18-39.7006 DPA transmittal.

(a) GSA delegates its procurement authority to the DSO. The DSO must explicitly redelegate specific acquisition DPAs to the contracting organization, before the contracting officer has authority to either issue solicitations or obligate NASA. Delegation of regulatory and specific agency procurement authority will be handled in accordance with the Associate Administrator for Management Systems and Facilities (Code J) procedures.

(b) GSA's delegations of specific acquisition authority to NASA, with the exception of acquisitions under the Trail Boss Program, are transmitted to Code J or designee (Code JTD), and are redelegated to the appropriate procurement officer by transmitting the approved APR and the signed DPA with a cover letter containing additional instructions and guidance. A copy of this entire package shall be retained in the contract file.

(c) GSA's delegations of specific acquisition authority to NASA, for acquisitions under the Trail Boss Program, are transmitted to the Trail Boss, and are redelegated to the appropriate procurement officer by transmitting the approved APR and the signed DPA with a cover letter containing additional instructions and guidance. A copy of this entire package shall be retained in the contract file.

(d) DPAs may be contingent upon the contracting officer submitting supplementary information.

(1) Post delegation review activities that may be required include:

(i) Solicitation evaluation;

(ii) Semi-annual progress report;

(iii) Post-bid briefing;

(iv) Pre-award briefing;

(v) Report of contract information;

(vi) Annual review of contract status; and

(vii) Annual review of the complete information system.

(2) Pre-award and post-award reports, when required, shall be forwarded to Code JT, through the SIIO to the Senior Program IRM Official (SPIO), within 30 days of contract award or contract modification. Code JT will review the reports and obtain Code HS concurrence prior to submission to GSA.

(e) Pre-award and post-award reports include 6-Month Status Reports and Contract Award Reports.

(1) GSA requires a 6-Month Status Report on all specific acquisition DPA's for which a contract or modification has not been awarded. The contracting officer shall submit status reports to Code JT not later than May 15 and November 15 of each year. The contents of these reports are specified in the DPA.

(2) GSA requires a Contract Award Report within 30 days after award of a contract or modification issued pursuant to a specific acquisition DPA. The contracting officer shall submit Contract Award Reports to Code JT not later than 25 days after the award of a contract or modification. These reports include:

(i) the contract or modification number;

(ii) contract or modification award date; contracting officer's name and telephone number;

(iii) anticipated contract life (number of months or years);

(iv) estimated contract dollar value of each FIP resource category to be acquired under the contract during the life of the contract;

(v) start and completion dates for the following acquisition phases: Determination of Need and Requirements Analysis, Analysis of Alternatives, Solicitation Preparation and Issuance, Proposal Evaluation and Award.

(f) Code JTD requires an Annual Status Report on all extant contracts with specific acquisition DPA's. The contracting officer shall submit an Annual Status Report to Code JT not later than November 15 of each year. If a DPA was received, or a Contract Award Report filed during the reporting period, report only the status between the receipt of the DPA or submission of the Contract Award Report through the end of the reporting period. Subsequent Annual Status Reports shall be submitted throughout the life of the contract until contract closeout.

(1) The Annual Status Report includes:

(i) the contract number;

(ii) date the contract was terminated or completed;

(iii) information on the progress made in accomplishing mission program objectives and whether they are being achieved within projected milestones or schedule and costs--address objectives, milestones or schedule, and costs established in the baseline (see paragraph (2) of this section) for the information system initiative;

(iv) information on whether it is necessary to make changes to baseline, program directives, program milestones and schedule, and program costs--address specific changes and the reasons for making the changes;

(v) a signed and dated copy of the revised baseline for the information system initiative to include the total dollar value of FIP resources acquired under the contract covered by this DPA.

(2) Baseline information required in the Annual Status Report includes:

(i) Baseline Date--"as of" date when the baseline is defined.

(ii) Brief Description--thename and brief description of complete major information system initiative and appropriate mission program(s).

(iii) Program Objectives--brief description of mission program objectives that depend on successful implementation of major information system initiative, in terms of specific benefits or improvements to mission effectiveness and service delivery.

(iv) Program Milestones/ Schedule--brief description of major milestones and schedule for acquisition, operation, maintenance of complete major information system initiative for accomplishing program objectives. Milestone/schedule should be organized by life-cycle phases (Definition/Analysis, Design, Development, Operation/ Maintenance) and within phases by fiscal year quarter.

(v) Program Costs-projected inhouse and contract costs for complete major information system initiative through Operation/Maintenance, presented by fiscal year quarter. Actual costs for quarters ending before baseline date. Dollar value, by contract, of FIP resources sought under contract(s) covered by requested or related DPA supporting the information system initiative.

(vi) Agency Official's Signature --signature of agency official responsible for major information system initiative.

(3) In the event a baseline is not required by the DPA, use the APR and FRDD.

(g) Questions from either GSA or the installation regarding the DPA shall be referred to Code JTD.

# 18-39.7007 Numbering provisions and clauses.

When adherence to the FIRMR results in the use of provisions or clauses not prescribed in the FAR or NFS, use the FIRMR number and FIRMR provision or clause title.

#### 18-39.7008 NASA contract clause.

(a) The contracting officer shall insert the clause substantially as stated at 18-52.239-70, Alternate Delivery Points, in solicitations and contracts for Federal Information Processing Resources when:

(1) an indefinite delivery/indefinite quantity contract will be used or when the contract will include options for additional quantities of such resources; and

(2) delivery is F.O.B destination to the contracting activity.

(b) When delivery is F.O.B. origin and Government bills of lading (GBL) are used, the contracting officer shall use the clause with its Alternate I.

.

.

#### **CONTRACT ADMINISTRATION**

### SUBPART 18-42.1 INTERAGENCY CONTRACT ADMINISTRATION AND AUDIT SERVICES

#### 18-42.101 Policy.

It is NASA policy to optimize the use of contract administration, audit, and related support functions of the Department of Defense (DOD) and other Government NASA agreements with agencies. Government agencies regarding the delegation and performance of contract administration and related field support functions are the responsibility of the Defense Division (Code 1D). However, questions may be directed to the Procurement Policy Division (Code HP). NASA retains technical direction of all its contracts regardless of the agency responsible for contract administration.

#### 18-42.102 Procedures.

DOD contract administration and audit offices will accomplish the delegated functions in accordance with DOD regulations and procedures, except that the following take precedence over DOD regulations and procedures:

(a) NASA letters of delegation, including any special instructions attached to them.

(b) Applicable requirements of NASA Quality Publication NHB 5300.4(2B), Quality Assurance Provisions for Government Agencies. (c) Any written agency agreements between NASA and DOD.

#### 18-42.102-70 Management of subcontracts.

Because prime contractors are responsible for managing subcontracts, contract administration functions shall be performed by the Government for subcontracts only if necessary to meet specific NASA requirements. Delegations for contract administration at subcontractors' plants normally shall be made by or through the contract administration offices responsible for the prime contractors. When a direct delegation is made for performance of contract administration functions at a subcontractor's plant (such as for quality assurance), the contracting officer shall coordinate in advance with the contract administration office responsible for the prime contractor and provide copies of the delegation to that office.

# 18-42.170 Assignment of NASA personnel at contractor plants.

(a) NASA personnel normally shall not be assigned at or near a contractor's facility to perform any contract administration functions listed in FAR 42.302(a). Before such an assignment is made, a written request shall be forwarded to the cognizant program director for approval and the concurrence of the Associate Administrator for Procurement. The following supporting information shall be forwarded with the request to make the assignment:

(1) A statement of the special circumstances that necessitate the assignment.

(2) The contract administration services to be performed.

(3) A summary of any discussions held with the cognizant contract administration organization. (4) A staffing plan covering three years or such shorter period as may be appropriate. The provisions of this paragraph (a) do not apply to NASA audit personnel assigned to the field installations, to NASA technical personnel covered by 18-42.101 and paragraph (b) of this section, unless they are performing any contract administration functions listed in FAR 42.302(a), or to personnel assigned to contractors' plants on NASA or other Federal installations.

(b) NASA may assign technical personnel (such as quality assurance, reliability, or engineering representatives) to contractors' plants or laboratories to provide direct liaison with NASA and technical assistance and guidance to the contractor and DOD. The duties and responsibilities of these technical representatives shall be clearly defined and shall not conflict with, duplicate, or overlap with functions delegated to DOD personnel. NASA shall advise appropriate DOD and contractor organizations of the duties and responsibilities of NASA technical personnel. When NASA technical personnel are performing any of the contract administration functions listed in FAR 42.302(a), paragraph (c) of this section applies.

(c) When a NASA resident office and a DOD contract administration office are performing contract administration functions for NASA contracts at the same contractor's facility, the two offices shall execute a written agreement clearly establishing the relationship between the two organizations and the contractor. The agreement should eliminate duplication in the performance of contract administration functions and minimize procedural misunderstandings between the two organizations. Such agreements shall be consistent with existing delegations to the contract administration offices concerned and shall specify the relationship of NASA nonprocurement resident personnel to their

DOD and contractor counterparts if such personnel are, or intend to be, involved in any aspect of contract administration.

# 18-42.171 Contractor performance at a NASA installation.

When a NASA contract requires contractor performance at another NASA installation NASA-controlled launch site, a ٥r delegation shall be made to the contracting office of the NASA installation at which performance will occur. Delegations normally will include the functions listed in FAR 42.302(a), less any functions retained under 18-42.202. In addition, delegations shall include the contracting officer security functions (when required in the performance of the contract at the installation or site) and the administration of any NASA support provided to the contractor.

# 18-42.172 Contract administration by DOD personnel at a NASA installation.

If DOD personnel will perform contract administration functions at a NASA installation for more than 30 workdays (either continuous or intermittent), the NASA contracting officer shall obtain prior approval from the head of the installation where the DOD personnel will be located. The concurrence of the Director, Contract Management Division (Code HK) shall also be obtained.

# 18-42.173 Reimbursement for contract administration services.

The basis for reimbursement to DOD for contract administration and related support services is the NASA-DOD Agreement for Contract Administration and Contract Audit Services. Budgeting, funding, and payment for these services shall be accomplished in accordance with NMI 7410.1, Management, Funding, and Payment for Contract and Grant Administration and Audit Services Obtained from Other Federal Agencies. The NASA installation issuing the delegation has responsibility for budgeting, funding, and payment of bills of lading for transportation performed as a result of a traffic management delegation.

#### 18-42.174 Reporting requirements.

(a) NASA installations shall assess their delegations to DOD semiannually to determine changes in delegation patterns that could (1) result in significant increases or decreases in future DOD manpower requirements or (2) have other important impacts on DOD contract administration activities. Events such as major program cutbacks or expansions, changes in locations of major programs, and sizeable new procurements should be considered in the assessment.

(b) When an event will affect DOD administration of contracts for NASA significantly, a summary of the assessment shall be submitted to the Director, Contract Management Division (Code HK). The summary shall include at least --

(1) A description of the change in work requirements or delegation pattern;

(2) The estimated duration of the impact; and

(3) A prediction of the impact on DOD in terms of changes in manpower requirements or other costs.

(c) NASA installations shall discuss with appropriate DOD contract administration offices the predicted impact on DOD. The results of these discussions, such as DOD agreement or disagreement with the predicted impact, shall be included in the report.

# 18-42.175 Functional management responsibility.

NASA contracting officers retain functional management responsibility for their contracts. Utilization of the contract administration services of another Government agency or NASA installation does not relieve the NASA contracting officer of responsibility for proper and effective management of the contract. Therefore, the NASA contracting officer must ensure that the contract administration office understands the respective duties and responsibilities of each office in connection with each NASA contract. NASA contracting officers shall keep themselves fully informed on contractor performance and progress by establishing and maintaining effective communications with contract administration offices.

#### SUBPART 18-42.2 ASSIGNMENT OF CONTRACT ADMINISTRATION

18-42.202 Assignment of contract administration.

(a) **Policy**.

(1) It is NASA policy that maximum made of those contract he use administration and contract audit services available from DOD, subject to the recognition that certain functions may be withheld as being necessary for program management, or other reasons. Those services will normally be performed by the Department of Defense (DOD) in accordance with the terms of the NASA contracts and applicable DOD regulations and procedures, unless special NASA necessitate other requirements arrangements.

officers (2) Contracting should carefully determine for each contract award the optimum division of contract administration functions between those performed with NASA resources and those performed by DOD and other Government affecting agencies. Factors the contract administration assignment of include --

(i) Place of contract performance;

(ii) Nature of the supplies or services being acquired;

(iii) Extent of general existing DOD contractor oversight;

(iv) Extent of subcontracting to be performed by the prime contractor;

(v) Quality assurance requirements;

(vi) Security requirements; and

(vii) Government property administration requirements.

(3) Since NASA reimburses DOD for all contract administration performed on NASA contracts, only those functions that can be performed more efficiently and effectively by DOD, given the circumstances of the procurement, should be delegated.

(b) Assignable functions. With the exception of the functions listed under paragraph (c) of this section, any or all of the functions listed in FAR 42.302 may be delegated to DOD for performance based on the contracting officer's assessment of what will lead to the most efficient and effective contract management for the procurement. individual A blanket delegation of all assignable functions listed in FAR 42.302(a), with the exception of the non-assignable functions paragraph (c) of listed under this section, is generally appropriate when the contract place of performance is the onsite DOD contractor's facility and contract administration services are available. However, each function must be reviewed to ascertain if the function could better be performed by the NASA contracting officer.

(c) **Restricted functions.** The functions listed below may not be delegated, except as indicated.

(1) Approval of the final voucher (FAR 42.302(a)(7)).

(2) Countersigning NASA Form 456, Notice of Contract Costs Suspended and/or Disapproved (FAR 42.302(a)(8)).

(3) Issuance of decisions under the disputes clause (FAR 42.302(a)(10)).

(4) Contract payment (FAR 42.302(a)(13)).

(5) Execution of supplemental agreements involving spare parts or other items selected through provisioning procedures. However, delegation of the negotiation of supplemental agreements for spare parts and other items and forwarding for approval and signature of the NASA contracting officer is permitted (FAR 42.302(a)(22)).

(6) Execution of change orders (FAR 42.302(b)(8)). However, delegation of

the negotiation of supplemental agreements for change order definitization and forwarding for approval and signature of the NASA contracting officer is permitted (FAR 42.302(b)(1)).

(7) Issuing termination notices and executing supplemental agreements for settlement of termination for default or for convenience of the Government. However, delegation of the negotiation of termination settlements and forwarding for approval and signature of the NASA contracting officer is permitted using NASA Form 1432 (FAR 42.302(a)(23)).

(8) Consent to placement of subcontracts under FAR 42.302(a)(51). However, in those situations where the contracting officer considers it necessary to delegate consent to subcontract, the requirements of 18-44.102(b) shall be met prior to delegation.

# 18-42.202-70 Delegations to contract administration offices.

(a) General. The following procedures apply to delegations to contract administration offices (for delegations to audit and security offices, see 18-42.202-71 and 18-42.202-72, respectively):

(1) At the time of contract award the NASA contracting officer shall review contract performance requirements to determine the nature and extent of expected contract administration functions. This review shall be coordinated with appropriate installation functional representatives, including program managers, to ensure that all essential requirements are incorporated in the delegation. A similar review shall be made before amending letters of delegation.

(2) In most cases, contracting officers should contact the cognizant contract administration office and discuss planned delegation(s) with the administrative contracting officer. The contracting officer should elevate disagreements with the cognizant contract administration office to higher levels for resolution.

(3) A post-award planning conference (see FAR 45.503) shall be held with | representatives of the contract administration office when --

(i) A contract is expected to exceed \$5,000,000;

(ii) Contract performance is required at or near a NASA installation or NASA-controlled launch site;

(iii) The delegation will impose an abnormal demand on the resources of the contract administration of fice receiving the delegation; or

(iv) Complex contract management problems are expected.

(4) Procurement officer approval is required to waive a post-award planning conference for contracts meeting any of the criteria in (a)(3) of this section. The request for procurement officer approval to waive a post-award conference shall address action taken and planned to ensure effective communication with the contract administration office during the performance of the contract.

(5) When functions are to be delegated (or when prior delegations require modification), contracting officers shall --

(i) Within 15 days after contract award, prepare and forward NASA Form 1430, Letter of Contract Administration Delegation, General, to the contract administration office. NASA Form 1430A, Letter of Contract Administration, Special Instructions, will supplement the NASA Form 1430, to modify previously delegated functions and provide additional or particular information considered necessary to ensure clear understanding of all delegated functions.

(ii) Forward NASA Form 1431, Letter of Acceptance of Contract Administration, with each NASA Form 1430 or 1430A. If the NASA Form 1431 has not been returned within 45 days of

#### ASSIGNMENT OF CONTRACT ADMINISTRATION

transmittal, the contracting officer shall initiate follow-up inquiry to determine the status of the delegation request. Contracting officers shall use the returned NASA Form 1431 as contract file documentation that the delegation has been accepted, modified or rejected by the contract administration office and as a reference for points of contact for each of the functional areas delegated.

(iii) Modify existing delegations, as necessary, consistent with paragraphs (a)(5)(i) and (ii).

Letters of delegation shall (6) which clearly and specifically state functions are delegated. Delegations and amendments shall he delegation documentation and accompanied bv supporting information that will ensure a complete understanding of the contract administration services to be performed. The contracting officer shall keep the administration office fully contract informed of any actions that may affect the performance of delegated the Copies of all significant functions. documents shall be furnished to the contract administration office throughout the period of performance. Significant documents include, but are not limited to --

All contractual documents (i) as the contract and such any specifications and drawings, change supplemental agreements or orders. contractor proposals referenced in the contract;

(ii) Negotiation memoranda covering negotiations of contracts or contract changes in excess of \$100,000;

(iii) Copies of any delegation and amendments if sent to other contract administration offices that have a bearing on the contract, including those issued pursuant to 18-42.102-70; and

(iv) Any other correspondence affecting contract performance under the contract.

(7) Delegations shall be sent to DOD contract administration offices in accordance with the instructions in the DOD Directory of Contract Administration Services Components (DLAH 4105.4).

(8) The contracting officer shall distribute copies of the contract and letters of delegation for contract administration (including amendments) as follows:

(i) To Defense Contract Management Command (DCMC) and all other Government contract administration offices except DOD military contract administration offices, when two or more functional areas are delegated: Five copies of the contract and NASA Form 1430 and three NASA Forms 1431.

(ii) To DOD military component offices when two or more functional areas are delegated: Three copies of the contract and three NASA Forms 1430 and 1431.

(iii) To any contract administration office when a single functional area is delegated: Two copies of the contract and two NASA Forms 1430 and 1431.

(iv) To the contractor: One NASA Form 1430.

(b) Reliability and quality assurance. When special instructions for reliability or quality assurance are necessary, they shall be (1) clearly identified by the NASA installation personnel responsible for the reliability and quality assurance and (2) furnished function to the contracting officer on NASA Form 1430A for inclusion in the letter of delegation. The procedures for arranging, finalizing preparing. and such delegations and the requirements for NASA management of direction and these functions are contained in installation procedures. The latest edition of NHB 5300.4(2B), Quality Assurance Provisions Delegated Government for Agencies, describes the requirements for performing quality assurance functions under NASA contracts.

(c) Transportation and packaging. Transportation and packaging functions may be delegated at the option of the NASA installation personnel responsible for the transportation and packaging function. When such delegations are contemplated on a particular contract, special instructions shall be furnished to the NASA contracting officer on NASA Form 1430A. The form shall also (1) specify the limit of the value of Government bills of lading that may be issued without further consent of the NASA contracting officer and (2) provide appropriate funding information.

(d) Property administration and plant clearance. Property administration and plant clearance are ordinarily delegated by NASA to DOD pursuant to FAR 42.302. When these functions are delegated, special instructions prepared and distributed by the Headquarters Supply and Equipment Management Office, Code JLE, should be issued to the contract administration office. Property administration and plant clearance are typically retained, however, and performed by NASA when the contract work is to be performed at a NASA installation. When retained, the functions should be performed in accordance with Subpart 18-45.72.

# (e) Services not requiring letters of delegation.

(1) When it is desired that a contract administration or audit office perform services that precede the award of a contract, such as cost, price, or technical evaluations (but exclusive of pre-award surveys), NASA Form 1434, Letter of Request for Pricing-Audit-Technical Evaluation Services, shall be used. Preaward surveys shall be requested on SF 1403, Pre-award Survey of Prospective Contractor (General). Oral requests made to contract administration offices to expedite these services are authorized, but shall be confirmed in writing immediately through the use of NASA Form 1434 or SF 1403, as appropriate.

(2) Pre-award and post-award services, such as verification of labor and overhead rates, and furnishing of similar information readily available within contract administration and audit offices and not normally subject to reimbursement by NASA, may be obtained either orally without written confirmation or through the use of NASA Form 1434, as appropriate.

(f) Contractor Purchasing System

**Reviews.** When delegating contract administration to a DOD contract administration office under FAR 42.202 and 42.302(a)(50), the NASA contracting officer shall include in the letter of delegation of contract administration functions a requirement for the contract administration office to provide the NASA contracting officer with:

(1) Adequate advance notification of scheduled CPSRs, to allow for the necessary NASA coordination of participation; and

(2) One copy of each CPSR report.

### 18-42.202-71 Delegations to audit offices.

The following procedures apply when delegations are made to audit offices:

(a) NASA installations shall utilize the services of other Government audit organizations for performance of contract cost audit and other audit functions, except when audits will be performed by NASA auditors. The Defense Contract Audit Agency (DCAA) has been designated as the DOD agency responsible for the performance of audit functions for NASA contracts, except those awarded to educational institutions for which other agencies have audit cognizance under OMB Circular No. 88, those with Canadian contractors (see paragraph (d) of this section), and those for which NASA will perform audits. To ensure that audit services

are performed expeditiously, audit delegations shall be sent to the appropriate audit office immediately after execution of all cost-reimbursement, labor-hour, and time-and-materials contracts and all fixed-price contracts containing costreimbursement or price adjustment clauses. Audit functions include but are not limited to contract cost and price audits, estimating systems surveys, reviews of accounting systems (see also 18-15.871(b)), and approval of vouchers for provisional payment.

(b) (1) Delegations shall be sent to cognizant audit offices as listed in the Defense Contract Audit Agency Directory (Headquarters and Field Offices) or in other Government agency directories.

(2) Audit responsibilities for the Department of Health and Human Services (HHS) do not include reviewing and processing vouchers. Consequently, where audit responsibility has been delegated to HHS under OMB Circular No. A-88, contracts shall not designate HHS as the billing office for invoice submission. Instead, contracts should direct invoices to the office administering the contract or as otherwise arranged (see SF 26, Block 10, and SF 33, Block 23).

(c) (1) NASA Form 1433, Letter of Audit Delegation, shall be used to delegate the audit function and to amend previous delegations. Distribute copies of the contract and NASA Form 1433 as follows:

(i) Audit office: One copy of the contract and three NASA Forms 1433.

(ii) Contractor: One NASA Form 1433.

(iii) Cognizant NASA fiscal or financial management office: One NASA Form 1433.

(2) When HHS is designated as the audit office, item 12 on NASA Form 1433 shall be marked "Not applicable."

(d) (1) For contracts with the Canadian Commercial Corporation (CCC), audits are automatically arranged by the Department of Defense Production (Canada) (DDP) in accordance with agreements between NASA and DDP. Audit reports are furnished to DDP. Upon advice from DDP, CCC will certify the invoice and forward it with Standard Form 1034, Public Voucher, to the contracting officer for further processing and transmittal to the fiscal or financial management officer.

(2) For contracts placed directly with Canadian firms, audits are requested by the contracting officer from the Audit Services Branch, Comptroller of the Treasury, Department of Finance, Ottawa, Ontario, Canada. Invoices are approved by the auditor on a provisional basis pending completion of the contract and final audit. These invoices, accompanied by SF 1034, are forwarded to the contracting officer for further processing and transmittal to the fiscal or financial management officer. advisory audit reports are Periodic furnished directly to the contracting officer.

(3) Audits performed by the Audit Services Branch are normally conducted under DDP regulations.

# 18-42.202-72 Delegations to security offices.

NASA's policies and procedures on security are set forth in NMI 1600.2, NASA Security Contracting officers shall Program. delegate responsibility for administering the Industrial Security Program [which has been designated as an administrative contracting officer (ACO) responsibility in Appendix C, Industrial Security Regulation, DOD 5220.22R, see also FAR 42.302(a)(20)] to DOD unless the contractor will perform the classified contract on a NASA installation or the classified work has been "carved-out." (A "carve-out" is defined in Section 1, paragraph 3, item f.1., of the DOD Industrial Security Manual for Safeguarding Classified Information, September 1987, DOD 5220.22M, as a classified contract issued in connection with an approved Special Access Program in which the Defense Investigative Service has been relieved of inspection responsibility in whole or in part.) The basis for DOD's performance of administrative contracting officer responsibility for the Industrial Security Program on NASA contracts is a

NASA-DOD Agreement. The contracting officer shall specifically identify security functions delegated to DOD or to another NASA installation (see 18-42.171) on NASA Form 1430A.

# 18-42.203 Retention of contract administration.

The assignment of contract administration is optional for the contracts and situations listed below:

(a) Research and development study contracts not involving deliverable hardware or Government property in the hands of contractors.

(b) All contracts with delivery schedules of 90 days or less.

(c) Purchase orders having no Government source inspection requirements.

(d) Work performed at the installation awarding the contract.

(e) Contract work performed in the vicinity of the installation awarding the contract for which DOD contract administration services are not reasonably available.

# 18-42.270 Contracting officer technical representative (COTR) delegations.

(a) A contracting officer may appoint another Government employee to act as the contracting officer's authorized technical representative in managing the technical aspects of a particular contract. If necessary, the contracting officer may appoint an alternate COTR to act during short absences of the COTR; the policies and procedures for COTRs also shall apply to alternate COTRs. Technical organizations are responsible for ensuring that the individual they recommend to the contracting officer possesses training, qualifications and experience commensurate with the duties and

responsibilities to be delegated and the nature of the contract. The contracting officer shall ensure that the duties and responsibilities delegated do not exceed the limitations at 18-1.670(b).

(b) COTRs shall be designated by name and position title (see the 18-1.670(b) prohibition against delegating COTR duties solely to a position rather than to a named individual). Each COTR appointment shall be in writing and shall clearly define the purpose and limitations of the COTR's authorities, duties and responsibilities. NASA Form 1634, Contracting Officer Technical Representative (COTR) Delegation, shall be used to appoint COTRs. The COTR delegation shall be signed by the cognizant contracting officer, or at any level above that contracting officer (see 18-1.670(b)), and shall state that the duties and responsibilities may not be redelegated by the COTR and that the COTR may be held personally liable for unauthorized acts. (However, this does not prohibit the COTR from receiving assistance for the purpose of monitoring contractor progress and gathering information.) When an individual is appointed as a COTR on more than one contract, separate delegations shall be issued for each contract. A separate NASA Form 1634 will be used to appoint an alternate COTR; alternates may act only during official absences of the COTR, such as leave, TDY or other special assignments. The delegated duties and responsibilities of the alternate may not exceed those of the COTR.

(c) A COTR delegation remains in effect throughout the life of the contract unless cancelled in writing by the cognizant contracting officer or at any level above that contracting officer. The contracting officer may modify the delegation only by issuance of a new delegation cancelling and superseding the existing delegation.

(d) A COTR shall not be authorized to initiate procurement actions by use of purchase orders, or to place calls or delivery orders under indefinite-delivery contracts or basic ordering agreements, or in any way cause a change to the contract or increase the Government's financial obligations. A COTR shall not be authorized to award, agree to, or sign any contract or modification or in any way obligate the payment of money by the Government. The COTR is not authorized to issue technical direction unless the clause at 18-52.242-70, Technical Direction, prescribed in 18-42.7001, is included in the contract and the authorization is specifically listed in paragraph 3(m) of the COTR delegation letter (NASA Form 1634). However, delegations may be made to construction contract COTRs to sign emergency change orders with an estimated value not to exceed the value specified in writing by the contracting officer in the NASA Form 1634 but in no event to exceed \$25,000, on-site at construction sites, if sufficient funds have previously certified to cover the been emergency change. After issuing an emergency change order, the COTR shall notify the contracting officer as soon as possible, in person or telephonically, and subsequently provide a written determination supporting the need for the action.

(e) The contracting officer shall send the original and one copy of the COTR delegation letter to each COTR, who shall acknowledge receipt and accept the delegation by signing the original and returning it to the contracting officer. The original of the COTR delegation letter shall be filed in the applicable contract file. Copies of the signed COTR delegation letter shall be distributed to the contractor and to each cognizant contract administration office. Acknowledgement and distribution for terminations of COTR delegations and COTR delegations which revise authority, duties and responsibilities shall follow the same rules.

(f) The proposed COTR (and alternates) shall be trained in the duties,

responsibilities, and authority of the role of the COTR. That mandatory training shall include, at a minimum, the following core topic areas: contracting authority; procurement integrity; contract modifications; surveillance plans; contracting for inherently governmental functions, personal services, and NASA policy on the acquisition of services; the Service Contract Act; the Anti-Deficiency Act; contract financial management; the "Changes" clause; the "Disputes" clause; the "Inspection" clause; Government property and policy procedures; and the "Limitation" of Funds" and "Limitation of Cost" clauses. Procurement Officers are responsible for assuring that the course(s) utilized by their installation address the mandatory core topics in sufficient detail for the purpose of COTR training.

(g) The contracting officer shall verify that the COTR has received the mandatory training before signing the NASA Form 1634. Contracting officers shall terminate COTR delegations of COTRs who have not met the above training requirements by April 1, 1995. If, however, an urgent need arises for the appointment of a COTR and and otherwise qualified trained no individual is available, then the Procurement Officer may make а temporary COTR appointment not to exceed six months, which may not be extended by more than six months. Temporary appointments must be so identified and clearly reflect the appointment expiration date. No technical direction may be issued by a COTR serving under a temporary appointment. If a COTR serving under a temporary appointment believes that technical direction should be issued to the contractor, the COTR shall so advise the contracting officer and provide such assistance regarding the proposed direction as the contracting officer may require.

-

#### SUBPART 18-42.3 CONTRACT ADMINISTRATION OFFICE FUNCTIONS

18-42.302 Contract administration functions.

The cognizant CAO shall perform the additional contract administration functions listed below:

(a) Determine billing rates and final indirect cost rates.

(b) Issue cure and show cause letters after approval of the NASA contracting officer.

(c) Monitor the contractor's system for control of overtime.

(d) Assure that overtime compensation is in accordance with the terms of the contract, or in the absence of contractual coverage, that any excepted overtime charged is reasonable and properly allocable.

(c) Negotiate changes to interim billing prices when authorized by the NASA contracting officer.

#### 18-42.302-70 Modified functions.

In connection with the functions listed at FAR 42.302(a)(11)(ii) and (iii), the following exception applies: for those contractors with whom advance agreements of the type discussed in FAR 31.205-18 are negotiated, the Government contracting officer responsible for the agreements shall have full authority for determinations related to CAS 420.

#### SUBPART 18-42.7 INDIRECT COST RATES

18-42.705 Final indirect cost rates.

#### 18-42.705-70 NASA Policy.

I

(a) Since many NASA contractors are under DOD's final overhead rate determination procedure, NASA's policy is to participate jointly with DOD for those companies where NASA has a major financial interest. The NASA participant shall be a representative from that installation having the predominance of NASA work.

(b) When NASA has been assigned the final indirect cost rate determination authority, settlement of indirect costs shall be conducted by the cognizant NASA contracting officer (normally from the installation providing the preponderance of NASA funding).

(c) Final indirect cost rates are to be established in accordance with FAR 42.705 unless quick-closeout procedures are used, in which case FAR 42.708 and NFS 18-42.708 are to be followed.

18-42.708 Quick-closeout procedure.

18-42.708-70 NASA policy.

The use of quick-closcout procedures is strongly encouraged for contracts that are physically complete, the amount of unsettled indirect costs applicable to any one contract does not exceed \$500,000, and an individual contract's value, excluding fee, is not greater than \$2,000,000. Quick closeout may be used for contracts above \$2,000,000 with the the installation prior approval of procurement officer. The \$2,000,000 contract limitation supersedes the 15 percent parameter of FAR 42.708(a)(2)(ii), which does not apply to NASA.

18-42.708-71 Factors to be considered.

Factors to be considered in deciding whether quick closeout is appropriate, include:

(a) Whether the use of quick closeout will adversely affect the negotiation of final indirect cost rates in those cases where the responsibility for negotiating indirect cost rates has been delegated or falls under the cognizance of another agency.

(b) Prior experience with the contractor, for example, the amount of questioned and/or disallowed costs for prior fiscal years.

(c) Whether there are any outstanding Cost Accounting Standards or accounting system deficiencies that would have a bearing on the determination of direct costs and final indirect cost rates.

(d) The extent of the contractor's Government contracting experience.

(e) The number of years final indirect costs have not been settled.

(f) The amount of unaudited contractor claimed costs (direct and indirect) for the contract(s) being considered.

(g) The number and value of other NASA contracts with the contractor having unaudited costs for the same fiscal years.

(h) Whether audits will be performed and/or indirect cost rates finalized within a reasonable time. Audits are not to be requested if a determination is made to use quick closeout.

### CONTRACT ADMINISTRATION

### 18-42.708-72 Procedures.

After a decision is made that the use of quick closeout is appropriate, the contracting officer shall conduct the following:

(a) Seek a written agreement from the contractor participate to in the quick-closeout process under FAR 42.708 for the selected contract(s). Also. request the contractor to submit a final voucher and a summary of all costs by cost element and fiscal year for the contract(s) in question, as well as a copy of the contractor's final indirect cost rate proposal for each fiscal year quick closeout is involved.

(b) Notify the cognizant audit activity in writing regarding the decision to use quick closeout. Identify the contract(s) in question and request that they provide the contractor's indirect cost history covering a sufficient number of fiscal years to see the trend of claimed, audit questioned. and disallowed costs Request this information from the contractor only when the cognizant audit activity unable is to provide the information. In all cases, request the cognizant audit activity to provide any information that could adversely impact the decision to use quick-closeout procedures. The quick-closeout process should not proceed without such a response.

(c) Review the contract(s) for indirect cost rate ceilings and any other contract limitations, as well as the rate history information obtained from the contractor or the cognizant audit activity, and develop a negotiation position. (d) Based on an analysis of all the available information, final indirect cost rates should be established using one of the following rates:

(1) The contract's ceiling indirect cost rates, if applicable, and if less than paragraphs (d)(2) through (6) of this section.

(2) The contractor's claimed actual rates adjusted based on the contractor's indirect cost history, if less than paragraphs (d)(3) through (6) of this section.

(3) Recommended rates from the cognizant audit agency, the local pricing office, another installation pricing office, or other recognized knowledgeable source.

(4) The contractor's negotiated billing rates, if less than paragraphs (d)(5) or (6) of this section.

(5) The previous year's final rates.

(6) Final rates for another fiscal year closest to the period for which quick-closeout rates are being established.

(e) If an agreement is reached with the contractor, obtain a release of all claims and other applicable closing documents.

(f) For those contracts where the indirect cost rate negotiation function was delegated or falls under the cognizance of another agency, send a copy of the agreement to that office.

(g) If agreement cannot be reached with the contractor, a determination shall be made as to whether a final Contracting Officer decision should be issued, or whether the closeout procedures specified in FAR 4.804 and NFS 18-4.804 will be followed.

### SUBPART 18-42.8 DISALLOWANCE OF COSTS

18-42.801 Notice of contract costs suspended and/or disallowed.

(a) Following a prompt and careful review of the facts and circumstances leading the auditor to initiate the NASA Form 456, Notice of Contract Costs Suspended and/or Disapproved, and after coordination with other NASA and DOD contracting officers administering contracts with the same contractor under which a NASA Form 456, or a DCAA Form 1 in the case of a DOD contract, has been issued for the same items of a cost, the contracting officer shall take one of the following actions:

(1) Countersign the NASA Form 456 disapproving the costs.

(2) Countersign the NASA Form 456 suspending the costs.

(3) Issue a new NASA Form 456 suspending the costs rather than disapproving them pending resolution of the issues.

(4) Have the contractor issue a new voucher removing the costs in question from its claim and return the NASA Form 456 to the auditor unsigned.

(5) Return the unsigned NASA Form 456 to the auditor with a detailed explanation of why the suspension or disapproval is not being countersigned, and process the contractor's claim for payment.

(b) The contracting officer, when in agreement with the NASA Form 456 initiated by the auditor, shall assign a notice number and shall countersign the form. An original and three copies (which includes two acknowledgement copies, one each for return to the contracting officer and the auditor) of the form shall be sent to the contractor by certified mail, return receipt requested; one copy shall be attached to the Standard Form 1034 and each copy of the Standard Form 1034A (see 18-42.9(c)) on which the deduction is made, and one copy shall be sent to the auditor.

(c) The total amount suspended or disapproved, as shown on the NASA Form 456, shall be inserted in the Differences block of the Standard Form 1034 and Standard Form 1034A, citing the applicable NASA Form 456.

(d) (1) If the amount of the deduction is more than the amount of the public voucher, the installment method of deduction shall be applied to this and subsequent public vouchers until the fully liquidated. The is amount deductions on any voucher may not exceed the voucher amount, to avoid processing of a voucher in a credit amount. Public voucher(s) with zero amounts must be forwarded to the fiscal or financial office for appropriate management action.

(2) If deductions are in excess of contractor claims, recovery may be made through a direct refund from the contractor, in the form of a check payable to NASA, or by a set-off deduction from the voucher(s) submitted by the contractor under any other contract, unless those contracts contain a "no set-off" provision. If a set-off is effected, the voucher(s) from which the deduction is made should be annotated and identif v the contract to appropriation affected and the applicable NASA Form 456.

.

### SUBPART 18-42.10 NEGOTIATING ADVANCE AGREEMENTS FOR INDEPENDENT RESEARCH AND DEVELOPMENT/BID AND PROPOSAL COSTS

18-42.1004 Location of negotiators in a central office.

Within NASA, the central office responsible for advance agreements is the Contract Pricing and Finance Division (Code HC), Office of Procurement, NASA Headquarters.

#### 18-42.1008 Administrative appeals.

The NASA administrative appeals hearing group consists of the Associate Administrator for Procurement, who shall be chairperson, the Deputy Associate Administrator for Aeronautics and Space Technology, and the Deputy General Counsel.

#### SUBPART 18-42.12

#### NOVATION AND CHANGE-OF-NAME AGREEMENTS

#### 18-42.1200 Scope of subpart.

This subpart implements and supplements FAR Subpart 42.12 and prescribes policies and procedures for processing novation or change-of-name agreements initiated by either a NASA installation or by DOD on behalf of NASA.

### 18-42.1202 Responsibility for executing agreements.

When none of the affected contracts has been assigned to an administrative contracting officer (see FAR 42.1202(a)(2)), the contracting officer shall require the contractor to provide the documentation enumerated in FAR 42.1204(c)(or, as appropriate, FAR 42.1205(a)) to the NASA installation with which it has the largest amount of unliquidated obligations. This installation shall be the "designated installation" for processing and executing novation agreements and change-of-name agreements with the contractor.

#### 18-42.1203 Processing agreements.

(a) The installation shall immediately notify the Director, Procurement Systems Division (Code HM) of the request to execute a novation (successor-in-interest) or change-of-name agreement. The notification shall include (1) the names of the firms involved, (2) the name of the installation that will execute the agreement, and (3) the type of agreement.

(b) When the Standard Form 30 required by FAR 42.1203(f)(1) is prepared, a supplemental agreement number need not be obtained for contracts other than the one under which the supplemental agreement is written. For distribution purposes, the Standard Form 30 shall also include the names and addresses of the installations with contracts subject to the agreement.

(c) After execution of the supplemental agreement, the designated installation shall--

(1) Forward one authenticated copy to Code HM; and

(2) Advise each of the affected installations by letter of the consummation of the supplemental agreement, requesting that an administrative change be issued for each affected contract and enclosing a copy of the supplemental agreement.

(d) For each affected contract, the contracting officer shall prepare an administrative change acknowledging the successor-in-interest or the change in name. The administrative change shall receive the same distribution as the affected contract. It shall indicate the nature of the transaction and the result attained and shall cite the number of the contract with which the original relevant documents and supplemental agreement are filed.

#### 18-42.1203-70 DOD processing of novation and change-of-name agreements on behalf of NASA.

(a) Appendix E of the NASA/DOD Agreement for Contract Administration and Contract Audit Services covers the accomplishment of novation and change-ofname agreements by DOD on behalf of NASA.

(b) Code HM shall notify installations when DOD is processing a proposed novation agreement on behalf of NASA. Within 20 days after receiving it, the installation shall submit comments to Code HM for transmittal to DOD. With the concurrence of Code HS, an installation may execute a separate agreement with the contractor. In that event, Code HM shall notify DOD accordingly, and the installation shall process a separate agreement in accordance with FAR 42.1203.

(c) Code HM shall maintain copies of agreements executed by DOD on behalf of NASA.

#### SUBPART 18-42.14 TRAFFIC AND TRANSPORTATION MANAGEMENT

18-42.1405 Discrepancies incident to shipment of supplies.

In addition to following the applicable regulations and procedures referenced at FAR 42.1405(a), NASA personnel shall report discrepancies and adjust claims for loss of and damage to Government property in transit as prescribed in NHB 6200.1, NASA Transportation and General Traffic Management.

- - -

#### SUBPART 18-42.70 NASA CONTRACT CLAUSES

#### 18-42.7001 Technical direction.

The contracting officer shall insert the 18-52.242-70. Technical clause at Direction, in cost-reimbursement solicitations and contracts if (1) technical direction as defined in the clause (which includes the Government's approving and of the approaches solutions contractor and shifting emphasis among work areas or tasks) is appropriate to the contract requirements accomplish effectively, (2) the statement of work is conducive to technical direction by the Government, and (3) technical direction is to be in writing. Identify this duty in subparagraph 3(m), "Other duties as follows" of NASA Form 1634 (see 18-42.270). This clause addresses COTR responsibilities that are in addition to those discussed in subparagraphs 3(a)-(1)of the COTR delegation and is not intended to be followed in fulfilling those other responsibilities. The clause with authorized for use is not education and institutions of higher other non-profit organizations.

18-42.7002 Travel outside of the United States.

The contracting officer shall insert the clause at 18-52.242-71, Travel Outside of

the United States, in cost-reimbursement solicitations and contracts where a contractor may travel outside of the United States and it is appropriate to require Government approval of the travel.

### 18-42.7003 Observance of legal holidays.

(a) The contracting officer shall insert the clause at 18-52.242-72, Observance of Legal Holidays, in contracts when notification to the contractor of Government holidays would be useful in administering the contract.

(b) The clause shall be used with its cost-reimbursement Alternate I in contracts when work will be performed at a NASA installation and it is desired that contractor employees not have access to the installation during Government alternate may be This holidays. appropriately modified for fixed-price contracts.

(c) The clause may be used with its cost-reimbursement Π in Alternate contracts when (1) Alternate I is used, (2) work will be performed at a NASA installation, and (3) it is desired that leave be granted administrative personnel special in contractor circumstances, such as inclement weather or potentially hazardous conditions.

#### SUBPART 18-42.71 SUBMISSION OF VOUCHERS

#### 18-42.7101 Processing of vouchers.

(a) Under the authority of FAR 42.803, NASA has designated the contract auditor officer's contracting the as representative for (1) promptly examining reimbursement vouchers received directly contractors, (2) promptly from transmitting vouchers approved for provisional payment to the cognizant fiscal or financial management officer, and (3) regarding costs claimed, but not considered allowable, preparing and sending to the cognizant contracting officer NASA Form 456, Notice of Contract Costs Suspended and/or Disapproved. Normally, the NASA Form 456 is initiated by the auditor; however, the contracting officer also may initiate it or direct its initiation. In accordance with any from the instructions received contracting officer, the contract auditor shall promptly examine and approve (but section) paragraph (b) of this see separate fee vouchers and fee portions of vouchers for provisional payment under contract. After examination, the the auditor shall forward completion vouchers to the contracting officer for approval and transmittal to the cognizant fiscal or financial management officer.

(b) When the audit functions are delegated, special instructions may be issued to the contract auditor to --

(1) Require submission of separate vouchers for reimbursable costs and for payment of earned fee; and/or

(2) Reserve to the contracting officer approval of separate fee vouchers and all vouchers submitted by contractors performing at a NASA installation.

(c) Unless otherwise notified, the contractor shall be required to submit

public vouchers to the auditor as follows:

(1) One original Standard Form 1034, Standard Form 1035, or equivalent contractor's attachment shall be submitted.

(2) Seven copies of Standard Form 1034A, Standard Form 1035A, or equivalent contractor's attachment shall be submitted.

(3) The contractor shall mark Standard Form 1034A copies 1, 2, 3, 4, and such other copies as may be directed by the contracting officer by inserting in the memorandum block names and addresses as follows:

(i) Copy 1, NASA contracting officer.

(ii) Copy 2, cognizant audit office.

(iii) Copy 3, Contractor.

(iv) Copy 4, Contract administration office.

(v) Copy 5, project management office (when required by the NASA contracting officer).

(4) The auditor shall retain an unpaid copy of the voucher.

(5) When a voucher contains one or more individual direct freight charges of \$100 or more, an additional copy of Standard Form 1034A and Standard Form 1035A shall be submitted and marked for return to the contractor after payment. This copy shall be transmitted quarterly by the contractor with the freight bills to the General Services Administration, When a voucher is identified as the "Completion Voucher," an additional copy shall be submitted for transmittal to the NASA contracting officer.

the contracting (d) When necessary, officer should consult with the auditor the financial management officer or concerning preparation, examination, and payment of vouchers. Functions to be auditors and financial by performed management and fiscal office personnel during the examination of vouchers are in FMM 9630.

.

#### NASA FAR SUPPLEMENT

·--- . ...

#### PART 18-43 CONTRACT MODIFICATIONS

#### SUBPART 18-43.2 CHANGE ORDERS

#### 18-43.205 Contract clauses.

As authorized in the preface of clauses FAR 52.243-1--Changes-Fixed Price; FAR 52.243-2--Changes-Cost Reimbursement; and FAR 52.243-3--Changes-Time-and-Material or Labor-Hours, the period within which a contractor must assert its rights to an equitable adjustment may be varied not to exceed 60 calendar days.

#### 18-43.205-70 NASA contract clause.

(a) The contracting officer may insert in contracts a clause substantially the same as 18-52.243-70, Engineering Change Proposals (ECP), when impact evaluation information is required. Paragraphs (c) and (d) of the basic clause and Alternate I of the clause shall be changed to reflect the specific type of contract. A local format may be substituted for the MIL-STD-973 format. (b) If it is desirable to preclude a large number of small-dollar, contractorinitiated engineering changes and to reduce the administrative cost of reviewing them, the contracting officer shall use the clause with its Alternate I.

(c) If the contract is a costreimbursement contract, the contracting officer shall use the clause with its Alternate II.

### 18-43.270 Originating and accepting engineering change proposals.

(a) Either party to the contract may originate engineering changes. The originator must submit to the contracting officer detailed technical, cost, and schedule information documenting the proposed change. This information will be used by the Government project manager in deciding whether or not to implement the change and by the contracting officer to price the change in advance, when possible.

(b) Contractual implementation of an approved ECP may occur by either a supplemental agreement or, if appropriate, as a written change order to the contract.

.

#### **SUBPART 18-43.3** FORMS

#### 18-43.301 Use of forms.

---- ·

(a) FAR 43.301(a)(1) requires the use of 30. Amendment of Standard Form Solicitation/Modification of Contract, administrative changes such as for changes in accounting and appropriation data. Contract modifications should fund citations (i.e., include only appropriations data) accounting and particular applicable the to modification. The cumulative inceptionto-date listing of funding citations for previous modifications is discouraged unless there is a contractual need requiring such a listing. Modifications total funding, the change taking place, and a new total value.

(b) When an internal administrative change of funding citations relative to a contract is required, the official determining the need for the change shall obtain applicable request it, installation approvals, and then forward documentation to the financial management officer and the contracting officer to An administrative it. facilitate modification of the contract is not required unless it affects the billing or reporting requirements placed upon the contractor.

These procedures do not reduce the (c) contracting officer's responsibility for ensuring that obligations are made only on the basis of appropriated funds.

#### PART 18-44 SUBCONTRACTING POLICIES AND PROCEDURES

#### SUBPART 18-44.1 GENERAL

#### 18-44.102 Policy.

(a) It is NASA policy to retain consent to subcontract authority--

(1) Under fixed-price contracts required to include the clause at FAR 52.244-1;

(2) Under cost reimbursement and letter contracts required to include the clause at FAR 52.244-2;

(3) Under time-and-material and labor-hour contracts required to include the clause at FAR 52.244-3; and

(4) For all subcontracts designated as requiring special surveillance. (See 18-44.102-70 on special surveillance.)

(b) However, if the contracting officer considers it necessary to delegate consent to subcontract authority, the contracting officer shall--

(1) Justify in writing the rationale for such delegation;

(2) Obtain written approval of the justification from the procurement officer or a designee; and

(3) Include the approved justification in the contract file.

18-44.102-70 Contracting officer designated special surveillance and consent requirements.

(a) Notwithstanding approval of a contractor's purchasing system, the contracting officer may require the contractor to obtain consent for any subcontract or class of subcontracts selected for special surveillance. Such subcontracts

shall be identified in the schedule of the contract. In making subcontracts subject to special surveillance consent requirements, the contracting officer should consider specific subcontract awards, as well as any individual systems, subsystems, components, technologies, and services which should have contracting officer consent prior to being subcontracted. Any subcontract for which consent was not provided at the time of contract award, under a cost type prime contract (FAR 44.202-1(c)), for which the Government would have required cost and pricing data in accordance with FAR 15.806-2(a)(1) or (2), shall be identified for special surveillance.

(b) For each planned contract award expected to exceed \$1 million in total estimated value (inclusive of options), the contracting officer, in conjunction with the technical representative, when appropriate, shall review the information available at the time of contract award to determine whether certain subcontracts require special surveillance. At a minimum, the contracting officer review should consider such factors as--

(1) The degree of subcontract pricing uncertainties at the time of contract award;

(2) The overall quality of the contractor's approach to pricing subcontracts;

(3) The extent of competition achieved, or to be achieved, by the contractor in the award of subcontracts;

(4) Technical complexity and the criticality of specific supplies, services, and technologies on the successful performance of the contract; and

(5) The potential impact of planned subcontracts on source selection or incentive arrangements.

(c) The contracting officer shall document results of the review in the contract file, and include the requirement to obtain consent for subcontracts identified for special surveillance in the schedule of the contract. For contract modifications and change orders, the contracting officer shall make the determination required by paragraph (b) of this section whenever the value of any subcontract resulting from the change order or modification:

(1) Is proposed to exceed \$100,000; or
(2) Is one of a number of sub-

(2) Is one of a number of subcontracts with a single subcontractor, under the contract, for the same or related supplies or services, that in the aggregate are expected to exceed \$100,000.

18-44.102-71 Headquarters review of subcontracts.

 (a) If a requirement is established by the Headquarters source selection official or
 | the Associate Administrator for Procurement for a Headquarters review of a subcontract prior to its award, the contracting officer shall--

(1) Require consent as specified in 18-44.102-70; and

(2) Before consenting to the subcontract, submit to the Associate Administrator for Procurement (Code HS) for review--

(i) The subcontract;

(ii) Contractor documentation in support of the subcontract (including that required by the notification provisions of the subcontracts clause); and

(iii) The contracting officer's review and evaluation (in accordance with FAR 44.202), with appropriate recommendations. (b) Consent shall not be granted by the contracting officer until notification (with limitations and objections, if any) is received from the Associate Administrator | for Procurement.

# 18-44.102-72 New sources of scientific and technical competence.

As a Government agency whose mission involves substantial Federal expenditures and use of national resources, NASA has a strong interest in helping accomplish collateral national economic goals within the framework of applicable statutory and administrative authority in a way that will not impair program effectiveness. Utilization in the space program and the accompanying development of the potential of all geographical regions will effectively contribute to achieving national goals. To advance the further development of competence and capacity of sources, NASA encourages the placing of subcontracts over wider geographic areas. To carry out these objectives, the clause at 18-52.244-70, Geographic Participation in the Aerospace Program, shall be used as prescribed at 18-44.170.

#### 18-44.170 NASA contract clause.

The contracting officer shall insert the clause at 18-52.244-70, Geographic Participation in the Aerospace Program, in all research and development solicitations anticipated to exceed \$500,000 and in resulting contracts of \$500,000 or over to be performed within the United States.

#### SUBPART 18-44.3 CONTRACTORS' PURCHASING SYSTEMS REVIEWS

18-44.302 Requirements.

### 18-44.302-70 DCMC-conducted contractor purchasing system reviews.

For contracts within their cognizance, NASA contracting officers shall be aware of purchasing system approval status and are encouraged to become actively with the Defense Contract involved Management Command (DCMC) in the Contractor Purchasing System Review Involvement should process. (CPSR) include the following:

(a) Verifying that CPSRs are being conducted as required for each contractor meeting the thresholds in FAR 44.302.

(b) Ensuring that purchasing system review specifically includes the business unit performing the NASA contract.

(c) Actively participating as a team member, or arranging NASA representation, on DCMC CPSRs. At a minimum, such participation or representation shall be arranged when the DCMC CPSR review involves --

(1) Contractors with major NASA programs;

(2) Contractors' business units where the total dollar value of NASA contracts is substantial; or

(3) Any contractor system where the contracting officer has special concerns.

Participation should be oriented towards reviewing those areas of NASA-specific interest within the contractor's procurement operation. (d) Ensuring that the selected CPSR sample to be reviewed reflects the level of NASA business in the contractor's purchasing organization.

(e) Providing to the cognizant DCMC CPSR team leader any areas of special emphasis regarding the contractor's procurement operation, to ensure that the review is tailored to address any NASA concerns, in addition to complying with FAR requirements for the review format.

### 18-44.302-71 NASA-conducted contractor purchasing system reviews.

If a NASA activity is the cognizant contract administration office, or after coordination with the cognizant DCMC CPSR office, it is determined that a CPSR is required but cannot be accomplished by DCMC, then a CPSR should be conducted by NASA personnel. The NASA CPSR team leader:

(a) May use DOD FAR Supplement, Contractor Purchasing System Review (CPSR) guidance, as a general guide to conducting the CPSR.

(b) May vary the scope of review depending on the contractor and contracts involved.

(c) Shall maintain close coordination with the cognizant ACO during CPSRs at contractors under DOD cognizance.

#### 18-44.304-70 Surveillance.

(a) In the period between complete CPSRs, NASA contracting officers shall sufficient level maintain а of contractor surveillance to ensure purchasing efforts in support of NASA are accomplished in an contracts appropriate manner and protect the interests of the Agency.

#### SUBCONTRACTING POLICIES AND PROCEDURES

(b) Surveillance shall be accomplished primarily through performance of consent-to-subcontract reviews (see FAR 44.202). Other methods of surveillance, including periodic reviews of contractor purchasing records may also be conducted. Contracting officers shall document the results of consent-to-subcontract reviews and periodic reviews, maintaining a record of contractor subcontract or purchase order award performance on NASA contracts. Contractor performance shall be summarized on an annual basis and provided to the ACO cognizant of the contractor's purchasing system. Annual reports should summarize the number of consent reviews and other reviews conducted during the year by NASA representatives, and summarize the types and quantity of deficiencies identified during reviews, need for special reviews, and recommended areas of emphasis during future CPSRs.

18-44.305 Granting, withholding, or withdrawing approval.

ACO actions related to purchasing system approval have a potential impact on NASA

contracting officer consent requirements. Accordingly, NASA contracting officers should review system deficiencies documented in CPSR reports and when results of consent reviews and other sources conflict with CPSR or DOD surveillance conclusions. formally communicate such concerns to the ACO having cognizance of procurement system approval. Significant issues or significant conflicts with DOD CPSR results should be formally referred to Headquarters, Code HM.

#### 18-44.307-70 Reporting.

NASA contracting officers. when delegating contract administration to a DOD contract administration office under FAR 42.202 and 42.302(a)(50), are required by 18-42.202-70(f) to include in the letter of delegation of contract administration functions a requirement for the contract administration office to provide the NASA contracting officer with advance adequate notification of scheduled CPSRs and a copy of each CPSR report.

#### PART 18-45 GOVERNMENT PROPERTY

#### SUBPART 18-45.1 GENERAL

#### 18-45.102 Policy.

(a) One reason for the policy in FAR 45.102 that contractors shall ordinarily furnish all property is that providing Government property (whether Government-furnished or contractorincreases the Government's acquired) administrative burden and requires recordkeeping and personnel. Providing property may dilute the contractor's overall responsibility and weaken guarantees, enditem delivery requirements, and other contract terms. Furnishing property places NASA between the source of the property and the contractor. When NASA assumes responsibility for scheduling delivery of the property, NASA may be responsible for delays.

(b) Nevertheless, sometimes providing Government property to contractors may be essential to contract performance or otherwise advantageous to NASA. For example, furnishing standardized production property and raw materials may be necessary for uniformity of products. Furnishing Government property can reduce the production cycle by eliminating the lead time necessary for the contractor to acquire or fabricate production property. NASA may be able to broaden its competitive base by offering property to firms unable to acquire their own, or by offering production property or critical material not generally available throughout the industry. NASA may lower contract by offering existing Government costs property or new Government property obtainable at prices lower than those available to the contractor. NASA may also provide Government property to educational or other nonprofit insti-tutions to facilitate scientific research.

(c) NASA has several types of contract property accountability options. The selection of the combination of Government property clauses for a given contract is dependent upon variables such as whether performance is on-site at a NASA installation, contract purpose, and the degree of contractor management independence that is inherent in the statement of work (see 18-45.102-70(b)).

#### 18-45.102-70 Procedures.

(a) The contracting officer shall, as applicable, include in each solicitation a--

(1) List of any Government property (showing location and condition), including Government-owned tooling, that will be furnished for the performance of the contract and any related special provisions;

(2) Requirement that information be furnished regarding (i) any Governmentowned facilities or items of industrial equipment or special tooling requested to be used in performing the contract, (ii) their acquisition cost, (iii) identification of the Government contract under which the property is accountable, (iv) rental provisions, and (v) other relevant matters;

(3) Requirement that additional facilities that the offeror requests to be provided by the Government be described and identified by category, such as "Land," "Buildings," and "Equipment" (see Subpart 18-45.71); and

(4) Requirement that additional special test equipment that the offeror requests to be provided by the Government be described and its intended use, estimated cost, and proposed location be shown.

(b) To ensure the contract property accountability option selected is appropriate for a particular contract and is in consonance with installation resources

and policies regarding use of Government property, the contracting officer shall, as part of the solicitation/contract review process, provide a copy of the solicitation/ contract to the installation supply and equipment management officer (SEMO) for review. It shall be the responsibility of the SEMO to provide comments or recommendations to the contracting officer within the review time specified. In circumstances where an award of a contract is contemplated, and a solicitation was not issued (e.g., contracts resulting from broad agency announcements and unsolicited proposals), the contracting officer shall provide a copy of the contract prior to award to the installation SEMO for review and comment. The contracting officer shall provide this opportunity for SEMO review and comment as a part of the solicitation/contract review process for procurements with an estimated cost over \$1,000,000 or for procurements with an estimated cost over \$50,000 (1) for work expected to be performed on-site at a NASA installation, or (2) which provide existing government property, or (3) which require contractor acquisition of Government property.

## 18-45.104 Review and correction of contractors' property control systems.

(a) When review of the contractor's property control system is not delegated to DOD, the NASA contracting officer or property administrator shall conduct the review as required in Subpart 18-45.72.

(b) In each solicitation under which use of Government property is contemplated, the contracting officer shall require the offeror to--

(1) Furnish the date of the last Government review of its property control and accounting system and describe actions taken to correct any deficiencies found;

(2) State that the offeror has reviewed, understands, and can comply

with all property management and accounting procedures in the solicitation, FAR Subpart 45.5, and Subparts 18-45.5, 18-45.70, and 18-45.71 of this Regulation; and

(3) State whether the costs associated with subparagraph (2) of this section are included in its cost proposal.

