SPECIAL NOTICE

The abstract sections of the monthly supplements of *Aerospace Medicine and Biology* can be bound separately. Individual abstracts can be located readily by means of the page numbers given at each entry, e.g., p0239 N79-26762. To assist the user in binding Supplements SP-7011(190) through SP-7011(201), a title page is included in the back of this Cumulative index.
A CUMULATIVE INDEX
TO
A CONTINUING BIBLIOGRAPHY ON
AEROSPACE MEDICINE
AND BIOLOGY

This Cumulative Index supersedes the indexes contained in supplements [SP-7011 (190) through SP-7011 (201)], published by NASA during 1979.
INTRODUCTION

WHAT THIS CUMULATIVE INDEX IS

This publication is a cumulative index to the abstracts contained in NASA SP-7011(190) through NASA SP-7011(201) of Aerospace Medicine and Biology: A Continuing Bibliography, NASA SP-7011, by means of supplements, serves as a current abstracting and announcement journal for references on bioscience and biotechnology. It has been compiled through the cooperative efforts of the American Institute of Aeronautics and Astronautics (AIAA), and the National Aeronautics and Space Administration (NASA). Entries prepared by the two contributing organizations are identified as follows:

1. NASA entries by their STAR accession numbers (N79-10000 series)
2. AIAA entries by their IAA accession numbers (A79-10000 series)

HOW THIS CUMULATIVE INDEX IS ORGANIZED

This Cumulative Index includes a subject index, a personal author index, and a corporate source index.

HOW TO USE THE SUBJECT INDEX

Two types of cross-references appear in the subject index:

1. Use (U) references indicate that the subject term is not "postable," i.e., not a valid term, and that the following term or terms are used instead. For example:

   DOSE
   U DOSAGE
   AIRLINERS
   U COMMERCIAL AIRCRAFT
   U PASSENGER AIRCRAFT

2. Narrower Term (NT) references refer the user to more specific headings in the same subject area, under which additional material on the subject may be found. For example:

   FATIGUE (BIOLOGY)
   NT AUDITORY FATIGUE
   NT FLIGHT FATIGUE
   NT MUSCULAR FATIGUE

In addition, a searcher may use the title or title and title extension in the index to narrow further his quest for particular items, this is because subject terms can readily include more than one class of document. For example:

   BIOLOGICAL EFFECT
   Vibratory force effect upon biological systems, particularly human organism.
   Biological effect of cosmic and solar radiations on human body at high altitudes.

illustrates a case where two references on different topics are listed under the same subject term.
HOW TO USE THE PERSONAL AUTHOR INDEX

All personal authors used in the abstract-section citations in the individual Supplements appear in the index. Differences in translation schemes may require multiple searching of the index for variants of an author's name. For example:

EMELIANOV, M. D.
and
YEMELYANOV, M. D.

HOW TO USE THE CORPORATE SOURCE INDEX

The corporate source index entries are abridged versions of the corporate sources used in the abstract-section citations in the individual Supplements. The corporate source supplementary (organizational component) does not appear in the index. For example:

NEW MEXICO STATE UNIV., LAS CRUCES. DEPT. OF BIOLOGY. (Source citation entry)
NEW MEXICO STATE UNIV., LAS CRUCES. (Source index entry)

IDENTIFICATION OF DESIRED SUPPLEMENT

The abstract and descriptive cataloging for any accession number selected from the indexes may be found in the appropriate Supplement. The page-number range of each Supplement appears on the inside front cover of this index. Once the range of page numbers containing the selected accession number is located in the second column, the desired Supplement number will be found in the first column. For example:

Page 191 will be found in Supplement 196.

AVAILABILITY OF DOCUMENTS

Information concerning the availability of documents announced in Aerospace Medicine and Biology supplements is found in the Introduction to the most currently issued monthly supplement.
# TABLE OF CONTENTS

<table>
<thead>
<tr>
<th>Subject Index</th>

<tr>
<td>ABILITIES</td>
<td>Aircrew training effectiveness through performance analysis --- carrier landing instruction [A0-4056230] p0031 N79-11728</td>
</tr>
</tbody>
</table>

The title is used to provide a description of the subject matter. When the title is insufficiently descriptive of the document content, a title extension is added, separated from the title by three hyphens. The NASA or AIAA accession number is included in each entry to assist the user in locating the abstract in the abstract section of this supplement. If applicable, a report number is also included as an aid in identifying the document.

A

A-7 AIRCRAFT

A7 training effectiveness through performance analysis --- carrier landing instruction [A0-4056230] p0031 N79-11728

ABILITIES

Time-sharing is a not a unitary ability [A0-405632] p0019 N79-10739

ABIOGENESIS

On the reality of extraterrestrial biogenesis [A0-405641] p0003 N79-12554

Porphyrin-like compounds genesis under simulated abiotic conditions [A0-405645] p0003 N79-12554

Photochemical synthesis of amino acids from aqueous solutions of ethyl alcohol, ammonia/nitrogen under varied conditions [A0-405646] p0099 N79-22078

RCM did not condense to give heteropolypeptides on the primitive earth [A0-405650] p0207 N79-37981

Prebiotic nucleotide oligomerization in a fluctuating environment - Effects of kaolinite and cyanamide [A0-405652] p0162 N79-29938

A review of recent concepts of the problem of the origin of life [A0-405655] p0221 N79-36041

Prebiotic molecular evolution [A0-405657] p0203 N79-37919

Synthesis of amino acids under primitive earth conditions in the presence of clay [A0-405658] p0203 N79-37928

Prebiotic condensation reactions using cyanamide [A0-405659] p0203 N79-37930

Experimental approach to the chemical evolution in the primeval sea. 1 - Formation of amino acids and amino polymer of modified sea medium [A0-405660] p0203 N79-37932

Prebiotic synthesis of amino acids by carboxylation of amines in oxidative atmosphere [A0-405661] p0203 N79-37935

Prebiotic condensation of oligonucleotide life [A0-405662] p0203 N79-37937

Quantitative aspects of the effect of weak interaction during chemical evolution [A0-405664] p0204 N79-37948

Coacervate drops as a model for precellular structures [A0-405665] p0204 N79-37959

Coacervate drops - Primitive forms of precells [A0-405666] p0204 N79-37962

Takeover mechanisms and early biochemical evolution [A0-405667] p0205 N79-37965

Some characteristic features of the origin and evolution of the amino acid composition of proteins - A theoretical consideration [A0-405668] p0206 N79-37973

Nucleotide-binding site data and the origin of the genetic code [A0-405669] p0206 N79-37974

The study of the origin of life - results and prospects [A0-405670] p0206 N79-37975

The importance of the physical laws on the origin and evolution of life [A0-405671] p0207 N79-37983

Inverse assimilation - A general principle of evolution of planetary surfaces [A0-405673] p0207 N79-37989

A proposal concerning the origin of life on the planet earth [A0-405674] p0207 N79-37993

Polymers produced by heating an amino acid mixture in sea water enriched with transition elements [A0-405675] p0254 N79-66461

ABNORMALITIES | NT PSYCHOSES |

ABSORPTIONS | Molecular sieve oxygen generating system - The argon question / A brief review --- effects of 5 percent Ar in breathing gas [A0-405676] p0274 N79-49994

Human compatibility testing of a 2-man molecular sieve oxygen generator [A0-405677] p0053 N79-12710

Environmental test and evaluation of a molecular sieve on-board oxygen generation system [A0-405678] p0125 N79-17559

ABSORBERS | ELECTROCHEMICALLY REGENERATE CARBON DIOXIDE ABSORBER |

ABSORPTION BANDS | PHOTOCHEMICAL TRANSFORMATIONS OF THE VISUAL PIGMENT RHODOPSIN |

[ASNE PAPER 78-ENAS-5] p0006 N79-12554

ABSORPTION SPECTRA | IODINE IMAGING USING SPECTRAL ANALYSIS --- RADIOMETRY FOR VISUALIZATION OF SMALL BLOOD VESSELS |

[ASNE PAPER 78-ENAS-5] p0006 N79-12554

ABUNDANCE | THE EVOLUTION OF THE ENVIRONMENT AND ITS INFLUENCE ON THE EVOLUTION OF LIFE |

ACCELERATION (PHYSICS)

Abundance of organic compounds photochemically produced in the atmospheres of the outer planets

ACCELERATION (PHYSICS)

ACCELERATION STRESSES (PHYSIOLOGY)

ACCELERATION TOLERANCE

ACCELERATION STRESSES (PHYSIOLOGY)

Blood volume and cardiorespiratory responses to lower body negative pressure

Regional coronary blood flow at rest and during high sustained +Gz in a miniature swine with subclinical ischemic coronary heart disease due to coronary stenosis

Development of space biology experiments for the Space Shuttle - A student's perspective

Cardiovascular regulatory response to lower body negative pressure following blood volume loss

Mitral prolapse and acceleration - in aircraft pilots

Central and cerebral hemodynamics and metabolism of the healthy rat during head-down tilting

Heart acceleration and psychomotor performance --- related to crash accident survival rates

Cardiac responses of dogs to nonsynchronous and synchronous whole-body vibration

Oculogravic illusion in response to straight-ahead acceleration of a Cr-104 aircraft

Cerebral accident subsequent to G-force loading - A case report

Positive pressure breathing as a protective technique in +Gz acceleration

Motion sickness in cats - A symptom rating scale used in laboratory and flight tests

Concurrent loss of consciousness and naro-atrial block during +Gz stress

Thermoregulation in unrestrained rats during and after exposure to 1.5-4 G

Determination of cerebral and neck subcutaneous tissue P02 with 3 and 4 +Gz in N. mulatta

+Gz tolerance correlation with clinical parameters

Heat and acute dehydration effects on acceleration response

Reproducibility of +Gz tolerance testing

Modeling human tracking performance in a high G-stress environment

Functional anatomy of vertebral column with reference to load bearing areas

Acute acceleration tolerance in healthy men - Effect of age

Biodynamic responses of aviation stresses on the vertebral column

Assessment of spinal disabilities in flying

A new application of LBNP to measure orthostatic tolerance before and after 0-G simulation /water immersion

Cardiac arrhythmia following postimmersion +G z accelerations

A method of evaluating the pupillary vestibular stimulus

Effect of accelerations combined with radiation on occurrence of gene mutations in the drosophila

Medical qualification procedures for hazardous-duty aeromedical research

Engineering test and evaluation during high G

Volume 3: Anti-G suits

Pilot +Gz tolerance correlation with clinical parameters

Role of vestibular system in behavior of animals submitted to prolonged slow rotation

Modeling the effects of +G-z stress on pilots in a tracking task

Lower body negative pressure box for +Gz simulation in the upright seated position

Third Symposium on Motion Sickness

ACCELERATION TOLERANCE

Relaxed +Gz tolerance in healthy men - Effect of age

Biodynamic responses of aviation stresses on the vertebral column

Assessment of spinal disabilities in flying

A new application of LBNP to measure orthostatic tolerance before and after 0-G simulation /water immersion

Cardiac arrhythmia following postimmersion +G z accelerations

A method of evaluating the pupillary vestibular stimulus

Effect of accelerations combined with radiation on occurrence of gene mutations in the drosophila

Medical qualification procedures for hazardous-duty aeromedical research

Engineering test and evaluation during high G

Volume 3: Anti-G suits

Pilot +Gz tolerance correlation with clinical parameters

Role of vestibular system in behavior of animals submitted to prolonged slow rotation

Modeling the effects of +G-z stress on pilots in a tracking task

Lower body negative pressure box for +Gz simulation in the upright seated position

Third Symposium on Motion Sickness

ACCELERATION TOLERANCE

Relaxed +Gz tolerance in healthy men - Effect of age

Biodynamic responses of aviation stresses on the vertebral column

Assessment of spinal disabilities in flying

A new application of LBNP to measure orthostatic tolerance before and after 0-G simulation /water immersion

Cardiac arrhythmia following postimmersion +G z accelerations

A method of evaluating the pupillary vestibular stimulus

Effect of accelerations combined with radiation on occurrence of gene mutations in the drosophila

Medical qualification procedures for hazardous-duty aeromedical research

Engineering test and evaluation during high G

Volume 3: Anti-G suits

Pilot +Gz tolerance correlation with clinical parameters

Role of vestibular system in behavior of animals submitted to prolonged slow rotation

Modeling the effects of +G-z stress on pilots in a tracking task

Lower body negative pressure box for +Gz simulation in the upright seated position

Molecular sieve oxygen generating system - The argon question /A brief review/ --- effects of 5 percent Kr in breathing gas  

Airborne/Spaceborne Computers  
Man/terminal interaction evaluation of computer operating system command and control service concepts --- in Spacelab
Changes in the rotary wing aviator's ability to perform an uncommon low altitude rearward hover maneuver as a function of extended flight requirements and aviator fatigue.

Visual effects of helicopter maneuvers on weapon aiming performance.

Occlusion performance of aviators during an autorotation maneuver in a helicopter simulator.

The relationship between Air Combat Maneuvering Range (ACMR) output measures and initial visual acquisition performance.

Prediction of aircraft target motion using pattern recognition orientation measurements.

A study of pilot/observer interaction in aligning a helicopter with a target.

A trade-off analysis design tool: Aircraft interior noise-motion/passenger satisfaction model.

Aircraft noise: Biological effects. A bibliography with abstracts.

Effect of helicopter noise on passenger annoyance.

AERIAL PILOT ENHANCEMENT

Flight management research utilizing an oculometer --- pilot scanning behavior during simulated approach and landing.

The effects of prediction, quickening, frequency separation, and percent of pursuit in perspective displays for low-visibility landing.

An investigation of pictorial and symbolic aircraft displays for landing.

Transfer of landing skill after training with supplementary visual cues.

A7 training effectiveness through performance analysis --- carrier landing instruction.

Undergraduate pilot training: Visual discrimination pretraining for land task.

AIRCRAFT MAINTENANCE

Life cycle cost of simulated vs actual equipment for intermediate maintenance training.

AIRCRAFT MANEUVERS

An Air Combat Effectiveness Study /ACRS/ program.

Development of automated performance measures for introductory air combat maneuvers.

A study of progress in flying performance revealed from daily check sheets in a primary flight training course. II - Comparison of progress between two courses.

Predictive validity of flight simulators as a function of simulator motion.

Measurements of pilot workload during low altitude and high speed maneuvers of F-15 supersonic jet fighter.

NAV procedural turn anticipation techniques, experiment no. 2, GMT-2A, Phase 3: 2 and 4 mi offset tracking procedures.

Flight experience with manually controlled unconventional aircraft motions.

Prediction of pilot reserve attention capacity during air-to-air target tracking.
AIRCRAFT SAFETY

training course. III - Comparison of progress between two courses

Methodological considerations of visual workloads of helicopter pilots

Visual workload of the copilot/navigator during terrain flight

Analysis of population mortality kinetics with application to the longevity followup of the Navy's +1,000 aviators

$+G_z$ tolerance correlation with clinical parameters

A structural model of the adaptive human pilot

Medical barofunction testing of aviators with otochiroaryngologic disease

Effect of age on relaxed $+G_z$ sub tolerance of aircrew

Cardiological findings in 115 pilots: Diagnosis and assessment of their flying fitness

The impact of coronary vascular risk factors on professional aircrew license loss in the United Kingdom

Cardiovascular diseases as a cause of unfitness for flying service in aircrews of Italian Air Force: Etiopathogenesis, influence of performance in flight, and prevention

Cardiovascular fitness of pilots of transport aircraft

A model for the pilot's use of roll-axis motion cues in steady-state tracking tasks

Speech as a pilot input medium

Changes in the rotary wing aviator's ability to perform an uncommon low altitude rearward hover maneuver as a function of extended flight requirements and aviator fatigue

A description of the neuropsychological selection of pilots for land forces light aircraft

Radiological examination of the Rachel and fitness for employment as a helicopter pilot

Declinometer performance of aviators during an autorotation maneuver in a helicopter simulator

Sensorial aspects of helicopter operations

The effective acoustic environment of helicopter crewmen

Vertebral pains in helicopter pilots -- symptomatology and radiology

Aircraft pilot scan patterns during simulated ILS approaches

AIRCRAFT SAFETY

"Evaluation of the man-machine interface in surveillance radar systems

Heat transfer principles in personal protection applications

High "G" escape protection -- pilot restraint during high speed ejection

Human factors considerations in establishing aircraft collision avoidance system alert thresholds

Pilot preflight briefing utilizing an interactive computer generated Voice Response System

The fitting of Canadian Forces aircrew helmets -- why the difference

AIRCRAFT STABILITY

NT HOVERING STABILITY

Prediction of pilot-aircraft stability boundaries and performance contours

Manual control of yaw motion with combined visual and vestibular cues

AIRCRAFT STABILITY

NT AIRFOILS

NT FIXED WINGS

NT ROTARY WINGS

AIRCRAFT OPERATIONS

Coordinated crew performance in commercial aircraft operations

Recurrent training/supernumerary system

Survey on eye comfort in aircraft. I - Flight attendants

Soviet civil aviation training programs

AIRCRAFT STABILITY

NT VISIBILITY

A new case of autochthonous malaria in the Paris region associated with frequentation of airports - Recommendations of prophylactic procedures

Detection of conflict states in air traffic control of airport zones

AIRCRAFT STABILITY

NT ALTITUDE

The behavior of observers in detecting unbriefed targets at different aircraft speeds with side-looking radar

ALARMS

NT AIRCOCKPIT

NT EMERGENCY SYSTEMS

NT ALCOHOL

NT ALCOHOL

The effects of alcohol on driver performance in a decision making situation

A decision model applied to alcohol effects on driver signal light behavior

Analysis of visible spectra and thermodynamic parameters in hemeprotein systems

ALDEHYDES

NT ALDEHYDES

NT ALCOHOLS

NT ALCOHOLS

Plasma aldosterone, renin activity, and cortisol responses to heat exposure in sodium depleted and repleted subjects

ALCOHOLS

NT ETHYL ALCOHOL

NT ETHYL ALCOHOL

The effects of alcohol on driver performance in a decision making situation

A decision model applied to alcohol effects on driver signal light behavior

Analysis of visible spectra and thermodynamic parameters in hemeprotein systems

ALDOSTERONE

NT ALDOSTERONE

NT ALDOSTERONE

Plasma aldosterone, renin activity, and cortisol responses to heat exposure in sodium depleted and repleted subjects

ALERTNESS

NT ALERTNESS

Vigilance and electroencephalogram -- human performance in compensatory target tracking

A-12
ALTITUDE TESTS

**ALTITUDE TESTS**

- AMINO ACIDS
- AMINES
- AMIDES
- AMERICIUM
- AMERICIUM 241
- AMBULANCES
- ALUMINUM SILICATES
- ALUMINUM COMPOUNDS
- ALUMINUM

**ALTITUDE TOLERANCE**

- Hemoglobin levels in rats exposed to high altitude are not due to an overload of catabolic mechanisms
- Cardiorespiratory assessment of decompressant-antihistamine preparations on physiologic functions and performance
- Effects of altitude and two decompressant-antihistamine preparations on psychological functions and performance
- Individual differences in hypoxic responses at high altitudes

- Plasma electrolytes in relation to altitude tolerance in rats
- Effect of physical training at moderate altitude /1850 m/ on hypoxic tolerance
- Effects of propranolol on time of Useful Function (TUF) in rats --- tolerance to rapid decompression

**ALUMINUM**

- Aluminized firefighters' crash-escape-protective hood: Facepiece-visor redesign study

**ALUMINUM COMPOUNDS**

- MT KAIOLITE
- MT NONTOMORILLONITE
- MT ALUMINUM SILICATES
- MT KAIOLITE
- MT NONTOMORILLONITE

**AMBIENT TEMPERATURE**

- Effect of cockpit temperature gradients on the validity of single-point measurements
- Responses of conscious rabbits to CO2 at ambient temperatures of 5, 20, and 35 C
- Protective approaches in the moderation of the physiological effects of extreme ambient conditions in helicopter operations

**AMBULANCES**

- Evaluation of the helicopter in aeromedical transfers

**AMBROXION**

- MT AMERICIUM 241
- AMERICAN ECOTOPE
- MT AMERICIUM 241
- AMERICAN 241

- Pacific Northwest Laboratory report for 1977 to the DOE assistant secretary for environment.
  - Part 2: Ecological sciences [PNL-2500-PT-2]

**AMIDES**

- MT CYRARIDIES
- MT GREEK

**AMINES**

- AMINES
- AMINES
- AMINES
- AMINES
- AMINES

**AMPHETAMINES**

- Effects of amphetamine on response selection and response execution processes in choice reaction tasks
- Coupling of aspartate and serine transport to the transmembrane electrochemical gradient for sodium ions in Halobacterium halobium - Translocation stoichiometries and apparent cooperativity
- In vivo response of ornithine decarboxylase activity to growth hormone as demonstrated by oxidation of L-ornithine-1-C14/14 in hypophysectomized rats

**AMINO ACIDS**

- AMINO ACIDS
- AMINO ACIDS
- AMINO ACIDS
- AMINO ACIDS
- AMINO ACIDS

**AMINO PROTEINS**

- AMINO PROTEINS
- AMINO PROTEINS

**AMINO PROTEINS**

- AMINO PROTEINS
- AMINO PROTEINS
- AMINO PROTEINS
- AMINO PROTEINS
- AMINO PROTEINS

**ANEMONE**

- Photochemical synthesis of amino acids from aqueous solutions of ethyl alcohol, ammonia/nitrogen under varied conditions
- Beta-galactosidase and selective neutrality — amino acid composition of proteins

**ANGIOGENESIS**

- The origin of life on earth - Recent studies
- Amino acids in southern Kamchatka hot springs

**ANIMAL COMPOUNDS**

- Experimental approach to the chemical evolution in the primeval sea. I - Formation of amino acids and amino acid polymers in modified sea mediums
- Prebiotic synthesis of amino acids by carboxylation of amines in oxidative atmosphere

**ANIMAL ENUMERATIONS**

- Incorporation of sulphur in chemical evolution
- Experimental approach to the chemical evolution in the primeval sea. II - Formation of protocol-like structures 'nariigranules' in a modified sea medium

**ANIMAL HYDROGEN**

- The point mutation process in proteins
- Some characteristic features of the origin and evolution of the amino acid composition of proteins - A theoretical consideration

**ANIMAL METABOLISM**

- Studies of amino acid metabolism in the muscles of rats flown aboard the biosatellite Cosmos 782
- Inadequacy of prebiotic synthesis as origin of proteins

**ANIMAL NITROGEN**

- Role of n-asaminobenzoic acid in repairing UV and gamma radiation damage
- Effects of electromagnetic field induction on development of the green algae, scenedesmus quadricauda (Turpia) Breb. and composition of free amino acids in its bloom at algae

**ANOMALIA**

- Photochemical synthesis of amino acids from aqueous solutions of ethyl alcohol, ammonia/nitrogen under varied conditions
- Enhancing biological production of ammonia from atmospheric nitrogen and soil nitrate

**ANOMALIES**

- Effects of aspartate on response selection and response execution processes in Choice reaction tasks

**ANOMALIES**

- Effects of aspartate on response selection and response execution processes in Choice reaction tasks

**ANOMALIES**

- Effects of aspartate on response selection and response execution processes in Choice reaction tasks

**ANOMALY**

- Effects of aspartate on response selection and response execution processes in Choice reaction tasks

**ANOMALY**

- Effects of aspartate on response selection and response execution processes in Choice reaction tasks

**ANOMALY**

- Effects of aspartate on response selection and response execution processes in Choice reaction tasks

**ANOMALY**

- Effects of aspartate on response selection and response execution processes in Choice reaction tasks

**ANOMALY**

- Effects of aspartate on response selection and response execution processes in Choice reaction tasks

**ANOMALY**

- Effects of aspartate on response selection and response execution processes in Choice reaction tasks

**ANOMALY**

- Effects of aspartate on response selection and response execution processes in Choice reaction tasks

**ANOMALY**

- Effects of aspartate on response selection and response execution processes in Choice reaction tasks
ANGULAR MOTION

Balance training of the equilbrium organ and its effect on flight strategy p0242 A79-27074

Distinctions of influence of the reticular formation of the midbrain on the heart and respiration with exposure to centrifugal accelerations p0312 A79-33800

ANGULAR VELOCITY

Dynamics of an image viewed through a rotating mirror p0221 A79-36365

ANIMALS

NT WORMS

Animal life support transporters for Shuttle/Spacelab [ASME PAPER 78-EMAS-10] p0006 A79-12559

Ecological physiology of animals. I - General ecological physiology and physiology of adaptations --- Russian book p0275 A79-50474

Spermatogenesis in dogs during many years of chronic exposure to gamma radiation and in the aftereffect period p0073 A79-14727

DNA content of animal organs during space flight on Kosmos-690 satellite p0073 A79-14728

State of blood clotting during prolonged hypokinesia p0073 A79-14729

The combined effect of carbon monoxide and normobaric hyperoxia on animals p0073 A79-14730

Blood lipid changes in hypoxic rats p0074 A79-14731

Effect of intermittent hypoxia on functional activity of peripheral blood neutrophils p0074 A79-14732

Effect of cerebrocortical trauma on reactive distinctions of hypothalamic and hippocampal vessels in the presence of hypoxia p0074 A79-14733

Role of vestibular system in behavior of animals submitted to prolonged slow rotation p0074 A79-14734

Some recent results on the deposition of electromagnetic energy in animals and models of man p0083 A79-15563

Space biology and aerospace medicine, volume 13, no. 1, 1979 [JRB7-12826] p0107 A79-16514

ANIMATION

MOTION

ANOMALIES

Digital image anomalies - Static and dynamic --- rastering and aliasing effects and elimination p0137 A79-28158

ANOIA

Temporal relation between onset of cell anoxia and ischemic contractile failure p0300 A79-52895

Molecular determinants for the prediction and survival of ischemic anoxic stress pathology p0027 A79-11700

SUBJECT INDEX

ANGRTS UNAS
NT ANGER LOOP ANTENNAS

ANTHROPOPHY"
ARThROPODS

Development and evaluation of instrument systems for noninvasive detection, characterization and quantification of atherosclerotic lesions [PB-286851/11]
Ergometric tests in expert medical certification of flight personnel
Effects of dietary fats on atherosclerosis and thrombosis
Aspects of dietary prevention of arteriosclerosis

ARRTHROPODS
NT ARTEKIA
NT BROSOPHIA
NT INSECTS
Selected examples of dispersal of arthropods associated with agricultural crop and animal production

ARTIFICIAL HEART VALVES
Translations to JSSP science and technology: Biomedical and behavioral sciences, no. 51 [JPS-72588]
Functional outcomes of prosthatic cardiac valve replacement
Development of an electrical energy converter for circulatory device [PB-28673/60]
Application of numerical methods to physiological flows --- Navier-stokes equation, prosthetic heart valves and vascularconstruction
Development of an electrical energy converter for driving left heart assist blood pumps [PB-293510/60]

ARTIFICIAL INTELLIGENCE
NT COGNITIVE PSYCHOLOGY
Overview of the use of robots in space missions [DGLR PAPER 78-154]
Robots and artificial intelligence --- Russian book [NASA-CR-161167]
Multi-PIERRE - A learning robot system
The interpretation of visual motion --- Book
Goal-directed mechanics of controlled manipulators --- Russian book
Visual motion perception by intelligent systems

ARTIFICIAL SATELLITES
NT BIOSATELLITES
NT COSMOS SATELLITES
NT COSMOS 782 SATELLITE
NT COSMOS 936 SATELLITE
NT INTERCOSMOS SATELLITES
NT ORBITAL SPACE STATIONS
NT ORBITAL WORKSHOPS

ARTILLERY
Effects of target motion and image on AAA tracking --- Anti-Aircraft Artillery

ASTS
NT ABILITIES
ASCORBIC ACID
Effect of soaking on absorption of some group B vitamins and ascorbic acid in the small intestine of dogs

ASPERGILLUS
The effects of temperature, salinity, and other factors on the growth and formation of UV-absorbing substances by the fungus Aspergillus

ASSAULTING
U ATTACKING (ASSAULTING)

ASSEMBLING
NT ORBITAL ASSEMBLY
General methods to enable robots with vision to acquire, orient, and transport workpieces [PB-287195/64]
Simulated EVA operation of a remote connector assembly test report [NASA-CR-161167]

ASSESS PROGRAM
Experiences of a payload specialist involved with the simulated Spacelab Mission ASSESS II

SUBJECT INDEX

ASSESSMENTS
NT TECHNOLOGY ASSESSMENT
ASSIMILATION
Inverse assimilation - A general principle of evolution of planetary surfaces [NASA-CR-79-37989]

ASTP
U APOLLO SOTSE TEST PROJECT

ASTRONOMY
U EORONTOLOGY

ASTRONAUT MANEUVERING EQUIPMENT

ASTRONAUT PERFORMANCE
On the man's adaptation to the operator's work under stressful conditions of space flight [IAF PAPER 78-0-06] [NASA-CR-151866]
Experimental and physiological investigations in aviation and astronautics --- Russian book [NASA-CR-151866]
Space Sled - A multipurpose apparatus for vestibular research aboard Spacelab [DGMR PAPER 78-132] [NASA-CR-151866]
Results of tests of the equilibration status of candidates for payload expert for the first Spacelab mission [DGMR PAPER 78-132] [NASA-CR-151866]
Engineering-psychological study of information imaging systems --- manual control of spacec rash docking

Caloric and exercise requirements of space flight - Biometric tests results from Skylab [NASA-CR-151866]
Manual alignment of structural components in space [IAF PAPER 79-0535] [NASA-CR-151866]
The physiologist's view of sensory illusions [NASA-CR-151866]
Bioinstrumentation for evaluation of workload in payload specialists - Results of ASSSESS II [IAF PAPER 79-90] [NASA-CR-151866]
[IAF PAPER 79-90] [NASA-CR-151866] p0005 A79-20024

Communication problems of international crews [IAF PAPER 79-0535] [NASA-CR-151866]

Psychological selection of Spacelab payload specialists: The evaluation of German applicants [NASA-CR-151866]

FLIGHT TRAINING
From the laboratory to the Spacelab - Training program for Spacelab payload experts [DGMR PAPER 78-182] [NASA-CR-151866]
Ruptured arteriovenous anomaly in a former woman astronaut candidate [NASA-CR-151866]

Caloric and exercise requirements of space flight - Biometric tests results from Skylab [NASA-CR-151866]
Manual alignment of structural components in space [IAF PAPER 79-0535] [NASA-CR-151866]

Ruptured arteriovenous anomaly in a former woman astronaut candidate [NASA-CR-151866]
SUBJECT INDEX

Special tests for astronaut selection - Muscular exercise test p0087 A79-15492
Male and female characteristics in vestibular testing - A step toward the selection of the best participants for space flight [TAP PAPER 78-106] p0341 A79-53288
Considerations associated with the introduction of female crew members in spacecraft and space stations [TAP PAPER 79-A-22] p0341 A79-53288
Analysis of distribution of sequences of P-R intervals in astronauts: generalized coordinate method p0014 A79-18552
Characteristics of bacterial aerosol in airtight rooms occupied by humans p0014 A79-10707

ATMOSPHERIC Conditions

Atmospheric Composition
Abundance of organic compounds photochemically produced in the atmospheres of the outer planets p0210 A79-39075
Enhancing biological production of ammonia from atmospheric nitrogen and soil nitrate (PB-286515/2) p0083 A79-15571

