SPECIAL NOTICE

The abstract sections of the monthly supplements of *Aerospace Medicine and Biology* can be bound separately. Individual abstracts can be located readily by means of the page numbers given at each entry, e.g., p0239 N79-26762. To assist the user in binding Supplements SP-7011(190) through SP-7011(201), a title page is included in the back of this Cumulative index.
A CUMULATIVE INDEX
TO
A CONTINUING BIBLIOGRAPHY ON
AEROSPACE MEDICINE
AND BIOLOGY

This Cumulative Index supersedes the indexes contained in supplements [SP-7011 (190) through SP-7011 (201)], published by NASA during 1979.
INTRODUCTION

WHAT THIS CUMULATIVE INDEX IS

This publication is a cumulative index to the abstracts contained in NASA SP-7011(190) through NASA SP-7011(201) of Aerospace Medicine and Biology: A Continuing Bibliography, NASA SP-7011, by means of supplements, serves as a current abstracting and announcement journal for references on bioscience and biotechnology. It has been compiled through the cooperative efforts of the American Institute of Aeronautics and Astronautics (AIAA), and the National Aeronautics and Space Administration (NASA). Entries prepared by the two contributing organizations are identified as follows:

1. NASA entries by their STAR accession numbers (N79-10000 series)
2. AIAA entries by their IAA accession numbers (A79-10000 series)

HOW THIS CUMULATIVE INDEX IS ORGANIZED

This Cumulative Index includes a subject index, a personal author index, and a corporate source index.

HOW TO USE THE SUBJECT INDEX

Two types of cross-references appear in the subject index:

1. Use (U) references indicate that the subject term is not "postable," i.e., not a valid term, and that the following term or terms are used instead. For example:

   DOSE
   U DOSAGE
   AIRLINERS
   U COMMERCIAL AIRCRAFT
   U PASSENGER AIRCRAFT

2. Narrower Term (NT) references refer the user to more specific headings in the same subject area, under which additional material on the subject may be found. For example:

   FATIGUE (BIOLOGY)
   NT AUDITORY FATIGUE
   NT FLIGHT FATIGUE
   NT MUSCULAR FATIGUE

In addition, a searcher may use the title or title and title extension in the index to narrow further his quest for particular items, this is because subject terms can readily include more than one class of document. For example:

   BIOLOGICAL EFFECT
   Vibratory force effect upon biological systems, particularly human organism.
   Biological effect of cosmic and solar radiations on human body at high altitudes.

illustrates a case where two references on different topics are listed under the same subject term.
HOW TO USE THE PERSONAL AUTHOR INDEX

All personal authors used in the abstract-section citations in the individual Supplements appear in the index. Differences in translation schemes may require multiple searching of the index for variants of an author’s name. For example:

EMELIANOV, M. D.

and

YEMELYANOV, M. D.

HOW TO USE THE CORPORATE SOURCE INDEX

The corporate source index entries are abridged versions of the corporate sources used in the abstract-section citations in the individual Supplements. The corporate source supplementary (organizational component) does not appear in the index. For example:

NEW MEXICO STATE UNIV., LAS CRUCES. DEPT. OF BIOLOGY. (Source citation entry)
NEW MEXICO STATE UNIV., LAS CRUCES. (Source index entry)

IDENTIFICATION OF DESIRED SUPPLEMENT

The abstract and descriptive cataloging for any accession number selected from the indexes may be found in the appropriate Supplement. The page-number range of each Supplement appears on the inside front cover of this index. Once the range of page numbers containing the selected accession number is located in the second column, the desired Supplement number will be found in the first column. For example:

Page 191 will be found in Supplement 196.

AVAILABILITY OF DOCUMENTS

Information concerning the availability of documents announced in *Aerospace Medicine and Biology* supplements is found in the Introduction to the most currently issued monthly supplement.
# TABLE OF CONTENTS

<table>
<thead>
<tr>
<th>Subject Index</th>

</tbody>
</table>
Aeronautics and Space Science, 1979 supplement

Typical Subject Index Listing

<table>
<thead>
<tr>
<th>SUBJECT HEADING</th>
<th>TITLE EXTENSION</th>
</tr>
</thead>
<tbody>
<tr>
<td>CARBON DIOXIDE REMOVAL</td>
<td>The dependence of the CO2 removal efficiency of LiOH on humidity and mesh size</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The title is used to provide a description of the subject matter. When the title is insufficiently descriptive of the document content, a title extension is added, separated from the title by three hyphens. The NASA or AIAA accession number is included in each entry to assist the user in locating the abstract in the abstract section of this supplement. If applicable, a report number is also included as an aid in identifying the document.

A

A-7 AIRCRAFT

A7 training effectiveness through performance analysis --- carrier landing instruction | A0-1056230 | P0031 A79-11728

ABILITIES

Time-sharing is not a unitary ability | A0-105632 | P0019 A79-10739

Photochemical transformations of the visual pigment rhodopsin | P0181 A79-32319

ABSORPTION SPECTROSCOPY

Iodine imaging using spectral analysis --- radiography for visualization of small blood vessels | P0294 A79-51034

ABUNDANCE

The evolution of the environment and its influence on the evolution of life | A0-1057028 | P0204 A79-37981

JANUARY 1980
ACCELERATION (PHYSICS)

Abundance of organic compounds photochemically produced in the atmospheres of the Outer Planets

ACCELERATION STRESSES (PHYSIOLOGY)

- Regional coronary blood flow at rest and during high sustained +Gz in a miniature swine with subclinical, ischemic, coronary heart disease due to coronary stenosis
- Development of space biology experimenters for the Space Shuttle - A student's perspective
- Cardiovascular regulatory response to lower body negative pressure following blood volume loss
- Mitral prolapse and acceleration --- in aircraft pilots
- Central and cerebral hemodynamics and metabolism of the healthy man during head-down tilting
- Head acceleration and psychomotor performance --- related to crash accident survival rates
- Cardiac responses of dogs to nonsynchronous and heart synchronous whole-body vibration
- Oculogravic illusion in response to straight-ahead acceleration of a C-141 aircraft
- Cerebral accident subsequent to G-force loading - A case report
- Positive pressure breathing as a protective technique in +Gz acceleration
- Motion sickness in cats - A symptom rating scale used in laboratory and flight tests
- Concurrent loss of consciousness and sino-atrial block during +Gz stress
- Theroregulation in unrestrained rats during and after exposure to 1.5-8 G
- Determination of cerebral and neck subcutaneous tissue P02 with 3 and 4 +Gz in N. mulatta

ACCELERATION (PHYSICS)

- Acceleration stresses (physiology)
- NT High acceleration
- NT Impact acceleration

A numerical method of film analysis with differentiation -- curve fitting with harmonic analysis

P. Numerical method of film analysis with differentiation

Helmet weight simulator

Frequency response of cardiovascular regulation in canines to sinusoidal acceleration at frequencies below 1 Hz (basis for biodynamic modeling)

A head injury model

ACCELERATION STRESSES (PHYSIOLOGY)

- NT Centrifuging stress
- NT Abundance of organic compounds photochemically produced in the atmospheres of the outer planets

ACCELERATION TOLERANCE

- Relaxed +Gz tolerance in healthy men - Effect of age
- Hemodynamic indices under orthostatic and vestibular effects
- Incapacitation time for +Gz-induced loss of consciousness
- Cardiac reactions in tests on the wearing of the Yankee Escape System harness during minus G accelerations in the z direction
- Cardiorespiratory assessment of decongestant-antihistamines effects on altitude, +Gz, and fatigue tolerances
- Tolerance of domestic fowl to high sustained +Gz
- Effects of brief exposure of domestic fowl to very intense acceleration fields
- Better definition of eye to aortic valve distance in high acceleration cockpit /BACI seating geometries
- Pathophysiology of overloads: Bibliography of Soviet publications --- Russian book
- Physiological effects of high, sustained +Gz forces on man
- Prophylactic effects of intermittent acceleration against physiological deconditioning in simulated weightlessness
- Influence of the ambient acceleration field upon +Gz, and fatigue tolerances
- Determination of cerebral and neck subcutaneous tissue P02 with 3 and 4 +Gz in N. mulatta
- Gz tolerance correlation with clinical parameters
- +Gz tolerance correlation with clinical parameters
AERODYNAMIC BUZZ
AERODYNAMIC CHARACTERISTICS
- Aerodynamic forces exerted on an articulated human body subjected to windblast
  p0005 N79-13688
- Correlation of mechanism of extremity injury and aerodynamic factors in ejections from 74 aircraft
  p0024 N79-31984

AERODYNAMIC FORCES
- The influence of vehicle aerodynamic and control response characteristics on driver-vehicle performance
  p0089 N79-15608

AERODYNAMIC STABILITY
- Intracardial gas bubbles and decompression sickness while flying at 9,000 m within 12-24 h of diving
  p0010 N79-12866
- Case report - Intracardial gas bubbles in relation to altitude decompression chokes
  p0011 N79-12871
- Application of a bubble formation model to decompression sickness in rats and humans
  p0102 N79-2373
- Doppler detection of thresholds for decompression-induced venous gas emboli in the awake rat
  p0202 N79-37707

AEROMAGNETIC FLUTTER
- Development of aerospace-aviation equipment described
  p0081 N79-17495

AERONAUTICS
- Can man be calculated - Biological models in aeronautical medicine and engineering
  p0016 N79-29589
- Aerospace highlights and potential medical applications in manned space flight
  p0029 N79-51027
- Experience with periodic aviation medical examinations
  p0026 N79-11696

AEROSOLS
- MT FOG
  - Particle deposition due to turbulent diffusion in the upper respiratory system
    p0270 N79-48251
  - Characteristics of bacterial aerosol in airtight rooms occupied by humans
    p0016 N79-10715

AEROSPACE ENVIRONMENTS
- Planetary protection guidelines for Outer Planet missions
  p0005 N79-12511
- Psychologists vs engineers --- flight simulators training requirements
  p0132 N79-26499
- The biomedical implications of engineering in space
  p0166 N79-37122
- Development of aerospace-aviation equipment described
  p0081 N79-17495

AEROSPACE ENGINEERING
- Development of aerovalutational equipment described
  p0081 N79-17495
- Development of aerospace-aviation equipment described
  p0081 N79-17495

AEROSPACE ENVIROMENTS
- Aerosol deposition study of artemia cysts and lettuce seeds flown in Cosmos 936 and directly exposed to cosmic rays
  p0127 N79-24632
- Caloric and exercise requirements of space flight - Bioenergetic results from Skylab
  p0128 N79-24637
- Prevention and treatment of space sickness in Shuttle-Orbiter missions
  p0128 N79-24637
- Analysis of climatic data and cockpit thermal conditions at a fighter base in North West India
  p0201 N79-37135
- Closed regenerative life support systems for space travel - Their development poses fundamental questions for ecological science
  p0228 N79-41702
- Closed ecology in space from a bioengineering perspective
  p0228 N79-41703
- Serendipitous solution to the problem of culturing Arabidopsis plants in sealed containers for
AEROSPACE MEDICINE

Spaceflights of long duration
Response of crown gall tissue to the space environment: Residual carbohydrates in supporting tissue --- COSMOS 782
Responses of crown gall tissue to the space environment: Tumor development and anatomy --- cosmos 782
Responses of crown gall tissue to the space environment: Glutamine synthetase activity --- cosmos 782
Responses to crown gall tissue to the space environment: Isozyme patterns --- COSMOS 782
Space radiation dosimetry onboard COSMOS 936: US portion of experiment --206
Analysis of body form using biostereometrics [NASA-CR-160173]
Preparation of guinea pig macrophage for electrophoretic experiments in space [NASA-CR-158777]
Space biology and aerospace medicine, v. 13, no. 3, 1979 [JPRS-73784]

AEROSPACE MEDICINE

Medical control in prolonged space flights [IAP PAPER 78-67]
Space medicine - A prognosis for future research [IAP PAPER 78-07-17]
Spacelab and beyond - Bioscience problems in the use of space [SGLR PAPER 78-129]

A-32
BLOOD PLASMA

- Plasma volume and electrolyte shifts with heavy exercise in sitting and supine positions
- Plasma electrolytes in relation to altitude tolerance in rats
- Hyperthermia and exercise - plasma fluid and electrolyte effects on human thermoregulation

Cardiac blood flow measurement - A component of clinical usefulness of radiopaque markers in left ventricular source parameters

A catheter flow probe for measurement of left ventricular function

Clinical usefulness of radiopaque markers in left ventricular function

Cardiac blood flow measurement - A component of the comprehensive cardiac examination

Quantitative flow estimation with transcutaneous Doppler ultrasound

Application of an isolated heart model to investigate blood-oxygen delivery

Noninvasive ultrasonic blood flow characterization

A directional pulsed-Doppler ultrasonic blood flowmeter

Noninvasive assessment of pulmonary hypertension

Effect of intermittent hypoxia on functional distinctions of hypothalamic and hippocampal vessels in the presence of hypoxia

The effect of hyperoxia on cerebral blood flow in the unanesthetized pony

A transient analysis of the cerebrovascular response to carbon dioxide

Noninvasive techniques in the evaluation of the peripheral circulation

Mechanics of blood flow through normal and stenotic coronary arteries

Multiple tracer diffusion methods for the evaluation of cerebral capillary permeability and capillary blood flow rate in the rat

Aortic blood flow velocity during exercise in man

Physiological fluid dynamics

Mechanics of arterial blood flow

Mechanics of the microcirculation

Techniques of measurement

Ultrasonic doppler directional blood flow velocity meter

Oxygen delivery in the hypoxic perfused heart: relation to functional and metabolic changes

BLOOD PRESSURE

- Systolic time intervals during combined hand cooling and head-up tilt
- Organ blood flow, cardiac output, arterial blood pressure, and vascular resistance in rats exposed to various oxygen pressures
- Blood pressure variability of the individual in orthostatic testing
- A catheter flow probe for measurement of left ventricular source parameters
- Noninvasive cardiovascular measurements --- Book
- A study of noninvasive blood pressure measurement techniques
- Analyses for noninvasive monitoring of arterial blood pressure by /I/ phono cuff-photopsonometry, for discrete measurements and /II/ arterial ultrasonic imaging, for continuous measurements
- A new noninvasive technique for cardiac pressure measurement. II Scattering from encapsulated bubbles
- Cardiac blood flow measurement - A component of the comprehensive cardiac examination
- Beta-adrenoceptor antagonists: Central effects
- Clinical comparisons of pressure pulse and indicator dilution methods of determining cardiac output
- Noninvasive assessment of pulmonary hypertension using babbie ultrasonic ringing (BURP) method, part 2
- A study of some of the factors influencing the left ventricular diastolic pressure-volume relationship and myocardial metabolism
- Regulation of the carbon dioxide tension in arterial blood during inhalation of carbon dioxide in birds and mammals

Unsteady-state response of the vascular system to transient and sustained aerospace acceleration profiles

BLOOD PUMPS

Physical testing of polymers use in circulatory assist devices

Development of an electrical energy converter for driving left heart assist blood pumps

BLOOD VESSELS

- Arteria
- Arteries
- Capillaries (anatom)
- Veins
- Pumps
- Diastolic pressure
- Hypertension
- Capillaries (anatomy)
- Aorta
- Arteria
Influences of physical conditioning and deconditioning on coronary vasculature of dogs

The blood flow in skeletal muscle capillaries in normoxia and arterial hypoxia
/Microcinematographic studies/

Iodine imaging using spectral analysis --- radiography for visualization of small blood vessels

Quantitative flow estimation with transcutaneous Doppler ultrasound

Unsteady-state response of the vascular system to transient and sustained aerospace acceleration profiles

BLOOD VOLUME
Blood volume and cardiorespiratory responses to lower body negative pressure
Pulmonary blood volume and intravascular circulation time in physically trained and untrained subjects
Plasma volume and electrolyte shifts with heavy exercise in sitting and supine positions
Effects of regional hemococoncentration during LBNP on plasma volume determinations --- Lower Body Negative Pressure
Investigation of blood subjected to volume tension
Early cardiovascular adaptation to zero gravity simulated by head-down tilt

BLUE GREEN ALGAE
Evolution of early life inferred from protein and ribosomal RNA sequences
Distribution of bluegreen algae in a Mississippi Gulf Coast salt marsh
Citric acid enhancement of copper sulfate toxicity to blue-green algae and other nuisance organisms

BONE MINERAL CONTENT
Boats
Human factors analysis of visual distress signaling devices --- used by boaters

BODIES OF REVOLUTION
Electromagnetic fields and power deposition in body-of-revolution models of man

BODY FLUIDS

BOOTS

BODY MEASUREMENT (BIOLOGY)

Application of numerical methods to physiological flows --- Navier-Stokes equation, prosthetic heart valves and vasconstriction

Fluid and Electrolyte Balance model
Chemicals identified in human biological media, a pilot literature survey
Fluid and electrolyte control systems in the human body: A study report
On a basic model of circulatory, fluid, and electrolyte regulation in the human system based upon the model of Guyton
Study report on modification of the long term circulatory model for the simulation of bed rest
Simulation of fluid-electrolyte metabolism as a means of preventing orthostatic instability in the crew of the second expedition aboard the Salyut-4 station

Physiological fluid dynamics
Techniques of measurement
Composition of cerebral fluids in goats adapted to high altitude
Fluid-electrolyte metabolism in the crew of Salyut-4

BODY KINEMATICS
Computation of rigid-body rotations in three-dimensional space from body-fixed linear acceleration measurements
Goal-directed mechanics of controlled manipulators --- Russian hook
Whole body response research program
Whole body response research program. Appendix A: Methodology
Whole body response research program. Appendix B: Raw data
Whole body response research program. Appendix C: Processed data

Body factors analysis of visual distress
Body of revolution --- used by boaters

Body fluids and power deposition in body-of-revolution models of man

Body fluids
Blood volume in man at high altitude
Clinical and morphological studies of people in the course of long-term hypokinesia and subsequent readaptation
Correction of transcapillary exchange in man under the influence of rotation on a centrifuge while immersed in water
Specialized physiological studies in support of manned space flight

Application of numerical methods to physiological flows --- Navier-Stokes equation, prosthetic heart valves and vasconstriction

Fluid and Electrolyte Balance model
Chemicals identified in human biological media, a pilot literature survey
Fluid and electrolyte control systems in the human body: A study report
On a basic model of circulatory, fluid, and electrolyte regulation in the human system based upon the model of Guyton
Study report on modification of the long term circulatory model for the simulation of bed rest
Simulation of fluid-electrolyte metabolism as a means of preventing orthostatic instability in the crew of the second expedition aboard the Salyut-4 station

Physiological fluid dynamics
Techniques of measurement
Composition of cerebral fluids in goats adapted to high altitude
Fluid-electrolyte metabolism in the crew of Salyut-4

BODY KINEMATICS
Computation of rigid-body rotations in three-dimensional space from body-fixed linear acceleration measurements
Goal-directed mechanics of controlled manipulators --- Russian hook
Whole body response research program
Whole body response research program. Appendix A: Methodology
Whole body response research program. Appendix B: Raw data
Whole body response research program. Appendix C: Processed data

Body factors analysis of visual distress
Body of revolution --- used by boaters

Body fluids and power deposition in body-of-revolution models of man

Body fluids
Blood volume in man at high altitude
Clinical and morphological studies of people in the course of long-term hypokinesia and subsequent readaptation
Correction of transcapillary exchange in man under the influence of rotation on a centrifuge while immersed in water
Specialized physiological studies in support of manned space flight

BONE TUNING

Histological studies on tibial bone of rats in the 1975 COSMOS-762 flight. Part 2: Microangiographic study of cortical bone

BONE TUNING
The relationship between classical centers of the auditory tract and certain 'nonspecific' brain structures in the organization of the auditory function in animals

The inhibitory trace effect as a manifestation of the integrative activity of the human brain in performing voluntary motor acts

Effect of electroconvulsive shock on monoaminergic receptor binding sites in rat brain

Synaptosomal uptake of hypothalamic monoamines and recovery of pituitary-adrenal activity following medial forebrain bundle lesions in rats

Elicited acoustic responses to meaningful and meaningless verbal stimuli.

The effect of normobaric hyperoxia on brain and liver tissue respiration in albino rats with different resistances to hypoxia

Some neurochemical characteristics of rats after space flight in the Cosmos-936 satellite

Effects of microwaves on catecholamine metabolism in the brain

Possible mechanisms of weak electromagnetic field coupling in brain tissue

Bioelectrical activity of the brain during 49-day satiostatic hypokinesia in individuals with early signs of vegetovascular dysfunc tion

Effects of filtering electroencephalographic signals on auditory evoked brain stem responses

The effects of brain ischemia on the control of breathing in unanesthetized goats

Dose-effect relationships for ultrasound irradiation of brain tissue

The effect of impact acceleration on the electrical activity of the brain

Composition of cerebral fluids in goats adapted to high altitude

Distinctions of influence of the reticular formation of the midbrain on the heart and respiration with exposure to centrifugal accelerations

Methods for localization of electrical sources in the human brain and applications to the visual system

Cerebral gas exchange in rats adapted to hypoxia during inspiration of oxygen-poor mixtures

Responses of pial arterioles after prolonged hypoxemia and hypoxia in the awake rabbit

Central and cerebral hemodynamics and metabolism of the healthy man during head-down tilting

Diagnostics of initial deficiency in cerebral circulation

Self-regulation of cerebral circulation under orthostatic influences

Cerebral hemodynamics and visual analyzer function following exposure to bright light

Ruptured arteriovenous anomaly in a former woman astronaut candidate

Changes in the bioelectrical activity of some cerebral structures in rabbits exposed to microwaves

Aircrew helmet protection against potential cerebral concussion in low-sensitivity impacts

Effect of high-LET neon /Ne-20/ particle radiation on the brain, eyes and other head structures of the pocket mouse - A histological study

Effect of cerebrocranial trauma on cerebrospinal fluid dynamics and visual function in animals

The control and prevention of seizures in children, a developmental and environmental approach

Vision

The application of remote sensors to a model for fish mapping

Distribution of pulmonary ventilation and perfusion during short periods of weightlessness

Tissue gas and blood analyses of human subjects breathing 80% argon and 20% oxygen

Contribution of rib cage and abdomen-diaphragm to tidal volume during CO2 rebreathing

Positive pressure breathing as a protective technique in +Gz acceleration

Distribution of regional volumes and ventilation in excised canine lobes

Influence of exercise and CO2 on breathing pattern of normal man

Gas exchange under environmental stress

The objective evaluation of aircrew protective breathing equipment. III - Improved types of mask/goggles combinations. VII - Fullface masks and hoods suitable for flight attendant use

The dynamic oxygen-regulator test module

Cerebral hemodynamics and visual analyzer function following exposure to bright light

Perceived quantization error. Effect of quantization function, reconstruction function and number of levels

An empirical formula for broad-band SAR calculations of prolate spheroidal models of humans and animals --- Specific Absorption Rate

Modeling the effect of axial bronchial tension on
Caloric and exercise requirements of space flight
Caloric and exercise requirements of space flight
"The Canadian Forces Life Quality Improvement Program"
Effect of restricted activity on vestibular function
"Biostereometric results from Skylab"
Study of pharmaceutical industrial problems
"The combined effects of pulsed magnetic radiation"
Internal cockpit reflections of external point light sources for the model YAH-64 advanced attack helicopter.

