The NASA STI Office: In Profile

Since its founding, NASA has been dedicated to the advancement of aerospace and space science. The NASA Scientific and Technical Information (STI) Office plays a key part in helping NASA accomplish its mission.

The NASA STI Office provides access to the NASA database, the largest collection of aerospace related information in the world. The Office assists NASA establishments in determining the relevance of the information in research and development activities.

Specialized databases and search software are available to STI Office users. These databases include:
- Technical reports
- Conference proceedings
- Research papers
- Patents
- Standards
- Technical manuals
- Books

Index to NASA
News Releases
1995

NASA TM-111674
May 1996

An index to selected news releases
issued by NASA Headquarters during 1995.
INTRODUCTION

This issue of the Index to NASA News Releases contains a listing of news releases distributed by the Office of Public Affairs, NASA Headquarters, during 1995. This index supplements the previous issues that were identified as Index to NASA News Releases and Speeches 1963-1966, and the supplements for 1967 through 1994.

The index is arranged in six sections—Subject Index, Personal Names Index, News Release Number Index, Accession Number Index, Speeches (see notes below), and News Releases.

Section 1, Subject Index, contains subject headings arranged alphabetically that describe the contents of the items indexed. Under each heading the user will find applicable references to news releases and speeches containing information on that subject entry and, in many cases, cross-references to related subject headings. Each entry contains the title, accession number, news release number, and reference section, such as 06 for Section 6, News Releases.

Two types of cross-references are used:
   S for ‘SEE’ directs the user to a subject heading where references can be found—
       COMSAT
       S COMMUNICATIONS SATELLITE CORP.
   SA for ‘SEE ALSO’ directs the user to related subject headings where additional references may be found—
       COMMUNICATION SATELLITES
       SA TELESAT SATELLITES

Section 2, Personal Names Index, contains personal names arranged alphabetically that identify the persons mentioned in the indexed items. Each entry contains the title, accession number, news release number, and the reference section.

Section 3, New Release Number Index, lists all numbered NASA News Releases arranged in news release number order, with the corresponding accession and reference numbers.

Section 4, Accession Number Index, lists all items indexed in this publication arranged in accession number order. Each entry contains the reference section and the corresponding news release number.

Section 5, Speeches. Listing of speeches has been discontinued.

Section 6, News Releases, lists the news releases, press briefings, news conference transcripts, and other public information releases indexed in this publication, arranged in accession number order. Each news release reference contains the title, date of release, news release number, if any, and other reference information.

Copies of documents listed in this index are available to NASA offices on request from the NASA Center for AeroSpace Information (CASI), 800 Elkridge Landing Road, Linthicum Heights, MD 21090-2934. Requests for copies of the index itself should also be addressed to CASI via letter, e-mail (help@sti.nasa.gov), fax (301-621-0134), or telephone (301-621-0390).

The title of the news release is used as the prime retrieval point. The accession number is located at the bottom right of the entry, followed by a two-digit number (06) identifying the index section where a more detailed citation appears. If available, the news release number is also included.

### Important Notice

The $1.50 domestic and $9.00 foreign shipping and handling fee currently being charged will remain the same. Foreign airmail is $27.00 for the first 1-3 items, $9.00 for each additional item. Additionally, a new processing fee of $2.00 per each video ordered will be assessed.

For users registered at the NASA CASI, document orders may be invoiced at the end of the month, charged against a deposit account, or paid by check or credit card. NASA CASI accepts American Express, Diners’ Club, MasterCard, and VISA credit cards. There are no shipping and handling charges. To register at the NASA CASI, please request a registration form through the NASA Access Help Desk at the numbers or addresses below.

### Return Policy

The NASA Center for AeroSpace Information will gladly replace or make full refund on items you have requested if we have made an error in your order, if the item is defective, or if it was received in damaged condition and you contact us within 30 days of your original request. Just contact our NASA Access Help Desk at the numbers or addresses listed below.