Atmospheric Chemistry

Ion-molecule condensation reactions - A mechanism for organic synthesis in ionized reducing atmospheres p0099 A79-22079

Atmospheric Effects

The origin and the habitation atmosphere [NASA-TN-75536] p0049 A79-12685

Atmospheric Impurities

Air Pollution p0295 A79-51084

Atmospheric Models

ST Dynamic Models
Habitable zones about main sequence stars p0136 A79-27930

Atmospheric Noise

Atmospheric Pressure
Effect of decompression pressure on nitrogen elimination p0067 A79-18964

Atmospheric Radiation

STRATOSPHERE RADIATION

Atmospheric Temperature

Atmospheric Biological effects of electromagnetic fields p0184 A79-33712

Atmospheric Energy

NUCLEAR ENERGY

Atrophy

Recovery of skeletal muscle after 3 mo of hindlimb immobilization in rats p0268 A79-47856

ATTACK AIRCRAFT

AT A-7 AIRCRAFT
AT F-4 AIRCRAFT
AT F-15 AIRCRAFT
AT F-16 AIRCRAFT

ATTACKING (ASSAULTING)

The design of air combat aircraft p0114 A79-16567
Ground attack p0114 A79-16567

ATTENTION

Auditory and visual sustained attention during ozone exposure p0273 A79-49988
Time-sharing is not a unitary ability [AD-A056632] p0019 A79-10739
Linear modeling of attentional resource allocation p0091 A79-15626
A model for dynamic allocation of human attention among multiple tasks p0092 A79-15627
Selective attention: The influences of subject sex and degree of prior habituation on performance of an attention task with distraction p0260 A79-28876

ATTITUDE (INCUBATION)

AT PITCH (INCLINATION)
AT ROLL
AT YAW
The tilt illusion - Length and luminance changes of induction line and third/sixth/line p0228 A79-41422
Man and automation --- for human-automated pilot interfaces p0275 A75-50372
The effects of closed loop tracking on a subjective tilt threshold in the roll axis p0090 A79-15620
Use of the tilt cue in a simulated heading tracking task p0091 A79-15621
Roll tracking effects of G-vector tilt and various types of motion washout p0091 A79-15622

ATTITUDE CONTROL

AT LATERAL CONTROL
A model for the pilot's use of roll-axis motion cues in steady-state tracking tasks [AD-A059504] p0079 A79-14772

AUDIO EQUIPMENT

AT EARPHONES

Audio equipment - for human-automated pilot interfaces p0275 A75-50372

AUDIO FREQUENCIES

A continuous wave, frequency modulated, ultrasonic device with auditory output for observing the heart p0045 A79-14602

AUDITORY EQUIPMENT

AT TRAINING DEVICES

Auditory training - for human-automated pilot interfaces p0275 A75-50372

AUDITORY PERCEPTION

Automatic audiometry in the practice of flight-personnel examination p0295 A79-51084

AUDITORY DEFECTS

Aeromedical aspects of otolaryngology p0136 A79-27562
Two approaches to category representation in aural classification [AD-A067075] A79-25764

AUDITORY PERCEPTION

The relationship between classical centers of the auditory tract and certain 'non-specific' brain structures in the organization of the auditory function in animals p0043 A79-14370
Role of the frontal associative region of the cortex in the activity of the auditory and visual sensory systems p0043 A79-14371
Significance of motor activity for spatial hearing p0043 A79-14372

A-19
AUDITORY SIGNALS

Elements of the theory of biological analyzers --- Russian book
p0132 A79-26450

Auditory analysis of complex sound: Electrophysiological investigations --- Russian book
p0167 A79-31899

Effect of paradoxical sleep deprivation on the acquisition of sound discrimination
p0167 A79-31988

Automatic recognition of spoken words: A functional model of the auditory system
p0235 A79-43464

Studies on the microwave-induced auditory effect
p0213 A79-26648

Overall loudness of steady sounds according to theory and experiment
[nasa-rp-1001] A79-25753

Two approaches to category representation in aural classification
[ad-a566705] A79-25754

Predicting individual listener confusions in the classification of complex, steady-state sounds
[ad-a566704] A79-25755

Classification of amplitude-modulated noise patterns with extended practice
[ad-a566703] A79-25756

The loudness of tinnitus
p0222 A79-27387

Effects of acute noise trauma on whole-serve and single-unit activity
[iiy-1978-23] A79-32829

AUDITORY SIGNALS

The relationship between classical centers of the auditory tract and certain 'nonspecific' brain structures in the organization of the auditory function in animals
p0083 A79-16370

A continuous wave, frequency modulated, ultrasonic device with auditory output for observing the heart
p0085 A79-16602

Auditory analysis of complex sound: Electrophysiological investigations --- Russian book
p0167 A79-31899

Manual control of yaw motion with combined visual and vestibular cues
p0119 A79-17513

AUDITORY STIMULI

Bilateral and interhemispheric asymmetry of acoustic evoked potentials during monaural acoustic stimulation
p0159 A79-28735

A further investigation of visual dominance
p0186 A79-33999

Auditory evoked potentials during short-term auditory stimulation
p0365 A79-50659

Effects of filtering electroencephalographic signals on auditory evoked brain stem responses
p0176 A79-21758

Overall loudness of steady sounds according to theory and experiment
[nasa-rp-1001] A79-25753

AUDITORY TASKS

Cephalic monoxide and human time discrimination - Failure to replicate Beard-Verthei examinations
p0102 A79-23472

Comparative evaluation of the effectiveness of visual and aural tracking of a sinusoidal signal
p0159 A79-28736

Auditory and visual sustained attention during ozone exposure
p0072 A79-49988

Auditory evoked potentials during short-term auditory stimulation
p0077 A79-50659

AUTOCATALYSIS

The crisis in the problem of the origin of life
p0207 A79-37982

Evolution in open systems - Acquisition and conservation of information in bioids
p0207 A79-37987

AUTOCLAVES

A system for sterilizing objects --- such as water systems on the space shuttle using ethylene oxide
[nasa-case-ksc-11065-1] A79-33988

AUTOMATA THEORY

Control systems for robots and manipulators --- Russian book
p0134 A79-27303

Some properties of conservative systems --- walking robot model
p0221 A79-35942

Goal-directed mechanics of controlled manipulators --- Russian book
p2075 A79-50447

AUTOMATIC CONTROL

MT ADAPTIVE CONTROL

MT AUTOMATIC PILOT CONTROL

MT AUTOMATIC GAIN CONTROL

MT DYNAMIC CONTROL

MT FEEDBACK CONTROL

MT LEARNING MACHINES

MT NUMERICAL CONTROL

MT OPTIMAL CONTROL

Automatic control of physiological functions of the human organ in pathology --- Russian book
p0132 A79-26650

Control systems for robots and manipulators --- Russian book
p0134 A79-27303

Visually estimating workpiece pose in a robot hand using the feature points method
p0269 A79-46038

An analysis of helicopter pilot control behaviour and workload during instrument flying tasks
[nwr-md-7000-0] A79-27653

Microbial load monitor
[nasa-cr-160274] A79-27815

The systematic principles of building a man-machine control staff --- functional analysis
p0249 A79-27861

AUTOMATIC DATA PROCESSING

AUTOMATIC FLIGHT CONTROL

The man-computer division of tasks in the case of the control of complex technical systems --- applied to aircraft
p0061 A79-17683

AUTOMATIC GAIN CONTROL

Contrast enhancement using local area brightness and gain control --- of airborne cct display
p0037 A79-13199

AUTOMATIC PATTERN RECOGNITION

PATTERN RECOGNITION

AUTOMATIC PILOTS

Communications management by the remote system - An adaptive approach --- modeling of rpp autopilot/operator systems
p0061 A79-13226

Man and automation --- for human-automated pilot interfaces
p0275 A79-50372

AUTOMATIC ROCKET IMPACT PREDICTORS

A COMPUTERIZED SIMULATION

AUTOMATIC TEST EQUIPMENT

Development of automated performance measures for introductory air combat maneuver
p0061 A79-13223

Automatic audiometry in the practice of flight-personnel examination
p0295 A79-51084

Automated clinical system for chromosome analysis
[nasa-case-bpo-13913-1] A79-12694

AUTOMATION

New principles of automation of biomedical research
p0107 A79-14763

Proceedings of the 1977 Computerized Adaptive Testing Conference
[ad-a660049] A79-14771

AUTOMOBILE ACCIDENTS

Whole body response research program
[hp-286515/6] A79-15600

Whole body response research program. Appendix A: methodology
p0003 A79-15600

SUBJECT INDEX

Auditory analysis of complex sound:

Overall loudness of steady sounds according to studies on the microwave-induced auditory effect

Automatic recognition of spoken words: a functional model of the auditory system

Auditory evoked potentials during short-term auditory stimulation

Augmentation

Augmentation algorithms - a reply to Holmquist --- for nucleotide substitutions

Pilot-optimal augmentation synthesis

A-20
The effects of alcohol on driver performance in a Whole body response research program. Appendix C: Whole body response research program. Appendix 5: Oculomotor performance of aviators during an Whole body response research program. Appendix 5: Car driving as a cybernetic task

The influence of vehicle aerodynamic and control response characteristics on driver-vehicle performance

The effects of alcohol on driver performance in a decision making situation

A decision model applied to alcohol effects on driver signal light behavior

The application of integral performance criteria to the analysis of discrete maneuvers in a driving simulator

A control theoretic model of driver steering behavior

Driver steering dynamics measured in a car simulator under a range of visibility and roadmarking conditions

Steering behaviour and manual control actions. Part 1: An evaluation of the literature and a research plan

Test and evaluation of head restraints, seat backs, and anchorages in vehicles subjected to rear impact collision

Evaluation of research on surrogates for humans in motor vehicle crashes

Development of a solid propellant inflation technique for the subcompact car passenger restraint system, phase I

Car driving as a cybernetic task

Steering behaviour and manual control actions. Part 2: Follow up of 38 cases

AXONIC NERVOUS SYSTEM

AXIOMS

AXIS (COORDINATES)

AXIS STRESS

AXOLOGIES

BACK INJURIES

Back injuries: Incidence of spinal disability amongst IAF pilots — Follow up of 30 cases

Vertebral fractures in Gnat ejections

Functional anatomy of vertebral column with reference to load bearing areas

Radiological diagnosis of spinal injuries and deformities

Assessment of spinal disabilities in relation to flying

Spinal injuries in the F/PB-111 crew

Dynamic response of vertebral elements related to USAF injury

Radiological examination of the Pacific and fitness for employment as a helicopter pilot

BACKGROUND NOISE

Wavemometric model for the detection of signals observed by a human operator on a CRT screen on a noise background — cathode-ray tube

Information-handling capacity of a human operator in detection of signals against a noisy background

Predicting individual listener confusions in the classification of complex, steady-state sounds

BACKSCATTERING

X-ray backscatter imaging
Lung inflation and longitudinal distribution of pulmonary vascular resistance during hypoxia

Effect of hypoxia on mechanical properties of hyperthyroid cat papillary muscle

Passive resistive torques about long bone axes of major human joints

A spherical representation of a human body for visualizing movement

Theoretical foundations of cardiovascular processes

Basic biomechanics equations for cardiovascular flow

Equations on biotransport mechanisms

Isokinetic exercise: A review of the literature

Analysis and validation of human biodynamic models

A study of the effect of forcing function characteristics on human locomotor dynamics in manual control

Photometric methods for the analysis of human kinematic responses to impact environments

Pr0s thesis coupling

Effects of vibration on the human organism

Operator performance and localized muscle fatigue in a simulated space vehicle control task

Models and Analogues for the Evaluation of Human Biodynamic Response, Performance and Protection --- conferences, human tolerance of acceleration, vibration, and shock

Prediction of whole-body response to impact forces in flight environments

Procedures used to generate input data sets for the articulated total body model from anthropometric data

A three dimensional discrete element dynamic model of the spine, head and torso

Application of biodynamic models to the analysis of 9-16 canopy bi2strike

A failure criterion for human, vertebral, cancellous bone

The use of spinal analogue to compare human tolerance of repeated shocks with tolerance of vibration, part I

The biodynamic response of the human body and its application to standards

Refinement and validation of a three-dimensional head-spin model

The event related cortical potential as an index of task workload

Evoked potential correlates of display image quality

ST isopotential precordial surface maps in patients with acute myocardial infarction

Electromagnetic fields and power deposition in body-of-revolution models of man

Skeletal and interhemispheric asymmetry of acoustic evoked potentials during monaural acoustic stimulation

Elicited acoustic responses to meaningful and meaningless verbal stimuli

Woshishtering thermogenesis in normal and dystrophic muscle
Biosynthetic constraints on thermal protective flight clothing design: A bioengineering analysis

Prosthesis coupling

Application of biodynamic models to the analysis of P-16 canopy bidirectional winds

The validation of biodynamic models

Frequency response of cardiovascular regulation in canines to sinusoidal acceleration at frequencies below 1 Hz (basis for biodynamic modeling)

Refinement and validation of a three-dimensional head-spin model

[AD-A062502]

Bioinstrumentation

Bioinstrumentation for evaluation of workload in Continuous long-duration recording of the heart

Tremometry as a method of evaluating the Portable device for detection of petit mal epilepsy

Computer design synthesis of a below knee-Syne prosthesis

Disorder in pulsatile flow - Biomedical Devices for synchronizing a digital measuring apparatus with biological signals

Use of platinum electrodes for the electrochemical detection of bacteria

Devices for synchronizing a digital measuring apparatus with biological signals

A tethering system for direct measurement of cardiovascular function in the caged baboon

Disorder in pulse flow - Biomedical measurements with hot film, laser and ultrasound anemometers

Computer design synthesis of a below knee-Syne prosthesis

Skin-resistance measuring device with higher resolution

Portable device for detection of petit mal epilepsy

Treaymetry as a method of evaluating the functional state of the nervous system of a pilot

Continuous long-duration recording of the heart rate by means of a noncontact technique

Bioinstrumentation for evaluation of workload in payload specialists - Results of ASSESS II

Subcutaneous channeling probe

[NASA-CASE-ARC-11091-1]

Biological effects

The Physical Basis of Electromagnetic Interactions with Biological Systems

A wide aperture focussed ultrasound system for detection of breast carcinomas by ultrasonic attenuation

Miniature implantable ultrasonic echocardiometer

Magnitude estimation as a hearing aid selection procedure

Development and application of resistive pulse spectroscopy: Studies on the size, form and deformability of red blood cells

BLOOD
G ERYTHROCYTES
G LEUKOCYTES
G WHITE BLOOD CELLS
Acid-base curve nomographs for chimpanzee blood and
comparison with human blood characteristics
Transient changes in arterial blood gases and heart rate during and after acutely induced hypoxia and hyperoxia in rabbits
The effect of hyperoxia on the oxygen tension of blood and cerebral tissue
Some forms of adaptation to extreme influences in the blood system
Dynamics of the catalase activity of the blood of athletes under the influence of local decompression
Effects of glycogen depletion and work load on postexercise O2 consumption and blood lactate
Changes in blood sugar content of dogs exposed to chronic gas radiation for six years
Effects of laser radiation on morphology of peripheral blood for bone marrow under experimental and clinical conditions
Dynamics of Cosmonauts' blood biochemistry during space missions
Blood lipid changes in hypoxic rats
Gas diffusion liquid storage bag and method of use for storing blood
Assessment of factors possibly contributing to the susceptibility of sickle trait erythrocytes to mild hypoxia. Volume 1: Design considerations and research protocol
Effect of a 49-day space flight on parameters of immunological reactivity and protein composition of blood in the crew of Salyut-5
Effects of methylprednisolone sodium succinate on peripheral blood and bone marrow under decompression
Analysis of Pco2 differences during rebreathing due to slow pH equilibration in blood
Cardiac and vascular components of the systemic response of blood circulation to orthostatic influence
Regional blood supply under hypoxic hypoxia
Interaction between hypothalamic and bulbar levels of regulating blood circulation
Reliability of determining the cardiac output by the method of quadrupole chest impedance rheography
Self-regulation of cerebral circulation under orthostatic influences
The response of the microvascular canal to a hypoxic helium-containing medium
Application of an isolated heart model to investigate blood-oxygen delivery
The role of lesser circulation hemodynamic changes in pulmonary gas exchange
Bio-heat transfer processes, for human thermoregulatory and circulatory characteristics
Noninvasive ultrasonic blood flow characterization
Changes in human renal function in passive head-up and head-down positions
The influence of mechanical vibration and noise on the peripheral blood circulation at skin level
A study of cerebral blood flow in the goat. A. Correlations between the ventilatory and cerebrovascular responses to carbon monoxide inhalation. B. The dynamics of the cerebral blood flow response to hypoxia by frequency response analysis
Noninvasive techniques in the evaluation of the peripheral circulation
A long term model of circulation --- human body
Effect of hyperbaric oxygen on peripheral blood neutrophil metabolism
Evaluation of circulatory reactions in the head to antorthostatic position
Physiological fluid dynamics
Mechanics of arterial blood flow
Mechanics of the microcirculation
Techniques of measurement
Tissue gas and blood analyses of human subjects breathing 80% argon and 20% oxygen
State of blood clotting during prolonged hypokinesia
Blood clotting factors of the vascular wall and myocardium of hypoxic rabbits
The effects of brain ischemia on the control of breathing in unanesthetized goats
Tissular blood clotting factors of vascular walls and myocardium during hypokinesia
Blood coagulation and tissular factors of blood clotting in heparinized rabbits submitted to hypokinesia
BLOOD FLOW
Aggregation of red cells and blood viscosity as models of materials experimentation in the space environment
Organ blood flow, cardiac output, arterial blood pressure, and vascular resistance in rats exposed to various oxygen pressures
A fluid-mechanical study of the closure of heart valves
Control of skin blood flow during exercise - Thermal and nonthermal factors
Specific problems in cardiovascular fluid dynamics measurements
BLOOD VOLUME

Influences of physical conditioning and deconditioning on coronary vasculature of dogs [p0067 A79-18955]
The bloodflow in skeletal muscle capillaries in normoxia and arterial hypoxia /Microcinematographic studies/ [p0209 A79-38150]
Iodine imaging using spectral analysis --- radiography for visualization of small blood vessels [p0294 A79-51934]
Quantitative flow estimation with transcutaneous Doppler ultrasound [p0295 A79-51042]
Unsteady-state response of the vascular system to transient and sustained aerospace acceleration profiles [p0286 N79-31917]

BLOOD VOLUME

Blood volume and cardiorespiratory responses to lower body negative pressure [p0010 A79-12864]
Pulmonary blood volume and intravascular circulation time in physically trained and untrained subjects [p0128 A79-24700]
Plasma volume and electrolyte shifts with heavy exercise in sitting and supine positions [p0161 A79-29336]
Effects of regional hemococoncentration during LBNP on plasma volume determinations --- Lower Body Negative Pressure [p0265 A79-47326]
Investigation of blood subjected to volume tension [p0275 A79-50261]
Early cardiovascular adaptation to zero gravity simulated by head-down tilt [p0301 A79-53286]

BLUE GREEN ALGAE

Evolution of early life inferred from protein and ribosaccharide acid sequences [p0206 A79-37980]
Distribution of bluegreen algae in a Mississippi Gulf Coast salt marsh [p8-288992/2] [p0153 N79-19667]
Citric acid enhancement of copper sulfate toxicity to blue-green algae and other nuisance organisms [p8-289490/5] [p0170 N79-20718]

BODIES OF REVOLUTION

Electromagnetic fields and power deposition in body-of-revolution models of man [p0130 A79-26007]

BODY MEASUREMENT (BIOLOGY)

Summary of anthropometric measurements --- Vol. 1: Uncommonly large groups [NASA-CR-150621] [p0140 N79-18767]

BODY MEASUREMENT (MEDICAL)

Body fluid balance in the middle ear fluid of man [p0180 A79-21804]

BODY MEASUREMENT (PHYSIOLOGY)

Blood volume and blood flow characteristics in the human brain [p0125 A79-83760]

BODY MEASUREMENTS

Blood flow measurements in the large vessels of the human body [p0158 A79-10749]

BODIES OF REVOLUTION

Electromagnetic fields and power deposition in body-of-revolution models of man [p0130 A79-26007]

BODIES OF REVOLUTION

Electromagnetic fields and power deposition in body-of-revolution models of man [p0130 A79-26007]
Internal cockpit reflections of external point light sources for the model TAH-64 advanced attack helicopter

[AD-A0559839] p0033 N79-11174

CAPILLARIES (ANATOMY)

Capillary fragility during air exposure of man to 1-5 ATA and after decompression

[p0010 A79-12863]

Multiple tracer diffusion methods for the evaluation of cerebral capillary permeability and capillary blood flow rate in the rat

[p0169 N79-20712]

CAPILLARY CIRCULATION

CAPILLARY FLOW

Correction of transcapillary exchange in man under the influence of rotation on a centrifuge while immersed in water

Mechanisms of the microcirculation

[p0110 N79-16533]

[p0247 N79-27847]

CARBOHYDRATE METABOLISM

The effect of plasmoidal slime on the metabolism of haploid cells of Physarum flavicomum and the respiration of isolated mitochondria

Energetic aspects of adaptation --- Russian book on metabolic responses to stress

[p0167 A79-31906]

Glucose metabolism in rat lung during exposure to hyperbaric O2

[p0221 A79-36047]

Insulin-like effect of bovine growth hormone in vivo as demonstrated by oxidation of C/14/2-glucose in diabetic rats

[p0252 A79-44797]

COSMOS 936, experiment K204: The effects of space flight on some liver enzymes concerned with carbohydrate and lipid metabolism in the rat

[p0023 N79-11675]

Carbohydrate metabolism of the stimulated diaphragm muscle

[p0050 N79-12689]

Effects of intermittent magnetic field on activity of carbohydrate metabolism enzymes and oxygen uptake in testicular tissue

[p0075 N79-14738]

Effect of brief head-down position on parameters of carbohydrate metabolism and beta lipoprotein content of blood

[p0311 N79-33797]

CARBOHYDRATES

NT ADENOSINES

NT FATs

NT GLUCOSE

NT GLYCEROLS

NT NEURONICS

NT NUCLEOTIDES

NT POLYSACCHARIDES

Response of crown gall tissue to the space environment: Residual carbohydrates in supporting tissue --- COSMOS 782

[p0020 N79-11563]

CARBON

NT ACTIVATED CARBON

NT CARBON 14

Photosynthetic carbon reduction by microorganisms exposed to ultraviolet B radiation

[NASA-Cr-150144] p0175 N79-21742

CARBON COMPOUNDS

NT FLOTBIRTHYLMERS

Prebiotic molecular evolution

[p0203 A79-37298]

Physical testing of polymers used in circulatory assist devices

[PB-286-129/2] p0084 N79-15579

CARBON DIOXIDE

CO2 and exercise tidal volume

[p0133 A79-27104]

Contribution of rib cage and abdoxin-diaphragm to tidal volume during CO2 rebreathing

[p0185 A79-33885]

Influence of exercise and CO2 on breathing pattern of normal man

[p0237 A79-43704]

Gas exchange under environmental stress

[AD-A0558242] p0056 N79-13697

A transient analysis of the cerebrovascular response to carbon dioxide

Regulation of the carbon dioxide tension in arterial blood during inhalation of carbon dioxide in birds and mammals

[p0111 N79-16539]

[p0169 N79-20713]

[p0174a N79-21740]

[p0174a N79-21741]

[p0175 N79-21750]

Investigations about the quantitative changes of carbon dioxide production in humans. Report 2: Carbon dioxide production during fever and its relationship with heat production

Flight prototype CO2 and humidity control system

CARBON DIOXIDE CONCENTRATION

Responses of conscious rabbits to CO2 at ambient temperatures of 5, 20, and 35 C

[p0277 A79-50904]

CARBON DIOXIDE REMOVAL

The dependence of the CO2 removal efficiency of LiOH on humidity and mesh size --- in spacecraft life support systems

[ASME PAPER 76-EMAS-5] p0006 A79-12554

Electrochemically regenerable carbon dioxide absorber

CARBON DIOXIDE TENSION

NT HYPERCAPNIA

NT HYPOCAPNIA

Analysis of PaCO2 differences during rebreathing due to slow pH equilibration in blood

[p0067 A79-18958]

Mechanisms of the regulation of the respiratory system in man

[p0160 N79-29258]

CARBON ISOTOPES

NT CARBON 14

CARBON MONOXIDE

Synthesis of organic compounds from carbon monoxide and water by UV photolysis

[p0099 A79-22077]

The effects of carbon monoxide on dual-task performance

[p0161 A79-29716]

The effects of carbon monoxide and cyanide on the brain

[p0024 N79-11682]

The interaction of carbon monoxide and altitude on aviator performance: Pathophysiology of exposure to carbon monoxide

[AD-A0052412] p0056 N79-13694

Translations on SSR science and technology: Biomedical and behavioral sciences, [JPRS-72588] p0076 N79-14745

Liberation of carbon monoxide by man when working in protective gear

[p0076 N79-14748]

A study of cerebral blood flow in the goat. A. Correlations between the respiratory and cerebrovascular responses to carbon monoxide inhalation. B. The dynamics of the cerebral blood flow response to hypoxia by frequency response analysis

[p0107 N79-16510]

Effects of oxides on nitrogen, Carbon monoxide and photochemical oxidants on the ECG during exercise and on cardiopulmonary function

[95-2915957/1] p0177 N79-21763

CARBON MONOXIDE POISONING

Developmental and hematological responses to low level exposure of carbon monoxide in mice

[p0046 A79-16099]

Carbon monoxide and human time discrimination - Failure to replicate Beard-Wertheim experiments

[p0102 A79-23472]

Characteristics of serious carbon monoxide poisoning

[p0167 A79-32700]

The combined effect of carbon monoxide and narcotic hyperoxia on animals

[p0073 N79-14730]

CARBON SUBOXIDES

Carbon suboxide and the genetic code --- in biochemical evolution

A-38
Computer quantitation of coronary angiograms
Clinical applications of new echocardiographic techniques
Biomagnetic instrumentation and measurement
Clinical magnetocardiography
Application of an isolated heart model to investigate blood-oxygen delivery
Possibilities and perspectives of tetrapolar transcranial impedance rheophotography in noninvasive studies of hemodynamics
The metabolic demand and oxygen supply of the heart - Physiologic and clinical considerations
Temporal relation between onset of cell anoxia and ischemic contractile failure
Difficulties posed by left axis deviation in the evaluation of fliers, and their relations to the concept of left anterior hemiblock
Cardiovascular reactions by the orthostatism test during stress testing --- heart pathology

Central and cerebral hemodynamics and metabolism
Cardiorespiratory assessment of special tests for astronaut selection - Study of cardiovascular and pulmonary function with special emphasis on assessment criteria for flying
Temporal relation between onset of cell anoxia and ischemic contractile failure
Clinical applications of new echocardiographic techniques
Biomagnetic instrumentation and measurement
Clinical magnetocardiography
Application of an isolated heart model to investigate blood-oxygen delivery
Possibilities and perspectives of tetrapolar transcranial impedance rheophotography in noninvasive studies of hemodynamics
The metabolic demand and oxygen supply of the heart - Physiologic and clinical considerations
Temporal relation between onset of cell anoxia and ischemic contractile failure
Difficulties posed by left axis deviation in the evaluation of fliers, and their relations to the concept of left anterior hemiblock
Cardiovascular reactions by the orthostatism test during stress testing --- heart pathology
Subject Index

Catalase
Dynamics of the catalase activity of the blood of athletes under the influence of local decompression p0271 A79-49669

Catalysis
MT AUTOCATALYSIS
Four-sun rated dual catalyst system for the recovery of water from urine [NASA-CR-152277] p0112 W79-16550

Catalytic Activity
A simple analogical model for the selection of optical activity and of the most efficient catalysts in the course of molecular evolution p0204 A79-37957
Decreased activity of palladium catalyst during processing of excreta p0016 W79-10716

Catecholamines
Sustained operations and sleep deprivation - Effects on indices of stress p0009 A79-12059
Effects of microwaves on catecholamine metabolism in the brain p0075 W79-16739
Catecholamines and enzymes of metabolism thereof in the rat hypothalamus after flight aboard Cosmos-782 biosatellite p0246 W79-27922

Cathode Ray Tubes
Visual acuity with regard to simultaneous colored contrast on a television screen - Results p0103 A79-23952
Providing an eye separator on a color cathode tube - Enhancing visual acuity p0152 W79-19639

Cations
MT METAL IONS
A correlation of the effects of cationic uncouplers on intact cardiac muscle and on calcium bound to isolated cardiac muscle plasma membranes p0111 W79-16540

Cavitation
Cavitation Flow
Application of a bubble foramination model to decompression sickness in rats and humans p0102 A79-23473

Cavities
The design and construction of a miniature dosimeter for the study of the effects of air cavities in radiation therapy p0176 W79-21757

Celestial Bodies
ST EARTH (PLANET)
ST MARS (PLANET)
ST URBAN OCS

Acute toxicity of a number of chemicals of interest to the Air Force

Chemical Energy
Solar-driven chemical energy source for a Martian life

Chemical Evolution
On the reality of extraterrestrial biogenesis

Acid Base Equilibrium
A simple model of fluid flow and electrolyte balance in the body

Chemical Analysis

Gas Analysis

Potentialometric Analysis

Quantitative Analysis

Spectroscopic Analysis

Urine Analysis

Microanalytical identification of barium sulphate crystals in stoliths of Chara rhizoids

Effects of propellant hydrates on red blood cells: Methemoglobin and Heinz body formation

Chemical Bonds
A molecular description of oxygen binding to hemoglobin

Binding of biologically active agents to plasma proteins

Chemical Composition
Carbon Dioxide Concentration

Effects of dietary composition on nutritional state in rats during exposure to high altitude

Preliminary design specifications of a calcium model

Chemical Compounds
Chemicals identified in human biological media, a pilot literature survey

Acute toxicity of a number of chemicals of interest to the Air Force

Chemical Effects
Some neurochemical characteristics of rats after space flight in the Cosmos-936 satellite
Experimental approach to the chemical evolution in the prismatic sea. I - Formation of amino acids and amino acid polymers in modified sea mediums

Prebiotic synthesis of amino acids by carboxylation of aspartic in oxidative atmosphere

Incorporation of sulphur in chemical evolution

A simple analogical model for the selection of optical activity and of the most efficient catalysts in the course of molecular evolution

Experimental approach to the chemical evolution in the prismatic sea. II - Formation of protocell-like structures 'earigranules' in a modified sea medium

Takeover mechanisms and early biochemical evolution

Sulfate-reducing bacteria and biochemical evolution

Some characteristic features of the origin and evolution of the amino acid composition of proteins - A theoretical consideration

Evolution of transfer RNA

Epimerization of L-isoleucine on Na-montmorillonite and its implication to Precambrian chemical fossils

The study of the origin of life - Results and prospects

The crisis in the problem of the origin of life

A critical assessment of the origin of life

Squalenes, phytanes and other isoprenoids as major neutral lipids of methanogenic and thermoacidophilic 'archaebacteria'

Carbon suboxide and the genetic code --- in biochemical evolution

Goodman et al.'s method for augmenting the number of nucleotide substitutions

On investigating the statistical properties of the populous path algorithm by computer simulation - Counterconclusions to those of Tateno and Nei -- for mutational change in protein evolution

A proposal concerning the origin of life on the planet earth

Polymers produced by heating an amino acid mixture in sea water enriched with transition elements

Mirror symmetry breaking in biochemical evolution

Prebiotic coordination chemistry: The potential role of transition-metal complexes in the chemical evolution

Changes in the circadian rhythm of performance and mood in healthy young men exposed to prolonged, heavy physical work, sleep deprivation, and caloric deficit

Circadian rhythms of electrolyte uremia in healthy persons

The importance of light, postural and social cues in the regulation of the plasma cortisol rhythms in man

Stability of circadian system of the body

Task complexity and 24-h performance patterns in working and evening active subjects

Human circadian physiology: Internal organization of temperature, sleep-wake and neuroendocrine rhythms monitored in an environment free of time cues

CIRCUIT DIAGRAMS

The development of a whole-body algorithms

CIRCULATION

Evolution of early life inferred from protein and ribonucleic acid sequences

Effect of accelerations combined with radiation on cell and chromosomes in vitro

Effect of accelerations combined with radiation on occurrence of gene mutations in the drosophila

Stability of circadian system of the body

Task complexity and 24-h performance patterns in working and evening active subjects

Human circadian physiology: Internal organization of temperature, sleep-wake and neuroendocrine rhythms monitored in an environment free of time cues

CITIES

Measurements of radiofrequency field intensity in buildings with close proximity to broadcast stations

Radiofrequency radiation levels and population exposure in urban areas of the eastern United States

CIVIL AVIATION

Current role of alcohol as a factor in civil aircraft accidents

Disability pattern amongst civil aircrew

Civil aviation training programs

Judge evaluation and instruction in civil pilot training

CLASSIFICATIONS

The systems analytic approach to the problems of classification of scientific medical research
Poissibility of improving assessment of
"cardio-pulmonary function by submaximal exercise
on a bicycle ergometer"

(TELL-NTS-11657)  p0279  W79-30918

The application of remote sensors to a model for
fish mapping
(IEEE-1979-P8/176)  p0071  W79-14712

COATINGS
U PAINTS
UT PROTECTIVE COATINGS

COCHLEA
Effects of acute noise trauma on whole-nerve and
single-unit activity
(IEEE-1978-23)  p0308  W79-32829

COCKPIT SIMULATORS
Tracking-task performance during heat stress
simulating cockpit conditions in
high-performance aircraft
p0236  W79-43675

COCKPITS
Physiological requirements for design of
environmental control systems - Control of heat
stress in high-performance aircraft
(ASME PAPER 78-ENAS-22)  p0007  W79-12571
COLD TOLERANCE

Uncommon hypersensitivity to contacting cold water and cold air with propagated reflex-like erythema development.

