Functional diagnostics in aerospace medicine for evaluating pilot ability and flight stresses
- p0361 A71-28488  
Toxicological evaluation of CO in humans and other mammals, considering pilot performance prediction for aircraft environment
- p0367 A71-28902  
Case histories of pilot failure during training or operational flight due to cerebral cortical dysfunction
- p0373 A71-29365  
Atmospheric turbulence induced aircraft vibrations effects on aircrew performance, discussing physiological and psychological responses
- p0377 A71-29778  
Low altitude turbulence simulation in piloted flight simulators, discussing turbulence induced aircraft disturbances and effects on pilot
- p0377 A71-29781  
Large subsonic jet aircraft civil pilots performance under physiological and psychological stresses induced during severe atmospheric turbulence
- p0377 A71-29783  
EEG and derivative spectral characteristics evaluation in determining pilot mental activity during flight
- p0403 A71-31250  
Hemodynamic changes in healthy pilots with excess weight investigated by mechanocardiograph, showing decreased cardiac output, left ventricle strength and volume rate
- p0406 A71-31319  
Air transport accident research in night approach simulators, noting visual information null in descent path and delay in relative motion supplement data
- p0407 A71-31602  
Pilots illusory attitude perception causes, suggesting psychological and medical remedies
- p0415 A71-32830  
Young pilot performance in emergency situations including communication system failure and other equipment breakdowns, noting emotional reactions
- p0415 A71-32831  
Nystagmic responses of airmen and grounded and active pilots subjected to caloric and rotational tests
- p0418 A71-33112  
Physical fitness relation to flight requirements, pilot performance and age, considering muscular strength, cardio-respiratory capacity, body weight and mental aspects
- p0418 A71-33114  
Epidemiological statistics for age specific incidence rate of serious in-flight pilot failure, considering fatal and nonfatal causes
- p0419 A71-33121  
Pilot psychic states in flight, including preliminary demobilization, drowsiness, stunning, euphoria and phobias
- p0423 A71-33576  
Psychosociological and medical evaluation of private pilots to promote flight safety
- p0456 A71-34824  
Physiological tests for psychic stress effects on aircraft pilot tracking performance, respiration and heart rate
- p0461 A71-35199  
Eye-point-of-regard system including eye and head movements devices and analog computer for pilot scanning and display research
- p0471 A71-36091  
Literature survey of nervous-emotional stress effects on pilot during flight, discussing premature fatigue, cardiovascular disorders, psychic disturbances and circadian rhythms
- p0515 A71-37763  
Aircraft noise effects on hearing acuity and perceptual and intellectual judgment tasks
- p0566 A71-40351  
Sleep related fatigue in pilot performance and flight safety, considering sleep lack and disruption and irregular duty patterns
- p0571 A71-40590  
Simulated airline pilot cerebral incapacitation etiology, incidence and detection, noting unimpaired crew members conduct and reaction times during approach for landing
- p0585 A71-41824  
In-flight study of work/rest cycle effects on double crew performance and fatigue in flying transport missions
- p0585 A71-41829  
Pilot EEG, behavioral and subjective correlates of natural and drug induced sleep at atypical hours, using calculation and vigilance tests
- p0586 A71-41835  
Military pilot handling characteristics, discussing combat operations, accident prevention and blind landing
- p0590 A71-42239  
Aircraft pilots and astronauts relationship with environment, considering weightlessness, emotional reactions, cabin pressure and temperature control and space survival and rescue
- p0624 A71-43223  
Circadian rhythm relation to aircraft pilot safe performance
- p0624 A71-43232  
Stereoaucuity role in pilot ability to land aircraft at minima, questioning adequacy of Verhoeff depth perception test administration conditions
- p0630 A71-44244  
Organophosphate pesticide poisoning implication in aircraft crash of duster pilot from cholinesterase activity drop evidence
- p0631 A71-44249  
Emotional stress of pilots in difficult flight conditions, noting pulse rate increase and biopotentials amplitude changes
- p0634 A71-44473  
Refractive error effects on pilot performance during rotary wing and fixed wing training
- p0066 N71-11814  
Characteristics of voluntary saccadic eye movements and importance for pilot performance
- p0068 N71-11825  
Circadian rhythms of pilot performance in flight simulator and effects on time shift
- p0068 N71-11827  
Data collection of aviator knowledge, skill, and satisfaction in combat readiness training [AD-713115]
- p0161 N71-14665  
Application of parallel tasks for measuring psychological stress noting pilot performance

Determining presence of porphyrins in Apollo 11 and  
12 soil samples by fluorescence spectrometry and  
analytical demetallation [NASA-CR-108671] p0047 N71-11067

## PORPOISES

Target detection by porpoises through emission of  
ultrasound echo locating signals [JPRS-52291] p0228 N71-18493  
Hydrodynamics, marine biology, bionics, dolphins,  
sharks, porpoises, traveling waves, fluid flow,  
viscous fluids, nervous system, skin structure,  
swimming [JPRS-52605] p0330 N71-22201  
Underwater acoustic measurements of dolphin and  
harbor porpoise activity under various situations  
and conditions p0332 N71-22217

## PORTABLE EQUIPMENT

Regenerable portable life support systems concepts  
for EVA use in 1980 and technology assessment  
[NASA-CR-114320] p0434 N71-27788

## PORTABLE LIFE SUPPORT SYSTEMS

Advanced regenerative portable life support system  
concept analysis for long duration and multiple  
extravehicular activity [ASME PAPER 71-AV-10] p0475 A71-36377  
Umbilical hose assembly and PLSS oxygen and water  
hose designs [NASA-CR-115157] p0649 N71-36496  
Design verification test results for umbilical hose  
and PLSS water and oxygen hoses [NASA-CR-115158] p0649 N71-36497

## POSITION (LOCATION)

Visual threshold dependence on retinal location for  
various colors under conditions of scotopic,  
mesopic and photopic adaptation p0003 A71-10233

## POSITION ERRORS

Stereoscopic effects and apparent shape or position  
of moving objects at relativistic speeds under  
binocular observation

## SUBJECT INDEX

Visual target pursuit tracking test confirming error  
amending by central mechanism without sensory  
feedback p0419 A71-33166  
p0514 A71-37545

## POSITION INDICATORS

## NT RADIO DIRECTION FINDERS

## POSITIONING

Dogs intrapleural and intraesophageal pressures  
dependence on head positions p0522 A71-38564

## POSITRONS

Computerized positron scanning of short-lived  
radioisotopes for studies of pulmonary physiology  
and blood flow in other organs  
[NYO-3937-2] p0289 N71-20615

## POSTERIOR SECTIONS

Posterolateral thalamus nucleus neurons response to  
visual, acoustic and somatic stimuli in cats with  
microelectrodes p0594 A71-42578

## POSTFLIGHT ANALYSIS

Skin tissues, automicroflora composition and natural  
immunity indices changes after 18 day orbital  
flight from microbiological and immunological  
examinations p0241 A71-22204

Postflight histological analysis of turtles aboard  
Zond 7, noting decrease in cell nuclei size due to  
space flight conditions adaptation p0571 A71-40568

Medical support procedures and postflight analysis  
of physiological changes in Soyuz 9 crew members  
p0231 N71-18900

Renal osmoregulation function of Soyuz 4 and 5 crew  
members p0235 N71-19066

## POSTURE

Coronary hemodynamic responses to postural changes  
in hemorrhaged dogs involving head-up and  
head-down tilts p0311 A71-26114

Joint action of various afferents in regulation of  
human posture, considering appropriate  
differential reactions p0352 A71-27833

Posture and lower body negative pressure effects on  
human heart rate and blood pressure p0630 A71-44241

Investigating erect posture regulation of Soyuz 9  
crew members before and after flight p0232 N71-18906

Posture effects on flight crew tolerance to positive  
acceleration p0286 N71-20357

Effects of posture on body fluid circulation and  
long term immersion effects on physiological  
mechanisms p0548 N71-33273

## POTABLE LIQUIDS

## NT BEVERAGES

## NT POTABLE WATER

## POTABLE WATER

Feeding systems, potable water and waste disposal in  
space cabins p0205 A71-20730

Automated self sterilizing breadboard unit for  
potable water reclamation from urine by  
electrolysis-electrodialysis for long term space  
missions [ASME PAPER 71-AV-11] p0475 A71-36378

Potable water reclamation from human wastes in  
zero-G environment [NASA-CASE-XLA-03213] p0061 N71-11207

Radioisotope fueled distillation system for  
reclaiming potable water from urine on prolonged  
space flight [AD-718965] p0387 N71-24412

Evaluation of storable propellants as sources of H<sub>2</sub>,  
O<sub>2</sub>, potable H<sub>2</sub>O, and heat for use in emergency  
life support system [NASA-TN-X-2321] p0497 N71-29903

Spectrophotometric measurement of iodine  
concentrations in spacecraft potable water  
supplies [NASA-CR-115134] p0616 N71-35264

Development of bellows-type tanks for long term  
storage of potable water for space shuttle  
p0617 N71-35273

- Measuring external symptoms of nitrogen narcosis in  
human subjects breathing air at increased  
pressures p0054 N71-11112
- Investigating dynamics of narcosis in man from  
breathing nitrogen and rare gas mixtures under  
constant pressures for one hour p0054 N71-11114
- Complex effect of nitrogen, argon, and helium  
respiratory mixtures on humans at increased  
pressures p0054 N71-11115
- Effects of atmospheric gas and moisture  
concentration, temperature, pressure, and wind  
velocity on human performance and skin water loss  
rate [NASA-CR-115024] p0401 N71-26385
- PRESSURE FIELDS**  
U PRESSURE DISTRIBUTION  
**PRESSURE GAGES**  
NT BAROMETERS  
NT MANOMETERS
- Blood pressure measuring system for separately  
recording dc and ac pressure signals of Korotkoff  
sounds

## SUBJECT INDEX

## PRESSURE SUITS

- [NASA-CASE-XMS-06061] p0344 N71-23317
- PRESSURE GAUGES**  
 U PRESSURE GAGES  
**PRESSURE GRADIENTS**  
 Orientation reflex in healthy and nervous human subjects from peripheral vessels blood pressure fluctuations in response to acoustic signals p0010 A71-11055  
 Alveolar-arterial oxygen pressure gradient derivation as sum of shunt, ventilation/perfusion inequalities and membrane and airway diffusions p0407 A71-31444  
 Dogs intrapleural and intraesophageal pressures dependence on head positions p0522 A71-38564  
 Deconditioning and its prevention by simulating hydrostatic gradient by use of cardiovascular conditioning suit p0548 N71-33274
- PRESSURE MEASUREMENTS**  
 Pt electrode response time during unsteady oxygen partial pressures measurement p0148 A71-18323  
 Automatic system for indirect blood pressure measurement in carotid compression test, discussing applications p0208 A71-20827  
 Blood pressure measurement by catheter gages, analyzing error due to wave reflection at catheter tip p0248 A71-22972  
 Transthoracic measurements of left and right ventricular systolic pressures in anesthetized mice, using fiber optics and strain gage manometer techniques p0254 A71-23371  
 Carbon dioxide tension in pulmonary arterial blood before/during prolonged rebreathing in oxygen mixtures at rest and exercise p0257 A71-23895  
 Mediastinum effect on human esophageal pressure and lung compliance measurements p0270 A71-24678  
 Blood pressure measurement with Doppler ultrasonic flowmeter, providing sensitive and accurate noninvasive approach for continuous measurement of systemic arterial pressure p0320 A71-27139  
 Arterial tonometry for atraumatic measurement of arterial blood pressure, considering transient effects of drugs or physiological interventions p0320 A71-27140  
 Mechanical sterilization and cleansing of Goldmann applanation tonometer prisms contaminated with coliphage, comparing with germicidal immersion p0369 A71-29036  
 Autoclave chronic catheter system and restraining box for blood sampling and pressure measurement for hibernating marmots p0522 A71-38568  
 Development of indirect blood pressure measuring device and method for rapid determination of human blood pressure [FAA-AM-70-21] p0327 N71-21853  
 Intraocular pressure distribution measurements on healthy subjects engaged in mental work p0552 N71-33469
- PRESSURE MICROPHONES**  
 U MICROPHONES  
**PRESSURE PROBES**  
 U PRESSURE SENSORS  
**PRESSURE PULSES**  
 Baroreflex regulation of pulse interval during bicycling exercise, using systolic pressure-pulse relation to express reflex sensitivity p0367 A71-28951
- PRESSURE REDUCTION**  
 NT EXPLOSIVE DECOMPRESSION  
 Carboxyhemoglobin changes in circulating blood volume during lower body negative pressure exposure p0149 A71-18363  
 Chronic hypoxia effects on capillary development during high altitude exposure in decompression chamber and maintenance at sea level p0201 A71-20679  
 Artificial respiration in elevated gas pressure chamber to revive organism after clinical death by rapid decompression p0324 A71-27745
- Functional systems changes in intact and anesthetized rats during increasing hypoxia in decompression chamber p0425 A71-33911  
 Experimental dives for ADS-4 decompression schedules [AD-711842] p0051 N71-11093  
 Circulating blood volume changes after lower body negative pressure exposure p0235 N71-19059  
 Gas bubble growth and compression in body physical systems and tissues p0236 N71-19070  
 Revised tables for conversion of water depth and partial pressure combinations into appropriate oxygen percentages for diver decompression [AD-724282] p0543 N71-33125
- PRESSURE REGULATORS**  
 Space suit with pressure-volume compensator system [NASA-CASE-XLA-05332] p0059 N71-11194  
 Portable environmental control and life support system for astronaut in and out of spacecraft [NASA-CASE-XMS-09632-1] p0060 N71-11203
- PRESSURE SENSORS**  
 Intracranial pressure measurement by miniature transducer with modifications for baseline reading and calibration checking throughout implantation period, giving circuit diagram p0004 A71-10241  
 Feasibility of miniaturized heater for zinc oxide thin film oxygen partial pressure sensor [NASA-TN-D-6134] p0222 N71-17440  
 Pressure sensors, blood flow transducers, pH electrodes, and photographic recording of biological data for use in aerospace medicine [NASA-CR-119024] p0440 N71-28284
- PRESSURE SUITS**  
 NT SPACE SUITS  
 Pressure suit assemblies /PSA/ reference for aerospace and environmental control engineers [SAE-AIR-1103] p0190 A71-19641  
 Emergency backup /secondary pressurization/ devices for aerospace crew and passenger safety and comfort, considering high altitude pressure suits p0203 A71-20716  
 Reevaluation of emergency pressurization requirements for brief flights over 50,000 feet, considering pressure suit requirement p0207 A71-20822  
 Anthropometry for aircraft cockpit and pressure suit design compatible with mission requirements p0311 A71-26115  
 Investigating approaches and concepts for improving mobility of aerospace pressure suits [AD-711676] p0047 N71-10947  
 Developing high altitude protection suit of partial pressure type [AD-702537] p0058 N71-11188  
 Helmet and torso tiedown mechanism for shortening pressure suits upon inflation [NASA-CASE-XMS-00784] p0114 N71-12335  
 Design and development of flexible joint for pressure suits [NASA-CASE-XMS-09636] p0115 N71-12344  
 Cord restraint system for pressure suit joints [NASA-CASE-XMS-09635] p0389 N71-24623  
 Development of improved convolute section for pressurized suits to provide high degree of mobility in response to minimum of applied torque [NASA-CASE-XMS-09637-1] p0390 N71-24730  
 Design and development of pressurized suit with improved air retention and restraint overall with passive ventilation, maximum mobility, and long term unpressurized comfort [AD-720827] p0396 N71-25863  
 Design and development of protective spectacle for Apollo pressure suits [NASA-CR-115039] p0433 N71-27742  
 Partial pressure helmet and pressure suit mobility joints for high altitude environment [AD-720275] p0436 N71-28168  
 Deconditioning and its prevention by simulating hydrostatic gradient by use of cardiovascular conditioning suit p0548 N71-33274  
 Thermal conditions under varying degrees of physical work inside pressure suits [CEA-N-1407] p0611 N71-34078

## PRESSURE TRANSDUCERS

Highly articulate pressure glove providing digital dexterity, tactility, and stability  
[NASA-CR-114365] p0616 A71-35265

**PRESSURE TRANSDUCERS**  
U PRESSURE SENSORS  
PRESSURE WAVES  
U ELASTIC WAVES  
**PRESSURIZED CABINS**  
Aeromedical requirements, control limitations and hazards of aircraft pressure cabins and rapid decompression  
p0203 A71-20715

Emergency backup /secondary pressurization/ devices for aerospace crew and passenger safety and comfort, considering high altitude pressure suits  
p0203 A71-20716

Polymer odor threshold determination for hygienic considerations in sealed/pressurized chamber construction, comparing static and dynamic methods  
p0636 A71-44539

**PRETREATMENT**  
Acute mountain sickness due to oxygen deficiency, discussing control by acetazolamide, placebo or furosemide pretreatment  
p0144 A71-17613

**PREVENTION**  
NT ACCIDENT PREVENTION  
NT CORROSION PREVENTION  
NT FIRE PREVENTION  
**PRIMATES**  
NT CHIMPANZEES  
NT HUMAN BEINGS  
NT MONKEYS  
Primate restraint harness of nylon jacket and cotton cot on aluminum frame padded seat for bone resorption and calcium metabolism studies  
p0244 A71-22476

Impulse-skin temperature encoding in primate cutaneous thermoreceptors in dynamic thermal conditions  
p0487 A71-36877

Effects of carbon monoxide containing cabin atmospheres on performances of humans and primates [AMRL-TR-69-19] p0065 A71-11804

Monitoring cardiovascular function in primates under prolonged weightlessness  
[NASA-CR-73498] p0160 A71-14633

Differential effects of multiple and single irradiations upon primate equilibrium function [AD-722058] p0447 A71-28657

Effects of hyperbaric environments on primates neuromuscular control  
[AD-723829] p0509 A71-31587

**PRINTED CIRCUITS**  
Phonocardiographic preprocessor using breadboard circuit consisting of full wave rectifier with simple resistance capacity filtering  
[NASA-TM-X-65420] p0165 A71-15848

Self instructing techniques for training in soldering printed circuit boards  
[AD-720308] p0436 A71-28186

Determining force required for inserting printed circuit board into equipment by human performance tests  
[AD-723049] p0496 A71-29794

**PRINTERS**  
NT PRINTERS (DATA PROCESSING)  
**PRINTERS (DATA PROCESSING)**  
TV display eye movement monitor with automatic coordinate digital printout for permanent record  
p0199 A71-20402

**PRISMS**  
Mechanical sterilization and cleansing of Goldmann applanation tonometer prisms contaminated with coliphage, comparing with germicidal immersion  
p0369 A71-29036

**PRIVATE AIRCRAFT**  
U GENERAL AVIATION AIRCRAFT  
**PRIVATE AVIATION**  
U CIVIL AVIATION  
U GENERAL AVIATION AIRCRAFT  
**PROBABILITY**  
U PROBABILITY THEORY  
**PROBABILITY DENSITY FUNCTIONS**  
NT WEIBULL DENSITY FUNCTIONS  
**PROBABILITY DISTRIBUTION FUNCTIONS**  
Electric circuit component failure prediction and probability distribution in troubleshooting search  
p0621 A71-42900

## SUBJECT INDEX

Statistical characteristics of spontaneous electrical activity of nerve units that exhibit stochastic dead time following impulses  
[NASA-TM-X-62007] p0164 A71-14917

**PROBABILITY THEORY**  
Extraterrestrial civilizations, discussing probability theory and radio communication  
p0145 A71-17739

Three element model for choice behavior binary prediction consisting of logical, experiential and error components  
p0189 A71-19595

Probability theory for viable microorganism exposure in fractured contaminated solid, using quantal response model  
p0189 A71-19600

Perceived and responded to discriminative stimuli identification in probability learning, using parameter free model of event pattern association strength  
p0191 A71-19775

Complex human memory processes large scale simulation /cybernetic modeling/ based on information handling probability and retrieval  
p0193 A71-20105

Theory of form based on geometric probabilities, leading to two dimensional retinal type computer programmed to exhibit elementary form perception aspects  
p0260 A71-23997

Signals temporal uncertainty and sensory modality influence on watchkeeping performance, discussing signal density effect on pulses duration increments detection  
p0262 A71-24183

Human inferences based on partially reliable reports, studying likelihood ratio estimates and probabilistic relations in nature  
p0417 A71-33103

Probability approach to visual effectiveness of signal flashing lights, showing graphically Broca-Sulzer effect  
p0579 A71-41485

Decision making experiment to determine combinatorial properties of personal probabilities [AD-712119] p0060 A71-11201

Pilot training performance data correlation in performance and probability estimation of training completion for advanced training personnel selection  
[AD-718848] p0536 A71-31621

Planetary quarantine, decontamination, microbial release probabilities, and contamination logs for Venus and Mars  
[NASA-CR-121423] p0544 A71-33221

**PROBLEM SOLVING**  
NT ITERATIVE SOLUTION  
Human operators performance under control problem programs, determining training and fatigue effects  
p0245 A71-22483

Defining effects of temporal and quantitative dietary variables on human performance of vigilance tasks  
[AD-711564] p0055 A71-11118

Measuring human performance of auditory vigilance task time shared with memory task  
[AD-711565] p0055 A71-11119

Man-computer interaction and context programming for problem solving and management planning  
[AD-714232] p0170 A71-16351

Awareness of thought processes in recreating past experiences  
[JPRS-52397] p0237 A71-19124

Development, characteristics, and performance of learning machines, artificial intelligence, and pattern recognition techniques  
[AD-718381] p0344 A71-23247

Heuristic problems in design and operation of large scale man machine systems  
p0503 A71-30871

Problem solving task for mental ability assessment in selection of aviation personnel  
[FAA-AM-71-28] p0540 A71-32434

Eye movement, mental performance, and problem solving  
p0614 A71-35250

Human thinking studies using problem solving in chess  
p0614 A71-35251

- Skin resistance during solution of mental problems  
p0614 N71-35252
- Factors creating objective complexity of human  
problem solving reduced to information processes  
p0614 N71-35253
- Mathematical foundations and identification of  
problems easily solved by syncoder computer  
[AD-727067] p0656 N71-37672
- PROCEDURES**
- NT FINITE ELEMENT METHOD
- NT OPTICAL CORRECTION PROCEDURE
- Procedures and immunofluorescent techniques for  
screening Apollo aquatic test animals for  
bacterial pathogens after lunar sample exposure  
[NASA-CR-115064] p0493 N71-29228
- PRODUCT DESIGN**
- U PRODUCT DEVELOPMENT
- PRODUCT DEVELOPMENT**
- Phonocardiograph design and calibration for accurate  
measuring and recording of cardiac vibration  
displacements, velocities and accelerations  
p0511 N71-37231
- Design, development, and fabrication of personnel  
armor load profile analyzer  
[AD-711876] p0056 N71-11180
- Phonocardiographic preprocessor using breadboard  
circuit consisting of full wave rectifier with  
simple resistance capacity filtering  
[NASA-TM-X-65420] p0165 N71-15848
- Development of prototype waste collection system  
/modified Hydro John/ designed for use in either  
zero or one gravity environment  
[NASA-CR-115040] p0434 N71-27770
- Development of MFRFL telemetry system to low-duty  
cycle tone burst system  
[AD-726406] p0618 N71-35277
- PRODUCTION ENGINEERING**
- Human position in socialist productive system,  
examining pedagogical aspects of leadership  
p0361 A71-28491
- Mechanical engineering research in aerospace  
technology, machine design and industrial  
processing, and weapons  
p0161 N71-14667
- Silicon radiation detector production engineering  
for biological and medical applications and  
explanation of continuous absorption spectra using  
RC delay line as equivalent circuit  
[BMBW-FBK-70-15] p0430 N71-26914
- Design and fabrication of viton gloves for use in  
sterile nitrogen atmospheric processing cabinet of  
Lunar Receiving Laboratory  
[NASA-CR-115112] p0535 N71-31608
- PRODUCTION METHODS**
- U PRODUCTION ENGINEERING
- PRODUCTIVITY**
- Astronaut teleoperators use for space operations  
cost reduction and future experiments productivity  
increase  
p0588 A71-42033
- PROFICIENCY MEASUREMENT**
- U HUMAN PERFORMANCE
- U PERFORMANCE TESTS
- PROGRAMMED INSTRUCTION**
- Computerized techniques incorporating adaptive pilot  
training concepts and means of predicting student  
training success  
[AD-716473] p0279 N71-19798
- Self instructing techniques for training in  
soldering printed circuit boards  
[AD-720308] p0436 N71-28186
- Computer assisted electronics instruction  
effectiveness in comparison with classroom  
training  
[AD-720309] p0436 N71-28190
- PROGRAMS**
- NT APOLLO PROJECT
- NT GEMINI PROJECT
- NT MARS 69 PROJECT
- NT MARS 71 PROJECT
- NT MERCURY PROJECT
- NT NASA PROGRAMS
- NT SKYLAB PROGRAM
- NT TEKTITE PROJECT
- NT UNIVERSITY PROGRAM
- PROJECTS**
- NT APOLLO PROJECT
- NT GEMINI PROJECT
- NT MARS 69 PROJECT
- NT MARS 71 PROJECT
- NT MERCURY PROJECT
- NT THEMIS PROJECT
- PROLATE SPHEROIDS**
- Microwave biological exposure systems implementation  
in limited space, describing focused prolate  
spheroid, absorber-lined horn and compact range  
illumination system  
p0307 A71-25288
- PROLONGATION**
- Developing realistic mission models for food system  
to sustain spacecrew for extended periods of time  
[NASA-CR-114886] p0279 N71-19785
- PROPAGATION VELOCITY**
- Age, obliterating arteriopathy and peripheral  
arterial sclerosis effects on rheographic wave  
propagation speed to lower limbs  
p0272 A71-24976
- PROPELLANTS**
- NT STORABLE PROPELLANTS
- Toxicological evaluation of carbon monoxide,  
atmospheric contaminants, and propellants in  
environmental pollution  
[AD-727022] p0615 N71-35258
- PROPELLER SYNCHRONIZERS**
- U PROPELLERS
- PROPELLERS**
- Biological oscillating propulsion systems,  
investigating plate propeller, boundary layer  
control, low drag fuselage shapes and VTOL engine  
installations  
p0265 A71-24235
- PROPHYLAXIS**
- Natural or endogenous fibrinolysis and its  
pharmacological enhancement as possible approach  
to prophylaxis of vascular occlusions  
p0036 A71-12417
- Prophylactic radiation protection through lipid  
toxicants reduction in white rats tissues by high  
efficiency chemical radioprotectors  
p0140 A71-17391
- Radiation sickness prophylaxis chemical compounds,  
discussing protection mechanisms, radical  
inactivation and afflicted cell recovery  
p0596 A71-42710
- Prophylactic medication for radiation damage  
treatment, covering toxicity, pharmacological  
properties, metabolism, dosage and physiological  
action  
p0596 A71-42711
- Prophylactic vitaminization with  
pyridoxine-containing compounds for preventing  
vestibular disturbances due to sea and air travel  
[JPRS-54048] p0647 N71-36480
- PROPORTIONAL CONTROL**
- Automatic temperature monitor and proportional solid  
state DC controller for electrophysiological use  
p0004 A71-10247
- PROPRIOCEPTION**
- NT AUTOKINESIS
- Ocular pursuit movement evocation by visual and  
proprioceptive stimulation  
p0003 A71-10235
- Proprioception role in perception of arm bending and  
extension during weightlessness and accelerations  
in aircraft flight along parabolic trajectory  
p0014 A71-11143
- Human performance in optical high inertia tracking  
system interface, considering proprioceptive  
feedback, display magnification, control dynamics  
view field and anticipatory processes effects  
p0490 A71-36912
- Eye movement neurophysiology, discussing ocular  
proprioception, oculomotor muscle sensory  
receptor role, extraocular muscle afferent and  
efferent innervation and central nervous system  
control effect  
p0591 A71-42433
- Vestibular and proprioceptive stabilization of eye  
movements  
p0593 A71-42448
- PROPRIOCEPTORS**
- Labyrinths and proprioceptors from aerospace  
medicine viewpoint, discussing motion sickness,  
spatial disorientation, manned space flight and  
rotation in space  
p0202 A71-20711
- Proprioceptive thermoregulatory mechanism of sweat  
secretion during positive and negative work in man

PROPULSION

SUBJECT INDEX

- p0254 A71-23369  
 Reflex mechanisms and programmed command in insect flight stabilization, discussing gravity proprioceptors, wind sensing and optomotor control p0559 A71-39987  
 Proprioceptive gravity perception in Hymenoptera, noting joint located hair plates and constant angle space orientation in dark p0559 A71-39989
- PROPULSION  
 NT UNDERWATER PROPULSION  
 PROPULSION CALCULATIONS  
 U MATHEMATICAL MODELS  
 PROPULSION SYSTEM CONFIGURATIONS  
 Biological oscillating propulsion systems, investigating plate propeller, boundary layer control, low drag fuselage shapes and VTOL engine installations p0265 A71-24235
- PROSTHETIC DEVICES  
 NT ARTIFICIAL EARS  
 Hybrid computer simulation for cardio-circulatory assist device, discussing atrium to aorta and ventricular to aorta optimal output, time tension index and flow control p0189 A71-19584  
 Biped locomotion machines dynamic analysis and synthesis by minimum energy criteria for prosthetic-orthotic equipment design and human locomotion analysis p0248 A71-22971  
 Mechanical impedance measurement of artificial and human mastoids for bone vibrator calibration as function of frequency p0313 A71-26189  
 Lower extremity Army aviator amputee retention on flight status regarding service need, amputation and prosthetic fit, age, career, hours flown and time in military p0419 A71-33120  
 Investigating wear processes in hip prostheses after brief use [NASA-TN-D-6153] p0222 N71-17410
- PROTECTION  
 NT ACCELERATION PROTECTION  
 NT CORROSION PREVENTION  
 NT EYE PROTECTION  
 NT RADIATION PROTECTION  
 NT RADIATION SHIELDING  
 NT SOLAR RADIATION SHIELDING  
 NT THERMAL PROTECTION  
 PROTECTIVE CLOTHING  
 NT HELMETS  
 NT PRESSURE SUITS  
 NT SPACE SUITS  
 Antiheat protective clothing effectiveness for aircraft crews, discussing outer coating reflectivity and emissivity, insulating layer and internal surface p0136 A71-16934  
 Flight personnel green protection system from nuclear weapons high intensity thermal effects p0143 A71-17609  
 Water cooled head cap for heat stress amelioration in subjects working in warm environments p0143 A71-17611  
 Water cooled garments, discussing human thermoregulation, developments and current suits p0146 A71-17957  
 Astronaut protection from solar flare high energy protons, discussing spacesuit, spacecraft orientation and solid, electrostatic, magnetic and plasma shielding p0370 A71-29252  
 Fire fighter protective clothing, considering efficiency as function of garment weight and heat stress loading p0455 A71-34785  
 Cold climate clothed human windchill tables, considering various heat transfer modes and skin temperature p0528 A71-39205  
 Heat acclimatization by evaporative cooling prevention in men wearing vapor barrier suits, considering body temperature and heart and sweat rates p0567 A71-40355  
 Investigating approaches and concepts for improving mobility of aerospace pressure suits
- [AD-711676] p0047 N71-10947  
 Design, development, and fabrication of personnel armor load profile analyzer [AD-711876] p0056 N71-1118C  
 Configuration and systems description of life support equipment for intravehicular and extravehicular activity - Vol. 1 [NASA-TM-X-66478] p0060 N71-1120E  
 Sweating cylinder for testing heat and water vapor transfer characteristics of protective clothing systems [AD-712994] p0115 N71-12340  
 Design and development of air conditioned protective clothing [AD-713581] p0163 N71-14741  
 Comparative tests of finedust masks [LA-4459-TR] p0166 N71-15985  
 Sealing of respiratory protection masks [LA-TR-70-17] p0166 N71-15993  
 One piece human garment for use as contamination proof garment [NASA-CASE-HSC-12206-1] p0223 N71-17599  
 Investigating biothermal model of living tissue for application to thermal control of protective clothing [NASA-CR-116873] p0233 N71-18926  
 Criteria for evaluation of spacecrew garment systems, garment support systems, and space vehicle accessory items [NASA-CR-114953] p0328 N71-21926  
 Thermoregulating with cooling flow pipe network for humans [NASA-CASE-XMS-10269] p0349 N71-24147  
 Evaluation of protective clothing for flight crew members [AD-719106] p0388 N71-24460  
 Development of improved convolute section for pressurized suits to provide high degree of mobility in response to minimum of applied torque [NASA-CASE-XMS-09637-1] p0390 N71-24730  
 Performance of smoke hood for protection of human respiratory system in aircraft accidents and passenger evacuation [FAA-AM-70-20] p0496 N71-29640  
 Protective clothing against tritium and tritiated water [CEA-N-1413] p0499 N71-30448  
 Physiological response of subjects exposed to cold water environment wearing different protective suit assemblies [AD-724617] p0543 N71-32907  
 Performance of protective clothing in large J4-4 fuel fires [AD-724648] p0543 N71-32925  
 Automatic temperature control for liquid cooling garments used during astronaut extravehicular activity with external auditory meatus, and skin temperature as input signals [NASA-CR-115122] p0611 N71-34077  
 Damage control suit system to protect personnel in hazardous chemical, high temperature-humidity, and oxygen deficient environments [AD-726698] p0650 N71-36502
- PROTECTORS  
 NT EAR PROTECTORS  
 PROTEIN METABOLISM  
 NT LIPID METABOLISM  
 Blood cholesterol and protein fraction concentrations in pathogenesis of hypothalamic atherosclerosis patients p0036 A71-12531  
 Long term hypoxia effects on granuloma and various organs in rats, noting collagen and noncollagenous proteins formation stimulation and/or inhibition p0128 A71-16293  
 Decaborane effects on amino acid metabolic patterns of various rat tissues, considering holoenzyme inactivation p0128 A71-16294  
 Liver and skeletal musculature morphology during hypokinesia and protein deficiency in mice p0151 A71-18377  
 Bicycle ergometer workout effects on serum proteins, noting intravascular redistribution, tissue damage and membrane permeability p0196 A71-20328  
 Division cycle of Myxococcus xanthus, considering kinetics of cell growth and protein synthesis p0255 A71-23473