CAPILLARIES (ANATOMY)

CAPILLARY FLOW

Correction of transcapillary exchange in man under the influence of rotation on a centrifuge while immersed in water.

Mechanisms of the microcirculation.

CARBOHYDRATE METABOLISM

The effects of plasmoidal slime on the metabolism of haploid cells of Physarum flavicomum and the respiration of isolated mitochondria.

Energetic aspects of adaptation --- Russian book on metabolic responses to stress.

Glucose metabolism in rat lung during exposure to hyperbaric O2.

Insulin-like effect of bovine growth hormone in vivo as demonstrated by oxidation of C/14/-D-glucose in diabetic rats.

COSMOS 916, experiment K206: The effects of space flight on some liver enzymes concerned with carbohydrate and lipid metabolism in the rat.

Carbohydrate metabolism of the stimulated diaphragm muscle.

Effects of intermittent magnetic field on activity of carbohydrate metabolism enzymes and oxygen uptake in testicular tissue.

Effect of brief head-down position on parameters of carbohydrate metabolism and beta lipoprotein content of blood.

CARBOHYDRATES

CARBON DIOXIDE CONCENTRATION

Response of conscious rabbits to CO2 at ambient temperatures of 5, 20, and 35 C.

CARBON DIOXIDE REMOVAL

The dependence of the CO2 removal efficiency of LiOH on humidity and mesh size --- in spacecraft life support systems.

Electrochemically regenerable carbon dioxide absorber.

CARBON DIOXIDE TENSION

Analysis of Pco2 differences during rebreathing due to slow pH equilibration in blood.

Mechanisms of the regulation of the respiratory system in man.

CARBON ISOTOPES

CARBON MONOXIDE

Synthesis of organic compounds from carbon monoxide and water by UV photolysis.

The effects of carbon monoxide on dual-task performance.

The effects of carbon monoxide and cyanide on the brain.

The interaction of carbon monoxide and altitude on aviator performance: Pathophysiology of exposure to carbon monoxide.

Translusions on 11358 science and technology:

The effects of oxides on nitrogen, Carbon monoxide and water by UV photolysis.

Synthesis of organic compounds from carbon monoxide and water by UV photolysis.

Absorption of nitrogen, Carbon monoxide and water by UV photolysis.

Synthesis of organic compounds from carbon monoxide and water by UV photolysis.

A study of cerebral blood flow in the goat. A. Correlations between the respiratory and cerebrovascular responses to carbon monoxide.

Carbon monoxide and human time discrimination - Failure to replicate Heard-Verhees experiments.

Characteristics of serious carbon monoxide poisoning.

The combined effect of carbon monoxide and narcotic hyperoxia on animals.

Carbon suboxide and the genetic code --- in biochemical evolution.
Cardiac response to whole-body heating
Effects of endurance training on left ventricular dimensions in healthy men
A catheter flow probe for measurement of left ventricular source parameters
Clinical usefulness of radiopaque markers in left ventricular function
Temporal relation between onset of cell anoxia and ischemic contracture failure
Contour detector and data acquisition system for the left ventricular outline
Influences of dietary fats on coronary flow rate and left ventricular work of the isolated rat heart
Effects of dietary fats on the coronary flow rate and the left ventricular function of the isolated rat heart
Characterization of cardiovascular function by automated monitoring of cardiac contractility and left ventricular wall motion activity

Computer quantitation of coronary angiograms
Clinical applications of new echocardiographic techniques
Biomagnetic instrumentation and measurement
Clinical magnetocardiography
Application of an isolated heart model to investigate blood-oxygen delivery
Possibilities and perspectives of tetrapolar transthoracic impedance rheophotysmography in noninvasive studies of hemodynamic disturbances
The metabolic demand and oxygen supply of the heart - Physiologic and clinical considerations
Temporal relation between onset of cell anoxia and ischemic contracture failure
Difficulties posed by left axis deviation in the evaluation of fliers, and their relations to the concept of left anterior hemiblock
Cardiologic and vascular components of the systemic response of blood circulation to orthostatic influence
Cardiac and vascular components of the systemic response of blood circulation to orthostatic influence
Interaction between hypothalamic and bulbar levels of regulating blood circulation
Cardiovascular regulatory responses to lower body negative pressure following blood volume loss
Cardiorespiratory response of decongestant-antihistamine effects on altitude, Gz, and fatigue tolerances
Central and cerebral hemodynamics and metabolism of the healthy man during head-down tilting
Time for loss of increased cardiac responsiveness to isoproterenol in cold-acclimated rats after removal from cold
Age trends in the cardiovascular dynamics of aircrewmen

Functional changes in the cardiovascular system of machine-tool operators under physical and neurologically stressful loads

Early cardiovascular adaptation to simulated zero gravity

Cardiac responses of dogs to nonsynchronous and heart synchronous whole-body vibration

Incidence of cardiovascular problems among flying personnel and their evaluation

Cardiac changes during behavioral stress in dogs

Specific problems in cardiovascular fluid dynamics measurements

Continuous metabolic and cardiovascular measurements on a monkey subject during a simulated 6-day Spacelab mission

Isolation of a shock-induced circulating cardiodepressant substance

Noninvasive cardiovascular measurements - A Book

Current status of cardiovascular imaging by transmission computed tomography

A new noninvasive technique for cardiac pressure measurement. II. Scattering from encapsulated bubbles

Clinical applications of new echocardiographic techniques

Cardiac blood flow measurement - A component of the comprehensive cardiovascular examination

Time course of 02-pulse during various tests of aerobic power

Theoretical foundations of cardiovascular processes --- Book

Basic biomechanics equations for cardiovascular flow

Clinical and morphological studies of people in the course of long-term hypokinesina and subsequent readaptation

Cardiovascular, metabolic, and respiratory responses of sedentary females to equal metabolic workloads on the bicycle ergometer and treadmill

Experience with periodic aviation medical examinations

Beta-adrenoceptor antagonists: Central effects

Specific Findings in Cardiology and Pulmonary Function with Special Emphasis on Assessment criteria for Flying (NASA-CR-160230)

Reproducibility of human cardiovascular responses to orthostatic stress

Evaluation of cardiac risk and subject response to assistiveortative efforts

Cardiovascular diseases as a cause of unfitness for flying service in aircrews of Italian Air Force: Pathophysiology, influence of performance in flight, and prevention

Cardiovascular fitness of pilots of transport aircraft

Cardiovascular studies of reducing and oxidizing agents

Development of high-resolution ultrasonic imaging techniques for detection and clinical assessment of cardiovascular disease

CARGO AIRCRAFT

Development of high-resolution ultrasonic imaging techniques for detection and clinical assessment of cardiovascular disease

Aircraft flight simulation of Spacelab experiment using an implanted telemetry system to obtain cardiovascular data from the monkey

Noninvasive techniques in the evaluation of the peripheral circulation

Cardiac adaptation to endurance training: determined by echocardiography and electrocardiography

The effects of active and passive heat acclimatization procedures on the cardiovascular, thermoregulatory, and sweat rate responses to work in the heat in male humans

Physiological system integrations with emphasis on the respiratory-cardiovascular system

User's instructions for the cardiovascular Walters

Noninvasive techniques in the evaluation of the respiratory-cardiovascular system

User's instructions for the GE cardiovascular

Possibility of improving assessment of cardiovascular agents

Effect of brief head-down hypokinesina on pressure in various parts of the healthy man's cardiovascular system

Characterization of cardiovascular function by automated monitoring of cardiac contractility and left ventricular wall motion activity

Cardiovascular diseases, volume 3. A bibliography with abstracts

Possibility of improving assessment of cardiovascular control system models

Frequency response of cardiovascular regulation in canines to sinusoidal acceleration at frequencies below 1 Hz (basis for biodynamic modeling)

The causes of decrements in aircrew performance physiological changes produced by vibration and other environmental stresses and response of the cardiovascular system to vibration and combined stress

CENTRAL NERVOUS SYSTEM

Study of model membrane fusion using photon correlation spectroscopy - lipid bilayer phase transition in cell membranes

Effect of infra-low-frequency magnetic fields on cell division

A method for separating biological cells

Effects of propellant hydrazines on red blood cells: Metabolism and Heinz body formation

Electrophysiological determination of retinal sensitivity to color after intense monochromatic light adaptation

Purification and cultivation of human pituitary growth hormone secreting cells

Preparation of guinea pig macrophage for electrophoretic experiments in space

Biological effects of laser irradiation on nerve cells

Study of pharmaceutical industrial problems

Cell biology basis for the life of an organism in the radiation field

Studying the state of cellular metal ions by the extended X-ray absorption fine structure

Direct exposure of monolayers of mammalian cells to airborne pollutants in a unique culture system

Now does the saccadic eye movement controller adapt for pathological states

Study of specific effects of hyperfrequencies on the central nervous system. II - Exploratory research on rat /Mistary/ behaviour

A model for vestibular function in altered gravitational states

Pupil behavior in maze after flight aboard Kosmos-690 biosatellite

The effects of carbon monoxide and cyanide on the brain

Potential relationship between human central nervous system injury and impact forces based on primate studies

CENTRIFUGAL FORCE

Effect of weightlessness and centrifugation (LXG) on erythrocyte survival in rats subjected to prolonged space flight

Quantitative analysis of selected bone parameters

Investigations into the importance of the direction of centrifugal forces acting on the human body

CENTRIFUGES

A HUMAN CENTRIFUGES

CENTRIFUGE

Distinctions of influence of the reticular formation of the midbrain on the heart and respiration with exposure to centripetal accelerations

CENTRIFUGING STRESS

Geotropism of hornet comb construction under persistent acceleration

Studies on the erythron and the ferrokinetic responses in beagles adapted to hypergravity

Special test for astronaut selection - Tests of tolerance in the centrifuge and in flight

Relaxed +Gz tolerance in healthy men - Effect of age

Decapitation time for +Gz-induced loss of consciousness

RBC/+-Cr-51/ half-life and albumin turnover in growing Beagle dogs during chronic radial acceleration

Physiological effect of high, sustained +Gz forces on man

Influence of the ambient acceleration field upon acute acceleration tolerance in chickens

Effect of microwave radiation on the resistance of rats to transverse acceleration loading

CENTRIPETAL FORCE

Distinctions of influence of the reticular formation of the midbrain on the heart and respiration with exposure to centripetal accelerations

CEPHALIC ANALYSIS

Homomorphic analysis and modeling of ECG signals

CEREBRAL PROTECTIVE COATINGS

CEREBRAL CORTEX

CEREBRAL VASCULAR ACCIDENTS

CEREBRUM
Some neurochemical characteristics of rats after space flight in the Cosmos-936 satellite

Acute toxicity of a number of chemicals of the environment affect man's physiology

Chemicals identified in human biological media, a pilot literature survey

Acute toxicity of a number of chemicals of interest to the Air Force

Some neurochemical characteristics of rats after space flight in the Cosmos-936 satellite

Acute toxicity of a number of chemicals of interest to the Air Force

Some neurochemical characteristics of rats after space flight in the Cosmos-936 satellite

Acute toxicity of a number of chemicals of interest to the Air Force
Changes in the circadian rhythm of performance and mood in healthy young men exposed to prolonged, heavy physical work, sleep deprivation, and caloric deficit

Circadian rhythms of electrolyte ureas in healthy persons

The importance of light, postural and social cues in the regulation of the plasma cortisol rhythms in man

Stability of circadian system of the body

Task complexity and 24-hr performance patterns in working and evening active subjects

Human circadian physiology: Internal organization of temperature, sleep-wake and neuroendocrine rhythms monitored in an environment free of time cues.

On a basic model of circulatory, fluid, and electrolyte regulation in the human system based upon the model of Guyton

User's instructions for the Guyton circulatory system model for the simulation of bed rest modifications and integration schemes for physiological systems

Evaluation of exercise-respiratory system modifications and integration schemes for physiological systems

CITIES

Measurements of radiofrequency field intensity in buildings with close proximity to broadcast stations

Radiofrequency radiation levels and population exposure in urban areas of the eastern United States

CIVIL AVIATION

Current role of alcohol as a factor in civil aircraft accidents

Disability pattern amongst civil aircrew

Soviet civil aviation training programs

CIRCADIAN RHYTHMS

Comparison of circadian rhythms in male and female humans

Comparison of hormone and electrolyte circadian rhythms in male and female humans

Changes in the circadian rhythm of performance and mood in healthy young men exposed to prolonged...
COLORATION

ISAC-1 - A color sensing robot
Chromatic border distinctness - Not an index of hue or saturation differences
Deductive derivation of a mathematical model for spectral sensitivit of the human organ of sight, I, II
Visual contrast sensitivity functions obtained with colored and achromatic gratings
Detection of coloured stimuli by independent linear systems
Enhancement of luminance flicker by color-opponent mechanisms
Using color substitution pupil response to expose chromatic mechanisms
Contrast sensitivity of the human eye to various display phosphor types
Providing an eye separator on a color cathode tube --- enhancing visual acuity
Effects of vestibular factors on color-discriminating function of the human eye following color preadaptation
Restoration of color perception after de-adapting flashes
Contribution to the theory of photopic vision:
Retinal phenomena

COLORATION

COMA

The child in coma
coma recovery

COMBAT

An Air Combat Effectiveness Study /ACES/ program
Development of automated performance measures for introductory air combat maneuvers
Air Combat Maneuvering Range /ACMR/ - Has operational performance measurement entered a Golden Age
Methodology to assess psychological stress and its impact in the air combat environment
Air-to-air combat skills: Contribution of platform motion to inertial training

COMBINED STRESS

Physiologic and performance measurements in simulated airborne stress environments

CONTRIBUTION PRODUCTS

Genetic damage in mice following exposure to the pyrolysis products of solytetrafluoroethylene

COMFORT

A study of the available evidence on duration effects on comfort and task efficiency under vibration

COMMAND AND CONTROL

The man-computer division of tasks in the case of the control of complex technical systems --- applied to aircraft

RT CARBON ATMOSPHERES
RT HELIUM-OXYGEN ATMOSPHERES
RT SPACECRAFT CABIN ATMOSPHERES
Voice communication in artificial atmospheres --- Russian book
The combined effect of carbon monoxide and nonobaric hyperoxia on animals
CONTROLLED STABILITY
UT CONTROL
CONTROLERS
UT SERVOMECHANISMS
Evaluation of models describing human operator control of slowly responding complex systems --- Thesis
CONVAIN MILITARY AIRCRAFT
9 MILITARY AIRCRAFT
CONVEXION
Mathematical studies of oxygen transport to tissue
CONVEXTIVE FLOW
Convective control of long-range coherence in plant growth regulation
CONVERGENCE
Region extraction using convergent evidence
CONVERGIONS
Effect of electroconvulsive shock on psoas alveolar receptor binding sites in rat brain
The control and prevention of seizure in children, a developmental and environmental approach
COOLING
RT LIQUID COOLING
RT SURFACE COOLING
Epiphysis of rats under the combined action of hypoxia, hypercapnia and cooling
COORDINATE SYSTEMS
9 COORDINATES
COORDINATES
Anatomical coordinate systems for human body segments
COORDINATION
Process of search control of coordinated movement in man
COPILOTS
9 AIRCRAFT PILOTS
CORONARY CIRCULATION
CORONARY ARTERY DISEASE
Predicting coronary artery disease with treadmill stress testing. Changes in R-wave amplitude compared with ST segment depression
Coronary calcification is the diagnosis of coronary artery disease
Computer quantitation of coronary angiograms
The prediction of the existence or nonexistence of coronary artery disease using routine clinical laboratory measurements
Coronary atherosclerosis and fitness for flying
Detection of coronary artery disease in apparently healthy, asymptomatic aircrew members using thallium-201 myocardial perfusion scintigraphy
Left Anterior Hemiblock (LH): Diagnosis and aeromedical risk
The impact of coronary vascular risk factors on professional aircrew license loss in the United Kingdom
The effect of moderate hypothermia on the circulatory and myocardial consequences of acute coronary ligation in dogs
Development and evaluation of instrument systems for noninvasive detection, characterization and quantification of atherosclerotic lesions
Coronary artery disease using routine clinical laboratory measurement
Coronary artery disease

ET AIRCRAFT PILOTS
COPILOTS
ET AIRCRAFT PILOTS
COOPER
ET COPPER ISOTOPES
Cu-content of the liver of young mice in relation to a defect in the Cu-synthesis
COPPER COMPOUNDS
Citric acid enhancement of copper sulfate toxicity to blue-green algae and other nuisance organisms
Citric acid enhancement of copper sulfate toxicity to the blue-green algae 'Aphanizomenon flos-aquae' and 'Microcystis aeruginosa'
COPPER ISOTOPES
Results of a 64Cu-loading test applied to patients with an inherited defect in their Cu-synthesis (Menken's disease)
The oral 64Cu-loading test: Applications and problems
CORIOLIS EFFECT
Voluntary movement control and adaptation to cross-coupled stimulation --- motion sickness avoidance
CORNEA
Experimental determination of maximum permissible exposure to laser radiation of 1.5-micron wavelength --- corneal damage
CORONARY CIRCULATION
Regional coronary blood flow at rest and during high sustained +Gm in a miniature swine with subclinical, inchoinic, coronary heart disease due to coronary stenosis
Influences of physical conditioning and deconditioning on coronary vasculature of dogs
Effect of exercise on collateral development in dogs with normal coronary arteries
Pulmonary blood volume and interventricular circulation time in physically trained and untrained subjects
Cardiac responses of dogs to nonsynchronous and heart synchronous whole-body vibration
Neural regulation of coronary circulation
Noradrenaline action on smooth muscle cells of coronary arteries

DISPLAY DEVICES

**ST APPROACH INDICATORS**

**ST HEAD-UP DISPLAYS**

**ST HOT-FILM ANEMOMETERS**

The robot's eye - Stereo vision system for automated scene analysis

Human factors design criteria for transilluminated displays

Discrimination of density and clustering on four versions of a stochastic display -- human performance of pattern recognition

Lateral orientation and cerebral activation -- Considerations for information displays

Contrast enhancement using local area brightness gain control -- of airborne CRT display

Investigation of arrangement of multipurpose displays using tailored control logic in a fighter aircraft cockpit

Refinement of a computer simulation model for evaluating DASS Display concepts -- Digital Avionics Information System

Four years of color research for visual displays -- human performance consideration for use in aircraft

Observer performance using a video display -- in simulated air to ground target acquisition tasks

Anthropology in Spacelab - Control and display system in Spacelab

Ergonomic problems regarding the interactive touch input via screens in onboard and ground-based flight control

Perception of graphic displays of space

The importance of providing stereoscopic vision in training for nap-of-the-earth / NOE/ Flight

The effects of prediction, quickening, frequency separation, and percent of percept in perspective displays for low-visibility landing

An investigation of pictorial and symbolic aircraft displays for landing

Factors that affect display size criteria in a cockpit display system

Pilot performance during flight simulation with peripherally presented visual signals

Human factors considerations in the design and evaluation of a helmet mounted display using a light emitting diode matrix

Perceptual localization, feature identification and ocular motor factors in scanning a visual display

Secondary visual workload capability with primary visual and kinesthetic-tactual displays

Human engineering study of information processing applicable to helmet-mounted displays

Speed and load stress as determinants of performance in a time sharing task

A visual simulator with transformation of the perspective in the raster of television pictures -- German book on pilot training systems

Engineering-psychological study of information imaging systems -- manual control of spaceship docking

A controller's eye view of color

Visual acuity with regard to simultaneous colored contrast on a television screen - Results

Factors controlling the competing sensations produced by a bistable stereoscopic motion display

Recent developments and plans for pilot training devices [SAP PAPER 781007]

A binocular stereoscopic display system for echocardiography

Hyper-resolution in human perception of movement in visual displays

Object, illusion and frame of reference -- design criteria for computer-generated displays

Digital image anomalies - Static and dynamic -- Distortion and aliasing effects and elimination

Visual system for the Boom Operator Part Task Trainer -- EC-135 aerial refueling tank simulator

Component performance of a 360 deg non-programmed visual display -- laser image flight simulator

A 25-inch precision color display for simulator visual systems

Windshield quality and pilot performance -- measurement utilizing computer-generated imagery

Training effectiveness versus simulation realism

Extrapolation of pulsed light data in scanned displays -- laser radiation eye exposure limits

The holographic Pancake window -- magnifier for flight simulation display

Application of Fresnel lenses to virtual image display -- for training simulators

A fast-reacting and versatile optokinetic stimulus pattern by computer graphics with application examples

A comparison of kinesthetic-tactual and visual displays via a critical tracking task -- for aircraft control

Visual contrast sensitivity functions obtained with colored and achromatic gratings

Application of computer animation for dynamic display in complex energy systems -- for human operator performance improvement

The development of integrated multidimensional displays

Regression models of search time for color-coded information displays

Dynamics of the eye and head during movement between displays -- A qualitative and quantitative guide for designers

Pilot-optical augmentation of the air-to-air tracking task [AIAA 79-1787]

Helicopter commands at the touch of a hand [AHS 79-13]

Real-time computerized fluoroscopic cardiac imaging

Pilot performance during simulated approaches and landings made with various computer-generated visual glidepath indicators

Target redundancy in visual search -- repetitions of the target within the display impair processing

The use of synchronous demodulation for the measurement of eye movements by means of an oculomagnetic search coil

The role of perceived motion in smooth pursuit eye movements

The effect of expectations on slow oculomotor control. I - Periodic target steps. II - Single target displacements

The influence of rapid prism adaptation upon fixation disparity

Laser Doppler technique for measurement of eye movements

Eye torsion and visual tilt are mediated by different binocular processes

Spatial summation in human vision - Simple reaction time measurements

Eye movements and visual perception - Russian book movements

Forms of oculomotor activity under conditions of positive visual feedback

Lightweight helmet-mounted eye movement measurement system

Optokinetic reactions in man elicited by localized retinal motion stimuli

Eye torsion in response to a tilted visual stimulus

Modeling of visual-vestibular interaction and the fast components of nystagmus

Effects of information processing requirements on reaction time of the eye

Lightweight helmet-mounted eye movement measurement system

A relationship between eye movement patterns and performance in a precognitive tracking task

Dynamic measurement of human cyclofusional eye movements

A method for semi-automatic analysis of eye movements

EYE PROTECTION

Laser eye protection for flight personnel

Test and evaluation in the acquisition process - A look at the F/A-18 instruction system development: phase 1

No harmful effects through infrared light emitting diodes

Health and safety hazards associated with solar concentration systems

Thermal effects during the exposure of ocular fundus tissues to laser radiation

Effects of high-LET neon /Ne-20/ particle radiation on the brain, eyes and other head structures of the pocket mouse - A histological study

Supraphysiological retinal damage due to single 5 picosecond 1060 nm laser light pulses

Responses of retinal and visual pathway potentials of the guinea pig to nitrogen and helium at high pressure

Laser eye protection for flight personnel, volume 1

The want and feasibility to temper sunlight for the eyes

Sunglasses for drivers?

