### KEY WORD INDEX 127
HOW TO USE THIS DOCUMENT

The first section of this document provides bibliographic citations and key words for all abstracts published in issues 15-20 of the USSR Space Life Sciences Digest. Abstracts are grouped according to the topic area categories under which they were originally included and within categories by issue number. Issue numbers are provided as headings and, in addition, the first number in parentheses after abstract number refers to appropriate Digest issue. As always, topic area categories are presented in alphabetical order.

The second section of this document, starting on page 127, is a key word index. Numbers following each entry refer to page numbers in the first section of the present document. Number of listings on a single page in the first section has been limited deliberately to facilitate visual search for a particular reference. Within the key word list, topic area names are highlighted in bold, as are the pages for the primary topic area listing. Numbers not in bold following topic area names refer the reader to relevant abstracts originally included under other category names.
ADAPTATION

ISSUE 15

PAPER:

Adaptation; Neurophysiology, Space Motion Sickness, Electric Sleep Humans, Cosmonauts, Theoretical Article Perception, Sensory Conflict

ISSUE 16

PAPER:

P699(16/88)* Aydaraliyev AA, Maksimov AL, Chernook TB. Capacity of polar personnel to adapt to high altitudes in the Antarctic.] Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina. 21(6): 62-66; 1987. [31 references; 3 in English]

Adaptation, High Altitudes, Antarctic, Polar Day and Night Humans, Polar Personnel Biological Rhythms, Functional State

ISSUE 18

PAPERS:

Hematology, Lymphocytes; Metabolism, Nucleic Acids, Synthesis, Spleen Rats, Reproductive Biology, Pregnant Adaptation, Hypoxia, Hypokinesia, Space Flight Factors, COSMOS-1514
ADAPTATION

P824(18/88) Farber YuV.  
**The effects of the adaptation process on tolerance of extreme factors.**  
In: Gazenko OG (editor).  
Moscow: Nauka; 1986.  
Pages: 324

*Radiobiology, Human Performance  
*Rats  
*Adaptation, Tolerance, Nonspecific, Extreme Factors, Hypoxia, High Altitude

P857(18/88)* Gazenko OG, Grigor' ev AI, Yegorov AD.  
**Taxonomy and time course of adaptive responses in humans on long-term space flights.**  
In: Furduy FI, Kaydarliu SKh, Shriby Yel, Nadvodnyuk Al, Mamalyga LM.  
Mekhanizmy razvitiya stressa: Stress, adaptasiya i funktsional'nye narusheniya [Mechanisms underlying the development of stress: Stress, Adaptation and Functional Disorders.]  
[30 references; 13 in English]  
Authors' Affiliation: Institute of Biomedical Problems, USSR Ministry of Health

*Adaptation, Time Course, Cardiovascular and Respiratory Systems, Endocrinology, Hematology, Immunology, Metabolism, Microbiology, Musculoskeletal System, Neurophysiology  
*Humans, Cosmonauts  
*Space Flight, Long-term, Salyut-6, -7, Soyuz, Soyuz-2

**ISSUE 19**

**PAPER:**

P901(19/88) Meyerson FZ, Tverdokhlib VP, Lobanova GT, Golubeva LYu, Nikonorov AA.  
**Preventing stress-induced dyslipidemia by means of adaptation to short periods of stress.**  
Fiziologicheskiy Zhurnal.  
[19 references; 8 in English]  
Authors' Affiliation: Institute of General Pathology and Physiopathology, USSR Academy of Medicine, Moscow.

*Psychology, Stress  
*Rats  
*Adaptation, Stress; Pharmacological Countermeasures
ADAPTATION

MONOGRAPHS:

M133(19/88) Braun AD, Mozhenok TP.
Nespetsificheski Adaptatsionnyy Sindrom Kletchnoy Sistemy [Nonspecific adaptive syndrome of the cell system]
[232 pages; 16 tables; 49 figures; 983 references]
Affiliation: Institute of Cytology, USSR Academy of Sciences.