- Photoreduction regulation in *Rhodospirillum rubrum* by ammonium chloride, discussing nitrogen fixation and protein metabolism p0416 A71-33058
- Polysomal RNA disaggregation and attendant reduction in hepatic protein synthesis in rats as result of decreased feed ingestion during hypoxia p0419 A71-33190
- Urinary metabolites relationship to fatigue, considering excretion of proteins, electrolytes, simple organic compounds and hormones p0451 A71-34357
- Chlorella* extracellular metabolites, identifying indole nature biologically active substances p0519 A71-38544
- Protein content in cytoplasm of neurons and glial satellite cells in supraoptical and red nuclei of white rat brains during natural and paradoxical phase deprived sleep p0519 A71-38545

- Moderate acoustic stimuli effects, discussing subjective noise ratings relation with physiological and mental state changes p0037 A71-12838
- Physiological and psychological human responses to sonic booms in France, UK and U.S. considered as acceptability criteria p0083 A71-13167
- Mechanical, physiological and psychological responses of man to sinusoidal whole body vibration p0209 A71-21230
- Psychoreactive action caused by flying accident in group, discussing repercussions in civil and military aviation fields p0272 A71-24982
- Noise disturbance near large airports, considering aircraft noise, public annoyance and socio-psychological conditions p0321 A71-27478
- Psychobiological effects of prolonged bed rest in young healthy volunteers from EEG recording, psychological testing and psychomotor performance p0373 A71-29363
- Large subsonic jet aircraft civil pilots performance under physiological and psychological stresses induced during severe atmospheric turbulence p0377 A71-29783
- Young pilot performance in emergency situations including communication system failure and other equipment breakdowns, noting emotional reactions p0415 A71-32831
- Pilot psychic states in flight, including preliminary demobilization, drowsiness, stunning, euphoria and phobias p0423 A71-33576
- Visual evoked potentials and cortical recovery cycle data for normal and psychiatric subjects of various ages p0458 A71-35113
- Zoellner illusion as function of inducing and test lines intersect angle and lines density, deriving error functions p0491 A71-37019
- Noise exposure effects on human physiological and psychological functions and performance p0525 A71-38959
- Long term exposure to electric shock and associated stimuli on squirrel monkeys, considering aggressive and manual responses p0527 A71-39070
- Apparent motion effects associated with stationary flashing lights configurations, noting frequency response characteristics analogous to real motion effects in human visual system model p0580 A71-41487
- Presentation modality as encoding variable in short term memory, obtaining mean recall score as function of trials p0622 A71-43113
- Observer psychological response to air defense oriented visual information displays p0627 A71-43904
- Affect adjective checklist assessment of mood changes as function of stress in air traffic controllers p0630 A71-44240
- Biorhythms and related physiological and psychic disturbances, stressing importance in aerospace medicine p0630 A71-44245
- Averaged potentials in vertex and occipital region of human cranium evoked by emotional visual stimuli p0640 A71-45057
- Muscular relaxation for psychological preparation of man for space flights p0123 N71-14466
- Physiological and psychological limits and ranges of human response to acoustic stimuli p0285 N71-20352
- PSYCHOLOGICAL FACTORS**
- Behaviorally induced hypertension in squirrel monkey following conditioned key-pressing response schedules p0016 A71-11330
- Statistical analysis of airline flight crew psychological unfitness p0024 A71-11598
- Flying motivation loss, considering psychogenesis and physiological causes p0136 A71-16933
- Pilot nervous-emotional state during flight conditions determined from uropepsin excreted in urine p0138 A71-17028
- Complex psychomotor task time duration relation to subtask performance and psychological measures p0187 A71-19459
- Psychopathology identification by manifest phenotypic behavior, discussing syndrome identification, misperceptions and distorted impressions p0191 A71-19697
- Psychological aspects influencing aircrewman capacity to perform useful work, detailing selection, training, operational environment and global factors p0204 A71-20724
- Visual recognition process for simple achromatic image confined within simultaneous-perception viewing angles, deriving hypothetical model based on psychological factors p0261 A71-24162
- Shower habitability requirements for adequate cleansing of body and hair to satisfy physiological, psychological and social needs of crew members on long space missions [AIAA PAPER 71-873] p0480 A71-36629
- Psychological training for personality development of aircraft stewardesses for conscious passenger relation establishment p0515 A71-38224

## SUBJECT INDEX

## PSYCHOLOGICAL TESTS

- Soviet book on psychology and outer space covering astronauts experiences and emotions during training and flights, daily routine, equipment, food, habits and personal characteristics p0574 A71-40876
- Sick and injured transportation aboard regular airliners, considering pathological and psychological contraindications p0582 A71-41572
- Psychopathological causes for French Air Force flying personnel inaptitude, considering motivational problems and age factor p0582 A71-41575
- Human adaptive behavior under psychological stress of astronauts tasks posture-motor characteristics, discussing stabilographic platform test results p0588 A71-42041
- Short term central fatigue as causal factor of delayed psychological refractory period in multiple choice visual signal tasks p0626 A71-43864
- Discussing development of engineering psychology as independent science [JPRS-52006] p0164 A71-14992
- Circadian rhythms of psychological functions under different conditions p0217 A71-16906
- Discussing basic principles and methods for evaluating health, functional capacity, and psychological peculiarities in cosmonaut selection p0230 A71-18895
- Characteristics of low-entropy system of superlight particles capable of producing some prelogical informational functions of brain and consciousness [JPRS-52722] p0302 A71-21610
- Cybernetic modelling of neuropsychological information processes in human nervous system p0340 A71-23055
- Comparison of psychological and physiological aspects of circadian rhythm in male subjects [AD-717982] p0344 A71-23281
- Evaluation of effects of constraint redundancy shifts, length of rest interval, and duration of inter-task interval upon acquisition and transfer of schematic concepts p0495 A71-29560
- Psychological factors in visual observation of solar flares and application of visual perceptions in predicting flares [AD-722471] p0497 A71-29882
- Human factors engineering in man machine system design p0502 A71-30870
- Human behavior patterns p0614 A71-35246
- Psychological investigations and theory of thinking with four types of intellectual associations p0614 A71-35247
- Factors creating objective complexity of human problem solving reduced to information processes p0614 A71-35253
- Psychotechnical analysis of creativeness in research personnel based on personal interviews for personnel management applications [NLL-TRANS-746-801-(9022.401)] p0654 A71-37656
- PSYCHOLOGICAL INDEXES**  
**U PSYCHOLOGICAL TESTS**  
**PSYCHOLOGICAL TESTS**
- Visual slant averaging mechanism evidence from binocular disparator tests, considering gradient slant perception theory and neurophysiological averaging mechanism p0101 A71-15170
- Psychometric measurements approaches for pilot training questionnaires, considering personality traits standard model p0258 A71-23929
- Pretask instructions effect on vigilance task performance, measuring time related signal detection correct and incorrect response percentages p0271 A71-24808
- Psychological selection of pupil pilots, discussing statistical correlations between values of some single parameters of Zulliger test and instructional data p0272 A71-24981
- Rhesus monkeys concurrent avoidance and appetitive behavior patterns with counter discontinuities in shock proximity indicator tests p0274 A71-25136
- Multiple suprathreshold visual and auditory monitoring tasks, evaluating vigilance decrement, individual differences, intertask relationships and channel capacity p0320 A71-27248
- Sensomotor activity tests of operator perceiving high speed stimuli in broad visual field for psychological selection of aircraft and spacecraft pilots p0359 A71-28416
- Psychological tests for aerial photograph interpreter selection and performance prediction p0415 A71-32829
- Psychosociological and medical evaluation of private pilots to promote flight safety p0456 A71-34824
- Recognition response time experiments for word number effects in target set, discussing familiarity judgment and response decision p0462 A71-35250
- Stimulus familiarization effects on visual selection patterns during exposure to banal and incongruous paired stimuli p0462 A71-35251
- Human visual depth impression by gradient patterns, discussing experimental verification for hypothesis concerning perceptual economy principle p0462 A71-35252
- Risk additivity in portfolios from experiments on accommodation role in binocular rivalry control p0462 A71-35254
- Human visual system differential luminance sensitivity tests using simultaneous stimuli in yes-no procedure p0462 A71-35256
- Autokinetic motion of luminous target, relating apparent visual movement to experienced displacement p0467 A71-35739
- Human performance in rotating environment, discussing Stromberg Dexterity, pursuit rotor, mental arithmetic, verbal learning and WAMI Ataxia tests [AIAA PAPER 71-888] p0481 A71-36637
- Artificial gravity selection by rats in centrifugal acceleration fields superimposed on weightlessness during sounding rocket flights [AIAA PAPER 71-854] p0483 A71-36646
- Fear measurement and mastery, investigating relationship between experience and electrodermal arousal in responses to stimulus words of varying relevance p0490 A71-36944
- Time duration judgment under visual stimulus, noting numerosity effects p0491 A71-37018
- Mental work capacity investigation methodology, including Kekcheev, Kosilov, Zinchenko, Pratusovich and Kraepelin tests p0513 A71-37446
- Test equipment for evaluating human higher nervous activity, noting use for radiotelegraphist selection p0515 A71-37775
- Computer generated buffered displays for psychological experiments involving interception, tracking, steering, memory and calculation tasks p0563 A71-40136
- Flashing lights attention attraction classification based on experimental results conversion into psychometric scale p0580 A71-41486
- Pilot EEG, behavioral and subjective correlates of natural and drug induced sleep at atypical hours, using calculation and vigilance tests p0586 A71-41835
- Psychophysiological and conversion mechanisms as unconscious expression of student pilot motivation decrease for further flight training, presenting case histories p0587 A71-41837
- Visual stimulus control removal and restoration in rhesus monkeys, analyzing test errors p0605 A71-42860
- Psychological screening of pilot trainees, showing neurosis noncorrelation with learning ability to fly p0624 A71-43221

- Psychological screening of pilot trainees, investigating Minnesota Multiphasic Personality Inventory test data correlation with learning ability to fly p0624 A71-43222
- Human visual system color and edge-sensitive channels confirmation by psychological tests of tuning for orientation p0625 A71-43548
- Stereoacuity role in pilot ability to land aircraft at minima, questioning adequacy of Verhoeff depth perception test administration conditions p0630 A71-44244
- Psychophysiological loudness and annoyance indices application in sonic boom comfort level evaluation, pulsating noise estimation and sound insulation system effectiveness determination p0632 A71-44399
- Psychological criteria in crew selection for long duration space station simulation test p0295 N71-20978
- Long duration confinement effects in spacecraft cabin simulator on psychological test results for spacecrew p0296 N71-20987
- Psychological test of human reaction to simulated stress [FAA-AM-71-14] p0496 N71-29639

Molecular mechanisms of bacterial cell radiosensitization and protection, discussing radiation produced free radicals interactions p0175 A71-18927  
Radiosensitizer and radioprotector action mode in altering X ray effects on DNA in biological systems of different complexity p0175 A71-18928  
Chemical protection against ionizing radiation by thiols and disulfides, discussing hydrogen transfer p0176 A71-18930  
Radioprotective action of amines and hypoxic agents by blocking oxygen transport to tissues p0176 A71-18931  
Radioprotective effect of cysteine on lysozyme in dilute aqueous solution, discussing scavenging water radicals p0176 A71-18932  
Chemical radioprotection by selenium containing compounds in biological and chemical systems tested in irradiated rats p0176 A71-18933

- Reactivity measurements of protective agent  
selenourea toward primary water radiolysis  
radicals p0177 A71-18934
- Structure-function studies of aminothiols  
radioprotectants on *Escherichia coli* B/r,  
discussing radiation response at 274 and 77 K  
p0177 A71-18936
- Sulfur containing organic chelating compounds as  
radiation protective agents p0178 A71-18941
- Cysteamine protection of hydroxyurea sensitized  
Chinese hamster lung cells during X ray exposure  
p0179 A71-18947
- Thiol and disulphide compounds radiation protection  
capacity at cellular level in tissue culture,  
using reproductive integrity as protection  
criteria p0179 A71-18948
- Organic free radical radioprotective and  
radiosensitizing effect, reporting Chinese hamster  
cell line survival characteristics after treatment  
p0179 A71-18949
- Radioprotective drugs relationship to modification  
of glycolysis in Ehrlich ascites tumor cells  
p0180 A71-18954
- Para-aminopropiophenone and propylene glycol  
radiation protective effect on hematopoietic stem  
cells of mice p0181 A71-18959
- Hematoporphyrin chlorhydrate radioprotective effects  
on mice, removing, weighing and fixing spleens for  
hematopoietic colonies count p0181 A71-18960
- Chemical radioprotective effectiveness modification  
by open skin wounds, discussing results with whole  
body X ray irradiated mice p0182 A71-18964
- Toxicity reduction of aminoethylisothiuronium  
compounds through n-substitution with amino acids,  
noting slight decrease in radioprotective  
effectiveness p0182 A71-18965
- Hypoxia protection against ionizing irradiation by  
anaerobic glycolysis stimulation, lactic acid  
increase and blood glucose level elevation  
p0182 A71-18966
- Sodium fluoroacetate as radiation protective agent,  
noting dependence on selective blockade of enzyme  
aconitase p0182 A71-18967
- Temperature effect in sodium fluoroacetate  
protective action mechanism for mice irradiation  
p0182 A71-18968
- Cysteamine AET, serotonin and mexamine antiradiation  
drugs, investigating protective effect against  
fractionated lethal gamma irradiation  
p0182 A71-18969
- Short and long term radiation effects reduction by  
chemical radioprotectors mixtures, noting improved  
survival and decrease in leukemia and cancer  
incidence in X ray irradiated mice p0182 A71-18970
- Rat bone marrow chromosomes radiation protection,  
using 5-hydroxytryptamine p0183 A71-18973
- Irradiation protection in mice, dogs and sheep by  
bacterial endotoxin injection, discussing  
hematopoietic system stimulation and leukocyte  
counts p0183 A71-18974
- Mice protection against irradiation damage by  
adrenochrome monoguanilylhydrazone methansulphonate  
p0184 A71-18977
- Biochemical mechanism of radioprotective action of  
aminothiols in mammals p0184 A71-18979
- Rats and mice blood redox potentials injected with  
cystamine, investigating increased radioprotection  
p0184 A71-18980
- Radioprotective mercaptoethylamine /MEA/ effect on  
aerobic resynthesis of ATP in thymus nuclei and  
oxidative phosphorylation in rat liver  
mitochondria p0185 A71-18984
- Amino-ethyl-S-2-isothiuronium radio protective dose  
effects on enzyme activity, cardiovascular  
changes, blood transaminases concentration, bone  
marrow and peripheral circulation p0185 A71-18986
- Monograph on protection against ionizing radiation  
from external sources covering medical, veterinary  
and industrial uses p0210 A71-21311
- Industry safe laser laboratory operating  
environments with reflection free walls,  
restrictive admittance and periodic personnel  
examinations p0255 A71-23413
- Book on electromagnetic fields and life environment  
covering biological effects of radio waves,  
protection, radiation sources, permissible  
intensities, working conditions p0318 A71-26868
- Antiexposure suits physiological evaluation for  
subjective comfortableness, oral and skin  
temperatures and pulse rate, determining optimum  
environmental temperature p0461 A71-35195
- Radiation protection drugs effects on albino rats  
hypoxia resistance, discussing hypoxic hypoxia  
response to intraperitoneally and perorally  
administered cysteamine and  
aminoethylisothiuronium p0595 A71-42704
- Radiation sickness prophylaxis chemical compounds,  
discussing protection mechanisms, radical  
inactivation and afflicted cell recovery  
p0596 A71-42710
- Prophylactic medication for radiation damage  
treatment, covering toxicity, pharmacological  
properties, metabolism, dosage and physiological  
action p0596 A71-42711
- Death rates, median life span and weight in mice  
exposed to gamma radiation after intra-abdominal  
injections of cysteamine p0596 A71-42712
- Chemical agents protective properties on albino mice  
under gamma-neutron radiation, noting dose and  
composition effects p0596 A71-42713
- Cystamine elimination rates in rats, extending  
radiation protective action by reinjection of  
eliminated portions p0597 A71-42714
- Cystamine hydrochloride or vitamin B complex with  
vitamin C for radiation sickness prevention and  
therapy p0598 A71-42723
- Mice acceleration before and after gamma  
irradiation, determining protective effect of  
cystamine in adrenaline and amphetamine mixture  
p0598 A71-42726
- Radioprotective effectiveness of cystamine and S  
beta-aminoethylisothiuronium in mice under  
combined gamma irradiation and transverse  
acceleration loads p0599 A71-42730
- Radiation protection biological aspects -  
Conference, Kyoto, October 1969 p0632 A71-44325
- Radiation protection of Soyuz-9 crew, using solar  
activity forecasts p0635 A71-44531
- Manned spacecraft radiation protection against  
cosmic rays, considering proton attenuation in  
shielding materials and dose formation in body  
tissues p0640 A71-44889
- Radiation protection effects of hypoxia and  
para-aminopropiophenone  
[COO-1223-15] p0056 N71-11123
- Occurrence of radiation exposure to personnel of  
nuclear research facility  
[ORNL-4563] p0159 N71-14572
- Chemical and biological antiradiation drugs for  
space flight p0234 N71-19054
- Space flight radiation protection using  
antiradiation drugs p0234 N71-19055
- Proton irradiation of dogs to determine value of  
shielding body organs p0234 N71-19056
- Design features and operating characteristics of  
radiation detectors for support of radiation  
protection and safety in nuclear reactor

## RADIATION RESISTANCE

## SUBJECT INDEX

- facilities  
[AECL-3864] p0649 N71-36499
- RADIATION RESISTANCE**  
U RADIATION TOLERANCE  
RADIATION SHIELDING  
NT SOLAR RADIATION SHIELDING
- Shielding effectiveness of different body portions during repeated proton irradiation on dogs p0149 A71-18360
- Comparative abdomen and head shield effect during gamma irradiation of dogs on protein fractions in blood serum, noting increased globulins and glutamate aspartate transferases p0528 A71-39222
- Partial body shielding effects on rats radiation sickness survival rates under gamma-neutron radiation, comparing head and belly shielding effectiveness at different intensities p0597 A71-42716
- Reactivity changes to pharmacochemical preparations under total proton and gamma ray irradiation of abdomen and head shielded rats p0597 A71-42717
- Head and abdomen shielding effects on radiation sickness evolution in dogs under lethal gamma irradiation p0597 A71-42718
- Abdomen shielding effects on chromosome aberrations in bone marrow cells of guinea pigs and rats under gamma irradiation p0597 A71-42719
- Glutamicoaspartic and glutamicoalanine aminotransferases activity in blood serum of dogs under gamma irradiation with shielded abdomen or head, observing hyperfermentemia p0597 A71-42720
- High energy proton irradiation of rats with partial shielding of abdominal region, observing pathomorphological changes in myocardium, nervous system and radiosensitive organs p0598 A71-42721
- Rat organs pathomorphological changes under gamma neutron irradiation with head and abdomen shielding, noting intestines early damage p0598 A71-42722
- Manned spacecraft radiation protection against cosmic rays, considering proton attenuation in shielding materials and dose formation in body tissues p0640 A71-44889
- Proton irradiation of dogs to determine value of shielding body organs p0234 N71-19056
- Abdominal and head shielding effects on blood serum protein metabolism of gamma irradiated dogs p0550 N71-33457
- RADIATION SICKNESS**  
Munie preparation effect on DNA and RNA contents in hemopoietic organs during acute radiation sickness due to low power radiation p0011 A71-11118
- Antihistamine treatment of hypotension and early transient incapacitation in monkeys under supralethal mixed gamma-neutron radiation p0311 A71-26118
- Radiation sickness prophylaxis chemical compounds, discussing protection mechanisms, radical inactivation and afflicted cell recovery p0596 A71-42710
- Partial body shielding effects on rats radiation sickness survival rates under gamma-neutron radiation, comparing head and belly shielding effectiveness at different intensities p0597 A71-42716
- Head and abdomen shielding effects on radiation sickness evolution in dogs under lethal gamma irradiation p0597 A71-42718
- White rats resistance to acute anoxic, anemic and histotoxic hypoxia during various phases of I radiation sickness, studying adrenal cortex histophysiological state p0599 A71-42731
- RADIATION SOURCES**  
NT POINT SOURCES  
Development of sealed Pu-238 sources for implantable cardiac pacemakers [NP-18563] p0433 N71-27732
- Simulation of radiation exposure from galactic cosmic radiation and solar flare radiation by gamma radiation from cobalt 60 sources p0442 N71-28486
- RADIATION SPECTRA**  
NT ABSORPTION SPECTRA  
NT INFRARED SPECTRA  
RADIATION THERAPY
- Munie preparation effect on DNA and RNA contents in hemopoietic organs during acute radiation sickness due to low power radiation p0011 A71-11118
- L-erythro-alpha, beta-dihydroxybutyraldehyde radiosensitizing effect on adenocarcinoma Ehrlich ascites tumor cells p0180 A71-18952
- Tumor DNA increase of halogenated pyrimidines incorporation compared to normal tissue DNA, discussing infraarterial infusion of radiosensitizing agents p0185 A71-18989
- Bromouridine as radiosensitizing agent improving effectiveness of radiation therapy of malignant brain tumor cells p0186 A71-18990
- Taurine restorative effect in patients with marked leucopenia induced by radiotherapy p0186 A71-18991
- Cystamine hydrochloride or vitamin B complex with vitamin C for radiation sickness prevention and therapy p0598 A71-42723
- Measurement of oxygen effect and biological effectiveness of 910 MeV helium ion beam using cultured human kidney cells of interest in radiotherapeutic treatment of hypoxic tumors [UCRL-20190] p0393 N71-25241
- Ion-corporcular radiation therapy and application of proton accelerators in cancer therapy [UCRL-TRANS-1422] p0493 N71-29249
- In vitro studies using boron-labeled antibodies and elemental boron as neutron target in therapy for tumors and cancer [NASA-CR-122925] p0645 N71-36465
- RADIATION TOLERANCE**  
Primary immune response chemical radioprotection in white mice during gamma irradiation, using serotonin as chemical protective and sheep red blood cells as immunizing agents p0135 A71-16816
- Radiation protection and sensitization - Conference, Rome, May 1969 p0175 A71-18926
- Molecular mechanisms of bacterial cell radiosensitization and protection, discussing radiation produced free radicals interactions p0175 A71-18927
- Laboratory and clinical investigations of radiosensitization of cells and viruses by halogenated pyrimidine analogs p0176 A71-18929
- Sulfhydryl cysteamine and disulfide cystamine effect on bacteriophage survival rate at high anaerobic doses p0177 A71-18938
- DNA modification in Escherichia coli exposed to X rays and sensitized by triacetoneamine N-oxyl and oxygen p0177 A71-18939
- Cysteine incorporation in Escherichia coli B, noting X ray sensitivity and radioprotection p0178 A71-18942
- Radioresistant yeast strain Saccharomyces cerevisiae, discussing cycloheximide and gamma irradiation treatment influence on growth p0178 A71-18943
- Bacteria and mammalian cells radiosensitization, using phenylglyoxal and various carbonyl compounds p0178 A71-18944
- Age dependent changes in mammalian cells radiosensitivity, emphasizing endogenous nonprotein sulphhydryl effects p0178 A71-18945
- Drug-radiation damage interaction relationship to radiosensitization in mammalian cells p0179 A71-18946
- Organic free radical radioprotective and radiosensitizing effect, reporting Chinese hamster cell line survival characteristics after treatment

Radiosensitizers indanetrione, menadione Sykavit and N-ethylmaleimide, noting effects on murine ascitic tumor p0179 A71-18949  
 Polycation effect on tumor cells, describing growth rate inhibitions, X ray sensitivity and DNA interference p0179 A71-18950  
 L-erythro-alpha, beta-dihydroxybutyraldehyde radiosensitizing effect on adrenocarcinoma Ehrlich ascites tumor cells p0179 A71-18951  
 Mouse Ehrlich ascites tumor cells, examining Co-60 gamma ray influence in presence of radiosensitizing 5,8-dihydroxy-psoralen p0180 A71-18952  
 Radiosensitizing effect of iodine compounds in dilute solution on Ehrlich ascites tumor cells and SH enzymes p0180 A71-18953  
 Mitomycin C radiosensitizing effect on hematopoietic colony forming cells, using technique based on bone marrow cells spleen colonies forming ability p0180 A71-18953  
 Anoxic fern spores X ray sensitization, observing diacetyl and isatin effects p0181 A71-18958  
 Embryo chemical sensitization to low radiation doses damage by radiosensitizer iodoacetamide p0181 A71-18961  
 Cytotoxic and radiosensitizing effect of thiol binding agents iodoacetamide /IAA/, N-ethylmaleimide /NEM/ and iodoacetic acid /IA/ on crypt cells of mice duodenum p0181 A71-18958  
 O-barenylacetic and methyl-o-barencarboxylic acids effects on mice radiosensitivity to fast neutrons and gamma rays p0183 A71-18975  
 Q switched and continuous laser collimated radiation exposure limits for eye cornea and skin, discussing environmental contamination p0183 A71-18976  
 Seasonal effect on daily periodicity of mice radiosensitivity related to changes in bright/dark daytime proportion and feeding p0255 A71-23414  
 Radioprotectants effect on mice against ionizing radiation and tolerance to back-to-chest accelerations in space flight p0270 A71-24654  
 Living organisms life-sustaining possibility under simulated Martian temperature, humidity and atmospheric composition conditions, emphasizing unicellular organisms radiation resistance p0565 A71-40345  
 High energy proton irradiation of rats with partial shielding of abdominal region, observing pathomorphological changes in myocardium, nervous system and radiosensitive organs p0571 A71-40572  
 Mice under combined gamma radiation and vibration and acceleration dynamic factors, studying radioresistance recovery rate p0598 A71-42721  
 Vibration influence on peripheral blood reaction to gamma radiation in dogs, using clinico-hematological indices p0598 A71-42725  
 Unicellular organisms increased tolerance to UV radiation, discussing cells repairing ability in dark and pigments and protective compounds screening role p0599 A71-42728  
 Evaluation of eye hazards from nuclear detonations [AD-713152] p0604 A71-42828  
 Maximum allowable plutonium-239 load in humans and maximum allowable plutonium-239 concentration in air at work locations [ANL-TRANS-864] p0164 N71-14834  
 Gamma radiosensitivity of female Swiss-Rap mice as function of growth rate p0238 N71-19347  
 Effect of amytravite and adenosine triphosphate toward increasing natural body radioresistance and intensification of postradiation recovery in dogs [CEA-R-3797] p0283 N71-20176  
 p0442 N71-28485

**RADIATIVE HEAT TRANSFER**  
 Physiological effects of heat exchange between human organism and ambient medium by evaporation, radiation, conduction and convection p0024 A71-11597  
**RADIATIVE LIFETIME**  
 Ion beam-foil produced oxygen spectra in wavelength range between 450 and 2200 Å, determining mean radiative lives of O I - O VI excitation levels p0419 A71-33183  
**RADIATIVE TRANSFER**  
 NT RADIATIVE HEAT TRANSFER  
**RADIO COMMUNICATION**  
 NT PULSE FREQUENCY MODULATION TELEMETRY  
 NT RADIO TELEMETRY  
 Extraterrestrial civilizations, discussing probability theory and radio communication p0145 A71-17739  
**RADIO DIRECTION FINDERS**  
 Voice communication, direction finding, and radio homing equipment development for search and rescue by air [AD-715310] p0387 N71-24414  
**RADIO ENERGY**  
 U RADIO WAVES  
**RADIO EQUIPMENT**  
 NT RADIO TRANSMITTERS  
 Radiolocation equipment used in Interrogation Recording Location System, and results in remote ground, aircraft, and satellite tracking of elk and black bear [NASA-CR-121893] p0615 N71-35260  
**RADIO FREQUENCIES**  
 NT EXTREMELY LOW RADIO FREQUENCIES  
 NT HIGH FREQUENCIES  
 NT LOW FREQUENCIES  
 NT MICROWAVE FREQUENCIES  
 NT SUPERHIGH FREQUENCIES  
 NT ULTRAHIGH FREQUENCIES  
 Thermal and nonthermal effects of microwave and RF radiation in biological systems, discussing dielectric constant and conductivity for high water content tissues p0306 A71-25281  
 Low power density modulated RF energy illumination effects on mammalian biological functions, noting possible hazards to personnel p0306 A71-25282  
 Radio frequency and microwave radiation hazards determination and elimination aboard naval ships p0307 A71-25290  
 Effect of low power density modulated radio frequency energy on biological functions [AD-716044] p0278 N71-19671  
 Harmful biological effects caused by exposure to microwave radiation including radio frequency power density in vicinity of space station antennas p0493 N71-29325  
**RADIO FREQUENCY RADIATION**  
 U RADIO WAVES  
**RADIO TELEMETRY**  
 NT PULSE FREQUENCY MODULATION TELEMETRY  
 Design criteria for implantable biotelemetry systems, discussing RF signal transmission through conductive body tissue p0009 A71-10982  
 Biotelemetry objectives, principles, implementation and applications, discussing wire and wireless systems, radio frequency selection, transmitting power and modulation methods p0078 A71-13059  
 Multichannel EEG radio telemetry for remote recording of biological activity from subjects in motion and within human body p0139 A71-17110  
 Bioelectric activity of cerebral cortex in man under neuroemotional stress, using multichannel radioelectroencephalography p0154 A71-18464  
 Radio telemetry stimulator for conditioning large animals by applying high voltage short duration pulses to skin surface p0416 A71-33050  
**RADIO TRACKING**  
 NT WILDLIFE RADIOLOCATION  
**RADIO TRANSMITTERS**  
 ECG miniaturized single channel biotelemetry transmitter, discussing lightweight design and

Roentgenological analysis of paranasal sinuses in civil aviators, studying facial cavities infection p0374 A71-29367

Neutron radiography and dosimetry as clinical diagnostic tool, calculating resolution through tissues for simulated human arm p0465 A71-35449

Bone density studies of bed rest subjects by radiographic method [NASA-CR-114784] p0118 N71-13434

Deuteration in slow neutron radiography of biological media [DP-1229] p0290 N71-20729

Applications of X ray photography to diagnosis of cardiovascular and respiratory system diseases [AD-700296] p0495 N71-29561

**RADIOISOTOPE BATTERIES**

Radioisotope thermoelectric generators in micro/milliwatt power range for biomedical applications p0525 A71-38912

**RADIOLOGY**

Aircrew radiological examination of spinal anatomical state, emphasizing traumatism due to vibration, acceleration, ejection and crashes p0137 A71-16936

Chest and cardiovascular system optimal radiologic facilities, discussing X ray examination, catheterization-angiographic and nuclear radiology laboratories p0198 A71-20354

Spine radiological examination for helicopter pilot fitness determination, discussing spinal weakness symptoms, special exercises, medical examinations and vibration reducing seat construction p0583 A71-41578

Radiology and radiobiology instruction for aerospace medicine applications p0121 N71-13896

Comparison of methods to assess geometrical variations of counting-rate in whole-body monitors [SRRC-31/69] p0230 N71-18837

Radiology, radiobiology, radiophysics, and biophysics research [NYO-2740-7] p0299 N71-21167

Survey of radiological science research and development in Japan in 1969, with program emphasis on internal plutonium exposure and clinical aspects of bone marrow transplantation [NIRS-9] p0503 N71-31053

Radiation physics, chemistry, and radiology [BNWL-1551-VOL-2-PT-2] p0653 N71-37647

**RADIOMETERS****NT INFRARED DETECTORS**

Uncellular algae photosynthesis measurement by radiometric methods under optimum and equalized conditions of light, temperature and carbon dioxide supply p0135 A71-16815

**RADIONUCLIDES****U RADIOACTIVE ISOTOPES****RADIOPATHOLOGY**

Rat organs pathomorphological changes under gamma neutron irradiation with head and abdomen shielding, noting intestines early damage p0598 A71-42722

Radioisotope absorption and radiopathology of dogs [UCD-472-117] p0288 N71-20546

**RADIOPROTECTIVE AGENTS****U ANTIRADIATION DRUGS****RADIOSENSITIVITY****U RADIATION TOLERANCE****RADIOTHERAPY****U RADIATION THERAPY****RAFTS****NT LIFE RAFTS****RANDOM NOISE**

Human visual tracking system during fixation maintenance determination, using narrow bandwidths of random noise [AMRU-R-66-5] p0508 N71-31539

**RANDOM PROCESSES**

Phi movement /pure motion/ perception between successively presented, granular, moving objects, dichoptic and random dot Julesz patterns p0259 A71-23987

Random process model and feature reduction of spontaneous and alpha frequency electroencephalograms [NASA-CR-111385] p0057 N71-11185

**RANDOM SAMPLING**

Gene frequencies of red cell acid phosphatase in random samples [NASA-TT-F-13989] p0651 N71-37637

**RANDOM VIBRATION**

Body position effect on dynamic characteristics of human operator under random vibration, considering pelvis-head amplitude-frequency characteristics p0096 A71-14791

Man machine system dynamic properties and biomechanical model concepts, determining random vibration effects on sitting and working human body p0414 A71-32728

Man machine system dynamic properties and biomechanical model concepts, determining random vibration effects on sitting and working human body p0624 A71-43299

**RANGE (EXTREMES)****NT FREQUENCY RANGES**

Gravitational and other forces involved in equilibrium of growing plants, showing gravity sensing ability lower limit existence p0557 A71-39971

**RANGE INDICATORS****U INDICATING INSTRUMENTS****RANGE MEASUREMENT****U RANGEFINDING****RANGEFINDING****NT SOUND RANGING**

Maximum detection range and discovery of land vehicles [RAE-LIB-TRANS-1485] p0057 N71-11182

Evaluation of aids used for flare range estimation [AD-715287] p0224 N71-17763

**RANGING****U RANGEFINDING****RAPID EYE MOVEMENT STATE**

Rapid eye movements during nocturnal sleep of healthy human subjects, insomniacs and narcoleptics recorded on polygraphs p0001 A71-10071

Heart rate variability in REM sleep, stage 4 sleep and wakefull state from ECG of normal males, calculating coefficient of temporal variability for each state p0371 A71-29319