COLD WATER

Cold water survival suits for aircrews.

COLD ACCLIMATIZATION

Bimodal relationship of human tremor and shivering after exposure to 1.5-4°C.

COHERENT ANTI-STOKES RAY SPECTROSCOPY

Cross-adaptive effects of cold, hypoxia, or carbon dioxide on the cardiovascular system.

COGNITIVE PSYCHOLOGY

The role of cognitive switching in head-up displays for visual systems.

COGNITION

Rhythms in human performance - 1/2-hour oscillations in cognitive style.

COENZYMES

Time for loss of cold tolerance.

COLOR VISION

Apparent saturation of blue-sensitive cones occurs at a color-opponent stage.

COLORATION

Four years of color research for visual displays.

COLOR TELEVISION

Digital color image compression in a perceptual space.

COLLATERALS

Human factors considerations in establishing aircraft collision avoidance system alerts.

COLLISION AVOIDANCE

Collision avoidance response stereotypes in pilots and nonpilots.

COLLISION WARNING DEVICES

Light and color on a manned spacecraft.

COLLISIONS

Aircraft collision avoidance system alert thresholds.

COLLISIONS BETWEEN AIRCRAFT

Radio detection and ranging systems for enhanced collision avoidance.

COLOR

Regression models of search time for color-coded information displays.

COLOR PERCEPTION

Contrast sensitivity of the human eye to various display phosphor types.

COLOR TELEVISION

A 25-inch precision color display for simulator visual systems.

COLOR VISION

Electrophysiological determination of retinal sensitivity to color after intense monochromatic light adaptation.

COLOR VISION

Apparent skin blood perfusion and heat loss.

COLLISIONS BETWEEN AIRCRAFT

A controller's eye view of color.

COLOR VISION

Visual acuity with regard to simultaneous colored stimulus contrast on a television screen.

COLOR VISION

Aeromedical implications of the X-Chrom lens for improving color vision deficiencies.
COMPUTER PROGRAMS

COMPUTER GRAPHICS
- Digital enhancement of computerized axial tomograms
- Computer-graphic design for human performance
- Perception of graphic displays of space
- Visual cues in manual tracking of simulated targets
- Recent developments and plans for pilot training devices
- A fast-reacting and versatile optokinetic stimulus pattern by computer graphics with application examples
- Application of computer animation for dynamic display in complex energy systems
- The development of integrated multidimensional displays
- Real-time computerized fluoroscopic cardiac imaging
- Pilot performance during simulated approaches and landings made with various computer-generated visual glidepath indicators
- A spherical representation of a human body for visualizing movement
- Analysis and validation of human biodynamic models
- Graphic display of human motion
- Transient theroregulatory model with graphics output

COMPUTER TECHNIQUES

A survey of existing computer programs for aircrew workload assessment
- Editing procedure for anthropometric survey data
- Human operator identification model and related computer programs
- Speech as a pilot input medium
- Computer program for calculation of oxygen uptake
- Fluid and Electrolyte Balance model
- Design specification for the whole-body algorithms
- User's instructions for the cardiovascular Walters model
- Evaluation of exercise-respiratory system modifications and integration schemes for physiological systems
- User's guide for the Skylab integrated medical data analysis system
- The application of MINIPASS to thermal program boundary and initial value problems
- Review of unfolding methods used in the US and their standardization for dosimetry

COMPUTER SIMULATION
- Pilot preflight briefing utilizing an interactive computer generated Voice Response System

COMPUTER STORAGE DEVICES
- NY RAMDON ACCESS MEMORY
- NY SYSTEMS DESIGN
- Pilot preflight briefing utilizing an interactive computer generated Voice Response System

CONTAMINANTS

CONTAMINATION

A theoretical investigation of power and control configurations for a high g-onset centrifuge drive system

DIRECT-EXPOSURE OF MONOLAYERS OF MAMMALIAN CELLS TO AIRBORNE POLLUTANTS IN A UNIQUE CULTURE SYSTEM

CONTACT SIMULATION

Simulation study on time series of heart responses

CONTROL STICKS

Influences of joystick spring resistance on the execution of simple and complex positioning movements

CONTROL SYSTEMS

A model for sensorimotor control and learning

CONTROL THEORY

A theoretical investigation of power and control configurations for a high g-onset centrifuge drive system

CONTINUITY

Perception of continuity in strobeocopic motion - A temporal frequency analysis

CONTOURS

Contour detector and data acquisition system for the left ventricular outline

TEXTURE CONTORSIONS CAN FACILITATE STEREOPSIS BY INITIATING VERGEYE MOVEMENTS

CONTROL

The development and evaluation of objective frequency domain based pilot performance measures in ASUPT

A theoretical investigation of power and control configurations for a high g-onset centrifuge drive system

CONTROL CONFIGURED VEHICLES

A theoretical investigation of power and control configurations for a high g-onset centrifuge drive system

CONTROL DEVICES

Control systems for robots-and manipulator-s

CONTROL EQUIPMENT

Stabilization of a biped walking machine with incomplete information on its phase coordinates

CONTROL SIMULATION

Simulation study on time series of heart responses

COUNTER SIMULATION

A computer-based simulator --- computer-assisted pilot training

COUNTERS

A theoretical investigation of power and control configurations for a high g-onset centrifuge drive system

CUTICLE

The effects of participatory mode and task workload on the detection of dynamic system

CUTICULAR

The effects of participatory mode and task workload on the detection of dynamic system

CUTICLE MEMBRANES

The effects of participatory mode and task workload on the detection of dynamic system
failures
A control theoretic model of driver steering behavior
Modelling the human operator of slowly responding systems using linear models
A model of the human supervisor
Prediction of pilot-aircraft stability boundaries and performance contours
Use of the optimal control model in the design of motion cue experiments
The systemic principles of building a man-machine control system
The application of control theory to the investigation of roll motion effects on human operator performance

CONTROL VALVES
Microbial Check Valve for Shuttle [ASME PAPER 78-ENAS-27]

CONTROLLABILITY
Quantifying operator preference during human factors test and evaluation -- in helicopter design

CONTROLLED ATMOSPHERES
RT ARGON-OXYGEN ATMOSPHERES
RT CABIN ATMOSPHERES
RT HELIUM-OXYGEN ATMOSPHERES
RT SPACECRAFT CABIN ATMOSPHERES
Voice communication in artificial atmospheres -- Russian book
The combined effect of carbon monoxide and normobaric hyperoxia on animals

CONTROLLED STABILITY
RT CONTROL
CONTROLLERS
RT SERVOMECHANISMS
Evaluation of models describing human operator control of slowly responding complex systems -- Thesis

COXVIRAL AIRCRAFT
RT MILITARY AIRCRAFT
CONVECTION
Mathematical studies of oxygen transport to tissue

CONVECTIVE FLOW
Convective control of long-range coherence in plant growth regulation

CONVERGENCE
Region extraction using convergent evidence

CONVULSIONS
Effect of electroconvulsive shock on monoaminergic receptor binding sites in rat brain
The control and prevention of seizures in children, a developmental and environmental approach

COOLING
RT LIQUID COOLING
RT SURFACE COOLING
Epiphysis of rats under the combined action of hypoxia, hypercapnia and cooling

COORDINATE SYSTEMS
COORDINATES
Anatomical coordinate systems for human body segments

COORDINATION
Process of search control of coordinated movement in man

COPILOTS

DECISION MAKING
Communications management by the remote system -
An adaptive approach --- modeling of RPP
autopilot/operator systems
p0041 A79-13226

Human engineering study of information processing
applicable to helmet-mounted displays
p0068 A79-18994

A model of human decisionmaking in fault diagnostic
tasks that include feedback and redundancy
p0163 A79-30222

An and automation --- for human-automatic pilot
interfaces
p0275 A79-50372

Judgement evaluation and instruction in civil
pilot training
[AD-A057840] p0019 A79-10737

Some of reward-penalty structures in human
experimentation
p0069 A79-15607

The effects of alcohol on driver performance in a
decision making situation
p0092 A79-15629

A decision model applied to alcohol effects on
driver signal light behavior
p0092 A79-15630

A model of human event detection in multiple
process monitoring situations
p0092 A79-15630

Pilot decision making in a computer-aided flight
management situation
p0093 A79-15633

A decision, monitoring and control model of the
human operator applied to an RPP control problems
[AD-A069980] p0282 A79-30939

Adaptive estimation of information values in
continuous decision making and control of
advanced aircraft
[AD-A069711] p0282 A79-30941

Effects of aspartame on response selection and
response execution processes in choice reaction tasks
[TH-1978-8] p0309 A79-32839

DECISION THEORY
Applications of two-parameter decision theories in
psychology
[AD-A059010] p0052 A79-12705

Human health damages from mobile source air
pollution: Additional Delphi data analysis,
volume 2
[PB-288320/5] p0185 A79-18506

DECOMPOSITION
U PHOTOLYSIS
Observability of electrical heart activity studied
with singular value decomposition
[TH-78-6-81] p0144 A79-18584

DEPRESSION
U PRESSURE REDUCTION
DEPRESSION SICKNESS
Intracardial gas bubbles and decompression
sickness while flying at 9,000 m within 12-24 h
of diving
p0910 A79-12866

Case report - Intracardial gas bubbles in relation
to altitude decompression chokes
p0911 A79-12871

Detection of bubbles in decompression sickness
p0911 A79-13573

Effect of decompression per se on nitrogen
elimination
p0907 A79-19594
DYNAMIC PROGRAMMING

Car driving as a cybernetic task

DYNAMIC PROGRAMMING

Selecting the program of motions for a biped walking machine

DYNAMIC PROPERTIES

DYNAMIC CHARACTERISTICS

DYNAMIC RESPONSE

Transient Response

Significance of motor activity for spatial hearing

On the relationship between pilot rating and pilot dynamics. I - An experimental approach

On the relationship between pilot rating and pilot dynamics. II - An analytical approach

Dynamics of an image viewed through a rotating mirror

Application of pseudo random binary sequence input to identification of respiratory control dynamics

Lung mechanics: Dynamic response, acoustic generation, and flow limitation

Dynamical response of vertebral elements related to USAP injury

The internal model: A study of the relative contribution of proprioception and visual information to failure detection in dynamic systems --- sensitivity of operators versus monitors to failures

Discrete-time pilot model --- human dynamics and digital simulation

The influence of vehicle aerodynamic and control response characteristics on driver vehicle performance

Modelling the human operator of slowly responding systems using linear models

Multi-channel stimulation of peripheral nerve trunks

Models and Analyses for the Evaluation of Human Performance

The advantages of ultrasonic echocardiography in clinical applications of new echo cardiographic techniques

The response of a realistic computer model for sitting humans to different types of shocks

Some human responses to repeated 4 sub z pulses

The biodynamic response of the human body and its application to standards

DYNAMIC STABILITY

Aerodynamic Stability

Air-Frame Stability

Hovering Stability

Motion Stability

Stabilization of the horizontal motion of a bipedal walking robot

DYNAMIC TESTS

The dynamic oxygen-regulator test stand

AER

COCHLEA

LABYRINTH

MIDDLE EAR

SCINTICIRCULAR CANALS

VESTIBULES

SUBJECT INDEX

Aeromedical aspects of otolaryngology

Auditory analysis of complex sound: Electrophysiological investigations --- Russian book

A mathematical scheme for predicting the electro-acoustic frequency response of hearing aid receiver-earcoshell-ear systems

Functional connections of the central auditory nervous system: Thalamocortical corticothalamic and corticocortical connections of the AI, AII and AAF auditory cortical fields

EAR PRESSURE TEST

Analysis of inert gas exchange in the middle ear

EAR PROTECTORS

In-flight measures of stress reduction due to wearing expandable foam earplugs

EARRINGs

Effects of phase manipulation on speech intelligibility through communication headsets --- light aircraft radio communication

EARTH (PLANET)

A proposal concerning the origin of life on the planet earth

EARTH ATMOSPHERE

Contribution to the theory of photopic vision:
- The limited range of the human eye for optical
measurements in the laser irradiated eye

Intraocular pressure reduction and regulation system
- Effects of vestibular factors on contrast sensitivity of the human visual system at
one luminance level while adapted to a stimulus

Official method for determining ocular irritation
- Effects of vestibular factors on color-discriminating function of the human eyes
- Following color preadaptation

Intraocular pressure reduction and regulation system
- The limited range of the human eye for optical
aircraft acquisition

Contribution to the theory of photopic vision:
- Photopic phenomena
- Measurements in the laser irradiated eye

EYE MOVEMENTS

EYE DOMINANCE
- The perceived direction of the binocular image
- A further investigation of visual dominance

EYE STRAMMATIONS
- NT ELECTROOCULOGRAPHY
- Visual acuity of the aging hyperopic eye in the
intermediate range
- Correlation of binocular vision test results with
synaphophote evaluation
- The use of synchronous desynchronization for the
measurement of eye movements by means of an
ocular magnetic search coil
- Laser Doppler technique for measurement of eye
movement
- An analysis of the saccadic system by means of
double step stimuli
- The peripheral critical flicker frequency
- Advanced transport operation effects on pilot scan
patterns
- Lightweight helmet-mounted eye movement
measurement system
- The retinal resolving power measured by laser
interference fringes
- Mechanisms of retinal damage from chronic laser
radiation; Thresholds and mechanisms

EYE MOVEMENTS

Selection and techniques for analysis of indices of
data visual reception. II --- aircraft pilot
eye movements
- Effects of information processing requirements on
reaction time of the eye

Visual target acquisition and ocular scanning
performance
- Eye movements and symmetry - Foundations for a
quantitative analysis of eye movements as they
depend on the structure of the perception field
- German thesis
- Effect of alcohol and marijuana on eye movements
- Linearization and sensitivity analysis of model
human eye movements
- Choice and techniques of analysis of indices for
the perception of visual information. III --- by
pilots
- Contrast effects on smooth-pursuit eye movement
velocity
- Velocity precision in smooth pursuit eye movements
- Visual-vestibular interactions. I - Influence of
peripheral vision on suppression of the
vestibulo-ocular reflex and visual acuity
- Smooth pursuit eye movements - Is perceived motion
necessary
- Information transmission during eye movements
of helicopter pilots
- Methodological considerations of visual workloads

Africa close to that of earth
- Contributions of the retina and of the eye optical
system to the modulation lowering of the aerial
image
- Hyper-resolution in human perception of movement
in visual displays
- Extrapolation of pulsed light data --- scanned
displays -- laser radiation eye exposure limits
- Low level laser light effects --- on vision
- Survey on eye comfort in aircraft. I - Flight
attendants
- Deductive derivation of a mathematical model for
spectral sensitivity of the human organ of
sight. I, II
- A bioengineering simulator of the human visual
apparatus
- Better definition of eye to optic nerve distance
in high acceleration cockpit /HAC/ seating
geometries
- Nonlinear optical susceptibility of the human eye
to IR radiation in the 400 to 1355 micron range
- The visual perception of motion in depth
- Nonlinear perception of infrared radiation in the
400-1355 nm range with human eye
- Changes in critical duration during dark-adaptation
- Cosmic ray effects on the eyes of rats flown on
COSMOS 782
- Cosmic ray effects on the eyes of stationary and
centrifuged rats flown on COSMOS 936, experiment
Y-207
- Contrast sensitivity of the human eye to various
display phosphor types
- The physiological significance of light for human
beings
- The want and feasibility to temper sunlight for
the eyes
- Official method for determining ocular irritation
- Contrast sensitivity of the human visual system at
one luminance level while adapted to a stimulus
at another luminance level
- Effects of vestibular factors on color-discriminating function of the human eyes
- Following color preadaptation
- Intraocular pressure reduction and regulation system
- The limited range of the human eye for optical
aircraft acquisition
- Contribution to the theory of photopic vision:
- Photopic phenomena
- Measurements in the laser irradiated eye

A-75
The use of synchronous demodulation for the measurement of eye movements by means of an oculomagnetic search coil

The role of perceived motion in smooth pursuit eye movements

The effect of expectations on slow oculomotor control. I - Periodic target steps. II - Single target displacements

The influence of rapid prism adaptation upon fixation disparity

Laser Doppler technique for measurement of eye movement

Eye torsion and visual tilt are mediated by different binocular processes

Spatial summation in human vision - Simple reaction time measurements

Eye movements and visual perception --- Russian book

Forms of oculomotor activity under conditions of positive visual feedback

Lightweight helmet-mounted eye movement measurement system

Optokinetic reactions in man elicited by localized retinal motion stimuli

Eye torsion in response to a tilted visual stimulus

Modeling of visual-ventilatory interaction and the fast components of nystagmus

Effects of information processing requirements on reaction time of the eye

Lightweight helmet-mounted eye movement measurement system

A relationship between eye movement patterns and performance in a precognitive tracking task

Dynamic measurement of human cyclofusional eye movements

A method for semi-automatic analysis of eye [DLR-TR-78-02]

EYE PROTECTION

Laser eye protection for flight personnel

Test and evaluation in the acquisition process - A look at the F16 goggle

No harmful effects through infrared light emitting diodes

Health and safety hazards associated with solar concentration systems

Thermal effects during the exposure of ocular fundus tissues to laser radiation

Effects of high-LET neon /He-20/ particle radiation on the brain, eyes and other head structures of the pocket mouse - A histological study

Suprathreshold retinal damage due to single 6 picosecond 1060 nm laser light pulses

Responses of retinal and visual pathway potentials of the guinea pig to nitrogen and helium at high pressure

Laser eye protection for flight personnel, volume 1 [AD-A0571417]

The want and feasibility to temper sunlight for the eyes [IP#1777-21]

Sunglasses for drivers? [IP#1777-24]

HEART RATE

Heart minute volume

NT SYSTOLE

NT ERADYCAP.DIP.

NT ARRHYTHMIA

Analysis of distribution of sequences of R-R intervals in astronauts: Generalized coordinate method

The significance of rhythm disturbances in asymptomatic persons

Honest 1: Personality, heart rate, urinary catecholamine, and subjective fatigue measures related to night nap-of-the-earth flying (AD-A0548888)

Studies of hemodynamics and phase structure of cardiac cycle in the crew of Salyut-4

A simulator study of the interaction of pilot workload with errors, vigilance, and decisions (NASA-TM-78882)

Heart rate: Physiological characteristics and quantification methods for use in behavioral studies [CSIR-SR-PYRS-276]

A study of some of the factors influencing the left ventricular diastolic pressure-volume relationship and myocardial metabolism

Hybrid computation of left ventricular performance using noninvasive techniques

Heart valves

A continuous wave, frequency modulated, ultrasonic device with auditory output for observing the heart

Nitril prolapse and acceleration -- in aircraft pilots

A fluid-mechanical study of the closure of heart valves

Better definition of eye to aortic valve distance in high acceleration cockpit /HAC/ seating geometries

Heat

Heat resistance

Heat acclimatization

Temperature-dependent morphological changes in membranes of Bacillus stearothermophilus

Sweating responses during heat acclimation and moderate conditioning

Thermoregulation in swimmers and runners

Intestinal transport of hormones in the rat following chronic heat exposure

Heat and acute dehydration effects on acceleration response

Effect of rate of change in skin temperature on local sweating rate

Deconditioning-induced exercise responses as influenced by heat acclimation

A comparison of sweating responses in men and women before and after acclimation to humid heat

The effects of active and passive heat acclimatization procedures on the cardiovascular, thermoregulatory, and sweat rate responses to work in the heat in male humans

Heat conduction

Conductive heat transfer

Heat dissipation

Cooling

Heat dissipation chilling

Thermal resistance
Helmet weight simulator
[NASA-CASE-LAR-12320-1]  p0223 79-25761

Correlation of head injury with mechanical forces based on helmet damage duplication
p0287 79-31920

HEROBIOTIC CRIT
Effects of regional hemococoncentration during LBM on plasma volume determinations — Lower Body Negative Pressure
p0265 79-47326

HEROBIOTICS
Studies on the erythron and the ferrokinetic responses in beagles adapted to hypergravity
p0100 79-12869

Developmental and hematological responses to low level exposure of carbon monoxide in mice
p0046 79-16099

Some forms of adaptation to extreme influences in the blood system
p0256 79-6679

The importance of light, postural and social cues in the regulation of the plasma cortisol rhythm in man
p0267 79-67398

Studies on the bioassayable growth hormone-like activity of plasma
p0267 79-47848

HEROBIOTIC RESPONSES
Recovery of hemopoiesis in rats exposed to radiation during space flight
p014 79-10701

Effects of long-term and chronic radiation on hemopoiesis
p0106 79-10719

Dynamic regulation of erythropoiesis: A computer model of general applicability
p0177 79-25720

Improvements and validation of the erythropoiesis control model for bed rest simulation

HEMODYNAMIC RESPONSES
Use of a computer model in the understanding of erythropoietic control mechanisms
p0177 79-10718

The application of systems analysis and mathematical models to the study of erythropoiesis during space flight
[NASA-CR-160218]  p0219 79-25739

HEMODYNAMIC RESPONSES
Special tests for astronaut selection — Study of cardiovascular reactions by the orthostasis test
p0067 79-15490

Developmental and hematological responses to low level exposure of carbon monoxide in mice
p0048 79-16099

Exercise performance and hemodynamics during dietary potassium depletion in dogs
p0067 79-18959

Response of the rat erythrocyte to ozone exposure
p0067 79-18963

Hemoelastic indices under orthostatic and vestibular effects
p0098 79-20692

Interaction between hypothalamic and bulbar levels of regulating blood circulation
p0098 79-21249

Cardiovascular regulatory response to lower body negative pressure following blood volume loss
p0010 79-23470

Hemodynamic responses in teenagers and asthmatic children during exercise
p0133 79-27102

HSC—/CR—51/ half-life and albumin turnover in growing Beagle dogs during chronic radial acceleration
p0135 79-27553

Syntolic time intervals during combined hand cooling and head-up tilt
p0135 79-27554

Organ blood flow, cardiac output, arterial blood pressure, and vascular resistance in rats exposed to various oxygen pressures
p0135 79-27557

Early cardiovascular adaptation to simulated zero gravity
p0162 79-29727

Fluid shifts during initial phase of immersion diuresis in man
p0185 79-33804

SUBJECT INDEX
Control of skin blood flow during exercise -
Thermal and nonthermal factors
Effects of chronic changes in hemoglobin-02
affinity in rats
Circulatory response to arterial hypoxia
Effects of regional hemocencentration during LBNP
on plasma volume determinations --- Lower Body
Negative Pressure
The metabolic demand and oxygen supply of the
heart - Physiologic and clinical considerations
Compensatory reactions of the kidneys to
orthostatic factors
Effects of endogenous factors on the process of
gas bubble formation in the body related to
decompression
Correction of transcapillary exchange in man under
the influence of rotation on a centrifuge while
imersed in water
Developmental and hematological responses to low
level continuous exposure of nitrogen dioxide in
rice
Studies of venous circulation in the crew of the
Salut-5 orbital station
HEMODYNAMICS
Cardiac and vascular components of the systemic
response of blood circulation to orthostatic
influence
Regional blood supply under hypoxic hypoxia
Central and cerebral hemodynamics and metabolism
of the healthy man during head-down tilting
Pulmonary blood volume and intraventricular
circulation time in physically trained and
untrained subjects
Age trends in the cardiovascular dynamics of
aircrews
Individual differences in hypoxic responses at
high altitudes
Diagnostics of initial deficiency in cerebral
circulation
Nerval regulation of coronary circulation
The bloodflow in skeletal muscle capillaries in
normoxia and arterial hypoxemia
/Microcinematographic studies/
The response of the microvascular canal to a
hypoxic helium-containing medium
Specific problems in cardiovascular fluid dynamics
measurements
Dynamics of the catalase activity of the blood
of athletes under the influence of local
decompression
?ossibilities and perspectives of tetrapolar
transhasthoracic impedance rheopexysigraphy in
noninvasive studies of heart- and cardiodynamics
The role of lesser circulation hemodynamic changes
in pulmonary gas exchange
Studies of hemodynamics and phase structure of
cardiac cycle in the crew of Salut-4
Development and application of resistive pulse
spectroscopy: Studies on the size, form and
def ormability of red blood cells
[LDL-8680]
HEMOGLOBIN
ST OTHERHEMOGLOBIN
Hemoglobinemia in rats exposed to high altitude is
not due to an overload of catalytic mechanisms
Effects of chronic changes in hemoglobin-02
affinity in rats
Investigation of the content of hemoglobin and its
fractions in permanent inhabitants of the Tien
Shan and Pamir
Effects of regional hemocencentration during LBNP
on plasma volume determinations --- Lower Body
Negative Pressure
Polyglutaraldehyde - A new reagent for coupling
proteins to microspheres and for labeling
cell-surface receptors
Noninvasive estimation of bilirubin and hemoglobin
oxygen saturation in the skin by reflection
spectrophotometry
Therodynamic studies on the oxygenation and
subunit association of human hemoglobin
Analysis of visible spectra and thermodynamic
parameters in hemoprotein systems
Mathematical studies of oxygen transport to tissue
Studies of metabolizing, function and mechanism of
destruction of red cells
/HO-AD0702401/
HORMONES
Ruptured arteriovenous anomaly in a former woman
astronaut candidate
Isolation of a shock-induced circulating
cardiodepressant substance
Blood coagulation and tissular factors of blood
clotting in heparinized rabbits submitted to
hypoxemia
/IN-393813/
HEERING-BREVER REFLEX
Axiomatic summary and deductions from Hering's
principles of visual direction
HETEROCYCLIC COMPOUNDS
HT ADENOSINET
HT ASCORBIC ACID
HT ATOMET
HT HYOSCYMN
HT INOSINES
HT NICOTINES
HT POMATHEMINE
HT THEOBROMINE
HT TOCOPHEROL
HT TEPHYDRON
HEXOSES
Intestinal transport of hexoses in the rat
following chronic heat exposure
/IN-63701/
HIBERNATION
Similarity in the number of lifespan heartbeats
among non-hibernating homeothermic animals
/IN-52281/
HIERARCHIES
Adaptive control of a robotic manipulator
/HO-15001/
HIGH ACCELERATION
Tolerance of domestic fowl to high sustained +Gz
/IN-24630/
Effects of brief exposure of domestic fowl to very
intense acceleration fields
/MO-24631/
Multibody dynamics including translation between
the bodies, with application to head-neck systems
/AD-4082141/
HIGH ALTITUDE
Oxygen affinity of blood in altitude Sherpas
/IN-7854/
Composition of cerebral fluids in goats adapted to
high altitude
/EQ-50902/
Evidence for increased intrathoracic fluid volume
in man at high altitude
/IN-54256/

HORMONES

The role of the neurohormone system of the hypothalamus in physiology and pathology --- Russian book

Acid-base homeostasis in the human system

HORMONE METABOLISM

Comparison of hormone and electrolyte circadian rhythms in male and female humans

Energy aspects of adaptation --- Russian book

Insulin-like effect of bovine growth hormone in vivo as demonstrated by oxidation of C/14-U-glucose in diabetic rats

HORMONES

In vivo response of ornithine decarboxylase activity to growth hormone as demonstrated by oxidation of L-ornithine-1-14C in hypophysectomized rats

The role of the neurohormone system of the hypothalamus in physiology and pathology --- Russian book

The effect of Yalpha-ethylenlestradiol on the radiation sensitivity of mice

HORMONES

Effect of water and electrolyte replacement during exercise in the heat on biochemical indices of stress and performance

Fighter index of thermal stress: Development of interis guide for hot-weather USAF operations

HOT WEATHER

Scoring analysis of a VTOL hover task with predictor displays using an optimal control model of the human operator

Changes in the rotary wing aviator's ability to perform an uncommon low altitude rearward hover maneuver as a function of extended flight requirements and aviator fatigue

HOT WEATHER

An evaluation of perceptual--motor workload during a helicopter hover maneuver

An evaluation of the effects of a stability augmentation system upon aviator performance/workload during a MIDSAC high hover operation

HOT WEATHER

Effect of 1alpha-ethynylestradiol on the role of the neurohormone system of the body of a homeothermic organism in case of sudden changes of quantity and local distribution of internal heat production

Similarity in the number of lifespan heartbeats among non-hibernating homeothermic animals

HORMONOPHIS

Hormone and electrolyte circadian rhythms in male and female humans

Effect of water and electrolyte replacement during exercise in the heat on biochemical indices of stress and performance

Human health damages from mobile source air pollution: Additional Delphi data analysis, volume 2

Human responses to fire: Three designs for research

A formal model of the adaptive and discrete control behaviors of human operators

Translations on USSR science and technology: Biological and behavioral sciences, no. 47

Translants on USSR science and technology: Biological and behavioral sciences, no. 54

Modeling the human as a controller in a multitask environment

Prospects of a mathematical theory of human behavior in complex man-machine systems tasks --- time sharing computer analogy of automobile driving