F-4 AIRCRAFT

F-4J/M instructional system development: Phase 1

Air-to-air combat skills: Contribution of platform motion to inertial training

Correlation of mechanism of extremitiy injury and aerodynamic factors in ejections from F-4 aircraft

F-110 AIRCRAFT

F-15 AIRCRAFT

EYE MOVEMENTS

Providing an eye separator on a color cathode tube - Enhancing visual acuity

F-16 AIRCRAFT

Life cycle costing of simulated vs actual equipment for intermediate maintenance training - For F-16 avionics

Application of learning curves of aircraft produced at more than one location to the F-16 lightweight fighter

Application of biodynamic models to the analysis of F-16 canopy birdstrike

Application of a structured decision process for proper inclusion of human resources in the design of a power unit support stand

F-10 AERIAL SPACECRAFT

Oculogravic illusion in response to straight-ahead acceleration of a CP-104 aircraft

F-111 AIRCRAFT

Optical injuries in the F/PB-111 crew escape system

FABRICATION

Development of integrated tubing fabric for liquid conditioning undergarments

Bioassay of thermal protection afforded by candidate flight suit fabrics

Evaluation of four thermally protective fabrics using the USAF bioassay method

FABRICATION

Development of a specialized head/face protective device for test parachuting operations

Field evaluation of experimental crash-crew firefighter’s facepiece

FACTOR ANALYSIS

Evaluation of electroencephalogram - Human performance in compensatory target tracking

Analysis of electroencephalogram during psychomotor performance

Time-sharing ability in complex performance: An expanded replication

A study of some of the factors influencing the left ventricular diastolic pressure-volume relationship and myocardial metabolism

Investigation of arrangement of multipurpose displays and use of tailored control logic in a fighter aircraft cockpit

RETAINMENT OF A COMPUTER SIMULATION MODEL FOR EVALUATING DB15 DISPLAY CONCEPTS ------- Digital Avionics Information System

NASA flight management research

Experimental and psychological investigations in aviation and astronautics ------- Russian book

Increasing pilot's performance capacity during flight through use of a control element serving as information carrier

Ergonomic problems regarding the interactive touch input via screens in onboard and ground-based flight control

Effects of space flight on plasma and glandular concentrations of pituitary hormones ------- COSMOS 782 satellite.

Pilot-optimal augmentation synthesis

Pilot decision making in a computer-aided flight management situation

Error rate information in attention allocation pilot models

An adaptive controller which displays human operator limitations for a fighter type aircraft

Multipurpose digital switching and flight control workload

Adaptive estimation of information values in continuous decision making and control of advanced aircraft

SUBJECT INDEX

FLIGHT CREWS

NASA flight management research

Coordinated crew performance in commercial aircraft operations

Recent training/supernumerary system

Air Combat Maneuvering Range /ACMN/ - Has operational performance measurement entered a Golden Age

Conduction difficulties of vagal origin in flight personnel - Significance of intrathoracic data on the bundle of His — neural activity effects on heart block

Pneumothorax and flight personnel - Significance of intrathoracic data on heart block

Psychosis in air force flight personnel during the last 25 years

The value of measuring ocular tension as a test for detecting glaucoma in flight personnel

Army Aviation Training - Research now and then

Laser eye protection for flight personnel

Age trends in the cardiovascular dynamics of aircrewmen

Paroxysmal disorders of consciousness due to flight factors

Survey on eye comfort in aircraft, I - Flight attendants

Investigation of psychological compatibility of crew members of multisite aircraft

Incidence of cardiovascular problems among flying personnel and their evaluation

Ensuring medical fitness on entry and during service in aircrew in TAF

- Plasma aldosterone, renin activity, and cortisol responses to heat exposure in sodium depleted and repleted subjects
  - p0297 A79-52023
- Criteria for maximum tolerable heat stress. A proposal
- A comparison of sweating responses in men and women before and after acclimation to heat
  - p175 W79-21752
- Stress and fatigue in the driving environment: physiological and psychological effects of heat and noise experienced inside automobiles
  - p0211 W79-24629

## HEAT TRANSFER

### HT CONDUCTIVE HEAT TRANSFER

- Heat transfer and temperature distribution in the human body
  - p0041 A79-13612
- Heat transfer principles in personal protection applications
  - p0043 A79-18405
- Bio-heat transfer processes, for human thermoregulatory and circulatory characteristics measurements
  - p0304 A79-53536
- Pattern of heat loss from a subject wearing CF temperate-climate combat clothing
  - p0993 W79-15636
- The human micro-environment
  - p0248 W79-27851

## HEAT TRANSMISSION

### HT ROCKET WAVES

### HT TRANSITION HEATING

- The effects of different levels of heat production induced by diathermy and eccentric work on thermoregulation during exercise at a given skin temperature
  - p0126 A79-24698
- Criteria for maximum tolerable heat stress. A proposal

## HEAT ELEMENTS

### HT AMPLIFIED 261

### HELICOPTER ATTITUDE INDICATORS

### HELICOPTER CONTROL

- Eight vision goggles and in-flight evaluation of the inside/outside refocusing problems in a THS-18 helicopter
  - p0263 A79-18215
- Helicopter commands at the touch of a hand
  - [FHS 79-13] p0270 A79-49066
- An analysis of helicopter pilot control behaviour and workload during instrument flying tasks
  - [INR-RP-78003-1] p0124 W79-17553

### HELICOPTER DESIGN

- Quantifying operator preference during human factors test and evaluation --- in helicopter design
  - p0062 A79-18202
- The importance of providing stereoscopic vision in training for nap-of-the-earth /NOE/ flight
  - p0062 A79-18206
- Operational Helicopter Aviation Medicine
  - [AGARD-CP-255] p0148 W79-19605
- Human factors evaluations of today's helicopters as an aid to future systems design
  - p0150 W79-19627
- TADRAF: A computer-aided technique for reducing aircrew task analysis data --- helicopter design considering human factors
  - p0150 W79-19628
- The use of biostereometry in helicopter cockpit design --- using a simulator and analytic geometry
  - p0150 W79-19629
- Human factor engineering test and evaluation of the US Navy LAMPS helicopter system
  - p0151 W79-19632
- Visual requirements for the helicopter pilot
  - p0151 W79-19636

### HELICOPTER PERFORMANCE

- The assessment of rotary wing aviator precision performance during extended helicopter flights
  - p0040 A79-13221
- An inflatable restraint system --- for helicopter crash protection
  - p0044 A79-14008
- Helicopter night operations - Feasibility and impact on the overall system --- helmet mounted PLIN detectors and image intensifier goggles
  - p0048 W79-16235
- Evaluation of the helicopter in aero-medical transfers
  - p0128 A79-24638
- An overview of helicopter mission specific survival equipment
  - p0183 A79-33625

### HELICOPTER MOTORS

### ROTARY WINGS

### MILITARY HELICOPTERS

### OH-1 HELICOPTER

- Methodological considerations of visual workloads of helicopter pilots
  - p0209 A79-38363
- Eye-ball control
  - p0270 A79-49225
- The influence of low frequency vibration on pilot performance/ As measured in a fixed base simulator/
  - p0299 A79-52326
- An evaluation of perceptual-motor workload during a helicopter hover maneuver
  - [AD-A055016] p0052 W79-12709
- The effect of Nap-of-the-Earth (NOE) helicopter flying on pilot blood and urine biochemicals
  - [AD-A055024] p0055 W79-11693
- The helicopter
  - p0114 W79-16568
- Protective approaches in the moderation of the physiological effects of extreme ambient conditions in helicopter operations
  - p0149 W79-19618
- In-flight toxiology of fixed and rotary wing aircraft crew stations
  - p0149 W79-19619
- Evaluation of aircrew fatigue during operational helicopter flight mission
  - p0149 W79-19622
- Changes in the rotary wing aviator's ability to perform an uncommon low altitude rearward hover maneuver as a function of extended flight requirements and aviator fatigue
  - p0150 W79-19623
- Observation of night shipboard helicopter operations from a 210 foot US Coast Guard cutter
  - p0151 W79-19637

### SUBJECT INDEX

- An analysis of helicopter pilot control behavior and workload during instrument flying tasks
  - p0150 W79-19630
- Performance and workload analysis of infight helicopter aviators
  - [NLR-RP-77003-1] p0308 W79-32834
- HEAT SOURCES
- HEAT STROKE
- HEAT TESTS
- HEAT TRANSFER
- HEAT TOLERANCE
- HEATING
- HEAT ELEMENTS
- HELICOPTER ATTITUDE INDICATORS
- HELICOPTER CONTROL
- HELICOPTER DESIGN
- HELICOPTER PERFORMANCE
- HELICOPTER MOTORS
- HELICOPTERS
- MILITARY HELICOPTERS
- OH-1 HELICOPTER
- SUBJECT INDEX

The role of the neurohormone system of the hypothalamus in physiology and pathology ---

Acid-base homeostasis in the human system
(NASA-CR-160222)

Hormone metabolism of temperature reception
The local and time-dependent temperature field in the body of a homeothermic organism in case of sudden changes of quantity and local distribution of internal heat production

Similarity in the number of lifespan heartbeats among non-hibernating homeothermic animals

Hormone analysis and modelling of ECG signals

Effect of water and electrolyte replacement during hot-weather aircraft operations

Comparison of hormone and electrolyte circadian rhythms in male and female humans

Energetic aspects of adaptation ---

Insulin-like effect of bovine growth hormone in vivo as demonstrated by oxidation of C/14-U-glucose in diabetic rats

The role of the neurohormone system of the hypothalamus in physiology and pathology ---

The effect of 1alpha-ethynylestradiol on the radiation sensitivity of mice

Effect of water and electrolyte replacement during exercise in the heat on biochemical indices of stress and performance

Righter index of thermal stress /FITS/ - guidance for hot-weather aircraft operations

Righter index of thermal stress: Development of interim guidance for hot-weather USAF operations

Disorder in pulsatile flow - Biomedical measurements with hot films, laser and ultrasound anemometers

Analysis of a VTOL hover task with predictor displays using an optical control model of the human operator

Changes in the rotary wing aviators' ability to perform an uncommon low altitude rearward hover maneuver as a function of extended flight requirements and aviator fatigue

An evaluation of a perceptual-motor workload during a helicopter hover maneuver

An evaluation of the effects of a stability augmentation system upon aviator performance/workload during a MEEVAC high hover operation

An evaluation of perceptual-motor workload during a helicopter hover maneuver

A formal model of the adaptive and discrete control behaviors of human operators

Translations on USSR science and technology: Biomedical and behavioral sciences, no. 57

Translations on USSR science and technology: Biomedical and behavioral sciences, no. 60

Comparative study of plasma and urinary steroids in men with type A and type B behavior patterns

Human responses to fire: Three designs for research

A formal model of the adaptive and discrete control behaviors of human operators

Translations on USSR science and technology: Biomedical and behavioral sciences, no. 47

Translations on USSR science and technology: Biomedical and behavioral sciences, no. 54

Modeling the human as a controller in a multitask environment

Prospects of a mathematical theory of human behavior in complex man-machine systems tasks

Petri nets as a modelling tool for discrete concurrent tasks of the human operator --- describing sequential and parallel demands on human operators

Use of reward-panalty structures in human experimentation

A decision model applied to alcohol effects on driver signal light behavior

Translational science and technology: Biomedical and behavioral sciences, volume 2

Central and reflex mechanisms of controlling movements ---

Metabolic adrenergic changes during submaximal exercise and in the recovery period in man

Influence of skin temperature on sweating and electro-dermal response

Infection with herpes simplex viruses types 1 and 2 on cell DNA synthesis and thymidine kinase activities in cultured human cells

Car driving as a cybernetic task

Human health damages from mobile source air pollution: Additional Delphi data analysis, volume 2

Man and material in the cold regions, part 1

Investigations about the quantitative changes of carbon dioxide production in humans. Report 2: Carbon dioxide production during fever and its relationship with heat production

Acid-base homeostasis in the human system

Chemicals identified in human biological media, a pilot literature survey
Human factors design criteria for transilluminated displays
p0036 79-13187

Seating, console and workplace design - Seated operator reach profiles
p0036 79-13188

Seating, console and workplace design - Integration of literature and accommodation model
p0036 79-13189

The application of computer aided evaluative techniques to system test and evaluation - of fighter aircraft pilot performance
p0036 79-13190

Imagery interpreter performance in the comparison of subjective estimates of photographic image quality
p0036 79-13191

Discrimination of density and clustering on four versions of a stochastic display - human performance of pattern recognition
p0036 79-13192

Tracking in two dimensions as a function of dimension priorities and tracking difficulty
p0036 79-13193

A prediction model of arm push strength in the transverse plane
p0037 79-13194

Computer simulation of thermoregulatory responses to heat stress - A future work design and training tool
p0037 79-13195

Four years of color research for visual displays --- human performance consideration for use in aircraft
p0039 79-13210

Response surface methodology as a manipulator of complex task difficulty --- for computer generated aircraft area navigation control-display systems evaluation
p0039 79-13211

Task functional demands as factors in dual-task performance
p0039 79-13214

NASA flight management research
p0040 79-13218

Arrangement of aircraft flight indicators with the help of optimal theoretical models for man as the controller
p0042 79-14094

Anthropology in Spacelab - Control and display systems in Spacelab
p0042 79-14096

USAF life support equipment costs
p0043 79-14022

Heat transfer principles in personal protection applications
p0043 79-14053

Oxygen systems for Army helicopters
p0044 79-14021

Human factors considerations in establishing aircraft collision avoidance system alert thresholds
p0045 79-14438

Adaptive supervisory control of remote manipulation
p0046 79-14487

Subjective data in human reliability estimates
p0046 79-15398

Computer-graphic design for human performance
p0046 79-15399

Man-machine reliability - A practical engineering tool
p0047 79-15400

The man-computer division of tasks in the case of the control of complex technical systems - applied to aircraft
p0061 79-17683

Ergonomic problem regarding the interactive touch input via screens in onboard and ground-based flight control
p0061 79-17695

p0062 79-18201

Quantifying operator preference during human factors test and evaluation --- in helicopter design
p0062 79-18202

AWAYS, a research facility for defining flight trainer visual system requirements
p0062 79-18207

Factors that affect display size criteria in a cockpit display system
p0063 79-19207

Human factors considerations in the design and evaluation of a helmet mounted display using a light emitting diode matrix
p0063 79-19212

Estimating percentiles of nonnormal anthropometric populations - Final report
p0065 79-19226

Human engineering study of information processing applicable to helmet-mounted displays
p0068 79-18994

Collision avoidance response stereotypes in pilots and nonsoldiers
p0068 79-18995

Peripheral acuity and photointerpretation performance
p0068 79-18996

Line criteria in target acquisition with television --- visibility of target image on TV screen
p0068 79-18997

Evoked potential correlates of display image quality
p0068 79-18998

Speed and load stress as determinants of performance in a time sharing task
p0068 79-18999

Visual target acquisition and ocular scanning performance
p0069 79-19000

A visual simulator with transformation of the perspective in the raster of television pictures --- German book on pilot training systems
p0069 79-19375

Vigilance and electroencephalogram --- human performance in compensatory target tracking
p0069 29-22975

A controller's eye view of color
p0102 79-23596

Relations between research and instruction in physiology and aerospace ergonomy in the military health services
p0104 79-23960

Interdisciplinary and international contributions to research on biological effects of electromagnetic waves - Past performances and future challenges
p0129 79-24878

Digital man-machine control systems - The effects of preview lag
p0131 79-26149

A theoretical model to estimate some ergonomic parameters from age, height and weight
p0132 79-26150

Hyper-resolution in human perception of movement in visual displays
p0132 79-26240

The human operator in the control system: Linear models --- German book
p0132 79-26356

A comparison of kinesiologic-tactual and visual displays via a critical tracking task --- for aircraft control
p0162 79-29720

The biomedical implications of engineering in space
p0166 79-31122

Better definition of eye to aortic valve distance in high acceleration cockpit /NAC/ seating geometries
p0183 79-33632

The objective evaluation of aircrew protective breathing equipment. III - Improved types of mask/goggles combinations. IV - Fullface masks and hoods suitable for flight attendant use
p0184 79-33638

Improved headgear for fixed wing Army aircrewmen
p0184 79-33641

Perception of continuity in ultrasonic motion - A temporal frequency analysis
p0186 79-34315

Dynamics of the eye and head during movement
p0187 79-34314

Factors that affect display size criteria in a cockpit display system
p0063 79-19207

Human factors considerations in the design and evaluation of a helmet mounted display using a light emitting diode matrix
p0063 79-19212

Estimating percentiles of nonnormal anthropometric populations - Final report
p0065 79-19226

Human engineering study of information processing applicable to helmet-mounted displays
p0068 79-18994

Collision avoidance response stereotypes in pilots and nonsoldiers
p0068 79-18995

Peripheral acuity and photointerpretation performance
p0068 79-18996

Line criteria in target acquisition with television --- visibility of target image on TV screen
p0068 79-18997

Evoked potential correlates of display image quality
p0068 79-18998

Speed and load stress as determinants of performance in a time sharing task
p0068 79-18999

Visual target acquisition and ocular scanning performance
p0069 79-19000

A visual simulator with transformation of the perspective in the raster of television pictures --- German book on pilot training systems
p0069 79-19375

Vigilance and electroencephalogram --- human performance in compensatory target tracking
p0069 29-22975

p0104 79-23960

Interdisciplinary and international contributions to research on biological effects of electromagnetic waves - Past performances and future challenges
p0129 79-24878

Digital man-machine control systems - The effects of preview lag
p0131 79-26149

A theoretical model to estimate some ergonomic parameters from age, height and weight
p0132 79-26150

Hyper-resolution in human perception of movement in visual displays
p0132 79-26240

The human operator in the control system: Linear models --- German book
p0132 79-26356

A comparison of kinesiologic-tactual and visual displays via a critical tracking task --- for aircraft control
p0162 79-29720

The biomedical implications of engineering in space
p0166 79-31122

Better definition of eye to aortic valve distance in high acceleration cockpit /NAC/ seating geometries
p0183 79-33632

The objective evaluation of aircrew protective breathing equipment. III - Improved types of mask/goggles combinations. IV - Fullface masks and hoods suitable for flight attendant use
p0184 79-33638

Improved headgear for fixed wing Army aircrewmen
p0184 79-33641

Perception of continuity in ultrasonic motion - A temporal frequency analysis
p0186 79-34315