- Human subjects REM sleep characteristics under 5-hydroxytryptophan influence, analyzing continuous polygraphic recordings of parietal EEG, horizontal eye movement and submental electromyographic activity  
p0408 A71-31952
- First and last rapid eye movement /REM/ sleep differences in unrestrained chimpanzee  
p0468 A71-35891
- Oculomotor neural organization models, considering vestibular ocular reflex, saccadic eye movements and smooth pursuit systems  
p0593 A71-42450
- RARE GASES**
- NT ARGON**
- NT HELIUM**
- NT XENON**

- Combined glucose-sodium chloride solution consumption by rats during normal and food deprivation conditions  
p0037 A71-12874
- Emotionally induced osmotic pressure and thirst increase of rats during stress, noting eating behavior  
p0037 A71-12875
- Microcathodes measurement of oxygen tension on arterioles external surface in hamster cheek pouch and hamster/rat cremaster muscle for blood flow regulation mechanism  
p0087 A71-13487
- Reward magnitude effects on runway performance of rats with intertrial feeding  
p0089 A71-13693
- Decaborane effects on amino acid metabolic patterns of various rat tissues, considering holoenzyme inactivation  
p0128 A71-16294
- Prolonged water deprivation effects on hypothalamic self stimulation of rats with electrodes chronically implanted in posterior lateral hypothalamus  
p0138 A71-17087
- Telemetric techniques for pharmacological effects of body temperature, motor activity and food and fluid intake on rat brain, describing recording and monitoring equipment  
p0139 A71-17112
- Training effect on oxygen tension dynamics in rats brain cortex under progressive high altitude hypoxia conditions, noting adaptation influence on motor activity and survival rate  
p0141 A71-17394
- Strain gage attachment to rat heart ventricle in situ with fine stainless steel pins  
p0154 A71-18391
- Control and prolonged exercised rats adrenal and plasma catecholamine, corticosterone and epinephrine level comparisons using fluorometric analysis  
p0197 A71-20330
- L-dopa multiinjection timed effects on rat brain norepinephrine metabolites concentrations, observing zero time control rated modifications  
p0247 A71-22649
- Rats under various exercise programs, determining cardiac ventricle and gastrocnemius muscles calcium activated adenosine triphosphatase activities  
p0253 A71-23361
- Thyroidectomized vitamin A deficient rats, noting visual sensitivity loss not correlated to thyroid  
p0360 A71-28455
- Dark adapted albino rats behavioral assessment, measuring absolute visual thresholds to white and colored light  
p0360 A71-28457
- Prolonged hypokinesia effect on rats serotonin /5-HT/ metabolism, noting pronounced blood content deviation from normal during first to third and thirteenth to fifteenth day  
p0528 A71-39218
- Myocardium reactions under 2G acceleration from histological, histochemical and electron microscopic observations on rats, noting dystrophic damage level relationship to duration  
p0530 A71-39235
- Morphological and cytological aspects of hypokinesia in rat muscles [NASA-TT-F-13376]  
p0041 N71-10341
- Diet and altitude effects on body composition of growing rats [AD-712239]  
p0052 N71-11098
- Measuring decrease in concentration of adenosine triphosphate in brain of rats before onset of convulsions induced by hypoxia [AD-712242]  
p0055 N71-11122
- Histological aspects and ultrastructure of intoxication in rats by pure oxygen at low pressure  
p0068 N71-11826
- Functional synchronization of neurosecretory cells of supra-optical nucleus of dehydrated and rehydrated rat [NASA-TT-F-13419]  
p0109 N71-12301

SUBJECT INDEX

REACTION TIME

- Chlorpromazine and altitude effects on conditioned responses of rats to visual and auditory stimuli [AD-712664] p0109 N71-12305
- Measurement of ozone and some effects of ozone and nitrogen oxides on motor activity of rats p0223 N71-17666
- Liver and skeletal muscle morphology in rats under hypokinesia and protein deficiency p0236 N71-19073
- Colonic temperature response of rats to oxygen at high pressure [AD-716965] p0291 N71-20778
- Hypertrophy and hypoxia effects on turnover of myofibrillar proteins and mitochondrial components in hearts of normal rats [ACRH-1000-214] p0301 N71-21526
- Comparison of ground level rats to rats exposed to altitude of 18,000 feet to determine cardiovascular response [AD-717851] p0332 N71-22240
- Hyperthermia, dietary, and desalivation effects on thermoregulation in rats [NASA-CR-117851] p0338 N71-22976
- Desalivation effects on behavioral thermoregulation against heat in rats p0339 N71-22978
- High fat diet effects on caloric intake, body weight, and heat escape responses in normal and hyperphagic rats p0339 N71-22979
- Thermal intensity and skin temperature levels, affecting behavioral thermoregulation in rats with increases in monotonic fashion p0339 N71-22980
- Determination of growth patterns in rats fed on balanced diets differing by the presence of either oxidized or unoxidized fat [NASA-CR-114998] p0388 N71-24553
- Dynamics of content of nucleic acids in rat organs following exposure to ultrasound p0430 N71-26893
- Physiological effects of high carbon dioxide concentrations in helium/oxygen and argon/oxygen atmospheres on rats at ambient temperatures p0437 N71-28250
- Tissue resistance changes in immobilized rats p0439 N71-28265
- Effect of relative hypokinesia on intensity of formation and body elimination of ketones, aldehydes, carbon monoxide, and ammonia p0441 N71-28478
- Effect of hypoxic hypoxia and hypercapnia on calcium, inorganic phosphorus, and total protein in blood of rats during hypodynamia p0441 N71-28479
- Long term hypokinesia effects on rat serotonin metabolism p0550 N71-33453
- Physical training, cold adaptation, and adaptogen pharmaceuticals for increased physiological stress resistance in rats p0550 N71-33454
- Radial acceleration effects on spinal cord induced potentials of intact and labyrinthectomized rats. p0550 N71-33456
- Dystrophic myocardial damage in rat hearts caused by prolonged acceleration p0552 N71-33470
- Monomethylhydrazine effects on glucose carbon metabolism and effects of pure oxygen inhalation in rats [AD-727008] p0615 N71-35259
- Structural development of bone in rats under earth gravity, simulated weightlessness, hypergravity, and mechanical vibration [NASA-CR-1823] p0653 N71-37654
- RAY TRACING**
- Human eye theoretical model with aspherical cornea front and lens back surfaces, computing astigmatism, coma, meridional and sagittal focal lengths by ray tracing method p0640 A71-44978
- RBE**
- U RELATIVE BIOLOGICAL EFFECTIVENESS (RBE)**
- RC CIRCUITS**
- Silicon radiation detector production engineering for biological and medical applications and explanation of continuous absorption spectra using RC delay line as equivalent circuit
- [BMBW-FBK-70-15] p0430 N71-26914
- REACTION JET ATTITUDE CONTROL**
- U ATTITUDE CONTROL**
- REACTION JET BACKPACKS**
- U SELF MANEUVERING UNITS**
- REACTION KINETICS**
- Oxygen uptake kinetics in human submaximal exercise during work load transitions and work-rest cycle p0025 A71-11663
- Rate constant for oxygen uptake exponential increase during low intensity exercise by algebraic solution p0198 A71-20336
- Equilibration rate of uncatalyzed carbon dioxide hydration reaction in open system at constant carbon dioxide partial pressure, examining buffering capacity effect p0258 A71-23898
- Respiratory gas reaction mechanism on potassium superoxide in closed circuit breathing apparatus p0369 A71-29113
- Rhodopsin kinetics mathematical analysis by cyclic five-component model, applying to flash and extended photolysis in rat retina p0453 A71-34653
- Oxygen uptake kinetics by hemoglobin layers, using Hill advancing front equation p0522 A71-38567
- Urea hydrolysis reaction rates by urease at low water activity, noting use for Mars surface bioassay p0589 A71-42226
- Control of energy metabolism in higher plants [TID-25485] p0119 N71-13867
- Kinetic model of enzyme monomolecular enzyme reactions with substrate and product inhibition and possibility of self oscillation [NLL-RTS-5991] p0300 N71-21401
- Mathematical model for computerized evaluation of Sabatier reaction kinetics in oxygen recovery from carbon dioxide [NASA-CR-115026] p0400 N71-26295
- REACTION TIME**
- Task difficulty involving simple and choice reaction time under stress of shock, threat of shock and noise p0018 A71-11414
- Reaction time diurnal variations to optical and acoustic stimuli, investigating disturbed natural sleep-waking rhythm effects p0026 A71-11684
- Nervous system activity changes relation to physical exercise type and extent, measuring visual response time p0133 A71-16620
- Changing rotational velocity recording device for vestibular apparatus tests, examining stimulus reaction speed p0135 A71-16810
- Pt electrode response time during unsteady oxygen partial pressures measurement p0148 A71-18323
- Motor learning error performance with discrimination reaction timer, discussing commitment to wrong response, group observations and specific error repetition p0187 A71-19462
- Spatial and temporal patterned light flashes effects on dark adapted subjects, discussing cortical response changes in contrast depth p0270 A71-24680
- Electroencephalographic and evoked cortical potential correlates of reaction time and visual discrimination in humans p0372 A71-29345
- Human performance after awakening at different times of night, considering reaction time and muscular coordination p0403 A71-31201
- Visual latencies at photopic levels as function of binocular differences in retinal illuminance, using Limulus adaptation model and ERG correspondence p0416 A71-32867
- Light adaptation and visual latency, discussing temporal resolving properties of eye as function of binocular differences and target background contrast p0416 A71-32868

**REACTIVITY**

**SUBJECT INDEX**

- Speed and accuracy relation of hand movement aimed at target, showing error as function of length of uncontrolled terminal phase  
p0422 A71-33372
- Recognition response time experiments for word number effects in target set, discussing familiarity judgment and response decision  
p0462 A71-35250
- Reaction times distributions in visual or auditory mode single and multiple motor response units  
p0465 A71-35433
- Rhesus monkeys electrocortical events recorded during foreperiod of reaction time tasks  
p0468 A71-35895
- Human response to auditory stimuli start and cessation, noting time lag and perception duration  
p0512 A71-37283
- Surround luminance effect on relative perceptual latency of response, using test stimuli confined to rod free area of fovea  
p0523 A71-38774
- Hyperbaric normoxic breathing helium, nitrogen and neon gas mixture effects on EEG and reaction time in man  
p0566 A71-40347
- Prior muscle exertions effect on reaction time and duration of simple discrete movements, considering electromyogram frequency changes  
p0589 A71-42194
- Central panel luminance effect on peripheral visual detection time in search tasks  
p0621 A71-42899
- Proactive reaction time inhibition as indicator of immediate memory retention intensity in subjects receiving interpolated acoustic stimuli  
p0626 A71-43865
- Quantitative characterization of unit time response in visual system, mapping latency and synchronicity as functions of stimulus position  
p0626 A71-43870
- Light brightness and duration effect on central vision response time during dark adaptation  
p0636 A71-44535
- Chlorpromazine and altitude effects on conditioned responses of rats to visual and auditory stimuli [AD-712664]  
p0109 N71-12305
- Reaction times of subjects in tests with display control configurations typical of those used in continuous tracking tasks [NASA-TN-D-6132]  
p0172 N71-16506
- Stresses and adaptation problems associated with large scale, long range, rapid reaction time, aerial troop deployments  
p0286 N71-20360
- Auditory stimuli effects of pistol shots during learning process noting human reactions and performance [ISVR-TR-26]  
p0291 N71-20799
- Vibration effects on visual discrimination and tracking abilities in humans [AD-719745]  
p0387 N71-24437
- Binary classification reaction time and human performance in data processing using decision making experiments [AD-721199]  
p0429 N71-26885
- Auditory stimuli effects on human color-word distraction susceptibility test performance [FAA-AM-71-7]  
p0495 N71-29637
- Hypoxia effect on human vigilance performance [FAA-AM-71-11]  
p0495 N71-29638
- Prediction of human reaction time to light flashes [AD-724001]  
p0543 N71-33087
- Visual-motor reaction times as direct correlates of photosensitivity [NASA-TT-P-13995]  
p0654 N71-37659
- REACTIVITY**  
Reactivity changes to pharmacological preparations under total proton and gamma ray irradiation of abdomen and head shielded rats  
p0597 A71-42717
- REACTOR CHEMISTRY**  
**U RADIOCHEMISTRY**  
**REACTOR SAFETY**  
Radiological monitoring and environmental sampling data for Phoebus 2A reactor tests [SWRHL-72-R]  
p0282 N71-19917
- Design features and operating characteristics of radiation detectors for support of radiation protection and safety in nuclear reactor facilities [AECL-3864]  
p0649 N71-36499
- READOUT**  
EEG analyzer voltage peaks recording on computer, using digital readout for simultaneous initial and terminal stage markings  
p0210 A71-21446
- REAL TIME OPERATION**  
Manual tracking systems identification and real time display, developing software system  
p0019 A71-11437
- Real time contourgram for monitoring ECG waveform data, describing cardiac measurement and data display  
p0033 A71-12384
- Target detection performance in simulated real time airborne reconnaissance mission, taking into account search time and image type, contrast and rate of motion  
p0209 A71-21227
- ECG signals on-line and real time monitoring mathematical, statistical and bioengineering considerations  
p0210 A71-21330
- Evoked brain potentials averaging in real time with computer linked by long distance communication lines  
p0357 A71-28385
- Real time matched filter of QRS complex by replica correlation for electrocardiograms [AD-718124]  
p0347 N71-23587
- REAL VARIABLES**  
NT DIFFERENTIAL EQUATIONS  
NT JACOBI MATRIX METHOD  
NT PARTIAL DIFFERENTIAL EQUATIONS  
NT VECTOR ANALYSIS
- REBREATHING**  
Mixed venous oxygen tension oxide determination by nitrogen-carbon rebreathing method, considering pulmonary blood flow and oxygen carrying capacity  
p0084 A71-13182
- Chemosensitivity in normal, hypoxia and hypocapnia cases, using rebreathing techniques to construct isoxic carbon dioxide response curves and isocapnic oxygen response curves  
p0197 A71-20329
- Carbon dioxide tension in pulmonary arterial blood before/during prolonged rebreathing in oxygen mixtures at rest and exercise  
p0257 A71-23895
- Alveolar and arterial carbon dioxide partial pressure during rebreathing experiments at rest  
p0359 A71-28435
- Oxygen pulmonary diffusion capacity estimation by rebreathing procedure based on gas-blood partial-oxygen-pressure equilibration  
p0449 A71-34173
- Onboard aircrew oxygen generating system for tactical aircraft [NASA-CR-1741]  
p0233 N71-18935
- RECEIVERS**  
NT TELEVISION RECEIVERS  
**RECEPTORS (PHYSIOLOGY)**  
NT PROPRIOCEPTORS  
Alpha and beta receptor blocking drugs effects on oxygen consumption of methemoglobin-containing erythrocytes and hemolysates  
p0086 A71-13483
- Human skin vibratory sensibility consideration as analyzer receptor for stimuli conversion into nervous processes  
p0194 A71-20116
- Vertebrate retina receptive field structure, suggesting interaction between receptor, horizontal and bipolar cells  
p0200 A71-20623
- Pattern recognition systems, considering receptor, preprocessing and decision making stages  
p0264 A71-24225
- Organisms olfactory extraction and interpretation of low intensity chemical signals from air, outlining receptor mechanism from air physicochemistry  
p0265 A71-24234
- Human transversostriated muscle plate receptors morphogenesis  
p0324 A71-27725
- Accelerations effect on receptors in semicircular canals during human movements in rotating environment, using vector analysis

p0359 A71-28415  
 Cat single optic nerve fibers receptive field, observing functional organization and conduction velocity

p0360 A71-28458  
 Human odorant evoked response, considering stimulation of olfactory receptors and trigeminal afferences in nose

p0367 A71-28891  
 Visual sensation time theory validity investigation, discussing time elapsed between retinal receptor stimulation and perceptory sensation

p0382 A71-30406  
 Temperature, odor mixing and stimulation frequency effects on olfactory receptor potential of fly *Lucilia sericata*

p0383 A71-30568  
 Fly *Lucilia sericata* olfactory receptor and unit action potentials response to odor stimulation by homologous compounds

p0384 A71-30569  
 Femoral nerve afferent muscle fibers bioelectric activity in anesthetized cats, determining effect of blood circulation level on receptors functional activity

p0406 A71-31323  
 Snake IR receptor sense organs tested by IR stimulus from carbon dioxide laser, suggesting receptor operation on thermal principle

p0411 A71-32296  
 Reflex increase in ventilation induced by vibrations applied to cat triceps surae muscles, noting muscular and articular receptors role

p0449 A71-34175  
 Redundancy in receptive neuronal nets, examining structural and functional organization of generalized biological analyzer peripheral section

p0457 A71-34956  
 ACh retina application effects, showing second retinal neuron cholinergic receptors desensitization

p0466 A71-35490  
 Afferent nerve impulse traffic from atrial A-type receptor fibers in cats in relation to heart rate control

p0484 A71-36688  
 Canine ventricular myocardium as cardiac beta-adrenergic receptor, describing binding of norepinephrine to microsomal particles

p0515 A71-37900  
 Primary biological receptor element analogous electronic model for potential and afferent pulse train responses to stimuli

p0525 A71-38894  
 Visual projection, magnification and retina overlap on dorsal lateral geniculate nucleus in cats measured by random scatter in receptive field

p0573 A71-40668  
 Inhibitory binocular receptive fields in dorsal nucleus of lateral geniculate body for dominant and nondominant eye in cats, using moving slit and flash spot stimulation

p0573 A71-40669  
 Eye movement neurophysiology, discussing ocular proprioception, oculomotor muscle sensory receptor role, extraocular muscle afferent and efferent innervation and central nervous system control effect

p0591 A71-42433  
 Receptive fields of dark adapted cats striate cortex neurons as function of barbiturate anesthetic level

p0626 A71-43871  
 Quantitative variation in anesthetized cats striate cortex receptive fields as function of light and dark adaptation

p0626 A71-43872  
 Human skin cold receptor diurnal activity rhythms

p0635 A71-44499  
**RECIRCULATIVE FLUID FLOW**  
 Volterra equation for describing tracer dynamics of mammalian circulation

p0447 N71-28855  
**RECLAMATION**  
 NT WATER RECLAMATION  
 Closed Sabatier system for oxygen recovery from carbon dioxide  
 [NASA-CR-118025] p0350 N71-24256

**RECOGNITION**  
 NT CHARACTER RECOGNITION  
 NT PATTERN RECOGNITION  
 NT SPEECH RECOGNITION  
 NT TARGET RECOGNITION  
 Mathematical simulation of human recognition by black box approach as information conversion process

p0193 A71-20109  
 Object recognition with aided and unaided night vision as function of luminance  
 [IZF-1971-7] p0609 N71-34065

## REDUCTION (CHEMISTRY)

## SUBJECT INDEX

- mission, discussing ground base tests, simulated and actual flight p0251 A71-23238
- Human performance in various locomotive tasks under simulated lunar reduced gravity conditions, classifying test stands and equipment p0404 A71-31304
- Physiological effects of reduced gravity, restricted mobility, gamma irradiation, and magnetic fields on human and animal subjects. [JPRS-53448] p0441 N71-28476
- Analysis of data on human ability to perform different locomotor acts under conditions of reduced gravity p0441 N71-28477
- REDUCTION (CHEMISTRY)**
- Double beam monochromatic differential cinespectrophotometer for recording oxidation/reduction reactions in intercellular pigments p0004 A71-10243
- Rats and mice blood redox potentials injected with cystamine, investigating increased radioprotection p0184 A71-18980
- Vitamin K3 effect on redox equilibria in red cell, discussing radiosensitizer mechanism p0185 A71-18985
- Photoreduction regulation in *Rhodospirillum rubrum* by ammonium chloride, discussing nitrogen fixation and protein metabolism p0416 A71-33058
- Gas exchange metabolic fluctuations of nitrogen fixation, hydrogen evolution and photoreduction in *Rhodospirillum rubrum* as function of culture conditions and age p0416 A71-33059
- REDUNDANCY**
- Redundancy effects on human memorization working capacity, noting application to memory systems design p0194 A71-20113
- Redundancy in receptive neuronal nets, examining structural and functional organization of generalized biological analyzer peripheral section p0457 A71-34956
- REENTRY VEHICLES**
- NT APOLLO SPACECRAFT
- NT VOSTOK 2 SPACECRAFT
- REFERENCE SYSTEMS**
- Equilateral tetrahedral and Frank systems compared for standard reference system applications in spatial vectorcardiography p0006 A71-10400
- REFERENCES (STANDARDS)**
- U STANDARDS
- REFLECTANCE**
- Cycocel induced changes in internal structure of cotton leaves to reflectance, transmittance, and absorptance of near infrared radiation p0168 N71-16151

 Chemical radioprotection by selenium containing compounds in biological and chemical systems tested in irradiated rats p0176 A71-18933  
 Reactivity measurements of protective agent selenourea toward primary water radiolysis radicals p0177 A71-18934

**SELF ADAPTIVE CONTROL SYSTEMS**  
 Central nervous system self regulating properties analysis by automatic control theory, using parametric functional model of brain electrical activity p0426 A71-34107

**SELF DEPLOYING SPACE STATIONS**  
 U SPACE STATIONS

**SELF DIFFUSION**  
 U DIFFUSION

**SELF MANEUVERING UNITS**

Hand-held maneuvering unit for propulsion and attitude control of astronauts in zero or reduced gravity environment  
[NASA-CASE-XNS-05304] p0114 N71-12336

**SELF ORGANIZING SYSTEMS**

Cerebellum substrate for memory list processing in brain assuming Perceptron mechanism  
p0016 A71-11313

Algorithms of self organization, artificial intelligence, and tree search applied to various practical problems  
[AD-719930] p0394 N71-25652

**SELF OSCILLATION**

Biological clocks self oscillating mechanism as temperature dependent component of circadian clocks in multicellular organisms, assuming small enzyme concentrations  
p0023 A71-11566

Kinetic model of enzyme monomolecular enzyme reactions with substrate and product inhibition and possibility of self oscillation  
[NLL-RTS-5991] p0300 N71-21401

**SELF REGULATING**

**U AUTOMATIC CONTROL**

**SELF STIMULATION**

Oxygen respiration effect on self stimulation and emotional reactions in rabbits during hypothalamus electrical stimulation  
p0151 A71-18376

Self stimulation and avoidance reactions in rabbits when breathing virtually pure oxygen  
p0236 N71-19072

**SEMICIRCULAR CANALS**

Biocybernetic model of vestibular control system for spatial orientation, considering semicircular canals fluid motion angular velocity sensors and linear displacement perception  
p0073 A71-12982

Elasmobranch fish labyrinth electrophysiology, analyzing semicircular canals linear acceleration response  
p0093 A71-14755

Gravity effects on human caloric and rabbits rotational nystagmus, noting semicircular canals role  
p0093 A71-14757

Semicircular canal ducts dynamic response characteristics, using suspended liquid filled inner tube for endolymph simulation  
p0095 A71-14789

Vestibular system semicircular canals mathematical model determination of galvanic stimulation and directional preponderance, considering visual, postural and vehicle orientation feedback loops  
p0096 A71-14790

Semicircular canal ducts dynamic behavior, using mathematical model for wave transmission of elastic fluid-filled toroidal shell in rigid channel  
p0104 A71-15772

Centrifugal force effect on pigeon head nystagmus, acting on semicircular canal via otoliths or cupula  
p0239 A71-22123

Semicircular canal influence on otolith reactions in pigeons, noting caudal and rostral shifts evoking levator and depressor coccygei contractions during horizontal acceleration  
p0242 A71-22214

Coriolis effects on endolymph shift direction in semicircular canals of man under rotation with head movements in sagittal plane, involving nystagmus and illusory sensations  
p0247 A71-22640

Neural transmission to vestibular nuclei of semicircular canal response to rotational stimulation, discussing test methods and results with decerebrated or anesthetized cats  
p0273 A71-25042

Accelerations effect on receptors in semicircular canals during human movements in rotating environment, using vector analysis  
p0359 A71-28415

Lateral and anterior semicircular canal neural reactions to caloric stimulation in frogs, indicating hydrodynamic interactions  
p0426 A71-33912

Semicircular canal and otolithic organ function in free swimming fish angular orientation behavior  
p0560 A71-39996

Coordination structure of human hand arbitrary movements during stimulation of horizontal semicircular canals in vestibular apparatus by negative angular acceleration  
p0637 A71-44545

Behavior of living pike fish under influence of electrical and mechanical stimulation of cupula of left horizontal ampulla and semicircular canal  
[NASA-TT-P-13665] p0394 N71-25716

Vector analysis for estimating acceleration forces affecting human receptors in semicircular canals during rotation  
p0439 N71-28263

Hydrodynamic and frequency response of semicircular canals compared in yaw, pitch, and roll  
[AMRU-R-64-1] p0506 N71-31527

Angular velocity transduction of semicircular canals of head  
[AMRU-R-65-1] p0507 N71-31529

Vestibular mechanics of semicircular canal function during angular velocity  
[AMRU-R-67-1] p0508 N71-31540

Physiological adaptation to unilateral semicircular canal impaction compared to unilateral labyrinthectomy  
[AMRU-R-67-2] p0509 N71-31541

Dynamic model of semicircular canal affected by angular velocity  
[AMRU-R-68-1] p0509 N71-31543

Human body weight and skin sweat gland water loss rates effects on thermoregulation  
p0485 A71-36864

Local skin thermoregulation mechanism in man controlled by cooperative bradykinin biosynthesis, using IR thermometry recording of thermal stimulus  
p0486 A71-36868

Skin temperature and perspiration role in metabolic heat elimination, considering evaporation coefficient relationship to convection coefficient  
p0487 A71-36873

Human temperature tolerance during exposure to hot and cold environments, using skin temperature as indicator  
p0487 A71-36875

Chill level index for skin temperature effects on rate of evaporative heat loss and thermal information to central controller during heavy work  
p0487 A71-36876

Impulse skin temperature encoding in primate cutaneous thermoreceptors in dynamic thermal conditions  
p0487 A71-36877

Temperature regulation during exercise by proportional control, investigating skin temperature effect on set point temperature, sweat rate and skin thermal conductance  
p0487 A71-36879

Finger freezing time correlation with cooling rate, discussing effects of indeterminate skin supercooling  
p0488 A71-36883

Cats preoptic and skin temperature change effects on posterior hypothalamic neurons  
p0489 A71-36888

Cutaneous circulation control by venous thermoregulatory reactions to temperature variations, using dog saphenous veins perfused with autologous blood or Krebs-Ringer solution  
p0490 A71-36898

Heart rate variation during and after muscular exercise, discussing correlated measurements of rectal and mean skin temperatures, blood lactate, pyruvate and glucose  
p0524 A71-38891

Cold climate clothed human windchill tables, considering various heat transfer modes and skin temperature  
p0528 A71-39205

Mean body temperature computation in neutral and hot environments from rectal and skin temperatures  
p0584 A71-41723

Human skin cold receptor diurnal activity rhythm  
p0635 A71-44499

Circadian development of rectal and cutaneous temperature in man while resting in controlled environment  
[NASA-TT-F-13400]  
p0043 N71-10445

Microthermistor measurements of temperature distribution on body surface of dolphins  
p0332 N71-22216

Thermal intensity and skin temperature levels, affecting behavioral thermoregulation in rats with increases in monotonic fashion  
p0339 N71-22980

Establishment of relationship between skin temperature and ability to tolerate cold and hot environments for human subjects

[FAA-AH-71-4]  
Regional control of skin temperature and heat transfer measurements of various body sections  
[AD-720830]  
p0391 N71-24748  
p0397 N71-25953

SKULL  
NT CRANIUM  
NT INTRACRANIAL CAVITY  
Localized focused ultrasonic beam action on brain portions without skull trepanation in animals and man, visualizing sonic field by Tepler effect  
p0404 A71-31291

Effect of ultrasound on nucleic acids in rat organs and possibility of local action of focused ultrasound through skull portions in animals and man  
[JPRS-53177]  
p0429 N71-26892

Possibility of focused ultrasound to act locally on brain structures of animals and man without opening skull  
p0430 N71-26894

SKYLAB PROGRAM  
Scientist-astronauts work in manned space flight program support/backup crews and Skylab missions scientific/medical experiments  
p0186 A71-19089

Skylab habitability facilities for astronaut work effectiveness and physical well being  
p0407 A71-31456

Skylab life support systems design and performance prediction covering thermal and humidity control, atmospheric supply, carbon dioxide removal, water and waste management  
[ASME PAPER 71-AV-14]  
p0476 A71-36381

Skylab habitability considerations in Orbital Workshop design, discussing waste management, food management and sleeping compartments  
[AIAA PAPER 71-872]  
p0480 A71-36628

Skylab and space station crew garments, discussing personal preference and style integration with function and overall system impact  
[AIAA PAPER 71-875]  
p0480 A71-36630

Germination and growth of selected higher plants in simulated space cabin environment similar to conditions within Skylab  
[NASA-CR-119379]  
p0504 N71-31175

**SONIC BOOMS**

High intensity sonic boom effects on heart rate of dogs, noting conditioning benefit  
p0080 A71-13097

Simulated sonic booms effects on sleeping humans, considering intensity levels, age factors, sleep stage, adaptability and housing  
p0083 A71-13165

Sound and sonic booms effects on farm animals physiology and behavior, considering milk production, reproduction, food intake and growth rate  
p0083 A71-13166

Physiological and psychological human responses to sonic booms in France, UK and U.S. considered as acceptability criteria  
p0083 A71-13167

Subsonic jet aircraft noise and simulated sonic booms awakening effects on human sleep  
p0316 A71-26510

Simulated sonic booms and subsonic jet aircraft noise effects on human subjects of various ages during different sleep stages  
p0410 A71-32250

Public reactions to sonic booms [NASA-CR-1665]  
p0039 N71-10026

Health effects of sonic booms noting human reactions and performance, sleep deprivation and accident proneness [ISVR-TR-25]  
p0290 N71-20699

Effects of simulated sonic booms with high and low intensity vibrational components on tracking task performance and muscle tension in human subjects [NASA-CR-1781]  
p0437 N71-28247

Effects of auditory stimuli /sonic booms/ on sleep and after effects of sleep deprivation [ISAV-TR-40]  
p0494 N71-29437

Comparison of human sleep disturbance in three age groups by subsonic jet aircraft noise and simulated sonic booms [NASA-CR-1780]  
p0500 N71-30670

Human reactions to sleep deprivation by simulated sonic booms [ISVR-TR-41]  
p0542 N71-32865

**SONOGRAMS**

Eye and orbit A and B ultrasonography scanning technique, showing minimal echogram distortions in meridional arc scans  
p0632 A71-44367

**SOOT**

Aircraft piston and turbine engine soot extracts cancerogenic activity in hybrid mice  
p0324 A71-27724

**SORBENTS**

NT ABSORBENTS

Decontaminating methods for water regenerated from urine under space flight conditions by filtering water condensate through sorbents  
p0603 A71-42815

**SORPTION**

NT ADSORPTION

**SOUND**

U ACOUSTICS

SOUND ABSORPTION

U SOUND TRANSMISSION

SOUND DETECTORS

U SOUND TRANSDUCERS

SOUND FIELDS

Localized focused ultrasonic beam action on brain portions without skull trepanation in animals and man, visualizing sonic field by Tepler effect  
p0404 A71-31291

SOUND INTENSITY

Synthesized glottal consonant imitation by human voice, analyzing stimulus and response intensity levels relationship  
p0031 A71-12062

Acoustic priming of audiogenic seizures in mice, noting high susceptibility to convulsions under intense sound  
p0082 A71-13160

Acoustic intensity and exposure time duration for threshold lesion in cat brain  
p0128 A71-16283

Noise exposure index from mean sound intensity measurement, considering harmful effects on humans  
p0370 A71-29284

Sounds effects on natural nocturnal sleep of healthy humans with normal hearing  
p0452 A71-34479

Frequency distribution of heart sounds in precordium, studying slope of attenuation and relative peaking  
p0523 A71-38803

Comparative residual and reversed microinterval masking signals and human auditory perception capacity measurements using sound level estimates  
p0594 A71-42579

**SOUND LOCALIZATION**

Vascular effector structure in orientation reaction of peripheral vessels to sound, using plethysmogram and rheoencephalogram indications  
p0214 A71-21962

**SOUND MEASUREMENT**

U ACOUSTIC MEASUREMENTS

SOUND PERCEPTION

U AUDITORY PERCEPTION

SOUND PRESSURE

Auditory meatus sound pressure levels measurements in subjects with fabricated human ear molds with canal modifications, considering frequency responses and resonance  
p0127 A71-16279

Muscle reflex action role in contralateral remote masking at high auditory signal sound pressure levels  
p0205 A71-20803

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements  
p0322 A71-27629

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap  
p0454 A71-34699

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

Jet fighter-bomber aircraft noise survey, discussing sound pressure levels and frequency analysis during ground running, speech interference levels and ear protectors requirements

- Soyuz 9 spacecraft astronauts space flight effect on digestive system enzyme secretion function based on pre- and post-flight examinations