KEY WORDS: Adaptation, Cytology, Extreme Factors, Musculoskeletal System

M136(19/88) Aydaraliyev AA, Maksimov AL.
Adaptatsiya Cheloveka k Ekstremal'nym Usloviiam: Opyt Prognosirovaniya [Human Adaptation to Extreme Conditions: A Case Study in Prediction]
[120 pages; 31 Tables; 19 Figures 315 references]
Affiliation: Division of Physiology, USSR Academy of Sciences

KEY WORDS: Adaptation, Hypoxia, Tolerance, High Altitude, Antarctic, Human Performance, Work Capacity, Individual Differences, Personnel Selection

CONFERENCE REPORT:

CR10(19/88) Beloshitskiy PV, Lanovenko II.
Report on conference on Adaptation and Resistance at High Altitudes
5-8 August, 1986; Terskol, Kabardino-Balkarsk Autonomous SSR.
In: Fiziologicheskiy Zhurnal.

KEY WORDS: Adaptation, High Altitudes, Hypoxia; Neurophysiology, Cardiovascular and Respiratory System; Hematology, Hemopoiesis; Immunology, Resistance; Radiobiology; Enzymology; Physical Exercise; Operational Medicine; Endocrinology; Human Performance; Biological Rhythms

ISSUE 20

MONOGRAPH:

M141(20/88) Platonov VN.
Adaptsiya v sporte [Adaptation in Sports].
[216 pages; 25 tables; 116 figures; 279 references; 101 in English]

KEY WORDS: Adaptation, Musculoskeletal System, Athletes, Individual Differences, Exercise, Sports, Fatigue, Energy, Human Performance
PAPER:

P832(18/88)* Strongin GL, Skvortzov SA.
Individually differences and individual norms revealed in automated preflight medical monitoring.
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
(4 references; none in English)

Aviation Medicine, Operational Medicine, Preflight Exams; Equipment and Instrumentation, Automated Monitoring Devices; Human Performance
Humans, Pilots
Individual Differences

BOOK REVIEW:

BR13(18/88)* Peshkov YeM.
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.

KEY WORDS: Aviation Medicine, Human Performance, Personnel Selection,
Habitability and Environment Effects, Man-Machine Systems, Nutrition, Operational Medicine,
Pharmacological Countermeasures, Perception
ISSUE 15

PAPER:

P661(15/88)* Klimovitskiy VYa, Alpatov AM (USSR), Sulzman FM, Fuller CA, Moore-Ede M (USA).
Circadian rhythms and temperature hemostasis in monkeys inflight on Cosmos-1514 biosatellite.
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
[22 references; 11 in English]

Biological Rhythms, Circadian Rhythms, Skin and Body Temperature
Primates, Macaca mulatta
Space Flight, Short-term, Cosmos-1514

MONOGRAPH:

M119(15/88) Emel'yanov IP.
Struktura Biologicheskikh Ritmov Cheloveka v Protsesse Adaptatsii Statisticheskiy Analiz i Modelirovanie
[180 pages]
Affiliation: USSR Academy of Sciences (Siberian Division), Yakustsk Affiliate of the Division of Applied

KEY WORDS: Biological Rhythms, Adaptation, Far North, Mathematical Modeling

ISSUE 17

PAPERS:

P767(17/88)* Vaysburd [Weisburd] IF.
A technique for evaluating change in the biological rhythms of human physiological functions.
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
[7 references; 3 in English]

Biological Rhythms; Adaptation; Inverted Diurnal Schedule
Humans
Mathematical Modeling
BIOLOGICAL RHYTHMS

P803(17/88) Stepanova SI.
**Biorhythmic aspects of occult motion sickness.**

**Biological Rhythms, Stress Resistance**
Humans, Pilots, Theoretical Article
Neurophysiology, Motion Sickness, Occult

ISSUE 18

PAPERS:

P819(18/88) Shukin AI.
**The phenomenon of group synchronization of biological rhythms in single and double shift work.**

**Biological Rhythms**
Humans, Males, Workers
Human Performance, Shift Work, Group Coordination; Psychology, Stress

ISSUE 19

PAPERS:

P875(19/88)* Koreshkov AA, Makarov VI, Abramov IR, Kots AR.
**The circadian rhythm of psychomotor response in humans exposed to the combined effects of 18-hour days and elevated concentration of carbon dioxide.** Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina. 22(3): 88-91; 1988.
(1 reference; none in English)