Dynamics of the eye and head during movement
p0187 79-34314
Carbon monoxide and human time discrimination - Failure to replicate Bead-Perthen experiments
A theoretical model to estimate some ergonomic parameters from age, height and weight
Comparative evaluation of the effectiveness of visual and aural tracking of a sinusoidal signal
Mechanics of the regulation of the respiratory system in man
The effects of carbon monoxide on dual-task performance
Discrimination, temperature, and time of day --- human performance variances
An algorithm to ascertain critical regions of human tracking ability
Deductive derivation of a mathematical model for spectral sensitivity of the human organ of sight, I, II
A bioengineering simulator of the human visual apparatus
Visual contrast sensitivity functions obtained with colored and achromatic gratings
Human error accidents - Some case studies --- for aircraft
A rationale for human operator pulsive control behavior
Effect of induced cyclic changes of deep body temperature on task performance
Physiologic and performance measurements in simulated airborne combined stress environments
Rhythms in human performance - 1-1/2-hour oscillations in cognitive style
Spatial frequency masking in human vision - Binocular interactions
Changes in the circadian rhythms of performance and mood in healthy young men exposed to prolonged, heavy physical work, sleep deprivation, and caloric deficit
Test of the 10 bits/sec channel-capacity hypothesis for human tracking
A study of the available evidence on duration effects on comfort and task proficiency under vibration
Mechanisms of the effects of vibration frequency, level and duration on continuous manual control performance
Development of a performance criterion for air traffic personnel research through air traffic control simulation
Life stress, organizational stress, and job satisfaction
Information processing in humans, volume 3. A bibliography with abstracts
Survey of human operator modeling techniques for measurement applications
Proceedings of the 1977 Computerized Adaptive Testing Conference
Human work measurement. A bibliography with abstracts
Relating performance in basic electricity and electronics and A schools
Human performance in concurrent verbal and tracking tasks: A review of the literature
A comparison of motor submodels in the optimal control model
Use of reward-penalty structures in human experimentation
The influence of vehicle aerodynamic and control response characteristics on driver-vehicle performance
A model for dynamic allocation of human attention among multiple tasks
The effects of alcohol on driver performance in a decision making situation
Combined monitoring, decision and control model for the human operator in a command and control desk
A model of human event detection in multiple process monitoring situations
Vision
Human capabilities
The effects of deviate internal representations in the optimal model of the human operator
A quasi-linear control theory analysis of timesharing skills
A dual-loop model of the human controller
Parameter estimation in a human operator describing function model for a two-dimensional tracking task
Reduced mental capacity and behavior of a rider of a bicycle simulator under alcohol stress or under dual task load
A relationship between eye movement pattern and performance in a precognitive tracking task
A model of the human supervisor
The human as a detector of changes in variance and bandwidth
Task complexity and 24-hr performance patterns in morning and evening active subjects
A method to evaluate performance reliability of individual subjects in laboratory research applied to work settings
The measurement and scaling of workload in complex performance
Investigation on the effect of mechanical properties of control elements on human control performance under stochastic roll vibrations
Simulated EVA operation of a remote connector assembly test report
Graphic display of human motion
Individual differences in knowledge acquisition from maps
Evidence for increased intrathoracic fluid volume in man at high altitude
Predicting individual listener confusions in the classification of complex, steady-state sounds
Effects of noise frequency on performance and annoyance
The influence of hyperbaric environments in combination with workload and confinement on human information processing
Multipurpose digital switching and flight control workload
Development of human performance models for man-machine simulation

Effects of prolonged unidirectional shift of Discrete-time pilot model --- human dynamics and digital simulation

Progress in measuring and modeling the effects of low frequency vibration on performance

taking it in academic psychology: Demographic and personality correlates of exigency

Hemispheric asymmetry as related to pilot and radar intercept officer performance

Human performance in time-shared verbal and tracking tasks

Acoustic attitude orientation

Effects of congener and noncongener alcoholic beverages on a clinical ataxia test battery

Laboratory performance during acute intoxication and hangover

The causes of decrements in aircrew performance physiologically produced by vibration and other environmental stresses and response of the cardiovascular system to vibration and combined stress

Development of an objective grading system along with procedures and aids for its effective implementation in flight

Human memory. A bibliography with abstracts

Effects of information processing requirements on reaction time of the eye

Startle reactions to simulated sonic booms - Influence of habituation, boss level and background noise

Responses of teachers to aircraft noise

A study of the available evidence on duration effects on comfort and task proficiency under vibration

Estimated body rotation as a predictor of motion sickness susceptibility

The effects of carbon monoxide and cyanide on the brain

The 14th Annual Conference on Manual Control --- digital simulation of human operator dynamics

Directional errors of movements and their correction in a discrete tracking task --- pilot reaction time and sensorimotor performance

A man-machine model based on observer theory --- predicting a gunner's tracking response

Closed loop models for analyzing the effects of simulator characteristics --- digital simulation of human operators

Discrète-time pilot model --- human dynamics and digital simulation

Effects of prolonged multidirectional shift of sleeping-waking cycle on physiological functions, mental productivity and sleep of man

An investigation to determine the effect of physical conditioning upon fibrinolytic reactivity in normal young men

Effects on nose of microphones in the high thermal intensity region. Respiration, rectal temperature and mental reaction

Heart rate: Physiological characteristics and quantification methods for use in behavioral studies

A model for predicting human discomfort response to combined noise and vertical vibration

Effects of filtering electroencephalic signals on auditory evoked brain stem responses

Discomfort criteria for single-axis vibrations

Stress and fatigue in the driving environment --- physiological and psychological effects of heat and noise experienced inside automobile

Physiological effect of highly soybean protein diet in man

Effects of aspartame on response selection and response execution processes in choice reaction tasks

Relaxed +Gz tolerance in healthy men - Effect of age

Temporary threshold shift from transportation noise

Blood pressure variability of the individual in orthostatic testing

Evaluation of assisted positive-pressure breathing on +Gz tolerance

Reproducibility of +Gz tolerance testing

Aerospace highlights and potential medical applications --- in manned space flight

Biomedical relationship of human tremor and shivering on cold exposure

Quantitative review of human susceptibility to magnetic fields

Development opportunities in the space environment

Problems of human adaption to spaceflight

Multibody dynamics including translation between the bodies, with application to head-neck systems

A comparison of sweating responses in men and women before and after acclimation to humid heat

Human discomfort response to noise combined with vertical vibration

Discomfort criteria for single-axis vibrations

Effects of noise frequency on performance and annoyance

Effect of helicopter noise on passenger annoyance

Thermal conductance effects in human skin. 1: Experimental data acquisition

HUMAN REACTIONS

Subject Index

Effects of prolonged unidirectional shift of Discrete-time pilot model --- human dynamics and digital simulation

Effects of prolonged multidirectional shift of sleeping-waking cycle on physiological functions, mental productivity and sleep of man

An investigation to determine the effect of physical conditioning upon fibrinolytic reactivity in normal young men

Effects on nose of microphones in the high thermal intensity region. Respiration, rectal temperature and mental reaction

Heart rate: Physiological characteristics and quantification methods for use in behavioral studies

A model for predicting human discomfort response to combined noise and vertical vibration

Effects of filtering electroencephalic signals on auditory evoked brain stem responses

Hybridization of biomedical circuitry

Hybrid computers

Hybrid computation of left ventricular performance
using noninvasive techniques
[AD-A067669] p0190 N79-22758

Hydration

Effects of hyphoxygenation on human endurance of
orthostatic and LBNP tests
[ENSA-CR-151874] p0072 N79-14727

Hydraulic valves

Hydrazines

Metabolism of hydrazine
[AD-A062251] p0169 N79-20716

Effects of propellant hydrazines on red blood
cells: Methemoglobin and Heinz body formation
[AD-A068433] p0189 N79-22755

Hydrocarbon fuels

MT Diesel fuels

MT jet engine fuels

Hydrocarbons

MT styrene

MT ethylene

MT ethane

Squalenes, phytanes and other isoprenoids as major
neutral lipids of netbanogenic and
thermococophilic 'archaeobacteria'

Clostridium metabolism in humans

[FA-WS-19002] p0102 N79-18567

Hydrocyanic acid

ECW did not condense to give heteropolypeptides on
the primitive earth
[AD-A068461] p0133 N79-26542

Hydrogen stability

Hydrazine stability

Hydrogen isotopes

Hydrogen cyanides

Hydrogen sulfide

Hydrogen compounds

Hydrogen compounds

Hydrogen cyanides

Hydrogen sulfide

Hydrogen cyanides
HYPEROPIA

Effect of combination of hyperoxia and hyperventilation on survival of Japanese quail p0277 A79-50904

Influence of pressure chamber conditions on adenocortical function in man (according to results of assaying blood plasma 11-hydroxycorticosteroids) p0194 A79-23641

Visual acuity of the aging hyperopic eye in the intermediate range p0037 A79-13198

HYPEROXIA

The comparative study of metabolism changes in dynamics during hyperoxia and hyperoxia in mice lungs (JAP PAPER 76-51) p0007 A79-11221

Transient changes in arterial blood gases and heart rate during and after acutely induced hyperoxia and hyperoxia to rabbits p0134 A79-27120

Mechanisms of the effect of oxygen toxicity on the energy metabolism p0160 A79-29275

Glucose metabolism in rat lung during exposure to hyperoxic O2 p0221 A79-36047

Circulatory response to arterial hyperoxia p0221 A79-36048

The effect of hyperoxia on the oxygen tension of blood and cerebral tissue p0208 A79-38146

Determination of cerebral and neck subcutaneous tissue P02 with 3 and 4 +Gz in M. mulatta p0234 A79-42005

Adaptation to chronic hyperoxia in the rat - A study of pulmonary surfactant, tissue levels of superoxide dismutase and histology p0256 A79-46603

The effect of normobaric hyperoxia on brain and liver tissue respiration in albino rats with different resistances to hyperoxia p0296 A79-51113

Effect of oxygen poisoning on the spectrum of lactate dehydrogenase isozymes of rabbit blood plasma p0017 A79-10721

Metabolic responses of ponies to treadmill exercise in hyperoxia p0089 A79-12681

Combined effect of hyperoxia, low pressure and exercise on the rate of methylketone excretion from the human body p0073 A79-14725

The combined effect of carbon monoxide and normobaric hyperoxia on animals p0073 A79-14730

The effect of hyperoxia on cerebral blood flow in the unanesthetized pony p0107 A79-16511

Mechanisms of oxygen toxicity at the cellular level (JTN/PS-79/0744/7) p0317 A79-33837

HYPERTENSION

WT POLYPEPTIDES

Distinguishing borderline hypertensives from normotensives: A clinical study of 300 aircrewmen p0027 A79-91699

Noninvasive assessment of pulmonary hypertension using bubble ultrasonic ranging (BUPR) method, part 2 (PN-28935/5) p0051 A79-12699

Noninvasive assessment of pulmonary hypertension (PN-28932/0) p0057 A79-13701

HYPERTHERMIA

Fighter index of thermal stress - FITS - guidance for hot-weather aircraft operations p0202 A79-37715

Separation of the effects of raised skin and core temperature on performance of a pursuit rotor task p0234 A79-63294

Intestinal transport of hexoses in the rat following chronic heat exposure p0236 A79-83701

HYPERVENTILATION

Hyperventilation in aircrew - A review p0235 A79-43212

REFERENCES

HYPERTHERMIA

HYPOTONIA

O GROWTH

HYPOTROPHY

O ENDOSIS

HYPERTROPHY
Tissular blood clotting factors of vascular walls and myocardium during hypoxia: effects on various parts of the healthy man's cardiovascular system

Effect of brief head-down hypoxia on pressure in various parts of the healthy man's cardiovascular system

Effects on lipid metabolism in man of some factors that simulate space flight conditions

Effect of restricted activity on ventricular function

Effect of hydrostatic factor on orthostatic stability and physical fitness of man during 60-day antithorostatic hypoxia

Vertical orientation of man during 5-day antithorostatic hypoxia (-4, -8 and -12 deg head down position)

Blood coagulation and tissular factors of blood clotting in heparinized rabbits submitted to hypoxia

HYPOTHALAMUS

Interaction between hypothalamic and bulbar levels of regulating blood circulation

Effect of the blockade of hypothalamic adrenocortical structures on thermoregulatory reactions

Dynamics of the impulse activity of the neurons in the posterior hypothalamus upon exposure to microwaves

Characteristics of EEG changes in rabbits in response to local cooling or heating of the central thermosensory area

The role of the neurohormone system of the hypothalamus in physiology and pathology --- Russian book

Sympathetic uptake of hypothalamic monoamines and recovery of pituitary-adrenal activity following medial forebrain bundle lesions in rats

Effect of cerebrocranial trauma on reactive distinctions of hypothalamic and hippocampal vessels in the presence of hypoxia

Catecholamines and enzymes of metabolism thereof in the rat hypothalamus after flight aboard Cosmos-782 biomir"
Effect of hypoxia on mechanical properties of hypothyroid cat papillary muscle
The interaction of carbon monoxide and altitude on aviator performance: Pathophysiology of exposure to carbon monoxide
Dynamics of impairment of pilot performance in the presence of hypoxia
Blood lipid changes in hypoxic rats
Effect of intermittent hypoxia on functional activity of peripheral blood neutrophils
Effect of cerebrocranial trauma on reactive distinctions of hypothalamic and hippocampal vessels in the presence of hypoxia
Assessment of factors possibly contributing to the susceptibility of sickle trait erythrocytes to mild hypoxia. Volume 1: Design considerations and research protocol
A study of cerebral blood flow in the goat. A. Correlations between the ventilatory and cerebrovascular responses to carbon monoxide inhalation. B. The dynamics of the cerebral blood flow response to hypoxia by frequency response analysis
The effects of brain ischemia on the control of breathing in unanesthetized goats
Effect of combination of hypoxia and hypercapnia on survival of Japanese quail
The pulmonary circulation: Studies on alveolar hypoxia and vascular smooth muscle metabolism
Effect of acute hypoxia on some parameters of renal excretory function and renal hemodynamics
Altitude hypoxia, volume 1. A bibliography with abstracts
MTIS/NS/95-09/0427/97
Effect of propranolol on Time of Useful Function (TOF) in rats -- tolerance to rapid decompression
Oxygen delivery in the hypoxic perfused heart: Relation to functional and metabolic changes
Effect of pressure chamber conditions on adrenocortical function in man (according to results of assaying blood plasma 11-hydroxycorticostoid)

IDENTIFYING
A review of individual performance in air-to-ground target detection and identification studies
Microbial load monitor

IPR (RULES)
Instrument Flight Rules

ILLUMINATING
Operational consideration of AN/PVS-5 night vision goggles for helicopter night flight

ILLUSSIONS
NT SCULPTURAL ILLUSIONS
NT OPTICAL ILLUSION
Changes in apparent body orientation and sensory localization induced by vibration of postural muscles

SUBJECT INDEX
Sensory illusions of vestibular origin
The physiologist's view of sensory illusions

IHS (LANDING SYSTEMS)
Instrument Landing Systems

IMAGE CONTRAST
Perceptual delay -- a consequence of metacolor and apparent motion
Contrast enhancement using local area brightness and gain control --- of airborne CRT display
Visual acuity with regard to simultaneous colored contrast on a television screen -- Results
Contrast effects on smooth-pursuit eye movement velocity
Visual contrast sensitivity functions obtained with colored and achromatic gratings
Effects of stimulus onset and image motion on contrast sensitivity
Contrast sensation -- A linear function of stimulus contrast
Digital enhancement of computerized axial tomograms
Contrast enhancement using local area brightness and gain control --- of airborne CRT display
Digital image anomalies -- Static and dynamic --
Digitizing and aliasing effects and elimination
Autodiagnostic enhancement of mammograms

IMAGE FILTERS
Compensation for transport delays produced by computer image generation system
Investigation of nonlinear motion simulator washout schemes

IMAGE MOTION COMPENSATION
Subjective motion discrimination is the simulator for air-to-air combat
Influence of motion wash-out filters on pilot tracking performance

IMAGE PROCESSING
The robot’s eyes -- Stereo vision system for automated scene analysis
Image interpreter performance in the estimation of subjective estimates of photographic image quality
Digital color image compression in a perceptual space
Robotic vision -- process control applications
Computer quantitation of coronary angiograms

Visual motion perception by intelligent systems
Psychological aspects of the human-operator’s activity while tracking
General methods to enable robots with vision to acquire, orient, and transport workpieces
Image processing program completion report
Diagnosis of cutaneous thermal burn injuries by multispectral imaging analysis

IMAGE RESOLUTION
High-speed computerized tomography
Hyper-resolution in human perception of movement in visual displays
IMPACT DECELERATION

Aircrcrew helmet protection against potential
cerebral concussion in low-magnitude impacts
A head injury model
Correlation of head injury with mechanical forces
based on helmet damage duplication

IMPACT ACCELERATION

IMPACT TESTS
Whole body response research program
Whole body response research program. Appendix A: Methodology
Whole body response research program. Appendix C: Processed data
Photometric methods for the analysis of human
kinematic responses to impact environments
Calibration of three year old child dummies
Evaluation of research on surrogates for humans in
motor vehicle crashes
Impact tests on crash helmets for motorcyclists
Animal endurance to recurrent impact accelerations

IMPACT TOLERANCES
A failure criterion for human, vertebral,
cancellous bone

IMPEDANCE

MT ELECTRICAL RESISTANCE
MT RESPIRATORY IMPEDANCE

IMPEDANCE MEASUREMENTS
Reliability of determining the cardiac output by
the method of quadruple chest impedance
photography

INFLATION

Development of an electrical energy converter for
circulatory device

IMPLANTED ELECTRODES (BIOLOGY)
Telemetry of intracranial pressure
An indwelling powered telemetry system for
temperature, ECG, and activity monitoring
Electric field measurements within biological media
Improved subcutaneous electrode structure
NASA-CASE-ARC-11177-11
Air_craft flight simulation of spaceflight using an implanted telemetry system to obtain
cardiovascular data from the monkey
Metal bioelectrode polarization: A frequency and
time domain analysis

IN-FLIGHT MONITORING

Instrumentation for controlling and monitoring
environmental control and life support systems
[AEC PAPER 78-KHA5-40]
Aerobiotestman from a fighter aircraft
The electrocardiogram recorded by telemetry during a
parachute jump, compared to a trace during
stress tests - A preliminary study of 29 cases
In-flight measures of stress reduction due to
wearing expandable foam earplugs
Aircr_crew inflight physiological data acquisition
system 2
[AD-A055634]
Space biology and aerospace medicine, vol. 15, no. 6
[ISRS-72487]
Dynamic medical monitoring of flight crews in
the course of long-term flights
Investigation of composition of trace contaminants
in the air environment of the Soyuz-22 spacecraft

SUBJECT INDEX

Dynamics of impairment of pilot performance in the
presence of hypoxia
Principal results of experiment with animals
onboard the Kosmos-702 biosatellite
In-flight toxicology of fixed and rotary wing
aircraft crew stations
Evaluation of aircr_crew fatigue during operational
helicopter flight mission

INACTIVATION

U DEACTIVATION

INDEPENDENT VARIABLES
Alterations in erythrocyte survival parameters in
cats after 12.5 days aboard Cosmos 782
Quantitative analysis of selected bone parameters

INFECTION

Analysis of climatic data and cockpit thermal
conditions at a fighter base in North West India

INDICATING INSTRUMENTS

MT APPROACH INDICATORS
MT HOT-FILM ANEMOMETERS
Arrangement of aircraft flight indicators with the
help of optimal theoretical models for man as
the controller

INGELS

MT THYMIC
Thymosin-antihistamine combination for gastric
ulceration control

INDUCED FLOW

MT FLUID FLOW

INDUSTRIAL MANAGEMENT

MT PERSONNEL MANAGEMENT

INDUSTRIAL SAFETY

A literature review-problem definition studies on
selected toxic chemicals. Volume 2:
Occupational health and safety aspects of
phosphorus smoke compounds
[AD-A056019]
A literature review-problem definition studies on
selected toxic chemicals. Volume 1:
Occupational health and safety aspects of diesel
fuel and white smoke generated from it
[AD-A056018]
Antiradiation suit and other special clothing at
industrial safety exhibition

INDUSTRIAL TOXICITY

Radiation protection activities, 1977
[PB-290152]
[ISS-P-78/7]
[NASA-CASE-ARC-11118-2]
[NASA-CN-160267]

INFORMATION DISSEMINATION
INFLATING
INFLATABLE DEVICES
INFLATABLE STRUCTURES
MT AIR BAG RESTRAINT DEVICES
MT GAS BAGS
Design considerations for inflatable head/neck restraint systems
[AD-A067228] p0220 N79-25741
An inflatable restraint system -- for helicopter crash protection
[AD-A064758] p0043 A79-14007
An assessment of the RAE Type 'B' full pressure suit automatic head enclosure
[AD-A064841] p0044 A79-14008
Spinal immobilization method and apparatus -- rigid bladder
[NASA-CAS-B-5C-1167-1] p0279 N79-30921
INFLATING
Development of a solid propellant inflation technique for the subcompact car passenger restraint system, phase 1
[PB-290328/A] p0178 N79-21775
INFORMATION DISSEMINATION
Pilot preflight briefing utilizing an interactive computer generated Voice Response System
[NASA CR-3137] p0167 A79-31887
INFORMATION MANAGEMENT
Communications management by the remote system -- An adaptive approach -- modeling of BVR autopilot/operator systems
[AD-A066806] p0041 A79-13226
INFORMATION RETRIEVAL
A preliminary investigation of aural input/output systems for in-flight information retrieval
[AD-A063174] p0178 N79-21770
INFORMATION SYSTEMS
Refinement of a computer simulation model for evaluating digital display concepts -- Digital Avionics Information System
[AD-A065536] p0038 A79-13209
The role of cognitive switching in head-up displays -- to determine pilot ability to accurately extract information from either of two sources
[NASA CR-3137] p0038 N79-33851
INFORMATION THEORY
Petri nets as a modeling tool for discrete concurrent tasks of the human operator -- describing sequential and parallel demands on human operators
[AD-A079598] p0088 N79-15600
INFORMATION TRANSMISSION
Development of information theory concepts and equations for human mental processing
[AD-A068006] p0260 N79-28077
INFRARED DETECTORS
MT FLIR DETECTORS
MT FLIR DETECTORS
Temperature changes during exercise assessed by thermography
[AD-A0563174] p0335 A79-43209
INFRARED RADIATION
MT FAR INFRARED RADIATION
Experimental determination of maximum permissible exposure to laser radiation of 1.5-micron wavelength -- corneal damage
[AD-A0563174] p0002 A79-10648
No harmful effects through infrared light emitting diodes
[AD-A0563174] p0184 A79-33650
Near infrared optical susceptibility of the human eye to IR radiation in the 800 to 1355 micron range
[AD-A0563174] p0188 A79-35363
Near infrared perception of infrared radiation in the 800-1355 nm range with human eye
[AD-A0563174] p0301 A79-53163
[AD-A0563174] p0055 N78-13691
INFRARED SPECTRA
Human and infrared investigations of the nature of intracellular water
[AD-A0656124] p0002 N78-17522
INSECTS
INSECT (BIOLOGY)

Temperature-dependent morphological changes in membranes of bacillus steatherotherophilus

p0005 A79-12475

A biochemical study of the Abu Dhabi algal mats - A simplified ecosystem

p0132 A79-26373

Squalene, phytane and other isoprenoids as major neutral lipids of methanogenic and thermoacidophilic 'archaeabacteria'

p0232 A79-42274

The effects of ozone on human erythrocytes and phospholipid vesicles

p0049 W79-12687

Blood lipid changes in hypoxic rats

p0076 W79-14731

Study of model membrane fusion using correlation spectroscopy -- lipid bilayer phase transition in cell membranes

p0147 W79-19591

LIPPROTEINS

Effect of brief head-down position on parameters of carbohydrate metabolism and beta lipoprotein content of blood

p0311 W79-33797

LIQUID COOLING

Development of integrated tubing fabric for liquid conditioning undergarments

p0044 A79-18415

LIQUID CRYSTALS

Liquid crystal developments for medicine

十四
The influence of low frequency vibration on pilot performance as measured in a fixed base simulator.

