SPECIAL NOTICE

The abstract sections of the monthly supplements of *Aerospace Medicine and Biology* can be bound separately. Individual abstracts can be located readily by means of the page numbers given at each entry, e.g., p0239 N79-26762. To assist the user in binding Supplements SP-7011(190) through SP-7011(201), a title page is included in the back of this Cumulative index.
A CUMULATIVE INDEX
TO
A CONTINUING BIBLIOGRAPHY ON
AEROSPACE MEDICINE
AND BIOLOGY

This Cumulative Index supersedes the indexes contained in supplements [SP-7011 (190) through SP-7011 (201)], published by NASA during 1979.
WHAT THIS CUMULATIVE INDEX IS

This publication is a cumulative index to the abstracts contained in NASA SP-7011(190) through NASA SP-7011(201) of Aerospace Medicine and Biology: A Continuing Bibliography, NASA SP-7011, by means of supplements, serves as a current abstracting and announcement journal for references on bioscience and biotechnology. It has been compiled through the cooperative efforts of the American Institute of Aeronautics and Astronautics (AIAA), and the National Aeronautics and Space Administration (NASA). Entries prepared by the two contributing organizations are identified as follows:

1. NASA entries by their STAR accession numbers (N79-10000 series)
2. AIAA entries by their IAA accession numbers (A79-10000 series)

HOW THIS CUMULATIVE INDEX IS ORGANIZED

This Cumulative Index includes a subject index, a personal author index, and a corporate source index.

HOW TO USE THE SUBJECT INDEX

Two types of cross-references appear in the subject index:

1. Use (U) references indicate that the subject term is not "postable," i.e., not a valid term, and that the following term or terms are used instead. For example:

   DOSE
   U DOSAGE
   AIRLINERS
   U COMMERCIAL AIRCRAFT
   U PASSENGER AIRCRAFT

2. Narrower Term (NT) references refer the user to more specific headings in the same subject area, under which additional material on the subject may be found. For example:

   FATIGUE (BIOLOGY)
   NT AUDITORY FATIGUE
   NT FLIGHT FATIGUE
   NT MUSCULAR FATIGUE

In addition, a searcher may use the title or title and title extension in the index to narrow further his quest for particular items, this is because subject terms can readily include more than one class of document. For example:

   BIOLOGICAL EFFECT
   Vibratory force effect upon biological systems, particularly human organism.
   Biological effect of cosmic and solar radiations on human body at high altitudes.

illustrates a case where two references on different topics are listed under the same subject term.
HOW TO USE THE PERSONAL AUTHOR INDEX

All personal authors used in the abstract-section citations in the individual Supplements appear in the index. Differences in translation schemes may require multiple searching of the index for variants of an author's name. For example:

EMELIANOV, M. D.
and
YEMELYANOV, M. D.

HOW TO USE THE CORPORATE SOURCE INDEX

The corporate source index entries are abridged versions of the corporate sources used in the abstract-section citations in the individual Supplements. The corporate source supplementary (organizational component) does not appear in the index. For example:

NEW MEXICO STATE UNIV., LAS CRUCES. DEPT. OF BIOLOGY. (Source citation entry)
NEW MEXICO STATE UNIV., LAS CRUCES. (Source index entry)

IDENTIFICATION OF DESIRED SUPPLEMENT

The abstract and descriptive cataloging for any accession number selected from the indexes may be found in the appropriate Supplement. The page-number range of each Supplement appears on the inside front cover of this index. Once the range of page numbers containing the selected accession number is located in the second column, the desired Supplement number will be found in the first column. For example:

Page 191 will be found in Supplement 196.

AVAILABILITY OF DOCUMENTS

Information concerning the availability of documents announced in Aerospace Medicine and Biology supplements is found in the Introduction to the most currently issued monthly supplement.
<table>

## SUBJECT INDEX

### AEROSPACE MEDICINE AND BIOLOGY / a continuing bibliography

**1979 Cumulative Index**

### Typical Subject Index Listing

<table>
<thead>
<tr>
<th>SUBJECT HEADING</th>
<th>TITLE</th>
<th>REPORT NUMBER</th>
<th>PAGE NUMBER</th>
<th>ACCESSION NUMBER</th>
</tr>
</thead>
<tbody>
<tr>
<td>CARBON DIOXIDE REMOVAL</td>
<td>The Dependence of the CO2 removal efficiency of LIDH on humidity and mesh size --- in spacecraft life support systems</td>
<td>[ASME PAPER 78-EMAS-5]</td>
<td>p0006</td>
<td>A79-12554</td>
</tr>
</tbody>
</table>

The title is used to provide a description of the subject matter. When the title is insufficiently descriptive of the document content, a title extension is added, separated from the title by three hyphens. The NASA or AIAA accession number is included in each entry to assist the user in locating the abstract in the abstract section of this supplement. If applicable, a report number is also included as an aid in identifying the document.

### A-1 AIRCRAFT

**A7** training effectiveness through performance analysis --- carrier landing instruction

**ABILITY**

Time-sharing is not a unitary ability

**ABIOGENESIS**

On the reality of extraterrestrial abiogenesis

Porphyrin-like compounds genesis under simulated abiotic conditions

Photochemical synthesis of amino acids from aqueous solutions of ethyl alcohol, ammonia/nitrogen under varied conditions

RCN did not condense to give heteropolypeptides on the primitive earth

Prebiotic nucleotide oligomerization in a fluctuating environment - Effects of kaolinite and cyanamide

A review of recent concepts of the problem of the origin of life

Origin of life; Proceedings of the Second ISSOL Meeting and Fifth ICOL Meeting, Kyoto, Japan, April 5-10, 1977

Prebiotic molecular evolution

Synthesis of amino acids under primitive earth conditions in the presence of clay

Prebiotic condensation reactions using cyanamide

Experimental approach to the chemical evolution in the primeval sea. I - Formation of amino acids and amino acid polymers in modified sea mediums

Prebiotic synthesis of amino acids by carboxylation of amines in oxidative atmosphere

**ABBREVIATION**

**ABUNDANCE**

Prebiotic condensation of oligonucleotide

An approach to the origin of self-replicating system. I - Intermolecular interactions

Quantitative aspects of the effect of weak interaction during chemical evolution

Coacervate drops as a model for precellular structures

Coacervate drops - Primitive forms of precells

Takeover mechanisms and early biochemical evolution

Some characteristic features of the origin and evolution of the amino acid composition of proteins - A theoretical consideration

Nucleotide-binding site data and the origin of the genetic code

The study of the origin of life - results and prospects

The importance of the physical laws on the origin and evolution of life

A critical assessment of the origin of life

Inverse assimilation - A general principle of evolution of planetary surfaces

A proposal concerning the origin of life on the planet earth

Polymers produced by heating an amino acid mixture in sea water enriched with transition elements

Exobiology and the origin of life - organic compounds in planetary atmospheres and interstellar matter

**ABNORMALITIES**

**ABSORPTION**

Molecular sieve oxygen generating system - The argon question / A brief review/ --- effects of 5 percent Ar in breathing gas

Human compatibility testing of a 2-aa molecular sieve oxygen generator

Environmental test and evaluation of a molecular sieve on-board oxygen generation system

**ABSORBERS (EQUIPMENT)**

Electrochemically regeneratable carbon dioxide absorber

**ABSORPTION SPECTRA**

Photochemical transformations of the visual pigment rhodopsin

**ABSORPTION SPECTROSCOPY**

Idoine imaging using spectral analysis --- radiography for visualization of small blood vessels

**ABUNDANCE**

The evolution of the environment and its influence on the evolution of life
ACCELERATION (PHYSICS)

Abundance of organic compounds photochemically produced in the atmospheres of the Outer Planets p0099 A79-22076

ACCELERATION (PHYSICS)

ACCELERATION STRESSES (PHYSIOLOGY)

Evaluation of assisted positive-pressure breathing on +Gz tolerance p0266 A79-47336

Helmet weight simulator (NASA-CASE-LAM-12520-1) p0223 A79-25761

Animal endurance to recurrent impact accelerations p0246 A79-27833

Frequency response of cardiovascular regulation in canines to sinusoidal acceleration at frequencies below 1 Hz (basis for biodynamic modeling) p0286 A79-31915

A head injury model p0286 A79-31918

ACCELERATION STRESSES (PHYSIOLOGY)

Regional coronary blood flow at rest and during high sustained +Gz in a miniature swine with subclinical, ischemic, coronary heart disease due to coronary stenosis p0010 A79-12865

Development of space biology experiments for the Space Shuttle - A student's perspective p0099 A79-21252

Cardiovascular regulatory response to lower body negative pressure following blood volume loss p0104 A79-23470

Mitral prolapse and acceleration --- in aircraft pilots p0103 A79-23951

Central and cerebral hemodynamics and metabolism of the healthy man during head-down tilting p0127 A79-26434

Head acceleration and psychomotor performance --- related to crash accident survival rates p0115 A79-27559

Cardiac responses of dogs to nonsynchronous and heart synchronous whole-body vibration p0162 A79-29728

Oculogravic illusion in response to straight-ahead acceleration of a CR-104 airplane p0168 A79-30660

Cerebral accident subsequent to G-force loading - A case report p0165 A79-30660

Positive pressure breathing as a protective technique in +Gz acceleration p0201 A79-37132

Motion sickness in cats - A symptom rating scale used in laboratory and flight tests p0202 A79-37711

Concurrent loss of consciousness and sino-atrial block during +Gz stress p0202 A79-37714

Thermoregulation in unrestrained rats during and after exposure to 1.5-4 G p0227 A79-41185

Determination of cerebral and neck subcutaneous tissue P02 with 3 and 4 +Gz in m. bulatla p0234 A79-43205

+Gz tolerance correlation with clinical parameters p0235 A79-43213

Heat and acute dehydration effects on acceleration response p0237 A79-47105

Reproducibility of +Gz tolerance testing p0267 A79-47337

Modeling human tracking performance in a high +Gz stress environment p0269 A79-48012

Functional anatomy of vertebral column with reference to load bearing areas p0272 A79-49732

Biodynamics of aviation stresses on the vertebral column p0272 A79-49733

Assessment of spinal disabilities in flying p0272 A79-49736

A new application of LBNP to measure orthostatic tolerance before and after 0-G simulation / Water immersion/ [IAF PAPER 79-87] p0302 A79-53290

Cardiac arrhythmia following postimmersion +Gz sub +Gz accelerations p0015 A79-10710

A method of evaluating the pupillary reaction to vestibular stimuli p0016 A79-10717

Effect of accelerations combined with radiation on occurrence of gene mutations in the drosophila p0016 A79-10720

Medical qualification procedures for hazardous-duty aeromedical research p0026 A79-11695

Engineering test and evaluation during high G. Volume 3: anti-G suits (AD-A059122) p0052 A79-12706

Role of vestibular system in behavior of animals submitted to prolonged slow rotation p0074 A79-14734

Modeling the effects of +Gz stress on pilots in a tracking task p0097 A79-15593

Specialized physiological studies in manned space flight [NASA-CP-151876] p0111 A79-16542

Stress factors on pilot performance. A bibliography with abstracts [NTOPOS-78/1289/A] p0145 A79-18599

Simulation of fluid-electrolyte metabolism as a means of preventing orthostatic instability in the crew of the second expedition aboard the Salyut-2 station p0283 A79-27819

A lower body negative pressure box for +Gz simulation in the upright seated position (AD-A069326) p0259 A79-28868

ACCELERATION TOLERANCE

Relaxed +Gz tolerance in healthy men - Effect of age p0067 A79-18956

Neurodynamic indices under orthostatic and vestibular effects p0098 A79-20692

Incapacitation time for +Gz-induced loss of consciousness p102 A79-23475

Cardiac reactions in tests on the wearing of the Yankee Escape System harness during minus G accelerations in the z direction p103 A79-23953

Cardiovascular assessment of decongestant-antihistamine effects on altitude, +Gz, and fatigue tolerances p107 A79-24628

Tolerance of domestic fowl to high sustained +Gz p107 A79-24630

Effects of brief exposure of domestic fowl to very intense acceleration fields p107 A79-24631

Better definition of eye to aortic valve distance in high acceleration cockpit /BACI seating geometries p108 A79-33632

Pathophysiology of overload: Bibliography of Soviet publications --- Russian book p120 A79-36385

Physiological effect of high, sustained +Gz forces on man p129 A79-41171

Prophylactic effects of intermittent acceleration against physiological deconditioning in simulated weightlessness p129 A79-41172

Influence of the ambient acceleration field upon acute acceleration tolerance in chickens p129 A79-41172

+Gz tolerance correlation with clinical parameters p135 A79-43213

SUBJECT INDEX

ACCELERATION (PHYSICS)

ACCELERATION STRESSES (PHYSIOLOGY)

Evaluation of assisted positive-pressure breathing on +Gz tolerance p0266 A79-47336

Helmet weight simulator (NASA-CASE-LAM-12520-1) p0223 A79-25761

Animal endurance to recurrent impact accelerations p0246 A79-27833

Frequency response of cardiovascular regulation in canines to sinusoidal acceleration at frequencies below 1 Hz (basis for biodynamic modeling) p0286 A79-31915

A head injury model p0286 A79-31918
Heat and acute dehydration effects on acceleration response
Evaluation of assisted positive-pressure breathing on Gz tolerance
Delayed effects of alcohol ingestion on Gz tolerance
Effect of microwave radiation on the resistance of rats to transverse acceleration loading
Modification of cardiac function by synchronized oscillating acceleration
Technique for simulating G-induced tunnel vision
An examination of statistical impact acceleration injury prediction models based on -Gx accelerometer data from subhuman primates
Molecular determinants for the prediction and survival of ischemic anoxic stress pathology
Effect of age on relaxed G sub z tolerance of astronauts
Effects of hyperhydration on human endurance of orthostatic and IAMP tests
Balance training of the equilibrium organ and its effect on flight strategy
The effect of a reclined sitting position on psychomotor performance during exposure to high, sustained G sub z acceleration
The effect of acceleration and seat back angle on performance of a reaction time task
The influence of seat back angle on acceleration tolerance
A lower body negative pressure box for G sub z simulation in the upright seated position
A subhuman primate restraint system
Models and Analogues for the Evaluation of Human Biodynamic Response, Performance and Protection
--- conferences, human tolerance of acceleration, vibration, and shock
Mathematical modeling of arterial oxygen saturation and eye-level blood pressure during G sub z stresses
Unsteady-state response of the vascular system to transient and sustained aerospace acceleration profiles
Some human responses to repeated G sub z pulses
External respiration and gas exchange reactions of man during rotation on a short-arm centrifuge
ACIDENT INVESTIGATION
AT AIRCRAFT ACCIDENT INVESTIGATION
ACCIDENT PREVENTION
Investigation of techniques to reduce electrostatic discharge susceptibility of EPD's containing plastic plugs
Three decades of USAF efforts to reduce human error accidents, 1947-1977
Human factors in production and prevention of aircraft accidents due to disorientation in flight
ACCIDENT PROGNOSIS
Current role of alcohol as a factor in civil aircraft accidents

Autonomic audiometry is the practice of flight-personnel examination
Time course of O2-pulse during various tests of aerobic power
Comparison of physiological effects of head-down tilting and immersion on the human body
Cold water survival suits for aircrew
Passive resistive torques about long bone axes of major human joints
Medical biofunction testing of aviators with otolithopathologic disease
Technique for simulating G-induced tunnel vision
Role of N-aminobenzoic acid in repairing DV and gamma radiation damage
Preliminary selection of candidates for space flights
Equipment for surgical interventions and childbirth in weightlessness
Selection, training, and health care of working specialists for Shuttle/Spacelab and future space station missions
The biomedical implications of extended duration zero-g extravehicular activities
Eye torsion in response to a tilted visual stimulus
Evidence for increased intrathoracic fluid volume in man at high altitude
Space biology and aerospace medicine, vol. 5, No. 5, 1978
An examination of statistical impact acceleration injury prediction models based on Gx accelerometer data from subhuman primates
Prospective Medicine Opportunities in Aerospace Medicine --- conferences (AGARD-CP-231)
The Canadian Forces Life Quality Improvement Programme
The role of physical examinations and education in prospective medicine
Medical qualification procedures for hazardous-duty aerospace research
Experience with periodic aviation medical examinations
A prospective medicine approach to the problem of ischemic vascular disease in the USAF
The significance of rhythm disturbances in asymptomatic persons
Distinguishing borderline hypertensives from normotensives: A clinical study of 300 aircrewmen
Molecular determinants for the prediction and survival of ischemic anoxic stress pathology
Psychosocial aspects of syncope and vertigo in aircrew

Aerospace Medicine Contd

Beta-adrenoceptor antagonists: Central effects
The prediction of the existence or nonexistence of coronary artery disease using routine clinical laboratory measurement
Comparison of plasma and urinary steroids in men with type A and type B behavior patterns
Specific findings in Cardiology and Pulmonary Function with Special Emphasis on Assessment criteria for Flying
Follow-up and transversal study of visual capacity and PSVT sub values among personnel of the Belgian Army forces
Detection and supervision of obstructed respiratory flow in fliers. Advantages of debit-volume graphs
Long term pulmonary function patterns in the aviator: The thousand Aviator study
Mechanics of breathing during graded exercise measured with the bodyplethysmograph
Standardized examination methods in ergometry
Coronary atherosclerosis and fitness for flying
Detection of coronary artery disease in apparently healthy, asymptomatic aircrew members using thallium-201 myocardial perfusion scintigraphy
The significance of I wave abnormalities
Difficulties posed by left axis deviation in the evaluation of fliers, and their relations to the concept of left anterior hemiblock
Left Anterior Hemiblock (LAM): Diagnosis and aeromedical risk
Measuring systolic time intervals at rest and under stress by external methods. Advantages in the evaluation of fliers
The advantages of ultrasonic echocardiography in the cardiological evaluation of fliers
Effect of age on relaxed d+ sub x tolerance of aircrewmen
Reproducibility of human cardiovascular responses to orthostatic stress
Cardiological findings in 115 pilots: Diagnoses and assessment of their flying fitness
Normal and pathological cardiovascular findings in applicants to the Air Force service
Evaluation of cardiac risk and subject response to assessorial efforts
The impact of coronary vascular risk factors on professional aircrew license loss in the United Kingdom
Cardiovascular diseases as a cause of unfitness for flying service in aircrews of Italian Air Force: etiopathogenesis, influence of performance in flight, and prevention
Cardiovascular fitness of pilots of transport aircraft
Space biology and aerospace medicine, vol. 12, no. 6
The 14th Annual Conference on Manual Control -- digital simulation of human operator dynamics
Space biology and aerospace medicine, volume 13, no. 1, 1979

AOG (CONTROL)

U AUTOMATIC GAIN CONTROL

AGE FACTOR

Relaxed +Gz tolerance in healthy men -- Effect of age  
(AAD-A069952) p0357 879-18956

Age trends in the cardiovascular dynamics of aircrewmen  
(AAD-A069952) p0357 879-27560

A simple technique for evaluation of Vitality loss in aging mice, by testing their muscular coordination and vigor  
(AAD-A069952) p0374 879-50205

Psychophysiological effects of aging: Developing a functional age index for pilots. 3: Measurement of pilot performance  
(AAD-A069952) p0374 879-17566

AGING (BIOLOGY)

A study of axonal degeneration in the optic nerves of aging mice  
(AAD-A069952) p0305 879-12123

Visual acuity of the aging hyperopic eye in the intermediate range  
(AAD-A069952) p0307 879-13948

Senescent changes in the ribosomes of animal cells in vivo and in vitro  
(AAD-A069952) p0314 879-27226

Aging and flying fitness  
(AAD-A069952) p0318 879-31939

Analysis of population mortality kinetics with application to the longevity followup of the Navy's 11,000 aviators'  
(AAD-A069952) p0334 879-43207

Quantitative analysis of mating behavior in aging male Drosophila melanogaster  
(AAD-A069952) p0352 879-44799

A simple technique for evaluation of vitality loss in aging mice, by testing their muscular coordination and vigor  
(AAD-A069952) p0374 879-50205

Effects of weightlessness on the embryonic development and aging of Drosophila melanogaster  
(AAD-A069952) p0302 879-11670

Effects of weightlessness on the genetics and aging process of Drosophila melanogaster  
(AAD-A069952) p0303 879-11673

AIR TO AIR REFUELING

AIR SICKNESS

AIR SAMPLING

AIR SICKNESS

AIR TO AIR REFUELING

AIR NAVIGATION

AIR DEFENSE

Agricultural Aircraft

Initial training and retraining of technical agricultural flight personnel

Eye-ball control

Agriculture

Short-range movement of major agricultural pests

AIR

NT REPIRED AIR

Evaluation of oxidizability of air in closed areas

AIR BAG RESTRAINT DEVICES

Development of a solid propellant inflation restraint system, phase 1

AIR CONDITIONING EQUIPMENT

Physiological requirements for design of environmental control systems - Control of heat stress in high-performance aircraft

AIR DEFENCE

AA gunner model based on observer theory - predicting a gunner's tracking response

AIR NAVIGATION

NT AREA NAVIGATION

AIR POLLUTION

Developmental and hematological responses to low level exposure of carbon monoxide in mice

Response of the rat erythrocyte to ozone exposure

Effects of ozone inhalation on work performance and survival of laboratory animals

Assessment of human exposures to atmospheric benzene

Human health damages from mobile source air pollution: A Delphi method, volume 1

Human health damages from mobile source air pollution: Additional Delphi data analysis, volume 2

Effects of oxides of nitrogen, Carbon monoxide and photochemical oxidants on the RBC during exercise and on cardiopulmonary function

Direct exposure of monolayers of mammalian cells to airborne pollutants in a unique culture system

AIR PURIFICATION

Technology advancement of an oxygen generation subsystem

AIR SAMPLING

New combined aspirator for sampling developed

AIR SICKNESS

A motion sickness

AIR TO AIR REFUELING

Visual system for the Boom Operator Part Task Trainer -- RC-135 aerial refueling task simulator

Pilot performance in simulated aerial refueling as a function of tanker model complexity and visual display field-of-view

AIR TO AIR ROCKETs

AIR TRAFFIC

A preliminary study of the air traffic controller's 'picture'

AIR TRAFFIC CONTROL

Economic problems regarding the interactive touch input via screens on onboard and ground-based flight control

Detection of conflict states in air traffic control of airport zones

Short-term memory factors in ground controller/pilot communication

The effect of increased monitoring load on vigilance performance using a simulated radar display

Visual search performance during simulated radar observation with and without a sweeps line

AIR TRAFFIC CONTROLLERS (PERSONNEL)

Morbidity experience of air traffic control personnel - 1967-77

The next decade - Development, training, supervision

A controller's eye view of color

A preliminary study of the air traffic controller's 'picture'

Frequency analysis of heart rate variability under flight conditions

Development of a performance criterion for air traffic personnel research through air traffic control simulation

The morbidity experience of air traffic control personnel, 1967-1977

Perpetual factors involved in performance of air traffic controllers using a microwave landing system

Air traffic controller health change study

Stress in air traffic controllers: A restudy of 32 controllers 5 to 9 years later

The development of the ATC selection battery: A new procedure to make maximum use of available information when correcting correlations for restriction in range due to selection

The selection of air traffic control specialists: Two studies demonstrating methods to insure an accurate validity coefficient for selection devices

A comparison of the job attitudes and interest patterns of air traffic and airway facility personnel

AIRBORNE EQUIPMENT

NT AIRBORNE SPACEBORNE COMPUTERS

NT LIGHT AIRBORNE MULTIPURPOSE SYSTEM

A Canadian approach to high altitude protection -- fighter pilot garmentry and high pressure suits

Light weight solid state helmet symbol display and position system

U.S. Navy development of an on-board oxygen generation /OBOG/ system

Molecular sieve oxygen generating system - The argon question /6 brief review/ -- effects of 5 percent Ar in breathing gas

A comparison and maximal oxygen uptake

Air traffic control simulation

An preliminary study of the air traffic personnel research through air traffic

The morbidity experience of air traffic control

Controller/pilot communication

Microcomputer based on observer theory -- predicting a controller's 'picture'

Ergonomic problems regarding the interactive touch input via screens on onboard and ground-based flight control

A functional air index for pilots

Measurement of pilot performance

Short-term memory factors in ground controller/pilot communication

The effect of increased monitoring load on vigilance performance using a simulated radar display

Visual search performance during simulated radar observation with and without a sweeps line

AIRBORNE SPACEBORNE COMPUTERS

An external interaction evaluation of computer operating system control and command service concepts --- in Spacelab
Changes in the rotary wing aviator's ability to perform an uncommon low altitude rearward hover maneuver as a function of extended flight requirements and aviator fatigue

Visual effects of helicopter manœuvre on weapon aiming performance

Occlusor performance of aviators during an autorotation manœuvre in a helicopter simulator

The relationship between Air Combat Maneuvering Range (ACMR) output measures and initial visual acquisition performance

Automated turn anticipation techniques for flight management research utilizing an oculometer

Contrast enhancement using local area brightness and gain control --- for airborne CRT display

A trade-off analysis design tool: Aircraft interior noise-motion/passenger satisfaction model

Aircraft noise: Biological effects. A bibliography with abstracts

Effect of helicopter noise on passenger annoyance

A study of pilot/observer interaction in aligning a helicopter with a target

Aircraft noise

MT SONIC NOISE

Responses of teachers to aircraft noise

Aircraft noise and its effect on man: Methods and results of research, consequences for environmental protection --- German book

Sources of noise stress on flying personnel

Temporary threshold shift from transportation noise

The influence of intermittent aircraft noise on sleep.

Aircraft noise

MT HELICOPTER PERFORMANCE

The effects of ambient illumination, aircraft velocity and feedback on absolute distance judgments during simulated nap-of-the-earth flight

A trade-off analysis design tool: Aircraft interior noise-motion/passenger satisfaction model

Aircraft noise: Biological effects. A bibliography with abstracts

Effect of helicopter noise on passenger annoyance

A study of pilot/observer interaction in aligning a helicopter with a target

Aircraft noise

MT AIRCRAFT PERFORMANCE

The effects of ambient illumination, aircraft velocity and feedback on absolute distance judgments during simulated nap-of-the-earth flight

Aircraft noise: Biological effects. A bibliography with abstracts

Effect of helicopter noise on passenger annoyance

A study of pilot/observer interaction in aligning a helicopter with a target

Aircraft noise

MT AIRCRAFT PILOTS

The effects of ambient illumination, aircraft velocity and feedback on absolute distance judgments during simulated nap-of-the-earth flight

Aircraft noise: Biological effects. A bibliography with abstracts

Effect of helicopter noise on passenger annoyance

A study of pilot/observer interaction in aligning a helicopter with a target

Aircraft noise
training course. III - Comparison of progress between two courses
Methodological considerations of visual workloads of helicopter pilots
Visual workload of the copilot/navigator during terrain flight
Pilot workload in the aircraft of the future
Analysis of population mortality kinetics with application to the longevity followup of the Navy's +1,000 aviators
+Gz tolerance correlation with clinical parameters
A structural model of the adaptive human pilot
Medical barofunction testing of aviators with otochimneygologic disease
Effect of age on relaxed +Gz sub 2 tolerance of aircrewmen
Cardiological findings in 115 pilots: Diagnosis and assessment of their flying fitness
The impact of coronary vascular risk factors on professional aircrew license loss in the United Kingdom
Cardiovascular diseases as a cause of unfitness for flying service in aircrews of Italian Air Force: Etiopathogenesis, influence of performance in flight, and prevention
Cardiovascular fitness of pilots of transport aircraft
A model for the pilot's use of roll-axis motion cues in steady-state tracking tasks
Speech as a pilot input medium
Changes in the rotary wing aviator's ability to perform an uncommon low altitude rearward hover maneuver as a function of extended flight requirements and aviator fatigue
A description of the neuropsychological examination of pilots for land forces light aircraft
Radiological examination of the Rachis and fitness for employment as a helicopter pilot
Deceleration performance of aviators during an autorotation maneuver in a helicopter simulator
Sensorial aspects of helicopter operations
The effective acoustic environment of helicopter crewmen
Vertebral pains in helicopter pilots -- symptomology and radiology
Airline pilot scan patterns during simulated ILS approaches [NASA-TP-1250]
Synthetic training and evaluation -- Some current issues
Visual performance assessment through clear and sunscreen-treated windows
The use of mathematical modeling in crashworthy helicopter seating systems
Pilot incapacity in flight
Geographical disorientation and flight safety
Manual control of yaw motion with combined visual and vestibular cues
AIRCRAFT SAFETY
AIRCRAFT STABILITY
NT HOVERING STABILITY
Prediction of pilot-aircraft stability boundaries and performance contours

p0204 A79-37964

The point mutation process in proteins
p0205 A79-37972

Some characteristic features of the origin and evolution of the amino acid composition of proteins - A theoretical consideration
p0206 A79-37973

Nucleotide-binding site data and the origin of the genetic code
p0206 A79-37974

Studies of amino acid metabolism in the muscles of rats flown aboard the biosatellite Cosmos 782
p0230 A79-41714

Inadequacy of prebiotic synthesis as origin of proteinous amino acids
p0253 A79-05643

Polypeptides produced by heating an amino acid mixture in sea water enriched with transition elements (TO?) in rats - tolerance to rapid decompression
p0254 A79-66421

Gating effects in Halobacterium halobium membrane transport
p0268 A79-07849

Light-driven solute transport in Halobacterium halobium
p0270 A79-91194

Role of n-aminobenzoic acid in repairing UV and gamma radiation damage
p0271 A79-53211

Effects of electromagnetic field induction on development of the green alga, Scenedesmus quadricauda (Turpia) Breb. and composition of free amino acids in its biomass and medium
p0075 W79-14740

AMMONIA
Photochemical synthesis of amino acids from aqueous solutions of ethyl alcohol, ammonia/nitrogen under varied conditions
p0010 A79-24520

Enhancing biological production of ammonia from atmospheric nitrogen and soil nitrate
p0253 W79-15571

AMPHOTERASES
Effects of aspapetamine on response selection and response execution processes in choice reaction tasks
p0309 W79-32839
ANGULAR ACCELERATION

Computation of rigid-body rotation in three-dimensional space from body-fixed linear acceleration measurements
[ASME PAPER 78-WA/SD-1] p0069 #79-19759

Characteristics of vestibular nystagmus in rats
p0106 #79-10714

An examination of statistical impact acceleration injury prediction models based on Gx accelerometer data from subhuman primates
[AD-A057276] p0025 #79-11690

Vestibular models and thresholds of motion perception. Result of tests in a flight simulator
[VTH-LE-265] p0146 #79-18595

ANGULAR ACCELERATION (MATHEMATICS)

Analysis of variance
A method to evaluate performance reliability of individual subjects in laboratory research applied to work settings
[FAA-AM-78-17] p0137 #79-17947

Analytical geometry
The use of biostereometry in helicopter cockpit design --- using a simulator and analytical geometry
p0150 #79-16629

ANEMOMETERS

Hot-film anemometers

ANEMOMETRY

Veil velocity measurement

ANGIOGRAPHY

Predictive accuracy of Q-I/Q-T ratio, Q-Tc interval, S-T depression and R wave amplitude during stress testing --- heart pathology
p0225 #79-40664

Coronary calcium characterization in the diagnosis of coronary artery disease
p0226 #79-40665

Computer quantitation of angioCardiographic images
p0271 #79-51028

Computer quantitation of coronary angiograms
p0293 #79-51030

The development of a digital video subtraction system for intravenous angiography
p0294 #79-51033

Contour detector and data acquisition system for the left ventricular outline
[RASA-CASE-ARC-10865-1] p0017 #79-10724

ANGULAR ACCELERATION

Computation of rigid-body rotation in three-dimensional space from body-fixed linear acceleration measurements
[ASME PAPER 78-WA/SD-5] p0069 #79-19759

Nystaglographic characterization of responses to rotation of persons with different vestibular-vegetative stability
p1088 #79-35122

