Propellants and Life Support
SCAPE Suit and ECU Capability

National Space Symposium
Colorado Springs, Colorado
April 11-14, 2011
Purpose

- Demonstrate Propellant Handlers Ensemble (PHE) and Environmental Control Unit
- Promote effectiveness in protecting Propellant Technicians from IDLH environments related to propellant fueling operations
- Promote ISC Hypergol fueling support capabilities to Space Community
  - Actual fueling support
  - PHE – ECU Support to fueling operations by others

Background

- 27th National Space Symposium – Colorado Springs
  (http://www.nationalspacesymposium.org/)
  - April 11-14, 2011
- Purpose
  - International Forum on the Space Industry
    - trends, advances, policy, technologies
  - Attendees include
    - NASA, NOAA, AF Space Command, NGA, Lockheed Martin, Raytheon, SpaceX, Northrop Grumman, Romanian Space Agency, Arianespace (see NSS Attendees list: http://www.nationalspacesymposium.org)
National Space Symposium
Demonstration

- Demonstration
  - Propellant Handlers Ensemble (PHE) and Environmental Control Unit (ECU) technology and capability to be displayed at URS exhibit.

PHE with ECU

ECU

NOT EXPORT CONTROLLED
Document does not meet criteria for control under the International Traffic in Arms Regulations (ITAR) or Export Administration Regulations (EAR).
National Space Symposium
Demonstration and Logistics

Demonstration and Activity

- One PHE and ECU will be on display to solicit interest
- Each day 4/11-14/2011 URS Life Support Technician will suited in PHE with ECU and be fully self-contained from 1030 – 1130 and 1230-1330
  - A Life Support Supervisor and Engineer will be available to describe capability, solicit propellant loading work and answer questions.
  - There will be no technical documents available at the conference describing construction of either PHE or ECU

Logistics

- Four Life Support Personnel are proposed
  - Two Technicians, Supervisor and Manager
- Three PHE and three ECU will be sent from KSC to NSS Conference Center
- One 160 Liter Liquid Breathing Air Dewar will be shipped from KSC to NSS Conference Center
- ECU Loading
  - Will be performed at the NSS Conference Center in loading area by Life Support Technicians
  - Life Support Technicians will perform suiting and serve as backup
The following information would be provided in support of describing PHE capability

- Self contained atmospheric protective ensemble
  - Butyl covered Nomex
- For use in propellant fueling, transfer operations, spill response.
- Can operated in two modes
  - Mobile with ECU unattached to external air source
    - 2 hr capability
  - Attached to remote air source
    - > 2 hr capability user dependent
- Chemically resistant to Hydrazine (N2H4), MMH, UDMH and N2O4
- Available in seven sizes, user specific – interchangeable boots and gloves
- Specifications
  - 65 lbs (29.5 kg) with ECU
  - 22 lbs (10 kg) in airline mode
  - Positive internal pressure
- Operating environment
  - + 20° F to +110° F
  - Humidity 20% to 95% relative humidity
  - Altitude sea level to 6500 feet (14.7 psia to 11.8 psia)
The following information would be provided in support of describing Environmental Control Unit – ECU capability

- Self contained portable life support system
- Supplies
  - Conditioned breathing, ventilation, air conditioning, dehumidifying and suit pressurization to PHE
- Construction
  - 8.5 liter liquid air Dewar, build-up coil, build-up valve, pressure regulating valve, two relief valves, vent valve, flow selector valve with low, medium and high flow rates, heat exchanger, ejector assembly, pressure indicator and outlet flex hose.
  - Dewar holds 15 lb cryogenic air
  - Cryogenic liquid air is -320 F
- Operation
  - Vented air is warmed, expands and is distributed throughout the PHE
    - 60% flow distribution to the breathing zone
- Specifications
  - Operational time: 2 hours
  - Total service weight fully charged: 41 lbs
The public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Department of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports (0704-0188), 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. PLEASE DO NOT RETURN YOUR FORM TO THE ABOVE ADDRESS.

1. REPORT DATE (DD-MM-YYYY) 01/07/2011
2. REPORT TYPE Visual presentation of SCAPE Suit/ECU
3. DATES COVERED (From - To) 01/07/2011-05-30-2011

4. TITLE AND SUBTITLE National Space Symposium
   April 11-14, 2011
   Colorado Springs, Colorado

5a. CONTRACT NUMBER NNK08OC01C
5b. GRANT NUMBER
5c. PROGRAM ELEMENT NUMBER
5d. PROJECT NUMBER
5e. TASK NUMBER
5f. WORK UNIT NUMBER

6. AUTHOR(S) Andreas Goetzfried, URS Life Support

7. PERFORMING ORGANIZATION NAME(S) AND ADDRESS(ES)
   URS Life Support,
   KSC, FL 32899

8. PERFORMING ORGANIZATION REPORT NUMBER

9. SPONSORING/MONITORING AGENCY NAME(S) AND ADDRESS(ES)

10. SPONSOR/MONITOR'S ACRONYM(S)

11. SPONSOR/MONITOR'S REPORT NUMBER(S)

12. DISTRIBUTION/AVAILABILITY STATEMENT
    Visual demonstration of SCAPE SUIT/Environmental Control Unit

13. SUPPLEMENTARY NOTES
    No technical information will be provided by presenters.

14. ABSTRACT
    Technicians will be wearing the SCAPE Suit / ECU to generate interest in commercial opportunities.

15. SUBJECT TERMS

16. SECURITY CLASSIFICATION OF:
    a. REPORT
    b. ABSTRACT
    c. THIS PAGE

17. LIMITATION OF ABSTRACT
18. NUMBER OF PAGES

19a. NAME OF RESPONSIBLE PERSON
    Andreas Goetzfried

19b. TELEPHONE NUMBER (include area code)
    321-867-2002

Standard Form 298 (Rev. 8/98)
