NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
Since its founding, NASA has been dedicated to the advancement of aeronautics and space science. The NASA Scientific and Technical Information (STI) Program plays a key part in helping NASA maintain this important role.

The NASA STI Program provides access to the NASA STI Database, the largest collection of aeronautical and space science STI in the world. The Program is also NASA's institutional mechanism for disseminating the results of its research and development activities.

Specialized services that help round out the Program's diverse offerings include creating custom thesauri, translating material to or from 34 foreign languages, building customized databases, organizing and publishing research results ... even providing videos.

For more information about the NASA STI Program, you can:

• **Phone** the NASA Access Help Desk at (301) 621-0390

• **Fax** your question to the NASA Access Help Desk at (301) 621-0134

• **E-mail** your question via the **Internet** to help@sti.nasa.gov

• **Write** to:

Index to NASA
News Releases and Speeches
1993

NASA TM-109722
April 1994

An index to selected news releases and speeches
issued by NASA Headquarters during 1993.
INTRODUCTION

This issue of the Index to NASA News Releases and Speeches contains a listing of news releases distributed by the Office of Public Affairs, NASA Headquarters, and a selected listing of speeches presented by members of the Headquarters staff during 1993. This index supplements the previous issues that were identified as Index to NASA News Releases and Speeches 1963-1966, and the supplements for 1967 through 1992.

The index is arranged in six sections—Subject Index, Personal Names Index, News Release Number Index, Accession Number Index, Speeches, and News Releases.

Section 1, Subject Index, contains subject headings arranged alphabetically that describe the contents of the items indexed. Under each heading the user will find applicable references to news releases and speeches containing information on that subject entry and, in many cases, cross-references to related subject headings. Each entry contains the title, accession number, news release number, and reference section (05 for Section 5, Speeches and 06 for Section 6, News Releases).

Two types of cross-references are used:

S for 'SEE' directs the user to a subject heading where references can be found—

COMSAT
S COMMUNICATIONS SATELLITE CORP.

SA for 'SEE ALSO' directs the user to related subject headings where additional references may be found—

COMMUNICATION SATELLITES
SA TELESAT SATELLITES

Section 2, Personal Names Index, contains personal names arranged alphabetically that identify the persons mentioned in the indexed items or, in the case of speeches, the speaker. Each entry contains the title, accession number, news release number, and the reference section. The symbol + is used to identify speeches presented by the person under whose name they are indexed.

Section 3, New Release Number Index, lists all numbered NASA News Releases arranged in news release number order, with the corresponding accession and reference numbers.

Section 4, Accession Number Index, lists all items indexed in this publication arranged in accession number order. Each entry contains the reference section and the corresponding news release number.

Section 5, Speeches, lists the speeches indexed in this publication arranged in accession number order. Each entry contains the title, speaker, date of release, and other reference information.

Section 6, News Releases, lists the news releases, press briefings, news conference transcripts, and other public information releases indexed in this publication, arranged in accession number order. Each news release reference contains the title, date of release, news release number, if any, and other reference information.

Copies of documents listed in this index are available to NASA offices on request from the NASA Center for AeroSpace Information (CASI), 800 Elkridge Landing Road, Linthicum Heights, MD 21090-2934. Requests for copies of the index itself should also be addressed to CASI via letter, the Internet (help@sti.nasa.gov), telephone (301-621-0390), or fax (301-621-0134).

</table>
Typical Subject Index Listing

The title of the news release or speech is used as the prime retrieval point. The accession number is located at the bottom right of the entry, followed by a two-digit number (05 or 06) identifying the index section where the complete citation appears. If available, the news release number is also included.

GALACTIC NUCLEI
- Hubble discovers a double nucleus in core of active galaxy [NASA RELEASE-93-6] P93-10007 06
- Hubble looks at the heart of a galaxy collision [NASA RELEASE-93-97] P93-10098 06
- New discoveries by NASA’s ELV explorer presented [NASA RELEASE-93-115] P93-10105 06
- Hubble supports black hole model for active galaxies [NASA RELEASE-93-130] P93-10131 06

GALACTIC RADIATION
- Gamma ray observatory produces three major discoveries [NASA RELEASE-93-182] P93-10183 06
- Mystery of ‘fastest flickering’ galaxy solved [NASA RELEASE-93-192] P93-10193 06

GALACTIC STRUCTURE
- Gamma ray observatory produces three major discoveries [NASA RELEASE-93-182] P93-10183 06
- Mystery of ‘fastest flickering’ galaxy solved [NASA RELEASE-93-192] P93-10193 06

GALAXIES
- Sa andromeda nebula
- Sa milky way
- Sa seyfert galaxy
- Sa spiral galaxies
- Sa starburst galaxies
- Mysterious concentration of dark matter discovered [NASA RELEASE-93-1] P93-10001 06
- Hubble looks at the heart of a galaxy collision [NASA RELEASE-93-97] P93-10098 06
- Hubble supports black hole model for active galaxies [NASA RELEASE-93-130] P93-10131 06