**Biological Rhythms, Circadian Rhythms, Work-Rest Schedules, Human Performance, Psychomotor Performance**
Humans
Hermetically Sealed Environment, Desynchronosis, Elevated Carbon Dioxide
Stability of biological rhythms in excretion of salts under exposure to extreme conditions.
Izvestiya Akademii Nauk Kirgizskoy SSR.
[14 references; 2 in English]
Authors' Affiliations: Institute of Physiology and Experimental Pathology of High Altitudes of the Kirgiz Academy of Sciences; Institute of Industrial Hygiene and Occupational Disease, Bulgarian Academy of Medicine

**BIOLOGICAL RHYTHMS, Body Fluids, Salt Excretion**

**Humans**

**Extreme Conditions, Isolation, Stress, Motion Sickness, Hypokinesia**

**ISSUE 20**

**MONOGRAPH:**

M142(20/88) Gudkova SYa.
Mekhanizmy zimney spyachki [*The mechanisms of hibernation.*]
[206 pages]
Affiliation: Scientific Center for Biological Research; Institute of Biophysics

**KEY WORDS:** Biological Rhythms, Hibernation, Sleep, Metabolism, Cold, Neurophysiology, Body Fluids, Endocrinology, Enzymology, Hematology, Gastrointestinal System
ISSUE 16

MONOGRAPH:

M121(16/88) Seleznev VP, Selezneva NV. 
Navigatsionnaya Bionika [Navigational Bionics].
Moscow: Mashinostroyeniye; 1987. 
[255 pages; 100 figures; 54 references; none in English]

KEY WORDS: Bionics, Mathematical Models, Spatial Orientation, Navigation, 
Man-Machine Systems, Perception, Neurophysiology, Insects
{
**Cosmic and biospheric aspects of medical/ecological monitoring with regard to respiratory illnesses.**

In: Gazenko OG (editor).
Moscow: Nauka; 1986.
Pages: 60-61.

**KEY WORDS:** Biospherics, Atmospheric Factors, Solar Radiation, Humans, Patients, Cardiovascular Systems, Respiratory Disease, Public Health; Mathematical Modeling, Correlations

---

M129(18/88) Agadzhanyan NA.
{
**Chelovek i biosfera** [Man and the biosphere.]
Moscow: Znaniye; 1987.
[96 pages]

**KEY WORDS:** Biospherics, Biological Rhythms

---

P894(19/88) Shilov IA.
{
**Biological problems of biospheric homeostasis.**
Zhurnal Obshchey Biologii.
[10 references; none in English]
Author's Affiliation: Moscow State University; Department of Biology

**KEY WORDS:** Biospherics, Theoretical Article, Homeostasis
CR9(19/88)Buznikov AA, Vedeshin LA.
Review of: “Space and Ecology Round Table,” at an international forum marking the 30th anniversary of the launch of the first manmade satellite.
Issledovaniye Zemli iz Kosmosa.

KEY WORDS: Biospherics, Biological Rhythms
The effects of space flight factors on hydration homeostasis in monkeys.

Isotope methods for assessing blood redistribution in the body.

Increasing human tolerance of +Gz acceleration by increasing hydration level.
BODY FLUIDS

Fluid-electrolyte metabolism and its hormonal regulation under conditions of long-term space flight.

Body Fluids, Metabolism, Fluid-Electrolyte; Endocrinology, Hormonal Regulation, Adrenal Gland, Corticosteroids
Humans, Cosmonauts
Space Flight, Salyut-7, 237-day Flight

ISSUE 17

PAPERS:

P789(17/88) Lavrova YeA, Shakhmatova Yel, Serova LV, Natochin YuV, Denisova LA.
The effect of weightlessness on fluid electrolyte homeostasis in pregnant rats and their offspring.

