The Notation of Content (NOC) rather than the title of the document is used to provide a more exact description of the subject matter. The NASA AIAA or LC accession number is included in each entry to assist the user in locating the abstract in the abstract section of an individual issue of *Aerospace Medicine and Biology*. If applicable a report number is also included as an aid in identifying the document.

Typical Personal Author Index Listing

The Notation of Content (NOC) rather than the title of the document is used to provide a more exact description of the subject matter. The NASA AIAA of LC accession number is included in each entry to assist the user in locating the abstract in the abstract section of an individual issue of *Aerospace Medicine and Biology*. If applicable, a report number is also included as an aid in identifying the document.

Collections of NASA Documents

NASA deposits its technical documents and bibliographic tools in eleven Federal Regional Technical Report Centers. Each center, located in one of the organizations listed below, is prepared to furnish the public such services as reference assistance, interlibrary loans, photocopy service, and assistance in obtaining copies of NASA documents for retention.

California: University of California,
Berkeley

Colorado: University of Colorado,
Boulder

District of Columbia: Library of Congress

Georgia: Georgia Institute of Technology,
Atlanta

Illinois: The John Crerar Library, Chicago

Massachusetts: Massachusetts Institute
of Technology, Cambridge

Missouri: Linda Hall Library, Kansas City

New York: Columbia University, New York

Pennsylvania: Carnegie Library of
Pittsburgh

Texas: Southern Methodist University,
Dallas

Washington: University of Washington,
Seattle

NASA publications are currently being forwarded to the public libraries in the cities listed below.

California: Los Angeles and San Diego

Colorado: Denver

Connecticut: Hartford

Massachusetts: Boston

Michigan: Detroit

Minnesota: St. Paul and Minneapolis

Missouri: Kansas City and St. Louis

New Jersey: Trenton

New York: Brooklyn, Buffalo, Rochester, and
New York

Ohio: Cleveland, Cincinnati, Dayton, Toledo,
and Akron

Oklahoma: Oklahoma City

Tennessee: Memphis

Texas: Fort Worth and Dallas

Washington: Seattle

Wisconsin: Milwaukee

In addition, NASA regularly sends its publications to the Enoch Pratt Free Library in Baltimore, Maryland, and the Wilmington Institute Free Library, Wilmington, Delaware.

An extensive collection of NASA and NASA-sponsored scientific and technical publications available to the public for reference purposes is maintained at the Technical Information Service, American Institute of Aeronautics and Astronautics, 750 Third Avenue, New York, New York 10017.

NASA SCIENTIFIC AND TECHNICAL PUBLICATIONS

TECHNICAL REPORTS Scientific and technical information considered important, complete, and a lasting contribution to existing knowledge

TECHNICAL NOTES Information less broad in scope but nevertheless of importance as a contribution to existing knowledge

TECHNICAL MEMORANDUMS Information receiving limited distribution because of preliminary data, security classification, or other reasons

CONTRACTOR REPORTS Scientific and technical information generated under a NASA contract or grant and considered an important contribution to existing knowledge

TECHNICAL TRANSLATIONS Information published in a foreign language considered to merit NASA distribution in English

SPECIAL PUBLICATIONS Information derived from or of value to NASA activities. Publications include conference proceedings, monographs, data compilations, handbooks, sourcebooks, and special bibliographies

TECHNOLOGY UTILIZATION PUBLICATIONS Information on technology used by NASA that may be of particular interest in commercial and other non-aerospace applications. Publications include Tech Briefs, Technology Utilization Reports and Notes, and Technology Surveys

Details on the availability of these publications may be obtained from