- p0241 A71-22206  
Soyuz 9 spacecraft astronauts otorhinolaryngological organs response to 18-day orbital flight, observing pathological changes from clinical post flight examination
- p0241 A71-22207  
Soyuz 9 spacecraft astronauts cardiovascular and respiratory systems responses to orthostatic effect after 18-day orbital flight from EKG measurements and sphygmography
- p0242 A71-22208  
Soyuz 9 spacecraft simulator prolonged confinement effect on human cardiovascular system functional state
- p0242 A71-22209  
Spaceflight effects on dry crepis capillaris seeds in five day orbit, showing chromosome rearrangements and increased mutagenic sensitivity
- p0246 A71-22563  
Orbital space flight effects on dry barley seeds, noting increased intracellular rearrangements
- p0246 A71-22564  
Biosatellite 3 monkey sleep and wake states based on visual and computer analysis of telemetered EEG data from earth orbital flight
- p0251 A71-23242  
In-flight monkey cardiovascular observations, discussing central venous pressure, urine volume, electrolyte imbalances and heart rate
- p0251 A71-23244  
German book on space medicine covering stresses on human organism during ascent into space, weightlessness and radiation effects, spacecraft environment, nutritional problems, etc
- p0257 A71-23753  
Space flight factors effects on human physiology and psychology, discussing spacecraft gaseous medium control, food supply, closed ecological systems and weightlessness effects
- p0354 A71-27876  
Postflight metabolism and renal function of Soyuz 6, 7 and 8 crewmembers, associating weight loss during flight with water and salt discharges
- p0358 A71-28409  
Calcium, potassium and iron loss by astronauts during Apollo space missions, using instrumental neutron activation analysis
- p0417 A71-33111  
Pyridoxine and serotonin metabolism changes and vestibular disorders observation in space flight
- p0423 A71-33677  
Turtles organs and tissues responses during Zond 5 and 7 lunar probes circumlunar flight
- p0423 A71-33678  
Afferent mechanisms of orthostasis in space flight, discussing plasma fluid volume reduction and cardiovascular adjustments on passive tilting [AIAA PAPER 71-883]
- p0481 A71-36634  
Astronaut chromosome aberrations, presenting peripheral blood leukocytes cytogenetic tests for pre and post space flight
- p0529 A71-39227  
Circumlunar space flight effects on spiderwort, dry seeds and onion bulbs germinating capacity, growth stimulation and chromosome rearrangements
- p0533 A71-39605  
Astronaut work capacity and adaptation during long term flight of space vehicle Soyuz 9
- p0565 A71-40259  
Radioprotectants effect on mice against ionizing radiation and tolerance to back-to-chest accelerations in space flight
- p0565 A71-40345  
Soviet papers on radiobiological aspects of reactivity of organisms in space flight covering radiation protection drugs, hypoxia, flight conditions, radiation pathology, etc
- p0595 A71-42699  
Human orthostatic and vestibular stability responses to weightlessness during extended space flights noting acceleration tolerance, physical efficiency, infection resistance and medication sensitivity
- p0600 A71-42790  
Physiological effects of 18 day space flight on crew of Soyuz-9
- p0110 N71-12308  
Neuroendocrine heart rate analysis techniques for cosmonauts during space flight
- [AD-714405] p0171 N71-16409  
Altitude effects on drug action in glucose metabolism and ACTH release in dogs
- p0223 N71-17660  
Technique for exercise to counteract effect of zero gravity on skeletal muscles of rhesus monkeys during extended orbital spaceflight
- [NASA-CR-117308] p0283 N71-20165  
Postflight metabolic and renal functional shifts in Soyuz spacecraft cosmonauts
- p0438 N71-28257  
Medical and biological problems of prolonged manned space flight
- [JPBS-53801] p0549 N71-33451  
Effects of space flight on bone metabolism investigated by analyzing peptide hormones in urine
- p0644 N71-36462  
Water-salt metabolism under space flight conditions and body weight loss
- [NASA-TT-F-14029] p0652 N71-37639  
Gas chromatographic study of trace contaminants in man-expired air, and effects of physiological stresses of space flights
- p0658 N71-38644  
SPACE FLIGHT TRAINING  
Soviet book on psychology and outer space covering astronauts experiences and emotions during training and flights, daily routine, equipment, food, habits and personal characteristics
- p0574 A71-40876  
Human olfactory perception of inspired air composition, noting sensory differentiation improvement with subsequent exposures in space flight training
- p0601 A71-42800  
Physiological responses of cosmonauts during training for prolonged space flights
- [AD-714404] p0171 N71-16410  
Training program for crew of long duration space station simulation test
- p0295 N71-20979  
Aspects of mouth disorders in space flight and space flight training
- [JPBS-53894] p0608 N71-34062  
SPACE GLOSSARIES  
AGARD Glossary of Aerospace Medical Terms

- SPACE ORIENTATION**
- Cortical vestibular projection zones in formation of conditioned reflexes and spatial orientation of cats  
p0009 A71-11054
- Proprioceptive gravity perception in Hymenoptera, noting joint located hair plates and constant angle space orientation in dark  
p0559 A71-39989
- Gravity receptors and locomotion orientation in Crustacea, discussing statocyst, stimulation, input and compensatory eye movements with respect to gravitational field  
p0560 A71-39992
- Functional anatomy of vertebrate gravity receptor system in spatial orientation, discussing otolith organs, sensory cells and hair cell topography in elasmobranch labyrinth  
p0560 A71-39994
- SPACE PERCEPTION**  
**NT AUTOKINESIS**
- Contour effects on brightness paradox, investigating contrast and perception of luminance gradients in space by constant sum estimation method  
p0091 A71-14377
- Visual slant averaging mechanism evidence from binocular disparator tests, considering gradient slant perception theory and neurophysiological averaging mechanism  
p0101 A71-15170
- Input-output transformations for judgments of area of circles and paired weights, using nonmetric scaling  
p0131 A71-16548
- Rotation direction perception by three-cue system for polar projection of dotted line, considering differential retinal velocity relative to axis of rotation  
p0131 A71-16550
- Orienting response and apparent motion toward and away from observer, using galvanic skin response and finger pulse volume studies  
p0188 A71-19515
- Figural change perception in apparent motion, considering resolving capabilities and visual stimuli for plastic deformation and shape rotation  
p0188 A71-19516
- Optical perception constancy of object size, developing mathematical models of accommodation, convergence and retinal image size  
p0195 A71-20120
- Mathematical simulation of visual distance perception capacity of man from ground reference landmarks observation during vertical flight  
p0195 A71-20121
- Space vehicle apparent distance magnitude estimation judgments, investigating stimulus range effects on response range and Stevens-type power function exponent  
p0196 A71-20217
- Intrareversal times for figures eliciting and not eliciting apparent depth in flat drawings  
p0199 A71-20383
- Stereoscopic depth perception mechanisms, studying stereoaomaly in binocular vision for crossed near-zero and uncrossed disparity ranges  
p0209 A71-21189
- Stereoscopic vision dependent on vertical grating of different spatial frequency of retinal images  
p0249 A71-23013
- Phi movement /pure motion/ perception between successively presented, granular, moving objects, dichoptic and random dot Julesz patterns  
p0259 A71-23987
- Saccadic and smooth pursuit eye movements modification to visual targets instantaneous velocity changes at varying intervals  
p0259 A71-23988
- Vestibular system functions physical analog model, predicting responses to motion inputs and possible problems for flight situations  
p0266 A71-24237
- Human visual system response to moving spatially periodic stimuli, developing mathematical model for motion perception  
p0272 A71-24999
- Human vision spatial and temporal resolution relationship, examining image contrast sensitivity and target size, viewing distance and luminance reduction effects  
p0273 A71-25000
- Human visual geometrical illusions and figural aftereffects, determining mechanism locations for spatial patterns physical and phenomenal properties  
p0361 A71-28464
- Behavioral effects of electrically induced EEG abnormalities in inferotemporal and occipital cortex in monkeys on visual pattern discrimination and successive spatial reversals  
p0365 A71-28806
- Spatial and temporal discrimination functions in vision, audition and touch, establishing and controlling stimuli by vibrators  
p0379 A71-30252
- Speed overestimation in intermittent illumination of moving bars and textures as function of frequency, using Piaget and brightness enhancement phenomena  
p0414 A71-32713
- Pilots illusory attitude perception causes, suggesting psychological and medical remedies  
p0415 A71-32830
- Horizontal-vertical velocity illusions relationship, noting independent determinants  
p0458 A71-35109
- Mathematical models of distance perception under flight conditions according to visible brightness of luminous surface  
p0460 A71-35166
- Human visual depth impression by gradient patterns, discussing experimental verification for hypothesis concerning perceptual economy principle  
p0462 A71-35252
- Stereoscopic vision and depth discrimination tests in cats, using conditioned suppression and rod-like shadow disparity stimuli  
p0534 A71-39958
- Perceived distance effect on induced movement from stereoscopic cues  
p0578 A71-41199
- Depth perception variability under central and peripheral illumination conditions, using Duncan multiple range test for data analysis  
p0579 A71-41481
- Relative size cue for facilitating stereoscopic depth perception in ambiguous disparity stereograms  
p0622 A71-43110
- Crossed retinal pathways in Siamese cats due to neuroanatomical defect impairing binocular vision and stereoscopic depth perception  
p0625 A71-43546
- Apparent movement due to closely spaced sequentially flashed dots in human peripheral field of vision,

- considering eye movement role p0627 A71-43970
- Stereoacuity role in pilot ability to land aircraft at minima, questioning adequacy of Verhoeff depth perception test administration conditions p0630 A71-44244
- Studying relation between depth perception and disparity cues in human vision. [AD-711660] p0045 N71-10685

 spike activity at subcortical visual centers in  
 cats p0513 A71-37443

**SPINAL CORD**

NT SPINE  
 Soviet book on spinal cord conducting paths  
 electrophysiology covering anatomical and clinical  
 data and neuron theory p0088 A71-13691  
 Ascending neuron vestibulo-ocular reflex arc,  
 emphasizing medial longitudinal fasciculus  
 p0094 A71-14763  
 Ascending pathways from spinal thermosensitive  
 region to hypothalamic temperature control center,  
 considering spinothalamic tract impulse frequency  
 temperature response and bilateral RF coagulations  
 p0099 A71-15094  
 Cyclic muscular voluntary movements, noting spinal  
 segmental apparatus function p0134 A71-16804  
 Antagonistic descending characteristics of medial  
 and lateral hypothalamic nuclei on excitation of  
 spinal cord motoneurons p0154 A71-18465  
 Human spinal reflex effects during static work,  
 suggesting cord segmental chiasmatic connections  
 interaction with spinobulbar-spinal tract  
 p0215 A71-21973  
 Ionizing radiation inhibition of spinal cord neurons  
 ribonucleic acid synthesis and enzyme activity in  
 mice, using autoradiographic method p0248 A71-22925  
 Ventral spinocerebellar tract cellular level control  
 transmission to motoneurons, considering  
 monitoring of inhibitory interneurons output  
 against excitatory input p0317 A71-26705  
 Rat irradiated spinal cord, detailing orthodromic  
 ventral root and monosynaptic reaction to rhythmic  
 and increasing frequency stimulation p0415 A71-32735  
 Cardiovascular responses to hypothalamic, spinal  
 cord and stellate ganglion stimulation as function  
 of intensity, pulse duration and frequency in cats  
 p0422 A71-33367  
 Bulbar and baroreceptor inhibition of spinal and  
 supraspinal sympathetic reflex discharges recorded  
 in cats from renal nerve

- p0484 A71-36689  
Temperature effects on spinal excitation and inhibition in cats, investigating spinal motoneurons discharge frequency
- p0489 A71-36890  
Spinal cord ascending neurons temperature sensitivity, comparing data from cats experiments with hydrothalamic temperature sensors sensitivity
- p0489 A71-36894  
H reflex changes in spinal marrow of intact and labyrinthectomized rats under radial accelerations
- p0528 A71-39221  
Sensory transmission of spinal heat and cold sensitivity in ascending spinal neurons of anesthetized cats
- p0572 A71-40630  
Differential lipid and phospholipid composition of white matter in brain, cervical, thoracic and lumbosacral sections of spinal cord and sciatic nerve in dogs
- p0577 A71-41074  
Healthy males immersion in water containing NaCl, determining modified gravitational field effect on motor functions
- p0600 A71-42792  
Mathematical model of spinal response to impact
- p0107 N71-12285  
Radial acceleration effects on spinal cord induced potentials of intact and labyrinthectomized rats
- p0550 N71-33456
- SPINDLES**  
Neuromuscular spindles sensory information processing, determining fibers selective data transmission functions by frequency meter and model for electrical and mechanical properties
- p0072 A71-12977  
Human neuromuscular activity description by model for muscle spindles functions, considering systems parameters oscillations relation to mean muscle stress
- p0072 A71-12978
- SPINE**  
Vasomotor reflexes latency in postganglionic cardiac and renal nerves in intact and spinalized cats, determining spinal mediation by electrophysiological methods
- p0098 A71-15093  
Aircrew radiological examination of spinal anatomical state, emphasizing traumatism due to vibration, acceleration, ejection and crashes
- p0137 A71-16936  
Spinal column radiographic examination after pilot ejection, discussing vertebral injuries detection
- p0362 A71-28510  
Inertial properties of segmented cadaver trunk for mathematical model of spinal response to impact in seat ejection acceleration injuries in high speed aircraft
- p0418 A71-33117  
Spine radiological examination for helicopter pilot fitness determination, discussing spinal weakness symptoms, special exercises, medical examinations and vibration reducing seat construction
- p0583 A71-41578  
Physiopathology and pathology of spinal affections in aerospace medicine

Predictive stochastic optimal control model for saccadic eye movements in visual target tracking based on target motion estimate p0305 A71-25142  
Stochastic identification method for transforming ECG and VCG data to approximate diagnosis, using computerized dipole models p0368 A71-29002  
Quantitative performance evaluation of man machine systems in stochastic environments, deriving simulation algorithm p0370 A71-29286  
Human operator models parameter estimation by stochastic approximation, considering continuous and sampled data models p0515 A71-37648  
Statistical characteristics of spontaneous electrical activity of nerve units that exhibit stochastic dead time following impulses

## STOL AIRCRAFT

## SUBJECT INDEX

- [NASA-TM-X-62007] p0164 N71-14917  
Cybernetics including models for statistical decision making, biomechanical systems, and complex stochastic system  
[JPRES-53531] p0539 N71-32088  
Stochastic model for observing motion of retinal image of target during visual fixation  
[NASA-CR-121640] p0610 N71-34071
- STOL AIRCRAFT**  
U SHORT TAKEOFF AIRCRAFT
- STOMACH**  
Stomach secretory function and histomorphological changes in dogs under stress p0243 A71-22263
- STONES (ROCKS)**  
U ROCKS
- STONY METEORITES**  
NT CARBONACEOUS METEORITES  
NT CHONDRITES  
NT ORGUEIL METEORITE
- STORABLE PROPELLANTS**  
Evaluation of storable propellants as sources of H<sub>2</sub>, O<sub>2</sub>, potable H<sub>2</sub>O, and heat for use in emergency life support system  
[NASA-TM-X-2321] p0497 N71-29903
- STORAGE BATTERIES**  
NT SILVER ZINC BATTERIES
- STORAGE STABILITY**  
Storage stability of human blood cholinesterases  
[AM-70-4] p0040 N71-10274
- STORAGE TANKS**  
Development of bellows-type tanks for long term storage of potable water for space shuttle p0617 N71-35273
- STRAIN DISTRIBUTION**  
U STRESS CONCENTRATION
- STRAIN FATIGUE**  
U FATIGUE (MATERIALS)
- STRAIN GAGES**  
Strain gage for in vivo recording of single and tetanic responses of skeletal muscles in mice during work in isometric regime p0151 A71-18378  
Strain gage attachment to rat heart ventricle in situ with fine stainless steel pins p0154 A71-18391  
Strain gage sensing element for measuring skeletal muscle contraction p0237 N71-19074
- STRAIN SOFTENING**  
U PLASTIC DEFORMATION
- STRATEGY**  
Response strategies in two-choice reaction task with continuous cost for time, confirming fast-guess model prediction p0318 A71-27008
- STREAMLINE FLOW**  
U LAMINAR FLOW
- STRENGTH OF MATERIALS**  
U MECHANICAL PROPERTIES
- STREPTOCOCCUS**  
Streptococcal flora in pharynx of men during prolonged enclosure noting concomitant hemolytic microbes p0150 A71-18369  
Streptococcus mitis bacterium in Apollo 12 lunar retrieved Surveyor 3 TV camera, discussing prelaunch deposition and survival p0626 A71-43815  
Pharyngeal streptococcal flora of men confined in sealed chamber, observing microbial transfer p0635 A71-44530  
Streptococcal flora of human oral cavity during prolonged confinement p0235 N71-19065  
Freezing and microwave effects on contaminated precooked frozen meal components [AD-717853] p0332 N71-22253
- STRESS (BIOLOGY)**  
Human muscle hardness as isometric stress force indicator p0031 A71-12065  
Biological and medical cybernetics approach to closed systems construction for continuous automatic monitoring and control of human physiological processes under harmful conditions p0076 A71-13000  
Psychobiological stress of prolonged weightlessness /bed rest/ in man in terms of adaptive homeostatic state and decreased sensory-motor-muscular input p0312 A71-26120
- STRESS (PHYSIOLOGY)**  
NT ACCELERATION STRESSES (PHYSIOLOGY)  
NT CENTRIFUGING STRESS  
Arterial sclerosis and stenosis physical factors, discussing connective and vascular tissue adaptive responses to mechanical stresses p0035 A71-12415  
Muscle simulation by information theory for statistical analysis of behavior based on gas thermodynamics methods, showing stress relation to motor units excitation p0072 A71-12979  
Muscle activity control mechanism in animals locked into external feedback loop, relating exciting stimulus to muscles stressed state p0073 A71-12980  
Telemetric ECG recordings of workers under high and strongly varying temperature conditions, discussing heart rate variations under heat stress p0079 A71-13065  
In-flight EEG recordings telemetry for pilot aptitude testing, showing pilot error relationship to brain overstraining p0079 A71-13067  
Audiogenic stress effects on susceptibility to cyto-destructive and oncogenic virus infections and host defense mechanisms p0081 A71-13152  
Personnel selection for emotionally and physically taxing situations by studying physiological responses to anticipated stressors and stress recovery p0143 A71-17607  
Photic stimulation at South Pole by EEG, showing no brain stress, undue tension nor anxiety during hypobaric hypoxia acclimatization p0143 A71-17608  
Internal osmotic balance and stress induced body fluid osmolality changes due to food or water deprivation, reporting on experimental results with rats p0210 A71-21750  
Stomach secretory function and histomorphological changes in dogs under stress p0243 A71-22263  
Critical period and habituation in control precision performance response to startle due to pistol shots p0305 A71-25181  
Space flight factors effects on human physiology and psychology, discussing spacecraft gaseous medium control, food supply, closed ecological systems and weightlessness effects p0354 A71-27876  
Jet pilots training technologies, discussing multimedia instruction, psychological stress reduction, self study, airborne video application and simulation [SAE PAPER 710477] p0355 A71-28342  
Respiratory air flow optimal regulation hypothesis, testing analytic prediction model results with experiment under stress and rest conditions p0375 A71-29491  
Heat acclimatization effects on sweat Na concentration over wide sweat rates range, discussing possible mechanisms p0376 A71-29498  
High motor stresses effects on muscle acetylcholine content, cholinesterase activity and localization, solitary contractions fusion and pessimal weakening p0383 A71-30553  
Systolic and diastolic blood pressures and urinary catecholamines under stress in normotensive and hypertensive subjects p0407 A71-31451  
Upright tilt stress effects on cardiac cycle phases in healthy subjects, using noninvasive techniques p0407 A71-31453  
German monograph on human mental performance under simultaneous mental and above normal muscular stress involving signal response in double choice reaction problems p0411 A71-32306  
Maximal treadmill stress test correlation with postexercise phonocardiogram, ECG and double master test in normal subjects, discussing third

- and fourth heart sound incidence p0413 A71-32538
- Frequency tolerance of vibration stress effects on human performance, considering body resonance, visual acuity, manual tracking and neural capacities p0454 A71-34701
- Physiological strains due to industrial heat stress, investigating heart rate and body temperature p0488 A71-36882
- Human heat stress evaluation indices, discussing acclimatization, dehydration, clothing, age, physical fitness, health and sex effects p0514 A71-37483
- Plasma renin activity in hypertonic and normotonic persons exposed to exogenous stress, comparing with measurements at rest and in orthostasis p0524 A71-38893
- Resting and postexercise apexcardiogram correlation with maximal treadmill stress test, noting mean a-wave ratios p0568 A71-40406
- Rat plasma creatine phosphokinase activity, hypothermia and stress, considering cold restraint p0587 A71-41938

 Helicopter pilot and passengers emergency survival, considering gravitation force, human tolerances, design factors, etc  
 p0017 A71-11376  
 Dormancy and survival - Conference, England, September 1968  
 p0188 A71-19521  
 Algae survival and growth under adverse conditions, considering high and low temperatures, desiccation and halophilism  
 p0188 A71-19522  
 Survival and rescue medical aspects, discussing water and food intake, dehydration, hygiene, sanitation, rest, injuries, heat and cold exposure, illnesses, rescue operations, etc  
 p0203 A71-20718  
 Germ survival and transport possibility in outer space, discussing spore survival under UV radiation  
 p0364 A71-28691  
 Bacterial spores survival under simulated lunar surface conditions, comparing results with vegetable cells experiments  
 p0571 A71-40567  
 Simulated Martian environment effects on terrestrial microorganisms survival  
 p0589 A71-42227  
 Streptococcus mitis bacterium in Apollo 12 lunar retrieved Surveyor 3 TV camera, discussing prelaunch deposition and survival  
 p0626 A71-43815  
 Survival training in Royal Netherlands Air Force  
 p0121 N71-13892  
 Survival of soil bacteria during prolonged desiccation  
 [NASA-CR-116807] p0228 N71-18562  
 Arctic field tests of prototype life rafts capable of protecting astronauts from cold water exposure for 72 hours  
 [NASA-CR-121449] p0554 N71-33718  
 Effects of dry heat and chemicals on long term survival rates of bacteria spores under varying temperatures and humidity conditions
- [NASA-CR-122088] p0645 N71-36467
- SURVIVAL EQUIPMENT**  
 Cylindrical transparent plastic antismoke hood with metallized dome, noting respiratory volume and air supply  
 p0024 A71-11599  
 Aerial delivery system for dropping emergency pumping equipment to distressed boats - Phase 1  
 [AD-712288] p0114 N71-12337  
 Aerial delivery system for dropping emergency pumping equipment to distressed boats - Phase 2  
 [AD-712289] p0115 N71-12338  
 Pliable frame for sunglasses in emergency survival kits  
 [NASA-CASE-XMS-06064] p0343 N71-23096  
 Voice communication, direction finding, and radio homing equipment development for search and rescue by air  
 [AD-715310] p0387 N71-24414  
 Aircraft survival equipment testing including maintainability, systems compatibility, human factors engineering, and reliability of rations, protective clothing, floats, and parachutes  
 [AD-720225] p0398 N71-26138  
 Design, development, and evaluation of emergency life support system to protect infants and small children during water survival situation  
 [FAA-AM-71-37] p0612 N71-34083
- SWEAT**  
 Water intake effects on human thermal sweat rate and composition in environmental chamber at specific temperature and humidity  
 p0026 A71-11670  
 Proprioceptive thermoregulatory mechanism of sweat secretion during positive and negative work in man  
 p0254 A71-23369  
 Heat acclimatization effects on sweat Na concentration over wide sweat rates range, discussing possible mechanisms  
 p0376 A71-29498  
 Human body temperature regulation under various hydration regimes during exercise, noting changes related to sweating  
 p0421 A71-33243  
 Maximal sweat evaporative heat loss and permitted work load measurements as function of temperature and clothing insulation  
 p0485 A71-36861  
 Human body weight and skin sweat gland water loss rates effects on thermoregulation  
 p0485 A71-36864  
 Human sweat gland duct filling and skin epidermal hydration behavior by analysis of time delays between seat emergence and steady state, using electrical stimulation  
 p0486 A71-36865  
 Tables and graphs of metabolic losses in whole body sweat determined by small skin area measurements  
 [NASA-CR-115031] p0433 N71-27647
- SWEAT COOLING**  
 Body temperature regulation and heat dissipation responses during continuous and intermittent exercise in man  
 p0314 A71-26354  
 Chill level index for skin temperature effects on rate of evaporative heat loss and thermal information to central controller during heavy work  
 p0487 A71-36876

Heatless desorption technology for carbon dioxide control in manned spacecraft  
 [NASA-CR-111815] p0225 N71-17945

Space suit body heat exchanger design composed of thermal conductance yarn and liquid coolant loops  
 [NASA-CASE-XMS-09571] p0275 N71-19439

Silicon radiation detecting probe design for in vivo biomedical use  
 [NASA-CASE-XMS-01177] p0275 N71-19440

System and component design and development for intermediate water recovery system for 3-man, earth orbital spacecraft on 1-year mission  
 [NASA-CR-114960] p0337 N71-22513

Patient monitoring system design and equipment specifications with physiological response display device and warning system  
 [NASA-CR-118645] p0396 N71-25942

Zero-gravity absorption refrigeration system design and performance testing for space station environmental control application  
 [NASA-CR-103114] p0401 N71-26390

Experimental system to detect acceptable levels of contamination for terminal sterilization process with unmanned landers  
 [NASA-CR-118870] p0434 N71-27794

Use of new philosophy of total learning process for improved crew member training  
 [AD-723313] p0537 N71-31741

Model for quantitatively examining performance of automatic machines with normal and disturbed functions in statistical decision making  
 p0539 N71-32089

Polyvinyl chloride membrane vapor diffusion urine water reclamation system design and performance tests for flight systems  
 [NASA-CR-111932] p0549 N71-33400

Damage control suit system to protect personnel in hazardous chemical, high temperature-humidity, and oxygen deficient environments  
 [AD-726698] p0650 N71-36502

Engineering psychology as component part of systems engineering  
 p0655 N71-37665

**SYSTEMS MANAGEMENT**

Investigating relationship of cybernetics and human management of large systems  
 [AD-715251] p0224 N71-17699

**SYSTOLE**

Abnormal left ventricular contour with late systolic murmur at apex preceded by click and with abnormal T waves in electrocardiogram  
 p0026 A71-11694

Epinephrine infusion in man, examining systolic time intervals and sympathetic stimulation in cardiovascular dynamics  
 p0141 A71-17440

Mitral valve systolic prolapse aggravation due to G acceleration and aeromedical significance  
 p0251 A71-23246

Investigating high frequency wave propagation in blood vessels as function of dynamic instability of brachial artery during systolic phase of auscultatory measurement  
 p0224 N71-17704

Phonocardiographic analysis of systolic noises in athletes  
 p0277 N71-19594

**SYSTOLIC PRESSURE**

Right and left ventricular systolic time intervals from high fidelity pulmonary arterial pulse wave measurements  
 p0145 A71-17875

Transthoracic measurements of left and right ventricular systolic pressures in anesthetized mice, using fiber optics and strain gage manometer techniques  
 p0254 A71-23371

Baroreflex regulation of pulse interval during bicycling exercise, using systolic pressure-pulse relation to express reflex sensitivity  
 p0367 A71-28951

Sitting and supine position effect on exercise tolerance, heart rate, systolic pressure and respiration rate in male subjects with coronary insufficiency, noting onset of angina pectoris  
 p0371 A71-29303

Systolic and diastolic blood pressures and urinary catecholamines under stress in normotensive and hypertensive subjects

p0407 A71-31451

Heart myocardium contractility assessment based on pressure rise rate relation to intraventricular pressure during isovolumic systole  
 p0457 A71-35039

Myocardial inotropism index, using left ventricle time varying pressure/volume ratio in systole  
 p0459 A71-35121

Heart rate and systolic pressure variability control through visual feedback of physiological information, obtaining respiratory measurements and ECG  
 p0574 A71-41037

Cardiac sympathetic nervous control of right ventricular pressure-flow dynamics in outflow tract in anesthetized dogs  
 p0581 A71-41522

Midsystolic clicks and papillary muscle dysfunction evidence in arteriosclerotic heart disease from ECG, carotid pulse tracing and phonocardiography  
 p0628 A71-44126

Early systolic clicks shown due to mitral valve prolapse by phonocardiography, cardiac catheterization and angiography  
 p0628 A71-44127

**T**

**TABLES (DATA)**

**BT CONVERSION TABLES**

Visual information industrial processing rates correction tables with digits, letters, Landholdt fringes and geometrical figures  
 p0088 A71-13525

Cold climate clothed human windchill tables, considering various heat transfer modes and skin temperature  
 p0528 A71-39205

Data tabulated from 274 stations in US and Canada on air pollution effects on materials  
 [PB-192446] p0048 N71-11071

Experimental dives for ADS-4 decompression schedules  
 [AD-711842] p0051 N71-11093

Air pollution report of federal facilities in metropolitan Baltimore intrastate air quality control region  
 p0053 N71-11108

Bed rest study to evaluate flight foods under weightlessness conditions  
 [NASA-CR-114780] p0118 N71-13435

Extravascular dehydration produced by bed rest simulating weightlessness - data tables

**TAPE RECORDERS**  
FM converter for tape recording of LP biological data p0100 A71-15163

Automated data acquisition and analysis during cardiac catheterization, using photokylographic and analog magnetic tape recording system in conjunction with digital computer p0368 A71-29003

**TARE (DATA REDUCTION)**  
U DATA REDUCTION

**TARGET ACQUISITION**  
Information feedback distortion and countertraining effects on learning and performance in lever displacement-target test p0018 A71-11415

Target detection facilitation by adjacent border control involving distance between inducing visual fields and duration of presentation p0018 A71-11416

Free and systematic horizontal visual search target detection times, testing human subjects with mixed stimulus schedules on high and low contrast targets p0187 A71-19463

Target aiming function /TAF/ susceptibility to vagotonic vegetative imbalance in male subjects after experimental kinetosis p0187 A71-19464

## SUBJECT INDEX

Mean retinal threshold gradient along horizontal meridian for dark and light adapted eyes, considering dynamic neural mechanism p0271 A71-24807

Speed and accuracy relation of hand movement aimed at target, showing error as function of length of uncontrolled terminal phase p0422 A71-33372

Extraretinal correction and memory for target position, suggesting corrective tendency of eye movements in dark p0519 A71-38286

Visual performance in simulated target acquisition tasks as function of flare-ignition altitude p0589 A71-42196

Two-region, continuous search, and n-region discrete models for allocating available effort to search for objects at sea [AD-712836] p0115 N71-12339

Optimization of human performance with night vision devices and related sensors [AD-713463] p0159 N71-14576

Geometrical considerations involved in military markers for search and rescue [AD-713861] p0171 N71-16446

Target detection by porpoises through emission of ultrasound echo locating signals [JPRS-52291] p0228 N71-18493

Comparison of target detection performance during alternating radar and sonar sensor display [AD-715777] p0229 N71-18741

Experimental determination of effects of terrain, target, and operator performance in conducting search and rescue missions from aircraft p0344 N71-23231

Two and three dimensional simulated target detection and recognition by pilots and TV gamma and gray scale transmission effects on target acquisition in flight simulators [AD-718382] p0348 N71-23750

Visual detection probability for moving target against static target [AD-720800] p0395 N71-25849

Sensory modes of flies, bees, and moths applied to target acquisition and tracking [AD-720412] p0397 N71-25958

Optimized search techniques with passive night vision devices [AD-722236] p0440 N71-28359

Effects of search area size on target acquisition with passive night vision devices [AD-722235] p0441 N71-28360

Effect of time between transmission, number of transmissions, and signal to noise ratios on sonar operators performance in long range target acquisition [AD-726741] p0618 N71-35279

Television display systems for slant range target detection and recognition [AD-727772] p0656 N71-37674

**TARGET RECOGNITION**  
Human performance in continuous pursuit tracking with temporary target obscurations, noting positional and velocity control systems p0187 A71-19461

Target field luminance, interstimulus interval and target-mask spatial separation effects on visual backward masking, estimating inhibitory region radius p0196 A71-20218

Target detection performance in simulated real time airborne reconnaissance mission, taking into account search time and image type, contrast and rate of motion p0209 A71-21227

Saccadic and smooth pursuit eye movements modification to visual targets instantaneous velocity changes at varying intervals p0259 A71-23988

Intermittent noise effects on performance of visual search tasks of varying complexity, measuring test subjects target detection time under various noise/time ratio conditions p0263 A71-24206

In-flight target reporting, analyzing quantitative meaning of ambiguous general modifier terminology as used by pilots in verbal sighting reports p0321 A71-27251

- Visual movement aftereffect storage absence of patterned surround for fixated visible target p0409 A71-31984
- Target and nontarget processing equivalence in visual search for item recognition and forced choice task, questioning Neisser hypothesis of preattentive screening p0410 A71-31985
- Autokinetic motion of luminous target, relating apparent visual movement to experienced displacement p0467 A71-35739
- Target value and exposure duration effects on recall in visual search tasks, discussing results in relation to previously reported inconsistencies p0471 A71-36103
- Prefrontal cortex lesions effect on trained anticipatory visual target fixation in cats, noting performance impairment in voluntary eye movement control p0563 A71-40174
- Human performance in color naming and word reading with and without Stroop interference [AD-716351] p0275 N71-19579
- Learning machines for statistical classifications of spectral patterns and graphical target recognition [AD-717219] p0302 N71-21649
- Experimental determination of effects of terrain, target, and operator performance in conducting search and rescue missions from aircraft p0344 N71-23231
- Two and three dimensional simulated target detection and recognition by pilots and TV gamma and gray scale transmission effects on target acquisition in flight simulators [AD-718382] p0348 N71-23750
- Development of model for analysis of human subject to detect targets through visual recognition [AD-721446] p0447 N71-28733
- Television display and artificial background for showing effects of contrast and motion on target detection [AD-722407] p0496 N71-29685
- Aircraft recognition accuracy and decision speed comparing single observers and four-man crews [AD-714213] p0536 N71-31625
- Analysis of ability of human subjects to visually identify targets at various distances of observation [FOA-2-C-2375-72] p0615 N71-35257
- Television display systems for slant range target detection and recognition [AD-727772] p0656 N71-37674
- Man machine techniques for processing data from sonar display systems [AD-727609] p0656 N71-37677
- TASK COMPLEXITY**
- Task difficulty involving simple and choice reaction time under stress of shock, threat of shock and noise p0018 A71-11414
- Performance decrement during bimodal vigilance task, discussing arousal and selective attention constructs p0092 A71-14741
- Alcohol effects on complex task performance including monitoring, compensatory tracking and mental arithmetic p0105 A71-15850
- Subjective and electromyographic estimation of fatigue and muscle activity physiological levels, considering isometric muscle contraction task endurance p0187 A71-19458
- Complex psychomotor task time duration relation to subtask performance and psychological measures p0187 A71-19459
- Human performance in pursuit tracking task with realistic structured and blank backgrounds p0187 A71-19460
- Relevant cue placement effects in concept identification tasks employing enforced verbal encoding p0188 A71-19514
- Intermittent noise effects on performance of visual search tasks of varying complexity, measuring test subjects target detection time under various noise/time ratio conditions p0263 A71-24206
- Tasks with subject guiding vehicle at arbitrary speed along tolerance band defined course, considering prediction model for velocity-bandwidth relationship p0465 A71-35437
- Human performance as function of task and environmental factors, using psychological and physiological references p0589 A71-42193
- Alpha activity parameters during human performance of motor tasks with open and closed eyes p0622 A71-43108
- Short term central fatigue as causal factor of delayed psychological refractory period in multiple choice visual signal tasks p0626 A71-43864
- Information capacity of discrete motor responses compared for different directions and amplitudes of motion [AD-710713] p0044 N71-10536
- Model for task interference with pilot performance in multivariable manual control systems [NASA-CR-1746] p0398 N71-26160
- Work environment and task factor effects on long term aircrew effectiveness [AD-722417] p0496 N71-29682
- TASK SEQUENCERS**
- U CONTROL EQUIPMENT
- U SEQUENTIAL CONTROL
- TASKS**
- NT AUDITORY TASKS
- NT VISUAL TASKS
- Three phase code transformation task reliability and correlation, representing general/factor analytic intellectual abilities and personality characteristics p0527 A71-39073
- Application of parallel tasks for measuring psychological stress noting pilot performance p0221 N71-17239
- Operator performance and control panel layout for discontinuous tasks based on sequence of use, functional grouping, and location by frequency and importance [AD-727791] p0656 N71-37676
- TASTE**
- Evoked cortical responses to taste solutions of acid and salt applied to human tongue surface, using averaging technique p0366 A71-28887
- Taste modalities identification by factor analysis technique based on correlation matrix between independent stimuli p0562 A71-40073
- TAXONOMY**
- Human performance reliability data system using taxonomic structure for classifying behavioral studies and predicting man-machine performance p0421 A71-33318
- Taxonomy of human performance including mean values of performance measures and relevant factor loadings for variety of tasks [AD-721217] p0432 N71-27477
- TAYLOR MANIFEST ANXIETY SCALE**
- Correlation of impulse level based on manifest anxiety and recognition of peripherally introduced visual stimuli against moving background [RAE-LIB-TRANS-1552] p0392 N71-25146
- TEACHING**
- U EDUCATION
- TEACHING MACHINES**
- Computer assisted electronics instruction effectiveness in comparison with classroom training [AD-720309] p0436 N71-28190
- TECHNIQUES**
- U METHODOLOGY
- TECHNOLOGIES**
- NT BIOTECHNOLOGY
- NT MILITARY TECHNOLOGY
- TECHNOLOGY ASSESSMENT**
- Technology assessment of research in biological and medical engineering including problem areas [NASA-CR-117487] p0299 N71-21092
- Regenerable portable life support systems concepts for EVA use in 1980 and technology assessment [NASA-CR-114320] p0434 N71-27788
- Functional technical and medical advantages and disadvantages of experimental, one-person,