#### 18-45.104-70 Contract property administration by the Government.

DOD will conduct contract property administration in accordance with their regulations and procedures and NASA special delegation instructions. When property administration is not delegated to DOD, NASA shall conduct contract property administration in accordance with Subpart 18-45.72.

#### 18-45.106 Government property clauses.

In addition to the applicable Government property clauses prescribed in FAR 45.106, the contracting officer shall insert the following clause(s) and provision as appropriate.

## 18-45.106-70 NASA contract clauses and solicitation provision.

(a) The contracting officer shall insert the clause at 18-52.245-70, Acquisition of Centrally Reportable Equipment, in all solicitations and contracts that include a Government property clause. See 18-45.7103 and the clause at 18-52.245-70 for instructions on preparing DD Form 1419.

(b) (1) The contracting officer shall insert the clause at 18-52.245-71, Installation-Provided Government Property, in solicitations and contracts when Government property is to be provided to on-site contractors, and the Government will retain accountability for the property. The contracting officer shall identify in the contract Schedule the nature and extent of such property and the installation supply and equipment management officer will make such property available to the contractor on a no-charge-for-use basis. The contracting officer shall also list in the contract the applicable installation property management directives.

(2) Contracting officers may also use the clause if Government property is provided to off-site local support service contractors. In this case, the concurrence of the installation supply and equipment management officer must be obtained and indicated in the procurement request.

(3) To avoid diluting contractor responsibilities when they include separate procurement authority and responsibility, contracting officers may preclude such contractors from utilizing the installation's central receiving facility for receiving contractor-acquired property. To accomplish this, the contracting officer shall use the clause with its Alternate I. The contracting officer shall review the acquisitions reported by the contractor for their appropriateness, and the supply and equipment management officer shall ensure that records are established.

(4) Contracting officers shall clearly identify in a separate schedule any property provided under a Government property clause but not also subject to the clause at 18-52.245-71. The contracting officer shall address any specific maintenance considerations (for example, requiring use of a central calibration facility) elsewhere in the contract.

(c) The contracting officer shall insert the clause at 18-52.245-72, Liability for Government Property Furnished for Repair and Services, in fixed-price solicitations and contracts (except for experimental, developmental, or research work with educational or nonprofit institutions, where no profit is contemplated) for repair, modification, rehabilitation, or other servicing of Government property, if such property is to be furnished to a contractor for that purpose. If (1) a substantial quantity of parts or material will be furnished, (2) a significant amount of scrap will result from the work to be performed, or (3) other Government property will be furnished to or acquired by the contractor, the contract will also contain the appropriate Government property clause (see FAR 45.106) and the contract Schedule shall provide that such property shall be governed by the terms of that clause. When minor repairs are obtained under small purchase procedures, the procedures of this paragraph (c) shall not apply. Contracting officers shall not require additional insurance under the clause at 18-52.245-72 unless the circumstances clearly indicate advantages to the Government.

(d) The contracting officer shall insert the clause at 18-52.245-73, Financial Reporting of Government-Owned/ Contractor-Held Property, in all contracts unless (1) it is virtually certain that Government property will not be furnished to or acquired by the contractor (e.g., as in most study contracts and certain contracts for services), (2) the only property to be provided is for the purpose of repair or servicing (see 18all property to be 52.245-72), or (3) provided is subject to the clause at 18-52.245-71, Installation-Provided Government Property (see paragraph (b) of this section). Reporting shall be on an annual basis except when an on-site contractor performs property acquisition and management for the Government. In these cases, the Government may require more frequent reporting, and the contracting officer shall use the clause with its Alternate I (monthly reporting) or Alternate II (quarterly reporting) as appropriate. The contracting officer shall insert in the clause the address and office code of a single organization within the cognizant NASA installation designated as the focal point for control and distribution of NASA Form 1018.

(e) The contracting officer shall insert the clause at 18-52.245-74, Contractor Accountable On-Site Government Property, in solicitations and contracts when accountability rests with an on-site contractor. The contracting officer shall

obtain approval to use the clause at 18-52.245-74 in lieu of the clause at 18-52.245-71 from Director, Supply and Equipment Management Office (Code JLE), NASA Headquarters. The request for approval shall be written and shall include a determination of costs that will be (i) avoided (e.g., additional costs to the installation's property management systems and staffing) and (ii) incurred (e.g., reimbursable costs of the contractor to implement, staff, and operate separate property management systems on-site, and resources needed for performance of, or reimbursement for, property administration) under contractor accountability.

(f) The contracting officer shall insert the clause at 18-52.245-75, Title to Equipment, in solicitations and contracts where the clause at FAR 52.245-2 (Alternate II) or 52.245-5 (Alternate I) is used. Insert a dollar value not less than \$5,000, based on the particular procurement, and identify the property for which vesting of title with the Government is appropriate.

(g) The contracting officer shall insert the clause at 18-52.245-76, List of Government-Furnished Property, in solicitations and contracts if the contractor is to be accountable under the contract for Government property. Insert the name of the Government installation, contractor's plant, or other site(s) where the Government property will be used. Insert a description of the item(s), quantity, acquisition cost, and date the property will be furnished to the contractor.

(h) The contracting officer shall insert the clause at 18-52.245-77, List of Installation-Provided Property and Services, in solicitations and contracts that authorize contractor use of on-site Government property and services, such as office space, the cafeteria, or first-aid. Insert the attachment number identifying the equipment to be made available to the contractor. Insert the name of the installation service facilities, such as a library, computer facility, or health center, that the contractor will be authorized to use. The property and services may be specified, modified, and updated to meet the needs of the particular procurement.

(i) The contracting officer shall insert the clause at 18-52.245-78, Space Hardware Reporting, in solicitations and contracts where space hardware reporting is contemplated. Insert the space hardware to be reported.

(j) The contracting officer shall insert the provision at 18-52.245-79, Use of Government-Owned Property, in all solicitations when Government property may be used by the contractor.

(k) The contracting officer shall insert the clause at 18-52.245-80, Use of Government Production and Research Property on a No-Charge Basis, in solicitations and contracts when Government production and research property (facilities, special test equipment, or special tooling) accountable under another contract(s) is authorized for use. Insert the contract number(s) under which the Government property is accountable.

## 18-45.106-71 Plant reconversion and plant clearance.

The contracting officer must obtain the prior approval of the Associate Administrator for Procurement (Code H) for any solicitation provision or contract clause that would defer negotiation of costs for plant reconversion or plant clearance until after award.

#### SUBPART 18-45.3 PROVIDING GOVERNMENT PROPERTY TO CONTRACTORS

#### 18-45.301 Definitions.

"Provide," as used in this subpart in such phrases as "Government property provided to the contractor" and "Governmentprovided property," means either to furnish, as in "Government-furnished property," or to permit to be acquired, as in "contractoracquired property." See FAR 45.101 for definitions of "contractor-acquired property" and "Government-furnished property."

"Space property," (see 18-45.501).

18-45.302 Providing facilities.

18-45.302-1 Policy.

(a) The procurement officer is designated to make determinations required under FAR 45.302-1(a)(4) on authorizing the use of Government facilities.

(b) When any of the conditions listed in FAR 45.302-1(d) is met, the requirements of FAR 45.302-1(a)(4) do not apply.

#### 18-45.302-2 Facilities contracts.

Unless termination would be detrimental to the Government's interests, contracting officers shall terminate facilities contracts when the Government production and research property is no longer required for the performance of Government contracts or subcontracts. Contracting officers shall not grant the contractor the unilateral right to extend the time during which it is entitled to use the property provided under the facilities contract.

#### 18-45.302-3 Other contracts.

In addition to the conditions listed in FAR 45.302-3, the contracting officer may also provide facilities to a contractor under a contract other than a facilities contract if the contract is for less than 6 months or provides fewer than 6 items of plant equipment and no other facilities.

## 18-45.302-70 Securing approval of facilities projects.

(a) Pursuant to NMI 7330.1, Delegation of Authority - Approval Authorities for Facility Projects, the contracting officer must approve facilities projects involving leasing, construction, expansion, modification, rehabilitation, repair, or replacement of real property.

(b) The contracting officer's written authorization is required before any change is made in the scope or estimated cost of any facilities project.

#### 18-45.302-71 Acquisition of ADPE.

Any contractor proposed acquisition of automatic data processing equipment as defined in the FIRMR shall be--

(a) Submitted on DD Form 1419, or equivalent format, through the contracting officer to the installation's ADPE staff, for screening availability; and

(b) Approved in accordance with the provisions of NASA Handbook 2410.1, Information Processing Resources Management.

#### GOVERNMENT PROPERTY

#### 18-45.302-72 Long-term facilities use.

For procurements in which (a) the proposed contract, exclusive of options, will be for a shorter period than the useful life, for the program, of any required contractor-owned or leased facilities, and (b) the facilities are unlikely to be needed by the contractor for any purpose other than the program effort being contracted for, see 18-7.170-1(b)(10)(i).

#### 18-45.302-73 Determination and findings.

(a) **Procedure**. Determination and findings (D&F) required under FAR 45.302-1(a)(4)shall be prepared by the contracting officer and approved by the procurement officer. Prior to approval of the D&F by the procurement officer, concurrence must be obtained from the Director of Administration or equivalent, to ensure that the requiring activity and the installation supply and equipment management officer agree to the use of the Government facilities by the contractor. D&Fs address shall individual types of facilities to be provided to the contractor. Reference to specific variations in quantities of items to be provided should be included in the D&F if additional requirements are anticipated. A separate D&F is required before adding new types of items or significant changes in quantity. Α separate D&F is also required before adding any new work to the contract that requires additional Government facilities.

(b) Format. A sample format follows:

#### (Format)

#### National Aeronautics and Space Administration Washington, DC 20546

Determination and Findings

#### Decision to Provide Government Facilities

On the basis of the following findings and determinations, Government-owned facilities may be provided to <u>[insert the name of</u> <u>the contractor]</u> pursuant to the authority of FAR 45.302-1(a)(4).

#### Findings

I. The [insert the name of the contracting activity] and the contractor (have entered)/ (proposed to enter) into Contract No. <u>finsert</u> the contract <u>number]</u>. (Include the following information: Type of contract. contract value. and а brief description of the scope of work performed under the contract.)

2. (Justify that Government facilities needed are for performance under the contract. The justification shall demonstrate either (i) that the contract cannot be fulfilled by any other means, or (ii) that it is in the public interest to provide the facilities. imperative It is that the justification be fully substantiated by evidence.)

3. (If the contract effort cannot be fulfilled by any other means, indicate why the contractor cannot provide the facilities. For example, due to financial constraints, the contractor has certified inability to acquire the facilities; or, even though the contractor is willing and financially able to acquire these facilities for its own account, the contractor has stated that time will not permit making arrangements to obtain timely delivery to meet NASA requirements. Iſ timely delivery is the problem, state when

#### **PROVIDING GOVERNMENT PROPERTY TO CONTRACTORS**

the contractor will replace the Government facilities with facilities. contractor-owned Address leadtime, validate the contractor's claims, and state that private financing was sought and either not available or not advantageous to the Government. If private financing was not advantageous to the Government, provide justification. Indicate other alternatives considered and reasons for rejection.)

4. (Give a general description of the types of facilities to be provided and indicate the variation in quantities of items based on functional requirements. Explain how these facilities pertain to the scope of work to be completed. State that the contract cannot be accomplished without the specified facility items being provided. Include an estimate of the value of the facilities and a statement that no facilities items under \$10,000 unit cost will be provided unless the contractor is a nonprofit, onsite, or the facilities are only available from the Government.)

5. (Indicate whether the property will be accountable under this contract or a separate facilities contract.)

#### Determination

For the reasons set forth above, it is hereby determined that the Government-owned facilities identified herein will be provided to the contractor.

#### SUBPART 18-45.4 CONTRACTOR USE AND RENTAL OF GOVERNMENT PROPERTY

### 18-45.402 Authorizing use of Government production and research property.

(a) A NASA contracting officer desiring to authorize use of Government production and research property under the cognizance of another contracting officer shall obtain that contracting officer's concurrence. If concurrence is denied, the contracting officer shall raise the matter to a level above that of the cognizant contracting officer.

(b) NASA contracting officers having cognizance over NASA production and research property may authorize its use on contracts of other agencies if such use will not interfere with NASA's primary purpose for the property and will not extend beyond the expected expiration or completion date of the NASA contract.

#### 18-45.403 Rental--Use and Charges clause.

The Directors of NASA field installations have been designated (see NMI 5101.24, Delegation of Authority--To Take Actions in Procurement, Grants, Cooperative Agreements, and Related Matters [Various Officials]) to make the determinations required by FAR 45.403(a) on modified rental rates.

#### 18-45.405 Contracts with foreign governments or international organizations.

(a) It is NASA's policy to recover a fair share of the cost of Government production and research property if such property is used in performing services or manufacturing articles for foreign countries or for international organizations. (b) The prior written approval of the Associate Administrator for Procurement | (Code H) is required for the use of Government production and research property on work for foreign countries or for international organizations. Before requesting approval, the contracting officer shall obtain the concurrence of the Director, Supply and Equipment Management Office (Code JLE), the General Counsel (Code G), and the Director, International Relations Division (Code IRD).

(c) Contracting officers shall forward requests for approval to the Associate Administrator for Procurement (Code HK), along with a summary of the circumstances involved, including at least--

(1) The name of the requesting contractor;

(2) The number of the contract under which the equipment is controlled;

(3) A description of the equipment;

(4) The name of the foreign contractor and the relationship of the foreign contractor to its government or to any international organization;

(5) A description of the articles to be manufactured or services to be performed;

(6) A statement that the intended use will not interfere with the current or foreseeable requirements of the United States or require use of the equipment beyond the expected expiration or completion date of the NASA contract;

(7) A statement that the foreign government's placement of the contract directly with the contractor and the use of Government production and research property is consistent with the best interests of the United States;

(8) A statement that such use is legally authorized; and

(9) Any evidence of endorsement by another agency of the U.S. Government based on national security or foreign policy of the United States. (d) Use, if approved, shall be subject to rent in accordance with FAR 45.403.

#### 18-45.406 Use of Government production and research property on independent research and development programs.

Contractors generally will not be authorized to use Government property for independent research and development on a rent-free basis except in unusual circumstances when it has been determined by the contracting officer that--

(a) Such use is clearly in the best interests of the Government (for example, the project can reasonably be expected to be of value in specific Government programs); and

(b) The policy in FAR 45.201 is adhered to in that no competitive advantage will accrue to the contractor through such use.

## 18-45.407 Non-Government use of plant equipment.

Consistent with the guidelines in FAR 45.407, the following procedures apply to the non-Government use of plant equipment:

(a) Before authorizing non-Government use exceeding 25 percent, the contracting officer shall obtain the approval of the Associate Administrator for Procurement (Code HK). In addition, non-Government use of machine tools and secondary metalforming and -cutting machines (Federal Supply Classes 3405, 3408, 3410, 3411-3419, and 3441-3449) exceeding 25 percent requires the concurrence of the Director, Supply and Equipment Management Office (Code JLE). Requests for the approval of the Associate Administrator for Procurement (Code HK) shall be submitted at least 6 weeks in advance of the projected use and shall include--

(1) The number of active plant equipment items involved and their total acquisition cost; and

(2) An itemized listing of active equipment having an acquisition cost of \$25,000 or more, showing for each item the nomenclature, year of manufacture, and acquisition cost.

(b) The percentage of Government and non-Government use shall be computed on the basis of time available for use. For this purpose, the contractor's normal work schedule, as represented by scheduled production shift hours, shall be used. All active plant equipment having a unit acquisition cost of less than \$25,000 located at any single plant may be averaged over a quarterly period. Equipment having a unit acquisition cost of \$25,000 or more shall be considered on an item-by-item basis.

(c) Approval for non-Government use shall be for a period not exceeding 1 year. Approval for non-Government use in excess of 25 percent shall not be for less than 3 months.

# SUBPART 18-45.5 pr

#### MANAGEMENT OF GOVERNMENT PROPERTY IN THE POSSESSION OF CONTRACTORS

#### 18-45.501 Definitions.

"Space property" means personal property peculiar to NASA aeronautical and space programs and not otherwise included in the categories of property in FAR 45.501. It includes such items as aircraft, space vehicles, engines, similar components, and related support equipment. The term "space property" is synonymous with the term "agency-peculiar property" as defined in FAR 45.301.

"Centrally reportable equipment (CRE)" means plant equipment, special test equipment (including components), special tooling, and non-flight space property (including ground support equipment) (a) generally commercially available and used as a separate item or component of a system, (b) having an acquisition cost of \$1,000 or more, and (c) identifiable by a manufacturer and model number.

18-45.502 Contractor responsibility.

# 18-45.502-1 Receipts for Government property.

Receipts for Government property shall comply with the instructions for preparing NASA Form 1018, Report of Government-Owned/Contractor-Held Property (see 18-45.7101).

# 18-45.502-70 Government-furnished property.

All initial Government-furnished property must be described in the contract Schedule or specifications, regardless of

additional category. Any property Government-furnished property must be described in a bilateral modification to with the property contract, the categorized and priced. Furthermore, to obtain Government-furnished facilities, the contractor must submit the written statement prescribed by FAR 45.302-In the event а formal 1(a)(4). facilities application is also required officer. its contracting the bv justification statement on financing will satisfy this requirement.

# 18-45.502-71 Contractor-acquired property.

All contractor-acquired property must be authorized by the contract and is subject to a determination by the contracting officer that it is allocable to the contract and reasonably necessary. The acquisition (and fabrication) of Government property is further subject to the following conditions, depending on category of property:

(a) Facilities.

(1) Prior contracting officer approval, if the facilities are not already described in a contract Schedule as contractor-acquired.

(2) Submission of DD Form 1419. DOD Industrial Plant Requisition, or equivalent format, and return of Nonavailability if the Certificate of centrally facilities qualify as reportable equipment (CRE).

(3) Submission of the written statement prescribed by FAR 45.302-1(a)(4).

#### (b) Special test equipment.

(1) Contracting officer approval 30 days in advance if the equipment is not identified in the invitation for bids (in sealed bidding) or contract (in negotiated procurements).

#### GOVERNMENT PROPERTY

(2) Submission of DD Form 1419, or equivalent format, and return of Certificate of Nonavailability if the equipment (or any component) qualifies as CRE.

(c) Special tooling.

(1) If the contract contains a Subcontracts clause, advance notification to the contracting officer and contracting officer consent if required by that clause.

(2) If the contract is a fixedprice contract, submission of the list to the contracting officer within 60 days after delivery of the first production end items (or later as prescribed by the contracting officer), unless the tooling is already identified in the solicitation.

(3) Submission of DD Form 1419 or equivalent format and return of Certificate of Nonavailability if the tooling (or any component) qualifies as CRE.

(d) Material. If the contract contains a Subcontracts clause, advance notification to the contracting officer and contracting officer consent if required by that clause.

(e) Space Property.

(1) If the contract contains a Subcontracts clause, advance notification to the contracting officer and contracting officer consent if required by that clause.

(2) Submission of DD Form 1419, or equivalent format, and return of Certificate of Nonavailability if the property (or any component) qualifies as CRE.

18-45.505 Records and reports of Government property.

### 18-45.505-2 Records of pricing information.

If DD Form 250's are used by a NASA installation as invoices or DD 250's or other shipping/delivery documents are used for property receiving purposes, unit prices must be shown for each item of Government property included on the forms.

### 18-45.505-14 Reports of Government property.

(a) **Property accounts.** The contractor's property control system shall be such as provide dollar to the amount of Government property for which the contractor is accountable in the following classifications, in accordance with the instructions in Subpart 18-45.71:

- (1) Land and rights in land.
- (2) Buildings.

(3) Other structures and facilities.

- (4) Leasehold improvements.
- (5) Plant equipment.
- (6) Special tooling.
- (7) Special test equipment.
- (8) Material.
- (9) Space hardware.

(b) Facilities, special tooling, and special test equipment. The contractor's property control system shall identify the items in (a)(1) through (7) above as contractor-acquired or Governmentfurnished.

(c) Material and space hardware. The contractor's property control system shall provide the dollar value of items in (a)(8) and (9) above for which the contractor is accountable. Reporting of material, however, is required only when the balance on hand at the end of the reporting period is \$75,000 or more. Reporting of space hardware is required

# MANAGEMENT OF GOVERNMENT PROPERTY IN THE POSSESSION OF CONTRACTORS

only by direction of the contracting officer.

(d) Submission of reports. When required by the contract (see 18-45.106-70(d)), the contractor shall submit a Report of Government-Owned/Contractor-Held Property, NASA Form 1018, in accordance with the instructions in Subpart 18-45.7101 and the contract clause at 18-52.245-73.

# 18-45.505-670 Reporting centrally reportable equipment (CRE).

NASA-furnished contractorοr (a) acquired CRE as defined in 18-45.501 shall be reported to the NASA Equipment Management System (NEMS). The contractor report all unreported shall initially items in its possession and subsequently shall report items to NEMS (1) at the and acceptance of time of receipt accountability, (2) when major changes occur in the data initially submitted to NASA, and (3) when the equipment is no longer required for or actively being used in pursuit of NASA programs or projects. Reporting shall be accomplished by completing Section I of DD Form 1342, DOD Property Record (see 18-45.7102), or means acceptable to the other bv contracting officer, provided DD Form elements 1342-equivalent data are

furnished. The data furnished when the equipment is reported pursuant to (3) the equipment's include above shall current condition code. Reportable data forwarded through the be shall contracting officer of the cognizant NASA installation within 15 working days after the event that created the need for their preparation and shall be marked "FOR NEMS".

(b) The forms prepared for components shall be clearly marked "COMPONENT".

(c) Each year, the industrial property officer shall provide the contractor a list of NEMS data bank records as of June 30th for that contractor. The contractor shall verify the list or provide the necessary corrections.

#### 18-45.508 Physical inventories.

shall reconcile NASA contractors inventories described in FAR 45.508 with the official property records and submit reports to the property administrator after inventory within 30 davs completion. The contractor shall investigate all losses of property and unrecorded property to discoveries of of the causes determine the (a) discrepancy and (b) actions needed to prevent its recurrence.

~\_\_\_\_

#### SUBPART 18-45.6 REPORTING, REDISTRIBUTION, AND DISPOSAL OF CONTRACTOR INVENTORY

# 18-45.604 Restrictions on purchase or retention of contractor inventory.

(a) No contractor may sell contractor inventory to persons known by it to be NASA or DOD personnel who have been engaged in administering or terminating NASA contracts.

(b) (1) The contractor's or subcontractor's authority to approve sale, purchase, or retention at less than cost by a subcontractor, and the subcontractor's authority to sell, purchase, or retain at less than cost contractor inventory with the approval of the contractor or next highertier subcontractor does not include authority to approve--

(i) A sale by a subcontractor to contractor or the next higher-tier subcontractor or to an affiliate of the contractor or of either subcontractor; or

(ii) A sale, purchase, or retention at less than cost by a subcontractor affiliated with the contractor or next higher-tier subcontractor.

(2) Each excluded sale, purchase, or retention requires the written approval of the plant clearance officer.

### 18-45.606 Inventory schedules.

18-45.606-1 Submission.

See 18-45.505-6 for special instructions on intra-agency screening of centrally reportable equipment (CRE).

18-45.607 Scrap.

18-45.607-70 Contractor's approved scrap procedure.

(a) When a contractor has an approved scrap procedure, certain property may be

routinely disposed of in accordance with that procedure and not processed under this subpart.

(b) A plant clearance case shall not be established for property disposed of through the contractor's approved scrap procedure.

(c) The plant clearance officer shall review the contractor's scrap and salvage procedure, particularly regarding sales, before its approval by the property administrator. The plant clearance officer shall ensure that the procedure contains adequate requirements for inspecting and examining items to be disposed as scrap. When the contractor's procedure does not require physical segregation of Government-owned scrap from contractorowned scrap and separate disposal, care shall be exercised to assure that a contract change that generates a large quantity of property does not result in an inequitable return to the Government. In such a case, the property administrator shall make a determination as to whether separate disposition of Government scrap would be appropriate.

(d) Scrap, other than that disposed of through the contractor's approved scrap procedure, shall be reported on appropriate inventory schedules for disposition in accordance with the provisions of FAR Part 45 and this NASA FAR Supplement.

(e) Silver, gold, platinum, palladium, rhodium, iridium, osmium, and ruthenium; scrap bearing such metals; and items containing recoverable quantities of them shall be reported to the Defense Reutilization and Marketing Service, DRMS-R, Federal Center, Battle Creek, MI 49017-3092, for instructions regarding disposition.

18-45.608 Screening of contractor inventory.

# 18-45.608-1 General.

NEMS Coordinators are the focal points at NASA installations for intra-agency screening of centrally reportable equipment (see 18-45.505-670). Property Disposal Officers (PDO's) are the focal points at NASA installations for intra-agency screening of all other contractor inventory. NEMS Coordinators/PDO's shall acknowledge receipt of inventory schedules within 30 days and simultaneously provide the plant clearance officer a NASA screening completion/release date. Screening shall be accomplished in accordance with NASA Handbooks 4200.1 and 4300.1.

# 18-45.608-6 Waiver of screening requirements.

The Director, Supply and Equipment Management Office (Code JLE), has been designated to authorize exceptions to screening requirements.

18-45.610 Sale of surplus contractor inventory.

# 18-45.610-2 Exemptions from sale by GSA.

Letters seeking exemptions from GSAconducted sales shall be directed to the Director, Supply and Equipment Management Office (Code JLE).

# 18-45.610-3 Proceeds of sale.

When payments are due the contractor under the contract, and unless the contract provides otherwise, the Government Property clause requires that the proceeds of any sale, purchase, or retention be (a) credited to the Government as part of the settlement agreement, (b) otherwise credited to the price or cost of the work covered by the contract, or (c) applied in the manner directed by the contracting officer. The plant clearance officer shall maintain an open suspense record until he or she has verified that credit has been applied, unless another Government representative has specifically assumed this responsibility.

# 18-45.610-4 Contractor inventory in foreign countries.

Foreign disposals shall be accomplished in accordance with NASA Handbook 4300.1.

### 18-45.613 Property disposal determinations.

Determinations to abandon or destroy NASA contractor inventory shall be referred to the installation PDO for subsequent review by the Property Disposal Review Board under NASA Handbook 4300.1.

# 18-45.615 Accounting for contractor inventory.

In addition to the distribution requirements for Standard Form 1424, Inventory Disposal Report, a copy of the form shall be provided to the NASA installation Industrial Property Officer or PDO.

#### SUBPART 18-45.70 NASA EQUIPMENT MANAGEMENT SYSTEM

#### 18-45.7001 Policy.

In accordance with the policies in FAR Part 8, new equipment shall not be designed, developed, or procured unless it is determined that the requirement cannot be satisfied with items already before Accordingly. available. acquisition by an installation or the issuance of authorization to a an centrally to acquire new contractor reportable equipment (see 18-45.501), the NASA Equipment Management System screened and a shall be (NEMS) certificate of non-availability issued by NEMS cognizant installation the Reutilization Coordinator, attesting to of existing non-availability the Government-owned equipment to satisfy the requirement.

### 18-45.7002 Application.

The NEMS requirements apply to all NASA acquisitions under which equipment reportable to NEMS is acquired either by NASA or by a NASA contractor for use in the performance of NASA work.

# 18-45.7003 General.

NEMS is an agencywide accountability and control system that includes basic information for reutilization of equipment valued at \$500 or more held by NASA installations or \$1,000 or more held by NASA contractors. General-purpose or standard items of commercial manufacture are registered in NEMS.

# 18-45.7004 Interface with NEMS coordinators and technical project office.

NASA contracting officers with contracts subject to NEMS shall maintain close interface with the installation NEMS and the Coordinator Reutilization project office in (a) the technical conduct of contractor reporting to the NEMS, (b) the screening of NEMS records before authorizing contractors to acquire reporting and the equipment. (c) equipment no longer of processing required for NASA programs or projects, and (d) all other matters pertaining to compliance with the property provisions of NASA contracts.

#### 18-45.7005 Retention of NEMS equipment.

The contracting officer may authorize retention of NEMS equipment, provided the contractor requests approval in writing concurrently with reporting to NEMS under 18-45.505-670 and provisions of the provided the equipment is being (a) held for approved future NASA programs and specific projects identified to a used on other requirement or (b) Government work as approved by the contracting officer. Approval for the use of equipment on other Government work shall not exceed 6 months beyond its use on NASA work unless loan of the equipment under an interagency agreement has been arranged or action has been initiated for transfer of the equipment to the using agency and appropriate time is allowed for completing the transfer.

-

### SUBPART 18-45.71 FORMS PREPARATION

# 18-45.7101 Instructions for preparing NASA Form 1018.

This section provides guidance in the preparation of NASA Form 1018 (see Subpart 18-53.3), which is required of all contractors that have been furnished, or haveacquired, Government-owned property under the terms of their contract. The classifications of property, the related costs to be reported, and the reporting requirements are set forth below:

# 18-45.7101-1 Property classification accounts.

The following property classifications and related costs apply only to financial reporting under NASA Form 1018:

(a) Land. This classification includes costs of land, capital improvements to land (except buildings and other structures and facilities), and costs incidental to acquiring and preparing land for use, such as appraisal fees, clearing costs, drainage, grading, landscaping, plats and surveys, removal and relocation of the property of others as part of a purchase contract, removal or destruction of structures or facilities purchased but not used, and legal fees and expenses.

(b) **Buildings.** This classification includes costs of buildings, improvements to buildings, and fixed equipment normally required for the functional use of the building that becomes permanently attached to and made a part of it and cannot be removed without cutting into the walls, ceilings, or floors. Fixed equipment includes plumbing, heating and lighting equipment, elevators, central airconditioning systems, and built-in safes and vaults. It also includes the cost of all equipment of any type built into, affixed to, or installed in real property if the installation cost, including special foundations or unique utilities or services, or the facility restoration cost after removal, is substantial.

(c) Other structures and facilities. This classification includes costs of acquisitions and improvements of other structures and facilities such as airfield pavements; harbor and port facilities; power production facilities and distribution systems; reclamation and irrigation facilities; flood control and navigation aids; storage, industrial, service, and research and development facilities other than buildings; utility systems (heating, sewage, water, and when they serve several electrical) buildings or structures; communication systems; traffic aids; roads and bridges; railroads; monuments and memorials; and nonstructural improvements such as sidewalks, parking areas, and fences. It also includes the cost of all equipment of any type built-in, affixed, or installed where the installation cost, including special foundations or unique utilities or services, or the facility restoration cost after removal, is substantial.

(d) Leasehold improvements. This classification includes NASA funded costs of long-term capital improvements (more than 3 years) to leases, rights, interests, and privileges relating to land such as easements, rights-of-way, permits, use agreements, and water, air, and mineral rights. It also includes NASA funded costs of improvements (costing \$5,000 or more and determined to be a capital asset) made to land, buildings, and other structures and facilities occupied by a NASA contractor, but leased either indirectly through contract or directly by NASA rather than owned by NASA. However, the cost of NASA-owned buildings and other structures and facilities (and improvements to them that meet the criteria for capitalization) occupied by a NASA contractor and located on land not owned by NASA shall be

included in the appropriate account(s) described in paragraphs (a), (b), and (c) of this section. A single improvement shall not be accomplished in increments of less than \$5,000 in order to avoid adjustment to the fixed asset accounts.

(e) **Plant equipment.** This classification includes costs of personal property of a capital nature for use in manufacturing supplies or performing services, or for any administrative or general plan purpose, that--

(1) Has a unit cost of \$5,000 or more;
(2) Has a useful life of 2 years or more; and

(3) Will not be consumed in an experiment.

It includes equipment, machine tools, furniture, vehicles, accessory or auxiliary items, and test equipment (but not special test equipment, special tooling, or space hardware as defined in paragraphs (f), (g), and (i)).

(f) Special tooling. This classification includes the cost of jigs, dies, fixtures, molds, patterns, taps, gauges, other equipment and manufacturing aids, all components of these items, and replacement of these items, that are of such a specialized nature that, without substantial modification or alteration, their use is limited to the development or production of particular supplies or parts thereof or to the performance of particular services. It does not include the cost of material, special test equipment, facilities (except foundations and similar improvements necessary for installing special tooling), general or special machine tools, or similar capital items.

(g) Special test equipment. This classification includes costs of either single or multipurpose integrated test units engineered, designed, fabricated, or modified to accomplish special purpose testing in performing a contract; items or assemblies of equipment, including standard or general purpose items or components, that are interconnected and interdependent so as to become a new functional entity for special testing purposes. It does not include costs of material, special tooling, facilities (except foundations and similar improvements necessary for installing special test equipment), and plant equipment items used for general plant testing purposes.

(h) Material. This classification includes costs of property that may be (1)incorporated into or attached to an end item to be delivered under a contract or (2) consumed or expended in performing a contract. It includes, but is not limited to, raw and processed material, parts, components, assemblies, and small tools and supplies that may be consumed in normal use in performing a contract. This classification does not include material that is part of space hardware work in process reported on NASA Form 1018, Schedule II. when required by the terms of the agreement, or material that has been issued from inventory and charged to a contract item. It is intended to include all Government-owned material that normally would be considered as materials inventory for balance-sheet purposes.

(i) Space hardware. This classification applies only to those items of space property and components specifically identified in the Annual List of Selected Items of Space Hardware (see 18-45.7101-6). It includes the cost of personal property unique to NASA

reporting purposes:

aeronautical and space programs and not otherwise included in the classifications of property set forth in paragraphs (a) through (h) above. Space hardware is divided as follows for financial

hardware. (1) Completed space systems, and subsystems (includes the cost, actual or estimated, of such items space vehicles. aircraft, engines, 28 and rockets. spacecraft, satellites. provided for components including prototypes, mock-ups, or fit checks, or for such other reasons as may be specified in the contract).

(2) Spare parts and components (includes the cost, actual or estimated, of deliverable spare parts and components employed as spare parts to be used for the purpose of emergency replacement, modification after the repair. or fabrication of space hardware). These types of property are commonly referred to as "logistics spares" or "test support spares" and do not include components utilized by the contractor that are not and that are deliverable as spares included as work in process.

(3) Space hardware work in process estimated (includes the actual or fabrication costs as of the date of the report of undelivered space hardware and systems, associated subsystems, spare provided or and components parts. acquired and charged to work in process pending incorporation into an end item). Such items are included in what is sometimes called production inventory and include programmed extra units to cover the fabrication replacement during Also (production spares). process to progress payments included are for subcontractors firm-fixed-price undelivered items.

### 18-45.7101-2 Transfers of property.

So that NASA may properly control and account for contractor-held Government

property (both Government-furnished and contractor-acquired), all transfers to another contract, contractor, NASA installation, or other Government agency shall be adequately documented. Such transfers shall be accomplished only through the NASA installation responsible for the contract from which the property is being transferred.

#### (a) Transfers by contractors.

(1) Approval and notification. The contractor must obtain the contracting designee's approval for officer's or transfers of property before shipment. Shipping documents shall specify the appropriate property classification, such equipment, special test plant as tooling, or space equipment. special shall contractors Shipping hardware. cognizant property the notify administrator of transfers of property by furnishing a copy of the shipping Shipping and receiving document. contractors shall promptly notify their respective NASA financial management for accountability offices when Government property reportable on NASA Form 1018 is transferred to, or received from, other contracts, contractors, NASA Government agencies. installations, or Copies of shipping/receiving documents will suffice in most instances.

(2) Documentation. The shipping contractor shall prepare an acceptable form of documentation such as DD Form 250, Material Inspection and Receiving Report; DD Form 1149, Requisition and Invoice/Shipping Document; or similar forms to cover movement of Government property to other Government agencies. Established procedures for the use of such forms shall be strictly followed. Each shipping document must contain shipping references. numbers. contract property classifications in which the items are recorded, unit prices, and any identifying or appropriate other descriptive data. Unit prices shall be obtained from records maintained pursuant

to the provisions of FAR Part 45 and Part 18-45 of this regulation.

(3) **Reporting.** In addition to the required shipping documentation, all transfers of reportable property occurring during the reporting period shall be reflected in column (b). Government-Furnished Additions, of NASA Form 1018 by the receiving contractor and in column (e), Disposals, of NASA Form 1018 by the shipping contractor.

(4) Reclassification. Reclassifications between property accounts shall be accomplished by the contractor holding the property at the time reclassification place. takes If property is transferred to another contract or contractor, the receiving contractor shall record it in the same classification property and amount appearing on the shipping document. (For example, when a contractor receives an item, by transfer from another contractor or NASA installation, that is identified on the shipping document as plant equipment but that the recipient intends to incorporate into special test equipment, the recipient shall first enter the item in the plant equipment account and subsequently reclassify it as special test equipment.) The reclassification of plant equipment, special tooling, special test equipment, OΓ space hardware requires prior notification to the property administrator and approval of the contracting officer.

(5) Incomplete documentation. If transfer documents contractors receive having insufficient detail to properly record the transfer (e.g., omission of classification. property unit prices. etc.). they shall request the omitted data directly from the shipping contractor or through the property administrator as provided in FAR 45.505-2. Contractors may append a Governmentfurnished property list to the NASA Form 1018 report when unable to obtain the required data, provided that the list includes --

(i) property;

(ii) Quantity;

Α

(iii) The shipping document reference;

(iv) The shipper's identity;

description

of

the

(v) The dates shipped or received;

(vi) The dates price data were requested and from whom (shipper or property administrator); and

(vii) The NASA Form 1018 line item (type/account) to be adjusted.

#### (b) Other transfers.

(1) Intracontractor transfers. Anv transfer of Government property between contracts of a single contractor, whether administered by the same NASA installation or by different NASA installations, requires the same approval, notification, and documentation set forth in paragraph (a) above.

(2) Transfer to Government agencies other than NASA. Transfers of Government property to other Government agencies can be accomplished only through the NASA contracting officer and require the same approval, notification, and documentation set forth in paragraph (a) above.

(3) **Recovered space hardware.** Space hardware recovered after flight and transferred to a contractor for analysis, repair, refurbishment, or other purposes shall not be reported on subsequent NASA Forms 1018 as space hardware unless accountability has been transferred and the contractor is specifically directed to report the item.

# 18-45.7101-3 Submission of reports.

(a) When the contract includes the Financial Reporting of Government-Owned/Contractor-Held Property clause, the contractor shall prepare a Report of

#### FORMS PREPARATION

45-71:5

Government-Owned/Contractor-Held Property, NASA Form 1018, in accordance with these instructions and those on the NASA Form 1018.

(b) The contractor shall submit four copies of NASA Form 1018 for the period ending June 30 in accordance with the clause not later than July 31 of each required ycar. when reporting is annually. When more frequent reporting is required, the due date shall be not later than the last day of the month following the period being reported. The reporting requirement shall not be less frequent than annually; in all cases a report shall be required as of June 30.

(c) Negative reports shall be submitted when appropriate.

(d) The contractor shall submit a final report within 30 days after disposition of all property subject to reporting.

#### 18-45.7101-4 Report coverage.

(a) The NASA Form 1018 shall include the cost of all Government-owned property, except as noted in 18-45.7101-5, in the possession of the contractor and firsttier subcontractors under each prime contract, using the prime contractor's records to the extent practicable when the subcontractor reporting is delayed.

(b) Government-owned material held in storage by the contractor and subcontractor shall be reported only when the balance on hand at the end of the reporting period is \$75,000 or more for each government prime contract, including the amounts under subcontracts.

(c) Space hardware shall be reported only if reporting is specifically requested in writing by the contracting officer, and reporting shall be limited to those items identified on the Annual List of Selected Items of Space Hardware (see Section 6).

#### 18-45.7101-5 Exclusions.

The following items shall not be reported on NASA Form 1018:

(a) Plant equipment having a unit cost of less than \$5,000.

(b) Industrial facilities under construction or material held for use in construction of industrial facilities.

(c) Scrap or salvage.

(d) Items ordinarily reportable but furnished to the contractor for repair and return to NASA (except as required in 18-45.7101-2(b)(3)).

(e) Work in process except as required in Schedule II, Space Hardware Reportable Items, of NASA Form 1018.

(f) Materials issued for consumption.

(g) Materials held in storage, if the cost at the close of the reporting period is less than \$75,000.

(h) NASA shipping containers.

(i) Space hardware under firm-fixedprice contracts and subcontracts, unless progress payments are specified (see 18-45.7101-1(i)(3)).

(j) Space property, except those items specifically identified as space hardware and required to be reported in accordance with 18-45.7101-6 below.

(k) Installation property made available pursuant to the clause at 18-52.245-71.

# 18-45.7101-6 Space hardware reporting requirements.

(a) The contracting officer may require reporting on space hardware for cost reimbursement and incentive contracts and first-tier subcontracts if the estimated cost and fee of the contract exceeds \$500,000 and any one or a combination of the individual reporting categories (i.e., completed space hardware. components and spare parts, and work in process) exceeds \$75,000.

(b) The contracting officer shall specify the items of space hardware for reporting before June 1 of each year on the basis of the Annual List of Selected Items of Space Hardware, issued by the Director of Financial Management, NASA Headquarters (Code BF).

(c) Reporting shall become effective with the next report period beginning July 1, or as otherwise stipulated in the contract, and shall continue until all specified items of space hardware are delivered, the contract is terminated, or the item is removed from the List.

(d) The reports shall contain --

(1) The reportable items on hand, consisting of the cost and quantity of completed space hardware and the cost of related independent completed systems and subsystems;

(2) The total amount for completed spare parts and components relating to item (1) above; and

(3) The total amount for work in process of fabrication relating to the preceding items.

(e) Costs reported on Schedule II shall not be considered in reimbursing the contractor for work performed or for termination proceedings. Costs shall be computed in accordance with accepted accounting principles, be reasonably accurate, and be the product of any one, or a combination, of the following:

(1) Abstracts of cost data from the contractor's property or financial records.

(2) Computations based on engineering and financial data.

(3) Estimates based on NASA Form 533 reports.

(4) Formula procedures (e.g., using a 50-percent factor for work-in-process items, on the basis of updated Standard Form (SF) 1411 estimates or the contractor's approved estimating and pricing system).

(5) Other approved methods.

(f) If the same item is being fabricated for more than one project, contractors shall report by contract item the completed space hardware, related independent systems and subsystems, spare parts, and work in process.

(g) When a contract provides for two or different and completed тоге space property items, some of which are not included in the List, contractors shall report the actual cost of those items, if possible, or use a reasonable basis permitted by the contractor's records or basis а provided in paragraph (c) above.

(h) Contractors shall report the cost of items of space hardware, systems, and subsystems using their records that are part of the prescribed property or financial control system as provided in 18-45.7101-3; however, fee, tooling, and other nonrecurring costs shall be excluded. Fabrication costs shall be based on the contractor's approved estimating and pricing or property control system and should include --

(1) Direct labor;

(2) Direct materials and purchased parts (costs of purchased items shall be

#### FORMS PREPARATION

consistent with the contractor's approved pricing methods);

(3) Other direct costs (e.g., computer costs, travel, and transportation);

(4) Overhead (a percentage factor or rate applied to the direct costs or other applicable base); and

(5) Costs of Government-furnished property applied (data available from the shipping document--e.g., DD Form 250, 1149, or similar form--or estimated if necessary).

#### 18-45.7101-7 Completed space hardware.

(a) Completed space hardware includes configurations of spacecraft, satellites, rockets, etc. (including integrated systems and subsystems) and completed, but not yet integrated, systems and subsystems held by the prime contractor and first-tier subcontractors.

(b) Items of space hardware covered in paragraph (a) above that are completed and deliverable shall not be broken down into systems and subsystems for the purpose of reporting.

The contractor shall redetermine the (c) cost of items returned for modification rehabilitation to include the or appropriate amount of original costs plus any improvements. Costs to modify single shelf items to perform specific tests shall not be included. Contractors shall discontinue reporting space hardware that has been launched, delivered to another contractor or to the Government, or authorized by the disposed of as contracting officer.

# 1845.7101-8 Completed spare parts and components for space hardware.

(a) In reporting completed spare parts and component items for space hardware, contractors shall include as a single amount for each contract item (as provided in 18-45.7101-6(d)) the aggregate cost of those spares and components (see 18-45.7101-1(i)(2)) related to the selected list of completed items.

(b) Standard items available from commercial or other sources and held on an inventory basis until requisitioned for use are excluded here but shall be included in "Material" on NASA Form 1018. Contractors shall not include spares or components reported in Schedule II, Space Hardware Reportable Items, of NASA Form 1018 in "Material" on page 1, NASA Form 1018.

# 18-45.7101-9 Space hardware work in process.

hardware work in process (a) Space consists of the total costs by contract item as provided in 18-45.7101-6(d). The contractor shall compute the costs--as of of those of the report the date space hardware units unfinished pertaining to the selected list of items be reported--as completed to 18-45.7101-6(c). This provided in computation shall include the costs of associated systems, subsystems, and spare components furnished or parts and acquired and charged to work in process pending incorporation into a finished item. These types of items comprise what is sometimes called production inventory and include programmed extra units to cover replacement during the fabrication (production spares). Also process included are end items on which the prime contractor or a subcontractor has begun work.

(b) Unless accountability has been transferred to the contractor, the contractor normally shall not include space hardware spare parts and components returned for repair or modification in the in-process inventory (or spare parts and components inventory). Units or lots

that are incomplete for any reason, such as obsolescence or faulty fabrication, or by direction of the contracting officer, shall not be reported in NASA Form 1018, Schedule II.

(c) Historical costs on NASA Form 533. Contractor Financial Management Reports. may be used (see 18-45.7101-6(e)) if they apply to the selected items to be reported and are consistent with the costing of completed items. When costs are taken from the NASA Form 533, the cost of Government-furnished property shall be added (where applicable) or listed provided as in 18-45.7101-2(a)(5). The costs shall then be adjusted for completed items and spare inventoried elsewhere parts, etc., or shipped to and accepted by a third party.

# 18-45.7101-10 Contractor's privileged financial and business information.

transfer of If а property between contractors will involve disclosing costs of proprietary а nature. the contractor shall furnish unit prices only on those copies of the shipping documents that are sent to the shipping and receiving NASA installations. Transfer of the property to the receiving contractor shall be on a no-cost basis.

# 18-45.7102 Instructions for preparing DD Form 1342.

The instructions in this section shall be used in the preparation of DD Form 1342, DOD Property Record, to report newly acquired equipment, items not previously reported, major changes in the data initially submitted, or equipment no longer required for or actively being used in the pursuit of NASA programs or projects. Use of DD Form 1342 is not mandatory if the same information is provided in an alternative format. Only one initial report is required. In-use items shall be reported initially to the NASA Equipment Management System (NEMS) through the contracting officer (see 18-45.505-670) by use of this form by checking "Active" and "Initial" in Block 1. Identify idle items being initially reported by checking "Idle" and "Initial" in Block 1.

- Block I. Check appropriate boxes to indicate "Active" or "Idle" report and that the report is an "Initial" or "Changed" report.
- Block 2. Enter the Julian date of preparation of the form. The first character is the last digit of the current calendar year, and the next three characters are the Julian date of the year.
- Block 3. Enter the Identification Number/Government Tag Number as recorded on the identification plate affixed to the equipment.

# Section I-Inventory Record

- Block 4. Not applicable.
- Block 5. Enter the first four digits of the National Stock Number, if known,
- Block 6. Indicate in dollars (omit any symbols. decimal points, commas, etc.) the acquisition cost used for property accounting purposes. This acquisition cost is the price of the basic item plus any accessories and auxilliary equipment procured and delivered with it. If the initial acquisition cost data are not

# FORMS PREPARATION

available. use an estimated acquisition cost (based on known costs at the time of manufacture of the same similar equipment). or price lists for the period involved, or the best available price from other sources in NASA or DOD that will achieve conformity of prices for like items of equipment.

- Block 7. Not applicable.
- Block 8. Enter the last two digits of the year the item was manufactured. If the actual year of manufacture cannot be determined, estimate the date and place an "E" immediately preceding the entry.
- Blocks 9 through 13. Not applicable.
- Block 14. Enter the name of the manufacturer of the equipment being reported. Do not use a distributor's or vendor's name. Enter "Unknown" when the manufacturer is not known.
- Block 15. This is a five-digit numerical code identifying the manufacturer, obtained from Cataloging Handbook H4-1.
- Block 16.
  - a. Enter the manufacturer's model, style, or catalog number for the equipment being reported. Always use the model number, if available. Style number is next in preference. When the manufacturer does not assign a model, style, or catalog number, enter "None".

- b. When unable to locate a model number, refer to the manufacturer's brochure or purchase order. If the model number is obtained from other than the equipment, indicate the source in "Remarks," Block 54.
- Block 17. Enter the serial number taken from the equipment. If a serial number is not assigned to the item, enter "None".
- Blocks 18 through 21. Not applicable.
- Block 22. Enter Certificate of Nonavailability number from Block 41, DD Form 1419 or other screening document.
- Block 23. Not applicable.
- Block 24. Not applicable.
- Block 25. Enter the complete contract number under which the contractor is accountable for the item. This normally will be a facility contract number. Otherwise, enter the procurement contract number.
- Block 26. Enter the complete description of the item.
- Block 27. Not applicable.
- Block 28. Enter the NASA installation or company name, street address, city, state, and zip code of the physical location of the equipment. If the physical location is a subcontractor's plant, enter the name of the prime contractor above the subcontractor's name. Do not use the office address if different from the plant address. If no address exists. street

# Section II-Inspection Record.

Not applicable, except for Block 52, which should be completed when reporting (in accordance with 18-45.505-670) that an item is no longer required for or actively being used in pursuit of NASA programs or projects.

Section III-Remarks. Not applicable.

Section IV-Disposition Record. Not applicable.

Section V-Validation Record. Not applicable.

# 18-45.7103 Instructions for preparing DD Form 1419.

The contractor (a) shall enter the essential information covering Sections I and II before submission of DD Form 1419, DOD Industrial Plant Equipment Requisition, to the NEMS Coordinator. The NEMS Coordinator shall review each completeness submission for and authenticity. Incomplete or invalid requests shall be returned for correction. The original and two copies of the approved DD Form 1419, or equivalent format, may be forwarded to Defense Industrial Plant Equipment Center (DIPEC) for screening of inventories. Upon completion of the screening process. DIPEC will annotate the results of the Section screening in IV or V. of nonavailability Certification when cited in Section V is evidence that screening has been accomplished by NASA/DIPEC. DIPEC will return the original and one copy of the request to the NEMS Coordinator of the cognizant NASA installation indicated in Section III.

(b) When a suitable item is allocated in Section IV, inspection of the equipment recommended. is Notification of acceptance or rejection of the item offered must reach NASA/DIPEC within 30 days after allocation. A copy of the DD Form 1419, or equivalent format, will serve as the clearance document to inspect the equipment at the storage site. Note acceptance or rejection of the item, without inspection or after inspection in Section VI. If the item is acceptable, execute Section VII. Cite the NASA appropriation symbol where applicable in Section VII. In either instance, acceptance or rejection, the Coordinator NEMS shall return the original of the DD Form 1419, or equivalent format, to DIPEC when items have been offered by DIPEC.

(c) The NEMS Coordinator shall assign a requisition number to each DD Form 1419. or equivalent format request. If DIPEC will be screened, the NEMS Coordinator shall code each number assigned for automatic data processing by DIPEC. The NEMS Coordinator shall also identify the requiring installation and provide а serial number and date of submission for subsequent reference. The NEMS Coordinator shall begin the requisition number with the appropriate installation FEDSTRIP/MILSTRIP Activity Address Code.

(d) Next will be a four-digit entry comprised of the last digit of the current calendar year and the Julian date of the year. For instance, February 4, 1969, would be written as 9035. The last entry will be a four-digit number from 0001 to 9999 to sequentially number requisition forms prepared on the same date. For example, the ninth requisition prepared on February 1, 1969, would be 9032-0009, preceded by the FEDSTRIP/ MILSTRIP Activity Address Code. When

#### FORMS PREPARATION

submitting subsequent DD Forms 1419, or equivalent format, related to the item requested, the NEMS Coordinator shall use the same requisition number and add the alpha code to the end of the requisition number to indicate a second or third action on the basic request. Alpha "A" would indicate a second request, "B" a third, etc. In this manner, all actions, correspondence, etc., relative to a given request can be identified at all levels of processing by the use of the requisition number.

(e) Detailed directions for completing the DD Form 1419 follow. When DIPEC listed equipment is not being requested, the contractor may elect to provide the required data in an equivalent format, which complies with these directions.

#### Section I

Item Description. To ensure adequate screening, the item description must be complete. For single-purpose equipment or general-purpose equipment with special features, requests must contain detailed descriptive data as to size and forth special capacities, setting features operating or particular operations required to be performed by the item.

- Block 1. Not applicable.
- Block 2. Enter the manufacturer's name and Federal Supply Code for manufacturer (Cataloging Handbook H4-1) of the item requested.
- Block 2a. Enter the manufacturer's model, style, or catalog number assigned to the equipment being requisitioned. Always use the model number, if available. The style number is the next preference. Enter "None" in this

block if the model, style or catalog number is not known.

- Block 3. Enter the four-digit Federal Supply Class (FSC).
- Block 4. Not applicable.
- Block 5. Self-explanatory.
- Block 6. Place an "X" in the applicable block to indicate whether you desire to physically inspect the item before acceptance.
- Block 7. Self-explanatory.
- Block 8. Enter the complete description of the item. Continue the description in Block 51 if additional space is needed.

### Section II.

- contractor's Block 9. Enter the name. street address. city, state, and zip code from which the being requisition is initiated. The address should be the one to inquiries of which а technical nature will be referred. Specify the name and telephone number of an individual who will respond to inquiries concerning the request.
- and 10a. Enter Blocks 10 the number contract or document number and the date of the document authorizing acquisition of the items shown in Section I. This normally be facility will a contract number. Otherwise it should be a purchase order or procurement request number.

- Block 11. Not applicable.
- Block 12. Disregard the "Military" block. Show the NASA contract number and program for which the item is to be used.
- Block 13. Enter the specific function to be performed by the equipment. When applicable, enter the tolerances, capacities, specifications, etc., that the equipment must satisfy.
- Block 14. Determine The date the item must be installed to meet production requirements. From this date deduct the estimated number of days required for installation. Enter the adjusted date in this block.
- Block 15. Enter the date by which NASA must issue a Certificate of Nonavailability. Determine the date by subtracting the procurement lead time and 30 days administrative lead time from the date shown in Block 14.
- Block 16. Enter the Defense Priority and Allocations System (DPAS) rating assigned to the contract or anticipated purchase order, if applicable.
- Block 17. Place an "X" in the appropriate box. If for replacement, identify the item being replaced and the reason for replacement.
- Block 18. Place an "X" in the appropriate box. Show the appropriation symbol if the answer is "yes."
- Block 19. Not applicable.

- Blocks 20 and 21. In addition to the official's title and signature, type the signing official's name, office symbol or name, and telephone number plus extension. The company representative who prepares and submits the requirement to the cognizant NASA certifying office should sign.
- Block 22. Self-explanatory.
- Block 23. The contracting officer of the NASA installation having jurisdiction over the contract shall certify the need for the item. However, the NEMS Coordinator may certify the need for NASA inhouse requirements.
- Block 23a. Not applicable.
- Block 23b. Enter the name and address of the installation certifying the requirement.
- Block 23c. This block is for signature of the property administrator or contracting officer at plant level.
- Block 23d. Self-explanatory.
- Block 23e. This block is for the signature of NASA installation official certifying the requirement.

Block 23f. Self-explanatory.

# Section III.

This section is for the NEMS Coordinator's certification of the requirement to DIPEC, when applicable.

Blocks 24 through 27. Self-explanatory.

#### FORMS PREPARATION

#### Section IV.

To be completed by DIPEC (a copy is used for admittance to storage site for inspection of property).

Section V.

DIPEC or the NEMS Coordinator shall complete this section if equipment is unavailable.

Section VI.

Blocks 42 through 45. The requestofficial signing ing Block Section II. 20. shall complete Section VI and shall list reasons non-acceptance in for Section VIII, Remarks, or on a separate document attached to the DD Form 1419.

Section VII.

Block 46. Enter the complete name, street address, city, state, and zip code of the contractor or installation to which the item is to be shipped. Indicate railhead and truck delivery points when other than the address named.

- Blocks 47 and 48. Self-explanatory.
- Blocks 49a and b. Ensure that NASA appropriation symbols are included with the work order number.
- Block 49c. Enter the NASA appropriation symbol chargeable for any special work ordered (e.g., rebuild, repair, or accessory replacement).
- Block 49d. Enter the NASA installation and office symbol for the organization that will make payment for transportation and packing, crating, and handling.
- Block 50. Self-explanatory.

Section VIII.

Block 51. This block can be used to expand or explain entries made in Blocks 1 through 50. When requisitioning equipment from excess listings, identify the issuing office, list numdate, control ber. number, and item number the assigned to equipment.

### SUBPART 18-45.72 CONTRACT PROPERTY MANAGEMENT

### 18-45.7201 Definitions.

"Category," as used in this subpart, means a major segment of a contractor's property control system (e.g., acquisition, receiving, records, storage and movement, consumption, utilization, maintenance, physical inventories, subcontractor control, or disposition).

"Characteristic," as used in this subpart, means a segment of a functional area subject to analysis or review. Characteristics are classified as Class I, subject to statistical sampling, and Class II, subject to judgment or observation techniques.

"Lot," as used in this subpart, means an aggregation of documents, records, articles, or actions selected for review because of common characteristics. For evaluation of the lot, all characteristics for which a lot is tested must be common to all units within the lot.

"Supporting responsibility," as used in this subpart, relates to the assignment of a subcontract, or a portion of a prime contract being performed at a secondary location of the prime contractor, to a property administrator other than the individual assigned to the prime location.

"Property control system," as used in this subpart, identifies a contractor's internal management program encompassing the protection of, preservation of, accounting for, and control of property from its acquisition through disposition.

### 18-45.7202 General.

This subpart describes major elements of the NASA Contract Property Management Program. It provides guidance to NASA installation personnel responsible for NASA contract property (NASA personal property in the possession of contractors). It applies to all NASA installation personnel charged with this responsibility, including industrial property officers and specialists, property administrators, and plant clearance officers. It also provides detailed procedures for property administration. The NASA Contract Property Management Program includes the following three major elements:

(a) Performance of property administration and plant clearance by DOD under delegations from NASA, pursuant to 18-42.101.

(b) Performance of property administration and plant clearance by NASA under certain situations, pursuant to 18-42.203.

(c) Maintenance of property administration and plant clearance functional oversight, regardless of delegations, pursuant to 18-42.175.

# 18-45.7203 Delegations of property administration and plant clearance.

When delegated to DOD, property administration and plant clearance are performed in accordance with DOD's regulations and procedures, as amended by the NASA Letter of Contract Administration Delegation, Special Instructions on Property Administration and Plant Clearance. These Special Instructions are developed by NASA Headquarters, Supply and Equipment Management Office, Code JLE, and are | available from that office upon request. The contracting officer shall issue the Special Instructions with delegations whenever Government property will be Additional or more tailored involved. property instructions are not proscribed but must be coordinated with Code JLE before issuance.

# 18-45.7204 Retention of property administration and plant clearance.

NASA may occasionally retain the property administration and plant clearance function, such as for contract work performed at the installation awarding the contract and not subject to the clause at 18-52.245-71, Installation-Provided Government Property. In these cases. property administration shall be performed in accordance with Subparts 18-45.2 through 18-45.7, and plant clearance shall be performed in accordance with FAR Subpart 45.6 and Subpart 18-45.6. Under the clause at 18-52.245-71, property administration and plant clearance are neither delegated nor retained; they are simply not required because the property is treated as installation rather than contract property.