Characteristics of vestibular nystagmus in rats
p0106 #79-10714

An examination of statistical impact acceleration injury prediction models based on Gx accelerometer data from subhuman primates
[AD-A057276] p0025 #79-11690

Vestibular models and thresholds of motion perception. Result of tests in a flight simulator
[VTH-LE-265] p0146 #79-18595

A-15
ANGULAR MOTION

Balance training of the equilibrum organ and its effect on flight strategy

Distinctions of influence of the reticular formation of the midbrain on the heart and respiration with exposure to centripetal accelerations

ANGULAR VELOCITY

Dynamics of an image viewed through a rotating mirror

ANIMALS

ANTHOCYANINS

ANTIBODIES

ANTIBIOTICS

ANTIADRENERGICS

ANOMALIES

ANOREXIA

Temporal correlation between onset of cell anoxia and ischemic contractile failure

Molecular determinants for the prediction and survival of ischemic anoxic stress pathology

A-16

ANTHROPOLOGY

Seating, console and workplace design - Seated operator reach profiles

Seating, console, and workplace design - Integration of literature and accommodation model

Estimating percentiles of nonnormal anthropometric populations - Final report

Anatomical frames of reference and biomechanics

A theoretical model to estimate some oropsonic parameters from age, height and weight

Anthropometric source book. Volume 1: Anthropometry for designers

Anthropometric changes in weightlessness

Variability in human body size

Anthropometry

Arm-leg reach and workspace layout

Range of joint motion

Anthropometry in sizing and design

Statistical considerations in man-machine designs

Reach capability of men and women: A three-dimensional analysis

Walking procedure for anthropometric survey data

The use of biostereometry in helicopter cockpit design --- using a simulator and analytic geometry

Performance evaluation of test dummies with flesh parts produced with substitute foaming compounds

Guidelines for fit testing and evaluation of USAF personal-protective clothing and equipment

Procedures used to generate input data sets for the articulated total body model from anthropometric data

United States Army anthropometry: 1946-1977

Analysis of body size measurements for US Navy women's clothing and pattern design

ANTIMICROBIALS

Effects of propranolol on Time of Useful Function

Determination of antimicrobial susceptibilities on infected uines without isolation

ANTIDOTES

MT GAMMA GLOBULIN

ANTIBIOTICS

ANTIGENS

Design of polymeric immunospheres for cell labelling and cell separation

Clinical and morphological studies of people in the course of long-term hypokinesia and subsequent readaptation

Isolation of virus-augmented tumor antigens

ANTHEMIONICS

MT UPHOST ELETRAGE

Cardiorespiratory assessment of decongestant-antihistamine effects on altitude, +Gz, and fatigue tolerances

Effects of altitude and two decongestant-antihistamine preparations on...
physiological function and performance

Indomethacin-antihistamine combination for gastric ulceration control

ANTIINFECTIVES AND ANTIMICROBIALS
Microbial Check Valve for Shuttle (NASA PAPER 78-MWAS-27) p0087 A79-12576

ANTIMETABOLITES
Role of n-alphabenoic acid in repairing UV and gamma radiation damage p0301 A79-53211

AORTA
Better definition of eye to aortic valve distance in high acceleration cockpit /HAC/ seating geometries p0183 A79-33632

Aortic blood flow velocity during exercise in man p0216 A79-25710

APERTURES
In the measurement of hazardous e.m. fields radiated through an aperture p0233 A79-42486

ARPNA

APOLLO SOYUZ TEST PROJECT
Biological study of tobacco seeds flown in the joint Apollo-Soyuz test-project p0006 A79-12519

Genetic effects of cosmic radiation on bacteriophage T4 +/+- /On materials of biological experiment Soyuz-Apollo/ p0229 A79-41708

APPENDAGES

NT FORARM
NT HAND (ANATOMY)
NT LEG (ANATOMY)
APPLICATION
U UTILIZATION
APPROACH
NT INSTRUMENT APPROACH
A safety margin and flight reference system and display for powered-lift aircraft p0090 A79-15614
The limited range of the human eye for optical aircraft acquisition p0291 A79-31948

APPROACH CONTROL
Manual landings in Category 3 conditions p0297 A79-52055

APPROACH INDICATORS
Pilot performance during simulated approaches and landings made with various computer-generated visual glidepath indicators p0297 A79-52276

APPROACH CONTROL

APPROACH INDICATORS
Pilot performance in basic electricity and electronics and A schools (AD-A0620918) p0085 A79-15584
Some variations on derivations by Primoff and their extensions (PB-282617/0) p0112 A79-16548

AQUEOUS SOLUTIONS
Prebiotic condensation of oligonucleotide p0204 A79-37945

AQUICULTURE
Impact of large scale aquatic biomass systems (PB-282617/0) p0013 A79-10697
Nitrogen fixation with photosynthetic marine microorganisms (PB-282600/5) p0083 A79-15570

ARCTIC REGIONS
Man and material in the cold regions, part 1 (AD-A063752) p0178 A79-21771

ARIMA NAVIGATION
Response surface methodology as a manipulator of complex task difficulty --- for computer generated aircraft area navigation control-display systems evaluation p0309 A79-13211

ARGON
Molecular sieve oxygen generating system - The argon question /A brief review/ --- effects of 5 percent Ar in breathing gas p0274 A79-49994

ARGON-OXYGEN ATMOSPHERES
Tissue gas and blood analyses of human subjects p0274 A79-49994

breathing 80% argon and 20% oxygen p0164 A79-30655

ARGUMENTS (MATHEMATICS)
U INDEPENDENT VARIABLES

ARIP (IMPACT PREDICTION)
U COMPUTERIZED SIMULATION

ARKASAS
Distribution of phytoplankton in Arkansas lakes (PB-292772/4) p0240 A79-26768

ARM (ANATOMY)
NT FOREARM
A prediction model of arm push strength in the transverse plane p0037 A79-13195
Arm-leg reach and workspace layout p0033 A79-11739

ARMED FORCES
NT ARMED FORCES (UNITED STATES)
NT NAVY
ARPA authoring system (AD-A0624723) p0190 A79-22762

ARMED FORCES (UNITED STATES)
Acute toxicity of a number of chemicals of interest to the Air Force (AD-A0657313) p0220 A79-25742
United States Army anthropometry: 1946-1977 (P8-286696/0) p0085 A79-13213

Analysis of body size measurements for US Navy women's clothing and pattern design (AD-A063600) p0290 A79-31939
Three decades of NASA efforts to reduce human error accidents, 1947-1977 (AD-A068600) p0290 A79-31943

ARTHYRHYTHMIA
6z tolerance correlation with clinical parameters p0235 A79-43213
Cardiac arrhythmia following passimersion 6z accelerations (P8-286696/0) p0085 A79-13213
The significance of rhythm disturbances in asymptomatic persons p0027 A79-11698

ARTERIES
Development capacity of artemiacysts and Lettuce seeds flown in Cosmos 936 and directly exposed to cosmic rays p0127 A79-24632

ARTERIES
NT AORTA
Effect of exercise on collateral development in dogs with normal coronary arteries p0067 A79-18960
Responses of pial arterioles after prolonged hypercapnia and hypoxia in the awake rabbit (P8-292792/12) p0077 A79-26768
Circulatory response to arterial hyperoxia p0221 A79-36048
Noradrenaline action on smooth muscle cells of coronary arteries (P8-292792/14) p0085 A79-13213
Analyses for noninvasive monitoring of arterial blood pressure by /I/ phono cuff-sphygmomanometry, for discrete measurements and /II/ arterial ultrasonic imaging, for continuous measurements (PB-282617/0) p0204 A79-38149

Regulation of the carbon dioxide tension in arterial blood during inhalation of carbon dioxide in birds and mammals p0169 A79-20713
Mechanics of arterial blood flow (PB-282617/0) p0247 A79-27846
Mass transport in arteries (PB-282617/0) p0247 A79-27846

ARTERIOSCLEROSIS
Ruptured arteriovenous anomaly in a former woman astronaut candidate p0128 A79-24640
Predicting coronary artery disease with treadmill stress testing Changes in R-wave amplitude compared with ST segment depression (P8-292792/11) p0086 A79-34204

The development of a digital video subtraction system for intravenous angiography (P8-292792/12) p0085 A79-15581
Development and evaluation of instrument systems for noninvasive detection, characterization and quantification of atherosclerotic lesions

Ergonomic tests in expert medical certification of flight personnel

Effects of dietary fats on atherosclerosis and thrombosis

Aspects of dietary prevention of arteriosclerosis

Artificial Intelligence

Visual motion perception by intelligent systems

Robots and artificial intelligence --- Russian book

Overview of the use of robots in space missions

Artificial Heart Valves

Functional outcomes of prostatic cardiac valve replacement

Development of an electrical energy converter for a circulatory device

Application of numerical methods to physiological flows --- Navier-Stokes equation, prosthetic heart valves and venoconstriction

Development of an electrical energy converter for driving left heart assist blood pumps

Arthropods

Selected examples of dispersal of arthropods associated with agricultural crop and animal production

Visual motion --- Book

Multi-PIERRE - A learning robot system

Goal-directed mechanics of controlled manipulators

Visual motion perception by intelligent systems

Artificial Satellites

NT ORBITAL ASSEMBLY

NT ORBITAL WORKSHOPS

NT INTERCOSMOS SATELLITES

NT BIOSATELLITES

NT COSMOS SATELLITES

NT SPACE STATION

Artillery

Effects of target motion and image on AAA tracking

Anti-Aircraft Artillery

Arts

Arts Abilities

Ascorbic Acid

Effect of soaking on absorption of some group B vitamins and ascorbic acid in the small intestine of dogs

Aspergillus

The effects of temperature, salinity, and other factors on the growth and formation of UV-absorbing substances by the fungus Aspergillus

Assaulting

Assaulting (assaulting)

Assembling

NT ORBITAL ASSEMBLY

General methods to enable robots with vision to acquire, orient, and transport workpieces

Simulated EVA operation of a remote connector assembly test report

Assessment Program

Experiences of a payload specialist involved with the simulated Spacelab Mission ASSESS II

Bioinstrumentation for evaluation of workload in payload specialists -- Results of ASSESS II

Assessment Program

NT TECHNOLOGY ASSESSMENT

Inverse assimilation -- A general principle of evolution of planetary surfaces

ASTP

U.A. SODUS TEST PROJECT

Astrobiology

U Enkology

ASTRONAUT LOCUMOTION

Spacecraft mobility knee joints

ASTRONAUT HANDLING EQUIPMENT

Manual maneuvering unit: User's guide

ASTRONAUT PERFORMANCE

On the man's adaptation to the operator's work under stressful conditions of space flight

Caloric and exercise requirements of space flight -- Biostereometric results from Skylab

Manual alignment of structural components in space

Bionavigation for evaluation of workload in payload specialists -- Results of ASSESS II

Bionavigation for evaluation of workload in payload specialists -- Results of ASSESS II

Thoughts about man-machine interrelations in space

Air travel and duties on-board Spacelab missions

Spacelab: Selection for payload expert for the first Spacelab mission

Engineering-psychological study of information imaging systems -- manual control of spaceship docking

Astronaut Training

From the laboratory to the Spacelab -- Training program for Spacelab payload experts

Ruptured arteriovenous anomaly in a former woman astronaut candidate

Psychological selection of Spacelab payload specialists: The evaluation of German applicants

Spacelab's payload specialists, their selection and duties on-board

Selection, training, and health care of working specialists for Shuttle/Spacelab and future space station missions

Psychological training -- One of the most important factors of enhancing the safety of space flights

Some advances in astronaut radiation dosimetry

Selection of astronaut candidates -- Contribution of the exercise ECG and spirometry

Special tests for astronaut selection -- Study of cardiovascular reactions by the orthostatism test

Special test for astronaut selection -- Tests of tolerance in the centrifuge and in flight

Theoretical foundations of cardiovascular processes

Isokinetic exercise: A review of the literature

Basic biomechanics equations for cardiovascular flow

Equations on biotransport mechanisms

Isoinetic exercise: A review of the literature

Analysis and validation of human biodynamic models

A study of the effect of forcing function characteristics on human operant dynamics in manual control

Photometric methods for the analysis of human kinesthetic responses to impact environments

Prosthesis coupling

Effects of vibration on the human organism

Operator performance and localized muscle fatigue in a simulated space vehicle control task

Models and Analogues for the Evaluation of Human Biodynamic Response, Performance and Protection

--- conferences, human tolerance of acceleration, vibration, and shock

Prediction of whole-body response to impact forces in flight environments

Procedures used to generate input data sets for the articulated total body model from anthropometric data

A three dimensional discrete element model of the spine, head and torso

Application of biodynamic models to the analysis of 9-16 canopy hit/struck

A failure criterion for human, vertebral, cancellous bone

The use of spinal analogue to compare human tolerance of repeated shocks with tolerance of vibration, part 1

The biodynamic response of the human body and its application to standards

Refinement and validation of a three-dimensional head-spin model

A new three-dimensional discrete element model of the brain during 49-day antithrombotic hypokinesia in individuals with early signs of vegetovascular dysfunction

Synchronous brain evoked potential correlates of directed attention in humans

Conduction difficulties of vagal origin in flight personnel - Significance of intrathoracic data on the bundle of His --- neural activity effects on heart block

Effects of vestibular stimuli on the electrical activity of muscles

Changes in the biophysical activity of some cerebral structures in rabbits exposed to microwaves

A hypothesis of plasmonic absorption of RF energy by biological objects

An empirical formula for broad-band SAR calculations of prolate spheroidal models of humans and animals --- Specific Absorption Rate

The effect of impact acceleration on the electrical activity of the brain

Distinctions of influence of the reticular formation of the midbrain on the heart and respiration with exposure to centripetal accelerations

Methods for localization of electrical sources in the human brain and applications to the visual system

Development of electrophysiological indices of neurological toxicity for organophosphate pesticides and depressant drugs

Experimental and theoretical investigations concerning a frequency filter behavior of the human retina regarding electric pulse currents

BLOOD CIRCULATION

SUBJECT INDEX

BLOOD CIRCULATION

NT PULMONARY CIRCULATION

NT ISCHEMIA

NT INTRAVASCULAR SYSTEM

NT PERIPHERAL CIRCULATION

NT CORONARY CIRCULATION

ST BRAIN CIRCULATION

Some forms of adaptation to extreme influences in the blood system. 

The effect of hyperoxia on the oxygen tension of blood and cerebral tissue.

Some forms of adaptation to extreme influences in the blood system.

Dynamics of the catalase activity of the blood of athletes under the influence of local decompression.

Effects of hyperglycemia and work load on postexercise O2 consumption and blood lactate.

Changes in blood sugar content of dogs exposed to chronic gas radiation for six years.

Effects of laser radiation on morphology of peripheral circulation for dogs under normal and experimental conditions.

Dynamics of Cosmoconus' blood biochemistry during space missions.

Blood lipid changes in hypoxic rats.

Gas diffusion liquid storage bag and method of use for storing blood.

Assessment of factors possibly contributing to the susceptibility of sickle trait erythrocytes to cold hypoxia. Volume 1: Design considerations and research protocol.

Effect of 49-day space flight on parameters of immunological reactivity and protein composition of blood in the crew of Salyut-5.

Effect of methylprednisolone sodium succinate on clearance of linine E. coli from peripheral blood of dogs.

Effects of propellant hydrazines on red blood cell. Methemoglobin and Heinz body formation.

Preparation of some prostaglandin E sub 1 omega-homo-prostaglandin E sub 1 esters and their inhibiting properties on rat blood platelet aggregation.

Investigation of albumin and globulin composition of blood of the crew of the Salyut-3 orbital station.

Effect of brief head-down position on parameters of carbohydrate metabolites and beta lipoprotein content of blood.

BLOOD CIRCULATION

NT BRAIN CIRCULATION

NT CORONARY CIRCULATION

NT INTRAVASCULAR SYSTEM

NT ISCHEMIA

BT PERIPHERAL CIRCULATION

BT PULMONARY CIRCULATION

Blood volume and cardiorespiratory responses to lower body negative pressure.

Analysis of venous differences during rebreathing due to slow pH equilibration in blood.

Cardiac and vascular components of the systemic response of blood circulation to orthostatic influence.

Regional blood supply under hypoxic hypoxia.

Interaction between hypothalamic and bulbar levels of regulating blood circulation.

Reliability of determining the cardiac output by the method of quadruple chest impedance plethysography.

Self-regulation of cerebral circulation under orthostatic influences.

The response of the microvascular canal to a hypoxic helium-containing medium.

Application of an isolated heart model to investigate blood-oxygen delivery.

The role of lesser circulation hemodynamic changes in pulmonary gas exchange.

Bioheat transfer processes, for human thermoregulatory and circulatory characteristics measurements.

Noninvasive ultrasonic blood flow characterization.

Changes in human renal function in passive head-up and head-down positions.

The influence of mechanical vibration and noise on the peripheral blood circulation at skin level.

A study of cerebral blood flow in the goat. A. Correlations between the ventilatory and cerebrovascular responses to carbon monoxide inhalation. B. The dynamics of the cerebral blood flow response to hypoxia by frequency response analysis.

Noninvasive techniques in the evaluation of the peripheral circulation.

A long term model of circulation --- human body.

Effect of hyperbaric oxygen on peripheral blood neutrophil metabolites.

Evaluation of circulatory reactions in the head to antithrostotic position.

Physiological fluid dynamics.

Mechanics of arterial blood flow.

Mechanics of the microcirculation.

Techniques of measurement.

BLOOD COAGULATION

Tissue gas and blood analyses of human subjects breathing 80% argon and 20% oxygen.

State of blood clotting during prolonged hypokinesia.

Blood clotting factors of the vascular wall and myocardium of hypokinesic rabbits.

The effects of brain ischemia on the control of breathing in unanesthetized goats.

Tissular blood clotting factors of vascular walls and myocardium during hypokinesia.

Blood coagulation and tissular factors of blood clotting in heparinized rabbits submitted to hypokinesia.

BLOOD FLOW

Aggregation of red cells and blood viscosity as models of materials experimentation in the space environment.

Neuroendocrine in teenagers and asthmatic children during exercise.

Organ blood flow, cardiac output, arterial blood pressure, and vascular resistance in rats exposed to various oxygen pressures.

A fluid-mechanical study of the closure of heart valves.

Control of skin blood flow during exercise — Thermal and nonthermal factors.

Specific problems in cardiovascular fluid dynamics measurements.
BLOOD PRESSURE

NT DAMSTOLIC PRESSURE
Systolic time intervals during combined hand cooling and head-up tilt

NT ARTERIES
Organ blood flow, cardiac output, arterial blood pressure, and vascular resistance in rats exposed to various oxygen pressures

NT VeINS
Blood pressure variability of the individual in orthostatic testing

NT CAPILLARIES (ANATOMY)
A catheter flow probe for measurement of left ventricular source parameters

NT AORTA
Effect of cerebrocranial trauma on reactive distinctions of hypothalamic and hippocampal vessels in the presence of hypoxia

NT PULMONARY ARTERIES
Effect of oxygen poisoning on the spectrum of lactate dehydrogenase isozymes of rabbit blood plasma

NT AORTA
Comparison of plasma and urinary steroids in men with type A and type B behavior patterns

NT CAPILLARIES
Sterols bound with blood plasma proteins and erythrocyte membranes during hypoxia

NT SYMPATHETIC NERVES
Electrolyte composition of rat blood plasma and skeletal muscles after flight aboard the Cosmos-690 biosatellite

BLOOD VESSELS

NT BLOOD PLASMA
Influence of pressure chamber conditions on adrenocortical function in man (according to results of assayng blood plasma 11-hydrorycorticosteroids)

NT BLOOD PRESSURE
Effect of intermittent hypoxia on functional activity of peripheral blood neutrophils

NT BLOOD PUMPS
A study of some of the factors influencing the unanesthetized pony

NT BLOOD VESSELS
A study of noninvasive blood pressure measurement techniques

NT BLOOD FLOW
Analyses for noninvasive monitoring of arterial blood pressure by /I/ phono cuff-sphygnomanometry, for discrete measurements and /II/ arterial ultrasonic imaging, for continuous measurements

NT CAPILLARY BLOOD FLOW
A new noninvasive technique for cardiac pressure measurement. II Scattering from encapsulated bubbles

NT BLOOD FLOW METERS
Cardiac blood flow measurement - A component of the comprehensive cardiac examination

NT BLOOD FLOW MEASUREMENT
Beta-adrenoceptor antagonists: Central effects

NT BLOOD FLOW TECHNIQUES
Clinical comparisons of pressure pulse and cuff-sphygnomanometry, for discrete measurements - continuous measurements 

NT CARDIAC BLOOD FLOW
Noninvasive cardiovascular measurements --- Book

NT CARDIOVASCULAR SYSTEM
A study of noninvasive blood pressure measurement techniques

NT GASTRO-INTESTINAL SYSTEM
Analyses for noninvasive monitoring of arterial blood pressure by /I/ phono cuff-sphygnomanometry, for discrete measurements and /II/ arterial ultrasonic imaging, for continuous measurements

NT MECHANICS OF THE MICROTHEMULIZATION
Cardiac blood flow measurement - A component of the comprehensive cardiac examination

NT MECHANICS OF THE MICROTHEMULIZATION
Clinical comparisons of pressure pulse and cuff-sphygnomanometry, for discrete measurements - continuous measurements 

NT MECHANICS OF ARTERIAL BLOOD FLOW
Noninvasive assessment of pulmonary hypertension using bumble ultrasonic ringing (BURP) method, part 2 [PB-283935/5]

NT MECHANICS OF THE MICROTHEMULIZATION
Clinical comparisons of pressure pulse and indicator dilution methods of determining cardiac output

NT MECHANICS OF THE MICROTHEMULIZATION
Noninvasive assessment of pulmonary hypertension using bumble ultrasonic ringing (BURP) method, part 2 [PB-283935/5]

NT MECHANICS OF THE MICROTHEMULIZATION
Clinical comparisons of pressure pulse and indicator dilution methods of determining cardiac output

NT MECHANICS OF THE MICROTHEMULIZATION
Noninvasive assessment of pulmonary hypertension using bumble ultrasonic ringing (BURP) method, part 2 [PB-283935/5]

NT MECHANICS OF THE MICROTHEMULIZATION
Noninvasive assessment of pulmonary hypertension using bumble ultrasonic ringing (BURP) method, part 2 [PB-283935/5]

NT MECHANICS OF THE MICROTHEMULIZATION
Noninvasive assessment of pulmonary hypertension using bumble ultrasonic ringing (BURP) method, part 2 [PB-283935/5]

NT MECHANICS OF THE MICROTHEMULIZATION
Noninvasive assessment of pulmonary hypertension using bumble ultrasonic ringing (BURP) method, part 2 [PB-283935/5]
Influences of physical conditioning and deconditioning on coronary vasculature of dogs

The bloodflow in skeletal muscle capillaries in normoxia and arterial hypoxia
/Microcinematographic studies/

Iodine imaging using spectral analysis --- radiography for visualization of small blood vessels

Quantitative flow estimation with transcutaneous Doppler ultrasound

Unsteady-state response of the vascular system to transient and sustained aerospace acceleration profiles

Blood volume and cardiorespiratory responses to lower body negative pressure

Pulmonary blood volume and interventricular circulation time in physically trained and untrained subjects

Plasma volume and electrolyte shifts with heavy exercise in sitting and supine positions

Effects of regional hemococoncentration during LBNP on plasma volume determinations --- Lower Body Negative Pressure

Investigation of blood subjected to volume tension

Early cardiovascular adaptation to zero gravity simulated by head-down tilt

Blue-green algae

Evolution of early life inferred from protein and ribosaccharide acid sequences

Distribution of blue-green algae in a Mississippi Gulf Coast salt marsh

Citric acid enhancement of copper sulfate toxicity to blue-green algae and other nuisance organisms

Body mineral content

Boats

Human factors analysis of visual distress signaling devices --- used by boaters

Bodies of revolution

Electromagnetic fields and power deposition in body-of-revolution models of man

Body fluids

Body blood

Cerebrospinal fluid

Erythrocytes

Lymph

Leukocytes

Sweat

Urines

White blood cells

A review of the consequences of fluid and electrolyte shifts in weightlessness

Fluid shifts during initial phase of immersion diuresis in man

Evidence for increased intrathoracic fluid volume in man at high altitude

Clinical and morphological studies of people in the course of long-term hypokinesia and subsequent readaptation

Correction of transcapillary exchange in man under the influence of rotation on a centrifuge while immersed in water

Specialized physiological studies in support of massed space flight

Application of numerical methods to physiological flows --- Navier-stokes equation, prosthetic heart valves and vasomotor control

Fluid and electrolyte balance model (FEB)

Chemicals identified in human biological media, a pilot literature survey

Fluid and electrolyte control systems in the human body: A study report

On a basic model of circulatory, fluid, and electrolyte regulation in the human system based upon the model of Guyton

Study report on modification of the long term circulatory model for the simulation of bed rest

Simulation of fluid-electrolyte metabolism as a means of preventing orthostatic instability in the crew of the second expedition aboard the Salyut-4 station

Physiological fluid dynamics

Techniques of measurement

Composition of cerebral fluids in goats adapted to high altitude

Fluid-electrolyte metabolism in the crew of Salyut-4

Body kinematics

Computation of rigid-body rotations in three-dimensional space from body-fixed linear acceleration measurements

Goal-directed mechanics of controlled manipulators --- Russian book

Whole body response research program

Whole body response research program. Appendix A: Methodology

Whole body response research program. Appendix B: Raw data

Whole body response research program. Appendix C: Processed data

Whole body response research program. Appendix D: Raw data

Procedures used to generate input data sets for the articulated total body model from anthropometric data

Simulation of head and neck response to -G sub x and +G sub z impacts

A three-dimensional mathematical analogue of the circulatory system for the simulation of bed rest

A three-dimensional discrete element dynamic model of the spine, head and torso

A human body and crew motion modeling system for motion studies

Body measurement (biology)

Body anthropometry

Electromagnetic absorption in a multilayered model of man

Arm-leg reach and workspace layout

Anthropometric source book. Volume 3: Annotated bibliography of anthropometry

Neutralization of biomedical circuitry

Miniature implantable ultrasonic echosonometer
Effect of induced cyclic changes of deep body temperature on human performance variances

Mathematical modeling of human heat exchanger and identification of its parameters: Physiological studies and mathematical modeling

Discrimination, temperature, and time of day --- human performance variances

Studies on thermoregulation in the rat

Physical performance and peak aerobic power at different body temperatures

Characterization of TEC changes in rabbits in response to local cooling or heating of the central thermoregulatory area

Effect of induced cyclic changes of deep body temperature on task performances

Regional heat loss in resting man during immersion in 25.2 °C water

An inducibly powered telemetry system for temperature, EEG, and activity monitoring

Separation of the effects of raised skin and core temperature on performance of a pursuit rotor task

Prediction of body temperatures during exercise in flying clothing

Effect on performance of cycling deep body temperature between 37.0 and 37.6 °C

Bio-heat transfer processes, for human thermoregulatory and circulatory characteristics measurements

Microwave thermography: Physical principles and diagnostic applications

Effect on mice of microwaves in the non-thermal intensity region. Respiration, rectal temperature and mental reaction

Crawford and Lavolsier on the method of development and place of formation of body heat

Analyses of body form using biostereometrics

United States Army anthroscopy: 1946-1977

Analyses of body size measurements for U.S. Navy women's clothing and patterns design

BODY TEMPERATURE

BODY SWAY TEST

Neurodynamics in teenagers and asthmatic children during exercise

BODY TEMPERATURE

Comparison of circadian rhythms in male and female humans

Core temperature measurement in man

Heat transfer and temperature distribution in the human body

Thresholds for Na+ and Ca++ effects on thermoregulation

Regulation and efficiency of sweating in man

Temperature effect of muscular work in the white rat during hypoxia

The effects of different levels of heat production induced by diet and exercise on thermoregulation during exercise at a given skin temperature

The local and time-dependent temperature field in the body of a homeothermic organism in case of sudden changes of quantity and local distribution of internal heat production

Model of human heat exchange and identification of its parameters: Physiological studies and mathematical modeling

Discrimination, temperature, and time of day --- human performance variances

Preliminary design specifications of a calcium model

Quantitative analysis of selected bone parameters

Histological studies on tibial bone of rats in the 1975 COSMOS-762 flight. Part 1: Endochondral osteogenesis; medullary bone turnover

Histological studies on tibial bone of rats in the 1975 COSMOS-762 flight. Part 2: Microangiographic study of cortical bone

Quantitative analysis of selected bone parameters

Preliminary design specifications of a calcium model

Effect on dehydration and peripheral cooling

The human micro-environment

Hypothermia. A bibliography with abstracts

BODY TEMPERATURE REGULATION

BODY WEIGHT

Weight control and restraint of laboratory rats

Obesity and flying fitness

BOEING AIRCRAFT

BOEING MILITARY AIRCRAFT

OMAN BRITISH AIRCRAFT

BONE MINERALIZATION

In-vivo bone strain telemetry in monkeys /A./

Bone/ cartilage/ skin/ muscle/ bone/ bone marrow/ bone

BONE MARROW

Effects of laser radiation on morphology of peripheral blood and bone marrow under experimental and clinical conditions

BONE MINERAL CONTENT

Spaceflight and bone turnover - Correlation with a new rat model of weightlessness

The use of Na-22 as a tracer for long-term bone mineral turnover studies

The influence of exercise on bone atrophy

Kinetic measurements of bone mineral metabolism: Results and methodologies

Spaceflight and bone turnover - Correlation with a new rat model of weightlessness

BONE MINERALIZATION

BONE MINERALIZATION
BOUNDARY VALUE PROBLEMS
The application of MINIQUASI to thermal program boundary and initial value problems
[NASA-CH-160227] p0222 A79-35759

BOUNDARY VALUE PROBLEMS
The relationship between classical centers of the auditory tract and certain "nonspecific" brain structures in the organization of the auditory function in animals
p003 A79-14370

BRAIN CIRCULATION
The inhibitory trace effect as a manifestation of the integrative activity of the human brain in performing voluntary motor acts
p015 A79-28735

The effect of electroconvulsive shock on nonoanergic receptor binding sites in rat brain
p016 A79-29925

Sympathetic uptake of hypothalamic monoamines and recovery of pituitary-adrenal activity following median forebrain bundle lesions in rats
p027 A79-50232

Elicited acoustic responses to meaningful and meaningless verbal stimuli
p026 A79-50654

Possible mechanisms of weak electromagnetic field coupling in brain tissue
p008 A79-15555

Bioelectrical activity of the brain during 49-day rotational hypokinesia in individuals with early signs of vegeto-vascular dysfunction
p010 A79-16621

Effects of filtering electroencephalographic signals on auditory evoked brain stem responses
p017 A79-21758

The effects of brain ischemia on the control of breathing in anesthetized goats
p010 A79-23624

Dose-effect relationships for ultrasound irradiation of brain tissue
p024 A79-27812

The effect of impact acceleration on the electrical activity of the brain
p028 A79-31921

Composition of cerebral fluids in goats adapted to high altitude
[AD-A0701263] p031 A79-31788

Distinctions of influence of the reticular formation of the midbrain on the heart and respiration with exposure to centrifugal accelerations
p032 A79-33800

Methods for localization of electrical sources in the human brain and applications to the visual system
p034 A79-33815

BRAIN CIRCULATION
Cerebral gas exchange in rats adapted to hypoxia during inspiration of oxygen-poor mixtures
p009 A79-20623

Responses of pial arterioles after prolonged hypercapnia and hypoxia in the awake rabbit
p101 A79-23075

Central and cerebral hemodynamics and metabolism of the healthy man during head-down tilting
p012 A79-24634

Diagnosis of initial deficiency in cerebral circulation
p016 A79-31164

Self-regulation of cerebral circulation under orthostatic influences
p022 A79-36098

Cerebral hemodynamics and visual analyzer function following exposure to bright light
p010 A79-16525

Brain damage
Ruptured arteriovenous anomaly in a former woman astronaut candidate
p012 A79-24640

