Flight Operations Directorate

Flight Integration – Training Branch

JSC Crew Training Overview

CK2/Kathryn Bolt
CB/Reid Wiseman
October 2017

Public Release Statement: This document has been reviewed for proprietary, sensitive but unclassified (SBU), and export control (ITAR/EAR) and has been determined to be non-sensitive. It has been released to the public via the NASA Scientific and Technical Information (STI) process, DAA Tracking Number 48551.
3 Phase Spaceflight Training Concept

Flight Controller & Astronaut Training Curriculum

Content
- Vehicle systems
- Displays & Controls
- Operational Concepts
- Basic procedures

Media
- Classroom lessons
- Training manuals
- Computer and Web Based Training
- Part-task training

Content
- Skills-based Training
- Nominal Operations
- Malfunctions
- System Interaction

Media
- Part-task training
- Full fidelity simulation training
- Standalone Simulations
- Mockups

Content
- Team Training
- Flight specific training
- Nominal and malfunctions

Media
- Full fidelity simulation training
- Standalone Simulations
- Integrated simulations
- Mockups
Crew Training Approach

- The amount and depth of the Crew training is based on their assigned qualification level
- User
  - Utilize systems to safely live on ISS
- Operator
  - Nominal and maintenance tasks
  - Off-nominal with immediate safing
  - All User tasks
- Specialist
  - Off-nominal tasks with ground help
  - All Operator tasks
Training Facility Selection

- Classroom, CBT
- Single System Part Task Training
- Flight Controller Part Task Trainers
- Systems Engineering Simulator (Rndz, Prox, Ops, Robo)
- Virtual Reality Lab (Robo/EVA)
- Dynamic Skills Trainer (Robotics)
- Space Station Training Facility (SSTF)
- Mockup Facilities (SVMF)
- NBL (EVA, Robo)

Fidelity

Cost to Operate

Objectives/Complexity/Training Team Size
Part Task Trainers

- PTT – Part Task Trainer
  - Single System nominal and off nominal instruction
  - Procedure execution and display navigation skills
- FCPTT – Flight Controller Part Task Trainer
  - Multi-system, Integrated scenario training
  - Team coordination and communication in ‘mini-flight control room’
Space Station Training Facility

- Full scale, multi-system integrated scenarios
- Simulated crew and crew station mockups
- Full team coordination and communication in training Flight Control Rooms (FCRs)
Space Vehicle Mockup Facility

- Full scale ISS mockups
- Routine Ops / Day in the Life training
- Emergency response scenarios
- Payload racks and hardware training
Neutral Buoyancy Lab

- Full scale ISS mockups / Truss segments
- Extra-vehicular Activity (EVA) Training
- Commercial Crew / Orion recovery
Medical / Physical Training