# 18-45.7205 Functional oversight of property administration and plant clearance.

NASA contracting officers retain functional management responsibility for their contracts. Utilization of the contract administration services of another Government agency in no way relieves NASA contracting officers of their ultimate responsibility for the proper and effective management of contracts. The functional management responsibility for contract property is outlined below. Beyond individual contracting officers, each NASA installation has designated an industrial property officer to manage and coordinate property matters among the various contracting officers, technical officials, contractor officials, and delegated property administrators and plant clearance of ficers. Generally, that individual is responsible for the entire contract property management function outlined below; the installation is

responsible for the entire function regardless of how it is organized and distributed. The responsibilities are as follows:

(a) Provide a focal point for all management of contract property, including Government property (Governmentfurnished and contractor-acquired) provided to universities as well as to industry.

(b) Provide guidance to contracting and other personnel on the NASA property provisions.

(c) To the extent feasible, review property provisions of procurement plans, solicitations, contracts, and modifications for potential problems. Propose changes as necessary.

(d) To the extent feasible, participate in pre-award surveys/post-award orientations when significant amounts of Government property will be involved.

(e) Ensure that vesting-of-title determinations are made and documented pursuant to FAR 35.014(b).

(f) Maintain effective communications with delegated property administrators and plant clearance officers to keep fully informed about contractor performance and progress on any property control problems.

(1) Obtain and review property control system survey summaries for all contracts for which property administration has been delegated. Advise Headquarters Code JLE of any severe or continuing problems.

1

(2) Provide property administrators copies of all pertinent contract property documentation.

(g) Work with the NASA Equipment Management System (NEMS) Coordinator and contracting officers to ensure contractor reporting to and screening of NEMS.

(1) Monitor contractors' performance in submitting DD Form 1419's or equivalent request format before acquiring centrally reportable equipment (CRE) and in submitting DD Form 1342's or equivalent report format after receiving CRE.

(2) Ensure that an annual NEMS verification is performed in accordance with 18-45.505-670(c) and NHB 4200.1, paragraph 4.406b.

(h) Review and analyze NASA Form 1018's, Reports of Government-Owned/Contractor-Held Property.

(1) Ensure an annual comparison of 1018's with NEMS in accordance with NHB 4200.1, paragraph 4.406c, to detect possible over/under reporting to NEMS and possible failure to screen NEMS.

(2) Check new disparities disclosed under subparagraph (1) above with the appropriate property administrator and document the results.

(i) Negotiate, or ensure the negotiation of, facilities contracts when required by FAR 45.302 and 18-45.302. Advise Headquarters Code JLE annually of new and completed facilities contracts.

(j) Review property administrators' approvals of relief of responsibility for lost, damaged, and destroyed property and question any excessive or repetitive approvals.

(k) When appropriate, make recommendations to source and performance evaluation boards regarding property management and award fee criteria and evaluations regarding property management.

(1) Monitor plant clearance status to preclude delays in contract closeout.

(m) Maintain contract property files for all transactions and correspondence associated with each contract. Upon receipt of Standard Form 1424, Inventory Disposal Report, and DD Form 1593, Contract Administration Completion Record, or equivalents, merge all property records for the contract and forward for inclusion with the official completed file.

(n) Perform on-site property administration and plant clearance when they are not delegated to DOD and the property is not subject to the clause at 18-52.245-71. (The remainder of this subpart provides detailed guidance on such property administration).

18-45.7206 Responsibilities of property administrators and plant clearance officers.

#### 18-45.7206-1 Property administrators.

(a) When property administration is not delegated to DOD, the property administrator shall evaluate the contractor's management and control of Government property and ascertain whether the contractor is effectively complying with the contract provisions. The property administrator's responsibilities include--

(1) Developing and applying a system survey program for each contractor under the property administrator's cognizance;

(2) Evaluating the contractor's property control system and approving or recommending disapproval;

(3) Advising the contracting officer of any (i) contractor noncompliance with approved procedures and (ii) other significant problems the property administrator cannot resolve, and recommending appropriate action, which may include disapproval of the contractor's property control system;

(4) Resolving property adminis- tration matters as necessary with the contractor's management, personnel from Government procurement and logistics activities, and representatives of the NASA Office of the Inspector General, of the Defense Contract Audit Agency (DCAA), and of other Government agencies; and

(5) Recognizing the functions of other Government personnel having cognizance of Government property and obtaining their assistance when required. (These functions include, but are not limited to, contract audit, quality assurance, engineering, pricing, and other technical areas. Assistance and advice on matters involving analyses of the contractor's books and accounting records and on any other audit matters deemed appropriate shall be obtained from the cognizant auditor.)

(b) The participation of property administrators (or other Government industrial property personnel) in preaward surveys/post-award orientations is required whenever significant amounts of Government property will be involved, in order to reveal and resolve property management problems early in the procurement cycle.

# 18-45.7206-2 Plant clearance officers.

When plant clearance is not delegated to DOD, NASA plant clearance officers shall be responsible for--

(a) Providing the contractor with instructions and advice regarding the proper preparation of inventory schedules; (b) Accepting or rejecting inventory schedules and DD Form 1342;

(c) Conducting or arranging for inventory verification;

(d) Initiating prescribed screening and effecting resulting actions;

(e) Final plant clearance of contractor inventory;

(f) Pre-inventory scrap determinations, as appropriate;

(g) Evaluating the adequacy of the contractor's procedures for property disposal;

(h) Determining the method of disposal;

(i) Surveillance of any contractorconducted sales;

(j) Accounting for all contractor inventory reported by the contractor;

(k) Advising and assisting, as appropriate, the contractor, the supply and equipment management officer, other Federal agencies, and higher headquarters in all actions relating to the proper and timely disposal of contractor inventory;

(1) Approving the method of sale, evaluating bids, and approving sale prices for any contractor-conducted sales;

(m) Recommending the reasonableness of selling expenses related to any contractor-conducted sales;

(n) Securing antitrust clearance, as required; and

(o) Advising the contracting officer on all property disposal matters.

# 18-45.7207 Initiation of property administration.

18-45.7207-1 Control of assignments.

(a) The procurement officer or a designee shall establish and maintain a Contract Assignment Control Register for each contractor, showing the --

- (1) Contractor's name and address;
- (2) Contract number;
- (3) Type of contract;

(4) Date of assignment of the property administrator and his or her name; and

(5) Date of completion or termination of the contract, or transfer of the property administrator.

(b) Property reported received at a contractor's plant without contractual coverage shall be recorded in a suspense file, pending investigation and resolution by the property administrator.

18-45.7207-2 Analysis of contract and establishment of contract property control data files.

(a) The property administrator shall analyze each contract providing for Government property to estimate the property administration effort to be applied. The analysis shall be sufficient to establish the management controls necessary for ensuring compliance with contract requirements and development of a suitable system survey program.

(b) The property administrator shall establish Property Summary Data Record containing --

(1) The contractor's name and address, and the contract number;

(2) The type of contract, modifications (including change orders), and special or nonstandard clauses pertaining to Government property;

(3) The date of final review and date of execution and transmittal of the DD Form 1593 or equivalent;

(4) Supporting property administration assignments; and

(5) Name(s) of the property administrator(s) and date(s) of tenure.

(c) (1) The property administrator shall establish a Contract Property Control Data File, which shall include as a minimum --

(i) The Property Summary Data Record;

(ii) A copy of the contract or provisions pertinent to property administration, and comparable data regarding any subcontracts involving Government property;

(iii) The record of initial review, evaluation, and approval of the contractor's property control system; and, if applicable, the record of withdrawal of approval and basis for it, reinstatement of approval, and deviations granted;

(iv) A record of visits and property system surveys performed, including appropriate work papers, deficiencies disclosed, and corrective actions taken;

(v) Contractor's receipts for Government property, when required;

(vi) The record of final review and execution of the property administrator's statement of closure of the contract property account;

(vii) Other pertinent correspondence and documents, including, as applicable, inventory adjustments, investigations, recommendations, and determinations;

(viii) Records concerning supporting property administration delegations; assist actions involving special reviews; and other applicable reviews at subcontractor's plants;

(ix) Records of inspection and audits performed by other activities; and

(x) Reports relating to Government property prepared by the contractor pursuant to the contract.

(2) When more than one contract is involved at one contractor location. records relating more than to one contract shall be transferred to a contractor's General File. and the Property Summary Data Record shall be so annotated.

18-45.7208 Initial evaluation and approval of contractor's property control system.

18-45.7208-1 General.

Normally, the initial contact by the contract administration office with a postaward contractor is through а orientation. When a conference is held for this purpose, the property administrator shall ensure suitable discussion of property administration requirements and responsibilities. When a conference is not held, the property administrator, upon assignment of a contract, shall forward a letter to the contractor --

(a) Inviting attention to the responsibilities contractor's regarding Government property under the contract, including any specialized controls, and the extent of the contractor's liability for loss, damage, or destruction of Government property during any period in which the contractor's property control system does not have the written approval of the property administrator;

(b) Requesting the name of the contractor's representatives to contact for review and discussion of the proposed property control system; and (c) Requesting that policies, instructions, and procedures necessary for fully implementing the property control system be available for evaluation.

#### 18-45.7208-2 Review of procedures.

(a) Following assignment of an initial contract, the property administrator shall review the contractor's proposed property control system procedures to determine --

(1) Inadequate or questionable areas in the proposed procedures for compliance with NASA contract requirements;

(2) Essential controls not provided by the proposed procedures;

(3) Areas in the proposed procedures requiring physical observation or verification; and

(4) Subcontractors, or secondary locations of prime contract performance, and the need for physical observation or verification of property controls at those locations.

(b) It is normal industry practice to provide for property control by means of written procedures that communicate company standards, techniques. and instructions to operational personnel for uniform application. However. а contractor with few employees may not need written procedures for effective management of Government property. In such cases, the property administrator shall evaluate the adequacy of the contractor's system on the basis of the contractor's explanation of its controls and observation of their application, and shall prepare a brief description of the procedures for inclusion in the Contract Property Control Data File. In the instance, latter the contractor's signature shall be obtained signifying

# CONTRACT PROPERTY MANAGEMENT

concurrence with the property administrator's written description.

(c) The contractor's plant shall be visited to determine that the contractor's operation of the system provides adequate controls for the Government property to be furnished or acquired.

obtaining the (d) The means of information necessary for approving the contractor's property control system is a matter for the property administrator's examinations and Test judgment. verification in specific categories may be necessary to ensure the reliability of evaluation and permit the final conclusions as to the acceptability of controls for all categories and the system as a whole.

The property administrator shall (c) examine the contractor's procedures to the whether they meet determine requirements for property contractual administrator property control. The shall test and analyze the contractor's system, noting or commenting on the the procedures in acceptability of preparing the record of system evaluation (see 18-45.7208-4).

(f) If the contractor's property control system has previously been approved and a new contract requires the expansion of establishment of the or existing property additional controls. the administrator should normally limit the review to the new requirements. If the property adequate. the is system administrator shall record this fact on the Property Summary Data Record for the contract. Notification to the contractor is not required. However, if the property that the determines administrator contractor's property control system does not adequately meet the new contract requirements, the property administrator shall annotate the Property Summary Data contract involved the Record for

appropriately and notify the contractor in writing of the required changes.

(g) In reviewing the contractor's property control system, the property administrator shall consider the provisions of 18-45.505-14 and ensure that the contractor's system provides for maintaining financial data and furnishing required reports within the time limits specified.

# 18-45.7208-3 Exit interview with the contractor.

Upon completing the review, the property administrator shall hold an exit interview with the contractor to discuss any category in which the controls or procedures were found inadequate and shall advise where corrective action is required before an approval of the system can be granted. When the contractor is willing to correct a deficiency or questionable practice immediately, the documentation supporting the property administrator's findings and conclusions shall include a statement to this effect. The contracting officer responsible for the predominant value of NASA property at facility attend the exit the shall interview with the contractor if major property exist the deficiencies in control system, past deficiencies remain uncorrected, or the value of the personal property involved exceeds \$1,000,000.

# 18-45.7208-4 Record of system evaluation.

Upon completing the evaluation of the contractor's system, the property administrator shall prepare a written summary of findings to support approval of the system or any requirement for corrective action before approval. A report of visit or other documentation may be utilized if the participating contractor and Government personnel are

listed, actions taken are adequately described, and the property administrator's determination is clearly stated.

18-45.7208-5 Notification of deficiencies.

If deficiencies have been found, the property administrator shall prepare a letter to the contractor for signature by the contracting officer, listing them and noting any agreement by the contractor to correct them. The contractor shall respond within 30 days, providing the precise action to be taken and the time required to correct each deficiency.

### 18-45.7208-6 Resolution of differences.

If the contractor's response is unsatisfactory, the contracting officer, along with the property administrator. shall meet with the contractor in an effort to arrive at а mutually satisfactory corrective program. The contractor shall be requested to confirm in writing any new commitments arising from this meeting. If the contractor fails to correct deficiencies in its property control system within а reasonable period. the contracting officer shall refer the matter bv memorandum to appropriate levels of management within the NASA installation and Headquarters staff offices, depending on the criticality of the problem involved. The memorandum shall include --

(a) A specific, concise, and documented statement of the problem;

(b) A statement of the contractor's position; and

(c) The recommended action.

#### 18-45.7208-7 Letter of approval.

(a) Approval of a contractor's property control system shall be conditioned upon a joint determination, by the property administrator and the contracting officer no that deficiencies exist in the property control system or that only minor deficiencies exist and the contractor has agreed to correct them.

(b) If the contractor's property control system is acceptable. the property administrator shall advise the contractor in writing. However, if the approval was preceded by correspondence between the contracting officer and the contractor (18-45.7208-5 and -6). the property administrator shall reference it in the approval and advise the contractor that the corrective action taken or planned is acceptable. A copy of the letter of approval shall be sent to the contracting officer.

(c) If the contract involves Government property at subcontractor plants or prime contractor secondary locations, or both, and the controls for it are determined adequate, the approval shall be expanded to include the procedures governing Government property at those locations.

18-45.7209 Property administration during contractor performance.

# 18-45.7209-1 Property administration plan.

(a) The property administrator shall develop a property administration plan for each contractor's plant, covering the control property system utilized on Government contracts. The plan shall provide for surveys and shall be augmented cover responsibilities to

imposed by new contracts, changing conditions, or marginal performance. If approval of the contractor's system is unduly delayed at inception of the contract by the contractor's failure to provide an acceptable system, or is withdrawn because of unsatisfactory conditions disclosed after approval, the property administration plan shall be expanded as necessary to reasonably ensure that loss, damage, or destruction of Government property is disclosed in a timely manner. Special attention shall be given to reasonably ensuring that any loss, damage, or destruction occurring during a period when a contractor's system is not approved is identified before approval or reapproval.

(b) The property administrator must exercise judgment in developing the plan and in determining which categories (see 18-45-1) of the contractor's Table property control system warrant examination. Dollar amounts and volume of property, of activity, types complexity of the contractor's system, risk to the Government, and previous experience regarding the adequacy of the controls are factors contractor's determining the extent and scope of the system survey plan.

#### TABLE 18-45-1

### CATEGORIES, FUNCTIONAL AREAS, CHARACTERISTICS

(This is not an exclusive list and may be modified as necessary.)

#### Category 1

Acquisition. The process of acquiring Government property either through requisition or transfer from Government sources or through purchase, including purchases from the contractor's stores.

a. Functional Area: Governmentfurnished property.

#### Class Characteristic

- I (1) Item is contractually authorized.
- I (2) Requesting document is properly prepared and processed.
- I (3) Quantity requested is reasonable but not available in existing stocks at the plant site for use on the requiring contract.
- I (4) Requests are controlled until items are received or requirement cancelled. Status file is maintained.
- II (5) Requests are submitted in a timely manner to minimize use of emergency priorities.

b. Functional Area: Contractoracquired property.

Class

#### Characteristic

- I (1) Item is contractually authorized.
- I (2) Quantity ordered is reasonable but not available in existing stocks at the plant site for use on the requiring contract.
- I (3) Purchase order distribution, cancellation, and change are properly controlled.
- I (4) Item description, contract number, and

price, are reflected in purchase order.

I (5) Consent or approval by the contracting officer is obtained as required.

# CATEGORY 2

**Receiving.** The process of Government property initially entering into a contractor's custody.

Functional Area: Receiving process.

# Class Characteristic

- I (1) Receiving report adequately describes item and shows count and condition. If quantity, condition, or description differs from that shown on inbound shipping document, proper adjustment document is prepared and property administrator is notified.
- I (2) Receiving report is promptly and properly prepared and controlled, and distribution includes copy to property accounting organization.
- I (3) Item received is properly classified (e.g., special tooling).
- I (4) Item is properly identified and marked during the receiving process.
- II (5) Returnable and reusable containers are properly controlled and accounted for.

II (6) Misdirected shipments are adequately controlled pending receipt of disposition instructions.

# CATEGORY 3

**Records.** The official accounting and subsidiary records maintained by a contractor to show status and to control all Government property furnished to or acquired by it.

a. Functional Area: Inventory control (real and personal property).

# Class Characteristic

- I (1) Accounting record conforms to FAR and NASA FAR Supplement requirements and is accurate.
- I (2) Documentation in support of accounting entries is sufficient.
- I (3) Accounting entries are made without undue delay.

Ι

I

- (4) Stock levels and reorder points are reflected on record, are reasonably sound, and are consistent with the contract.
- (5) Accounting records are closed by means of proper accounting entry, adequately supported by documentation.
- I (6) Locator system is adequate and accurate.

### CONTRACT PROPERTY MANAGEMENT

# b. Functional Area: Fabrication records.

#### Class Characteristic

- I (1) Records of items fabricated conform to FAR requirements and are accurate.
- I (2) Documentation in support of accounting entries is sufficient.

c. Functional Area: Receipt and issue file.

#### Class Characteristic

I Records of items conform to FAR and NASA FAR Supplement requirements and are accurate.

d. Functional Area: Custodial records.

#### Class Characteristic

- I (1) Custodial record is adequate and accurate.
- I (2) Records are properly closed.

e. Functional Area: Scrap and salvage records.

#### Class Characteristic

I (1) Scrap and salvage records are adequate and accurate.

- I (2) Items reclaimed during salvage operations are properly classified.
- I (3) Documentation in support of record is adequate.
- I (4) Records are properly closed.

f. Functional Area: Multicontract cost and material control system.

#### Class Characteristic

I

- I (1) Records conform to FAR requirements and are accurate.
  - (2) Documentation in support of record is adequate.
- I (3) Accounting entries are made promptly.
- I (4) Records are properly closed.

# CATEGORY 4

Storage and movement. The process of storing and moving all types of Government property includes movement from one point to another for any purpose and protection during movement and storage.

a. Functional Area: Warehousing.

#### Class Characteristic

- II (1) Housekeeping is adequate.
- II (2) Government property is segregated from contractor property.
- II (3) Adequate protection of Government property, including hazardous material, precious

metals, sensitive items, etc., is provided.

II (4) Measures for corrosion prevention, age control, etc., are adequate.

b. Functional Area: Internal and external movements.

### Class Characteristic

- II (1) Item is moved under proper authority, supported by issue slip, shipping ticket, location change order, etc.
- II (2) Adequate protection is provided during movement, such as packing, covering, skidding, proper handling equipment and techniques, and safety precautions.
- II (3) Loss or damage occurring during movement is reported to the property administrator.

# CATEGORY 5

**Consumption.** The process of incorporating Government-owned property into an end item or otherwise consuming it in performance of a contract.

a. Functional Area: Reasonableness of consumption.

### Class Characteristic

- I (1) Quantities consumed are reasonable when compared to bill of material, material requirement lists, established scrap rates, etc.
- II (2) Serially numbered or selectively matched items are incorporated in appropriate end item.
- b. Functional Area: Conservation.

# Class Characteristic

- II (1) Excesses are promptly returned to stores and recorded.
- II (2) Where appropriate, maximum use is made of repair and salvage procedures in lieu of using new items.
- II (3) Where appropriate, a first-in, first-out (FIFO) system is employed with respect to "dated" items.

# CATEGORY 6

Utilization. The process of utilizing plant equipment, special tooling, special test equipment, material, and space property for the purpose for which furnished or acquired.

a. Functional Area: Plant equipment, special tooling, special test equipment.

# CONTRACT PROPERTY MANAGEMENT

### Class Characteristic

- I (1) Item is used for purpose authorized by contract (not diverted to other use).
- I (2) Degree of utilization justifies retention.

b. Functional Area: Material and space property.

#### Class Characteristic

- I (1) Item is used for purpose authorized (not diverted to other use).
- I (2) Degree of utilization justifies retention of stock on hand.

#### **CATEGORY** 7

Maintenance. The process of providing the amount of care necessary to obtain a high quality of production and the most useful life of Government property.

a. Functional Area: Preventive and corrective maintenance.

### Class Characteristic

- I (1) Item is scheduled for periodic maintenance (including technical order compliance).
- I (2) Maintenance is performed according to schedule.
- I (3) Records of normal maintenance and corrective actions are adequate and accurate.

b. Functional Area: Capital-type rehabilitation (includes real property).

Class Characteristic

- I (1) Inspection is scheduled to determine need for major repair, replacement, or other rehabilitation.
- II (2) Inspection is performed as scheduled and results are reported.
- II (3) Rehabilitation is accomplished when authorized.
- II (4) Records of major repair, replacement, or other rehabilitation, including cost, are adequate and accurate.

# CATEGORY 8

**Physical inventories.** The process of physically inventorying Government property and comparing it to records of the property (includes locating and counting, tagging or marking, describing, recording, and reporting results to the property administrator).

a. Functional Area: Performance.

#### Class Characteristic

- II (1) Periodic physical inventories are performed.
- II (2) Physical inventories are performed upon termination or completion of contract unless waived by

property administrator.

- I (3) Inventoried property is appropriately tagged or marked.
- I (4) Inventory count is accurate.
- II (5) Inventory procedures provide that personnel who perform inventory аге not those who maintain the property records or have custody of the property, unless the contractor's operation is so small as to make this impracticable.
- II (6) Results of inventories are reported to property administrator within 30 days.

b. Functional Area: Reconciliation and adjustment.

Class Characteristic

- II (1) Each instance of loss and discovery of unrecorded property is investigated.
- II (2) Causes are determined for above discrepancies.
- II (3) Actions necessary to prevent recurrence are determined and taken for above discrepancies.
- II (4) Adjustments to records (other than for property losses) are made within 30 days.
- II (5) Adjustments to records for property losses are made within 30 days of contracting officer's

or property administrator's notification of relief of responsibility or other determination.

# CATEGORY 9

Subcontract control. The process of prime contractor control over subcontractors with respect to Government property.

a. Functional Area: Prime contractor controls.

### Class Characteristic

- I (1) Subcontract reflects adequate instructions with respect to subcontractor responsibilities.
- I (2) Records of Government property in possession of subcontractors conform to FAR and NASA FAR Supplement requirements.
  - (3) Adequate documentation supports accounting entries.

Ι

II (4) Prime contractor's surveillance over Government property in possession of subcontractors is adequate.

b. Functional Area: Subcontractor control. If the prime contractor has designated the subcontractor's records and controls as the official contract records and controls of Government property in the subcontractor's possession, or if adequacy of controls cannot be determined by review of the prime

Ι

contractor's control, the subcontactor's property control system shall be evaluated in the same manner as that of a prime contractor, in accordance with procedures and criteria set forth in this Subpart 18-45.72.

#### **CATEGORY 10**

**Disposition**. The process of requesting disposition instructions and effecting disposal of Government property.

a. Functional Area: Disclosure of excess.

#### Class Characteristic

- I (1) Excess items are screened for use on other contracts before declaration as excess.
- I (2) Items determined excess are promptly reported.
- I (3) Declaration as excess is complete and accurate.
- I (4) Item was allocable to contract from which declared excess.
- b. Functional Area: Disposal.

#### Class Characteristic

- I (1) There is proper authority for disposition.
- I (2) Item was disposed of within a reasonable time after authority was received.
- I (3) Identification tag is removed from item prior

to disposal, when appropriate.

- (4) Documentation of disposition is complete and reflects authority, disposal action, and date of disposal and is posted to record.
- I (5) When appropriate, proceeds have been credited to the Government.

(End of Table 18-45-1)

#### 18-45.7209-2 System surveys: surveillance.

The property administrator shall conduct a complete system survey annually to obtain thorough knowledge of the contractor's efficiency and system of property control. Completion of a system survey involving complex property control systems may require detailed tests and evaluations over an extended period of time. If deficiencies in physical control or records are disclosed, the property administrator must (a) ensure that the contractor takes corrective action and (b) evaluate its effectiveness. In such instances, test and evaluation of any one shall be completed category as the possible, and expeditiously as working papers and analysis shall be consideration retained for and incorporation into the summary and survey case file.

# 18-45.7209-3 System surveys: scheduling and planning.

(a) At the beginning of each calendar year, the property administrator shall prepare a schedule showing the names of the contractors and the dates on which

each system survey is to be initiated and completed.

(b) Before initiating any system survey, the property administrator shall establish a survey plan providing, as a minimum --

(1) Identification and listing of the categories, functional areas, and characteristics to be evaluated (see Table 18-45-1);

(2) Evaluation of approved property control procedures applicable to the categories to be examined, and noting of any portions of them that should be reviewed with operating personnel for possible updating (if a functional area of the property control system is not covered by procedures, no attempt should be made to survey that area at that time, but that area should be recorded as unsatisfactory and action taken to correct the condition); and

(3) Directions for preparing work papers necessary to document the file.

# 18-45.7209-4 Testing the system.

In conducting tests of the contractor's property control system, the following factors should be considered to assure adequate coverage of requirements peculiar to particular classes of property and functional areas:

(a) Materials. Materials should be considered as bulk quantities, as contrasted to individual items. Examinations should be directed to --

(1) Tracing inbound transportation units from (i) bills of lading or other transportation documents to receiving reports, in order to verify the receiving reports and to ensure that proper action is taken on shortages, damages, and other discrepancies, and (ii) stock records to assure that the receipts were accurately posted; (2) Abstracting nomenclature and balance data from stock records and making physical counts to determine accuracy of the stock records;

(3) Tracing posting of credits to (i) stock records (by date, reference number, and quantity) and (ii) issue documents, in order to assure accuracy of the postings and validity of the documents (signature by authorized individual and indication of reasons for issue or point of delivery, or both, to indicate proper contract use); and

(4) Determining, to the extent practicable at the point of receipt and use, whether undue quantities are issued, charged to cost, and held on the plant floor rather than being held under better security in stores.

(b) Custodial items. Issues shall be traced from stores records to tool cribs, office stock rooms, uniform rooms, and the like, to determine whether they are taken into account as part of a sound control system. It should be determined that issues to contractor personnel are covered by tool chits, uniform slips, or other mechanisms to ensure return, or ability to locate items to be returned. ensuring that new items are not issued without return of worn-out items or that suitable explanation is provided.

(c) End items. General techniques for surveying materials are applicable to end items placed in storage pending shipment. Examination shall include tracing from Government acceptance records of the contractor's claims for reimbursement to physical quantities on hand and quantities on validated shipping documents.

(d) Plant equipment costing less than \$5,000. If summary stock records are used for this class of property, examination using the "bulk quantities" approach in paragraph (a) above is applicable but shall also cover --

### CONTRACT PROPERTY MANAGEMENT

45-72:17

(1) Identification if required pursuant to FAR 45.505-5 (any identification numbers shall be physically verified); and

(2) Location as prescribed in FAR 45.505(g), creating need for physical verification of presence or absence of the property in the location shown by the location record.

(e) Plant equipment costing \$5,000 or more. Testing on an item-by-item basis is usually required to achieve desired results. Determinations demanding special attention include whether --

(1) Government screening and approval requirements are observed;

(2) Classification of property is accurate, both at time of requisition or purchase and at time of receipt, through the use of Cataloging Handbooks H2-1, H2-2, and H2-3;

(3) An item is actually applied to the requirement for which acquired, and, if deviation is made, that any necessary notice and Government approval have been obtained;

documentation (4) Receiving is complete accurate. indicating and number. assignment of identification treatment of accessory and auxiliary equipment as required, and the DD Form 1342 (DoD Property Record), or equivalent format, is prepared and processed when required by 18-45.505-670;

(5) From physical inspection of the property, the equipment records are accurate, including location and classification as to use (examination shall be conducted from property to records and from records to property); and

(6) Disposition is initiated as required if equipment is no longer required at the plant (examination shall include the adequacy of the procedure for preparing and submitting DD Form 1342 (Property Record), or equivalent format, where specified, propriety of authority for shipment, and proper accounting for accessory and auxiliary equipment).

equipment. The (f) Special test examination of special test equipment shall be essentially the same as for plant equipment costing \$5,000 or more, recognizing except for the greater complexity of assemblies classified as single items and the possible need for assistance and advice of engineering Examinations shall include personnel. tracing of individual components into the to assure a clear trail. assembly respect general with to particularly purpose test equipment components, and propriety of disposition of components upon disassembly.

(g) Special tooling. Testing for plant equipment, as in paragraphs (d) and (e) above, may be used as a guide to establish the method and sampling for special tooling. When option as to title to special tooling is involved under terms of the contract (see the clause at 52.245-17, Special Tooling), FAR examination need only be sufficient to of with the request the comply contracting officer.

initial After property. (h) Rcal of real property to turnover а examinations and contractor. tests normally shall be directed to work orders of the contractor and documentation from Government sources as to additions and other capital improvements or disposals or capital decreases.

(i) Scrap and salvage. Tests relating to scrap and salvage may be similar to those for materials as outlined in paragraph
(a) above. However, special attention should be given to --

(1) Tracing from credit entries on materials records (showing turn-in to scrap) to corresponding debits to scrap records;

# GOVERNMENT PROPERTY

(2) Determining from analysis of consumption of materials over a given period that the quantities indicated as being scrapped or spoiled are matched with comparable receipts in the scrap and salvage accounts; and

(3) Determining that, when conversions of units of property to pounds of scrap or from estimated to scale weights or to other units of measure are made, the formula for the conversion is shown on the document affected or is readily available in the approved contractor procedure.

(j) Analyzing consumption of materials. It shall be determined by both physical examination and analysis of records that quantities consumed are for proper purposes and in reasonable amounts. In analyzing consumption of component parts or other production materials. unit allowance (equalling amount required per end-item plus normal spoilage) for each line item of materials may be available in the contract, bill of materials. blueprints, or shop drawings of items fabricated, in or cost computations supporting the end-item price. If such unit allowance information is not available, technical personnel may be consulted as to whether quantities consumed are within accepted industry standards.

(k) Testing of physical inventories. The property administrator has the option of conducting tests of the contractor's physical inventories either during the performance of the inventory or subsequent to its completion. In either event. tests shall evidence physical counts of selected items without of knowledge record balances. verification of the entries on count slips. comparisons with records. preparation of documents necessary to any adjustments required, approval of adjustments, and the referral of lists of adjustments to the property administrator pursuant to FAR 45.508-2.

(1) Examination of maintenance program. The property administrator shall trace the actions scheduled to determine whether they have been performed and that the actions stated by the contractor's procedures have been included. Also. records of the maintenance or repair shop or the contractor's purchase orders shall be examined as to causes of breakdowns of equipment to determine whether they were the result of inadequate preventive or routine maintenance.

# 18-45.7209-5 Performing the system survey.

In performing the system survey, the property administrator shall follow the procedures in paragraphs (a) through (c) below.

(a) (1) The lot size shall be estimated. Insofar as possible. lots shall selected consist of all the following current operations of the contractor:

(i) Those transactions (excepting disposition transactions) that have occurred during the last 90 days preceding the date of sampling and the documents recording those actions. (If no transactions have taken place during the last 90 days, samples will be taken from transactions going back to the last system survey.)

(ii) Articles in the possession or control of the contractor at that time.

(iii) Dispositions occurring since the last survey was made.

(2) The lot should encompass the maximum number of units possible within a functional area. For example. transactions pertaining to special tooling. special test equipment, and plant equipment may be combined into a single lot and sampled for their common characteristics. Characteristics not

#### CONTRACT PROPERTY MANAGEMENT

common to units sampled shall be extracted for evaluation as a part of a separate lot.

(b) Sample sizes and statistical sampling techniques shall be in accordance with 18-45.7213.

(c) After the examinations are performed and the findings recorded, the findings shall be analyzed and the conclusions and recommendations recorded. Decisions as to satisfactory or unsatisfactory conditions shall be made for each lot at the functional area level.

(d) If any category is found unsatisfactory during a survey, the property administrator shall determine the effects upon the complete system. All other applicable categories shall be surveyed to identify other defects and the extent of defectiveness in the overall system.

(e) The property administrator shall discuss problems disclosed during the survey with the contractor's personnel as they are noted, or during the exit interviews, and shall strive to resolve differences informally. Resolved problem areas shall be reported in the record of system evaluation, with the notation that they have been corrected.

#### 18-45.7209-6 System survey summary.

(a) The property administrator shall prepare a formal record at the conclusion of each system survey in the format set forth below:

(1) *Introduction:* contractor's name and address, period of survey, and types of property involved.

(2) *Method used:* explain method of performing the survey.

(3) **Conclusions:** state conclusions reached (if unsatisfactory categories, functional areas, or

characteristics are found, identify the defects found).

(4) Action required: state any actions necessary to correct unsatisfactory conditions.

(b) The property administrator shall forward a summary of the system survey to advising the contractor, of any unsatisfactory conditions and requesting the contractor to correct them within the time limitations agreed to during the interview. The property exit advise administrator shall also the contractor in this letter that failure to correct the unsatisfactory conditions may result in disapproval of its property control system. A copy of the summary shall also be retained in a survey case unsatisfactory file. and whenever conditions have been disclosed, a copy of the summary shall be provided to the administrative contracting officer. When conditions dictate (e.g., indication of significant noncompliance with contract requirements or other continued failures jeopardizing the interest of the Government), the purchasing office and the pre-award survey monitor shall also be advised in writing.

# 18-45.7209-7 Correction of unsatisfactory conditions.

If unsatisfactory conditions are the property administrator disclosed. shall ensure that corrective action is taken. If the contractor fails to take corrective action or to respond to the letter forwarded as prescribed in 18-45.7209-6 above. the property administrator shall proceed in accordance with 18-45.7208-6 and FAR 45.104(c).

#### 18-45.7209-8 Survey case file.

The property administrator shall establish a case file for each system survey, containing the survey plan, work

# GOVERNMENT PROPERTY

papers, and summary. The case file shall be maintained in the Contract Property Control Data File or the general file which the property administrator maintains for matters pertaining to that contractor.

# 18-45.7209-9 Additional administrative responsibilities.

The initial review. evaluation. and subsequent visits should give the property administrator а reasonable indication of future workload with each contractor. Loss, damage, destruction. or excessive consumption of Government property demand the property administrator's significant and prompt attention. particularly when the contractor's system is not approved.

# 18-45.7209-10 Declaration of excess property.

A problem often disclosed by systems surveys is the failure of a contractor to report Government property not needed in performance of the contract (excess). The property administrator shall fully document and report any such finding to the administrative contracting officer. After a report of excess received from a contractor has been referred to the plant officer clearance for screening and ultimate disposition. the property administrator shall ensure prompt disposition. For centrally reportable plant equipment. the property administrator shall --

(a) Assure the preparation and submission of individual reports (DD Form 1342 or equivalent) required of the contractor;

(b) Verify to permit certifications required by the forms; and

(c) Transmit the report to the NASA Industrial Property Officer.

# 18-45.7210 Closure of contracts.

# 18-45.7210-1 Completion or termination.

Upon completion or termination of a contract, the property administrator shall --

(a) Monitor the actions of the contractor in returning excess Government property not referred to the plant clearance officer; and

(b) Advise the cognizant plant clearance officer as to the existence at a contractor's plant of residual property requiring disposal.

18-45.7210-2 Final review and closing of contracts.

(a) When informed that disposition of Government property under a contract has been completed, the property administrator shall perform a final review and sign a determination that --

(1) Disposition of Government property has been properly accomplished and documented;

(2) Adjustment documents, including any request of the contractor for relief from responsibility, have been processed to completion;

(3) Proceeds from disposals or other property transactions, including adjustments, have been properly credited to the contract or paid to the Government as directed by the contracting officer;

(4) All questions as to title to property fabricated or acquired under the contract have been resolved and appropriately documented; and (5) The contract property control record file is complete and ready for retirement.

(b) When final review pursuant to paragraph (a) above reveals that such action is proper, the property administrator shall accomplish and sign a DD Form 1593, Contract Administration Completion Record, or equivalent.

(c) The executed DD Form 1593 shall be forwarded to the contracting officer, the Property Summary Data Record shall be so annotated, and the contracting officer shall include it in the contract file.

18-45.7211 Special subjects.

18-45.7211-1 Government property at alternate locations of the prime contractor and subcontractor plants.

(a) Government property provided to a prime contractor may be located at other plants of the prime contractor or at subcontractor locations. The prime contractor is accountable and responsible to the Government for this property.

(b) A Government property administrator cognizant of the location of the property shall normally be designated to (1) perform required surveys of the property control system and (2) exercise surveillance over the property as a supporting responsibility.

administrator (c) If the property supporting property determines that administration is required, he or she the cognizant contract write shall that a office asking administration property administrator be assigned. The for supporting property request administration shall include --

(1) The name and address of the prime contractor;

(2) The prime contract number;

(3) The name and address of the alternate location of the prime contractor, or of the subcontractor where the property will be located;

(4) A listing of the property being furnished, or, if property is being acquired locally, a statement to this effect; and

(5) A copy of the subcontract or other document under which the property will be furnished or acquired.

Concurrent with the action cited in (d) paragraph (c) above, the property administrator shall ascertain whether the perform the will prime contractor necessary reviews and surveillance with the contractor's own personnel, or elect to rely upon the system approval and continuing surveillance by a supporting property administrator of the property control system at the alternate location subcontractor plant. If the prime or contractor advises that it will accept the findings of a supporting property administrator, a statement in writing to that effect shall be obtained. If the prime contractor does not so elect, it the to perform be required shall requisite reviews and surveillance and document its actions and findings.

(e) If a single item or limited quantities of property will be located at an alternate location or subcontractor plant, the property administrator may determine that supporting property administration is unnecessary, provided--

(1) The prime contractor's records adequately reflect the location and use of the property;

(2) The nature of the property is such that the possibility of its use for unauthorized purposes is unlikely; and

# GOVERNMENT PROPERTY

(3) The nature of the property is such that a program of preventive maintenance is not required.

(f) When supporting property administration will not be requested, the services of a property administrator in the contract administration office cognizant of the site where the property is located may be requested on an occasional basis for special reviews or such other support as may be necessary. Repeated requests for assistance indicate a requirement for requesting supporting property administration.

18-45.7211-2 Loss, damage, or destruction of Government property.

(a) Normally, contract provisions provide for assumption of risk of loss, damage, or destruction of Government property as described below:

(1) Sealed-bid and certain negotiated fixed-price contracts provide that the contractor assumes the risk for all Government property provided under the contract (see the clause at FAR 52.245-2, Government Property (Fixed-Price Contracts)).

(2) Other negotiated fixed-price contracts provide that the contractor assumes the risk for all Government property provided under the contract, with the exceptions set forth in the clause at FAR 52.245-2, Alternate I and Alternate II.

(3) Cost-reimbursement contracts (see the clause at FAR 52.245-5. Government Property (Cost-Reimbursement, Time-and-Material, or Labor-Hour Contracts)) provide that the Government assumes the risk for all Government property provided under the contract when there is no willful misconduct or lack of

good faith of any of the contractor's managerial personnel as defined in the contract.

(4) There are certain events for which the Government does not assume the risk of loss, damage, or destruction of Government property, such as risks the contract expressly requires the the contractor to insure against. Therefore, before reaching a conclusion or making a determination. the contracting officer shall obtain property administrator review of the contract clause and shall obtain advice from appropriate legal counsel on questions of legal meaning or intent.

(5) "Willful misconduct" may involve any intentional or deliberate act or failure to act causing, or resulting in, loss, damage, or destruction of Government property.

(6) "Lack of good faith" may involve gross neglect or disregard of the terms of the contract or of appropriate directions of the contracting officer or the contracting officer's authorized representatives. Examples of lack of good faith may be demonstrated by the failure of the contractor's managerial personnel to establish and maintain proper training and supervision of employees and proper application of controls in compliance with instructions issued by authorized Government personnel.

If part of the contractor's system (b) found to be unsatisfactory, the is property administrator shall increase surveillance of that part to prevent, to the extent possible, any loss, damage, or destruction of Government property. The property administrator shall give special attention to reasonably ensuring that any loss, damage, or destruction occurring during a period when a contractor's system is not approved is identified before approval or reinstatement of approval.

#### CONTRACT PROPERTY MANAGEMENT

## 18-45.7211-3 Loss, damage, or destruction of Government property while in contractor's possession or control.

(a) The property administrator shall require the contractor to report anv damage, destruction loss. or of Government property in its possession or (including property in the control possession or control of subcontractors) as soon as it becomes known.

(b) When physical inventories, consumption analyses, or other actions disclose (1) consumption of Government property considered unreasonable by the property administrator or (2) loss, damage, or destruction of Government property not reported by the contractor, the property administrator shall prepare a statement of the items and amount involved. This statement shall be furnished to the for investigation and contractor submission of a written report to the property administrator relative to the incidents reported.

(c) The contractor's reports referenced in paragraphs (a) and (b) above shall contain factual data as to the loss, circumstances surrounding the excessive destruction, or damage, consumption, including --

(1) The contractor's name and the contract number;

(2) A description of items lost, damaged, destroyed, or unreasonably consumed;

(3) The cost of property lost, damaged, destroyed, or unreasonably consumed and cost of repairs in instances of damage (in event actual cost is not known, use reasonable estimate);

(4) The date, time (if pertinent), and cause or origin of the loss, damage, destruction, or consumption;

(5) Known interests in any commingled property of which the Government property lost, damaged, destroyed, or unreasonably consumed is (or was) a part;

(6) Insurance, if any, covering the Government property or any part or interest in any commingled property;

(7) Actions taken by the contractor to prevent further loss, damage, destruction, or unreasonable consumption and to prevent repetition of similar incidents; and

(8) Other facts or circumstances relevant to determining liability and responsibility for repair or replacement.

(d) The property administrator shall investigate the incident to the degree required to reach a valid and supportable conclusion as to (1) the contractor's loss, the liability for damage. destruction, or unreasonable consumption under the terms of the contract, and (2) the course of action required to conclude the adjustment action. When required, the assistance of the quality assurance representative. industrial specialist. insurance officer. legal counsel. or other technician will be secured. When contractor acknowledges liability, the the property administrator shall forward a copy of the credit memorandum or other adjusting document to the administrative officer and auditor. if contracting appropriate, to assure proper credit. If contract provisions and analysis of circumstances establishes that the loss, destruction, or consumption damage. constitutes a risk assumed bv the Government, the property administrator advise the contractor in so shall writing, thereby relieving the contractor of responsibility for the property. A documentation and CODV of the notification to the contractor shall be retained in the Contract Property Control Data File for the contract.

(e) (1) If the property administrator concludes that the contractor is liable for the loss, damage, destruction, or

# GOVERNMENT PROPERTY

unreasonable consumption of Government property, he or she shall forward the complete file with conclusions and recommendations to the contracting officer for review and determination. The file shall contain --

(i) A statement of facts as supported by investigation;

(ii) Recommendations as to the contractor's liability and its amount;

(iii) Recommendations as to action to be taken with regard to third party liability, if appropriate;

(iv) Requirements for disposition, repair, or replacement of damaged property; and

(v) Other pertinent comments.

(2) A copy of the contracting officer's determination shall he furnished to the contractor and the property administrator, and a copy shall be retained in the contracting officer's files. The property administrator's copy shall be filed in the Contract Property Control Data File for the contract when all pertinent actions. such 28 compensation to the Government or repair or replacement of the property, have been completed.

# 18-45.7211-4 Financial reports.

The property administrator is responsible obtaining for financial reports as prescribed 18-45.505-14 in for all contracts assigned to him or her. Reports shall be accumulated, reviewed and distributed as required. Contractors are required to submit separate reports on each contract that contains the property reporting clause (see 18-52.245-73) except as noted in 18-45.7101-4(c).

18-45.7212 Contractor utilization of Government property.

### 18-45.7212-1 Utilization surveys.

(a) The property administrator is responsible for ensuring that the contractor has effective procedures for evaluating Government property utilization. However, when necessary. the contract administration office shall provide specialists qualified to perform technical the portion of utilization surveys to assist the property administrator in determining the adequacy of these procedures.

(b) Upon assignment of an initial contract under which Government-owned plant equipment in particular will be provided to a contractor, the property administrator shall ensure that the contractor has established effective procedures and techniques for controlling its utilization. The property administrator. with the assistance of technical specialists. if necessary, shall evaluate these procedures. Α record of the evaluation shall be prepared and become a part of the property administration file. If the procedures are determined inadequate, the record shall identify the deficiencies and the corrective actions necessary. If the deficiencies are not corrected by the contractor, the property administrator shall promptly refer the matter to the contracting officer.

(c) The property administrator shall perform annual surveys of the procedures contractor's related to utilization of Government-owned plant

18-45.7211-4

equipment. At contractor facilities having a substantial quantity of plant equipment, the surveys should normally be conducted on a continual basis, reviewing equipment utilization records and physically observing a group of preselected items during each portion of the survey. Surveys shall be conducted to the degree determined necessary, considering the findings of prior surveys and the contractor's performance history in identifying and declaring equipment excess to authorized requirements. The contractor shall be required to justify, by specific Government programs, the retention of all Governmentowned plant equipment. The property administrator shall make maximum use of contractor's machine loading data, order boards, production planning records, machine time records, and other production control methods.

(d) The property administrator shall conduct a special survey when a significant change occurs in the contractor's production schedules, such as a termination, completion of a contract, or a major adjustment in a program. Special surveys may be limited to a given department, activity, or division of a contractor's operation.

(e) In the absence of adequate justification for retention, the contractor shall identify and report Government-owned plant equipment in accordance with FAR 45.502(g) and FAR 45.509-2(b)(4). Items that are part of approved inactive package plants or standby lines are exempted from utilization surveys. The contracting officer shall ascertain periodically whether existing authorizations for standby or lay-away requirements are current.

#### 18-45.7212-2 Records of surveys.

The property administrator shall prepare a record incorporating written findings, conclusions, and recommendations at the conclusion of each survey. If appropriate, the property administrator's record may be limited to a statement expressing concurrence with the reports of other specialists. The property administrator shall retain one copy of each record in the property administration file.

#### 18-45.7212-3 Scope of survey.

The property administrator shall consider and use as appropriate the following in preparing for, conducting, and recording the results of the plant equipment utilization surveys:

(a) Identification of contracts under which plant equipment was furnished or acquired.

(b) Number and dollar value of plant equipment items in contractor's possession.

(c) Adequacy of equipment use records.

(d) Identification of contracts for which use of plant equipment is authorized.

(e) Other authorized use (Government or commercial) of the plant equipment, whether required approvals have been obtained, and whether rental payment is required.

(f) Planned machine loadings, including performance of a physical review of selected plant equipment items.

(g) Whether contractor-owned equipment of like function is loaded before loading Government-owned plant equipment.

(h) Items reported by quality assurance representatives or other personnel to be in a questionable use and utilization status.

(i) Items of plant equipment that may be made available for other use by combining the work of two or more machines on a single machine with low utilization rate. In such case the survey record should indicate the date the DD Form 1342, DoD Property Record or equivalent format, was forwarded to the NASA contracting officer.

# 18-45.7213 Statistical sampling.

(a) General. Statistical sampling supports, but does not replace, the property administrator's judgment. It is used to evaluate and determine the performance level for each functional area and category within each property control system. The lot to be examined for defects should encompass the maximum possible number of line items of property, records and documents. All items in the lot must have common characteristics and the same control elements of the property control system must apply or more than one lot will be necessary. Items selected for sampling may be used to examine characteristics of more than one category (i.e., items selected under records may be used to examine characteristics of acquisition, stock control. storage and movement, maintenance, physical inventory, utilization, and consumption).

(b) Use of statistical sampling plans. The Government's risk shall not exceed 10 percent excepting any slight variations due to changes in lot sizes. Table 18-45-2 contains sampling plans for use in achieving a confidence level of 90 percent, i.e., there is 90 percent confidence of rejecting lots having 10 percent or more defectives. The sample sizes to be examined may be determined from either Table 18-45-2A or B.

# (c) Random number table.

(1) Use of a table of random numbers is a common technique for

drawing a sample. (A table is available from the NASA Headquarters Supply and Equipment Management Office (Code JLE).) However randomization techniques I may be applied provided they are defined beforehand in the property administration survey plan and exhibit clear protection against bias. In any event, the number of items in the lot must not be overestimated to avoid selection of random numbers greater than the lot. For example, if the lot is 9,000, only numbers lower than 9,001 shall be selected. Using a random table to draw a random sample requires the following four steps:

(i) First step. A pattern must be established between the numbers in the table and items in the lot to be sampled. It is possible to use the whole random number or any portion thereof. For instance, the number 18,967 may appear in the table. If the lot size is more than 99 but less than 1,000, a three digit number is required and either the first three digits (189) or the last three (967) may be used. If the lot size is more than 999 but less than 10,000, a four digit number is required and either the first four digits (1,896) or the last four (8,967) may be used. Once this pattern has been established, it must be consistently used throughout the sample selection process.

(ii) Second step. A procedure for selecting the numbers from the table must be selected. Any systematic path for going through the table, if the path is clear and does not cross over or reuse any number previously used, is acceptable. It is possible to proceed across rows, down columns, diagonally, clockwise, counter-clockwise, or in some combinations of these methods; however, it is usually desirable to choose a

# CONTRACT PROPERTY MANAGEMENT

simple pattern and go down columns or across rows.

(iii) *Third step.* The starting point in the table shall be selected at random. The most used method is to open the table of random numbers to any page and to use the number indicated by an arbitrarily placed pencil point.

(iv) Fourth step. Beginning at the starting point and proceeding through the table as planned in the second step, record the numbers found in succession in the table, using all or part of the number as planned in the first step. Duplicate numbers shall be skipped. The selection process shall be continued until the required sample size is drawn.

(2) Numbers taken from the random table shall be arranged and recorded in numerical order. If the units of the lot to be examined are already consecutively numbered, the units having the numbers corresponding to those taken from the random table become the sample units. Otherwise, the sample units shall be found by counting to the numbers taken from the random table.

TABLE 18-45-2A

# Sample Limits

SINGLE SAMPLING PLAN

|                 | Sample | Lim          | its            |

PART 18-46 QUALITY ASSURANCE

# SUBPART 18-46.2 CONTRACT QUALITY REQUIREMENTS

### 18-46.270 Contract clauses for space flightrelated operations.

(a) The contracting officer shall insert the clause at 18-52.246-70, Mission Critical Space Systems Personnel Reliability Program, in solicitations and contracts involving critical positions in accordance with NASA Management Instruction 8610.13. The clause, however, shall not be used in procurements for flight crew members or payload specialists when these individuals are covered by other NASA Management Instructions that have screening requirements equivalent to those in NMI 8610.13, Mission Critical Space Systems Personnel Reliability Program (for example, NMI 7100.16, Payload Specialists for Space Transportation System (STS) Missions).

(b) The contracting officer shall insert the clause at 18-52.246-73, Manned Space Flight Item, in solicitations and contracts for manned space flight hardware and flightrelated equipment where it has been determined by the technical requirements initiator that the highest available quality standards are necessary to ensure astronaut safety.

# SUBPART 18-46.4 GOVERNMENT CONTRACT QUALITY ASSURANCE

18-46.470 Solicitation provision and contract clauses.

# 18-46.470-1 Solicitation provision.

The contracting officer shall consider inserting in solicitations the provision at 18-52.246-74, Requirement for Quality and Productivity Improvement (Q/PI) Plan, when in the judgement of the contracting officer and the program manager, a Q/PI plan would be meaningful and appropriate, and the estimated cost of the contract will be more than \$2.5 million, annually. The proposed Q/PI plan shall be evaluated under Other Considerations. Any fee associated with a Q/PI plan shall not be considered as an amount over and above the total fee negotiated for the contract and shall

not, when combined with all other price or fee considerations, exceed the limitations prescribed in FAR 15.903(d)(1).

# 18-46.470-2 Contract clauses.

The contracting officer may insert a (a) clause substantially as stated at 18-52.246-71, Government Contract Quality Assurance Functions, in solicitations and Insert the items involving contracts. quality assurance. the applicable functions (e.g., preliminary inspection, final inspection, acceptance), and the place(s) of performance appropriate for the particular procurement. See FAR 46.401.

(b) The contracting officer shall insert the clause at 18-52.246-75, Quality and Productivity Improvement Plan, in all solicitations containing the provision at 18-52.246-74, Requirement for Quality and Productivity Improvement Plan, and in contracts resulting therefrom.

# SUBPART 18-46.6 MATERIAL INSPECTION AND RECEIVING REPORTS

18-46.670 Introduction.

18-46.670-1 General.

(a) This Subpart 18-46.6 contains procedures and instructions for using, preparing, and distributing the Material Inspection and Receiving Report (MIRR) (DD Form 250 series) and suppliers' commercial shipping/packing lists used to evidence Government procurement quality assurance (PQA).

(b) MIRRs are used by receiving, status control, technical, contracting, inventory control, requisitioning, and paying activities to document PQA, acceptance of supplies and services, and shipments. MIRR's are not required to be used for --

(1) Shipments by subcontractors when direct shipment is not made to the Government;

(2) Shipment of contractor inventory (see FAR 45.601); or

(3) Movement of Government property unless for original acquisition.

(c) To preclude delays in shipments or payments and avoid multiple corrections, contractors are encouraged to consult the cognizant Government representative regarding implementation of this subpart.

# 18-46.670-2 Applicability.

(a) This subpart applies to all deliveries of supplies or services procured by or for NASA except -- (1) Procurements effected under FAR Part 13;

(2) Negotiated subsistence procurements;

(3) Subcontracts under which direct shipment is not made to the Government; or

(4) Contracts for which the end item is a technical or scientific report.

(b) When NASA provides PQA and/or acceptance services for non-NASA activities, the MIRR shall be prepared in accordance with the instructions of this subpart unless the contract specifies otherwise.

#### 18-46.670-3 Usc.

The DD Form 250 is a multi-purpose report used for --

(1) PQA--to provide evidence of PQA at origin or destination;

(2) Acceptance--to provide evidence of acceptance at origin or destination;

- (3) Packing list;
- (4) Receiving;
- (5) Shipping;
- (6) Contractor invoice;

(7) Contractor invoice support; and

(8) Contractor internal use.

#### 18-46.670-4 Application.

(a) The DD Form 250 shall be used for delivery of contract line, contract subline, exhibit line, or exhibit subline items.

(b) If the "shipped to," "marked for," "shipped from," "PQA," and "acceptance" data are the same for more than one shipment made on the same day under the same contract, one MIRR shall be prepared to cover all such shipments, except that, if the volume of the shipments precludes

46-6:1

# QUALITY ASSURANCE

the use of a single car, truck, or other vehicle, either a copy of the single MIRR or a separate MIRR shall be provided for each vehicle.

(c) The DD Form 250 may be, but is not required to be, used for imprest fund purchases, purchase orders, deliverv orders placed against Federal Supply Schedule contracts, delivery orders placed against indefinite-delivery contracts, or delivery orders placed against blanket purchase agreements, or whenever the purchasing, requisitioning, or ordering document adequately provides for inspection and/or acceptance.

# 18-46.670-5 Forms.

(a) Contractors may obtain from the contracting office upon request, and at no cost, MIRR forms required for use in connection with Government contracts.

(b) Contractors may print forms, provided (1) their format and dimensions (DD Forms 250 and 250c--8-1/2 in. x 11 in.) are identical to the MIRR forms printed by the Government and (2) the forms are cast to provide for 78 characters per printed image horizontally and 62 lines vertically border-to-border for the DD Form 250 and 61 lines vertically border-to-border for the DD Form 250c.

# 18-46.671 Procurement quality assurance on shipments between contractors.

(a) The supplier's commercial shipping document/packing list shall indicate performance of required PQA actions at subcontract level. The following entries shall be made on the supplier's commercial shipping document/packing list

Required PQA of listed items has been performed.

Date: (Signature of Authorized Government Representative) (Typed Name and Office)

(b) Distribution for Government purposes shall be one copy --

(1) With shipment;

(2) For the Government representative at consignee (via mail); and

(3) For the Government representative at consignor.

18-46.672 Preparing DD Forms 250 and 250c.

### 18-46.672-1 Preparation instructions.

DD Form 250, Material Inspection and Receiving Report (MIRR), and DD Form 250c, Material Inspection and Receiving Report--Continuation Sheet, shall be prepared as follows:

(a) General.

(1) The date, when required, shall utilize seven spaces consisting of the last two digits of the year, three-alpha month abbreviation, and two digits for the day (e.g., 67AUG07, 87SEP24).

(2) The address, when required, shall consist of the name, street address/P.O. box, city, State, and ZIP code.

(3) When the DD Form 250c is used, the data entered in the blocks at the top of the form shall be identical to the comparable entries in Blocks 1, 2, 3, and 6 of the DD Form 250.

(4) Overflow data of the DD Form 250 shall be entered in Block 16 or in the body of the DD Form 250c with appropriate block cross reference. Additional DD Form 250c sheets solely for continuation of Block 23 data shall not be numbered or distributed as part of the MIRR.

# MATERIAL INSPECTION AND RECEIVING REPORTS

(b) Classified information. Classified information shall not be included in or appear on the MIRR, nor shall the MIRR be classified.

# (c) Block 1--PROC. INSTRUMENT IDEN. (CONTRACT).

(1) Enter the contract number as contained in the contractual document, including any applicable call/order number.

(2) Enter the name of the contracting office immediately below the contract number. This requirement may be satisfied by inclusion of the approved prefix used in the contract number to identify the contracting office.

(d) Block 2--SHIPMENT NO.

(1) The shipment number is composed of a three-alpha-character prefix and a four-character numeric or alpha-numeric serial number.

(i) The prefix shall be controlled and assigned by the prime contractor and shall consist of three alpha characters for each "shipped from" address (Block 11).

(ii) The first shipment under a prime contract from each "shipped from" address shall be numbered 0001; all subsequent shipments under that prime contract shall be consecutively numbered.

(A) Alpha-numerics shall be used when more than 9,999 numbers are required. Alpha-numerics shall be serially assigned, with the alpha in the first position, followed by the threenumeric serial number. The position alpha-numeric sequence shall be (the letters I and O shall not be used) A001 through A999 (10,001 through 10,999); B999 (11,001 through B001 through 11,999); to Z999.

(B) When this series is completely used, numbering shall revert to 0001. (2) The shipment number of the initial shipment shall be reassigned when a "replacement shipment" is involved (see (r)(2)(iv) below).

prime contractor shall (3) The control deliveries and on the last shipment of the contract shall suffix the shipment number with a "Z" in addition to that required for line items (see Block 17). If the contract final shipment is from other than the prime contractor's plant, the prime contractor may elect (i) to direct the subcontractor to suffix "Z" receipt of the the or. on subcontractor final shipment information, (ii) to correct the DD Form 250 covering shipment from the prime the last contractor's plant by adding a "Z" to that shipment number.

(e) Block 3--DATE SHIPPED. Enter the date the shipment is released to the carrier or the date of completion of services. shipment will be If the released after the date of PQA and/or acceptance, enter the estimated date of release. When the date is estimated, enter an "E" after it. Distribution of the MIRR shall not be delayed for entry of the actual shipping date. Reissuance of the MIRR is not required to show the actual shipping date.

(f) Block 4--B/L TCN. When applicable, enter --

(1) The commercial or Government bill of lading number after "B/L"; and

(2) The Transportation Control Number after "TCN."

(g) Block 5--DISCOUNT TERMS. The discount, in terms of percentages and corresponding days allowed, shall be entered as described below:

(1) The contractor may, at its option, enter the discount terms on all copies of the MIRR.

# QUALITY ASSURANCE

(2) When the MIRR is used as an invoice, see 18-46.672-4.