Changes in the bioclectrical activity of some cerebral structures in rabbits exposed to microwaves
p018 A79-35917

Aircrew helmet protection against potential cerebral concussion in low-segment impacts
p020 A79-37705

Effects of high LET neutron/\alpha-20 particle radiation on the brain, eyes, and other head structures of the pocket mouse - A histological study
p025 A79-4798

Effect of cerebrocranial trauma on neuroanatomical distinctions of hypothalamic and hippocampal vessels in the presence of hypoxia
p004 A79-14733

The child in coma
p009 A79-15890

Coma recovery
p009 A79-15891

The control and prevention of seizures in children, a developmental and environmental approach
p009 A79-15892

Vision
p009 A79-15894

BRAZIL
The application of remote sensors to a model for fish mapping
[INPE-1379-PR/176] p0071 A79-14712

BREATHEING
Distribution of pulmonary ventilation and perfusion during short periods of weightlessness
p008 A79-18967

Tissue gas and blood analyses of human subjects breathing 80% argon and 20% oxygen
p016 A79-30655

Contribution of rib cage and abdomen-diaphragm to tidal volume during CO2 rebreathing
p015 A79-33805

Positive pressure breathing as a protective technique in -ar acceleration
p020 A79-37132

Distribution of regional volumes and ventilation in excised canine lobes
p023 A79-47303

Influence of exercise and CO2 on breathing pattern of normal man
p027 A79-47304

Gas exchange under environmental stress
[AD-A058242] p005 A79-13697

BREATHEING APPARATUS
\textbf{BREATHING APPARATUS}

The objective evaluation of aircrew protective breathing equipment. III - Improved types of mask/goggles combinations. IV - Fullface masks and hoods suitable for flight attendant use

The dynamic oxygen-regulator test stand
[AD-A0609783] p010 A79-33638

The dynamic oxygen-regulator test stand
[AD-A0609783] p012 A79-17560

BRIGHTNESS
Cerebral hemodynamics and visual analyzer function following exposure to bright light
p010 A79-16525

BRIGHTNESS DISCRIMINATION
Perceived quantization error. Effect of quantization function, reconstruction function and number of levels
[AD-C-56015-H9] p012 A79-17555

BROADBAND
An empirical formula for broad-band SAR calculations of prostate spheroidal models of humans and animals --- Specific Absorption Rate
p027 A79-51015

BROACH
Modeling the effect of axial bronchial tension on...
Computer quantitation of coronary angiograms
Clinical applications of new echocardiographic techniques
Bioelectromagnetic instrumentation and measurement
Clinical magnetocardiography
Application of an isolated heart model to investigate blood-oxygen delivery
Possibilities and perspectives of tetrapolar transcutaneous impedance rheoporoangiography in noninvasive studies of hemodynamic and cardiovascular function
The metabolic demand and oxygen supply of the heart — Physiologic and clinical considerations
Temporal relation between onset of cell anoxia and ischemic contractile failure
Difficulties posed by left axis deviation in the evaluation of flies, and their relations to the concept of left anterior hemiblock
Cardiological findings in 115 pilots: Diagnoses and assessment of their flying fitness
Normal and pathological cardiovascular findings in applicants to the Air Force service
Clinical comparisons of pressure pulse and indicator dilution methods of determining cardiac output
A correlation of the effects of catonic uncouplers on intact cardiac muscle and on calcium bound to isolated cardiac muscle plasma membranes
Technical evaluation report on the Aerospace Medical Panel London Specialists' Meeting, Fall 1977 — disease prevention, flight fitness, and findings in cardiology and pulmonary function
Specific findings in cardiology and pulmonary function with special emphasis on assessment criteria for flying
Cardiovascular response to whole-body heating
Some tests used in the practice of aviation medical examination for differential diagnosis of heart diseases
Frequency analysis of heart rate variability under flight conditions
Coronary calcification in the diagnosis of coronary artery disease
Modification of cardiac function by synchronized oscillating acceleration
Noninvasive cardiovascular measurements
Computer quantitation of angiocardiographic images
Cardiac response to whole-body heating
Some tests used in the practice of aviation medical examination for differential diagnosis of heart diseases
Frequency analysis of heart rate variability under flight conditions
Coronary calcification in the diagnosis of coronary artery disease
Modification of cardiac function by synchronized oscillating acceleration
Noninvasive cardiovascular measurements
Computer quantitation of angiocardiographic images
Age trends in the cardiovascular dynamics of aircrews

Functional changes in the cardiovascular system of machine-tool operators under physical and neurologically stressful loads

Early cardiovascular adaptation to simulated zero gravity

Cardiac responses of dogs to nonsynchronous and heart synchronous whole-body vibration

Incidence of cardiovascular problems among flying personnel and their evaluation

Cardiac changes during behavioral stress in dogs

Specific problems in cardiovascular fluid dynamics measurements

Continuous metabolic and cardiovascular measurements on a monkey subject during a simulated 6-day Spacelab mission

Isolation of a shock-induced circulating cardiodepressant substance

Noninvasive cardiovascular measurements --- Book

Current status of cardiovascular imaging by transmission computed tomography

A new noninvasive technique for cardiac pressure measurement. II Scattering from encapsulated bubbles

Clinical applications of new echocardiographic techniques

Cardiac blood flow measurement - A component of the comprehensive cardiovascular examination

Time course of O2-pulse during various tests of aerobic power

Theoretical foundations of cardiovascular processes --- Book

Basic biomechanics equations for cardiovascular flow

Clinical and morphological studies of people in the course of long-term hypokinesia and subsequent readaptation

Cardiovascular, metabolic, and respiratory responses of sedentary females to equal metabolic workloads on the bicycle ergometer and treadmill

Experience with periodic aviation medical examinations

Beta-adrenoceptor antagonists: Central effects

Specific Findings in Cardiology and Pulmonary Function with Special Emphasis on Assessment criteria for Flying

Reproducibility of human cardiovascular responses to orthostatic stress

Evaluation of cardiac risk and subject response to stressful efforts

Cardiovascular diseases as a cause of unfitness for flying service in aircrews of Italian Air Force: Myopathogenesis, influence of performance in flight, and prevention

Cardiovascular fitness of pilots of transport aircraft

Cardiovascular studies of reducing and oxidizing agents

Development of high-resolution ultrasonic imaging techniques for detection and clinical assessment of cardiovascular disease

CARGO AIRCRAFT

SUBJECT INDEX

Development of high-resolution ultrasonic imaging techniques for detection and clinical assessment of cardiovascular disease

Aircraft flight simulation of Spacelab experiment using an implanted telemetry system to obtain cardiovascular data from the monkey

Noninvasive techniques in the evaluation of the peripheral circulation

Cardiac adaptation to endurance training: determined by echocardiography and electrocardiography

The effects of active and passive heat acclimatization procedures on the cardiovascular, thermoregulatory, and sweat rate responses to work in the heat in male humans

Physiological system integrations with emphasis on the respiratory-cardiovascular system

User's instructions for the cardiovascular Walters model

User's instructions for the high-speed version of the cardiovascular exercise model

User's instructions for the GE cardiovascular model to simulate LMP and tilt experiments, with graphic capabilities

Study report on guidelines and test procedures for investigating stability of nonlinear cardiovascular control system models

Effect of brief head-down hypokinesia on pressure in various parts of the healthy man's cardiovascular system

Characterization of cardiovascular function by automated monitoring of cardiac contractility and left ventricular wall motion activity

Cardiovascular diseases, volume 3. A bibliography with abstracts

Possibility of improving assessment of cardio-pulmonary function by submaximal exercise on a bicycle ergometer

Frequency response of cardiovascular regulation in canines to sinusoidal acceleration at frequencies below 1 Hz (basis for biodynamic modeling)

The causes of decrements in aircrew performance: physiological changes produced by vibration and other environmental stresses and response of the cardiovascular system to vibration and combined stress

CARGO AIRCRAFT

CARTRIDGE ACTUATED DEVICES

CARTRIDGE EXPLODE DEVICES

CASCADES (FLUID DYNAMICS)

CASE HISTORY

CATASTROPHIC

CATASTROPHIC DEVICES
Study of model membrane fusion using photon correlation spectroscopy - lipid bilayer phase transition in cell membranes

Effect of infra-low-frequency magnetic fields on cell division

A method for separating biological cells

Effects of propellant hydrazines on red blood cells: Methemoglobin and Heinz body formation

Electrophysiological determination of retinal sensitivity to color after intense monochromatic light adaptation

Purification and cultivation of human pituitary growth hormone secreting cells

Preparation of guinea pig macrophage for electrophoretic experiments in space

Biological effects of laser irradiation on nerve cells

Study of pharmaceutical industrial problems

Cell biology basin for the life of an organism in the radiation field

Studying the state of cellular metal ions by the extended X-ray absorption fine structure

Direct exposure of monolayers of mammalian cells

Study of specific effects of hyperfrequencies on the central nervous system. II - Exploratory research on rat /Mistary/ behaviour

A model for vestibular function in altered gravitational states

Fat behavior in maze after flight aboard Kosmos-690 biosatellite

The effects of carbon monoxide and cyanide on the respiratory system of rats to transverse acceleration loading

The effect of hyperoxia on cerebral blood flow in rats to hypertoxic helium and oxygen mixtures

Composition of cerebral fluids in goats adapted to atmospheric and elevated pressure

Cerebral accident subsequent to G-force loading - A case report

Cerebral accident subsequent to G-force loading - Tent of tolerance in the centrifuge and in flight

Relaxed +Gz tolerance in healthy man - Effect of age

Isocapacitation time for +Gz-induced loss of consciousness

BRC/CR-51/ half-life and albumin turnover in growing Beagle dogs during chronic radial acceleration

Physiological effect of high, sustained +Gz forces on man

Influence of the ambient acceleration field upon acute acceleration tolerance in chickens

Effect of microwave radiation on the resistance of rats to transverse acceleration loading

Distinctions of influence of the reticular formation of the midbrain on the heart and respiration with exposure to centripetal accelerations

Homomorphic analysis and modeling of ECG signals

Piecewise Fourier analysis of images and the role of occipital, temporal and parietal cortex in visual perception

Self-regulation of cerebral circulation under orthostatic influences

The effect of hyperoxia on the oxygen tension of blood and cerebral tissue

Responses of retinal and visual pathway potentials of the guinea pig to nitrogen and helium at high pressure

The visual cortex of normal and deprived monkeys

Tissular respiration of the brain after exposure of rats to hypertoxic helium and oxygen mixtures at atmospheric and elevated pressure

The effect of hyperoxia on cerebral blood flow in the unanesthetized pony

A transient analysis of the cerebrovascular response to carbon dioxide

Multiple tracer diffusion methods for the evaluation of cerebral capillary permeability and capillary blood flow rate in the rat

Cerebral vascular accidents

Cerebral accident subsequent to G-force loading - A case report

Cerebrospinal fluid

Responses of pial arterioles after prolonged hypercapnia and hypoxia in the awake rabbit

Composition of cerebral fluids in goats adapted to high altitude

Determination of cerebral and neck subcutaneous tissue PO2 with 3 and 44 +Gz in M. bulatta

A-42
Some neurochemical characteristics of rats after space flight in the Cosmos-936 satellite.

Effects of dietary composition on nutritional balance in the body.

The dynamics of the cerebral blood flow response to hypoxia by frequency response analysis.

Characteristics of medically disqualified airman applicants in calendar years 1975 and 1976.

Solar-driven chemical energy source for a Martian biota.

Chemicals in environment affect man's physiology.

Acute toxicity of a number of chemicals of interest to the Air Force.

Synthesis of organic compounds from carbon monoxide and water by UV photolysis.

Solar-driven chemical energy source for a Martian biota.

Evolution of a genetic code simulated with the computer.

Inorganic crystal condensation reactions - A mechanism for organic synthesis in ionized reducing atmospheres.

Speculations of the evolution of the genetic code, II.

Characterization of biologically active agents to plasmas.

Chemicals in environment affect man's physiology.

Evolution of a genetic code simulated with the computer.

Photochemical synthesis of amino acids from aqueous solutions of ethyl alcohol, ammonia/nitrogen under varied conditions.

Negative pressure did not condense to give heteropolypeptides on the primitive earth.

Prebiotic nucleotide oligomerization in a fluctuating environment - Effects of kaolinite and cyanamide.

A review of recent concepts of the problem of the origin of life.

Synthesis of organic compounds from carbon monoxide and water by UV photolysis.

Vertical gene distributions in the biota.

Mixtures with abiotic conditions.

A simple model of fluid flow and electrolyte balance in the body.

On the reality of extraterrestrial biogenesis.

Effect of carbohydrates on national state in rats during exposure to high altitude.

Preliminary design specifications of a calcium model.

Microanalytical identification of barium sulphate crystals in stalactites of Chara Rhizoids.

Effects of propellant hydrazines on red blood cells: Methemoglobin and Heinz body formation.

Porphyrin-like compounds genesis under simulated abiotic conditions.

Synthesis of organic compounds from carbon monoxide and water by UV photolysis.

Prebiotic nucleotide oligomerization in a fluctuating environment - Effects of kaolinite and cyanamide.

A review of recent concepts of the problem of the origin of life.

Prebiotic molecular evolution.
Experimental approach to the chemical evolution in the primordial sea. I. Formation of amino acids and amino acid polymers in modified sea mediums
Prebiotic synthesis of amino acids by carboxylation of amines in oxidative atmosphere
Incorporation of sulphur in chemical evolution
A simple analogical model for the selection of optical activity and of the most efficient catalysts in the course of molecular evolution
Quantitative aspects of the effect of weak interaction during chemical evolution
Experimental approach to the chemical evolution in the primordial sea. II. Formation of protein-like structures 'earigranules' in a modified sea medium
Takeover mechanisms and early biochemical evolution
Sulfate-reducing bacteria and biochemical evolution
Some characteristic features of the origin and evolution of the amino acid composition of proteins - A theoretical consideration
Evolution of transfer RNA
Epimerization of l-isoleucine on Na-montmorillonite and its implication to Precambrian chemical fossils
The study of the origin of life - Results and prospects
The crisis in the problem of the origin of life
A critical assessment of the origin of life
Squalenes, phytanes and other isoprenoids as major neutral lipids of methanogenic and thermoacidophilic 'archaebacteria'
Carbon suboxide and the genetic code --- in biochemical evolution
Goodman et al.'s method for augmenting the number of nucleotide substitutions
On investigating the statistical properties of the populous path algorithms by computer simulation - Counterconclusions to those of Tateno and Nichinaka for mutational change in protein evolution
A proposal concerning the origin of life on the planet earth
Polymers produced by heating an amino acid mixture in sea water enriched with transition elements
Mirror symmetry breaking in biochemical evolution
Prebiotic coordination chemistry: the potential role of transition-metal complexes in the chemical evolution
Publications of the planetary biology program for 1977: A special bibliography
Publications of the planetary biology program for 1978: A special bibliography
CHEMICAL FUELS
CHEMICAL REACTIONS
CHEMICAL KINETICS
CHEMICAL PROPERTIES
CHEMICAL SPECTRUM
Changes in the circadian rhythm of performance and mood in healthy young men exposed to prolonged, heavy physical work, sleep deprivation, and caloric deficit

Circadian rhythms of electrolyte urines in healthy persons

The importance of light, postural and social cues in the regulation of the plasma cortisol rhythms in man

Stability of circadian system of the body

Task complexity and 24-h performance patterns in working and evening active subjects

Human circadian physiology: Internal organization of temperature, sleep-wake and neuroendocrine rhythms monitored in an environment free of time cues

CIRCULATORY SYSTEM

The development of a whole-body algorithm

CIRCUITS

Evaluation of exercise-respiratory system

CIVIL

Evaluation of exercise-respiratory system

CLASSIFICATIONS

The systems analytic approach to the problems of classification of scientific medical research

The development of a whole-body algorithm

Inhalation of air at altitude chokes

Human circadian physiology: Internal organization of temperature, sleep-wake and neuroendocrine rhythms monitored in an environment free of time cues

Evaluation of exercise-respiratory system

Evaluation of exercise-respiratory system

Evaluation of exercise-respiratory system

Evaluation of exercise-respiratory system

CLIMATOLOGY

CLINICAL MEDICINE

Clinical importance of directional statistics for
electrocardiographic Differentiation of smoking habits

Pneumothorax and flight personnel - Incidence, etiology and treatment

The value of measuring ocular tonus as a test for
detecting glaucoma in flight personnel

Characteristics of severe carbon monoxide poisoning

Myocardial infarction in young men

6G tolerance correlation with clinical parameters

Noninvasive cardiovascular measurements - Book

Computer quantitation of coronary angiograms

Clinical applications of new echocardiographic techniques

Cardiac blood flow measurement - A component of
the comprehensive cardiac examination

Biomechanical instrumentation and measurement

Clinical magnetocardiography

Detection and supervision of obstructed
respiratory flow in fliers. Advantages of
debit-volume graphs

Difficulties posed by left axis deviation in the
evaluation of fliers, and their relations to the
concept of left anterior fasciculus

Cardiac conduction and aptitude problem of fliers.
The benefits of endocardial recording of the His bundles

The advantages of ultrasonic echocardiography in
the cardiological evaluation of fliers

Clinical comparisons of pressure pulse and
indicator dilution methods of determining
cardiac output

Automated clinical system for chromosome analysis
[ NASA-CASE-N90-1391-11 ]

Noninvasive estimation of bilirubin and hemoglobin
oxygen saturation in the skin by reflection
spectrophotometry

Early detection of disease: The correlation of
the volatile organic profiles from patients with
upper respiratory infections with subjects of
normal profiles
[ NASA-CR-160100 ]

Evaluation of clinical biofeedback
[ PD-207776/J ]

The role of computer technology mathematical
models in treatment of patients following heart surgery

Lidocaine for pain control in dermatologic surgery

Study report on combining diagnostic and
therapeutic considerations with subxyseps and
whole-body simulation
[ NASA-CR-160231 ]
COLD TOLERANCE

Time for loss of increased cardiac responsiveness to isoproterenol in cold-acclimated rats after removal from cold

p0128 A79-24636

Cold tolerance

Thermoregulation in swimmers and runners

p0227 A79-41186

Cross-adaptive effects of cold, hypoxia, or physical training on decompensation sickness in mice

p0269 A79-47055

COLD TOLERANCE

Time for loss of increased cardiac responsiveness to isoproterenol in cold-acclimated rats after removal from cold

p0128 A79-24636

Responses of high altitude natives to a standard cold test at sea level

p0164 A79-30658

Thermoregulation in unrestrained rats during and after exposure to 1.5–8 °C

p0227 A79-41185

Blood status of human tremor and shivering on introduction to cold exposure

p0298 A79-52278

Uncommon hypersensitivity to contacting cold water and cold air with propagated reflex-like eye closure development

[BLI-RTS-11644]
p0279 A79-30917

Subject Index

Investigation of arrangement of multipurpose displays and use of tailored control logic in a fighter aircraft cockpit

p0038 A79-13205

Multifunction keyboard configurations for single-seat, air-to-ground fighter cockpits

p0039 A79-13213

Factors that affect display size criteria in a cockpit display system

p0063 A79-18212

Better definition of eye to aortic valve distance in high acceleration cockpit /MAC/ seating geometries

p0183 A79-33632

Effect of cockpit temperature gradients on the performance of single-point measurements

p0239 A79-43203

Cockpit thermal stress and aircrew thermal strain during routine Jaguar operations

p0266 A79-47234

Internal cockpit reflections of external point light sources for the YAH-64 advanced attack helicopter

[AD-A0566889]
p0033 A79-11744

En-flight toxicology of fixed and rotary wing aircraft crew stations

p0109 A79-19619

The use of biotintometry in helicopter cockpit design -- using a simulator and analytic geometry

p0150 A79-19629

The effective acoustic environment of helicopter crewmen

p0152 A79-19645

A human body and crew station modelling system for motion studies

p0287 N79-31922

COEIIZITES

ST CYTOCHROMES

Effects of sequestration on formation and localization of the acetyl coenzyme A synthetases of Saccharomyces cerevisiae

p0162 A79-30125

COGNITION

Saliency Perceptual Organization and Reduction Questionnaire (SPQRQ): Report 2: Characterization and reliability

[SPA-C-55031-H6]
p0309 N79-32836

COGNITIVE PSYCHOLOGY

Rhythms in human performance - 1-1/2-hour oscillations in cognitive style

p0210 A79-39601

The role of cognitive switching in head-up displays -- to determine pilot ability to accurately extract information from either of two sources

[NASA-CR-31371]
p0318 N79-33851

COHERENT ANTI-STOKES Raman Spectroscopy

Raman Spectroscopy

COLD ACCLIMATIZATION

Human psychophysiology in extreme conditions --- Russian book on polar region adaptation

p0043 A79-15977

Time for loss of increased cardiac responsiveness to isoproterenol in cold-acclimated rats after removal from cold

p0128 A79-24656

Phonoacoustic responses in swimmers and runners

p0227 A79-41186

Cross-adaptive effects of cold, hypoxia, or physical training on decompensation sickness in mice

p0269 A79-47055

COLD TOLERANCE

Time for loss of increased cardiac responsiveness to isoproterenol in cold-acclimated rats after removal from cold

p0128 A79-24636

Responses of high altitude natives to a standard cold test at sea level

p0164 A79-30658

Thermoregulation in unrestrained rats during and after exposure to 1.5–8 °C

p0227 A79-41185

Blood status of human tremor and shivering on introduction to cold exposure

p0298 A79-52278

Uncommon hypersensitivity to contacting cold water and cold air with propagated reflex-like eye closure development

[BLI-RTS-11644]
p0279 A79-30917

COLOR VISION

Cold water survival suits for aircrew

p0298 A79-52282

Survival and protection of aircrew in the event of accidental immersion in cold water

[AGARD-AD-211(34G)]
p0196 A79-23651

COLD WEATHER TESTS

Responses of high altitude natives to a standard cold test at sea level

p0164 A79-30658

Evaluation of British and Canadian conductive rubber heating devices for handling

Preliminary report

[AD-A0526826]
p0093 A79-15637

Man and material in the cold regions, part 1

p0178 A79-21771

COLOGUES

Raman and infrared investigations of the nature of intracellular water

p0120 A79-17522

COLLECTION

Urine collection apparatus

p0195 A79-23657

COLLISION AVOIDANCE

Human factors considerations in establishing aircraft collision avoidance system alert thresholds

p0045 A79-14438

Collision avoidance response stereotypes in pilots and nonpilots

p0068 A79-18995

COLLISION WARNING DEVICES

U COLLISION AVOIDANCE

U WARNING SYSTEMS

COLLISIONS

N T JET-ARTIFACT COLLISIONS

N T MIDAIR COLLISIONS

Test and evaluation of head restraints, seat backs, and anchorages in vehicles subjected to rear impact collision

[PB-299779/1]
p0178 A79-21773

COLLOIDS

N T AEROSOLS

N T FOAM

Coacervate drops as a model for precellular structures

p0204 A79-37960

Coacervate drops - Primitive forms of precells

p0204 A79-37962

COLOR

Regression models of search time for color-coded information displays

p0209 A79-38359

Light and color on a manned spacecraft

p0059 A79-13996

Electrophysiological determination of retinal sensitivity to color after intense monochromatic light adaptation

[AD-A063852]
p0189 A79-22756

COLOR PERCEPTION

U COLOR VISION

COLOR TELEVISION

Digital color image compression is a perceptual space

p0136 A79-28013

A 25-inch precision color display for simulator visual systems

p0137 A79-28164

Contrast sensitivity of the human eye to various display phosphor types

[AD-A058383]
p0056 A79-13695

COLOR VISION

Apparent saturation of blue-sensitive cones occurs at a color-opponent stage

p0092 A79-10474

Four years of color research for visual displays

--- human performance consideration for use in aircraft

p0039 A79-13210

A controller's eye view of color

p0102 A79-23996

Visual acuity with regard to simultaneous colored contrast on a television screen -- Results

p0103 A79-23952

Aeromedical implications of the X-Chrom lens for improving color vision deficiencies

p0135 A79-27556

Recognition by the human eye of colored symbols on different backgrounds

A-47
COLORATION

ISAAC-1 - A color sensing robot
Chromatic border distinctness - Not an index of hue or saturation differences
Deductive derivation of a mathematical model for spectral sensitivities of the human retina, I, II
Visual contrast sensitivity functions obtained with colored and achromatic gratings
Detection of colored stimuli by independent linear systems
Enchancement of luminance flicker by color-opponent mechanisms
Using color substitution pupil response to expose chromatic mechanisms
Contrast sensitivity of the human eye to various display phosphor types
Providing an eye separator on a color cathode tube -- enhancing visual acuity
Effects of vestibular factors on color-discriminating function of the human eye following color preadaptation
Restoration of color perception after de-adapting flashes
Contribution to the theory of photopic vision: Retinal phenomena
ISAAC - A color sensing robot.

COLORATION

COMA
The child in coma
Coma recovery

COMBAT
An Air Combat Effectiveness Study /ACES/ program
Development of automated performance measures for introductory air combat maneuvers
Air Combat Maneuvering Range /ACMR/ - Has operational performance measurement entered a Golden Age
Methodology to assess psychological stress and its impact in the air combat environment
Air-to-air combat skills: Contribution of platform motion to inertial training

COMBINED STRESS
Physiologic and performance measurements in simulated airborne combined stress environments

CORROSION PRODUCTS
Focal damage in mice following exposure to the pyrolysis products of polytetrafluoroethylene

COMFORT
A study of the available evidence on duration effects on comfort and task proficiency under vibration

COMMAND AND CONTROL
The man-computer division of tasks in the case of the control of complex technical systems applied to aircraft

CONTRIBUTION CONTROL
A study of the available evidence on duration effects on comfort and task proficiency under vibration

SUBJECT INDEX
COMPUTER ASSISTED INSTRUCTION

- A computer-based simulator simulator --- computer-assisted pilot training
  p0039 A79-13215
- Transfer of a computer-assisted instrument procedures trainer to flight
  p0039 A79-13216
- The evaluation of a complex computer-based flight procedures trainer
  p0161 A79-29717
- ARPA authoring system
  [AD-A065723] p0190 A79-22762

COMPUTER GRAPHICS

- Digital enhancement of computerized axial tomograms
  p0004 A79-11544
- Computer-graphic design for human performance
  [AD-A055132] p0046 A79-15939
- Perception of graphic displays of space
  p0062 A79-18205
- Visual cues in manual tracking of simulated targets
  p0103 A79-23792
- Recent developments and plans for pilot training devices
  [SIE PAPER 781007] p0130 A79-25889
- Object, illusion and frame of reference as design criteria for computer-generated displays
  p0137 A79-28157
- Digital image anomalies - Static and dynamic --- rastering and aliasing effects and elimination
  p0137 A79-28158
- Windshield quality and pilot performance measurement utilizing computer-generated imagery
  p0137 A79-28165
- Transfer of landing skill after training with supplementary visual cues
  p0138 A79-28167

- A fast-reacting and versatile optokinetic stimulus pattern by computer graphics with application examples
  p0160 A79-28993
- Application of computer animation for dynamic display in complex energy systems --- for human operator performance improvement
  p0186 A79-34172
- The development of integrated multidimensional displays
  p0187 A79-34990
- Real-time computerized fluoroscopic cardiac imaging
  p0294 A79-51035

- Pilot performance during simulated approaches and landings made with various computer-generated visual glidepath indicators
  p0297 A79-52276
- A spherical representation of a human body for visualizing movement
  p0301 A79-53096
- Analysis and validation of human biodynamic models
  [AD-A059101] p0058 W79-13714
- Graphic display of human motion
  [AD-A065348] p0190 W79-22763
- Transient thermoregulatory model with graphics output
  [NASA-CS-160217] p0212 W79-24637

COMPUTER METHODS

- Computerized simulation

COMPUTER PROGRAMMING

- ON-LINE PROGRAMMING
  Prospects of a mathematical theory of human behavior in complex man-machine systems tasks --- time sharing computer analogy of automobile driving
  p0088 W79-15599
  Modifications to the steady-state 41-node thermoregulatory model including validation of the respiratory and diffusional water loss equations
  [NASA-CS-160219] p0219 W79-25738

- INPUT/OUTPUT ROUTINES
  A theoretical model to estimate some ergonomic parameters from age, height and weight
  p0132 A79-26450
  Computer quantitation of angiographic images
  p0203 A79-51028
  Generalized environmental control and life support system computer program (G1894), phase 3
  [NASA-CS-151836] p0019 W79-10714

COMPUTER TECHNIQUES

- A survey of existing computer programs for aircrew workload assessment
  [AD-A058518] p0059 W79-13718
- Beta testing procedures for anthropometric survey data
  [AD-A060393] p0093 W79-15639
- Human operator identification model and related computer programs
  [NASA-CS-152237] p0112 W79-16551
- Speech as a pilot input medium
  p0199 W79-17519
- Computer program for calculation of oxygen uptake
- A discrete parameter model of the head and neck with neuromuscular feedback
  p0211 W79-24627
- Fluid and Electrolyte Balance model
  [NASA-CS-160206] p0211 W79-24633
- Design specification for the whole-body algorithm
  [NASA-CS-160212] p0212 W79-26444
- User's instructions for the Cardiovascular Walters model
  [NASA-CS-160204] p0217 W79-25721
- On a basic model of circulatory, fluid, and electrolyte regulation in the human system based upon the model of Guyton
  [NASA-CS-160212] p0218 W79-25725
- User's instructions for the Guyton circulatory dynamics model using the Univac 1110 batch and demand processing (with graphic capabilities)
  [NASA-CS-160215] p0218 W79-25731
- User's instructions for the GE cardiovascular model to simulate LBNP and tilt experiments, with graphic capabilities
  [NASA-CS-160216] p0219 W79-25732
- Evaluation of exercise-respiratory system modifications and integration schemes for physiological systems
  p0219 W79-25733
- User's guide for the Skylab integrated medical data analysis system
  [NASA-CS-160218] p0220 W79-25740
- The application of MINIQOAST to thermal program boundary and initial value problems
  [NASA-CS-160227] p0222 W79-25759
- Review of unfolding methods used in the US and their standardization for dosimetry

[NASA-TM-78526]
The Cosmos 936 mission

Space radiation dosimetry onboard COSMOS 936: US portion of experiment K-206

Biochemical study of proteins of gastric and intestinal mucosa of rats flown aboard the Kosmos-605 biosatellite --- effects of space flight stress

COSMOS 782 SATELLITE

Radiobiological investigations in Cosmos 782 space flight /Biobloc SF experiment/

Stereological ultrastructural analysis of the axonal endings in the neuromuscular junction of rats after a flight on biosatellite

Studies of amino acid metabolism in the muscles of rats flown aboard the biosatellite Cosmos 782

US experiments flown on the Soviet Satellite
COSMOS 782

Response of crown gall tissue to space environment: Residual carbohydrates in supporting tissue --- Cosmos 782

Response of crown gall tissue to space environment: Tumor development and anatomy --- Cosmos 782

Response of crown gall tissue to space environment: Glutamine synthetase activity --- Cosmos 782

Responses to crown gall tissue to the space environment: Inosyze patterns --- Cosmos 782

The morphogenetic responses of cultured totipotent cells of carrot (Daucus carota L.) at zero gravity.