- two-person, and multiple-person pressure chambers for hyperbaric oxygenation p0658 N71-37818
- TECHNOLOGY TRANSFER**  
 Research progress in technology transfer by NASA Biomedical Application Team [NASA-CR-111131] p0044 N71-10541  
 Profile construction, cost benefits, economics, and user surveys in transfer of technology and selective dissemination of information p0347 N71-23506  
 Technology transfer and applications in medicine and biology [NASA-CR-119181] p0499 N71-30290  
 Transfer of aerospace technology to nonaerospace problems -NASA project [NASA-CR-121638] p0610 N71-34072  
 Applying principles of pattern recognition technology to analysis of EEG [AD-726473] p0646 N71-36476  
 Aerospace reliability techniques and their application to biomedical devices [NASA-TM-X-67942] p0649 N71-36494
- TECHNOLOGY UTILIZATION**  
 Ultrasonic Doppler techniques in medical diagnosis, measuring ultrasonic probes directivities by echo amplitudes from various target configurations p0091 A71-14422  
 Laser applications in biology and medicine covering surgery, ophthalmology, microorganisms, viruses, tissue culture, tumor eradication, radiation hazards, etc p0091 A71-14722  
 NASA program for aerospace technology application to medicine p0102 A71-15281  
 Laser systems for biomedical applications, considering ophthalmology, dermatology, surgery, biological and cellular research, analytical and diagnostic medicine p0191 A71-19782  
 Space research utilization in medicine, discussing remote blood pressure measurements, seismocardiography visual analysis, sterilization procedures and equipment for physically handicapped p0271 A71-24754  
 Cockpit display, discussing aircraft operators delay in use of head-up displays, area map navigation, CRT and electroluminescent readouts p0458 A71-35110  
 Applications of aerospace technology in biology and medicine [NASA-CR-115888] p0160 N71-14601  
 NASA technology utilized in medical diagnostic monitoring instruments [NASA-TM-X-65418] p0166 N71-15895  
 Biomedical technology applications and operational description of Application Team Program [NASA-CR-116130] p0172 N71-16488  
 Operational description of Summer Institute for Biomedical Research in Technology Utilization [NASA-CR-116410] p0221 N71-17344  
 Advanced application of computers for biomedical research in manned space flight [NASA-SP-5078] p0433 N71-27719  
 Technology utilization in biomedical areas, particularly for infants and handicapped persons [NASA-CR-121627] p0610 N71-34070  
 Transfer of aerospace technology to nonaerospace problems -NASA project [NASA-CR-121638] p0610 N71-34072  
 Utilization of electronic and computerized techniques for undergraduate medical education [RH-6180-NLM] p0612 N71-34081
- TEFLON (TRADEMARK)**  
 Optical properties of metallized fluorinated ethylene propylene Teflon films with various thicknesses, discussing suitability as spacecraft thermal control surface [ASME PAPER 71-AV-35] p0479 A71-36402  
 LiF-Teflon disks laminated between plastic layers of identification pass for personnel accident dosimeters p0165 N71-15749
- TEKTITE PROJECT**  
 Blood plasma volume decrease, red cell mass and survival measurements in aquanauts of Tektite I at prolonged habitation p0312 A71-26123
- Emergency surface decompression and treatment procedures for project Tektite aquanauts, determining safe interval and schedules for return to habitat on ocean floor p0417 A71-33110  
 Tektite II program of underwater research as future manned space flight operations model, discussing mission structure, crew selection and communications [AIAA PAPER 71-828] p0455 A71-34718  
 Manual for human psychometric data acquisition and human reactions to psychological stress in Tektite project [AD-721363] p0446 N71-28549  
 Human reactions to psychological stresses of confined environments using Tektite project aquanauts [AD-721364] p0446 N71-28550

## TEMPERATURE EFFECTS CONTD

## SUBJECT INDEX

- p0143 A71-17609  
Water cooled head cap for heat stress amelioration in subjects working in warm environments
- p0143 A71-17611  
Venomotor responses of forearm veins to local and remote thermal stimuli to skin in exercising man
- p0152 A71-18383  
Temperature effect in sodium fluoroacetate protective action mechanism for mice irradiation
- p0182 A71-18968  
Dark adaptation in humans under Arctic conditions, noting role of physiological disorders
- p0213 A71-21958  
Pulmonary vasoconstrictor response to temperature dependent acute hypoxia, using isolated rat lungs with heparinized homologous blood under constant volume pulsatile inflow
- p0261 A71-24124  
Ambient temperature effects on flicker fusion threshold, using constant stimuli and forced choice methods for determination of test subjects sensory sensitivity to heat and cold exposure
- p0262 A71-24184  
Pathophysiological aspects of microwave irradiation, considering thermal response of human and animal organisms to electromagnetic radiation exposure
- p0274 A71-25079  
Thermal environment effect on human skin temperature and final temperature and tolerance time prediction from early exposure
- p0311 A71-26117  
Temperature-respiration relations from isolated rat skeletal muscle mitochondria oxygen consumption measurements
- p0315 A71-26408  
Alternating acceleration and increased ambient temperatures effects on time interval perception and muscular effort estimation
- p0320 A71-27164  
Heat balance of human body submerged in water, determining body temperature reduction as function of ambient temperature
- p0361 A71-28508  
Mars physical conditions compared to earth, simulating Martian conditions and low temperature and UV effects on proteins
- p0363 A71-28688  
Adrenocortical function in garden dormouse during autumnal preparation for hibernation, considering environmental temperature factors
- p0371 A71-29315  
Microwave exposure effects on organisms and biological functions responses and thermal stresses as function of specific frequencies, power density and environmental temperature
- p0372 A71-29325  
Skin temperature sensitivity factors, discussing neural correlates of thermal sensation and skin receptors causing thermal stimulation sensitivity
- p0379 A71-30253  
Temperature, odor mixing and stimulation frequency effects on olfactory receptor potential of fly *Lucilia sericata*
- p0383 A71-30568  
Temperature effects on spontaneous electrical and contractile activity of smooth muscle cells of portal vein in rats
- p0427 A71-34110  
Static feed water electrolysis system of life support system, discussing current density, operating time and temperature effects on voltage for various electrochemical cell sizes
- p0477 A71-36392  
[ASME PAPER 71-AV-25]  
Squirrel monkeys midbrain reticular formation direct thermal stimulation effects on physiological or behavioral thermoregulatory responses
- p0485 A71-36860  
Maximal sweat evaporative heat loss and permitted work load measurements as function of temperature and clothing insulation
- p0485 A71-36861  
Hypothalamic unit activity relation to thermoregulation, investigating preoptic area response to local and peripheral temperature changes
- p0486 A71-36869  
Preoptic anterior hypothalamic area temperature sensitive neurons, showing integrative center for thermoregulation
- p0486 A71-36870  
Male and female physiological responses to heat stress, discussing sweating, skin and body temperature, heart rate and metabolism
- p0486 A71-36871  
Chill level index for skin temperature effects on rate of evaporative heat loss and thermal information to central controller during heavy work
- p0487 A71-36876  
Impulse skin temperature encoding in primate cutaneous thermoreceptors in dynamic thermal conditions
- p0487 A71-36877  
Temperature regulation during exercise by proportional control, investigating skin temperature effect on set point temperature, sweat rate and skin thermal conductance
- p0487 A71-36879  
Brain temperature change effects on cardiovascular responses, examining heart rate and systemic arterial blood pressure
- p0488 A71-36880  
Cats preoptic and skin temperature change effects on posterior hypothalamic neurons
- p0489 A71-36888  
Pilocarpine induced synchronous sweat expulsions, noting frequency linear dependence on ambient temperature with and without generalized sweating
- p0489 A71-36889  
Temperature effects on spinal excitation and inhibition in cats, investigating spinal motoneurons discharge frequency
- p0489 A71-36890  
Water temperature effect on body thermoregulation in swimming, comparing swimmers responses to track man on treadmill at same metabolic rate
- p0489 A71-36893  
Spinal cord ascending neurons temperature sensitivity, comparing data from cats experiments with hypothalamic temperature sensors sensitivity
- p0489 A71-36894  
Cutaneous circulation control by venous thermoregulatory reactions to temperature variations, using dog saphenous veins perfused with autologous blood or Krebs-Ringer solution
- p0490 A71-36898  
Heat transfer coefficients calculation for human body in cold water from heat balance equations, comparing with free convection coefficients in cross-flowing water
- p0490 A71-36900  
Human heat stress evaluation indices, discussing acclimatization, dehydration, clothing, age, physical fitness, health and sex effects
- p0514 A71-37403  
Thermal behavior simulation of cooling biological system, describing heat generation and transfer at normothermic to hibernating body temperatures with mathematical model
- p0515 A71-38199  
Physiological responses to head and neck vs trunk and leg cooling under hyperthermic stress
- p0567 A71-40356  
Sensory transmission of spinal heat and cold sensitivity in ascending spinal neurons of anesthetized cats
- p0572 A71-40630  
Cutaneous and intestinal blood flow differentiation during hypothalamic heating and cooling in anesthetized dogs
- p0572 A71-40632  
Low temperature effects on succinate oxidase activity of mitochondrial membranes in hibernating squirrels
- p0573 A71-40854  
Ambient temperature effects on spontaneous reawakening of ground squirrels during awakening after hibernation
- p0594 A71-42582  
Gaseous medium composition and multiple freezing temperature effects on catalase activity
- p0605 A71-42831  
Combined heat, noise and vibration stress effects on human performance and physiological functions including heart rate, body temperature and mental arithmetic
- p0630 A71-44247

SUBJECT INDEX

TEST FACILITIES

- Preoptic and environmental temperature effects on hibernator thermoregulatory responses, noting changes in metabolic rates p0632 A71-44301
- Local and central body temperature effects on human cutaneous venomotor reflexes, monitoring venous wall tension by measuring hand dorsal veins pressure during temporary arrest of hand circulation p0638 A71-44777
- Biochemical regulation of sleep-wake and temperature cycles in monkeys p0069 N71-11828
- Effect of immersion at different water temperatures on graded exercise performance in man [PB-194822] p0219 N71-17062
- Cold exposure effects on homing performance of trained pigeons [DRET-723] p0282 N71-20148
- Survival of Antarctic desert soil bacteria exposed to various temperatures and to three years of continuous medium-high vacuum [NASA-CR-117313] p0283 N71-20169
- Temperature requirements for thermophilic bacteria growths in soil and by culture techniques [NASA-TT-F-13650] p0349 N71-23978
- Effects of atmospheric gas and moisture concentration, temperature, pressure, and wind velocity on human performance and skin water loss rate [NASA-CR-115024] p0401 N71-26385
- Environmental chambers for testing human work performance under thermal stress [AD-721595] p0441 N71-28447
- Moisture effects on thermal inactivation of microbial spores for spacecraft sterilization [NASA-CR-121920] p0612 N71-35239
- Effects of exercise on elevation of body temperature in human subjects and response of subject to temperature variations [NASA-TT-F-13972] p0648 N71-36486
- TEMPERATURE FIELDS**  
 U TEMPERATURE DISTRIBUTION  
**TEMPERATURE GRADIENTS**  
 Time constant for perspiration onset in humans exposed to stepwise increase in external heat load p0490 A71-36897
- Effects of dry heat and chemicals on long term survival rates of bacteria spores under varying temperatures and humidity conditions [NASA-CR-122088] p0645 N71-36467
- TEMPERATURE INDICATORS**  
 U INDICATING INSTRUMENTS  
 U TEMPERATURE MEASURING INSTRUMENTS  
**TEMPERATURE INSTRUMENTS**  
 U TEMPERATURE MEASURING INSTRUMENTS  
**TEMPERATURE INVERSIONS**  
 NT CENTRIFUGING STRESS  
 NT INTERFACIAL TENSION  
 NT STRUCTURAL STRAIN  
 Atmospheric circulation and aerosol pollution transport noting role of temperature inversions [IFA-RDP-36] p0542 N71-32863
- TEMPERATURE MEASUREMENT**  
 Mammalian hair effectiveness as insulation, using biotelemetry for deep body temperature measurement p0008 A71-10886
- Temperature telemetry for pyrogenic drugs testing on dogs p0009 A71-10977
- Left ventricular volume and cardiac work evaluation by thermodilation technique, employing thermocatheter for temperature measurement [ASME PAPER 70-WA/TEMP-2] p0089 A71-14102
- High sensitivity portable two channel apparatus for brain temperature measurements using small glass insulated thermistors p0155 A71-18469
- Snake IR receptor sense organs tested by IR stimulus from carbon dioxide laser, suggesting receptor operation on thermal principle p0411 A71-32296
- Mean body temperature computation in neutral and hot environments from rectal and skin temperatures p0584 A71-41723
- TEMPERATURE MEASURING INSTRUMENTS**  
 NT THERMISTERS  
 Human body thermography for studying physiological changes due to exercise, anoxia or accelerations p0147 A71-18189
- Electromagnetic fields induction in biological tissues, recording energy absorption temperature distribution in phantom models with thermograph camera p0307 A71-25289
- Continuous recording of human rectal temperature under extreme environmental conditions, using battery powered thermographs with thermistor probes p0527 A71-39041
- TEMPERATURE PHOTOMETERS**  
 U PHOTOMETERS  
 U TEMPERATURE MEASURING INSTRUMENTS  
**TEMPERATURE PROFILES**  
 Multilayered spherical model induced fields and static heating patterns, approximating primate cranial structure EM plane wave irradiation p0307 A71-25287
- TEMPERATURE SENSORS**  
 NT THERMISTORS  
**TEMPERATURE TRANSDUCERS**  
 U TEMPERATURE MEASURING INSTRUMENTS  
**TENNESSEE**  
 Chattanooga interstate air quality control region p0053 N71-11106
- TERMINAL FACILITIES**  
 Analysis of medical, psychological, and environmental aspects of mass air transportation [FAA-AM-71-10] p0493 N71-29308
- TERMINOLOGY**  
 In-flight target reporting, analyzing quantitative meaning of ambiguous general modifier terminology as used by pilots in verbal sighting reports p0321 A71-27251
- TERNARY SYSTEMS (DIGITAL)**  
 U DIGITAL SYSTEMS  
**TERRRESTRIAL MAGNETISM**  
 U GEOMAGNETISM  
**TEST BEDS**  
 U TEST EQUIPMENT  
**TEST CHAMBERS**  
 NT ANECHOIC CHAMBERS  
 NT HYPERBARIC CHAMBERS  
 NT PRESSURE CHAMBERS  
 NT VACUUM CHAMBERS  
 Fatigue measurements in hot working conditions on subjects wearing self contained breathing apparatus in heat chamber p0451 A71-34361
- Manned 90 day test of closed chamber regenerative life support system simulator, describing subsystems, crew nutrition, hygiene, maintenance and leisure activities p0588 A71-42043
- Environmental chambers for testing human work performance under thermal stress [AD-721595] p0441 N71-28447
- TEST EQUIPMENT**  
 Chairs, stands and swings for vestibular and visual analyzer tests p0010 A71-11073
- Test equipment for evaluating human higher nervous activity, noting use for radiotelegraphist selection p0515 A71-37775
- TEST FACILITIES**  
 NT ANECHOIC CHAMBERS  
 NT ENVIRONMENTAL LABORATORIES  
 NT WIND TUNNELS  
 Chronic and acute gamma irradiation facilities used in animal experiments simulating steady cosmic radiation and powerful solar flare radiation expected in prolonged space flight p0405 A71-31313
- Space station regenerative life support system 90-day manned test in simulator, discussing objectives, facilities and procedures [ASME PAPER 71-AV-38] p0480 A71-36405
- Health and Safety Laboratory Fallout Program data from world monitoring activities for 1 June 1970 - 1 Sept. 1970 [HASL-237-APP] p0289 N71-20612
- Human factors engineering mock-up facility value as management tool [AD-717026] p0291 N71-20797
- Biodynamics, aerospace medicine, acceleration stresses, human tolerances, centrifuges, test facilities, and annotated bibliography

## TESTERS

## SUBJECT INDEX

- [AGARDOGRAPH-150] p0344 N71-23337
- TESTERS**  
 U TEST EQUIPMENT
- TESTES**  
 Oxygen and high altitude pressure effects on rabbit testicular functions [AD-715209] p0225 N71-17885
- TESTING MACHINES**  
 U TEST EQUIPMENT
- TEXTILES**  
 Data tabulated from 274 stations in US and Canada on air pollution effects on materials [PB-192446] p0048 N71-11071  
 Development of space suits for long duration space missions to include wardrobe definition, fabric usage, laundry system concepts, wardrobe packaging, and crewman sizing [NASA-CR-115044] p0429 N71-26808
- THALAMUS**  
 Midbrain reticular neurons discharges in response to electrical stimulation of posterior ventral nucleus of thalamus p0001 A71-10072  
 Brain stem mechanisms underlying visual discrimination in rhesus monkeys subjected to bilateral lesions of the inferotemporal cortex, posterior thalamus or midbrain p0366 A71-28807  
 Cat thalamus ventrolateral nucleus neuronal discharges during waking and slow and fast wave sleeps p0454 A71-34689  
 Visual and auditory evoked potentials enhancement in cats using cryogenic blockage of nonspecific thalamo-cortical system in inferior thalamic peduncle region p0458 A71-35112  
 Arousal and activation in nonspecific reticulo-thalamo-cortical systems due to underlying emotion expressed through cortical, visceral and somatomotor channels p0564 A71-40247  
 Posterolateral thalamus nucleus neurons response to visual, acoustic and somatic stimuli in cats with microelectrodes p0594 A71-42578  
 Postsynaptic de- and hyperpolarization potential development mechanisms in wakeful cats cortical neurons during LF thalamic structure stimulation p0638 A71-44720
- THAWING**  
 U MELTING
- THEMIS PROJECT**  
 Forty eight hour continuous work-sleep loss effects on human performance - Themis project [AD-722816] p0504 N71-31236
- THEOREMS**  
 NT BAYES THEOREM
- THEORETICAL PHYSICS**  
 Application of image intensifiers developed in high energy physics to some problems in biology [PURC-4159-1] p0165 N71-15884
- THERAPY**  
 NT CHEMOTHERAPY  
 NT PSYCHOTHERAPY  
 NT RADIATION THERAPY  
 Ultrasonics applications in surgery, therapy and diagnosis, discussing physical principles, piezoelectric transducers, tissue acoustic properties and measurement methods p0086 A71-13351
- THERMAL ABSORPTION**  
 Thermal control using nitrogen, circuit board, switching, flexible, transformer and segmented evaporator heat pipes [ASNE PAPER 71-AV-29] p0478 A71-36396
- THERMAL AGITATION**  
 U THERMAL ENERGY
- THERMAL COMFORT**  
 Antiexposure suits physiological evaluation for subjective comfortableness, oral and skin temperatures and pulse rate, determining optimum environmental temperature p0461 A71-35195  
 Humid operative temperature as index for biophysical thermometry and thermal comfort sensation prediction p0489 A71-36887
- Aircraft pilot thermal environment, thermal comfort and cockpit air conditioning [ARC-CP-1094] p0220 N71-17096
- THERMAL CONDUCTIVITY**  
 Vision mathematical model based on homogeneous media thermal conductivity equation p0194 A71-20112
- THERMAL CONTROL COATINGS**  
 Optical properties of metallized fluorinated ethylene propylene Teflon films with various thicknesses, discussing suitability as spacecraft thermal control surface [ASNE PAPER 71-AV-35] p0479 A71-36402
- THERMAL CONVECTION**  
 U FREE CONVECTION
- THERMAL DECOMPOSITION**  
 U PYROLYSIS
- THERMAL EFFECTS**  
 U TEMPERATURE EFFECTS
- THERMAL EMISSION**  
 NT THERMIONIC EMISSION  
 Heat emission reduction into atmosphere [BNWL-SA-3052] p0107 N71-12291
- THERMAL ENERGY**  
 Laser-induced retinal damage model based on energy interaction modes, including thermal and acoustic transients, vaporization and dielectric breakdown p0469 A71-35955  
 Integrated waste collection and purification system using radioisotopes for thermal energy in 180-day space mission life support system [ASNE PAPER 71-AV-4] p0474 A71-36371  
 Thermal and electric energy transfer within life support systems [NASA-TN-D-6207] p0223 N71-17592
- THERMAL ENVIRONMENTS**  
 Human tolerances to thermal environment extremes in aerospace activities p0034 A71-12388  
 Thermal environment effect on human skin temperature and final temperature and tolerance time prediction from early exposure p0311 A71-26117  
 Human temperature tolerance during exposure to hot and cold environments, using skin temperature as indicator p0487 A71-36875  
 Respiratory aspects of hyperbaric thermal environments, considering heat exchange by convection p0487 A71-36878  
 Time constant for perspiration onset in humans exposed to stepwise increase in external heat load p0490 A71-36897  
 Aircraft pilot thermal environment, thermal comfort and cockpit air conditioning [ARC-CP-1094] p0220 N71-17096  
 Biological effects of thermal environments on dispersal of blue green algae and microorganisms in Iceland and Surtsey p0225 N71-17989  
 Investigating biological effects of acid thermal waters on growth of organisms in Iceland p0225 N71-17990  
 Heat tolerance of athletes during muscular exercise in various thermal environments p0287 N71-20366  
 Thermal conditions under varying degrees of physical work inside pressure suits [CEA-N-1407] p0611 N71-34078
- THERMAL INSULATION**  
 Mammalian hair effectiveness as insulation, using biotelemetry for deep body temperature measurement p0008 A71-10886  
 Maximal sweat evaporative heat loss and permitted work load measurements as function of temperature and clothing insulation p0485 A71-36861  
 Anatomical-physiological characteristics of heat transfer in human body for developing insulating suit p0551 N71-33459
- THERMAL NEUTRONS**  
 Deuteration in slow neutron radiography of biological media [DP-1229] p0290 N71-20729
- THERMAL POWER**  
 U TURBOGENERATORS

- THERMAL PROPERTIES**  
 U THERMODYNAMIC PROPERTIES  
**THERMAL PROTECTION**  
 Thermal design of space experiment by analytical model for temperature regime acceptable to all experimental elements p0019 A71-11454  
 Antiheat protective clothing effectiveness for aircraft crews, discussing outer coating reflectivity and emissivity, insulating layer and internal surface p0136 A71-16934  
 Flight personnel green protection system from nuclear weapons high intensity thermal effects p0143 A71-17609  
 Mechanical design of frictionless bimetal actuated louver system for spacecraft thermal control [ASME PAPER 71-AV-39] p0480 A71-36406  
 Design and performance of extravehicular astronaut thermal protection gloves [NASA-CR-114974] p0349 N71-24138  
 Arctic field tests of prototype life rafts capable of protecting astronauts from cold water exposure for 72 hours [NASA-CR-121449] p0554 N71-33718
- THERMAL RADIATION**  
 Spacecraft sterilization by microbial inactivation, comparing thermoradiation and dry heat methods p0146 A71-17959  
 Wide heat load range space radiator design for space mission environmental control/life support system, using stagnation control [ASME PAPER 71-AV-5] p0474 A71-36372  
 Thermoradiation studies on microorganisms for spacecraft sterilization [NASA-CR-111309] p0167 N71-16022  
 Bacterial thermoradiation sterilization models and computerized bioassay system for Apollo biological data [NASA-CR-116420] p0227 N71-18056
- THERMAL RADIO EMISSION**  
 U THERMAL EMISSION  
**THERMAL SHOCK**  
 Physiological effects of heat exchange between human organism and ambient medium by evaporation, radiation, conduction and convection p0024 A71-11597  
 Thermal shock physiological effects, determining skin-air convective heat exchange coefficient p0147 A71-18190
- THERMAL STABILITY**  
 Medications stability regarding high temperature, humidity, ambient gas composition, increased oxygen content, radiation, vacuum, vibrations and accelerations p0014 A71-11144  
 Low cost directly coupled differential amplifier with thermodynamic drift stabilization for biological studies p0267 A71-24444  
 Portable environmental control and life support system for astronaut in and out of spacecraft [NASA-CASE-XMS-09632-1] p0060 N71-11203  
 Cooling system and thermal balance data for long duration operation of space station simulator p0295 N71-20974
- THERMAL STRESS**  
 Combined environmental stress effects on human performance p0287 N71-20362
- THERMAL STRESSES**  
 Effects of thermal stress, exposure time, and acclimatization on human performance [AD-711012] p0041 N71-10293
- THERMIONIC EMISSION**  
 Electrostatic precipitation of lithium ions for trace contaminant removal from spacecraft cabin atmospheres hindered by oxidation caused by thermal emission [AD-716864] p0300 N71-21486
- THERMIONIC REACTORS**  
 U NUCLEAR ROCKET ENGINES  
**THERMISTORS**  
 Validity and reproducibility of cardiac output determination by thermodilution, using dual thermistor catheter introduced in pulmonary artery p0422 A71-33366  
 Continuous recording of human rectal temperature under extreme environmental conditions, using battery powered thermographs with thermistor probes p0527 A71-39041  
 Microthermistor measurements of temperature distribution on body surface of dolphins p0332 N71-22216
- THERMO-PHOTOVOLTAIC GENERATORS**  
 U THERMOELECTRIC GENERATORS  
**THERMOAEROELASTICITY**  
 U THERMOELASTICITY  
**THERMOCOUPLES**  
 Left ventricular volume and cardiac work evaluation by thermodilution technique, employing thermocatheter for temperature measurement [ASME PAPER 70-WA/TEMP-2] p0089 A71-14102
- THERMODYNAMIC CYCLES**  
 NT BRAYTON CYCLE  
**THERMODYNAMIC PROPERTIES**  
 NT CRITICAL TEMPERATURE  
 NT MELTING POINTS  
 NT THERMAL CONDUCTIVITY  
 NT THERMAL STABILITY  
 NT VAPOR PRESSURE  
 Visual cells outer segments structure and retinal photoreception characteristics, describing open thermodynamic system p0002 A71-10231  
 Human legs thermal response during cooling for refrigeration anesthesia, deriving analytical model for temperature level prediction as function of time p0100 A71-15160
- THERMOELASTICITY**  
 Thermoelastic heat release in muscular twitch final phase, discussing energy storage as function of active or passive muscular tension p0308 A71-25626
- THERMOELECTRIC GENERATORS**  
 Radioisotope thermoelectric generators in micro/milliwatt power range for biomedical applications p0525 A71-38912
- THERMOGRAPHS**  
 U RECORDING INSTRUMENTS  
 U TEMPERATURE MEASURING INSTRUMENTS  
**THERMOGRAPHS**  
 U RECORDING INSTRUMENTS  
 U TEMPERATURE MEASURING INSTRUMENTS  
**THERMOLUMINESCENCE**  
 Thermoluminescent dosimeter for skin basal layer dose measurement in mixed beta and gamma radiation fields p0465 A71-35450
- THERMOMETERS**  
 Simple sensitive multichannel servo system thermobarometer for volume changes corrections, noting adaptation to five channel closed circuit respiratory apparatus p0320 A71-27138
- THERMOMETRY**  
 U TEMPERATURE MEASUREMENT  
**THERMOPHILES**  
 Thermophilic, mesophilic and psychrophilic anaerobes fatty acid composition, discussing results obtained by mass spectral analysis p0410 A71-32050  
 Purification and characterization of enzymes from *H. salinarium*, *B. stearothermophilus*, and *V. marinus* [RLO-2227-T-5-1] p0301 N71-21527  
 Temperature requirements for thermophilic bacteria growths in soil and by culture techniques [NASA-TT-F-13650] p0349 N71-23978  
 Characteristics of thermophilic bacteria [NASA-TT-F-13795] p0500 N71-10671
- THERMOPHILIC PLANTS**  
 NT BLUE GREEN ALGAE  
 Nutritional properties of unicellular algae compared to soya protein p0064 N71-11496  
 Investigating water transport scheme for dispersal of thermophilic microorganisms to Surtsey from mainland areas p0227 N71-17999
- THERMOPHYLIC PLANTS**  
 Investigating biological effects of acid thermal waters on growth of organisms in Iceland p0225 N71-17990
- THERMOPHYSICAL PROPERTIES**  
 NT CRITICAL TEMPERATURE  
 NT MELTING POINTS

- NT THERMAL CONDUCTIVITY  
 NT THERMAL STABILITY  
 NT VAPOR PRESSURE  
**THERMOPLASTIC FILMS**  
 U POLYMERIC FILMS  
**THERMORECEPTORS**  
 Human temperature control computer simulation, considering sudomotor, vasomotor and metabolic as error signals from hypothalamic and cutaneous thermoreceptors p0189 A71-19585  
 Temperature analyzer function under ambient temperatures in children p0213 A71-21961  
 Impulse skin temperature encoding in primate cutaneous thermoreceptors in dynamic thermal conditions p0487 A71-36877
- THERMOREGULATION**  
 Automatic temperature monitor and proportional solid state DC controller for electrophysiological use p0004 A71-10247  
 Human heat exchange and body overheating mechanism at high ambient temperatures at sea level and lowered pressures p0013 A71-11134  
 Human thermoregulatory response to ambient temperature variations, considering deep body and skin temperature interrelations p0025 A71-11667  
 Human body temperature regulation feedback control system model by electric circuit analog, discussing digital simulation for static and dynamic responses p0027 A71-11805  
 Conditioned reflex gas exchange shifts in persons under repeated local thermal stimuli p0103 A71-15572  
 Polymorphic nucleus leukocytes pyrogenic protein fraction effects on rabbits hypothalamus thermal control structures p0130 A71-16386  
 Water cooled garments, discussing human thermoregulation, developments and current suits p0146 A71-17957  
 Human temperature control computer simulation, considering sudomotor, vasomotor and metabolic as error signals from hypothalamic and cutaneous thermoreceptors p0189 A71-19585  
 Human body temperature regulation, investigating mild exercise dehydration effects p0198 A71-20349  
 Temperature analyzer function under ambient temperatures in children p0213 A71-21961  
 Gas exchange and muscular thermoregulation activity in rats under environmental oxygen deficiency p0214 A71-21963  
 Proprioceptive thermoregulatory mechanism of sweat secretion during positive and negative work in man p0254 A71-23369  
 Electroretinogram b-wave slope reduction by cooling of dark adapted frogs during serial flash stimulation p0267 A71-24442  
 Organic thermoregulator control signal generation as function of body peripheral to central temperature ratios, using skin temperature rise measurements p0268 A71-24485  
 Chemical thermoregulation muscular electricity activity during shivering and thermoregulation tonus change after cold adaptation, discussing oxygen consumption rise p0268 A71-24486  
 Chronic inability of succinate for protection against paralysis of rats exposed to hyperbaric oxygen toxicity, correlating thermocontrol response p0312 A71-26124  
 Body temperature regulation and heat dissipation responses during continuous and intermittent exercise in man p0314 A71-26354  
 Human body thermal behavior modeling, obtaining steady state analytical solution for various boundary conditions and parameters p0322 A71-27563
- Cerebrum temperature variations and tissue insulating and heat conducting properties in ether anesthetized dogs with heads cooled by water stream p0354 A71-28029  
 Local cutaneous heat regulation in man, using thermoconvectance method in analyzing response to constant temperature thermode application to small skin surface p0371 A71-29314  
 Mathematical and mechanical models of human thermal system thermodynamic/transport processes and external regulation devices for single elements and entire body p0374 A71-29400  
 Gas exchange, thermoregulatory muscle tone and electrical activity in rat muscles in hyperoxic atmosphere p0412 A71-32533  
 Human body temperature regulation under various hydration regimes during exercise, noting changes related to sweating p0421 A71-33243  
 Human sweating regulation at rest, evaluating thermal inputs effects on thermoregulatory center and internal hypothalamic and skin temperatures p0459 A71-35146  
 Human thermoregulator set point under physical exercise, using behavioral indicator p0464 A71-35388  
 Behavioral thermoregulation - Conference, Lyons, France, September 1970 p0485 A71-36859  
 Squirrel monkeys midbrain reticular formation direct thermal stimulation effects on physiological or behavioral thermoregulatory responses p0485 A71-36860  
 Young guinea pigs thermal adaptation tests at different temperatures and environmental conditions, observing threshold temperature shifting for shivering and heat polypnea p0485 A71-36863  
 Human body weight and skin sweat gland water loss rates effects on thermoregulation p0485 A71-36864  
 Human thermoregulation, discussing experimental determination of equation for mean body temperature calculation in neutral and warm environments p0486 A71-36866  
 Local skin thermoregulation mechanism in man controlled by cooperative bradykinin biosynthesis, using IR thermometry recording of thermal stimulus p0486 A71-36868  
 Hypothalamic unit activity relation to thermoregulation, investigating preoptic area response to local and peripheral temperature changes p0486 A71-36869  
 Preoptic anterior hypothalamic area temperature sensitive neurons, showing integrative center for thermoregulation p0486 A71-36870  
 Brown fat thermogenesis regulation, emphasizing adipose tissue and afferent nerves control by experimental system approach, using intact unanesthetized unrestrained animals p0486 A71-36872  
 Skin temperature and perspiration role in metabolic heat elimination, considering evaporation coefficient relationship to convection coefficient p0487 A71-36873  
 Sweat and time constant response of human thermostat to linear gradient heat load, using analog computer experiment p0487 A71-36874  
 Chill level index for skin temperature effects on rate of evaporative heat loss and thermal information to central controller during heavy work p0487 A71-36876  
 Temperature regulation during exercise by proportional control, investigating skin temperature effect on set point temperature, sweat rate and skin thermal conductance p0487 A71-36879  
 Thyroidectomy and cold adaptation effects on hibernating hamsters thermoregulation and heat transfer coefficient