Frequency response of cardiovascular regulation in canines to sinusoidal acceleration at frequencies below 1 Hz (basis for biodynamic modeling).

LOW GRAVITY
U REDUCED GRAVITY

LOW PRESSURE
Combined effect of hyperoxia, low pressure and exercise on the rate of methylketone excretion from the human body.

LOW TEMPERATURE
Effects of low temperature on in vivo and in vitro protein synthesis in Escherichia coli and Pseudomonas fluorescens.

LOW TEMPERATURE ENVIRONMENTS
The effects of temperature, salinity, and other factors on the growth and formation of UV-absorbing substances by the fungus Aspergillus.

Skin temperature changes in paradoxical sleep in man in the cold.

LOW VISIBILITY
The effects of prediction, quickening, frequency separation, and percent of pursuit in perspective displays for low-visibility landing.

LOWER ATMOSPHERE

LOWER BODY NEGATIVE PRESSURE (LBNP)
U ACCELERATION STRESSES (PHYSIOLOGY)

LSI
U LARGE SCALE INTEGRATION

LUNAR REGION
The effect of thermal stimulation of the skin on activity of lateral crescent interneurons of lumbar segments.

LUNBERING AREAS
U FORESTS

LUMINANCE
The tilt illusion - length and luminance changes of induction line and third /disinhibiting/ line.

On the latency of human visually evoked response to sinusoidal gratings.

Enhancement of luminance flicker by color-opponent mechanisms.

Spatial summation in human vision - Simple reaction time measurements.

Upper-velocity threshold for detection of movement.

Contrast sensitivity of the human visual system at one luminance level while adapted to a stimulus at another luminance level.

The effects of deviate internal representations in the optimal model of the human operator p0114 879-17477
A dual-loop model of the human controller p0115 879-17480
An approach to the multi-axis problem in manual control --- optimal pilot model p0115 879-17482
The application of integral performance criteria to the analysis of discrete maneuvers in a driving simulator [FS-CM-2394] p0115 879-17488
A control theoretic model of driver steering behavior p0116 879-17491
Modelling the human operator of slowly responding systems using linear models p0117 879-17492
A model of the human supervisor p0117 879-17495
Prosthetic ENG control enhancement through the application of man-machine principles p0117 879-17505
Prediction of pilot-aircraft stability boundaries and performance contours p0118 879-17507
Speech as a pilot input medium p0119 879-17519
The impact of a Learn-Forget-Learn (LFL) curve and learning curves on a system effectiveness model [AD-A061622] p0124 879-17550
Man-machine analysis of translation and work tasks of Skylab films p0146 879-18592
Human factor engineering test and evaluation of the US Navy LAMPS helicopter system p0151 879-19632
Modeling and analysis of man-machine interface information [AD-A063515] p0178 879-21772
A complex system for planning scientific medical research
Problem-oriented program approach to planning and management of medicine
The conception of the systems analytic approach to planning and organization of medical scientific research
Current status and prospects of continued refinement of planning and coordination of scientific medical research
Use of the systems analytic approach for organization and coordination of complex biomedical research

MANEUVERABILITY
The application of integral performance criteria to the analysis of discrete maneuvers in a driving simulator

MANEUVERS
MT AIRCRAFT MANEUVERS
Car driving as a cybernetic task (1979-6)

MANIPULATORS
MANIPULATORS
Adaptive control of a robotic manipulator
Control of robot manipulators from the modeling of their dynamics -- French thesis
Object-handling system for manual industry
Control systems for robots and manipulators -- Russian book
A comparison of control modes for time-delayed remote manipulation
Advanced teleoperators -- remote manipulation system
The mechanical properties of manipulation systems
Computer augmented manual control of remote manipulators
An operator-aiding manipulator control system
Computer aided control of a mechanical arm
Seal-directed mechanics of controlled manipulators -- Russian book
Event-driven displays for manipulator control
Manned simulations of the SMS in SIMAC
The prototype-type joint assembly TACPAW (Triple Axis Common Pivot Arm Wrist), phase 2

SIMPLE MODELS FOR THE SHUTTLE REMOTE MANIPULATOR SYSTEM
Advanced industrial robot control system
Multi-axis hand controller for the shuttle remote manipulator system
The development of a six degree-of-constraint robot performance evaluation test
Two measures of performance in a peg-in-hole manipulation task with force feedback
Terminal guidance sensor system
Compact artificial hand
Proximity-vision system for protolight manipulator arm
Study of modeling and evaluation of remote manipulation tasks with force feedback

TRANSLATIONS ON USSR SCIENCE AND TECHNOLOGY
The role of cognitive switching in head-up displays
Analysis of visual estimation of system state from arbitrary displays
The role of cognitive switching in head-up displays --- to determine pilot ability to accurately extract information from either of two sources

MANAGEMENT
MANAGEMENT PLANNING
Translations on USSR science and technology: Biomedical and behavioral sciences, no. 52 --- with emphasis on research management [JOPSS-72604]
Two measures of performance in a peg-in-hole manipulation task with force feedback
Terminal guidance sensor system
Compact artificial hand
Proximity-vision system for protolight manipulator arm
Study of modeling and evaluation of remote manipulation tasks with force feedback [NASA-158721]

MATHEMATICAL MODELS

Overall loudness of steady sounds according to theory and experiment (NASA-RP-1001)
Some of the problems involved in planning biological experiments

MATHEMATICAL MODELS

MT DIGITAL SIMULATION

Various modeling approaches in biomechanics --- analog simulation of impact events
Models for automated motor skills training --- computer controlled adaptive instruction
A prediction model of arm push strength in the transverse plane
Simulation and control of a human temperature regulation system
The multiloop concept of the pilot work load as a basis of future experiments and studies (ONERA, TP NO. 1978-10)
Ergonomic stability considerations with vestibular models

MATHEMATICAL MODELS

MT ANALOG SIMULATION

Modeling the effect of axial bronchial tension on expiratory flow
Regulation and efficiency of sweating in man /Mathematical modeling/
Modeling heat transfer through human skin subjected to high external temperatures
Linearization and sensitivity analysis of model for human eye movements
A theoretical model to estimate some ergonomic parameters from age, height and weight
Techniques of the regulation of the respiratory system in man
Deductive derivation of a mathematical model for spectral sensitivity of the human organ of sight, I, II
Evaluation of models describing human operator control of slowly responding complex systems --- thesis
A simple analogical model for the selection of optical activity and of the most efficient catalysts in the course of molecular evolution
The eccentric spheres model as the basis for a study of the role of geometry and inhomogeneities in electrocardiography
Analysis of population mortality kinetics with application to the longevity followup of the Navy's '1,000 aviators'
A structural model of the adaptive human pilot
Mathematical model of the respiratory rhythm generation process
Modeling human tracking performance in a high G-stress environment
Fundamentals of electrical processes in the electrophysiology of the heart
Basic biomechanics equations for cardiovascular flow
A behavioral model of target acquisition in realistic terrain
Density dependence of maximum expiratory flow
Aerodynamic forces exerted on an articulated human body subjected to windblast
Some recent results on the deposition of electromagnetic energy in animals and models of man

A-124

SUBJECT INDEX

Modeling the effects of high-G stress on pilots in a tracking task
AAA gunner model based on observer theory --- predicting a gunner's tracking response
Modeling the human as a controller in a multitask environment
A comparison of motor submodels in the optimal control model
Prospects of a mathematical theory of human behavior in complex man-machine systems tasks --- time sharing computer analogy of automobile driving
Petri nets as a modeling tool for discrete concurrent tasks of the human operator --- describing sequential and parallel demands on human operators

Discrete-time pilot model --- human dynamics and digital simulation

A model for dynamic allocation of human attention among multiple tasks
A model of human event detection in multiple process monitoring situations
Mathematical simulation of the human circulatory system
Modelling the human operator of slowly responding systems using linear models
A model for the pilot's use of motion cues in roll-axis tracking tasks
Image processing program completion report
Cell response to chronic irradiation-modeling and simulation studies
A model for predicting human discomfort response to combined noise and vertical vibration

The role of computer technology mathematical models in treatment of patients following heart surgery
Modeling and analysis of man-machine interface information [AD-063515]
Some problems involved in using mathematical methods for evaluation of pathophysiological changes in the body
Use of a mathematical model of erythropoiesis for evaluation of effects of space flight factors

A two level model of human steering behavior in a motor vehicle
Sec's instructions for the erythropoiesis regulatory model

Development of an hypothesis for simulating anti-orthostatic bed rest
Dynamic regulation of erythropoiesis: A computer model of general applicability

A simple model of fluid flow and electrolyte balance in the body
Improvements and validation of the erythropoiesis control model for bed rest simulation
The development of a whole-body algorithm

User's instructions for the GE cardiovascular model to simulate LBNP and tilt experiments, with graphic capabilities

Study report on guidelines and test procedures for investigating stability of nonlinear
cardiovascular control system models
[NASA-CR-160221]
p0219 N79-25734
The application of systems analysis and computational models to the study of erythropoiesis during space flight
[NASA-CR-160218]
p0219 N79-25739
Tolerance of the neck to indirect impact
[AD-A066971]

### MOTION AFTEREFFECTS

- Space Sled - A multipurpose apparatus for vestibular research aboard Spacelab
- Effects of target motion and image on AAA tracking
- Anti-Aircraft artillery

### MOTION EQUATIONS

#### EQUATIONS OF MOTION

- Factors controlling the competing sensations produced by a bistable stroboscopic motion display
- Hyper-resolution in human perception of movement in visual displays
- Optokinetic motion sickness - Attenuation of visually-induced apparent self-rotation by passive head movements
- Unidirectional increase in threshold for image shifts during saccadic eye movements
- Smooth pursuit eye movements - Is perceived motion necessary
- Changes in apparent body orientation and sensory localization induced by vibration of postural muscles - Vibratory synesthetic illusions
- Perception of continuity in stroboscopic motion - A temporal frequency analysis
- The interpretation of visual motion
- The visual perception of motion in depth
- The role of perceived motion in smooth pursuit eye movements
- The effect of expectations on slow oculomotor control. I - Periodic target steps. II - Single target displacements
- Form information is necessary for the perception of motion
- Direction-selective adaptation with very slow motion
- Mutual repulsion between moving visual targets
- Motion and vision. I - Stabilized images of stationary gratings
- Visual motion perception by intelligent systems

### MOTION PERCEPTION

- Faints controlling the competing sensations produced by a bistable stroboscopic motion display
- Hyper-resolution in human perception of movement in visual displays
- Optokinetic motion sickness - Attenuation of visually-induced apparent self-rotation by passive head movements
- Unidirectional increase in threshold for image shifts during saccadic eye movements
- Smooth pursuit eye movements - Is perceived motion necessary
- Changes in apparent body orientation and sensory localization induced by vibration of postural muscles - Vibratory synesthetic illusions
- Perception of continuity in stroboscopic motion - A temporal frequency analysis
- The interpretation of visual motion
- The visual perception of motion in depth
- The role of perceived motion in smooth pursuit eye movements
- The effect of expectations on slow oculomotor control. I - Periodic target steps. II - Single target displacements
- Form information is necessary for the perception of motion
- Direction-selective adaptation with very slow motion
- Mutual repulsion between moving visual targets
- Motion and vision. I - Stabilized images of stationary gratings
- Visual motion perception by intelligent systems

### MOTION SICKNESS DRUGS

- Prevention and treatment of space sickness in Shuttle-Orbiter missions
- Motion sickness in cats - A symptom rating scale used in laboratory and flight tests
- Third Symposium on Motion Sickness

### MOTION SICKNESS STIMULATION

- Application of control theory to the investigation of roll motion effects on pilot control behavior
- The relationship between flight simulator motion and training requirements
- A method motion simulator design based on modeling characteristics of the human operator
- Investigation of nonlinear motion simulator washout schemes
- The effect of a visual/motion display mismatch in a single axis compensatory tracking task
- The driving simulator developed by the Institute for Perception TMO. A validation study in straight road driving

### MOTION STABILITY

- Aerodynamic Stability
- Aircraft Stability
- Flow Stability
- Hovering Stability

### MOTION SYSTEMS (BIOLOGY)

- Motor Vehicles
- Tractors
- Trucks
- The driving simulator developed by the Institute for Perception TMO. A validation study in straight road driving
- Impact tests on crash helmets for motor cyclists

### MOUNTAIN INHABITANTS

- Investigation of the content of hemoglobin and its fractions in permanent inhabitants of the Tien Shan and Pamir
- Oxygen affinity of blood in altitude Sherpas

### MOVEMENT

- G motion

### MOVING TARGET INDICATORS

- Line criteria in target acquisition with television
- Visual cues in manual tracking of simulated targets
- Estimation of aircraft target motion using pattern recognition orientation measurements

### MOUNTAIN VEGETATION

- The effect of a visual/motion display mismatch in a single axis compensatory tracking task
- The driving simulator developed by the Institute for Perception TMO. A validation study in straight road driving
Mechanical efficiency of fast- and slow-twitch muscle fibers in man during cycling

Recovery of skeletal muscle after 3 mo of hindlimb immobilization in rats

Mechanisms for the regulation of human posture during movements of the foot

Characteristics of somatic and autonomic regulation during work of small muscle groups as a function of loading regime

Effect of hypoxia on mechanical properties of hypertrophic rat papillary muscle

The effect of microwave fields on muscle oxygen pressure and temperature in animals previously adapted to hypoxia

Development of adaptation to hypodynamics on rat and its readaptability to ambulatory life

Carbohydrate metabolism of the stimulated diaphragm muscle

Nonshivering thermogenesis in normal and dystrophic muscle

Changes in properties of rat femur as a result of extracutaneous and hypokinesia

The pulmonary circulation: Studies on alveolar hypoxia and vascular smooth muscle metabolism

Recruitment and discharge properties of motor units in human brachial biceps and adductor pollicis during isometric contractions

NEUROMUSCULAR TRANSMISSION

A discrete parameter model of the head and neck with neuromuscular feedback

p0211 A79-24627

NEUROTRANSMISSION

Auditory analysis of complex sound

p0166 A79-31179

Electrophysiological investigations --- Russian book

p0167 A79-31899

Dynamics of the impulse activity of the neurons in the posterior hypothalamus upon exposure to microwaves

p0186 A79-35918

The effect of thermal stimulation of the skin on activity of lateral crescent interneurons of lumbar segments

p0208 A79-38147

NEUROTRANSMISSION

Mathematical model of the respiratory rhythm generation process

p0233 A79-42294

The effects of high nitrogen tensions of the properties of neuronal membranes and synaptic transmission

[AD-A063856] p0213 A79-24647

Biological effects of laser irradiation on nerve cells

p0247 A79-27840

NEUROPHYSIOLOGY

The sensory systems --- Russian book on neurophysiology and biophysics research

p0042 A79-14313

Intrinsic noise, threshold sensitivity, and adaptation of the retina

p0043 A79-14373

Neurophysiology of thermal reception

p0043 A79-14374

The trajectories of saccadic eye movements

p0065 A79-18250

Elements of the theory of biological analyzers --- Russian book

p0132 A79-26450

Piecewise Fourier analysis of images and the role of occipital, temporal and parietal cortex in visual perception

p0160 A79-29248

Neural regulation of coronary circulation

p0208 A79-38148

The role of the neurohormone system of the hypothalamus in physiology and pathology --- Russian book

p0251 A79-43835

Central and reflex mechanisms of controlling movements --- Russian book

p0251 A79-43950

The visual cortex of normal and deprived monkeys

p0296 A79-51174

Some neurochemical characteristics of rats after space flight in the Cosmos-936 satellite

p0299 A79-52475

Neurophysiological bases of vestibular conditioning

p0013 A79-10599

Vestibular Function Research (VFR) experiments...

Phase II: Design definition study

Evidence for the neural regulation of respiration during low intensity exercise in man

p0144 A79-18578

A description of the recent neuropsychological selection of pilots for land forces light aircraft

p0151 A79-19633

Regulation of the carbon dioxide tension in arterial blood during inhalation of carbon dioxide in birds and mammals

p0165 A79-20713

Experimental and theoretical investigations concerning a frequency filter behavior of the human retina regarding electric pulse currents

[NASA-CT-75372] p0374 A79-33822

Network Analysis

Modeling and analysis using SAINT --- A combined discrete/continuous network simulation language --- Systems Analysis of Integrated Network of Tasks for RPV

p0067 A79-14240

Combined discrete network-continuous control modeling of man-machine systems

p0260 A79-29879

NEUROLOGY

Vision

p0095 A79-15894

NEUROMUSCULAR TRANSMISSION

Stereological ultrastructural analysis of the axonal endings in the neuromuscular junction of rats after a flight on biosatellite 782

p0101 A79-23686

A simple technique for evaluation of vitality loss in aging mice, by testing their muscular coordination and vigor

p0274 A79-50205

Directional errors of movements and their correction in a discrete tracking task --- pilot reaction time and sensorimotor performance

p0886 A79-15589
Clinical importance of directional statistics for electrocardiographic differentiation of smoking habits

Observation of night shipboard helicopter operations from a 210 foot US Coast Guard cutter

Operational consideration of AN/PVS-5 night vision goggles for helicopter night flight

Training requirements for helicopter operation with night vision goggles

Night vision goggles and in-flight evaluation of the inside/outside refocusing problems in a UH-1H helicopter

Nitrogen fixation with photosynthetic marine microorganisms

The effects of high nitrogen tensions of the inside/outside refocusing problems in a UH-1H helicopter

The loudness of tinnitus

The loudness of tinnitus

The loudness of tinnitus
NUTRITION

Mechanisms of deterioration of nutrients --- improved quality of freeze-dried foods

[NASA-CR-160128] p0156 79-19686

NUTRITION

Effects of dietary composition on nutritional state in rats during exposure to high altitude

A technology assessment of vegetable substitutes for animal protein in human food. Volume 1:
The study

[PB-284681/4] p0059 79-13719

A technology assessment of vegetable substitutes for animal protein in human food. Volume 2:

Appendices

[PB-284682/2] p0059 79-13720

Orthomolecular enhancement of human development

p0095 79-15895

NUTRITIONAL REQUIREMENTS

NYSTAGMUS

Exercise performance and hemodynamics during dietary potassium depletion in dogs

p0067 79-18959

NYSTAGMUS

A fast-reacting and versatile optokinetic stimulus pattern by computer graphics with application examples

p0160 79-28993

Changes in optokinetic, postoptokinetic, and reverse postoptokinetic nystagmus after bilateral labyrinthectomy

p0255 79-46499

Pursuit after-nystagmus

p0271 79-49884

A study of the effects of six light conditions on caloric induced nystagmus

p0195 79-23652

OBESITY

Obesity and flying fitness

p0182 79-33388

OBSERVATION

M T VISUAL OBSERVATION

Ocean Surface

The application of remote sensors to a model for fish mapping

[INPE-1379-PR/176] p0071 79-14712

Minimum sea surface temperatures and associated survival times

[AD-A070162] p0315 79-33828

Ocean Sens

Human/computer control of underwater teleoperators

p0089 79-15612

OCULOGRAPHIC ILLUSIONS

Oculographic illusion in response to straight-ahead acceleration of a CF-104 aircraft

p0164 79-30660

OCULOMETERS

Flight management research utilizing an oculometer --- pilot scanning behavior during simulated approach and landing

p0001 79-10389

OCULOMOTOR VERVES

Perceptual localization, feature identification and ocular motor factors in scanning a visual display

p0064 79-18218

Oculomotor factors in visual perceptual response efficiency

p0209 79-38361

The effect of expectations on eye movements in humans during two-dimensional tracking

p0225 79-40187

Quality of retinal image stabilization during small natural and artificial body rotations in man

p0225 79-40187

Texture contours can facilitate stereopsis by initiating vergence eye movements

p0270 79-48816

Forms of oculomotor activity under conditions of positive visual feedback

p0276 79-50657

ON-LINE PROGRAMMING

Biomedical data validation through an on-line computer system

[PB-28529/9] p0057 79-13700

ONBOARD EQUIPMENT

U AIRBORNE/SPACEBORNE EQUIPMENT

ONBOARD SPACEBORNE COMPUTERS

ONBOARD EQUIPMENT FOR SPACEBORNE COMPUTERS

ONBOARD AIRCRAFT EQUIPMENT

ONBOARD LIGHT AIRBORNE MULTIPURPOSE SYSTEM

Development of aerospace-aviation equipment described

Multi-axis hand controller for the shuttle remote manipulator system

US Navy development of an On-Board Oxygen Generation (OBOG) system

OPERATIONS

MT AEROSPACE SYSTEMS

OPERATIONAL HAZARDS

Health maintenance and health surveillance considerations for an SPS space construction base community

p0099 79-21273

OPERATIONS RESEARCH

MT MATHEMATICAL PROGRAMMING

Operational Helicopter Aviation Medicine

[AGARD-CP-255] p0148 79-19605

A methodology for conducting human factors evaluations of vehicles in operational field tests