(h) Block 6--INVOICE. Enter the invoice number and date as described below:

(1) The contractor may, at its option, enter the invoice number and date on all copies of the MIRR.

(2) When the MIRR is used as an invoice, see 18-46.672-4.

(i) **Block** 7--PAGE/OF. Consecutively number the pages comprising the MIRR. On each page, enter the total number of pages of the MIRR.

(j) Block 8--ACCEPTANCE POINT. Enter an "S" for origin or "D" for destination as specified in the contract as the point of acceptance. Enter an alphabetic "O" for other if the point of acceptance is not specified in the contract.

(k) Block 9--PRIME CONTRACTOR. Enter the address.

(1) Block 10--ADMINISTERED BY. Enter the address of the contracting office cited in the contract.

(m) Block 11--SHIPPED FROM/CODE/ FOB.

(1) Enter the code and address of the "shipped from" location. If identical to Block 9, enter "See Block 9."

(2) For performance of services line items that do not require delivery of items upon completion of services, enter the code and address of the location at which the services were performed. If the DD Form 250 covers performance at multiple locations or if identical to Block 9, enter "See Block 9."

(3) Enter on the same line and to the right of "FOB" an "S" for origin or "D" for destination as specified in the contract. Enter an alphabetic "O" if the FOB point cited in the contract is other than origin or destination.

(n) Block 12--PAYMENT WILL BE MADE BY. Enter the address of the payment office cited in the contract.

(o) **Block 13--SHIPPED TO.** Enter the address of the consignee as contained in the contract or shipping instructions.

(p) Block 14--MARKED FOR. Enter the "mark for" address and/or other designation as contained in the contract or shipping instructions.

(q) **Block** 15--ITEM NO. Enter the contract line, contract subline, exhibit line, or exhibit subline item identification as forth in set the contract. If four or fewer digits are used, position them to the left of the vertical dashed line. Where a six-digit identification is used, enter the last two digits to the right of the vertical dashed line.

(r) Block 16--STOCK/PART NO./ DESCRIPTION.

(1) Enter, as applicable, for each line item, using single spacing between each line item, the following:

(i) The Federal Stock Number (FSN) or noncatalog number and, if applicable, prefix or suffix. When a number is not provided or it is necessary to supplement the number, include other identification, e.g., manufacturer's name or Federal Supply Code, as published in Cataloging Handbook H4-1, and part numbers. Additional part numbers may be shown in parentheses. Also enter the descriptive noun of the item nomenclature and, if provided, the Government-assigned management/material control code. In the case of equal-kind supply items, the first entry shall be the description without regard to kind; e.g., "Resistor" "Vacuum Tube". or Below this description, enter the contract line item

number in Block 15 and stock/part number followed by the size or type in Block 16.

(ii) On the next printing line, if required by the contract for control purposes, enter the make, model, serial number, lot, batch, hazard indicator, and/or similar description.

(iii) On the next printing line, enter the FEDSTRIP requisition number(s) when provided in the contract or shipping instructions.

(2) In addition to the entries required above, enter on the next line the following as appropriate (when applicable to all line item numbers identified in the MIRR, enter such data only once, after the last line item entry. Entries may be extended through Block 20):

(i) Enter in capital letters any special handling instructions/limits for material environmental control; e.g., temperature, humidity, aging, freezing, and shock.

(ii) When an FSN is required by, but not cited in, a contract and has not been furnished by the Government, shipment may be made without it at the direction of the contracting officer. Enter the authority for the shipment.

(iii) When Governmentfurnished property (GFP) is included with or incorporated into the line item, enter "GFP".

(iv) When the shipment consists of replacements for supplies previously furnished, enter in capital letters "REPLACEMENT SHIPMENT" (see subparagraph (s)(3) below for replacement indicators.)

(v) For items shipped with missing components, enter and complete the following: "Item(s) shipped short of the following component(s): FSN or comparable identification \_\_\_\_\_, Quantity \_\_\_\_\_, Estimated Value \_\_\_\_\_, Authority \_\_\_\_\_."

(vi) When shipment is made of components that were short on a prior shipment, enter and complete the following: "These components were listed as shortages on Shipment Number \_\_\_\_\_, date shipped \_\_\_\_\_."

(vii) When shipments involve containers, drums. cylinders, reels. etc., designated as returnable skids, under contract provisions, enter and the following: "Return complete Item Quantity \_\_\_\_ to \_\_\_\_\_ \_ , . . (Government/ Ownership contractor)."

(viii) Enter shipping container number(s), the type, and the total number of the shipping container(s) included in the shipment.

(ix) The MIRR shall be used to record and report the waivers and deviations from contract specifications, including the source and authority for the waiver or deviation (e.g., the contracting office authorizing the waiver or deviation and the identification of the authorizing document).

(x) For shipments involving discount terms, enter *"DISCOUNT EXPEDITE"* in at least one-inch outline-type letters.

(xi) When test/evaluation results are a condition of acceptance and are not available before shipment, the following note shall be entered if the shipment is approved by the contracting officer: "Note: Acceptance and payment are contingent upon receipt of approved test/evaluation results." The contracting officer shall advise (A) the consignee of the results (approval/disapproval) and (B) the contractor to withhold invoicing pending attachment to its invoice of the approved test/evaluation results.

(xii) The copy of the DD Form 250 required to support payment for destination acceptance (top copy of the with shipment) or four Procedure (ARP) Alternative Release acceptance (additional copy origin Quality Assurance furnished to the (QAR)shall be Representative identified by entering "PAYMENT COPY" approximately one-half-inch outline-type FORWARD TO BLOCK 12 letters with

**ADDRESS**<sup>•</sup> in approximately one-quarterinch letters immediately below. Do not obliterate any other entries.

(xiii) A double line shall be drawn completely across the form following the last entry.

# (s) Block 17--QUANTITY SHIP/REC'D.

(1) Enter the quantity shipped, using the unit of measure indicated in the contract for payment. When a second unit of measure is used for purposes other than payment, enter the appropriate quantity directly below in parentheses.

(2) Enter a "Z" below the first digit of the quantity when --

(i) The total quantity of the line item is delivered, including variations within contract terms; and

(ii) All shortages on items previously shipped short are delivered.

(3) If a replacement shipment is involved, enter below the first digit of the quantity the letter "A" to designate first replacement, "B" for second replacement, and so forth. The final shipment indicator "Z" shall not be used when a final line item shipment is replaced.

(t) Block 18--UNIT. Enter the abbreviation of the unit of measure indicated in the contract for payment. When a second unit of measure is indicated in the contract for purposes other than payment or is used for shipping purposes, enter the abbreviation of the second unit of measure directly below in parentheses. Authorized abbreviations are listed in MIL-STD-129, Marketing and Storage.

(u) **Block 19--UNIT PRICE.** Enter the unit price on all NASA copies whenever the MIRR is used for voucher or receiving purposes.

(v) **Block 20--AMOUNT**. Enter the extended amount when the unit price is entered in Block 19.

(w) Block 21--PROCUREMENT QUALITY ASSURANCE. The words "conform to contract" contained in the printed statements in Blocks A and B relate to obligations contract pertaining to quality and to the quantity of the items on the report. The statements shall not modified. Notes he taking exception shall be entered in Block 16 or on attached supporting documents with appropriate block cross reference.

# (1) "A. ORIGIN."

(i) The authorized Government representative shall --

(A) Place an "X" when applicable in the appropriate PQA and/or acceptance box(es) to evidence origin PQA and/or acceptance (when the contract requires PQA at destination in addition to origin PQA, an asterisk shall be entered at the end of the statement and an explanatory note in Block 16);

(B) Enter the date of signature;

(C) Sign; and

(D) Enter the typed, stamped, or printed name of the signer and office code.

# (2) "B. DESTINATION."

(i) When acceptance at origin is indicated in Block 21A, no entries shall be made in Block 21B.

(ii) When PQA and acceptance or acceptance is at destination, the authorized Government representative shall --

(A) Place an "X" in the appropriate box(es);

(B) Enter the date of signature;

(C) Sign; and

(D) Enter typed, stamped, or printed name and title.

(x) Block 22--RECEIVER'S USE. This block shall be used by the receiving activity (Government or contractor) to denote receipt, quantity, and condition. The receiving activity shall enter in this block the date the supplies arrived; when off-loading or in-checking occurs subsequent to the day of arrival of the carrier at the installation, the date of the carrier's arrival is the date received for purposes of this block.

(y) **Block 23--CONTRACTOR USE ONLY.** This block is provided and reserved for contractor use.

#### 18-46.672-2 Consolidated shipments.

When individual shipments are held at the contractor's plant for authorized transportation consolidation to a single destination on a single bill of lading, the applicable DD Forms 250 may be prepared at the time of PQA or acceptance prior to the time of actual shipment (see Block 3).

#### 18-46.672-3 Correction instructions.

When, because or errors or omissions, it is necessary to correct the MIRR after distribution has been made, it shall be revised by correcting the original master and distributing the corrected form. The corrections shall be made as follows:

(a) Circle the error and place the corrected information in the same block. If space is limited, enter the corrected information in Block 16, referencing the error page and block.

(b) The words "CORRECTIONS HAVE BEEN VERIFIED" shall be entered on page 1. The authorized Government representative shall date and sign immediately below the statement.

(c) MIRR's shall not be corrected for Block 19 and 20 entries.

(d) Pages of the MIRR requiring correction shall be clearly marked "CORRECTED COPY", avoiding obliteration of any other entries. Even though corrections are made on continuation sheets only, page 1 shall also be marked "CORRECTED COPY".

(e) Page 1 and only those continuation pages marked "CORRECTED COPY" shall be distributed to the initial distribution. A complete MIRR with corrections shall be distributed to new addressee(s) created by error corrections.

# 18-46.672-4 Invoice instructions.

Contractors are encouraged to use copies of the MIRR as an invoice in lieu of a commercial form, but are not required to do so. When the MIRR is used as an invoice, four copies shall be prepared and forwarded to the payment office as follows:

(a) Complete Blocks 5, 6, 19, and 20.

(b) Mark, in letters approximately one inch high, the first copy "ORIGINAL INVOICE" and the remaining three copies "INVOICE COPY".

(c) Forward the four copies to the payment office (Block 12 address).

# 18-46.672-5 Packing-list instructions.

Copies of the MIRR may be used as a packing list. If so, the packing list copies shall be in addition to the copies of the MIRR required for distribution (see 18-46.673) and shall be marked "PACKING LIST".

#### 18-46.672-6 Receiving instructions.

When the MIRR is used for receiving purposes, procedures shall be as prescribed by local directives. If PQA and acceptance or acceptance of supplies

# QUALITY ASSURANCE

the

the

by

is required upon arrival at destination, see Block 21B for instructions.

18-46.673 Distribution of DD Forms 250

(a) DD Forms 250 and 250c shall be

prescribed

(b) The contractor is responsible for

distributing DD Forms 250 and 250c in

accordance with the provisions of the

distributed in accordance with

contract or instructions of the contracting officer.

## 18-46.674 Contract clause.

The contracting officer shall insert the clause at 18-52.246-72, Material Inspection and Receiving Report, in solicitations and contracts, except those using small purchase procedures or where the only deliverable items are technical or scientific reports. Insert the number of copies to be prepared. Paragraph (a) may be changed to specify advance copies or separate distribution of the DD Form 250.

and 250c.

procedures

installation.

# SUBPART 18-46.7 WARRANTIES

18-46.703 Criteria for use of warrantics.

### 18-46.703-70 Additional criteria.

In deciding whether to use a warranty clause, at least the following factors shall be considered in addition to those at FAR 46.703:

(a) Cost of correction or replacement, either by the contractor or by another source, in the absence of a warranty.

(b) Operation of the warranty as a deterrent against the furnishing of defective or nonconforming supplies.

(c) Whether the contractor's present quality program is reliable enough to provide adequate protection without a warranty, or, if not, whether a warranty would cause the contractor to institute an effective and reliable quality program.

(d) Reliance on "brand-name" integrity.

(e) Whether a warranty is regularly given for a commercial component of a more complex end item.

18-46.704 Authority for use of warranties.

(a) A warranty clause shall be used when it is found to be in the best interests of the Government, after an analysis of the factors listed in 18-46.703-70 and FAR 46.703.

(b) Except for the warranty clause for commercial items covered in FAR 46.709

and FAR 46.710(a)(2), and warranties Federal, military. contained in or construction specifications, the decision to use a warranty clause or to include a warranty provision in a specification other than a Federal, military, or construction specification shall be made only upon the written authorization of the procurement officer or a designee. This decision may be made either for individual procurements or for classes of procurements.

(c) Warranties required by applicable architect-engineer specifications shall be included in construction contracts.

18-46.709 Warranties of commercial items.

### 18-46.709-70 Limitation.

In procurements involving a commercial service of supply or Or item construction, the contracting officer may the solicitation and include in warranty clause that is contract a standard or customary in the trade, or that is substantially similar to and not in excess of a standard or customary but only if the trade warranty, contracting officer, after reviewing the factors listed in 18-46.703-70 and FAR 46.703, decides that inclusion of such a clause is in the Government's best interest.

#### 18-46.770 Administration.

When the contracting officer is notified of a defect in warranted items, the contracting officer should ascertain whether the warranty is currently in effect and ensure that the contractor is given proper and timely notice of the defect. •

## PART 18-47 TRANSPORTATION

# SUBPART 18-47.2 CONTRACTS FOR TRANSPORTATION OR FOR TRANSPORTATION-RELATED SERVICES

# 18-47.200 Scope of subpart.

#### 18-47.200-70 Charter of aircraft.

When procuring aircraft by charter, contracting officers shall comply with NHB 7900.3, Aircraft Operations Management Manual.

# SUBPART 18-47.3 TRANSPORTATION IN SUPPLY CONTRACTS

18-47.304 Determination of delivery terms.

18-47.304-3 Shipments from CONUS for overseas delivery.

18-47.304-370 NASA export privilege.

NASA has certain export licensing privileges for moving commodities to foreign destinations. Advice should be obtained from the transportation officer in order to make full use of these privileges.

18-47.305 Solicitation provisions, contract clauses, and transportation factors.

18-47.305-10 Packing, marking, and consignment instructions.

contracts providing for delivery In shipment under f.o.b. origin and Government bills of lading, consignment instructions may be limited to the mail address of the consignee (receiving provided the contract activity). instructions state: "Shipment other than mail shall be consigned as indicated on the Government bill of lading furnished Various receiving to the contractor." activities may have different consignment points for the various transportation media or for particular carriers within a medium, depending on the weight, shape, or nature of the shipment size. involved.

#### 18-47.305-13 Transit arrangements.

(a) When the provision at FAR 52.247-56 is used, the solicitation shall state that offers will be evaluated on the basis of the lowest overall cost to the Government, including transportation costs to NASA from point of origin to final destination, taking into account any applicable transit privileges.

(b) If the nature of the procurement is such that carload or truckload shipments might be made by the contractor from one point (such as a subcontractor's plant) to another for processing or fabrication and deliverv to the Government. solicitations shall reauire the contractor to furnish information that will enable the Government to benefit from any transit privilege that might apply in shipment to final destination.

#### 18-47.305-70 NASA contract clauses.

(a) The contracting officer shall insert the clause at 18-52.247-70, Returnable Containers, in contracts involving the purchase of gas or other supplies in contractor-furnished returnable, reusable containers, if the contractor retains title to the containers.

(b) The contracting officer may insert a clause substantially as stated at 18-52.247-72, Advance Notice of Shipment, in solicitations and contracts when the f.o.b point is destination and special Government assistance is required in the delivery or receipt of the items. Insert the number of work days prior to shipment that advance notice is required, the items to be shipped, and the individual(s) to receive notification.

(c) The contracting officer may insert a clause substantially as stated at 18-52.247-73, Shipment by Government Bills of Lading, in f.o.b. origin solicitations and contracts. Insert the name, title, mailing address, and telephone number of the designated transportation officer or other official delegated responsibility for GBLs.

~

### SUBPART 18-47.5 OCEAN TRANSPORTATION BY U.S.-FLAG VESSELS

18-47.506 Procedures.

18.47.506-70 Compliance with the Cargo Preference Act.

The transportation officer in each (a) field installation shall establish and maintain a register to reflect adherence the Cargo Preference Act. The to register shall contain data related to shipments made by the installation and Where no NASA contractors. bv transportation officer is available, it shall be maintained by the contracting register shall The contain office. pertinent details of ocean shipments, including, but not limited to, the ports of origin and destination of shipments, commodity descriptions, and gross weight, freight revenue, name of vessel, operator of vessel, and date of loading. The register shall be maintained current and organized so that adherence to the Cargo Preference Act can be ascertained at all times. Insofar as is practicable, compliance with the 50-percent minimum requirements of the Cargo Preference Act shall be maintained on a quarter-year basis; any deficiencies in maintaining compliance shall be corrected by the end of the calendar year.

(b) On the basis of the registers maintained under paragraph (a) above, reflecting ocean reports quarterly shipments shall be submitted to the Division of National Cargo, Office of Maritime Market Development, Department of Administration. Transportation, Washington, DC, 20590 (see FAR 47.506(d)). Negative reports are required when applicable. Reports shall be made by the transportation and contracting officers officers maintaining the responsible for registers.

#### 18-47.507 Contract clauses.

The clause at FAR 52.247-64 shall be used as prescribed in FAR 47.507. When it is used, it shall be used with the appropriate alternate. . .

## 18-47.7001 Contract clause.

The contracting officer shall insert the clause at 18-52.247-71, Protection of the

Florida Manatee, in solicitations and contracts when deliveries or vessel operations, dockside work, or disassembly functions under the contract will involve use of waterways inhabited by manatees (endangered marine mammals). The clause shall be included also in applicable subcontracts (including vendor deliveries).

#### PART 18-48 VALUE ENGINEERING

### SUBPART 18-48.1 POLICIES AND PROCEDURES

#### 18-48.102 Policies.

(a) The exemptions permitted under FAR
48.102(a) are granted on a case-by-case basis, or for specific classes of contracts, by
the Associate Administrator for Procurement.

(b) Profit or fee shall be excluded when calculating instant or future contract savings, except that in calculating instant or future contract savings on firm-fixed-price contracts when the parties have not set out a specific figure for profit, the contracting officer shall use the total contract price as the basis for calculating the savings.

(c) The FAR requires agencies to establish procedures for funding and payment of the contractor's share of collateral savings and future contract savings. Therefore, the contracting officer shall notify the responsible technical official of the potential for awarding the contractor future or collateral savings if the submitted value engineering change proposal (VECP) (See 18-48.103.) Upon is accepted. acceptance, the contracting officer shall obtain the concurrence of the program office and amend the instant contract to reflect payment of future or collateral savings.

# 18-48.103 Processing value engineering change proposals.

Upon receipt of a VECP, the contracting officer shall promptly forward it to the

technical officer responsible for the contract, indicating--

(a) The date the VECP was received;

(b) The date by which the contractor must be informed of the Government's acceptance or rejection of the VECP unless additional time is required for evaluation;

(c) The date by which the contracting officer must know of the technical officer's decision in order to timely accept or reject the VECP;

(d) The need for information required to inform the contractor if the VECP is to be rejected or if additional time is needed for evaluating the VECP;

(e) The potential for awarding concurrent, future, or collateral savings to the contractor if the VECP is accepted;

(f) That if the VECP is accepted, precise information will be needed with regard to the type of savings, Government costs, etc., that can be expected from its acceptance;

(g) The need for a procurement request setting forth the specification changes to be used in any contract modification accepting the VECP in whole or in part; and

(h) The need for additional funds if acceptance of the VECP results in negative instant contract savings.

### 18-48.104 Sharing arrangements.

### 18-48.104-2 Sharing collateral savings.

The contracting officer may make the determination that the cost of calculating and tracking collateral savings will exceed the benefits to be derived.

#### SUBPART 18-48.2 CONTRACT CLAUSES

18-48.201 Clauses for supply or service contracts.

#### 18-48.201-70 NASA conditions.

(a) General. The Associate Administrator for Procurement may exempt a contract or a class of contracts from the requirements of FAR Part 48.

(b) Value engineering incentive. Unless the chief of the contracting activity authorizes its inclusion, the contracting officer shall not include the VE incentive clause in solicitations and contracts that fall under the exemptions at FAR 48.201(a)(1) through (5). With respect to the sixth exception (FAR 48.201(a)(6)), the procurement officer may not authorize inclusion of a VE clause in a contract or class of contracts exempted
by the Associate Administrator for Procurement.

(c) Value engineering program requirement. NASA contracting officers shall insert the VE program requirement clause (the clause at FAR 52.248-1 used with its Alternate I or II) in (1) initial production contracts for major systems and (2) major systems R&D contracts for full-scale development, unless the contracting officer determines that its use is inappropriate and documents the file to reflect that The VE program determination. requirement clause (FAR 52.248-1, Value Engineering, used with its Alternate I or II) is appropriate for an R&D major systems contract only if the contract specifications contain detailed requirements that, in the contracting officer's judgment, lend themselves to VE.

(d) Research and development. The contracting officer may not insert either the VE incentive clause (FAR 52.248-1, Value Engineering) or the VE program requirement clause (FAR 52.248-1, Value Engineering, used with its Alternate I or II) in an R&D contract where the statement of work is essentially an incorporation by reference of the prospective contractor's proposal. If any other part of the statement of work in such a contract reflects a Government specification that might profit from or be improved by application of VE techniques, the contracting officer shall consider inserting the VE incentive clause (FAR 52.248-1, Value Engineering) or VE program requirement clause (FAR 52.248-1, Value Engineering, used with its Alternate I or II), to refer to that part.

### PART 18-49 TERMINATION OF CONTRACTS

### SUBPART 18-49.1 GENERAL PRINCIPLES

18-49.101 Authorities and responsibilities.

#### 18-49.101-70 Appointment/delegation.

(a) Heads of installations shall appoint a termination contracting officer (TCO) (see FAR 2.101) to perform specific duties relating to contract termination as one of that individual's primary functions. Such duties should include --

(1) Receiving and reviewing NASA Forms 1412, Termination Authority;

(2) Reviewing the contract and related documents before issuing the notice of termination, to ensure protection of the Government's rights under the contract;

(3) Issuing notices of termination, reinstatement, and recision to contractors;

(4) Assigning termination docket control numbers;

(5) Developing, maintaining, and managing basic controls relating to contract termination and settlement actions; and

(6) Carrying out the duties, functions, and responsibilities described in FAR Part 49 and this Part 18-49.

(b) Contracting offices shall utilize the services of the Department of Defense and other Government agencies whenever to administer and possible negotiate scttlement of terminated contracts. Delegation of the termination function shall be made in accordance with FAR Subpart 42.2 and Subpart 18-42.2 of this Regulation.

#### 18-49.101-71 Termination authority.

NASA Form 1412, Termination Authority, is prescribed for use by NASA installations when initiating action to terminate a contract for convenience or default. The project manager or the activity initiating the procurement request should initiate the action by completing NASA Form 1412 and submitting it to the contracting officer.

18-49.102 Notice of termination.

# 18-49.102-70 Prior clearance of significant contract terminations.

(a) Before any notice or information concerning proposed contract а termination involving a reduction in employment of 100 or more contractor employees is released to a contractor, prior NASA Headquarters clearance of the information release is required; release of information to Congress or the public responsibility of NASA is the Headquarters through its liaison point designated in paragraph (b) below. In a labor surplus area, a reduction of fewer than 100 may be significant and, if so, should be similarly cleared.

(b) The contracting officer shall submit the following information to the Office of Legislative Affairs, NASA Headquarters (Code LB):

(1) Contract number.

(2) Date of award.

(3) Type of contract.

(4) Name of company.

(5) Nature of contract or end item.

(6) Reasons for the termination.

(7) Contract price of items terminated.

(8) Total number of contractor employees involved, including the Government's estimate of the number that may be discharged.

(9) Anticipated impact on the company and the community.

(10) Name of the community affected.

(11) Area labor category.

(12) Whether contractor is large or small business.

(13) Any known impact on disadvantaged employment programs.

(14) Total number of subcontractors involved and the impact in this area, if known.

(15) Unclassified draft of suggested press release.

(c) After the decision has been made to terminate a contract, the contracting officer shall immediately request clearance to release the information. Pending receipt of the clearance, "For Official Use Only" handling shall be used unless classified information is involved. The contracting officer shall furnish copies of the request to the Office of Legislative Affairs (Code LB) and the cognizant program office.

(d) The Office of Legislative Affairs (Code LB) shall act promptly on the request (not days after receipt) to avoid the accrual of termination costs.

18-49.105 Duties of termination contracting officer after issuance of notice of termination.

18-49.105-70 Termination docket checklist.

The termination contracting officer shall complete NASA Form 1413, Termination Docket Checklist, to ensure adequacy of records under FAR 49.105. 18-49.110 Settlement negotiation | memorandum.

Formats for negotiation memoranda for settlements requiring Settlement Review Board action appear in 18-49.603-70.

18-49.111 Review of proposed settlements.

### 18-49.111-70 Settlement Review Boards.

Procurement officers at each NASA installation shall establish a Settlement Review Board (the Board) to review proposed settlements or determinations as required by 18-49.111-71(a). Each Board should be composed of at least three qualified employees of the installation with broad business and contracting experience. Each Board should include a lawyer, an engineer or industrial specialist, and, in appropriate cases, an accountant. Three members of the Board shall constitute a quorum; the Board may act by a majority of the members present. No person may serve as a member of a Board in reviewing a settlement in which that member has participated.

## 18-49.111-71 Required review and approval.

(a) When required. Before executing a settlement agreement, issuing a determination of the amount due under the termination clause of a contract, or approving or ratifying a subcontract settlement, the TCO shall submit it for review and approval by the Board if --

(1) It involves \$100,000 or more (see FAR 49.002(d));

(2) It is limited to adjustment of the fee of a cost-reimbursement contract or subcontract and (i) in the case of a complete termination, the fee, as adjusted, is \$50,000 or more, or (ii) in the case of a partial termination, the

#### GENERAL PRINCIPLES

fee, as adjusted, with respect to the terminated portion of the contract or subcontract is \$50,000 or more;

(3) The procurement officer concerned determines that a review is desirable; or

(4) The TCO desires review by the Board.

(b) Submission of information. The TCO shall submit to the Board the Termination Settlement Supplemental Agreement and documentation. The supporting documentation should include copies of (1) the contractor's or subcontractor's (2) the audit settlement proposal. termination inventorv (3) report. SF 1424, consolidated schedules, (4) Inventory Disposal Report, (5) the TCO's negotiation memorandum explaining the settlement (see FAR 49.110), and (6) the opinion of any other Board that previously reviewed the settlement. The Board will prescribe the number of copies and may require the submission of additional information.

### 18-49.111-72 Scope of review.

The function of the Board is to judge the reasonableness of the proposed settlement agreement or determination. The Board may vary the scope and intensity of its review as circumstances warrant. While it is not intended that the Board examine in detail every element of the proposed settlement agreement or determination, the Board may review some elements to assure its overall reasonableness.

### 18-49.111-73 Action by the Board.

The Board shall submit to the TCO a written opinion approving or disapproving the proposed settlement agreement or determination. Failure of the Board to submit a written opinion within 30 days after submission to the Board of all the information required under 18-49.111-71(b) shall operate as an approval.

#### 18-49.111-74 Subcontracts.

TCO may authorize the contract A administration office cognizant of an subcontractor grant upper-tier to ratification, including approval or necessary Board approvals, of proposed subcontractor settlements described in FAR 49.108-3(c), that are first reviewed and referred by the prime contractor to the TCO. This procedure may be used only specified contracts and is not for applicable to settlements between the immediate and its contractor subcontractors.

### SUBPART 18-49.5 CONTRACT TERMINATION CLAUSES

18-49.505 Other termination clauses.

18-49.505-70 NASA contract clause.

The contracting officer shall insert the clause at 18-52.249-72, Termination (Utilities), in all solicitations and contracts for utilities services.

18-49.603 Formats for termination for convenience settlement agreements.

Termination contracting officers (TCOs) must use the format shown in 18-49.603-70 for the settlement memorandum (see FAR 49.110). Contractors and subcontractors are encouraged to use this format appropriately modified to cover subcontract settlements submitted for review and approval.

# 18-49.603-70 Termination Contracting Officer's Settlement Memorandum.

(a) General information. The TCO shall include the following information regarding the contractor, contract, and termination notice:

(1) *Identification.* TCOs shall identify the purpose and content of the memorandum.

(i) The TCO shall give the name and address of the contractor and discuss any pertinent affiliation between prime contractors and subcontractors relative to the overall settlement.

(ii) The TCO shall list the names and titles of contractor and Government personnel who participated in the negotiation.

(2) Description of terminated contract. The TCO shall state the --

(i) Date of contract;

- (ii) Contract number;
- (iii) Type of contract;

(iv) General description of contract items;

(v) Total contract price; and

(vi) Applicable contract termination provisions and clause.

(3) *Termination notice*. The TCO shall reference the termination notice and state --

(i) The effective date of termination;

(ii) The scope and nature of termination (complete or partial);

(iii) The items terminated;

(iv) The unit prices;

(v) The total price of items terminated for fixed-price contracts or the estimated cost and fee applicable to items terminated for cost-reimbursement type contracts;

(vi) Whether the termination notice was amended and, if so, why;

(vii) Whether the contractor stopped work on the termination effective date (if it did not, furnish details) and whether subcontracts were terminated promptly;

(viii) Any redirection of common items and return of goods to the contractor's suppliers; and

(ix) The extent of contract performance and timely deliveries by the contractor.

(b) Contractor's settlement proposal. The TCO shall summarize the contractor's settlement proposal. The summary shall include the following:

(1) Date and amount. The TCO shall identify the date and location where the claim was filed and its gross amount (if interim settlement proposals were filed, information shall be furnished for each claim).

(2) Basis of claim. The TCO shall identify the basis of the claim, e.g., inventory, total cost, or other basis. The TCO shall explain any approvals granted in connection with submission on other than an inventory basis.

(3) *Examination of proposal.* The TCO shall identify the types of reviews

made and by whom (audit, engineering, legal, or other).

Tabular summary of (c) contractor's claim. The TCO shall summarize the proposed settlement in tabular form. The summary shall include the cost elements/items, the amounts claimed, the Government recommended position (including auditor and technical personnel recommendations), and the negotiated settlement amounts. This summary shall include, if appropriate, the previous reimbursed unreimbursed and costs applicable to the prime contractor and subcontractor, previous profit/fees paid and unpaid; settlement cost less disposal credit or other credits, and recapitulation of previous settlements. The TCO shall expand the format to include field recommendations that will be considered.

(d) Settlement summary. The TCO shall address the settlements reached on the items in subparagraphs (1) through (14) following:

(1) Contractor's cost.

(i) If the settlement was negotiated on the basis of individual items, the TCO shall specify the factors and the consideration given with respect to each item.

(ii) If the auditor's final report was not available for consideration, the TCO shall state the circumstances.

(iii) The TCO shall elucidate the tabular summaries with comment.

(iv) In the case of a lump sum settlement, the TCO shall discuss the basis for each element of cost and profit/fee.

(v) The TCO shall explain any unusual items of cost.

(vi) The TCO shall discuss any important adjustments made to costs claimed or any significant amounts in relation to the total claim. (vii) If a partial termination is involved, the TCO shall state whether the contractor has requested an equitable adjustment in the price of the continued portion of the contract.

(viii) The TCO shall discuss any unadjusted contractual changes included in the settlement.

(ix) The TCO shall discuss whether or not a loss would have been incurred and explain any adjustment made for the loss.

(x) The TCO shall furnish other information explaining the recommended settlement to the Settlement Review Board or any other reviewing authority.

(2) Profit/Fee.

(i) The TCO shall explain the basis and factors considered in arriving at an equitable profit under a fixed-price contract.

The TCO shall explain (ii) adjustments the to the fixed fee. identify the basis used (such 25 percentage of completion), and describe the factors considered in arriving at an equitable fee under a cost-reimbursement type contract. The TCO shall include any tabular summaries or breakdowns deemed helpful to an understanding of the process.

(3) Settlement expenses. The TCO shall discuss and summarize those expenses not included in the audit.

(4) Subcontractor settlements. The TCO shall identify the number and dollar amount of any settlements approved by the TCO and concluded by the contractor under delegation of authority.

(5) **Partial payments.** The TCO shall furnish the total amount of any partial payments.

(6) **Progress or advance payments.** The TCO shall furnish the total of unliquidated progress or advance payments.

(7) Claims of the Government against the contractor included in settlement agreement reservations. The

### CONTRACT TERMINATION FORMS AND FORMATS

TCO shall list any outstanding claims the Government has against the contractor regarding the terminated contract.

(8) Assignments. The TCO shall list any assignments, identifying the name and address of each assignee.

(9) *Disposal credits*. The TCO shall furnish information as to any applicable disposal credits and quantify them.

TCO (10) Plant clearance. The shall state whether all plant clearance actions have been completed and all inventory sold, retained, or otherwise properly disposed of in accordance with applicable plant clearance regulations. The TCO shall discuss any unusual matters pertaining to plant clearance. The TCO shall attach a consolidated plant clearance report, if closing applicable.

(11) Government property. The TCO shall state whether all Government property has been accounted for. (12) Special tooling. The TCO shall discuss the disposition of any special tooling, if applicable.

(13) Summary of settlement. The TCO shall summarize the complete or partial settlement in tabular form. The summary shall include, at a minimum, the amount claimed and allowed for contractor and/or subcontractor changes, disposal, prior payment credits, and contract price.

(14) *Exclusions.* The TCO shall describe any proposed reservation of rights to the Government or to the contractor.

(e) **Recommendation.** The TCO shall state (1) the amount of the gross settlement recommended and (2) that it is fair and reasonable to the Government and the contractor.

(f) **Signature.** The TCO shall sign and date the memorandum.

## SUBPART 18-50.2 DELEGATION OF AND LIMITATIONS ON EXERCISE OF AUTHORITY

## 18-50.202 Contract adjustment boards.

NMI 1152.5, Contract Adjustment Board, establishes the Contract Adjustment Board as the approving authority to consider and dispose of requests from NASA contractors for extraordinary contractual actions.

 $\sum_{i=1}^{n}$ 

#### SUBPART 18-50.3 CONTRACT ADJUSTMENTS

18-50.305 Processing cases.

# 18-50.305-70 Submission of request to the Contract Adjustment Board.

(a) After investigating the facts and issues relevant to the contractor's request, the contracting officer shall forward the request to the Chairman, Contract Adjustment Board (CAB), NASA Headquarters (Code GG), including in the forwarding letter --

(1) The nature of the case;

(2) The disposition recommended for the request; and,

(3) If contractual action is recommended, the contracting officer's opinion that the action will facilitate the national defense.

(b) The forwarding letter shall enclose the contractor's request, all supporting material submitted by the contractor, and any material the contracting officer has obtained while investigating the facts and issues relevant to the request. The forwarding letter and all enclosures shall be submitted in duplicate. Any classified information in the material forwarded shall be so identified. The CAB, acting through its Counsel, may further investigate the facts and issues involved to obtain from the contractor, the contracting officer, or others any additional facts and evidence, necessary to make a determination on the contractor's entitlement to the relief requested or to other equitable relief.

18-50.306 Disposition.

## 18-50.306-70 Implementation of the Contract Adjustment Board's decision.

Copies of the CAB's decision shall (a) be transmitted to the contracting officer, who shall take such action as is authorized by the decision. If the CAB's decision is to reject the contractor's relief, the contracting request for officer shall advise the contractor of that decision.

(b) Except as provided in paragraph (c) below, immediately upon execution of a contract or contract modification or amendment implementing the CAB decision, the contracting officer shall forward two copies of the contractual document to the CAB Chairman, marked for the attention of the Counsel, for retention with the CAB's permanent files.

Contracts or contract modifications (c) or amendments for which NASA Headquarters approval is otherwise required under the FAR or this Regulation shall be that approval. After forwarded for approval has been received. the with contracting officer shall comply paragraph (b) above.

· \_--

## 18-50.402 General.

(a) The document that grants authority for use of indemnification in NASA is a "Memorandum of Decision Under Public Law 85-804" which must be signed by the Administrator. It defines the unusually hazardous risks and specifies the terms that must be met by an application to allow granting of indemnification to a requestor. Approval of requests to exercise the authority granted by this Decision shall be in the form of an "Approval Under Public Law 85-804" which shall be signed by the Administrator. Should a circumstance arise where a contractor's request is beyond the current Decision, but scope of any indemnification is appropriate, a combined "Memorandum of Decision and Approval Under Public Law 85-804" may be used which shall be signed by the Administrator.

(b) The Associate Administrator for Procurement (Code HS) is the responsible office for (i) the development and maintenance of the decision document(s) and (ii) assuring that approval document(s) prepared by contracting officers are in compliance with the scope of the relevant decision, applicable regulation and policy. These documents shall be concurred in by
the General Counsel, Comptroller, Associate Administrator for Procurement, Associate Deputy Administrator and Deputy Administrator, as appropriate, before presentation to the Administrator.

# 18-50.403 Special procedures for unusually hazardous or nuclear risks.

#### 18-50.403-1 Indemnification requests.

In addition to the information required by FAR 50.403-1(a), the contractor's request

for indemnification shall include a copy of the relevant third-party comprehensive liability policies and products liability policies or the equivalent.

# 18-50.403-2 Action on indemnification requests.

When a contracting officer concludes that a request under FAR 50.403-1 is appropriate for approval by the Administrator, the contracting officer shall complete the actions under FAR 50.403-2(a). The contracting officer's findings, analysis and the recommended "Approval Under Public Law 85-804" shall be forwarded to the Associate Administrator for Procurement (Code HS) for review and final processing through appropriate channels to the Administrator. Code HS shall seek the necessary concurrences and present the applicable document(s) to the Administrator.

#### 18-50.403-3 Contract clause.

#### 18-50.403-370 NASA contract clauses.

(a) To indemnify the contractor against unusually hazardous or nuclear risks, the contracting officer shall, when authorized in accordance with FAR Subpart 50.4 and this Subpart 18-50.4, insert the clause at 18-52.250-70, Indemnification Under Public Law 85-804--NASA Contracts, in fixedprice contracts, in lieu of the clause prescribed at FAR 50.403-3. If the contract is a cost-reimbursement contract, the contracting officer shall use the basic clause at 18-52.250-70 with its Alternate I.

(b) The contracting officer shall insert the clause at 18-52.250-72, Space Activity--Unusually Hazardous Risks, in all contracts containing the appropriate clause version at 18-52.250-70 unless the Administrator approves a different definition of unusually hazardous risks to be used in a particular contract.

# 18-50.403-70 Reporting and records requirements.

(a) Concurrent with including indemnification provisions in any NASA prime contract pursuant to the authority of an indemnification granted in the "Approval Under Public Law 85-804" by the Administrator, the contracting officer shall submit a report directly to the Contract Adjustment Board that--

(1) References and provides two copies of the Administrator's "Approval Under Public Law 85-804";

(2) Provides two copies of any clause deviations from the clauses prescribed at 18-50.403-370;

(3) Provides the contract number and date of award;

(4) If applicable, provides the contract modification number and date; and

(5) Complies with the reporting requirements of Public Law 85-804, 50 U.S.C. 1434, and Executive Order 10789, which currently states--

"With respect to actions which involve actual or potential cost to the United States in excess of \$50,000 the report shall ...

(1) name the contractor;

(2) state the actual cost or estimated potential cost involved;

(3) describe the property or service involved; and

(4) state further the circumstances justifying the action taken."

(b) The Contract Adjustment Board shall maintain two copies of each "Approval Under Public Law 85-804" required by FAR 50.403-2(b); two copies of the applicable "Memorandum of Decision Under Public Law 85-804"; and, for a period deemed appropriate by the Board, one copy of each report submitted by contracting officers.

## 18-50.470 Lead NASA installation.

(a) Contractors applying for indemnification shall be responsible for initially determining which NASA installation has the most significant amount of the contractor's procurement contracts. measured by either dollars or numbers. related to NASA space activities rather than to total NASA business. The indemnification request should be submitted to the procurement officer for that installation, who will then designate a cognizant contracting officer. This determination should be done at the contractor's highest level necessary to prevent duplicate requests from associate divisions, subsidiaries, or central offices of the contractor. NASA reserves the right to reassign a lead installation for purposes of processing indemnification requests made under this Regulation.

(b) Relying on the contractor's submission, the receiving contracting officer shall process the request using the procedures in FAR Subpart 50.4 and this Subpart 18-50.4. The receiving installation will become the lead installation and will remain so indefinitely. Lead installation designation may change to another installation if the losing and gaining procurement officers agree to the change. For example, a new award may so substantially alter the focus of a contractor's procurement contracts related to space activities toward a different installation that a change may be appropriate. Should a change occur in the lead installation, all records related to indemnification of that contractor shall be transferred to the gaining installation.

## NASA FAR SUPPLEMENT

.

· .....

#### PART 18-51 USE OF GOVERNMENT SOURCES BY CONTRACTORS

### SUBPART 18-51.1 CONTRACTOR USE OF GOVERNMENT SUPPLY SOURCES

#### 18-51.101 Policy.

(a) NASA installations shall establish internal control over contractor use of GSA and other Federal supply sources.

(b) Use of official Government mailing privileges by NASA contractors is covered in NMI 1450.11, NASA Mail Management Program.

# 18-51.102 Authorization to use Government supply sources.

(a) In addition to considering the requirements of FAR 51.102(a), the contracting officer shall consider the potential for abuse by contractors authorized access to Government supply sources.

(b) The contracting officer shall forward letters of authorization to the installation's Supply and Equipment Management Officer, Attention: Activity Address Code Coordinator, who will forward them to the Supply and Equipment Management Office,
NASA Headquarters (Code JLE), for verification and transmittal to GSA. Letters of authorization forwarded to Headquarters must be accompanied by the supporting determination and findings, which will not be forwarded to GSA.

(c) Substantially the following format shall be used for letters authorizing contractor use of Government supply sources: SUBJECT: Authorization to Lease, Rent, or Purchase from General Services Administration (GSA) Supply Sources

| (Contractor's name) |  |
|---------------------|--|
| (Address)           |  |

(1) You are hereby authorized to act for the Government in the following matters:

(i) The acquisition of supplies and/or services under Contract No. \_\_\_\_\_\_ available for purchase by Government agencies either directly from GSA stock or under Federal Supply Schedules, including GSA nonmandatory ADTS/ADP schedule contracts and GSA ADP requirements contracts, subject to the limitations set forth in this authorization.

(ii) The leasing or rental of equipment for use on Contract No. \_\_\_\_\_\_ available for lease or rental by Government agencies under Federal Supply Schedules, including GSA nonmandatory ADTS/ADP schedule contracts and GSA ADP requirements contracts, subject to the limitations set forth in this authorization.

(iii) The issuance of tax exemption certificates in lieu of the payment of State or other taxes for which the Government is not liable on supplies or services purchased under this authorization.

(2) (i) Purchase orders under GSA schedules and contracts shall be placed in accordance with the terms and conditions of the GSA schedule or contract and this authorization. A copy of this authorization shall be attached to the order (unless a copy was previously furnished to the GSA contractor) and shall contain the following statement:

> This order is placed on behalf of the National Aeronautics and Space Administration in furtherance of United States Government Contract No.\_\_\_\_\_, pursuant to written authorization dated \_\_\_\_\_, a copy of

NFSD 89-0

which (is attached) (you have on file). In the event of any inconsistency between the terms and conditions of this order and those of the applicable GSA schedule/contract, the latter will govern.

(ii) Orders for items in the GSA Supply Catalog shall be placed in accordance with the Catalog and this authorization and shall include the address to which billings are to be sent. Bills are not issued by GSA until after shipment has been made and should therefore be paid promptly. Any necessary adjustments will be made by GSA subsequent to payment. All orders shall contain the following statement:

This order is placed on behalf of the National Aeronautics and Space Administration in furtherance of United States Government Contract No. \_\_\_\_\_, pursuant to written authorization dated \_\_\_\_\_, a copy of which (is attached) (you have on file).

(3) (Insert any other provisions and restrictions.)

(4) The authority hereby granted is not transferable or assignable.

## (Contracting Officer)

(d) When requisitioning from the Department of Veterans Affairs, the contractor should use FEDSTRIP or MILSTRIP, as appropriate, Optional Form 347, or an installation-prescribed form.

18-51.102-70 Contractor acquisition of filing cabinets.

(a) Before ordering filing cabinets whose title will vest in the Government, NASA contractors shall-- (1) Transfer inactive records to contractor storage areas;

(2) Dispose of unnecessary records in accordance with corporate procedures;

(3) Use less expensive shelf filing methods;

(4) Take other actions to reduce the need for filing cabinets; and

(5) Furnish a statement to the cognizant contracting officer that, although the steps outlined in paragraphs (a)(1) through (4) of this section have been taken, sufficient additional filing capacity has not been produced.

(b) The contractor shall then submit its request to the contracting officer, who shall
(1) confer with the Records Management Officer, the Property and Supply Officer, and the project officer and, if appropriate,
(2) certify on all letter requests that the prerequisite actions have been taken by the contractor and that they have not produced the required filing space.

(c) If the need for filing cabinets is approved by the contracting officer, excess items of the type requested shall be furnished, if available, through appropriate property accountability channels.

(d) Approved requests that cannot be filled from excess shall be returned to the contractor with an authorization to obtain file cabinets, preferably through GSA.

# 18-51.103 Ordering from Government supply sources.

(a) All orders for material from Government supply sources shall contain the statement in paragraph (c)(2)(i) or (2)(ii), as appropriate, of the authorization format set forth in 18-51.102.

(b) Contracting officers shall use NHB 4100.1, NASA Materials Inventory Management Manual, to obtain activity address codes (AAC) to enable use of FEDSTRIP and MILSTRIP for requisitioning material from Federal and military supply sources.

# 18-51.104 Furnishing assistance to contractors.

When necessary, NASA personnel shall assist the contractor in preparing and submitting the initial FEDSTRIP or MILSTRIP requisitions, the Optional Form 347, or installation-prescribed forms. .

#### PART 18-52

## SOLICITATION PROVISIONS AND CONTRACT CLAUSES

| 18-52.301    |         | Solicitation Provisions and Contract Clauses (Matrix).                    |

#### PART 18-52 SOLICITATION PROVISIONS AND CONTRACT CLAUSES

#### 18-52.000 Scope of part.

This part, in conjunction with FAR Part 52, (a) gives instructions for using provisions and clauses prescribed by this Regulation and lower level provisions and clauses, (b) sets forth the provisions and clauses prescribed in this Regulation, and (c) presents a matrix listing the NFS provisions and clauses applicable to each principal contract type and/or purpose (e.g., fixedprice supply, cost-reimbursement research and development).

## SUBPART 18-52.1 INSTRUCTIONS FOR USING PROVISIONS AND CLAUSES

### 18-52.101 Using Part 52.

(a) NASA contracting offices prescribing or developing clauses under the authority of FAR 52.101(b)(2)(i)(B) or (C) shall ensure that the requirements of FAR Subpart 1.4 and Subpart 18-1.4 are met.

(b) The NFS matrix in Subpart 18-52.3 is formatted similarly to the FAR matrix described in FAR 52.101(e). The first page of the NFS matrix contains a key to column headings, a dollar threshold chart, and requirement symbols. To fully determine the applicability of a provision or clause in the "required-when-applicable" and "optional" categories, Contracting Officers shall refer to the NFS text (cited in the matrix) that prescribes its use.

(c) The NFS matrix may be reproduced by field installations for the purpose of supplementing it with installationdeveloped provisions and clauses.

# 18-52.103 Identification of provisions and clauses.

(a) Provisions and clauses prescribed by a NASA field installation to satisfy the needs of that particular installation shall be identified as stated in subparagraphs (1) and (2) of this section. Articles, formats, and similar language shall be treated as provisions and clauses for purposes of this section 18-52.103.

(1) A provision or clause shall be numbered using a prefix, a base, and a suffix. The prefix shall be an alphabetical abbreviation of the installation name (e.g., ARC, GSFC, HR, HW, JSC, KSC, LARC, LERC, MSFC, or SSC). The base shall be a numeric value beginning with "52.2," with the next two digits corresponding to the number of the FAR or NASA FAR Supplement subject part to which the provision or clause relates. The suffix shall be a hyphen and sequential number assigned within each part. NASA installations shall use suffix numbers from -90 to -199. For example, the first Johnson Space Center (JSC) provision or clause relating to Part 36 of the FAR or NASA FAR Supplement shall be JSC 52.236-90, the second JSC 52.236-91, and so forth. Provisions and clauses shall be dated in accordance with FAR 52.101(f).

(2) Contracting officers shall identify provisions and clauses as in the following examples:

(i) *I.2 BID ENVELOPES* (GSFC 52.214-90) (AUGUST 1987) This example is applicable when identifying the title of provisions and clauses in solicitations and contracts using the uniform contract format (UCF). The first number ("I.2") designates the UCF section and the sequential clause within that section. "GSFC 52.214-90" specifies the clause number.

(ii) GSFC 52.214-90--Bid Envelopes (AUGUST 1987) This example is applicable in all instances in which the provision or clause citation is not associated with the UCF number. (b) Contracting officers shall not number provisions and clauses developed for individual procurements only. For example, "F.3 Delivery Procedures for Special Hardware" cites the third clause in Section F of a contract using the UCF, but has no clause number or date identified with it, indicating that the clause was developed for the particular contract it appears in.

# 18-52.103-70 Identification of modified provisions and clauses.

When a FAR clause or provision is included in a solicitation or contract and the NFS prescribes a modification, the title line shall identify the modification as shown below. This format shall be used both for incorporation by reference and when using full text.

"52.232-22 Limitation of Funds (APR 1984)--as modified by NASA FAR Supplement 18-32.705-270(d)"

# 18-52.104 Procedures for modifying and completing provisions and clauses.

NASA FAR Supplement provisions and clauses shall not be modified (see FAR 52.101(a)) unless their modification is authorized by this Regulation. When it is authorized, contracting officers must comply with the procedures in FAR 52.104.

#### SUBPART 18-52.2 TEXTS OF PROVISIONS AND CLAUSES

# 18-52.203-70 Contracts Between NASA and Former NASA Employees.

As prescribed in 18-3.7002, insert the following provision in all solicitations except IFB's:

## CONTRACTS BETWEEN NASA AND FORMER NASA EMPLOYEES (DECEMBER 1988)

The offeror represents that he or she () is, or () is not, an individual who was employed by NASA during the past two years, or a firm in which such an individual is a partner, principal officer, or majority shareholder or that is otherwise controlled or predominantly staffed by such individuals.

## (End of provision)

18-52.204-70 Report on NASA Subcontracts.

As prescribed in 18-4.672(b), insert the following clause in all NASA contracts of

\$500,000 or more or when a modification increases the amount of a contract to \$500,000 or more:

## REPORT ON NASA SUBCONTRACTS (NOVEMBER 1992)

(a) The Contractor shall submit information on NASA Form 667 to the National Aeronautics and Space Administration (Code HM), Washington, DC 20546, substantially as follows with respect to each subcontract or subcontract modification exceeding \$25,000 within 10 working days after its execution:

(1) The name and address of the prime contractor and the NASA prime contract number.

(2) The name and address of the subcontractor.

(3) Whether the subcontractor is a large or small business concern and/or a minority business concern.

(4) Whether the type of effort being performed involves research and development.

(5) A brief description of the subcontract work.

(6) The amount of the subcontract.

(7) The principal location where the subcontract work is to be performed, if known.

(b) The Contractor and its subcontractors shall submit negative reports annually, if applicable, on each prime contract and first-tier subcontract subject to this reporting requirement. These negative reports shall be submitted not later than October 31 for the 12-month period ending September 30th of each year. The negative reporting shall be continued until the contract or subcontract has been physically completed and the

National Aeronautics and Space Administration (Code HM), Washington, DC 20546, so notified by the Contractor or subcontractor.

(c) "Subcontract." used in as this clause, means procurement in excess of \$25,000 by the Contractor or first-tier subcontractor of services articles, materials. or performing this contract for (including facility leases), except | purchases, regardless of amount, of stock items, materials, or services that cannot be specifically identified with this contract.

"Research and development," (d) as used in this clause, means basic and applied research, and design and development of prototypes and processes, to (1) pursue a planned search for new knowledge. with or without reference to a specific application. (2) apply existing knowledge in the creation of new products or processes, or (3) apply existing knowledge in the improvement or modification of present products and processes. It excludes subcontracts for the purchase of standard commercial items and services.

(e) The Contractor shall --

(1) Insert the provisions of paragraphs (a), (b), (c), and (d) of this clause in each subcontract over \$100,000;

(2) Instruct its subcontractors to submit their reports directly to the National Aeronautics and Space Administration (Code HM), Washington, DC 20546; and

(3) Provide its subcontractors with the number of the NASA prime contract.

(End of clause)

## 18-52.204-71 NASA Contractor Financial Management Reporting.

As prescribed in 18-4.675-1(a), insert the following clause in contracts that require submission of any of the NASA Form 533 series of reports (excluding Form 533P).

#### NASA CONTRACTOR FINANCIAL MANAGEMENT REPORTING (DECEMBER 1988)

(a) The Contractor shall submit Financial Management Reports on NASA Form 533 in accordance with the instructions in Procedures for Contractor Reporting of Correlated Cost and Performance Data (NHB 9501.2) and on the reverse side of the forms, as supplemented in the Schedule of this contract. The detailed reporting categories to be used, which shall be correlated with technical and schedule reporting, shall be set forth in the contract Schedule. Contractor implementation of reporting reauirements under this clause shall include NASA approval of the definitions of the content of each reporting category and give due regard to the Contractor's established financial management information system.

(b) Lower level detail used by the Contractor for its own management purposes to validate information reported to NASA shall be compatible with NASA requirements.

(c) Reports shall be submitted in the number of copies, at the time, and in the manner set forth in the contract Schedule or as designated in writing by the Contracting Officer. Upon completion and acceptance by NASA of all contract Schedule line items, the Contracting Officer may direct the Contractor to submit Form 533 reports on a quarterly basis only.

(d) The Contractor shall insert the substance of this clause in all first-tier cost-reimbursement subcontracts specifically identified in writing by the Contracting Officer and shall include their cost in its cost reports.

(e) If during the performance of this contract NASA requires a change in the information or reporting requirements specified in the Schedule, or as provided for in paragraph (a) or (c) above, the Contracting Officer shall effect that change in accordance with the Changes clause of this contract.

(End of clause)

## 18-52.204-72 NASA Contractor Financial Management Reporting (Performance Analysis Report).

As prescribed in 18-4.675-1(b), insert the following clause in contracts that require submission of NASA Form 533P in addition to the Form 533 series submission prescribed at 18-4.675-1(a).

### NASA CONTRACTOR FINANCIAL MANAGEMENT REPORTING (PERFORMANCE ANALYSIS REPORT) (DECEMBER 1988)

Monthly reporting of contract performance shall be accomplished on the NASA Monthly Contractor Financial Management Performance Analysis Report (NASA Form 533P) in accordance with the instructions Procedures in for Contractor Reporting of Correlated Cost and Performance Data (NHB 9501.2) and on the reverse side of the form, as

supplemented in the Schedule of this contract.

#### (End of clause)

# 18-52.204-75 Security Classification Requirements.

As prescribed in 18-4.404-70, insert the following clause:

### SECURITY CLASSIFICATION REQUIREMENTS (SEPTEMBER 1989)

Performance under this contract will involve access to and/or generation of classified information, work in a security area, or both, up to the level of \_\_\_\_\_\_[insert the applicable security clearance level]. See Federal Acquisition Regulation clause 52.204-2 in this contract and DD Form 254, Contract Security Classification Specification, Attachment [Insert the attachment number of the DD Form 254].

(End of clause)

### 18-52.204-76 Security Requirements for Unclassified Automated Information Resources.

As prescribed in 18-4.470-4(a), insert the following clause:

## SECURITY REQUIREMENTS FOR UNCLASSIFIED AUTOMATED INFORMATION RESOURCES (SEPTEMBER 1993)

(a) In addition to complying with any functional and technical security requirements set forth in the schedule and the clauses of this contract, the Contractor shall initiate personnel screening checks and obtain user responsibility agreements, as required by this clause, for each contractor employee requiring unescorted or unsupervised physical access or electronic access to the following limited or controlled areas, systems, programs and data: [List areas, systems, programs and data].

The Contractor shall (1)submit a personnel security questionnaire (NASA Form 531, Name Check Request, for National Agency Check (NAC) investigations and Standard Form 85P, Questionnaire for Public Trust Positions, for specified sensitive positions) and a Fingerprint Card (FD-258 with NASA overprint in Origin Block) to the installation Security Officer for each Contractor employee who requires access. The required forms may be obtained from the installation security office. Employees may have fingerprints taken at the [Insert office name and location], or at any police department.

(i) Several months may be required for completion of complex personnel screening investigations. Background screening may not be required for employees with recent or current Federal Government investigations.

(ii) When employee access is necessary prior to completion of personnel screening, each contractor employee requiring access may be considered for escorted access. The installation Security Officer will establish the eligibility of proposed escorts.

(2) The Contractor shall insure that each contractor employee requiring access executes any user responsibility agreements required by the Government prior to access. The Contractor shall provide signed copies of the agreements to the installation Security Officer for inclusion in the employee's security file. Unauthorized access is a violation of law and punishable under the provisions of 18 USC 1029, 18 USC 1030 and other applicable statutes.

(3) The Contractor shall notify the installation AIS Manager no later than the end of the day of the termination for cause of an authorized employee's access. The Contractor shall notify the COTR no later than ten days after an authorized employee no longer requires access for any other type of termination. Verbal notifications shall be confirmed in writing within thirty days.

(b) The Contractor shall incorporate this clause in all subcontracts where the requirements identified in paragraph (a) are applicable to performance of the subcontract.

### (End of clause)

## 18-52.204-77 Submission of Security Plan for Unclassified Federal Computer Systems.

As prescribed in 18-4.470-4(b), insert the following provision:

## SUBMISSION OF SECURITY PLAN FOR UNCLASSIFIED FEDERAL COMPUTER SYSTEMS (SEPTEMBER 1993)

(a) "Computer system," as used in this provision, means any equipment or interconnected system or subsystems of equipment that is used in the automatic

acquisition, storage, manipulation, management, movement, control, display, switching, interchange, transmission, or reception, of data or information. It includes computers; ancillary equipment; software, firmware, and similar procedures; services, including support services; and related resources as defined by the regulations issued by the Administrator for General Services pursuant to Section 111 of the Federal Property and Administrative Services Act of 1949.

"Federal computer system," as used in this clause, means a computer system operated by a Federal agency or by a contractor of a Federal agency or other organization that processes information using a computer system on behalf of the Federal Government to accomplish a Federal function.

"Sensitive information," as used in this clause, means any information, the loss, misuse, or unauthorized access to, or modification of, which could adversely affect the national interest or the conduct of Federal programs, or the privacy to which individuals are entitled under Section 552a or title 5. United States Code (the Privacy Act), but which has not been specifically authorized under criteria established by an Executive order or an Act of Congress to be kept secret in the interest of national defense or foreign policy.

(b) Under negotiated procurement procedures, the apparently successful offeror shall provide a plan, for Contracting Officer approval unclassified Federal computer systems. The plan shall be submitted no later than thirty days after receipt of the Contracting Officer's written request. Under sealed bidding procedures, failure to provide a security plan with the bid will render the bid nonresponsive.

(c) The plan shall address the security measures and program safeguards which will be provided to ensure that all computer systems and resources acquired and utilized in the performance of the contract by contractor and subcontractor personnel:

(1) Operate effectively and accurately;

(2) Are protected from unauthorized alteration, disclosure, or misuse of information processed, stored, or transmitted;

(3) Can maintain the continuity of automated information support for Government missions, programs, and functions;

(4) Incorporate management, general, and application controls sufficient to provide cost-effective assurance of the system's integrity and accuracy; and

(5) Have appropriate technical, personnel, administrative, environmental, and access safeguards.

(d) This plan, as approved by the Contracting Officer, will be included in any resulting contract for contractor compliance.

