A Bibliography of Aspect-Oriented Software Development, Version 1.0

Robert E. Filman, RIACS

RIACS Technical Report 02.06
August 2002

A bibliography of the literature related to Aspect-Oriented Software Development.

This work was supported in part by the National Aeronautics and Space Administration under Cooperative Agreement NCC 2-1006 with the Universities Space Research Association (USRA).

This report is available online at http://www.riacs.edu/trs/
A Bibliography of Aspect-Oriented Software Development
Version 1.0

Robert E. Filman
Research Institute for Advanced Computer Science
NASA Ames Research Center
Moffett Field, California

August 27, 2002

A bibliography of the literature related to Aspect-Oriented Programming.

My thanks to Karl Lieberherr and Mario S{"u}dholt for their contributions.

This is meant to be an evolving document. Please send additions, corrections, comments and disagreements to the author at rfilman@mail.arc.nasa.gov.