Petri nets as a modeling tool for discrete concurrent tasks of the human operator --- describing sequential and parallel demands on human operators

Use of reward-penalty structures in human experimentation

A decision model applied to alcohol effects on driver signal light behavior

Translations on USSR science and technology: Biological and behavioral sciences, no. 57

Masculinity, femininity, androgyny. What really works at work

Translants on USSR science and technology: Biological and behavioral sciences, no. 40

A two level model of human steering behavior in a motor vehicle

Personality profiles of divers involved in research activities

Methodological and operational aspects of programmed environment research

Car driving as a cybernetic task

Acid-base curve nomogram for chimpanzee blood and comparison with human blood characteristics

Central and reflex mechanisms of controlling movements --- Russian book

Metabolic adrenergic changes during submaximal exercise and in the recovery period in man

Influence of skin temperature on sweating and acid-base homeostasis in the human system

Human health damages from mobile source air pollution: Additional Delphi data analysis, volume 2
Human factors design criteria for transilluminated displays
Seating, console and workplace design - Seated operator reach profiles
Seating, console, and workplace design - Integration of literature and accommodation model
The application of computer aided evaluative techniques to system test and evaluation --- of fighter aircraft pilot performance
Imagery interpreter performance in the comparison of subjective estimates of photographic image quality
Discrimination of density and clustering on four versions of a stochastic display --- human performance of pattern recognition
Tracking in two dimensions as a function of dimension priorities and tracking difficulty
A prediction model of arm push strength in the transverse plane
Computer simulation of thermoregulatory responses to heat stress - A future work design and training tool
Four years of color research for visual displays --- human performance consideration for use in aircraft
Response surface methodology as a manipulator of complex task difficulty --- for computer generated aircraft area navigation control-display systems evaluation
Task functional demands as factors in dual-task performance
NASA flight management research
Arrangement of aircraft flight indicators with the help of optimal theoretical models for man as the controller
Anthropology in Spacelab - Control and display systems in Spacelab
STAP life support equipment costs
Heat transfer principles in personal protection applications
Oxygen systems for Army helicopters
Human factors considerations in establishing aircraft collision avoidance system alert thresholds
Adaptive supervisory control of remote manipulation
Subjective data in human reliability estimates
Computer-graphic design for human performance
Man-machine reliability - A practical engineering tool
The man-computer division of tasks in the case of the control of complex technical systems --- applied to aircraft
Ergonomic problems regarding the interactive touch input via screens in onboard and ground-based flight control
Quantifying operator preference during human factors test and evaluation --- in helicopter design
AWAYS, a research facility for defining flight trainer visual system requirements
Factors that affect display size criteria in a cockpit display system
Human factors considerations in the design and evaluation of a helmet mounted display using a light emitting diode matrix
Estimating percentiles of nonnormal anthropometric populations - Final report
Human engineering study of information processing applicable to helmet-mounted displays
Collision avoidance response stereotypes in pilots and nonpilots
Peripheral acuity and photointerpretation performance
Line criteria in target acquisition with television --- visibility of target image on TV screen
Evoked potential correlates of display image quality
Speed and load stress as determinants of performance in a time sharing task
Visual target acquisition and ocular scanning performance
A visual simulator with transformation of the perspective in the raster of television pictures --- German book on pilot training systems
Vigilance and electroencephalograms --- human performance in compensatory target tracking
A controller's eye view of color
Relations between research and instruction in physiology and aerospace ergonomy in the military health services
Interdisciplinary and international contributions to research on biological effects of electromagnetic waves - Past performances and future challenges
Digital man-machine control systems - The effects of preview lag
A theoretical model to estimate some ergonomic parameters from age, height and weight
Hyper-resolution in human perception of movement in visual displays
The human operator in the control system: Linear models --- German book
A comparison of kinesthetic-tactual and visual displays via a critical tracking task --- for aircraft control
The biomedical implications of engineering in space
Better definition of eye to aortic valve distance in high acceleration cockpit /HAC/ seating geometries
The objective evaluation of aircrew protective breathing equipment. III - Improved types of mask/goggles combinations. IV - Full face masks and hoods suitable for flight attendant use
Improved headgear for fixed wing Navy aircrewmen
Perception of continuity in uterostoscopic motion - A temporal frequency analysis
Dynamics of the eye and head during movement between displays - A qualitative and quantitative guide for designers
Pilot workload in the aircraft of the future
Thermal bounds to the time of stay of human beings in enclosures
Human capabilities
Optimisation of pilot capability and avionic system design

Human factors:
Speech communication

Development of aerospace-aviation equipment

Peach capability of men and women: A psychological experiment on components of the human organism

Evaluation of the amount of exposure to vibrations in office environments

Human factors analysis of visual distress towards a standard

The effects of pilot age, lighting, and head-down display on visual performance. Part 1: Laboratory studies

A critical annotated bibliography of the literature on human factors in computer systems

The inertial properties of the body and its segments

The effect of active areas on the legibility of dot matrix displays

Healthy bodies: Design to suit the operator

An optical study of human factors in computer systems

The effects of multiple factors on target acquisition --- by cockpit pilots

The relative effects of multiple factors on target acquisition --- by cockpit pilots

The relative effects of multiple factors on target acquisition --- by cockpit pilots

Characteristics of visual displays

Human factors evaluation of the AN/UYQ-21 display console

Establishing habitability factors for the design of office environments

Anthropometric source book. Volume 1: Anthropometry for designers

Anthropometric changes in weightlessness

The inertial properties of the body and its segments

Arm-leg reach and workspace layout

Effect of impermeable clothing and respirator on work performance. Part 1: Laboratory studies

A critically annotated bibliography of the literature on human factors in computer systems

The effect of active areas on the legibility of dot matrix displays

Development of recommendations to improve controls operability

Anthropometric aspects of low light level television and forward looking infrared sensor displays. 1: A feasibility study of scaled subjective complexity of still scenes applied to computer image generation

Psychological experiment on components of the meaning of work

Evaluation of the amount of exposure to vibrations transmitted to the whole body case of vibrations due to a loader mounted on caterpillar tractors, a fork-lift truck and a hydraulic excavator

Comparative experiments on performance and fatigue effects on pilots using tracking tests and physiological measurement parameters

Reach capability of men and women: A three-dimensional analysis

Development of aerospace-aviation equipment described

Human performance in concurrent verbal and tracking tasks: A review of the literature

Human factors: Speech communication

Optimisation of pilot capability and avionic system design

Optimisation of pilot capability and avionic system design, introduction

Human capabilities

The Helicopter

Some ergonomic aspects of adapting workrooms with visual display units to the human possibilities

Human factors evaluations of today's helicopters as an aid to future systems design

TADRAP: A computer-aided technique for reducing aircrrew task analysis data --- helicopter design considering human factors

The use of biostereometry in helicopter cockpit design --- using a simulator and analytic geometry

Human factor engineering test and evaluation of the US Navy LAMPS helicopter system

A system of training in aviation physiology and human factors for Army and Navy helicopter aircrrew

Visual requirements for the helicopter pilot

Providing an eye separator on a color cathode tube --- enhancing visual acuity

Simulated EVA operation of a remote connector assembly test report

A methodological for conducting human factors evaluations of vehicles in operational field tests

Development of a solid propellant inflation technique for the subcompact car passenger restraint system, phase 1

Human factors in Space vehicles and space stations

Human factors analysis of visual distress signaling devices --- used by boaters

A human engineering specification for legibility of alphanumeric symbology on video monitor displays

M5/1, a man - machine interface: A contribution towards a standard

The effects of pilot age, lighting, and head-down time on visual accommodation

A photoelectric and legibility assessment of Aerospace Optics, Incorporated Vivisun 20/20 computerized mode of presentation: Ergonomic analysis

Apparatus and method of inserting a microelectrode in body tissue or the like using vibration means

Refinement and validation of a mathematical model of the human torso

Operator performance and localized muscle fatigue in a simulated space vehicle control task

Development of information theory concepts and equations for human mental processing

Cold water survival suits for aircrew

Crew workload assessment, development of a measure of operator workload

Isometric strength testing in selecting workers for stressful jobs

Human processing of information and the computerized mode of presentation: Ergonomic parameters

Multipurpose digital switching and flight control workload

A decision, monitoring and control model of the human operator applied to an RPV control problem

Development of human performance models for man-machine system simulation
Injury mechanisms analysis in aircraft accidents

A head injury model

Contributions of psychophysiological techniques to aircraft design and other operational problems

Human Factors Aspects of Aircraft Accidents and Incidents

Three decades of USAF efforts to reduce human error accidents, 1947-1977

Human factors in production and prevention of aircraft accidents due to disorientation in flight

Human performance in time-shared verbal and tracking tasks

The use of artificial signals during S04AB-watch

Application of a structured decision process for proper inclusion of human resources in the design of a power unit support stand

Acoustic attitude orientation

A nonlinear mapping approach to discrimination of sleep stages from the human electroencephalogram

Effects of congener and noncongener alcoholic beverages on a clinical ataxia test battery

Laboratory performance during acute intoxication and hangover

Development of electrophysiological indices of neurological toxicity for organophosphate pesticides and depressant drugs

Models of human operators in vision dependent tasks

A survey of Applied Psychological Services' models of the human operator

Visual performance modeling in the human operator simulator

A brief overview of the theory and application of the optimal control model of the human operator

Development of an objective grading system along with procedures and aids for its effective implementation in flight

Workload and the certification of helicopters for IFR operation

A general model for the transfer of vapour through clothed skin from liquid on and in clothing

SPAN FACTORS LABORATORIES

Psychonomical laboratory studies pilots' stability for command --- psychophysiological characteristics

HUMAN PATHOLOGY

The use of aviation pathology and aviation medicine as proof of liability and damage

Morbidity experience of air traffic control personnel - 1967-77

Pneumothorax and flight personnel --- incidence, etiology and treatment

Automatic control of physiological functions of the human organism in pathology --- Russian book

Paroxysmal disorders of consciousness due to flight factors

Diagnoses of initial deficiency in cerebral circulation

Characteristics of serious carbon monoxide poisoning

Predicting coronary artery disease with treadmill stress testing Changes in R-wave amplitude

SUBJECT INDEX

compared with ST segment depression

Pathophysiology of overloads: Bibliography of Soviet publications --- Russian book

Coronary calcification in the diagnosis of coronary artery disease

The role of the neurohormone system of the hypothalamus in physiology and pathology --- Russian book

Magneto-cardiography - An overview

Assessment of human exposures to atmospheric benzene

Study report on combining diagnostic and therapeutic considerations with subsystem and whole-body simulation

Results of a 64Ca-loading test applied to patients with an inherited defect in their Cu-metabolism (Menkes' disease)

The oral 64Ca-loading test: Applications and problems

ESR studies on different pathological states

HUMAN PERFORMANCE

AVIATION PERFORMANCE

PILOT PERFORMANCE

Mental work and emotions --- Russian book

Models for automated motor skills training --- computer controlled adaptive instruction

Perceptual delay - A consequence of metacognitive and apparent motion

Task taxonomy - Two ignored issues --- criteria for task evaluation with respect to empirical data

Coordinated crew performance in commercial aircraft operations

Vibration, performance, and personality --- vibration effects on human performance and psychological factors

Effects of target motion and image on AAA tracking --- Antiaircraft Artillery

Subjective data in human reliability assessment

System operability - Concept and measurement in test and evaluation --- man system compatibility indices in F-18 aircraft example

Application of performance model to assess aviator critical incidence

Secondary visual workload capability with primary visual and haptic-tactual displays

Team performance - A model for research

Collision avoidance response stereotypes in pilots and nonpilots

Peripheral acuity and photointerpretation performance

Predicted potential correlates of display image quality

Structure of biorythms as one of the criteria for physiological adaptability of the human organism

Vigilance and electroencephalograms --- human performance in compensatory target tracking

Correlation of choice reaction time performance with biorythmic criticality and cycle phase

HYPEROXIA

Effect of combination of hyperoxia and hypocapnia on survival of Japanese quail - A review

[AFPA PAPER 76-51] p0063 879-32830

Influence of pressure chamber conditions on adenocortical function in man (according to results of assaying blood plasma
11-hydroxycorticosteroids)

p0311 A79-33798

HYPEROPIA

Visual acuity of the aging hyperopic eye in the intermediate range

p0037 A79-13198

HYPEROXIA

The comparative study of metabolism changes in animals during hypoxia and hyperoxia in mice lungs

[AFAP PAPER 78-51] p0063 879-32830

Transient changes in arterial blood gases and heart rate during and after acutely induced hyperoxia and hypercapnia to rabbits

p0134 A79-27120

Mechanisms of the effect of oxygen toxicity on the energy metabolism

p0160 A79-29275

Glucose metabolism in rat lung during exposure to hyperoxic O2

p0221 A79-36047

Circulatory response to arterial hyperoxia

p0221 A79-36048

The effect of hyperoxia on the oxygen tension of blood and cerebral tissue

p0208 A79-38146

Determination of cerebral and neck subcutaneous tissue [3 and 4 +Gz in m. mulata]

p023p A79-43205

Adaptation to chronic hyperoxia in the rat - A study of pulmonary surfactant, tissue levels of superoxide dismutase and histology

p0256 A79-46603

The effect of normobaric hyperoxia on brain and liver tissue respiration in albino rats with different resistances to hyperoxia

p0256 A79-46603

Effect of oxygen poisoning on the spectrum of lactate dehydrogenase isozymes of rabbit blood plasma

p0256 A79-51113

Metabolic responses of ponies to treadmill exercise in hyperoxia

p0069 A79-12681

Combined effect of hyperoxia, low pressure and exercise on the rate of methylketone excretion from the human body

p0073 A79-14725

The combined effect of carbon monoxide and normobaric hyperoxia on animals

p0073 A79-14730

The effect of hyperoxia on cerebral blood flow in the unanesthetized pony

p0107 A79-16511

Mechanisms of oxygen toxicity at the cellular level

p0107 A79-16511

Hyperbaric oxygenation. A bibliography with abstracts

[NTIS/PS-79-0744/7] p0317 A79-33837

HYPERTENSION

Effect of combination of hyperoxia and hypocapnia on survival of Japanese quail

p0277 A79-50904

Influence of pressure chamber conditions on adenocortical function in man (according to results of assaying blood plasma
11-hydroxycorticosteroids)

p0194 A79-23641

HYPOGONADISM

Effect of hyperoxia on cerebral blood flow in the unanesthetized pony

p0107 A79-16511

Hyperbaric oxygenation. A bibliography with abstracts

[NTIS/PS-79-0744/7] p0317 A79-33837

HYPERTENSION

Distinguishing borderline hypertensives from normotensives: A clinical study of 300 aircrewmen

p0027 A79-11699

Noninvasive assessment of pulmonary hypertension using bubble ultrasonic ranging (BUPR) method, part 2

[79-283935/5] p0517 A79-12699

Noninvasive assessment of pulmonary hypertension

[79-289521/0] p0577 A79-13701

HYPERTHERMIA

Fights index of thermal stress (FITS) - guidance for hot-weather aircraft operations

p0202 A79-37715

Separation of the effects of raised skin and core temperature on performance of a pursuit rotor task

p023w A79-83294

Intestinal transport of hexoses in the rat following chronic heat exposure

p0236 A79-83701

HYPEROXIA

The effect of hyperoxia on cerebral blood flow in the unanesthetized pony

p0107 A79-16511

Hyperbaric oxygenation. A bibliography with abstracts

[NTIS/PS-79-0744/7] p0317 A79-33837

HYPERTENSION

Distinguishing borderline hypertensives from normotensives: A clinical study of 300 aircrewmen

p0027 A79-11699

Noninvasive assessment of pulmonary hypertension using bubble ultrasonic ranging (BUPR) method, part 2

[79-283935/5] p0517 A79-12699

Noninvasive assessment of pulmonary hypertension

[79-289521/0] p0577 A79-13701
Tissular blood clotting factors of vascular walls and myocardium during hypoxia

Effect of brief head-down hypokinesia on pressure in various parts of the healthy man’s cardiovascular system

Effects on lipid metabolism in man of some factors that simulate space flight conditions

Effect of restricted activity on vestibular function

Effect of hydrostatic factor on orthostatic stability and physical fitness of man during 60-day antiorthostatic hypokinesia

Vertical orientation of man during 5-day antorthostatic hypokinesia (-4, -8 and -12 deg head-down position)

Blood coagulation and tissular factors of blood clotting in heparinized rabbits submitted to hypokinesia

HYPOTHALAMUS

Interaction between hypothalamic and bulbar levels of regulating blood circulation

Effect of the blockade of hypothalamic adenoregic structures on thermoregulatory reactions

Dynamics of the impulse activity of the neurons in the posterior hypothalamus upon exposure to microwaves

Characteristics of EEG changes in rabbits in response to local cooling or heating of the central thermosensory area

The role of the neurohormone system of the hypothalamus in physiology and pathology — Russian book

Sympathoexcitatory uptake of hypothalamic monoamines and recovery of pituitary-adrenal activity following medial forebrain bundle lesions in rats

Effect of cerebrocranial trauma on reactive distinctions of hypothalamic and hippocampal vessels in the presence of hypoxia

Catecholamines and enzymes of metabolism thereof in the rat hypothalamus after flight aboard Cosmos-782 biomassellite

HYPOTHERMIA

Systolic time intervals during combined hand cooling and head-up tilt

Regional heat loss in resting man during immersion in 25.2°C water

An improved method for inducing hypothermia and rewarming

Temperature uniformity in hyperthermal tumor therapy

The effect of moderate hypothermia on the circulatory and myocardial consequences of acute coronary ligation in dogs

Cosa recovery

HYPOTHESES

False hypothesis and the pilot — aircraft accidents due to decision making errors

HYPOTHERMIA

Developmental and hematological responses to low level exposure of carbon monoxide in mice

Effects of chronic changes in hemoglobin-02 affinity in rats

The bloodflow in skeletal muscle capillaries in normoxia and arterial hypoxia /Microcinematographic studies/
Effect of hypoxia on mechanical properties of hyperthyroid cat papillary muscle p0296 A79-51111

Lung oxygen diffusibility and permeability in dogs of various ages under normal conditions and in cases of acute hypoxic hypoxia p0296 A79-51114

The effect of microwave fields on muscle oxygen pressure and temperature in animals previously adapted to hypoxia p0296 A79-51116

The interaction of carbon monoxide and altitude on aviator performance: Pathophysiology of exposure to carbon monoxide (AD-A055212) p0056 A79-13668

Dynamics of impairment of pilot performance in the presence of hypoxia p0073 A79-14724

Blood lipid changes in hypoxic rats p0074 A79-14731

Effect of intermittent hypoxia on functional activity of peripheral blood neutrophils p0074 A79-14732

Effect of cerebrocranial trauma on reactive disturbances of hypothalamic and hippocampal vessels in the presence of hypoxia p0074 A79-14733

Assessment of factors possibly contributing to the susceptibility of sickle trait erythrocytes to mild hypoxia. Volume 1: Design considerations and research protocol (AD-A059412) p0084 A79-15577

A study of cerebral blood flow in the goat. A. Correlations between the ventilatory and cerebrovascular responses to carbon monoxide inhalation. B. The dynamics of the cerebral blood flow response to hypoxia by frequency response analysis p0107 A79-16510

The effects of brain ischemia on the control of breathing in unanesthetized goats p0190 A79-23624

Effect of combination of hypoxia and hypercapnia on survival of Japanese quail p0194 A79-23641

The pulmonary circulation: Studies on alveolar hypoxia and vascular smooth muscle metabolism p0195 A79-23650

Effect of acute hypoxia on some parameters of renal excretory function and renal hemodynamics p0245 A79-27828

Altitude hypoxia, volume 1. A bibliography with abstracts [WTIS/95-99/007/7] p0280 A79-30927

Altitude hypoxia, volume 2. A bibliography with abstracts [WTIS/95-99/008/7] p0280 A79-30928

Effects of propranolol on Time of Useful Function (TOF) in rats --- tolerance to rapid decompression [AD-A068535/0] p0283 A79-31896

Oxygen delivery in the hypoxic perfused heart: Relation to functional and metabolic changes p0307 A79-32825

Influence of pressure chamber conditions on adrenocortical function in man (according to results of assaying blood plasma [11-hydroxycorticosteroids] p0311 A79-33798

IDENTIFYING A review of individual performance in air-to-ground target detection and identification studies [AD-A061580] p0124 A79-17551

Microbial load monitor [NASA-CP-160274] p0243 A79-27815

IIR (RULES) [AD-A055212] p0056 A79-13668

ILLUMINATING Operational consideration of IIR/PS-5 night vision goggles for helicopter night flight p0152 A79-19649

ILLUSIONS NT OCULOGRAVIC ILLUSIONS NT OPTICAL ILLUSION Changes in apparent body orientation and sensory localization induced by vibration of postural muscles - Vibratory aesthesic illusions p0163 A79-30653

Sensory illusions of vestibular origin p0255 A79-86596

The physiologist's view of sensory illusions p0255 A79-86597

TLS (LANDING SYSTEMS) NT INSTRUMENT LANDING SYSTEMS

IMAGE CONTRAST Perceptual delay - A consequence of metacaloric and apparent motion p0035 A79-13183

Contrast enhancement using local area brightness and gain control --- of airborne CRT display p0037 A79-13199

Visual acuity with regard to simultaneous colored contrast on a television screen - Results p0103 A79-23952

Contrast effects on smooth-pursuit eye movement velocity p0104 A79-24068

Visual contrast sensitivity functions obtained with colored and achromatic gratings p0181 A79-32626

Effects of stimulus onset and image motion on contrast sensitivity p0231 A79-42231

Contrast sensation - A linear function of stimulus contrast p0271 A79-69483

IMAGE ENHANCEMENT Digital enhancement of computed tomographic images p0004 A79-11544

Contrast enhancement using local area brightness and gain control --- of airborne CRT display p0037 A79-13199

Digital image anomalies - Static and dynamic --- rastering and aliasing effects and elimination p0157 A79-28158

Autoradiographic enhancement of mammograms p0227 A79-40773

IMAGE FILTERS Compensation for transport delays produced by computer image generation systems [AD-A055270] p0019 A79-10738

Investigation of nonlinear motion simulator washout schemes p0091 A79-15624

IMAGE MOTION COMPENSATION Subjective motion discrimination is the simulator for air-to-air combat [AD-A059762] p0079 A79-14770

IMAGE PROCESSING The robot's eyes - Stereo vision system for automated scene analysis p0004 A79-12006

Image interpreter performance in the discrimination of subjective estimates of photographic image quality p0036 A79-13191

Digital color image compression in a perceptual space p0136 A79-28013

Robotic vision --- process control applications p0187 A79-34984

Computer quantitation of coronary angiograms p0293 A79-51030

Visual motion perception by intelligent systems p0300 A79-52691

Psychological aspects of the human-operator's activity while tracking [BAR-LEH-TRANS-1979] p0079 A79-14768

General methods to enable robots with vision to acquire, orient, and transport workpieces [F9-287199/4] p0113 A79-16556

Image processing program completion report [AD-A061509] p0123 A79-17549

Diagnosis of cutaneous thermal burn injuries by multispectral imaging analysis [NASA-CR-162103] p0279 A79-30922

IMAGE RESOLUTION High-speed computerized tomography p0004 A79-12030

Hyper-resolution in human perception of movement in visual displays p0132 A79-26240
**IMAGING**

- NT RETINAL IMAGES
- NT TOMOGRAPHY

**IMAGING TECHNIQUES**

- NT IMAGE ENHANCEMENT
- NT RADAR IMAGERY

**IMPACT DAMAGE**

- Region extraction using convergent evidence
  [AD-4067551] p0124 879-17552
- X-ray backscatter imaging
  p0167 879-21754
- An investigation of the pulse-scatter imaging technique for medical ultrasonic imaging and tissue characterization
  p0211 879-24628

**IMMERSION**

- Recovery of skeletal muscle after 3 mo of hindlimb immobilization in rats
  p0268 879-47856

**IMMUNITY**

- Effect of space flight on cell-mediated immunity
  p0006 879-11900
- Effect of 49-day space flight on parameters of immunological reactivity and protein composition of blood in the crew of Salют-5
  p0214 879-16641
- Suppression of the immune response by ultrasound
  p0162 879-18560
- Studies of microbial flora and immunity of Salют-3 crew
  p0192 879-23629
- Immunobiological reactivity of the body under hyperbaric and hypobaric conditions
  p0319 879-33790

**IMMUNOLOGY**

- Immunopathological aspects of man's adaptation to highland
  p0388 879-35123
- Isolation of virus-augmented tumor antigens
  p0142 879-18564
- Immunological effects of microwave action
  p0172 879-20736
- Immunological reactivity of rats flown aboard Cosmos-605 and Cosmos-690 biosatellites
  p0244 879-27824
- Obtaining growth hormone from calf blood

**IMPACT ACCELERATION**

- Some Bayesian inference procedures for use in developing an impact acceleration injury prediction model
  [AD-A067228] p0220 879-25741
- Tolerance of the neck to indirect impact
  [AD-4066971] 879-25749
- Models and Analogues for the Evaluation of Human Biodynamic Response, Performance and Protection
  --- conferences, human tolerance of acceleration, vibration, and shock
  [AGARD-CP-253] p0284 879-31901
- Prediction of whole-body response to impact forces in flight environments
  p0284 879-31902
- Multiaxis dynamic response of the human head and neck to impact acceleration
  p0284 879-31906
- Transient intraventricular conduction defects observed during experimental impact in human subjects
  p0285 879-31907
- Potential relationship between human central nervous system injury and impact forces based on primate studies
  p0286 879-31919
- The effect of impact acceleration on the electrical activity of the brain
  p0287 879-31921
- The response of a realistic computer model for sitting humans to different types of shocks
  p0288 879-31927
- Significance of the vibration component to the deleterious effect of impact accelerations
  p0313 879-33801
- Effect of impact accelerations on chemical resistance of rat erythrocytes
  p0313 879-33811

**IMPACT DAMAGE**

- Various modelling approaches in biomechanics --- analog simulation of impact events
  p0055 879-12407
IMPACT DECELERATION

Aircrew helmet protection against potential cerebral concussion in low-magnitude impacts p0201 N79-37705
A head injury model p0286 N79-31918
Correlation of head injury with mechanical forces based on helmet damage duplication p0287 N79-31920

IMPACT ACCELERATION

IMPACT TESTS
Whole body response research program [PB-2886151/6] p0093 N79-15640
Whole body response research program. Appendix C: Processed data [PB-2886154/0] p0094 N79-15643
Calibration of three year old child dummies [PB-288961/6] p0157 N79-19692
Evaluation of research on surrogates for humans in motor vehicle crashes [PB-291012/3] p0178 N79-21774
Impact tests on crash helmets for motorcyclists [AD-A0659663] p0286 N79-31918
Animal endurance to recurrent impact accelerations p0287 N79-27833

IMPACT TOLERANCES
A failure criterion for human, vertebral, cancellous bone p0285 N79-31912

IMPEDANCE

MT ELECTRICAL RESISTANCE
MT RESPIRATORY IMPEDANCE

IMPEDANCE MEASUREMENTS
Reliability of determining the cardiac output by the method of quadruple chest impedance plethysmography p0096 N79-21243

IMPLANTATION
Development of an electrical energy converter for circulatory disease [PB-286738/0] p0111 N79-16545

IMPLANTED ELECTRODES (BIOLOGY)
Telemetry of intracranial pressure p0227 N79-41800
An inductively powered telemetry system for temperature, EKG, and activity monitoring p0228 N79-41824
Electric field measurements within biological media p0883 N79-15562
AirCraft flight simulation of space Flight chambers using an implanted telemetry system to obtain cardiovascular data from the monkey p0147 N79-19022
Metal bioelectrode polarization: A frequency and time domain analysis p0176 N79-21755

IN-FLIGHT MONITORING
Instrumentation for controlling and monitoring environmental control and life support systems [ASME PAPER 78-VHAS-40] p0099 N79-12587
Aerobiology from a fighter aircraft p0200 N79-37131
The electrocardiogram recorded by telemetry during a parachute jump, compared to a trace during stress tests - A preliminary study of 29 cases p0256 N79-46600
In-flight measures of stress reduction due to wearing expandable foam earplugs p0273 N79-49986
Aircrew inflight physiological data acquisition system 2 [AD-A055638] p0285 N79-13690
Space biology and aerospace medicine, vol. 13, no. 6 [JPPRS-72487] p0287 N79-14716
Dinamic medical monitoring of flight crews in the course of long-term flights p0287 N79-14719
Investigation of composition of trace contaminants in the air environment of the Soyuz-22 spacecraft p0287 N79-14720

SUBJECT INDEX

Dynamics of impairment of pilot performance in the presence of hypoxia p0073 N79-14724
Principal results of experiment with animals onboard the Kosmos-702 biosatellite p0073 N79-14726
In-flight toxicology of fixed and rotary wing aircraft crew stations p0169 N79-19619
Evaluation of aircrew fatigue during operational helicopter flight mission p0169 N79-19622

INACTIVATION

U DEACTIVATION
INDEPENDENT VARIABLES
Alterations in erythrocyte survival parameters in rats after 19.5 days aboard Cosmos 782 p0201 N79-11663
Quantitative analysis of selected bone parameters p0222 N79-11668

INDIA
Analysis of climatic data and cockpit thermal conditions at a fighter base in North West India p0201 N79-37135

INDICATING INSTRUMENTS
MT APPROACH INDICATORS
MT HOT-FILM ANEMOMETERS
Arrangement of aircraft flight indicators with the help of optimal theoretical models for man as the controller [DCLP PAPER 78-149] p0042 N79-14994

INDOLES
MT TRYPTOPHAN

INDUCED FLOW
MT FLUID FLOW

INDUSTRIAL MANAGEMENT
MT PERSONNEL MANAGEMENT

INDUSTRIAL SAFETY
A literature review-problem definition studies on selected toxic chemicals. Volume 1: Occupational health and safety aspects of diesel fuel and white smoke generated from it [AD-A056018] p0025 N79-11686
Antiradiation suit and other special clothing at industrial safety exhibition p0114 N79-16793
Problems related to the assessment of safe exposure levels for radio frequency and microwave radiation [ISS-P-78/7] p0248 N79-27855

INDUSTRIES
Study of pharmaceutical industrial problems [NASA-CB-160267] p0248 N79-27852

INELASTIC BODIES

MT MYOCARDIAL INFARCTION

INFECTIOUS DISEASES
MT INFECTIOUS DISEASES

INFECTIOUS DISEASES
MT CONTACT DERMATITIS

INFERENCE

SOME BAYESIAN INFERENCE PROCEDURES FOR USE IN
INSENSITIVITY

INSTRUMENTATION

INSTRUCTION

INSTRUMENT APPROACH

The effects of prediction, quickening, frequency, separation, and percent of pursuit in perspective displays for low-visibility landing

An investigation of pictorial and symbolic aircraft displays for landing

INSTRUMENT FLIGHT RULES

Transfer of a computer-assisted instrument procedures trainer to flight

An analysis of helicopter pilot control behavior and workload during instrument flying tasks

Visual performance/workload of helicopter pilots during instrument flight

Workload and the certification of helicopters for IFF operation

INSTRUMENT LANDING SYSTEMS

NT ALL-WEATHER LANDING SYSTEMS

Airline pilot scan patterns during simulated ILS approaches

INSTRUMENTAL ANALYSIS

9 AUTOMATION

INSULATION

NT THERMAL INSULATION

Inulin-like effect of bovine growth hormone in vivo as demonstrated by oxidation of C/4-14C-glucose in diabetic rats