Body Fluids, Fluid-Electrolyte Homeostasis
Rats, Reproductive Biology, Female, Pregnant; Developmental Biology, Fetuses, Neonates
Space Flight, COSMOS-1514

P792(17/88) Voronin LI, Kravchenko VV, Zherevskov AF, Bystrov VV.
Parameters of fluid-electrolyte metabolism in humans during LBNP,

Body Fluids, Fluid Electrolyte Metabolism
Humans, Males
LBNP
BODY FLUIDS

Body Fluids, Blood Volume, Extracellular Fluid; Metabolism, Serum Proteins Humans, Males Hypokinesia With Head-Down Tilt, Immersion; Countermeasures, Antiacceleration Suit, Occlusion Cuffs, Physical Exercise

Body Fluids, Artificially Increased Hydration Humans Tolerance, Acceleration

ISSUE 18

PAPERS:

P836(18/88)* Denisova LA, Lavrova YeA, Natochin YuV, Serova LV. Concentrations of fluid and electrolytes in organs and tissues of male rats after flight on the COSMOS-1667 biosatellite. Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina. 22(2): 33-37; 1988. (17 references; 3 in English)

Body Fluids, Fluid-Electrolyte Concentration Rats, Males; Reproductive Biology, Female, Pregnant; Sex Differences Space Flight, COSMOS-1667, COSMOS-1514
BODY FLUIDS

P854(18/88)* Kondratyuk VA, Gnatyuk MS, Volkov KS. Structural reorganization of the liver in response to exposure to reclaimed drinking water with varying concentrations of sodium and potassium ions. Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina. 22(2): 87-90; 1988. (9 references; none in English)

Body Fluids, Liver Structure
Rats, Male
Life Support Systems, Reclaimed Water, Sodium, Potassium

ISSUE 20

PAPER:

Body Fluids, Extracellular Fluid
Humans
Equipment and Instrumentation, Micromethod

CONFERENCE REPORT:

Body Fluids, Renal Physiology, Fluid-Electrolyte Metabolism, Calcium, Nutrition, Vitamin D, Vitamin K, Space Flight, Hypokinesia, Exercise

KEY WORDS:
BOTANY

ISSUE 15

PAPERS:

Genetics, Genetic Monitoring, Chromosome Aberrations Botany, Higher Plants Space Flight, Radiobiology, Galactic Radiation, Temperature

Genetics, Mutations, Mitosis Botany, Air-dried Seeds, Arabidopsis, Crepis capillaris Space Flight, Salyut-6; Radiobiology, HZE

Radiobiology, HZE, Biological Effects, Genetics, Aberrant Cells Botany, Lettuce Space Flight, Long-term, Salyut-6, Salyut-7
Modification of cytogenetic, anatomical, and physiological changes in cells and organs of sprouts by biologically active compounds after long-term space flight. 

Zhurnal Obshchey Biologii. 
[18 references; 6 in English] 
Authors' Affiliation: Botanical Institute, Azerbaijan Academy of Sciences, Baku 

Botany, Cytogenetic, Anatomical, Physiological Changes; Germination Rate, Growth Rate, Mitotic Activity Botany, Welsh Onion, Air-Dried Seeds Space Flight, Long-Term, Salyut-7; Natural Aging; Biologically Active Compounds, Auxin, Alpha-tocopherol

ISSUE 16

PAPERS:

P685(15/88)* Aliyev AA, Nechitaylo GS, Novruzova ZA, Ragimova GK, Aleksperov UK. 

Modification of cytogenetic, anatomical, and physiological changes in cells and organs of sprouts by biologically active compounds after long-term space flight. 

Zhurnal Obshchey Biologii. 
[18 references; 6 in English] 
Authors' Affiliation: Botanical Institute, Azerbaijan Academy of Sciences, Baku 

Botany, Cytogenetic, Anatomical, Physiological Changes; Germination Rate, Growth Rate, Mitotic Activity Botany, Welsh Onion, Air-Dried Seeds Space Flight, Long-Term, Salyut-7; Natural Aging; Biologically Active Compounds, Auxin, Alpha-tocopherol

P728(16/88) Abilov ZK, Aliyev AA, Novruzova ZA, Mashinskiy AL, Ragimova GK, Alekperov UK, Fadeyeva SN. 

Functional, morphological and anatomical changes in sprouts of orchids cultivated during a 110-day space flight. 

In: Gazenko OG (editor). 
Moscow: Nauka; 1986. 
Pages: 263 

Botany, Functional, Morphological, and Anatomical Changes Orchids Space Flight, 110-day, Salyut-7

P737(16/88) Sychev VN, Galkina TB. 

