RTCA Special Committee 228
Working Group (DAA) 1

- Approved m:N working group
- Face to face kick-off JAN 24 – 27, RTCA, Washington, D.C.

Scope of m:N working group

- Operational Services and Environment Definitions (OSED)
- Class of UAS: Large, UAM, HAPS
- Investigate to what level M:N operations should be included in the OSED rewrite
- Natural breakpoints for complexity
- Timing: What can be included during this OSED update, and what should be included during the next rewrite?
- Output: White Paper within 6 months with a set of recommendations

m:N Working Group Goals

Long term:

Develop doc for OSED – for FRAC July, 2023 (?)

      Terminology

      Use-cases/Scenarios

          DAA issues and proposed solutions

          Other issues?

      Future vision

Goals for this (initial meeting)

- Outline for OSED doc
- Timeline for doc development
- Assign section authors

Doc Timeline

- Outline/Authors 27 Jan
- Initial Draft 15 April
  - Feedback 1 May
- Final Draft 1 Jun
  - Feedback 7 Jun
- Doc 1 Jul

OSED Doc

- Terminology
- m:N use-case
  - UAM
  - Large UAS
  - HAPS
- Issues/barriers
- DAA Specific
  - Barriers
  - Candidate solutions