INTEGRAL TRANSFORMATIONS

NT FAST FOURIER TRANSFORMATIONS

INTEGRATED CIRCUITS

NT LARGE SCALE INTEGRATION

The use of hybrid integrated circuit techniques in biotelemetry applications

Very-large-scale integration - What it means for technical systems and humans

INTEGRATED OPTICS

The development of integrated multidimensional displays

INTEGRATION (REAL VARIABLES)

Intelligence

INTELLIGIBILITY

NT SPEECH RECOGNITION

INTERACTIVE GRAPHICS

NT COMPUTER GRAPHICS

INTERCEPTOR AIRCRAFT

NT FIGHTER AIRCRAFT

INTERCOSMOS SATELLITES

Galactic and extraterrestrial research within the framework of the scientific program 'Intercosmos'

INTERFACES

Modeling and analysis of man-machine interface information

INTERPROGAMS

NT INTERFACETRY

INTERFERENCE

The retinal resolving power measured by laser interference fringes

INTERMOLECULAR FORCES

An approach to the origin of self-replicating systems - I - Intermolecular interactions

INTERNATIONAL RELATIONS

NT INTERNATIONAL COOPERATION

INTERNATIONAL SPACECRAFT

NT VIKING LANDING SPACECRAFT

NT VIKING SPACECRAFT

INTERSATELLITE CHEMISTRY

Lifecloud: The origin of life in the universe

INTOXICATION

A literature review-problem definition studies on selected toxic chemicals. Volume 2:

Occupational health and safety aspects of phosphorus smoke compounds

The effects of alcohol on driver performance in a decision making situation

Effects of congener and noncongener alcoholic beverages on a clinical ataxia test battery

Laboratory performance during acute intoxication and hangover

INTRACRANIAL PRESSURE

Telemetry of intracranial pressure

INTRANASAL CONNECTION

Microfrequency and the structure of the double helix

INTRAOCULAR PRESSURE

The value of measuring oculomotor tests as a test for detecting glaucoma in flight personnel

Intracranial pressure reduction and regulation system

Mathematical modeling of arterial oxygen saturation and eye-level blood pressure during + G sub Z stress

INTRAVASULAR SYSTEM

Transient intraventricular conduction defects observed during experimental impact in human subjects

INVESTIGATIONS

NT CENTRIFUGING STRESS

INTERRIGHTS

NT ARTHROPODS

NT ARTHROPOD

NT DROSOPHILLA

NT INSECTS

NT PARASYNZIA

NT SPORUS

NT WORMS
Methods for measuring the acute toxicity of effluents to aquatic organisms

Investigation

Isothermal Investigation

Isolation

Iodine Imaging using spectral analysis --- radiography for visualization of small blood vessels

Ion Motion

Relationship between proton motive force and potassium ion transport in Halobacterium halobium envelope vesicles

Ion Gas Interactions

Light-Driven solute transport in Halobacterium halobium

Iodized Gases

Nuclear energy and medical radiation

Iodine Imaging

Nuclear energy and medical radiation

Ionic Absorption

Nuclear energy and medical radiation

Isotopes

Nuclear energy and medical radiation

Isotopic Labeling

Nuclear energy and medical radiation

Jacks (Electrical)

Radioactive connectors

Jaguar Aircraft

Cockpit thermal stress and aircrew thermal strain during routine Jaguar operations

Jarring

Mechanical shock

Jeeps

Metal Ions

Nuclear energy and medical radiation

Metal Ions

Nuclear energy and medical radiation

Metal Labeled Oils

Nuclear energy and medical radiation

Metal Non-Ionic Compounds

Nuclear energy and medical radiation

Metal Positive Ions

Nuclear energy and medical radiation

Mechanism of effects of microwaves on erythrocyte permeability for potassium and sodium ions

Changes in calcium ion activity due to magnetization of solution as the possible mechanism of biological action of magnetic fields

IP (Impact Prediction)

Computerized Simulation

Iron

Studies on the erythron and the ferrokinetic responses in beagles adapted to hypergravity

NT C-135 Aircraft

NT C-141 Aircraft

NT F-4 Aircraft

NT F-15 Aircraft

NT F-16 Aircraft

Investigation of the activity of some enzymatic systems in response to a super-high frequency electromagnetic field

The effect of 17alpha-ethynylestradiol on the radiation sensitivity of mice

Cell response to chronic irradiation-modeling and simulation studies

Biological effects of laser irradiation on nerve cells

Irritation

Toxicity and Safety Hazard

Official method for determining ocular irritation

Ischemia

Regional coronary blood flow at rest and during high sustained $g_2$ in a miniature swine with subclinical, ischemic, coronary heart disease due to coronary stenosis

The evolutionary pattern of exercise-induced ST segment depression

Comparative study of hypoxia and other non-invasive stress tests for evaluation of ischemic heart disease

Temporal relation between onset of cell anoxia and ischemic contractile failure

A prospective medicine approach to the problem of ischemic vascular disease in the USA?

Molecular determinants for the prediction and survival of ischemic anoxic stress pathology

Ising Model

Mathematical Models

Isolation

Microflora analysis of a child with severe combined immune deficiency

Isolation of virus-augmented tumor antigens

Isopropyl Compounds

Effects of propranolol on Time of Useful Function (TOF) in rats --- tolerance to rapid decompression

Isotopes

ST Sodium 22

ST Tritium

Isotopic Labeling

Kinetic measurements of bone mineral metabolism: The use of Na-22 as a tracer for long-term bone mineral turnover studies

Study report on a double isotope method of calcium absorption

Jacks (Electrical)

Radioactive Connectors

Jaguar Aircraft

Cockpit thermal stress and aircrew thermal strain during routine Jaguar operations

Jarring

Mechanical Shock

Jeeps

Metal Ions

Nuclear energy and medical radiation

Metal Ions

Nuclear energy and medical radiation
LINE SHAPE

The relationship between the apparent vertical and the vertical horopter -- visual perception of luminous line

The tilt illusion - length and luminance changes of induction line and third /disinhibiting/ line

LINEAR EQUATIONS

The human operator in the control system: Linear models -- German book

LINEAR PREDICTION

Linear modelling of attentional resource allocation

Modelling the human operator of slowly responding systems using linear models

LINEAR SYSTEMS

Detection of coloured stimuli by independent linear systems

LINEARITY

Estimation of nerve-bundle conduction

LINEARIZATION

Linearization and sensitivity analysis of model for human eye movements

LITERATURE

NT BIOGRAPHY

NT DOCUMENTATION

LITHIUM COMPOUNDS

NT BIOGRAPHY

LITHIUM HYDROXIDES

LIVER

The effect of normobaric hypoxia on brain and liver tissue respiration in albino rats with different resistances to hypoxia

Radiation lesion to liver DNA of rats exposed to radiation during flight aboard the Kosmos-690 biosatellite

Histological and histochemical studies of the liver of rats flown aboard Kosmos-690 biosatellite

COSMOS 936, experiment K204: The effects of space flight on some liver enzymes concerned with carbohydrate and lipid metabolism in the rat

Diffraction-based characterization of biological tissue with ultrasound -- acoustic scattering from liver tissue

State of process of oxidation phosphorylation of liver mitochondria on exposure to an electric field

Effect of different doses of centimeter-band electromagnetic oscillations of biochemiluminescence of central nervous system and liver tissues

The dependence of the CO2 removal efficiency of liver mitochondria on exposure to an electric field

Cu-content of the liver of young mice in relation to a defect in the Cu-transporter

LOAD DISTRIBUTION (FORCES)

Influences of joint spring resistance on the execution of simple and complex positioning movements

LOAD FACTORS

U LOADS (FORCES)

LOADING FORCES

U LOADS (FORCES)

LOADING OPERATIONS

Microbial load monitor (NASA-CR-160274)

LOADING WAVES

U LOADS (FORCES)

LOADS (FORCES)

NT AXIAL COMPRESSION LOADS

NT DYNAMIC LOADS

A study of the effect of forcing function characteristics on human operator dynamics in manual control

LOBES

Distribution of regional volumes and ventilation in excised canine lobes

LOCKHEED AIRCRAFT

NT AXIAL COMPRESSION LOADS

NT DYNAMIC LOADS

A study of the effect of forcing function characteristics on human operator dynamics in manual control

LOBES

Distribution of regional volumes and ventilation in excised canine lobes

LOCKHEED AIRCRAFT
SUBJECT INDEX

LOCOMOTION
MT ASTRONAUT LOCOMOTION
MT WALKING
Adaptive locomotion of a multilegged robot over rough terrain
p0163 A79-30217
Process of search control of coordinated movement in man
p0166 A79-30701
Selecting the program of motions for a biped walking machine
p0166 A79-31990
LOGIC DESIGN
Control logic design criteria for multifunction switching devices --- in aircraft
p0064 A79-18223
LONG DURATION EXPOSURE FACILITY
The Biostack experiment in the U.S. long exposure duration test program
p0227 A79-41230
LONG TERM EFFECTS
Medical control in prolonged space flights
p0053 A79-11226
Challenges to life support system's future
[ARMS PAPER 78-ENAS-28] p0008 A75-12577
Serotoninergic solution to the problem of culturing Arabidopsis plants in sealed costainers for spaceflights of long duration
p0229 A79-41704
Changes in blood sugar content of dogs exposed to chronic gamma radiation for six years
p0014 A79-10706
Effects of long-term and chronic radiation on hemopoiesis
p0016 A79-10719
Dynamic medical monitoring of flight crews in the course of long-termd flights
p0072 A79-14719
State of blood clotting during prolonged hypokinesia
p0073 A79-14729
Space biology and aerospace medicine, volume 13, no. 1, 1979
[JBPS-72826] p0107 A79-15414
Morphological study of adrenals of rats reared during flight aboard Kosmos-699 satellite
p0108 A79-16517
The facilitating effects of uncertainty in long-term manual control
p0115 A79-17485
Problems of human adaption to spaceflight
p0157 A79-19985
Distinctions referable to excretion of end products of protein metabolism in urine of men subjected to 182-day antithorostatic hypokinesia
p0193 A79-23635
Effect of combination of hypoxia and hypercapnia on survival of Japanese quail
p0194 A79-23641
Effects of different values of urine pH during long-term storage on microflora composition
p0194 A79-23643
Morphological distinctions of the rat thyroid and parathyroid following long-term space flights
p0246 A79-27835
LOOP ANTENNAS
Electromagnetic power absorption in cylindrical tissue models excited by a loop antenna
p0136 A79-27959
LOUDNESS
Overall loudness of steady sounds according to theory and experiment
The loudness of tinnitus
p0246 A79-27837
LOW ALTITUDE
The effects of ambient illumination, aircraft velocity and feedback on absolute distance judgment during simulated night flight
p0038 A79-13204
Responses of high altitude natives to a standard cold test at sea level
p0164 A79-30658
The effect of Nap-of-the-Earth (NOE) helicopter flying on pilot blood and urine biochemicals
[AD-A055204] p0055 A79-13693
LOW FREQUENCIES
The influence of low frequency vibration on pilot performance /as measured in a fixed base simulator/
LUNG MORPHOLOGY
Frequency response of cardiovascular regulation in canines to sinusoidal acceleration at frequencies below 1 Hz (basis for biodynamic modeling)
Low Gravity
Low Reduced Gravity
Low Pressure
Combined effect of hyperoxia, low pressure and exercise on the rate of methylketone excretion from the human body
p0073 A79-14725
Low Temperature
Effects of low temperature on in vivo and in vitro protein synthesis in Escherichia coli and Pseudomonas fluorescens
p0131 A79-26141
Low Temperature Environments
The effects of temperature, salinity, and other factors on the growth and formation of UV-absorbing substances by the fungus Aspergillus
p0005 A79-12512
Skin temperature changes in paradoxical sleep in man in the cold
p0201 A79-37706
Low Visibility
The effects of prediction, quickening, frequency separation, and percent of pursuit in perspective displays for low-visibility landing
p0063 A79-18210
LOWER ATMOSPHERE
MT ROSOPHICE
LOWER BODY NEGATIVE PRESSURE (LBNP)
C ACCELERATION STRESSES (PHYSIOLOGY)
LSI
C LARGE SCALE INTEGRATION
LUNAR REGION
The effect of thermal stimulation of the skin on activity of lateral crescent interneurons of lumbar segments
p0206 A79-38147
LUMBERING AREAS
C FORESTS
LUNARITY
The tilt illusion - length and luminosity changes of induction line and third/diinhibiting/ line
p0228 A79-41422
On the latency of human visually evoked response to sinusoidal gratings
p0232 A79-42236
Enhancement of luminance flicker by color-opponent mechanisms
p0252 A79-44582
Spatial summation in human vision - Simple reaction time measurements
p0265 A79-47115
Upper-velocity threshold for detection of movement
Contrast sensitivity of the human visual system at one luminance level while adapted to a stimulus at another luminance level
[AD-A064370] p0190 A79-22759
LUMINESCENCE
MT CREATION;LUMINESCENCE
MT FLUORESCENCE
LUMINESCENT INTENSITY
C LUMINOUS INTENSITY
LUMINOUS FLUX DENSITY
C LUMINOUS INTENSITY
LUMINOUS INTENSITY
C LUMINOUS INTENSITY
LUNARITY
Human factors design criteria for transfused displays
p036 A79-13187
LUMBAR SPINE
The origin of life on earth - Recent studies
p0134 A79-27335
LUNAR SOIL
Growth of pulmonary circulation in normal pig - Structural analysis and cardiopulmonary functions
p0067 A79-18961
Changes in lung volume, lung density, and distribution of ventilation during hypobaric decompression
p0185 A79-33806
LUNGS

Radiographic comparison of human lung shape during normal gravity and weightlessness

LUNGS

The comparative study of metabolism changes in lungs during hypoxia and hyperoxia in mice

LYMPH

Monitoring the state of the human airways by analysis of respiratory sound

LYMPHOCYTES

Improved measurements of shear modulus and pleural membrane tension of the lung

Distribution of regional volumes and ventilation in excised canine lobes

A revised model of gas transport in human lungs

Pulmonary functional tolerance to ionizing radiation - An experimental study

Adaptation to chronic hyperoxia in the rat - A study of pulmonary surfactant, tissue levels of superoxide dismutases and histology

Absence of effects of hyperoxia on small airway function in humans

Cardiopulmonary readjustments in passive tilt

Lung inflation and longitudinal distribution of pulmonary vascular resistance during hyperoxia

The lung as a filter for microbubbles

Lung oxygen diffusibility and permeability in dogs

The physiological role of surface-active substances in the lung

The role of lesser circulation hemodynamic changes in pulmonary gas exchange

Evidence for increased intrathoracic fluid volumes in man at high altitude

Lung mechanics: Dynamic response, acoustic generation, and flow limitation

Long term pulmonary function patterns in the aviator: The thousand Aviator study

Mechanics of mammalian lung

Respiration

LYMPH

ST LYMPHOCYTES

The lymph nodes and lymph vessels of the white rat

Ultrastructure of lymph nodes of dogs exposed to long-term external gamma radiation

LYMPHOCYTES

Experiments K-002: Results of histological examination of inguinal lymph nodes, supplementary report --- COSMOS 782 satellite

A theoretical study of membrane diffusion and lymphocyte patching

LYMPHOCYTE COLLOIDS

M

LEARNING MACHINES

MACHINE LEARNING

MACHINE ORIENTED LANGUAGES

Ability to describe a class of man-machine dialogue systems based on a natural language

MACHINE RECOGNITION

MACHINE ORIENTED LANGUAGES

MACHINES PREPARATION OF GUINEA PIG MACROPHAGE FOR

SUBJECT INDEX

electrophoretic experiments in space

MACULAR VISION

MAGNIFICATION

MAGNIFICATION

Effects of magnesium, calcium, and secoisolaricercus on reversion of stable L-forms --- of soil bacterium

MAGNIFICATION

MAGNETIC COMPOUNDS

MAGNETIC ABSORPTION

MAGNETIC ABSORPTION

0 ELECTROMAGNETIC ABSORPTION

MAGNETIC ABSORPTION

The use of synchronous demodulation for the measurement of eye movements by means of an ocular magnetic search coil

MAGNETIC EFFECTS

Bioelectromagnetism and artificial magnetic stimulation of living structures

MAGNETIC EFFECTS

The theory of the magnetocardiogram

Quantitative review of human susceptibility to magnetic fields

Effects of interstitial magnetic fields on activity of carbohydrate metabolism enzymes and oxygen uptake in testicular tissue

Biological effects of a magnetic field

Magnetic field effect on radial processes in biological membranes

Effect of infra-low-frequency magnetic fields on cell division

Changes in calcium ion activity due to magnetization of solution as the possible mechanism of biological action of magnetic fields

MAGNETIC INDUCTION

Effects of electromagnetic field induction on development of the green algae, scenedesmus quadricauda (Turpin) Breb. and composition of free amino acids in its biomass and medium

**Subject Index**

- A complex system for planning scientific medical research
- Problem-oriented program approach to planning and management of medicine
- The conception of the systems analytic approach to planning and organization of medical scientific research
- Current status and prospects of continued refinement of planning and coordination of scientific medical research
- Use of the systems analytic approach for organization and coordination of complex biomedical research

**MANEUVERABILITY**

- The application of integral performance criteria to the analysis of discrete maneuvers in a driving simulator [NASA-CR-2394]
- Car driving as a cybernetic task [IITF-1979-G]

**MANIPULATORS**

- Adaptive control of a robotic manipulator
- Control of robot manipulators from the modeling of their dynamics
- Object-handling system for manual industry
- Control systems for robots and manipulators
- A comparison of control modes for time-delayed remote manipulation
- Advanced teleoperators — remote manipulation systems
- Computer aided control of a mechanical arm
- Goal-directed mechanics of controlled manipulators
- Event-driven displays for manipulator control
- Mannequins simulations of the SIMS in SIMFAC
- The prototype type joint assembly TACRA (Triple Axis Common Pivot Arm Wrist), phase 2
- Simple models for the shuttle remote manipulator system
- Advanced industrial robot control systems
- Multi-axis hand controller for the shuttle remote manipulator system
- The development of a six degree-of-constraint robot performance evaluation test
- Two measures of performance in a peg-in-hole manipulation task with force feedback
- Terminal guidance sensor system
- Compact artificial hand
- Proximity-vision system for proflight manipulator arms
- Study of modeling and evaluation of remote manipulation tasks with force feedback

**MANAGEMENT**

- Translations on USSR science and technology: Biomedical and behavioral sciences, no. 52 -- with emphasis on research management [JPRS-72604]
MANNED ORBITAL LABORATORIES

MANNED ORBITAL LABORATORIES
The Medusa experiment: An orbital complex ten weeks in flight [NASA-TM-75394]

MANNED ORBITAL SPACE STATIONS
M ANNED SPACE FLIGHT
Medical control in prolonged space flights [TAP PAPERS 78-63]
Space medicine - A prognosis for future research [TAP PAPERS 78-ST-17]
Space biology and medicine [NASA-CP-2060]
Prospects of using Japanese guineal in biological life support systems
Specialized physiological studies in support of manned space flight [NASA-CH-151876]
Problems of human adaption to spaceflight
Space biology and aerospace medicine [JMB-73177]
Use of a mathematical model of erythropoiesis for evaluation of effects of space flight factors

MANNED SPACECRAFT
MT MANNED ORBITAL LABORATORIES
MT ORBITAL WORKSHOPS
MT SALUT-6 SPACE STATION
MT SKYLAB 3
MT SOYUSS SPACECRAFT
MT SPACE SHUTTLES
MT SPACE STATIONS
Life sciences experiments in the first Spacelab mission
Engineering-psychological study of information imaging systems --- manual control of spacecraft docking
Use of light and color in a manned spacecraft

MANOMETERS
Analyses for noninvasive monitoring of arterial blood pressure by /I/ phonocardiography, for discrete measurements and /I/ arterial ultrasonic imaging, for continuous measurements

MANPOWER
MT SCIENTISTS
Teleson strength testing in selecting workers for strenuous jobs

MANUAL CONTROL
Depth perception and manual control
Multifunction keyboard configurations for single-seat, air-to-ground fighter cockpits
Task functional demands as factors in dual-task performance
Arrangement of aircraft flight indicators with the help of optimal theoretical models for man as the controller
Application of control theory to the investigation of roll motion effects on pilot control behavior

Digital man-machine control systems - The effects of preview lag
The human operator in the control system: Linear models --- German book
Adaptive estimation schemes for minimizing uncertainty in manual control tasks
Human operators in adversary tracking encounters
Computer augmented manual control of remote manipulators
An operator-aiding manipulator control system
Helicopter commands at the touch of a hand [AIRS 75-13]
Mechanisms of the effects of vibration frequency, level and duration on continuous manual control performance
Development of recommendations to improve controls operability [PB-284433/70]
A formal model of the adaptive and discrete control behaviors of human operators [AD-805920]
A study of the effect of forcing function characteristics on human operator dynamics in manual control
An extension of the quickened display for manual control
Effects of uncertainty on manual tracking performance --- visual tasks
Modeling the human as a controller in a multitask environment
A comparison of motor submodels in the optimal control model
Flight experience with manually controlled unconventional aircraft motions
The determination of the operating range of a wing-tip control bite through biomechanical means
Evaluation of display and control concepts for a terminal configured vehicle in a fines approach in a windshear environment
A dual-loop model of the human controller
An approach to the multi-axis problem in manual control --- optimal pilot model
Error rate information in attention allocation pilot models
The facilitating effects of uncertainty in long-term manual control
Multi-attribute subjective evaluations of manual tracking tasks vs. objective performance of the human operator
The effects of participatory mode and task workload on the detection of dynamic system failures
A control theoretic model of driver steering behavior
Modelling the human operator of slowly responding systems using linear models
Driver steering dynamics measured in car simulator under a range of visibility and roadmaking conditions

SUBJECT INDEX
A model of the human supervisor p0177 N79-17495

Manual control of yaw motion with combined visual and vestibular cues p0179 N79-17513

Motion cue effects on human pilot dynamics in manual control p0179 N79-17514

Study of the use of a nonlinear, rate limited, filter on pilot control signals p0179 N79-17515

Influences of joystick spring resistance on the execution of simple and complex positioning movements p0179 N79-17517

The application of control theory to the investigation of roll motion effects on human operator performance p0288 N79-31931

A theoretical and experimental analysis of the outside world perception process [NASA-TP-78022-0] p0309 N79-32835

MANUFACTURING

NASA MANUFACTURING HANDBOOKS

MAPPING

NASA THERMAL MAPPING

MAPS

The application of remote sensors to a model for fish mapping [IFP-1979-PE-176] p0071 N79-14712

Individual differences in knowledge acquisition from maps [AD-A065040] p0196 N79-23663

MARIJUANA

Effect of alcohol and marijuana on eye movements p0101 A79-23469

MARIPORE BIOLOGY

Experimental approach to the chemical evolution in the pristinal sea. II - Formation of protocell-like structures 'miragranules' in a modified sea medium p0204 A79-37964

Determination of bound water in biological materials from dielectric measurements p0082 N79-15557

Nitrogen fixation with photosynthetic marine microorganisms [PB-286000/5] p0083 N79-15557

Citric acid enhancement of copper sulfate toxicity to blue-green algae and other nuisance organisms [PB-289690/5] p0170 N79-20718

Effects of heavy metals especially selenium, vanadium and zirconium on movement, growth and survival of certain animal aquatic life [PB-292563/4] p0197 N79-25706

Results of benthic studies at Calvert Cliffs [PB-294261/3] p0261 N79-29788

MARINE CHEMISTRY

Organic geochemical studies on kerogen precursors in recently deposited algal mats and ooze p0001 A79-10419

MARINE ENVIRONMENTS

MARKET RESEARCH

Eye-ball control p0270 A79-49225

MARKETING

NY ISOTOPIC LABELING

Design of polymeric immobilized microspheres for cell labelling and cell separation p0275 N79-50234

MARS (PLANET)

Biological implications of the Viking mission to Mars p0045 A79-14595

Solar-driven chemical energy source for a Martian biome p025a A79-46464

Some comments on interpretations of Viking biological experiments p0255 A79-46465

MARS ENVIRONMENT

The response of selected terrestrial organisms to the Martian environment - A modeling study p0136 A79-27928

MARS PROBES

NT VIKING LANDER SPACECRAFT

NT VIKING MARSH PROGRAM

NT VIKING SPACECRAFT

MARS SURFACE

Chemical fingerprints of life in terrestrial soils and their possible use for the detection of life on Mars and other planets p0136 A79-27929

MARS SURFACE SAMPLES

Public health considerations associated with a Mars surface sample return mission p0005 A79-12510

MARS RESOURCES

U MARS HABITS

MARSLANDS

Distribution of bluegreen algae in a Mississippi Gulf Coast salt marsh [PB-298982/2] p0153 N79-19647

MASKING

Perceptual delay - A consequence of metacontrast and apparent motion p0035 A79-13183

MASKS

NT OXYGEN MASKS

Development of a specialized head/face protective device for test parachuting operations p0065 A79-14937

Visual and optical assessment of gas protective face masks p0152 N79-19642

An interface evaluation of the XM-29 protective mask and the AH-15 telescopic sight unit [AD-A064203] p0190 N79-22764

Field evaluation of experimental crash-crew firefighter's facepiece [AD-A065049] p0223 N79-25765

MARS

NT STYLUS MASS

MARDUS DISTRIBUTION

MATHEMATICAL MODELS

Overall loudness of steady sounds according to theory and experiment
[Mathematical Model - 1979-25753]

Some of the problems involved in planning experimental
biological experiments
[Modeling - 1979-33805]

MATHEMATICAL MODELS

NT ANALOG SIMULATION

Various modeling approaches in biomechanics ---
[Modeling - 1979-12407]

Models for automated motor skills training ---
[Modeling - 1979-13182]

A prediction model of arm push strength in the
transverse plane
[Simulation and control - 1979-13195]

Simulation and control of a human temperature
regulation system
[Simulation and control - 1979-13613]

The multiloop concept of the pilot work load as a
basis of future experiments and studies
[Simulation and control - 1979-14795]

Biped stability considerations with vestibular
models
[Modeling - 1979-18287]

Modeling the effect of axial bronchial tension on the
respiratory system in man
[Modeling - 1979-18957]

Regulation and efficiency of sweating in man
[Modeling - 1979-23782]

A theoretical model to estimate some ergonomic
parameters from age, weight and height
[Modeling - 1979-26150]

Mechanics of the regulation of the respiratory
system in man
[Modeling - 1979-29258]

Deductive derivation of a mathematical model for
the spectral sensitivity of the human organ of
sight, I, II
[Modeling - 1979-31178]

Evaluation of models describing human operator
control of slowly responding complex systems
[Modeling - 1979-31494]

A simple analytical model for the selection of
optical activity and of the most efficient
catalysts in the course of molecular evolution
[Modeling - 1979-37957]

The eccentric spheres model as the basis for a
study of the role of geometry and
inhomogeneities in electrocardiography
[Modeling - 1979-40649]

Analysis of population mortality kinetics with
application to the longevity followup of the
Mary's '1,000 aviators'
[Modeling - 1979-43207]

A structural model of the adaptive human pilot
[Modeling - 1979-45411]

Mathematical model of the respiratory rhythm
[Modeling - 1979-46268]

Modeling human tracking performance in a high
G-stress environment
[Modeling - 1979-48012]

Fundamentals of electrical processes in the
electrophysiology of the heart
[Modeling - 1979-53512]

Basic biomechanics equations for cardiovascular flow
[Modeling - 1979-53534]

A behavioral model of target acquisition in
realistic terrain
[Modeling - 1979-10742]

Density dependence of maximum expiratory flow
[Modeling - 1979-12691]

Aeroelastic forces exerted on an articulated human
body subjected to windblast
[Modeling - 1979-13688]

Some recent results on the deposition of
electromagnetic energy in animals and models of
man
[Modeling - 1979-13923]

Effect of hyperbaric oxygen on peripheral blood neutrophil metabolism p0245 A79-27830
Studies of metabolism, function and mechanics of destruction of red cells [AD-A070240] p0315 A79-33828

SUBJECT INDEX

A/B/ 127
## SUBJECT INDEX

### MICROWAVE EQUIPMENT
- **MICROWAVE PHONES**
  - Microwave apexcardiography
    - [IPB-290598/21] p0083 879-24648

### MICROWAVE FREQUENCIES
- **SUPERHIGH FREQUENCIES**
  - The Physical Basis of Electromagnetic Interactions with Biological Systems
    - [HEV-PUB-PDA-78-8055] p0081 N79-15551
  - Classical theory of microwave interactions with biological systems
    - [IPB-290598/21] p0082 N79-15556
  - Determination of bound water in biological materials from dielectric measurements
    - [IPB-290598/21] p0082 N79-15557
  - Microwave and RF dosimetry
    - [IPB-290598/21] p0083 N79-15561

### MICROWAVE LANDING SYSTEMS
- **Perpetual factors involved in performance of air traffic controllers using a microwave landing system**
  - p0092 N79-15628
- **Microwave Probes**
  - Microwave thermography: Physical principles and diagnostic applications
    - [IPB-290598/21] p0082 N79-15559

### MICROWAVE RADIATION
- **U MICROWAVES**
- **MICROWAVE RESONANCE**
  - An empirical formula for broad-band SAR calculations of prolate spheroidal models of humans and animals --- Specific absorption rate calculations
    - [IPB-290598/21] p0278 A79-51015

### MICROWAVES
- **N7 MICROWAVE EMISSION**
- **N7 MILLIMETER WAVES**
  - Study of specific effects of hyperfrequencies on the central nervous system. II - Exploratory research on rat /Mistar/ behaviour
    - [IPB-290598/21] p0087 A79-15493
  - A hazard assessment method for the U.S. Army Microwave Radiation Protection Program
    - [IPB-290598/21] p0129 A79-25304
  - Changes in the electrochemical activity of some cerebral structures in rabbits exposed to microwaves
    - [IPB-290598/21] p0188 A79-35917
  - Dynamics of the impulse activity of the neurons in the posterior hypothalamus upon exposure to microwaves
    - [IPB-290598/21] p0188 A79-35918
  - Effect of microwave radiation on the resistance of rats to transverse acceleration loading
    - [IPB-290598/21] p0275 A79-50496
  - Time parameter in microwave irradiation --- rodent experiments on damage and recovery
    - [IPB-290598/21] p0277 A79-50694
  - Translations on USSR science and technology: Biomedical and behavioral sciences, No. 53.
  - Effects of nonionizing electromagnetic radiation
    - [IPB-290598/21] p0074 N79-14736
  - Effects of microwaves on catecholamine metabolism in the brain
    - [IPB-290598/21] p0075 N79-14739
  - Dependence of the functional activity of liver mitochondria on microwave radiation --- oxidative phosphorylation
    - [IPB-290598/21] p0075 N79-14741
  - Mechanism of effects of microwaves on erythrocyte permeability for potassium and sodium ions
    - [IPB-290598/21] p0075 N79-14743
  - Electromagnetic fields in biological media. Part 1: Dosimetry - a primer on bioelectromagnetics
    - [IPB-290598/21] p0078 N79-14759
  - Survey of microwave and radiofrequency biological effects and mechanisms
    - [IPB-290598/21] p0082 N79-15552
  - Effect on mice of microwaves in the non-thermal intensity region. Respiration, rectal temperature and mental reaction
    - [IPB-290598/21] p0120 N79-17523
  - Immunological effects of microwave action
    - [IPB-290598/21] p0172 N79-20736
  - Studies on the microwave-induced auditory effect
    - [IPB-290598/21] p0213 N79-24608