Killfish development in zero-G on COSMOS 782:
Pundusus experiment K-104

Absence of gastric ulceration in rats after flight on the Cosmos 782

Effect of space flight on cell-mediated immunity --- Cosmos 782 satellite

Histological studies on tibial bone of rats in the 1975 COSMOS-782 flight. Part 1: Endochondral osteogenesis; medullary bone turnover
DECONDITIONING

Application of a bubble formation model to decompression sickness in rats and humans
Mechanical vs. inesthetic mechanisms for decompression sickness
Doppler detection of thresholds for decompression-induced venous gas emboli in the awake rat
Scanning and transmission electron microscopy of the blood-bubble interface in decompressed rats
Cross-adaptive effects of cold, hypoxia, or physical training on decompression sickness in mice
Dynamics of the catalase activity of the blood of athletes under the influence of local decompression
Investigation of blood subjected to volume tension
Effects of endogenous factors on the process of gas bubble formation in the body related to decompression
Applied analysis of computer simulated decompression profiles
Early diagnosis for decompression sickness.
Changes in the blood found shortly after decompression. Part 2: Experiments on rats
Hyperbaric decompression by means of bubble detection
Probability of caisson disease while wearing a space suit when exiting from a spacecraft with an atmosphere close to that of earth
Compatibility test of oxygen exposures in the range of 2.2 to 2.8 bar absolute
Prophylactic effects of intermittent acceleration against physiological deconditioning in simulated weightlessness
Deconditioning-induced exercise responses as influenced by heat acclimation
Cardiorespiratory assessment of decongestant-antihistamine effects on altitude, +Gz, and fatigue tolerances
Effects of altitude and two decongestant-antihistamine preparations on physiological functions and performance
Deconditioning-induced exercise responses as influenced by heat acclimation

DEHYDRATION

Heat and acute dehydration effects on acceleration response
Specialized physiological studies in support of manned space flight
The effects of dehydration on peripheral cooling

DEHYDRATION DT BACK DEHYDRATION

DEHYDROGENATION

Possible contribution of transferable exogenous DNA to prokaryotic evolution
Subcellular organisms and evolution of cell structure
Mechanisms of recombination and function of DNA in bacteria
DNA content of animal organs during space flight
DNA content of animal organs during space flight

DEHYDRATION CONTRIBUTION TO DNA PERCEPTION

Depression of sodium-potassium pump activity after dehydr号线

DEHYDRATION EFFECTS ON DEHYDRATION

Deconditioning-induced exercise responses as influenced by heat acclimation
Cardiorespiratory assessment of decongestant-antihistamine effects on altitude, +Gz, and fatigue tolerances
Effects of altitude and two decongestant-antihistamine preparations on physiological functions and performance
Deconditioning-induced exercise responses as influenced by heat acclimation
DIFFUSE RADIATION

Accuracy of RGB approximation for computing light scattering properties of diffusing and motile bacteria. -- Rayleigh-Gans-Debye

DIFFUSION

NT GASOUS DIFFUSION
NT TURBULENT DIFFUSION

DISPLAY DEVICES

Selected examples of dispersal of arthropods associated with agricultural crop and animal production

Strategic and tactical use of movement information in pest management

DISPLAY DEVICES

ST APPROACH INDICATORS

ST HEAD-UP DISPLAYS

ST HOT-FILM ANEMOMETERS

The robot's eye - Stereo vision system for automated scene analysis

Human factors design criteria for transilluminated displays

Discrimination of density and clustering on four versions of a stochastic display --- human performance of pattern recognition

Lateral orientation and cerebral activation - Considerations for information analysis

Contrast enhancement using local area brightness and gain control --- of airborne CRP display

Investigation of arrangement of multipurpose displays used in tailored control logic in a fighter aircraft cockpit

Refinement of a computer simulation model for evaluating DAS display concepts --- Digital Avionics Information System

Four years of color research for visual displays --- human performance consideration for use in aircraft

Observer performance using a video display --- in simulated air-to-ground target acquisition tasks

Anthropology in Spacelab - Control and display system in Spacelab

Ergonomic problems regarding the interactive touch input via screens in on-board and ground-based flight control

Perception of graphic displays of space

The importance of providing stereoscopic vision in training for nap-of-the-earth/ROE flight

The effects of prediction, quickening, frequency separation, and percent of pursuit in perspective displays for low-visibility landing

An investigation of pictorial and symbolic aircraft displays for landing

Factors that affect display size criteria in a cockpit display system

Pilot performance during flight simulation with peripherally presented visual signals

Human factors considerations in the design and evaluation of a helmet mounted display using a light emitting diode matrix

Perceptual localization, feature identification and ocular motor factors in scanning a visual display

Secondary visual workload capability with primary visual and kinesthetic-tactual displays

Human engineering study of information processing applicable to helmet-mounted displays

Speed and load stress as determinants of performance in a time sharing task

A visual simulator with transformation of the perspective in the raster of television pictures

A German book on pilot training systems

Engineering-psychological study of information imaging systems --- manual control of spaceship docking

A controller's eye view of color

Visual acuity with regard to simultaneous colored contrast on a television screen - Results

Factors controlling the competing sensations produced by a bistable stroboscopic motion display

Recent developments and plans for pilot training devices

A biocular stereoscopic display system for echocardiography

Hyper-resolution in human perception of movement in visual displays

Object, illusion and frame of reference as design criteria for computer-generated displays

Digital image anomalies - Static and dynamic --- rastering and aliasing effects and elimination

Visual system for the Boom Operator Part Task Trainer --- EC-135 aerial refueling tank simulator

Component performance of a 360 deg non-programmed visual display --- laser image flight simulator

A 25-inch precision color display for simulator visual systems

Windshield quality and pilot performance measurement utilizing computer-generated imagery

Training effectiveness versus simulation realism

Extrapolation of pulsed light data in scanned displays --- laser radiation eye exposure limits

The holographic Pancake window --- magnifier for flight simulation display

Application of Fresnel lenses to virtual image display --- for training simulators

A fast-reacting and versatile optokinetic stimulus pattern by computer graphics with application examples

A comparison of kinesthetic-tactual and visual displays via a critical tracking task --- for aircraft control

Visual contrast sensitivity functions obtained with colored and achromatic gratings

Application of computer animation for dynamic display in complex energy systems --- for human operator performance improvement

The development of integrated multidimensional displays

Regression models of search time for color-coded information displays

Dynamics of the eye and head during movement between displays - A qualitative and quantitative guide for designers

Pilot-optimal augmentation of the air-to-air tracking task

Helicopter commands at the touch of a hand

Real-time computerized fluoroscopic cardiac imaging

Pilot performance during simulated approaches and landings made with various computer-generated visual glidepath indicators

Target redundancy in visual search - Repetitions of the target within the display impair processing
SUBJECT INDEX

DRONE AIRCRAFT
A head-up display for mid-air drone recovery
DRONE HELICOPTERS
9 DRONE AIRCRAFT
9 HELICOPTERS
DRONE VEHICLES
MT DRONE AIRCRAFT
DROPS (LIQUIDS)
Concentrate drops as a model for precellular structures
Concentrate drops - Primitive forms of precells
DRYPHILA
Reproductive adaptation in Drosophila exposed to oxygen-enriched atmospheres
Effect of hypoxia on the development of Drosophila melanogaster /Meigen/
Biological experiments carried out aboard the biological satellite Cosmos-936
Quantitative analysis of mating behavior in aging male Drosophila melanogaster
Effect of weightlessness on the embryonic development and aging of Drosophila
Materials of the final reports on the joint Soviet-American experiment on the Kosmon-936 biosatellite
(Dry dyspnoea - Primitive forms of precells)

DROPS (LIQUIDS)
Coacervate drops - as a model for precellular structures
Coacervate drops - Primitive forms of precells

DROTRAN GILDS
Effect of prop'thaizine and norprenephrine on the development and aging of Drosophila

DROTE INJECTIONS
Indomethacin-antihistamine combination for gastric ulceration control

DROTONS WIND SHEAR MECHANISM
G WIND SHEAR
DURATION
DYS TEG
Effect of fiber and dye degradation products /PDF/ on burn wound healing
DYS KINESIS
A porcine bioassay study of the physiological effects of fiber and dye degradation products (PDF) on burn wound healing

DYS KINESIS
Helicopter, from a study on mannequins
Results for escape systems with the 3 different test methods

DYS RAMECTRIC CHARACTERISTICS
AT AEROHYDRODYNAMIC STABILITY
AT AIRCRAFT STABILITY
AT DYNAMIC STABILITY
AT FLOW STABILITY
AT FLOW VELOCITY
AT MOVING STABILITY
AT MOTION STABILITY
AT TRANSIENT RESPONSE
Goal-directed mechanics of controlled manipulators
Dynamical characteristics of visual functions
Dynamic measurement of human cyclofusional eye movements

DYS RAMECTRIC CONTROL
The effects of participatory mode and task workload on the detection of dynamic system failures
Control of robot manipulators from the modeling of their dynamics --- French thesis
Prosthetic EMG control enhancement through the application of man-machine principles

DYS RAMECTRIC LOADS
The relationship between adult articular cartilage thickness and dynamic loads of a uniaxial joint

DYS RAMECTRIC MODELS
A model for sensorimotor control and learning
Control of robot manipulators from the modeling of their dynamics --- French thesis
Problem of modeling the mechanism of heart contraction
A discrete parameter model of the head and neck with neuromuscular feedback
Preliminary design specifications of a calcium model
Use of a computer model in the understanding of erythropoietic control mechanisms
User's instructions for the cardiovascular Walters model

DYS RAMECTRIC DYNAMICS
A biophysical model for evaluating auxiliary heating and cooling systems --- for protective clothing system design
Calibration of three year old child dummies
Evaluation of oxygen availability for humans in motor vehicle crashes
Performance evaluation of test dummies with flesh parts produced with substitute foaming compounds
Man, dummy, test vehicle: A comparison of test results for escape systems with the 3 different test methods
Probabilistic estimation of the injuries likely to occur during the crash of a SA 341 Gazelle helicopter, from a study on mannequins
Progress in measuring and modeling the effects of low frequency vibration on performance

DYS RAMECTRIC DURATIONS
A head-up display for mid-air drone recovery

DYS RAMECTRIC DROPS
Effect of fiber and dye degradation products /PDF/ on burn wound healing
Dyskinesia
Helicopter, from a study on mannequins
Results for escape systems with the 3 different test methods

Use of platinum electrodes for the electrochemical detection of bacteria p0130 A79-26073
ELECTROMEDICAL SKIN RESPONSE
MT ELECTRODE SKIN RESPONSE
ELECTRODES
MT GLASS ELECTRODES
MT IMPLANTED ELECTRODES (BIOLOGY)
Reliability of determining the cardiac output by the method of quadrupole chest impedance plethysmography p0098 A79-21246
Use of platinum electrodes for the electrochemical detection of bacteria

ELECTROENCEPHALOGRAPHY

ELECTROENCEPHALOGRAPHY

Vigilance and electroencephalography --- human performance in compensatory target tracking

Characteristics of EEG changes in rabbits in response to local cooling or heating of the central thermoregulatory area

Analysis of electroencephalograms during psychomotor performance

Portable device for detection of petit mal epilepsy

Synchronous brain evoked potential correlates of auditory evoked brain stem responses

A computer system for statistical analysis of EEG transients

ELECTROLYTE METABOLISM

A review of the consequences of fluid and electrolyte shifts in weightlessness [IAF PAPER 78-50]

Comparison of hormone and electrolyte circadian rhythms in male and female humans

Thresholds for Na+/ and Ca++ effects on thermoregulation

Effect of water and electrolyte replacement during exercise in the heat on biochemical indices of stress and performance

Circadian rhythm of electrolyte urea in healthy persons

Effects of space flight factors on electrolyte composition of rat skeletal muscles

Fluid and Electrolyte Balance model (FEB)

Simulation of fluid-electrolyte metabolism as a means of preventing orthostatic instability in the crew of the second expedition aboard the Salyut-4 station

Fluid-electrolyte metabolism in the crew of Salyut-5

Electrolyte composition of rat blood plasma and skeletal muscles after flight aboard the Cosmos-690 biosatellite

ELECTROLYTES

Plasma volume and electrolyte shifts with heavy exercise in sitting and supine positions

Plasma electrolytes in relation to altitude tolerance in rats

Hyperthermia and exercise --- plasma fluid and electrolyte effects on human thermoregulation

A simple model of fluid flow and electrolyte balance in the body

Fluid and electrolyte control systems in the human body: A study report

On a basic model of circulatory, fluid, and electrolyte regulation in the human system based upon the model of Guyton

ELECTROMAGNETIC ABSORPTION

MT ULTRAVIOLET ABSORPTION

MT X RAY ABSORPTION

Electroemagnetic power absorption in cylindrical tissue models excited by a loop antenna

Electromagnetic absorption in a multilayered model of man

An empirical formula for broad-band SAR calculations of probe spherical models of humans and animals --- Specific Absorption Rate

Molecular absorption of non-ionizing radiation in biological systems

Determination of bound water in biological materials from dielectric measurements

Microwave and RF dosimetry

Some recent results on the deposition of electromagnetic energy in animals and models of man

Numerical studies of absorption of electromagnetic energy by man

ELECTROMAGNETIC COMPATIBILITY

On the measurement of hazardous e.m. fields radiated through an aperture

ELECTROMAGNETIC CONTROL

REMOTE CONTROL

ELECTROMAGNETIC DESTRUCTION

MAGNETIC INDUCTION

ELECTROMAGNETIC FIELDS

Electromagnetic fields and power deposition in body-of-revolution models of man

Space osteoporosis - an electromagnetic hypothesis

Biological effects of electromagnetic fields

Biological effects of electromagnetic fields

Effect of electromagnetic fields in long-, medium-, and short-wave ranges on biological objects

A mechanism for high-frequency electromagnetic field-induced biological damage

Effects of electromagnetic field induction on development of the green algae, Scenedesmus quadricauda (Turpin) Breb. and composition of free amino acids in its biomass and medium

Electromagnetic fields in biological media. Part 1: Dosimetry - a primer on bioelectromagnetics

Electric field measurements within biological media

Biological effects of electromagnetic fields

A technical review of the biological effects of non-ionizing radiation

The influence of SRF electromagnetic fields on the secretory function of the stomach

ELECTROMAGNETIC INTERACTIONS

The Physical Basis of Electromagnetic Interactions with Biological Systems

Survey of microwave and radiofrequency biological effects and mechanisms

Molecular absorption of non-ionizing radiation in biological systems

Microwave wave and far infrared absorption in biological systems

Possible mechanisms of weak electromagnetic field coupling in brain tissue

Classical theory of microwave interactions with biological systems

Interfacial and intracellular interactions: anomalies in dielectric properties
Microwave frequencies and the structure of the double helix

The combined effects of pulsed magnetic radiation (diapulse) and chemotherapy on tumor bearing mice. The measurement of rodent palatal explants as a device for measurement of the biologic effects of nonionizing radiation (ENR)

Eld mechanisms for the biological effects of electromagnetic fields

Biological effects of nonionizing electromagnetic radiation. Volume 2, number 6: A digest of current literature

Interdisciplinary and international contributions to research on biological effects of electromagnetic waves - Past performances and future challenges

Control logic design criteria for multifunction switching devices -- in aircraft

The effects of filtering the His-Purkinje system electrocardiogram

EDE studies on different pathological states

Evolution of the man-machine interface in surveillance radar systems

The effect of 1 to 5 keV electrons on the reproductive integrity of microorganisms

Eumagnetostagography

Magnetophoresis

EUMAGNETIC SCATTERING

ELECTRONIC EQUIPMENT

ELECTRON MICROSCOPY

ELECTRON PARAMAGNETIC RESONANCE

ELECTRON SPIN RESONANCE

ELECTRON TUBES

ELECTRONIC CONTROL

ELECTRONIC FILTERS

ELECTRONIC TRANSMITTERS

ELECTRONIC TRANSDUCERS

ELECTRONIC SWITCHES

ELECTRONIC TRANSDUCERS

ELECTRONICS

ELECTROMAGNETIC FIELD

ELECTROMAGNETIC INTERFERENCE

ELECTROMAGNETIC WAVES

ELECTROMAGNETIC WAVE FILTERS

ELECTROMAGNETIC WAVE TRANSMISSION

ELECTROMAGNETIC WAVE TRANSMISSION

ELECTROMAGNETIC WAVE TRANSMISSION

ELECTROMAGNETIC WAVE TRANSMISSION
SUBJECT INDEX

ELECTROPHYSIOLOGY
Auditory analysis of complex sound --- Russian book
Some electrophysiological concepts of the U wave of ECG
Electrophysiological investigation of sleep during work-shift regime and production-induced emotional stress
Electrophysiological correlates of local muscular fatigue effects upon human visual reaction time
Fundamentals of electrical processes in the electrophysiology of the heart
Electrophysiological determination of retinal sensitivity to color after intense monochromatic light adaptation
The effects of high nitrogen tensions of the properties of neuronal membranes and synaptic transmission
Effects of sleep at altered ambient temperatures on electrophysiological sleep and thermoregulatory mechanisms in human subjects and in the ground squirrel (Citellus lateralis)
The impact of effect acceleration on the electrical activity of the brain

ELECTROPHOTOMETRY
Possibilities and perspectives of tetrapolar transthoracic impedance rheographometry in noninvasive studies of hem- and cardiodynamics

ELECTROPHOTOGRAPHY
An apparatus for studying electrophotographic responses under conditions of space flight
Private cone sensitivity to flicker during light and dark adaptation as indicated by the foveal local electrophotograms
Reciprocal interaction between the photopic and scotopic systems of the visual analyzer in man

ELECTROSTATIC CHARGE
Investigation of techniques to reduce electrostatic discharge susceptibility of EED's containing plastic plugs

ELECTROSTATIC FIELDS
ER ELECTRIC FIELDS

ELEMENT ABUNDANCE
ER ABUNDANCE

ELEMENTARY EXCITATIONS
ER PLASMONS

ELEMENTARY PARTICLES
ER BETA PARTICLES
ER ELECTRONS
ER FAST NEUTRONS
ER LIGHT BEAMS

EMBOLIC
ER ANEMOBOLISM

EMBRYOLOGY
Killfish development in zero-G on COSMOS 782: Fundulus experiment K-104
Effects of weightlessness on the embryonic development and aging of Drosophila

EMBRYOS
Role of gravity in early development

EMERGENCIES
An illness-injury severity index

EMERGENCY BREATHING TECHNIQUES
Evaluation of assisted positive-pressure breathing on +Gz tolerance

EMERGENCY LIFE SUSTAINING SYSTEMS
Evaluation of the helicopter in aero-medical transfers

EMERGENCY LIFE SUSTAINING SYSTEMS
The child in coma

EMERGENCY BREATHING TECHNIQUES
Effect of psychophysiological self-regulation on emotional stability of aviation cadets in flight and on effectiveness of assimilation of flight training program

EMERGENCIES
Human operators in adversary tracking encounters

EMOCIONE GLANDS
ER ADRENAL GLAND
ER PARATHYROID GLAND
ER PINEAL GLAND

ER THYMUS GLAND

EMOCIONE RECEPTORS
ER ADRENOCORTICOTROPIN (ACTH)
ER ALDOSTERONE
ER HORMONES
ER TESTOSTERONE
ER PITUITARY HORMONES
ER ADRENAL GLAND
ER PINEAL GLAND
ER PARATHYROID GLAND
ER ENDOCRINE SYSTEMS
ER ENDOCRINE GLANDS

EMOCIONE SYSTEMS
A review of the consequences of fluid and electrolyte shifts in weightlessness

EMOCIONE THERAPY
Influence of high-altitude conditions on the metabolism of nucleic acids and proteins and the thyocytes of the rat

ENDOSCOPES
Apparatus for endoscopic examination

ENDOTOXINS
Effects of methylprednisolone sodium succinate on clearance of livine F. coli from peripheral blood of dogs

ENDURANCE
Anaerobic threshold alterations caused by endurance training in middle-aged men

ENERGEnIC PARTICLES
ER ELECTRONS

ENERGY ABSORPTION
ER ELECTROMAGNETIC ABSORPTION
ER MOLECULAR ABSORPTION
ER THERMALIZATION (ENERGY ABSORPTION)
ER ULTRAVIOLET ABSORPTION
ER X-RAY ABSORPTION

ENERGY CONVERSION
ER BIOMASS ENERGY PRODUCTION
ER ENERGEnE OF BIOTEchnology

ENERGY DISSIPATION
Development of an electrical energy converter for driving left heart assist blood pumps

ENERGY EXCHANGE
ER ENERGEnE TRANSFER

ENERGY LEVELS
ER INTERMEDIATE FORCES
ER ENERGY LOSSES
ER ENERGY DISSIPATION
ER ENERGY REQUIREMENTS

ENERGY SPECTRA
ER NUCLEAR SPECTRA

ENERGY TRANSFER
Energy expenditures of man during long exposure to a periodically changing atmosphere

**SUBJECT INDEX**

| Subject Index

**A-75**
The use of synchronous demodulation for the measurement of eye movements by means of an ocular magnetic search coil

The role of perceived motion in smooth pursuit eye movements

The effect of expectations on slow oculomotor control. I - Periodic target steps. II - Single target displacements

The influence of rapid prism adaptation upon fixation disparity

Laser Doppler technique for measurement of eye movement

Eye torsion and visual tilt are mediated by different binocular processes

Spatial summation in human vision - Simple reaction time measurements

Eye movements and visual perception --- Russian book

Forms of oculomotor activity under conditions of positive visual feedback

Lightweight helmet-mounted eye movement measurement system

Optokinetic reactions in man elicited by localized retinal motion stimuli

Eye torsion in response to a tilted visual stimulus

Modeling of visual-vestibular interaction and the fast components of nystagmus

Effects of information processing requirements on reaction time of the eye

Lightweight helmet-mounted eye movement measurement system

A relationship between eye movement patterns and performance in a precognitive tracking task

Dynamic measurement of human cyclofusional eye movements

A method for semi-automatic analysis of eye movements

EYE PROTECTION

Laser eye protection for flight personnel

Test and evaluation in the acquisition process - A look at the PEET goggle

No harmful effects through infrared light emitting diodes

Health and safety hazards associated with solar concentration systems

Thermal effects during the exposure of ocular fundus tissues to laser radiation

Effects of high-LET neon /He-20/ particle radiation on the brain, eyes and other head structures of the pocket mouse - A histological study

Suprathermal retinal damage due to single 6 picosecond 1060 nm laser light pulses

Responses of retinal and visual pathway potentials of the guinea pig to nitrogen and helium at high pressure

Laser eye protection for flight personnel, volume 1

The want and feasibility to temper sunlight for the eyes

Sunglasses for drivers

SUBJECT INDEX

F-4 AIRCRAFT

F-4/N instructional system development: Phase 1

Air-to-air combat skills: Contribution of platforms motion to inertial training

Correlation of mechanism of extremitiy injury and aerodynamic factors in ejections from F-4 aircraft

F-110 AIRCRAFT

F-5 AIRCRAFT

Biodynamic effects of canopy loss in the TP-15 aircraft

F-16 AIRCRAFT

Life cycle costing of simulated vs actual equipment for intermediate maintenance training --- for F-16 avionics

Application of learning curves of aircraft produced at more than one location to the F-16 lightweight fighter

Application of biodynamic models to the analysis of F-16 canopy birdstrike

Application of a structured decision process for proper inclusion of human resources in the design of a power unit support stand

F-18 AIRCRAFT

The application of computer aided evaluative techniques to system test and evaluation --- of fighter aircraft pilot performance

System operability - Concept and measurement in test and evaluation --- man system compatibility indices in F-18 aircraft example

F-104 AIRCRAFT

Oculogravic illusion in response to straight-ahead acceleration of a CF-104 aircraft

F-111 AIRCRAFT

Spinal injuries in the F/PF-111 crew escape system

FABRICATION

Space manufacturing

FABRICS

Development of integrated tubing fabric for liquid conditioning undergarments

Bioassay of thermal protection afforded by candidate flight suit fabrics

Evaluation of four thermally protective fabrics using the USAF bio assay method

FABY-PEFOT LASERS

U-LASEPS

PACE (ANATOMY)

Development of a specialized head/face protective device for test parachuting operations

Field evaluation of experimental crash-crew firefighter's facepiece

FACTOR ANALYSIS

Vigilance and electroencephalogram --- human performance in compensatory target tracking

Analysis of electroencephalograms during psychomotor performance

Time-sharing ability in complex performance: An expanded replication

A study of some of the factors influencing the left ventricular diastolic pressure-volume relationship and myocardial metabolism

Investigation of arrangement of multipurpose digital switching and flight control

FLIGHT CREWS

NT SPACECREWS

NASA flight management research

Coordinated crew performance in commercial aircraft operations

Recurrent training/supernumerary system

Air Combat Maneuvering Range /ACMR/ - Has operational performance measurement entered a Golden Age

Conduction difficulties of vagal origin in flight personnel - Significance of intrathoracic data on the bundle of His --- neural activity effects on heart block

Pneumothorax and flight personnel --- incidence, etiology and treatment

Psychosis in air force flight personnel during the last 25 years

The value of measuring ocular tissues as a test for detecting glaucoma in flight personnel

Army Aviation Training - Research now and then

Laser eye protection for flight personnel

Evaluation of four thermally protective fabrics using the USARL biossmy method

FLIGHT COMPUTERS

AIRCRAFT/SPACECRAFT COMPUTERS

PLATE CONTROL

FLIGHT COMPUTERS

FLIGHT CONTROL

FLIGHT CREWS

Survey on eye comfort in aircraft. I - Flight attendants

Evaluation of psychological compatibility of crew members of multi-seat aircraft

Incidence of cardiovascular problems among flying personnel and their evaluation

Ensuring medical fitness on entry and during service in aircraft in TAF

p0038 A79-13205

Refinement of a computer simulation model for evaluating DASS 15 displays concepts --- Digital Avionics Information System

NASA flight management research

Experimental and psychological investigations in aviation and astronautics --- Russian book

Increasing pilot's performance capacity during flight through use of a control element serving as information carrier

ERGONOMIC PROBLEMS REGARDING THE INTERACTIVE TOUCH INPUT VIA SCREENS ON BOARD AND GROUND-BASED FLIGHT CONTROL

Effects of space flight on plasma and glandular concentrations of pituitary hormones --- COSMOS 782 satellite.

Pilot-optimal augmentation synthesis

Pilot decision making in a computer-aided flight management situation

Error rate information in attention allocation pilot models

An adaptive controller which displays human operator limitations for a fighter type aircraft

Multipurpose digital switching and flight control workload

Adaptive estimation of information values in continuous decision making and control of advanced aircraft

USA!' life support equipment costs

The effects of ambient illumination, aircraft velocity and feedback on absolute distance judgments during simulated night nap-of-the-earth flight

An overview of helicopter mission specific survival equipment

Aircrew helmet protection against potential cerebral concussion in low-magnitude impacts

Prediction of body temperatures during exercise in flying clothing

Flight control

Biomedical constraints on thermal protective flight clothing design: A bioengineering analysis

Evaluation of four thermally protective fabrics

p0230 A79-41718

Biomedical constraints on thermal protective flight clothing design: A bioengineering analysis

Evaluation of four thermally protective fabrics

SUBJECT INDEX
The objective evaluation of aircrew protective night vision goggles and in-flight evaluation of night vision goggles combinations. IV - Puliface masks

A study of cerebral blood flow in the goat. A. Microbiological evaluation of the mobile "pulface" masks. II. Evaluation of British and Canadian conductive face masks. III. Improved types of face masks suitable for flight attendant use

Effects of glycogen depletion and work load on exercise and electrical stimulation. Preliminary report. A. Effects of glycogen depletion and work load on postexercise O2 consumption and blood lactate

Glucose metabolism in rat lung during exposure to hyperbaric O2

Changes in blood sugar content of dogs exposed to chronic gamma radiation for six years

Glutamate responses of crown gall tissue to stationary gratings

Glucogenic phosphatase a in human skeletal muscle during exercise and electrical stimulation

Effects of glycogen depletion and work load on postexercise O2 consumption and blood lactate

Radiographic comparison of human lung shape during normal gravity and weightlessness

The pulmonarv circulation; Studies on alveolar hypoxia and vascular smooth muscle metabolism

The vestibule and flying --- pilot disorientation

Gravitometric apparatus and method of inserting a microelectrode in body tissue or the like using vibration means

Radiographic comparison of human lung shape during normal gravity and weightlessness

Apparatus and method of inserting a microelectrode in body tissue or the like using vibration means

Balance training of the equilibrium organ and its effect on flight strategy

Balance training of the equilibrium organ and its effect on flight strategy

Evaluation of British and Canadian conductive rubber heating elements for handwear: Preliminary report

Evaluation of British and Canadian conductive rubber heating elements for handwear: Preliminary report

Beta-receptor antagonists. II. Reduction in heart rate of dogs exposed to chronic gamma radiation for six years

Glycogen synthetase in the liver of the rat in vivo as demonstrated by oxidation of C14-U-glucose in diabetic rats

Glycogen synthetase in the liver of the rat in vivo as demonstrated by oxidation of C14-U-glucose in diabetic rats

The dynamics of the cerebral blood flow response to hypoxia by frequency response analysis

The dynamics of the cerebral blood flow response to hypoxia by frequency response analysis

The value of measuring ocular tonus as a test for detecting glaucoma in flight personnel

The value of measuring ocular tonus as a test for detecting glaucoma in flight personnel

Balance training of the equilibrium organ and its effect on flight strategy

Visual contrast sensitivity functions obtained using one-dimensional Walsh gratings

Visual contrast sensitivity functions obtained using one-dimensional Walsh gratings

Visual and optical assessment of gas protective face masks

Visual and optical assessment of gas protective face masks

Operational consideration of AW/PTS-5 night vision goggles for helicopter night flight

Operational consideration of AW/PTS-5 night vision goggles for helicopter night flight

Radiographic comparison of human lung shape during normal gravity and weightlessness

Radiographic comparison of human lung shape during normal gravity and weightlessness

Test and evaluation in the acquisition process - A look at the PLZT goggle

Test and evaluation in the acquisition process - A look at the PLZT goggle

Radiation protection activities, 1977

Radiation protection activities, 1977

Pilot performance during simulated approaches and landings made with various computer-generated visual glidepath indicators

Pilot performance during simulated approaches and landings made with various computer-generated visual glidepath indicators

Glandular radiotracerstructure of lymph nodes of dogs exposed to long-term external gamma radiation

Glandular radiotracerstructure of lymph nodes of dogs exposed to long-term external gamma radiation

Improved types of face masks suitable for flight attendant use
HEARING

Some considerations of hazards in the use of lasers for artistic displays (FB-294513/7) p0201 N79-30931

Radiation protection (GPO-35-583) p0283 N79-31899

Methods for studying and criteria for evaluating the biological effects of electric fields of industrial frequency (CONF-80051-11) p0307 N79-32827

Biological effects of nonionizing electromagnetic radiation, volume 3, number 4 (AD-A070242) p0315 N79-33826

Health effects of low-level ionizing radiation (SAFL-9019) p0316 N79-33834

A mathematical scheme for predicting the electro-acoustic frequency response of hearing aid receiver-earmold-ear systems p0154 N79-19673

Magnitude estimation as a hearing aid selection procedure p0246 N79-27838

HEARING LOSS

**SUBJECT INDEX**

Concurrent loss of consciousness and block during 4G stress
Homomorphic analysis and modeling of ECG signals
Adjustment of an electronic model for electrocardiogram simulation
Effects of endurance training on left ventricular dimensions in healthy men
Effect of adaptation to high-altitude hypoxia on cardiac adrenergic activity and the state of the adenylyl cyclase and phosphodiesterase systems in the myocardium
Isolation of a shock-induced circulating cardiodepressant substance
Problem of modeling the mechanism of heart contraction
Possibility of quantitative evaluation of the heart's mechanical activity from seismocardiosignals
Modification of cardiac function by synchronized oscillating acceleration
Application of an isolated heart model to investigate blood-oxygen delivery
Difficulties posed by left axis deviation in the evaluation of fliers, and their relations to the concept of left anterior hemiblock
Cardiac conduction and aptitude problem of fliers. The benefits of endocardial recording of the His bundles
Measuring systolic time intervals at rest and under stress by external methods. Advantages in the evaluation of fliers
Functional outcomes of prosthetic cardiac valve replacement
Temperature effects on shape and function of human granulocytes [AD-A063750]
Characterization of cardiovascular function by automated monitoring of cardiac contractility and left ventricular wall motion activity
Measurement of systolic time intervals at rest and under stress by external methods. Advantages in the evaluation of fliers
Functional outcomes of prosthetic cardiac valve replacement
Temperature effects on shape and function of human granulocytes [AD-A063750]
Characterization of cardiovascular function by automated monitoring of cardiac contractility and left ventricular wall motion activity
Books, indices, and abstracts: Generalized coordinate analysis of distribution of sequences of R-R intervals in astronauts.
Hemodynamics