- p0488 A71-36881  
Physiological control of local sweating rate
- p0488 A71-36884  
Thermoregulation under stringent low temperature conditions, considering internal body temperature maintenance by homiothermic organism
- p0489 A71-36891  
Water temperature effect on body thermoregulation in swimming, comparing swimmers responses to track man on treadmill at same metabolic rate
- p0489 A71-36893  
Skeletal muscles shivering thermogenesis during cold adaptation, investigating thermoregulation effects on organ and system heat production
- p0489 A71-36895  
Squirrel monkey physiological and behavioral thermoregulation elements interrelationships, considering mean skin and medial preoptic hypothalamic temperatures
- p0490 A71-36896  
Cutaneous circulation control by venous thermoregulatory reactions to temperature variations, using dog saphenous veins perfused with autologous blood or Krebs-Ringer solution
- p0490 A71-36898  
Guinea pig thermoregulation of shivering and nonshivering thermogenesis, showing intrahypothalamic noradrenaline injection effects on threshold temperature elevation
- p0490 A71-36901  
Thermal behavior simulation of cooling biological system, describing heat generation and transfer at normothermic to hibernating body temperatures with mathematical model
- p0515 A71-38199  
Ambient temperature effects on spontaneous rewarming of ground squirrels during awakening after hibernation
- p0594 A71-42582  
Arterial blood pressure spontaneous fluctuations due to cutaneous circulation adjustments by thermoregulatory system
- p0623 A71-43142  
Hyperoxia effects on thermoregulation and neurochemical functions, showing temperature increases in cerebrum and decreases in cortical and subcortical formations
- p0625 A71-43582  
Preoptic and environmental temperature effects on hibernator thermoregulatory responses, noting changes in metabolic rates
- p0632 A71-44301  
Human heat stress tolerance indications
- p0062 N71-11486  
Studying effect of physical training on heat tolerance of human organism
- p0220 N71-17068  
Papers presented at International Symposium on Behavioral Thermoregulation [AD-715783]
- p0230 N71-18794  
Human acclimatization to high altitudes, monsoons, and hot, dry weather [JPRS-52594]
- p0328 N71-22001  
Seasonal variations in physiology of old-timers and newcomers in monsoon climate
- p0328 N71-22002  
Seasonal variations in thermoregulation of residents in hot, dry climates with respect to age and sex
- p0329 N71-22003  
Hyperthermia, dietary, and desalivation effects on thermoregulation in rats [NASA-CR-117851]
- p0338 N71-22976  
Desalivation effects on behavioral thermoregulation against heat in rats
- p0339 N71-22978  
Thermal intensity and skin temperature levels, affecting behavioral thermoregulation in rats with increases in monotonic fashion
- p0339 N71-22980  
Thermoregulating with cooling flow pipe network for humans [NASA-CASE-XMS-10269]
- p0349 N71-24147  
Steady state and dynamic experiments to determine thermoregulatory heat production in human subjects [AD-720831]
- p0394 N71-25766  
Regional control of skin temperature and heat transfer measurements of various body sections [AD-720830]
- p0397 N71-25953  
Human physiochemistry, thermoregulation, and harmonic oscillation of blood glucose levels [NASA-CR-1806]
- p0437 N71-28206  
Comparison of water, convective air, and reversed air flow cooled suits for body temperature thermoregulation in high temperature environments [PPRC-1307]
- p0497 N71-30127

**THIAMINE**  
Solid and liquid diets during thiamine deficiency, noting hunger dependence on novelty
- p0366 A71-28808  
Chemical analysis of thiamine metabolism in man [AD-712238]
- p0052 N71-11099  
**THICKNESS**  
NT FILM THICKNESS  
**THIN FILMS**  
Feasibility of miniaturized heater for zinc oxide thin film oxygen partial pressure sensor [NASA-TN-D-6134]
- p0222 N71-17440  
**THIOLS**  
NT CYSTEINE  
Chemical protection against ionizing radiation by thiols and disulfides, discussing hydrogen transfer
- p0176 A71-18930  
Structure-function studies of aminothioli radioprotectants on Escherichia coli B/r, discussing radiation response at 274 and 77 K
- p0177 A71-18936  
Thiol and disulphide compounds radiation protection capacity at cellular level in tissue culture, using reproductive integrity as protection criteria
- p0179 A71-18948  
Biochemical mechanism of radioprotective action of aminothiols in mammals
- p0184 A71-18979  
Radioprotective mercaptoethylamine /MEA/ effect on aerobic resynthesis of ATP in thymus nuclei and oxidative phosphorylation in rat liver mitochondria
- p0185 A71-18984  
Mercaptoalkylamine group radiation protection preparations on resistance of rats and mice to lateral acceleration rate
- p0595 A71-42700  
Aminothiol group radioprotective drugs effect on guinea pigs cardiac function during lateral acceleration
- p0595 A71-42702  
Aminothiol class radiation protector: influence on tissue damage of white rats under single and two-fold gamma irradiation at various test conditions
- p0599 A71-42729  
**THIURONIUM**  
Radioprotective effectiveness of cystamine and S beta-aminoethylisothiuronium in mice under combined gamma irradiation and transverse acceleration loads
- p0599 A71-42730  
**THORAX**  
Moulting of Calpodes ethlius larvae head and thorax isolated with prothoracic glands dependent on molting hormone injection
- p0017 A71-11347  
Isopotential maps comparison of thorax with vectorcardiograms from superficial potential distribution zones
- p0032 A71-12111  
Transthoracic measurements of left and right ventricular systolic pressures in anesthetized mice, using fiber optics and strain gage manometer techniques
- p0254 A71-23371  
Renal hemodynamic factors in whole kidney glomerulotubular balance in anesthetized dogs by manipulating filtration rate through constriction of aorta, thoracic vena cava, etc
- p0420 A71-33194  
Diaphragm mechanics, discussing thoracic pressure-lung volume and air flow relationships of respiratory system during electrophrenic stimulation in men and cats
- p0420 A71-33239

## THRESHOLD CURRENTS

Electrical medical apparatus with electrodes and intracardiac catheters, considering electric current danger threshold, electrocution hazards and safety precautions

p0466 A71-35486

## THRESHOLD SHIFT

## O THRESHOLDS

## THRESHOLDS

Impulse-noise human ear damage-risk criterion correction factor for single impulse, studying temporary threshold shift

p0128 A71-16284

## THRESHOLDS (PERCEPTION)

Visual threshold dependence on retinal location for various colors under conditions of scotopic, mesopic and photopic adaptation

p0003 A71-10233

Cat retina ganglion cell YCC-1/ threshold intensity, obeying reversed Weber law

p0003 A71-10234

Monochromatic light glare effect on human eye as function of wavelength, using visual threshold variation as criterion

p0017 A71-11389

Inner ear basilar membrane motions estimation for lower hearing threshold, using nonlinear model

p0036 A71-12474

Quantitative relation between temporary threshold shift and peripheral circulatory effects of sound, using finger pulse amplitude strain gage

p0082 A71-13156

Peak diameter differences of sensitization by annular surrounds in subjects, concerning scotopic increment threshold and retinal illuminance

p0091 A71-14376

Human rotation perception, discussing man-carrying rotation device, angular acceleration threshold, etc

p0093 A71-14756

Suprathreshold vision retinal image contrast loss measurement, suggesting role of balance between optical unsharpness and neural oversharpeness

p0104 A71-15833

Acoustic intensity and exposure time duration for threshold lesion in cat brain

p0128 A71-16283

Human skin analyzer excitability test, discussing threshold response

p0135 A71-16809

Nervous and muscular elements above threshold excitation on potential subthreshold stimulation background by electronic analog model

p0194 A71-20114

Nervous and muscular tissues excitability during subthreshold rhythmic stimulation, discussing mathematical model for compounding polarization induced electrotonic fluctuations

p0194 A71-20115

Retinal threshold along horizontal meridian for dark and light adapted eyes for stray light from small foveally fixated high luminance target

p0208 A71-21000

Human visual analyzer excitability shifts due to short duration point light stimuli

p0215 A71-21972

Foveal vision absolute thresholds for various duration light pulses and flash pairs at different separations

p0260 A71-23992

Ambient temperature effects on flicker fusion threshold, using constant stimuli and forced choice methods for determination of test subjects sensory sensitivity to heat and cold exposure

p0262 A71-24184

Cortical potentials evoked by weak acoustic signals below hearing threshold in man

p0267 A71-24440

Thresholds comparison for angular acceleration derived by subjective cupulometry and by staircase method, determining thresholds for rotation perception and oculogyral illusion

p0268 A71-24605

Peripheral visual resolution measurements, determining acuity thresholds at fovea and various points on temporal retina horizontal meridian over range of luminance values

p0269 A71-24608

Mean retinal threshold gradient along horizontal meridian for dark and light adapted eyes, considering dynamic neural mechanisms

p0271 A71-24807

Visual suppression and intensity threshold changes during voluntary eye saccades with different luminance regions in visual field, discussing inhibition processes

p0308 A71-25583

Two flash threshold measurement of comparison stimulus duration of Bloch law for anticollision strobe lights

p0311 A71-26116

Vertical translational acceleration perception threshold of aircraft pilot seated in upright position

p0377 A71-29780

Fly *Lucilia sericata* olfactory receptor and unit action potentials response to odor stimulation by homologous compounds

p0384 A71-30569

Gundefender earplug evaluation tests, using temporary threshold shift reduction and modified rhyme techniques for speech intelligibility measurement in noise

p0410 A71-32196

Beta inflection in darkness adaptation curve, postulating stimulus thresholds in mono and binocular examinations for perception time and sensitivity

p0415 A71-32866

Spectral sensitivities of discrete slow potentials and threshold level nerve spikes in Limulus ommatidium as function of hyperpolarizing current

p0416 A71-32869

Anatomical load sensing method, determining torso pain thresholds by sensitivity tests

[SESA PAPER 1823A] p0452 A71-34539

Frequency and level dependent discrepancy between free field and pressure thresholds at low frequencies due to physiological noise produced under earcap

p0454 A71-34699

Human central fovea theoretical model for target stimuli threshold detection performance prediction

p0462 A71-35325

Young guinea pigs thermal adaptation tests at different temperatures and environmental conditions, observing threshold temperature shifting for shivering and heat polypnea

p0485 A71-36863

Threshold electrical phosphene dependence on impulse duration and stimulation frequency in subjects adapted to darkness

p0513 A71-37444

Increment thresholds for foveally viewed square and circular visual stimuli, suggesting availability of more than one spatial integration pattern

p0515 A71-38277

Visual processes involved in flash perception, considering attention attraction at suprathreshold levels, unreliability at threshold levels and latency effects

p0578 A71-41477

Subjective brightness of flashing light stimulus within fovea as function of stimulus size, noting edge effects contribution at suprathreshold levels

p0579 A71-41478

Flash threshold perception in relation to flicker, showing flicker/flash sensitivity ratio constancy over large intensity level range

p0579 A71-41479

Absolute foveal thresholds as function of flashes pulse length and null period

p0579 A71-41480

Flashing lights effective intensity at threshold and suprathreshold levels, discussing Broca-Sulzer effect observance conditions

p0579 A71-41484

Flashing lights vision threshold systematic variations, using quadrant adaptometer for continuous tracking of sensitivity fluctuations

p0581 A71-41498

Human auditory adaptation to medium intensity noise complex action under relative isolation and hypokinesia conditions from monaural hearing threshold measurement

p0632 A71-44400

- Correlation coefficients between sensitivity thresholds of cupula-endolymphatic system to angular and Coriolis accelerations with human resistance to motion sickness p0636 A71-44532
- Polymer odor threshold determination for hygienic considerations in sealed/pressurized chamber construction, comparing static and dynamic methods p0636 A71-44539
- Increment threshold for monoptic and dichoptic vision, showing spatial and luminance effects p0640 A71-44979
- Two-flash thresholds as function of comparison stimulus duration, and possible use of strobe lights for aircraft collision avoidance aids [FAA-AM-70-15] p0117 N71-13430

## URINALYSIS

Suppression by allopurinol of uric acid formation in men fed yeast RNA

p0114 N71-12331

## URINALYSIS

Pilot nervous-emotional state during flight conditions determined from uropepsin excreted in urine

p0138 A71-17028

Excretion patterns of air traffic controllers for stress appraisal, using urinalysis

p0205 A71-20811

Bone tissue optical density and blood serum and urine calcium content of Soyuz 9 crew members during and after flight

p0241 A71-22201

Urinary metabolites relationship to fatigue, considering excretion of proteins, electrolytes, simple organic compounds and hormones

p0451 A71-34357

Sympathetic nervous system in short term adaptation to cold, observing oxygen consumption, urinary noradrenaline proportion and excretion

p0454 A71-34698

Urinary protein excretion rates in high altitude inhabitants, showing polycythemia effect on creatinine clearances levels

p0521 A71-38561

Biochemical measurements of human urine and blood changes during simulated oxygen-helium dives to 1500 feet

p0566 A71-40353

Antidiuretic action of chlorpropamide in mammalian kidney, considering intrarenal infusions effect on urinary concentration, free water clearance, glomerular filtration and sodium excretion

p0587 A71-41939

Water-salt metabolism in human blood and urine under high temperature conditions after residence in different climatic zone

p0633 A71-44414

Bioluminescent reaction of adenosine triphosphate with enzyme luciferase for quantitative analysis of bacteria in urine samples

p0434 N71-27991

Automatic bioassay instrument for urinalysis based on adenosine triphosphate bioluminescent proportionality to urine sample bacterial content

p0434 N71-27992

Analysis of uropepsin excretion in dogs under influence of simulated flight stress conditions

p0443 N71-28495

Automated apparatus for analyzing bacterial ATP in urine samples

p0611 N71-34079

## URINATION

Dog uropepsin excretion dynamics under extremal flight conditions, detailing hypoxia, high temperature radical accelerations and impact G forces effects

p0406 A71-31322

Chronic centrifugation effects on water intake and urine output in mice, considering food intake and growth rate

p0526 A71-38984

Effect of weightlessness on cardiovascular and uretic functions in human subjects

p0391 N71-24997

## URINE

Glucocorticoid metabolite excretion with urine in healthy people as function of age and sex

p0158 A71-18727

Physiological and biochemical characterization of natriuretic hormone in human urine and blood plasma

p0368 A71-28952

Automated self sterilizing breadboard unit for potable water reclamation from urine by electrolysis-electrodialysis for long term space missions

p0475 A71-36378

Radiation damage diagnosis in humans, investigating free amino acid excretion with urine by paper chromatography method

p0600 A71-42736

Preservative phenol derivative effects on toxic gas evolution from stored urine in sealed vessels

p0602 A71-42808

Urine preservatives for urine water recovery system, noting ammonia and organic compound contents in

condensate

p0602 A71-42809

Decontaminating methods for water regenerated from urine under space flight conditions by filtering water condensate through sorbents

p0603 A71-42815

Urine conservation in spacecraft cabin sanitation facilities by phenol-containing preparations, emphasizing PWF method for long period operation

p0604 A71-42822

Weightlessness effects on hydroxycorticosteroid excretion determined by 56 day bed rest study

[NASA-CR-114782] p0118 N71-13437

Radionuclide content in feces and urine of Apollo 7 through 13 astronauts

[NASA-CR-116223] p0170 N71-16358

Nonlinear relationships in lactic dehydrogenase and leucine amino peptidase enzyme activities in urine related to increased and decreased diuresis

[NASA-TT-F-13557] p0346 N71-23388

Activity of lactic dehydrogenase in urine of glomerulonephritis and nephrotic syndrome patients

[NASA-TT-F-13558] p0347 N71-23728

Radioisotope fueled distillation system for reclaiming potable water from urine on prolonged space flight

[AD-718965] p0387 N71-24412

Automated procedure for direct cell count of bacteria in urine by bioluminescence reaction of luciferase when mixed with ATP

[NASA-TM-X-65521] p0392 N71-25035

Composition, and chemical, physical, and concentrative properties of human urine

[NASA-CR-1802] p0541 N71-32520

Polyvinyl chloride membrane vapor diffusion urine water reclamation system design and performance tests for flight systems

[NASA-CR-111932] p0549 N71-33400

Measurement of radiation exposure of Apollo 7, 8, 9, and 10 astronauts by determination of radionuclide content of feces and urine

[NASA-CR-121860] p0608 N71-34059

Development and characteristics of automated fluorometric procedure for analyzing norepinephrine and epinephrine content of blood plasma and urine

[FAA-AW-71-15] p0613 N71-35241

Development of radioimmunoassay system for measurement of urinary antidiuretic hormone excretion

p0644 N71-36459

Effects of space flight on bone metabolism investigated by analyzing peptide hormones in urine

p0644 N71-36462

Flameless atomic absorption spectroscopy for analyzing trace elements in serum and urine

[NASA-TT-F-13983] p0646 N71-36473

## UROLOGY

Flight concomitant pathogenetic effects on urinary tract conditions, noting kidney descent, inflammatory episodes and calculosis

p0272 A71-24977

Animal urinary bladder mechanical properties from controlled stretch tests, identifying viscoelastic, plastoelastic and creep elements

p0383 A71-30566

Dog uropepsin excretion dynamics under extremal flight conditions, detailing hypoxia, high temperature radical accelerations and impact G forces effects

p0406 A71-31322

Analysis of uropepsin excretion in dogs under influence of simulated flight stress conditions

p0443 N71-28495

## UTERUS

Female aircrews under moderate hypoxia, noting uterine rheography modification

p0148 A71-18194

 Eating and digestion effects on conscious dog coronary and visceral vasoactivity p0015 A71-11183
- Arterial sclerosis and stenosis physical factors, discussing connective and vascular tissue adaptive responses to mechanical stresses p0035 A71-12415
- Natural or endogenous fibrinolysis and its pharmacological enhancement as possible approach to prophylaxis of vascular occlusions p0036 A71-12417
- Blood pressure and velocity waveform recording for patients during cardiac catheterization, interpreting relationships to vascular impedance p0037 A71-12915
- Antigenic properties of human vascular wall layers in atherosclerosis, using agar precipitation and immunoelectrophoretic measurements p0103 A71-15574
- Lung volume direction and change rate effects on pulmonary vascular conductance and arterial flow in isolated dog lung lobe p0137 A71-16952
- Intrarenal vascular pattern in carbon dioxide death of rhesus monkeys and dogs, observing sympathetic vasoconstriction p0143 A71-17610
- Acute pulmonary embolism diagnoses, using vasculature angiography p0192 A71-19838
- Vascular effector structure in orientation reaction of peripheral vessels to sound, using plethysmogram and rheoencephalogram indications p0214 A71-21962
- Argyrophil sphincter formations in inorganic vascular channels of hearing organ p0214 A71-21967
- Stroke-pulmonary blood volume relation and vascular recruitment and distensibility in dogs, allowing independent control of flow, heart rate and left atrial pressure p0260 A71-24123
- Heart rate and diastolic inflow coronary resistance extravascular component, discussing heart artificial stimulation and pharmacological maximal dilation effects p0270 A71-24679
- Hypertensive heart and pulmonary vascular disease, examining chronic alveolar hypoxia effects p0310 A71-25931
- Blood liquid state control in sanguiferous canal as function of humoral feedback in coagulation, fibrinolytic and anticoagulation systems p0364 A71-28718
- Coronary blood flow response to acute and chronic hypoxia, observing vascular smooth muscle relaxation relation to released adenosine p0380 A71-30281
- Coronary vasculature development under hypoxia and pulmonary hypertension as possible cause of right ventricle phasic flow contour changes p0380 A71-30282
- Hypothermia effects on cat and dog vascular tonus vasomotor reflex regulation, suggesting role of inhibition due to changed afference from cooled tissues p0427 A71-34111
- Circulation parameters in vascular network by bloodless zonal ultrasonic sphygmography based on

- acoustic biocholocation p0453 A71-38648
- Nasal vascular system reactions during 120-day bed rest hypokinesia under drug affected metabolism p0529 A71-39229
- Active vasodilation in gracilis muscle vascular bed due to perfusion pressure changes p0531 A71-39378
- Potassium concentrations and osmolality levels changes effects on vascular resistance in subcutaneous adipose tissue blood flow p0531 A71-39379
- Human vascular and extravascular fluid changes during six days bedrest based on fluid volume and ideal body weight from individual heights p0567 A71-40354
- Extravascular dehydration effects in production of cardiovascular deconditioning by bed rest simulating weightlessness [NASA-CR-114808] p0174 N71-16702
- Extravascular dehydration produced by bed rest simulating weightlessness - data tables [NASA-CR-114809] p0174 N71-16703
- Dynamic model for microvascular system control of mammal body kinematics p0281 N71-19882
- Forearm vascular responses to brachial artery infusions of tyramine and norepinephrine after two weeks bed rest p0546 N71-33264
- Human vasoregulation by renin, angiotensin, and aldosterone and human physiological studies using radioimmunoassays p0644 N71-36460
- VASOCONSTRICTION**
- Sexual behavior of male cats after parachlorophenylalanine injections, noting unchanged or diminished performance and serotonin lowering in brain p0033 A71-12365
- Plethysmographical study of noise effects on hearing and peripheral vasoconstriction in man and animals p0081 A71-13155
- Carotid sinus hypotension in dogs under fasting/digestion conditions, considering effect on splanchnic circulation and vasoconstrictor response p0098 A71-15090
- Traumatic vasospastic disease in forest workers with Raynaud phenomena, considering cold vasodilation and occupational vibration vasoconstriction by finger blood circulation tests p0132 A71-16616
- Intrarenal vascular pattern in carbon dioxide death of rhesus monkeys and dogs, observing sympathetic vasoconstriction p0143 A71-17610
- Myocardial ventricle contraction in high altitude hypoxia adaptation, using barochamber trained rats p0154 A71-18467
- Hypoxemia reflex neurogenic vasoconstrictor factors competition with local vasodilator mechanisms in skeletal muscle p0201 A71-20680
- Pulmonary vasoconstrictor response to temperature dependent acute hypoxia, using isolated rat lungs with heparinized homologous blood under constant volume pulsatile inflow p0261 A71-24124
- Pulmonary arterial system impedance and transmission properties, noting hypoxia and serotonin infusion vasoconstrictor effects p0310 A71-25929
- Hypoxia effects on cardiovascular reflexes during hypoxia, measuring response of heart rate to lower body negative pressure p0419 A71-33191
- VASOCONSTRICTOR DRUGS**
- NT SEROTONIN**
- Central nervous system reactions to vasopressin and oxytocin presence in cerebrospinal fluid and blood, discussing respiratory frequency and antidiuretic tests p0087 A71-13485
- VASODILATION**
- Vasodilator, oxygen, potassium and osmolality effects on exercise hyperemia in dog gracilis muscle p0015 A71-11184
- Human skin blood flow and venous tone in middle finger and forearm during leg muscle exercise to exhaustion p0018 A71-11410
- Traumatic vasospastic disease in forest workers with Raynaud phenomena, considering cold vasodilation and occupational vibration vasoconstriction by finger blood circulation tests p0132 A71-16616
- Hypoxemia reflex neurogenic vasoconstrictor factors competition with local vasodilator mechanisms in skeletal muscle p0201 A71-20680
- Active vasodilation in gracilis muscle vascular bed due to perfusion pressure changes p0531 A71-39378
- Coronary dilating substances of low molecular weight separated through dialysis from hypothalamus protein carriers p0577 A71-41072
- VASOMOTOR NERVOUS SYSTEM**
- U NERVOUS SYSTEM**
- VECTOR ANALYSIS**
- Ectopic right atrial rhythms in ECG vectorial analysis p0321 A71-27289
- VECTOR SPACES**
- NT MATRICES (MATHEMATICS)**
- VECTORCARDIOGRAPHY**
- Equilateral tetrahedral and Frank systems compared for standard reference system applications in spatial vectorcardiography p0006 A71-10400
- Adapted multichannel analyzer for cardiology visualizing vectorcardiographic loops p0032 A71-12107
- Medical data processing techniques in electrocardiography and effort vectorcardiography facilitating clinical observations p0032 A71-12110
- Isopotential maps comparison of thorax with vectorcardiograms from superficial potential distribution zones p0032 A71-12111
- Vectorcardiograms comparison recorded with different electrode leads or amplification systems based on spatial points coordinates correlation coefficients p0080 A71-13115
- Hyperventilation and isoproterenol infusion, investigating T wave abnormalities, arterial blood gases and plasma electrolyte concentration p0192 A71-19837
- Primary T wave derived from ECG waveform dependent intrinsic ventricular recovery properties p0192 A71-19840
- Left ventricular enlargements, comparing vectorcardiographic spatial magnitude and electrocardiographic precordial QRS voltage measurements p0315 A71-26428
- Digital computer analysis of orthogonal ECG and VCG from patients with myocardial infarction p0321 A71-27287
- Stochastic identification method for transforming ECG and VCG data to approximate diagnosis, using computerized dipole models p0368 A71-29002
- Spatial T-area vectors dependence on RR distances for exact examination of healthy and sick heart muscles p0414 A71-32660
- Patients with selective cine coronary arteriography, statistically correlating vectorcardiographic diagnoses of myocardial infarcts with changes in arteries p0471 A71-36139
- Vectorcardiographic analysis of patients with ECG diagnosed inferior atrial rhythm p0594 A71-42519
- Diagnostic import of QRS notching in HF ECG of living subjects with heart disease, noting notch count correlation with ventricular enlargement p0629 A71-44130
- Electromedical garment, applying vectorcardiologic type electrodes to human torsos for data recording during physical activity [NASA-CASE-YPR-10856] p0058 A71-11189

## SUBJECT INDEX

## VERBAL COMMUNICATION

- Electrocardiography and vector cardiography of athletes p0276 N71-19585
- VEGETABLES**  
 NT POTATOES  
 Thermal combustion produced biocomplex vegetable waste mineralization effect on furnace working surface oxide film p0604 A71-42821
- VEINS**  
 Renin level in renal venous and peripheral blood in patients with renovascular hypertension p0005 A71-10391  
 Human skin blood flow and venous tone in middle finger and forearm during leg muscle exercise to exhaustion p0018 A71-11410  
 Mixed venous oxygen tension oxide determination by nitrogen-carbon rebreathing method, considering pulmonary blood flow and oxygen carrying capacity p0084 A71-13182  
 Local cooling effects on responsiveness of muscular and cutaneous arteries and veins in dogs, noting blood flow redistribution p0098 A71-15091  
 Venomotor responses of forearm and hand veins to rapid changes in skin temperature in exercising man p0152 A71-18382  
 Venomotor responses of forearm veins to local and remote thermal stimuli to skin in exercising man p0152 A71-18383  
 Pulse wave velocity measurements in human veins by transcutaneous ultrasonic flow detectors, noting respiration and Valsalva effects p0319 A71-27136  
 Calcium ions effects on electrophysiological properties of portal vein muscle cells in rats p0427 A71-34109  
 Temperature effects on spontaneous electrical and contractile activity of smooth muscle cells of portal vein in rats p0427 A71-34110  
 Cutaneous circulation control by venous thermoregulatory reactions to temperature variations, using dog saphenous veins perfused with autologous blood or Krebs-Ringer solution p0490 A71-36898  
 Small pressure wave transmission in abdominal venae cavae of dogs in mathematical model development for viscoelastic behavior of large veins p0527 A71-38987  
 Inspired oxygen concentrations effects on arterial and mixed venous pH, carbon dioxide uptake and oxygen partial pressure in normal subjects p0531 A71-39442  
 Local and central body temperature effects on human cutaneous venomotor reflexes, monitoring venous wall tension by measuring hand dorsal veins pressure during temporary arrest of hand circulation p0638 A71-44777
- VELOCITY**  
 NT ANGULAR VELOCITY  
 NT FLOW VELOCITY  
 NT HIGH SPEED  
 NT PROPAGATION VELOCITY  
 NT RADIAL VELOCITY  
 NT RELATIVISTIC VELOCITY  
 NT WIND VELOCITY  
 Velocity transposition theory based on velocity perception constancy effects, noting importance for human engineering guidance in sea, land, air and space traffic fields [DFVLR-SONDDR-107] p0467 A71-35829
- VELOCITY DISTRIBUTION**  
 Main pulmonary artery velocity profiles in dogs and man, using thin-film resistance anemometer p0129 A71-16324  
 Large amplitude wave propagation in arteries, deriving aorta mathematical model consistent with heart pressure and flow pulses and wavefront velocity p0318 A71-26937
- VELOCITY ERRORS**  
 Speed overestimation in intermittent illumination of moving bars and textures as function of frequency, using Piaget and brightness enhancement phenomena p0414 A71-32713
- VELOCITY FIELDS**  
 U VELOCITY DISTRIBUTION  
**VELOCITY MEASUREMENT**  
 Ascending aorta blood flow sequential velocity measurement using conical hot-film probe with linearized constant temperature anemometer circuit [ASME PAPER 70-WA/BHP-13] p0089 A71-14111  
 Changing rotational velocity recording device for vestibular apparatus tests, examining stimulus reaction speed p0135 A71-16810  
 Flow visualization and velocity measurements in repeatedly branching tube systems representative of human lung, estimating viscous dissipation and pressure drop p0270 A71-24625  
 Monograph on blood flow rates instantaneous measurement from ultrasound signals of Doppler flowmeter, discussing steady laminar flow test results p0531 A71-39262
- VELOCITY POTENTIALS**  
 U FLOW DISTRIBUTION  
 U VELOCITY DISTRIBUTION  
**VELOCITY PROFILES**  
 U VELOCITY DISTRIBUTION  
**VENTILATION**  
 Tidal volume and respiratory rate changes at start and end of exercise, considering ventilation control and neurogenic respiratory reflexes p0100 A71-15161  
 Oxygen intake, ventilation and heart rate during various intensity and duration tests p0132 A71-16615  
 Time constant for collateral ventilation in human, dog and pig lungs under various physiological conditions p0153 A71-18385  
 Carbohydrate ingestion produced respiratory gas exchange ratio and alveolar ventilation effects on arterial oxygen tension in normal men p0197 A71-20333  
 High altitude submaximal and maximal work by humans, noting time required for steady state oxygen consumption, ventilation and heart rate p0254 A71-23368  
 Pressure effects on human ventilation and gas exchange, determining stratified inhomogeneity during deep diving p0318 A71-27126  
 Oxygen metabolic rate in isolated canine lungs at various static inflation levels and cyclic ventilation, examining mechanical deformation effects p0459 A71-35145  
 Phrenic nerve activity correlation with ventilation in anesthetized cats, analyzing relationship between phrenic impulse rate and integrated electrical activity p0526 A71-38983  
 Required ventilation rates determined for Mark 5 diving helmet as part of low pressure underwater breathing apparatus [AD-713395] p0162 N71-14705
- VENTING**  
 Venting device for pressurized space suit helmet to eliminate vomit expelled by crewmen [NASA-CASE-IMS-09652-1] p0400 N71-26333
- VENTRAL SECTIONS**  
 Ventral spinocerebellar tract cellular level control transmission to motoneurons, considering monitoring of inhibitory interneurons output against excitatory input p0317 A71-26705
- VENUS (PLANET)**  
 Venus surface alteration for human habitation p0102 A71-15346  
 Venus life forms, describing algae grown in pure carbon dioxide under pressure in acidic nutrient media at high temperatures p0310 A71-25701
- VENUS PROBES**  
 NT ZOND 5 SPACE PROBE  
 NT ZOND 6 SPACE PROBE  
 NT ZOND 7 SPACE PROBE
- VERBAL COMMUNICATION**  
 Auditory illusions, investigating phonemic restorations, verbal transformations and perceptual organization

**VERTEBRAE**

**SUBJECT INDEX**

p0195 A71-20212

In-flight target reporting, analyzing quantitative meaning of ambiguous general modifier terminology as used by pilots in verbal sighting reports  
p0321 A71-27251

**VERTEBRAE**  
Cancellous bones mechanical properties from compression testing of human femora, vertebrae and cranial bones  
[AIAA PAPER 71-111] p0155 A71-18561  
Cervical vertebral distortion during acrobatic flight, discussing clinical and medico-legal aspects and preventive measures  
p0623 A71-43219  
Survey on vertebrae fractures of flying personnel caused by ejection from Navy aircraft  
p0066 N71-11811