1

#### (End of provision)

## 18-52.204-78 Security Plan for Unclassified Federal Computer Systems.

As prescribed in 18-4.470-4(b), insert the following clause:

### SECURITY PLAN FOR UNCLASSIFIED FEDERAL COMPUTER SYSTEMS (SEPTEMBER 1993)

In addition to complying with any functional and technical security requirements set forth in the schedule and the clauses of this contract, the Contractor shall comply with the Security Plan For Unclassified Federal Computer Systems submitted pursuant to provision 18-52.204-77, Submission of Security Plan For Unclassified Federal Computer Systems, as approved by the Contracting Officer.

(End of clause)

#### 18-52.207-70 Estimate of Work.

As prescribed in 18-7.7001, insert the following provision:

#### ESTIMATE OF WORK (OCTOBER 1988)

It is estimated that approximately \$\_\_\_\_\_ [insert estimated value of procurement] will be available to perform this work. This estimate is provided as a guide only to the approximate effort required.

#### (End of provision)

#### 18-52.208-70 Rates.

As prescribed in 18-8.309(a), insert the following clause:

#### RATES (DECEMBER 1988)

(a) The Contractor shall be paid at the rates set out in Appendix A, provided that the Government shall be liable for any minimum monthly charge specified in this contract commencing with the billing period in which service is initially furnished and continuing until the contract is terminated, except that this charge shall be equitably prorated for the billing periods in which commencement and termination of this contract become effective.

(b) The Contractor hereby certifies that the rates for the service furnished under this contract do not exceed the lowest rates available to any prospective customer under like conditions, and agrees that during the life of this contract the Government shall continue to be billed at the lowest rates applicable for similar conditions of service.

(End of clause)

# 18-52.208-71 Public Regulation and Change of Rates.

As prescribed in 18-8.309(b), insert the following clause:

## PUBLIC REGULATION AND CHANGE OF RATES (DECEMBER 1988)

(a) Rates under this contract shall be subject to regulation in the manner and to the extent prescribed by law by any Federal, State, or local regulatory agency having jurisdiction. The Contractor agrees to give the Contracting Officer written notice of the filing of an application for rate changes concurrently with the filing of the application. Such notice shall fully describe the proposed changes.

(b) If during the term of this contract the public regulatory agency having jurisdiction approves rates higher or lower than those stipulated in this contract, for like conditions of service, the Contractor agrees to continue to furnish service as stipulated in the contract and the Government agrees to pay the changed rates from the date they are made effective.

(c) If the regulatory agency promulgates any regulation concerning matters other than rates that affects this contract, the Contractor shall immediately notify the Contracting Officer. The Government shall not be bound to accept any new regulation inconsistent with Federal laws or regulations.

(d) If the Contractor, during the term of this contract, makes effective any new or amended rate schedule for the class of service furnished the Government at the service location that contains lower rates or conditions more favorable to the Government, the Contractor shall (1) forward to the Contracting Officer a copy of the schedule within 15 days after its effective date and, upon receipt of written request from the Government, (2) substitute the new or amended schedule for the one then in effect under this contract for that service location, commencing with the billing period in which the request is received.

(End of clause)

As prescribed in 18-8.309(c), insert the following clause:

## CHANGE IN CLASS OF SERVICE (DECEMBER 1988)

(a) In the event of a permanent change in the class of service furnished the Government at the service location, service shall be furnished to that service location at the lowest available rate schedule of the Contractor applicable to the class of service furnished following that permanent change, subject to the Rates clause of this contract.

(b) If the Contractor's rate schedule on file with the regulatory agency and applicable to services provided by the Contractor does not contain a schedule applicable to the class of service furnished the Government, no clause in this contract shall preclude the parties from negotiating a rate schedule applicable to the class of service furnished.

(End of clause)

(The next page is 52-7.)

----

-----

#### 18-52.208-73 Contractor's Facilities.

As prescribed in 18-8.309(d), insert the following clause:

#### CONTRACTOR'S FACILITIES (DECEMBER 1988)

(a) The Contractor, at its furnish. install. expense, shall operate, and maintain all facilities required to furnish service under this contract to, and measure that service as of, the point of delivery specified in the Service Specifications. Title to facilities these shall be and remain in the Contractor, and the Contractor shall be responsible for all loss of or damage to them.

(b) The Government hereby grants to the Contractor, free of any rental or similar charge, but subject limitations to any contract. specified in this a revocable permit or license to enter the service location for any proper purpose under this contract, including use of the site or sites agreed upon by the parties for the installation. operation, and maintenance of the facilities of the Contractor required to be located upon Government premises. These facilities shall be and remain the property of the Contractor and shall, at all times during the life of this contract and any renewals, be operated and maintained by the Contractor at its expense. All taxes and other charges in connection with these facilities, together with all liability arising out of their construction. operation. or maintenance, shall be borne by the Contractor.

Authorized representatives of (c) the Contractor shall be allowed the Contractor's access to facilities at suitable times to Contractor's perform the obligations regarding the facilities. The facilities shall be removed and Government premises restored to their original condition by the Contractor at its expense within a reasonable time after the Government revokes the permit or license granted by this clause and in any event within a reasonable time after termination of this contract, provided that if the contract is terminated for default, the facilities may be retained in place at the Government's option until service comparable is obtained elsewhere.

(d) Proper Government authority may limit or restrict the right of access granted by this clause in any manner considered by that authority to be necessary for the national security.

(End of clause)

#### 18-52.208-74 Technical Provisions.

As prescribed in 18-8.309(e), insert the following clause. Minor changes may be made in it when insisted upon by the contractor to conform with established procedures or those in the contractor's published rates filed with a regulatory agency. The following types of changes, when made for this purpose, are not considered within the intent of 18-8.307-71 relating to contracts requiring NASA Headquarters approval.

(a) Measurement of service.

(1) The words "billed conjunctively" in the second sentence of

clause subparabraph (a)(1) refer to the combination of similar *auantities* measured by two or more meters into a single quantity for the purpose of billing, as if the bill were prepared for a single meter. This sentence may be deleted, or the word "separately" may be inserted in lieu of the word "conjunctively," conform to to the contractor's regulated practice and/or when the schedule under which bills are computed is such that billing separately will be more economical than billing conjunctively.

(2) In clause subparagraph (a)(2), the periodic intervals prescribed between meter readings may be changed to conform to the contractor's regulated practice.

(b) Mctcr test.

(1) The first sentence of clause paragraph (b), requiring testing at intervals not exceeding one year, may be changed to provide for meter tests in accordance with the contractor's regulated practice.

(2) In the third sentence of clause paragraph (b), the percentage error (shown as 2 percent) may be changed to comply with the Contractor's regulated practice.

(c) Continuity of service and consumption.

(1) In clause subparagraph (d)(1), the adjustment provision may be deleted or changed, if necessary, to conform with the provisions of the contractor's field rate schedules. This subparagraph may be ended after the word "facilities" and before the word "provided." For the period, "10 hours" may be changed.

(2) Clause subparagraph (d)(2) may deleted be or changed, if the contractor's filed rates contain а provision requiring a continuation of demand or similar charges on a ready-toserve basis during a period that the Government is unable to operate the

service location for any cause beyond its control.

#### TECHNICAL PROVISIONS (DECEMBER 1988)

#### (a) Measurement of service.

(1) All service furnished by the Contractor shall be measured by suitable metering equipment of standard manufacture, to be furnished, installed, maintained, calibrated. and read bv the Contractor at its expense. When two or more meters are installed at the service location. their readings shall be billed conjunctively. If any meter fails register to or registers incorrectly the service furnished through it, the parties shall agree upon the length of period during which it failed to register or registered incorrectly and the quantity of service delivered through it during that period, and, upon agreement, an appropriate adjustment shall be made in the Government's bills. For the purpose of the preceding sentence. any meter that registers not more than 2 percent slow or fast shall be deemed correct.

(2) The Contractor shall read meters on the same day of each month; if, however, that day falls on a Saturday, Sunday, or legal holiday, or if the Contractor is prevented from reading the meters on that day, the Contractor shall read the meters on the next succeeding business day on which it is able to do so, provided that (i) all bills based on meter reading intervals of less than 27 days or more than 33 days shall be prorated accordingly and (ii) there shall

be no more than 12 billings in any one year.

(b) Meter test. The Contractor, at periodically shall its expense, inspect and test the meters installed by it at intervals not exceeding 1 year. At the written request of the Contracting Officer, Contractor shall make the additional tests of any or all of these meters in the presence of representatives. The Government cost of these additional tests shall be borne by the Government if the percentage of errors is found to be not more than 2 percent slow or fast. No meter may be placed or allowed to remain in service that registration error in has an exceeding 2 percent under normal operating conditions.

(c) Change in volume or character. Reasonable notice shall, so far as possible. be given bv the Officer to the Contracting Contractor regarding any material changes proposed in the volume or utility characteristics of the service required at each location.

(d) Continuity of service and consumption.

(1) The Contractor shall use reasonable diligence to provide a regular and uninterrupted supply of service at the service location. liable for be but shall not damages or breach of contract or otherwise to the Government for failure, suspension, diminution, or of service variations other occasioned by or in consequence of any cause beyond the Contractor's control, including but not limited to acts of God or of the public enemy, fires, floods, earthquakes,

catastrophes, strikes. or other breakdown of failure or other facilities; transmission or provided that when any such failure, suspension, diminution, or variation aggregates more than 10 hours during any billing period, an equitable adjustment shall be made in the monthly rates specified in contract (including the this minimum monthly charge).

the Government (2) If cannot operate the service location in whole or in part for any cause beyond its control, including but not limited to acts of God or of the public enemy, fires, floods, earthquakes, other catastrophes, or strikes, an equitable adjustment shall be made in the monthly rates this contract specified in (including the minimum monthly charge) if the period during which the Government is unable to operate that service location in whole or in part exceeds 15 days during any billing period.

(End of clause)

#### 18-52.208-75 Renewal of Contract.

As prescribed in 18-8.309(f), insert the following clause:

### RENEWAL OF CONTRACT (DECEMBER 1988)

This contract is renewable on an annual basis at the option of the Government, by the Contracting Officer giving written notice of renewal to the Contractor at least \_\_\_\_\_\_ days before expiration. If the Government exercises this

option for renewal, the contract as renewed shall be deemed to include this option provision. However, the total duration of this contract, including the exercise of any options under this clause, shall not exceed \_\_\_\_\_ years.

(End of clause)

18-52.208-76 Change in Rates.

As prescribed in 18-8.309(b), insert the following clause:

## CHANGE IN RATES (DECEMBER 1988)

(a) If at any time during the term of this contract either of the parties considers it appropriate to change all or part of the rates applicable to the service furnished under this contract, the parties agree to promptly negotiate new rates upon receipt by one party of a written request from the other (1) specifying the rates to which a change is considered appropriate, (2) setting forth the proposed change, and (3) stating in detail the reasons for the proposed change. Any rate change agreed to by the parties as the result of such negotiations shall be made a part of this contract by the issuance of а supplemental agreement and shall become effective as of the date of the request for a change in rates, unless otherwise agreed.

(b) The Contractor agrees that a duly authorized representative of NASA shall have access to and the right to examine any pertinent books, documents, papers, or records of the Contractor relating to costs that form the basis for the rates.

(End of clause)

## 18-52.208-77 Connection Charge.

As prescribed in 18-8.309(g), insert the following clause, and attach Appendix C to the contract:

## CONNECTION CHARGE (DECEMBER 1988)

(a) Charge. The Government, for the furnishing and installation by the Contractor at the Contractor's expense of the New Facilities described in Appendix C, attached to this contract and made a part of it, shall pay the Contractor, as a connection charge, after receipt of satisfactory evidence of completion of the facilities. S -\_\_\_\_\_, representing the sum of \_\_\_\_ less the agreed salvage S value in the amount of \$ \_\_\_\_ as shown in Appendix C; provided that, as a condition for final payment, the Contractor executes a release acceptable to the Contracting Officer of claims against the Government arising from that furnishing and installation.

(b) Ownership, operation. and maintenance of new facilities to be provided. The facilities to be supplied by the Contractor under this clause, notwithstanding the Government's payment of а connection charge, shall be and remain the property of the Contractor and shall, at all times during the life of this contract and any renewals, be operated and maintained by the Contractor at its

All taxes and other expense. charges in connection with these with together all facilities. arising of their liability out construction. operation. or maintenance, shall be borne by the Contractor.

### (c) Credits.

(1) The Contractor agrees to allow the Government on each monthly bill for service furnished under this contract to the service location, a credit of \_\_\_\_\_ percent of the amount of each bill as rendered, until the accumulation of credits equals the amount of the connection charge, provided that the Contractor may at any time allow a credit up to 100 percent of the amount of each bill.

(2) If the Contractor, before any termination of this contract after completion of the but facilities provided for in this clause, serves any customer other than the Government (regardless of whether the Government is being served simultaneously, intermittently, or at all) by means of those facilities, the corresponding benefit to the Contractor is hereby recognized. It is therefore agreed upon initiation of that such service. the Contractor shall full to in the promptly pay Government the uncredited balance the connection charge. of or accelerate the credits provided for under subparagraph (1) above to 100 percent of each monthly bill, until there is fully credited a sum equitably representing the same uncredited proportion of the balance of the connection charge as of the date of initiation of such service (as agreed upon by the parties) as the portion of the facilities utilized in serving the the other customer bears to

complete facilities described in Appendix C.

(d) Termination before completion of facilities. The Government reserves the right to terminate this contract at any time before completion of the facilities with respect to which the Government is to pay a connection charge. If the Government exercises this right, the Contractor shall be paid fair compensation, exclusive of profit, with respect to those facilities.

# (c) Termination after completion of facilities.

bv the Termination (1) Government If the Government. this after terminates contract completion of the facilities for which the Government is to pay a connection charge, but before the crediting in full by the Contractor connection charge in of anv accordance with the terms of this contract, the possible continued usefulness of those facilities is Upon recognized. such hereby termination, the Contractor shall have the following options:

To retain in place (i) for 12 months or more after the termination bv the notice of such facilities on Government condition that (A) if, during that period, the Contractor serves any other customer by means of the facilities. the Contractor shall. in lieu of allowing credits, pay the Government during the period installments in like amount, manner, and extent as the credits provided for under paragraph (c) of this clause before the termination, immediately after the and **(B)** period. the Contractor shall in full to the promptly pay

ł

Government the uncredited balance of the connection charge.

(ii) To remove such facilities at the Contractor's own expense within 12 months after the effective date of the termination by the Government; provided, that if the Contractor elects to remove them, the Government shall have the option of purchasing them at the agreed salvage value set forth in Appendix C; and provided further, that the Contractor shall, at the direction of the Government, leave in place such facilities located on Government property that the Contractor elects to remove and that the Government elects to purchase at the agreed salvage value.

(2) Termination by the Contractor. If the Contractor service terminates under, or otherwise defaults in performance of, this contract before the crediting in full, in accordance with the terms of this contract, of any connection charge paid by the Government, the Contractor shall pay to the Government an amount equal to the uncredited balance of the connection charge as of the date of termination.

(End of clause)

#### maximum termination charge as negotiated with the contractor, but not in excess of the cost of facilities furnished and installed by the contractor less the agreed salvage value, as shown in Appendix C. Enter in the third blank the figure obtained by dividing the figure in the second blank by the figure in the first blank. The use of this clause does not affect the term of the contract; however, its use is subject to Headquarters approval in accordance with 18-8.307-71.

### TERMINATION CHARGE (DECEMBER 1988)

For the furnishing and installation by the Contractor at its expense of the New Facilities described in Appendix C, attached to this contract and made a part of it, the Government shall, in the event of termination of this contract by the Government before \_\_\_\_ \_\_\_\_ months from the date on which service commences, pay the Contractor as a termination charge less multiplied by the number of months service has been received after the date of termination.

(End of clause)

## 18-52.208-78 Termination Charge.

As prescribed in 18-8.309(h), insert the following clause and attach Appendix C to the contract when a payment is to be made to the contractor upon termination of service in lieu of a connection charge upon completion of the facilities. The length of time, not in excess of 60 months, as negotiated with the contractor shall be entered in the first blank. In the second blank, enter the amount of the

### 18-52.208-79 Multiple Service Locations.

As prescribed in 18-8.309(i), insert the | following clause:

#### MULTIPLE SERVICE LOCATIONS (DECEMBER 1988)

(a) The Contracting Officer may at any time, by written order, designate any service location within the Contractor's service area at which service shall be furnished or discontinued under the order, and the contract shall be modified in writing accordingly by adding to or deleting from the Service Specifications the name and location of the appropriate service location and specifying (1) a different rate if applicable, (2) the appropriate point of delivery, (3) different service specifications if applicable, and (4) any other appropriate terms and conditions.

(b) The minimum monthly charge specified in this contract shall be equitably prorated from the billing period in which commencement or discontinuance of service at any service location designated under the Service Specifications becomes effective.

#### (End of clause)

18-52.208-80 Contractor's Facilities (Short Form).

As prescribed in 18-8.309(d), insert the following clause:

## CONTRACTOR'S FACILITIES (SHORT FORM) (DECEMBER 1988)

The Contractor, at its expense, shall furnish, install, operate, maintain, retain title to, and be responsible for all loss of or damage to the facilities required to furnish the service provided for under this contract. The Contractor shall be allowed access to its facilities on Government premises at suitable times and shall, at the Contractor's expense, remove the facilities and restore the premises to their original condition within a reasonable time after this contract's termination.

#### (End of clause)

# 18-52.208-81 Restrictions on Printing and Duplicating.

As prescribed in 18-8.870, insert the following clause:

#### RESTRICTIONS ON PRINTING AND DUPLICATING (AUGUST 1993)

(a) The Contractor shall reproduce any documentation required by this contract in accordance with the provisions of the Government Printing and Binding Regulations, No. 26, S. Pub 101-9, U.S. Government Printing Office, Washington, DC, 20402, published by the Joint Committee on Printing, U.S. Congress.

(b) The Contractor shall not perform, or procure from any commercial source, any printing in connection with the performance of work under this contract. The term "printing" includes the processes of composition, platemaking, presswork, silk screen processes, binding, microform, and the end items of such processes and equipment.

(c) "Duplicating/copying" is not considered to be printing. It is material produced by duplicatingequipmentemploying the lithographic process and automatic copy-processing or copier-duplicating machines employing electrostatic, thermal, or other copying processes not requiring the use of negatives or metal plates. The Contractor is authorized to duplicate production units provided the requirement does not exceed 5,000 production units of any one page or 25,000 units in the aggregate of multiple pages. Such plates may not exceed a maximum image size of 10-3/4 by 14-1/4 inches. A "production unit" is one sheet, size 8-1/2 x 11 inches (215 x 280 mm), one side only, and one color ink.

(d) This clause does not preclude writing, editing, preparation of manuscript copy, or preparation of related illustrative material as a part of this contract, or a d m i n i s t r a t i v e duplicating/copying (for example, necessary forms and instructional materials used by the Contractor to respond to the terms of the contract).

Costs associated with (e) printing or duplicating/copying in excess of the limits set forth above are unallowable without prior written approval of the If the Contracting Officer. Contractor has reason to believe that any activity required in fulfillment of the contract will necessitate any printing or substantial duplicating/copying, it immediately shall provide written notice to the Contracting Officer and request approval prior to proceeding with the activity. Requests will be processed by the Contracting Officer in accordance with the provisions of the Government Printing and Binding Regulations and NFS 18-8.802.

(f) The Contractor shall include in each subcontract which may involve a requirement for any printing and/or any duplicating/copying in excess of the limits specified in paragraph (c) of this clause, a provision substantially the same as this clause, including this paragraph (f).

(End of clause)

## 18-52.208-83 Acquisition of Helium.

As prescribed in 18-8.002-76, insert the following clause:

#### ACQUISITION OF HELIUM (MARCH 1990)

(a) In accordance with 30 CFR 601 and 602, helium furnished under this contract (purchase order) shall be Department of the Interior, Bureau of Mines, helium or shall be replaced by the supplier with an equivalent volume of helium purchased from the Bureau of Mines.

(b) The Contractor may procure (1) liquid helium or (2) gaseous helium of a quality not supplied by the Bureau of Mines from commercial sources if these sources are qualified by the Bureau of Mines and included in the Bureau of Mines publication. "List by Shipping Points of Private Distributors Eligible to Sell Helium to Federal Agencies." Copies of this publication may be obtained from the Bureau of Mines, Helium Operation, P.O. Box H4372, Herring Plaza, Amarillo, Texas 79101.

(c) The Contractor shall provide a copy of each contract (purchase order) for helium from commercial sources to the Contracting Officer and Bureau of Mines at the address in paragraph (b) of this clause.

(End of clause)

18-52.209-70 Product Removal from Qualified Products List.

As prescribed in 18-9.206-71, insert the following clause:

## PRODUCT REMOVAL FROM QUALIFIED PRODUCTS LIST (DECEMBER 1988)

If, during the performance of this contract, the product being furnished is removed from the Qualified Products List for any reason, the Government may terminate the contract for Default pursuant to the default clause of the contract.

#### (End of clause)

18-52.209-71 Limitation of Future Contracting.

As prescribed in 18-9.508-2, the contracting officer may insert a clause

substantially as follows in solicitations and contracts, in compliance with FAR 9.508:

### LIMITATION OF FUTURE CONTRACTING (DECEMBER 1988)

(a) The Contracting Officer has determined that this acquisition may give rise to a potential organizational conflict of interest. Accordingly, the attention of prospective offerors is invited to FAR Subpart 9.5--Organizational Conflicts of Interest.

(b) The nature of this conflict is [describe the conflict].

(c) The restrictions upon future contracting are as follows:

(1) If the Contractor, under the terms of this contract, or through the performance of tasks pursuant to this contract, is required to develop specifications or statements of work that are to incorporated into be а solicitation, the Contractor shall be ineligible to perform the work described in that solicitation as a prime or first-tier subcontractor under an ensuing NASA contract. This restriction shall remain in effect for a reasonable time, as to by agreed the Contracting Officer Contractor, and the sufficient to avoid unfair competitive advantage or potential

bias (this time shall in no case be less than the duration of the initial production contract). NASA shall not unilaterally require the Contractor to prepare such specifications or statements of work under this contract.

(2) To the extent that the work under this contract requires access to proprietary, business confidential, or financial data of other companies, and as long as these data remain proprietary or confidential, the Contractor shall protect these data from unauthorized use and disclosure and agrees not to use them to compete with those other companies.

(End of clause)

18-52.209-72 Composition of the Contractor.

As prescribed in 18-9.670, insert the following clause:

### COMPOSITION OF THE CONTRACTOR (DECEMBER 1988)

If the Contractor is comprised of more than one legal entity, each entity shall be jointly and severally liable under this contract.

(End of clause)

#### 18-52.210-70 Brand Name or Equal.

As prescribed in 18-10.011-70(a), insert the following provision:

#### BRAND NAME OR EQUAL (DECEMBER 1988)

(a) As used in this provision, "brand name" means identification of products by make and model. The term "bid" means "offer" if this is a negotiated acquisition.

(b) If items called for by this solicitation are identified in the Schedule by a "brand name or equal" description, that identification is intended to be descriptive, not restrictive, and is to indicate the ouality and characteristics of products that will be satisfactory. "equal" Bids offering products, including products of the brand name manufacturer other than the one described by brand name, will be considered for award if the products are clearly identified in the bids and are determined by the Government to meet fully the salient characteristics requirements referenced in the solicitation.

(c) Unless the offeror clearly indicates in the bid that it is offering an "equal" product, the bid shall be considered as offering a brand-name product referenced in the solicitation.

(d) (1) If the offeror proposes to furnish an "equal" product, the brand name, if any, of the product to be furnished shall be inserted in the space provided in the solicitation, or that product shall be otherwise clearly identified in the bid. The evaluation of bids and the determination as to equality of the product offered shall be the responsibility of the Government and will be based on information furnished by the offeror or identified in its bid, as well as on other information reasonably available to the contracting activity.

(2) CAUTION TO OFFER-ORS: The contracting office is not responsible for locating or securing anv information not identified in the bid and reasonably available to the contracting office. Accordingly, to ensure that sufficient information available, the offeror must is furnish as a part of its bid all descriptive material (such as cuts. illustrations, drawings, or other information) necessary for the contracting office to (i) determine whether the product offered meets salient characteristics the requirements of the solicitation and (ii) establish exactly what the offeror proposes to furnish and what the Government would be binding itself to purchase by making an award. The information furnished may include specific references to information previously furnished or to information otherwise available the to contracting office.

(3) If the offeror proposes to modify a product so as to make it conform to the requirements of the solicitation. it shall (i) include in the bid а clear description of the proposed modifications and (ii) clearly mark any descriptive material to show them.

(4) If this is a sealed bid acquisition, modifications proposed after bid opening to make a product conform to a brand name product referenced in the solicitation will not be considered.

#### (End of provision)

## 18-52.210-71 Descriptive Literature for Used Material.

As prescribed by 18-10.011-70(b), insert the following provision:

#### DESCRIPTIVE LITERATURE FOR USED MATERIAL (DECEMBER 1988)

(a) Offerors' attention is directed to the provision in this solicitation entitled "Listing of Used or Reconditioned Material. Residual Inventory, and Former Government Surplus Property." If an offeror intends to furnish any items falling within any of the classes of property addressed by provision, the following that information must be submitted as an attachment to the offer:

[Insert the information needed to determine that items can reasonably be expected to conform to the solicitation requirements.]

(b) Offerors are specifically advised that if this procurement is being conducted in accordance with procedures for sealed bidding (see FAR Part 14), a failure to provide the information identified in paragraph (a) above will render the offeror nonresponsive.

(End of provision)

## 18-52.210-72 Supplies and/or Services to be Furnished

As prescribed in 18-10.011-70(c), insert the following clause:

#### SUPPLIES AND/OR SERVICES TO BE FURNISHED (DECEMBER 1988)

The contractor shall provide all resources (except as may be expressly stated in this contract as furnished by the Government) necessary to furnish the items below in accordance with the Description/Specifications/Work Statement in Section C.

Item Descrip- Quan- Unit Total No. tion tity Unit Price Amt.

[Insert the item number, brief description, quantity, unit, unit price, and total dollar amount.]

(End of clause)

#### 18-52.210-75 Packaging and Marking.

As prescribed in 18-10.011-70(d), insert the following clause:

#### PACKAGING AND MARKING (SEPTEMBER 1990)

(a) The Contractor shall pack and mark all hardware deliverable under this contract in accordance with the provisions of NASA Handbook (NHB) 6000.1, Requirements for Packaging, Handling, and Transportation, and/or MIL-STD-2073-1 and MIL-STD-2073-2, as applicable, except as noted below:

[Insert exceptions to packing and marking requirements or "None"]

52-17

(b) The Contractor shall pack potentially hazardous items in accordance with paragraph 204 of NHB 6000.1.

(c) The Contractor shall develop packaging, handling, and transportation records, if required, from engineering and packaging data. The Contracting Officer's technical representative is the approving official of the records and special packaging data under paragraph 302 of NHB 6000.1.

Contractor's packaging (d) The specifications or procedures may be utilized if they are (i) not in conflict with cited NASA specifications and (ii) approved in writing by the Contracting Officer. In any conflict between NASA and the Contractor specifications or procedures, the NASA documents cited in this clause shall take precedence.

(e) The Contractor shall place identical requirements on all subcontracts.

(End of clause)

## PACKAGING AND MARKING (ALTERNATE I) (SEPTEMBER 1990)

(a) The contractor shall preserve, pack, and mark for shipment all items deliverable under this contract in accordance with good commercial practices and adequate to ensure both acceptance by common carrier and safe transportation at the most economical rate(s).

(b) The contractor's markings on shipping containers shall be

clearly legible from a distance of 36 inches. The contractor may mark by stencil, rubber stamp, or lacquer over a coated gummed label.

## PACKAGING AND MARKING (ALTERNATE II) (SEPTEMBER 1990)

(f) The following items to be furnished under this contract are for space flight use:

[Insert items for space flight use.]

(g) All markings for space flight items shall be blue in color. All shipping containers, shipping documents, and purchasing documents for these items shall be marked "ITEMS FOR SPACE FLIGHT USE."

(h) The Contractor shall prominently display a NASA Critical Space Item Label on the exterior of all Class I, Class II, and Class III interim packages and exterior shipping containers to alert all shipping and handling personnel to the criticality of the item in accordance with paragraph 303 of NHB 6000.1.

#### (End of clause)

#### 18-52.212-70 Notice of Delay.

As prescribed at 18-12.104-70(a), insert the following clause:

#### NOTICE OF DELAY (DECEMBER 1988)

If, because of technical difficulties, the Contractor becomes

unable to complete the contract the time specified, work at the exercise of notwithstanding good faith and diligent efforts in performing the work called for under this contract, the Contractor shall give the Contracting Officer written notice of the anticipated delay and the reasons for it. The reasons shall be notice and after the promptly delivered condition creating the anticipated delay becomes known to the Contractor but in no event less than 45 days before the completion date specified in this contract, unless otherwise permitted by the Contracting Officer. When notice is given, the Contracting Officer may extend the time specified in the Schedule for such period as is deemed advisable.

(End of clause)

## 18-52.212-72 Partial Shipments.

Insert the following clause as prescribed in 18-12.104-70(c).

#### PARTIAL SHIPMENTS (DECEMBER 1988)

shipments will not be Partial authorized unless accepted in this contract or elsewhere Officer's Contracting bv the representative at the time of delivery. The Government reserves rcturn partial right to the Contractor, to the shipments transportation charges collect.

(End of clause)

As prescribed in 18-12.104-70(d), insert the following clause:

#### DELIVERY SCHEDULE (DECEMBER 1988)

The contractor shall deliver the items required to be furnished by this contract as follows:

Item Descrip- Quan- Delivery Shipping No. tion tity Date Address

[Insert the applicable item numbers, descriptions, quantities of items, delivery dates, and shipping addresses.]

(End of clause)

## 18-52.212-74 Period of Performance.

As prescribed in 18-12.104-70(e), insert the following clause:

#### PERIOD OF PERFORMANCE (DECEMBER 1988)

The period of performance of this contract shall be [Insert period of performance dates].

(End of clause)

## 18-52.214-70 Caution to Offerors Furnishing Descriptive Literature.

As prescribed in 18-14.201-670(a), insert the following provision:

NASA FAR SUPPLEMENT

## CAUTION TO OFFERORS FURNISHING DESCRIPTIVE LITERATURE (DECEMBER 1988)

Bidders are cautioned against furnishing as a part of their bids descriptive literature that includes language reserving to the bidder the right to deviate from the requirements of the invitation for bids. Statements that "Data are subject to change without notice," "Prices subject to change without notice," or words having a similar effect are examples of such reservation. The Government will reject as nonresponsive any bid that incorporates literature containing such language or any bid that must be evaluated by using literature containing such language. Bidders should clearly label any submissions of descriptive literature not intended to form a part of a bid as such in order to preclude any need for the Government to interpret the bidder's submitting intent in descriptive literature. [See FAR 14.202-5.]

(End of provision)

# 18-52.214-71 Grouping for Aggregate Award.

As prescribed in 18-14.201-670(b), insert the following provision:

### GROUPING FOR AGGREGATE AWARD (MARCH 1989)

(a) The Government will evaluate offers and make award on a basis of the aggregate offers for items

[Insert the item numbers and/or descriptions].

(b) If this is an invitation for bids, the Government will reject as nonresponsive a bid that is not made on all of the items specified in paragraph (a).

(End of provision)

## 18-52.214-72 Full Quantities.

As prescribed in 18-14.201-670(c), insert the following provision:

# FULL QUANTITIES (DECEMBER 1988)

The Government will not consider an offer for quantities of items less than those specified. If this is an invitation for bids, the Government will reject as nonresponsive a bid that is not made on full quantities.

## (End of provision)

18-52.215-70 Increases in Estimatea Costs.

As prescribed in 18-15.613-72(a), insert the following provision:

#### INCREASES IN ESTIMATED COSTS (DECEMBER 1988)

Once the apparent successful offeror has been selected, that offeror may not unilaterally increase the estimated costs submitted with its proposal except for--

(a) Increases resulting from updating or correcting the certified cost or pricing data submitted with the proposal;

(b) Costs resulting from the Government's directed correction of identified weaknesses in the proposal that must be corrected as a condition of contracting; or

(c) Minor changes in the requirements of the solicitation. In such cases, the Government will consider only those increases arising from requirements actually affected by the changes (irrespective of whether the changes result in an increase or decrease in the requirements or are initiated by the Government or the offeror) and then only to the extent the increases are identified and justified.

#### (End of provision)

18-52.215-71 Adjustment for Subcontract Price Redetermination.

As prescribed in 18-15.870-2, insert the following clause:

#### ADJUSTMENT FOR SUBCONTRACT PRICE REDETERMINATION (DECEMBER 1988)

Promptly upon the establishment of firm prices for each of the subcontracts listed below, the Contractor shall submit, in such form and detail as the Contracting Officer may reasonably require, a statement of costs incurred in the performance of that subcontract and the firm price established Thereupon. for it. notwithstanding any other provisions of this contract as amended by this modification, the Contractor and the Contracting Officer shall negotiate an equitable adjustment in the total amount paid or to be paid under the contract to reflect the subcontract price revision. The equitable adjustment shall be evidenced by a modification to this contract.

[list subcontracts]

#### (End of clause)

18-52.215-72 Restriction on Use and Disclosure of Proposal/Quotation Information (Data).

As prescribed in 18-15.407-70(a), insert the following provision:

### RESTRICTION ON USE AND DISCLOSURE OF PROPOSAL/QUOTATION INFORMATION (DATA) (DECEMBER 1984)

It is NASA policy to use information contained in proposals and quotations for evaluation purposes only. While this policy does not require that the proposal or quotation bear a restrictive notice, offerors or quoters should, in order to maximize protection of trade secrets or other information that is commercial or financial and confidential or privileged, place the following notice on the title page of the proposal or quotation and specify the information subject to the notice by inserting appropriate identification, such as page numbers, in the notice. In any event, information (data) contained in proposals and quotations will be protected to the extent permitted by law, but NASA assumes no liability for use and disclosure of information not made subject to the notice.

## RESTRICTION ON USE AND DISCLOSURE OF PROPOSAL AND QUOTATION INFORMATION (DATA)

The information (data) contained in [Insert page numbers or other identification] of this proposal or quotation constitutes a trade secret and/or information that is commercial or financial and confidential or privileged. It is furnished to the Government in confidence with the understanding that it will not. without permission of the offeror, be used or disclosed for other than

evaluation purposes; provided, however, that in the event a contract is awarded on the basis of this proposal or quotation the Government shall have the right to use and disclose this information (data) to the extent provided in the contract. This restriction does not limit the Government's right to use or disclose this information (data) if obtained from another source without restriction.

#### (End of provision)

## 18-52.215-73 Late Submissions, Modifications, and Withdrawals of Proposals. (AO and SBIR Programs).

As prescribed in 18-15.407-70(b), use the following provision in lieu of the provision at FAR 52.215-10 in Announcement of Opportunity and SBIR solicitations:

## LATE SUBMISSIONS, MODIFICATIONS, AND WITHDRAWALS OF PROPOSALS (AO AND SBIR PROGRAMS) (DECEMBER 1988)

(a) The Government reserves the right to consider proposals or modifications, including any revision of an otherwise successful proposal, received after the date indicated for receipt of proposals if it would be in the Government's best interest to do so.

(b) Proposals may be withdrawn by written notice or telegram (including mailgram) received at any time before award. Proposals may be withdrawn in person by an

offeror or an authorized representative, if the representative's identity is made known and the representative signs a receipt for the proposal before award.

(End of provision)

#### 18-52.215-74 Alternate Proposals.

As prescribed in 18-15.407-70(c), insert the following provision:

## ALTERNATE PROPOSALS (DECEMBER 1988)

(a) The offeror may submit an alternate proposal to accomplish any aspect of the effort or product contemplated by the solicitation in a manner that might create a beneficial improvement to the Government. The Government will consider an alternate proposal if it is accompanied by a basic proposal prepared in accordance with instructions contained in and responsive to this solicitation. The alternate proposal must be complete by itself and comply with the proposal instructions of this The alternate solicitation. proposal will be evaluated in accordance with the evaluation factors of this solicitation.

(b) In the event the Government proposal receives an alternate that, if accepted, would result in a contract with terms varying in one or more material respects from this contained in those in solicitation (i.e., change and the Government scope), concludes that implementation of the approach contained in the alternate proposal would be in its best interests, the Government may modify its solicitation in a manner appropriate to incorporate the change in scope but not reveal the of the alternate substance proposal, and thereafter give all offerors (and others if the facts warrant) an opportunity to respond to the modified solicitation.

#### (End of provision)

# 18-52.215-75 Expenses Related to Offeror Submissions.

As prescribed in 18-15.407-70(d), insert the following provision:

## EXPENSES RELATED TO OFFEROR SUBMISSIONS (DECEMBER 1988)

This solicitation neither commits the Government to pay any cost incurred in the submission of the offer or in making necessary studies or designs for preparing the offer, nor to contract for services or supplies. Any costs incurred in anticipation of a contract shall be at the offeror's own risk.

#### (End of provision)

#### 18-52.215-76 False statements.

As prescribed in 18-15.407-70(e), insert the following provision:

## FALSE STATEMENTS (DECEMBER 1988)

PROPOSALS MUST SET FORTH FULL, ACCURATE, AND COMPLETE INFORMATION AS REQUIRED BY THE SOLICI-TATION (INCLUDING ATTACH-MENTS). THE PENALTY FOR MAKING FALSE STATEMENTS IN PROPOSALS IS PRESCRIBED IN 18 U.S.C. 1001.

(End of provision)

18-52.215-77 Preproposal/Pre-bid Conference.

As prescribed in 18-15.407-70(f), insert the following provision:

#### PREPROPOSAL/PRE-BID CONFERENCE (DECEMBER 1988)

(a) A preproposal/pre-bid conference will be held as indicated below:

> Date: Time: Location: Other Information, as applicable:

[Insert the applicable conference information.]

(b) Attendance at the preproposal/ pre-bid conference is recommended; however, attendance is neither required nor a prerequisite for proposal/bid submission and will not be considered in the evaluation.

(End of provision)

18-52.215-78 Make or Buy Program Requirements.

As prescribed in 18-15.708-70(a), insert the following provision:

### MAKE OR BUY PROGRAM REQUIREMENTS (DECEMBER 1988)

The offeror shall submit a Make-or-Buy Program in accordance with the requirements of Federal Acquisition Regulation (FAR) 15.705. The offeror shall include the following supporting documentation with its proposal:

(a) A description of each major item or work effort (see FAR 15.704).

(b) Categorization of each major item or work effort as "must make," "must buy," or "can either make or buy."

(c) For each item or work effort categorized as "can either make or buy," a proposal either to "make" or "buy."

(d) Reasons for (i) categorizing items and work effort as "must make" or "must buy" and (ii) proposing to "make" or "buy" those categorized as "can either make or buy." The reasons must include the consideration given to the applicable evaluation factors described in the solicitation and be in sufficient detail to permit the Contracting Officer to evaluate the categorization and proposal.

(e) Designation of the offeror's plant or division proposed to make each item or perform each work effort and a statement as to whether the existing or proposed new facility is in or near a labor surplus area.

(f) Identification of proposed subcontractors, if known, and their location and size status.

(g) Any recommendations to defer make-or-buy decisions when categorization of some items or work efforts is impracticable at the time of submission.

#### (End of provision)

18-52.215-79 Price Adjustment for "Makeor-Buy" Changes.

As prescribed in 18-15.708-70(b), insert the following clause:

## PRICE ADJUSTMENT FOR "MAKE-OR-BUY" CHANGES (DECEMBER 1988)

The following make-or-buy items are subject to the provisions of paragraph (d) of the clause at FAR 52.215-21, Change or Additions to Make-or-Buy Program, of this contract:

| ITEM     | MAKE-OR-BUY |  |
|----------|-------------|--|
| DESCRIP- | DETERMINA-  |  |
| TION     | TION        |  |

(End of clause)

## 18-52.215-80 Disposal of Unsuccessful Proposals.

As prescribed in 18-15.407-70(g), insert the following provision:

### DISPOSAL OF UNSUCCESSFUL PROPOSALS (DECEMBER 1988)

After contract award, one or more copies of each unsuccessful proposal will be retained in the Government's official contract file, and all other copies will be destroyed.

(End of provision)

#### 18-52.215-81 Proposal Page Limitations.

As prescribed in 18-15.407-70(j), insert the following provision:

### PROPOSAL PAGE LIMITATIONS (JANUARY 1994)

(a) The following page limitations are established for each portion of the proposal submitted in response to this solicitation.

| Proposal Section  | <u>Page Limit</u> |
|-------------------|-------------------|
| (List each volume | (Specify          |
| or section)       | limit)            |
|                   |                   |

(b) A page is defined as one side of a sheet,  $8 \frac{1}{2} \times 11^{\circ}$ , with at least one inch margins on all sides, using not smaller than 12 characters per inch (or equivalent) type. Foldouts count as an equivalent number of 8

1/2" x 11" pages. The metric standard format most closely approximating the described standard 81/2" x 11" size may also be used.

(c) Title pages and tables of contents are excluded from the page counts specified in paragraph (a) of this provision. In addition, the Cost section of your proposal is not page limited. However, this section is to be strictly limited to cost and price information. Information that can be construed as belonging in one of the other sections of the proposal will be so construed and counted against that section's page limitation.

(d) If Best and Final Offers (BAFOs) are requested, separate page limitations will be specified in the Government's request for that submission.

(c) Pages submitted in excess of the limitations specified in this provision will not be evaluated by the Government and will be returned to the offeror.

(End of provision)

## 18-52.215-82 Offeror Oral Presentations.

As prescribed in 18-15.407-70(k), insert the following provision:

## OFFEROR ORAL PRESENTATIONS (NOVEMBER 1993)

(a) Offerors are invited to give an oral presentation to the Government on the structure and general content of their proposals. These presentations are intended to assist Government evaluation by providing a "roadmap" to understanding proposals, i.e., an overview of the proposal organization and layout, and where required information and elements are located. Although the offeror's basic approach to satisfying solicitation requirements may be explained, it is to be done so only in general terms and only to expedite the Government's formal evaluation.

(b) The Government will not engage in any discussions during the oral presentation, and no proposal revisions will be accepted as part of the presentation. The Government's evaluation of offeror proposals will be based on the contents of the initial proposal, and any information not included in the initial proposal that is provided at the oral presentation will not be evaluated.

(c) Offerors should indicate in their proposals if they wish to give an oral presentation. These presentations are not mandatory, and electing not to give a presentation will not, in itself, affect proposal evaluation.

(d) Because the presentations are intended to assist the Government's evaluation, they will be scheduled to take place prior to commencement of the formal initial evaluation, normally within three days after proposal receipt. Offerors unable to accommodate this schedule forfeit their opportunity to provide a presentation.

(e) The presentations will consist of an offeror briefing not to exceed [insert 1 or 2] hours to

18-52.215-82

be followed by a question and answer period. The order of offeror presentations will be determined at random. The exact time and place of the presentation, along with any other guidance, will be provided to the offeror by the contracting officer or his/her representative.

(f) Presentation materials are not required, but if used, the Government will retain one copy in its official file as a historical record of the presentation even though these materials will not be used in the Government's evaluation process.

(End of provision)

18-52.215-83 Alternate Method of Scoring Proposals.

As prescribed in 18-15.613-72(b), insert the following provision:

#### ALTERNATE METHOD OF SCORING PROPOSALS (NOVEMBER 1993)

NASA reserves the right to evaluate proposals received in response to this solicitation under either of the two scoring methods described in NASA FAR Supplement 18-15.613-71(b)(4) and 18-70.303, App. I, paragraph 407.6.d. Under the standard method, proposals are scored at the completion of initial evaluations and again upon completion of evaluations of Best and Final Offers (BAFOs). Under the alternate method, proposals are scored only after completion of BAFO evaluation.

(End of provision)

# 18-52.216-72 Evaluation of Offers Subject to Economic Price Adjustment.

As prescribed in 18-16.203-4(d), insert the following provision:

## EVALUATION OF OFFERS SUBJECT TO ECONOMIC PRICE ADJUSTMENT (DECEMBER 1991)

(a) Notwithstanding the requirements of the \_\_\_\_\_\* clause, offers shall be evaluated on the basis of quoted prices without an amount for economic price adjustment being added. Offers that provide for a ceiling lower than any ceiling stipulated in the clause, shall be awarded at the lower ceiling.

(b) Offers that provide for adjustment(s) that may exceed any maximum adjustment stipulated in the clause, or that limit or delete any downward adjustment stipulated in the clause, shall be rejected.

\*Insert the title of the clause providing for economic price adjustment.

(End of provision)

# 18-52.216-73 Estimated Cost and Cost Sharing.

As prescribed in 18-16.307-70(a), insert the following clause:

## ESTIMATED COST AND COST SHARING (DECEMBER 1991)

(a) It is estimated that the total

cost of performing the work under this contract will be \$\_\_\_\_

(b) For performance of the work under this contract, the Contractor shall be reimbursed for not more than \_\_\_\_\_ percent of the costs of performance determined to be allowable under the Allowable Cost and Payment clause. The remaining \_\_\_\_\_ percent or more of the costs of performance so determined shall constitute the Contractor's share, for which it will not be reimbursed by the Government.

(c) For purposes of the [insert "Limitation of Cost" or "Limitation of Funds"] clause, the total estimated cost to the Government is hereby established as \$\_\_\_\_\_\_ (insert estimated Government share); this amount is the maximum cost for which the Government is obligated.

(d) The Contractor shall maintain records of all contract costs claimed by the Contractor as constituting part of its share. Those records shall be subject to audit by the Government. Costs contributed by the Contractor shall not be charged to the Government under any other grant, contract, or agreement (including allocation to other grants, contracts, or agreements as part of an independent research and development program).

(End of clause)

(The next page is 52-27.)

### 18-52.216-74 Estimated Cost and Fixed Fee.

As prescribed in 18-16.307-70(b), insert the following clause:

# ESTIMATED COST AND FIXED FEE (DECEMBER 1991)

The estimated cost of this contract is \_\_\_\_\_ exclusive of the fixed fee of \_\_\_\_\_. The total estimated cost and fixed fee is \_\_\_\_\_.

## (End of clause)

### 18-52.216-75 Payment of Fixed Fee.

As prescribed in 18-16.307-70(c), insert the following clause:

## PAYMENT OF FIXED FEE (DECEMBER 1988)

The fixed fee shall be paid in monthly installments based upon the percentage of completion of work as determined by the Contracting Officer.

## (End of clause)

18-52.216-76 Award Fee for Service Contracts.

As prescribed in 18-16.405-70(a), insert the following clause:

## AWARD FEE FOR SERVICE CONTRACTS (SEPTEMBER 1993)

(a) The contractor can earn award fee from a minimum of zero dollars to the maximum stated in NASA FAR Supplement clause 18-52.216-85, "Estimated Cost and Award Fee" in this contract.

(b) Beginning 6\* months after the effective date of this contract, the

Government shall evaluate the Contractor's performance every 6\* months to determine the amount of award fee earned by the contractor during the period. The Contractor may submit a self-evaluation of performance for each evaluation period under consideration. These selfevaluations will be considered by the Government in its evaluation. The Government's Fee Determination Official (FDO) will determine the award fee amounts based on the Contractor's performance in accordance with [identify performance evaluation plan]. The plan may be revised unilaterally by the Government prior to the beginning of any rating period to redirect emphasis.

(c) The Government will advise the Contractor in writing of the evaluation results. The Contracting Officer will issue a unilateral modification to the contract that will recognize the award fee earned. The Contractor is not required to submit a separate voucher for earned award fee. The [insert payment office] will make payment based on the unilateral modification.

(d) The amount of award fee which can be awarded in each evaluation period is limited to the amounts set forth at [identify location of award fee amounts]. Award fee which is not earned in an evaluation period cannot be reallocated to future evaluation periods.

(e) Award fee determinations made by the Government under this contract are not subject to the Disputes clause.

\* A period of time greater or lesser than 6 months may be substituted in accordance with 18-16.404-272(a).

### ALTERNATE I (SEPTEMBER 1993)

As prescribed in 18-16.405-70(a), insert the following paragraph (e) and reletter existing paragraph (e) to (f):

(c) (1) P e n d i n g a determination of the amount of award fee earned for an evaluation period, a portion of the available award fee for that period will be paid to the contractor on a \_\_\_\_\_ [Insert the frequency of provisional payments (not more often than monthly)] basis. The portion paid will be \_\_\_\_\_

[Insert percentage (not to exceed <u>80 percent) for provisional</u> payments] percent of the current period's available amount; provided, however, that when the Contracting Officer determines that the Contractor will not achieve a level of performance commensurate with the provisional rate, payment of provisional award fee will be discontinued or reduced in such amounts as the Contracting Officer deems appropriate. The Contracting Officer shall notify the Contractor in writing if it is determined that such discontinuance or reduction is appropriate. This determination is not subject to the Disputes clause.

(2) In the event the amount of award fee earned, as determined by the FDO, is less than the sum of the provisional payments made for that period, the Contractor will either credit the next payment voucher for the amount of such overpayment or refund the difference to the Government, as directed by the Contracting Officer.

(3) Provisional award fee payments will <u>[insert "not" if</u> <u>appropriate]</u> be made prior to the first award fee determination by the Government.

# (End of clause)

18-52.216-77 Award Fee for Non-Service Contracts.

As prescribed in 18-16.405-70(b), insert the following clause:

# AWARD FEE FOR NON-SERVICE CONTRACTS (SEPTEMBER 1993)

(a) The contractor can earn award fee, or base fee, if any, from a minimum of zero dollars to the maximum stated in NASA FAR Supplement clause 18-52.216-85, "Estimated Cost and Award Fee" in this contract. All award fee evaluations, with the exception of the last evaluation. will be interim evaluations. At the last evaluation, which is final, the Contractor's performance for the entire contract will be evaluated to determine total earned award fee. No award fee or base fee will be paid to the Contractor if the final award fee evaluation is "poor/unsatisfactory."

(b) Beginning 6\* months after the effective date of this contract, the Government shall evaluate the Contractor's interim performance every 6\* months to monitor Contractor performance prior to contract completion and to provide feedback to the Contractor. The evaluation will be performed in accordance wi h [identifyperformance evaluation] plan] to this contract. The Contractor may submit a selfevaluation of performance for each period under consideration. These self-evaluations will be considered by the Government in its evaluation. The Government will advise the Contractor in writing of the evaluation results. The plan may be revised unilaterally by the Government prior to the beginning of any rating period to redirect emphasis.

(1) Provisional payments (c) will [insert "not" if applicable] be made under this contract. Pending the final evaluation, provisional award fee, including base fee if any, payments will be made to the Contractor on a [insert the frequency of provisional payments (not more often than monthly)] basis. The amount of award fee, including base fee, if any, which will be provisionally paid in each evaluation period is limited to the lesser of the interim evaluation score, applied as a percentage, or 80 percent of the award fee allocated to that period (see [insert applicable cite]). If the Government determines that (i) the total amount of provisional fee payments will apparently substantially exceed the anticipated final evaluation score, or (ii) the interim evaluation is "poor/unsatisfactory," no provisional fee payment shall be made for that period. Written notification of the determination will be provided to the Contractor.

(2) The Contracting Officer will issue a unilateral modification to the contract that will recognize any provisional award fee, including base fee if any, paid, for the interim performance period evaluated. The Contractor is not required to submit a separate voucher for provisional fee payments. The [insert payment office] will make payment based on the unilateral modification.

(3) All provisional fee payments will be superseded by the fee determination made in the final award fee evaluation. The Government will then pay the Contractor, or the Contractor will refund to the Government, the difference between the final award fee determination and the cumulative provisional fee payments.

(d) Award fee determinations made by the Government under this contract are not subject to the Disputes clause.

\*A period of time greater or lesser than 6 months may be substituted in accordance with 18-16.404-272(a).

#### (End of clause)

### 18-52.216-78 Firm Fixed Price.

As prescribed in 18-16.202-70, insert the following clause:

## FIRM FIXED PRICE (DECEMBER 1988)

The total firm fixed price of this contract is \$\_\_\_\_ [Insert the appropriate amount].

(End of clause)

# 18-52.216-79 Level-of-Effort (Fixed-Price).

As prescribed in 18-16.207-70(a), insert the following clause:

# LEVEL-OF-EFFORT (FIXED-PRICE) (DECEMBER 1991)

(a) In accomplishing the work required under this contract, the Contractor shall provide \_\_\_\_\_\_ direct labor hours as a minimum. These hours shall be expended as follows:

Minimum Direct Labor Category Labor Hours

(Insert the labor categories and associated direct labor hours.)

(b) "Direct labor hours" are those productive hours expended by Contractor personnel in performing work under this contract that are charged as direct labor under the Contractor's established accounting policy and procedures. The term <u>does not</u> include sick leave, vacation, holiday leave, military leave, or any type of administrative leave but does include direct labor hours provided under level-of-effort subcontracts.

(c) The Contractor may, at its own option, furnish more than the stated direct labor hours; however, the Contractor shall not be entitled to any increase in the fixed price of the contract for exceeding the stated direct labor hours.

(d) Within thirty (30) days after the end of the performance period and before submission of an invoice for final payment, the Contractor shall submit to the Contracting Officer a statement certifying the actual total number of direct labor hours expended under this contract. The Contractor further agrees to make available to the Contracting Officer such records as the Contracting Officer may reasonably require to determine that the minimum number of labor hours specified in this clause were expended in the performance of the work.

(e) If, at the end of the contract term, the Contractor has not provided the minimum direct labor hours specified above, the total fixed price of this contract shall be reduced as follows:

(Insert either a formula based upon the number of hours expended in the separate labor categories or the product of the hours of unexpended labor multiplied by one specified rate.)

## (End of clause)

## 18-52.216-80 Task Ordering Procedure.

As prescribed in 18-16.307-70(d), insert the following clause:

# TASK ORDERING PROCEDURE (DECEMBER 1991)

Performance under this contract is subject to the following ordering procedure.

(a) Within the direct labor hours specified in the Level-of-Effort clause of this contract, the Contractor shall incur costs under this contract in the performance of task orders and task order modifications issued in accordance with this ordering procedure. No other costs are authorized without the express written consent of the Contracting Officer. (b) From time to time during the term of this contract, the Contracting Officer will issue task orders in writing to the Contractor, providing specific information on work to be performed within the scope of the contract.

(1) Task orders will contain, as a minimum, the following information:

(i) Signature of the Contracting Officer.

(ii) Contract number, order number, and date.

(iii) Description of work.

(iv) Maximum dollar amount authorized (cost and fee or price).

(v) Maximum number of contract labor hours and other resources authorized.

(vi) Documentation requirements.

(vii) Delivery/performance schedule.

(viii) Quality assurance standards, as appropriate.

(ix) Travel authorized.

(x) Anyothernecessary information.

(2) Unless otherwise directed by the Contracting Officer, the Contractor shall submit the following information for each task order:

(i) Discussion of the technical approach for performing the work.

(ii) Estimated date of commencement of work, and any changes proposed to the schedule of performance.

(iii) Direct labor hours, both straight time and overtime (if authorized), on a monthly basis by applicable labor category, and the total direct labor hours, including those in (2)(b)(iv)(B) of this clause, estimated to complete the task. (iv) The total estimated cost and fee, where appropriate, for completion of the task order, including:

(A) The travel and material estimates.

(B) An estimate for subcontractors and consultants, including the direct labor hours, if applicable.

(C) Estimated computer use time required, if applicable.

(D) O t h e r pertinent information, such as indirect costs and interdivisional transfers.

(3) Each task order shall require the Contractor to acknowledge receipt and acceptance of the task order within ten calendar days after receipt. If the Contractor cannot comply with a task order requirement, the Contractor shall indicate in his acknowledgment, the changes required prior to his acceptance. Any differences must be resolved between the parties and the order modified to reflect the agreement.

### (End of clause)

### 18-52.216-81 Estimated Cost.

As prescribed in 18-16.307-70(e), insert the following clause:

## ESTIMATED COST (DECEMBER 1988)

The total estimated cost for complete performance of this contract is \$\_\_\_\_\_ [Insert total estimated cost of the contract]. See FAR clause 52.216-11, Cost Contract--No Fee, of this contract.

(End of clause)

# 18-52.216-82 Level-of-Effort (Cost).

As prescribed in 18-16.307-70(f), insert the following clause:

# LEVEL-OF-EFFORT (COST) (DECEMBER 1991)

(a) (1) During the term of the contract, the Contractor is obligated to provide not less than \_\_\_\_\_\_(insert minimum percentage or minimum number of hours) nor more than \_\_\_\_\_(insert maximum percentage or maximum number of hours) of \_\_\_\_\_ total direct labor hours. The total direct labor hours. The total direct labor hours are distributed between the contractor's applicable labor categories as follows:

|                 | Direct       |
|-----------------|--------------|
| Labor           | Labor        |
| <u>Category</u> | <u>Hours</u> |

(Insert the labor categories and associated direct labor hours.)

(2) The allocation of total direct labor hours between labor categories, as shown in paragraph (a)(1), reflects the best estimate of the skill mix required to perform the contract. It is understood and agreed that this allocation of direct labor hours may be varied, if necessary, in the actual performance of the work.

(b) "Direct labor hours" are those productive hours expended by Contractor personnel in performing work under this contract that are charged as direct labor under the Contractor's established accounting policy and procedures. The term <u>does not</u> include sick leave, vacation, holiday leave, military leave, or any type of administrative leave but does include direct labor hours provided under level-ofeffort subcontracts.

(c) Once the maximum number of direct labor hours is reached or the contract term has ended, the Contractor's obligations under the contract are fulfilled, even though the specified work may not have been completed. The Contractor is not authorized to exceed the maximum of the direct labor hours specified in paragraph (a) of this clause. Any estimated cost and fee(s) adjustments for additional direct labor hours shall be based solely upon those hours being added to the maximum number of direct labor hours specified in this clause.

(d) The fee, if any, is based upon the furnishing of at least the specified minimum number of direct labor hours, including subcontract hours. If the Contractor provides less than that specified minimum number of hours prior to expiration of the contract term, and the Government has not invoked its rights under the Termination clause of this contract to adjust the contract for such reduced effort, the Contracting Officer may unilaterally make an equitable downward adjustment to the contract fee. The downward adjustment in fee will be based upon the difference between the minimum direct labor hours specified under this clause and the amount of direct labor hours provided by the Contractor. Prior to making such an adjustment, the Contracting Officer will request the Contractor provide a written discussion of any extenuating

circumstances (e.g., productivi y improvements or reductions in contract scope) which contributed to the underrun. Any information provided by the Contractor will be considered by the Contracting Officer in determining the amount of the downward adjustment in fee.

## (End of clause)

## 18-52.216-83 Fixed Price Incentive.

As prescribed in 18-16.405-70(c), insert the following clause:

## FIXED PRICE INCENTIVE (DECEMBER 1991)

The target cost of this contract is \$\_\_\_\_. The Target profit of this contract is \$\_\_\_\_. The target price (target cost plus target profit) of this contract is \$\_\_\_\_. [The ceiling price is \$\_\_\_\_.]

(End of clause)

# 18-52.216-84 Estimated Cost and Incentive Fee.

As prescribed in 18-16.405-70(d), insert the following clause:

## ESTIMATED COST AND INCENTIVE FEE (DECEMBER 1991)

The target cost of this contract is **\$\_\_\_\_\_**. The target fee of this contract is **\$\_\_\_\_**. The total target cost and target fee as contemplated by the Incentive Fee clause of this contract are **\$\_\_\_\_**.

## (End of clause)

18-52.216-85 Estimated Cost and Award Fee.

As prescribed in 18-16.405-70(e), insert the following clause:

## ESTIMATED COST AND AWARD FEE (SEPTEMBER 1993)

The estimated cost of this contract is \$\_\_\_\_\_. The maximum available award fee, excluding base fee, if any, is \$\_\_\_\_\_. The base fee is \$\_\_\_\_\_. Total estimated cost, base fee, and maximum award fee are \$\_\_\_\_\_.