GA LILEO PROJECT
- Three spacecraft to conduct 3-week gravitational wave search [NASA RELEASE-93-48] P93-10049 06
- Heading for Jupiter, Galileo to encounter its second asteroid [NASA RELEASE-93-149] P93-10150 06
- Galileo detects magnetic field around asteroid Ida [NASA RELEASE-93-193] P93-10194 06
- IO’s ‘ghost’ detected on Jupiter [NASA RELEASE-93-208] P93-10209 06

GAMMA RAY TELESCOPES
- Energetic gamma ray experiment telescope
- Gamma ray astronomy
- Imaging Compton telescope

GAMMA RAYS
- Gamma ray bursts
- NASA satellite data shake theories on gamma-ray bursts [NASA RELEASE-93-72] P93-10073 06
- Gamma ray observatory produces three major discoveries [NASA RELEASE-93-182] P93-10183 06
- Gamma-ray observatory produces three major discoveries [NASA RELEASE-93-130] P93-10131 06

GAS JETS
- Hubble discovers a double nucleus in core of active galaxy [NASA RELEASE-93-6] P93-10007 06

GAS TURBINE ENGINES
- S ducted fan engines
- S k404 engine
- S jet engines

GASES
- S atmospheric composition
- S carbon dioxide
- S carbon monoxide
- S deuterium
- S hydrogen
- S interstellar gas
- S ozone
- S xenon

GEMINGA
- Supernova may have caused huge void around solar system [NASA RELEASE-93-36] P93-10037 06

GENERAL AVIATION
- NASA Oshkosh exhibit highlights U.S. leadership in aeronautics [NASA RELEASE-93-128] P93-10129 06

GENERAL DYNAMICS CORP.
- Industry tests NASA computer programs for efficient design [NASA RELEASE-93-90] P93-10091 06

GENERAL ELECTRIC CO.
- Industry tests NASA computer programs for efficient design [NASA RELEASE-93-90] P93-10091 06

GENERAL ELECTRIC CO., EVANDALE, OHIO
- NASA saves $1 million on aeronautics research project [NASA RELEASE-93-35] P93-10056 06

GENERAL SERVICES ADMINISTRATION
- Yellow Creek facilities targeted for shuttle nozzle work [NASA RELEASE-93-215] P93-10216 06

GENETICS
- Shuttle rat experiment yields unexpected results [NASA RELEASE-93-181] P93-10182 06
- Genetics and growth

- NASA Russian mission explores kamchatkan volcanoes [NASA RELEASE-93-198] P93-10199 06

GEOMORPHOLOGY

GEOPHYSICS
- Dante robot to explore active alaska volcano in spring [NASA RELEASE-93-195] P93-10196 06
- George C. Marshall space flight center
- S Marshall space flight center, ala.
- George Washington univ., washington, d.c.
- Remarks given to john logstone space policy class, george washington university [NASA RELEASE-93-198] P93-10199 06

GERMAN SATELLITES
- S Rosat / german satellite

GERMAN SPACE AGENCY
- Second german space lab mission is space shuttle’s 54th flight [NASA RELEASE-93-20] P93-10021 06
- International mars exploration group formed [NASA RELEASE-93-67] P93-10088 06
- NASA and german space agency sign space agreement [NASA RELEASE-93-129] P93-10130 06

GETAWAY SPECIALS
- Prime and backup cosmonauts named for shuttle sts-60 mission
- [NASA RELEASE-93-61] P93-10062 06
- First spacelab flight highlights sts-57 shuttle mission
- [NASA RELEASE-93-78] P93-10079 06

GINGA SATELLITE
- Mystery of ‘fastest flickering’ galaxy solved
- [NASA RELEASE-93-192] P93-10193 06

GIS/INFORMATION SYSTEMS
- S geographic information systems

GLASS
- Jpl team develops special pollution detection glass
- [NASA RELEASE-93-20] P93-10210 06

GLOBAL CHANGE PROGRAM
- NASA awards contract for eodsis core system
- [NASA RELEASE-93-56] P93-10057 06

GLOBAL POSITIONING SYSTEM
- Flight tests prove simpler satellite-guided autoland method

Typical Personal Names Index Listing

The title of the news release or speech appears under every name mentioned in each, whether or not the individual was an author or a speaker. In the case of a speech where the name refers to the actual speaker, this is indicated with a + to the left of the title. The accession number is included at the bottom left of the entry, followed by a two-digit number (05 or 06) identifying the index section where the complete citation appears. In the case of a news release, this number is included at the bottom left of the entry.

ABBASCHIAN, REZA
FIRST SPACEHAB FLIGHT HIGHLIGHTS STS-57 SHUTTLE MISSION
[NASA RELEASE-93-78] P93-10079 06

ABBE, BRIAN
ACTS DEPLOYMENT HIGHLIGHTS STS-51 MISSION
[NASA RELEASE-93-121] P93-10122 06

ABBOT, KATHY
GOLDIN CALLS FOR IMPROVED TECHNOLOGY TRANSFER TO INDUSTRY
[NASA RELEASE-93-9] P93-10010 06

ACOSTA, ROBERTO

This index correlates each accession number with its corresponding news release number, if assigned. The accession number is followed by a two-digit number (05 or 06) identifying the index section where the complete citation appears. The statement NO REPORT NUMBER appears for unnumbered news releases and speeches.