### MILITARY HELICOPTERS
- **ST UN-1 HELICOPTER**
  - Oxygen systems for Army helicopters
    - [SAE PAPER 7810081] p0183 A79-33633
  - Aeromedical aspects of flying training with special reference to instructor-pupil relationship
    - [IPB-290598/21] p0201 A79-37133

- **ST UR-1 HELICOPTER**
  - Problems related to the assessment of safe exposure levels for radio frequency and microwave radiation
    - [IPB-290598/21] p0248 N79-27055
  - Biological effects of microwaves, volume 1. A bibliography with abstracts
    - [IPB-290598/21] p0260 N79-30929
  - Biological effects of microwaves, volume 2. A bibliography with abstracts
    - [IPB-290598/21] p0280 N79-30930
  - Metabolic and physical scaling in microwave/radiofrequency bioeffects studies
    - [IPB-290598/21] p0316 N79-33831

- **U TRAVEL**
- **MIDAIR COLLISIONS**
- **NT MIDDLE-CLIMATE REGIONS**
- **NT RAYLEIGH SCATTERING**
- **MIGRATION**
  - Application of similarity transformation to unsteady state heat migration problems in human skin and subcutaneous tissues
    - [IPB-290598/21] p0223 A79-42932
  - The role of insect dispersal and migration in population processes
    - [IPB-290598/21] p0147 N79-19593

### MILITARY AIRCRAFT
- **Current trends in UK military aircrew survival equipment**
  - [IPB-290598/21] p0183 A79-33663
  - Vertebral fractures in Gnat ejections
    - [IPB-290598/21] p0201 A79-37134

- **NUT MILITARY AIRCRAFT**
  - Analysis of climatic data and cockpit thermal conditions at a fighter base in North West India
    - [IPB-290598/21] p0201 A79-37135

### MILITARY AIRCRAFT
- **Military Health Services**
- **Military Aviation**
  - Relations between research and instruction in physiology and aerospace ergonomy in the military health services
    - [IPB-290598/21] p0106 A79-23960
  - Naval aviation training - Perspective and prospects
    - [IPB-290598/21] p0130 A79-25886
  - Army Aviation Training - Research now and then
    - [IPB-290598/21] p0130 A79-25890
  - Ensuring medical fitness on entry and during service in aircrew in IAF
    - [IPB-290598/21] p0182 A79-31187
  - USAF life support systes 412A - 1978 corporate report
    - [IPB-290598/21] p0183 A79-36602
  - Incidence of spinal disability amongst IAF pilots
    - Follow up of 38 cases
    - [IPB-290598/21] p0201 A79-37133
  - Aeromedical aspects of flying training with special reference to instructor-pupil relationship
    - [IPB-290598/21] p0201 A79-37139

### MILITARY HELICOPTERS
- **ST UR-1 HELICOPTER**
  - Oxygen systems for Army helicopters
    - [SAE PAPER 7810041] p0183 A79-33633
  - Visual effects of helicopter manoeuvre on weapon light sources for the model YAH-64 advanced attack helicopter
    - [AD-A056489] p0033 N79-11744
  - Visual effects of helicopter manoeuvre on weapon aiming performance
    - p0150 N79-19626
  - A system of training in aviation physiology and human factors for Army and Navy helicopter aircrew
    - [IPB-290598/21] p0151 N79-19635
  - Disorientation in Royal Naval helicopter pilots
    - [IPB-290598/21] p0152 N79-19648
  - Training requirements for helicopter operation with night vision goggles
    - [IPB-290598/21] p0153 N79-19650
  - A study of pilot/reflected interaction in aligning a helicopter with a target
    - [IPB-290598/21] p0213 N79-24608
MILITARY OPERATIONS

MILITARY OPERATIONS

W/COMBAT medical qualification procedures for hazardous-duty aeronautical research p0026 N79-11695

A prospective medicine approach to the problem of ischemic vascular disease in the DAF p0027 N79-11697

Man and asterol in the cold regions, part 1 TAD-A063752] p0178 N79-21771

MOL (ORBITAL LABORATORIES) U MANED ORBITAL LABORATORIES
The internal model: A study of the relative contribution of proprioception and visual information to failure detection in dynamic systems --- sensitivity of operators versus monitors to failures

MOONRISE
Thermoregulation in Macaca mulatta - A thermal balance study

MOONROCKS
Continuous metabolic and cardiovascular measurements on a monkey subject during a simulated 6-day Spacelab mission

MORPHOLOGY
Changes in the circadian rhythms of performance and mood in healthy young men exposed to prolonged, heavy physical work, sleep deprivation, and caloric deficit

MORPHOLOGY
Temperature-dependent morphological changes in membranes of Bacillus stearothermophilus

MORPHOLOGY
The physical appearance of intelligent aliens

MORPHOLOGY
Morphological and biochemical effects of oxygen toxicity

MORPHOLOGY
The morphogenetic responses of cultured totipotent cells of carrot (Daucus carota L.) at zero gravity---cosmos 782

MORPHOLOGY
The effects of the pollutant, sodium cyanide, on the morphology and physiology of oedogonium cardiacum

MYOLOGY
A study of the mechanism of thigmomorphogenesis in plants, with special reference to the role of ethylene and its significance to research with plants in space

MYOLOGY
Analysis of population mortality kinetics with application to the longevity followup of the Navy's "1,000 aviators"

MYOLOGY
Short-range movement of major agricultural pests
Motion Aftereffects

Graphic display of human motion
[NAV-A0643294] p0190 N79-22763

Motion Aftereffects

Space Sled - A multipurpose apparatus for vestibular research aboard Spacelab [DDLRI PAPER 78-132] p0042 A79-14083
Effects of target motion and image on AAA tracking anti-aircraft artillery p0046 A79-14969

Motion Equations

U Equations of Motion

Motion Perception

Factors controlling the competing sensations produced by a bistable stroboscopic motion display p0108 A79-24067
Hyper-resolution in human perception of movement in visual displays p0132 A79-26290
Optokinetic motion sickness - Attenuation of visually-induced apparent self-rotation by passive head movements p0135 A79-27558
Unidirectional increase in threshold for image shifts during saccadic eye movements p0139 A79-28159
Smooth pursuit eye movements - Is perceived motion necessary p0139 A79-28375
Changes in apparent body orientation and sensory localization induced by vibration of postural muscles - Vibratory synesthetic illusions p0163 A79-30653
Perception of continuity in stroboscopic motion - A temporal frequency analysis p0186 A79-34375
The interpretation of visual motion book p0186 A79-34244
The visual perception of motion in depth p0210 A79-39087
The role of perceived motion in smooth pursuit eye movements p0225 A79-40184
The effect of expectations on slow oculonetric control. I - Periodic target steps. II - Single target displacements p0225 A79-40185
Form information is necessary for the perception of motion p0232 A79-42235
Direction-selective adaptation with very slow motion p0265 A79-47118
Mutual repulsion between moving visual targets p0275 A79-50473
Motion and vision. I - Stabilized images of stationary gratings p0278 A79-50986
Visual motion perception by intelligent systems p0300 A79-52691
A theoretical and experimental analysis of the outside world perception process p0091 A79-15565
Perceptual factors involved in performance of air traffic controllers using a microwave landing system p0092 A79-15628
Use of the optimal control model in the design of motion cue experiments p0110 A79-17510
A model for the pilot's use of motion cues in roll-axis tracking tasks p0110 A79-17512
Motion effects on human pilot dynamics in manual control p0119 A79-17514
Motion cue models for pilot-vehicle analysis [AD-A064177] p0128 A79-17561

Motion Sickness

Voluntary movement control and adaptation to cross-coupled stimulation - motion sickness avoidance p0009 A79-12860
Motion sickness susceptibility - A retrospective comparison of laboratory tests p0010 A79-12861
Optokinetic motion sickness - Attenuation of visually-induced apparent self-rotation by passive head movements p0135 A79-27558
Rotation at 30 RPM about the Z axis after 6 hours in the 10-deg head-down position - Effect on susceptibility to motion sickness p0165 A79-30662
Motion sickness in cats - A symptom rating scale used in laboratory and flight tests p0202 A79-37711
Gx tolerance correlation with clinical parameters p0235 A79-43213
Estimated body rotation as a predictor of motion sickness susceptibility p0273 A79-45990
Third Symposium on Motion Sickness p0313 A79-33814

Motion Sickness Drugs

Prevention and treatment of space sickness in Shuttle-Orbiter missions p0128 A79-24639
Motion sickness in cats - A symptom rating scale used in laboratory and flight tests p0202 A79-37711

Motion Simulators

Application of control theory to the investigation of roll motion effects on pilot control behavior [AD-A054921] p0066 A79-14972
The relationship between flight simulator motion and training requirements p0267 A79-47766
A method notion simulator design based on modeling characteristics of the human operator p0091 A79-15623
Investigation of nonlinear motion simulator washout schemes p0091 A79-15624
The effect of a visual/motion display mismatch in a single axis compensatory tracking task p0018 A79-17511
The driving simulator developed by the Institute for Perception TM. A validation study in straight road driving [ISP-1970-16-PB-1] p0145 A79-18588

Motion Stability

Nt Aerodynamic Stability
Nt Aircraft Stability
Nt Fluid Stability
Nt Hovering Stability

Selecting the program of motions for a biped walking machine p0166 A79-31490
Stabilization of a biped walking machine with incomplete information on its phase coordinates p0273 A79-49879
Roll tracking effects of G-vector tilt and various types of motion washout p0091 A79-15622

Motor Systems (Biology)

Nt Automatic Nervous Systems
Nt Motor Vehicles
Nt Tractors
Nt Trucks

The driving simulator developed by the Institute for Perception TM. A validation study in straight road driving [ISP-1970-16-PB-1] p0145 A79-18588
Impact tests on crash helmets for motorcyclists [AD-A065966] p0197 A79-24655

Mountain inhabitants

Investigation of the content of hemoglobin and its fractions in permanent inhabitants of the Tien Shan and Pamir p0188 A79-35124
Oxygen affinity of blood in altitude Sherpas p0268 A79-47854

Movement

O Movement

Motion Target Indicators

Line criteria in target acquisition with television visibility of target image on TV screen p0068 A79-18997
Visual cues in manual tracking of simulated targets p0103 A79-23792
Estimation of aircraft target motion using pattern recognition orientation measurements p0177 A79-21764
MUSCULAR FUNCTION

MUSCLES

MUSCOLOMUSCULAR SYSTEM

MUSCULAR TONUS

MUSCULAR FUNCTION

MUSCLE JUNCTIONS

MUSCLE FUNCTION

MUSCLE FATIGUE

MUSCLE JOINTS

MUSCLE JUNCTIONS

MUSCLE JOINTS
MUTATIONS

Changes in amount and composition of phospholipids in rat skeletal muscle microsomal fraction under the influence of a flight aboard the Kosmos-690 biosatellite

Effects of hypodynamic simulations on the skeletal system of monkeys

The influence of exercise on bone atrophy

The combined effect of space flight factors and radiation on rat skeletal muscles

Tissular metabolism in mixed type fibers of rat skeletal muscles after flight aboard Cosmos-690 biosatellite

The validation of biodynamic models

MUTATIONS

Possible contribution of transferable exogenous DNA in prokaryotic evolution

The point mutation process in proteins

Genetic effects of cosmic radiation on bacteriophage T4Br+/

On investigating the statistical properties of the popular path algorithm by computer simulation — Counterconclusions to those of Tateno and Nei — for mutational change in protein evolution

Effect of accelerations combined with radiation on occurrence of gene mutations in the mutator strain

Metagenic components of alternate energy sources

MYOCARDIAL INFARCTION

ST isopotential precordial surface maps in patients with acute myocardial infarction

Electrocardiographic abnormalities in Air Force personnel

Myocardial infarction in young men

A catheter flow probe for measurement of left ventricular source parameters

Computerized positron emission tomography /PET/ for the assessment of myocardial integrity

The effect of moderate hypothermia on the circulatory and myocardial consequences of acute coronary ligation in dogs

MYOCARDIUM

Single frequency RF powered ECG telemetry system

Effect of adaptation to high-altitude hypoxia on cardiac adrenergic activity and the state of the adenylcyclase and phosphodiesterase systems in the myocardium

Effect of hypoxia on mechanical properties of hyperthyroid cat papillary muscle

Respiratory relation between onset of cell anoxia and ischemic contractile failure

Protein fractions and enzymatic activity thereof in the rat myocardium after the flight on Cosmos-690 biosatellite

Blood clotting factors of the vascular wall and myocardium of hypokinetic rabbits

A correlation of the effects of catonic uncouplers on intact cardiac muscle and on calcium bound to isolated cardiac muscle plasma membranes

A study of some of the factors influencing the left ventricular diastolic pressure-volume relationship and myocardial metabolism

SUBJECT INDEX

Tissular blood clotting factors of vascular walls and myocardium during hypokinesia

Oxygen delivery in the hypoxic perfused heart: Relation to functional and metabolic changes

MYOELECTRIC POTENTIALS

Subject Index

Adaptive supervisory control of remote manipulation p0040 A79-13225

Man-machine reliability - A practical engineering tool p0056 A79-15399

Cross-validation of regression equations to predict performance in a pursuit tracking task p0066 A79-19222

Multiterm interaction evaluation of computer operating system command and control service concepts --- in Spacelab p0064 A79-19224

Target-terrain classification and detection performance --- to assess aerial photos for tanks p0065 A79-18225

Line criteria in target acquisition with television visibility of target image on TV screen p0068 A79-18997

Speed and load stress as determinants of performance in a time-sharing task p0068 A79-18999

Visual target acquisition and ocular scanning performance p0069 A79-19000

Turbidity experience of air traffic control personnel --- 1967-77 p0101 A79-23466

Army Aviation Training - Research now and then [SPE PAPER 781008] p0110 A79-25890

Digital man-machine control systems - The effects of preview lag p0111 A79-26149

The human operator in the control system: Linear models --- German book p0112 A79-26356

Neuroparametric model for the detection of signals observed by a human operator on a CTV screen on a noise background --- cathode-ray tube p0159 A79-28555

Functional changes in the cardiovascular system of machine-tool operators under physical and neurologically stressful loads p0160 A79-29270

Neuroparametric measures of sensory efficiency for sustained monitoring tasks p0161 A79-29719

A model of human decisionmaking in fault diagnosis tasks that include feedback and redundancy p0163 A79-30222

A comparison of control modes for time-delayed remote manipulation p0163 A79-30223

Measurement and scaling of workload in complex performance p0164 A79-30659

Evaluation of models describing human operator control of slowly responding complex systems --- Thesis p0167 A79-31494

Application of computer animation for dynamic display in complex energy systems --- for human operator performance improvement p0186 A79-31712

A rationale for human operator pulsive control behavior p0186 A79-34520

Separation of the effects of raised skin and core temperature on performance of a pursuit rotor task p0234 A79-43208

Psychophysical assessment of angular vibration - Comparison of vertical and roll vibrations p0234 A79-43206

Adaptive estimation schemes for minimizing uncertainty in manual control tasks p0269 A79-48013

Human operators in adversary tracking encounters p0269 A79-48015

An operator-aiding manipulator control system p0269 A79-48020

Survey of human operator modeling techniques for measurement applications [AD-A058327] p0585 A79-13713

A formal model of the adaptive and discrete control behaviors of human operators [AD-A059039] p0595 A79-13717

Operator Performance Contd

Psychological aspects of the human-operator’s activity while tracking [RAE-LIB-TRANS-1979] p0079 A79-14768

Information-handling capacity of a human operator in detection of signals against a noisy background p0081 A79-14899

The behavior of observers in detecting unbriefed targets at different aircraft speeds with side-looking radar [AD-A086908] p0085 A79-15586

A study of the effect of forcing function characteristics on human operator dynamics in manual control p0086 A79-15590

Effects of uncertainty on manual tracking performance --- visual tasks p0086 A79-15592

Modeling the human as a controller in a multitask environment p0087 A79-15595

The internal model: A study of the relative contribution of proprioception and visual information to failure detection in dynamic systems --- sensitivity of operators versus monitors to failures p0087 A79-15596

Closed loop models for analyzing the effects of simulator characteristics --- digital simulation of human operators p0087 A79-15598

Petri nets as a modeling tool for discrete concurrent tasks of the human operator - describing sequential and parallel demands on human operators p0088 A79-15600

The application of integral performance criteria to the analysis of discrete maneuvers in a driving simulator [N-S-O6-2394] p0115 A79-17484

Multi-attribute subjective evaluations of manual tracking tasks vs. objective performance of the human operator p0116 A79-17486

A control theoretic model of driver steering behavior p0116 A79-17491

Modelling the human operator of slowly responding systems using linear models p0117 A79-17492

Driver steering dynamics measured in car simulator under a range of visibility and roadmaking conditions p0117 A79-17492

The impact of a Learn-Forget-Learn (LFL) curve and learning curves on a system effectiveness model [AD-A061622] p0124 A79-17550

An adaptive controller which displays human operator limitations for a fighter type aircraft p0177 A79-21767

Operator performance and localized muscle fatigue in a simulated space vehicle control p0214 A79-24653

Selective attention: The influences of subject sex and degree of prior habituation on performance of an attention task with distraction p0260 A79-28867

Combined discrete network-continuous control modeling of man-machine systems p0260 A79-28879

Visual search performance during simulated radar observation with and without a sweepline [AD-A068020] p0281 A79-30938

The application of control theory to the investigation of roll motion effects on human operator performance p0286 A79-31931

A survey of Applied Psychological Services' models of the human operator p0317 A79-33839

Cardiological findings in 115 pilots: Diagnoses and assessment of their flying fitness
p029 A79-11711
Cardiovascular fitness of pilots of transport aircraft
p030 A79-11721
Rehabilitation measures used to restore physical fitness of man after long-term restiction of
PHYSIOLOGICAL EFFECTS

Effect of impermeable clothing and respirator on physical work

Effect of intermittent hypoxia on functional cardiovascular responses

Effect of hypothermia on the brain

Effect of alcohol and marijuana on eye movements

Effect of physical conditioning on cardiac sitochondrial function

Effect of alcohol on eye movements

Effect of brief exposure of domestic fowl to very intense acceleration fields

Effect of altitude and two decongestant-antihistamine preparations on physiological functions and performance

Physiological aspects of flight

Laser safety bioeffects research - Histopathology of retinal effects

Mechanisms of the effect of oxygen toxicity on the energy metabolism

Conjoint effect of physical stress and noise stress on information processing performance and cardiac response

Biodynamic effects of canopy loss in the T-35 aircraft

Spaceflight and bone turnover - Correlation with a new rat model of weightlessness

Cardiac changes during behavioral stress in dogs

Physiological effect of high, sustained +Gz forces on man

Propylactic effects of intermittent acceleration against physiological deconditioning in simulated weightlessness

Influence of the ambient acceleration field upon acute acceleration tolerance in chickens

The importance of light, postural and social cues in the regulation of the plasma cortisol rhythm

Increased survival in experimental dog heatstroke

The European life sciences experiments onboard the Spacelab mission

The effects of different levels of heat production induced by diathermy and eccentric work on thermoregulation during exercise at a given skin temperature

The effects of the pollutant, sodium cyanide, on physical work

The effects of prolonged unidirectional shift of circadian rhythms on rat mitochondrial function

Evaluation of British and Canadian conductive rubber heating elements for handwear: Preliminary report

Effects of prolonged unidirectional shift of sleeping-waking cycle on physiological functions, mental productivity and sleep of man

Effects of the pollutant, sodium cyanide, on the morphology and physiology of oedogonium cardiacum

A-152
PILOT PERFORMANCE

Night vision goggles and in-flight evaluation of pigments

PICOSECOND PULSES

High Q escape protection --- pilot restraint

PILOT ERROR

Selection and techniques for analysis of indices

PHYTOTRONS

Increasing pilot’s performance capacity during NT 8LANIN of roll motion effects on pilot control behavior

NT CYTOCHROMES

Application of control theory to the investigation of roll motion effects on pilot control behavior

NT CHLOROPHYLLS

[ONERA, TP 80. 1978-10]

NT VISUAL PIGMENTS

[AD-P.054921]

Visual workload of the copilot/navigator during applicable to helmet-mounted displays

Investigation of arrangement of multipurpose displays and use of tailored control logic in a fighter aircraft cockpit

Visual workload of the copilot/navigator during terrain flight

Four years of color research for visual displays --- human performance consideration for use in aircraft

Response surface methodology as a manipulator of complex task difficulty --- for computer generated aircraft area navigation control-display systems evaluation

Multifunction keyboard configurations for single-seat, air-to-ground fighter cockpits

The assessment of rotary wing aviator precision performance during extended helicopter flights

Development of automated performance measures for introductory air combat maneuver evaluation

Experimental and psychological investigations in aviation and astronautics --- Russian book

Increasing pilot’s performance capacity during flight through use of a control element serving as information carrier

Visual display performance during flight simulation with helmet-mounted displays

The effects of prediction, quickening, frequency separation, and percent of pursuit in perspective displays for low-visibility landing

An investigation of pictorial and symbolic aircraft displays for landing

Pilot performance during flight simulation with peripherally presented visual signals

Human factors considerations in the design and evaluation of a helmet mounted display using a light emitting diode matrix

Night vision goggles and in-flight evaluation of the inside/outside refocusing problems in a OH-1H helicopter

Simulator Training Requirements and Effectiveness Study /STRESS/

Air Combat Maneuvering Range (ACMR) - Bas operational performance measurement entered a Golden Age

On the relationship between pilot rating and pilot dynamics. I - An experimental approach

On the relationship between pilot rating and pilot dynamics. II - An analytical approach

Human engineering study of information processing applicable to helmet-mounted displays

Collision avoidance response stereotypes in pilots and nonpilots

Incapacitation time for 4Gz-induced loss of consciousness
PILOT PERFORMANCE CONTD

Choice and techniques of analysis of indices for the perception of visual information. III -- by pilots

Universal airborne approach to pilot performance assessment

A study of progress in flying performance revealed from daily check sheets in a primary flight training course. III -- Comparison of progress between two courses

Current role of alcohol as a factor in civil aircraft accidents

Windshield quality and pilot performance measurement utilizing computer-generated imagery

Short-term sensory factors in ground controller/pilot communication

Predictive validity of flight simulators as a function of simulator motion

Frequency analysis of heart rate variability under flight conditions

Concurrent loss of consciousness and sino-atrial block during +Gz stress

Visual workload of the copilot/navigator during terrain flight

Analysis of electroencephalogram during psychomotor performance

Measurements of pilot workload during low altitude and high speed maneuvers of F-111 supersonic jet fighter

Pilot workload in the aircraft of the future

Tracking-task performance during heat stress simulating cockpit conditions in high-performance aircraft

Pilot-optimal augmentation of the air-to-air tracking task

Sensory illusions -- The ophthalmologist's point of view

Sensory illusions of vestibular origin

The physiologist's view of sensory illusions

The vestibule and flying --- pilot disorientation

Modeling human tracking performance in a high G-stress environment

Pilot workload during final approach in congested airspace

Delayed effects of alcohol ingestion on + Gz tolerance

In-flight measures of stress reduction due to wearing expandable foam earplugs

Man and automation -- for human-automated pilot interfaces

Advanced transport operation effects on pilot scan patterns

Technique for simulating G-induced tunnel vision

The influence of low frequency vibration on pilot performance /as measured in a fixed base simulator/

Lightweight helmet-mounted eye movement measurement system

SUBJECT INDEX

Effects of vibration and noise on some indices of efficiency of M-4 helicopter crews

Experience with periodic aviation medical examinations

A prospective medicine approach to the problem of ischemic vascular disease in the elderly

The significance of rhythm disturbances in asymptomatic persons

Cardiovascular diseases as a cause of unfitness for flying in civil aircraft of Italian Air Force: Etiopathogenesis, influence of performance in flight, and prevention

Psychophysiological effects of aging: Developing a functional age index for pilots. 2: Taxonomy of psychological factors

Methodological considerations of visual workloads

Sensory illusions - The ophthalmologist's point of view

Tracking-task performance during heat stress simulating cockpit conditions in high-performance aircraft

Pilot workload in the aircraft of the future

Modeling the effects of high-G stress on pilots in a tracking task

Discrete-time pilot model --- human dynamics and digital simulation

Pilot-optimal augmentation synthesis

Prediction, evaluation, and specification of flying qualities by means of step target tracking

Analysis of a VTOL hover task with predictor displays using an optimal control model of the human operator

A method motion simulator design based on modeling characteristics of the human operator

Pilot decision making in a computer-aided flight management situation

Pilot workload qualification for avionics design

Training implications

An approach to the multi-axis problem in manual control --- optimal pilot model

Error rate information in attention allocation pilot models

The effects of participatory mode and task workload on the detection of dynamic system failures

Prediction of pilot reserve attention capacity during air-to-air target tracking

Prediction of pilot-aircraft stability boundaries and performance contours

SUBJECT INDEX
A study of the mechanism of thigmomorphogenesis in plants in space

Responses to crown gall tissue to the space environment: Glutamine synthetase activity --- cosmos 782

Improvised measurements of shear modulus and pleural membrane tension of the lung

Use of platinum electrodes for the electrochemical detection of bacteria

Metal bioelectrode polarization: A frequency and time domain analysis

Metal bioelectrode polarization: A frequency and time domain analysis

Mechanics of breathing during graded exercise --- measured with the bodyplethysmograph

Use of platinum electrodes for the electrochemical detection of bacteria

Mechanics of breathing during graded exercise --- measured with the bodyplethysmograph

Mechanics of breathing during graded exercise --- measured with the bodyplethysmograph

Mechanics of breathing during graded exercise --- measured with the bodyplethysmograph

Mechanics of breathing during graded exercise --- measured with the bodyplethysmograph
A new noninvasive technique for cardiac pressure measurement. II Scattering from encapsulated bubbles

Pressure reduction

Development of the Air Force Type 'B' full pressure suit automatic head enclosure

Pressure Chambers

Energy expenditures of man during long exposure to a periodically changing atmosphere

Pressure effects

Capillary fragility during air exposure of man to 1-5 ATA and after decompression

Pressures beds

Pressure gages

The value of measuring ocular tonus as a test for detecting glaucoma in flight personnel

Primitive Earth atmosphere

Synthesis of organic compounds from carbon monoxide and water by BH photolysis

Pressures of human beings

Two primate biological facility module in Spacelab

Pressure measurement

The value of measuring ocular tonus as a test for detecting glaucoma in flight personnel

PRIMITIVE EARTH ATMOSPHERE

Synthesis of organic compounds from carbon monoxide and water by BH photolysis

Porphyria-like compounds genesis under simulated abiotic conditions

ACI did not condense to give heteropolypeptides on the primitive earth

Synthesis of amino acids under primitive earth conditions in the presence of clay
In vivo response of ornithine decarboxylase activity to growth hormone as demonstrated by oxidation of L-ornithine-1/C-14 in hypophysectomized rats

Influence of high-altitude conditions on the metabolism of nucleic acids and proteins in the thyocytes of the rat

The effect of plasmoidal zyme on the metabolism of haploid cells of Physarum flavicomum and the respiration of isolated sitchondria

Senescent changes in the ribosomes of animal cells in vivo and in vitro

RBC/CR-51/ half-life and albumin turnover in growing Beagle dogs during chronic radial acceleration

Changes in metabolism of soleus muscle tissue in rats following the flight aboard the Kosmos-690 biosatellite

Distinctions referable to excretion of end products of protein metabolism in urine of man submitted to 182-day antithoracostatic hypokinesia

Tissular metabolism in mixed type fibers of rat skeletal muscles after flight aboard Cosmos-690 biosatellite

PROTEINS

NT ADHESIONS

NT ALDOLASES

NT COENZYMES

NT FIBRINS

NT FERRITIN

NT GAMMA GLOBULINS

NT GLOBULINS

NT LIPOPROTEINS

NT OXYBURMOLIN

NT PEPTIDASES

NT POLYNUCLEOTIDES

NT PROTEINS

NT PROTEINASES

The growth of single crystals from proteins in gravity-free space [AIAA PAPER 79-0311]

Interaction between inositol hexaphosphate and carboxenzy peptide - A model for nucleic acid-Yonohistone chromosomal protein interaction

Effects of low temperature on in vivo and in vitro protein synthesis in Escherichia coli and Pseudomonas fluorescens

Beta-galactosidase and selective neutrality - amino acid composition of proteins [A39 79-26169]

As approach to the origin of self-replicating system. I - Intermolecular interactions [A39 79-37948]

The point mutation process in proteins [A39 79-37972]

Some characteristic features of the origin and evolution of the amino acid composition of proteins - A theoretical consideration [A39 79-37973]

Are evolutionary rates really variable --- in vertebrate protein chemistry

On investigating the statistical properties of the populous path algoriths by computer simulation - Counterconclusions to those of Tatsuo and Wei --- for mutational change in protein evolution [A39 79-45640]

Inadequacy of probiotic synthesis as origin of proteinous asino acids

Polygperataldehyde - as new react for coupling proteins to microspheres and for labeling cell-surface receptors

Energy transduction in Halobacterium halobium
Proton beams

Protein fractions and enzymatic activity thereof in the rat myocardial after the flight on Kosmos-690 biosatellite

A technology assessment of vegetable substitutes for animal protein in human food. Volume 1: The study [PB-284681/4]

A technology assessment of vegetable substitutes for animal protein in human food. Volume 2: Appendices [PB-284682/2]

Effect of 95-day flight on parameters of immunological reactivity and protein composition of blood of the crew of Salyut-5

Analysis of visible spectra and thermodynamic parameters in hemoprotein systems

Physiological effects of a high soybean protein diet in man

Characteristics of proteins of some unicellular organisms as potential components of ecological life support systems

Effects of gravity on contractile proteins [NASA CR-160303]

Proton beams

Relationship between proton active force and potassium ion transport in Halobacterium halobium envelope vesicles

Protoplast

Ultrastructural development of the vestibular system under conditions of simulated weightlessness

Protoproteins

The origin of life on earth - Recent studies

Evolution in open systems - Acquisition and conservation of information in bioids

Prototypes

Spacecraft utensil/hand cleansing fixture [NASA CR-151806]

Spacecraft utensil/hand cleansing fixture, addendum [NASA CR-151804]

The proto-type wrist joint assembly TACPW (Triple Axis Conson Pivot Arm Wrist), phase 2 [NASA CR-150885]

Protoplasm

Psychological tests

The influence of intermittent aircraft noise on sleep. I

Physical and mental working environment in a terminal based computer system

Stress and fatigue in the driving environment - physiological and psychological effects of heat and noise experienced inside automobiles

Psychological factors

False hypothesis and the pilot --- aircraft accidents due to decision making errors

Vibration, performance, and personality --- vibration effects on human performance and psychological factors

Experimental and psychological investigations in aviation and astronautics --- Russian book

Role of autogenic training in psychophysiological conditioning of aviation school students

Engineering-psychological study of information imaging systems - manual control of spacecraft docking

Psychologists vs engineers --- flight simulators training requirements

Investigation of psychological compatibility of crew members of multiseat aircraft