Investigation of the developmental dynamics of a Chlorella population and its age structure after exposure to weightlessness. 

In: Gazenko OG (editor). 
Moscow: Nauka; 1986. 
Pages: 297-299. 

Botany, Microbiology, Population Dynamics, Age Structure Chlorella Space Flight, Salyut-6, Short-term
PAPERS:

Genetics, Chromosome Restructuring, Mutability; Developmental Biology, Plant Development; Life Support Systems Botany, Crepis capillaris, Arabidopsis thaliana Space Flight, Soyuz-16, Salyut-5, -6, -7; Radiobiology, Heavy Ions, Galactic Radiation

Genetics, Mutation; Developmental Biology, Growth and Fertility Botany, Arabidopsis, Seeds Space Flight, COSMOS-936, -1129, 1514; Radiobiology, Multicharged Ions

ISSUE 19

PAPER:

Developmental Biology, Development, Embryogenesis Botany, Lettuce Space Flight, Salyut-7
PAPERS:

Cardiovascular and Respiratory Systems, Echocardiographic Parameters, Humans, Cosmonauts, Space Flight, Long-Term, Salyut-7; Physical Exercise Tests

Cardiovascular and Respiratory Systems, Hemodynamics, Echocardiography, Myocardium, Humans, Cosmonauts, Space Flight, Long-Term, Salyut-7, LBNP

Cardiovascular and Respiratory Systems, Cardiac Rhythm, Mathematical Modeling, Adaptation, Humans, Cosmonauts, Space Flight, EVA, Salyut-7
P627(15/88) Itsekhovskiy OG, Alterova IV, Turchaninova VF, Polyakova AP, Golubchikova ZA, Dommacheva MV, Volgin VA, Talavrinov VA, Kulev AP.

*Study of circulatory system response to a provocative two-stage test using a bicycle ergometer in cosmonauts on a 237-day flight.*

In: Gazenko OG (editor).

Moscow: Nauka; 1986.

Pages: 66-67.

Cardiovascular and Respiratory Systems, Circulation; Physical Work Capacity

Humans, Cosmonauts

Space Flight, Long-Term, Physical Exercise, Provocative Test

---

P628(15/88) Kotovskaya AR, Lyamin VR, Turbasov VD, Vilyams IF, Andreyeva VG, Antonenko LV, Vlasova NF, Galle NN.

*A study of cardiac bioelectric activity (EKG-DS) in members of Salyut-7 prime and visiting crews during launch and reentry.*

In: Gazenko OG (editor).

Moscow: Nauka; 1986.

Pages: 78-79.

Cardiovascular and Respiratory Systems, Circulation; Physical Work Capacity

Humans, Cosmonauts

Space Flight, Long-Term, Physical Exercise, Provocative Test

---

P629(15/88) Nikulina GA, Bogomolov VA, Zhernakov AV, Shigoleva TV.

*Principles for analyzing the results of dynamic electrocardiograms in the readaptation period following space flight.*

In: Gazenko OG (editor).

Moscow: Nauka; 1986.

Pages: 101-102.

Cardiovascular and Respiratory Systems, Dynamic Electrocardiograms

Humans, Cosmonauts, Individual Differences

Space Flight, Short-Term, Long-Term; Adaptation, Postflight Readaptation
CARDIOVASCULAR AND RESPIRATORY SYSTEMS

Cardiovascular and Respiratory Systems, Electrocardiography, Humans, Cosmonauts, Space Flight, Long-Term, Salyut-7

Cardiovascular and Respiratory Systems, Central Circulation, External Respiration, Primates, Monkey, Space Flight

Cardiovascular and Respiratory Systems, Circulation, Primates, Rhesus Monkeys, Space Flight, COSMOS-1667

Cardiovascular and Respiratory Systems, Complications, Prognosis, Humans, Flight Crews, Operational Medicine, Diagnostic Prediction
Activity of Ca2+, Mg2+-ATPase myosin in the myocardia of rats after 30-days of exposure to 1.1 and 2-g.
Kosmichekaya Biologiya i Aviakosmicheskaya Meditsina.
21(5): 72-73; 1987. [17 references; 7 in English]

Cardiovascular and Respiratory Systems, Myocardia, Ca2+, Mg2+-ATPase myosin
Rats
Hypergravity, Centrifugation; Adaptation

Comparison of orthostatic intolerance after immersion in horizontal and vertical positions.
Kosmichekaya Biologiya i Aviakosmicheskaya Meditsina.

