29a ST-PR-10591 end

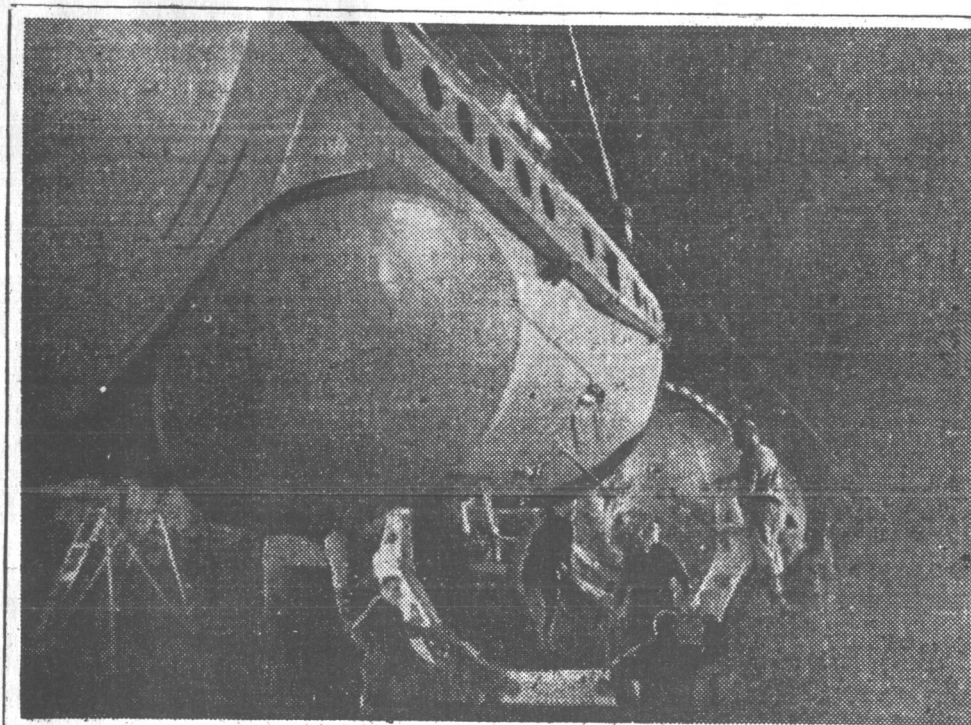

3 ROUTE TO THE COSMODROME 6

Komsomol'skaya Pravda  
Moscow, 12 April 1967

by Ya. Golovanov 9

SUMMARY

This column is published on the occasion of the Cosmonaut's Day. It contains nothing but a historical review of rocketry, repeating again that Tsiolkovskiy is the "father of rocketry", and that he was twenty years ahead of Goddard.

Космический корабль готовится к старту.

Фотохроника ТАСС.

SPACECRAFT GETTING READY TO START

Tass Photorelease

However, the above very suggestive photograph is published immediately after the column, alongside with a large photo representing a group of 11 Soviet astronauts. There is no reference to this photograph anywhere in the entire column. It is therefore presented here with no comments.

The interesting point is that, contrary to the usual, no such photograph is presented in the "PRAVDA" of the same day, where an article by Borzenko and Denisov glorifies the Cosmonaut's Day.

Contract No. NAS-5-12487  
VOLT TECHNICAL CORPORATION  
WASHINGTON D.C. 20036.
