NASA Langley Scientific and Technical Information Output—2001

Susan H. Stewart, Compiler
Langley Research Center, Hampton, Virginia

March 2002
Since its founding, NASA has been dedicated to the advancement of aeronautics and space science. The NASA Scientific and Technical Information (STI) Program Office plays a key part in helping NASA maintain this important role.

The NASA STI Program Office is operated by Langley Research Center, the lead center for NASA's scientific and technical information. The NASA STI Program Office provides access to the NASA STI Database, the largest collection of aeronautical and space science STI in the world. The Program Office is also NASA's institutional mechanism for disseminating the results of its research and development activities. These results are published by NASA in the NASA STI Report Series, which includes the following report types:

• TECHNICAL PUBLICATION. Reports of completed research or a major significant phase of research that present the results of NASA programs and include extensive data or theoretical analysis. Includes compilations of significant scientific and technical data and information deemed to be of continuing reference value. NASA counterpart of peer-reviewed formal professional papers, but having less stringent limitations on manuscript length and extent of graphic presentations.

• TECHNICAL MEMORANDUM. Scientific and technical findings that are preliminary or of specialized interest, e.g., quick release reports, working papers, and bibliographies that contain minimal annotation. Does not contain extensive analysis.

• CONTRACTOR REPORT. Scientific and technical findings by NASA-sponsored contractors and grantees.

• CONFERENCE PUBLICATION. Collected papers from scientific and technical conferences, symposia, seminars, or other meetings sponsored or co-sponsored by NASA.

• SPECIAL PUBLICATION. Scientific, technical, or historical information from NASA programs, projects, and missions, often concerned with subjects having substantial public interest.

• TECHNICAL TRANSATION. English-language translations of foreign scientific and technical material pertinent to NASA's mission.

Specialized services that complement the STI Program Office's diverse offerings include creating custom thesauri, building customized databases, organizing and publishing research results . . . even providing videos.

For more information about the NASA STI Program Office, see the following:

• Access the NASA STI Program Home Page at http://www.sti.nasa.gov

• Email your question via the Internet to help@sti.nasa.gov

• Fax your question to the NASA STI Help Desk at (301) 621-0134

• Telephone the NASA STI Help Desk at (301) 621-0390

• Write to:

Preface

This report contains a listing of the NASA Langley Research Center’s publicly available scientific and technical research output for C.Y. 2001.

The intent of this report is to provide a greater awareness of the broad scope of results and the importance of the research and development work conducted by scientists and engineers at Langley. This current awareness is mandated by the National Aeronautics and Space Act of 1958, which provides for the widest practical dissemination of NASA research.

Introduction

The NASA Langley Research Center is one of the Nation’s leading laboratories for research and development in the sciences of aeronautics and space technology. Langley conducts basic and applied research in the areas of aerospace systems, concepts, and analysis, aerodynamics, aerothermodynamics, and acoustics, structures and materials, airborne systems, atmospheric sciences, and systems engineering.

This document contains a bibliography of Langley’s publicly available scientific and technical research output for 2001 which is processed through the Center’s Office of the Chief Information Officer to become an integral part of NASA’s Agency-wide Scientific and Technical Information (STI) system. The results of Langley’s research are disseminated in a variety of NASA and non-NASA scientific and technical media and information systems. This document is intended to be a reference summary for researchers and a current awareness publication for the scientific, research, and academic community. Details of the availability of the research references in this document are found in the section, “Availability,” on page vii.

The citations are grouped by the Scientific and Technical Aerospace Reports (STAR) subject categories and listed alphabetically by author or innovator. The Langley organization to which the senior author or innovator is assigned and the Program Number are noted below citations when appropriate and included in the indexes.

Patents listed are those which were issued in 2001 and owned by Langley Research Center.

Publication of some journal articles was not known at press time for the 2000 issue of this document. These articles are therefore listed in the 2001 issue.

Organization Index

Office of Director (A)

Wind Tunnel Facility Group Office (AI)
141, 220

Space Access and Exploration Program Office (OC)
13, 62, 168, 203, 204, 205, 206, 207, 417, 887

Aerospace Vehicle Systems Technology Office (OD)
2, 3, 90, 91, 92, 214, 215, 216

Aero-Performing Center Program Management Office (OH)
12

Project Implementation Office (OK)
881

Aerospace Systems, Concepts and Analysis Competency (RA)
15, 23, 24, 49, 50, 60, 71, 93, 100, 153, 158, 162, 163, 183, 188, 189, 190, 233, 234, 236, 237, 238, 239, 242, 244, 247, 249, 399, 406, 566, 589, 740, 741, 742, 743, 744, 759, 790, 791, 891, 902

Aerodynamics, Aerothermodynamics and Acoustics Competency (RB)

Structures and Materials Competency (RC)
4, 14, 122, 123, 124, 125, 126, 128, 129, 132, 133, 134, 135, 136, 137, 138, 139, 140, 142, 143, 144, 145, 146, 148, 149, 150, 152, 159, 161, 164, 165, 166, 167, 170, 171, 172, 173,

**Airborne Systems Competency (RD)**

**Atmospheric Sciences Competency (RE)**

**Systems Engineering Competency (RF)**

**Office of Safety and Mission Assurance (SC)**

103
Office of Education (SH)
253, 868

Office of the Chief Information Officer (SL)
873, 879, 880
