Cross-Cultural Competencies for the NASA International Internship Project

Elizabeth M. Niedbala, Texas Tech University | Jessica Feinberg, Smith College
Mentor: Kriststina Wilmoth, Office of the Center Director, NASA Ames Research Center

Confidence in one’s language ability
- Skill that facilitates international and intercultural engagement
- Stems from both stable individual traits and behaviors and habits that can be strengthened over time
- Critical for workplaces and projects that include multinational and multicultural employees, such as NASA I² project

Cultural sharing
- Reflection on past language success
- Multicultural nights and activities
- Comparing variation within a shared experience
- Presentations by multinational NASA employees
- Scavenger hunts in a grocery store & downtown
- Happy hour events
- Team building & bonding activities

Positive models of engagement
- Continue research on specific competencies
- Develop a logical schedule of activities
- Deploy schedule for the Fall 2017 NASA I² cohort
- Create qualitative and quantitative tests to determine project success

Awareness of one’s own culture
- Different cultures emphasize different things, so creating an inclusive international environment will facilitate creativity and problem-solving
- More diverse teams will dream up a greater range of possibilities & create better missions

ACTIVITIES

Future steps
- Dr. Erika Rodriguez, for her vision in bringing Smith College students to NASA ARC
- Commander Leedjia Svec, for her unending patience, advice, and guidance