Aeromedical aspects of flying training with special reference to instructor pupil relationship

Psychological training - One of the most important factors of enhancing the safety of space flights

Judgement evaluation and instruction in civil pilot training

Variability in human body size

Effects of uncertainty on manual tracking performance --- visual tasks

Masculinity, femininity, androgyny. What really works at work

Human processing of information and the computerized node of presentation: Ergonomic parameters

Psychological selection of Spaceland payload specialists: The evaluation of German applicants

Psychological Index A

Psychological tests

An Air Combat Effectiveness Study ACES program

Psychological selection of payload astronauts

Location of the effect of specific practice in continuous visual search

Chromatic border distinctness - Not an index of hue or saturation differences

A further investigation of visual dominance

Personality characteristics of pilots on CPPS, MPI, and DOSEFU test. II - Comparison among pilots, non-pilot officers and aviation students

Relationship between the reproduction tactics and the major indices of speech retention-reproduction processes

Design, fabrication and utility of a Flight oriented performance test

Information processing in humans, volume 3. A bibliography with abstracts

Quantification and validation of percept-genetic defense mechanisms. A hierarchical analysis of
Psychophysiological forecasting of efficiency

Intrinsic noise, threshold sensitivity, and adaptation of the retina

Human psychophysics in extremal conditions

Russian book on polar region adaptation

Role of autogenic training in psychophysiological conditioning of aviation school students

Spatial frequency masking in human vision

Binocular interactions

Guidelines for designing machines and devices for acoustic vibrations from the point of view of the physiological and psychological properties of the human organism

Psychophysiological effects of aging: Developing a functional age index for pilots. 2: Taxonomy of psychological factors

Information processing in humans, volume 2. A bibliography with abstracts

Effect of psychophysiological self-regulation on emotional stability of aviation cadets in flight and on effectiveness of assimilation of flight training program

Ergonomics laboratory studies pilots' stability for command --- psychophysiological characteristics

Heart rate: Physiological characteristics and quantification methods for use in behavioral studies

Psychophysiological effects of aging: Developing a functional age index for pilots. 3: Measurement of pilot performance

Perceived quantization error. Effect of quantization function, reconstruction function and number of levels

Contributions of psychophysiological techniques to aircraft design and other operational problems

Psychosis in air force flight personnel during the last 25 years

Evaluation of biofeed therapy

Psychophysiology

Effects of low temperature on in vivo and in vitro protein synthesis in Escherichia coli and Pseudomonas fluorescens

Public health considerations associated with a Mars surface sample return mission

A new case of autochthonous malaria in the Paris region associated with fragmentation of airports

A literature review-problem definition studies on selected toxic chemicals. Volume 1: Occupational health and safety aspects of diesel fuel and white smoke generated from it

The role of physical examinations and education in health effects associated with diesel exhaust emissions, literature review and evaluation

Environmental monitoring in the USSR and biogenic practice --- anthropogenic effects

Health effects associated with diesel exhaust emissions

Biomedical and behavioral sciences, no. 81

Translations on USSR science and technology:

Nutagenic components of alternate energy sources

Psychophysiology

RT WORKLOADS (PSYCHOPHYSIOLOGY)
PULMONARY CIRCULATION

Growth of pulmonary circulation in normal pig - Structural analysis and cardiopulmonary function [AGARD-AR-131] p0067 A79-18961
Pulmonary blood volume and interventricular circulation time in physically trained and untrained subjects [PB-291595/7] p0128 A79-24700
Cardiopulmonary readjustments in passive tilt p0277 A79-50001
The lung as a filter for microbubbles p0277 A79-50906
Noninvasive assessment of pulmonary hypertension using bubble ultrasonic ringing (BURP) method, part 2 [PB-28395/5] p0051 A79-12699
Noninvasive assessment of pulmonary hypertension [PB-285121/0] p0057 A79-13701
A systematic approach to computer analysis of pulmonary vascular patterns p0176 A79-21756
The pulmonary circulation: Studies on alveolar hypoxia and vascular smooth muscle metabolism p0195 A79-23650

PULMONARY FUNCTIONS

Monitoring the state of the human airways by analysis of respiratory sound [TAP PAPER 78-66] p0003 A79-11227
Growth of pulmonary circulation in normal pig - Structural analysis and cardiopulmonary function [AGARD-CP-231] p0067 A79-18961
Effects of exercise, vitamin E, and ozone on pulmonary function and lipid peroxidation p0067 A79-18965
Distribution of pulmonary ventilation and perfusion during short periods of weightlessness p0068 A79-18967
Changes in lung volume, lung density, and distribution of ventilation during hypobaric decompression p0185 A79-33806
Glucose metabolism in rat lung during exposure to hyperbaric 02 p0221 A79-36047
Improved measurements of shear modulus and pleural membrane tension of the lung p0236 A79-43702
Distribution of regional volumes and ventilation in excised canine lobes p0236 A79-43703
A revised model of gas transport in human lungs p0253 A79-45766
Pulmonary functional tolerance to ionizing radiation - An experimental study p0256 A79-46601
Adaptation to chronic hypoxia in the rat - A study of pulmonary surfactant, tissue levels of superoxide dismutases and histology p0256 A79-46603
Absence of effects of hypoxia on small airway function in humans p0268 A79-47585
Pulmonary function and maximum exercise responses following acute ozone exposure p0273 A79-49987
Lung inflation and longitudinal distribution of pulmonary vascular resistance during hypoxia p0277 A79-50905
Evidence for increased intrathoracic fluid volume in man at high altitude p0305 A79-54266
Specific Findings in Cardiology and Pulmonary Function with Special Emphasis on Assessment criteria for flying [AGARD-CP-231] p0028 A79-11705
Detection and supervision of obstructed respiratory flow in flyers. Advantages of debili-volume graphs p0028 A79-11707
Long term pulmonary function patterns in the aviator: The thousand aviator study p0028 A79-11708
Specific findings in cardiology and pulmonary function with special emphasis on assessment criteria for flying p0171 A79-20731
Effects of oxides on nitrogen, Carbon monoxide and photochemical oxidants on the ECG during exercise and on cardiopulmonary function [PB-291595/7] p0177 A79-21763
Cardio-pulmonary response to shock [AD-A065672] p0196 A79-23659
Pneumotachographic distinctions of external respiration in man in the presence of excess intrapulmonary pressure on ground level and at high altitudes p0245 A79-27627
Possibility of improving assessment of cardio-pulmonary function by submaximal exercise on a bicycle ergometer [HILL-RPT-11657] p0279 A79-30918

PULMONARY LESIONS

The effects of strong shock waves on mortality rates and percentages of pulmonary lesions in rats as a function of the number of exposures [NASA-TR-75598] p0053 A79-13676
Evidence for increased intrathoracic fluid volume in man at high altitude [AD-A065633] p0220 A79-25743

PULMONARY RADIATION

The cardio-pulmonary response to shock [AGARD-AR-131] p0171 A79-20729
Specific findings in cardiology and pulmonary function with special emphasis on assessment criteria for flying p0171 A79-20731
Effects of oxides on nitrogen, Carbon monoxide and photochemical oxidants on the ECG during exercise and on cardiopulmonary function [PB-291595/7] p0177 A79-21763
Cardio-pulmonary response to shock [AD-A065672] p0196 A79-23659
Pneumotachographic distinctions of external respiration in man in the presence of excess intrapulmonary pressure on ground level and at high altitudes p0245 A79-27627
Possibility of improving assessment of cardio-pulmonary function by submaximal exercise on a bicycle ergometer [HILL-RPT-11657] p0279 A79-30918
Contrast effects on smooth-pursuit eye movement velocity
Velocity precision in smooth pursuit eye movements
Digital man-machine control systems - The effects of preview lag
The role of perceived motion in smooth pursuit eye movements
The effect of expectations on slow oculomotor control. I - Periodic target steps. II - Single target displacements
Separation of the effects of raised ankle and core temperature on performance of a pursuit rotor task
Tracking-task performance during heat stress simulating cockpit conditions in high-performance aircraft
Pilot-optimal angulation of the air-to-air tracking task
Pursuit after-nystagmus
Effect on performance of cycling deep body temperature between 37.0 and 37.6 C
Mechanisms of the effects of vibration frequency, level and duration on continuous manual control performance
Optokinetic reactions in man elicited by localized retinal motion stimuli
Pushing
A prediction model of arm push strength in the transverse plane

RADIATION EFFECTS

RADIATION DETECTORS

- Role of n-α-aminobenzoic acid in repairing UV and gamma radiation damage
- Spermatogenesis in dogs during years of chronic exposure to gamma radiation and in the aftereffect period
- DNA content of animal organs during space flight on Kosmos-650 satellite
- Ultrastructure of lymph nodes of dogs exposed to long-term external gamma radiation

SUBJECT INDEX

- Biological effects of electromagnetic fields
- Effect of electromagnetic fields in long-, medium-, and short-wave ranges on biological objects
- Cell mechanisms for the biological effects of electromagnetic fields
- The Biostack experiment in the U.S. long exposure duration test program
- Preliminary results of Cytox experiment flown in Salyut VI - Investigations of Paramecium aurelia
- A hypothesis of plasma absorption of RF energy by biological objects
- Thermal effects during the exposure of ocular fundus tissues to laser radiation
- Biomedical and behavioral sciences, no. 57, portion of experiment 5-206
- Translations on USSR science and technology: Biomedical and behavioral sciences, no. 53
- Effects of nonionizing electromagnetic radiation
- Investigations of the activity of some enzymatic systems in response to a super-high frequency electromagnetic field
- Effects of intermittent magnetic field on activity of carbohydrate metabolism enzymes and oxygen uptake in testicular tissue
- Effects of microwaves on catecholamine metabolism in the brain
- Dependence of the functional activity of liver alchohol dehydrogenase on microwave radiation --- oxidative phosphorylation
- Mechanism of effects of microwaves on erythrocyte permeability for potassium and sodium ions
- Changes in metabolism of soleus muscle tissue in rats following the flight aboard the Kosmos-690 biosatellite
- Effect on mice of microwaves in the non-thermal intensity region. Respiration, rectal temperature and mental reaction
- The effect of 17α-ethynylestradiol on the rat behavior in maze after flight aboard Kosmos-690 biosatellite
- A hypothesis of plasmonic absorption of N? energy

RADIATION DISTRIBUTION

- noen advances in astronaut radiation dosimetry
- The time parameter in exposures to microwave radiation --- rodent experiments on damage and recovery
- Development capacity of arteries cysts and lettrice seeds flown in Cosmos 936 and directly exposed to cosmic rays
- Electromagnetic absorption in a multilayered model of man
- Autoradiographic enhancement of mammograms
- The dose rate of cosmic ray radiation received by a biological target in the stratosphere and at altitudes of satellite orbits
- Time parameter in microwave irradiation --- rodent experiments on damage and recovery
- Comparative analysis of causes of animal deaths during chronic exposure to gamma radiation and the aftereffect period

RADIATION DOSAGE

- Space radiation dosimetry onboard COSMOS 936: US portion of experiment K-206
- Translations on USSR science and technology: Biomedical and behavioral sciences, no. 57
- Atmospheric neutrons
- Dose-effect relationships for ultrasound irradiation of brain tissue
- Problems related to the assessment of safe exposure levels for radio frequency and microwave radiation
- Dose-rate conversion factors for external exposure to photon and electron radiation from radionuclides occurring in routine releases from nuclear fuel cycle facilities
- Cell biology basis for the life of an organism in the radiation field
- Metabolic and physical scaling in microwave/radiofrequency bioeffects studies
- Health effects of low-level ionizing radiation

RADIATION EFFECTS

- Light flashes in space --- cosmic ray interaction with astronaut visual system
- Electromagnetic power absorption in cylindrical tissue models excited by a loop antenna
Thermal effects during the exposure of ocular fundus tissues to laser radiation p023a A79-43057

Effects of high-LET neon /Ne-20/ particle radiation on the brain, eyes and other head structures of the pocket mouse - A histological study p0252 A79-44798

Aviation and radiation hazards p0271 A79-49727

Effect of microwave radiation on the resistance of rats to transverse acceleration loading p0275 A79-50496

Time parameter in microwave irradiation --- recent experiments on damage and recovery p0277 A79-50694

Role of t-aminobenzoic acid in repairing UV and gamma radiation damage p0301 A79-53211

Laser eye protection for flight personnel, volume 1 [AD-A057417] p0034 A79-11747

RADIOCHEMISTRY

RADIOGRAPHY

RT ARGOGRAPHY

RT AUTOGRAPHY

RT TONOGRAPHY

Iodine imaging using spectral analysis --- radiography for visualization of small blood vessels p0294 A79-51034

Radiographic comparison of human lung shape during normal gravity and weightlessness p0305 A79-5269

Histological studies on tibial bone of rats in the 1975 COSMOS-782 flight. Part 2: Microradiographic study of cortical bone p0022 A79-11666

Mineralization in teeth and jaws, as judged radiographically, in rats of the COSMOS-782 experiment p0022 A79-11667

A systematic approach to computer analysis of pulmonary vascular patterns p0176 A79-21756

RADIOIMMUNOASSAY

Obtaining growth hormone from calf blood [NASA-TR-75326] p0283 A79-31895

RADIOLOGY

Radiological diagnosis of spinal injuries and deformities p0272 A79-49735

Radiological examination of the Machin and fitness for employment as a helicopter pilot p0151 A79-19634

Vertebral pain in helicopter pilots --- symptomsology and radiology p0153 A79-19656

Computed axial tomography (CAT) [ISS-5/G-78/4] p0262 A79-29794

RADIOANATOMY

Comparative analysis of causes of animal deaths during chronic exposure to gamma radiation and the aftereffect period p0016 A79-10718

Effects of long-term and chronic radiation on hemoipoiesis p0016 A79-10719

Morphological study of adrenals of rats irradiated during flight aboard Kosmos-690 satellite p0108 A79-16517

RADIOPROTECTIVE AGENTS

U ANTIRADATION DRUGS

RADIOSENSITIVITY

U RADIATION TOLERANCE
Studies of amino acid metabolism in the muscles of rats flown aboard the biosatellite Cosmos 782

p0230 879-41714

Abnormality of gastric ulceration in rats after flight on the COSMOS 782

p0021 879-11660

Experiment E-002: Results of histological examination of inguinal lymph nodes, supplementary report -- COSMOS 782 satellite

p0021 879-11662

Alterations in erythrocyte survival parameters in rats after 19.5 days aboard COSMOS 782

p0021 879-11663

Effects of space flight on plasma and granulocyte concentrations of pituitary hormones -- COSMOS 782 satellite

p0021 879-11664

Histological studies on tibial bone of rats in the 1975 COSMOS-782 flight. Part 1: Endochondral osteogenesis; medullary bone turnover

p0022 879-11665

Histological studies on tibial bone of rats in the 1975 COSMOS-782 flight. Part 2: Microradiographic study of cortical bone

p0022 879-11666

Mineralization in teeth and jaws, as judged radiographically, in rats of the COSMOS-782 experiment

p0022 879-11667

The lymph nodes and lymph vessels of the white rat [SLL-BTS-11309]

p0141 879-18556

Preparation of some prostaglandin E sub 1 omega-homo-prostaglandin E sub 1 tetraesters and their inhibiting properties on rat blood platelet aggregation

p0239 879-26765

Influences of dietary fats on coronary flow rate and left ventricular work of the isolated rat heart

p0239 879-26766

effects of dietary fats on coronary flow rate and the left ventricular function of the isolated rat heart

p0239 879-26767

RAYLEIGH SCATTERING

Accuracy of RSD approximation for computing light scattering properties of diffusing and motile bacteria -- Rayleigh-Gans-Debye

p0233 879-42448

REACTION KINETICS

Photochemical transformations of the visual pigment rhodopsin

p0181 879-32319

A simple analogical model for the selection of optical activity and of the most efficient catalysts in the course of molecular evolution

p0204 879-42948

Preliminary results of Cytos experiment flows in Salyut VI - Investigations of Paramecinu aurelia

p0229 879-41709

Polyglutaraldehyde - A new reagent for coupling catalysts in the course of molecular evolution

p0274 879-50230

Initialisation of rate constants in the Michaelis-Menton model [AD-970360]

p0307 879-32824

REACTION TIME

Effects of information processing requirements on reaction time of the eye

p0068 879-18219

Correlation of choice reaction time performance with biohybrid criticality and cycle phase

p0102 879-23417

Spatial summation in human vision - Simple reaction time measurements

p0265 879-47115

Electrophysiological correlates of local muscular fatigue effects upon visual reaction time

p0297 879-52025

Target redundancy in visual search - Do repetitions of the target within the display impair processing

p0299 879-52501

Effects of information processing requirements on reaction time of the eye [AD-970360]

p0068 879-18219

Directional errors of movements and their correction in a discrete tracking task -- pilot reaction time and sensori-motor performance

p0086 879-15599

AAA gunner model based on observer theory -- predicting a gunner's tracking response

p0068 879-15594

Discrete-time pilot model -- human dynamics and digital simulation

p0087 879-15594

The effect of acceleration and seat back angle on performance of a reaction time task [FPERC-1364]

p0248 879-27857

ULTRASONIC TESTS
ULTRASONIC SPECTROSCOPY
ULTRASONIC RADIATION
ULCERS
88-1 HELICOPTER
U.S.S.R. SPACE PROGRAM
Detection of bubbles in decompression sickness
Dose-effect relationships for ultrasound
Biomedical ultrasonoscope
The effect of ultrasound on botulinum toxin
Effect of ultrasonic irradiation on mammalian cells and chromosomes in vitro
Absence of gastric ulceration in rats after flight on the Cosmos 936
Aviator visual performance: A comparative study
Backache in 011-1D helicopter crews
Human exposure to mechanical vibration at lying posture in the ambulance helicopter UH-1D

C.S.S.R. SPACE PROGRAM
The joint SS-USSR biological satellite program
Experiment K-002: Results of histological examination of inguinal lymph nodes, supplementary report --- COSMOS 782 satellite
US experiments flown on the Soviet satellite COSMOS 936
The Cosmos 936 mission
Light and color on a manned spacecraft
Space Biology and Aerospace Medicine, no. 4, 1979

UH-1 HELICOPTER
Night vision goggles and in-flight evaluation of the inside/outside refocusing problems in a UH-1 helicopter
Night rescue operation procedure over sea with bell UH-1D helicopters
An evaluation of the effects of a stability augmentation system upon aviator performance/workload during a MEDIVAC high hover operation
Human exposure to mechanical vibration at lying posture in the ambulance helicopter UH-1D
Backache in UH-1D helicopter crews
Aviator visual performance: A comparative study of a helicopter simulator and the UH-1 helicopter

ULCERS
Absence of gastric ulceration in rats after flight on the Cosmos 782
Indomethacin-antihistamine combination for gastric ulceration control
Ultrasound frequencies: The effect of microwave fields on muscle oxygen pressure and temperature in animals previously adapted to hypoxia

ULTRASONIC RADIATION
Effect of ultrasonic irradiation on mammalian cells and chromosomes in vitro
The effect of ultrasound on botulinum toxin
Biomedical ultrasonoscope
Dose-effect relationships for ultrasound
Irradiation of brain tissue
A continuous wave, frequency modulated, ultrasonic device with auditory output for observing the heart

ULTRASONIC TESTS
Detection of bubbles in decompression sickness
A sample volume tracking unit for pulsed doppler echocardiography
Early cardiovascular adaptation to zero gravity simulated by head-down tilt

Blood clotting factors of the vascular wall and myocardium of hypokinetic rabbits

Tissular blood clotting factors of vascular walls and myocardium during hypokinesia

Regional coronary blood flow at rest and during high sustained 4Gz in a miniature wild with subclinical, ischemic, coronary heart disease due to coronary stenosis

Application of numerical methods to physiological flows --- Niver-stokes equations, prothetic heart valves and vasocostruction

Development capacity of artesia cysts and lettuce seeds flown in Cosmos 936 and directly exposed to cosmic rays

A technology assessment of vegetable substitutes for animal protein in human food. Volume 2: Fishes, dogs, and mammals

Algal growth under multiple nutrient limiting conditions

Doppler detection of thresholds for decompression-induced venous gas emboli in the awake rat

Human discomfort response to noise combined with vertical vibration

The relationship between the apparent vertical and the vertical horopter -- visual perception of luminous line

Psychophysical assessment of vertical vibration - Comparison of vertical and roll vibrations

Vertical orientation of man during 5-day antiorthostatic hypokinesia (-4, -8 and -12 deg head down position)

Visual-vestibular interactions. I - Influence of peripheral vision on suppression of the vestibulo-ocular reflex and visual acuity

Biodynamics of aviation stresses on the vertebral column

Geotropism of hornet comb construction under compression

Human performance in concurrent verbal and meaningless verbal stimuli

Biodynamic assessment of angular vibration - Comparison of vertical and roll vibrations

The study

Dynamic response of vertebral elements related to USAF injury

Psychosocial aspects of syncope and vertigo in aircrew

The application of vectorcardiography to aerospace medicine

A technology assessment of vegetable substitutes for animal protein in human food. Volume 1: Chickens, goats, and mammals

The study

Application of numerical methods to physiological flows --- Niver-stokes equations, prothetic heart valves and vasocostruction

The relationship between the apparent vertical and the vertical horopter --- visual perception of luminous line
Vestibular Tests

The responses of frogs to vestibular and visual stimulation in weightlessness
Vestibular Function Research aboard Spacelab
[ASME PAPER 79-EBAS-25]
Motion sickness susceptibility - A retrospective comparison of laboratory tests
Space Sled - A multipurpose apparatus for vestibular research aboard Spacelab
[DGLR PAPER 78-132]
Results of tests of the equilibrium organ of candidates for payload expert for the first Spacelab mission
[DGLR PAPER 78-134]
Hemodynamic indices under orthostatic and vestibular effects
Effects of vestibular stimuli on the electrical activity of muscles
Quality of retinal image stabilization during small natural and artificial body rotations in man
A model for vestibular function in altered gravitational states
Male and female characteristics in vestibular testing - A step toward the selection of the best participants for space flight
A method of evaluating the pupillary reaction to vestibular stimuli
Vestibular Function Research (VFR) experiment. Phase B: Design definition study
[VFR PAPER 79-15207]
Role of vestibular system in behavior of animals submitted to prolonged slow rotation
Vestibular illusions of vestibular origin
The vestibule and flying -- pilot simulation
Vestibular and structural development of the vestibular system under conditions of simulated weightlessness
Vestibular and structural development of the vestibular system of frog larvae in 0g simulation
Neurophysiological bases of vestibular conditioning
Vestibular influences on other sensory and motor processes -- human performance in flight simulation studies

Vibration

Evaluation of the amount of exposure to vibrations transmitted to the whole body case of vibrations due to a loader mounted on catapiller tracks, a fork lift truck and a hydraulic excavator
[RAE-LIB-TRANS-1930]
The influence of mechanical vibration and noise on the peripheral blood circulation at skin level
[RAE-LIB-TRANS-1980]
Human exposure to mechanical vibration and noise under conditions of simulated weightlessness
[AVGARD-CP-253]
A model for predicting human comfort response to combined noise and vertical vibration
Human comfort response to noise combined with vertical vibration
[BAE-TP-1374]
Effects of vibration on the human organism
[BAE-TP-27862]
The effects of whole-body vibration on health
[AD-099878]
The use of spinal analogue to compare human tolerance of repeated shocks with tolerance of vibration, part I
Progress in measuring and modeling the effects of low frequency vibration on performance
Significance of the vibration component to the deleterious effect of impact accelerations

Vibration Measurement

Progress in measuring and modeling the effects of low frequency vibration on performance

Vibration Perception

Intensity judgements of non-sinusoidal vibrations - Support for the ISO weighting method
Psychophysical assessment of angular vibration - Comparison of vertical and roll vibrations
Sensorial aspects of helicopter operations

Vibration Simulators

Psychophysical assessment of angular vibration - Comparison of vertical and roll vibrations
The influence of low frequency vibration on pilot performance /as measured in a fixed base simulator/

Mechanisms of the effects of vibration frequency, level and duration on continuous manual control performance

The influence of mechanical vibration and noise on the peripheral blood circulation at skin level
[RAE-LIB-TRANS-1980]
Investigation on the effect of mechanical properties of control elements on human control performance under stochastic roll vibrations
[AVGARD-CP-253]
A model for predicting human discomfort response to combined noise and vertical vibration
Human discomfort response to noise combined with vertical vibration
[AVGARD-CP-253]
Effects of vibration on the human organism
[BAE-TP-27862]
The effects of whole-body vibration on health
[AD-099878]
The use of spinal analogue to compare human tolerance of repeated shocks with tolerance of vibration, part I
Progress in measuring and modeling the effects of low frequency vibration on performance
Significance of the vibration component to the deleterious effect of impact accelerations

Mechanisms of the effects of vibration frequency, level and duration on continuous manual control performance
WATER RECLAMATION

QUALITY OF WATER RECLAIMED FROM URINE AS RELATED TO pH OF INITIAL PRODUCT  
A SYSTEM FOR STERILIZING OBJECTS --- SUCH AS WATER SYSTEMS ON THE SPACE SHUTTLE USING ETHYLENE OXIDE  

WATER RECLAMATION

WATER TEMPERATURE

REGIONAL HEAT LOSS IN RESTING MAN DURING IMMERSION IN 25.2 °C WATER  
MINIMUM SEA SURFACE TEMPERATURES AND ASSOCIATED SURVIVAL TIMES  
[AD-A070162]  p0315 N79-33809

WATER TREATMENT

A THEORETICALLY INTEGRATED MEMBRANE EVAPORATION SYSTEM  
[ASME PAPER 78-EMAS-19]  p0007 N79-12568

WATER SYSTEM VIRUS DETECTION

FOUR-PAN RATED DUAL CATALYST SYSTEM FOR THE RECOVERY OF WATER FROM URINE  
[MICROFLORA OF WATER RECLAIMED IN SEALED COMPARTMENTS]  p0112 N79-16550

MICROFLORA OF WATER RECLAIMED IN SEALED COMPARTMENTS  
[MICROFLORA OF WATER RECLAIMED IN SEALED COMPARTMENTS]  p0193 N79-21630

QUALITY OF WATER RECLAIMED FROM URINE AS RELATED TO pH OF INITIAL PRODUCT  
[MICROFLORA OF WATER RECLAIMED IN SEALED COMPARTMENTS]  p0313 N79-33807

WATER RECOVERY

WATER TEMPERATURE

REGIONAL HEAT LOSS IN RESTING MAN DURING IMMERSION IN 25.2 °C WATER  
MINIMUM SEA SURFACE TEMPERATURES AND ASSOCIATED SURVIVAL TIMES  
[AD-A070162]  p0315 N79-33809

WAVE DIFFRACTION

DIFFRACTION-BASED CHARACTERIZATION OF BIOLOGICAL TISSUE WITH ULTRASOUND --- ASYNCHRONOUS SCATTERING FROM LIVER TISSUE  
[DIFFRACTION-BASED CHARACTERIZATION OF BIOLOGICAL TISSUE WITH ULTRASOUND --- ASYNCHRONOUS SCATTERING FROM LIVER TISSUE]  p0054 N79-13683

WAVE OSCILLATORS

WAVE PROPAGATION

WAVE SCATTERING

WAVE RADIATION

WAVE SCATTERING

WAVE UPHILL SCATTERING

WAVE FORMATION

WAVE PULSE DURATION

WAVELENGTH DEPENDENCE OF ULTRAVIOLET-ENHANCED REACTIVATION AND INDUCTION OF MASSALIAN VIRUSES [R-NO-76-FDA-78-8059]  p0084 N79-15775

WEAK ENERGY INTERACTIONS

QUANTITATIVE ASPECTS OF THE EFFECT OF WEAK INTERACTION DURING CHEMICAL EVOLUTION  
[QUANTITATIVE ASPECTS OF THE EFFECT OF WEAK INTERACTION DURING CHEMICAL EVOLUTION]  p0204 N79-37959

WEAPON SYSTEMS

VISUAL EFFECTS OF HELICOPTER MANEUVER ON WEAPON AIMING PERFORMANCE  
HUMAN FACTORS EVALUATIONS OF TODAY'S HELICOPTERS AS AN AID TO FUTURE SYSTEMS DESIGN  
[VISUAL EFFECTS OF HELICOPTER MANEUVER ON WEAPON AIMING PERFORMANCE]  p0150 N79-19626

WEAPONS

WEIGHT (MASS)

WEIGHT (MASS)

WEIGHT BODY WEIGHT

WEIGHT ANALYSIS

WEIGHT CONTROL AND RESTRAINT OF LABORATORY RATS  
[WEIGHT CONTROL AND RESTRAINT OF LABORATORY RATS]  p0133 A79-26590

WEIGHT REDUCTION

COMPUTER DESIGN SYNTHESIS OF A BELOW KNEE-SYMPHYSIS PROSTHESIS  
[COMPUTER DESIGN SYNTHESIS OF A BELOW KNEE-SYMPHYSIS PROSTHESIS]  p0251 A79-45400

WEIGHTING FUNCTIONS

INTENSITY JUDGMENTS OF NON-SINUSOIDAL VIBRATIONS --- SUPPORT FOR THE ISO WEIGHTING METHOD  
[INTENSITY JUDGMENTS OF NON-SINUSOIDAL VIBRATIONS --- SUPPORT FOR THE ISO WEIGHTING METHOD]  p0010 A79-12668

WEIGHTLESSNESS

PROLONGED WEIGHTLESSNESS AND CALCIUM LOSS IN MAN

THE EFFECTS OF THE CONSEQUENCES OF FLUID AND ELECTROLYTE SHIFTS IN WEIGHTLESSNESS

EXPERIMENT CHLOROELLA 1 ON BOARD OF SALYUT 6

SPACE MICE --- A PROGNOSIS FOR FUTURE RESEARCH

THE RESPONSES OF FROGS TO VIBRATORY AND VISUAL STIMULATION IN WEIGHTLESSNESS

AGGREGATION OF RED CELLS AND BLOOD VISCOSITY AS MODELS OF MATERIALS EXPERIMENTATION IN THE SPACE ENVIRONMENT

COSMOS 782: RESPONSES OF CROWN GALL TISSUE TO THE SPACE ENVIRONMENT

COSMOS 782: THE INORPHOGENETIC RESPONSES OF CULTURED TOTIPOTENT CELLS OF CARROT (DAUCUS CAROTA L.) AT ZERO GRAVITY

COSMOS 782: RESPONSES OF CROWN GALL TISSUE TO THE WEIGHTLESSNESS ENVIRONMENT

COSMOS 782: EFFECTS OF WEIGHTLESSNESS ON THE DEVELOPMENT AND AGING OF DROSOPHILA

COSMOS 782: THE MORPHOGENETIC RESPONSES OF CULTURED TOTIPOTENT CELLS OF CARROT (DAUCUS CAROTA L.) AT ZERO GRAVITY

COSMOS 782: EFFECTS OF WEIGHTLESSNESS AND CENTRIFUGATION (LXG) ON ERYTHROCYTE SURVIVAL IN RATS SUBJECTED TO PROLONGED SPACE FLIGHT

A-212
WEIGHTLESSNESS SIMULATION

Anthropometric changes in weightlessness

Materials of the final reports on the Joint Soviet-American experiment on the Kosmos-936 biosatellite