**VERTEBRAL COLUMN**  
Lower vertebral column forces and moments in seated human under seat-to-head acceleration  
p0095 A71-14788  
Manned aerospace vehicular escape systems, discussing human vertebral column structural limits under vertical gravity acceleration  
[AIAA PAPER 71-144] p0155 A71-18587  
Spinal column radiographic examination after pilot ejection, discussing vertebral injuries detection  
p0362 A71-28510  
Orthopedic prognostic assessment of spinal tolerance to flight stress for pilot selection  
p0066 N71-11816

**VERTEBRATES**  
NT BATS  
NT BIRDS  
NT CATS  
NT CATTLE  
NT CHICKENS  
NT CHIMPANZEES  
NT DOGS  
NT DOLPHINS  
NT FISHES  
NT FROGS  
NT GUINEA PIGS  
NT HAMSTERS  
NT HUMAN BEINGS  
NT MAMMALS  
NT MICE  
NT MONKEYS  
NT PIGEONS  
NT POCKET MICE  
NT PORPOISES  
NT PRIMATES  
NT RABBITS  
NT RATS  
NT RODENTS  
NT SHARKS  
NT SNAKES  
NT SWINE  
NT TURTLES  
Vertebrate retina receptive field structure, suggesting interaction between receptor, horizontal and bipolar cells  
p0200 A71-20623  
Electrophysiological studies of olfaction in vertebrates, describing role in orientation, sexual behavior and population control  
p0213 A71-21942  
Functional anatomy of vertebrate gravity receptor system in spatial orientation, discussing otolith organs, sensory cells and hair cell topography in elasmobranch labyrinth  
p0560 A71-39994  
Nonactomyosin component differentiation in potassium chloride insoluble myofilaments in vertebrate smooth muscle cells  
p0633 A71-44424

**VERTICAL DISTRIBUTION**  
Visual alignment task performance for marks with vertical separation under various illuminations  
p0105 A71-15849  
Visual dominance in body and object verticality judgments as function of nonvisual information, considering modal system interaction and contact  
p0311 A71-26076

**VERTICAL FLIGHT**  
Mathematical simulation of visual distance perception capacity of man from ground reference landmarks observation during vertical flight  
p0195 A71-20212

**VERTICAL MOTION**  
Vertical translational acceleration perception threshold of aircraft pilot seated in upright position  
p0377 A71-29780

**VERTICAL PERCEPTION**  
Horizontal-vertical velocity illusions relationship, noting independent determinants  
p0458 A71-35109  
Acceleration effects on vestibular stimulation of external respiratory function and respiration center neuron activity  
p0438 N71-28261

**VERTICAL TAILS**  
**U TAIL ASSEMBLIES**  
**VERTIGO**  
USAF aeromedical consultation service experience on vertigo cases covering symptoms and related diseases  
p0567 A71-40358  
Alcohol ingestion effects on vertigo and nystagmic vestibular responses to angular acceleration, considering visual fixation and alertness control  
p0585 A71-41827  
Vertigo due to increased middle ear pressure, discussing etiology from experience of aeromedical consultation service  
p0586 A71-41833

**VESTIBULAR TESTS**  
Guinea pigs head and eye movements produced by vestibular apparatus stimulation via static pressure changes  
p0005 A71-10347  
Cortical vestibular projection zones in formation of conditioned reflexes and spatial orientation of cats  
p0009 A71-11054  
Guinea pigs vestibular adaptation to repeated angular acceleration dependent on acceleration direction  
p0010 A71-11056  
Chairs, stands and swings for vestibular and visual analyzer tests  
p0010 A71-11073  
Head spatial position effects on vestibular compensation rates in rabbits  
p0010 A71-11074  
Neuron network modeling by stable rhythmic impulsion system, considering vestibular nystagmus  
p0013 A71-11137  
Space mission reflex vestibular disturbance and motion sickness prevention, examining artificial gravity and drugs  
p0028 A71-11979  
Vestibular nystagmus and display luminance effects on hand-eye coordination in compensatory tracking of aircraft instrument  
p0033 A71-12381  
Biocybernetic model of vestibular control system for spatial orientation, considering semicircular canals fluid motion angular velocity sensors and linear displacement perception  
p0073 A71-12982  
Heat rotation induced eye movements in cats by neuron level determination, considering vestibular apparatus of signal transmission loop for mathematical model  
p0073 A71-12983  
Vestibular function on earth and in space - Conference, Uppsala, May 1968  
p0092 A71-14751  
Vestibular physiology, discussing endolymph chemical composition, cupola structure and function and hair cells  
p0092 A71-14752  
Vestibular problems in long manned space flight, discussing weightlessness and rotating environment for artificial gravity  
p0093 A71-14753  
Astronaut visual acuity under angular acceleration, considering vestibular stimulus direction and nystagmus upbeating or downbeating  
p0093 A71-14754  
Gravity effects on experimental nystagmus in rabbits under electrical, rotatory and caloric vestibular stimulation, taking into account semicircular canals and otolith organs  
p0093 A71-14758

- Extraterrestrial vestibular research, discussing geocentric and heliocentric otolithic regulation and gravitation theory p0093 A71-14759
- Labyrinth destruction, Meniere disease, labyrinthectomy and vestibular neuritis effects on eyes counter-rolling, discussing otolith organ damage determination p0094 A71-14762
- Ascending neuron vestibulo-ocular reflex arc, emphasizing medial longitudinal fasciculus p0094 A71-14763
- Vestibular habituation retention, showing nystagmic response reduction to repetitive rotatory and caloric tests p0094 A71-14764
- Vestibular nerve projection to association fields of cerebral cortex in Rhesus monkey under alpha chloralose and without anesthetic agent p0094 A71-14765
- Transganglionic degeneration in vestibular nerve resulting from transection of peripheral sensory nerve branch of bipolar neurone p0094 A71-14766
- Vestibular system semicircular canals mathematical model determination of galvanic stimulation and directional preponderance, considering visual, postural and vehicle orientation feedback loops p0096 A71-14790
- Space motion sickness causes and prevention, discussing syndromes, psychophysiological factors, vestibular mechanics and adaptation p0102 A71-15283
- Vestibular apparatus cortical zone projections on striopallidal complex in cats p0130 A71-16387
- Changing rotational velocity recording device for vestibular apparatus tests, examining stimulus reaction speed p0135 A71-16810
- Electrically rotating chair transmitting medicobiological information of functional state of vestibular analyzer and statokinetic stability p0138 A71-17027
- Unilateral labyrinthectomy model for evaluating antimotion drug effects on vestibular function in guinea pigs p0149 A71-18361
- Gastric and rectal mechanoreceptor stimulation influences on vestibular rotation nystagmus in rabbits p0154 A71-18466
- Coriolis vestibular reaction testing of pilot trainees, evaluating brief vestibular disorientation test validity and reliability at 10 and 15 rpm test conditions p0207 A71-20823
- Linear acceleration effects on human otolithic and vestibular apparatus, discussing vestibulovegetative motion sickness syndrome and nystagmus index activation p0213 A71-21956
- Vestibular stimulation effects on bioelectrical activity in retina, optic tract, geniculum, visual cortex and ectosylvian gyrus in anesthetized cats p0242 A71-22215
- Weightlessness, high acceleration and aerospace vehicle maneuvering effects on cardiovascular and vestibular systems, discussing disorientation, space sicknesses and blood circulation p0243 A71-22357
- Optokinetic and vestibular effects on human operator reliability in aircraft control systems p0247 A71-22681
- Vestibular system functions physical analog model, predicting responses to motion inputs and possible problems for flight situations p0266 A71-24237
- Cochlear/vestibular apparatus, ganglion cells, spinal roots and nerve trunk damage from ionizing radiation based on neural elements transirradiation in neoplasms p0273 A71-25039
- Neural transmission to vestibular nuclei of semicircular canal response to rotational stimulation, discussing test methods and results with decerebrated or anesthetized cats p0273 A71-25042
- Humans and animals vestibular stimuli effect on external respiration function and respiration center neuron activity p0358 A71-28413
- Somatic and autonomic responses in vestibular tolerance of human subjects, using Coriolis acceleration test p0358 A71-28414
- Soviet book on vestibular reactions covering functional relationship between stimulus parameters and labyrinth nonauditory part, adaptation to Coriolis forces and response to ionizing radiation p0362 A71-28672
- Rotation perception in dark and oculogyral illusion, using power law to describe subjective vestibular sensation relation to angular acceleration stimulus pulses p0372 A71-29327
- Hybrid computer program for data reduction or on-line analysis of nystagmus during closed loop experiment involving visual and/or vestibular function p0373 A71-29359
- Mathematical model for short term adaptation to vestibular stimuli, deriving transfer function relating angular velocities of nystagmus and head rotation p0378 A71-30250
- Pigeon vestibular apparatus fluids and structures physical properties, detailing specific gravity and viscosity of endolymph, perilymph and cupola p0382 A71-30467
- Cortical neurodynamics during vestibular afferent activity and associated cardiovascular and respiratory reactions, noting EEG correlation to hemodynamics p0415 A71-32828
- Pyridoxine and serotonin metabolism changes and vestibular disorders observation in space flight p0423 A71-33677
- Stroke number and vestibular nystagmus duration and frequency under successively increasing angular acceleration from tests on guinea pigs p0530 A71-39238
- Vestibular apparatus effect on brain stem somatic activity p0561 A71-39998
- Bull frog activity at rest and response to centripetal acceleration by on-board centrifuge in vestibular space experiment OFO-A p0583 A71-41690
- Vestibulo-colic reflex control of head movement in seated man under sinusoidal and stepwise rotational velocity stimulation, comparing with ocular stabilization p0584 A71-41822
- Habituation and suppression of vestibulo-ocular vertical nystagmic responses to Coriolis stimulation in pentathlon athletes, comparing to pilots and airman trainees p0585 A71-41826
- Alcohol ingestion effects on vertigo and nystagmic vestibular responses to angular acceleration, considering visual fixation and alertness control p0585 A71-41827
- Central pathway connection between vestibular and oculomotor nuclei through pons responsible for horizontal eye movements induced by visual and vestibular stimuli p0591 A71-42436
- Vestibular and proprioceptive stabilization of eye movements p0593 A71-42448
- Human orthostatic and vestibular stability responses to weightlessness during extended space flights noting acceleration tolerance, physical efficiency, infection resistance and medication sensitivity p0600 A71-42790
- Visual and vestibular analyzers interaction, noting reduction in duration of counterrotation illusion and postrotation nystagmus in humans p0601 A71-42797
- Prolonged small radiation dosage effects on vestibular analyzer in normal and antiradiation drug protected dogs p0601 A71-42798

- Stabilographic indices and excitability curves of vestibular response to galvanic currents, using van Eymond cupulometry method p0637 A71-44544
- Coordination structure of human hand arbitrary movements during stimulation of horizontal semicircular canals in vestibular apparatus by negative angular acceleration p0637 A71-44545
- Sensory perception of ultralow frequency sinusoidal proprioceptive stimuli [AD-711045] p0040 N71-10248
- Influence of vestibular stimulation and display luminance on compensatory tracking task performance [NASA-CR-111111] p0044 N71-10499
- Characteristics of adaptation processes in vestibular systems p0063 N71-11490
- Orbiting frog otolith experiment p0069 N71-11829
- Biophysical evaluation of human vestibular system for aerospace applications [NASA-CR-111607] p0109 N71-12302
- Operation and training uses of vestibular analyzer [JPRS-52173] p0219 N71-16978
- Vestibulometric chairs and stands for objective study and training uses of vestibular analyzer p0219 N71-16979
- Rate of vestibular compensatory process in unilaterally labyrinthectomized rabbit p0219 N71-16980

- Monocular vision field structural color in violet and yellow region under increasing light frequency and periodic electric stimulation p0259 A71-23986
- Postexcitatoric inhibition of monochromatic flickering potentials on electroretinogram in man under intensive dazzling stimuli p0260 A71-23990
- Two flash threshold measurement of comparison stimulus duration of Bloch law for anticollision strobe lights p0267 A71-24443
- Human color vision investigation by psychophysical methods, discussing spectral sensitivity, pigment absorption and defective color vision as function of stimulus wavelength p0311 A71-26116
- Anesthetized cats visual cortex responses to prolonged light stimuli, studying dependence on photopic retina cone and rod apparatus p0318 A71-26863
- Extracortical/briefly latent/ postsynaptic negative component of evoked visual potential in cortex of nembutal anesthetized rabbits, using Alvar biophase oscillator p0322 A71-27489
- Visual cortex neurons impulse activity and postsynaptic potential changes due to light stimuli from quasi-intracellular recordings p0354 A71-27894
- Grating pattern vision models, examining single neural network and multiple channel stimulus information processing p0356 A71-28381
- Human afterimage and pupillary activity in darkness after strong light exposure, noting dependence on stimulus intensity and duration p0360 A71-28461
- Visual evoked cortical response in man related to rate, spatial frequency and wavelength of alternating barred pattern with background illumination p0361 A71-28463
- Distinctive visual evoked response potential field patterns resulting from human retina stimulation, using electrode array on occipital scalp p0367 A71-28888
- Multiple starlike flashes and short streaks reported by subjects exposed to neutrons under 25 mev, discussing interaction with retinal rods by proton recoils p0367 A71-28893
- Readiness potential, vertex positive wave and contingent negative variation recordings for evaluation of neural events associated with visually stimulated perception p0372 A71-29353
- Visually evoked cortical responses and visual acuity, discussing ocular convergence and accommodation effects p0408 A71-31953
- Beta inflection in darkness adaptation curve, postulating stimulus thresholds in mono and binocular examinations for perception time and sensitivity p0409 A71-31955
- Redundancy information effect on human performance in forced pace cognitive tasks under overload stimulus presentation rates p0415 A71-32866
- Human visual evoked cortical potential spectral sensitivity measurement, comparing results with psychophysical data p0424 A71-33679
- Cat pupillary system static and dynamic response determination under light and electrical stimulation, using TV pupillometer and on-line computer p0453 A71-34652
- Visual and auditory evoked potentials enhancement in cats using cryogenic blockage of nonspecific thalamo-cortical system in inferior thalamic peduncle region p0457 A71-35044
- Visual evoked potentials and cortical recovery cycle data for normal and psychiatric subjects of various ages p0458 A71-35112
- Visual evoked brain potential amplitude and detection efficiency relationship, discriminating between arousal and attention effects p0458 A71-35113
- Stimulus familiarization effects on visual selection patterns during exposure to banal and incongruous paired stimuli p0458 A71-35114
- Orientation reflexes neuronal activity due to various stimuli, noting hippocampus reaction to sound and light p0462 A71-35251
- Conjugate eye movement stimulator and monitor for human experimentation in closed loop, open loop and variable feedback modes of operation p0463 A71-35361
- Reaction times distributions in visual or auditory mode single and multiple motor response units p0464 A71-35392
- Stimulus control during conditional discrimination development at various training stages, using two key situation and two visual dimensions p0465 A71-35433
- Multiple positive off effects in human electroretinogram, recording rhythmic wavelets due to intense stimuli with averaging computer and short time constant amplifier p0466 A71-35499
- Colored light sources luminosity determination by Helmholtz-Kohlrausch effect, discussing brilliant and fluorescent stimulus p0467 A71-35802
- Time duration judgment under visual stimulus, noting numerosity effects p0470 A71-36003
- Threshold electrical phosphene dependence on impulse duration and stimulation frequency in subjects adapted to darkness p0491 A71-37018
- Increment thresholds for foveally viewed square and circular visual stimuli, suggesting availability of more than one spatial integration pattern p0513 A71-37444
- Detectability measurement of foveal stimulus, suggesting nonuniformity of retinal illuminance in visual task p0515 A71-38277
- Human visual cerebral cortex potentials evoked by sinusoidally modulated field under stabilized and unstabilized conditions p0515 A71-38278
- Stimulus patterns spatial intervals and line thickness effects on stabilized retinal images p0518 A71-38279
- Visual evoked potential relationship to apparent size reduction of invariant retinal image p0518 A71-38280
- Visually evoked cerebral cortex responses to on- and off-set of patterned light and contour density and sharpness in humans p0518 A71-38281

- p0518 A71-38282  
Hue shifts by intermittent stimulation, suggesting interaction between stimulus intermittency and temporal color coding in visual system
- p0518 A71-38283  
Visual sensations produced by cosmic ray muons passing in different directions through human eyes and head
- p0523 A71-38677  
Surround luminance effect on relative perceptual latency of response, using test stimuli confined to rod free area of fovea
- p0523 A71-38774  
Visual attention automatization due to repeated stimulus experience, noting fixation rate habituation concomitance with fixations spatial distribution uncertainty reduction
- p0533 A71-39545  
Stereoscopic vision and depth discrimination tests in cats, using conditioned suppression and rod-like shadow disparity stimuli
- p0534 A71-39958  
Subjective brightness of flashing light stimulus within fovea as function of stimulus size, noting edge effects contribution at suprathreshold levels
- p0579 A71-41478  
Flashing light stimuli application to clinical instrument design for detection and quantitative assessment of early pathological visual loss based on minimum discernible luminance difference
- p0579 A71-41482  
Test field size, brightness and retinal location effect on observer assessment of stimulus at subfusional frequencies flicker suggesting inherent clock mechanism within human brains
- p0581 A71-41497  
Visual stimulus control removal and restoration in rhesus monkeys, analyzing test errors
- p0605 A71-42860  
Quantitative characterization of unit time response in visual system, mapping latency and synchronicity as functions of stimulus position
- p0626 A71-43870  
Flicker adaptation effect on visual sensitivity to temporal fluctuations of light intensity

Human vigilance performance in brightness discrimination task under hypoxia, considering reaction time in signal detection
- p0092 A71-14740  
Practice effects on visual vigilance task performance with and without search
- p0104 A71-15845  
Visual alignment task performance for marks with vertical separation under various illuminations
- p0105 A71-15849  
Target field luminance, interstimulus interval and target-mask spatial separation effects on visual backward masking, estimating inhibitory region radius
- p0196 A71-20218  
Kundt optical illusion rule experimental testing under variable conditions with respect to monocular vision bisecting of horizontal straight lines, rectangles and squares
- p0263 A71-24205  
Intermittent noise effects on performance of visual search tasks of varying complexity, measuring test subjects target detection time under various noise/time ratio conditions
- p0263 A71-24206  
Pretask instructions effect on vigilance task performance, measuring time related signal detection correct and incorrect response percentages
- p0271 A71-24808  
Forced choice visual signal detection tasks scanning strategies and differential sensitivity to various target locations
- p0311 A71-26075  
Multiple suprathreshold visual and auditory monitoring tasks, evaluating vigilance decrement, individual differences, intertask relationships and channel capacity
- p0320 A71-27248  
Sensorimotor activity tests of operator perceiving high speed stimuli in broad visual field for psychological selection of aircraft and spacecraft pilots
- p0359 A71-28416  
Target and nontarget processing equivalence in visual search for item recognition and forced choice task, questioning Neisser hypothesis of preattentive screening
- p0410 A71-31985  
Optical tracking task performance and nystagmus during angular acceleration in yaw and pitch,

comparing differences due to vertical and horizontal canal response p0417 A71-33107

Partial reinforcement effect in visual vigilance task, varying knowledge of results as incentive p0424 A71-33680

Weibull distribution analysis of saccadic eye movements interval during visual task p0452 A71-34366

Visual search performance as function of color coding for information location tested on aeronautical charts p0455 A71-34703

Magnification level for optimum performance at microminiature inspection with binocular microscope, minimizing time p0455 A71-34704

Long duration brightness change in electroluminescent panel detection during monitoring task, discussing role of payoffs and signal ratios p0455 A71-34705

Stimulus familiarization effects on visual selection patterns during exposure to banal and incongruous paired stimuli p0462 A71-35251

Psychological correlates of pattern identification tasks and invariance of pattern recognition under rotation, using Kabrisky model of human visual system p0467 A71-35792

Target value and exposure duration effects on recall in visual search tasks, discussing results in relation to previously reported inconsistencies p0471 A71-36103

Secondary visual tracking tasks utility in assessing lag effect in simulated combat aircraft dynamics p0491 A71-36973

Detectability measurement of foveal stimulus, suggesting nonuniformity of retinal illuminance in visual task p0515 A71-38278

Prefrontal cortex lesions effect on trained anticipatory visual target fixation in cats, noting performance impairment in voluntary eye movement control p0563 A71-40174

Character size, case and symbol generation effects on CRT display search time p0589 A71-42195

Visual performance in simulated target acquisition tasks as function of flare-ignition altitude p0589 A71-42196

Central panel luminance effect on peripheral visual detection time in search tasks p0621 A71-42899

Short term central fatigue as causal factor of delayed psychological refractory period in multiple choice visual signal tasks p0626 A71-43864

Low grade hypoxia effects on human physiological responses and performance in vigilance /display monitoring/ tasks p0629 A71-44238

Low frequency vibration effects on visual acuity of pilot performing visual task [ISVR-TR-49] p0542 N71-32864

Mathematical model representing human performance reliability for laboratory vigilance and manual control tasks [AD-727766] p0650 N71-36503

p0316 A71-26534
- Long term immersion effects on human water-salt metabolism, noting increased erythrocyte water contents and hematocrit index  
p0357 A71-28402

Human body water metabolism during acute high altitude exposure with heavy physical activity and high food intakes

p0420 A71-33240

Human nitrogen and water-salt metabolisms and respiratory activity during prolonged confinement in small volume chamber with cyclic varying hypoxic air

p0601 A71-42799

Human fluid balance in artificial environments, and influence of ambient temperature, water vapor pressure, total barometric pressure, wind velocity, and atmospheric gas composition [NASA-CR-114977]

p0391 N71-25000

Prolonged immersion effects on human water/mineral metabolism

p0437 N71-28251

ER CONSUMPTION

Water intake effects on human thermal sweat rate and composition in environmental chamber at specific temperature and humidity

p0026 A71-11670

Secretory function intensity of salivary glands, liver and stomach of animals and humans with different water-salt metabolism conditions

p0309 A71-25669

Food and water intake changes associated with interruption of hypothalamus anterior or posterior fiber connections

p0365 A71-28802

Chronic centrifugation effects on water intake and urine output in mice, considering food intake and growth rate

p0526 A71-38984

Diurnal water and food intake and body weight changes pattern in rats with hypothalamic lesions

p0587 A71-41936

ER CONTENT

MOISTURE CONTENT

ER DEPRIVATION

Prolonged water deprivation effects on hypothalamic self stimulation of rats with electrodes chronically implanted in posterior lateral hypothalamus

p0138 A71-17087

Internal osmotic balance and stress induced body fluid osmolality changes due to food or water deprivation, reporting on experimental results with rats

p0210 A71-21750

ER FLOW

Convective heat exchange coefficient determination for human body immersed in turbulent water flow, using fractional calorimetry

p0485 A71-36862

Heat transfer coefficients calculation for human body in cold water from heat balance equations, comparing with free convection coefficients in cross-flowing water

p0490 A71-36900

Comparison of water, convective air, and reversed air flow cooled suits for body temperature thermoregulation in high temperature environments [FPRC-1307]

p0497 N71-30127

ER LOSS

Voluntary body water and salt deficits decreasing human heat tolerance

p0132 A71-16597

Human body weight and skin sweat gland water loss rates effects on thermoregulation

p0485 A71-36864

Moderate heat exposure effects on human circadian variations in body temperature, heart and metabolic rates and water loss

p0639 A71-44779

Effects of atmospheric gas and moisture concentration, temperature, pressure, and wind velocity on human performance and skin water loss rate

[NASA-CR-115024] p0401 N71-26385

ER MANAGEMENT

Life support water management subsystem 4-man 90-day test in space station simulator with closed water and oxygen loops and no resupply [ASME PAPER 71-AV-6]

p0474 A71-36373

Skylab life support systems design and performance prediction covering thermal and humidity control, atmospheric supply, carbon dioxide removal, water and waste management

[ASME PAPER 71-AV-14] p0476 A71-36381  
Space shuttle environmental control and life support system design covering atmospheric pressure, composition, humidity, temperature, water and waste management

[ASME PAPER 71-AV-16] p0476 A71-36383  
Oxidation of water in regeneration under spacecraft conditions, measuring organic impurities degree of oxidation in inhabited cabin atmospheric vapor condensates

p0603 A71-42814

Water management in long term manned space simulation life support test

p0292 N71-20956

Evaporation and filtration systems for water management in manned space vehicles

p0445 N71-28536

WATER POLLUTION

Selective bibliography of water and air pollution for business and industry [PB-192318]

p0049 N71-11078

Environmental problems including air pollution, water pollution, radioactive wastes, smog, sewage, aircrafts, and garbage disposal [AD-712722]

p0108 N71-12297

Evaluating scientific and engineering requirements for research related to coastal wastes management [PB-195861]

p0277 N71-19653

Chemiluminescent bacterial sensor for water pollution detection during long term manned space station simulation

p0297 N71-20993

Biochemistry, molecular biology, radiochemistry, meteorology, soil science, and water pollution research and development and environmental engineering [AECL-3728]

p0391 N71-24889

Effects of boron concentration in water on environment pollution [IVA-33]

p0500 N71-30598

Analysis of water pollution and application of biogeocology techniques to eliminate effects of water pollution

p0554 N71-33508

WATER PURIFICATION

U WATER TREATMENT

WATER RECLAMATION

Cosmonaut water supply and regeneration in spacecraft using self contained biological cycle

p0014 A71-11150

Artificial mineralization of water regenerated from human waste products in space flight

p0405 A71-31309

Reverse osmosis application to wash water recovery in manned space mission life support systems, emphasizing membranes development

[ASME PAPER 71-AV-1] p0474 A71-36368

Closed cycle life support water electrolysis system using solid plastic sheet electrolyte /ion exchange membrane/ of sulfonated perfluoro polymer [ASME PAPER 71-AV-9]

p0475 A71-36376

Automated self sterilizing breadboard unit for potable water reclamation from urine by electrolysis-electrodialysis for long term space missions

[ASME PAPER 71-AV-11] p0475 A71-36378

Space station life support prototype vapor diffusion water reclamation system for pure and sterile water distillation from urine process stream [ASME PAPER 71-AV-31]

p0478 A71-36398

Urine preservatives for urine water recovery system, noting ammonia and organic compound contents in condensate

p0602 A71-42809

Decontaminating methods for water regenerated from urine under space flight conditions by filtering water condensate through sorbents

p0603 A71-42815

Group analysis of impurities in water regenerated from liquid human wastes

p0635 A71-44529

Potable water reclamation from human wastes in zero-G environment [NASA-CASE-XLA-03213]

p0061 N71-11207

Design of isotopic fueled distillation and filtering system for potable water recovery from human waste during space simulation tests

p0292 N71-20957

p0250 A71-23149  
Biosatellite 3 onboard camera time lapse photography of monkey sleep/wake activity patterns during weightlessness  
p0251 A71-23240  
Long term zero gravity effects on mammal physiologic rhythms characteristics, studying rats in biosatellite orbits  
p0269 A71-24611  
Psychobiological stress of prolonged weightlessness /bed rest/ in man in terms of adaptive homeostatic state and decreased sensory-motor-muscular input  
p0312 A71-26120  
Astronaut selection and training, considering acceleration, hypoxia, weightlessness and temperature variation tolerance  
p0318 A71-26951  
Space flight factors effects on human physiology and psychology, discussing spacecraft gaseous medium control, food supply, closed ecological systems and weightlessness effects  
p0354 A71-27876  
Space crew members muscle tone, determining weightlessness effect by rigidity and bioelectric activity  
p0405 A71-31317  
Cardiovascular and respiratory systems, motor and muscular activity, metabolism and body energetics functional changes due to prolonged weightlessness  
p0423 A71-33676  
Human energy requirements in weightless environments, correlating metabolic data from Gemini and Apollo missions with food consumption and energy balance measurements  
p0424 A71-33778  
Life support systems test under weightlessness environment in Nike Tomahawk sounding rockets launched from Wallops Island  
p0425 A71-33816  
Zero gravity whole body shower system for space station, describing air drag and vacuum methods for water collection  
[ASME PAPER 71-AV-2] p0474 A71-36369  
Zero-gravity circulating water electrolysis system prototype design for metabolic and leakage makeup -oxygen supply in 12-man space station regenerative life support system  
[ASME PAPER 71-AV-20] p0477 A71-36387  
Manned earth-orbital missions performance assessment experiments, studying effects of artificial and zero gravity spacecraft environments on humans  
[AIAA PAPER 71-891] p0482 A71-36641  
Chemically activated electroadhesive pads on spacecraft surface, allowing astronauts to maneuver or work in zero gravity environments  
[AIAA PAPER 71-853] p0483 A71-36645  
Artificial gravity selection by rats in centrifugal acceleration fields superimposed on weightlessness during sounding rocket flights  
[AIAA PAPER 71-854] p0483 A71-36646  
Astronaut orthostatic tolerance loss due to weightlessness, describing compensation by periodic lower body negative pressure  
[AIAA PAPER 71-859] p0483 A71-36648  
Engineering aspects of zero gravity personal hygiene and waste management systems, noting controlled air flows, surface tension and artificial gravity use  
[AIAA PAPER 71-865] p0483 A71-36653  
Human response to space environment, discussing prolonged weightlessness, extravehicular work and lunar surface activity  
p0514 A71-37492  
Physicotechnical and biomedical aspects of human efficiency under weightlessness, discussing physical exercise role in adaptation  
p0528 A71-39217  
Biosatellite 2 onboard experiments studying weightlessness effects on biological processes and interaction with radiation from Sr 85 gamma ray source  
p0562 A71-40007  
Transient heart rate response to square wave breathing in man under zero G parabolic flight  
p0585 A71-41828  
Biomedical effects of Apollo 14 space flight, considering weightlessness adaptation

## SUBJECT INDEX

WHIRL

- Human orthostatic and vestibular stability responses to weightlessness during extended space flights noting acceleration tolerance, physical efficiency, infection resistance and medication sensitivity p0588 A71-41985
- Homeostasis during weightlessness [NASA-TT-F-13373] p0600 A71-42790
- Potable water reclamation from human wastes in zero-G environment [NASA-CASE-XLA-03213] p0041 N71-10368
- Biosatellite flight data of weightlessness effects on biological systems p0061 N71-11207
- Weightlessness manufacturing of vaccines and fermenter design for orbital workshop p0064 N71-11711
- Effect of extended space flights under conditions of weightlessness on muscular working capacity [AD-713007] p0064 N71-11713
- Bed rest study to evaluate flight foods under weightlessness conditions [NASA-CR-114780] p0109 N71-12307
- Effects of weightlessness on body temperature and heart rate determined by 56 day bed rest study [NASA-CR-114781] p0118 N71-13436
- Weightlessness effects on hydroxycorticosteroid excretion determined by 56 day bed rest study [NASA-CR-114782] p0118 N71-13437
- Monitoring cardiovascular function in primates under prolonged weightlessness [NASA-CR-73498] p0160 N71-14633
- Biomedical effects of weightlessness and confinement on man and other organisms [AD-714406] p0169 N71-16298
- Aeronautical aspects of manned space flight [JPRS-52309] p0172 N71-16520
- Weightlessness effects on man during space flight p0172 N71-16521
- Analysis of homeostatic processes in weightlessness [AD-715507] p0229 N71-18793
- Medical support procedures and postflight analysis of physiological changes in Soyuz 9 crew members p0231 N71-18900
- Measuring physiological changes and circulatory reactions of Soyuz 9 crew members during prolonged flight p0231 N71-18902
- Determining functional changes in physiological responses of Soyuz 9 crew members after prolonged flight p0231 N71-18903
- Evaluating bone tissue optical density and calcium content in blood serum and urine of Soyuz 9 crew members p0231 N71-18904
- Investigating effects of weightlessness on neuromuscular system of Soyuz 9 crew members p0231 N71-18905
- Technique for exercise to counteract effect of zero gravity on skeletal muscles of rhesus monkeys during extended orbital spaceflight [NASA-CR-117308] p0283 N71-20165
- Details of astronaut zero gravity performance evaluation program including publication of handbook, fabrication of prototype hardware, and worksite performance data [NASA-CR-1725] p0338 N71-22679
- Zero gravity clothes washer utilizing principles of fluidics to provide washing action and reduction in number of components scale model [NASA-CR-114983] p0388 N71-24455
- Method and apparatus for applying compressional forces to skeletal structure of subject to simulate force during ambulatory conditions [NASA-CASE-ARC-10100-1] p0390 N71-24738
- Effect of weightlessness on cardiovascular and uretic functions in human subjects [AD-719790] p0391 N71-24997
- Nutritional requirements of aquanauts under open underwater stations and weightlessness [JPRS-53161] p0402 N71-26622
- Physiological effects and acceleration tolerances after weightlessness based on space environment simulation with human centrifuges and bed rest [NASA-CR-115068] p0493 N71-29216
- Measurement of changes in musculoskeletal system under hypodynamic and hypogravic conditions p0548 N71-33257
- Weightlessness effects on human sensorimotor performance and locomotion p0549 N71-33452
- Restraint system for ergometer used under zero gravity conditions or earth atmosphere in unconventional positions. [NASA-CASE-MFS-21046] p0611 N71-34080
- Cargo handling, transfer, and storage under weightlessness conditions of space shuttle p0617 N71-35270
- Equations of motion for describing weightlessness phenomena during space flight [NASA-CR-123161] p0654 N71-37660
- WEIGHTLESSNESS SIMULATION**
- Horizontal clinostat rotation rate for optimal and acceptable weightlessness simulation in plants, comparing with wheat seedlings growth in Biosatellite 2 p0127 A71-16150
- Permanent magnets for footwear restraint and mobility in zero gravity spacecraft, testing neutral buoyancy and six degree of freedom simulation effects [IEEE PAPER 2.2] p0190 A71-19607
- Structural development in rat bone under earth gravity, hypergravity and simulated weightlessness, discussing physical dimensions, density, rigidity, microhardness and ash content [AIAA PAPER 71-895] p0482 A71-36640
- Intravehicular manual cargo transfer, using water immersion technique for zero gravity simulation [AIAA PAPER 71-851] p0482 A71-36642
- Weightlessness simulation for orbital man machine experimentation, discussing teterboard and cargo transfer examples [AIAA PAPER 71-850] p0482 A71-36643
- Mathematical model for underwater simulation of astronaut extravehicular activities in weightless conditions, using computer program [AIAA PAPER 71-852] p0483 A71-36644
- Pinto beans circadian leaf movements in simulated weightless environment, relating rotational treatment time to rhythm phase p0562 A71-40006