Control of skin blood flow during exercise - Thermal and nonthermal factors
Effects of chronic changes in hemoglobin-02 affinity in rats
Circulatory response to arterial hypoxia
Effects of regional hemocconcentration during LBNP on plasma volume determinations - Lower Body Negative Pressure
The metabolic demand and oxygen supply of the heart - Physiologic and clinical considerations
Compensatory reactions of the kidneys to orthostatic factors
Effects of endogenous factors on the process of gas bubble formation in the body related to decompression
Correction of transcapillary exchange in man under the influence of rotation on a centrifuge while immersed in water
Developmental and hematological responses to low level continuous exposure of nitrogen dioxide in mice
Studies of venous circulation in the crew of the Salyst-5 orbital station

Hemodynamics

Cardiac and vascular components of the systemic response of blood circulation to orthostatic influence
Regional blood supply under hypoxic hypoxia
Central and cerebral hemodynamics and metabolism of the healthy man during head-down tilting
Pulmonary blood volume and interventricular circulation time in physically trained and untrained subjects
Age trends in the cardiovascular dynamics of aircrews
Individual differences in hypoxic responses at high altitudes
Diagnosics of initial deficiency in cerebral circulation
Neural regulation of coronary circulation
The bloodflow in skeletal muscle capillaries in normoxia and arterial hypoxemia
The response of the microvascular canal to a hypoxic helium-containing medium
The specific problems in cardiovascular fluid dynamics measurements
Dynamics of the catalase activity of the blood of athletes under the influence of local decompression
Possibilities and perspectives of tetrapolar transthoracic impedance rheophtanography in noninvasive studies of hem- and cardiodynamics
The role of lesser circulation hemodynamic changes in pulmonary gas exchange
Studies of hemodynamics and phase structure of cardiac cycle in the crew of Salyst-4
Development and application of resistive pulse spectroscopy: Studies on the size, form and deformability of red blood cells [LBD-8840]

Hemoglobin

Hemoglobinemia in rats exposed to high altitude is not due to an overload of catabolic mechanisms
Effects of chronic changes in hemoglobin-02 affinity in rats
Investigation of the content of hemoglobin and its fractions in permanent inhabitants of the Tien Shan and Pamir
Effects of regional hemocconcentration during LBNP on plasma volume determinations - Lower Body Negative Pressure
Polyglutaraldehyde - A new reagent for coupling proteins to microspheres and for labeling cell-surface receptors
Noninvasive estimation of bilirubin and hemoglobin oxygen saturation in the skin by reflection spectrophotometry
Therodynamic studies on the oxygenation and submit association of human hemoglobin
Analysis of visible spectra and thermodynamic parameters in hemoprotein systems
Mathematical studies of oxygen transport to tissue
Studies of metabolism, function and mechanism of destruction of red cells

Hemorrhages

Ruptured arteriovenous anomaly in a former woman astronaut candidate
Isolation of a shock-induced circulating cardiodepressant substance
Blood coagulation and tissular factors of blood clotting in heparinized rabbits submitted to hypoknia

Hering-Breuer reflex

Axiomatic summary and deductions from Hering's principles of visual direction

Heterocyclic compounds

Heterocyclic bases

Hexoses

Intestinal transport of hexoses in the rat following chronic heat exposure

Hibernation

Similarity in the number of lifespan heartbeats among non-hibernating homeothermic animals

Hierarchies

Adaptive control of a robotic manipulator

High acceleration

Tolerance of domestic fowl to high sustained g's
Effects of brief exposure of domestic fowl to very intense acceleration fields
Multibody dynamics including translation between the bodies, with application to head-neck systems
Oxygen affinity of blood in altitude Sherpas
Composition of cerebral fluids in goats adapted to high altitude
Evidence for increased intrathoracic fluid volume

Evidence for increased intrathoracic fluid volume in man at high altitude

HUMAN BODY

Correction of transcapillary exchange in man under space biology and aerospace medicine, volume 13, Combined effect of hyperoxia, low pressure and isokinetic exercise: A review of the literature

Effects of LRNP on catecholamines and adrenal cortex

Some recent results on the deposition of stability of circadian system of the body

Changes in human renal function in passive head-up orthostatic and LBNP tests

Radiographic comparison of human lung shape during normal gravity and weightlessness

Varibility in human body size

Anthropometry

Range of joint motion

Human muscular strength

Anthropometry in sizing and design

The effects of ozone on human erythrocytes and human tissues

Physical effect of high, sustained +Gz forces

The human micro-environment

HUMAN ENGINEERING

Development and transfer of timesharing skills

Effects of vibration on humans - Performance decrements and limits

Effects of vibration on humans - Performance of physical tasks in the presence of excess intrapulmonary pressure on ground level and at high altitudes

A human body and crew station modelling system for motion studies

The biodynamic response of the human body and its application to standards

HUMAN FACTORS ENGINEERING

A biophysical model for evaluating auxiliary heating and cooling systems design

Firefighters Integrated Response Equipment System

Intensity judgements of non-sinusoidal vibrations - Support for the ISO weighting method

Rehabilitation measures used to restore physical fitness of man after long-term restriction of movement

Instru nation and techniques for the measure ment of muscular strength and endurance in the human body

Design specification for the whole-body algorithm

Study report on combining diagnostic and therapeutic considerations with subsystem and whole-body simulation

The development of a whole-body algorithm

Pneumotachographic distinctions of external respiration in man in the presence of excess intrapulmonary pressure on ground level and at high altitudes

Refinement and validation of a mathematical model of the human torso

The human micro-environment

Effects of vibration on the human organism

Models and Analogues for the Evaluation of Human Biodynamic Response, Performance and Protection --- conferences, human tolerance of acceleration, vibration, and shock

A composite view of task performance in hot environments

A theoretical investigation of power and control configurations for a high g-onset centrifuge drive system

External respiration and gas exchange reactions of man during rotation on a short-arm centrifuge

Fitness of man after long-term restriction of movement

Development and transfer of timesharing skills --- for protective clothing systems design

Firefighters Integrated Response Equipment System

Intensity judgements of non-sinusoidal vibrations - Support for the ISO weighting method

Rehabilitation measures used to restore physical fitness of man after long-term restriction of movement

Instru nation and techniques for the measure ment of muscular strength and endurance in the human body

Design specification for the whole-body algorithm

Study report on combining diagnostic and therapeutic considerations with subsystem and whole-body simulation

Human factors design criteria for transilluminated displays  
Seating, console and workplace design - Seated operator reach profiles  
Seating, console, and workplace design - Integration of literature and accommodation model  
The application of computer aided evaluative techniques to system test and evaluation --- of fighter aircraft pilot performance  
Imagery interpreter performance in the comparison of subjective estimates of photographic image quality  
Discrimination of density and clustering on four versions of a stochastic display --- human performance of pattern recognition  
Tracking in two dimensions as a function of dimension priorities and tracking difficulty  
A prediction model of arm push strength in the transverse plane  
Computer simulation of thermoregulatory responses to heat stress - A future work design and training tool  
Four years of color research for visual displays --- human performance consideration for use in aircraft  
Response surface methodology as a manipulator of complex task difficulty --- for computer generated aircraft area navigation control-display systems evaluation  
“Task functional demands as factors in dual-task performance  
NASA flight management research  
Arrangement of aircraft flight indicators with the help of optimal theoretical models for man as the controller  
Anthropology in Spacelab - Control and display system in Spacelab  
USAF life support equipment costs  
Heat transfer principles in personal protection applications  
Oxygen systems for Army helicopters  
Human factors considerations in establishing aircraft collision avoidance system alert thresholds  
Adaptive supervisory control of remote manipulation  
Subjective data in human reliability estimates  
Computer-graphic design for human performance  
Man-machine reliability - A practical engineering tool  
The man-computer division of tasks in the case of the control of complex technical systems --- applied to aircraft  
Ergonomic problems regarding the interactive touch input via screens in onboard and ground-based flight control  
Quantifying operator preference during human factors test and evaluation --- in helicopter design  
AWAYS, a research facility for defining flight trainer visual system requirements  
Factors that affect display size criteria in a cockpit display system  
Human factors considerations in the design and evaluation of a helmet mounted display using a light emitting diode matrix  
Estimating percentiles of nonnormal anthropometric populations - Final report  
Human engineering study of information processing applicable to helmet-mounted displays  
Collision avoidance response stereotypes in pilots and copilots  
Peripheral acuity and photointerpretation performance  
Line criteria in target acquisition with television --- visibility of target image on TV screen  
Evoked potential correlates of display image quality  
Speed and load stress as determinants of performance in a time sharing task  
Visual target acquisition and ocular scanning performance  
A visual simulator with transformation of the perspective in the raster of television pictures --- German book on pilot training systems  
Vigilance and electroencephalograms --- human performance in compensatory target tracking  
A controller’s eye view of color  
Relations between research and instruction in physiology and aerospace ergonomy in the military health services  
Interdisciplinary and international contributions to research on biological effects of electromagnetic waves - Past performances and future challenges  
Digital man-machine control systems - The effects of preview lag  
A theoretical model to estimate some ergonomic parameters from age, height and weight  
Hyper-resolution in human perception of movement in visual displays  
The human operator in the control system: Linear models --- German book  
A comparison of kinesthetic-tactual and visual displays via a critical tracking task --- for aircraft control  
The biomedical implications of engineering in space  
Better definition of eye to aortic valve distance in high acceleration cockpit /HAC/ seating geometries  
The objective evaluation of aircrew protective breathing equipment. III - Improved types of mask/goggles combinations. IV - Fullface masks and hoods suitable for flight attendant use  
Improved headgear for fixed wing Navy aircrewmen  
Perception of continuity in stroboscopic motion - A temporal frequency analysis  
Dynamics of the eye and head during movement between displays - A qualitative and quantitative guide for designers  
Pilot workload in the aircraft of the future  
Thermal bounds to the time of stay of human beings in enclosures
Carbon monoxide and human time discrimination - Failure to replicate Beard-Wertheim experiments
A theoretical model to estimate some ergonomic parameters from age, height and weight
Comparative evaluation of the effectiveness of visual and aural tracking of a sinusoidal signal
Mechanics of the regulation of the respiratory system in man
The effects of carbon monoxide on dual-task performance
Discrimination, temperature, and time of day --- human performance variances
An algorithm to ascertain critical regions of human tracking ability
Deductive derivation of a mathematical model for spectral sensitivity of the human organ of sight, I, II
A bioengineering simulator of the human visual apparatus
Visual contrast sensitivity functions obtained with colored and achromatic gratings
Human error accidents - Some case studies --- for aircraft
A rationale for human operator pulsive control behavior
Effect of induced cyclic changes of deep body temperature on task performance
Physiologic and performance measurements in simulated airborne combined stress environments
Rhythms in human performance - 1-1/2-hour oscillations in cognitive style
Spatial frequency masking in human vision - Binocular interactions
Changes in the circadian rhythms of performance and mood in healthy young men exposed to prolonged, heavy physical work, sleep deprivation, and caloric deficit
Test of the 10 bits/sec channel-capacity hypothesis for human tracking
A study of the available evidence on duration effects on comfort and task proficiency under vibration
Mechanisms of the effects of vibration frequency, level and duration on continuous manual control performance
Development of a performance criterion for air traffic personnel research through air traffic control simulation
Life stress, organizational stress, and job satisfaction
Information processing in humans, volume 3. A bibliography with abstracts
Survey of human operator modeling techniques for measurement applications
Proceedings of the 1977 Computerized Adaptive Testing Conference
Human work measurement. A bibliography with abstracts
Relating performance in basic electricity and electronics and A schools
Human performance in concurrent verbal and tracking tasks: A review of the literature
A comparison of motor submodels in the optimal control model
Use of reward-penalty structures in human experimentation
The influence of vehicle aerodynamic and control response characteristics on driver-vehicle performance
A model for dynamic allocation of human attention among multiple tasks
The effects of alcohol on driver performance in a decision making situation
Combined monitoring, decision and control model for the human operator in a command and control desk
A model of human event detection in multiple process monitoring situations
Vision
Human capabilities
The effects of deviate internal representations in the optimal model of the human operator
A quasi-linear control theory analysis of timesharing skills
A dual-loop model of the human controller
Parameter estimation in a human operator describing function model for a two-dimensional tracking task
Reduced mental capacity and behavior of a rider of a bicycle simulator under alcohol stress or under dual task load
A relationship between eye movement patterns and performance in a precognitive tracking task
A model of the human supervisor
The human as a detector of changes in variance and bandwidth
Task complexity and 24-hr performance patterns in morning and evening active subjects
A method to evaluate performance reliability of individual subjects in laboratory research applied to work settings
The measurement and scaling of workload in complex performance
Investigation on the effect of mechanical properties of control elements on human control performance under stochastic roll vibrations
Simulated EVA operation of a remote connector assembly test report
Graphic display of human motion
Individual differences in knowledge acquisition from maps
Evidence for increased intrathoracic fluid volume in man at high altitude
Predicting individual listener confusions in the classification of complex, steady-state sounds
Effects of noise frequency on performance and annoyance
The influence of hyperbaric environment in combination with workload and confinement on human information processing
Multipurpose digital switching and flight control workload
HUMAN REACTIONS

HYPEROPIA

The comparative study of metabolism changes on survival of Japanese quail

Visual acuity of the aging hyperopic eye in the intermediate range

Circulatory response to arterial hyperoxia

Glucose metabolism in rat lung during exposure to hyperoxic O2

Determination of cerebral and neck subcutaneous tissue P02 with 3 and 4 +Gz in M. mulatta

The effect of normobaric hyperoxia on brain and liver tissue respiration in albino rats with different resistances to hypoxia

Effect of oxygen poisoning on the spectrum of lactate dehydrogenase isozymes of rabbit blood plasma

Metabolic responses of ponies to treadmill exercise in hyperoxia

The combined effect of hyperoxia, low pressure and exercise on the rate of methylketone excretion from the human body

The combined effect of carbon monoxide and normobaric hyperoxia on animals

The effect of hyperoxia on cerebral blood flow in the anaesthetized pony

Mechanisms of oxygen toxicity at the cellular level

Hypothymia

HYPOTENSION

Distinguishing borderline hypertensives from normotensives: A clinical study of 300 aircrewmen

Noninvasive assessment of pulmonary hypertension using bubble ultrasonic imaging (BUPI) method, part 2

Noninvasive assessment of pulmonary hypertension

Fighter index of thermal stress (FIT-S) - guidance for hot-weather aircraft operations

Separation of the effects of raised skin and core temperature on performance of a pursuit rotor task

Intestinal transport of hexoses in the rat following chronic heat exposure

HYPOTERMIA

Hypothermia and exercise --- plasma fluid and electrolyte effects on human thermoregulation

Heat- and exercise-induced hyperthermia - effects on high-energy phosphates

Hypothermia as an Antineoplastic Treatment Modality

Hypothermia in the treatment of cancer: A review of the radiobiological basis

The effect of hyperthermia on the radiation response of crypt cells in mouse jejunum

A microangiographic study of the effect of hyperthermia on the rabbit bladder

Hypothermia, A bibliography with abstracts

HYPOTENSION

HYPERTHERMIA

Hyperthermia and exercise --- plasma fluid and electrolyte effects on human thermoregulation

Heat- and exercise-induced hyperthermia - effects on high-energy phosphates

Hypothermia as an Antineoplastic Treatment Modality

Hypothermia in the treatment of cancer: A review of the radiobiological basis

The effect of hyperthermia on the radiation response of crypt cells in mouse jejunum

A microangiographic study of the effect of hyperthermia on the rabbit bladder

Hypothermia, A bibliography with abstracts

HYPOTERMIA
SUBJECT INDEX

TISSULAR BLOOD CLOTTING FACTORS OF VASCULAR WALLS AND MYOCARDIUM DURING HYPOXIA

- Lung oxygen diffusibility and permeability in dogs of various ages under normal conditions and in cases of acute hypoxic hypoxia

HYPOTHALAMUS

- Interaction between hypothalamic and bulbar levels of regulating blood circulation
- Effect of the blockade of hypothalamic adrenergic structures on thermoregulatory reactions
- Dynamics of the impulse activity of the neurons in the posterior hypothalamus upon exposure to microwaves
- Characteristics of EEG changes in rabbits in response to local cooling or heating of the central thermosensory area
- The role of the neurohormone system of the hypothalamus in physiology and pathology of the Russian book
- Synaptosomal uptake of hypothalamic monoamines and recovery of pituitary-adrenal activity following medial forebrain bundle lesions in rats
- Effect of cerebrocranial trauma on reactive distinctions of hypothalamic and hippocampal vessels in the presence of hypoxia
- Catecholamines and enzymes of metabolism thereof in the rat hypothalamus after flight aboard Cosmos-782 biomissile

HYPERTHERMIA

- Systolic time intervals during combined hand cooling and head-up tilt
- Regional heat loss in resting man during immersion in 25.2°C water
- An improved method for inducing hypothermia and rewarming
- Temperature uniformity in hyperthermal tumor therapy
- The effect of moderate hypothermia on the circulatory and myocardial consequences of acute coronary ligation in dogs
- Coagulation recovery

HYPOTHESSES

- False hypothesis and the pilot --- aircraft accidents due to decision making errors

HYPERTENSION

- Developmental and hematological responses to low level exposure of carbon monoxide in mice
- Effects of chronic changes in hemoglobin-O2 affinity in rats
- The bloodflow in skeletal muscle capillaries in normoxia and arterial hypoxia

MICROENZYMATIC STUDIES

- 3'-5'-cyclic AMP content in rat tissues during hypoxic adaptation and gamma irradiation
- Norepinephrine uptake by the isolated heart of rats adapted and unadapted to hypoxia
- Cerebral gas exchange in rats adapted to hypoxia during inspiration of oxygen-poor mixtures
- Regional blood supply under hypoxic hypoxia
- Temperature effect of muscular work in the white rat during hypoxia
- Individual differences in hypoxic responses at high altitudes
- Plasma electrolytes in relation to altitude tolerance in rats
- Mechanical vs. ischaemic mechanisms for decompression sickness
- Effect of hypoxia on the development of Drosophila melanogaster /Meigen/
- Paradoxical reaction of some intracellular antioxidative defense mechanisms during adaptation of the organism to hypoxia
- The response of the microvascular canal to a hypoxic helicin-containing medium
- Abolition of a viscerosomatic reflex during oxygen deprivation
- Response of women mountaineers to maximal exercise during hypoxia
- Effect of physical training at moderate altitude /1850 m/ on hypoxic tolerance
- Effect of adaptation to high-altitude hypoxia on cardiac adrenoactivity and the state of the adenylyl cyclase and phosphodiesterase systems in the myocardium
- Epiphysis of rats under the combined action of hypoxia, hypcapnia and cooling
- Absence of effects of hypoxia on small airway function in humans
- Cross-adaptive effects of cold, hypoxia, or physical training on decompression sickness in mice
- Comparative study of hypoxia and other non-invasive stress tests for evaluation of ischemic heart disease
- New inventory for the assessment of symptom occurrence and severity at high altitude
- Lung inflation and longitudinal distribution of pulmonary vascular resistance during hypoxia

A-105
Effect of hypoxia on mechanical properties of hypothyroid cat papillary muscle

Lung oxygen diffusibility and permeability in dogs of various ages under normal conditions and in cases of acute hypoxic hypoxia

The effect of microwave fields on muscle oxygen pressure and temperature in animals previously adapted to hypoxia

The interaction of carbon monoxide and altitude on aviator performance: Pathophysiology of exposure to carbon monoxide (AD-A055212)

Dynamics of impairment of pilot performance in the presence of hypoxia

Blood lipid changes in hypoxic rats

Effect of intermittent hypoxia on functional activity of peripheral blood neutrophils

Effect of cerebrocranial trauma on reactive distinctions of hypothalamic and hippocampal vessels in the presence of hypoxia

Assessment of factors possibly contributing to the susceptibility of sickle trait erythrocytes to mild hypoxia. Volume 1: Design considerations and research protocol (AD-A059412)

A study of cerebral blood flow in the goat. A. Correlations between the ventilatory and cerebrovascular responses to carbon monoxide inhalation. B. The dynamics of the cerebral blood flow response to hypoxia by frequency response analysis

The effects of brain ischemia on the control of breathing in unanesthetized goats

Effect of combination of hypoxia and hypercapnia on survival of Japanese quail

The pulmonary circulation: Studies on alveolar hypoxia and vascular smooth muscle metabolism

Effect of acute hypoxia on some parameters of renal excretory function and renal hemodynamics

Altitude hypoxia, volume 1. A bibliography with abstracts

Altitude hypoxia, volume 2. A bibliography with abstracts

Effects of propranolol on Time of Useful Function (TOF) in rats --- tolerance to rapid decompression (AD-A060535/0)

Oxygen delivery in the hypoxic perfused heart: Relation to functional and metabolic changes

Influence of pressure chamber conditions on adrenocortical function in man (according to results of angina blood plasma 11-hydroxy corticosteroids)

IMAGE FILTERS

Compensation for transport delays produced by computer image generation systems

Investigation of nonlinear motion simulator washout schemes

IMAGE MOTION COMPENSATION

Subjective motion discrimination is the simulator for air-to-air combat

Influence of motion wash-out filters on pilot tracking performance

IMAGE PROCESSING

The robot’s eyes - Stereo vision system for automated scene analysis

Image interpreter performance in the selection of subjective estimates of photographic image quality

Digital color image compression in a perceptual space

Robotic vision --- process control applications

Computer quantitation of coronary angiograms

Visual motion perception by intelligent systems

Psychological aspects of the human-operator’s activity while tracking

General methods to enable robots with vision to acquire, orient, and transport workpieces

Image processing program completions report

Diagnosis of cutaneous thermal burn injuries by multispectral imaging analysis

IMAGE RESOLUTION

High-speed computerized tomography

Hyper-resolution in human perception of movement in visual displays
Motion and vision. I - Stabilized images of stationary gratings

The retinal resolving power measured by laser interference fringes

Thermal activation of the visual transduction mechanism in retinal rods

Detection of bubbles in decompression sickness

A visual simulator with transformation of the perspective in the raster of television pictures

A binocular stereoscopic display system for echocardiography

Component performance of a 360 deg non-programmed visual display --- laser image flight simulator

A 25-inch precision color display for simulator visual systems

Training effectiveness versus simulator realism

Application of Fresnel lenses to virtual image display --- for training simulators

Real-time reconnaissance systems simulator

Dynamics of an image viewed through a rotating mirror

The visual perception of motion in depth

Temperature changes during exercise measured by thermography

Visually estimating workpiece pose in a robot hand using the feature points method

Current status of cardiovascular imaging by transmission computed tomography

Iodine imaging using spectral analysis --- radiography for visualization of small blood vessels

Real-time computerized fluoroscopic imaging of the heart and other body organs

New developments in ultrasonic imaging of the chest and other body organs

Compensation for transport delays produced by computer image generation systems

Development of high-resolution ultrasonic imaging techniques for detections and clinical assessment of cardiovascular disease

Pattern of heat loss from a subject wearing CF temperate-climate combat clothing

Region extraction using convergent evidence

X-ray backscatter imaging

An investigation of the pulse-scatter imaging technique for medical ultrasonic imaging and tissue characterization

IMAGING

DETECTION OF BUBBLES IN DECOMPRESSION SICKNESS

A VISUAL SIMULATOR WITH TRANSFORMATION OF THE PERSPECTIVE IN THE RASTER OF TELEVISION PICTURES

A BINOCULAR STEREOSCOPIC DISPLAY SYSTEM FOR ECOCARDIOGRAPHY

COMPONENT PERFORMANCE OF A 360 DEG NON-PROGRAMMED VISUAL DISPLAY --- LASER IMAGE FLIGHT SIMULATOR

A 25-INCH PRECISION COLOR DISPLAY FOR SIMULATOR VISUAL SYSTEMS

TRAINING EFFECTIVENESS VERSUS SIMULATOR REALISM

APPLICATION OF FRENSER LENSES TO VIRTUAL IMAGE DISPLAY --- FOR TRAINING SIMULATORS

REAL-TIME RECONNAISSANCE SYSTEMS SIMULATOR

DYNAMICS OF AN IMAGE VIEWED THROUGH A ROTATING MIRROR

THE VISUAL PERCEPTION OF MOTION IN DEPTH

TEMPERATURE CHANGES DURING EXERCISE MEASURED BY THERMOGRAPHY

VISUALLY ESTIMATING WORKPIECE POSE IN A ROBOT HAND USING THE FEATURE POINTS METHOD

CURRENT STATUS OF CARDIOVASCULAR IMAGING BY TRANSMISSION COMPUTED TOMOGRAPHY

IODINE IMAGING USING SPECTRAL ANALYSIS --- RADIOMETRY FOR VISUALIZATION OF SMALL BLOOD VESSELS

REAL-TIME COMPUTERIZED FLUOROSCOPIC CARDIOGRAPHIC IMAGING

NEW DEVELOPMENTS IN ULTRASONIC IMAGING OF THE CHEST AND OTHER BODY ORGANS

COMPENSATION FOR TRANSPORT DELAYS PRODUCED BY COMPUTER IMAGE GENERATION SYSTEMS

DEVELOPMENT OF HIGH-RESOLUTION ULTRASONIC IMAGING TECHNIQUES FOR DETECTIONS AND CLINICAL ASSESSMENT OF CARDIOVASCULAR DISEASE

PATTERN OF HEAT LOSS FROM A SUBJECT WEARING CF TEMPERATE-CLIMATE COMBAT CLOTHING

REGION EXTRACTION USING CONVERGENT EVIDENCE

X-RAY BACKSCATTER IMAGING

AN INVESTIGATION OF THE PULSE-SCATTER IMAGING TECHNIQUE FOR MEDICAL ULTRASONIC IMAGING AND TISSUE CHARACTERIZATION

IMAGING TECHNIQUES

NT IMAGE ENHANCEMENT
NT RADAR IMAGERY
High-speed computerized tomography

DETECTION OF BUBBLES IN DECOMPRESSION SICKNESS

A VISUAL SIMULATOR WITH TRANSFORMATION OF THE PERSPECTIVE IN THE RASTER OF TELEVISION PICTURES

A BINOCULAR STEREOSCOPIC DISPLAY SYSTEM FOR ECOCARDIOGRAPHY

COMPONENT PERFORMANCE OF A 360 DEG NON-PROGRAMMED VISUAL DISPLAY --- LASER IMAGE FLIGHT SIMULATOR

A 25-INCH PRECISION COLOR DISPLAY FOR SIMULATOR VISUAL SYSTEMS

TRAINING EFFECTIVENESS VERSUS SIMULATOR REALISM

APPLICATION OF FRENSER LENSES TO VIRTUAL IMAGE DISPLAY --- FOR TRAINING SIMULATORS

REAL-TIME RECONNAISSANCE SYSTEMS SIMULATOR

DYNAMICS OF AN IMAGE VIEWED THROUGH A ROTATING MIRROR

THE VISUAL PERCEPTION OF MOTION IN DEPTH

TEMPERATURE CHANGES DURING EXERCISE MEASURED BY THERMOGRAPHY

VISUALLY ESTIMATING WORKPIECE POSE IN A ROBOT HAND USING THE FEATURE POINTS METHOD

CURRENT STATUS OF CARDIOVASCULAR IMAGING BY TRANSMISSION COMPUTED TOMOGRAPHY

IODINE IMAGING USING SPECTRAL ANALYSIS --- RADIOMETRY FOR VISUALIZATION OF SMALL BLOOD VESSELS

REAL-TIME COMPUTERIZED FLUOROSCOPIC CARDIOGRAPHIC IMAGING

NEW DEVELOPMENTS IN ULTRASONIC IMAGING OF THE CHEST AND OTHER BODY ORGANS

COMPENSATION FOR TRANSPORT DELAYS PRODUCED BY COMPUTER IMAGE GENERATION SYSTEMS

DEVELOPMENT OF HIGH-RESOLUTION ULTRASONIC IMAGING TECHNIQUES FOR DETECTIONS AND CLINICAL ASSESSMENT OF CARDIOVASCULAR DISEASE

PATTERN OF HEAT LOSS FROM A SUBJECT WEARING CF TEMPERATE-CLIMATE COMBAT CLOTHING
Aircrew helmet protection against potential cerebral concussion in low-magnitude impacts

A head injury model

Correlation of head injury with mechanical forces based on helmet damage duplication

IMPACT DECELERATION

IMPACT TESTS

Whole body response research program

Methodology

Whole body response research program. Appendix A

Processed data

Photometric methods for the analysis of human kinematic responses to impact environments

Evaluation of research on surrogates for humans in vehicle crashes

Impact tests on crash helmets for motor cyclists

Reliability of determining the cardiac output by telemetering

A safety criterion for human, vertebral, cancellous bone

IMPEDANCE

MT ELECTRICAL RESISTANCE

MT RESPIRATORY IMPEDANCE

IMPEDANCE MEASUREMENTS

Reliability of determining the cardiac output by the method of quadruple chest impedance

INFLATION

Development of an electrical energy converter for circulatory device

IMPLANTED ELECTRODES (BIOLOGI)

Telemetry of intracranial pressure

An inductively powered telemetry system for temperature, EEG, and activity monitoring

Electric field measurements within biological media

Improved subcutaneous electrode structure

Air aircraft flight simulation of space flight experiment

Aircraft flight simulation of space flight experiment

IN-FLIGHT MONITORING

Instrumentation for controlling and monitoring environmental control and life support systems

Aerosbiomechanics from a fighter aircraft

The electrocardiogram recorded by telemetry during a parachute jump, compared to a trace during stress tests - A preliminary study of 29 cases

In-flight measures of stress reduction due to wearing expandable foam earplugs

Aircrew inflight physiological data acquisition system 2

Space biology and aerospace medicine, vol. 15, no. 6

Dynamic monitoring of flight crews in the course of long-term flights

Investigation of composition of trace contaminants in the air environment of the Soyuz-22 spacecraft

Dynamics of impairment of pilot performance in the presence of hypoxia

Principal results of experiment with mannequins onboard the Kosmos-702 biosatellite

In-flight toxicology of fixed and rotary wing aircraft crew stations

Evaluation of aircrew fatigue during operational helicopter flight mission

Inactivation

Independent variables

Analysis of climactic data and cockpit thermal conditions at a fighter base in North West India

INDICATIONS

MT APPROACH INDICATORS

MT HOT-FILM ANEMOMETERS

Arrangement of aircraft flight indicators with the help of optimal theoretical models for man as the controller

INDOLES

MT TYRPTOPHAN

Indomethacin-antihistamine combination for gastric ulceration control

INDUCED FLOW

MT FLUID FLOW

INDUSTRIAL MANAGEMENT

MATHEMATICAL MODELS

Overall loudness of steady sounds according to theory and experiment
(WASA-P-1001)
Some of the problems involved in planning biological experiments
(p0312 N79-33805)

MATHEMATICAL MODELS

MAT ANALOG SIMULATION
MAT DIGITAL SIMULATION
Various modeling approaches in biomechanics --- analog simulation of impact events
Models for automated motor skills training --- computer controlled adaptive instruction
A prediction model of arm push strength in the transverse plane
Simulation and control of a human temperature regulation system

The multiloop concept of the pilot work load as a basis of future experiments and studies
(p000579-12087)
Eapsed stability considerations with vestibular models
Modeling the effect of axial bronchial tension on expiratory flow

Regulation and efficiency of sweating in man
Mathematical modeling/
Modeling heat transfer through human skin subjected to high external temperatures
Linearization and sensitivity analysis of model for human eye movements

A theoretical model to estimate some ergonomic parameters from age, height and weight

A model for predicting human discomfort response to combined noise and vertical vibration

Modeling the human as a controller in a multitask digital simulation human operators