Changes in amount and composition of phospholipids in rat skeletal muscle microsomal fraction under the influence of a flight aboard the Kosmos-690 biosatellite

Man-machine analysis of translation and work tasks of Skylab films

Quantitative analysis of selected bone parameters

Problems of human adaption to spaceflight

The adrenosympathetic system in the presence of weightlessness

Distribution of pulmonary ventilation and perfusion during short periods of weightlessness

A model for vestibular function in altered gravitational states

Prophylactic effects of intermittent acceleration against physiological deconditioning in simulated weightlessness

Comparison of physiological effects of head-down tilting and immersion on the human body

Ultrastructural development of the vestibular system under conditions of simulated weightlessness

Early cardiovascular adaptation to zero gravity simulated by head-down tilt

Ultrastructural development of the vestibular system of frog larvae in G0 simulation

Cardiac arrhythmia following postimmersion G0 sub z accelerations

Physiological responses of women to simulated weightlessness: A review of the first female bed-curt study

Role of vestibular system in behavior of animals submitted to prolonged slow rotation

Antiorthostatic hypokinesia as an approximate model of weightlessness

Correction of transcapillary exchange in man under the influence of rotation on a centrifuge while immersed in water

Effects of hypodynamic simulations on the skeletal system of monkeys

Listings in this index are arranged alphabetically by personal author. The title of the document provides the user with a brief description of the subject matter. The report number helps to indicate the type of document listed (e.g., NASA report, translation, NASA contractor report). The page and accession numbers are located beneath and to the right of the title. Under any one author’s name the accession numbers are arranged in sequence with the accessions numbers appearing first.
The effect of plasmoidal slime on the metabolism of haploid cells of Physarum flavicomum and the respiration of isolated mitochondria

Perceptual localization, feature identification and ocular motor factors in scanning a visual display

Evaluation of kinesthetic-tactual displays using a head-up display for mid-air drone recovery

Vertebral pains in helicopter pilots

Radiological examination of the Rachis and fitness for employment as a helicopter pilot

Field evaluation of experimental crash-crew firefighter's facepiece

Radiological examination of the Rachis and fitness for employment as a helicopter pilot

A head-up display for mid-air drone recovery

Evaluation of kinesthetic-tactual displays using a critical tracking task

Computer-graphics design for human performance

Results of tests of the equilibrium organ of candidates for payload expert for the first Spacelab mission

The evolutionary pattern of exercise-induced ST depression

Unsteady-state response of the vascular system to transient and sustained aerospace acceleration profiles

How does the saccadic eye movement controller adapt for pathological states

The trajectories of saccadic eye movements

Linearization and sensitivity analysis of model operator reach profiles

Male and female characteristics in vestibular testing – A step toward the selection of the best participants for space flight

Isolation of virus-augmented tumor antigens

Determination of maximum permissible exposure to laser radiation of 1.58-micron wavelength

Unsteady-state response of the vascular system to transient and sustained aerospace acceleration profiles

Helmet weight simulator

Possibilities of preventing adverse reactions in the acute period of adaptation to weightlessness

Cerebral hemodynamics and visual analyzer function following exposure to bright light

A comparison of sweating responses in men and women before and after acclimation to humid heat exposure to laser radiation of 1.58-micron wavelength

Integraion of literature and accommodation model

Use of the systems analytic approach for organization and coordination of complex biomedical research

Use of the systems analytic approach for organization and coordination of complex biomedical research

Seating, console, and workplace design - Seated transient and sustained aerospace acceleration profiles

Seating, console, and workplace design - Seated transient and sustained aerospace acceleration profiles

Model of human heat exchange and identification of its parameters - Physiological studies and mathematical modeling

The cosmonaut in flight - Biosatellite

Seating, console, and workplace design - Seated transient and sustained aerospace acceleration profiles

BAILEY, J. P.
The effect of increased monitoring load on vigilance performance using a simulated radar display
p0236 A79-43678

BAILEY, B.
Insulated firefighters’ crash-crew rescue boots and components: Field and laboratory evaluation
[AD-A0682646] p0262 A79-29795

BAILEY, R. T.
The prediction of the existence or nonexistence of coronary artery disease using routine clinical laboratory measurement
p0028 A79-11703

BAILEY, K. J.
p0062 A79-18201

BAILEY, R. L.
Response of crown gall tissue to the space environment: Residual carbohydrates in supporting tissue
p0020 A79-11653
Responses of crown gall tissue to the space environment: Tumor development and anatomy
p0020 A79-11659

BAILEY, D. G.
Hyperthermia in the treatment of cancer: A review of the radiobiological basis
p0017 A79-10729

BAILEY, D. W.
Cardiac blood flow measurement - A component of the comprehensive cardiac examination
p0295 A79-51041

BAILEY, R.
Responses of crown gall tissue to the space environment: Tumor development and anatomy
p0020 A79-11659

BALASHOV, T. S.
Dynamics of Cosmonauts’ blood biochemistry during space missions
p0072 A79-14717

BALASHOV, T. S.
Paradoxical reaction of some intracellular antioxidative defense mechanisms during adaptation of the organism to hypoxia
p0165 A79-30696

BALISH, R.
Effect of space flight on cell-mediated immunity
p0021 A79-11661

BARKER, N. U.
Attachment to autoclaved soil of bacterial cells from pure cultures of soil isolates
p0297 A79-51701

BARKER, J. A.
Two approaches to category representation in aural classification
[AD-A0670705] A79-25754
Predicting individual listener confusions in the classification of complex, steady-state sounds
[AD-A0670704] p0222 A79-25755
Classification of amplitude-modulated noise patterns with extended practice
[AD-A0670703] p0222 A79-25756

BARKER, R.
Intracardiac gas bubbles and decompression sickness while flying at 9,000 m within 12-24 h of diving
p0010 A79-12866
Case report - Intracardiac gas bubbles in relation to altitude decompression chokes
p0011 A79-12871

BARKER, R. W.
Effect of alcohol and marijuana on eye movements
p0101 A79-23469

BARKER, J.
Follow-up and transversal study of vital capacity and FEV sub values among personnel of the Belgian Army forces
p0028 A79-11706

BARKER, L. E.
Sustained operations and sleep deprivation - Effects on indices of stress
p0009 A79-12859

BARKER, K. E.
Effects of partial sleep deprivation on psychological performance and behaviour
p0200 A79-37130

BAIS, R. J.
Design, fabrication and utility of a flight oriented performance test
p0271 A79-49728

BAIYIN, A.
Chemical fingerprints of life in terrestrial soils and their possible use for the detection of life on Mars and other planets
p0136 A79-27929

BANK, H.
Gas diffusion liquid storage bag and method of use for storing blood

BARSHOV, A.
Synthesis of organic compounds from carbon dioxide and water by UV photolysis
p0099 A79-22077

BARABASHCHIKOV, V. A.
Form of oculomotor activity under conditions of positive visual feedback
p0276 A79-50657

BARANOV, V. E.
Norepinephrine action on smooth muscle cells of coronary arteries
p0208 A79-38149

BARANOV, E. R.
Energy expenditures of man during long exposure to a periodically changing atmosphere
p0312 A79-31799

BARANSKA, W.
Ultrasonic investigations of the soleus muscle after space flight on the Biosputnik 936
p0274 A79-49992

BARANSKY, S.
Stereoregulation ultrastructural analysis of the oesophageal endings in the neuromuscular junction of rats after a flight on biosputnik 782
p0103 A79-23468
Ultrasonic investigations of the soleus muscle after space flight on the Biosputnik 936
p0274 A79-49992
Preliminary selection of candidates for space flights
[IAF PAPER 79-83] p0302 A79-53289

BARABASHOV, V. A.
Characteristics of proteins of some unicellular organisms as potential components of ecological life support systems
p0246 A79-27834

BARBER, P. W.
Electromagnetic absorption in a multilayered model of soil
p0226 A79-40659

BARBER, E.
Biological study of tobacco seeds flown in the joint Apollo-Soyuz test-project
p0006 A79-12519

BARDLEY, J. E.
The Canadian forces Life Quality Improvement Programme
p0026 A79-11693

BARDWICK, J. B.
The effect of 1 to 5 keV electrons on the characteristics of proteins of some unicellular organisms as potential components of ecological life support systems
p0147 A79-19025

BARBER, A. S.
Physiologicohygienic and ergonomic aspects of Salut 6 cosmonauts extravehicular activity /EVA/
p0303 A79-53486
Probability of caisson disease while wearing a space suit when exiting from a spacecraft with an atmosphere close to that of earth
p0249 A79-27826

BARET, J.
Adaptation to chronic hypoxia in the rat - A study of pulmonary surfactant, tissue levels of superoxide dismutases and histology
p0249 A79-27826

BARFIELD, A. F.
Field experience with manually controlled unconventional aircraft motions
p0256 A79-46603

BARDWICK, J. B.
Biological implications of the Viking mission to Mars
p0088 A79-15602

BARBER, R. D.
Application of an isolated heart model to investigate blood-oxygen delivery
p0296 A79-51112
BEREGOV, G. T.

On the man's adaptation to the operator's work under stressful conditions of space flight ([JAP PAPER 78-5-56])

Experimental and psychological investigations in aviation and astronautics

P0041 A79-13998

Psychological training - One of the most important factors of enhancing the safety of space flights ([JAP PAPER 79-2-24])

P0303 A79-53426

BEREEHAIA, E. K.

Comparative evaluation of the effectiveness of visual and aural tracking of a sinusoidal signal

P0159 A79-28736

BEREZOV, V. P.

Comparative reactivity of the kidneys to laser radiation of 1.54-micron wavelength

P0002 A79-10648

BEREZOVSKI, V. A.

Individual differences in hypoxic responses at high altitudes

P0159 A79-28738

The physiological role of surface-active substances in the lung

P0296 A79-51117

BERGER, B. D.

Clinical importance of directional statistics for electrocardiographic differentiation of smoking habits

P0098 A79-21246

BERGER, E. D.

The effect of impact acceleration on the electrical activity of the brain

P0287 N79-31921

BERGH, U.

Physical performance and peak aerobic power at different body temperatures

P0221 A79-36946

BERGMANN, S. H.

The effect of moderate hypothermia on the circulatory and myocardial consequences of acute coronary ligation in dogs

P0049 N79-12683

BERGSTROM, D. A.

Effect of electroconvulsive shock on monoaminergic receptor binding sites in rat brain

P0162 A79-29925

BERGSTROM, S. L.

Thermal resistance of naturally occurring airborne bacterial spores

P0131 A79-20487

BEERING, D. H.

Response surface methodology as a manipulator of complex task difficulty

P0039 A79-13211

Collision avoidance response stereotypes in pilots and nonpilots

P0068 A79-18995

BERK, K. M.

Refinement of a computer simulation model for evaluating DAS display concepts

P0038 A79-13209

BERNO, T. A.

Adaptive optimization of exchange of gases in plants in a sealed phytotron

P0313 A79-33806

BERLINER, J. E.

The effects of discrete internal representations in the optimal model of the human operator

P0114 A79-17477

BERNOZEL, J. M.

Pilot performance during flight simulation with peripherally presented visual signals

P0063 A79-18213

BERNOLD, E. M.

Temperature changes during exercise measured by thermography

P0235 A79-43209

BERNOY, J.

Biological effects of electromagnetic fields

P0018 A79-33711

BERNO, W.

Biological specimen holding facilities for Shuttle/Spacelab experiments

P0003 A79-11224

BERNO, W. E.

Animal life support transporters for Space Shuttle/Spacelab

P0006 A79-12559

BERNS, D. M.

A correlation of the effects of cationic uncouplers on intact cardiac muscle and on calcium bound to isolated cardiac muscle plasma membranes

P0111 N79-16540

BERNSTEIN, V. I.

Epiphysis of rats under the combined action of hypoxia, hypercapnia and cooling

P0256 A79-46680

BESPAULOVA, L. A.

Ultrastructure of lymph nodes of dogs exposed to long-term external gamma radiation

P0312 A79-33804

BEVERLEY, L. D.

An illness-injury severity index

P0050 A79-12688

BEVERLEY, K.

The visual perception of motion in depth

P0210 A79-39087

BEHAGAYA, P. M.

Radiological diagnosis of spinal injuries and deformities

P0278 A79-50908

BECKING, C. A.

Report of the Workshop on Biological Screening Tests for Shuttle/Spacelab

P0279 A79-30916

BIET, K. C.

Analysis of PC02 differences during rebreathing due to slow pH equilibration in blood

P0067 A79-18958

BILAT, V. I.

Orenburg symposium on mycotoxins

P0175 A79-21749

BINNARD, R.

Quantitative analysis of eating behavior in aging male Brossiphila melanogaster

P0252 A79-44799

BIRK, J.

Visually estimating workpiece pose in a robot hand using the feature points method

P0269 A79-80018

A new application of LBNP to measure orthostatic tolerance before and after O-G simulation without immersion/ [JAP PAPER 79-87]

P0302 A79-53290

General methods to enable robots with vision to acquire, orient, and transport workpieces

P0113 P79-21749

BISCH, K. G.

Evoked potential correlates of display image quality

P0068 A79-18998

BISHOP, P. J.

Aircr mood protection against potential cerebral concussion in low-magnitude impacts

P0201 A79-37705

BITTERER, J. C., JR.

Effects of vibration on humans - Performance decrements and limits

P0035 A79-13185

Seating, console, and workplace design - Integration of literature and accommodation model

P0036 A79-13189
Effect of hypokinesia on animal resistance to chemical agents

The driving simulator developed by the Institute for Perception TM. A validation study in straight road driving (1978-16-FH-1)

Car driving as a cybernetic task (1979-6)

Cosmic ray effects on the eyes of stationary and centrifuged rats flown on COSMOS 936, experiment K-207

Development of recommendations to improve controls operability

Computer quantitation of coronary angiograms

Sensory illusions of vestibular origin

The effects of high nitrogen tensions of the gills of rainbow trout on the cardiovascular system

A simple technique for evaluation of vitality loss in aging mice, by testing their muscular coordination and vigor

Effect of hypoxia on the development of Drosophila melanogaster

Studies of venous circulation in the crew of the Salyut-5 orbital station

Stereopsis in monkeys using random dot stereograms

The development of the ATC selection battery: A new procedure to make maximum use of available information when correcting correlations for restriction in range due to selection

The morbidity experience of air traffic control specialists: A cost analysis of pilot training systems

Transitional intraventricular conduction defects observed during experimental impact in human subjects

The morbidity experience of air traffic control personnel - 1967-77

Cost analysis of pilot training systems

Two studies demonstrating methods to insure an accurate validity coefficient for selection devices

Recovery of skeletal muscle after 3 mo of hind limb immobilization in rats

Light flashes in space

The selection of air traffic control specialists: A theoretical model to estimate some ergonomic parameters from age, height and weight

A new application of LBFP to measure orthostatic tolerance before and after 0-g simulation /water immersion/

Closed regenerative life support systems for space travel - Their development poses fundamental questions for ecological science

A theoretical model to estimate some ergonomic parameters from age, height and weight

Abundance of organic compounds photochemically produced in the atmospheres of the Outer Planets

Closed regenerative life support systems for space travel - Their development poses fundamental questions for ecological science

Evaluation of the amount of exposure to vibrations transmitted to the whole body caused of vibrations due to a loader mounted on catapillar tracks, a fork-lift truck and a hydraulic excavator

BOLINER, J. A.

Effect of hypokinesia on animal resistance to chemical agents

The driving simulator developed by the Institute for Perception TM. A validation study in straight road driving (1978-16-FH-1)

Car driving as a cybernetic task (1979-6)

Cosmic ray effects on the eyes of stationary and centrifuged rats flown on COSMOS 936, experiment K-207

Development of recommendations to improve controls operability

Computer quantitation of coronary angiograms

Sensory illusions of vestibular origin

The effects of high nitrogen tensions of the gills of rainbow trout on the cardiovascular system

A simple technique for evaluation of vitality loss in aging mice, by testing their muscular coordination and vigor

Effect of hypoxia on the development of Drosophila melanogaster

Studies of venous circulation in the crew of the Salyut-5 orbital station

Stereopsis in monkeys using random dot stereograms

The development of the ATC selection battery: A new procedure to make maximum use of available information when correcting correlations for restriction in range due to selection

The morbidity experience of air traffic control specialists: A cost analysis of pilot training systems

Transitional intraventricular conduction defects observed during experimental impact in human subjects

The morbidity experience of air traffic control personnel - 1967-77

Cost analysis of pilot training systems

Two studies demonstrating methods to insure an accurate validity coefficient for selection devices

Recovery of skeletal muscle after 3 mo of hind limb immobilization in rats

Light flashes in space

The selection of air traffic control specialists: A theoretical model to estimate some ergonomic parameters from age, height and weight

Closed regenerative life support systems for space travel - Their development poses fundamental questions for ecological science

Evaluation of the amount of exposure to vibrations transmitted to the whole body caused of vibrations due to a loader mounted on catapillar tracks, a fork-lift truck and a hydraulic excavator
Blood clotting factors of the vascular wall and repletion of hypokinetic rabbits [p0202 479-57710]

A continuous wave, frequency modulated, ultrasonic transcutaneous transmission computed tomography [p0270 479-42486]

A head-up display for mid-air drone recovery [p0090 479-15615]

On the measurement of hazardous e.m. fields radiated through an aperture [p0233 479-40627]

Whole body response research program [p0093 479-15640]

On the measurement of hazardous e.m. fields radiated through an aperture [p0233 479-40627]

A method for separating biological cells [p0270 479-49225]

The interaction of carbon monoxide and altitude on aviator performance: Pathophysiology of exposure to carbon monoxide [p0056 479-13694]

A continuous wave, frequency modulated, ultrasonic transcutaneous transmission computed tomography [p0270 479-42486]

Effects of heavy metals especially selenium, vanadium and zirconium on movement, growth and survival of certain animal aquatic life [pB-292563/4]

Bimodal relationship of human tremor and shivering [p0270 479-49225]

Inadequacy of prebiotic synthesis as origin of proteinous amino acids [p0108 979-16523]

Bimodal relationship of human tremor and shivering [p0270 479-49225]

Effects of low temperature on in vivo and in vitro thermoregulation during exercise in man [p0167 479-18961]

Influence of exercise and CO2 on breathing pattern during moderate conditioning [p0108 979-16523]

Early cardiovascular adaptation to zero gravity simulated by head-down tilt
[ JAPP PAPER 79-77] p0301 A79-53286
A review of recent concepts of the problem of the origin of life  
Simulation and control of a human temperature regulation system  
Effects of altitude and two decongestant-antihistamine preparations on physiological functions and performance  
Effects of propranolol on Time of Useful Function (TOF) in rats  
A study of some of the factors influencing the left ventricular diastolic pressure-volume relationship and myocardial metabolism  
Some electrophysiological concepts of the 0 wave of ECG  
Combined monitoring, decision and control model for the human operator in a command and control desk  
A decision, monitoring and control model of the human operator applied to an RPV control problem  
Development of human performance models for man-machine system simulation  
Experimental determination of maximum permissible exposure to laser radiation of 1.54-micron wavelength  
Biological specimen holding facilities for Spacelab experiments  
Selection, training, and health care of working specialists for Shuttle/Spacelab and future space station missions  
Pursuit after-nystagmus  
Food and waste management biotechnology for the space shuttle  
Intestinal transport of hexoses in the rat following chronic heat exposure  
Equipment for surgical interventions and childbirth in weightlessness  
Amino acids in southern Kamchatka hot springs  
Effects of propranolol on Time of Useful Function (TOF) in rats  
Development of a specialized head/face protective device for test parachuting operations  
Coordinated crew performance in commercial aircraft operations  
Early cardiovascular adaptation to simulated zero gravity  
Experimental determination of maximum permissible exposure to laser radiation of 1.54-micron wavelength  
Biological specimen holding facilities for Spacelab experiments  
Selection, training, and health care of working specialists for Shuttle/Spacelab and future space station missions  
Pursuit after-nystagmus  
Food and waste management biotechnology for the space shuttle  
Intestinal transport of hexoses in the rat following chronic heat exposure  
Equipment for surgical interventions and childbirth in weightlessness

**AEROSPACE MEDICINE AND BIOLOGY**

[Image 0x0 to 547x754]
The application of learning curve theory to the investigation of roll motion effects on human operator performance

Combined discrete network: Continuous control modeling of man-machine systems

An adaptive controller which displays human operator limitations for a fighter type aircraft

Air Force female pilots program: Initial performance and attitudes

Air Force female pilots program: Initial performance and attitudes

Air Force female pilots program: Initial performance and attitudes

Air Force human resources lab., Brooks AFB, TX.

Compensation for transport delays produced by computer image generation systems

Methodology to assess psychological stress and its impact in the air combat environment

Survey of human operator modeling techniques for measurement applications

Subjective motion discrimination in the simulator for air-to-air combat

Air-to-air combat skills: Contribution of platform motion to inertial training

Air Force female pilots program: Initial performance and attitudes

Advanced training features: Bridging the gap between in-flight and simulator-based models of flying training

Pilot performance in simulated aerial refueling as a function of tanker model complexity and visual display field-of-view

Undergraduate pilot training: Visual discrimination pretraining for land task

Air Force inspection and safety center, Norton AFB, OHIO.

Flight experience with manually controlled unconventional aircraft motions

A head-up display for sid-air drone recovery

An approach to the multi-axis problem in manual control

An adaptive controller which displays human operator limitations for a fighter type aircraft

Air Force flight dynamics lab., Wright-Patterson AFB, OHIO.

Compensation for transport delays produced by computer image generation systems

Methodology to assess psychological stress and its impact in the air combat environment

Survey of human operator modeling techniques for measurement applications

Subjective motion discrimination in the simulator for air-to-air combat

Air-to-air combat skills: Contribution of platform motion to inertial training

Air Force female pilots program: Initial performance and attitudes

Advanced training features: Bridging the gap between in-flight and simulator-based models of flying training

Pilot performance in simulated aerial refueling as a function of tanker model complexity and visual display field-of-view

Undergraduate pilot training: Visual discrimination pretraining for land task

Air Force inspection and safety center, Norton AFB, OHIO.

Energy supply and demand in California [AD-A063515] p0287 N79-27603

Baltimore City Hospitals, MD.
Sweat changes in the ribs of animal cells in vivo and in vitro [AD-A0140771] p0134 N79-27226

Battelle Pacific Northwest Labs., Richland, Wash.
The use of Na-22 as a tracer for long-term bone mineral turnover studies. [AD-A059544] p0265 N79-47327
Determination of muscle mass changes in legs from K-40 measurements [AD-A027427] p0274 N79-49997
Review of unfolding methods used in the US and their standardization for dosimetry [BNWL-SA-6503] p0307 N79-32828

Belgian Air Force, Brussels.
Analysis of the interpretation of the human factor as a principal cause or influence in accidents of Mirage aircraft in the Belgian Air Force [AD-A064912] p0290 N79-31945

Boeing Co., Houston, Tex.
Test evaluation of space station ECLSS maintenance concepts [ASME PAPER 78-EMASS-43] p0009 N79-12589

Boeing Co., Seattle, Wash.
The effects of pilot age, lighting, and head-down time on visual accommodation [AD-A0634912] p0009 N79-12589

Closed loop models for analyzing the effects of simulator characteristics [AD-A059515] p0087 N79-15598
Evaluation of display and control concepts for a terminal configured vehicle in final approach in a windtunnel environment [AD-A059515] p0090 N79-15616
Use of the tilt cue in a simulated heading tracking task [AD-A059515] p0091 N79-15621
Combined monitoring, decision and control model for the human operator in a command and control task [AD-A059515] p0092 N79-15631

Bohr maneuver as a function of extended flight requirements and aviator fatigue [AD-A0150976] p0150 N79-19623
Visual performance/workload of helicopter pilots during instrument flight [AD-A0150976] p0152 N79-19640
The effective acoustic environment of helicoptercrews [AD-A0150976] p0152 N79-19645
Operational consideration of AV/FW-5, 15, 25, 60, 105 vision goggles for helicopter night flight [AD-A0150976] p0152 N79-19649
Training requirements for helicopter operation with night vision goggles [AD-A0150976] p0153 N79-19650
Head aiming/tracking accuracy in a helicopter environment [AD-A0150976] p0153 N79-19651
A porcine bioassay study of the physiological effects of fiber and dye degradation products (FDP) on burn wound healing [AD-A066399] p0223 N79-25762
Evaluation of four thermally protective fabrics using the USAARL bioassay method [AD-A067351] p0223 N79-25762
Mathematical models of skin burns induced by simulated postcrash fires as aids in thermal protective clothing design and selection [AD-A066946] p0223 N79-25766
Correlation of head injury with mechanical forces based on helmet damage duplication [AD-A067351] p0223 N79-25762
The use of mathematical modeling in crashworthy helicopter seating systems [AD-A069327] p0287 N79-31920
The use of mathematical modeling in crashworthy helicopter seating systems [AD-A069327] p0287 N79-31923
Army Aeromedical Research Unit, Fort Rucker, Ala.
Oculomotor performance of aviators during an autorotation maneuver in a helicopter simulator [AD-A0150976] p0151 N79-19638

Army Aviation Research and Development Command, Fort Rucker, Ala.
The use of mathematical modeling in crashworthy helicopter seating systems [AD-A069327] p0287 N79-31923

Army Cold Regions Test Center, Fort Greely, Alaska.
Man and material in the cold regions, part 1 [AD-A063752] p0178 N79-21771

Army Communications Research and Development Command, Fort Monmouth, N.J.
Modeling and analysis of man-machine interface information [AD-A063753] p0178 N79-21772

Army Construction Engineering Research Lab., Charpaton, Ill.
Establishing habitability factors for the design of office environments [AD-A056463] p0020 N79-10784

Army Electronics Command, Fort Belvoir, Va.
A behavioral model of target acquisition in realistic terrain [AD-A056760] p0019 N79-10782

Army Electronics Command, Fort Monmouth, N.J.
The effect of active area on the legibility of dot matrix displays [AD-A0568014] p0052 N79-12708

Army Environmental Hygiene Agency, Aberdeen Proving Ground, Md.

Army Medical Research Inst. of Infectious Diseases, Frederick, Md.
The effect of ultrasound on botulin toxin [AD-A055954] p0142 N79-10566

Army Natick Research and Development Command, Mass.

B-3
The effects of deviate internal representations in the optimal model of the human operator p0114 W9-17477
Use of the optimal control model in the design of motion cue experiments p0118 W9-17510
A model for the pilot's use of motion cues in roll-axis tracking tasks p0118 W9-17512
Motion cue models for piloting-vehicle analysis [AD-A061477] p0125 W9-17561
A decision, monitoring and control model of the human operator applied to an RFP control problem [AD-A069880] p0262 W9-32939
The application of control theory to the investigation of roll motion effects on human operator performance p0288 W9-31931
A brief overview of the theory and application of the optimal control model of the human operator p0317 W9-33841
BOSTON UNIV., MASS.
A biogeochemical study of the Abu Dhabi algal mats - a simplified ecosystem p0132 W9-26373
An ultraviolet light induced bacteriophage in Benececa gasogenes p0258 W9-46463
Air traffic controller health change study (FAA-AR-78-39) p0122 W9-17534
BOWLING GREEN STATE UNIV., OHIO.
Effects of filtering electroencephalographic signals on auditory evoked brainstem responses p0176 W9-27158
BRANDES UNIV., WALTHAM, MASS.
Optokinetic motion sickness - Attenuation of visually-induced apparent self-rotation by passive head movements p0135 W9-27558
Changes in apparent body orientation and sensory localization induced by vibration of postural muscles - Vibratory myesthetic illusions p0163 W9-30653
Rotation at 30 RPM about the Z axis after 6 hours in the 10-deg head-down position - Effect on susceptibility to motion sickness p0165 W9-30652
BREIGHAM YOUNG UNIV., PROVO, UTAH.
Cardiac adaptation to endurance training: Determined by echocardiography and electrocardiography p0194 W9-23668
A biogeochemical study of the Abu Dhabi algal mats - a simplified ecosystem p0132 W9-26373
BRITISH AEROSPACE DYNAMICS GROUP, BRISTOL (ENGLAND).
A brief overview of the theory and application of the optimal control model of the human operator p0317 W9-33841
BRISTOL UNIV. (ENGLAND).
A biogeochemical study of the Abu Dhabi algal mats - a simplified ecosystem p0132 W9-26373

This publication is a cumulative index to the abstracts contained in the Supplements 190 through 201 of Aerospace Medicine and Biology: A Continuing Bibliography. It includes three indexes—subject, personal author, and corporate source.
PUBLIC COLLECTIONS OF NASA DOCUMENTS

DOMESTIC

NASA distributes its technical documents and bibliographic tools to eleven special libraries located in the organizations listed below. Each library is prepared to furnish the public such services as reference assistance, interlibrary loans, photocopy service, and assistance in obtaining copies of NASA documents for retention.

**CALIFORNIA**
University of California, Berkeley

**COLORADO**
University of Colorado, Boulder

**DISTRICT OF COLUMBIA**
Library of Congress

**GEORGIA**
Georgia Institute of Technology, Atlanta

**ILLINOIS**
The John Crerar Library, Chicago

**MASSACHUSETTS**
Massachusetts Institute of Technology, Cambridge

**MISSOURI**
Linda Hall Library, Kansas City

**NEW YORK**
Columbia University, New York

**OKLAHOMA**
University of Oklahoma, Bizzell Library

**PENNSYLVANIA**
Carnegie Library of Pittsburgh

**WASHINGTON**
University of Washington, Seattle

NASA publications (those indicated by an "*" following the accession number) are also received by the following public and free libraries:

**CALIFORNIA**
Los Angeles Public Library
San Diego Public Library

**COLORADO**
Denver Public Library

**CONNECTICUT**
Hartford Public Library

**MARYLAND**
Enoch Pratt Free Library, Baltimore

**MASSACHUSETTS**
Boston Public Library

**MICHIGAN**
Detroit Public Library

**MINNESOTA**
Minneapolis Public Library

**MISSOURI**
Kansas City Public Library
St. Louis Public Library

**NEW JERSEY**
Trenton Public Library

**NEW YORK**
Brooklyn Public Library
Buffalo and Erie County Public Library
Rochester Public Library
New York Public Library

**OHIO**
Akron Public Library
Cincinnati Public Library
Cleveland Public Library
Dayton Public Library
Toledo Public Library

**TENNESSEE**
Memphis Public Library

**TENNESSEE**
Memphis Public Library

**TEXAS**
Dallas Public Library
Fort Worth Public Library

**WASHINGTON**
Seattle Public Library

**WISCONSIN**
Milwaukee Public Library

An extensive collection of NASA and NASA-sponsored documents and aerospace publications available to the public for reference purposes is maintained by the American Institute of Aeronautics and Astronautics, Technical Information Service, 555 West 57th Street, 12th Floor, New York, New York 10019.

EUROPEAN

An extensive collection of NASA and NASA-sponsored publications is maintained by the British Library Lending Division, Boston Spa, Wetherby, Yorkshire, England. By virtue of arrangements other than with NASA, the British Library Lending Division also has available many of the non-NASA publications cited in *STAR*. European requesters may purchase facsimile copy of microfiche of NASA and NASA-sponsored documents, those identified by both the symbols "#" and "*", from: ESA - Information Retrieval Service, European Space Agency, 8-10 rue Mario-Nikis, 75738 Paris CEDEX 15, France.