[AD-A056008] p0157 79-19691

Methodological and operational aspects of programmed environment research

[AD-A058587] p0289 79-31936

OPERATOR PERFORMANCE

On the man's adaptation to the operator's work under stressful conditions of space flight

TAP PAPER 78-A-56) p0003 79-11345

Psychophysiological forecasting of efficiency

p0010 79-12867

Development and transfer of timesharing skills --- for human multiple task performance

p0035 79-13180

Effects of vibration on humans - Performance decrements and limits

p0035 79-13185

A composite view of task performance in hot environments

p0036 79-13186

Seating, console and workplace design - Seated operator reach profiles

p0036 79-13188

Seating, console, and workplace design - Integration of literature and accommodation model

p0036 79-13189

Imagery interpreter performance in the comparison of subjective estimates of photographic image quality

p0036 79-13191

Discrimination of density and clustering on four versions of a stochastic display --- human performance of pattern recognition

p0036 79-13192

Tracking in two dimensions as a function of dimension priorities and tracking difficulty

p0036 79-13193

Lateral orientation and cerebral activation - Considerations for information display

p0037 79-13199

A prediction model of arm push strength in the transverse plane

p0037 79-13199

Synthetic aperture radar operator tactical target acquisition research

p0037 79-13209

Target acquisition in realistic terrain

p0037 79-13203

Depth perception and manual control

p0038 79-13207

The event related cortical potential as an index of task workload

p0038 79-13208

Task functional demands as factors in dual-task performance

p0039 79-13210

Observer performance using a video display --- in simulated air to ground target acquisition tasks

p0039 79-13217

Experimental designs for investigating complex human operator/machine systems
Adaptive supervisory control of remote manipulation

Computer-graphics design for human performance

Man-machine reliability - A practical engineering tool

Cross-validation of regression equations to predict performance in a pursuit tracking task

Man-robot interaction evaluation of computer operating system command and control service concepts - in SpaceLab

Target-terrain classification and detection performance -- to assess aerial photos for tanks

Line criteria in target acquisition with television --- visibility of target image on TV screen

Speed and load stress as determinants of performance in a time sharing task

Visual target acquisition and ocular scanning performance

Mobidity experience of air traffic control personnel - 1967-77

Army Aviation Training - Research now and then

Digital man-machine control systems - The effects of preview lag

The human operator in the control system: Linear models --- German book

Nonparametric model for the detection of signals observed by a human operator on a CRT screen on a noise background --- cathode-ray tube

Functional changes in the cardiovascular system of machine-tool operators under physical and neurologically stressful loads

Nonparametric measures of sensory efficiency for sustained monitoring tasks

A model of human decisionmaking in fault diagnosis tasks that include feedback and redundancy

A comparison of control modes for time-delayed remote manipulation

Measurement and scaling of workload in complex performance

Evaluation of models describing human operator control of slowly responding complex systems --- Thesis

Application of computer animation for dynamic display in complex energy systems --- for human operator performance improvement

A rationale for human operator pulse control behavior

Separation of the effects of raised skin and core temperature on performance of a pursuit rotor task

Psychophysical assessment of angular vibration - Comparison of vertical and roll vibrations

Adaptive estimation schemes for minimizing uncertainty in manual control tasks

Human operators in adversary tracking encounters

An operator-aiding manipulator control system

Survey of human operator modeling techniques for measurement applications

A formal model of the adaptive and discrete control behaviors of human operators

Survey of human operator models of the human operator

Psychological aspects of the human-operator's activity while tracking

Information-handling capacity of a human operator in detection of signals against a noisy background

The behavior of observers in detecting unbriefed targets at different aircraft speeds with side-looking radar

The 14th Annual Conference on Manual Control --- digital simulation of human operator dynamics

A study of the effect of forcing function characteristics on human operator dynamics in manual control

Effects of uncertainty on manual tracking performance --- visual tasks

Modeling the human as a controller in a multitask environment

The internal model: A study of the relative contribution of proprioception and visual information to failure detection in complex systems --- sensitivity of operators versus monitors to failures

Closed loop models for analyzing the effects of simulator characteristics --- digital simulation of human operators

Petri nets as a modeling tool for discrete concurrent tasks of the human operator --- describing sequential and parallel demands on human operators

Human operator identification model and related computer programs

The application of integral performance criteria to the analysis of discrete maneuvers in a driving simulator

Multi-attribute subjective evaluations of manual tracking tasks vs. objective performance of the human operator

A control theoretic model of driver steering behavior

Modelling the human operator of slowly responding systems using linear models

Driver steering dynamics measured in car simulator under a range of visibility and roadmaking conditions

Sunglasses for drivers?

The impact of a Learn-Forget-Learn (LFL) curve and learning curves on a system effectiveness model

An adaptive controller which displays human operator limitations for a fighter type aircraft

Operator performance and localized muscle fatigue in a simulated space vehicle control

Selective attention: The influences of subject set and degree of prior habituation on performance of an attention task with distraction

Combined discrete network-continuous control modeling of man-machine systems

Visual search performance during simulated radar observation with and without a sweepline

The application of control theory to the investigation of roll motion effects on human operator performance

Models of human operators in vision dependent tasks

A survey of Applied Psychological Services' models of the human operator

SUBJECT INDEX

PERMEABILITY

PERIODICITY (BIOLOGY)

PERFUSION

PERIPHERAL VISION

PERIPHERAL CIRCULATION

PERFORMANCE TESTS

performance for potassium and sodium ions

PERMEABILITY

multiple tracer diffusion methods for the evaluation of cerebral capillary permeability and capillary blood flow rate in the rat

PERMITTIVITY

An empirical formula for broad-band SAR calculations of prolate spheroidal models of humans and animals -- Specific Absorption Rate

PERSEAN GULF

A biogeochemical study of the Abu Dhabi algal mats - A simplified ecosystem

PERSONALITY

Vibration, performance, and personality -- vibration effects on human performance and psychological factors

PERSONNEL

system operability - Concept and measurement in helicopter missions

PERSIAN GULF

subjective data in human reliability estimates

PERSONNEL SELECTION

psychological factors

PERSONNEL SELECTION

Psychological selection of payload astronauts

PERSONNEL SELECTION

Selection of astronaut candidates - Contribution of the exercise ECG and spirometry

PERSONNEL SELECTION

Multiple tests for astronaut selection - Study of cardiovascular reactions by the orthostasis test

PERSONNEL SELECTION

Special test for astronaut selection - Tests of tolerance in the centrifuge and in flight

PERSONNEL SELECTION

Special tests for astronaut selection - Muscular exercise test

PERSONNEL SELECTION

Male and female characteristics in vestibular testing - A step toward the selection of the best participants for space flight

PERSONNEL SELECTION

Preliminary selection of candidates for space flights

PERSONNEL SELECTION

Selection, training, and health care of working specialists for Shuttle/Spacelab and future

PHYSICAL FACTORS

Effects of exercise, vitamin E, and ozone on pulmonary function and lipid peroxidation
Effects of physical conditioning on cardiac mitochondrial function
Effect of water and electrolyte replacement during exercise in the heat on biochemical indices of stress and performance
Caloric and exercise requirements of space flight - Biostereometric results from Skylab
The effects of different levels of heat production induced by diaphoresis and eccentrcic work on thermoregulation during exercise at a given skin temperature
CO2 and exercise tidal volume
Mechanics of the regulation of the respiratory system in man
Plasma volume and electrolyte shifts with heavy exercise in sitting and supine positions
Effect of sodium and calcium ingestion on thermoregulation during exercise in man
Sweating responses during heat acclimation and moderate conditioning
Control of skin blood flow during exercise - Thermal and nonthermal factors
Physical performance and peak aerobic power at different body temperatures
Anaerobic threshold alterations caused by endurance training in middle-aged men
Response of women mountaineers to maximal exercise during hypoxia
Left blood flow - Rest and heavy exercise in sitting and supine positions in man
Temperature changes during exercise measured by thermography
Effect of physical training at moderate altitude
1050 m on hypoxic tolerance
Influence of exercise and CO2 on breathing pattern of normal man
Effects of endurance training on left ventricular dimensions in healthy men
The evolutionary pattern of exercise-induced ST segment depression
Hyperthermia and exercise --- plasma fluid and electrolyte effects on human thermoregulation
Technical efficiency of fast- and slow-twitch muscle fibers in man during cycling
Cross-adaptive effects of cold, hypoxia, or physical training on decompensation sickness in mice
Deconditioning-induced exercise responses as influenced by heat acclimation
Pulmonary function and maximum exercise responses following acute ozone exposure
Prediction of body temperatures during exercise in flying clothing
Effects of glycojen depletion and work load on postexercise O2 consumption and blood lactate
Frequency and amplitude analysis of the EMG during exercise on the bicycle ergometer
Metabolic adrenergic changes during submaximal exercise and in the recovery period in man

PHYSICAL FITNESS

Effects of endogenous factors on the process of gas bubble formation in the body related to decompression
Mechanics of breathing during graded exercise measured with the bodyplethysmograph
Measuring systolic time intervals at rest and under stress by external methods. Advantages in the evaluation of flyers
Metabolic responses of ponies to treadmill exercise in hyperoxia
Inokinetie exercise: A review of the literature
Combined effect of hyperoxia, low pressure and exercise on the rate of methylketone excretion from the human body
Evidence for the neural regulation of respiration during low intensity exercise in man
Effects of physical conditioning and electric stimulation on metabolic processes in the soleus muscle and structure thereof in hypokinetic man
External respiration and gas exchange reactions to exercise during rotation of man on a short-radius centrifuge
The influence of various physiological responses on ratings of perceived exertion before and after training
Evaluation of exercise-respiratory system modifications and preliminary respiratory-circulatory system integration scheme
Aortic blood flow velocity during exercise in man
The influence of exercise on bone atrophy
Evaluation of exercise-respiratory system modifications and integration schemes for physiological systems
The effects of dehydration on peripheral cooling
Stress management: A comparison of educational, aerobic and autosuggestive approaches
Possibility of improving assessment of cardio-pulmonary function by submaximal exercise on a bicycle ergometer

PHYSICAL FACTORS

Effect of impermeable clothing and respiration on work performance. Part 1: Laboratory studies
Influences of physical conditioning and deconditioning on coronary vasculature of dogs
Pulmonary blood volume and interventricular circulation time in physically trained and untrained subjects
Effects of endurance training on left ventricular dimensions in healthy men
Follow-up and transversal study of vital capacity and PFT sub values among personnel of the Belgian Army forces
Coronary atherosclerosis and fitness for flying
Cardiological findings in 115 pilots: Diagnoses and assessment of their flying fitness
Cardiovascular fitness of pilots of transport aircraft
Rehabilitation measures used to restore physical fitness of man after long-term restriction of...
Effect of exercise on collateral development in dogs with normal coronary arteries
Particle deposition due to turbulent diffusion in the upper respiratory system

Effects of exercise, vitamin E, and ozone on pulmonary function and lipid peroxidation
Effects of glycogen depletion and work load on postexercise 02 consumption and blood lactate

Distribution of pulmonary ventilation and perfusion during short periods of weightlessness
Responses of conscious rabbits to CO2 at ambient temperatures of 5, 20, and 35 C

Collision avoidance response stereotypes in pilots and nonpilots
The effect of normobaric hyperoxia on brain and liver tissue respiration in albino rats with different resistances to hypoxia

Structure of circulatory illusion as one of the criteria for physiological adaptability of the human organism
The physiological role of surface-active substances in the lung

Eye movements and symmetry — Foundations for a quantitative analysis of eye movements as they depend on the structure of the perception field
Early cardiovascular adaptation to zero gravity simulated by head-down tilt

Dulcogric illusion in response to straight-ahead acceleration
[Dulcogric illusion in response to straight-ahead acceleration]

Tissue gas and blood analyses of human subjects breathing 80% argon and 20% oxygen
Reproducing of human cardiovascular responses to orthostatic stress

Mechanical vs. ischemic mechanisms for decompression sickness
Modeling of visual-vestibular interaction and the fast components of nystagmus

Responses of high altitude natives to a standard cold test at sea level
Characteristics of vestibular nystagmus in rats

Coculographic illusion in response to straight-ahead acceleration of a CP-104 aircraft
A method of evaluating the pupillary reaction to auditory and vestibular stimuli

Cardiac response to whole-body heating
Antiorthostatic hypokinesia as an approximate model of weightlessness

Paradoxical reaction of some intracellular antioxidative defense mechanisms during adaptation of the organism to hypoxia
Reproducibility of human cardiovascular responses to orthostatic stress

Process of search control of coordinated movement in man
Modeling of vestibular-vegetative stability

The development of laser exposure limits
Principal results of experiment with monkeys onboard the Cosmos-782 biosatellite

Ageing and flying fitness
Space biology and aerospace medicine, volume 13, no. 1, 1979

Vestibulo-ocular nystagmus as a marker of space adaptation
Space biology and aerospace medicine, volume 13, no. 2, 1979

Vestibular-vegetative stability
Vestibular-vegetative stability

Heart rate: Physiological characteristics and quantification methods for use in behavioral studies
Heart rate: Physiological characteristics and quantification methods for use in behavioral studies

Immunophysiological aspects of man's adaptation to highland
A comparison of the physiological responses in young men and women to heat and cold stress

Evaluation of physiological indices during preflight medical examination of pilots
The influence of various physiological responses on ratings of perceived exertion before and after training

Microwave apexcardiography
Design specification for the whole-body algorithm

Origin of neuron responses of the superior colliculus to light flashes
Systems identification and application systems development for monitoring the physiological and health status of crewmen in space

Enhancement of luminance flicker by color-opponent mechanisms
Study report on combining diagnostic and monitoring systems for future spaceflight experiments

Hyperthermia and exercise — plasma fluid and electrolyte effects on human thermoregulation
A prioritized set of physiological measures for future spaceflight experiments

Using color substitution pupil response to expose chromatic mechanisms
[NASA-CR-160202]

PHYSIOLOGICAL RESPONSES CONTD
PHYSIOLOGICAL TELEMETRY

Subject Index

PHYSIOLOGICAL TELEMETRY

The validation of biodynamic models
Blood coagulation and tissular factors of blood clotting in heparinized rabbits submitted to hypoxia

PHYSIOLOGICAL TESTS

Biological research of some forms of adaptation to extreme influences in man

3 BIOTELEMETRY

Prediction of body temperatures during exercise in flying clothing
Biochemical properties of muscles and the efficiency of movement
Dynamical characteristics of visual functions
Forms of oculomotor activity under conditions of positive visual feedback
Auditory evoked potentials during short-term auditory stimulation
Time parameter in microwave irradiation -- rodent experiments on damage and recovery
Lungs oxygen diffusibility and permeability in dogs of various ages under normal conditions and in cases of acute hypoxic hypoxia
The effect of the reduction of inspired gas density on external respiration
A cinematographic technique for investigating some aspects of visual recognition
Continuous long-duration recording of the heart rate by means of a noncontact technique
Changes in critical duration during dark-adaptation
Standardized examination methods in ergometry
Detection of coronary artery disease in apparently healthy, asymptomatic aircrew members using thallium-201 myocardial perfusion scintigraphy
Cardiological findings in 115 pilots: Diagnoses and assessment of their flying fitness
Normal and pathological cardiovascular findings in applicants to the Air Force service
Stability of circadian system of the body
Comparative experiments on performance and fatigue effects on pilots using tracking tests and physiological measurement parameters
Ergometric tests in expert medical certification evaluations of flight personnel
Results of a 64Cu-loading test applied to patients with an inherited defect in their Cu-metabolism (Menkes disease)
The oral 64Cu-loading test: Applications and problems
Effects of acute noise trauma on whole-nerve and single-unit activity
Effects of acute noise trauma on response execution processes in choice reaction tasks

SUBJECT INDEX

PILOT PERFORMANCE

Response surface methodology as a manipulator of complex task difficulty — for computer generated aircraft area navigation control-display systems evaluation

Multifunction keyboard configurations for single-seat, air-to-ground fighter cockpits

The assessment of rotary wing aviator precision performance during extended helicopter flights

Development of automated performance measures for introductory air combat maneuvers

Experimental and psychological investigations in aviation and astronautics — Russian book

Increasing pilot's performance capacity during flight through use of a control element serving as information carrier

[DGMR PAPER 78-152]

High 'Q' escape protection — pilot restraint during high speed ejection

The multiloop concept of the pilot work load as a basis of future experiments and studies

Application of control theory to the investigation of roll motion effects on pilot control behavior

Selection and techniques for analysis of indices of visual data reception. II — aircraft pilot eye movements

The man-computer division of tasks in the case of the control of complex technical systems — applied to aircraft

Quantifying operator preference during human factors test and evaluation — in helicopter design

Time estimation as a technique to measure workload — of aircraft pilot in flight simulation

AWACS, a research facility for defining flight trainer visual system requirements

Augmented feedback in adaptive motor skill training

The effects of prediction, quickening, frequency separation, and percent of pursuit in perspective displays for low-visibility landing

An investigation of pictorial and symbolic aircraft displays for landing

Pilot performance during flight simulation with peripherally presented visual signals

Human factors considerations in the design and evaluation of a helmet mounted display using a light emitting diode matrix

Night vision goggles and in-flight evaluation of the inside/outside refocusing problem in a DH-1H helicopter

Simulator Training Requirements and Effectiveness

Study /STRES/

Air Combat Maneuvering Range /ACMB/ - Bas operational performance measurement entered a Golden Age

On the relationship between pilot rating and pilot dynamics. I — An experimental approach

On the relationship between pilot rating and pilot dynamics. II — An analytical approach

Human engineering study of information processing applicable to helmet-mounted displays

Collision avoidance response stereotypes in pilots and nonpilots

Incapacitation time for +Gz-induced loss of consciousness

PILOT PERFORMANCE

heart valves and vasconstriction

Physiological system integrations with emphasis on the respiratory-cardiovascular system

The application of sensitivity analysis to models of large scale physiological systems

Study report on interfacing major physiological subsystem models: An approach for developing a whole-body algorithms

Physiological fluid dynamics

Diagnosis of cutaneous thermal burn injuries by multispectral imaging analysis

PHOTODISRUPTION

Adaptive optimization of exchange of gases in plants in a sealed phytotron

PICOSECOND PULSES

Suprathereshold retinal damage due to single 6 picosecond 1060 nm laser light pulses

PIGMENTS

MY CHLOROPHYLLS

MT VISUAL PIGMENTS

PILOT ERROR

False hypothesis and the pilot — aircraft accidents due to decision making errors

Application of performance model to assess aviator critical incidence

Physiological biohyths as a correlate of pilot error accidents and incidents

Human error accidents — Some case studies — for aircraft

Judgement evaluation and instruction in civil pilot training

Directional errors of movements and their correction in a discrete tracking task — pilot reaction time and sensorimotor performance

Human Factors Aspects of Aircraft Accidents and Incidents

Three decades of USAF efforts to reduce human error accidents, 1947-1977

Analysis of the intervention of the human factor as a principal cause or influence in accidents of Mirage aircraft in the Belgian Air Force

Pilot incapacity in flight

Geographical disorientation and flight safety

PILOT PERFORMANCE

Flight management research utilizing an ocnometer — pilot scanning behavior during simulated approach and landing

The application of computer aided evaluative techniques to systems test and evaluation — of fighter aircraft pilot performance

The effects of ambient illumination, aircraft velocity and feedback on absolute distance judgments during simulated night map-of-the-earth flight

Investigation of arrangement of multipurpose displays and use of tailored control logic in a fighter aircraft cockpit

Visual workload of the copilot/navigator during terrain flight

Four years of color research for visual displays — human performance consideration for use in aircraft

Growth of pulmonary circulation in normal pig —
Noninvasive assessment of pulmonary hypertension
Pulmonary blood volume and interventricular
time in physically trained and
untained subjects
Cardiopulmonary readjustments in passive tilt
The lung as a filter for microbubbles
Noninvasive assessment of pulmonary hypertension
[PB-283915/45]
Noninvasive assessment of pulmonary hypertension
[PB-285121/00]
A systematic approach to computer analysis of
vascular patterns
The pulmonary circulation: Studies on alveolar
hypoxia and vascular smooth muscle metabolism

PULMONARY FUNCTIONS
Monitoring the state of the human airways by
analysis of respiratory sound
[TTAP PAPER 78-66]
Growth of pulmonary circulation in normal pig —
Structural analysis and cardiopulmonary function
Effects of exercise, vitamin E, and ozone on
pulmonary function and lipid peroxidation
Distribution of pulmonary ventilation and
perfusion during short periods of weightlessness
Changes in lung volume, lung density, and
distribution of ventilation during hypobaric
decompression
Glucose metabolism in rat lung during exposure to
hyperbaric 02
Improved measurements of shear modulus and pleural
membrane tension of the lung
Distribution of regional volumes and ventilation
in excised canine lobes
A revised model of gas transport in human lungs
Pulmonary functional tolerance to ionizing
radiation - An experimental study
Adaptation to chronic hypoxia in the rat — A
study of pulmonary surfactant, tissue levels of
superoxide dismutases and histology
Absence of effects of hypoxia on small airway
function in humans
Pulmonary function and maximum exercise responses
following acute ozone exposure
Lung inflation and longitudinal distribution of
pulmonary vascular resistance during hypoxia
Evidence for increased intrathoracic fluid volume
in man at high altitude
Specific Findings in Cardiology and Pulmonary
Function with Special Emphasis on Assessment
criteria for flying
[AGARD-CP-233]
Detection and supervision of obstructed
respiratory flows in flyers. Advantages of
debt-volume graphs
Long term pulmonary function patterns in the
aviator: The thousand aviator study
Technical evaluation report on the Aerospace
Medical Panel London Specialists' Meeting, Fall
1977 --- disease prevention, flight fitness, and
findings in cardiology and pulmonary function
[AGARD-AR-131]
Specific findings in cardiology and pulmonary
function with special emphasis on assessment
criteria for flying
Effects of oxides on nitrogens, carbon monoxide and
photochemical oxidants on the ECG during
exercise and on cardiopulmonary function
[PB-291505/77]
Cardio-pulmonary response to shock
[AD-A065672]
Pneumotachographic distinctions of external
respiration in man in the presence of excess
tropolmonary pressure on ground level and at
high altitudes
Possibility of improving assessment of
cardio-pulmonary function by submaximal exercise
on a bicycle ergometer
[ML-TR-11657]
PULMONARY LESIONS
The effects of strong shock waves on mortality
rates and percentages of pulmonary lesions in
rats as a function of the number of exposures
[NASA-TM-75598]
Evidence for increased intrathoracic fluid volume
in man at high altitude
[AD-A065333]
The development of laser exposure limits
Superthreshold retinal damage due to single 6
picosecond 1060 mm laser light pulses
The effects of participatory mode and task
Cross-validation of regression equations to
Augmented feedback in adaptive motor skill training
A mechanism for high-frequency electromagnetical
field-induced biological damage
A sample volume tracking unit for pulsed Doppler
echocardiography
A sample volume tracking unit for pulsed Doppler
The effects of prediction, quickening, frequency
perspective displays for low-visibility landing
Separation, and percent of pursuit in
dimension priorities and tracking difficulty
A method of evaluating the pupillary reaction to
Support from the equivalent-background hypothesis
The effects of participatory mode and task
Using color substitution pupil response to expose
chromatic mechanisms
A method of evaluating the papillary reaction to
vestibular stimuli
Evidence for the equivalent-background hypothesis
in cones --- for dark adaptation thresholds
Using color substitution pupil response to expose
chromatic mechanisms
PULMONARY LESIONS
The effects of strong shock waves on mortality
rates and percentages of pulmonary lesions in
rats as a function of the number of exposures
[NASA-TM-75598]
Evidence for increased intrathoracic fluid volume
in man at high altitude

Skin temperature changes in paradoxical sleep in man in the cold p0201 A79-37706
The influence of intermittent aircraft noise on sleep. I p0255 A79-64599
Electrophysiological investigation of sleep during work-shift regime and production-induced emotional stress
The use of Na-22 as a tracer for long-term bone mineral turnover studies.