A model for the selection of concurrent tasks of the human operator --- describing sequential and parallel demands on human operators

Discrete-time pilot model --- human dynamics and digital simulation

A model for dynamic allocation of human attention among multiple tasks

A model of human event detection in multiple process monitoring situations

Mathematical simulation of the human circulatory system

Modelling the human operator of slowly responding systems using linear models

A model for the pilot's use of motion cues in roll-axis tracking tasks

Modeling the effects of high-G stress on pilots in a tracking task

AAA gunner model based on observer theory --- predicting a gunner's tracking response

Modelling the human as a controller in a multiskill environment

A comparison of motor submodels in the optimal control model

Prospects of a mathematical theory of human behavior in complex man-machine systems tasks --- time sharing computer analog of automobile driving

Petri nets as a modeling tool for discrete concurrent tasks of the human operator... describing sequential and parallel demands on human operators

Discrete-time pilot model --- human dynamics and digital simulation

A model for dynamic allocation of human attention among multiple tasks

A model of human event detection in multiple process monitoring situations

Mathematical simulation of the human circulatory system

Modelling the human operator of slowly responding systems using linear models

A model for the pilot's use of motion cues in roll-axis tracking tasks

Image processing program completion report

Cell response to chronic irradiation-modeling and simulation studies

A model for predicting human discomfort response to combined noise and vertical vibration

The role of computer technology mathematical models in treatment of patients following heart surgery

Modeling and analysis of man-machine interface information

Some problems involved in using mathematical methods for evaluation of pathophysiological changes in the body

Use of a mathematical model of erythropoiesis for evaluation of effects of space flight factors

A two level model of human steering behavior in a motor vehicle

User's instructions for the erythropoiesis regulatory model

Development of an hypothesis for simulating anti-orthostatic bed rest

Dynamical regulation of erythropoiesis: A computer model of general applicability

A simple model of fluid flow and electrolyte balance in the body

Improvements and validation of the erythropoiesis control model for bed rest simulation

Experimental designs for investigating complex human operator/machine systems
Adaptive supervisory control of remote manipulation
Computer-graphics design for human performance
Man-machine reliability - A practical engineering tool
Cross-validation of regression equations to predict performance in a pursuit tracking task
Man/terminal interaction evaluation of computer operating system command and control concepts in Spacelab
Target-terrain classification and detection performance to assess aerial photos for tanks
Line criteria in target acquisition with television visibility of target image on TV screen
Speed and load stress as determinants of performance in a time sharing task
Visual target acquisition and ocular scanning performance
Morbidity experience of air traffic control personnel - 1967-77
Army Aviation Training - Research now and then
Digital man-machine control systems - The effects of preview lag
The human operator in the control system: Linear models - German book
Nonparametric model for the detection of signals observed by a human operator on a CRT screen on a noise background - cathode-ray tube
Functional changes in the cardiovascular system of machine-tool operators under physical and neurologically stressful loads
Nonparametric measures of sensory efficiency for sustained monitoring tasks
A model of human decisionmaking in fault diagnosis tasks that include feedback and redundancy
A comparison of control modes for time-delayed remote manipulation
Measurement and scaling of workload in complex performance
Evaluation of models describing human operator control of slowly responding complex systems - Thesis
Application of computer animation for dynamic display in complex energy systems for human operator performance improvement
A rationale for human operator pulsive control behavior
Separation of the effects of raised skin and core temperature on performance of a pursuit rotor task
Psychophysical assessment of angular vibration - Comparison of vertical and roll vibrations
Adaptive estimation schemes for minimizing uncertainty in manual control tasks
Human operators in adversary tracking encounters
An operator-aiding manipulator control system
Survey of human operator modeling techniques for measurement applications
A formal model of the adaptive and discrete control behaviors of human operators
Survey of Applied Psychological Services' models of the human operator

Modeling the effects of high-G stress on pilots in a tracking task

Discrete-time pilot model --- human dynamics and digital simulation

Pilot-optimal augmentation synthesis

Prediction, evaluation, and specification of flying qualities by means of step target tracking

Analysis of a VTOL hover task with predictor displays using an optimal control model of the human operator

A method motion simulator design based on modeling characteristics of the human operator

Pilot decision making in a computer-aided flight management situation

Pilot workload qualification for avionics design

Training implications

An approach to the multi-axis problem in manual control --- optimal pilot model

Error rate information in attention allocation pilot models

The effects of participatory mode and task workload on the detection of dynamic system failures

Prediction of pilot reserve attention capacity during air-to-air target tracking

Prediction of pilot-aircraft stability boundaries and performance contours

An adaptive controller which displays human The effects of pilot age, lighting, and head-down Read aiming/tracking accuracy in a helicopter Disorientation in Royal Naval helicopter pilots Visual performance/workload of helicopter pilots Aviator visual performance: A comparative study

Characteristics of medically disqualified airman applicants in calendar years 1975 and 1976

Stress factors on pilot performance. A bibliography with abstracts

An evaluation of the effects of a stability augmentation system upon aviator performance/workload during a M6FYAC high hover operation

Changes in the rotary wing aviator's ability to perform an uncommon low altitude rearward hover maneuver as a function of extended flight requirements and aviator fatigue

An analysis of helicopter pilot control behavior and workload during instrument flying tasks

Visual requirements for the helicopter pilot

Oculomotor performance of aviators during an autorotation maneuver in a helicopter simulator

Visual performance/workload of helicopter pilots during instrument flight

Sensory aspects of helicopter operations

Disorientation in Royal Naval helicopter pilots

Head aiming/tracking accuracy in a helicopter environment

Aviator visual performance: A comparative study of a helicopter simulator and the UH-1 helicopter

The effects of pilot age, lighting, and head-down time on visual acclimation

An adaptive controller which displays human operator limitations for a fighter type aircraft

Air Force female pilots program: Initial performance and attitudes

Balance training of the equilibrium organ and its effect on flight strategy

Stress factors on pilot performance. Citations from the International Aerospace Abstracts database

Crew workload assessment. Development of a measure of operator workload

PILOT TRAINING

The application of control theory to the investigation of roll motion effects on human operator performance

The psychologist in aircraft accident investigation --- pilot personality and performance

Pilot performance in simulated aerial refueling as a function of tanker model complexity and visual display field-of-view

Performance and workload analysis of inflight helicopter missions

Undergraduate pilot training: Visual discrimination prestriating for land task

The role of cognitive switching in head-up displays --- to determine pilot ability to accurately extract information from either of two sources

PILOT SELECTION

An Air Combat Effectiveness Study /ACES/ program

Saccade characterization of responses to rotation of persons with different vestibular-vegetative stability

Personality characteristics of pilots on EPQ, MPI and DOSEFU test. II - Comparison among pilots, non-pilot officers and aviation students

The relative effects of multiple factors on target acquisition --- by combat pilots

Medical barofunction testing of aviators with otorhinolaryngologic disease

The impact of coronary vascular risk factors on professional aircrew license loss in the United Kingdom

Stability of circadian system of the body

Assessment of factors possibly contributing to the susceptibility of sickle trait erythrocytes to mild hypoxia. Volume 1: Design considerations and research protocol

A description of the recent neuropsychological selection of pilots for land force light aircraft

PILOT TRAINING

Piloted aircraft simulation - Advantages, disadvantages, and practical problems

A computer-based simulator simulator --- computer-assisted pilot training

Transfer of a computer-assisted instrument procedures trainer to flight

Joint testing of the RAF high altitude protective ensemble

The importance of providing stereoscopic vision in training for map-of-the-earth /MOE/ flight

AWAS, a research facility for defining flight trainer visual system requirements

Augmented feedback in adaptive motor skills training

Application of performance model to assess aviator critical incidence

Simulator Training Requirements and Effectiveness Study /STRES/

A visual simulator with transformation of the perspective in the raster of television pictures --- German book on pilot training systems

Role of autogenic training in psychophysiological conditioning of aviation school students

Naval aviation training - Perspective and prospects

SUBJECT INDEX
PILOTED CENTRIFUGES

Cost analysis of pilot training systems
Recent studies of simulation training effectiveness
Recent developments and plans for pilot training devices
A study of progress in flying performance revealed from daily check sheets in a primary flight training course. III - Comparison of progress between two courses
Transfer of landing skill after training with supplementary visual cues
Aeromedical aspects of flying training with special reference to instructor pupil relationship
Personality characteristics of pilots on EPFS, MPI and DOCEU tests. II - Comparison among pilots, non-pilot officers and aviation students
The relationship between flight simulator motion and training requirements
Soviet civil aviation training programs
Synthetic training and evaluation - Some current issues
Pilot performance during simulated approaches and landings made with various computer-generated visual glidepath indicators
Judgment evaluation and instruction in civil pilot training
Subjective motion discrimination in the simulator for air-to-air combat
The development and evaluation of objective frequency domain based pilot performance measures in ASUPT
Stress and simulation in pilot training
Flight simulator training, volume 2. A bibliography with abstracts
Undergraduate pilot training: Visual discrimination pretraining for land task
PILOTED CENTRIFUGES
PILOTLESS AIRCRAFT
MT AIRCRAFT PILOTS
US Army aviation fatigue-related accidents, 1977-1979
Evaluation of physiological indices during preflight medical examination of pilots - Follow up of 38 cases
Incidence of spinal disability amongst IAP pilots
Trendometry as a method of evaluating the functional state of the nervous system of a pilot
Specific Findings in Cardiology and Pulmonary Function with Special Emphasis on Assessment criteria for Flying
Long term pulmonary function patterns in the aviator: the thousand Aviator study
Coronary atherosclerosis and fitness for flying
Detection of coronary artery disease in apparently healthy, asymptomatic airline crew members using thallium-201 myocardial perfusion scintigraphy
The significance of I wave abnormalities
Left Anterior Hemiblock (LAI): Diagnosis and aeromedical risk

Reproducibility of human cardiovascular responses to orthostatic stress
The effect of Nap-of-the-Earth (NOE) helicopter flying on pilot blood and urine biochemcials
Methodology to assess psychological stress and its impact in the air combat environment
Hemispheric asymmetry as related to pilot and radar intercept officer performance

PITUITARY GLAND
Epithysis of rats under the combined action of hypoxia, hypercapnia and cooling

PITCH (INCLINATION)
Estrogenic research into human tolerances for roll and pitch as well as their influence on individual perception and reactions to control parameters

PITUITARY HORMONES
MT ADRENOCORTICOTROPIN (ACTH)
Effects of fenfluramine administration on activity of the pituitary-adrenal system in the rat
Identification of a tripeptidyl aminepeptidase in the anterior pituitary gland - Effect on the chemical and biological properties of rat and bovine growth hormones
Insulin-like effect of bovine growth hormone in vivo as demonstrated by oxidation of C14-U-glucose in diabetic rats
Studies on the bioassayable growth hormone-like activity of plasma
Purification and cultivation of human pituitary growth hormone secreting cells
Purification and cultivation of human pituitary growth hormone secreting cells
Obtaining growth hormone from calf blood

PLANETARY ATMOSPHERES
Mars surface sample return mission
Ion-molecule condensation reactions - A mechanism for organic synthesis in ionized reducing atmospheres
Exobiology and the origin of life - organic compounds in planetary atmospheres and interstellar matter

PLANETARY EHOSTEROPHISM
Planetary exploration
Planetary exploration of the outer planets explorers
Planetary quarantine
Public health considerations associated with a Mars surface sample return mission
A study of the mechanism of thigmomorphogenesis in plants.

Microanalytical identification of barium sulphate crystals in statoliths of Chara Rhizoids.

Mechanism of plant virus inactivation in soil plant sludges.

Materials of the final reports on the joint Soviet-American experiment on the Kosmos-936 biosatellite.

Influence of orbital flight conditions on formation of genitals in Muscari racemosum and Anethum graveolens.

Responses to crown gall tissue to the space environment: Glutamine synthetase activity --- COSMOS 782.

Responses to crown gall tissue to the space environment: Residual carbohydrates in supporting tissue --- COSMOS 782.

Responses to crown gall tissue to the space environment: Tumor development and anatomy --- cososs 782.

Responses to crown gall tissue to the space environment: Isozyme patterns --- cososs 782.

The morphogenetic responses of cultured totipotent cells of carrot (Daucus carota L.) at zero gravity --- cososs 782.

The impact of sulfur dioxide on vegetation: A sulfur dioxide-ozone response model.

Pacific Northwest Laboratory report for 1977 to the DOE assistant secretary for environment.

Crawford and Lavoisier on the method of support and place of formation of body heat.

Metal bioelectrode polarization: A frequency and time domain analysis.

Metal bioelectrode polarization: A hypothesis of plasmonic absorption of RF energy by biological objects.

Measures of the efficacy and safety of medical technologies.

In vitro duplication of the primary light-induced charge separation in purple photosynthetic bacteria.

Metal bioelectrode polarization: A frequency and time domain analysis.

Assessing the efficacy and safety of medical technologies.

POLARIZATION (CHARGE SEPARATION)

In vitro duplication of the primary light-induced charge separation in purple photosynthetic bacteria.

Adaptive optimization of exchange of gases in plants in a sealed phytotron.

Distribution of phytoplankton in North Carolina lakes.

Distribution of phytoplankton in Arkansas lakes.

A hypothesis of plasmonic absorption of RF energy by biological objects.

Improvised methods of cancer treatment.

PNEUMOTHORAX

Pneumothorax and flight personnel --- incidence, etiology and treatment.

Physiological effects of a high soybean protein diet in man

Characteristics of proteins of some unicellular organisms as potential components of ecological life support systems

Effects of gravity on contractile proteins [NASA-CR-160303]

Proton beams

Relationship between proton motive force and potassium ion transport in Halobacterium halobium envelope vesicles

Proto-PLASMiN

Ultrastructural development of the vestibular system under conditions of simulated weightlessness

Protod PROTEIns

The origin of life on earth - Recent studies

Evolution in open systems - Acquisition and conservation of information in bioids [NASA-CR-79-37997]

Prototypes

Spacecraft utensil/hand cleansing fixture [NASA-CR-151846]

Spacecraft utensil/hand cleansing fixture, addendum [NASA-CR-151845]

The prototype wrist joint assembly TACPAW (Triple Axis Corson Pivot Arm Wrist), phase 2 [NASA-CR-150885]

Protozoa

MT PARAMECIA

Protozoa

The driving simulator developed by the Institute for Perception TNO. A validation study in straight road driving [TNO-1978-16-PH-1]

Protos ACID

O STRODONIC ACID

P SEUDOMONAs SEQUENCES

Application of pseudo random binary sequence input to identification of respiratory control dynamics [NASA-CR-77-55011]

Psychiatry

Psychiatric education in aerospace medicine

PsychocnoLOGics

Aircraft noise and its effect on man: Methods and results of research, consequences for environmental protection --- German book

Psychological effects

MT ILLUSIONS

MT OCOLOGRAPHIC ILLUSIONS

MT OPTICAL ILLUSIONS

Changes in apparent body orientation and sensory localization induced by vibration of postural muscles - Vibriatory syneesthes illusions

Consciousness alteration in space [NASA PAPER 79-1430]

Cardiac changes during behavioral stress in dogs

Effects of partial sleep deprivation on psychological performance and behaviour

The influence of intermittent aircraft noise on sleep. I

Physical and mental working environment in a terminal based computer system

Stress and fatigue in the driving environment - physiological and psychological effects of heat and noise experienced inside automobiles

Psychological factors

False hypothesis and the pilot --- aircraft accidents due to decision making errors [SAGE PAPER 780-528]

Vibration, performance, and personality --- vibration effects on human performance and psychological factors

Experimental and psychological investigations in aviation and astronautics — Russian book

Role of autogenic training in psychophysiological conditioning of aviation school students

Engineering-psychological study of information imaging systems - manual control of spaceship docking

Psychologists vs engineers --- flight simulators training requirements

Investigations of psychological compatibility of crew members of multisat aircraft

Aeromedical aspects of flying training with special reference to instructor-pupil relationship

Psychological training — One of the most important factors of enhancing the safety of space flights [IAP PAPER 79-A-24]

Judgement evaluation and instruction in civil pilot training [AD-A057440]

Variability in human body size

Effects of uncertainty on manual tracking performance --- visual tasks

Masculinity, femininity, androgyny. What really works at work [AD-A0611777]

Human processing of information and the computerized node of presentation: Ergonomic parameters

Psychological selection of Spacelab payload specialists: The evaluation of German applicants

Psychological indexes & psychological tests

An Air Combat Effectiveness Study /ACES/ program

Psychological selection of payload astronauts

Locus of the effect of specific practice in continuous visual search

Chromatic border distinctness - Not an index of hue or saturation differences

A further investigation of visual dominance

Personality characteristics of pilots on EPSP, MFI and DOSEFU test. II - Comparison among pilots, non-pilot officers and aviation students

Relationship between the reproduction tactics and the major indices of speech retention-reproduction processes

Design, fabrication and utility of a flight oriented performance test

Information processing in humans, volume 3. A bibliography with abstracts [ATIS/85-78/1154/A]

Quantification and validation of percept-genetic defense mechanisms. A hierarchical analysis of...
PULMONARY CIRCULATION
- Growth of pulmonary circulation in normal pigs
- Pulmonary blood volume and interventricular circulation time in physically trained and untrained subjects
- Cardiopulmonary readjustments in passive tilt
- Noninvasive assessment of pulmonary hypertension
- The lung as a filter for microbubbles
- Noninvasive assessment of pulmonary hypertension
- Pulmonary blood volume and interventricular circulation time in physically trained and untrained subjects
- The lung as a filter for microbubbles

PULMONARY LESIONS
- The effects of strong shock waves on solubility rates and percentages of pulmonary lesions in rats as a function of the number of exposures
- Evidence for increased intrathoracic fluid volume in man at high altitude

PULMONARY FUNCTIONS
- Monitoring the state of the human airways by analysis of respiratory sound
- Growth of pulmonary circulation in normal pigs
- Effects of exercise, vitamin E, and ozone on pulmonary function and lipid peroxidation
- Distribution of pulmonary ventilation and perfusion during short periods of weightlessness
- Changes in lung volume, lung density, and distribution of ventilation during hypobaric decompression
- Changes in lung volume, lung density, and distribution of ventilation during hypobaric decompression
- Changes in lung volume, lung density, and distribution of ventilation during hypobaric decompression

PULMONARY LESIONS
- The effects of strong shock waves on solubility rates and percentages of pulmonary lesions in rats as a function of the number of exposures
- Evidence for increased intrathoracic fluid volume in man at high altitude

PULMONARY RADIOLOGY
- Cardio-pulmonary response to shock
- Effects of oxides on nitrogen, carbon monoxide, and photochemical oxidants on the ECG during exercise and on cardiopulmonary function
- Cardio-pulmonary response to shock
- Evidence for increased intrathoracic fluid volume in man at high altitude

PULMONARY CLINICAL
- Pneumotachographic distinctions of external respiration in man in the presence of excess intrapulmonary pressure on ground level and at high altitudes
- Possible improving of assessment of cardiopulmonary function by submaximal exercise on a bicycle ergometer

PULMONARY VASCULAR PATTERNS
- Cardiopulmonary response to shock
- Effects of oxides on nitrogen, carbon monoxide, and photochemical oxidants on the ECG during exercise and on cardiopulmonary function
- Cardio-pulmonary response to shock
- Evidence for increased intrathoracic fluid volume in man at high altitude
Contrast effects on smooth-pursuit eye movement velocity
p0104 A79-28068

Velocity precision in smooth pursuit eye movements
p0129 A79-25399

Digital man-machine control systems - The effects of preview lag
p0131 A79-26149

The role of perceived motion in smooth pursuit eye movements
p0225 A79-40184

The effect of expectations on slow oculo-ocular control. I - Periodic target steps. II - Single target displacements
p0225 A79-40185

Separation of the effects of raised ankle and core temperature on performance of a pursuit rotor task
p0238 A79-43204

Tracking-task performance during heat stress simulating cockpit conditions in high-performance aircraft
p0236 A79-43675

Pilot-optimal anticipation of the air-to-air tracking task
p0252 A79-45398

Pursuit after-nystagmus
p0274 A79-49684

Effect on performance of cycling deep body temperature between 37.0 and 37.6 C
p0274 A79-49993

Mechanisms of the effects of vibration frequency, level and duration on continuous manual control performance
p0299 A79-52327

Optokinetic reactions in man elicited by localized retinal motion stimuli
p0304 A79-54251

PUSHING
A prediction model of arm push strength in the transverse plane
p0037 A79-13195

PITRAMZINES
MT ANIMES
PRIFUNOLS
MT MITOCHONDRIA
MT THYROIDINE
PROTOLYSIS
Statistical studies of animal response data from OSP toxicity screening test method
p0066 A79-18305

Renal damage in mice following exposure to the pyrolysis products of polytetrafluoroethylene
p0066 A79-18306

Two-week studies of survivors from exposures to pyrolysis gases
p0066 A79-18307

PITOMETRY
Y TEMPERATURE MEASUREMENT
PYRIMIDINES
MT INDOLINES
MT Tryptophan

QUALIFICATIONS
Characteristics of medically disqualified airman applicants in calendar years 1975 and 1976
p0144 A79-10582

QUALITY
MT RIDING QUALITY
MT WATER QUALITY
QUALITY CONTROL
Speech quality measurement
p0033 A79-11745

Biomedical data validation through an on-line computer system
p0057 A79-13700

QUANTITATIVE ANALYSIS
Computer quantitation of angiocardiographic images
p0293 A79-51028

Quantitative analysis of selected bone parameters
p0222 A79-11668

Quantitative review of human susceptibility to magnetic fields
p0266 A79-11691

QUANTIZE
Y COUSTERS

R

RABBITS
Transplant changes in arterial blood gases and heart rate during and after acutely induced hypoxia and hyperoxia to rabbits
p0134 A79-27120

Radar
MT MOVING TARGET INDICATORS
MT SIDE-LOOKING RADAR
MT SURVEILLANCE RADAR
MT SYNTHETIC APERTURE RADAR

Radar, Insect Population Ecology, and Pest Management
p0147 A79-19592

Radar detection
Synthetic aperture radar operator tactical target acquisition research
p0037 A79-13202

Target acquisition in realistic terrain
p0147 A79-13203

The effect of increased monitoring load on vigilance performance using a simulated radar display
p0236 A79-43674

Radar equipment
Capabilities of radar as they might relate to entomological studies
p0148 A79-19598

Radar maps
MT RADAR IMAGERY

Radar observation
U RADAR TRACKING
RADAR SCANNING
Real-time reconnaissance systems simulator
p0139 A79-28175

Radar tracking
Evolution of the man-machine interface in surveillance radar systems
p0031 A79-10322

Possible impact of radar on pest management operations
p0148 A79-19599

Radar observation of insects: Mosquitoes
p0148 A79-19600

Visual search performance during simulated radar observation with and without a sweepline
p0281 A79-30938

Radiation damage
MT LASER DAMAGE

Atlas of the dose characteristics of external ionizing radiation
p0098 A79-20669

Changes in the bioelectrical activity of some cerebral structures in rabbits exposed to microwaves
p0188 A79-35917

Dynamics of the impulse activity of the neurons in the posterior hypothalamus upon exposure to microwaves
p0188 A79-35918

Genetic effects of cosmic radiation on bacteriophage T4Rr+11 on materials of biological experiments Soyuz-Apollo
p0229 A79-41708

A mechanism for high-frequency electromagnetic field-induced biological damage
p0231 A79-41847

Effects of high-LET heavy particle radiation on the brain, eyes and other head structures of the pocket mouse - A histological study
p0252 A79-44798

Suprathreshold retinal damage due to single 6 picosecond 1060 nm laser light pulses
Use of a mathematical model of erythropoiesis for evaluation of effects of space flight factors

Studies on the microwave-induced auditory effect

[PB-290598/2]

Dose-effect relationships for ultrasound irradiation of brain tissue

The combined effect of space flight factors and radiation on rat skeletal muscles

Cell biology basis for the life of an organism in the radiation field

[ANL-TRANS-1152]

Biological effects of microwaves, volume 1. A bibliography with abstracts

[TID/PS-79/032/9]

Biological effects of microwaves, volume 2. A bibliography with abstracts

[NTIS/PS-79/0313/7]

Space Biology and Aerospace Medicine, no. 4, 1979

Ultrastructure of lymph nodes of dogs exposed to long-term external gamma radiation

Biological effects of nonionizing electromagnetic radiation, volume 3, number 4

[AD-070242]

RADIATION EXPOSURE

RADIATION DOSAGE

Interdisciplinary and international contributions to research on biological effects of electromagnetic waves - Past performances and future challenges

A hazard assessment method for the U.S. Army Microwave Radiation Protection Program

Laser eye protection for flight personnel

Laser safety bioeffects research - Histopathology of retinal effects

No harmful effects through infrared light emitting diodes

Health and safety hazards associated with solar concentration systems

On the measurement of hazardous e.m. fields radiated through an aperture

Protection against laser beams

Pulmonary functional tolerance to ionizing radiation - An experimental study

Aviation and radiation hazards

Protection standards for microwave and radiofrequency radiations

[AD-1055643]

Evaluation of the risks involved in the application of tritium gas and measures which have to be taken

[RML-1978-6]

Problems related to the assessment of safe exposure levels for radio frequency and microwave radiation

[ISS-P-78/7]

Dose-rate conversion factors for external exposure to photon and electron radiation from radionuclides occurring in routine releases from nuclear fuel cycle facilities

[DRRG-CN-0496]

Some considerations of hazards in the use of lasers for artistic displays

Effect of ultrasonic irradiation on mammalian cells and chromosomes in vitro

Effect of ultrasonic irradiation on rat skeletal muscles

Control systems for robots and manipulators ---
Russian book
p0134 A79-27303

ISAC-1 - A color sensing robot
p0138 A79-28168

Adaptive locomotion of a multilegged robot over rough terrain
p0163 A79-30217

Robotic vision --- process control applications
p0187 A79-39698

Some properties of conservative systems ---
walking robot model
p0221 A79-35942

Stabilization of the horizontal motion of a biperped walking robot
p0251 A79-48081

Visually estimating workspace pose in a robot hand
using the feature points method
p0269 A79-82018

Goal-directed mechanisms of controlled manipulators ---
Russian book
p0275 A79-50447

Stereo 3-D perception for a robot
p0019 A79-10740

General methods to enable robots with vision to acquire, orient, and transport workpieces
[PB-287199/4]
p0113 A79-16556

Advanced industrial robot control systems
[PB-287273/7]
p0113 A79-16558

The development of a six degree-of-constraint
robot performance evaluation test
p0117 A79-17504

Proximity-vision system for protolight
manipulator arm
[NASA-CR-158652]
p0197 A79-24658

ROCKET FLIGHT
Development of space biology experiments for the Space Shuttle - A student's perspective
[AAS PAPER 78-134]
p0099 A79-21252

ROCKET PROPELLED SLIDES
Performance evaluation of test dummies with flesh parts produced with substitute foaming compounds
[PB-289951/6]
p0179 A79-21776

RODENTS
MT NICE
MT RABBITS
MT RATS

RODS
Light adaptation in a normal and a rod monochromat
- Psychophysical and VEP increment threshold
comparisons .
p0232 A79-42238

ROLL
Application of control theory to the investigation of roll motion effects on pilot control behavior
[AD-0589231]
p0064 A79-19722

Psychophysical assessment of angular vibration -
Comparison of vertical and roll vibrations
p0234 A79-43206

The effects of closed loop tracking on a subjective tilt threshold in the roll axis
p0090 A79-15620

Roll tracking effects of G-vector tilt and various
types of motion washout
p0091 A79-15622

A model for the pilot's use of motion cues in
roll-axis tracking tasks
p0118 A79-17512

Ergonomic research into human tolerances for roll
and pitch as well as their influence on individual perception and reactions to control
parameters
[BMC-PERT-78-183]
p0282 A79-3094a

The application of control theory to the
investigation of roll motion effects on human
operator performance
p0288 A79-31931

ROLL CONTROL
U LATERAL CONTROL

RODS
MT CLEAN BOOKS

ROOFS OF EQUATIONS
Bandpass channels, zero-crossings, and early visual information processing
[AD-1062338]

NT EJECTION SEATS
NT AIR BAG RESTRAINT DEVICES
NT INDUSTRIAL SAFETY
NT FLIGHT SAFETY

SAFETY MANAGEMENT

NT AIRCRAFT SAFETY
NT SPACE SUITS
NT EJECTION SEATS
NT AIR BAG RESTRAINT DEVICES
NT HELMETS
NT SPACE SUITS

Design considerations for inflatable head/neck restraint systems
An inflatable restraint system --- for helicopter crash protection
Oral/nasal breathing systems in the year 2000
An overview of helicopter mission specific survival equipment
Current trends in NT military aircrew survival equipment
The fitting of Canadian Forces aircrew helmets - Why the difference
Whole body response research program
Test and evaluation of head restraints, seat backs, and anchorages in vehicles subjected to rear impact collision
Development of a solid propellant inflation technique for the subcompact car passenger restraint system, phase 1
Guidelines for fit testing and evaluation of USAF personal-protective clothing and equipment
A submersible private restraint system

SAFETY FACTORS

Experimental determination of maximum permissible exposure to laser radiation of 1.54-micron wavelength --- corneal damage
High 'Q' escape protection --- pilot restraint during high speed ejection
The helmet protects the aviator’s head - Or does it
Ejection problems and injuries - Their causes, effects, treatments, and suggestions for preventive measures
Evaluation of occupant protection devices and restraint systems
Effects of deceleration and rate of deceleration on live seated human subjects
Evaluation of the risks involved in the application of tritium gas and measures which have to be taken

SAFETY MANAGEMENT

A hazard assessment method for the U.S. Army Microwave Radiation Protection Program
Protection standards for microwave and radiofrequency radiations
Development of recommendations to improve controls operability

SATPLANES

O GLIDERS

SALINITY

The effects of temperature, salinity, and other factors on the growth and formation of 0V-absorbing substances by the fungus Aspergillus

SALMONELLA

Biomedical data validation through an on-line computer system

SALTYS SPACE STATION

Preliminary results of Cytos experiment flows in Salyut VI - Investigations of Paraseichmus aurelia
Physiologico-hydrionic and ergonomic aspects of Salyt 6 cosmonauts extravehicular activity /EVA/
Man in space and on earth (NASA-TM-75602)
Salyt-6-Soyuz-29: Our commentary, the crew and the station
Studies of microbial flora and immunity of Salyt-3 crew
Simulation of fluid-electrolyte metabolism as a means of preventing orthostatic instability in the crew of the second expedition aboard the Salyt-4 station
Studies of venous circulation in the crew of the Salyut-5 orbital station
Fluid-electrolyte metabolism in the crew of Salyut-4
Control of vertical position after flights aboard the Salyut-4 orbital station

SAMPLES

NT RACK SURFACE SAMPLES
SAMPLING

NT AIR SAMPLING
Automated biowaste sampling system feces monitoring system (NASA-CR-160301)

SARCINOA

MO CANCER

SATAN (SENSOR)

O TERTRAN ANALYSIS

SATELLITE ORBITS

The dose rate of cosmic ray radiation received by a biological target in the stratosphere and at altitudes of satellite orbits

SATELLITE SOLAR POWER STATIONS
Health maintenance and health surveillance considerations for an SPS space construction base community

SATELLITE TEMPERATURE
Importance of temperature control for HELEX, a biological experiment for Spacelab 1 --- plant gravitational physiology study

SATELLITE TRACKING
Wildlife monitoring program plan

SATELLITE-BOUNED INSTRUMENTS
Instrumentation for controlling and monitoring environmental control and life support systems

SATURATION

Chromatic border distinctness - Not an index of hue or saturation differences

SCALING LAWS

The measurement and scaling of workload is complex performance

SCANNING

NT RADAR SCANNING
SCATTERING

NT ACOUSTIC SCATTERING
NT BACKSCATTERING
NT LIGHT SCATTERING
NT RAYLEIGH SCATTERING
NT X RAY SCATTERING

SCATTERING FUNCTIONS
Accuracy of RGD approximation for computing light
SUBJECT INDEX

scattering properties of diffusing and motile bacteria --- Rayleigh-Gans-Debye p0233 A79-62488