(End of clause)

### ALTERNATE I (SEPTEMBER 1993)

As prescribed in 18-16.405-70(e), change the title to read Estimated Cost, Award Fee and Performance Incentive and insert the following sentence at the end of the clause:

> The maximum positive performance incentive is \$\_\_\_\_\_. The maximum negative performance incentive is (1).

(1) For research development hardware contracts, insert [equal to total earned award fee (including any base fee)]. For production hardware contracts, insert [\$(total potential award fee amount, including any base fee)].

(End of clause)

#### 18-52.216-86 Settlement of Letter Contract.

As prescribed in 18-16.603-470, insert the following clause:

## SETTLEMENT OF LETTER CONTRACT (DECEMBER 1991)

(a) This contract constitutes

the definitive contract contemplated by issuance of letter contract \_\_\_\_\_ (insert number), dated \_\_\_\_\_. It supersedes the letter contract and its modification no.(s) \_\_\_\_\_ and, to the extent of any inconsistencies, governs.

(b) The cost(s) and fee(s), or price(s), established in this definitive contract represent full and complete settlement of letter contract \_\_\_\_\_ and modification no.(s) \_\_\_\_.

(End of clause)

18-52.216-87 Submission of Vouchers for Payment.

As prescribed in 18-16.307-70(g), insert the following clause:

## SUBMISSION OF VOUCHERS FOR PAYMENT (DECEMBER 1988)

(a) Public vouchers for payment of costs shall include a reference to this contract [Insert the contract number] and be forwarded to:

[Insert the mailing address for submission of cost youchers.]

This is the designated billing office for cost vouchers for purposes of the Prompt Payment clause of this contract.

(b) The Contractor shall prepare vouchers as follows:

(1) One original Standard Form (SF) 1034, SF 1035, or equivalent Contractor's attachment.

(2) Seven copies of SF 1034A, SF 1035A, or equivalent Contractor's attachment. (3) The Contractor shall mark SF 1034A copies 1, 2, 3, 4, and such other copies as may be directed by the Contracting Officer by insertion in the memorandum block the names and addresses as follows:

(i) Copy 1 NASA Contracting Officer;

(ii) Copy 2 Auditor;

(iii) Copy 3 Contractor;

(iv) Copy 4 Contract administration office; and (v) Copy 5 Project

management office.

(c) Public vouchers for payment of fee shall be prepared similarly and be forwarded to:

[Insert the mailing address for submission of fee vouchers.]

This is the designated billing office for fee vouchers for purposes of the Prompt Payment clause of this contract.

(d) In the event that amounts are withheld from payment in accordance with provisions of this contract, a separate voucher for the amount withheld will be required before payment for that amount may be made.

### 18-52.216-88 Performance Incentive.

As prescribed in 18-16.405-70(f), insert the following clause:

# PERFORMANCE INCENTIVE (SEPTEMBER 1993)

(a) A performance incentive applies to the following hardware item(s) delivered under this contract: (1)

The performance incentive will

measure the performance of those items against the salient hardware performance requirement, called "unit(s) of measurement," e.g., months in service or amount of data transmitted, identified below. The performance incentive becomes effective when the hardware is put into service. It includes a standard performance level, a positive incentive, and a negative incentive, which are described in this clause.

(b) Standard performance level. At the standard performance level, the Contractor has met the contract requirement for the unit of measurement. Neither positive nor negative incentives apply when this level is achieved but not exceeded. The standard performance level for (1) is established as follows: (2)

The Positive incentive. (c) Contractor earns a separate positive incentive amount for each hardware item listed in paragraph (a) of this clause when the standard performance level for that item is exceeded. The amount earned for each item varies with the units of measurement achieved, up to a maximum positive performance incentive amount of \$ (3) per item. The units of measurement and the incentive amounts associated with achieving each unit are shown below: (4)

(d) Negative incentive. The Contractor will pay to the Government a negative incentive amount for each hardware item that fails to achieve the standard performance level. The amount to be paid for each item varies with the units of measurement achieved, up to the maximum negative incentive amount of (5). The units of measurement and the incentive amounts associated with achieving each unit are shown below: (6)

(e) The final calculation of positive or negative performance incentive amounts shall be done when performance (as defined by the unit of measurement) ceases or when the maximum positive incentive is reached.

(1) When the Contracting Officer determines that the performance level achieved fell below the standard performance level, the Contractor will either pay the amount due the Government or credit the next payment voucher for the amount due, as directed by the Contracting Officer.

(2) When the performance level exceeds the standard level, the Contractor may request payment of the incentive amount associated with a given level of performance, provided that such payments shall not be more frequent than monthly. When performance ceases or the maximum positive incentive is reached, the Government shall calculate the final performance incentive earned and unpaid and promptly remit it to the contractor.

(f) If performance cannot be demonstrated, through no fault of the Contractor, within [insert number of months or years] after the date of hardware acceptance by the Government, the Contractor will be paid [insert percentage] of the maximum performance incentive.

(g) The decisions made as to

the amount(s) of positive or negative incentives are subject to the Disputes clause.

- Insert applicable item number(s) and/or nomenclature.
- (2) Insert a specific unit of measurement for each hardware item listed in

   and each salient characteristic, if more than one.
- (3) Insert the maximum positive performance incentive amount (see 18-16.404-276(g)(1) and (2)).
- (4) Insert all units of measurement and associated dollar amounts

up to the maximum performance incentive.

- (6) Insert all units of measurement and associated dollar amounts up to the maximum negative performance incentive.

(End of clause)

18-52.217-70 Property Administration and Reporting.

As prescribed in 18-17.7002-4 insert the following clause:

# PROPERTY ADMINISTRATION AND REPORTING (DECEMBER 1988)

All property acquired for, and reimbursed by, NASA or transferred by NASA for use under this NASA-Defense Purchase Request shall be controlled and accounted for in accordance with the Military Department's normal procedures. All excess items, however, costing \$500 or more and in condition Code 7 or better (GSA Condition Codes) shall be reported to the NASA originating office for possible reutilization before disposition.

(End of clause)

18-52.219-73 Small Business and Small Disadvantaged Business Subcontracting Plan.

As prescribed in 18-19.708-70(a), insert the following provision:

# SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS SUBCONTRACTING PLAN (DECEMBER 1988)

(a) This provision is not applicable to small business concerns.

 (b) The contract expected to result from this solicitation will contain FAR clause 52.219-9,
 "Small Business and Small Disadvantaged Business Subcontracting Plan." The apparently successful offeror must submit the complete plan within \_\_\_\_\_ [Insert number of days] calendar days after request by the Contracting Officer.

# (End of provision)

### ALTERNATE I (DECEMBER 1988)

As prescribed in 18-19.708-70(a), delete the last sentence of paragraph (b) of the basic clause and substitute the following:

Each offeror must submit the complete plan with its initial proposal.

# 18-52.219-74 Use of Rural Area Small Businesses.

As prescribed in 18-19.7103, insert the following clause:

### USE OF RURAL AREA SMALL BUSINESSES (SEPTEMBER 1990)

(a) **Definitions**.

"Rural area" means any county with a population of fewer than twenty thousand individuals. "Small business concern," as used in this clause, means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding under this contract, and qualified as a small business under the criteria and size standards in 13 CFR 121.

(b) NASA prime and subcontractors are encouraged to use their best efforts to award subcontracts to small business concerns located in rural areas.

(The next page is 52-35.)

(c) Contractors acting in good faith may rely on written representations by their subcontractors regarding their status as small business concerns located in rural areas.

(d) The Contractor agrees to insert the provisions of this clause, including this paragraph
(d), in all subcontracts hereunder that offer subcontracting possibilities.

(End of clause)

18-52.219-75 Small Business and Small Disadvantaged Business Subcontracting Reporting.

As prescribed in 18-19.708-70(b), insert the following contract clause:

# SMALL BUSINESS AND SMALL DISADVANTAGED BUSINESS SUBCONTRACTING REPORTING (SEPTEMBER 1992)

(a) The Contractor shall submit the Summary Subcontract Report (Standard Form [SF] 295) quarterly for the reporting periods specified in block I.A. of the form. Reports are due 30 days after the close of each reporting period.

The Contractor shall also (b) (Subcontract Itcm 15 complete Historically Black awards to Colleges and Universities/Minority Institutions) in accordance with existing instructions the applicable to DOD activities.

(c) All other provisions in the instructions paragraphs of the SF 295 remain in effect.

(d) The Contractor shall include this clause in all subcontracts that include the clause at FAR 52.219-9.

(End of clause)

18-52.219-76 NASA Small Disadvantaged Business Goal.

As prescribed in 18-19.7004, insert the following clause:

## NASA SMALL DISADVANTAGED BUSINESS GOAL (JULY 1991)

(a) Definitions.

"Historically Black Colleges and Universities," as used in this clause, means institutions determined by the Secretary of Education to meet the requirements of 34 CFR Section 608.2 and listed therein.

*"Minority educational institutions,"* as used in this clause, means institutions meeting the criteria established in 34 CFR 607.2 by the Secretary of Education.

"Small disadvantaged business concern," as used in this clause, means a small business concern owned or controlled by individuals socially and arc both who cconomically disadvantaged (within the meaning of section 8(a)(5) and (6) of the Small Business Act (15 U.S.C. 637(a)(5) and (6)). For purposes of this clause, socially disadvantaged cconomically and individuals shall be deemed to include women.

(b) The NASA Administrator is required to ensure, to the fullest extent possible, that at least 8%

of the total value of prime and subcontracts awarded in support of authorized programs, including the station by the space time operational status is obtained, is made available to small business concerns or other organizations owned or controlled by socially and economically disadvantaged indivi-(including duals women), Historically Black Colleges and Universities. and minority educational institutions.

(c) The contractor hereby agrees to assist NASA in achieving this goal by using its best efforts to award subcontracts to small disadvantaged business concerns. Historically Black Colleges and Universities. and minority educational institutions, as defined in this clause, to the fullest extent consistent with efficient contract performance.

(d) Contractors acting in good faith may rely on written representations by their subcontractors regarding their status as small disadvantaged business concerns, Historically Black Colleges and Universities, and minority educational institutions.

#### (End of clause)

18-52.222-70 Facilitics Nondiscrimination Notice.

As prescribed in 18-22.7002(a), insert the following clause:

## FACILITIES NONDISCRIMINATION NOTICE (APRIL 1988)

If the annual rental under this lease, combined with the annual rental under all other NASA leases of space in the building in which the space covered by this lease is located, exceeds \$10,000, the lessor agrees to comply with the requirements of the Facilities Nondiscrimination clause of this contract.

#### (End of clause)

# 18-52.222-71 Facilities Nondiscrimination.

As prescribed in 18-22.7002(b), insert the following clause:

## FACILITIES NONDISCRIMINATION (DECEMBER 1988)

(a) As used in this clause, "facility" means store, shop,

CFR TITLE 48 CHAPTER 18

restaurant, cafeteria, rest room, or any other public facility in the building in which the space covered by this lease is located.

The lessor shall not dis-(b) criminate against anyone because of race, color, religion, or national origin in furnishing, or by refusing to furnish, the use of any facility, including any services, privileges, accommodations, and activities provided by that facility. Nothing in this clause requires the furnishing to the general public of the use of any facility customarily furnished by the lessor solely to tenants and their employees, customers, patients, clients, guests, and invitees.

Any noncompliance by the (c) lessor with this clause shall constitute a material breach of this lease. In the event of noncompliance, the Government may take appropriate action to enforce compliance, may terminate this lease, or may pursue any other remedies provided by law. In the event of termination, the lessor is liable for all excess costs of the Government in acquiring substitute space, including the cost moving to that space. of Substitute space shall be obtained in as close proximity to the lessor's building as is feasible, and moving costs shall be limited to the actual expenses incurred.

(d) Whenever an agreement is to be entered into or a concession is to be permitted to operate, the lessor shall include or require the inclusion of paragraphs (a), (b), and (c) of this clause in every such agreement or concession arrangement under which any person other than the lessor operates or has the right to operate any facility. Nothing in this clause, however, requires the lessor to include or require the inclusion of those paragraphs in any previously cxisting agreement or concession arrangement, or in one under which a party other than the lessor has the unilateral right to renew or extend the agreement or arrangement, until the expiration of the existing agreement or arrangement and the unilateral right to renew or extend.

(e) The lessor shall take, as expeditiously as possible, any lawful actions NASA may direct to enforce the intent of this clause, including termination of the agreement or concession and institution of court action.

(End of clause)

## 18-52.223-70 Safety and Health.

As prescribed in 18-23.7004(c), insert the following clause:

### SAFETY AND HEALTH (SEPTEMBER 1993)

(a) The Contractor shall take all reasonable safety and health measures in performing under this contract. The Contractor shall comply with all Federal, State, and local laws applicable to safety and health in effect on the date of this contract and with the safety and health standards, specifications, reporting requirements, and provisions set forth in the contract Schedulc.

(b) The Contractor shall take or cause to be taken any other

safety and health measures the Contracting Officer may reasonably direct. To the extent that the Contractor may be entitled to an equitable adjustment for those measures under the terms and conditions of this contract, the equitable adjustment shall be determined pursuant to the procedures of the changes clause of this contract; provided, that no adjustment shall be made under this Safety and Health clause for any change for which an equitable adjustment is expressly provided under any other provision of the contract.

(c) The Contractor shall immediately notify and promptly report to the Contracting Officer or a designee any accident, incident, or exposure resulting in fatality, lost-time occupational injury, occupational disease. contamination of property beyond any stated acceptable limits set forth in the contract Schedule, or property loss of \$25,000 or more arising out of work performed under this contract. The Contractor is not required to include in any report an expression of opinion as to the fault or negligence of any employee. Service contractors (excluding construction contracts) shall provide quarterly reports specifying lost-time frequency rate, number of lost-time injuries, exposure, and accident/incident dollar losses as specified in the contract Schedule. The Contractor shall investigate all work-related incidents or accidents to the extent necessary to determine their causes and furnish the Contracting Officer a report, in such form as the Contracting Officer may

require, of the investigative findings and proposed or completed corrective actions.

(d) (1) The Contracting Officer may notify the Contractor in writing of any noncompliance with this clause and specify corrective actions to be taken. The Contractor shall promptly take and report any necessary corrective action.

(2) If the Contractor fails or refuses to institute prompt corrective action in accordance with subparagraph (d)(1) of this clause, the Contracting Officer may invoke the stop-work order clause in this contract or any other remedy available to the Government in the event of such failure or refusal.

The Contractor (or subcon-(e) tractor or supplier) shall insert the substance of this clause. including this paragraph (e) and any applicable Schedule provisions, with appropriate changes of designations of the parties, in subcontracts of every tier that (1) amount to \$1,000,000 or more (unless the Contracting Officer makes a written determination that this is not required), (2) require construction, repair, or alteration in excess of \$25,000, or (3) regardless of dollar amount. involve the use of hazardous materials or operations.

(f) Authorized Government representatives of the Contracting Officer shall have access to and the right to examine the sites or areas where work under this contract is being performed in order to determine the adequacy of

the Contractor's safety and health measures under this clause.

(g) As a part of the Contractor's safety plan (and health plan, when applicable) and to the extent required by the Schedule, the Contractor shall furnish a list of hazardous operations to be all including operations performed. indicated in paragraphs (a) and (b) above, and a list of other major or key operations required or planned in the performance of the contract, even though not deemed hazardous by the Contractor, NASA and the shall jointly decide Contractor which operations are to be considered hazardous, with NASA as final authority. Before the hazardous operations commence, the Contractor shall submit for NASA concurrence either or both of the following, as required by the contract Schedule or by the Contracting Officer:

(1) Written hazardous operating procedures for all hazardous operations.

(2) A certification program for personnel involved in hazardous operations.

#### (End of clause)

#### 18-52.223-71 Frequency Authorization.

As prescribed in 18-23.7101, insert the following clause:

## FREQUENCY AUTHORIZATION (DECEMBER 1988)

(a) Authorization of radio frequencies required in support of this contract shall be obtained by the Contractor or subcontractor in need thereof.

(b) For any experimental, developmental, or operational equipment for which the appropriate frequency allocation has not been made, the Contractor or subcontractor shall provide the technical operating characteristics of the proposed electromagnetic radiating device to the Contracting Officer during the initial planning, experimental, or developmental phase of contractual performance. Procedures furnished by the Contracting Officer shall be obtaining radio followed in frequency authorization.

(c) This clause, including this paragraph (c), shall be included in all subcontracts that call for developing, producing, testing, or operating a device for which a radio frequency authorization is required.

(End of clause)

# 18-52.223-72 Potentially Hazardous Items.

As prescribed in 18-23.303-70, insert the following clause:

## POTENTIALLY HAZARDOUS ITEMS (DECEMBER 1988)

(a) The Contractor shall furnish complete design information and drawings showing all details of construction, including materials, for the following items or components:

[Insert the potentially hazardous items or components.]

These items or components are designated as potentially hazardous to employees and subcontractors who are to perform any work in connection with installing them combination with in other equipment, or in testing them either alone or in combination with other items or components, or in handling them. The contractor shall inform such employees or subcontractors of the potentially hazardous nature of these items or components before requesting or directing the performance of work.

(b) This requirement for delivery of data supersedes any terms of this contract permitting withholding of data.

(c) The Contractor shall include this clause, including this paragraph (c), in each subcontract at any tier under this contract that calls for the manufacture or handling of the items or components designated according to paragraph (a) above as potentially hazardous.

#### (End of clause)

#### 18-52.223-73 Safety and Health Plan.

As prescribed in 18-23.7004(e), insert the following provision:

# SAFETY AND HEALTH PLAN (DECEMBER 1988)

The offeror shall submit a detailed safety and health plan, as part of the offeror's proposal, showing how the Contractor intends to protect the life, health, and well being of NASA and contractor employees as well as property and equipment. This plan, as approved by the Contracting Officer, will be included in any resulting contract.

#### (End of provision)

## ALTERNATE I (DECEMBER 1988)

As prescribed by 18-23.7004(f), delete the first sentence of the basic provision and substitute the following:

The apparently successful offeror shall submit a detailed safety and health plan after notification of selection but before contract award. showing how the contractor intends to protect the life, health, and well being of NASA and contractor employees as well as property and equipment.

# 18-52.225-71 Nondomestic Construction Materials.

As prescribed in 18-25.205-70, insert the following clause:

## NONDOMESTIC CONSTRUCTION MATERIALS (DECEMBER 1988)

The requirements of the Buy American Act--Construction Materials clause do not apply to the following construction materials or components:

170

[List articles of materials and supplies.]

(End of clause)

18-52.225-73 Duty-Free Entry Supplies.

As prescribed in 18-25.605-70, insert the following clause:

## DUTY-FREE ENTRY SUPPLIES (DECEMBER 1988)

In accordance with the Duty-Free Entry clause of this contract, the following supplies will be given duty-free entry:

[Insert the supplies that are to be accorded duty-free entry.]

(End of clause)

# 18-52.225-74 NASA Domestic Preference Certificate.

As prescribed in 18-25.7105, insert the following provision:

## NASA DOMESTIC PREFERENCE CERTIFICATE (APRIL 1991)

(a) For purposes of this provision, the following definitions apply:

"Code country," as used in this subpart, means a country that is a signatory to the Agreement on Government Procurement (the Code"). The Code "Procurement countries are Austria, Belgium, Canada, Denmark, Federal Republic of Germany, Finland, France, Hong Kong. Ireland, Israel, Italy, Japan, Luxembourg, Netherlands, Norway. Singapore, Sweden. Switzerland, and United Kingdom.

"Code country end product," as used in this subpart, means an article that (a) is wholly the growth, product, or manufacture of the Code country, or (b) in the case of an article which consists in whole or in part of materials another country or from instrumentality, has been substantially transformed into a and different article of new commerce with a name, character, or use distinct from that of the article or articles from which it The term transformed. was so services (except includes transportation services) incidental to its supply; provided, that the value of those incidental services does not exceed that of the product itself. It does not include service contracts as such (see FAR 25.401).

*"Components,"* as used in this provision, means those articles, materials, and supplies incorporated directly into the end products.

*"Domestic firm,"* as used in this provision, means a business entity that is organized under the laws of the United States and that conducts business operations in the United States.

"Domestic product" means the final product of a domestic firm that will be completely assembled in the United States and of which, when completely assembled, not less than 51 percent of the cost of all the components will be domestically incurred.

*"Foreign firm,"* as used in this provision, means a business entity other than a domestic firm.

*"Foreign product,"* as used in this provision, means a product other than a domestic product.

(b) The offeror certifies that it is [] is not [] a domestic firm.

(c) The offeror certifies that (1) each final product, except those listed below, will be completely assembled in the United States and (2) when completely assembled, not less than 51 percent of the cost of all the components of the final product will be domestically incurred.

<u>Foreign products</u> (also specify if a product is a Code-country, Canadian, or Israeli end product):

(End of provision)

# 18-52.225-75 NASA Domestic Preference.

As prescribed in 18-25.7105, insert the following clause:

## NASA DOMESTIC PREFERENCE (APRIL 1991)

(a) The NASA domestic preference (Pub. L. 100-147 and Pub. L. 101-611) provides that NASA give preference to domestically produced and assembled final products of domestic firms.

"Components," as used in this clause, means those articles, materials, and supplies incorporated directly into the end products.

"Domestic firm" means a business entity that is organized under the laws of the United States and that conducts business operations in the United States.

*"Foreign firm"* means a business entity that is not a domestic firm.

(b) The contractor, if certified as a domestic firm, shall deliver only the final product of а domestic firm that will be completely assembled in the United States and of which, when completely assembled, not less than 51 percent of the cost of all the components will be domestically incurred.

## (End of clause)

I

# 18-52.227-11 Patent Rights-Retention by the Contractor (Short Form).

As prescribed at 18-27.373(a), modify the clause at FAR 52.227-11 by adding the following subparagraph (5) to paragraph (f) of the basic clause. In addition, use the following subparagraph (2) in lieu of subparagraph (g)(2) of the basic clause:

(5) The contractor shall provide the contracting officer the following:

(i) A listing every 12 months (or such longer period as the contracting officer may specify) from the date of the contract, of all subject inventions required to be disclosed during the period.

(ii) A final report prior to closeout of the contract listing all subject inventions or certifying that there were none.

(iii) Upon request, the filing date, serial number and title, a copy of the patent application, and patent number and issue date for any subject invention in any country in which the contractor has applied for patents.

(iv) An irrevocable power to inspect and make copies of the patent application file, by the Government, when a Federal Government employee is a coinventor.

# (End of addition)

The contractor shall include (2)the clause in the NASA FAR Supplement at 18-52.227-70, New Technology, suitably modified to all parties, in identify the regardless of tier, subcontracts. experimental, developmental, for research, design, or engineering

work to be performed by other than a small business firm or nonprofit organization.

## (End of substitution)

## 18-52.227-14 Rights In Data-General.

As prescribed in 18-27.409(e), add the following subparagraph (3) to paragraph (d) of the basic clause at FAR 52.227-14:

(3) The Contractor agrees not to establish claim to copyright, publish or release to others any computer software first produced in the performance of this contract without the Contracting Officer's prior written permission.

(End of addition)

# 18-52.227-19 Commercial Computer Software--Restricted Rights.

(a) As prescribed in 18-27.409(f), add the following paragraph (e) to the basic clause at FAR 52.227-19:

(e) For the purposes of receiving updates. correction notices. consultation information, or other similar information regarding any computer software delivered under this contract/purchase order, the NASA Contracting Officer or the NASA Contracting Officer's Technical Representative/User may vendor-supplied sign any agreements, registration forms, or cards and return them directly to the vendor; however, such signing shall not alter any of the rights or obligations of either NASA or the vendor set forth in this clause this elsewhere or in contract/purchase order.

(End of addition)

(b) As prescribed in 18-27.409(g), add the following paragraph (f) to the basic clause at FAR 52.227-19:

52-50.2

(f) Subject paragraphs to (a) through (e) above, those applicable portions of the Contractor's standard commercial license lease or agreement pertaining to any computer software delivered under this purchase order/contract that are consistent laws, with Federal standard industry practices, and the Federal Acquisition Regulation (FAR) shall be incorporated into and made part of this purchase order/contract.

# (End of addition)

# 18-52.227-70 New Technology.

As prescribed in 18-27.373(b), insert the following clause:

## NEW TECHNOLOGY (APRIL 1988)

(a) **Definitions**.

"Administrator," as used in this clause, means the Administrator of the National Aeronautics and Space Administration (NASA) or duly authorized representative.

"Contract." as used in this clause, means any actual or proposed contract, agreement. understanding, or other arrangement, and includes any assignment. substitution of parties, or subcontract executed or entered into thereunder.

*"Made,"* as used in this clause, means conception or first actual reduction to practice; <u>provided</u>, that in the case of a variety of plant, the date of determination (as defined in Section 41(d) of the Plant Variety Protection Act, 7 U.S.C. 2401(d)) must also occur during the period of contract performance.

"Nonprofit organization," as used in this clause, means a domestic university or other institution of higher education or an organization of the type described in section 501(c)(3) of the Internal Revenue Code of 1954 (26 U.S.C. 501(c)) and exempt from taxation under section 501(a) of the Internal Revenue Code (26 U.S.C. 501(a)), or any domestic nonprofit scientific or educational qualified organization under а State nonprofit organization statute.

"Practical application." as used in this clause. means to manufacture, in the case of ิล composition or product; to practice, in the case of a process or method; or to operate, in case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or Government available regulations, to the public on reasonable terms.

"Reportable item," as used in this clause, means any invention, discovery, improvement, or innovation of the Contractor, whether or not the same is or may be patentable or otherwise protectible under Title 35 of the United States Code. conceived or first actually reduced to practice in the performance of any work under this contract or in the performance of any work that is reimbursable under any clause in this contract providing for reimbursement of costs incurred prior to the effective date of this contract.

"Small business firm," as used in this clause, means a domestic small business concern as defined at 15 U.S.C. 632 and implementing regulations of the Administrator of the Small Business Administration. (For the purpose of this definition, standard the size contained in 13 CFR 121.3-8 for small business contractors and in 13 CFR 121.3-12 for small business subcontractors will be used.)

"Subject invention," as used in this clause, means any reportable item which is or may be patentable or otherwise protectible under Title 35 of the United States Code, or any novel variety of plant that is or may be protectible under the Plant Variety Protection Act (7 U.S.C. 2321, et seq.).

(b) Allocation of principal rights.

-

# (1) Presumption of title.

Any reportable item (i) that the Administrator considers to be a subject invention shall be presumed to have been made in the manner specified in paragraph (1) or (2) of Section 305(a) of the National Aeronautics and Space Act U.S.C. (42 2457(a)) 1958 ł of (hereinafter called "the Act"), and the above presumption shall be conclusive unless at the time of reporting the reportable item the submits the Contractor to Contracting Officer written a statement. containing supporting demonstrating that the details. reportable item was not made in the manner specified in paragraph (1) or (2) of Section 305(a) of the Act.

Regardless of (ii) whether title to a given subject would otherwise he invention subject to an advance waiver or is the subject of a petition for Contractor the may waiver. statement file the nevertheless subdivision (i) described in Administrator The will above. review the information furnished by anv such Contractor in the statement and any other available relating the information to circumstances surrounding the making of the subject invention and will notify the Contractor whether the Administrator has determined that the subject invention was made specified in in the manner paragraph (1) or (2) of Section 305(a) of the Act.

rights in (2) Property sub ject inventions. Each subject invention for which the presumption subdivision (1)(i) above is of conclusive or for which there has been a determination that it was made in the manner specified in paragraph (1) or (2) of Section 305(a) of the Act shall be the exclusive property of the United represented States 28 hv NASA unless the Administrator waives all or any part of the rights of the United States, as subparagraph provided in (3) below.

(3) Waiver of rights.

(i) Section 305(f)of Act provides for the the of regulations by promulgation which the Administrator may waive the rights of the United States with respect to any invention or class of inventions made or that may be made under conditions specified in paragraph (1) or (2) of Section 305(a) of the Act. The promulgated NASA Patent Waiver Regulations, 14 CFR Section 1245, adopted the have Subpart 1, Memorandum Presidential on of Government Patent Policy February 18, 1983, as a guide in acting on petitions (requests) for such waiver of rights.

As provided in 14 (ii) CFR 1245, Subpart 1, Contractors petition, either prior to may execution of the contract or within 30 days after execution of the contract, for advance waiver of any or all of the rights to inventions that may be made under a contract. If such a petition is not submitted, or if after submission it is denied, the Contractor (or an employee inventor of the Contractor) may petition for waiver of rights to an identified eight subject invention within disclosure of months of first invention in accordance with subparagraph (e)(2) below, or within such longer period as may be authorized in accordance with 14 CFR 1245.105.

(c) Minimum rights reserved by the Government.

(1) With respect to each subject invention for which a waiver of rights is applicable in accordance with 14 CFR Section 1245, Subpart 1, the Government reserves --

irrevocable. (i) An nonexclusive. nontransferable. royalty-free license for the practice of such invention throughout the world by or on behalf of the United States or any foreign government in accordance with any treaty or agreement with the United States; and

(ii) Such other rights as stated in 14 CFR 1245.107.

(2) Nothing contained in this paragraph (c) shall be considered to grant to the Government any rights with respect to any invention other than a subject invention.

# (d) Minimum rights to the Contractor.

(1) The Contractor is hereby granted a revocable, nonexclusive, royalty-free license in each patent application filed in any country on subject invention and any а resulting patent in which the Government acquires title, unless the Contractor fails to disclose the subject invention within the times specified in subparagraph (e)(2)below. The Contractor's license extends to its domestic subsidiaries and affiliates, if any, within the corporate structure of which the Contractor is a party and includes the right to grant sublicenses of the same scope to the extent the Contractor was legally obligated to do so at the time the contract was awarded. The license is transferable only with the approval of the Administrator except when transferred to the successor of that part of the

Contractor's business to which the invention pertains.

(2) The Contractor's domestic license may be revoked or modified by the Administrator to the extent necessary to achieve expeditious practical application of the subject invention pursuant to an application for an exclusive license submitted in accordance with 14 CFR 1245, Subpart 2, Licensing of NASA Inventions. This license will not be revoked in that field of use or the geographical areas in which the Contractor has achieved practical application and continues to make the benefits of the invention reasonably accessible to the public. The license in any foreign country may be revoked or modified at the discretion of the Administrator to the extent the Contractor, its licensees, or its domestic subsidiaries or affiliates have failed to achieve practical application in that foreign country.

(3) Before revocation or modification of the license, the Contractor will be provided а written notice of the Administrator's intention to revoke or modify the license, and the Contractor will be allowed 30 days (or such other time as may be authorized by the Administrator for good cause shown by the Contractor) after the notice to show cause why the license should not be revoked or modified. The Contractor has the right to appeal, in accordance with 14 CFR 1245.211, any decision concerning revocation the or modification of its license.

# (e) Invention identification, disclosures, and reports.

(1) The Contractor shall establish and maintain active and effective procedures to assure that reportable items are promptly

identified disclosed and to Contractor personnel responsible for the administration of this New Technology clause within six months of conception and/or first actual reduction to practice, whichever occurs first in the performance of work under this contract. These procedures shall include the maintenance of laboratory notebooks or equivalent records and other records as are reasonably necessary to document the conception and/or the first actual reduction to practice of the reportable items, and records that show that the *identifying* procedures for and reportable items disclosing are followed. Upon request. the Contractor shall furnish the Contracting Officer a description of such procedures for evaluation and for determination as to their effectiveness.

(2) The Contractor will disclose each reportable item to the Contracting Officer within two months after the inventor discloses Contractor it in writing to responsible personnel for the New administration of this Technology clause or, if earlier, within months after the six Contractor becomes aware that a reportable item has been made, but in any event for subject inventions before any on sale, public use, or publication of such invention known to the Contractor. The disclosure to the agency shall be in the form a written report and shall of identify the contract under which the reportable item was made and the inventor(s) or innovator(s). It shall be sufficiently complete in technical detail to convey a clear understanding, to the extent known at the time of the disclosure, of the nature, purpose, operation, and physical, chemical, biological, or electrical characteristics of the

item. The disclosure reportable identify also shall anv publication, on sale, or public use subject invention and of any whether a manuscript describing such invention has been submitted for publication and, if so, whether accepted for it has been time of publication at the addition. disclosure. In after disclosure the agency, the to Contractor will promptly notify the agency of the acceptance of any manuscript describing a subject invention for publication or of any on sale or public use planned by the Contractor for such invention.

(3) The shall furnish the Contracting Officer the following:

(i) Interim reports every 12 months (or such longer period as may be specified by the Contracting Officer) from the date of the contract, listing reportable items during that period. and certifying that a11 reportable items have been disclosed (or that there are no such inventions) and that the procedures required by subparagraph (e) (1) above have been followed.

final report, (ii) Α within 3 months after completion of the contracted work, listing all reportable items or certifying that there were no such reportable items, and listing all subcontracts at any tier containing a patent rights clause or certifying that there were no such subcontracts.

Contractor (4) The agrees. written request of the upon Contracting Officer. to furnish additional technical and other information available to the Contractor as is necessary for the preparation of a patent application on a subject invention and for the patent prosecution of the application, and to execute all

papers necessary to file patent applications on subject inventions and to establish the Government's rights in the subject inventions.

(5) The Contractor agrees, subject to paragraph 27.302(i), of the Federal Acquisition Regulation (FAR), that the Government may duplicate and disclose subject invention disclosures and all other reports and papers furnished or required to be furnished pursuant to this clause.

(f) Examination of records relating to inventions.

(1) The Contracting Officer or any authorized representative shall, until 3 years after final payment under this contract, have the right to examine any books (including laboratory notebooks), records, and documents of the relating Contractor to the conception or first actual reduction to practice of inventions in the same field of technology as the work under this contract to determine whether --

(i) Any such inventions are subject inventions;

(ii) The Contractor has established and maintained the procedures required by subparagraph (e)(1) of this clause; and

(iii) The Contractor and its inventors have complied with the procedures.

(2) If the Contracting Officer learns of an unreported Contractor invention that the Contracting Officer believes may be a subject invention, the Contractor may be required to disclose the invention to the agency for a determination of ownership rights.

(3) Any examination of records under this paragraph will

be subject to appropriate conditions to protect the confidentiality of the information involved.

(g) Withholding of payment (this paragraph does not apply to subcontracts).

(1) Any time before final payment under this contract, the Contracting Officer may, in the Government's interest, withhold payment until a reserve not exceeding \$50,000 or 5 percent of the amount of this contract. whichever is less, shall have been set aside if, in the Contracting Officer's opinion, the Contractor fails to --

(i) Establish, mainfollow tain, and effective procedures for identifying and disclosing reportable items pursuant subparagraph to (e)(1)above;

(ii) Disclose any reportable items pursuant to subparagraph (e)(2) above;

(iii) Deliver acceptable interim reports pursuant to subdivision (e)(3)(i) above; or

(iv) Provide the information regarding subcontracts pursuant to subparagraph (h)(4) below.

(2) Such reserve or balance shall be withheld until the Contracting Officer has determined that the Contractor has rectified whatever deficiencies exist and has delivered all reports, disclosures, and other information required by this clause.

(3) Final payment under this contract shall not be made before the Contractor delivers to the Contracting Officer all disclosures of reportable items required by subparagraph (e)(2) above, and an acceptable final report pursuant to subdivision (e)(3)(ii) above.

(4) The Contracting Officer may decrease or increase the sums withheld up to the maximum authorized above. No amount shall be withheld under this paragraph while the amount specified by this paragraph is being withheld under other provisions of the contract. The withholding of any amount or the subsequent payment thereof shall not be construed as a waiver of any Government rights.

# (h) Subcontracts.

(1) Unless otherwise authorized or directed by the Contracting Officer, the Contractor shall --

Include this clause (i) (suitably modified to identify the subcontract parties) in any hereunder (regardless of tier) with other than a small business firm or for nonprofit organization the experimental, performance of developmental, or research work; and

(ii) Include the clause at FAR 52.227-11 (suitably modified to identify the parties) in any subcontract hereunder (regardless of tier) with a small business firm or nonprofit organization for the performance of experimental, developmental, or research work.

(2) In the event of a refusal by a prospective subcontractor to accept such a clause the Contractor --

(i) Shall promptly submit a written notice to the Contracting Officer setting forth the subcontractor's reasons for such refusal and other pertinent information that may expedite disposition of the matter; and

(ii) Shall not proceed with such subcontract without the written authorization of the Contracting Officer.

(3) In the of case subcontracts at any tier. the and Conagency, subcontractor, tractor agree that the mutual obligations of the parties created constitute this clause а bv contract between the subcontractor and NASA with respect to those matters covered by this clause.

(4) The Contractor shall promptly notify the Contracting Officer in writing upon the award of any subcontract at any tier containing a patent rights clause by identifying the subcontractor, patent applicable rights the clause, the work to be performed under the subcontract, and the dates of award and estimated completion. Upon request of the Contracting Officer, the Contractor shall furnish a copy of such subcontract. and. no more frequently than annually, a listing of the subcontracts that have been awarded.

(5) The will subcontractor retain all rights provided for the Contractor in the clause of (1)(ii)subdivision (1)(i)٥r above, whichever is included in the subcontract, and the Contractor part of the will not, as consideration for awarding the subcontract, obtain rights in the subcontractor's subject inventions.

(i) Preference for United States industry. Unless provided otherwise, no Contractor that receives title to any subject invention and no assignce of any such Contractor shall grant to any person the exclusive right to use or sell any subject invention in the United States unless such person agrees that any products embodying the subject invention will be manusubstantially in the factured However, in United States.

individual cases, the requirement may be waived by the Administrator upon a showing by the Contractor or reasonable assignce that but unsuccessful efforts have been made to grant licenses on similar terms to potential licensees that would be likely to manufacture substantially in the United States or that under circumstances the domestic manufacture is not commercially feasible.

(End of clause)

# 18-52.227-71 Requests for Waiver of Rights to Inventions.

As prescribed in 18-27.373(d), insert the following provision in all solicitations that include the clause at 18-52.227-70, New Technology:

# REQUESTS FOR WAIVER OF RIGHTS TO INVENTIONS (APRIL 1984)

(a) In accordance with the NASA Patent Waiver Regulations, 14 CFR Section 1245, Subpart 1, waiver of rights to any or all inventions made or that may be made under a NASA contract or subcontract with other than a small business firm or a domestic nonprofit organization may be requested at different time periods. Advance waiver of rights to any or all inventions that may be made under a contract or subcontract may be requested prior to the execution of the contract or subcontract, or within 30 days after execution by the selected contractor. In addition, waiver of

rights to an identified invention made and reported under a contract or subcontract may be requested, even though a request for an advance waiver was not made or, if made, was not granted.

(b) Each request for waiver of rights shall be by petition to the Administrator and shall include an identification of the petitioner; place of business and address: if is petitioner represented bv counsel, the name, address and telephone number of the counsel; the signature of the petitioner or authorized representative; and the date of signature. No specific forms need be used, but the request should contain a positive statement that waiver of rights is being requested under the NASA Patent Waiver Regulations; a clear indication of whether the request is for an advance waiver or for a waiver of rights for an individual identified invention: whether foreign rights are also requested and, if so, the countries, and a citation of the specific section or sections of the regulations under which such rights are requested; and the name, address, and telephone number of the party with whom to communicate when the request is acted upon. Requests for advance waiver of rights should, preferably, be included with the proposal, but in any event in advance of negotiations.

(c) Petitions for advance waiver, prior to contract execution, must be submitted to the Contracting Officer. All other petitions will be submitted to the Patent Representative designated in the contract.

(d) Petitions submitted with proposals selected for negotiation

of a contract will be forwarded by the Contracting Officer to the installation Patent Counsel for and then to the processing Inventions and Contributions Board. The Board will consider these petitions and where the Board makes the findings to support the waiver, the Board will recommend to the waiver that he Administrator will notify granted. and the the Contracting petitioner and Officer of the Administrator's determination. The Contracting Officer will be informed by the whenever there is Board insufficient time or information or other reasons to permit a decision to be made without unduly delaying the execution of the contract. In the latter event, the petitioner notified the will be SO by other Contracting Officer. All will be processed bv petitions installation Patent Counsel and forwarded to the Board. The Board shall notify the petitioner of its action and if waiver is granted, conditions, reservations, and the thereof will be obligations in the Instrument included of Board Whenever the Waiver. petitioner of notifies а а adverse recommendation to. or waiver different from. the petitioner the may requested, under request reconsideration set forth in the procedures Regulations.

# (End of provision)

# 18-52.227-72 Designation of New Technology Representative and Patent Representative.

As prescribed in 18-27.373(e), insert the following clause:

# DESIGNATION OF NEW TECHNOLOGY REPRESENTATIVE AND PATENT REPRESENTATIVE (APRIL 1984)

For purposes of administration (a) of the clause of this contract entitled "New Technology" or "Patent Rights--Retention by the Contractor (Short Form)," whichever is included, the following named hereby representatives are Contracting designated bv the Officer to administer such clause:

| Title | Office | Address    |
|-------|--------|------------|
|       | Code   | (including |
|       |        | zip code)  |

New Technology Representative

Patent Representative

Reports of reportable items, (b) of subject disclosure and inventions, interim reports, final utilization reports, and reports. reports required by other the well anv clause. as 28 correspondence with respect to such matters, should be directed to the Technology Representative New unless transmitted in response to correspondence or request from the Patent Representative. Inquires or requests regarding disposition of election of rights. or rights, related matters should be directed to the Patent Representative. This clause shall be included in any subcontract hereunder requiring a "New Technology" clause or "Patent **Rights--Retention** by the Contractor clause. unless Form)" (Short otherwise authorized or directed by Contracting Officer. The the responsibilities and respective above-named authorities of the representatives are set forth in

18-27.375-3 of the NASA FAR Supplement.

### (End of clause)

## 18-52.227-84 Patent Rights Clauses.

The contracting officer shall insert the following provision as prescribed in 18-27.373(f):

# PATENT RIGHTS CLAUSES (DECEMBER 1989)

This solicitation contains the patent rights clauses of FAR 52.227-11 (as modified by the NFS) and NFS 18-52.227-70. If the contract resulting from this solicitation is awarded to a small business or nonprofit organization, the clause at NFS 18-52.227-70 shall not apply. If the award is to other than a small business or nonprofit organization, the clause at FAR 52.227-11 shall not apply.

#### (End of Provision)

# 18-52.227-85 Invention Reporting and Rights--Foreign.

As prescribed in 18-27.373(c)(1), insert the following clause:

# INVENTION REPORTING AND RIGHTS--FOREIGN (APRIL 1986)

(a) As used in this clause, the term "invention" means any invention, discovery or improvement, and "made" means the conception or first actual demonstration that the invention is useful and operable.

(b) The Contractor shall report promptly to the Contracting Officer each invention made in the performance of work under this contract. The report of each such invention shall:

(1) Identify the inventor(s) by full name; and

(2) Include such full and complete technical information concerning the invention as is necessary to enable an understanding of the nature and operation thereof.

The Contractor hereby grants (c) to the Government of the United States of America as represented by the Administrator of the National Aeronautics and Space Administration the full right, title and and to each such interest in invention throughout the world, except for the State in which this contract is to be performed. As to State, Contractor hereby such grants to the Government of the of America 85 United States represented by the Administrator of the National Aeronautics and Space Administration only an irrevocable, nonexclusive, nontransferable. royalty-free license to practice each such invention by or on behalf of the United States of America or any foreign government pursuant to any treaty or agreement with the United States of America, provided that Contractor within a reasonable time files a patent application in that State for each such invention. Where Contractor does not elect to file such patent application for any such invention in that State, full right, title and interest in and to such invention in that State shall reside in the Government of the United States of America as represented by the Administrator of the National Aeronautics and Space Administration.

(d) The Contractor agrees to execute or to secure the execution of such legal instruments as may be necessary to confirm and to protect the rights granted by paragraph (c) above, including papers incident to the filing and prosecution of patent applications.

(e) Upon completion of the contract work, and prior to final payment, Contractor shall submit to the Contracting Officer a final report listing all inventions reportable under this contract or certifying that no such inventions have been made.

In each subcontract. the (f) this Contractor awards under contract where the performance of experimental research. design. engineering, or developmental work the Contractor is contemplated, shall include this clause and the name and address of the Contracting Officer.

#### (End of Clause)

# 18-52.227-86 Commercial Computer Software--Licensing.

As prescribed in 18-27.409(h), insert the following clause:

### COMMERCIAL COMPUTER SOFTWARE--LICENSING (DECEMBER 1987)

(a) Any delivered commercial computer software (including documentation thereof) developed at private expense and claimed as proprietary shall be subject to the restricted rights in paragraph (d) below. Where the vendor/contractor proposes its standard commercial software license, those applicable portions thereof consistent with Federal laws, standard industry practices, the Federal Acquisition Regulations (FAR) and the NASA FAR Supplement, including the restricted rights in paragraph (d) below, are incorporated into and made a part of this purchase order/contract.

(b) Although the vendor/contractor may not propose its standard commercial software license until after this purchase order/contract

has been issued, or at or after the time the computer software is delivered, such license shall nevertheless be deemed incorporated into and made a part of this purchase order/contract under the same terms and conditions as in paragraph (a) above. For purposes of receiving updates, correction notices, consultation, and similar activities on the computer software, the NASA Contracting Officer or the NASA Contracting Officer's Technical Representative/ User may sign any agreement, license, or registration form or card and return it directly to the vendor/contractor; however, such signing shall not alter any of the terms and conditions of this clause.

(c) The vendor's/contractor's acceptance is expressly limited to the terms and conditions of this purchase order/contract. If the specified computer software is shipped or delivered to NASA, it shall be understood that the vendor/contractor has unconditionally accepted the terms and conditions set forth in this clause, and that such terms and conditions (including the incorporated license) constitute the the entire agreement between parties concerning rights in the computer software.

(d) The following restricted rights shall apply:

(1) The commercial computer software may not be used, reproduced, or disclosed by the Government except as provided below or otherwise expressly stated in the purchase order/contract.

(2) The commercial computer software may be --

(i) Used, or copied for use, in or with any computer owned or leased by, or on behalf of, the Government; provided, the software is not used, nor copied for use, in or with more than one computer simultaneously, unless otherwise permitted by the license incorporated under paragraphs (a) or (b) above;

(ii) Reproduced for safekeeping (archives) or backup purposes;

(iii) Modified, adapted, or combined with other computer software, provided that the modified, combined, or adapted portions of the derivative software incorporating restricted computer software shall be subject to the same restricted rights; and

(iv) Disclosed and reproduced for use by Government contractors or their subcontractors in accordance with the restricted rights in subdivisions (i), (ii), and (iii) above: provided they have the Government's permission to use the computer software and have also agreed to protect the computer software from unauthorized use and disclosure.

(3) If incorporated the vendor's/contractor's software license contains provisions or rights that less restrictive are than the restricted rights in subparagraph (d)(2) above, then the less restrictive provisions or rights shall prevail.

(4) If the computer software is published, copyrighted computer software, it is licensed to the Government, without disclosure prohibitions, with the rights in subparagraphs (d)(2) and (3) above.

(5) The computer software may be marked with any appropriate proprietary notice that is consistent with the rights in subparagraphs (d)(2), (3), and (4) above.

(End of clause)

# 18-52.227-87 Transfer of technical data under Space Station International Agreements.

As prescribed at 18-27.670-2, insert the following clause:

# TRANSFER OF TECHNICAL DATA UNDER SPACE STATION INTERNATIONAL AGREEMENTS (APRIL 1989)

1. In the cooperative Space Station Freedom program, NASA has the authority to provide to the international partners all information necessary to implement multilateral Space Station the Intergovernmental Agreement and the Space Station Memoranda of Understanding. NASA is committed these Space Station under agreements provide its to international Space Station partners with certain technical data which are subject to the U.S. export control laws and regulations. NASA will have obtained any necessary approvals from the Department of State for the transfer of any such technical Space Station data. contractors, acting as agents of NASA under the specific written direction of the Contracting Officer, or designated representative, require no other under the approval separate International Traffic in Arms Regulations (ITAR) to transfer such data.

2. The Contractor agrees, when specifically directed in writing by

the Contracting Officer. or designated representative. to transfer identified technical data to a named foreign recipient, in the manner directed. No export control marking should be affixed to the data unless so directed. If directed, the text of the marking to be affixed will be furnished by the Contracting Officer or designated representative.

It should be emphasized that 3. the transfer is limited solely to those technical data which NASA specifically identifies and directs Contractor transfer the to in accordance with 2, above, and that all other transfers of technical foreign entities data to are subject to the requirements of the U.S. export control laws and regulations.

Nothing contained in 4. this clause affects the allocation of technical data rights between NASA Contractor and the or any subcontractors as set forth in the Rights in Data clause of this Contract, nor the protection of any proprietary technical data which may be available to the Contractor or any subcontractor under that clause.

5. The Contractor agrees to include this clause, including this paragraph 5, in all subcontracts hereunder, appropriately modified to reflect the relationship of the parties.

(End of clause)

.

# 18-52.228-70 Aircraft Ground and Flight Risk.

As prescribed in 18-28.370(a), insert the following clause. The purpose of this clause is to have the Government assume risks that generally entail unusually high insurance premiums and are not covered by the contractor's contents, work-in-process, and similar insurance. Since the definitions in the clause may not cover every situation that should be covered to achieve this purpose, the clause may be modified as follows: If the contract covers helicopters, vertical lighter-than-air aircraft, take-off airships, or other nonconventional types of aircraft, the definition of "aircraft" should be modified to specify that the point aircraft has reached a of manufacture comparable to that specified in the standard definition, which is written for conventional winged aircraft. The definition of "in the open" may be modified to include "hush houses," test hangers, comparable structures, and other designated areas. In addition, clause subparagraph (d)(3) may be modified to provide for Government assumption of risk transportation by conveyance on of streets or highways if the contracting determines this officer that transportation is limited to the vicinity of the contractor's premises and is merely incident to work being performed under the contract.

#### AIRCRAFT GROUND AND FLIGHT RISK (DECEMBER 1988)

(a) Notwithstanding any other provisions of this contract, except as may be specifically provided in the Schedule as an exception to this clause, the Government, subject to the definitions and limitations of this clause, assumes the risk of damage to, or loss or destruction of, aircraft in the open, during operation, and in flight and agrees that the Contractor shall not be liable to the Government for any such damage, loss, or destruction.

(b) For the purposes of this clause, the following definitions apply:

(1) Unless otherwise specifically provided in the Schedule, "aircraft" includes --

Aircraft (including (i) aircraft and both complete aircraft in the course of being manufactured. disassembled, or <u>provided</u> that an reassembled; engine or a portion of a wing or a wing is attached to the fuselage) to be furnished to the Government under this contract (whether before or after acceptance Government acceptance); and

Aircraft (regard-(ii) less of whether in a state of disassembly or reassembly) furnished by the Government to the Contractor under this contract. property installed including all in, in the process of installation in, or temporarily removed from them, unless the aircraft and property are covered by a separate bailment agreement.

"In the open" means (2) located wholly outside of buildings on the Contractor's premises, or at other places as may be such described in the Schedule as being in the open for the purposes of this clause, except that aircraft furnished by the Governmentare considered to be in the open at all while Contractor's times in possession, care, custody, or control.

(3) "Flight" includes any flight demonstration, flight test, taxi test, or other flight made in

## 18-52.228-70

the performance of this contract, or for the purpose of safeguarding the aircraft, or previously approved in writing by the Contracting Officer.

(i) With respect to land-based aircraft, flight commences with the taxi roll from a flight line on the Contractor's premises and continues until the aircraft has completed the taxi roll in returning to a flight line on the Contractor's premises.

(ii) With respect to seaplanes, flight commences with the launching from a ramp on the Contractor's premises and continues until the aircraft has completed its landing run upon return and is beached at a ramp on the Contractor's premises.

(iii) With respect to helicopters, flight commences upon engagement of the rotors for the purpose of take-off from the Contractor's premises and continues until the aircraft has returned to the ground on the Contractor's premises and the rotors are disengaged.

(iv) With respect to vertical take-off aircraft. flight commences upon disengagement from any launching platform or device on the Contractor's premises and continues until the aircraft has been re-engaged to any launching platform or device on the Contractor's premises; provided. however, that aircraft off the Contractor's premises shall be deemed to be in flight when on the ground or water only during periods of reasonable duration following emergency landing, other landings made in the performance of this contract, or landings approved by Contracting Officer the in writing.

(4) "Contractor's premises" means those premises designated as such in the Schedule or in writing by the Contracting Officer, and any other place to which aircraft are moved for the purpose of safeguarding the aircraft.

(5) "Operation" means operations and tests, other than on any production line, of aircraft, not in flight, whether or not the aircraft is in the open or in motion during them and includes operations and tests of equipment, accessories, and power plants only when installed in aircraft.

"Flight crew members" (6) means the pilot. copilot, and, unless otherwise specifically provided in the Schedule, the flight engineer and navigator when required or assigned to their respective crew positions to conduct any flight on behalf of the Contractor.

"Contractor's (7) managerial personnel" means the Contractor's directors, officers, and any managers, superintendents, or equivarepresentatives lent who have supervision or direction of all or substantially all of the Contractor's business or of the Contractor's operations at any one plant or separate location at which this contract is performed or a separate and complete major industrial operation in connection with the performance of this contract.

(c) (1) The Government's assumption of risk under this clause, as to aircraft in the open, shall continue in effect unless terminated pursuant to subparagraph below. If (3) the Contracting Officer finds that an aircraft is in the open under unreasonable conditions, the Contracting Officer shall notif y the Contractor in writing of the conditions found to be unreasonable and require the

Contractor to correct them within a reasonable time.

(2) Upon receipt of this notice, the Contractor shall act promptly to correct these conditions, regardless of whether it agrees that they are in fact unreasonable. To the extent that the Contracting Officer may later determine that they were not in fact unreasonable, an equitable adjustment shall be made in the contract price to compensate the Contractor for any additional costs incurred in correcting them, and the contract shall be modified in writing accordingly.

(3) (i) If the Contracting Officer finds that the Contractor has failed to act promptly to correct unreasonable conditions or failed to correct them has a reasonable time, the within Contracting Officer may by notice terminate the written Government's assumption of risk under this clause for any aircraft which is in the open under those conditions. This termination shall be effective at 12:01 A.M. on the 15th day following the day of receipt by the Contractor of the notice.

If the Contracting (ii) Officer later determines that the promptly to Contractor acted correct the conditions or that the time taken by the Contractor was fact unreasonable, an in not adjustment shall, equitable notwithstanding paragraph (g) below, be made to compensate the Contractor for any additional costs incurred as a result of the termination, and the contract shall modified in writing he accordingly.

(4) If the Government's assumption of risk under this clause is terminated in accordance with subparagraph (3) above, the risk of loss with respect to Governmentshall he furnished property determined in accordance with the Government property clause of this until the contract, if any, Government's assumption of risk is accordance with reinstated in subparagraph (5) below.

(5) (i) When unreasonable conditions have been corrected, the Contractor shall promptly notify the Government. The Government may or may not elect to reassume the risks and relieve the Contractor of liabilities as provided in this clause, and the Contracting Officer shall notify the Contractor of the Government's election.

If. after correc-(ii) tion of the conditions, the Government elects to reassume the risks and relieve the Contractor of liabilities, the Contractor shall be entitled to an equitable adjustment for any costs of insurance extending from the end of the third working day after the Contractor notifies the Government of the correction until the Government notithe Contractor of that fies election.

(iii) If the Government elects not to reassume the risks and the conditions have in fact Contractor corrected. the been shall be entitled to an equitable of adjustment for any costs after the insurance extending third working day referred to in subdivision (ii) above.

(d) The Government's assumption of risk shall not extend to damage to or loss or destruction of aircraft --

(1) Resulting from failure of the Contractor, due to willful misconduct or lack of good faith of any of the Contractor's managerial personnel, to maintain and

administer a program for protecting and preserving aircraft in the open and during operation, in accordance with sound industrial practice;

(2) Sustained during flight if the flight crew members conducting the flight have not been approved in writing by the Contracting Officer;

(3) While in the course of transportation by rail or by conveyance on public streets, highways, or waterways, except for Government-furnished property;

(4) To the extent that the damage, loss, or destruction is in fact covered by insurance;

(5) Consisting of wear and tear, deterioration (including rust and corrosion), freezing, or mechanical. structural. or electrical breakdown or failure, unless this damage is the result of other loss. damage, or destruction covered by this clause (except that, in the case of Governmentfurnished property, if the damage consists of reasonable wear and tear or deterioration or results from inherent vice in such property, this exclusion shall not apply); or

(6) Sustained while the aircraft is being worked upon and directly resulting from the work, including but not limited to any repairing, adjusting, servicing, or maintenance operation, unless the damage, loss, or destruction is of a type that would be covered by insurance that would customarily have been maintained bv the Contractor at the time of the damage, loss, or destruction, but for the Government's assumption of risk under this clause.

(e) (1) With the exception of damage to or loss or destruction of aircraft in flight, the Government's assumption of risk under this clause shall not extend to the first \$1,000 of loss or damage resulting from each event separately occurring. The Contractor assumes the risk of and shall be responsible for the first \$1,000 of loss of or damage to aircraft in the open or during operation resulting from event each separately occurring, except for reasonable wear and tear and except to the extent the loss or damage is caused by negligence of Government personnel.

(2) If the Government elects to require that the aircraft be replaced restored ог by the Contractor to the condition in which it was immediately prior to the damage, the equitable adjustment in the price authorized by paragraph (i) below shall not include the dollar amount of the risk assumed by the Contractor under this paragraph (e). If the Government does not elect repair or replacement, the Contractor agrees to credit the contract price or pay the Government \$1,000 (or the amount of the loss if smaller) as directed bv the Contracting Officer.

(f) No subcontractor may be relieved from liability for damage to or loss or destruction of aircraft while in its possession or control, except to the extent that the subcontract, with the Contracting Officer's prior written approval, provides for relief of the subcontractor from that liability. In the absence of such approval, the subcontract shall require the return of the aircraft in as good condition as when received. except for reasonable and wear tear or for the utilization of the property in accordance with the provisions of this contract. If a subcontractor

has not been relieved from liability and any damage, loss, or destruction occurs, the Contractor shall enforce the liability of the subcontractor for that damage to or loss or destruction of the aircraft for the benefit of the Government.

(g) The Contractor warrants that the contract price does not and will not include, except as this clause may otherwise authorize, any charge or contingency reserve for insurance (including self-insurance funds or reserves) covering any damage to or loss or destruction of aircraft while in the open, during operation, or in flight, the risk of which has been assumed by the under this Government clause. whether or not such assumption may be terminated as to aircraft in the open.

(h) (1) In the event of damage loss or destruction of, to. or aircraft in open, during the operation. in flight. the or Contractor shall take all reasonable steps to protect the aircraft from further damage, separate damaged and undamaged aircraft, and put all aircraft in the best possible order. Further, except in cases covered bv paragraph (e) above, the Contractor should furnish to the Contracting Officer a statement of --

(i) The damaged, lost, or destroyed aircraft;

(ii) The time and origin of the damage, loss, or destruction;

(iii) All known interests in commingled property of which aircraft are a part; and

(iv) Any insurance covering any part of the interest in the commingled property.

(2) Except in cases covered by paragraph (e) above, an equitable adjustment shall be made in the amount due under this contract for expenditures made by the Contractor in performing its obligations under this paragraph (h), and this contract shall be modified in writing accordingly.

(i) (1) If, before delivery and acceptance by the Government, any aircraft is damaged, lost, or destroyed and the Government has under this clause assumed the risk damage. loss. or of that destruction, the Government shall either (i) require that the aircraft be replaced or restored by the Contractor to the condition in which it was immediately prior to the damage or (ii) terminate this contract with respect to that aircraft.

If the Government re-(2) that the aircraft he auires replaced or restored, an equitable adjustment shall be made in the amount due under this contract and the time required for its in contract performance, and the shall be modified in writing accordingly.