 U ATMOSPHERIC CIRCULATION  
**WIND EFFECTS**  
 Spores released from solids interiors by aeolian erosion on planetary surface, noting application to microbes in planetary quarantine p0424 A71-33796  
 Cold climate clothed human windchill tables, considering various heat transfer modes and skin temperature p0528 A71-39205  
 Effect of hard impact and aeolian erosion on release of microorganisms from geological formations [NASA-CR-121707] p0607 N71-34056
- WIND TUNNELS**  
 Wind tunnel tests with human subjects to determine effects of whole body and bare hand cooling at high wind speeds as might be encountered in air-to-air rescue operations [AD-715976] p0279 N71-19813
- WIND VELOCITY**  
 Air temperature and wind speed role in finger-freezing time p0026 A71-11669  
 Effects of atmospheric gas and moisture concentration, temperature, pressure, and wind velocity on human performance and skin water loss rate [NASA-CR-115024] p0401 N71-26385
- WINDOWS (APERTURES)**  
 Visual detection of stars in spacecraft environment, considering window cleanliness and antireflection coating effect on light scattering p0473 A71-36278
- WINDOWS (INTERVALS)**  
 NT LAUNCH WINDOWS  
**WINDSCREENS**  
 U WINDSHIELDS  
**WINDSHIELDS**  
 Vision loss from windshield tinting in night visual flying accident p0207 A71-20824
- WING PROFILES**  
 NT WING SPAN  
**WING SPAN**  
 Intraspecific relationships between lean weight and wing length for migratory birds [NLL-RTS-6197] p0440 N71-28352
- WINGS**  
 NT FIXED WINGS  
**WIRING**  
 Retinal electronic model with about 700 photoreceptors and output cells and new interconnections technique p0138 A71-17079
- WIRING SYSTEMS**  
 U WIRING  
**WOMEN**  
 U FEMALES  
**WORDS (LANGUAGE)**  
 Biological memory and perception processes electronic simulation by keyboard structure reenacting word reception, storage and delivery p0194 A71-20118
- WORK**  
 NT PHYSICAL WORK  
 Human spinal reflex effects during static work, suggesting cord segmental chiasmatic connections interaction with spinobulbar-spinal tract p0215 A71-21973  
 Environmental chambers for testing human work performance under thermal stress [AD-721595] p0441 N71-28447  
 Work environment and task factor effects on long term aircrew effectiveness p0496 N71-29682
- WORK CAPACITY**  
 Human survivability and work capacity in aerospace environments, discussing sudden unprotected exposure to vacuum p0006 A71-10512  
 Human work level adjustment to specific energy expenditures during hard work on servocontrolled treadmill p0025 A71-11665  
 Oxygen debt after steady state work in submaximal physical exercise p0025 A71-11668  
 Respiratory features for conscious or unconscious warning of impending exhaustion, noting work load-performance decrement relation p0100 A71-15159  
 Physical fitness in prolonged muscular work tolerance evaluation by oxygen consumption for 170 beat/min heart rate, considering age, sex and occupation p0132 A71-16614  
 Human work capacity in hot environment irrelevance to normal conditions, considering physiological reactions to exercise in heat by heart rate criterion p0133 A71-16621  
 Human physical exercise with stepwise increasing load noting working capacity, cardiovascular and respiratory system performance and blood composition interrelations p0134 A71-16805  
 Human valvular heart disease, examining work load effects on oxygen demand p0140 A71-17294  
 Human work capacity measurements by graded step test and bicycle ergometer, considering heart rate and oxygen uptake p0187 A71-19457  
 Human work load assessments by time study officers and physiologists, noting disagreeing values p0188 A71-19466  
 Redundancy effects on human memorization working capacity, noting application to memory systems design p0194 A71-20113  
 Psychological aspects influencing aircrewman capacity to perform useful work, detailing selection, training, operational environment and global factors p0204 A71-20724  
 Oxygen deficiency and body temperature effects on work capacity of human subjects in hot humid environment p0248 A71-22922  
 Furosemide effect on physical work capacity, studying recovery pulse response, oxygen extraction during exercise and altitude acclimatized subjects oxygen uptake p0250 A71-23237  
 High altitude submaximal and maximal work by humans, noting time required for steady state oxygen consumption, ventilation and heart rate p0254 A71-23368  
 Cardiovascular responses to submaximal and maximum effort cycling and running on bicycle ergometer and motor driven treadmill, using carbon dioxide rebreathing method p0318 A71-27128  
 High altitude aerobic working capacity limitations, examining oxygen transport system and circulator factors p0379 A71-30276  
 Human muscle blood flow measurement by Xe 133 clearance method during rhythmic exercise, noting work load effects p0407 A71-31455  
 Skylab habitability facilities for astronaut work effectiveness and physical well being p0407 A71-31456  
 Work load and maximum physical exercise duration relationship for forearm reciprocating flexion and extension, cranking of both arms and bicycle pedalling p0451 A71-34359  
 Subjective fatigue feeling correlation to symptoms based on bank clerks and broadcasting workers work load assessment ratings p0452 A71-34367

- Maximal sweat evaporative heat loss and permitted work load measurements as function of temperature and clothing insulation p0485 A71-36861
- Mental work capacity investigation methodology, including Kekcheev, Kosilov, Zinchenko, Pratushevich and Kraepelin tests p0513 A71-37446
- Astronaut work capacity and adaptation during long term flight of space vehicle Soyuz 9 p0565 A71-40259
- Relationships between cardiac volume, body weight, physical work capacity, and blood volume in healthy men and women with varying range of performance [NASA-TT-P-13439] p0229 N71-18573
- Oxygen consumption and work capacity in fitness evaluations on Canadian Armed Forces personnel p0334 N71-22311
- Forty eight hour continuous work-sleep loss effects on human performance - Themis project [AD-722816] p0504 N71-31236
- Method for evaluating work capacity of astronaut in spacecraft control, based on probability iterative techniques and linear differential transforms p0658 N71-38647
- WORK DECREMENT**  
**U WORK CAPACITY**  
**WORK-REST CYCLE**
- Resting oxygen consumption in exercise-trained and nontrained normal, hypophysectomized and thyroidectomized rats p0018 A71-11408
- Circadian work-rest cycles in isolated humans p0018 A71-11411
- Visual task vigilance deterioration under hypoxia, considering work-rest schedule effect and IQ scores p0019 A71-11418
- Oxygen uptake kinetics in human submaximal exercise during work load transitions and work-rest cycle p0025 A71-11663
- Human strength decrement and recovery for repetitive maximal muscular exertions with various intertrial intervals p0104 A71-15846
- Human sleep deprivation research, discussing task performance, man machine interaction and work-rest cycles p0105 A71-15848
- Tolerance time for hot humid conditions, considering acclimatized and unacclimatized men at rest and at work with moderate rate of energy expenditure p0127 A71-16153
- Knowledge of results and rest pauses effect on sensorimotor skills at different training conditions p0133 A71-16618
- Neuroendocrine and metabolic responses to rotating workshift schedules, using urinalysis to assess physiological disturbances and adaptive changes p0206 A71-20817
- Diurnal rhythm of adrenaline secretion in subjects with different working habits, comparing catecholamine excretion under relaxation conditions p0314 A71-26355
- Serotonin role in central nervous system activity, stressing sleep/wakefulness cycle regulation p0317 A71-26651
- Diurnal rhythms of human physiological functions and performance during frequently alternating sleep-work cycles p0358 A71-28410
- Astronauts work-rest schedule principles during space flight, discussing circadian rhythms and desynchronization p0405 A71-31315
- Lactic and succinic acids and creatine phosphates contents in rat hind leg muscles during swimming and at rest p0425 A71-33897
- Human fatigue with emphasis on chronic conditions unrelieved by rest or sleep, recommending elimination of conditions resulting in excessive stress, anxiety or boredom p0450 A71-34353
- Electroencephalographic evaluation of brain functions disturbances in response to stress in flying personnel, relating fatigue and rest periods allocation p0515 A71-38223
- Trace processes as basis for efficiency change during exercise and active rest p0576 A71-41061
- In-flight study of work/rest cycle effects on double crew performance and fatigue in flying transport missions p0585 A71-41829
- Stability of sleep patterns in young adults for sequential nights over three week period [NASA-CR-111519] p0051 N71-11094
- Effects of repeated maximal isometric exertions with various intertrial intervals on fatigue function and determining relationship between strength and relative decrement [AD-714190] p0171 N71-16399
- Rest and activity cycles for maintaining efficiency of military flight operations personnel [AGARD-CP-74-70] p0217 N71-16905
- Effect of work-rest cycles on performance of flight crews and supervisory personnel p0218 N71-16909
- Differences between military and commercial flight crews work-rest cycles and physiological stresses p0218 N71-16913
- Work-rest cycles in air traffic control tasks p0219 N71-16915
- Physiological measurements on divers in underwater drilling facility to determine work-rest cycle characteristics [JPBS-52697] p0300 N71-21472
- Performance and recovery characteristics of men when subjected to prolonged whole body verticle vibration p0401 N71-26432
- Effects of work-rest cycle on operator performance of simple tracking task under normal and vibratory environments [AD-721014] p0432 N71-27355
- Formulation of work and rest schedules for optimum performance of spacecrews p0442 N71-28488
- Human performance and recovery in man machine systems of continuous operations and work/rest schedules [AD-723430] p0540 N71-32331
- Performance and recovery of men subjected to low-level, whole-body vertical sinusoidal vibrations for one to two hours [AD-726974] p0647 N71-36481
- Factors affecting diurnal work-rest cycle for spacecrews [AD-727226] p0653 N71-37650
- WOUND HEALING**
- High-mountain altitudes inhibition of inflammation and wound healing in rabbits p0423 A71-33522
- X**
- X BAND**  
**U SUPERHIGH FREQUENCIES**  
**X RAY ANALYSIS**
- Photogrammetry in precision three dimensional X ray stereoradiography, comparing doses with Kymography, Tomography and Seriescopy p0028 A71-11951
- Chest and cardiovascular system optimal radiologic facilities, discussing X ray examination, catheterization-angiocardigraphic and nuclear radiology laboratories p0198 A71-20354
- Electron microprobe X ray analysis of atmospheric aerosol particles [PB-189283] p0049 N71-11079
- Investigating effects of gravitational and inertial forces on cardiovascular and respiratory dynamics [NASA-CR-111606] p0108 N71-12294
- X ray methods for quantitative analysis of cardiac activity in athletes p0276 N71-19587
- X RAY FLUORESCENCE ANALYSIS**  
**U X RAY ANALYSIS**  
**X RAY IRRADIATION**
- C 14 incorporation from labeled glucose into cerebral glycogen of normal and X ray irradiated rats

- p0008 A71-10850  
X ray effects on dogs with and without UV preexposure, determining blood protein and chemical composition, hemoglobin content and thermostability
- p0088 A71-13524  
X ray influence on protein and mineral content of blood serum in dogs
- p0158 A71-18728  
Radiosensitizer and radioprotector action mode in altering X ray effects on DNA in biological systems of different complexity
- p0175 A71-18928  
DNA modification in Escherichia coli exposed to X rays and sensitized by triacetoneamine N-oxyl and oxygen
- p0177 A71-18939  
Cysteine incorporation in Escherichia coli B, noting X ray sensitivity and radioprotection
- p0178 A71-18942  
Cysteamine protection of hydroxyurea sensitized Chinese hamster lung cells during X ray exposure
- p0179 A71-18947  
Polycation effect on tumor cells, describing growth rate inhibitions, X ray sensitivity and DNA interference
- p0179 A71-18951  
Methylhydrazine radiosensitization of Ehrlich ascites tumor cells, investigating X radiation enhanced cell killing effect via deoxyribonucleic acid strand breakage
- p0180 A71-18955  
Chemical radioprotective effectiveness modification by open skin wounds, discussing results with whole body X ray irradiated mice
- p0182 A71-18964  
Short and long term radiation effects reduction by chemical radioprotectors mixtures, noting improved survival and decrease in leukemia and cancer incidence in X ray irradiated mice
- p0182 A71-18970  
Aminoethylisothiourea and methoxy-tryptamine synergism quantitative analysis by pharmacological methods of radioprotective effect in X irradiated mice
- p0183 A71-18971  
Dinitrophenol inhibition of rejoining of X ray induced DNA breaks by L cells
- p0200 A71-20447  
Chromosome radiation injury preservation in generations of X ray irradiated cells of human diploid strains
- p0214 A71-21966  
Radiation induced visual phosphores observed by dark adapted human subjects in fast neutron, X ray and positive pion beams at Berkeley comparative to primary cosmic ray effects
- p0323 A71-27675  
Combined and individual effects of UV light, X ray irradiation and freezing-thawing cycles on ribonuclease
- p0605 A71-42830  
Characteristics of X irradiated lambda phages [NYO-3797-10]
- p0159 N71-14573  
Changes in bioelectric potentials in brains of rabbits subjected to X ray irradiation and acceleration on centrifuge
- p0237 N71-19094  
Histopathology and clinical study of chronic X ray dermatitis and cancer of fingers
- p0448 N71-29200  
[NASA-TT-F-13664]
- X RAY PHOTOGRAPHY**  
**U RADIOGRAPHY**  
**X RAYS**
- p0181 A71-18961  
Anoxic fern spores X ray sensitization, observing diacetyl and isatin effects
- p0575 A71-41057  
Gangliosides and cerebroside content in rat brain under normal conditions, during hypoxia and under small X ray doses action
- p0599 A71-42731  
White rats resistance to acute anoxic, anemic and histotoxic hypoxia during various phases of X radiation sickness, studying adrenal cortex histophysiological state
- p0161 N71-14668  
Effects on ultraviolet radiation and X rays on mammalian cells [UCSF-10-P-2-114]
- Human exposure to particulate radiation and energetic X rays [NASA-CR-123173] p0655 N71-37661
- XANTHINES**  
**NT URIC ACID**  
**XENON**  
**NT XENON 133**  
Effective flashes by scintillating Xe arc flash tube, considering perception by human eye p0580 A71-41492
- XENON ISOTOPES**  
**NT XENON 133**  
**XENON 133**  
Xe 133 elimination from anterior tibial muscles in dry and water immersed sitting subjects, discussing effects of air and oxygen breathing p0372 A71-29358
- Y**
- YAW**  
Hydrodynamic and frequency response of semicircular canals compared in yaw, pitch, and roll [AMRU-R-64-1] p0506 N71-31527
- YEAST**  
Radioresistant yeast strain Saccharomyces cerevisiae, discussing cycloheximide and gamma irradiation treatment influence on growth p0178 A71-18943  
Bacteria and yeast strains, fungus specimens and seaweed species high vacuum resistance, noting microorganisms interplanetary transport in outer space p0363 A71-28689  
Acetyl-coenzyme A synthetase in aerobic yeast cells localization in microsomal fraction by density gradients p0384 A71-31003  
Plasma and urinary uric acid production in men fed egg protein and yeast ribonucleic acid [A69-15968] p0113 N71-12329  
Suppression by allopurinol of uric acid formation in men fed yeast RNA p0114 N71-12331  
Polarization and energy conversion efficiency of yeast and Bacillus lactae fermentation for biochemical fuel cells p0399 N71-26245

**U SILVER ZINC BATTERIES**  
**ZOND SPACE PROBES**  
**NT ZOND 7 SPACE PROBE**  
Biological experiments on plants, animals and bacteria aboard Zond 5, 6 and 7 space probes p0528 A71-39134  
**ZOND 5 SPACE PROBE**  
Lethal recessive point mutation in Drosophila melanogaster eggs on Zond 5 spacecraft p0021 A71-11552  
Space flight effects on survival, mutation and cell development of Chlorella cells suspensions onboard Zond 5 spacecraft p0021 A71-11554  
Biological effects on animals and plants onboard Zond-5, 6, and 7 [NASA-TT-F-13372] p0042 N71-10369

SUBJECT INDEX

ZOND 7 SPACE PROBE

ZOND 6 SPACE PROBE

Biological effects on animals and plants onboard  
Zond-5, 6, and 7  
[NASA-TT-F-13372] p0042 N71-10369

ZOND 7 SPACE PROBE

Postflight histological analysis of turtles aboard  
Zond 7, noting decrease in cell nuclei size due to  
space flight conditions adaptation p0571 A71-40568

Biological effects on animals and plants onboard  
Zond-5, 6, and 7  
[NASA-TT-F-13372] p0042 N71-10369

# Personal Author Index

**AEROSPACE MEDICINE AND BIOLOGY / a continuing bibliography**      **JANUARY 1972**  
 1971 Cumulative Index

## Typical Personal Author Index Listing

The Notation of Content (NOC), rather than the title of the document, is used to provide a more exact description of the subject matter. The NASA or AIAA accession number is included in each entry to assist the user in locating the abstract in the abstract section of an individual issue of *Aerospace Medicine and Biology*. The page number indicates the exact page on which the abstract is found. If applicable, a report number is also included as an aid in identifying the document.

## A

- AARS, H.**  
 Sympathetic nervous response to induced fall and rise of arterial blood pressure in anesthetized rabbits  
 p0464 A71-35367
- AARSETH, P.**  
 The effect of sympathetic nerve stimulation on pulmonary blood volume in isolated perfused lungs  
 p0385 A71-31135
- AASTERUD, J. P.**  
 Advanced survival avionics development study Final report, Aug. 1969 - Mar. 1970  
 [AD-715310] p0387 N71-24414
- ABASKULIEVA, L. I.**  
 Influence of the blockage of M-cholinergic and adrenergic subcortical structures on the blood flow rate in different sections of the circulatory system  
 p0427 A71-34113
- ABBOTT, J. K.**  
 Studies on the storage stability of human blood cholinesterases, 1  
 [AM-70-4] p0040 N71-10274  
 A comparison of three serum cholinesterase methods  
 [AM-70-13] p0043 N71-10449
- ABBOUD, F. M.**  
 Effect of local cooling on responsiveness of muscular and cutaneous arteries and veins  
 p0098 A71-15091
- ABDEL-SAYED, W. A.**  
 Effect of local cooling on responsiveness of muscular and cutaneous arteries and veins  
 p0098 A71-15091
- ABE, M.**  
 Studies on restorative effect of taurine in radiation injury and its clinical application  
 p0186 A71-18991
- ABEL, F. L.**  
 Fourier analysis of left ventricular performance - Evaluation of impedance matching  
 p0190 A71-19636
- ABEL, H.**  
 Functional diagnosis of the heart by the spatial T-area vector  
 p0414 A71-32660
- ABELIAN, ZH. G.**  
 Phospholipids of the hypothalamo- neurohypophysial system  
 p0085 A71-13237
- ABELL, P. A.**  
 Behavioral acoustics - The impact of space simulator noise on crew members  
 p0296 N71-20988
- ABELMANN, W. H.**  
 Left and right ventricular pressures in mice  
 p0254 A71-23371
- ABELSON, D.**  
 A simple method of recording heart sounds and murmurs  
 p0511 A71-37234
- ABENDSCHEIN, W. F.**  
 Nondestructive measurement of some physical properties of bone  
 p0546 N71-33261
- ABIDIN, B. I.**  
 Influence of restricted mobility on the intensity of formation and excretion of certain gaseous products of vital activity in animals  
 p0404 A71-31305  
 Effect of some toxic gaseous compounds on the stability of animals under acute hypoxic hypoxia  
 p0602 A71-42806
- ABILDSKOV, J. A.**  
 The primary T wave - A new electrocardiographic waveform  
 p0192 A71-19840  
 False complete bilateral bundle branch block - Report of cases  
 p0469 A71-35912
- ABOUD, E. G.**  
 Oxygen and related equipment  
 p0203 A71-20714
- ABRAHAM, A. S.**  
 Haemodynamic and pathological study of the effect of chronic hypoxia and subsequent recovery of the heart and pulmonary vasculature of the rat  
 p0310 A71-25931
- ABRAHAM, S.**  
 Effect of diet on hepatic fatty acid synthesis  
 p0008 A71-10848
- ABRAMOV, I. P.**  
 Some results of the performance of a self-contained life-support system during the flights of the Soyuz 4 and Soyuz 5 spacecraft  
 p0013 A71-11141  
 Some results of operation of the self-contained life support system during flight of the 'Soyuz 4' and 'Soyuz 5' spaceships  
 p0063 N71-11492
- ABRAMOVA, G. M.**  
 Effectiveness of shielding of different body portions during repeated irradiations with protons  
 p0149 A71-18360
- ABRAMS, C.**  
 Effects of target value and exposure duration on recall in a visual search task  
 p0471 A71-36103  
 Using alternating displays to improve operator performance  
 p0583 A71-41636  
 Human monitoring performance Final report, 1963 - 1970  
 [AD-711350] p0056 N71-11178  
 The effects of display alternation on monitoring performance  
 [AD-715777] p0229 N71-18741  
 Operator target detection performance as a function of the number of sonar echoes, interval between transmissions, and signal-to-noise ratio  
 [AD-726741] p0618 N71-35279
- ABRAMS, H. L.**  
 Optimal radiologic facilities for examination of the chest and the cardiovascular system  
 p0198 A71-20354
- ABROSIMOV, V. V.**  
 Effectiveness of activity level shifts in working

- muscles during cycled work p0633 A71-44412
- ABULADZE, G. V.**  
Use of a small computer for averaging evoked brain potentials in a real time scale during long-distance communication p0357 A71-28385
- ABYZOV, S. S.**  
Microbiological investigations of meteorites p0364 A71-28693  
Spacecraft sterilization p0364 A71-28696
- ACKER, H.**  
Local oxygen tension field in the glomus caroticum of the cat and its change at changing arterial PO2 p0638 A71-44562
- ACKERMAN, P.**  
Incorporation of intravenously injected acetate-2-C14 into tissue lipids of hypothermic hamsters p0377 A71-29582
- ADAIR, E. H.**  
Behavioral temperature regulation in the squirrel monkey - Effects of midbrain temperature displacements p0485 A71-36860  
The relation between behavior and physiology in the thermoregulatory response of the squirrel monkey p0490 A71-36896
- ADAMOVICH, B. A.**  
Study of the control of carbon dioxide concentration in a sealed chamber with animals during atmosphere regeneration by Chlorella p0149 A71-18356  
Some results of theoretical and experimental studies of mass exchange in life support systems during a one-year medical technological experiment [NASA-TT-F-13371] p0041 N71-10340  
Possible methods for appraising reliability of long lived life support systems p0658 N71-38646
- ADAMS, C. K.**  
Fast retinal potential luminosity functions p0634 A71-44467
- ADAMS, G. E.**  
Molecular mechanisms of cellular radiosensitization and protection p0175 A71-18927

# Corporate Source Index

AEROSPACE MEDICINE AND BIOLOGY / a continuing bibliography

JANUARY 1972

1971 Cumulative Index

## Typical Corporate Source Index Listing

AERONAUTICAL RESEARCH LABS., MELBOURNE (AUSTRALIA).  
Human tolerance to impact determined by free fall  
simulation tests with instrumented dummy  
[ARL-SM-353] p0432 N71-27476

The Notation of Content (NOC), rather than the title of the document, is used to provide a more exact description of the subject matter. The NASA or AIAA accession number is included in each entry to assist the user in locating the abstract in the abstract section of an individual issue of *Aerospace Medicine and Biology*. The page number indicates the exact page on which the abstract is found. If applicable, a report number is also included as an aid in identifying the document.

### A

Developing high altitude protection suit of  
partial pressure type  
[AD-702537] p0058 N71-11188

UNITED AIRCRAFT CORP., EAST HARTFORD, CONN.  
Cord restraint system for pressure suit joints  
[NASA-CASE-XMS-09635] p0389 N71-24623  
Development of improved convolute section for  
pressurized suits to provide high degree of  
mobility in response to minimum of applied  
torque  
[NASA-CASE-XMS-09637-1] p0390 N71-24730

UNIVERSIDAD PERUANA DE CIENCIAS MEDICAS Y BIOLOGICAS,  
LIMA (PERU).  
Physiology of respiration at high elevations using  
human subjects  
[AD-710327] p0040 N71-10245

UNIVERSITY COLL., LONDON (ENGLAND).  
Bionic neural model integration into functional  
learning networks of brain  
p0341 N71-23068

UNIVERSITY OF SOUTHERN CALIF., LOS ANGELES.  
Monitoring cardiovascular function in primates  
under prolonged weightlessness  
[NASA-CR-73498] p0160 N71-14633  
Application of dynamic programming and theory of  
control processes to biological phenomena  
including evolution of consciousness  
[TR-71-17] p0396 N71-25937  
Stochastic model for observing motion of retinal  
image of target during visual fixation  
[NASA-CR-121640] p0610 N71-34071  
Effects of space flight on bone metabolism  
investigated by analyzing peptide hormones in  
urine  
p0644 N71-36462

## V

VEREINIGTE FLUGTECHNISCHE WERKE-FOKKER G.M.B.H.,  
BREMEN (WEST GERMANY).  
Pilot injuries on high speed low altitude flight  
noting acceleration due to gust effects  
p0537 N71-31888

VIRGINIA POLYTECHNIC INST., BLACKSBURG.  
Biotechnological problems of man machine systems  
required for long duration space flights  
[NASA-SP-205] p0444 N71-28526

VIRGINIA UNIV., CHARLOTTESVILLE.  
Cutaneous perception test involving human ability  
to reproduce binary patterns formed by  
electrical stimulation of finger tips  
p0327 N71-21899

## W

WASHINGTON UNIV., SEATTLE.  
Decision making experiment to determine  
combinatorial properties of personal  
probabilities  
[AD-712119] p0060 N71-11201  
Observations of carbon dioxide and plant growth in  
Arctic ecosystem  
[AD-715789] p0229 N71-18768  
Human cognition, involving man machine interaction  
situations

[AD-716459] p0277 N71-19605

WEATHER BUREAU, SALT LAKE CITY, UTAH.  
Air pollution problems in California and methods  
for air quality forecasting  
[PB-194128] p0117 N71-13429

WEBB ASSOCIATES, YELLOW SPRINGS, OHIO.  
Wind tunnel tests with human subjects to determine  
effects of whole body and bare hand cooling at  
high wind speeds as might be encountered in  
air-to-air rescue operations  
[AD-715976] p0279 N71-19813  
Deconditioning and its prevention by simulating  
hydrostatic gradient by use of cardiovascular  
conditioning suit  
p0548 N71-33274

WEBER AIRCRAFT CORP., BURBANK, CALIF.  
Shock absorbing articulated multiple couch  
assembly  
[NASA-CASE-MSC-11253] p0115 N71-12343  
Ejector for separating astronaut from ejection  
seat during prelaunch or initial launch phase of  
flight  
[NASA-CASE-XMS-04625] p0290 N71-20718

WELSON (B.) AND CO., INC., HARTFORD, CONN.  
Criteria for evaluation of spacecrew garment  
systems, garment support systems, and space  
vehicle accessory items  
[NASA-CR-114953] p0328 N71-21926  
Design and performance of extravehicular astronaut  
thermal protection gloves  
[NASA-CR-114974] p0349 N71-24138  
Development of space suits for long duration space  
missions to include wardrobe definition, fabric  
usage, laundry system concepts, wardrobe  
packaging, and crewman sizing  
[NASA-CR-115044] p0429 N71-26808  
Design and fabrication of viton gloves for use in  
sterile nitrogen atmospheric processing cabinet  
of Lunar Receiving Laboratory  
[NASA-CR-115112] p0535 N71-31608

WEST VIRGINIA UNIV., MORGANTOWN.  
Mechanical responses of human head subjected to  
acceleration loads determined for use in  
construction of artificial head  
p0541 N71-32547

WHIRLPOOL CORP., ST. JOSEPH, MICH.  
Feasibility of storing and dispensing rehydratable  
foods aboard space vehicle  
[AD-715036] p0227 N71-18364  
Zero gravity clothes washer utilizing principles  
of fluidics to provide washing action and  
reduction in number of components scale model  
[NASA-CR-114983] p0388 N71-24455  
Compressed, coated, freeze dried, nonsweet, cheese  
and meat flavored snack cubes for Apollo food  
system  
[NASA-CR-114996] p0392 N71-25001

WILDPOWELL TRUST, SLIMBRIDGE (ENGLAND).  
Sensory stimuli and discrimination in bird  
navigation  
p0342 N71-23076

WISCONSIN ALUMNI RESEARCH FOUNDATION, MADISON.  
Tables on nutritional value of foods used in space  
flight feeding  
[AD-717859] p0332 N71-22254

WISCONSIN UNIV., MADISON.  
Elimination of microbial and viral agents from  
spacecraft water systems by silver ions from  
electrolytic ion generator  
[NASA-CR-114978] p0387 N71-24436  
Measuring instruments for in vivo bone mineral  
content and body composition measurement  
[NASA-CR-121415] p0544 N71-33223  
Measurement of changes in musculoskeletal system  
under hypodynamic and hypogravic conditions  
p0545 N71-33257

WOODS HOLE OCEANOGRAPHIC INSTITUTION, MASS.  
Investigating mechanism by which inorganic and  
mineral phosphate groups become part of cellular  
structure  
p0046 N71-10810

WYLE LABS., INC., ROCKVILLE, MD.  
Four-degree-of-freedom lumped parameter model for  
vertical accelerations of seated human body as  
might be imposed by aircraft ejection systems  
[AD-721225] p0430 N71-26944

Y

YALE UNIV., NEW HAVEN, CONN.

Man-computer interaction information system to  
simulate various problem solving environments  
and provide users on-line feedback of their  
relative effectiveness

[AD-722336] p0498 N71-30218

Dynamic mathematical model of physiological  
regulation of body temperature in human beings

[NASA-CR-1855] p0549 N71-33401

YESHIVA UNIV., NEW YORK.

Stability of sleep patterns in young adults for  
sequential nights over three week period

[NASA-CR-111519] p0051 N71-11094

# AEROSPACE MEDICINE AND BIOLOGY

# PUBLIC COLLECTIONS OF NASA DOCUMENTS

## DOMESTIC

NASA deposits its technical documents and bibliographic tools in eleven special regional libraries located in the organizations listed below. Each library is prepared to furnish the public such services as reference assistance, interlibrary loans, photocopy service, and assistance in obtaining copies of NASA documents for retention.

### CALIFORNIA

University of California, Berkeley

### COLORADO

University of Colorado, Boulder

### DISTRICT OF COLUMBIA

Library of Congress

### GEORGIA

Georgia Institute of Technology, Atlanta

### ILLINOIS

The Johni Crerar Library, Chicago

### MASSACHUSETTS

Massachusetts Institute of Technology, Cambridge

### MISSOURI

Linda Hall Library, Kansas City

### NEW YORK

Columbia University, New York

### PENNSYLVANIA

Carnegie Library of Pittsburgh

### TEXAS

Southern Methodist University, Dallas

### WASHINGTON

University of Washington, Seattle

NASA publications (those indicated by an "\*" following the accession number) are also received by the following public and free libraries:

### CALIFORNIA

Los Angeles Public Library

San Diego Public Library

### COLORADO

Denver Public Library

### CONNECTICUT

Hartford Public Library

### DELAWARE

Wilmington Institute Free Library, Wilmington

### MARYLAND

Enoch Pratt Free Library, Baltimore

### MASSACHUSETTS

Boston Public Library

### MICHIGAN

Detroit Public Library

### MINNESOTA

Minneapolis Public Library

### MISSOURI

Kansas City Public Library

St. Louis Public Library

### NEW JERSEY

Trenton Public Library

### NEW YORK

Brooklyn Public Library

Buffalo and Erie County Public Library

Rochester Public Library

New York Public Library

### OHIO

Akron Public Library

Cincinnati Public Library

Cleveland Public Library

Dayton Public Library

Toledo Public Library

### OKLAHOMA

Oklahoma County Libraries, Oklahoma City

### TENNESSEE

Cossitt-Goodwin Libraries, Memphis

### TEXAS

Dallas Public Library

Fort Worth Public Library

### WASHINGTON

Seattle Public Library

### WISCONSIN

Milwaukee Public Library

An extensive collection of NASA and NASA-sponsored documents and aerospace publications available to the public for reference purposes is maintained by the American Institute of Aeronautics and Astronautics, Technical Information Service, 750 Third Avenue, New York, New York, 10017.

## EUROPEAN

An extensive collection of NASA and NASA-sponsored publications is maintained by the National Lending Library for Science and Technology, Boston Spa, Yorkshire, England. By virtue of arrangements other than with NASA, the National Lending Library also has available many of the non-NASA publications cited in *STAR*. European requesters may purchase facsimile copy or microfiche of NASA and NASA-sponsored documents, those identified by both the symbols "#" and "\*", from: ESRO/ELDO Space Documentation Service, European Space Research Organization, 114, av. de Neuilly, 92-Neuilly-sur-Seine, France.

POSTMASTER: If Undeliverable (Section 158  
Postal Manual) Do Not Return

*"The aeronautical and space activities of the United States shall be conducted so as to contribute . . . to the expansion of human knowledge of phenomena in the atmosphere and space. The Administration shall provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof."*

— NATIONAL AERONAUTICS AND SPACE ACT OF 1958

## NASA SCIENTIFIC AND TECHNICAL PUBLICATIONS

**TECHNICAL REPORTS:** Scientific and technical information considered important, complete, and a lasting contribution to existing knowledge.

**TECHNICAL NOTES:** Information less broad in scope but nevertheless of importance as a contribution to existing knowledge.

**TECHNICAL MEMORANDUMS:** Information receiving limited distribution because of preliminary data, security classification, or other reasons.

**CONTRACTOR REPORTS:** Scientific and technical information generated under a NASA contract or grant and considered an important contribution to existing knowledge.

**TECHNICAL TRANSLATIONS:** Information published in a foreign language considered to merit NASA distribution in English.

**SPECIAL PUBLICATIONS:** Information derived from or of value to NASA activities. Publications include conference proceedings, monographs, data compilations, handbooks, sourcebooks, and special bibliographies.

**TECHNOLOGY UTILIZATION PUBLICATIONS:** Information on technology used by NASA that may be of particular interest in commercial and other non-aerospace applications. Publications include Tech Briefs, Technology Utilization Reports and Technology Surveys.

*Details on the availability of these publications may be obtained from:*

**SCIENTIFIC AND TECHNICAL INFORMATION OFFICE**

**NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**

Washington, D.C. 20546