SCREW ANALYSIS
Visual motion perception by intelligent systems p0300 A79-52691

A theoretical and experimental analysis of the outside world perception process p0091 A79-15525

SCREDDRUM
Effects of electromagnetic field induction on development of the green algae, acnedesmus quadricauda (Turpin) Breb. and composition of free amino acids in its biomass and media p0075 A79-14740

SCHEDULING
ST PREDICTION ANALYSIS TECHNIQUES
Recurrent training/supernumerary system p0041 A79-13283

The internal model: A study of the relative contribution of proprioception and visual information to failure detection in dynamic systems --- sensitivity of operators versus monitors to failures p0231 A79-62231
SENSORY DEPRIVATION

Effect of alcohol and marijuana on eye movements
Correlation of choice reaction time performance
with biologic rhythmic criticality and cycle phase
Comparative evaluation of the effectiveness of
tactile and visual tracking of a sinusoidal signal
The effects of carbon monoxide on dual-task
performance
Eye movements and visual perception
Electrophysiological correlates of local muscular
fatigue effects upon human visual reaction time
Directional errors of movements and their
correction in a discrete tracking task - pilot
reaction time and sensorimotor performance
Comparison of motor submodels in the optimal
control model
Vestibular influences on other sensory and motor
processes - human performance in flight
sensation
A theoretical and experimental analysis of the
outside world perception process
The visual cortex of normal and deprived monkeys
SENSORY DISCRIMINATION
MT BRIGHTNESS DISCRIMINATION
MT TACTILE DISCRIMINATION
MT VISUAL DISCRIMINATION
Nonparametric measures of sensory efficiency for

</table>

A-181
A prioritized set of physiological measurements for future spaceflight experiments

The combined effects of space flight factors and radiation on rat skeletal muscles

Catecholamines and enzymes of metabolism thereof in the rat hypothalamus after flight aboard Cosmos-762 biosatellite

Tissue morphology in mixed type fibers of rat skeletal muscles after flight aboard Cosmos-690 biosatellite

Immunological reactivity of rats flown aboard Cosmos-665 and Cosmos-690 biosatellites

Possibilities of preventing adverse reactions in simulating the acute period of adaptation to weightlessness

Morphological distinctions of the rat thyroid and parathyroid following long-term space flights

SPACE FLIGHT FEEDING

Food packages for Space Shuttle

Caloric and exercise requirements of space flight

Food and waste management biotechnology for the space shuttle

SPACE FLIGHT STRESS

Prolonged weightlessness and calcium loss in man

On the man's adaptation to the operator's work under stressful conditions of space flight

Space medicine - A prognosis for future research

Laryngeal problems in space travel

Results of tests of the equilibrium organ of candidates for payload expert for the first Spacelab mission

Continuous metabolic and cardiovascular measurements on a monkey subject during a simulated 6-day Spacelab mission

Influence of orbital flight conditions on formation of genitals in Muscari racemosum and Anethum graveolens

Kyphrotropic effects of space flight

Ultrasound investigations of the soleus muscle after space flight on the Biosputnik 936

Determination of muscle mass changes in legs from K-40 measurements

Effect of microwave radiation on the resistance of rats to transverse acceleration loading

Some neurochemical characteristics of rats after space flight in the Cosmos-936 satellite

Psychological training - One of the most important factors of enhancing the safety of space flights
Recovery of hemopoiesis in rats exposed to radiation during space flight

Radiation lesion to liver DNA of rats exposed to radiation during flight aboard the Kosmos-690 biosatellite

Histological and histochemical studies of the liver of rats flown aboard Kosmos-690 biosatellite

State of spermatogenesis in rats flown aboard Kosmos-690 biosatellite

Rat behavior in maze after flight aboard Kosmos-690 biosatellite

Analysis of distribution of sequences of R-R intervals in astronauts: Generalized coordinate method

Effect of space flight on cell-mediated immunity

---, COSMOS 782 satellite

Histological studies on tibial bone of rats in the 1975 COSMOS-782 flight. Part 1: Endochondral osteogenesis; medullary bone turnover

Histological studies on tibial bone of rats in the 1975 COSMOS-782 flight. Part 2: Microradiographic study of cortical bone

Effect of weightlessness and centrifugation (LEG) on erythrocyte survival in rats subjected to prolonged space flight

COSMOS 936, experiment K204: The effects of space flight on some liver enzymes concerned with carbohydrate and lipid metabolism in the rat

Quantitative analysis of selected bone parameters

Cosmic ray effects on the eyes of stationary and centrifuged rats flown on COSMOS 936, experiment K-207

COSMOS 936, experiment K-208: Spaceflight effects on muscle fibers

Space biology and aerospace medicine, vol. 12, no. 6 (JPR-72947)

Principal results of experiment with animals onboard the Kosmos-782 biosatellite

DNA content of animal organs during space flight on Kosmos-690 satellite

Space biology and aerospace medicine, volume 13, no. 1, 1979 (JPR-72826)

Effect of 49-day space flight on parameters of immunological reactivity and protein composition of blood in the crew of Salut-5

Effects of space flight on course of radiation lesions in rat lymphoid organs

Morphological study of adrenals of rats irradiated during flight aboard Kosmos-690 satellite

Changes in metabolism of soleus muscle tissue in rats following the flight aboard the Kosmos-690 biosatellite

Changes in amount and composition of phospholipids in rat skeletal muscle microsomal fraction under the influence of a flight aboard the Kosmos-690 biosatellite

Antistressotoxic hypokinesia as an approximate model of weightlessness

Bioelectrical activity of the brain during 49-day antistressotoxic hypokinesia in individuals with early signs of vegetovascular dysfunctions

Changes in properties of rat fur as a result of crucial exertion and hypokinesia

Blood clotting factors of the vascular wall and myocardium of hypokinetic rabbits

Effect of hypokinesia on animal resistance to chemical agents

Effects of prolonged unidirectional shift of sleeping-walking cycle on physiological functions, mental productivity and sleep of man

Effects of space flight factors on electrolyte composition of rat skeletal muscles

Effects of LMP on catecholamines and adrenal cortex

Rehabilitation measures used to restore physical fitness of men after long-term restriction of movement

Problems of human adaptation to spaceflight

Space biology and aerospace medicine, no. 2, 1979 (JPR-73177)

Biochemical study of proteins of gastric and intestinal mucosa of rats flown aboard the Kosmos-690 biosatellite --- effects of space flight stress

Increased hemoglobin and content of red blood serum as a result of decreased resistance of erythrocyte membranes to hyperbaric oxygenation, and the protective effect of urea

Effect of combination of hypoxia and hypercapnia on survival of Japanese quail

Space Biology and Aerospace Medicine, no. 4, 1979 (JPR-74133)

Studies of venous circulation in the crew of the Salut-5 orbital station

Effects on lipid metabolism in man of some factors that simulate space flight conditions

Intensity of DNA synthesis in animal organs after flight aboard the Cosmos-782 biosatellite

SPACE FLIGHT TRAINING

From the laboratory to the Spacelab: Training program for Spacelab payload experts [ASME PAPER 78-145]
[IAA PAPER 79-7430]

Jiun Chiropollia on board of Salut 6

Space maintenance

Test evaluation of space station ECLSS maintenance concepts --- Environmental Control and Life Support System [ASME PAPER 78-2056]

Health maintenance and health surveillance considerations for an SPS space construction base community [ASAE PAPER 78-176]

Space Manufacturing

Construction in space -- Toward a fresh definition of the man/machine relation

Space Missions

Life sciences experiments mission development test program [ASME PAPER 78-2056]

Survey of the use of robots in space missions [DGLR PAPER 78-182]

Concept definition for an extended duration orbiter ECLSS [NASA-CB-160164]

Space Perception

The effects of ambient illumination, aircraft velocity and feedback on absolute distance judgments during simulated flight

A-183
map-of-the-earth flight  p0038 A79-13204
Depth perception and manual control  p0038 A79-13207
Significance of motor activity for spatial hearing  p0043 A79-14372
Perception of graphic displays of space  p0062 A79-18205
The importance of providing stereoscopic vision in training for map-of-the-earth/NOE-flight  p0062 A79-18206
Eye movements and asymmetry - Foundations for a quantitative analysis of eye movements as they depend on the structure of the perception field --- German thesis  p0098 A79-20756
The common occurrence of errors of perceived distance  p0100 A79-22775
Digital color image compression in a perceptual space  p0136 A79-28013
Perception of depth - Processing of simple positional disparity as a function of viewing distance  p0139 A79-28197
Axiomatic summary and deductions from Hering's principles of visual direction  p0228 A79-41421
A comparison of oculomotor and motion parallax cues of egocentric distance  p0305 A79-54253

SPACE PROBES

SPACE VIKING MARS PROGRAM

SPACE PROCESSING

Spacelab and beyond - Bioscience problems in the use of space  p0041 A79-14081
The growth of single crystals from proteins in gravity-free space  p0069 A79-19665

SPACE PROGRAMS

MT U.S.S.R. SPACE PROGRAM

SPACE RADIATION

3 EXTRATERRESTRIAL RADIATION

SPACE RATIONS

Food packages for Space Shuttle  p0007 A79-12562

SPACE SCIENCES

0 AEROSPACE SCIENCES

SPACE SHUTTLE ORBITERS

Animal life support transporters for Shuttle/Spacelab  p0006 A79-12559
Extended duration orbiter life support system options  p0008 A79-12580
Extended duration orbiter life support system definition  p0009 A79-12588
Prevention and treatment of space sickness in Shuttle-Orbiter missions  p0128 A79-24639

Food and waste management biotechnology for the space shuttle  p0302 A79-53294
Selection, training, and health care of working specialists for Shuttle/Spacelab and future space station missions  p0303 A79-53297
Multi-axis hand controller for the shuttle remote manipulator system  p0117 A79-17503
Advanced life support equipment for nitrogen tetoxide environments  p0169 A79-20432
Concept definition for an extended duration orbiter ECLSS  p0197 A79-23666

SPACE SHUTTLE PAYLOAD

MT SPACEBORNE EXPERIMENTS

MT SPACELAB

Life sciences in the Shuttle era  p0008 A79-12582
Life support systems for biological specimens in the Shuttle/Spacelab  p0009 A79-12585
Development of space biology experiments for the Space Shuttle - A student's perspective  p0099 A79-21252

SPACE SHUTTLES

Food packages for Space Shuttle  p0007 A79-12562
Microbolometric Valve for Space Shuttle  p0008 A79-12576
Manned maneuvering unit: User's guide  p0113 A79-16553
Simple models for the shuttle remote manipulator system  p0113 A79-16556
Human factors in Space vehicles and space stations  p0189 A79-22135
Biomedical application in space, pilot program in the southern California region  p0195 A79-23653
A system for sterilizing objects --- such as water systems on the space shuttle using ethylene oxide  p0318 A79-33048

SPACE STATIONS

MT LONG DURATION EXPOSURE FACILITY

MT ORBITAL SPACE STATIONS

MT SPACE SHUTTLES

SPACE VEHICLES

SPACE VEHICLE CONTROL

SPACE VEHICLE CHECKOUT PROGRAM

SPACE VEHICLES ON SPACECRAFT

SPACEBORNE ASTRONOMY

Advanced teleoperators --- remote manipulation system  p0187 A79-34982

SPACEBORNE EXPERIMENTS

Experiment Chloraless 1 on board of Salut 6  p0003 A79-11223
Biological specimens holding facilities for Spacelab experiments  p0007 A79-12562
Two private biological facility module in Spacelab  p0009 A79-12579
An apparatus for studying electrophotographic responses under conditions of space flight  p0006 A79-12517
Radiobiological investigations in Cosmos 782 space flight /Biobloc SF1 experiment/  p0006 A79-12518
Biological study of tobacco seeds flown in the joint Apollo-Soyuz test-project  p0006 A79-12518

p0068 A79-18997
Line criteria in target acquisition with television
visibility of target image on TV screens
p0069 A79-19000
Visual target acquisition and ocular scanning
performance

Real-time reconnaissance systems simulator
p0139 A79-28175
The role of perceived motion in smooth pursuit eye
movements  p0225 A79-60184
The effect of expectations on slow saccadic
control. I - Periodic target steps. II - Single
target displacements
p0225 A79-60185
The relative effects of multiple factors on target
acquisition --- by combat pilots
p0267 A79-47765
A behavioral model of target acquisition in
realistic terrain

A-192
TARGET RECOGNITION

TARGETS

TARGET SIMULATORS

TARGETS

TASK COMPLEXITY

Tasks functional demands as factors in dual-task performance

The man-computer division of tasks in the case of the control of complex technical systems --- applied to aircraft

An algorithm to ascertain critical regions of human tracking ability

Measurement and scaling of workload in complex performance

A preliminary study of the air traffic controller's picture

Visual search for complex targets

Pilot workload in the aircraft of the future

Pilot workload during final approach in congested airspace

Modeling the human as a controller in a multitask environment

Prospects of a mathematical theory of human behavior in complex man-machine systems tasks --- time sharing computer analogy of automobile driving

Petri nets as a modeling tool for discrete concurrent tasks of the human operator --- describing sequential and parallel demands on human operators

A model for dynamic allocation of human attention among multiple tasks

A model of human event detection in multiple process monitoring situations

A quasi-linear control theory analysis of timesharing skills

Two measures of performance in a peg-in-hole manipulation task with force feedback

Task complexity and 24-hr performance patterns in morning and evening active subjects

Time-sharing ability in complex performance: An expanded replication

Simulated BV operation of a remote connector assembly test report

Task complexity and 24-hr performance patterns in morning and evening active subjects

Performance and workload analysis of inflight helicopter missions

### SUBJECT INDEX

**TELECOMMUNICATION**

- Gel-electrophoresis studies for the taxonomic characterization of soil microorganisms  
  [NYN/CNR-77-1924]  p0039 A79-13212

**TECHNOLOGY UTILIZATION**

- Development of techniques to enhance man/machine communication  

**TEACHING**

- Team performance - A model for research  p0065 A79-18227

**TECHNOLOGICAL FORECASTING**

- Regional program for acquisition of medical technologies  p0027 A79-50550

**TECHNOLOGY ASSESSMENT**

- Infection and control of the man/machine relation  p0085 N79-15580

**TECHNOLOGIES**

- Space suit technology  p0039 A79-15444

**TELEMECHANICS**

- Experiment on sudden changes of quantity and local  p0243 N79-27817

**TELEMETRY**

- Radiation biological effects of the solar electromagnetic field  p0146 N79-12006

**TELEVISION CAMERAS**

- Telemedicine: An expanding new science on land and sea  p0146 N79-19020

**TELEPHICOS**

- Importance of temperature control for REFLEX, a German book on pilot training systems  p0095 A79-19375

**TELEPROTECTORS**

- Computer augmented manual control of remote manipulators  p0147 N79-19022

**TELETYPEWRITERS**

- Telemedicine: An expanding new science on land and sea  p0046 A79-14987

**TELEVISION EQUIPMENT**

- Telehealth handbook: A guide to telecommunication technology for rural health care  p0241 N79-26778

**TELEVISION SYSTEMS**

- Telemedicine: An expanding new science on land and sea  p0230 A79-41716

**TELEVISION TECHNOLOGY**

- Very-large-scale integration - What it means for technical systems and humans  p0269 A79-48019

**TELEVISION TRANSMISSION**

- Very-large-scale integration - What it means for technical systems and humans  p0319 A79-12577

**TEMPERATURE CONTROL**

- Temperature control  p0273 A79-49985

**TEMPERATURE REGIONS**

- Deconditioning-induced exercise responses as influenced by heat acclimation  p0253 A79-19020

**TEMPERATURES**

- Importance of temperature control for REFLEX, a biological experiment for Spacelab 1 --- plant gravitational physiology study  p0230 A79-41716

**TEMPERATURE GRADIENTS**

- Temperature control  p0241 A79-13613
Distribution of internal heat production

Apparatus for supplying conditioned air at a substantially constant temperature and humidity [NASA-CASR-ESC-1291-1]

Temperature effects
A composite view of task performance in hot environments

Temperature effect of muscular work in the white rat during hypoxia

Discrimination, temperature, and time of day --- human performance variances

Characteristics of EEG changes in rabbits in response to local cooling or heating of the central thermosensory area

Thermal activation of the visual transduction mechanism in retinal rods

Separation of the effects of raised skin and core temperature on performance of a pursuit rotor task

Relationship between thermogenic drinking and plasma resin activity in the rat

Tracking-task performance during heat stress simulating cockpit conditions in high-performance aircraft

Temperature effects on shape and function of human granulocytes

[AD-A063750]

Effects of sleep at altered ambient temperatures on electrophysiological sleep and thermoregulatory mechanisms in human subjects and in the ground squirrel (Citellus lateralis)

Temperature fields
U TEMPERATURE DISTRIBUTION

Temperature gradients
Effect of cockpit temperature gradients on the validity of single-point measurements

SUBJECT INDEX 

[ 8-29425/13 ] 

P0261 N79-29788 

THERMAL PROTECTION 

Heat transfer principles in personal protection 

applications 

Development of integrated tubing fabric for liquid 

conditioning garments 

P0043 A79-14005 

Bioassay of thermal protection afforded by 

candidate flight suit fabrics 

P0298 A79-52280 

Biomedical constraints on thermal protective 

flight design: A bioengineering analysis 

P0153 N79-19662 

THERMAL RADIATION 

Thermally induced retinal injury due to high 

doses of optical radiation 

P0278 A79-50974 

THERMAL RESISTANCE 

Thermal resistance of naturally occurring airborne 

bacterial spores --- Viking spacecraft dry heat 

decontamination simulation 

P0131 A79-26147 

Development of the CWU-48/P high temperature 

radiation resistant aramid knit flyer's coverall 

P0059 N79-13716 

THERMAL RESOURCES 

MT GEOEGENAL RESOURCES 

THERMAL STABILITY 

Structure-stability relationship of thermophile 

UHMA - A model for biological adaptation and 

limit of life at high temperature 

Temperature uniformity in hyperthermal tumor therapy 

P0206 A79-37976 

P0018 N79-10750 

THERMAL STRESSES 

Computer simulation of thermoregulatory responses 

to heat stress – A future work design and 

training tool 

P0037 A79-13196 

Cardiac response to whole-body heating 

P0165 A79-30661 

Analysis of climatic data and cockpit thermal 

conditions at a fighter base in North West India 

P0201 A79-37135 

The effect of thermal stimulation of the skin on 

activity of lateral crescent interneurons of 

lumbar segments 

P0208 A79-38187 

A comparison of the physiological responses in 

young men and women to heat and cold stress 

P0155 N79-19679 

Fighter index of thermal stress: Relation to 

weather conditions at ATC and TAC bases 

P0174 A79-20748 

THERMALIZATION (ENERGY ABSORPTION) 

Classical theory of microwave interactions with 

biological systems 

P0082 N79-15556 

THERMOBIOLOGISTS 

MT PYHOLOGISTS 

THERMAL PROPERTIES 

MT THERMAL CONDUCTIVITY 

MT THERMAL STABILITY 

THERMOBIOLOGY 

Thermodynamic studies on the oxygenation and 

subunit association of human hemoglobin 

P0142 N79-18576 

Analysis of visible spectra and thermodynamic 

parameters in hemoprotein systems 

P0144 A79-18579

A-207
Recognition by the human eye of colored symbols on different backgrounds

Chromatic border distinctness - Not an index of hue or saturation differences

Discrimination, temperature, and time of day — human performance variances

The visual perception of motion in depth

The relative effects of multiple factors on target acquisition — by combat pilots

Mutual repulsion between moving visual targets

Upper-velocity threshold for detection of movement

Contrast sensitivity of the human eye to various display phosphor types

Translations on SSR science and technology: Biomedical and behavioral sciences, vol. 51

Visual information processing

The relationship between air combat maneuvering range (ACMR) output measure and initial visual acquisition performance

Effects of vestibular factors on color-discriminating function of the human eye following color preadaptation

Undergraduate pilot training: Visual discrimination pretraining for land task

The role of cognitive switching in head-up displays — to determine pilot ability to accurately extract information from either of two sources

VISUAL DISPLAYS

VISUAL DISPLAY DEVICES

Apparent saturation of blue-sensitive cones occurs at a color-opponent stage

Human factors considerations in the design and evaluation of a helmet mounted display using a light emitting diode matrix

Eye movements and symmetry — Foundations for a quantitative analysis of eye movements as they depend on the structure of the perception field — German thesis

The common occurrence of errors of perceived distance

The equivalent background and retinal eccentricity

Useful visual field size for pattern discrimination

Stereo 3-D perception for a robot

VISUAL FLIGHT

Flight management research utilizing an oculometer — pilot scanning behavior during simulated approach and landing

Choice and techniques of analysis of indices for the perception of visual information. III — by pilots

Visual workload of the copilot/navigator during terrain flight

Oculomotor performance of aviators during autorotation maneuver in a helicopter simulator

Visual performance/workload of helicopter pilots during instrument flight

VISUAL OBSERVATION

Focus of the effect of specific practice in continuous visual search

A two-stage model of visual search

Advanced transport operation effects on pilot scan patterns

Two dimensional eye tracking: Sampling rate of forcing function

Head tracking at large angles from the straight ahead position

Airline pilot scan patterns during simulated ILS approaches

Visual search performance during simulated radar observation with and without a sweepope

VISUAL PERCEPTION

MT CRITICAL FLICKER FREQUENCY

MT SPACE PERCEPTION

MT VISUAL DISCRIMINATION

Apparent saturation of blue-sensitive cones occurs at a color-opponent stage

Perceptual delay — A consequence of set-contrast and apparent motion

Role of the frontal associative region of the visual system

Selection and techniques for analysis of indices of visual data receptions. II — aircraft pilot eye movements

Perceptual localization, feature identification and ocular motor factors in scanning a visual display

Human engineering study of information processing applicable to helmet-mounted displays

Light flashes in space — cosmic ray interaction with astronomical display systems

Choice and techniques of analysis of indices for the perception of visual information. III — by pilots

Factors controlling the competing sensations produced by a bistable stroboscopic motion display

The perceived direction of the binocular image

Useful visual field size for pattern discrimination

Hyper-resolution in human perception in visual displays

Elements of the theory of biological analyzers — Russian book

Aeromedical applications of the X-Chrom lens for improving color vision deficiencies

Object, illusion and frame of reference as design criteria for computer-generated displays

Omnidirectional increase in threshold for image shifts during saccadic eye movements

Piecewise Fourier analysis of images and the role of occipital, temporal and parietal cortex in visual perception

Experimental investigation of the visual system using one-dimensional Walsh gratings

Training of visual recognition

Role of the visual system in the compensation of vestibular dysfunction

Deductive derivation of a mathematical model for spectral sensitivity of the human organ of sight, I, II

A bioengineering simulator of the human visual apparatus
Nonlinear optical susceptibility of the human eye
The interpretation of visual motion --- Book
Perception of continuity in stroboscopic motion -
Visual contrast sensitivity functions obtained

during instrument flight
Bandpass channels, zero-crossings, and early
visual information processing
Restoration of color perception after adapting
flashes
Effect of optical magnification on the perception
of displayed orientation
The effects of pilot age, lighting, and head-down
time on visual accommodation
The limited range of the human eye for optical
aircraft acquisition
A theoretical and experimental analysis of the
outside world perception process
Analysis of visual estimation of system state from
arbitrary displays
Light flashes in space --- cosmic ray interaction
with astronaut visual system
Applications of two-parameter decision theories in
psychology
Use of the tilt cue in a simulated heading
tracking task
Manual control of yaw motion with combined visual
and vestibular cues

Visual signals
Subject index
Visual signals
A-209
Human factors analysis of visual distress signaling devices --- used by boaters

VISUAL STIMULI

The response of frogs to vestibular and visual stimulation in weightlessness

Perceptual delay - A consequence of metacognition and apparent motion

Eye movements and symmetry - Foundations for a quantitative analysis of eye movements as they depend on the structure of the perception field --- German thesis

Locus of the effect of specific practice in continuous visual search

Optokinetic motion sickness - Attenuation of visually-induced apparent self-rotation by passive head movements

A fast-reacting and versatile optokinitis stimulus pattern by computer graphics with application examples

A further investigation of visual dominance

Detection of coloured stimuli by independent linear systems

Effects of stimulus onset and image motion on contrast sensitivity

Visual angle constancy for the subjective checkerboard pattern, as an indication of cortical origination of size constancy

Spatial frequency ranking in human vision --- binocular interactions

Spatial summation in human vision --- simple reaction time measurements

Using color substitution pupil response to exposure to chromatic mechanisms

Direction-selective adaptation with very slow motion

An analysis of the saccadic system by means of double step stimuli

The peripheral critical flicker frequency

Contrast sensation --- a linear function of stimulus contrast

Orientation relative to the retina determines perceptual organization

Optokinetic reactions in man elicited by localized retinal motion stimuli

A comparison of oculomotor and motion parallax cues of egocentric distance

Eye torsion in response to a tilted visual stimulus

Cerebral hemodynamics and visual analyzer function following exposure to bright light

Training effect of recognition of different alphabets of visual stimuli

Contrast sensitivity of the human visual system at one luminance level while adapted to a stimulus at another luminance level

Methods for localization of electrical sources in the human brain and applications to the visual system

VISUAL TASKS

Imagery interpreter performance in the comparison of subjective estimates of photographic image quality

Lateral orientation and cerebral activation --- Considerations for information display

Visual workload of the copilot/navigator during terrain flight

Observer performance using a video display --- in simulated air to ground target acquisition tasks

AWACS, a research facility for developing flight trainer visual system requirements

Effects of information processing requirements on reaction time of the eye

Secondary visual workload capability with primary visual and kinesthetic-tactual displays

Peripheral acuity and photointerpretation performance

Line criteria in target acquisition with television --- visibility of target image on TV screen

Speed and load stress as determinants of performance in a time sharing task

Visual target acquisition and ocular scanning performance

Visual cues in manual tracking of simulated targets

Comparative evaluation of the effectiveness of visual and aural tracking of a cisural signal

The effects of carbon monoxide on dual-task performance

A rationale for human operator pulsive control behavior

Visual search for complex targets

Regression models of search time for color-coded information displays

Information transmission during eye movements

Oculomotor factors in visual perceptual response efficiency

Dynamics of the eye and head during movement between displays - A qualitative and quantitative guide for designers

Methodological considerations of visual workloads of helicopter pilots

Visual workload of the copilot/navigator during terrain flight

Analysis of electroencephalograms during psychomotor performance

The effect of increased monitoring load on vigilance performance using a simulated radar display

Tracking-task performance during heat stress simulating cockpit conditions in high-performance aircraft

Auditory and visual sustained attention during ozone exposure

Effect on performance of cycling deep body temperature between 37.0 and 37.6 C

A cinematographic technique for investigating some aspects of visual recognition

Effects of uncertainty on manual tracking performance --- visual tasks

A model for dynamic allocation of human attention among multiple tasks
Quality of water reclaimed from urine as related to pH of initial product

A system for sterilizing objects --- such as water systems on the space shuttle using ethylene oxide

[NASA-CASE-MSC-11085-1] p0313 N79-33807

WATER RECLAMATION

WATER TEMPERATURE

Regional heat loss in resting man during immersion in 25.2°C water

p0202 N79-37709

Minimum sea surface temperatures and associated survival times

[AD-A070162] p0315 N79-33828

WATER TREATMENT

A thermoelectric integrated membrane evaporation system

[ASME PAPER 78-ENAS-19] p0007 N79-12568

Water system virus detection

[NASA-CASE-MSC-16098-1] p0013 N79-10693

Water system microbial check valve development

[NASA-CASE-MSC-16098-1] p0112 N79-15550

WATER VAPOUR

Synthesis of organic compounds from carbon monoxide and water by UV photolysis

p0099 N79-22077

WATER VEHICLES

WATER VEHICLES

MT AIRCRAFT CARRIERS

MT BOATS

MT UNDERWATER VEHICLES

WAVE DIFFRACTION

Diffraction-based characterization of biological tissue with ultrasound --- acoustic scattering from liver tissue

p0054 N79-13683

WAVE OSCILLATORS

WAVE OSCILLATORS

MT OSCILLATORS

MT PROPAGATION

MT LIGHT SCATTERING

MT RADATION

MT ELECTROMAGNETIC RADIATION

MT SCATTERING

MT ACOUSTIC SCATTERING

MT LIGHT SCATTERING

MT RAYleigh SCATTERING

MT X RAY SCATTERING

WAVEFORMS

MT PULSE DURATION

WAVELENGTHS

Wavelength dependence of ultraviolet-enhanced reactivation and induction of mammalian viruses

[ENV-PUB-FDA-78-8059] p0084 N79-15575

WEAK ENERGY INTERACTIONS

Quantitative aspects of the effect of weak interaction during chemical evolution

p0204 N79-37959

WEAPON SYSTEMS

Visual effects of helicopter manoeuvre on weapon aiming performance

p0150 N79-19626

Human factors evaluations of today's helicopters as an aid to future systems design

p0150 N79-19627

WEAPONS

WEAPONS

MT ARTILLERY

WEATHER

MT HOT WEATHER

WEB (MEMBRANES)

MT SYMPHANES

WEIGHT (MASS)

MT BIOMASS

MT BODY WEIGHT

WEIGHT ANALYSIS

Weight control and restraint of laboratory rats

p0133 N79-26584

WEIGHT REDUCTION

Computer design synthesis of a below knee-Symp

p0251 A79-84300

WEIGHTING FUNCTION

Intensity judgements of non-sinusoidal vibrations - Support for the ISO weighting method

p0100 A79-12568

WEIGHTLESSNESS

Prolonged weightlessness and calcium loss in man

[IAEE PAPER 79-11087] p0302 N79-32696

A review of the consequences of fluid and electrolyte shifts in weightlessness

[IAEE PAPER 78-531] p0003 A79-11220

Experiments Chlorella 1 on board of Salyut 6

[IAEE PAPER 78-531] p0002 N79-11223

Space medicine - A prognosis for future research

[IAEE PAPER 78-531] p0003 N79-11364

The responses of frogs to vestibular and visual stimulation in weightlessness

p0006 A79-12513

Aggregation of red cells and blood viscosity as models of materials experimentation in the space environment

[IAEE PAPER 79-0310] p0009 N79-19664

Cardiovascular regulatory response to lower body negative pressure following blood volume loss

p0101 N79-23470

Early cardiovascular adaptation to simulated zero gravity

p0162 A79-29727

Spaceflight and bone turnover - Correlation with a new rat model of weightlessness

p0182 A79-33049

Continuous metabolic and cardiovascular measurements on a monkey subject during a simulated 6-day Spacelab mission

p0229 A79-41173

Man and machine design for space flight

p0300 A79-53296

A new application of LBNP to measure orthostatic tolerance before and after 0-G simulation /water immersion/

[IAEE PAPER 79-87] p0302 N79-53290

Equipment for surgical interventions and childhood in weightlessness

[IAEE PAPER 79-97] p0302 N79-53296

The biomedical implications of extended duration zero-g extravehicular activities

[IAEE PAPER 79-GT-06] p0303 N79-53447

Radiographic comparison of human lung shape during normal gravity and weightlessness

p0305 N79-54269

Protein fractions and enzymatic activity thereof in the rat myocardium after the flight on Kosmos-690 biosatellite

p0014 N79-10070

State of spermatogenesis in rats flown aboard Kosmos-690 biosatellite

p0134 N79-10704

Response of crown gall tissue to the space environment: Residual carbohydrates in supporting tissue --- COSMOS 782

p0200 N79-11563

Responses of crown gall tissue to the space environment: Tumor development and anatomy --- cosnos 782

p0200 N79-11563

Responses of crown gall tissue to the space environment: Glutamine synthetase activity --- cosnos 782

p0200 N79-11565

Responses to crown gall tissue to the space environment: Isozyme patterns --- cosnos 782

p0200 N79-11565

The morphogenetic responses of cultured totipotent cells of carrot (Daucus carota L.) at zero gravity --- cosnos 782

p0202 N79-11567

Killifish development in zero-G on COSMOS 782:

Pundals experiment K-104

p0201 N79-11569

Effects of weightlessness on the embryonic development and aging of Drosophila melanogaster

p0202 N79-11670

Effects of weightlessness on the genetic and aging process of drosophila melanogaster

p0203 N79-11673

Effect of weightlessness and centrifugation (LIG) on erythrocyte survival in rats subjected to prolonged space flight

p0223 N79-11673

Note: The text appears to be a list of authors and their contributions, possibly from a research index or similar publication. Each entry includes a reference, likely indicating a publication or research paper. The references are coded with alphanumeric characters, possibly indicating a database entry system, and seem to be part of a larger collection or database of scientific literature.
Aircraft flight simulation of Spacelab experiment

A wide aperture focussed ultrasound system for detection of breast carcinoma by ultrasonic attenuation

The use of synchronous demodulation for the measurement of eye movements by means of an ocular magnetic search coil

An inflatable restraint system

Measurement of eye movements by means of an ocular magnetic search coil

Head tracking at large angles from the straight ahead position

Dynamical characteristics of visual functions

Clinical usefulness of radiopaque markers in left ventricular function

Experimental and theoretical investigations concerning a frequency filter behavior of the human retina regarding electric pulse currents
A preliminary investigation of aural input/output pilot performance during simulated approaches and the response of a realistic computer model for speech quality measurement.