(3) If, in the alternative. this contract is terminated under this paragraph (i) with respect to and under this aircraft. the clause the Government has assumed the risk of the damage, loss, or destruction, the Contractor shall be paid the contract price for the aircraft (or, if applicable, any work to be performed on the aircraft) less any amounts the Contracting Officer determines (i) it would have cost the that Contractor to complete the aircraft (or any work to be performed on it), together with any anticipated profit on the uncompleted work and (ii) to be the value, if any, of aircraft or damaged any the remaining portion of it retained

by the Contractor. The Contracting Officer shall have the right to prescribe the manner of disposition of the damaged, lost, or destroyed aircraft or any remaining parts it, and, if the Contractor of incurs additional costs as a result of such disposition, a further equitable adjustment shall be made in the amount due to the Contractor.

(j) (1) If the Contractor is at any time reimbursed or compensated by any third person for any damage, loss, or destruction of any aircraft, the risk of which has been assumed by the Government under this clause and for which the Contractor has been compensated by the Government, it shall equitably reimburse the Government.

The Contractor shall do (2) nothing to prejudice the Government's rights to recover against third parties for any such damage, loss, or destruction and, upon the request of the Contracting Officer, shall at the Government's expense furnish to the Government a11 reasonable assistance and cooperation (including the prosecution suit and the execution of of instruments of assignment or subrogation in favor of the Government) in obtaining recovery.

(End of clause)

## 18-52.228-71 Aircraft Flight Risks.

(a) As prescribed in 18-28.311-270, insert the following clause:

## AIRCRAFT FLIGHT RISKS (DECEMBER 1988)

(a) Notwithstanding any other provision of this contract

(particularly paragraph (g) of the Government Property (Cost-Reimbursement. Time-and-Materials. or Labor-Hour Contracts) clause and paragraph (c) of the Insurance--Liability to Third Persons clause), the Contractor shall not (1) be relieved of liability for damage to. or loss or destruction of, aircraft sustained during flight or (2) be reimbursed for liabilities to third persons for loss of or damage to property or for death or bodily injury caused by aircraft during flight, unless the flight crew members have previously been approved in writing by the Contracting Officer.

(b) For the purposes of this clause --

(1) Unless otherwise specifically provided in the Schedule. "aircraft" includes any aircraft, whether furnished by the Contractor under this contract (either before or after Government acceptance) or furnished by the Government to the Contractor under this contract. including all Government property placed ٥r installed or attached to the aircraft, unless the aircraft and property are covered by a separate bailment agreement.

(2) *"Flight"* includes anv flight demonstration, flight test, taxi test, or other flight made in the performance of this contract. or for the purpose of safeguarding the aircraft, or previously writing approved in by the Contracting Officer.

(i) With respect to land-based aircraft, flight commences with the taxi roll from a flight line and continues until the aircraft has completed the taxi roll to a flight line. (ii) With respect to seaplanes, flight commences with the launching from a ramp and continues until the aircraft has completed its landing run and is beached at a ramp.

(iii) With respect to helicopters, flight commences upon engagement of the rotors for the purpose of take-off and continues until the aircraft has returned to the ground and rotors are disengaged.

(iv) With respect to vertical take-off aircraft, flight commences upon disengagement from any launching platform or device and continues until the aircraft has been re-engaged to any launching platform or device.

(3) "Flight crew members" means the pilot, copilot, and, unless otherwise specifically provided in the Schedule, the flight engineer and navigator when required or assigned to their respective crew positions to conduct any flight on behalf of the Contractor.

(1) If any aircraft is (c) damaged, lost, or destroyed during flight and the amount of the damage, loss, or destruction exceeds \$100,000 or 20 percent of the estimated cost, exclusive of any fee, of this contract, whichever is less, and if the Contractor is not liable for the damage, loss, or destruction under the Government Property (Cost-Reimbursement, Time-and-Materials, or Labor-Hour Contracts) clause of this contract or under paragraph (a) of this section, an equitable adjustment for any resulting repair, restoration, or replacement required under this contract shall be made (i) in the estimated cost, the delivery schedule, or both and (ii) in the amount of any fee to be

paid to the Contractor, and the contract shall be modified in writing accordingly.

(2) In determining the amount of adjustment in the fee that is equitable, any fault of the Contractor, its employees, or any subcontractor that materially contributed to the damage, loss, or destruction shall be taken into consideration.

## (End of clause)

# 18-52.228-72 Cross-Waiver of Liability for Space Shuttle Services.

As prescribed in 18-28.371(b) and (e), insert the following clause:

## CROSS-WAIVER OF LIABILITY FOR SPACE SHUTTLE SERVICES (SEPTEMBER 1993)

(a) As prescribed by regulation (14 CFR Part 1266), NASA agreements involving Space Shuttle flights are required to contain broad cross-waivers of liability among the parties and the parties related entities to encourage participation in space exploration, use, and investment. The purpose of this clause is to extend this cross-waiver requirement to Contractors and related entities under their contracts. This cross-waiver of liability shall be broadly construed to achieve the objective of encouraging participation in space activities.

(b) As used in this clause, the term:

(1) "Contractors" and "Subcontractors" includes uppliers of any kind.

(2) "Damage" means:

(i) Bodily injury to,

or other impairment of health of, or death of, any person;

(ii) Damage to, loss of, or loss of use of any property;

(iii) Loss of revenue or profits; or

(iv) Other direct, indirect, or consequential damage;

(3) "Party" means a person or entity that signs an agreement involving a Space Shuttle service;

(4) "Payload" means all property to be flown or used on or in the Space Shuttle; and

"Protected (5)Space **Operations**<sup>\*</sup> means all Space Shuttle and payload activities on Earth, in outer space, or in transit between Earth and outer space performed in furtherance of an agreement involving Space Shuttle services or performed under this contract. "Protected Space Operations" excludes activities on Earth which are conducted on return from space to develop further a payload's product or process except when such development is for Space Shuttle-related activities necessary to implement an agreement involving Space Shuttle services or to perform this contract. It includes, but is not limited to:

(i) Research, design, development, test, manufacture, assembly, integration, operation, or use of the Space Shuttle, transfer vehicles, payloads, related support equipment, and facilities and services;

(ii) Allactivities related to ground support, test, training, simulation, or guidance and control equipment, and related facilities or services.

(6) *"Related entity"* means:

(i) A party's Contractors or subcontractors at any tier;

(ii) A party's users or customers at any tier; or

(iii) A Contractor or subcontractor of a party's user or customer at any tier.

(c) (1) The Contractor agrees to a waiver of liability pursuant to which the Contractor waives all claims against any of the entities or persons listed in paragraphs (c)(1)(i) through (c)(1)(iii) of this clause based on damage arising out of Protected Space Operations. This waiver shall apply only if the person, entity, or property causing the damage is involved in Protected Space Operations and the person, entity, or property damaged is damaged by virtue of its involvement in Protected Space Operations. This waiver shall apply to any claims for damage, whatever the legal basis for such claims, including but not limited to delict (a term used in civil law countries to denote a class of cases similar to tort) and tort (including negligence of every degree and kind) and contract, against:

(i) Any party other than the Government;

(ii) A related entity of any party other than the Government; and

(iii) The employees of any of the entities identified in (c)(1)(i) and (c)(1)(ii) of this clause.

(2) The Contractor agrees to extend the waiver of liability as set forth in paragraph (c)(1) of this clause to subcontractors at any tier by requiring them, by contract or otherwise, to agree to waive all claims against the entities or persons identified in paragraphs (c)(1)(i) through (c)(1)(iii) of this clause.

(3) For avoidance of doubt, this cross-waiver includes a cross-waiver of liability arising from the Convention on International Liability for Damage Caused by Space Objects, (Marca 29, 1972, 24 United States Treaties and other International Agreements (U.S.T.) 2389, Treaties and Other International Acts Series (T.I.A.S.) No. 7762 in which the person, entity, or property causing the damage is involved in Protected Space Operations, and the person, entity, or property damaged is damaged by virtue of its involvement in Protected Space Operations.

(4) Notwithstanding the other provisions of this clause, this waiver of liability shall not be applicable to:

(i) Claims between any party and its related entities or claims between the Government's related entities (e.g., claims between the Government and the Contractor are included within this exception);

(ii) Claims made by a natural person, his/her estate, survivors, or subrogees for injury or death of such natural person;

(iii) Claims for damage caused by willful misconduct; and

(iv) Intellectual property claims.

(5) Nothing in this clause shall be construed to create the basis for a claim or suit where none would otherwise exist.

(End of clause)

#### 18-52.228-73 Bid Bond.

As prescribed in 18-28.101-70, insert the following provision:

#### BID BOND (OCTOBER 1988)

(a) Each bidder shall submit

with its bid a bid bond (Standard Form 24) with good and sufficient surety or sureties acceptable to the Government, or other security as provided in Federal Acquisition Regulation clause 52.228-1, in the amount of twenty percent (20%) of the bid price, or \$3 million, whichever is the lower amount.

(b) Bid bonds shall be dated the same date as the bid or earlier.

(End of provision)

# 18-52.228-74 Payment and Performance Bonds.

As prescribed in 18-28.102-70, insert the following provision:

#### PAYMENT AND PERFORMANCE BONDS (DECEMBER 1988)

Unless the resulting contract is for \$25,000 or less, the successful bidder will be required to furnish payment and performance bonds to the Contracting Officer as follows:

(a) <u>Performance Bonds</u>: (Standard Form 25)

(1) The penal amount of performance bonds shall be 100 percent of the original contract price.

(2) The Government may require additional performance bond protection when a contract price is increased. The increase in protection shall generally equal 100 percent of the increase in contract price. The Government may secure additional protection by directing the Contractor to increase the penal amount of the existing bond or to obtain an additional bond.

(b) <u>Payment Bonds</u>: (Standard Form 25-A)

(1) The penal amount of payment bonds shall equal--

 (i) 50 percent of the contract price if the contract price is not more than \$1 million; (ii) 40 percent of the contract price if the contract price is more than \$1 million but

not more than \$5 million; or (iii) \$2.5 million if the contract price is more than \$5 million.

(2) If the original contract price is \$5 million or less, the Government may require additional protection if the contract price is increased. The penal amount of the total protection as revised shall meet the requirement of subparagraph (1) immediately above.

(3) The government may secure additional protection by directing the Contractor to increase the penal sum of the existing bond or to obtain an additional bond.

(c) The Contractor shall furnish all bonds, including any necessary reinsurance agreements, to the Contracting Officer before starting work. Performance and payment bonds shall be dated the <u>same date as the contract award</u> <u>date</u>; or, in the case of any additional bond protection required, the <u>same date as the</u> <u>contract modification date</u>.

(d) Surety companies acceptable to the Government are identified by the Department of Treasury and listed in the Federal Register.

(End of provision)

18-52.228-75 Minimum Insurance Coverage.

As prescribed in 18-28.372, insert the following clause:

#### MINIMUM INSURANCE COVERAGE (OCTOBER 1988)

The Contractor shall obtain and maintain insurance coverage as follows for the performance of this contract:

(a) Worker's compensation and employer's liability insurance as required by applicable Federal and state workers' compensation and occupational disease statutes. If occupational diseases are not compensable under those statutes, they shall be covered under the employer's liability section of the insurance policy, except when contract operations are so commingled with the Contractor's commercial operations that it would not be The employer's practical. liability coverage shall be at least \$100,000, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers.

(b) Comprehensive general (bodily injury) liability insurance of at least \$500,000 per occurrence.

(c) Motor vehicle liability insurance written on the comprehensive form of policy which provides for bodily injury and property damage liability covering the operation of all motor vehicles used in connection with performing the contract. Policies covering motor vehicles operated in the United States shall provide coverage of at least \$200,000 per person and \$500,000 per occurrence for bodily injury liability and \$20,000 per occurrence for property damage. The amount of liability coverage on other policies shall be commensurate with any legal requirements of the locality and sufficient to meet normal and customary claims.

(d) Comprehensive general and motor vehicle liability policies shall contain a provision worded as follows:

"The insurance company waives any right of subrogation against the United States of America which may arise by reason of any payment under the policy."

(e) When aircraft are used in connection with performing the contract, aircraft public and passenger liability insurance of at least \$200,000 per person and \$500,000 per occurrence for bodily injury, other than passenger liability, and \$200,000 per occurrence for property damage. Coverage for passenger liability bodily injury shall be at least \$200,000 multiplied by the number of seats or passengers, whichever is greater.

#### (End of clause)

18-52.228-76 Cross-Waiver of Liability for Space Station Activities.

As prescribed in 18-28.371(d) and (e), insert the following clause:

# CROSS-WAIVER OF LIABILITY FOR SPACE STATION ACTIVITIES (SEPTEMBER 1993)

(a) The Intergovernmental Agreement for the Space Station contains a broad cross-waiver provision to encourage participation in the exploration and use of outer space through the Space Station. The purpose of this clause is to extend this cross-waiver requirement to Contractors and subcontractors as related entities of NASA. This cross-waiver of liability shall be broadly construed to achieve this objective of encouraging participation in space activities.

(b) As used in this clause, the term:

(1) "Damage" means:

(i) Bodily injury to, or other impairment of health of, or death of, any person;

(ii) Damage to, loss of, or loss of use of any property; (iii) Loss of revenue

or profits; or

(iv) Other direct, indirect, or consequential damage.

(2) "Launch Vehicle" means an object (or any part thereof) intended for launch, launched from Earth, or returning to Earth which carries payloads or persons, or both.

"Partner State" means (3)each contracting party for which the "Agreement among the Government of the United States of America, Governments of Member States of the European Space Agency, Government of Japan, and the Government of Canada on Cooperation in the Detailed Design, Development, Operation, and Utilization of the Permanently Manned Civil Space Station" (the "Intergovernmental Agreement") has entered into force, in accordance with Article 25 of the Intergovernmental

It includes the Agreement. Cooperating Agency of a Partner State. The National Aeronautics and Space Administration (NASA) for the United States, the Canadian Space Agency (CSA) for the Government of Canada, the European Space Agency (ESA) and the Science and Technology Agency of Japan (STA) are the Cooperating Agencies responsible for implementing Space Station cooperation. A Partner State also includes any entity specified in the Memorandum of Understanding (MOU) between NASA and the Government of Japan to assist the Government of Japan Cooperating Agency in the implementation of that MOU.

(4) "Payload" means all property to be flown or used on or in a launch vehicle or the Space Station.

"Protected (5) Space Operations" means all launch vehicle activities, Space Station activities, and payload activities on Earth, in outer space, or in transit between Earth and outer space performed in furtherance of the Intergovernmental Agreement or performed under this contract. "Protected Space Operations" also includes all activities related to evolution of the Space Station as provided for in Article 14 of the Intergovernmental Agreement. "Protected Space Operations" excludes activities on Earth which are conducted on return from the Space Station to develop further a payload's product or process except when such development is for Space Station-related activities in implementation of the Intergovernmental Agreement or in performance of this contract. It includes, but is not limited to:

(i) Research, design, development, test, manufacture, assembly, integration, operation, or use of launch or transfer vehicles, payloads, related support equipment, and facilities and services;

(ii) All activities related to ground support, test, training, simulation, or guidance and control equipment, and related facilities or services.

(6) "Related entity" means:

(i) A Partner State's Contractors or subcontractors at any tier;

(ii) A Partner State's users or customers at any tier; or

(iii) A Contractor or subcontractor of a Partner States's user or customer at any tier.

(7) "Contractors" and "Subcontractors" include suppliers of any kind.

(c) (1) The Contractor agrees to a cross-waiver of liability pursuant to which the Contractor waives all claims against any of the entities or persons listed in paragraphs (c)(1)(i) through (c)(1)(iii) of this clause based on damage arising out of Protected Space Operations. This waiver shall apply only if the person, entity, or property causing the damage is involved in Protected Space Operations and the person, entity, or property damaged is damaged by virtue of its involvement in Protected Space Operations. The cross-waiver shall apply to any claims for damage, whatever the legal basis for such claims, including but not limited to delict (a term used in civil law countries to denote a class of cases similar to tort) and tort (including negligence of every degree and kind) and contract against:

(i) Any Partner State other than the United States; (ii) A related entity of any Partner State other than the United States; and

(iii) The employees of any of the entities identified in paragraphs (c)(1)(i) and (ii) of this clause.

(2) The Contractor agrees to extend the waiver of liability as set forth in paragraph (c)(1) of this clause to subcontractors at any tier by requiring them, by contract or otherwise, to agree to waive all claims against the entities or persons identified in paragraphs (c)(1)(i) through (c)(1)(iii) of this clause.

(3) For avoidance of doubt, this cross-waiver includes a crosswaiver of liability arising from the Convention on International Liability for Damage Caused by Space Objects, (March 29, 1972, 24 United States Treaties and other International Agreements (U.S.T.) 2389, Treaties and other International Acts Series (T.I.A.S.) No.7762) in which the person, entity, or property causing the damage is involved in Protected Space Operations.

(4) Notwithstanding the other provisions of this clause, this cross-waiver of liability shall not be applicable to:

(i) Claims between the United States and its related entities or claims between the related entities of any Partner State (e.g., claims between the Government and the Contractor are included within this exception);

(ii) Claims made by a natural person, his/her estate, survivors, or subrogees for injury or death of such natural person;

(iii) Claims for damage
 caused by willful misconduct; and
 (iv) Intellectual property
 claims.

(5) Nothing in this clause

shall be construed to create the basis for a claim or suit where none would otherwise exist.

#### (End of clause)

18-52.228-77 Reimbursement for War-Hazard Losses.

As prescribed in 18-28.309, insert the following clause:

#### REIMBURSEMENT FOR WAR-HAZARD LOSSES (DECEMBER 1988)

(a) The Contractor's costs for assuming liability for employee protection against war-hazard risks pursuant to paragraph (b) of the Worker's Compensation and War- Hazard Insurance Overseas clause shall be an allowable cost under this contract, subject to the following:

(1) The Contractor shall submit proof-of-loss files to support payment or denial of each claim.

(2) As soon as practicable, but no later than one year after the expiration or termination of this contract, unless the Contracting Officer extends the time, the Contractor shall convert each claim which has not been finally settled into a suitable arrangement under which the claim can be extinguished by the Contractor with a lump-sum payment. Subject to approval by the Contracting Officer, the Contractor shall then obtain necessary release documents and settle the claim by lump-sum arrangement, taking into account any payments previously made.

(3) As to any potential

claim that is known to, or reasonably should be within the knowledge of, the Contractor at the time of final settlement under this contract, the Contractor shall, at that time, present to the Government a full report and evaluation, indicating as to each potential claim that a reasonable investigation of the circumstances has been made and giving the results of the investigation, an evaluation of the merits, and an estimate of the

amount involved should the potential claim mature into a valid obligation.

(4) The cost of insurance against a liability reimbursable under this clause shall not be an allowable cost or otherwise recoverable under this contract.

(b) The Government may require the Contractor to assign to the Government in the manner, at the times, and to the extent directed by the Contracting Officer all right, title, and interest of the Contractor to any refund, rebate, or recapture arising out of any claim settlement. The Government may handle such assigned entitlements in any manner it deems appropriate and may recover any benefits related to claim settlements.

(c) The Contractor shall, as soon as practicable after an occurrence that appears to give rise to a claim under this portion of the contract, (1) perform any investigations that may be appropriate and (2) promptly notify the Contracting Officer in writing of any additional amount estimated to be necessary to be obligated on account of that claim. In addition, the Contractor shall give the Government or its representatives immediate written notice of any suit or action filed whose cost or expense may be reimbursable to the Contractor under this clause. The Contractor shall render full assistance to the Government in connection with any third-party suit or claim relating to this clause or its subject matter that the Government elects to prosecute or defend in its own behalf.

## (End of clause)

18-52.228-78 Cross-Waiver of Liability for NASA Expendable Launch Vehicle Launches.

As prescribed in 18-28.371(c) and (e), insert the following clause:

## CROSS-WAIVER OF LIABILITY FOR NASA EXPENDABLE LAUNCH VEHICLE (ELV) LAUNCHES (SEPTEMBER 1993)

As prescribed by regulation (a) (14 CFR Part 1266), NASA agreements involving ELV launches are required to contain broad cross-waivers of liability among the parties and the parties related entities to encourage participation in space exploration, use, and investment. The purpose of this clause is to extend this cross-waiver requirement to Contractors and subcontractors as related entities of NASA. This cross-waiver of liability shall be broadly construed to achieve the objective of encouraging participation in space activities.

(b) As used in this clause, the term:

(1) "Contractors" and "Subcontractors" includes uppliers of any kind.

(2) "Damage" means:

(i) Bodily injury o, or other impairment of health of, or death of, any person;

(ii) Damage to, loss of, or loss of use of any property; (iii) Loss of revenue or

profits; or

(iv) Other direct, indirect, or consequential damage;

(3) "Party" means a person or entity that signs an agreement involving an ELV launch;

(4) "Payload" means all property to be flown or used on or in the ELV; and

(5) "Protected Space Operations" means all ELV and payload activities on Earth, in outer space, or in transit between Earth and outer space performed in furtherance of an agreement involving an ELV launch or performed under the contract. "Protected Space Operations" excludes activities on Earth which are conducted on return from space to develop further a payload's product or process except when such development is for ELV-related activities necessary to implement an agreement involving an ELV launch or to perform this contract. It includes, but is not limited to:

(i) Research, design, development, test, manufacture, assembly, integration, operation, or use of ELVs, transfer vehicles, payloads, related support equipment, and facilities and services;

(ii) All activities related to ground support, test, training, simulation, or guidance and control equipment, and related facilities or services.

(6) "Related entity" means:

(i) A party's Contractors or subcontractors at any tier;

(ii) A party's users or

customers at any tier; or (iii) A Contractor or

subcontractor of a party's user or customer at any tier.

(c) (1) The Contractor agrees to a waiver of liability pursuant to which the Contractor waives all claims against any of the entities or persons listed in paragraphs (c)(1)(i) through (c)(1)(iii) of this clause based on damage arising out of Protected Space Operations. This waiver shall apply only if the person, entity, or property causing the damage is involved in Protected Space Operations and the person, entity, or property damaged is damaged by virtue of its involvement in Protected Space Operations. The waiver shall apply to any claims for damage, whatever the legal basis for such claims, including but not limited to delict (a term used in civil law countries to denote a class of cases similar to tort) and tort (including negligence of every degree and kind) and contract, against:

(i) Any party other than the Government;

(ii) A related entity of any party other than the Government; and

(iii) The employees of any of the entities identified in (c)(1)(i) and (ii) of this clause.

(2) The Contractor agrees to extend the waiver of liability as set forth in paragraph (c)(1) of this clause to subcontractors at any tier by requiring them, by contract or otherwise, to agree to waive all claims against the entities or persons identified in paragraphs (c)(1)(i) through (c)(1)(iii) of this clause.

(3) For avoidance of doubt, this cross-waiver includes a cross-waiver of liability arising from the Convention on International Liability for Damage Caused by Space Objects, (March 29, 1972, 24 United States Treaties and other International Agreements (U.S.T.) 2389, Treaties and other International Acts Series (T.I.A.S.) No.7762) in which the person, entity, or property causing the damage is involved in Protected Space Operations.

(4) Notwithstanding the other provisions of this clause, this cross-waiver of liability shall not be applicable to:

(i) Claims between any party and its related entities or claims between any party's related entities (e.g., claims between the Government and the Contractor are included within this exception);

(ii) Claims made by a natural person, his/her estate, survivors, or subrogees for injury or death of such natural person;

(iii) Claims for damage
 caused by willful misconduct; and
 (iv) Intellectual

property claims. (5) Nothing in this clause shall be construed to create the basis for a claim or suit where none would otherwise exist.

(6) This cross-waiver shall not be applicable when the Commercial Space Launch Act cross-waiver (49 U.S. C. App. 2615) is applicable.

# (End of clause)

# 18-52.231-70 Date of Incurrence of Costs.

As prescribed in 18-31.205-70, insert the following clause:

# DATE OF INCURRENCE OF COSTS (DECEMBER 1991)

The Contractor shall be entitled to

reimbursement for costs incurred on or after in an amount not to exceed \$ that, if incurred after this contract had been entered into, would have been reimbursable under this contract.

# (End of clause)

18-52.231-71 Determination of Compensation Reasonableness.

As prescribed at 18-31.205-671, insert the following provision.

## DETERMINATION OF COMPENSATION REASONABLENESS (MARCH 1994)

(a) The proposal shall include a total compensation plan. This plan shall address all proposed labor categories, including those personnel subject to union agreements, the Service Contract Act, and those exempt from both of the above. The total compensation plan shall include the salaries/wages, fringe benefits and leave programs proposed for each of these categories of labor. The plan also shall include a discussion of the consistency of the plan among the categories of labor being proposed. Differences between benefits offered professional and nonprofessional employees shall be highlighted. The requirements of this plan may be combined with that required by the clause at (FAR) 48 CFR 52.222-46. "Evaluation of Compensation for Professional Employees."

(b) The offeror shall provide written support to demonstrate that its proposed compensation is reasonable. (c) The offeror shall include the rationale for any conformance procedures used or those Service Contract Act employees proposed that do not fall within the scope of any classification listed in the applicable wage determination.

(d) The offeror shall require all service subcontractors (1) with proposed cost reimbursement or non-competitive fixed-price type subcontracts having a total potential value in excess of \$500,000 and (2) the cumulative value of all their service subcontracts under the proposed prime contract in excess of 10 percent of the prime contract's total potential value, provide as part of their proposals the information identified in (a) through (c) of this provision.

(End of provision)

## 18-52.232-12 Advance Payments.

As prescribed at 18-32.412, modify the "Maximum Payment" paragraph (either paragraph (d) or (e)) of 52.232-12, Advance Payments, as follows:

In the sentence that begins "When the sum of", change the word "When" to lower case and insert before it the following: "Unliquidated advance payments shall not exceed \$..... at any time outstanding. In addition...".

# (End of clause)

18-52.232-70 NASA Progress Payment Rates.

As prescribed in 18-32.503-470, insert the following clause:

## NASA PROGRESS PAYMENT RATES (DECEMBER 1991)

(a) If the Contractor is a large business, the Progress Payment clause of this contract is modified to change each mention of the progress payment rate and the ordinary liquidation rate (excepting paragraph (k), Limitation on Undefinitized Contract Actions) to 85 percent.

(b) If the Contractor is a small business, the Progress Payment clause of this contract is modified to change each mention of the progress payment rate and the ordinary liquidation rate (excepting paragraph (k), Limitation on Undefinitized Contract Actions) to 90 percent.

(c) If the Contractor is a small disadvantaged business, the Progress Payment clause of this contract is modified to change each mention of the progress payment rate and the ordinary liquidation rate (excepting paragraph (k), Limitation on Undefinitized Contract Actions) to 95 percent.

(d) The above rates are customary uniform progress payment rates for NASA contracts.

(End of clause)

## 18-52.232-77 Limitation of Funds (Fixed-Price Contract).

As prescribed in 18-32.705-270(a), insert the following clause. Contracting officers are

authorized, in appropriate cases, to revise clause paragraphs (a), (b), and (g) to pecify the work required under the contract, in lieu of using contract item numbers. The 60day period may be varied from 30 to 90 days, and the 75 percent from 75 to 85 percent:

# LIMITATION OF FUNDS (FIXED-PRICE CONTRACT) (MARCH 1989)

(a) Of the total price of items \_\_\_\_\_, the sum of

(The next page is 52-77.)

**\$**\_\_\_\_\_ is presently available for payment and allotted to this contract. It is anticipated that from time to time additional funds will be allocated to the contract in accordance with the following schedule, until the total price of said items is allotted:

#### SCHEDULE FOR ALLOTMENT OF FUNDS

Date

#### Amounts

(b) The Contractor agrees to perform or have performed work on the items specified in paragraph (a) above up to the point at which, contract is terminated if this pursuant to the Termination for Convenience of the Government clause of this contract, the total amount payable by the Government (including amounts payable for subcontracts and settlement costs) pursuant to paragraphs (f) and (g) that clause would, in the of exercise of reasonable judgment by the Contractor, approximate the total amount at the time allotted to the contract. The Contractor continue not obligated to is performance of the work beyond that point. The Government is not obligated in any event to pay or Contractor more the reimburse than the amount from time to time allotted to the contract, anything to the contrary in the Termination for Convenience of the Government clause notwithstanding.

(c) (1) It is contemplated that funds presently allotted to this contract will cover the work to be performed until \_\_\_\_\_.

(2) If funds allotted are considered by the Contractor to be inadequate to cover the work to be performed until that date, or an agreed date substituted for it, the shall notify the Contractor Contracting Officer in writing when within the next 60 days the work will reach a point at which, if the contract is terminated pursuant to the Termination for Convenience of the Government clause of this contract, the total amount payable bv the Government (including amounts payable for subcontracts and settlement costs) pursuant to paragraphs (f) and (g) of that clause will approximate 75 percent of the total amount then allotted to the contract.

(3) (i) The notice shall state the estimated date when the point referred to in subparagraph (2) above will be reached and the estimated amount of additional funds required to continue performance to the date specified in subparagraph (1) above, or an agreed date substituted for it.

The Contractor (ii) shall, 60 days in advance of the date specified in subparagraph (1) above, or an agreed date for it, advise the substituted Contracting Officer in writing as amount of the estimated to additional funds required for the timely performance of the contract for a further period as may be contract specified in the or otherwise agreed to by the parties.

(4) If, after the notification referred to in subdivision (3)(ii) above, additional funds are not allotted by the date specified in subparagraph (1) above, or an agreed date substituted for it, the Contracting Officer shall, upon the Contractor's written request, terminate this contract on that date or on the date set forth in the

request, whichever is later, pursuant to the Termination for Convenience of the Government clause.

(d) When additional funds are allotted from time to time for continued performance of the work under this contract, the parties shall agree on the applicable period of contract performance to be covered by these funds. The provisions of paragraphs (b) and (c) above shall apply to these additional allotted funds and the substituted date pertaining to them, and the contract shall be modified accordingly.

(e) If, solely by reason of the Government's to failure allot additional funds in amounts sufficient for the timely performance of this contract, the Contractor incurs additional costs or is delayed in the performance of the work under this contract, and if additional funds are allotted, an equitable adjustment shall be made in the price or prices (including appropriate target, billing, and ceiling prices where applicable) of the items to be delivered, or in the time of delivery, or both.

(f) The Government may at any time before termination, and, with the consent of the Contractor, after notice of termination, allot additional funds for this contract.

(g) The provisions of this clause with respect to termination shall in no way be deemed to limit the rights of the Government under the default clause of this contract. The provisions of this Limitation of Funds clause are limited to the work on and allotment of funds for the items set forth in paragraph (a) above. This clause shall become inoperative upon the allotment of funds for the total price of said work except for rights and obligations then existing under this clause.

(h) Nothing in this clause shall affect the right of the Government to terminate this contract pursuant to the Termination for Convenience of the Government clause of this contract.

(End of clause)

#### 18-52.232-79 Payment for On-Site Preparatory Costs

As prescribed in 18-32.111-70, insert the following clause:

## PAYMENT FOR ON-SITE PREPARATORY COSTS (SEPTEMBER 1987)

Costs associated with on-site preparatory work (start-up or set-up costs) will be prorated over all work activities of a Critical Path Method (CPM) network or Progress Chart against which progress payments will be sought. Separate payment for on-site preparatory costs will not be made by the Government.

(End of clause)

18-52.232-81 Contract Funding.

As prescribed in 18-32.705-270(b), insert the following clause:

## CONTRACT FUNDING (JUNE 1990)

(a) For purposes of payment of cost, exclusive of fee, in accordance with the Limitation of Funds clause, the total amount allotted by the Government to this contract is \$ \_\_\_\_\_. This allotment is for [Insert applicable item number(s), task(s), or work description] \_\_\_\_\_ and covers the following estimated period of performance: \_\_\_\_\_.

(b) An additional amount of
\$ \_\_\_\_\_ is obligated under this contract for payment of fee.

(End of clause)

18-52.232-82 Submission of Requests for Progress Payments.

As prescribed in 18-32.502-470, insert the following clause:

#### SUBMISSION OF REQUESTS FOR PROGRESS PAYMENTS (MARCH 1989)

The Contractor shall request progress payments in accordance with the Progress Payments clause by submitting to the Contracting Officer an original and two copies of Standard Form (SF) 1443, Contractor's Request for Progress Payment, and the contractor's invoice (if applicable). The Contracting Officer's office is the designated billing office for progress payments for purposes of the Prompt Payment clause.

#### (End of clause)

#### 18-52.232-83 Milestone Billing Arrangements.

As prescribed in 18-32.7008(a), insert the following clause.

## MILESTONE BILLING ARRANGEMENTS (DECEMBER 1992)

(a) A payment will be made to the contractor upon completion of each milestone event specified in paragraph (g) of this clause in the amount specified for the relevant milestone event.

Upon completion of each (b) milestone billing event, the shall notify the contractor contracting officer in writing, accompanied by a voucher and certification, that the milestone event has been completed. The contractor's written notification shall contain a brief narrative of the work activity accomplished for the particular milestone event. The contracting officer shall promptly verify that successful completion of the milestone event has occurred, notify the contractor of NASA's concurrence, and forward the contractor's voucher with a copy of the verification to the designated paying office.

(c) Milestone billings, normally, will not be submitted after deliveries of major end items commence upon which milestone payments have been made. In the event the period between delivery of such major end item and the next end item delivery exceeds three months, milestone payments can continue to be made for the next item, as mutually agreed for appropriate events. (d) All milestone payments are interim contract financing payments with respect to total contract performance. As such, they are fully recoverable in the event of default under the Default clause. Therefore, all milestone payments made with respect to contract line items that are not delivered and accepted by the Government shall, in the event of a termination for default, be paid to the Government upon demand.

The contractor shall (e) establish and record a preferred creditor's lien on behalf of the Government, i.e., a first lien paramount to all other liens, in each jurisdiction where property subject to this contract is located. The lien shall be on the contractor's work-in-process covered by the contract, except to the extent that the Government by virtue of any other terms of this contract, or otherwise, shall have valid title to the supplies, materials, or other property as against other creditors of the contractor. The property subject to the liens shall include that to be acquired under subcontracts where payments are to be made to the subcontractor prior to the acceptance of such property. The contractor shall promptly provide to the Government a copy of all lien filings.

(f) The contractor represents and warrants that it maintains (1) insurance on plant and equipment against fire and other hazards, to the extent that similar properties are usually insured by others operating plants and properties of similar character in the same general locality; (2) adequate insurance against liability on account of damage to persons or property; and (3) adequate insurance under all applicable workers'compensation laws. The contractor agrees that, until work under this contract has been completed and all payments made under the contract have been liquidated, it will maintain this insurance and furnish any certificates with respect to its insurance that the administering office may require.

(g) Upon successful completion of a milestone event, the contractor may request milestone payments based on the following milestone data:

| Contract<br>Milestone Line<br><u>Event</u> Item | Amount | Esti-<br>mated<br>Date of |
|-------------------------------------------------|--------|---------------------------|
|                                                 |        | Comple-<br>tion           |

- (1)
- (2)
- (3) etc.

(h) (1) A milestone event may be successfully completed in advance of the date appearing in paragraph (g) of this clause. However, payment shall not be made prior to that date without the prior written consent of the contracting officer.

(2) The contractor is not entitled to partial payment for less than successful completion of a milestone event.

(3) All preceding milestone events must be successfully completed before payment can be made for the next milestone event, unless the prior written consent of the contracting officer is obtained.

(End of clause)

## 18-52.232-84 Milestone Billing Arrangements--Subcontracts.

As prescribed in 18-32.7008(b), insert the following clause.

## MILESTONE BILLING ARRANGEMENTS--SUBCONTRACTS (DECEMBER 1992)

(a) The Contractor is prohibited from using milestone billing arrangements in subcontracts except in accordance with Subpart 18-32.70.

(b) The contractor shall insert the substance of this clause, including this paragraph (b), in all subcontracts in excess of \$10 million.

(End of Clause)

# 18-52.234-70 Phased Procurement Using Down-Selection Procedures.

As prescribed in 18-34.005-170(a), insert the following clause in solicitations and contracts for phased procurements using down-selection procedures other than the progressive competition technique. Phase identifications should be modified as appropriate:

## PHASED PROCUREMENT USING DOWN-SELECTION PROCEDURES (NOVEMBER 1993)

(a) This solicitation is for the acquisition of [Insert Program title]. This system is a major system as defined by Office of Management and Budget (OMB) Circular A-109 and NASA Management Instruction (NMI) 7120.4. The acquisition will be conducted as a two-phased procurement using a competitive down-selection technique between phases. In this technique, two or more contractors will be selected for Phase B. It is expected that the contractor for Phase C/D will be chosen from among these contractors after a competitive down-selection.

(b) Phase B is for the [Insert purpose of phase]. NASA anticipates awarding two or more contracts for this phase. A subsequent single award will be made for Phase C/D in which the contractor will \_\_\_\_\_ [insert general Phase C/D goals].

(c) The competition for Phase C/D will be based on the results of Phase B, and the award criteria for C/D will include successful completion of Phase B requirements.

(d) NASA will issue a separate, formal solicitation for Phase C/D, and all information required for preparation of Phase C/D proposals, including the final evaluation factors, will be provided at that time.

(e) Phase C/D will be synopsized in the Commerce Business Daily (CBD) in accordance with FAR 5.201 and 5.203 unless one of the exceptions in FAR 5.202 applies. Notwithstanding NASA's expectation that only the Phase B contractors will be capable of successfully competing for Phase C/D, all proposals will be considered. Any other responsible source may indicate its desire to submit a proposal by responding to the Phase C/Dsynopsis, and NASA will provide

that source a solicitation.

(f) To be considered for Phase C/D award, however, offerors must demonstrate a design maturity equivalent to that of the Phase B contractors, such demonstration to include the following Phase B deliverables upon which Phase C/D award will be based: (Insert the specific Phase B deliverables). Failure to fully and completely demonstrate the appropriate level of design maturity may render the proposal unacceptable with no further consideration for contract award.

(g) The following draft Phase C/D evaluation factors are provided for your information. Please note that these evaluation factors are not final, and NASA reserves the right to change them at any time up to and including the date upon which Phase C/D proposals are solicited.

[Insert draft Phase C/D evaluation factors (and subfactors a n d elements, if available), including demonstration of successful completion of Phase B requirements.]

(h) Although NASA intends to select the Phase C/D contractor from among the Phase B contractors and will automatically request Phase C/D proposals from only these contractors, submission of the Phase C/D proposal is not a requirement of the Phase B contract. Accordingly, the costs of preparing these proposals shall not be a direct charge to the Phase B contract or any other Government contract.

(i) The anticipated schedule for

conducting this phased procurement is provided for your information. These dates are projections only and are not intended to commit NASA to complete a particular action at a given time. [Insert dates below].

Phase B award -Phase C/D synopsis -Phase C/D proposal requested -Phase C/D proposal receipt -Phase C/D award -

(End of clause)

## 18-52.234-71 Phased Procurement Using Progressive Competition Down-Selection Procedures.

As prescribed in 18-34.005-170(b), insert the following clause in solicitations and contracts for phased procurements using progressive competition down-selection procedures. Phase identifications should be modified as appropriate:

#### PHASED PROCUREMENT USING PROGRESSIVE COMPETITION DOWN-SELECTION PROCEDURES (NOVEMBER 1993)

(a) This solicitation is for the acquisition of [Insert Program title]. This system is a major system as defined by Office of Management and Budget (OMB) Circular A-109 and NASA Management Instruction (NMI) 7120.4. The acquisition will be conducted as a two-phased procurement using a progressive competition downselection technique between phases. In this technique, two or more contractors will be selected for Phase B. It is expected that the contractor for Phase C/D will be chosen from among these contractors after a competitive

down-selection.

(b) Phase B is for the [Insert purpose of phase]. NASA anticipates awarding two or more contracts for this phase. A subsequent single award will be made for Phase C/D in which the contractor will \_\_\_\_\_ [insert general Phase C/D goals].

(c) The competition for Phase C/D will be based on the results of Phase B, and the award criteria for Phase C/D will include successful completion of Phase B requirements.

(d) NASA does not intend to issue a separate, formal solicitation for Phase C/D. Instead, Phase C/D proposals will be requested from the Phase B contractors by means of \_\_\_\_\_ [Indicate method of requesting proposals, e.g., by a letter]. All information required for preparation of Phase C/D proposals, including the final evaluation criteria and factors, will be provided at that time.

(e) Phase C/D will be synopsized in the Commerce Business Daily (CBD) in accordance with FAR 5.201 and 5.203 unless one of the exceptions in FAR 5.202 applies. Notwithstanding NASA's expectation that only the Phase B contractors will be capable of successfully competing for Phase C/D, all proposals will be considered. Any other responsible source may indicate its desire to submit a proposal by responding to the Phase C/D synopsis, and NASA will provide that source to all the material furnished to the Phase B contractors that is necessary to submit a proposal.

(f) To be considered for Phase C/D award, however, offerors must demonstrate a design maturity equivalent to that of the Phase B contractors, such demonstration to include the following Phase B deliverables upon which Phase C/D award will be based: (Insert the specific Phase B deliverables). Failure to fully and completely demonstrate the appropriate level of design maturity may render the proposal unacceptable with no further consideration for contract award.

(g) The following draft Phase C/D evaluation factors are provided for your information. Please note that these evaluation factors are not final, and NASA reserves the right to change them at any time up to and including the date upon which Phase C/D proposals are requested. Any such changes in evaluation factors will not necessitate issuance of a new, formal solicitation for Phase C/D.

[Insert draft Phase C/D evaluation factors (and subfactors and elements, if available), including demonstration of successful completion of Phase B requirements.]

(h) Although NASA intends to select the Phase C/D contractor from among the Phase B contractors and will automatically request Phase C/D proposals from only these contractors, submission of the Phase C/D proposal is not a requirement of the Phase B contract. Accordingly, the costs of preparing these proposals shall not be a direct charge to the Phase B contract or any other Government contract.

(i) The anticipated schedule for

conducting this phased procurement is provided for your information. These dates are projections only and are not intended to commit NASA to complete a particular action at a given time. [Insert dates below].

Phase B award -Phase C/D synopsis -Phase C/D proposal requested -Phase C/D proposal receipt -Phase C/D award -

(End of clause)

18-52.235-70 Center for AeroSpace Information.

As prescribed in 1827.409(i) and 18 35.070(a), insert the following clause:

## CENTER FOR AEROSPACE INFORMATION (NOVEMBER 1992)

(a) The Contractor should register with and avail itself of the services provided by the NASA Center for AeroSpace Information (CASI) for the conduct of research or research and development required under this contract. CASI provides a variety of services and products as a central NASA repository of research information which may enhance contract performance. The address is set out in paragraph (d) of this clause.

b) Should the CASI information or service requested by the Contractor be unavailable or not in the exact form necessary by the Contractor, neither CASI nor NASA is obligated to search for or change the format of the information. A failure to furnish information shall not entitle the Contractor to an equitable adjustment under the terms and conditions of this contract.

(c) When the contract otherwise requires the submission of monthly progress, quarterly progress, or final reports, as defined at 1827.406(b), the last page of such reports shall be a completed Standard Form (SF) 298, Report Documentation Page.

(d) When the contract requires the delivery of reports or data to CASI, a reproducible copy and a printed or reproduced copy of such reports or data shall be concurrently submitted to:

Center for AeroSpace Information (CASI) Attn: Accessioning Department 800 Elkridge Landing Road Linthicum Heights, MD 21090-2934

(End of clause)

## 18-52.235-71 Key Personnel and Facilities.

As prescribed in 18-35.070(b), insert the following clause:

## KEY PERSONNEL AND FACILITIES (MARCH 1989)

(a) The personnel and/or facilities listed below (or specified in the contract Schedule) are considered essential to the work being performed under this contract. Before removing, replacing, or diverting any of the listed or specified personnel or facilities, the Contractor shall (1) notify the Contracting Officer reasonably in advance and (2) submit justification (including proposed substitutions) in sufficient detail to permit evaluation of the impact on this contract.

(b) The Contractor shall make no diversion without the Contracting Officer's written consent; <u>provided</u>, that the Contracting Officer may ratify in writing the proposed change, and that ratification shall constitute the Contracting Officer's consent required by this clause.

(c) The list of personnel and/or facilities (shown below or asspecified in the contract Schedule) may, with the consent of the contracting parties, be amended from time to time during the course of the contract to add or delete personnel and/or facilities.

[List here the personnel and/or facilities considered essential, unless they are specified in the contract Schedule.]

(End of clause)

18-52.235-72 Plan for New Technology Reporting.

As prescribed in 18-35.070(c), insert the following provision:

## PLAN FOR NEW TECHNOLOGY REPORTING (MARCH 1989)

The Offeror shall, in the proposal in response to this solicitation, provide estimates of the cost and manpower requirements to perform the new technology reporting required by the clause at 18-52.227-70, New Technology, which is to be included in any resulting contract. In addition, if selected for negotiation, the Offeror will be required to submit for approval before contract execution a detailed plan setting forth the manner in which the Offeror will meet the new technology reporting requirements of the New Technology clause. This plan shall, at a minimum--

(a) Identify the specific areas of technical effort that are considered likely to generate new technology;

(b) Describe the means by which project supervisory and technical personnel will be advised of the responsibilities, details, and benefits of new technology reporting;

(c) Describe the procedures to be established, maintained, and followed for reviewing the effort to be undertaken for the purposes of identification and reporting (disclosure) of new technology within the time periods and in the manner

~\_-

-----

prescribed by the New Technology clause;

(d) Describe the procedure for timely submission of the interim and final new technology reports required by the New Technology clause;

(e) Describe the procedures for (1) selecting either NASA's New Technology clause or another patent rights clause for inclusion in subcontracts having as a purpose the conduct of experimental, developmental, research, design, or engineering work, and (2) providing prompt notification of either the award of such subcontracts or a subcontractor's refusal to accept the clause; and

(f) Identify the individual(s) assigned substantial and specific responsibilities for ensuring compliance with the requirements of the New Technology clause, as well as their qualifications and organizational placement to discharge these responsibilities.

## (End of provision)

## 18-52.236-71 Additive or Deductive Items.

As prescribed in 18-36.370(a), insert the following provision:

## ADDITIVE OR DEDUCTIVE ITEMS (MARCH 1989)

(a) The low bidder for purposes of award shall be the conforming responsible bidder offering the low aggregate amount for the first or base bid item, plus or minus (in order of priority listed in the Schedule) those additive or deductive bid items providing the most features of the work within the funds determined by the Government to be available before bids are opened. If addition of another bid item in the listed order of priority would make the award exceed those funds for all bidders, it shall be skipped and the next subsequent additive bid item in a lower amount shall be added for each bid if award on it can be made within the funds.

(b) An example for one bid is an amount available of \$100,000, a bidder's base bid of \$85,000, and four successive additives of \$10,000, \$8,000, \$6,000, and \$4,000. In this example, the aggregate amount of the bid for purposes of award would be \$99,000 for the base bid plus the first and fourth additives, the second and third additives being skipped because either of them would cause the aggregate bid to exceed \$100,000.

(c) All bids shall be evaluated on the basis of the same additive or deductive bid items. The listed order of priority must be followed only for determining bidder. After the low determination of the low bidder, award in the best interests of the Government may be made to that bidder on its base bid and anv combination of its additive or deductive bid items for which funds are determined to be available at the time of the award, provided that award of the combination of bid items does not exceed the amount offered by any other conforming responsible bidder for the same combination of bid items.

(End of provision)

# 18-52.236-72 Bids with Unit Prices.

As prescribed in 18-36.370(b), insert the following provision:

# BIDS WITH UNIT PRICES (MARCH 1989)

(a) All extensions of the unit prices bid will be subject to verification by the Government. If there is variation between the unit price and any extended amounts, the unit price will be considered to be the bid.

(b) If a modification to a bid based on unit prices that provides for a lump-sum adjustment to the total estimated cost is submitted, the application of the lump sum adjustment to each unit price in the bid must be stated. If it is not stated, the lump-sum adjustment shall be applied on a pro rata basis to every unit price in the bid.

(End of provision)

#### 18-52.236-73 Hurricane Plan.

As prescribed in 18-36.570-1, insert the following clause:

#### HURRICANE PLAN (DECEMBER 1988)

In the event of a hurricane warning, the Contractor shall--

(a) Inspect the area and place all materials possible in a protected location;

(b) Tie down, or identify and store, all outside equipment and materials; (c) Clear all surrounding areas and roofs of buildings, or tie down loose material, equipment, debris, and any other objects that could otherwise be blown away or blown against existing buildings; and

(d) Ensure that temporary erosion controls are adequate.

(End of clause)

# 18-52.236-74 Magnitude of Requirement.

As prescribed in 18-36.570-2, insert the following provision:

## MAGNITUDE OF REQUIREMENT (DECEMBER 1988)

The Government estimated price range of this project is between \$\_\_\_\_\_ and \$\_\_\_\_\_. [Insert the estimated dollar range.]

(End of provision)

| 18-52.237-70 | Emergency | Evacuation |
|--------------|-----------|------------|
| Procedures.  |           |            |

As prescribed at 18-37.110-70, inscrt the following clause:

## EMERGENCY EVACUATION PROCEDURES (DECEMBER 1988)

The contractor shall assure that its personnel at Government facilities are familiar with the functions of the Government's emergency evacuation procedures. If requested by the Contracting Officer, the Contractor shall designate an individual or individuals as contact points to provide for efficient and rapid evacuation of the facility if and when required.

#### (End of clause)

#### 18-52.237-71 Pension Portability.

As prescribed at 18-37.110, insert the following clause:

## PENSION PORTABILITY (JULY 1993)

In order for pension costs attributable to employees assigned to this contract to be allowable costs under this contract, the plans covering such employees must:

(a) Comply with all applicable Government laws and regulations;

(b) Be a defined contribution plan, or a multiparty defined benefit plan operated under a collective bargaining agreement where the plan follows the employee, not the employer;

(c) Provide for 100 percent employee vesting not later than the earliest of \_\_\_\_\_ [In accordance with 18-37.170(a)(2), a period of time (e.g., one year) may be inserted]; and

(d) Not be modified, terminated, or a new plan adopted without the prior written approval of the cognizant NASA Contracting Officer.

#### (End of clause)

#### 18-52.239-70 Alternate Delivery Points.

As prescribed in 18-39.7008(a), insert the following clause:

## ALTERNATE DELIVERY POINTS (NOVEMBER 1993)

(a) The first priority of this

the contract is to satisfy anticipated requirements of (identify contracting activity). However, should the actual requirements of (contracting activity) be less than the maximum quantities/values specified in Section B of this \_\_\_\_\_ (contracting contract, activity) may order the remaining available quantities/values to satisfy the requirements of other installations. The other installations at which delivery may be required are:

(List installations and their locations)

(b) The prices of the deliverables in Section B are F.O.B. destination to (contracting activity). If delivery to an alternate location is ordered, an equitable adjustment may be negotiated to recognize any variances in transportation costs associated with delivery to that alternate location.

#### (End of clause)

#### ALTERNATE I (NOVEMBER 1993)

As prescribed in 18-39.7008(b), delete paragraph (b) and substitute the following:

(b) The prices of the deliverables in Section B are F.O.B. origin with delivery to NASA via Government bill of lading (GBL). If delivery to an alternate location is ordered, the same delivery procedures will be used and no equitable adjustment to any price, term, or condition of this contract will be made as a result of such order.

(End of clause)

# 18-52.242-70 Technical Direction.

As prescribed in 18-42.7001, insert the following clause:

#### TECHNICAL DIRECTION (SEPTEMBER 1993)

(a) Performance of the work under this contract is subject to the written technical direction of the Contracting Officer Technical Representative (COTR), who shall be specifically appointed by the Contracting Officer in writing in accordance with NASA FAR Supplement 18-42.270. "Technical direction" means a directive to the Contractor that approves approaches, solutions, designs, or refinements; fills in details or otherwise completes the general description of work or documentation items; shifts emphasis among work areas or tasks; or furnishes similar instruction to the Contractor. Technical direction includes requiring studies and pursuit of certain lines of inquiry regarding matters within the general tasks and requirements in Section C of this contract.

(b) The COTR does not have the authority to, and shall not, issue any instruction purporting to be technical direction that--

(1) Constitutes an assignment of additional work outside the statement of work;

(2) Constitutes a change as defined in the changes clause;

(3) Constitutes a basis for any increase or decrease in the total estimated contract cost, the fixed fee (if any), or the time required for contract performance;

(4) Changes any of the expressed terms, conditions, or specifications of the contract; or

(5) Interferes with the contractor's rights to perform the terms and conditions of the contract.

(c) All technical direction shall be issued in writing by the COTR.

(d) The Contractor shall proceed promptly with the performance of technical direction duly issued by the COTR in the manner prescribed by this clause and within the COTR's authority. If, in the Contractor's opinion, any instruction or direction by the COTR falls within any of the categories defined in paragraph (b) above, the Contractor shall not proceed but shall notify the Contracting Officer in writing within 5 working days after receiving it and shall request the Contracting Officer to take action as described in this clause. Upon receiving this notification. the Contracting Officer shall either issue an appropriate contract modification within a reasonable time or advise the Contractor in writing within 30 days that the instruction or direction is--

(1) Rescinded in its entirety; or

(2) Within the requirements of the contract and does not constitute a change under the Changes clause of the contract, and that the Contractor should proceed promptly with its performance.

(e) A failure of the Contractor and Contracting Officer to agree that the instruction or direction is both within the requirements of the contract and does not  $\sim$ 

constitute a change under the Changes clause, or a failure to agree upon the contract action to be taken with respect to the instruction or direction, shall be subject to the Disputes clause of this contract.

(f) Any action(s) taken by the contractor in response to any direction given by any person other than the Contracting Officer or the COTR shall be at the Contractor's risk.

(End of clause)

# 18-52.242-71 Travel Outside of the United States.

As prescribed in 18-42.7002, insert the following clause:

## TRAVEL OUTSIDE OF THE UNITED STATES (DECEMBER 1988)

(a) The Contracting Officer must authorize in advance and in writing travel to locations outside of the United States by Contractor employees that is to be charged as a cost to this contract. This approval may be granted when the travel is necessary to the efforts required under the contract and it is otherwise in the best interest of NASA.

(b) The Contractor shall submit requests to the Contracting Officer at least 30 days in advance of the start of the travel.

(c) The Contractor shall submit a travel report at the conclusion of the travel. The Contracting Officer's approval of the travel will specify the required contents and distribution of the travel report.

#### (End of clause)

#### 18-52.242-72 Observance of Legal Holidays

As prescribed in 18-42.7003(a), insert the following clause:

## OBSERVANCE OF LEGAL HOLIDAYS (AUGUST 1992)

(a) The on-site Government personnel observe the following holidays:

> New Year's Day Labor Day Martin Luther King, Jr.'s Birthday Columbus Day President's Day Veterans Day Memorial Day Thanksgiving Day Independence Day Christmas Day

Any other day designated by Federal statute, Executive order, or the President's proclamation.

(b) When any holiday falls on a Saturday, the preceding Friday is observed. When any holiday falls on a Sunday, the following Monday is observed. Observance of such days by Government personnel shall not by itself be cause for an additional period of performance or entitlement of compensation except as set forth within the contract.

(End of clause)

#### ALTERNATE I (SEPTEMBER 1989)

As prescribed in 18-42.7003(b), add the following paragraphs (c) and (d) as Alternate I to the clause.

(c) On-site personnel assigned to this contract shall not be granted access to the installation during the holidays in paragraph (a)

above, except as follows: the Contractor shall provide sufficient on-site personnel to perform round-the-clock requirements of critical work already in process, unless otherwise instructed by the Contracting Officer or authorized representative. If the Contractor's on-site personnel work during a holiday other than those in paragraph (a) above, no form of holiday or other premium compensation be shall reimbursed as either a direct or indirect cost. However, this does not preclude reimbursement for authorized overtime work that would have been overtime regardless of the status of the day as a holiday.

(d) The Contractor shall place identical requirements, including this paragraph, in all subcontracts that require performance of work on-site, unless otherwise instructed by the Contracting Officer.

## ALTERNATE II (SEPTEMBER 1989)

As prescribed in 18-42.7003(c), add the following paragraphs (e) and (f):

(e) When the NASA installation grants administrative leave to its Government employees (e.g., as a result inclement weather, of potentially hazardous conditions, or other special circumstances), Contractor personnel working on-site should also be dismissed. However, the contractor shall

ł

ł

provide sufficient on-site personnel to perform roundthe-clock requirements of critical work already in process, unless otherwise instructed by the Contracting Officer or authorized representative.

(f) Whenever administrative leave is granted to Contractor personnel pursuant to paragraph (e) above, it shall be without loss to the Contractor. The cost of salaries and wages to the Contractor for the period of any such excused absence shall be a reimbursable item of cost under this contract for employees in accordance with the Contractor's established accounting policy.

(The next page is 52-87.)

18-52.243-70 Engineering Change Proposals.

As prescribed in 18-43.205-70(a), insert the following clause, modified to suit contract type:

#### ENGINEERING CHANGE PROPOSALS (SEPTEMBER 1993)

#### (a) Definitions.

ł

1

**"ECP"** means an Engineering Change Proposal (ECP) which is a proposed engineering change and the documentation by which the change is described, justified, and submitted to the procuring activity for approval or disapproval.

*"MIL-STD-973"* means a DOD publication entitled, Military Standard Configuration Control - Engineering Changes, Deviations and Waivers, 15 July 1988.

Either party to the contract (b) may originate ECPs. The originator shall forward proposed ECPs to the Contracting Officer. Unless otherwise required by the Contracting Officer, the ECP formats, forms and controls specified in MIL-STD-973 shall be Implementation of an used. approved ECP may occur by either a supplemental agreement or, if appropriate, as a written change order to the contract.

(c) Any ECP submitted to the Contracting Officer shall include a "not-to-exceed" \_\_\_\_ [price or estimated cost] increase or decrease adjustment amount, if any, and the required [time of delivery or period of performance] adjustment, if any, acceptable to the originator of the ECP. If the change is originated within the Government, the Contracting Officer shall obtain a written agreement with the contractor regarding the "not-to-exceed" \_\_\_\_\_ [price or estimated cost] and [delivery or period of performance] adjustments, if any, prior to issuing an order for implementation of the change.

(d) Concurrent with the submission of an ECP, the contractor shall, in accordance with FAR 15.804-6, provide a completed Standard Form 1411, Contract Pricing Proposal Cover Sheet, with appropriate attachments. At the time of agreement on the \_\_\_\_ [price or estimated cost] amount, the contractor may be required to execute and submit to the Contracting Officer a Certificate of Current Cost or Pricing Data (FAR 15.804-2 and 15.804-4).

#### (End of clause)

#### ALTERNATE I (SEPTEMBER 1990)

As prescribed in 18-43.205-70(b), add the following paragraph (e), modified to suit contract type, to the basic clause:

(e) If the \_\_\_\_ [price or estimated cost] adjustment proposed for any Contractororiginated ECP is \_\_\_\_ [Insert a percent or dollar amount of the contract price or estimated cost.] or less, the ECP shall be executed with no adjustment to the contract \_\_\_ [price or estimated cost].

#### ALTERNATE II (SEPTEMBER 1990)

As prescribed in 18-43.205-70(c), add the following sentence at the end of paragraph (c) of the basic clause: An ECP accepted in accordance with the Changes clause of this contract shall not be considered an authorization to the Contractor to exceed the estimated cost in the contract Schedule, unless the estimated cost is increased by the change order or other contract modification.

# 18-52.244-70 Geographic Participation in the Aerospace Program.

As prescribed in 18-44.170, insert the following clause:

#### GEOGRAPHIC PARTICIPATION IN THE AEROSPACE PROGRAM (APRIL 1985)

(a) It is the policy of the National Aeronautics and Space Administration to advance a broad participation by all geographic regions in filling the scientific, technical, research and development, and other needs of the aerospace program.

(b) The Contractor agrees to use its best efforts to solicit subcontract sources on the broadest feasible geographic basis consistent with efficient contract performance and without impairment of program effectiveness or increase in program cost.