Thresholds for Na+/+ and Ca/++/ effects on permeability for potassium and sodium ions.

Mechanism of effects of microwaves on erythrocye responses to heat exposure in sodium depleted and repleted subjects.

Chemical fingerprints of life in terrestrial soils and in the ground squirrel (Citellus lateralis).

A prioritized set of physiological measurements for future spaceflight experiments

The application of systems analysis and mathematical models to the study of erythropoiesis during space flight

Space biology and aerospace medicine, v. 13, no. 3, 1979

The combined effect of space flight factors and radiation on rat skeletal muscles

Catecholamines and enzymes of metabolism thereof in the rat hypothalamus after flight aboard Cosmos-782 biosatellite

Tissular metabolism in mixed type fibers of rat skeletal muscles after flight aboard Cosmos-690 biosatellite

Immunological reactivity of rats flown aboard Cosmos-605 and Cosmos-690 biosatellites

Possibilities of preventing adverse reactions in simulating the acute period of adaptation to weightlessness

Morphological distinctions of the rat thyroid and parathyroid following long-term space flights

Food packages for Space Shuttle

Caloric and exercise requirements of space flight

Prospects of using Japanese quail in biological life support systems

Elongation of the equatorial diameter of the liver during 6 days of spaceflight

Food and waste management biotechnology for the space shuttle

Anethum graveolens

The effect of ultrasound on botulin toxin

Some neurochemical characteristics of rats after space flight on the Biosputnik 936

Continuous metabolic and cardiovascular response of rats to transverse acceleration loading after space flight on the Biosputnik 936

Influence of orbital flight conditions on formation of genitals in Muscari raceoasis and Antheros gravoales

Erythropoietic effects of space flight

Ultrasound investigations of the soleus muscle after space flight on the Biosputnik 936

Determination of muscle mass changes in legs from K-40 measurements

Effect of microwave radiation on the resistance of rats to transverse acceleration loading

New psychoenergetics training - One of the most important factors of enhancing the safety of space flights

Space biology and aerospace medicine, vol. 12, no. 5, 1978
The importance of providing stereoscopic vision in training for nap-of-the-earth /HOE/ flight.

Significance of motor activity for spatial hearing.

Digital color image compression in a perceptual framework.

The common occurrence of errors of perceived position as a function of viewing distance.

Axiomatic summary and deductions from Bering's principles of visual direction.

A comparison of oculonotor and motion parallax cues of egocentric distance.

Development of space biology experiments for the Shuttle/Spacelab and beyond - Bioscience problems in the Space Station missions.

Life sciences in the Shuttle era.

Advanced life support equipment for nitrogen gas systems on the space shuttle using ethylene oxide sterilization.

Food packages for Space Shuttle.

Simple models for the shuttle remote manipulator system.

Human factors in Space vehicles and space stations.

Biomedical application in space, pilot program in the southern California region.

Food and waste management biotechnology for the Space Shuttle.

Advanced teleoperators --- remote manipulation systems for space vehicles.

Life sciences in the Shuttle era.

Food packages for Space Shuttle.

The growth of single crystals from proteins in weightless space.

A comparison of oculonotor and motion parallax cues of egocentric distance.

Food packages for Space Shuttle.

Biological study of tobacco seeds flown in the joint Apollo-Soyuz test-project.

TARGET RECOGNITION

TARGETS

TARGET SIMULATORS

TARGETS

TASK COMPLEXITY

Development and transfer of timesharing skills -- for human multiple task performance

The application of computer aided evaluative techniques to system test and evaluation -- of fighter aircraft pilot performance

Tracking in two dimensions as a function of dimension priorities and tracking difficulty

The event related cortical potential as an index of task workload

Response surface methodology as a manipulator of complex task difficulty -- for computer generated aircraft area navigation control-display systems evaluation

Task taxonomy -- Two ignored issues -- criteria for task evaluation with respect to empirical data

Task functional demands as factors in dual-task performance

The man-computer division of tasks in the case of the control of complex technical systems -- applied to aircraft

An algorithm to ascertain critical regions of human tracking ability

Measurement and scaling of workload in complex performance

A preliminary study of the air traffic controller's picture

Visual search for complex targets

Pilot workload in the aircraft of the future

Pilot workload during final approach in congested airspace

Modeling the human as a controller in a multitasking environment

Prospects of a mathematical theory of human behavior in complex man-machine systems tasks -- time sharing computer analogy of automobile driving

Petri nets as a modeling tool for discrete concurrent tasks of the human operator -- describing sequential and parallel demands on human operators

A model for dynamic allocation of human attention among multiple tasks

A model of human event detection in multiple process monitoring situations

A quasi-linear control theory analysis of timesharing skills

Two measures of performance in a peg-in-hole manipulation task with force feedback

Task complexity and 24-hr performance patterns in morning and evening active subjects

Time-sharing ability in complex human operators: An expanded replication

Simulated D/A operation of a remote connector assembly test report

Study of modeling and evaluation of remote manipulation tasks with force feedback

Analytical methods for biotechnological design of man-machine systems: Work on systems ergonomy

Some human responses to repeated +G sub z pulses

Performance and workload analysis of inflight helicopter missions

A-193
for task evaluation with respect to empirical data
Cel-electrophoresis studies for the taxonomic
characterization of soil microorganisms

Intrinsic noise, threshold sensitivity, and adaptation of the retina
The equivalent background and retinal eccentricity
Unidirectional increase in threshold for image shifts during saccadic eye movements
Experimental investigation of the visual system using one-dimensional Walsh gratings
Visual contrast sensitivity functions obtained with colored and achromatic gratings
Detection of coloured stimuli by independent linear systems
Evidence for the equivalent-background hypothesis in cones — for dark adaptation thresholds
Light adaptation in a normal and a rod monochromat — Psychophysical and VEP incremental threshold comparisons
Temporary threshold shift from transportation noise

Subject Index

A-197
Using color substitution pupil response to expose chromatic mechanisms

Direction-selective adaptation with very slow motion

Effect of adaptation level on certain visual functions in man

Upper-velocity threshold for detection of movement

Arousal from sleep by emergency alarms: Implications from the scientific literature

Predicting individual listener confusions in the classification of complex, steady-state sounds

Human factors aspects of aircraft accidents and incidents

Histological studies on tibial bone of rats in the 1975 Cosmos-782 flight. Part 2: Supporting tissue --- Cosmos 782 environment: Tumor development and anatomy

Morphological distinctions of the rat thyroid and parathyroid following long-term space flights

In-vivo bone strain telemetry in monkeys. Part 2: Microradiographic study of cortical bone

Responses of crown gall tissue to the space environment: Glutamine synthetase activity

Determination of cerebral and neck subcutaneous tissue gas and blood analyses of human subjects breathing 80% argon and 20% oxygen

The effect of hyperoxia on the oxygen tension of blood and cerebral tissue

Moving phase transitions in laser-irradiated biological tissue

Application of similarity transformation to unsteady state heat migration problems in human skin and subcutaneous tissues

Determination of cerebral and neck subcutaneous tissue P02 with 3 and U +Gz in N. mulatta skin and subcutaneous tissues

Effects of dietary fats on atherosclerosis and thrombosis

Human Factors Aspects of Aircraft Accidents and Incidents

Prospects of a mathematical theory of human performance variances

A quasi-linear control theory analysis of time-sharing skills

The problem of optimally fast response as solved by the nerve cell

Visual search for complex targets

Regression models of search time for color-coded information displays

Influence of light adaptation on dark adaptation time for pattern recognition tasks

Time discrimination, temperature, and time of day --- human performance variances

A study of the available evidence on duration effects on comfort and task proficiency under vibration

Carbon monoxide and human time discrimination - Failure to replicate Beard-Verthein experiments

Discrete time modeling of heavy transport plane pilot behavior

Perceptual delay - A consequence of metacorss and apparent motion

A comparison of control modes for time-delayed remote manipulation

Time estimation as a technique to measure workload --- of aircraft pilot in flight simulation

Spatial summation in human vision - Simple reaction time measurements

Pilot workload during final approach in congested airspace

Time estimation as a secondary task to measure workload: Summary of research

The effect of hypoxia on mechanical properties of heart tissue

Effects of dietary fats on atherosclerosis and thrombosis

Human factors aspects of aircraft accidents and incidents

Histological studies on tibial bone of rats in the 1975 Cosmos-782 flight. Part 2: Microradiographic study of cortical bone

Responses of crown gall tissue to the space environment: Residual carbohydrates in supporting tissue --- Cosmos 782

Responses of crown gall tissue to the space environment: Tumor development and anatomy --- Cosmos 782

Responses of crown gall tissue to the space environment: Glutamine synthetase activity --- Cosmos 782

The problem of optimally fast response as solved by the nerve cell

Visual search for complex targets

Regression models of search time for color-coded information displays

Influence of light adaptation on dark adaptation time for pattern recognition tasks

Time discrimination, temperature, and time of day --- human performance variances

Listings in this index are arranged alphabetically by personal author. The title of the document provides the user with a brief description of the subject matter. The report number helps to indicate the type of document listed (e.g., NASA report, translation, NASA contractor report). The page and accession numbers are located beneath and to the right of the title. Under any one author's name the accession numbers are arranged in sequence with the first accession numbers appearing first.
Bioelectrical activity of the brain during 49-day antiorthostatic hypokinesia as an approximate comparison of physiological effects of head-down tiltting and immersion on the human body against physiological deconditioning in simulated weightlessness.

Changes in blood sugar content of dogs exposed to chronic gamma radiation for six years.

Effects of induced cyclic changes of deep body temperature on task performances.

Epimerization of L-isolencine on Na-montmorillonite and its implication to Precambrian chemical fossils.

Blood lipid changes in hypoxic rats.

Genetic effects of cosmic radiation on bacteriophage T4Br/+/ on materials of biological experiment Soyuz-Apollo/7.

Electrocardiographic abnormalities in Air Force personnel.

Comparative study of hypoxia and other non-invasive stress tests for evaluation of ischaemic heart disease.

Guidelines for fit testing and evaluation of USAF personal-protective clothing and equipment.

The influence of vehicle aerodynamic and control response characteristics on driver-vehicle performance.

The relationship between aerobic fitness and cardiovascular risk factors in the Canadian forces (AD-A069865).

The use of spinal analogue to compare human tolerance of repeated shocks with tolerance of vibration, part 1.

The effects of alcohol on driver performance in a car simulator experimentation.

The measurement and scaling of workload in complex performance.

The measurement and scaling of workload in complex performance.

Adaptive estimation of information values in continuous decision making and control of advanced aircraft.

Cross-adaptive effects of cold, hypoxia, or physical training on decompression sickness in mice.

The relationship between classical centers of the auditory tract and certain 'nonspecific' brain structures in the organization of the auditory system.

The relationship between classical centers of the auditory tract and certain 'nonspecific' brain structures.

PERSONAL AUTHOR INDEX

Specific findings in cardiology and pulmonary function with special emphasis on assessment criteria for flying

LANCASTER, R. P.
Detection of coronary artery disease in apparently healthy, asymptomatic aircrew members using thallium-201 myocardial perfusion scintigraphy

LANCAVIT, P. H.
A comparison of motor submodels in the optimal control model

LANDA, S. A.
Alterations in erythrocyte survival parameters in rats after 19.5 days aboard COSMOS 782

LAND, B. S.
Optokinetic motion sickness - Attenuation of visually-induced apparent self-rotation by passive head movements

LARDEN, L. A.
Effect of weightlessness and centrifugation (LGG) on erythrocyte survival in rats subjected to prolonged space flight

LARSON, V. L.
Specific findings in cardiology and pulmonary function with special emphasis on assessment criteria for flying

LARNER, J. K.
Studies of metabolism, function and mechanism of red cells [AD-A0702200]

LARCHER, B.
Radiofrequency radiation levels and population exposure in urban areas of the eastern United States [PB-292855/4]

LARCHER, B. V.
Radiofrequency radiation levels and population exposure in urban areas of the eastern United States [PB-292855/4]

LARK, J. E.
Controlled identification of inositol compounds and their role in the biological system

LARKIN, J. E.
Studies of hemodynamics and phase structure of blood flow in the human body

LARKIN, J. E.
Central and cerebral hemodynamics and metabolism of the healthy man during head-down tilting

LARKIN, J. E.
A method of evaluating the pupillary reaction to vestibular stimuli

LARKIN, V. L.
Regional blood supply under hypoxic hypoxia

LARKIN, N. L.
A perspective approach to the problem of ischemic vascular disease in the USAF

LARKIN, N. L.
Specific findings in cardiology and pulmonary function with special emphasis on assessment criteria for flying

LARKER, R. E.
Effects of vestibular stimuli on the electrical activity of muscles

LARKES, J. F.
Optokinetic motion sickness - Attenuation of visually-induced apparent self-rotation by passive head movements

LARKES, J. F.
Changes in apparent body orientation and sensory localization induced by vibrations of postural muscles - Vibratory synthetic illusions

LARKES, J. F.
Rotation at 30 RPM about the Z axis after 6 hours in the 10-deg head-down position - effect on susceptibility to motion sickness

LARKES, J. F.
Application of an isolated heart model to investigate blood-oxygen delivery

LARKES, J. F.
Investigation of techniques to reduce electrostatic discharge susceptibility of EED's containing plastic plugs

LARKES, J. F.
Distribution of regional volumes and ventilation in excised canine lobes

LARKES, J. F.
Scanning and transmission electron microscopy of the blood-bubble interface in decompressed rats

LARKES, J. F.
U.S. Navy development of an on-board oxygen generation /OBOG/ system

LARKES, J. F.
Environmental test and evaluation of a molecular sieve on-board oxygen generation system [AD-A059898]

LARKES, J. F.
US Navy development of an on-board oxygen generation (OBOG) system [AD-A063958]

LARKES, J. F.
Microbial transformation of nucleosides [NASA-CE-158686]

LARKES, J. F.
Radiofrequency radiation levels and population exposure in urban areas of the eastern United States [PB-292855/4]

LARKES, J. F.
Radiofrequency radiation levels and population exposure in urban areas of the eastern United States [PB-292855/4]

LARKES, J. F.
Acid-base curve nomogram for chimpanzee blood and comparison with human blood characteristics

LARKES, J. F.
Distribution of phytoplankton in Arkansas lakes [PB-292742/4]

LARKES, J. P.
Axial rotation at 30 RPM about the Z axis after 6 hours in the 10-deg head-down position - effect on susceptibility to motion sickness

LARKES, J. P.
Application of an isolated heart model to investigate blood-oxygen delivery

LARKES, J. P.
Investigation of techniques to reduce electrostatic discharge susceptibility of EED's containing plastic plugs

LARKES, J. P.
Distribution of regional volumes and ventilation in excised canine lobes

LARKES, J. P.
Scanning and transmission electron microscopy of the blood-bubble interface in decompressed rats

LARKES, J. P.
U.S. Navy development of an on-board oxygen generation /OBOG/ system

LARKES, J. P.
Environmental test and evaluation of a molecular sieve on-board oxygen generation system [AD-A059898]

LARKES, J. P.
US Navy development of an on-board oxygen generation (OBOG) system [AD-A063958]

LARKES, J. P.
Microbial transformation of nucleosides [NASA-CE-158686]

LARKES, J. P.
Radiofrequency radiation levels and population exposure in urban areas of the eastern United States [PB-292855/4]

LARKES, J. P.
Radiofrequency radiation levels and population exposure in urban areas of the eastern United States [PB-292855/4]

LARKES, J. P.
Acid-base curve nomogram for chimpanzee blood and comparison with human blood characteristics

LARKES, J. P.
Distribution of phytoplankton in Arkansas lakes [PB-292742/4]

LARKES, J. P.
Axial rotation at 30 RPM about the Z axis after 6 hours in the 10-deg head-down position - effect on susceptibility to motion sickness

LARKES, J. P.
Application of an isolated heart model to investigate blood-oxygen delivery

LARKES, J. P.
Investigation of techniques to reduce electrostatic discharge susceptibility of EED's containing plastic plugs

LARKES, J. P.
Distribution of regional volumes and ventilation in excised canine lobes

ZEPHM, V. P.
Compensatory reactions of the kidneys to orthostatic factors
p0015 A79-10708

ZEMORI, T. J.
Design considerations for inflatable head/neck restraint systems
p0043 A79-14407

ZEVEUZELE, R. O.
Computer aided control of a mechanical arm
p0275 A79-50334

ZELITOV, G. I.
Thermal effects during the exposure of ocular fundus tissues to laser radiation
p0238 A79-43057

ZHRENAKOV, A. P.
Evaluation of circulatory reactions in the head to antithrombotic position
p0245 A79-27832

ZIGAILO, T. L.
Individual differences in hypoxic responses at high altitudes
p0159 A79-28738

ZHIKIN, G. E.
Functional changes in the cardiovascular system of machine-tool operators under physical and neurologically stressful loads
p0160 A79-29270

ZHILLIS, D. G.
Effect of acute hypoxia on some parameters of renal excretory function and renal hemodynamics
p0245 A79-27828

ZHALILKAYA, V. P.
Biological experiments carried out aboard the biological satellite Cosmos-936
p0230 A79-17177

ZHALILKAYA, V. P.
Materials of the final report on the joint Soviet-American experiment on the Kosmos-936 biosatellite
p0071 A79-14711

ZIANE, D.
A description of the recent neuropsychological selection of pilots for land forces light aircraft
p0151 A79-19633

ZINCHENKO, T. P.
Visual information processing
p0076 A79-14747

ZINCHENKO, V. I.
Physiologicohygienic and ergonomic aspects of Salyut 6 cosmonauts extravehicular activity /EVA/
[p0303 A79-53486]

ZIPPER, D. H.
Improved airline-type supplied-air plastic suit
[p0282 A79-30943]

ZLATEK, A.
Early detection of disease: The correlation of the volatile organic profiles from patients with upper respiratory infections with subjects of normal profiles
[p0121 A79-17532]

ZOLIQS, G. P.
Stress factors on pilot performance. Citations from the International Aerospace Abstracts data base
p0260 A79-28878

ZON, J. R.
A hypothesis of plasmatic absorption of RF energy by biological objects
p0233 A79-42506

ZOSLAVSKAYA, V. B.
Physiologicohygienic and ergonomic aspects of Salyut 6 cosmonauts extravehicular activity /EVA/
[p0303 A79-53486]

ZUBER, G. F.
Enhancement of luminance flicker by color-opponent mechanisms
p0052 A79-48582

ZUCKER, R. S.
The application of integral performance criteria to the analysis of discrete maneuvers in a driving simulator
p0252 A79-44680

ZUKHUBAYA, V. B.
Application of integral performance criteria to the analysis of discrete maneuvers in a driving simulator
p0252 A79-44680

B-102
hemopoiesis

ZOROFF, B.
Comparison of plasma and urinary steroids in men with type A and type B behavior patterns
p0028 A79-11704

ZWICK, N.
Low level laser light effects
p0138 A79-28171

ZWIEBEL, W.
Real-time computerized fluoroscopic cardiac imaging
p0294 A79-51035

ZYBIN, O. K.
Effect of brief head-down hypokinesia on pressure in various parts of the healthy man's cardiovascular system
p0245 A79-27831

ZYBIN, O. K.
Central and cerebral hemodynamics and metabolism of the healthy man during head-down tilting
p0127 A79-24634

ZYKOV, P. N.
Ultrasonic doppler directional blood flow velocity meter
[RAE-LIB-TRANS-1918]
p0279 A79-20920

Stress management: A comparison of educational, aerobic and autosuggestive approaches p0269 N79-28675

ARKANSAS UNIV. FOR MEDICAL SCIENCES, LITTLE ROCK.

Molecular absorption of non-ionizing radiation in biological systems p0082 N79-15553

Army Aeromedical Research Laboratory, Fort Rucker, AL.