Cardiovascular and Respiratory Systems, Orthostatic Intolerance, Deconditioning
Humans, Males
Immersion, Horizontal and Vertical Positions, Tilt Test

ISSUE 16

PAPERS:

Results of longitudinal electrocardiographic observation of cosmonauts.
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
21(6): 10-14; 1987.[14 references; 3 in English]

Cardiovascular and Respiratory Systems, Electrocardiograms
Humans, Cosmonauts, Longitudinal Study
Spaceflight, Long- and Short-term Flights, Multiple Flights

The effects of cardioactive compounds on myocardial actomyosin in rats undergoing acceleration.
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
[16 references; 8 in English]

Cardiovascular and Respiratory Systems, Myocardial Actomyosin
Rats
Acceleration, +Gx, Cardioactive Compounds
CARDIOVASCULAR AND RESPIRATORY SYSTEMS

P697(16/88)* Yarullin KhKh, Vasil'eva TD, Neumyvakin IP. 
*Effect of exogenous contrapulsation synchronized with heart rhythm on regional and central hemodynamics in humans.*
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
[16 references; 6 in English]

Cardiovascular and Respiratory Systems, Hemodynamics, Central and Regional Humans, Males 
Exogenous Contrapulsation

P698(16/88)* Breslav IS, Isayev GG, Rymzhanov KS. 
*The effect of oxygen inhalation on the respiratory function during exercise and additional resistance to respiration.*
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
[21 references; 9 in English]

Cardiovascular and Respiratory Systems, Respiratory Function Humans, Males 
Oxygen Inhalation, Physical Exercise, Resistance to Respiration

P703(16/88)* Nekhayev AS, Vlasov VD, Stepanov VK, Andriyenko Yul. 
*The effect of a hypercapnic-hypoxic test on the cardiorespiratory parameters of individuals with neurocirculatory dystonia.*
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
[12 references; 1 in English]

Cardiovascular and Respiratory Systems, Cardiovascular Parameters Humans, Pilots, Patients, Neurocirculatory Dystonia 
Hypercapnic-Hypoxic Test

P705(16/88)* Belkaniya GS, Galustyan MV, Dartsmeliya VA, Demin AN. 
*Hemodynamic effects of beta-adrenoblockade by obzidan in horizontal and upright positions.*
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
[15 references; 5 in English]

Cardiovascular and Respiratory Systems, Hemodynamics Humans, Males, Typology 
Beta-Adrenoblockade, Drugs, Obzidan, Horizontal and Vertical Positions
The effect of vestibuloautonomic stimulation and hypokinesia on regional hemodynamics.
Izvestiya Akademii Nauk SSSR. Seriya Biologicheskaya.
[31 references; 5 in English]
Cardiovascular and Respiratory Systems, Hemodynamics, Regional Humans
Neurophysiology, Vestibuloautonomic Stimulation, Coriolis Acceleration, Hypokinesia with Head-Down Tilt, Motion Sickness

ISSUE 17

PAPERS:

P749(17/88)* Yegorov AD, Anashkin OD, Itskekhovskiy OG, Alterova IV, Golubchikova ZA, Lyamin VR, Pokyakova AP, Turchaninova VF, Talavrinov VA, Turbasov VD.
Results of medical research performed in 1985 during long-term space flights.
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
(no references)
Cardiovascular and Respiratory Systems, Operational Medicine Humans, Cosmonauts
Space Flight, Salyut-7, Soyuz-T-13, Soyuz-T-14; Provocative Tests, LBNP, Physical Exercise

P750(17/88)* Genin AM, Modin AYu, Shashkov VS.
State of hemodynamics in humans under conditions of immersion in different positions.
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
(3 references; none in English)
Cardiovascular and Respiratory Systems, Hemodynamics Humans, Male
Immersion, Positions
CARDIOVASCULAR AND RESPIRATORY SYSTEMS

P774(17/88) Balldin U (Stockholm).
Positive pressure breathing and physical conditioning to decrease cardiovascular deconditioning in cosmonauts.
In: Gazenko OG (editor).
Moscow: Nauka; 1986.
Pages: 15-16.