Atmospheric neutrons.

Development of an electrical energy converter for an operator-aiding manipulator control system.

Ion-molecule condensation reactions - A mechanism.

The responses of frogs to vestibular and visual stimulation in weightlessness.

Balance training of the equilibrium organ and its effect on flight strategy.

Random test vehicle: A comparison of test results for escape systems with the 3 different test methods.

Atmospheric neutrons.

The responses of frogs to vestibular and visual stimulation in weightlessness.

An apparatus for studying electroretinographic responses under conditions of space flight.

Tom-solute condensation reactions - A mechanism for organic synthesis in ionized reducing atmospheres.

Development of an electrical energy converter for driving left heart assist blood pumps.

An operator-aiding manipulator control system.

Pilot performance during simulated approaches and landings made with various computer-generated visual glidepath indicators.

An preliminary investigation of aural input/output systems for in-flight information retrieval.

Eye torsion in response to a tilted visual stimulus.

Changes in human renal function in passive head-up and head-down positions.

Engineering-psychological study of information imaging systems.

Radiological examination of the Rachis and fitness for employment as a helicopter pilot.

Vertebral pains in helicopter pilots.

Mechanisms of breathing during graded exercise measured with the bodyplethysmograph.

A numerical method of film analysis with differentiation.

Mechanisms of the formation of phosphenes by X-rays.

Mechanistic model for the transfer of vapour through atmospheres.

Experiment Chiorella 1 on board of Salyut 6.

Subjective data in human reliability estimates.

The physiological significance of light for human beings.

Coacervate drops - Primitive forms of precells.

Joint testing of the RAP high altitude protective driving left heart assist blood pumps atmospheres for organic synthesis in ionized reducing atmospheres.

Results for escape systems with the 3 different models of weightlessness.

Rat behavior in maze after flight aboard Kosmos-690 biosatellite.

Distribution of pulmonary ventilation and perfusion during short periods of weightlessness.

Radiographic comparison of human lung shape during normal gravity and weightlessness.

Metabolic and physical scaling in normal gravity and weightlessness.

Rat behavior in maze after flight aboard Kostnos-690 biosatellite.

Mechanisms of breathing during graded exercise measured with the bodyplethysmograph.

Changes in human renal function in passive head-up and head-down positions.

Control of vertical position after flights aboard the Salyut-4 orbital station.

Cardiovascular system orthostatic and LBNP tests.

Mechanistic model for the transfer of vapour through atmospheres.

Experiment Chiorella 1 on board of Salyut 6.

Subjective data in human reliability estimates.

The physiological significance of light for human beings.

Coacervate drops - Primitive forms of precells.

Joint testing of the RAP high altitude protective driving left heart assist blood pumps atmospheres for organic synthesis in ionized reducing atmospheres.

Results for escape systems with the 3 different models of weightlessness.

Rat behavior in maze after flight aboard Kosmos-690 biosatellite.

Distribution of pulmonary ventilation and perfusion during short periods of weightlessness.

Radiographic comparison of human lung shape during normal gravity and weightlessness.

E-73
Noninvasive techniques in the evaluation of the peripheral circulation

Engineering-psychological study of information imaging systems

Phosphorylase a in human skeletal muscle during exercise and electrical stimulation

Oxygen affinity of blood in altitude Sherpas

Effect of restricted activity on vestibular function

Estimation of the operating characteristics of human operators in adversary tracking encounters

Utilization of the wastes of vital activity

Night vision goggles and in-flight evaluation of visual workload of the copilot/navigator during terrain flight

An evaluation of perceptual-motor workload during a MEDEVAC high hover operation

Cardiovascular regulatory response to lower body negative pressure following blood volume loss

Physiological responses of women to simulated weightlessness: A review of the first female bed-rest study

Computer quantitation of coronary angiograms

Prebiotic synthesis of amino acids by carboxylation of amines in oxidative atmosphere

Ensuring medical fitness on entry and during service in aircrew in IAF

Protective approaches in the moderation of the physiological effects of extreme ambient conditions in helicopter operations

Health effects associated with diesel exhaust emissions, literature review and evaluation

Recognition by the human eye of colored symbols on different backgrounds

Visual acuity with regard to simultaneous colored contrast on a television screen – Results

Providing an eye separator on a color cathode tube

Ocular motor performance of aviators during an autorotation maneuver in a helicopter simulator

Cosmic ray effects on the eyes of rats flown on COSMOS 782

Life stress, organizational stress, and job satisfaction

Effects of laser radiation on morphology of peripheral blood and bone marrow under experimental and clinical conditions

Medicobiological research within the framework of the scientific program 'Intercosmos'

Impact tests on crash helmets for motor cyclists

Biomechanical properties of muscles and the efficiency of movement

Biomechanical properties of muscles and the efficiency of movement

Effects of hyperhydration on human endurance of orthostatic and LBMP tests

Simulation of fluid-electrolyte metabolism as a means of preventing orthostatic instability in the crew of the second expedition aboard the Salyut-4 station

Methods for studying and criteria for evaluating the biological effects of electric fields of industrial frequency

Effects of exercise, vitamin E, and ozone on pulmonary function and lipid peroxidation

Effects of ozone inhalation on work performance and maximal oxygen uptake

Investigation of composition of trace contaminants in the air environment of the Soyuz-22 spacecraft
results of research, consequences for environmental protection

The effect of 1 to 5 keV electrons on the reductive integrity of microorganisms
Effects of vibration and noise on some indices of efficiency of Mi-4 helicopter crews

Tissular respiration of the brain after exposure of rats to hypoxic helium and oxygen mixtures at atmospheric and elevated pressure

Effects of endogenous factors on the process of gas bubble formation in the body related to decompression

Characteristics of vestibular nystagmus in rats

Characteristics of bacterial aerosol in airtight rooms occupied by humans

Decreased activity of palladium catalyst during processing of excreta

A method of evaluating the pupillary reaction to vestibular stimuli

Comparative analysis of causes of animal deaths during chronic exposure to gamma radiation and the aftereffect period

Effects of long-term and chronic radiation on hemoepoiesis

Effect of accelerations combined with radiation on occurrence of gene mutations in the drosophila

Effect of oxygen poisoning on the spectrum of lactate dehydrogenase isozymes of rabbit blood plasma

Light and color on a manned spacecraft

Translations on USSR science and technology: Biomedical and behavioral sciences, no. 47

Psychological experiment on components of the meaning of work

Effects of laser radiation on morphology of mitochondria

Studies of hemodynamics and phase structure of cardiac cycle in the crew of Salyut-6

Dynamic medical monitoring of flight crews in the course of long-term flights

Investigation of composition of trace contaminants in the air environment of the Soyuz-22 spacecraft

Effects ofhyperhydration on human endurance of orthostatic and LBMP tests

Changes in human renal function in passive head-up and head-down positions

Stability of circadian system of the body

Dynamics of impairment of pilot performance in the presence of hypoxia

Combined effect of hypoxia, low pressure and exercise on the rate of methylketone excretion from the human body

Principal results of experiment with manual onboard the Kosmos-782 biosatellite

Spontaneous operation in dogs during many years of chronic exposure to gamma radiation and in the aftereffect period

DNA content of animal organs during space flight on Kosmos-690 satellite

State of blood clotting during prolonged hypoxia

The combined effect of carbon monoxide and normobaric hyperoxia on animals

Blood lipid changes in hypoxic rats

Effect of intermittent hypoxia on functional activity of peripheral blood neutrophils

Effect of cerebrocranial trauma on reactive distinctions of hypothalamic and hippocampal vessels in the presence of hypoxia

Role of vestibular system in behavior of animals submitted to prolonged slow rotation

Effect of psychophysiological self-regulation on emotional stability of aviation cadets in flight and on effectiveness of assimilation of flight training program

Translations on USSR science and technology: Biomedical and behavioral sciences, no. 53

Investigation of the activity of some enzymatic systems in response to a super-high frequency electromagnetic field

Effects of intermittent magnetic field on activity of carbohydrate metabolism enzymes and oxygen uptake in testicular tissue

Effects of microwaves on catecholamine metabolism in the brain

Effects of electromagnetic field induction on development of the green algae, scenedesmus quadricauda (Turpilia) Breb. and composition of free amino acids in its biomass and medium

Dependence of the functional activity of liver mitochondria on microwave radiation

State of process of oxidation phosphorylation of liver mitochondria on exposure to an electric field

Mechanism of effects of microwaves on erythrocyte permeability for potassium and sodium ions

Determination of a generalized output index of a biological experiment after multiple tests

Translations on USSR science and technology: Biomedical and behavioral sciences, no. 51

Functional outcomes of prosthetic cardiac valve replacement

Visual information processing

Liberation of carbon monoxide by man when working in protective gear

Translations on USSR science and technology: Biomedical and behavioral sciences, no. 54

Chemicals in environment affect man's physiology

Translations on USSR science and technology: Biomedical and behavioral sciences, no. 52

A complex system for planning scientific medical research

Problem-oriented program approach to planning and management of medicine

New principles of automation of biomedical research

The conception of the systems analytic approach to planning and organization of medical scientific research
Biowhysical study of proteins of gastric and intestinal mucosa of rats flown aboard the Kosmos-605 biosatellite

Effects of vestibular factors on the color-discriminating function of the human eye following color preadaptation

The autonomic nervous system in the presence of traumatic shock during simulation of effects of weightlessness on the human body

Effects of physical conditioning and electric stimulation on metabolic processes in the soleus muscle and structure thereof in hypokinetic man

Disturbances referable to excretion of end products of protein metabolism in urine of man submitted to 102-day antiorthostatic hypokinesia

Sterols bound with blood plasma proteins and erythrocyte membranes during hypokinesia

Increased hemoglobin and content of rat blood serum as a result of decreased resistance of erythrocytes to hyperbaric oxygenation, and the protective effect of urea

Microflora of water reclaimed in sealed compartments

External respiration and gas exchange reactions to exercise during rotation of man on a short-radius centrifuge

Restoration of color perception after deadaptation flashes

Effect of combination of hypoxia and hypercapnia on survival of Japanese quail

Effects of different values of urine pH during long-term storage on microflora composition

Tissue blood clotting factors of vascular walls and myocardium during hypokinesia

Space biology and aerospace medicine, v. 13, no. 3, 1979

Helium-oxygen mixture and the organism hyperbaric aspect

Simulation of fluid-electrolyte metabolism as a means of preventing orthostatic instability in the crew of the second expedition aboard the Salyut-4 station

Investigation of albumin and globulin composition of blood of the crew of the Salyut-3 orbital station

The combined effect of space flight factors and radiation on rat skeletal muscles

Catecholamines and enzymes of metabolism thereof in the rat hypothalamus after flight aboard Cosmos-782 biosatellite

Tissue metabolism in mixed type fibers of rat skeletal musculature after flight aboard Cosmos-690 biosatellite

Immunological reactivity of rats flown aboard Cosmos-605 and Cosmos-690 biosatellites

Possibilities of preventing adverse reactions in simulating the acute period of adaptation to weightlessness

Probability of cainism disease while wearing a space suit when exiting from a spacecraft with an atmosphere close to that of earth

Pneumotachographic distinctions of external respiration in man in the presence of excess intrapleural pressure on ground level and at high altitudes

Effect of acute hypoxia on some parameters of renal excretory function and renal hemodynamics

Toxicity of oxygen mixed with helium

Effect of hyperbaric oxygen on peripheral blood neutrophil metabolism

Effect of brief head-down hypokinesia on pressure in various parts of the human man's cardiovascular system

Evaluation of circulatory reactions in the head to antithrombotic position

Animal endurance to recurrent impact accelerations

Characteristics of proteins of some unicellular organisms as potential components of ecological life support systems

Morphological distinctions of the rat thyroid and parathyroid following long-term space flights

Translations on USSR science and technology: Bionalgical and behavioral sciences, no. 81

Immunobiological reactivity of the body under hyperbaric and hypobaric conditions

Studies of venous circulation in the crew of the Salyut-5 orbital station

Fluid-electrolyte metabolism in the crew of Salyut-4

Control of vertical position after flights aboard the Salyut-4 orbital station

Effects on lipid metabolism in man of some factors that simulate space flight conditions

Electrolyte composition of rat blood plasma and skeletal muscles after flight aboard the Cosmos-690 biosatellite

Intensity of DNA synthesis in animal organs after flight aboard the Cosmos-762 biosatellite

Effect of brief head-down position on parameters of carbohydrate metabolism and beta lipoprotein content of blood

Influence of pressure chamber conditions on adenocortical function in man (according to results of assaying blood plasma 11-hydroxy corticosteroids)

Energy expenditures of man during long exposure to a periodically changing atmosphere

Distinctions of influence of the reticular formation of the midbrain on the heart and respiration with exposure to centrifugal accelerations

Significance of the vibration component to the deleterious effect of impact accelerations

Effect of restricted activity on vestibular function

Effect of rocking on absorption of some group B vitamins and ascorbic acid in the small intestine of dogs

Ultrastructure of lymph nodes of dogs exposed to long-term external gamma radiation

Bacteria in a North Carolina salt marsh. Standing crop and importance in the decomposition of Spartina alterniflora
[PB-288816/2] p0153 N79-19668

NORTH DAKOTA UNIV., GRAND FORKS.

A model for predicting human discomfort response to combined noise and vertical vibration
[AD-A056720] p0156 N79-19668

NORTH DAKOTA UNIV., GRAND FORKS.

Applied analysis of computer simulated decompression profiles
[AD-A017 N79-10722

NORTHROP CORP., HAWTHORNE, CALIF.

Prediction, evaluation, and specification of flying qualities by means of step target tracking
[AD-A088 N79-15604

Error rate information in attention allocation pilot models
[AD-A011 N79-17483

Prediction of pilot reserve attention capacity during air-to-air target tracking
[AD-A016 N79-17488

NORTHERN IRELAND, LÉGEND.

Biological and other biological systems
[AD-A081 N79-18559

Dynamic measurement of human cyclofusional eye movements
[AD-A082 N79-18575

A three dimensional discrete element dynamic model of the spine, head and torso
[AD-A085 N79-31910

NOTRE DAME UNIV., IND.

Application of numerical methods to physiological flows
[AD-A0146 N79-18945

OAK RIDGE NATIONAL LAB., TENN.

Emergence of biotechnology
[TID-28083] p0211 N79-24626

Dose-rate conversion factors for external exposure to photon and electron radiation from radionuclides occurring in routine releases from nuclear fuel cycle facilities
[NRC-CONF-094] p0259 N79-28873

Metallic components of alternate energy sources
[CONF-780636-8] p0280 N79-30923

OFFICE NATIONAL D'ETUDES ET DE RECHERCHES AEROSPATIALES, PARIS (FRANCE).
Discrete-time model pilot behavior p0088 789-17501
Discrete time modeling of heavy transport plane p0118 789-17508

Office of Radiation Programs, Las Vegas, Nev.
Measurements of radiofrequency field intensity in buildings with close proximity to broadcast stations [PB-29094/4?] 789-25750

Office of Radiation Programs, Silver Spring, Md.
Radiofrequency radiation levels and population exposure in urban areas of the eastern United States [PB-29285/4?] 789-26779

Office of Radiation Programs, Washington, D. C.
Radiation protection activities, 1977 [PB-29021/5?] 789-21759

Office of Science and Technology, Washington, D. C.
A technical review of the biological effects of non-ionizing radiation [PB-29016/6?] 789-20728

Office of Technology Assessment, Washington, D. C.
Assessing the efficacy and safety of medical technologies [PR-28652/5?] 789-15580

Ohio State Univ., Columbus.
Secondary visual workload capability with primary visual and kinesiesthetic-tactual displays p0064 789-18220
A comparison of kinesiesthetic-tactual and visual displays via a critical tracking task p0162 789-29720
Evaluation of kinesiesthetic-tactual displays using a critical tracking task p0119 789-17516
An investigation of the pulse-scatter imaging technique for medical ultrasonic imaging and tissue characterization p0211 789-26628
Techniques of cumulative quantitative characterization of the thorax using ultrasonic methods p0240 789-26769
Combined discrete network-continuous control modeling of man-machine systems p0260 789-28879
Estimation of rate constants in the Michaelis-Menten model [AD-A070360] 789-32084

Ohio State Univ. Research Foundation, Columbus.
A formal model of the adaptive and discrete control behaviors of human operators [AD-A059039] 789-13717

Ohio Univ., Athens.
Evidence for the neural regulation of respiration during low intensity exercise in man p0144 789-18578
A study of the mechanism of thigmomorphogenesis in plants, with special reference to the role of ethylene and its significance to research with plants in space [NASA-CR-158506] 789-23625

Oklahoma Univ. Health Sciences Center, Oklahoma City.
Effects of methylprednisolone sodium succinate on clearance of livine E. coll from peripheral blood of dogs [AD-A0621233] 789-20717

Oregon State Univ., Corvallis.
The development and evaluation of objective frequency-domain based pilot performance measures in ASSEP [AD-A059477] 789-14776
Metabolism of hydrazine [AD-A052251] 789-20716

Oregon Univ., Eugene.
Time-sharing is not a unitary ability [AD-A056532] 789-10739

Oregon Diagnostics, El Monte, Calif.
Water system virus detection [NASA-CR-16099-1] 789-10693

Oxford Orthopaedic Engineering Centre (England).
Caloric and exercise requirements of space flight - Biostereometric results from Skylab p0128 789-24637

Workload and the certification of helicopters for D.C. operation [AD-A072758] 789-33850

Paris IV Univ. (France).
The use of biostereometry in helicopter cockpit design p0150 789-19629

Paris-Val de Marne Univ., Creteil (France).
Abundance of organochlorine compounds photochemically produced in the atmospheres of the Outer Planets p0210 789-39075

Pennsylvania State Univ., University Park.
Effects of magnesium, calcium, and sodium on reversal of stable L-forms p0131 789-26140

Misuse tubular forms in soil p0297 789-51698
Attachment to autoclaved soil of bacterial cells from pure cultures of soil isolates p0297 789-51701

Purification and cultivation of human pituitary growth hormone secreting cells [NASA-CR-151853] 789-12697
Evaluation of biofeedback [PB-287777/7] 789-17543
Evaluation of clinical biofeedback [PB-287776/9] 789-17544
A comparison of sweating responses in men and women before and after acclimation to humid heat p0175 789-21752
X-ray backscatter imaging p0176 789-21754

Purification and cultivation of human pituitary growth hormone secreting cells [NASA-CR-160242] 789-25736

Sperdigious solution to the problem of cultivating Arabidopsis plants in sealed containers for spaceflights of long duration p0230 789-41704

Importance of temperature control for REPLEX, a biological experiment for Spacelab I p0117 789-10723
Analysis of inert gas exchange in the middle ear [NASA-CR-151853] 789-12697
Analysis and validation of human biomechanical models [AD-A059011] 789-13714
Classical theory of microwave interactions with biological systems p0082 789-15556

Metal bioelectrode polarization: A frequency and time domain analysis p0176 789-21755

Oxygen delivery in the hypoxic perfused heart: Relation to functional and metabolic changes p0307 789-32825

Perceptronics, Inc., Woodland Hills, Calif.
Adaptive estimation of information values in continuous decision making and control of advanced aircraft [AD-A069741] 789-24630

Pittsburgh Univ., Pa.
Effect of optical magnification on the perception of displayed orientation [AD-A056949] 789-23660

Planning Research Corp., Kennedy Space Center, Fla.
Advanced life support equipment for nitrogen tetroxide environments p0169 789-20432

Politecnico Inst. of New York.
Acoustic attitude orientation p0314 789-31816

Pneum Medics Lab, Two, Rijswijk (Netherlands).

Professional Staff Association of the San Jose Hospital, Inc., Downey, Calif.
Effects of oxides on nitrogen, Carbon monoxide and photochemical oxidants on the EEC during exercise and on cardiolapmonary function [PB-291595/7] 789-21763

Purdue Univ., Lafayette, Ind.
An illness-injury severity index p0018 789-31816

(PB-284686/3)
p0052 N79-12703

Development of high-resolution ultrasonic imaging techniques for detection and clinical assessment of cardiovascular disease
(PB-286636/9)
N79-15581

Two measures of performance in a peg-in-hole manipulation task with force feedback
p0118 N79-17506

STANFORD RESEARCH INST., MENLO PARK, CALIF.

Study of modeling and evaluation of remote manipulation tasks with force feedback

STANFORD UNIV., CALIF.

Study of pharmaceutical industrial problems

STILLMAN STATE UNIV. OF NEW YORK AT STONY BROOK.

Telemetry of intracranial pressure
p0017 N79-12707

STATE UNIV. OF NEW YORK AT BUFFALO, AMHERST.

Development of techniques to enhance man/machine communication

A three-dimensional discrete element dynamic model of the spine, head and torso
p0285 N79-31910

STAFFORD UNIV., CALIF.

Telemetry of intracranial pressure
p0227 A79-41600

Quantitative analysis of rating behavior in aging male Drosophila melanogaster
p0252 A79-44799

Iodine imaging using spectral analysis
p0298 A79-51034

A directional pulsed-doppler ultrasonic blood flowmeter
p0050 N79-12693

The development of a six degree-of-constraint robot performance evaluation test
p0117 N79-17504

Human cardiovascular physiology: Internal organization of temperature, sleep-wake and neuroendocrine rhythms monitored in an environment free of time cues
p0159 N79-19670

Estimation of nerve-bundle conduction
p0154 N79-19672

STATE UNT. OF NEW YORK AT BUFFALO.

Cardiopulmonary readjustments in passive tilt study of model membrane fusion using photos correlation spectroscopy
p0197 N79-19591

A quasi-linear control theory analysis of time-sharing skills
p0115 N79-17479

STATE UNT. OF NEW YORK AT STONY BROOK.

The morphogenetic responses of cultured totipotent cells of carrot (Daucus carota L.) at zero gravity
p0021 N79-11657

STILLMAN COLL., TUSCALOOSA, ALA.

Developmental and hematological responses to low level continuous exposure of nitrogen dioxide in mice
p0147 N79-19026

Electrophoresis pattern of serum from mice exposed to different concentrations of sulfur dioxide
p0147 N79-19027

The effects of the pollutant, sodium cyanide, on the morphology and physiology of oedogonia cardiaca
p0147 N79-19028

STRATHCLYDE UNIV., GLASGOW (SCOTLAND).

A failure criterion for human, vertebral, cancellous bone
p0285 N79-31912

STRASBOURG RESEARCH CORP., W. T.

Health effects associated with diesel exhaust emissions, literature review and evaluation
(PB-286817/Y)
p0171 N79-20727

SYSTEM DEVELOPMENT CORP., SANTA MONICA, CALIF.

Evaluation of four target-identification training techniques
[AD-8061175] p0123 N79-17548

TECHNOLOGY, INC., MOUNTAIN VIEW, CALIF.

SISTERS CONTROL, INC., PALO ALTO, CALIF.

Human operator identification model and related computer programs

SYSTEMS RESEARCH LABS., INC., DAYTON, OHIO.

AAA gunner model based on observer theory
p0087 N79-15594

The effects of closed loop tracking on a subjective tilt threshold in the roll axis
p0090 N79-15620

Multipurpose digital switching and flight control workload
[AD-806666] p0281 N79-30930

SISTERS TECHNOLOGY, INC., HAWTHORNE, CALIF.

Use of reward-penalty structures in human experimentation
p0089 N79-15607

TACTICAL AIR COMMAND, LANGLEY AFB, VA.

Medical and operational factors of accidents in advanced fighter aircraft
p0290 N79-31904

TACTICAL DRONE SQUADRON (11TH), DAVIS-MONTHAR ANS, ARIZ.

A head-up display for mid-air drone recovery
p0090 N79-15614

TECHNISCHE HOCHSCHUL, AACHEN (WEST GERMANY).

Mechanics of breathing during graded exercise measured with the bodyplethysmograph
p0229 N79-17109

TECHNISCHE HOCHSCHUL, DARSSTADT (WEST GERMANY).

Reference parameters for shock inputs and shock tolerance limits
p0284 N79-31905

TECHNISCHE HOGESCHOOL, DELFT (NETHERLANDS).

Parameter estimation in a human operator describing function model for a two-dimensional tracking task
p0115 N79-17481

Modelling the human operator of slowly responding systems using linear models
p0117 N79-17492

A model of the human supervisor
p0117 N79-17495

Vestibular models and thresholds of motion perception. Result of tests in a flight simulator
[VHN-LR-265] p0166 N79-18959

TECHNISCHE HOGESCHOOL, EINDHOVEN (NETHERLANDS).

Computer design synthesis of a below-knee-Syngyna prosthesis
p0251 A79-44300

Observability of electrical heart activity studied with singular value decomposition
[TH-76-9-81] p0144 N79-16504

TECHNOLOGY, INC., HOUSTON, TEX.

Food packages for Space Shuttle
[ASME PAPER 78-ENAS-37] p0008 A79-12584

TECHNOLOGY, INC., MOUNTAIN VIEW, CALIF.

Analysis of body form using biostereometrics

Computer design synthesis of a below-knee-Syngyna prosthesis
[ASME PAPER 78-ENAS-37] p0008 A79-12584
Signal processing in ultrasound

UNIVERSITY OF SOUTHERN ILLINOIS AT CARBONDALE.
Cardiovascular, metabolic, and respiratory responses of sedentary females to equal metabolic workloads on the bicycle ergometer and treadmill

UNIVERSITY OF SOUTHWESTERN LOUISIANA, LAFAYETTE.
A simple model of fluid flow and electrolyte balance in the body

UNIVERSITY OF WESTERN KENTUCKY, BOWLING GREEN.
Wavelength dependence of ultraviolet-enhanced reactivation and induction of mamalian viruses

UTAH UNIV., SALT LAKE CITY.
Clinical comparisons of pressure pulse and indicator dilution methods of determining cardiac output

VALIDATED INSTRUCTION ASSOCIATES, INC., ALBION, RICH.
Some recent results on the deposition of electromagnetic energy in animals and models of man

VIRGINIA POLYTECHNIC INST. AND STATE UNIV., BLACKSBURG.
Determination of the secondary production and autoradiographic enhancement of mammograms

WAKE FOREST UNIV., WINSTON-SALEM, N.C.
Gas exchange under environmental stress

WASHINGTON UNIV., SEATTLE.
Stress and fatigue in the driving environment

WAYNE STATE UNIV., DETROIT, MICH.
An investigation to determine the effect of physical conditioning upon fibrinolytic reactivity in normal young men

WEATHER WING (5TH), LANGLEY APB, VA.
A transient analysis of the cerebrovascular response to carbon dioxide

WISCONSIN UNIV. - MADISON.
Analysis of visible spectra and thermodynamic parameters in hemeprotein systems

WISCONSIN UNIV. HOSPITAL, MADISON.
Physiological fluid dynamics

WISCONSIN UNIV. HOSPITAL, MADISON.
Survey of microwave and radiofrequency electromagnetic energy by man

WISCONSIN STATE UNIV., DETROIT, MI.
Portable device for detection of petit mal
epilepsy

WOOD (WILLIAM C.), MEMPHIS, TENN.
Implementation of a divisional aviation program to decrease flight crew fatigue  p0254 A79-46226

WOODS HOLE OCEANOGRAPHIC INSTITUTION, MASS.
Impact of large scale aquatic biomass systems  [PD-282617/0]  p0013 N79-10697

WRIGHT STATE UNIV., DAYTON, OHIO.
Motion sickness in cats - A symptom rating scale used in laboratory and flight tests  p0202 A79-37711

YALE UNIV., NEW HAVEN, CT.
A three-dimensional mathematical analogue of the spine structure: A comprehensive approach  p0285 N79-31909

This publication is a cumulative index to the abstracts contained in the Supplements 190 through 201 of Aerospace Medicine and Biology: A Continuing Bibliography. It includes three indexes—subject, personal author, and corporate source.
PUBLIC COLLECTIONS OF NASA DOCUMENTS

DOMESTIC

NASA distributes its technical documents and bibliographic tools to eleven special libraries located in the organizations listed below. Each library is prepared to furnish the public such services as reference assistance, interlibrary loans, photocopy service, and assistance in obtaining copies of NASA documents for retention.

CALIFORNIA
University of California, Berkeley

COLORADO
University of Colorado, Boulder

DISTRICT OF COLUMBIA
Library of Congress

GEORGIA
Georgia Institute of Technology, Atlanta

ILLINOIS
The John Crerar Library, Chicago

MASSACHUSETTS
Massachusetts Institute of Technology, Cambridge

MISSOURI
Linda Hall Library, Kansas City

NEW YORK
Columbia University, New York

OKLAHOMA
University of Oklahoma, Bizzell Library

PENNSYLVANIA
Carnegie Library of Pittsburgh

WASHINGTON
University of Washington, Seattle

NASA publications (those indicated by an "s" following the accession number) are also received by the following public and free libraries:

CALIFORNIA
Los Angeles Public Library
San Diego Public Library

COLORADO
Denver Public Library

CONNECTICUT
Hartford Public Library

MARYLAND
Enoch Pratt Free Library, Baltimore

MASSACHUSETTS
Boston Public Library

MICHIGAN
Detroit Public Library

MINNESOTA
Minneapolis Public Library

MISSOURI
Kansas City Public Library
St. Louis Public Library

NEW JERSEY
Trenton Public Library

NEW YORK
Brooklyn Public Library
Buffalo and Erie County Public Library
Rochester Public Library
New York Public Library

OHIO
Akron Public Library
Cincinnati Public Library
Cleveland Public Library
Dayton Public Library
Toledo Public Library

TENNESSEE
Memphis Public Library

TEXAS
Dallas Public Library
Fort Worth Public Library

WASHINGTON
Seattle Public Library

WISCONSIN
Milwaukee Public Library

An extensive collection of NASA and NASA-sponsored documents and aerospace publications available to the public for reference purposes is maintained by the American Institute of Aeronautics and Astronautics, Technical Information Service, 555 West 57th Street, 12th Floor, New York, New York 10019.

EUROPEAN

An extensive collection of NASA and NASA-sponsored publications is maintained by the British Library Lending Division, Boston Spa, Wetherby, Yorkshire, England. By virtue of arrangements other than with NASA, the British Library Lending Division also has available many of the non-NASA publications cited in STAR. European requesters may purchase facsimile copy of microfiche of NASA and NASA-sponsored documents, those identified by both the symbols "#" and "s", from: ESA - Information Retrieval Service, European Space Agency, 8-10 rue Mario-Nikis, 75738 Paris CEDEX 15, France.