Left anterior hemiblock (LAB): Diagnosis and aeromedical risk p0029 N79-11715

An evaluation of perceptual-motor workload during a helicopter hover maneuver (AD-A050816) p0052 N79-12709

The effect of Nap-of-the-Earth (NOE) helicopter flying on pilot blood and urine biochemistries (AD-A055204) p0055 N79-13693

The interaction of carbon monoxide and altitude on aviator performance: Pathophysiology of exposure to carbon monoxide (AD-A055212) p0056 N79-13694

Contrast sensitivity of the human eye to various display phosphor types (AD-A055383) p0056 N79-13695

An evaluation of the effects of a stability augmentation system upon aviator performance/workload during a REDvac high hover operation p0184 N79-19612

In-flight toxicology of fixed and rotary wing aircraft crew stations p0184 N79-19612

Changes in the rotary wing aviator's ability to perform an uncommon low altitude rearward
bover maneuver as a function of extended flight requirements and aviator fatigue

Visual performance/workload of helicopter pilots during instrument flight

The effective acoustic environment of helicopter crewmen

Operational consideration of AN/PVS-5 night vision goggles for helicopter night flight

Training requirements for helicopter operation with night vision goggles

Head aiming/tracking accuracy in a helicopter environment

Aviator visual performance: A comparative study of a helicopter simulator and the HE-1 helicopter

US Army aviation fatigue-related accidents, 1971-1977

A porcine bioassay study of the physiological effects of fiber and dye degradation products (PDP) on burn wound healing

Evaluation of four thermally protective fabrics using the USARL bioassay method

Mathematical models of skin burns induced by simulated postcrash fires as aids in thermal protective clothing design and selection

Correlation of head injury with mechanical forces based on helmet damage duplication

The use of mathematical modeling in crashworthy helicopter seating systems

ARMY AEROMEDICAL RESEARCH UNIT, FORT RUCKER, ALA.

Oculomotor performance of aviators during an autorotation maneuver in a helicopter simulator

AVIATION AVIATION RESEARCH AND DEVELOPMENT COMMAND, FORT WAINSCOTT, VA.

The use of mathematical modeling in crashworthy helicopter seating systems

ARMY COLD REGIONS TEST CENTER, FORT GEMY, AK.

Man and material in the cold regions, part 1

ARMY COMMUNICATIONS RESEARCH AND DEVELOPMENT COMMAND, FORT CAMPBELL, N. J.

Modeling and analysis of man-machine interface information

ARMY CONSTRUCTION ENGINEERING RESEARCH LAB., CHANCEY, ILL.

Establishing habitability factors for the design of office environments

ARMY ELECTROCARDIOGRAPHIC COMMAND, FORT BELVOIR, VA.

A behavioral model of target acquisition in realistic terrain

ARMY ELECTRONICS COMMAND, FORT RUCKER, ALA.

The effect of active area on the legibility of dot matrix displays

RADAR OBSERVATION OF INSECTS: Mosquitoes

ARMY ENVIRONMENTAL HYGIENE AGENCY, ABERDEEN PROVING GROUND, MD.

ARMY MEDICAL RESEARCH INST. OF INFECTIOUS DISEASES, FREDBERG, MD.

The effect of ultrasound on botulin toxin

ARMY INFECT RESEARCH AND DEVELOPMENT COMMAND, FORT RUCKER, ALA.

United States Army anthrometry: 1946-1977

BOLIT, BERANEK, AND NEWMAN, INC.

ARMY RESEARCH INST. FOR THE BEHAVIORAL AND SOCIAL SCIENCES, ALEXANDRIA, VA.

A methodology for conducting human factors evaluation of vehicles in operational field tests

ARMY RESEARCH INST. OF ENVIRONMENTAL MEDICINE, NATICK, MASS.

A comparison of the physiological responses in young men and women to heat and cold stress

Instrumentation and techniques for the measurement of muscular strength and endurance in the human body

Evidence for increased intrathoracic fluid volume in man at high altitude

Physiological effects of a military training program on males and females

The effects of dehydration on peripheral cooling

Composition of cerebral fluids in goats adapted to high altitude

BOLIT, BERANEK, AND NEWMAN, INC., CAMBRIDGE, MASS.

Energy supply and demand in California

Baltimore City Hospitals, Md.

Sweat changes in the ribosomes of animal cells in vivo and in vitro

BATTLEFIELD PACIFIC NORTHWEST LABS., RICHLAND, WASH.

The use of Na-22 as a tracer for long-term bone mineral turnover studies

Determination of muscle mass changes in legs from K-40 measurements

Pacific Northwest Laboratory report for 1977 to the DOE assistant secretary for environment. Part 2: Ecological sciences

The use of Na-22 as a tracer for long-term bone mineral turnover studies

Kinetic measurements of bone mineral metabolism: The use of Na-22 as a tracer for long-term bone mineral turnover studies

Review of unfolding methods used in the US and their standardization for dosimetry

BELGIAN AIR FORCE, BRUSSELS.

Analysis of the intervention of the human factor as a principal cause or influence in accidents of Mirage aircraft in the Belgian Air Force

BOEING CO., HOUSTON, TEX.

Test evaluation of space station ECLSS maintenance concepts

Infrared radiation hazard evaluation of the DOE assistant secretary for environment. Part 2: Ecological sciences

BELGIUM AIR FORCE, BRUSSELS.

The effects of pilot age, lighting, and head-down time on visual accommodation

A model for the pilot's use of roll-axis motion cues in steady-state tracking tasks

Closed loop models for analyzing the effects of simulator characteristics

Evaluation of display and control concepts for a terminal configured vehicle in final approach in a windshear environment

Use of the tilt cue in a simulated heading tracking task

Combined monitoring, decision and control model for the human operator in a command and control task
The dangerous relation between sunburn and skin cancer

The effects of deviate internal representations in the optimal model of the human operator

Use of the optimal control model in the design of motion cue experiments

A model for the pilot's use of motion cues in roll-axis tracking tasks

Motion cue models for pilot-vehicle analysis [AD-0617477]

A decision, monitoring and control model of the human operator applied to an RPI control problem [AD-069880]

Development of human performance models for man-machine system simulation [AD-069797]

The application of control theory to the investigation of roll motion effects on human operator performance

A brief overview of the theory and application of the optimal control model of the human operator

British Aerospace Dynamics Group, Bristol (England).

Bristol Univ. (England).

Brigham Young Univ., Provo, Utah.

Brandeis Univ., Waltham, Mass.

Branford University, Mass.

Bowling Green State Univ., Ohio.

Bunche Institute, Delphi.

US Army - Wright-Patterson Air Force Base.

Buchanan University, Iowa.

The dangerous relation between sunburn and skin cancer

Solar radiation, light protection and tanning of human skin

Method and arrangement for the preparation of solid foodstuffs for long-term storage

Physical and mental working environment in a terminal based computer system

Possibility of improving assessment of cardio-pulmonary function by submaximal exercise on a bicycle ergometer

Bundeswehrsanitatszentrum, Hamburg (West Germany).

Bureau of Radiological Health, Rockville, Md.

Electromagnetic fields in biological media.

Part I: Dosimetry - a primer on bioelectromagnetics

The Physical Basis of Electromagnetic Interactions with Biological Systems

Some considerations of hazards in the use of lasers for artistic displays

California Inst. of Tech., Pasadena.

Stereo 3-D perception for a robot

A molecular description of oxygen binding to hemoglobin

Methods for localization of electrical sources in the human brain and applications to the visual system

California State Air Resources Board, Sacramento.

Human heath damages from mobile source air pollution: A delphi method, volume 1

Human health damages from mobile source air pollution: Additional Delphi data analysis, volume 2

California State Univ., Fullerton.

Temperature-dependent morphological changes in membranes of Bacillus stearothermophilus

California State Univ., Hayward.

Limb blood flow - Rest and heavy exercise in sitting and supine positions in man

California State Univ., Berkeley.

Organic geochemical studies on kerogen precursors in recently deposited algal mats and oozes

The augmentation algorithms and molecular phylogenetic trees

Continuous metabolic and cardiovascular measurements on a monkey subject during a simulated 6-day Spacelab mission

An extension of the quickened display for manual control

Biological effects of laser irradiation on nerve cells

California Univ., Berkeley. Lawrence Berkeley Lab.

Development and application of resistive pulse

Cardiological findings in 115 pilots: Diagnosis:
The application of integral performance criteria to the analysis of discrete maneuvers in a driving simulator

Comparison of circadian rhythms in male and female humans

Effect of electroconvulsive shock on monoaminergic receptor binding sites in rat brain

The point mutation process in proteins

Evolution of early life inferred from protein and ribonucleic acid sequences

A compact low-volume, self-regenerating artificial kidney

Development of an electrical energy converter for circulatory device

Firefighters Integrated Response Equipment System

Evaluation of toxic effects of organic contaminants in recycled water

An interface evaluation of the XM-29 protective mask and the AH-1S telescopic sight unit

Lightweight helmet-mounted eye movement measurement system

A review of individual performance in air-to-ground target detection and identification studies

An interferometric evaluation of the 9M-29 protective mask and the AH-1S telescopic sight unit

Radiological examination of the Rachis and fitness for employment as a helicopter pilot

Cardiac conduction and aptitude problem of fliers. The benefits of endocavitary recording of the His bundles

The advantages of ultrasonic echocardiography in the cardiological evaluation of fliers

Development and evaluation of instrument systems for noiseless detection, characterization and quantification of atherosclerotic lesions

Painters' condensation reactions using cyanamide

Mathematical simulation of the human circulatory system

Early detection of disease: The correlation of the volatile organic profiles from patients with upper respiratory infections with subjects of normal profiles

Operator performance and localized muscle fatigue in a simulated space vehicle control task

Effects of gravity on contractile proteins

Application of a structured decision process for proper inclusion of human resources in the design of a power unit support stand

Bimanocular holographic helmet mounted display

A survey of existing computer programs for aircrew workload assessment

Lightweight helmet-mounted eye movement measurement system

A review of individual performance in air-to-ground target detection and identification studies

An interface evaluation of the 9M-29 protective mask and the AH-1S telescopic sight unit

Aerospace Optics, Incorporated

BACKACHE IN 1W-1D HELICOPTER CREWS

ISOLATION OF VIRUS-AUGMENTED TUMOR ANTIGENS

Raman and infrared investigations of the nature of intracellular water

The advantages of ultrasonic echocardiography in the cardiological evaluation of fliers

Development and evaluation of instrument systems for noiseless detection, characterization and quantification of atherosclerotic lesions

The advantages of ultrasonic echocardiography in the cardiological evaluation of fliers

Development and evaluation of instrument systems for noiseless detection, characterization and quantification of atherosclerotic lesions

The advantages of ultrasonic echocardiography in the cardiological evaluation of fliers

Effects of vibration and noise on some indices of efficiency of Mi-4 helicopter crews

Tissular respiration of the brain after exposure of rats to hypoxic helium and oxygen mixtures at atmospheric and elevated pressure

Effects of endogenous factors on the process of gas bubble formation in the body related to decompression

Characteristics of vestibular nystagmus in rats

Characteristics of bacterial aerosol in airlight rooms occupied by humans

Decreased activity of palladium catalyst during processing of excreta

A method of evaluating the pupillary reaction to vestibular stimuli

Comparative analysis of causes of animal deaths during chronic exposure to gamma radiation and the aftereffect period

Effects of long-term and chronic radiation on hemosperation

Effect of accelerations combined with radiation on occurrence of gene mutations in the drosophila

Effect of oxygen poisoning on the spectrum of lactate dehydrogenase isozymes of rabbit blood plasma

Light and color on a manned spacecraft

Translational on USSR science and technology: Biomedical and behavioral sciences, No. 47

Psychological experiment on components of the meaning of work

Effects of laser radiation on morphology of peripheral blood and bone marrow under experimental and clinical conditions

Space biology and aerospace medicine, vol. 12, no. 6

Dynamics of Cosmonauts' blood biochemistry during space missions

Studies of hemodynamics and phase structure of cardiac cycle in the crew of Salyut-7

Dynamic medical monitoring of flight crews in the course of long-term flights

Investigation of composition of trace contaminants in the air environment of the Soyuz-22 spacecraft

Effects of dehydration on human endurance of orthostatic and LBNP tests

Changes in human renal function in passive head-up and head-down positions

Stability of circadian system of the body

Dynamics of impairment of pilot performance in the presence of hypoxia

Combined effect of hypoxia, low pressure and exercise on the rate of methylketone excretion from the human body

Principal results of experiment with males onboard the Kosmos-782 biosatellite

Spermatogenesis in dogs during many years of chronic exposure to gamma radiation and in the aftereffect period

DNA content of animal organs during space flight on Kosmos-690 satellite

State of blood clotting during prolonged hypoxemia

The combined effect of carbon monoxide and nesobaric hyperoxia on animals

Blood lipid changes in hypoxic rats

Effect of intermittent hypoxia on functional activity of peripheral blood neutrophils

Effect of cerebrocranial trauma on reactive distinctions of hypothalamic and hippocampal vessels in the presence of hypoxia

Role of vestibular system in behavior of animals submitted to prolonged slow rotation

Effect of psychophysiological self-regulation on emotional stability of aviation cadets in flight and on effectiveness of assimilation of flight training program

Translational on USSR science and technology: Biomedical and behavioral sciences, No. 51

Investigation of the activity of some enzymatic systems in response to a super-high frequency electromagnetic field

Effects of intermittent magnetic field on activity of carbohydrate metabolism enzymes and oxygen uptake in testicular tissue

Effects of microwaves on catecholamine metabolism in the brain

Effects of electromagnetic field induction on development of the green algae, scenedesmus quadricauda (Turpin) Breb. and composition of free amino acids in its biomass and medium

Dependence of the functional activity of liver mitochondria on microwave radiation

State of process of oxidation phosphorylation of liver mitochondria on exposure to an electric field

Mechanism of effects of microwaves on erythrocyte permeability for potassium and sodium ions

Determination of a generalized output index of a biological experiment after multiple tests

Translational on USSR science and technology: Biomedical and behavioral sciences, No. 51

Functional outcomes of prosthetic cardiac valve replacement

Visual information processing

Liberation of carbon monoxide by man when working in protective gear

Translational on USSR science and technology: Biomedical and behavioral sciences, No. 54

Chemical in environment affect mans physiology

Translational on USSR science and technology: Biomedical and behavioral sciences, No. 52

A complex system for planning scientific medical research

Problem-oriented program approach to planning and management of medicine

The conception of the systems analytic approach to planning and organization of medical scientific research
Current status and prospects of continued refinement of planning and coordination of scientific medical research

Use of the systems analytic approach to the problem of classification of scientific medical research

Use of the systems analytic approach for organization and coordination of complex biomedical research

Development of aerospace-aviation equipment described

Information-handling capacity of a human operator in detection of signals against a noisy background

Space biology and aerospace medicine, volume 13, no. 1, 1979

Effect of 49-day space flight on parameters of radiation lesion in rat lymphoid organs

Changes in metabolism of soleus muscle tissue in rats following the flight aboard the Kosmos-690 biosatellite

Changes in amount and composition of phospholipids in rat skeletal muscle microsomal fraction under the influence of a flight aboard the Kosmos-690 biosatellite

Antithorostatic hypokinesia as an approximate model of weightlessness

Bioelectrical activity of the brain during 49-day antithorostatic hypokinesia in individuals with early signs of vegetovascular dysfunction

Changes in properties of rat femur as a result of crural exarticulation and hypokinesia

Blood clotting factors of the vascular wall and myocardium of hypokinetic rabbits

Effect of hypokinesia on animal resistance to chemical agents

Cerebral hemodynamics and visual analyzer function following exposure to bright light

Effects of prolonged unidirectional shift of sleeping-waking cycle on physiological functions, mental productivity and sleep of man

Ergometric tests in expert medical certification

Application of a mathematical model of erythropoiesis

Some problems involved in using mathematical models for treatment of patients following heart surgery

Use of a mathematical model of erythropoiesis

Biological effects of a magnetic field

Effect of radio waves of a millimeter frequency range on the body of man and animals

Immunological effects of microwave action

Magnetic field effect on radial processes in biological membranes

Effect of different doses of centimeter-band electromagnetic oscillations of biochemical metabolism of central nervous system and liver tissues

Effect of infra-low-frequency magnetic fields on cell division

The influence of SHF electromagnetic fields on the secretory function of the stomach

Changes in calcium ion activity due to magnetization of solution as the possible mechanism of biological action of magnetic fields

Translations on USSR science and technology: Biomedical and behavioral sciences, no. 60

Liquid crystal developments for medicine

Training effect of recognition of different alphabets of visual stimuli

Grenburg symposium on mycotoxins

Space biology and aerospace medicine, no. 2, 1979

Some problems involved in using mathematical methods for evaluation of pathophysiological changes in the body

Studies of microbial flora and immunity of Salyut-3 crew
Effect of acute hypoxia on some parameters of renal excretory function and renal hemodynamics
Toxicity of oxygen mixed with helium
Effect of hyperbaric oxygen on peripheral blood neutrophil metabolism
Effect of brief head-down hypokinesia on pressure in various parts of the healthy man's cardiovascular system
Evaluation of circulatory reactions in the head to antistress position
Animal endurance to recurrent impact accelerations
Characteristics of proteins of some unicellular organisms as potential components of ecological life support systems
Morphological distinctions of the rat thyroid and parathyroid following long-term space flights
Translational on USSR science and technology: Biomedical and behavioral sciences, no. 81 (JPRS-73778)
The systemic principles of building a man-machine control staff
Effects of vibration on the human organism
Space Biology and Aerospace Medicine, no. 4, 1979 (JPRS-74330)
Immunobiological reactivity of the body under hyperbaric and hypobaric conditions
Studies of venous circulation in the crew of the Salyut-5 orbital station
Fluid-electrolyte metabolism in the crew of Salyut-4
Control of vertical position after flights aboard the Salyut-4 orbital station
Effects on lipid metabolism in man of some factors that simulate space flight conditions
Electrolyte composition of rat blood plasma and skeletal muscles after flight aboard the Cosmos-690 biosatellite
Intensity of DNA synthesis in animal organs after flight aboard the Cosmos-762 biosatellite
Effect of brief head-down position on parameters of carbohydrate metabolism and beta lipoprotein content of blood
Influence of pressure chamber conditions on oesophageal function in man (according to results of assessing blood plasma 11-dehydrocortisol)
Some of the problems involved in planning biological experiments p0312 N79-33805
Adaptive optimization of exchange of gases in plants in a sealed phytootron p0312 N79-33806
Quality of water reclaimed from urine as related to pH of initial product p0313 N79-33807
Evaluation of oxidizability of air in closed areas p0313 N79-33808
Effect of hydrostatic factors on orthostatic stability and physical fitness of man during 60-day antorthostatic hypokinesis p0313 N79-33809
Vertical orientation of man during 5-day antorthostatic hypokinesis (-8, -8 and -12 deg head down position) p0313 N79-33810
Effect of impact accelerations on chemical resistance of rat erythrocytes p0313 N79-33811

This publication is a cumulative index to the abstracts contained in the Supplements 190 through 201 of Aerospace Medicine and Biology: A Continuing Bibliography. It includes three indexes—subject, personal author, and corporate source.
PUBLIC COLLECTIONS OF NASA DOCUMENTS

DOMESTIC

NASA distributes its technical documents and bibliographic tools to eleven special libraries located in the organizations listed below. Each library is prepared to furnish the public such services as reference assistance, interlibrary loans, photocopy service, and assistance in obtaining copies of NASA documents for retention.

CALIFORNIA
University of California, Berkeley

COLORADO
University of Colorado, Boulder

DISTRICT OF COLUMBIA
Library of Congress

GEORGIA
Georgia Institute of Technology, Atlanta

ILLINOIS
The John Crerar Library, Chicago

MASSACHUSETTS
Massachusetts Institute of Technology, Cambridge

MISSOURI
Linda Hall Library, Kansas City

NEW YORK
Columbia University, New York

OKLAHOMA
University of Oklahoma, Bizzell Library

PENNSYLVANIA
Carnegie Library of Pittsburgh

WASHINGTON
University of Washington, Seattle

NASA publications (those indicated by an "s" following the accession number) are also received by the following public and free libraries:

CALIFORNIA
Los Angeles Public Library
San Diego Public Library

COLORADO
Denver Public Library

CONNECTICUT
Hartford Public Library

MARYLAND
Enoch Pratt Free Library, Baltimore

MASSACHUSETTS
Boston Public Library

MICHIGAN
Detroit Public Library

MINNESOTA
Minneapolis Public Library

MISSOURI
Kansas City Public Library
St. Louis Public Library

NEW JERSEY
Trenton Public Library

NEW YORK
Brooklyn Public Library
Buffalo and Erie County Public Library
Rochester Public Library
New York Public Library

OHIO
Akron Public Library
Cincinnati Public Library
Cleveland Public Library
Dayton Public Library
Toledo Public Library

TENNESSEE
Memphis Public Library

TEXAS
Dallas Public Library
Fort Worth Public Library

WASHINGTON
Seattle Public Library

WISCONSIN
Milwaukee Public Library

An extensive collection of NASA and NASA-sponsored documents and aerospace publications available to the public for reference purposes is maintained by the American Institute of Aeronautics and Astronautics, Technical Information Service, 555 West 57th Street, 12th Floor, New York, New York 10019.

EUROPEAN

An extensive collection of NASA and NASA-sponsored publications is maintained by the British Library Lending Division, Boston Spa, Wetherby, Yorkshire, England. By virtue of arrangements other than with NASA, the British Library Lending Division also has available many of the non-NASA publications cited in STAR. European requesters may purchase facsimile copy of microfiche of NASA and NASA-sponsored documents, those identified by both the symbols "#" and "s", from: ESA - Information Retrieval Service, European Space Agency, 8-10 rue Mario-Nikis, 75738 Paris CEDEX 15, France.