Cardiovascular and Respiratory Systems, Deconditioning
Humans, Cosmonauts, Pilots; Theoretical Article
Positive Pressure Breathing, Physical Exercise

P775(17/88) Glod GS, Migachev SD, Plakhotnyuk LS, Khomenko MN.
Reactions of the cardiovascular system in individuals with different levels of tolerance for gravitation.
In: Gazenko OG (editor).
Moscow: Nauka; 1986.
Pages: 34-35.

Cardiovascular and Respiratory Systems, Hemodynamics
Humans, Individual Differences
Acceleration, Tolerance, Gravitation

P777(17/88) Domashuk Yu (Warsaw).
The use of excess pressure in increasing pilots' tolerance of +Gz acceleration.
In: Gazenko OG (editor).
Moscow: Nauka; 1986.
Pages: 53-54.

Acceleration Tolerance
Humans, Pilots
Cardiovascular and Respiratory Systems, Excess Pressure Breathing
Acceleration tolerance in older individuals with health problems before and after simulated weightlessness.

Changes in blood pressure and rate of blood flow in a monkey exposed to space flight.

+Gz acceleration tolerance in rhesus macaque monkeys.

(2 references; 1 in English)
P796(17/88) Starikov LI.
Cerebral hemodynamics in pilots during tilt tests.
Voyenno-Meditsinskiy Zhurnal.
1987(12): 44-47.
[12 references; none in English]
Author's affiliation: Military Medical Corps

Cardiovascular and Respiratory Systems, Hemodynamics, Cerebral
Humans, Pilots; Individual Differences
Tilt Tests, Orthostatic Tolerance

P798(17/88) Tagiyeva SA, Azizov VA, Babayev AA.
Changes in hemodynamics in patients suffering from ischemic heart disease in response to isometric exercise combined with head-down tilt.
Kardiologiya.
[15 references; 3 in English]
Authors' affiliation: Azerbaijan Medical Institute, Baku

Cardiovascular and Respiratory Systems, Hemodynamics
Humans, Patients, Ischemic Heart Disease
Physical Exercise, Isometric; Head-Down Tilt

ISSUE 18

PAPERS:

P833(18/88)* Iseyev LR, Mednykh AYa, Vorob'yev VYe, Abdrakhmanov VR.
CO2 sensitivity of the respiration regulation system under conditions simulating space flight
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
(13 references; 2 in English)

Cardiovascular and Respiratory Systems, Respiration Regulation
Humans, Males
Space Flight Simulation, Isolation, Hypokinesia with Head-Down Tilt, Hypercapnia
Clinical and physiological aspects of oxygen supply to tissues in the human body under conditions of hypokinesia with head-down tilt.

Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
(20 references; 3 in English)

Effects of hypoxia and reoxygenation on the contractility of the isolated heart of rats varying in age.

Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
(10 references; 2 in English)

The effect of long-term hypokinesia on bioelectric cardiac activity in healthy men.

Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
(38 references; 4 in English)
Cardiovascular and Respiratory Systems

P864(19/88)* Fatenkov VN. 
**New information on cardiac biomechanics.**
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.
(21 references; 10 in English)

Cardiovascular and Respiratory Systems, Cardiac Biomechanics
Dogs
Contraction, Myocardial Layers, Interactions

P866(19/88)* Barinyan SB, Oganesyan SS, Eloyan MA.
**The effect of neutral muscle proteases on contractile parameters of isolated strips of the myocardia of white rats during exposure to acceleration and a subsequent recovery period.**
Kosmicheskaya Biologiya i Aviakosmicheskaya Meditsina.

This document provides an index to issues 15-20 of the USSR Space Life Sciences Digest. There are two sections. The first section lists bibliographic citations of abstracts in these issues, grouped by topic area categories. The second section provides a key word index for the same abstracts.
