Earth Observations Division
Attn: Mr. Zack H. Byrns, Mail Code TF6
Houston, TX 77058

Subject: Contract NAS9-13304, Monthly Progress Report for the Period
1 December - 31 December 1973

The status of the program is unchanged from the last Progress Report. We are still awaiting NASA action on the proposed change in Principal Investigator.

Some additional effort was spent on the mean return waveform computer programs. This effort has been minimal, however.

Charges made to the program during the month of December were minimal. A financial report for this period is included as Appendix A.

Charles L. Britt, Jr., Ph.D.
Acting Principal Investigator