(c) The Contractor further agrees to insert this clause in all subcontracts of \$100,000 and over.

# (End of clause)

## 18-52.245-70 Acquisition of Centrally Reportable Equipment.

As prescribed in 18-45.106-70(a), insert the

following clause:

## ACQUISITION OF CENTRALLY REPORTABLE EQUIPMENT (MARCH 1989)

(a) "Centrally reportable equipment," was used in this clause, means plant equipment, special test equipment (including components), special tooling, and non-flight space property (including ground support equipment) (1) generally commercially available and used either as a separate item or as a component of a system, (2) having an acquisition cost of \$1,000 or more (unless a lower threshold is specified elsewhere in this contract), and (3) is identifiable by a manufacturer and model number.

(b) (1) Before acquiring (including acquiring by fabricating) any item of centrally reportable equipment under this contract (unless for incorporation into flightqualified or flight-monitoring deliverable end items), the Contractor shall provide to the Contracting Officer, at the earliest possible date, a description of the item sufficiently detailed to enable screening of existing Government inventories.

(2) For this purpose, the Contractor shall (i) prepare a separate DD Form 1419, DOD Industrial Plant Equipment Requisition, for each item of centrally reportable equipment to be acquired and (ii) forward it through the Contracting Officer to the NASA Equipment Management System (NEMS) Coordinator at the cognizant NASA installation at least 30 days in advance of the date the Contractor intends to acquire or begin fabricating the item. If a certificate of non-availability is not received within that period, the Contractor may proceed to acquire the item, subject to any other applicable provisions of this contract. Instructions for preparing the DD Form 1419 are contained in NASA FAR Supplement 18-45.7103. The same data may be provided in an alternate format when requesting other than Defense Industrial Plant Equipment Center (DIPEC) controlled items.

(The next page is 52-89.)

2 · · ·

(3) Upon receiving the item described on the DD Form 1419 (regardless of whether it is Contractor-acquired or Governmentfurnished), the Contractor shall prepare and submit a DD Form 1342 or equivalent data, in accordance with NASA FAR Supplement 18-45.505-670.

#### (End of clause)

#### 18-52.245-71 Installation-Provided Govcrnment Property.

As prescribed in 18-45.106-70(b), insert the following clause:

#### INSTALLATION-PROVIDED GOVERNMENT PROPERTY (MARCH 1989)

In performance of work under (a) this contract, certain Government property identified in the contract shall be made available to the Contractor on a no-charge-for-use basis by the installation's Supply and Equipment Management Officer. That property shall be utilized in the performance of this contract at the installation that provided the property or at such other installations or locations as may specified elsewhere in this be contract. Under this clause, the Government retains accountability well as title to the for as the Contractor and property, responsibilities assumes user in the installation prescribed directives management property listed elsewhere in this contract.

(b) (1) The official accountable recordkeeping and financial control

and reporting of the property subject to this clause shall be retained by the Government and accomplished by the installation's Supply and Equipment Management and Financial Management Officers. However, the Government will provide the Contractor a record of of such property, all items including copies of all transaction documents used to describe changes this record. The Contractor to shall maintain this record and transaction documentation in such a condition that, at any stage of completion of work under this contract, the status of the property, location, utilization. including consumption rate, and identification, can be readily ascertained.

(2) The Contractor shall also adhere to all other procedures (and subject to sanctions related he prescribed procedures) to those installation's director bν the that have been established for the management of installation property. The records and documentation shall be made available, upon installation's request, to the Supply and Equipment Management Officer and any other formally designated representatives of the Contracting Officer.

(c) If the Government fails to provide the Government property specified in this contract and that failure adversely affects the ability to perform Contractor's contract. the Contracting the Officer shall, upon timely written request from the Contractor, (1) make a determination of the effect Contractor and (2)on the equitably adjust the contract in accordance the procedure with provided in the FAR 52.243 changes clause of this contract. Equitable adjustments made pursuant to this paragraph (c), however, shall not

include adjustments in fee, unless the property to be provided was described in specific quantities of specific items.

(d) Government property made available under this clause shall in every respect be subject to the provisions of the FAR 52.245 Government property clause of this contract, except as provided in paragraphs (a), (b), and (c) above and as may otherwise be provided in this contract with respect to (1) the Contractor's responsibilities for repair and maintenance of Government property, or (2) the Contractor's liability for any loss of or damage to such property that is attributable to the Contractor's failure to maintain and administer a program for maintenance and repair in accordance with sound industrial practice.

(End of clause)

## ALTERNATE I (MARCH 1989)

As prescribed in 18-45.106-70(b)(3), insert the following as subparagraph (b)(3) of the basic clause:

(3) The contractor shall not utilize the installation's central receiving facility for receipt of Contractoracquired property. However, the Contractor shall provide listings suitable for establishing accountable records all such property reof ceived, on a quarterly basis. to the Contracting Officer and the Supply and Equipment Management Officer.

18-52.245-72 Liability for Government Property Furnished for Repair or Other Services.

As prescribed in 18-45.106-70(c), insert the following clause:

## LIABILITY FOR GOVERNMENT PROPERTY FURNISHED FOR REPAIR OR OTHER SERVICES (MARCH 1989)

(a) This clause shall govern with respect to any Government property furnished to the Contractor for repair or other services that is to be returned to the Government. Such property, hereinafter referred to as "Government property furnished for servicing," shall not be subject to any clause of this contract entitled Government-Furnished Property or Government Property.

(b) The official accountable recordkeeping and financial control and reporting of the property subject to this clause shall be retained by the Government. The Contractor shall maintain adequate records and procedures to ensure Government that the property furnished for servicing can be readily accounted for and identified at all times while in its custody or possession or in the custody or possession of any subcontractor.

(c) The Contractor shall be liable for any loss or destruction of or damage to the Government property furnished for servicing (1) caused by the Contractor's failure to exercise such care and diligence as a reasonable prudent owner of similar property would exercise under similar circumstances, or (2)

sustained while the property is being worked upon and directly resulting from that work, including, but not limited to, any repairing, adjusting, inspecting, servicing. maintenance or operation. The Contractor shall not be liable for loss or destruction of damage to ОГ Government property furnished for servicing resulting from any other cause except to the extent that the loss, destruction, or damage is covered by insurance (including self-insurance funds or reserves).

(d) In addition to any insurance (including self-insurance funds or reserves) carried by the Contractor and in effect on the date of this contract affording protection in whole or in part against loss or destruction of or damage to such Government property furnished for servicing, the amount and coverage of which the Contractor agrees to maintain, the Contractor further agrees to obtain any additional insurance covering such loss, destruction, or damage that the Contracting Officer may from time to time require. The requirements for this additional insurance shall be effected under the procedures established by the FAR 52.243 changes clause of this contract.

(e) The Contractor shall hold the Government harmless and shall indemnify the Government against all claims for injury to persons or damage to property of the Contractor or others arising from the Contractor's possession or use of the Government property furnished for servicing or arising from the presence of that property on the Contractor's premises or property.

#### (End of clause)

18-52.245-73 Financial Reporting of Government-Owned/Contractor-Held Property.

As prescribed in 18-45.106-70(d), insert the following clause (note that when the clause is used with its Alternate I or Alternate II, the word "annually" in paragraph (a) must be replaced by "monthly" or "quarterly," as appropriate):

#### FINANCIAL REPORTING OF GOVERNMENT-OWNED/ CONTRACTOR-HELD PROPERTY (MARCH 1989)

(a) The Contractor shall prepare and submit annually a NASA Form 1018, Report of Government-Owned/ Contractor-Held Property, in accordance with 18-45.505-14 and the instructions on the form and in section 18-45.7101 of the NASA FAR Supplement, except that the reporting of space hardware shall be required only as directed in clause 18-52.245-78. Space Hardware Reporting, of this contract, if applicable.

(b) If administration of this contract has been delegated to the Department of Defense, the original and three copies of NASA Form 1018 shall be submitted through the DOD Property Administrator to the NASA identified below. office If the contract is administered by NASA, the forms shall be submitted directly to the following NASA office: [Insert the address and office code of the organization within the cognizant NASA installation for responsible control and distribution of the NF 1018.]

(c) The annual reporting period shall be from July 1 of each year to June 30 of the following year.

The report shall be submitted by July 31.

(d) The Contractor agrees to insert this reporting requirement in all first-tier subcontracts. except that the requirement shall provide for the submission of the subcontractors' reports to the Contractor, not to the Government. The Contractor shall require the subcontractors' reports to be submitted in sufficient time to meet the reporting date in paragraph (c) above.

(e) The Contractor's report shall consist of a consolidation of the subcontractors' reports and the Contractor's own report.

(End of clause)

#### ALTERNATE I (MARCH 1989)

As prescribed in 18-45.106-70(d), insert the following paragraph (c) for paragraph (c) of the basic clause and modify paragraph (a) accordingly:

(c) The monthly report is due no later than the last day of the month following the month being reported.

#### ALTERNATE II (MARCH 1989)

As prescribed in 18-45.106-70(d), insert the following paragraph (c) for paragraph (c) of the basic clause and modify paragraph (a) accordingly:

(c) The quarterly report is due no later than the last day of the month following the quarter being reported. 18-52.245-74 Contractor Accountable On-Site Government Property.

As prescribed in 18-45.106-70(e), insert the following clause:

#### CONTRACTOR ACCOUNTABLE ON-SITE GOVERNMENT PROPERTY (MARCH 1989)

(a) In performance of work under this contract, certain Government property identified in the contract shall be provided to the Contractor on a no-charge-for-use basis by the installation's Supply and Equipment Management Officer. That property shall be utilized in the performance of this contract at the installation that provided the property or at such other installations or locations as may be specified elsewhere in this contract. The Contractor assumes accountability and user responsibilities for the property.

(b) Government property provided shall in every respect be subject to the provisions of the FAR 52.245 Government property clause of this contract. In addition, the contractor is responsible for managing this property in accordance with the guidelines provided by the installation's Supply and Equipment Management Officer or any other formally designated representatives of the Contracting Officer. The guidelines include but are not limited to requiring the Contractor to --

(1) Use economic order quantity (EOQ) methods for routine stock replenishment;

(2) Utilize the Federal Cataloging System;

(3) Comply with shelf-life requirements;

(4) Provide for accountability and control (using the NASA Equipment Management System (NEMS)) of all equipment costing \$1000 and over, plus that equipment designated as "sensitive";

(5) Provide for physical inventory of all controlled equipment at least every 3 years;

(6) Provide for sample inventories of materials plus complete inventories every 5 years;

(7) Conduct walk-through utilization inspections;

(8) Screen NEMS before acquiring any equipment costing \$1000 or over, plus equipment designated by the installation as sensitive and costing \$500 and over:

(9) Support the Equipment Acquisition Document (EAD) process; and

(10) Use Government sources as the first source of supply.

(c) Data requirements relating to the guidelines in paragraph (b) above are specified under Section F, Deliveries or performance.

(End of clause)

#### 18-52.245-75 Title to Equipment.

As prescribed in 18-45.106-70(f), insert the following clause:

#### TITLE TO EQUIPMENT (MARCH 1989)

(a) In accordance with the FAR 52.245 Government property clause of this contract, title to equipment and other tangible

personal property acquired by the Contractor with funds provided for research under this conducting contract and having an acquisition cost less than \$ \_\_\_\_ [Insert a dollar value not less than \$5,000] shall vest in the Contractor upon that the provided acquisition. Contractor has complied with the requirements of the FAR 52.245 Government property clause.

(b) Upon completion or termination of this contract, the Contractor shall submit to the Contracting Officer a list of all equipment with an acquisition cost of \$ [Insert the dollar value specified in paragraph (a)] or more acquired under the contract during the contract period. The list shall include a description, manufacturer and model number, date acquired, cost, and condition information, and shall be submitted within 30 calendar days after completion or termination of the contract, in accordance with Federal Acquisition Regulation subsection 45.606-5.

the property (c) Title to specified in paragraph (b) above vests in the Contractor, but the Government retains the right to title to direct transfer of property specified in paragraph (b) above to the Government or to a third party within 180 calendar after completion or davs termination of the contract. Such transfer shall not be the basis for any claim by the Contractor.

(d) Title to all Governmentfurnished property remains vested with the Government (see the FAR 52.245 Government property clause).

(e) Title to the contractoracquired property listed below shall vest with the Government.

[List any contractor-acquired property for which vesting of title with the Government is appropriate or insert "None"]

(End of clause)

18-52.245-76 List of Government-Furnished Property.

As prescribed in 18-45.106-70(g), insert the following clause:

#### LIST OF GOVERNMENT-FURNISHED PROPERTY (OCTOBER 1988)

For performance of work under this contract, the Government will make available Government property identified below or in Attachment [Insert attachment number or "not applicable"] of this contract on a no-charge-for-use basis. The Contractor shall use this property in the performance of this contract at [Insert applicable site(s) where property will be used] and at other location(s) as may be approved by the Contracting Officer. Under the FAR 52.245 Government property clause of this contract. the Contractor is accountable for the identified property.

|             |                 |             | Date to        |
|-------------|-----------------|-------------|----------------|
|             |                 |             | be Fur-        |
|             |                 | Acqui-      | nished to      |
|             |                 | sition      | the Con-       |
| <u>Item</u> | <u>Quantity</u> | <u>Cost</u> | <u>tractor</u> |

[Insert a description of the item(s), quantity, acquisition

cost, and date the property will be furnished to the Contractor]

(End of clause)

18-52.245-77 List of Installation-Provided Property and Services.

As prescribed in 18-45.106-70(h), insert the following clause:

#### LIST OF INSTALLATION-PROVIDED PROPERTY AND SERVICES (MARCH 1989)

In accordance with the Installation-Provided Government Property clause of this contract, the Contractor is authorized use of the types of property and services listed below, to the extent they are available, while on-site at the NASA installation.

(a) Office space, work area space, and utilities. The Contractor shall use Government telephones for official purposes only. Pav telephone stations are available for the convenience and use of employees in making unofficial calls. both local and long distance.

(b) General- and special-purpose equipment, including office furniture.

(1) Equipment to be made available to the Contractor for use in performance of this contract onsite and at such other locations as approved by the Contracting Officer is listed in Attachment [Insert attachment number or "not applicable" if no equipment is

provided]. The Government retains accountability for this property under the Installation-Provided Government Property clause, regardless of its authorized location.

(2) If the Contractor acquires property as a direct cost under this contract, this property also shall become accountable to the Government upon its entry into the NASA Equipment Management System (NEMS) in accordance with the property reporting requirements of this contract.

(3) The Contractor shall not bring on-site for use under this contract any property owned or leased by the Contractor, or other property that the Contractor is accountable for under any other Government contract, without the Contracting Officer's prior written approval.

(c) Supplies from stores stock.

(d) Publications and blank forms stocked by the installation.

(e) Safety and fire protection for Contractor personnel and facilities.

(f) Installation service facilities: [Insert the name of the facilities or "None"].

(g) Medical treatment of a firstaid nature for Contractor personnel injuries or illnesses sustained during on-site duty.

(h) Cafeteria privileges for Contractor employees during normal operating hours. (i) Building maintenance for facilities occupied by Contractor personnel.

(j) Moving and hauling for office moves, movement of large equipment, and delivery of supplies. Moving services shall be provided on-site, as approved by the Contracting Officer.

(k) The responsibilities of the Contractor as contemplated by paragraph (a) of the Installation-Provided Government Property clause are defined in the following property management directives and installation supplements to these Directives:

(1) NHB 4200.1, NASA Equipment Management Manual.

(2) NHB 4200.2, NASA Equipment Management System (NEMS) User's Guide for Property Custodians.

(3) NHB 4300.1, NASA Personal Property Disposal Manual.

(4) NHB 4100.1, NASA Materials Inventory Management Manual.

(End of clause)

#### 18-52.245-78 Space Hardware Reporting.

As prescribed in 18-45.106-70(i), insert the following clause:

#### SPACE HARDWARE REPORTING (MARCH 1989)

In accordance with the Financial Reporting of Government-Owned/ Contractor-Held Property clause of this contract, the reporting of certain specified items of space hardware is required on a NASA Form

1018. Report of Government-Owned/Contractor-Held Property. The reporting of space hardware is in addition to the requirements of other property reporting on the form. At present, the items of space hardware to be reported are the following: [Insert the space hardware to be reported for the particular contract]. The Contracting Officer shall update this list prior to June l of each year to be applicable beginning with the next reporting period.

(End of clause)

# 18-52.245-79 Use of Government-Owned Property.

As prescribed in 18-45.106-70(j), insert the following provision:

## USE OF GOVERNMENT-OWNED PROPERTY (MARCH 1989)

(a) The offeror () does, () does not intend to use in performance of any contract awarded as a result of this solicitation existing Government-owned facilities (real property or plant equipment). special test equipment, or special tooling (including any property offered by this solicitation). The offeror shall identify any offered property not intended to be used. If the offeror does intend to use any of the above items, the offeror must furnish the following information required by Federal Acquisition Regulation (FAR) 45.205(b), NASA FAR Supplement (NFS) 18-45.102-70, and NFS 18-45.104(b):

(1) Identification and quantity of each item. Include the item's acquisition cost if it is not property offered by this solicitation.

(2) For property not offered by this solicitation, identification of the Government contract under which the property is accountable and written permission for its use from the cognizant Contracting Officer.

(3) Amount of rent, calculated in accordance with FAR 45.403 and the clause at FAR 52.245-9, Use and Charges, unless the property has been offered on a rent-free basis by this solicitation.

(4) The dates during which the property will be available for use, and if it is to be used in more than one contract, the amounts of respective uses in sufficient detail to support proration of the rent. This information is not required for property offered by this solicitation.

(b) The offeror () does, () does not request additional Governmentprovided property for use in performing any contract awarded as a result of this solicitation. If the offeror requests additional Government-provided property, the offeror must furnish --

(1) Identification of the property, quantity, and estimated acquisition cost of each item; and

(2) The offeror's written statement as prescribed by FAR 45.302-1(a)(4).

(c) If the offeror intends to use any Government property (paragraph
(a) or (b) above), the offer must also furnish the following:

(1) The date of the last Government review of the offeror's property control and accounting system, actions taken to correct any deficiencies found, and the name and telephone number of the cognizant property administrator.

(2) A statement that the offeror has reviewed, understands, and can comply with all property management and accounting procedures in the solicitation, FAR Subpart 45.5, and NFS Subparts 18-45.5, 18-45.70, and 18-45.71.

(3) A statement indicating whether or not the costs associated with subparagraph (2) above, including plant clearance and/or plant reconversion costs, are included in its cost proposal.

(End of provision)

18-52.245-80 Use of Government Production and Research Property on a No-Charge Basis.

As prescribed in 18-45.106-70(k), insert the following clause:

## USE OF GOVERNMENT PRODUCTION AND RESEARCH PROPERTY ON A NO-CHARGE BASIS (MARCH 1989)

In performing this contract, the Contractor is authorized to use on a no-charge, noninterference basis the Government-owned production and research property provided to Contractor under the the specified below and contract(s) cognizant identified in the Officer's letter Contracting approving use of the property. Use is authorized on the basis that it will not interfere with performance Government contract(s) of the which the property was under originally furnished. Use shall be in accordance with the terms and conditions of these contracts and the cognizant Contracting Officer's approval letter.

Contract No(s): [Insert the contract number(s) under which the Government property is accountable].

(End of clause)

#### 18-52.246-70 Mission Critical Space Systems Personnel Reliability Program.

As prescribed in 18-46.270(a), insert the following clause:

#### MISSION CRITICAL SPACE SYSTEMS PERSONNEL RELIABILITY PROGRAM (MARCH 1991)

(a) In implementation of the Mission Critical Space Systems Personnel Reliability Program, described in NASA Management (NMI) 8610.13. Instruction the Government shall identify personnel positions that are mission critical. Some of the positions as identified may now or in the future be held by employees of the Contractor. Upon notification by the Contracting Officer that a mission-critical position is being or will be filled by one or more of Contractor's employees, the the Contractor shall (1) provide the affected employees with a clear understanding of the investigative and medical requirements and, (2), to the extent permitted by applicable law. assist the Government by furnishing personal data and medical records.

The standard that will be used (b) in certifying individuals for a mission-critical position is that they must be determined to be suitable, competent, and reliable in the performance of their assigned duties in accordance with the screening requirements of the NMI. If the Government determines that Contractor employee а occupying or nominated to occupy a mission-critical position will not be certified for such duty, the Officer Contracting shall (1)furnish to the employee the

specific reasons for its action; (2) advise the employee that he/she may avail himself/herself of the review procedures that are a part of the certification system; and (3) furnish him/her a copy of those procedures upon request.

(c) If a Contractor employee who has been nominated for (but has not vet filled) а mission-critical position is not certified. the Contractor agrees to defer the appointment to the position until the employee has had an opportunity to pursue the referenced pro-cedures. If the employee is an incumbent to the position, the Contractor agrees, upon the request the Government, to remove of him/her from the position temporarily pending an appeal of the action under the review procedures. If any employee not certified elects not to take action under the procedures, or, if having taken action. is not successful in obtaining а reversal of the determination, the Contractor agrees not to appoint the employee to the position, or if already appointed, to promptly remove the employee.

#### (End of clause)

# 18-52.246-71 Government Contract Quality Assurance Functions.

As prescribed in 18-46.470-2(a), insert the following clause:

## GOVERNMENT CONTRACT QUALITY ASSURANCE FUNCTIONS (OCTOBER 1988)

In accordance with the inspection clause of this contract, the

Government intends to perform the following functions at the locations indicated:

Quality AssuranceLoca-ItemFunctiontion

[Insert the items involving quality assurance, the quality assurance functions, and where the functions will be performed]

(End of clause)

Contractor shall list on the DD Form 250, as additional information, the quantity of packages and the package numbers. The Contractor shall forward the DD Form 250 with the lowest numbered package of the shipment and print the words "CONTAINS DD FORM 250" on the package.

(End of clause)

#### 18-52.246-73 Manned Space Flight Item.

18-52.246-72 Material Inspection and Receiving Report.

As prescribed in 18-46.674, insert the following clause:

### MATERIAL INSPECTION AND RECEIVING REPORT (OCTOBER 1988)

(a) At the time of each delivery under this contract, the Contractor shall furnish to the Government a Material Inspection and Receiving Report (DD Form 250 series) prepared in \_\_\_ [Insert number of copies, including original] copies, an original and \_\_\_ copies [Insert number of copies].

(b) The Contractor shall prepare the DD Form 250 in accordance with NASA FAR Supplement 18-46.672-1. The Contractor shall enclose the copies of the DD Form 250 in the package or seal them in a waterproof envelope, which shall be securely attached to the exterior of the package in the most protected location.

(c) When more than one package is involved in a shipment, the

As prescribed in 18-46.270(b), insert the following clause:

## MANNED SPACE FLIGHT ITEM (OCTOBER 1988)

The Contractor shall include the following statement in all subcontracts and purchase orders placed by it in support of this contract, without exception as to amount or subcontractual level:

"FOR USE IN MANNED SPACE FLIGHT; MATERIALS, MANU-FACTURING, AND WORK-MANSHIP OF HIGHEST QUALITY STANDARDS ARE ESSENTIAL TO ASTRONAUT SAFETY.

IF YOU ARE ABLE TO SUP-PLY THE DESIRED ITEM WITH A HIGHER QUALITY THAN THAT OF THE ITEMS SPECI-FIED OR PROPOSED, YOU ARE REQUESTED TO BRING THIS FACT TO THE IMMEDIATE ATTENTION OF THE PURCHASER."

(End of clause)

# 18-52.246-74 Requirement for Quality and Productivity Improvement Plan.

As prescribed in 18-46.470-1, insert the following provision:

## REQUIREMENT FOR QUALITY AND PRODUCTIVITY IMPROVEMENT PLAN (JUNE 1990)

The offeror shall submit with its proposal a Quality and Productivity Improvement (Q/PI) plan. The plan should address only effort directly related to this solicitation. It should include areas of focus for improvement; Q/PI goals, schedules and assessment techniques; discuss how the offeror will create an environment within its organization conducive to continuous quality improvement; and discuss the offeror's active proposed or involvement, if any, in the Q/PI programs of subcontractors. The offeror shall identify all costs associated with the major elements of the proposed plan. The offeror may propose incentives to reward quality and productivity improvements made under the contract. If proposed as incentives that are distinct from other contract fees or prices, the offeror must be able to demonstrate to the contracting officer's satisfaction that the contractor's performance under the Q/PI plan can be discretely measured and its value is commensurate with the proposed cost or incentive. At the sole discretion of the contracting officer any consideration for the proposed Q/PI plan may be included in the total fee or price of the contract. If the contract will otherwise contain award fee provisions, the offeror shall include in its proposal appropriate award fee criteria designed to

encourage and reward the offeror's Q/PI effort. The contractor shall comply with the approved plan during performance of the contract.

#### (End of provision)

18-52.246-75 Quality and Productivity Improvement Plan.

As prescribed in 18-46.470-2(b), insert the following clause:

#### QUALITY AND PRODUCTIVITY IMPROVEMENT PLAN (JUNE 1990)

During contract performance, the contractor shall comply with the Quality and Productivity Improvement Plan submitted pursuant to provision 18-52.246-74. Requirement Quality for and Productivity Improvement Plan, as approved by the Contracting Officer.

#### (End of clause)

## 18-52.247-70 Returnable Containers.

As prescribed in 18-47.305-70(a), insert the following clause:

#### RETURNABLE CONTAINERS (MARCH 1989)

(a) Containers shall remain the Contractor's property but shall be loaned without charge to the Government for a period of 30 days after their delivery to the f.o.b. point specified in the contract. Beginning with the first day after this loan period expires, to and

including the day the containers are delivered to the Contractor original delivery was (if the f.o.b. origin) or are delivered or made available for delivery to the Contractor's designated carrier (if the original delivery was destination). the Governf.o.b. ment shall pay the Contractor a rental of \$ \_\_\_\_\_ [Insert dollar amount for container rental.] per container per day, regardless of type or capacity.

(b) This rental charge will be computed separately for containers of each type, size, and capacity, and for each delivery point named in the contract. A credit of 30 container days will accrue to the Government for each container, regardless of type or capacity, the Contractor. A delivered by I container day will debit of accrue to the Government for each container for each day after delivery to the f.o.b. point specified in the contract. At the end of the contract, if the debit total exceeds the credit total. rental shall be charged for the difference. If the credit total debit exceeds the equals or total, no rental shall be charged. No rental shall accrue to the excess of the Contractor in replacement value per container specified in paragraph (c) below.

(c) For each container lost or damaged beyond repair while in the Government's possession, the Government shall pay the Contractor the replacement value as follows, less the allocable rental paid for that container:

[Insert the container types, sizes, capacities, and associated replacement values.]

(d) Containers lost or damaged beyond repair and paid for by the Government shall become Government property, subject to the following: If any lost container is located within [Insert number of calendar davs. calendar days after payment by the Government, it may be returned to the Contractor by the Government, and the Contractor shall pay the Government the replacement value. less rental computed in accordance with paragraph (a) above, beginning at the expiration of the loan period specified in paragraph (a) above, and continuing to the date which the container on was delivered to the Contractor.

#### (End of clause)

# 18-52.247-71 Protection of the Florida Manatee.

As prescribed in 18-47.7001, insert the following clause:

52-100.1

#### PROTECTION OF THE FLORIDA MANATEE (MARCH 1989)

(a) Pursuant to the Endangered Species Act of 1973 (Pub. L. 93-205), as amended, and the Marine Mammals Protection Act of 1972 (Pub. L. 92-522), the Florida Manatee (Trichechus Manatus) has been designated an endangered species, and the Banana and Indian Rivers within and adjacent to NASA's Kennedy Space Center (KSC) have been designated as a critical habitat of the Florida Manatee.

(b) Contractor personnel involved vessel operations, dockside in work, and selected disassembly provided functions shall be training relative to (1) habits and characteristics of the Florida Manatee, (2) provisions of the (3) personal applicable laws, liability of workers under the operational and (4) laws. restrictions imposed by KSC.

(c) All vessel operations shall be conducted within the posted speed restrictions, and vessels shall be operated at minimum controllable speeds in all KSC waters. Shallowwater operations are prohibited.

(d) Training will be conducted by personnel of the U.S. Fish and Wildlife Service (USFWS). The contractor agrees to cooperate with the USFWS by allowing access at reasonable times and places (including shipboard) to USFWS personnel, and by making available such contractor personnel as are required to have the training. Arrangements for training will be made as follows:

(1) For personnel involved in tug, barge, or marine operations, through the Lockheed Space Operations Contractor, Transportation Coordination Center, Kennedy Space Center, Florida, telephone (407) 867-5330.

(2) For all other personnel, through the Systems Training and Employee Development Branch, Code PM-TNG, telephone (407) 867-2737.

(e) The contractor shall incorporate the provisions of this clause in applicable subcontracts (including vendor deliveries).

(End of clause)

18-52.247-72 Advance Notice of Shipment.

As prescribed in 18-47.305-70(b), insert the following clause:

## ADVANCE NOTICE OF SHIPMENT (OCTOBER 1988)

\_ [Insert number of work days] work days prior to shipping item(s) \_\_\_\_\_ [Insert items to be shipped], the Contractor shall furnish the anticipated shipment date, bill of lading number (if applicable), and carrier identity [Insert to notifiindividual(s) receive to to the Contracting cation] and Officer.

#### (End of clause)

#### 18-52.247-73 Shipment by Government Bills of Lading.

As prescribed in 18-47.305-70(c), insert the following clause:

## SHIPMENT BY GOVERNMENT BILLS OF LADING (MARCH 1989)

(a) The Contractor shall ship deliverable items under this contract, if the transportation cost per shipment exceeds \$100, by Government bills of lading (GBLs). At least 15 days before shipment, the Contractor shall request in writing GBLs from: [Insert name. title, and mailing address of designated transportation officer other official delegated or responsibility for GBLs]. If time is limited, requests may be by telephone: [Insert appropriate telephone number]. Requests for GBLs shall include the following information.

(1) Item identification/ description.

(2) Origin and destination.

(3) Individual and total weights.

(4) Dimensions and total cubic footage.

(5) Total number of pieces.

(6) Total dollar value.

(7) Other pertinent data.

(b) The Contractor shall prepay transportation charges of \$100 or less per shipment. The Government shall reimburse the contractor for these charges if they are added to the invoice as a separate line item supported by the paid freight receipts. If paid receipts in support of the invoice are not obtainable, а certificate as described below must be completed, signed by an authorized company representative, and attached to the invoice.

"I certify that the shipments identified below have been made, transportation charges have been paid by (company name), and paid freight or comparable receipts are not obtainable.

Contract or Order Number:

Destination:

(End of clause)

#### 18-52.249-72 Termination (Utilitics).

As prescribed in 18-49.505-70, insert the following clause. The period of 30 days may be varied not to exceed 90 days.

#### TERMINATION (UTILITIES) (MARCH 1989)

The Government, at its option, may terminate this contract by giving written notice not less than 30 days in advance of the termination's effective date.

(End of clause)

# 18-52.250-70 Indemnification Under Public Law 85-804--NASA Contracts.

As prescribed at 18-50.403-370(a), insert | the following clause:

## INDEMNIFICATION UNDER PUBLIC LAW 85-804--NASA CONTRACTS (SEPTEMBER 1989)

(a) "Principal officials," as used in this clause, means any of the

Contractor's managers, superintendents, or other equivalent representatives who have supervision or direction of --

(1) All or substantially all of the Contractor's business, or

(2) All or substantially all of the Contractor's operations at any one plant or separate location in which this contract is being performed; or

(3) A separate and complete major industrial operation in connection with the performance of this contract.).

(b) Pursuant to Public Law 85-804 (50 U.S.C. 1431-1435) and Executive Order 10789, as amended, and notwithstanding any other provisions of this contract, but subject to the following paragraphs of this clause, the Government shall hold harmless and indemnify the Contractor against --

(1) Claims (including reasonable expenses of litigation or settlement) by third persons (including employees of the Contractor) for death; personal injury; or loss of, damage to, or loss of use of property;

(2) Loss of or damage to property of the Contractor, and loss of its use, but excluding loss of profit; and

(3) Loss of, damage to, or loss of use of Government property but excluding loss of profit.

(c) This indemnification applies only to the extent that the claim, loss, or damage (1) arises out of or results from a risk defined in be unusually this contract to hazardous and (2)is not by insurance or compensated otherwise. Any such claim, loss, or

damage within deductible amounts of the Contractor's insurance shall not be covered under this clause.

(d) (1) The Government shall not be liable for --

(i) Claims by the United States (other than those arising through subrogation) against the Contractor;

(ii) Losses affecting the property of the Contractor; when the claim, loss, or damage was caused by the willful misconduct or lack of good faith on the part of any of the Contractor's directors, officers, or principal officials; or

(iii) Loss of, damage to, or loss of use of property of the Contractor unless the total amount for such loss, damage, and loss of use, excluding loss of profit, is in excess of the Contractor's \$500,000,000. insurance or Specifically, the Government shall only be liable for such loss, damage, and loss of use in excess of the Contractor's insurance or \$500,000,000, whichever the is larger amount.

(2) The Contractor shall not be indemnified under this clause for liability assumed under any contract or agreement unless that assumption of liability has been specifically authorized by the Administrator and approved by the Officer. When the Contracting Government has assumed liability subcontracts. the term for "Contractor" in this paragraph (d) shall include subcontractors.

(e) No payment shall be made by the Government under this clause unless its amount shall first have been certified to be just and reasonable by the Administrator or

the Administrator's representative designated for this purpose. The rights and obligations of the parties under this clause shall survive the termination, expiration. or completion of this The Government contract. mav discharge its liability under this paragraph (e) by making payments to Contractor or directly the to parties to whom the Contractor may be liable.

(f) (1) With the Contracting Officer's prior written approval, the Contractor may include in any subcontract under this contract the same provisions as those in this clause, whereby the Contractor shall indemnify the subcontractor against any risk defined in this contract as unusually hazardous. Such a subcontract shall provide the same rights and duties, and the provisions same for notice. furnishing of evidence or proof, and the like. between the Contractor and the subcontractor as established by this clause. are The Contracting Officer may also approve similar indemnification of subcontractors at any tier upon the same terms and conditions. (2) Subcontracts providing for indemnification within the purview of this clause shall provide for the prompt notification to the Contracting Officer of any claim or action against, or of any loss by, the subcontractor covered by this clause and shall entitle the Government, at its election, to control or assist in the settlement or defense of any such claim or action. The Government shall indemnify the Contractor with respect to its obligations to subcontractors under subcontract provisions thus approved by the Contracting Officer.

The (3) Government may discharge its obligations under this paragraph (f) by making payments directly to subcontractors parties to or to whom the subcontractor may be liable.

(g) If insurance coverage or other financial protection approved by the Administrator is reduced, the Government's liability under this clause shall not be increased by reason of such reduction.

(h) The Contractor shall (1)promptly notify the Contracting Officer of any claim or action against, or of any loss by, the Contractor or any subcontractor that reasonably may be expected to involve indemnification under this clause, (2) furnish evidence or proof of any claim, loss, or damage covered by this clause in the manner and form required by the Government, and (3) immediately furnish to the Government copies of all pertinent papers received by the Contractor. The Government may direct, control, or assist in the settlement or defense of any such claim or action. The Contractor shall comply with the Government's directions and execute any authorizations required in regard to that settlement or defense.

#### (End of clause)

#### ALTERNATE I (MARCH 1989)

If the contract is a costreimbursement contract, substitute the following paragraphs (h) and (i) for paragraph (h) of the basic clause:

(h) In addition to the Contractor's responsibilities Insurance-under the Liability to Third Persons this contract. clause of hereby which are made applicable to claims under this clause, the Contractor shall (1) promptly notify the Contracting Officer of any claim or action against, or of anv loss by. the Contractor or any subcontractor that reasonably may involve expected to be indemnification under this clause, (2) furnish evidence or proof of any claim, loss, or damage covered by this clause in the manner and form required by the Government, to the extent (3) and required by the Government. permit and authorize the Government to direct, control or assist in the settlement or defense of any such claim action. The cost of or insurance (including selfinsurance) covering a risk defined in this contract as unusually hazardous shall not be reimbursed either as a or indirect cost direct except to the extent that such insurance has been required or approved under the Insurance--Liability to Third Persons clause.

(i) The Limitation of Cost and Limitation of Funds clauses of this contract do not apply to the Government's obligations under this clause. These obligations shall be excepted from the release required under the allowable cost and payment clause of this contract. 18-52.250-72 Space Activity--Unusually Hazardous Risks.

As prescribed in 18-50.403-370(b), insert | the following clause:

## SPACE ACTIVITY--UNUSUALLY HAZARDOUS RISKS (MARCH 1989)

The risks for which indemnification is authorized as "unusually hazardous" under the Indemnification Under Pub. L. 85-804--NASA Contracts clause of this contract are solely those resulting from or arising out of the use or performance of the following products or services in NASA's space activities (for this purpose, their use or performance begins only when they are provided to the U.S. Government at a U.S. Government installation for one or more Shuttle launches and are actually used or performed in NASA's space activities):

(a) Provision of Space Transportation System (STS) and cargo flight elements or components.

(b) Provision of STS and cargo ground support equipment or components.

(c) Provision of STS and cargo ground control facilities and services for their operation.

(d) Repair, modification, overhaul, and other support and services relating to the STS, its cargo, and other elements used in NASA's space activities.

(End of clause)

## SUBPART 18-52.3 PROVISION AND CLAUSE MATRIX

## 18-52.300 Scope of subpart.

The matrix in this subpart contains a column for each principal type and/or purpose of contract. See the first page of the matrix for the key to column headings, the dollar threshold chart, and requirement symbols.

PART 18-53 FORMS

## SUBPART 18-53.1 GENERAL

### 18-53.100 Scope of subpart.

This subpart contains requirements and information generally applicable to the forms prescribed in this Regulation.

## 18-53.101 Requirements for use of forms.

The requirements for use of the forms prescribed or referenced in this part are contained in Parts 18-1 through 18-51, where the subject matter applicable to each form is addressed. The specific location of each form's prescription is identified in Subpart 18-53.2.

## 18-53.102 Current editions.

The form prescriptions in Subpart 18-53.2 and the illustrations in Subpart 18-53.3 contain current editions, unless otherwise noted. Contracting officers shall use the current editions unless otherwise authorized under this regulation.

### 18-53.103 Exceptions.

Alteration of any NASA or NASA-adopted form prescribed by this regulation is prohibited unless prior approval has been obtained from the NASA Forms Officer (Code JTD-1) (through the Installation Forms Manager), who will coordinate the request with the Office of Procurement, Code H. Use for the same purpose of any form other than one prescribed by this regulation requires prior approval of the cognizant Code H Division. Requests for exceptions to standard or optional forms, as prescribed in FAR 53.103, shall be forwarded through the Installation Forms Manager and the NASA Forms Officer to the Procurement Policy Division, Code HP, which will take the appropriate actions in FAR 53.103.

### 18-53.104 Overprinting.

NASA and other forms may be overprinted with names, addresses, and other uniform entries that are consistent with the purpose of the form and that do not alter the form in any other way. Exception approval for overprinting is not needed.

## 18-53.105 Computer preparation.

NASA and NASA-adopted forms prescribed by this regulation may be adapted for computer preparation by following the exception procedures in 18-53.103. (See FAR 53.105 regarding standard and optional forms.) Such forms should correspond exactly with all other specifications pertaining to them, including overall size, wording, and arrangement.

# 18-53.106 Special construction and printing.

Contracting offices may request exceptions to NASA and NASA-adopted and standard and optional forms for special construction and printing by following the procedures of 18-53.103.

### 18-53.107 Obtaining forms.

(a) NASA installations and offices may obtain forms prescribed in the FAR or in this Regulation from Goddard Space Flight Center, Code 239. Orders should be placed on a NASA Form 2, Request for Blank Forms, Publications and Issuances, in accordance with NHB 1420.2, and the forms obtained from GSFC as required by installation or office.

(b) Contracting officers, at the time of contract award, shall ensure that contractors are notified of or are otherwise aware of (1) the procedures for obtaining NASA forms and (2) the source within the installation of forms required for performance under the contract.

# 18-53.108 Recommendations concerning forms.

Coordination with the FAR Secretariat, as specified in FAR 53.108, is the responsibility of the Procurement Policy Division, Code HP.

## SUBPART 18-53.2 PRESCRIPTION OF FORMS

## 18-53.200 Scope of subpart.

This subpart summarizes the prescriptions of NASA forms and other forms adopted by NASA for use in acquisition. The subpart is arranged by subject matter, in the same order as, and keyed to, the parts of this regulation in which the form usage requirements are addressed. (See FAR 53.200 for an example.)

## 18-53.204 Administrative matters.

18-53.204-70 General (NASA Forms 507, 507A, 507B, 507G, 507M, 531, 533M, 533P, 533Q, 667, 1098, 1356, 1611, 1612; DD Form 1593; FBI Form FD-258; and SF 85P).

(a) NASA Form 507, Individual Procurement Action Report (New Awards). NASA Form 507, prescribed at 18-4.671-4, shall be used to provide acquisition records and statistics for new awards. (b) NASA Form 507A, Individual Procurement Action Report (New Awards) Supplement A. NASA Form 507A, prescribed at 18-4.671-4, shall be used to provide additional data to that provided on the NASA Form 507 for new awards.

(c) NASA Form 507B, Individual Procurement Action Report Supplement B. NASA Form 507B, prescribed at 18-4.674, shall be used to provide contract cost, fee, and obligation data for new awards and modifications.

(d) NASA Form 507G, Individual Procurement Action Report (Grants/ Orders). NASA Form 507G, prescribed at 18-4.671-4, shall be used to provide acquisition records and statistics for grants, agreements, intragovernmental awards, and orders against Federal Supply Schedule contracts.

(c) NASA Form 507M, Individual Procurement Action Report (Modifications). NASA Form 507M, prescribed at 18-4.671-4, shall be used to provide acquisition records and statistics for modifications to contracts, grants, agreements, intragovernmental awards, and orders against Federal Supply Schedule contracts.

(f) NASA Form 531, Name Check Request. NASA Form 531, prescribed in 18-4.470 and 18-52.204-76, shall be used for National Agency Check (NAC) investigations.

(g) NASA Form 533M, Monthly Contractor Financial Management Report. NASA Form prescribed at 18-4.675, shall be used when financial management reporting is required.

(h) NASA Form 533P, Monthly Contractor Financial Management Performance Analysis Report. NASA Form 533P, prescribed at 18-4.675, shall be used when monthly performance analysis reports are required. (i) NASA Form 533Q, Quarterly Contractor Financial Management Report. NASA Form 533Q, prescribed at 18-4.675, shall be used when quarterly cost projection reports are required.

(j) NASA Form 667, Report on NASA Subcontracts. NASA Form 667, prescribed at 18-4.672, shall be used by contractors to submit information to NASA on each subcontract or subcontract modification over \$25,000.

(k) NASA Form 1098, Checklist for Contract Award File Content. NASA Form 1098, prescribed at 18-4.803-71, shall be used as a guide in compiling contract files and shall accompany contracts and supplemental agreements submitted to Headquarters for approval. In Item 19 (Jul 90 edition), line out the entry "D&F: Other Than Full and Open Competition in the Public Interest (FAR/NFS 6.302-7)," and write in "JOFOC (FAR/NFS 6.3)."

(1) NASA Form 1356, C.A.S.E. Report on College and University Projects. NASA Form 1356, prescribed at 18-4.7202, shall be used to report information applicable to colleges and universities.

(m) NASA Form 1611, Contract Completion Statement. As prescribed at 18-4.804-2 and 18-4.804-5(b), NASA Form 1611 shall be used for closeout of all contracts above the small purchase threshold.

(n) NASA Form 1612, Contract Closeout Checklist. NASA Form 1612, prescribed at 18-4.804-5, shall be used for contract closeout when the NASA contracting office retains contract administration.

(o) DOD Form 1593, Contract Administration Completion Record. DD Form 1593, prescribed at 18-4.804-5, shall be used for closeout when the NASA contracting office retains contract administration. 18-53.207 Acquisition planning (NASA Forms 1451, 1452).

(a) NASA Form 1451, Request for Procurement Plan Approval. NASA Form 1451, prescribed at 18-7.170-1(b), shall be used in preparing procurement plans requiring approval by Headquarters.

(b) NASA Form 1452, Signature Page (Installation). NASA Form 1452, prescribed at 18-7.170-1(b), shall be used in obtaining installation-level signatures required by 18-7.103.

18-53.208 Required sources of supplies and services.

18-53.208-70 Other Government sources (Standard Form 1080, Air Force Form 858, Department of Energy Form 5400.3, Nuclear Regulatory Commission Form 313).

(a) Standard Form 1080, Voucher for Transfers Between Appropriations and/or Funds (Disbursement). Standard Form 1080, prescribed at 18-8.002-74(e), shall be used to reimburse the Air Force for shipments of propellants.

(b) Air Force Form 858, Forecast of Requirements (Missile Propellants and Pressurants). AF 858, prescribed at 18-8.002-74(f), shall be used to report periodic estimated requirements for missile propellants and related items to the Department of the Air Force.

(c) Department of Energy Form 5400.3, Isotope Order Blank. DOE Form 5400.3, prescribed at 18-8.002-72(a), shall be used for the procurement of radioisotopes. (d) Nuclear Regulatory Commission Form 313, Application for Material License. NRC Form 313, prescribed at 18-8.002-72(a), shall be used to apply for a NRC license for the procurement of radioisotopes.

18-53.215 Contracting by negotiation.

18-53.215-2 Price negotiation (NASA Form 634 and DD Form 1861).

(a) NASA Form 634, Structured Approach--Profit/Fee Objective. NASA Form 634, prescribed at 18-15.970(a), shall be used for determining the profit or fee objective by the structured approach.

(b) **DD** Form 1861, Contract Facilities Capital Cost of Money. DD Form 1861, prescribed at 18-15.970-3(b), shall be used to calculate facilities capital cost of money.

18-53.216 Types of contracts.

18-53.216-70 Assignees under costreimbursement contracts (NASA Forms 778, 779, 780, 781).

(a) NASA Form 778, Contractor's Release. NASA Form 778, prescribed at 18-16.370, shall be used for obtaining a release from the contractor.

(b) NASA Form 779, Assignee's Release. NASA Form 779, prescribed at 18-16.370, shall be used for obtaining a release from each assignee.

(c) NASA Form 780, Contractor's Assignment of Refunds, Rebates, Credits, and Other Amounts. NASA Form 780, prescribed at 18-16.370, shall be used in obtaining any refunds, rebates, credits, or other amounts from the contractor.

(d) NASA Form 781, Assignee's Assignment of Refunds, Rebates, Credits, and Other Amounts. NASA Form 781, prescribed at 18-16.370, shall be used in obtaining any refunds, rebates, credits, or other amounts due from each assignce.

18-53.217 Special contracting methods (NASA Form 523).

NASA Form 523, NASA-Defense Purchase Request. NASA Form 523, prescribed at 18-17.70, shall be used for requesting procurement of supplies or services from all activities of the Military Departments.

18-53.232 Contract financing (Standard Form 272, 272A).

(a) Standard Form 272, Federal Cash Transactions Report, prescribed at 18-32.406-70, will be submitted by non-profit organizations that receive advance funding.

(b) Standard Form 272-A, Federal Cash Transactions Report Continuation, prescribed at 18-32.406-70, is used in conjunction with Standard Form 272 when reporting more than one contract.

18-53.242 Contract administration.

18-53.242-70 Delegation (NASA Forms 1430, 1430A, 1431, 1432, 1433).

(a) NASA Form 1430, Letter of Contract Administration Delegation, General. NASA Form 1430, prescribed at 18-42.202-70(a)(4), shall be used to delegate and redelegate contract administration functions and to amend existing contract administration delegations.

(b) NASA Form 1430A, Letter of Contract Administration Delegation, Special Instructions. NASA Form 1430A, prescribed at 18-42.202-70(a)(4), shall be used to supplement NASA Form 1430 when special instructions are necessary.

(c) NASA Form 1431, Letter of Acceptance of Contract Administration Delegation. NASA Form 1431, prescribed at 18-42.202-70(a)(8)(i), (ii), and (iii), shall be used in conjunction with NASA Form 1430 to record receipt and acceptance of delegation by other agencies.

(d) NASA Form 1432, Letter of Contract Administration Delegation, Termination. NASA Form 1432, prescribed at 18-42.202(c)(7), shall be used to delegate and redelegate termination functions and to amend existing termination delegations.

(e) NASA Form 1433, Letter of Audit Delegation. NASA Form 1433, prescribed at 18-42.202-71(c), shall be used to delegate and redelegate audit functions and to amend existing audit delegations.

(f) NASA Form 1634, Contracting Officer Technical Representative (COTR) Delegation. NASA Form 1634, prescribed at 18-42.270(b), shall be used to designate a COTR for a particular contract.

18-53.242-71 Administrative service request (NASA Form 1434).

NASA Form 1434, Letter of Request for Pricing-Audit-Technical Evaluation Services. NASA Form 1434, prescribed at 18-42.202-70(f), shall be used to request contract administration and audit services incident to preaward of a contract but exclusive of preaward surveys.

18-53.242-72 Notifications (NASA Form 456).

NASA Form 456, Notice of Contract Costs Suspended and/or Disapproved. NASA Form 456, prescribed at 18-42.803, will be used by the auditor and contracting officer to notify the contractor of any suspended and/or disallowed contract costs.

18-53.245 Property (NASA Form 1018, Department of Defense Form 1342, and Department of Defense Form 1419). (a) NASA Form 1018, Report of Government-Owned/Contractor-Held Property. NASA Form 1018, prescribed at 18-45.505-14(d), shall be used by contractors for reporting Government-owned property.

(b) **Department of Defense Form 1342, DOD Property Record.** DD Form 1342, prescribed at 18-45.505-670, shall be used by contractors for reporting NASA-furnished or contractor-acquired centrally reportable equipment.

(c) Department of Defense Form 1419, DOD Industrial Plant Equipment Requisition. DD Form 1419, prescribed by the clause at 18-52.245-70, shall be used by contractors to list requirements for centrally reportable items for screening of existing Government inventories.

18-53.246 Quality Assurance (Department of Defense Form 250, Department of Defense Form 250c).

(a) Department of Defense Form 250, Material Inspection and Receiving Report. DD Form 250, prescribed at 18-46.670, shall be used to document procurement quality assurance, acceptance of supplies and services, and shipments.

(b) Department of Defense Form 250c, Material Inspection and Receiving Report-Continuation Sheet. DD Form 250c, prescribed at 18-46.670, shall be used to continue documentation of information from DD Form 250.

18-53.249 Termination of contracts (NASA Forms 1412, 1413).

(a) NASA Form 1412, Termination Authority. NASA Form 1412, prescribed at 18-49.101-71, shall be used for initiating action to terminate a contract for either default or convenience of the Government.

(b) NASA Form 1413, Termination Docket Checklist. NASA Form 1413, prescribed at 18-49.101-71, shall be used to ensure adequacy of termination records.

## SUBPART 18-53.3 ILLUSTRATIONS OF FORMS

18-53.300 Scope of subpart.

This subpart contains illustrations of NASA forms and other forms used by NASA in acquisitions and not prescribed in the FAR.

## 18-53.301 Standard forms.

This section illustrates standard forms (SF's) specified by this Regulation for use in acquisitions.

## 18-53.303 Agency forms.

This section illustrates NASA and other agency forms specified by this Regulation for use in acquisitions. The other agency forms are arranged numerically by agency following the NASA forms. Standard Form 85P December 1990 U.S.Office of Personnel Management FPM Chapter 731

# **Questionnaire for Public Trust Positions**

Read this information carefully. Follow the instructions fully or we cannot process your form.

# Why do we need the information you will give us and how will we use it?

The U.S. Government has conducted background investigations for over 50 years. It does this to establish that people who want to be employed by the Government, or who will work for the Government under contract, are suitable for the job. We use the information from this form primarily as the basis for an investigation that will be used to determine your suitability for a Public Trust position.

The information you give us is for Official Use Only; we will protect it from unauthorized disclosure. Authorized disclosures include the Privacy Act Routine Uses shown on this form. The information you provide in response to question 19 on use of illegal drugs will not be provided for use in any criminal proceedings against you, unless requested by the Department of Justice in connection with an independent investigation.

Giving us the information we ask for is voluntary. However, we may not be able to complete your investigation, or complete it in a timely manner, if you don't give us each item of information we request. This may affect your placement or employment prospects.

# What authority do we have to ask you for the information requested on this form?

The U.S. Government is authorized to ask for this information under E.O. 10577 and section 3301 of title 5 of the U.S. Code; and parts 5, 731, and 736 of title 5, Code of Federal Regulations. We ask for your Social Security number to keep our records accurate, because other people may have the same name and birthdate. Executive Order 9397 also asks Federal agencies to use this number to help identify individuals in agency records.

#### What is the investigative process?

Answers to questions on this form, and on your Application for Federal Employment (Standard Form 171), or other form, are used in the investigation. The agency will provide you other instructions, including completion of questions 18, 19b, and 21. The investigation may include inquiry into areas such as honesty, judgment, and reliability. Public Trust positions require an investigation that relies on an Investigator interviewing people who know you.

An interview with you is a normal part of the investigative process. This Personal Subject Interview is generally the first step in the investigation, and is conducted under oath, affirmation, or unsworn declaration. It provides you the opportunity to update, clarify, and explain more completely information on your form which often helps to complete your investigation faster. If your investigation requires a Personal Subject Interview, you will be contacted in advance by telephone or mail to arrange a time and location for the interview. It is important that the interview be conducted as soon as possible after you are contacted. Postponements will delay the processing of your investigation. Declining an interview may result in your investigation being delayed or canceled.

You will be asked to bring identification with your picture on it, such as a valid State driver's license, to the interview. There are other documents you may be asked to bring to verify your identity as well. These include: documentation of any legal name change; Social Security card; and/or birth certificate. Documents that verify any significant claims or activities may also be requested, for example: alien registration; naturalization certificate; originals or certified copies of college transcripts or degrees; professional license(s) or certificate(s); military discharge certificate(s) (DD Form 214); passport; and/or business license(s). You may also be asked to bring documents that pertain to information provided in your answers to questions on the form or other matters requiring specific attention. These matters include: termination or discharge from employment; delinquent loans or taxes, bankruptcy, judgments, liens, or other financial obligations; and arrests, convictions, probation and/or parole.

#### Who makes a final determination?

Final determination on your suitability for a Public Trust position is the responsibility of the OPM or the Federal agency that requested your investigation. You may be provided the opportunity to personally explain, refute, or clarify any information before a final decision is made.

#### How is this form organized?

This form asks for background information, including where you have lived and worked, and also asks about your activities and such matters as a police record, your use of illegal drugs and alcohol consumption. In answering, you should keep in mind that your answers to any of the questions alone may not disqualify you from a Public Trust position.

#### What are the penalties for inaccurate or false statements?

The U.S. Criminal Code provides that knowingly falsifying or concealing a material fact is a felony which may result in fines of up to \$10,000, or 5 years imprisonment, or both. In addition, Federal agencies generally fire or disqualify individuals who have materially and deliberately falsified these forms, and this remains a part of our permanent record for future placements. Because the position for which you are being considered is one of public trust, your trustworthiness is a very important consideration in deciding your suitability for placement or retention in the position. Your prospects are better if you answer all questions truthfully and completely. In the course of an interview with a Federal official you will have adequate opportunity to explain any information you give us on the form and make your comments part of the record.

#### How is this form filled out?

1. Follow the instructions of the person who gave you the form and any other supplementary information to assist you in completion of the form. Find out how many copies of the form you are to turn in. You must sign and date, in ink, the original and each copy you submit.

2. You will need a continuation sheet(s), SF 86A, if in the last 10 years you have lived in more than 8 residences or had more than 9 employments/self-employments/unemployments.

If additional space is needed, use a blank piece of paper. Each blank piece of paper you use must contain your name and Social Security number at the top of the page.

O.M.B. No. 3206-0191 NSN 7540-01-317-7372

Form approved:

85-1601

3. Type or legibly print your answers. We cannot accept your form if it is not legible.

4. You must use the State codes (abbreviations) listed in the box below when you fill out your form.

5. The 5-digit postal ZIP codes are needed to speed the processing of your investigation. The office that provided you with the form will assist you in completing the ZIP codes.

6. Whenever "City (Country)" is shown in an address block, also provide in that block the name of the country when the address is outside the United States.

7. When providing dates, you may use numbers 1-12 to indicate months if you don't believe you have enough space to write the month; and for the same reason, for year you may show the last two numbers in the year. For example, June 8, 1967, could be shown as 6/8/67, or January 1984 could be shown as 1/84.

If you have any questions, call the office that gave you the form. Be sure to sign and date the certification statement on page 7 and complete the release on page 8. Any forms that are not completed according to these instructions will be returned. This will delay the processing of your case.

#### How is the SF 171 used with this form?

1. The Application for Federal Employment (SF 171) used in the hiring process, or a form provided to you, must be attached to the SF 85P and will be furnished by the office assisting you.

2. The SF 171 must be the June 1988 or later edition.

3. You must update your SF 171, or other form, so that the information shown on it is current to the date you sign this SF 85P. If you need to make any changes to your SF 171, or other form, attach the changes.

4. Your present employer will be asked about your character, qualifications, and work record during the investigative process, even if you indicated on your SF 171, or other form, that you do not want your present employer contacted.

5. You will be certifying on the SF 85P that the information on the SF 171, and other attached information, is current and accurate to the best of your knowledge and belief.

#### PRIVACY ACT ROUTINE USES

This record and information in this record may be used in disclosing information: - To designated officers and employees of agencies, offices, and other establishments in the executive, legislative, and judicial branches of the Federal Government, having a need to evaluate qualifications, suitability, and loyalty to the United States Government and/or a security clearance or access determination;

 To designated officers and employees of agencies, offices, and other establishments in the executive, legislative, and judicial branches of the Federal Government, and the District of Columbia Government, when such agency, office, or establishment conducts an investigation of the individual for purposes of granting a security clearance, or for the purpose of making a determination of qualifications, suitability, or loyalty to the United States Government, or access to classified information or restricted areas;

To designated officers and employees of agencies, offices, and other establishments in the executive, judicial, or legislative branches of the Federal Government, having the responsibility to grant clearances, to make a determination regarding access to classified information or restricted areas, or to evaluate qualifications, suitability, or loyalty to the United States Government, in connection with performance of a service to the Federal Government under a contract or other agreement;

- To intelligence agencies for use in intelligence activities;

- To any source from which information is requested in the course of an

investigation, to the extent necessary to identify the individual, inform the source of the nature and purpose of the investigation, and to identify the type of information requested;  To the Federal, State, or local agency responsible for investigating, prosecuting, enforcing, or implementing a statute, rule, regulation, or order where there is an indication of a violation or potential violation of civil or criminal law or regulation;

 To an agency, office, or other establishment in the executive, legislative, or judicial branches of the Federal Government, or the District of Columbia Government, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the conducting of a security or suitability investigation of an individual, the classifying of jobs, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency;

 To Federal agencies as a data source for management information through the production of summary descriptive statistics and analytical studies in support of the functions for which the records are maintained or for related studies;

 To a congressional office in response to an inquiry made at the request of that individual;

 In Inigation before a court or in an administrative proceeding being conducted by a Federal agency;

- To the National Archives and Records Administration for records management inspections;

- To the Office of Management and Budget in connection with private relief legislation;

To respond to a request for discovery or for appearance of a witness; and
 To the Ment Systems Protection Board, the Office of Special Counsel, the

Equal Employment Opportunity Commission, or the Federal Labor Relations Authority, in connection with functions vested in those agencies.

#### Public Burden Information

Public burden reporting for this collection of information is estimated to vary from 30 minutes to 120 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to Reports and Forms Management Cificer, U.S. Office of Personnel Management, 1900 E Street, N.W., Room 6410, Washington, D.C. 20415; and to the Office of Management and Budget, Paperwork Reduction Project (3206-0191), Washington, D.C. 20503. Do not send your completed form to the addresses in this box.
